WAR EAGLE MAKES A FIVE POINT SWOOP.

MARKET TAME.

CANADIAN PACIFIC STEADY

MONTREAL COTTON ADVANCES.

Market is very inactive, outside of War Eagle scarcely anything doing, and this in the face of a boiling market in New York. The bid prices at the close of the session were decidedly firm and in some issues very strong.

CANADIAN PACIFIC.

The report of the Interstate Com. will The report of the Interstate Com. will not be ready to present to the scattered members of the commission for some time yet. The testimony taken covers 1000 pages. The most the commission can do in the matter is to recommend to Congress such legislation as will remedy the evils complained of. Reports of an early settlement of the questions at issue are current, the price of the stock, however, considering the great strength of international shares, does not point to peace.

WAR EAGLE.

A comparatively small business was done in this stock, the decline was steady, realizing sales the cause. Five or ten points in this stock amounts to little. The news from the mine warrants much higher quotations.

COTTONS.

The ups and downs of these stocks are as The ups and downs of these stocks are as uncertain as the yarns spun concerning the management of the mills and state of the trade. Of late there is no doubt of their strength, both Dominion and Montreal are being steadily bought, the latter seeming to be growing in the confidence of the public. Fifty shares sold at 152\(^4_4\), and none offered at the close under 154.

NEW YORK EXCHANGE.

BURLINGTON INCREASES ITS DIVIDEND.

ALL GRANGERS ADVANCE.

SUGAR ENTERS THE BULL LIST BUT BREAKS WITH OTHERS.

TOBACCO SELLS UP TO 145 DROPS TO 135 CLOSES AT 140½.

New York, Aug. 17.

Stocks, as soon as Burlington announced stocks, as soon as burning on annotated its dividend, became very strong, orders were received from all sources; the bulls took advantage of the excitement to unload. Sugar was used as a lever, after Tobacco had served its best. The former diverged to [42] and the latter to [45] it. advanced to 142¼ and the latter to 145, it did not seem possible to keep Sugar strong and as to Tobacco it flopped down 10 points in no time, it recovered to 142 and closed

By consulting the tables many records for high prices for years will be seen. Liquidation must have been large but the situation remains strong.

MORNING OPINION.

New York, Aug. 17.

Much importance is attached in some of the highest banking circles, to the various advices from the West yestervarious advices from the West yesterday, pointing a general movement to bring about a restoration of freight and passenger rates by the railroads. It was even intimated that the Eastern Trunk line situation would scon be taken in hand with a determination to effect a change of some kind in the methods of government of the road, which make the executive officers unable to control the rate-making departments. ments.

A few mills per ton per mile added to the freight rates by our railroads, dur-ing the past year of rate depression, would place even the weaker lines on the high road to prosperity in a short

From hints that have been dropped within a day or two, it seems protable that rate matters on the North Western lines, to the Pacific coast, will be fixed up sooner than most interested parties believed. It is now evident that the executive officers of the transcontinental lines propose to lock very thoroughly into the cutting of freight rates in competition with the foreign road. Next week may bring some important results.

LONDON MARKET.

Early cables from London say that the market there has not responded properly to the more amicable condition of the relations between England and Russia.

The market for Americans, however, continues unusually active at, or around, a parity with the New York close.

London's operations yesterday our market were i usually large. On the balance they soll a few stocks.

London houses last night were borrowers of Louisville, Nashville & St. Paul. They probably sold these stocks to arrive from the other side to-day. Interest in St. Paul is said to be less in Londn than in any other of the internationally listed stocks. Speculators there seem to think that for the present St. Paul has been active enough, and has had a large enough advance.

New York, Noon, Aug. 17

Although quotations from London, as given by the official tape, were higher than our close, cables received showed a declining tendency in the American market, consequently Arbitrage Houses were inclined to sell during the first half hour, when the large Commission Houses buying in

our market caused an advance.

Some liquidation then made its appearance, notably in St. Paul, and the story became current that there was no possibility of an advance in the dividend of the Burlington & Quincy

Traders became bearish and hammered the market, It looked as if they were going to make a successful raid, when the news suddenly came that the B. Q. directors had declared a

Curious enough, but little attention

has been paid to the excellent showing made by the St. Paul road, for the 2nd week in August. The Room is inclined to believe that the St. Paul directors will follow the example of the Burling. ton and Quincy directors, and will, at their meeting next month, declare a semi-annual dividend of 3 per cent.

WESTERN UNION.

Brokers in Western Union say there has been a steady marketing of stock, since the Bull market began. It has been quiet, but considerable in the aggregate has been sold.

Yesterday the tactics were changed, in the sense that the stock was quick-ly advanced, and then supplied in the
