The House having met;

PRAYERS.

A Message was received from His Excellency the Governor General, desiring the immediate attendance of The House in the Senate Chamber:—

The House attended accordingly; and being returned,

Mr. Speaker informed The House that he had received from the Judges selected for the trial of Election Petitions, pursuant to "The Dominion Controverted Elections Act, 1874," Certificates relating to the Elections:

For the Electoral Districts of Albert, Lunenburg and Kent, (Ontario);

And the same were read as follows:-

ALBERT CONTROVERTED ELECTION.

In the Supreme Court of New Brunswick.

THE DOMINION CONTROVERTED ELECTIONS ACT, 1874.

In an Election Petition complaining of the undue election and return of John Wallace at the election for the Electoral District of the County of Albert, in the Province of New Brunswick, holden on the twentieth day of June, A.D., 1882, in which Petition Alexander Rogers was Petitioner and John Wallace was Respondent.

To the Speaker of the House of Commons, and to the Clerk of the House of Commons (or other officer for the time being performing the duties of such Clerk):—

This Election Petition was tried before me, one of the Judges of the Supreme Court of New Brunswick, at Hopewell, in the County of Albert, on the fourth day of January, A.D., 1883, and on different days between that date and the second day of May, A.D., 1883, and I do hereby certify that at the conclusion of the trial on the last named day I determined that the said election and the return of the said John Wallace were void, and I append hereto a copy of the notes of the evidence.

I have also to report that no corrupt practice was proved to have been committed by or with the knowledge and consent of any candidate at the election, and that there is no reason to believe that corrupt practices extensively prevailed at the said election.

Dated this sixth day of June, A.D., 1883.

G. E. KING, J. S. C.

LUNENBURG CONTROVERTED ELECTION.

To the Honourable,

The Speaker of the House of Commons, Ottawa.

Halifax, Nova Scotia, 15th August, 1883.

SIR,

A Petition under "The Dominion Controverted Elections Act, 1874," complaining of the return and election of Thomas Twining Keefler for the Electoral District of the County of Lunenburg, in this Province, on the twentieth day of June, A.D., 1882, and claiming the seat for the petitioner Charles Edwin Kaulbach, having been duly presented was heard before me, and at the conclusion of the trial, on Monday the sixth day of August instant, I determined that the said election was void, in consequence of the irregularities of the Deputy Returning Officers in polling sections seven and thirteen.

And I now certify my determination to you according to the Statute, and

append hereto a copy of the notes of the evidence.

And whereas charges were made of corrupt practices having been committed at the said election, I in further pursuance of the said Act, report as follows:—

That no corrupt practices were proved to have been committed by or with the

knowledge or consent of any candidate at such election.

That the only person proved to have been guilty of any corrupt practice was Henry Jost, the younger, of Lunenburg, in such Electoral District, who was proved to have offered to a voter, one Joshua Knichle, the sum of four dollars to vote for the Petitioner, but the offer was not accepted.

I have no reason to believe that corrupt practices have extensively prevailed at

the election to which the Petition relates.

I have the honour to be, Sir,

Your obedient servant,

SAMUEL RIGBY,

One of the Judges of the Supreme Court of Nova Scotia.

KENT, ONTARIO, CONTROVERTED ELECTION.

SIR,

In re Kent Election,

JAMES SAMSON,

Petitioner,

and

HENRY SMYTH,

Respondent.

I have the honour to report, that on the trial of this election,-

I find that the said *Henry Smyth* was not duly elected, and that the election is void. I find that the ground for the above decision is, that corrupt practice was proved against one *Edward J. Roach*, who was an agent of the Respondent.

I find that there was no evidence of corrupt practice on the part of the Res-

I beg to report that, in my opinion, no further inquiry, as to whether corrupt practices have extensively prevailed, is necessary.

County of Halifax;

Sir John A. Macdonald introduced a Bill No. 1 respecting the administration of Oaths of Office; which was read the first time.

Mr. Speaker reported His Excellency's Speech from the Throne, and read a copy thereof to The House, which is as follows:-

Honorable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In fulfilment of the important trust committed to me by Her Majesty, I have recourse for the first time to your advice and assistance. It is a source of the deepest personal satisfaction to me, that I should have been called by Her Majesty to an office in which, as Her Representative, I am enabled to take a part in the public affairs of the Dominion, and to associate myself with you in the performance of the honourable duties which you are about to approach.

I rejoice to learn that although the last harvest has been less productive than its predecessors, and although there are indications that the rapid expansion of your commerce has to some extent been followed by over-trading, the general condition of the Dominion is such as to justify me in congratulating you upon its

prosperity:

The marked success attained by Canada at the International Fishery Exhibition in London, must be very gratifying to you, and has, I doubt not, been of great service in showing to the world the wealth of our fisheries and the extent of our marine industries and resources.

The Commissioners appointed by my predecessor for the purpose of consolidating the Statutes affecting the Dominion, have pursued their task with diligence, and I am enabled to lay before you for examination about sixty chapters of the proposed consolidation. The remainder of the work will be prepared, and the whole of it revised during the present year, so that the final report will be ready at your next session for your approval.

The number of immigrants to Canada during the past season has, I am glad to say, been greater than in any previous year, and is a proof that the better Canada is

known the more it is valued by those seeking a home in the new world.

Arrangements are in progress to diminish the cost of inland transport, and I have reason to believe that the result will be a steady increase of valuable settlers, in the future.

During the recess negotiations were resumed with British Columbia in regard to several matters upon which differences had for some time existed between the two Governments. One of my Ministers visited that Province last summer on a special mission with a view to the adjustment of all questions in controversy, and his efforts have happily been successful. Should your sanction be given to the arrangements then made all occasions of dispute will have been removed, and the most cordial relations established between the Dominion and Provincial Governments. The papers will be laid before you and your consideration invited to measures enabling me to give effect to the agreement.

The rapid increase of population in the North-West renders some amendments in the North-West Territories Act expedient, and your attention will be called to this

important matter.

The progress of the Indians in Manitoba and the North-West during last year has been on the whole satisfactory. The Bands included in the several Indian Treaties have for the most part betaken themselves to their reserves. A Bill for the further promotion of their interests will be submitted to you, as well as a measure applicable to the whole Dominion for the purpose of encouraging the more advanced Indian communities to assume the responsibilities of self-government.

The Bill laid before you last Session for the representation of the people in Parliament and the assimilation of the electoral franchises existing in the several Provinces has now been before the Country for a year. The measure will be re-intro-

duced and I commend it to your attention.

I would also urge upon you the expediency of providing for the regulation of factory labour and the protection of the workingman and his family. The measure

submitted last Session with some amendments, will be laid before you.

The rapid progress of the Canadian Pacific Railway has been maintained throughout the past year. Of the two thousand eight hundred and thirty-three miles of the main line between Pembroke and Port Moody, one thousand seven hundred and thirty-eight miles are now constructed, rendering practicable the completion of that great work within the next two years. Although the time within which the Railway Company is bound to finish the road will not expire until 1891, my Government has thought it of the greatest importance for the settlement of the North-West and the development of our trade that its completion from sea to sea should be hastened and the company enabled to open the line throughout by the spring of 1836. With this view, and in order to aid the Company in procuring sufficient capital for the purpose by the disposal of its unsold shares, the Government agreed to receive a deposit of money and securities sufficient to pay a minimum three per cent. dividend for ten years on sixty-five millions of the stock. That arrangement was made on the belief that it would give steadiness and increased value to the shares on the market. A combination of unfavobrable circumstances has prevented the fulfilment of these expectations, and the Company has not been able to obtain the

required capital by a sale of its stock. The best means of preventing any delay in the great object of the early completion of the railway demands your earnest consideration.

I am pleased to be able to state that the operation of that portion of the railway already opened, affords the most gratifying evidence of its soundness as a commercial

enterprise and of its great value to Canada.

The large increase of the volume of traffic on the Intercolonial Railway over that of any previous year, without involving any burden upon the country, is a satisfactory proof of the continued development of trade between the eastern and western portions of the Dominion.

A provisional arrangement made with the Government of Nova Scotia for the retention of the Pictou Branch and the acquisition of the Eastern Extension Railway

to the Strait of Canso will be submitted for your approval.

Gentlemen of the House of Commons:

The accounts for the past year will be laid before you. You will find that the expenditure has been considerably less and the receipts larger than the estimates, the surplus exceeding that of any previous year. The revenue of the first half of the current year, notwithstanding the large importations of last season, have been such that we may reasonably expect that the estimates for the year will be fairly maintained.

The estimates for the ensuing year will also be submitted to you. They will,

I trust, be found to have been prepared with due regard to economy.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

I feel assured that you will devote yourselves with earnestness and assiduity to the consideration of the subjects I have mentioned, and to all matters affecting the public interests that may be brought before you.

On motion of Sir John A. Macdonald, His Excellency's Speech was ordered to be taken into consideration to-morrow.

Resolved,—That Select Standing Committees of this House, for the present Session, be appointed for the following purposes:—1. On Privileges and Elections.—2. On Expiring Laws.—3. On Railways, Canals and Telegraph Lines.—4. On Miscellaneous Private Bills.—5. On Standing Orders.—6. On Printing.—7. On Public Accounts.—8. On Banking and Commerce.—9. On Immigration and Colonization,—which said Committees shall severally be empowered to examine and inquire into all such matters and things as may be referred to them by The House; and to report from time to time their observations and opinions thereon; with power to send for persons, papers and records.

Mr. Speaker also laid before The House, the Report of the Librarian of Parlia-

ment, on the state of the Library of Parliament, which is as follows :-

TO THE HONOURABLE THE HOUSE OF COMMONS OF CANADA, IN PARLIAMENT ASSEMBLED.

The Report of the Librarian, on the state of the Library of Parliament, respect-

fully sheweth :-

By the liberality of Parliament, at its last Session, the annual grant for the augmentation of the Library, was considerably increased. This additional provision was voted upon the advice of the Library Committee, who were desirous of seeing our great National Collection enlarged and improved—their main object being to secure the perfecting of the scientific section, and the completion of the classes appertaining to American and Canadian history.

Bearing in mind the impetus that has been given of late, in Canada, to scientific studies, and the consequent necessity for providing students of science in the

Dominion with access to the kindred researches of learned societies elsewhere, we have endeavoured to complete our existing series of transactions of scientific associations, and of periodicals devoted to particular branches of knowledge,—adding thereto similar publications, not already on our shelves,—with a view to an adequate representation of all departments of mental inquiry, in the Libary of Parliament.

Upon application to our London Agent, I learned that collections of this description, which are seldom reprinted, were now exceedingly scarce, and not easily obtainable in a complete shape at the present time. Every year, this difficulty would naturally become more serious; and in some instances insurmountable. I therefore ventured to assume the responsibility of completing most of such Collections without further delay, lest we should be unable to procure these important acquisitions at a later period. This has unavoidably occasioned a large expenditure on this behalf within the past year.

In compliance with the expressed wishes of the Committee, I have likewise bought a number of Miscellaneous Books; some of which have been on the Order List for two or three years, waiting until an opportunity offered to procure them. In such purchases, special attention has been bestowed upon works in relation to

Canada, and other parts of the North American Continent.

Abundant facility for shelving these additions has been afforded through the liberty given by the Board of Works to make use of space in the Reading Room of the House of Commons; where several thousand volumes can be securely stored, under lock and key. Such classes only, are thus placed as are not in frequent de-

mand, leaving space in the main Library available for current literature.

Authority was given, by Parliament, last Session, for the purchase, from Mr. Gerald Hart, of Montreal, of his valuable and unique Collection of Canadian Coins and Medals. This series has accordingly been deposited in the Library. For the purpose of economizing room, these Coins and Medals have been arranged in covered glass receptacles, which do not encroach upon the limited space of the Library apartment, or interfere with present opportunities for the comfort or accommodation of readers. Similarly, provision has been made for the safe custody and exhibition of a complete Collection of Postal Cards and Stamps, which represent the postal apparatus in use throughout the entire British Empire; a collection which will prove of peculiar interest to students of philately. These Stamps are being now prepared for deposit under glass, to range with the Coins and Medals above mentioned.

The various additions to the Library during the past year are included in a Supplementary Catalogue, which is ready for distribution. In the compilation of this Catalogue, some improvement has been attempted, by the separation of additions to the series of Pamphlets from that of the titles of separate Books. Such titles, however, are unavoidably brief, and afford small indication of the contents or value of the

works referred to; save only to those who are already conversant with them.

Appended to this Report, there is a List of Donations received, since the last return, and of Canadian Works, deposited under the Copyright Act.

The number of volumes in the Library, last year, was estimated at 104,000. Since then, the total number has increased to about 107,500.

All which is respectfully submitted.

ALPHEUS TODD,

Librarian of Parliament

LIBRARY OF PARLIAMENT, 17th January, 1884.

(For the Appendix to this Report, see Sessional Papers, No. 17.)

The House then adjourned.

GEORGE A. KIRKPATRICK,

Speaker.

VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

OTTAWA, FRIDAY, 18TH JANUARY, 1884.

PRAYERS.

Three Petitions were brought up, and laid on the Table.

The House proceeded to the consideration of His Excellency's Speech at the opening of the Session.

Mr. Macmaster moved, seconded by Mr. Belleau,

1. That an humble Address be presented to His Excellency the Governor-General, to thank His Excellency for his gracious Speech at the opening of the present Session, and further to assure His Excellency:—that we receive with great pleasure His Excellency's kind assurance that in having recourse for the first time to our advice and asssistance, in fulfilment of the important trust committed to him by Her Majesty, it is a source of the deepest personal satisfaction to him that he should have been called by Her Majesty to an office in which, as Her Representative, he is enabled to take a part in the public affairs of the Dominion, and to associate himself with us in the performance of the honourable duties which we are about to approach.

2. That we rejoice to know that although the last harvest has been less productive than its predecessors, and although there are indications that the rapid expansion of our commerce has to some extent been followed by over-trading, His Excellency feels that the general condition of the Dominion is such as to justify him in congratu-

lating us upon its prosperity.

3. That the marked success attained by Canada at the International Fishery Exhibition in London is very gratifying to us, and has, we doubt not, been of great service in showing to the world the wealth of our fisheries and the extent of our marine

industries and resources.

4. That we are glad to learn that the Commissioners appointed by His Excellency's predecessor for the purposes of consolidating the Statutes affecting the Dominion, have pursued their task with diligence; that His Excellency is enabled to lay before us for examination about sixty Chapters of the proposed consolidation, and that the remainder of the work will be prepared and the whole of it revised during the present year, so that the final Report will be ready at our next Session for our approval.

5. That it affords us much satisfaction to be informed that the number of immigrants to Canada during the past season has been greater than in any previous year; that we agree with His Excellency that this is a proof that the better Canada is known the more it is valued by those seeking a home in the new world; and that we trust the result of the arrangements which he informs us are in progress to diminish the cost of inland transport, will be a steady increase of valuable settlers in

6. That we thank His Excellency for informing us that, during the recess negotiations were resumed with British Columbia in regard to several matters upon which differences had for some time existed between the two Governments; that one of His Excellency's Ministers visited that Province last summer on a special mission, with a view to the adjustment of all questions in controversy, and that his efforts have happily been successful; that we trust that we shall be able to sanction the arrangements then made, and that by our so doing, all occasions of dispute will have been removed, and the most cordial relations established between the Dominion and Provincial Governments; and that any papers laid before us and any measures for enabling His Excellency to give effect to the agreement, will receive our earnest consideration.

7. That we feel that the rapid increase of population in the North-West may render some amendments in the North-West Territories Act expedient, and that our atten-

tion shall be willingly given to this important matter.

8. That we learn with pleasure that the progress of the Indians in Manitoba and the North-West during last year has been on the whole satisfactory, and that the Bands included in the several Indian Treaties have for the most part betaken themselves to their reserves; and that any Bill for the further promotion of their interests which may be submitted to us, as well as any measure applicable to the whole Dominion for the purpose of encouraging the more advanced Indian communities to assume the responsibilities of self-government, will be willingly considered.

9. That the Bill laid before us last Session for the representation of the people in Parliament and the assimilation of the electoral franchises existing in the several Provinces, which has now been before the country for a year, will, when re-intro-

duced, receive the attention to which His Excellency commends it.

10. That we are fully aware of the expediency of providing for the regulation of factory labour and the protection of the workingman and his family, and that we are glad to know that the measure submitted last Session, with some amendments, will be laid before us.

11. That we learn with great interest, that the rapid progress of the Canadian Pacific Railway has been maintained throughout the past year, that of the two thousand eight hundred and thirty-three miles of the main line between Pembroke and Port Moody, one thousand seven hundred and thirty-eight miles are now constructed, rendering practicable the completion of that great work within the next two years, and that although the time within which the Railway Company is bound to finish the road will not expire until 1891, His Excellency's Government has thought it of the greatest importance for the settlement of the North-West and the development of our trade, that its completion from sea to sea should be hastened and the Company

enabled to open the line throughout by the spring of 1886.

13. That we share the pleasure expressed by His Excellency in being able to state, that the operation of that portion of the Railway already opened, affords the most gratifying evidence of its soundness as a commercial enterprise and of its great value

to Canada.

14. That we think, with His Excellency, that the large increase of the volume of traffic on the Intercolonial Railway over that of any previous year, without involving any burden upon the country, is a satisfactory proof of the continued development of trade between the eastern and western portions of the Dominion.

15. That we shall willingly consider the provisional arrangement made with the Government of Nova Scotia for the retention of the Pictou Branch and the acquisition of the Eastern Extension Railway to the Strait of Canso, which, His Excellency

is pleased to say, will be submitted for our approval.

16. That we thank His Excellency for informing us that the accounts for the past year will be laid before us. That we shall be glad to find that the expenditure has been considerably less and the receipts larger than the Estimates, the surplus exceeding that of any previous year, and that the revenues of the first half of the current year, notwithstanding the large importations of last season, have been such that we may reasonably expect that the Estimates for the year will be fairly maintained.

17. That we shall respectfully consider the Estimates for the ensuing year to be submitted to us, and which will, we trust, be found to have been prepared with due

regard to economy.

18. That His Excellency may rest assured that we will devote ourselves with earnestness and assiduity to the consideration of the subjects he mentioned, and to all matters affecting the public interests that may be brought before us.

And paragraphs 1 to 18 inclusive, of the said proposed Address being severally read a second time, were agreed to.

On motion of Sir John A. Macdonald, the said Resolution was referred to a Select Committee, composed of Sir John A. Macdonald, Sir Leonard Tilley, Sir Hector Langevin, Sir Charles Tupper, and Messrs. Macmaster and Belleau.

Sir John A. Macdonald, from the said Committee, reported the draft of an Address, and the same being read a second time, was agreed to, and is as follows:-

To His Excellency the Most Honourable Henry Charles Keith Petty-Fitzmaurice, Marquis of Lansdowne, in the County of Somerset, Earl of Wycombe, of Chipping Wycombe, in the County of Bucks, Viscount Caln and Calnstone, in the County of Wilts, and Lord Wycombe, Baron of Chipping Wycombe, in the County of Bucks, in the Peerage of Great Britain; Earl of Shelburne, Viscount Clanmaurice and Fitzmaurice, Baron of Kerry, Lixnaw, and Dunkerron, in the Peerage of Ireland; Governor General of Canada, and Vice-Admiral of the same, &c., &c.

MAY IT PLEASE YOUR EXCELLENCY :-

We, Her Majesty's dutiful and loyal subjects the Commons of Canada in Parliament assembled, humbly thank Your Excellency for your gracious Speech at the

opening of the present Session.

We receive with great pleasure Your Excellency's kind assurance that in having recourse for the first time to our advice and assistance, in fulfilment of the important trust committed to you by Her Majesty, it is a source of deepest personal satisfaction to you that you should have been called by Her Majesty to an office in which, as Her Representative, you are enabled to take a part in the public affairs of the Dominion, and to associate yourself with us in the performance of the honourable duties which we are about to approach.

We rejoice to know that although the last harvest has been less productive than its predecessors, and although there are indications that the rapid expansion of our commerce has to some extent been followed by over-trading, Your Excellency feels that the general condition of the Dominion is such as to justify you in con-

gratulating us upon its prosperity.

The marked success attained by Canada at the International Fishery Exhibition in London is very gratifying to us, and has, we doubt not, been of great service in showing to the world the wealth of our fisheries and the extent of our marine indus-

We are glad to learn that the Commissioners appointed by Your Excellency's tries and resources. predecessors for the purposes of consolidating the Statutes effecting the Dominion, have pursued their task with diligence; that Your Excellency is enabled to lay before us for examination about sixty Chapters of the proposed consolidation, and that the remainder of the work will be prepared and the whole of it revised during the present year, so that the final Report will be ready at our next Session for our approval.

It affords us much satisfaction to be informed that the number of immigrants to Canada during the past season has been greater than in any previous year; that we agree with Your Excellency that this is a proof that the better Canada is known the more it is valued by those seeking a home in the new world; and that we trust the result of the arrangements which you inform us are in progress to diminish the cost of inland transport, will be a steady increase of valuable settlers in the future.

We thank Your Excellency for informing us that during the recess, negotiations were resumed with British Columbia in regard to several matters upon which differences had for some time existed between the two Governments; that one of Your Excellency's Ministers visited that Province last summer on a special mission, with a view to the adjustment of all questions in controversy, and that his efforts have happily been successful; that we trust that we shall be able to sanction the arrangements then made, and that by our so doing, all occasions of dispute will have been removed, and the most cordial relations established between the Dominion and Provincial Governments. Any papers laid before us and any measures for enabling Your Excellency to give effect to the agreement, will receive our earnest consideration.

We feel that the rapid increase of population in the North-West may render some amendments in the North-West Territories Act expedient, and that our attention

shall be willingly given to this important matter.

We learn with pleasure that the progress of the Indians in Manitoba and the North-West during last year has been on the whole satisfactory, and that the Bands included in the several Indian Treaties have for the most part betaken themselves to their reserves. Any Bill for the further promotion of their interest which may be submitted to us, as well as any measure applicable to the whole Dominion for the purpose of encouraging the more advanced Indian communities to assume the responsibilities of self-government, will be willingly considered.

The Bill laid before us last Session for the representation of the people in Parliament and the assimilation of the electoral franchises existing in the several Provinces, which has now been before the country for a year, will, when re-introduced, receive

the attention to which Your Excellency commends it.

We are fully aware of the expediency of providing for the regulation of factory labour and the protection of the workingman and his family, and we are glad to know that the measure submitted last Session, with some amendments, will be laid before us.

We learn with great interest, that the rapid progress of the Canadian Pacific Railway has been maintained throughout the past year, that of the two thousand eight hundred and thirty-three miles of the main line between Pembroke and Port Moody, one thousand seven hundred and thirty-eight miles are now constructed, rendering practicable the completion of that great work within the next two years, and that although the time within which the Railway Company is bound to finish the road will not expire until 1891, Your Excellency's Government has thought it of the greatest importance for the settlement of the North-West and the development of our trade, that its completion from sea to sea should be hastened and the Company

enabled to open the line throughout by the spring of 188%.

We thank Your Excellency for informing us, that with this view, and in order to aid the Company in procuring sufficient capital for the purpose, by the disposal of its unsold shares, the Government agreed to receive a deposit of money and securities sufficient to pay a minimum three per cent. dividend for ten years on sixty-five millions of the stock, that arrangement being made in the belief that it would give steadiness and increased value to the shares on the market, although a combination of unfavorable circumstances has prevented the fulfilment of these expectations, and the Company has not been able to obtain the required capital by a sale of its stock; and we feel that the best means of preventing any delay in the great object of the early completion of the Railway, demands our earnest consideration.

We share the pleasure expressed by Your Excellency in being able to state, that the operation of that portion of the Railway already opened, affords the most gratifying evidence of it soundness as a commercial enterprise and of its great value to Canada.

We think, with Your Excellency, that the large increase of the volume of traffic on the Intercolonial Railway over that of any previous year, without involving any burden upon the country, is a satisfactory proof of the continued development of trade between the eastern and western portions of the Dominion.

We shall willingly consider the provisional arrangement made with the Government of Nova Scotia for the retention of the Pictou Branch and the acquisition of the Eastern Extension Railway to the Strait of Canso, which, Your Excellency is

pleased to say, will be submitted for our approval.

We thank Your Excellency for informing us that the accounts for the past year will be laid before us. We shall be glad to find that the expenditure has been considerably less and the receipts larger than the Estimates, the surplus exceeding that of any previous year, and that the revenues of the first half of the current year, notwithstanding the large importations of last season, have been such that we may reasonably expect that the Estimates for the year will be fairly maintained.

We shall respectfully consider the Estimates for the ensuing year to be submitted to us, and which will, we trust, be found to have been prepared with due regard to

Your Excellency may rest assured that we will devote ourselves with earnestness and assiduity to the consideration of the subjects you have mentioned, and to all matters affecting the public interests that may be brought before us.

The said Address was then ordered to be engrossed, and to be presented to His Excellency the Governor-General by such Members of this House, as are of the Honourable the Privy Council.

On motion of Sir Leonard Tilley, it was Resolved, That this House will on Tuesday, next, resolve itself into a Committee to consider of a Supply to be granted to Her Majesty.

Sir John A. Macdonald - On Friday next—Committee of the Whole on, to take into consideration that portion of the Speech from the Throne at the opening of the present Session in which His Excellency informs us that His Government has thought it of the greatest importance for the settlement of the North-West and the development of our trade that its completion from sea to sea should be hastened, and the Company enabled to open the line throughout by the spring of 1886. That with this view, and in order to aid the Canadian Pacific Railway Company in procuring sufficient capital for the purpose by the disposal of its unsold shares, the Government agreed to receive a deposit of money and securities sufficient to pay a minimum three per cent, dividend for ten years on sixty-five millions of the stock. That arrangement being made on the belief that it would give steadiness and increased value to the shares on the market. That a combination of unfavourable circumstances has prevented the fulfilment of these expectations, and the Company has not been able to obtain the required capital by a sale of its stock. And that the best means of preventing any delay in the great object of the early completion of the railway demands our earnest consideration, and to consider the following resolutions:—

That it is expedient to provide,-

1. The Government may return to the Company the securities now held under the third section of its Act of incorporation (44 Victoria, Chapter 1), and under the second section of the construction contract referred to in the said Act.

2. That the money subsidy hereafter payable to the Company, may be paid as the work on either the Central or Eastern Section of the Railway proceeds, in the proportion which the value of the work done on such section, and for which payment is demanded, bears to the value of the whole work now remaining to be done under

the contract on such section.

3. That the time for the payment by the Company of the sum of Two Millions Eight Hundred and Fifty-three Thousand Nine Hundred and Twelve Dollars (\$2,853,912) agreed by the said Company to be paid on or before the First day of February, One Thousand Eight Hundred and Eighty-four (1884) as part of the fund referred to in their agreement with the Government of the Seventh day of November last, shall hereby be extended to the Seventh day of November, One Thousand Eight Hundred and Eighty-eight (1888); when the sum of Four Million Five Hundred and Twenty-seven Thousand Dollars (\$4,527,000) being the last instalment of the said fund payable by the Company to the Government will fall due, the whole, with interest, payable half yearly at the rate of four per cent. per annum as agreed upon; at the time of the execution of the said agreement; and that the fund shall then be paid to the Government, together with the said last mentioned amount forming together the sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars (\$7,380,912), bearing interest at the said last mentioned rate until paid.

4. That the Government may, out of any unappropriated moneys forming part of the Consolidated Revenue Fund of Canada, make a loan to the said Company of an amount in money, not exceeding Twenty-two Million Five Hundred Thousand Dollars (\$22,500,000) to be repaid to the Government on or before the first day of May, One Thousand Eight Hundred and Ninety-one, (1891) with interest at the rate of five per centum per annum, payable half yearly, until full payment of the principal; and that as part of the said loan the Government may pay to the Company forthwith such amount, not exceeding Seven Million Five Hundred Thousand Dollars, (\$7,500,000) as shall be required by the Company to extinguish its present floating debt: the amount of such debt to be established to the satisfaction of the Government: and that the remainder of the said loan shall be paid to the Company as the work of construction proceeds, in the same proportion as that which is hereby provided for the payment of the balance of the money subsidy.

5. That as security for the repayment of the said loan, with interest as aforesaid, and as additional security for the payment of the said sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars (\$7,380,912) and interest falling due on the Seventh day of November, One Thousand Eight Hundred and Eighty-eight (1888); the Government shall have a first lien and charge upon

the entire property of the Company real and personal, now owned or hereafter to be acquired or owned by them, including their main line of Railway, the extensions thereof, their branch lines of Railway, the whole of their equipment, rolling stock and plant, and including all steamers and vessels, and also upon the land grant of the Company, earned and to be hereafter earned. Saving always, however, the rights of the holders of the mortgages existing with respect to the extension of the line of the railway from Callander to Brockville and Montreal, as security for the unpaid balance of the purchase money of the line constituting the said extension; and subject to the mortgage upon the land grant, executed by the Company to secure their issue of land grant bonds, that the Government shall continue to hold and retain the entire amount of land grant bonds now in its custody or possession, subject to redemption, under the terms of the said land grant mortgage, and with all remedies as to interest, voting power and all other matters in respect thereof, which would be held or possessed, or could be exercised by any purchaser of the said bonds. That all moneys received by the Government from the Trustees of the Land Grant Bonds in redemption of such bonds shall be applied as follows, that is to say: "All moneys so received in respect of the million of dollars of the said bonds shall be applied: Firstly, in extinction of the interest accrued and due upon the said loan, and upon the said sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars (\$7,380,912). Secondly, on account of the capital of the said sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars (\$7,380,912), and Thirdly, on account of the capital of the said loan:—And that the Government may make such arrangements as it shall deem expedient, for securing the payment to it, after the redemption of the land grant bonds, of the proceeds of all sales of lands granted or to be granted to the Company under the contract to be applied to the purposes and in the order aforesaid; and that the remaining five millions of dollars of land grant bonds and money received from the said Trustees in redemption thereof, shall continue to be held on the conditions and for the purposes mentioned in the said contract.

6. That the Government shall cause a deed of agreement to be executed by the Company, and on behalf of the Government, providing for such remedies, terms, and conditions for securing the application of the said loan to the purposes for which the same is hereby authorized, and the repayment of the said loan, and of the said sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars (\$7,380,912) the whole with interest (including interest on any interest in default) for the release of the said loan and charge upon such repayment; for continuing the sale and realization of the value of the said lands, after the redemption of the land grant bonds,—the payment to the Government of the proceeds of such sales, and the discharge of such lands from the charge hereby created, upon payment of the price of sale thereof, as the Government shall deem expedient, such

price not to be less than one dollar and twenty cents per acre :-

Provided always that, among such remedies, terms and conditions, it shall be agreed and provided that upon default for twelve months in the payment of any half yearly instalment of interest upon the said loan, or upon the said sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars, or either of them, or in the payment of the principal of either of the said sums, when the same shall become due, in accordance with the provisions hereof, the right of the Company under their contract hereinbefore mentioned, to demand or receive any further cash or land subsidy shall cease and determine, and the said Railway and extensions thereof, branches, equipment, rolling stock, plant, including steamers, and all lands and property of the Company and all land grant bonds then in the possession of the Government shall upon the occurrence and continuance for the said period of twelve months of such default, ipso facto, and without any notice or proceeding whatsoever, vest in Her Majesty, for Canada, and shall forthwith, thereupon, be taken possession of by the Minister of Railways and Canals, on behalf of the Government; and each and every employee of the Company shall,

from and after the expiry of the said period of twelve months, become and be the employee of the Government during pleasure, and shall hold and possess any matter or thing appertaining to the said Company then in his custody, as and for the Government, and the rates of interest, and the terms of payment hereby fixed,

shall not be disturbed or altered by the terms of such agreement.

7. That the said Company be authorized to execute an agreement of the nature and purport hereinbefore provided for, and to charge its entire property and assets, in manner and form as hereinbefore described; and in such agreement to agree upon such further and other conditions as the Government may prescribe; provided that the acceptance of the provisions of the Act to be passed in this behalf, and authority to the Board of Directors of the Company to execute an agreement containing the charges upon the said Railway and property and the other conditions required or authorized by such Act, shall be granted by the shareholders of the Company, either by a resolution passed at a special general meeting of such shareholders, called for the purpose, by a vote of at least two-thirds in value of such of the shareholders, as shall be present or represented at such meeting, or by an instrument or instruments executed by at least two-thirds in value of the whole of the shareholders of the Company, in person or represented by their Attorneys or proxies respectively duly authorized in that behalf.

8. That until the payment in full of the indebtedness of the Company to the Government with the interest, all moneys earned and to be earned by the Company as postal sub ily and for transport service shall be retained by the Government and shall be applied, on account of the interest to become due from time to time

apon the loan hereby authorized, and then to the payment of the principal.

9. That the stock of the Company, amounting to Thirty-five Million Dollars, (\$35,000,000,) now in the hands of the Government, shall be held by the Minister of Finance, and may be sold by the Company, with the consent of the Government, on condition that the proceeds of such sale, less the amount required to be paid to the Government to secure a half yearly dividend thereon, at the rate of three per centum per annum, up to the Seventeenth (17th) day of August, One Thousand Eight Hundred and Ninety-three (1893) inclusive, shall be applied, under the direction of the Government, either to the improvement or extension of the Railway, or its equipment, or to the repayment of the indebtedness of the Company to the Government, and that if at any time the stock of the Company should reach a price which, in the opinion of the Government, would render it expedient to sell the said stock, or any part thereof, then and thereupon on notice being given to the Company by the Government, requiring that the said stock, or any part thereof, be sold, and specifying the minimum price at which the same shall be so sold, the Company shall cause the same to be offered for sale, and sold in conformity with such notice; and in default of their doing so, within a reasonable delay (which delay shall be in the discretion of the Government) the Government shall have the right to sell the same or any part thereof: at or above such minimum price, and shall apply the proceeds thereof, as it is herein provided such proceeds shall be applied in the event of the sale of such stock by the Company.

10. That so long as the said several sums of money loaned as aforesaid or any part thereof, or of the interest thereon remain unpaid, no mortgage, lien or charge of any description shall be created upon the Railway, property, or assets of the Company, or any part thereof; nor shall any stock be issued by the Company, pending such repayment, above or beyond the amount of One Hundred Million Dollars (\$100,000,000)

to which the same is now limited.

11. That legislative provision be made for giving effect to the said Resolutions, and that the mover thereof have leave to I ring in a Bill for that purpose.

Sir Charles Tupper moved, that The House do go into Committee of the Whole, on Tuesday, next, to take into consideration that portion of the Speech from the Throne at the opening of the present Session in which His Excellency informs us that His Government has thought it of the greatest importance for the settlement of the North-West and the development of our trade that the completion of the Canadian Pacific Railway from sea to sea should be hastened, and the Company enabled to open the line throughout by the spring of 1886; that with this view, and in order to aid the Company in procuring sufficient capital for the purpose by the disposal of its unsold shares, the Government agreed to receive a deposit of money and securities sufficient to pay a minimum three per cent. dividend for ten years on sixty-five millions of the stock, that arrangement being made in the belief that it would give steadiness and increased value to the shares on the market; that a combination of unfavourable circumstances has prevented the fulfilment of these expectations, and the Company has not been able to obtain the required capital by a sale of its stock; and that the best means of preventing any delay in the great object of the early completion of the railway demands our earnest consideration: And to consider the following Resolutions:—

1. Resolved, That the Government may return to the Company the securities now held under the third section of the Act 44 Victoria, Chapter 1, intituled, An Act respecting the Canadian Pacific Railway, and under the second section of the construc-

tion contract referred to in the said Act.

2. Resolved, That the money subsidy hereafter payable to the Company, may be paid as the work on either the Central or Eastern Section of the Railway proceeds, in the proportion which the value of the work done on such section, and for which payment is demanded, bears to the value of the whole work now remaining to be done

under the contract, on such section.

3. Resolved, That the time for the payment by the Company of the sum of Two Millions Eight Hundred and Fifty three Thousand Nine Hundred and Twelve Dollars (\$2,853,912) agreed by the said Company to be paid on or before the First day of February, One Thousand Eight Hundred and Eighty-four (1884) as part of the fund referred to in their agreement with the Government of the Seventh day of November last, shall be extended to the Seventh day of November, One Thousand Eight Hundred and Eighty-eight (1888), when the sum of Four Million Five Hundred and Twenty-seven Thousand Dollars (\$4,527,000) being the last instalment of the said fund payable by the Company to the Government will fall due, the whole with interest payable half yearly at the rate of four per cent. per annum as agreed upon at the time of the execution of the said agreement, and that the same shall then be paid to the Government, together with the said last mentioned amount; forming together the sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars (\$7,380,912), bearing interest at the said last mentioned rate until paid.

4. Resolved. That the Government may, out of any unappropriated moneys forming part of the Consolidated Revenue Fund of Canada, make a loan to the said Company of an amount in money, not exceeding Twenty-two Million Five Hundred Thousand Dollars (\$22,500,000) to be repaid to the Government on or before the first day of May, One Thousand Eight Hundred and Ninety-one, (1891) with interest at the rate of five per centum per annum, payable half yearly, until full payment of the principal; and that as part of the said loan the Government may pay to the Company forthwith, such amount not exceeding Seven Million Five Hundred Thousand Dollars, (\$7,500,000) as shall be required by the Company to extinguish its present floating debt, the amount of such debt to be established to the satisfaction of the Government: and that the remainder of the said loan shall be paid to the Company as the work of construction proceeds, in the same proportion as that which is hereby provided for the payment of the balance of the money subsidy.

5. Resolved, That as security for the repayment of the said loan, with interest as aforesaid, and as additional security for the payment of the said sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars (\$7,380,912) and interest, falling due on the Seventh day of November, One Thousand Eight Hundred and Eighty-eight (1888), the Government shall have a first lien and charge upon the entire property of the Company real and personal, now owned or hereafter to be acquired or owned by them, including their main line of Railway, the extensions thereof, their branch lines of Railway, the whole of their equipment, rolling stock and plant, and including all steamers and vessels; and also upon the land grant of the Company, earned and to be hereafter earned; saving always, however, the rights of the holders of the existing mortgages on the extensions of the line of the Railway from Callander to Brockville and Montreal, as security for the unpaid balances of the purchase money of the lines constituting the said extensions; and subject to the mortgage upon the land grant, executed by the Company to secure their issue of land grant bonds. That the Government shall continue to hold and retain the entire amount of land grant bonds now in its custody or possession, subject to redemption under the terms of the said land grant mortgage, and with all remedies as to interest, voting power and all other matters in respect thereof, which would be held or possessed, or could be exercised by any purchaser of the said bonds: That all moneys received by the Government from the Trustees of the Land Grant Bonds in redemption of such bonds shall be applied as follows, that is to say: All moneys so received in respect of ten million dollars of the said bonds shall be applied: Firstly, in extinction of the interest accrued and due upon the said loan, and upon the said sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars (\$7,380,912). Secondly, on account of the capital of the said sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars (\$7,380,912), and Thirdly, on account of the capital of the said loan:-And that the Government may make such arrangements as it shall deem expedient, for securing the payment to it, after the redemption of the land grant bonds, of the proceeds of all sales of lands granted or to be granted to the Company under the contract, to be applied to the purposes and in the order aforesaid. And that the remaining five million dollars of land grant bonds and money received from the said Trustees in redemption thereof, shall continue to be held on the conditions and for the purposes mentioned in the said contract.

the Company, and on behalf of the Government, providing for such remedies, terms, and conditions for securing the application of the said loan to the purposes for which the same is hereby authorized, and the repayment of the said loan, and of the said sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars (\$7,380,912) the whole with interest (including interest on any interest in default); for the release of the said lien and charge upon such repayment; for continuing the sale and realization of the value of the said lands, after the redemption of the land grant bonds,—the payment to the Government of the proceeds of such sales, and the discharge of such lands from the said charge upon payment of the price of sale thereof; as the Government shall deem expedient, such price not to

be less than one dollar and twenty-five cents per acre:-

Provided always that, among such remedies, terms and conditions, it shall be agreed and provided, that upon default for twelve months in the payment of any half yearly instalment of interest upon the said loan, or upon the said sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars, or either of them, or in the payment of the principal of either of the said sums, when the same shall become due, in accordance with the provisions hereof, the right of the Company under their contract hereinbefore mentioned, to demand or receive any further cash or land subsidy shall cease and determine, and the said Railway and extensions thereof, branches, equipment, rolling stock, plant, including steamers, and all lands and property of the Company and all land grant bonds then

in the possession of the Government shall upon the occurrence and continuance for the said period of twelve months of such default, ipso facto, and without any notice or proceeding whatsoever, vest in Her Majesty, and shall forthwith, thereupon, be taken possession of by the Minister of Railways and Canals, on behalf of the Government of Canada, and each and every employee of the Company shall, from and after the expiry of the said period of twelve months, become and be the employee of the Government during pleasure, and shall hold and possess any matter or thing appertaining to the said Company then in his custody, as and for the Government; and the rates of interest, and the terms of payment hereby fixed, shall

not be disturbed or altered by the terms of such agreement. 7. Resolved, That the said Company be authorized to execute an agreement of the nature and purport hereinbefore provided for, and to charge its entire property and assets, in manner and form as hereinbefore described; and in such agreement to agree upon such further and other conditions as the Government may prescribe; provided that authority to accept the provisions of the Act to be passed in this behalf, and to the Board of Directors of the Company to execute an agreement containing the charges upon the said Railway and property and the other conditions required or authorized by such Act, shall be granted by the shareholders of the Company, either by a resolution passed at a special general meeting of such shareholders, called for the purpose, by a vote of at least two-thirds in value of such of the shareholders as shall be present or represented at such meeting, or by an instrument or instruments executed by at least two-thirds in value of the whole of the shareholders of the Company, in person or represented by their attorneys or proxies respectively duly authorized in that behalf.

8. Resolved, That until the payment in full of the indebtedness of the Company to the Government with interest, all moneys earned and to be earned by the Company as postal subsidy and for transport service shall be retained by the Government and shall be applied on account of the interest to become due from time to time upon

the loan hereby authorized, and then to the payment of the principal.

9. Resolved, That the stock of the Company, amounting to Thirty-five Million Dollars (\$35,000,000), now in the hands of the Government, shall be held by the Minister of Finance, and may be sold by the Company, with the consent of the Government, on condition that the proceeds of such sale, less the amount required to be paid to the Government to secure a half-yearly dividend thereon, at the rate of three per centum per annum, up to the Seventeenth (17th) day of August, One Thousand Eight Hundred and Ninety-three (1893) inclusive, shall be applied, under the direction of the Government, either to the improvement or extension of the Railway, or its equipment, or to the repayment of the indebtedness of the Company to the Government; and that if at any time the stock of the Company should reach a price which, in the opinion of the Government, would render it expedient to sell the said stock, or any part thereof, then and thereupon, on notice being given to the Company by the Government, requiring that the said stock, or any part thereof, be sold, and specifying the minimum price at which the same shall be so sold, the Company shall cause the same to be offered for sale, and sold in conformity with such notice; and in default of their doing so, within a reasonable delay (which delay shall be in the discretion of the Government) the Government shall have the right to sell the same or any part thereof at or above such minimum price, and shall apply the proceeds thereof as it is herein provided such proceeds shall be applied in the event of the sale of such stock by the Company.

10. Resolved, That so long as the said several sums of money loaned as aforesaid or any part thereof, or the interest thereon remain unpaid, no mortgage, lien or charge of any description shall be created upon the Railway, property or assets of the Company, or any part thereof; nor shall any stock be issued by the Company, pending such repayment, above or beyond the amount One Hundred Million Dollars (\$100,000,000) to which the same is now limited.

Sir Leonard Tilley delivered a Message from His Excellency the Governor General, which was read as follows:—

Lansdowne

Fisher,

The Governor General transmits to the House of Commons, Estimates of sums required for the Service of the Dominion, for the year ending 30th June, 1885; and in accordance with the provisions of "The British North America Act, 1867," he recommends these Estimates to the House of Commons.

GOVERNMENT HOUSE,

OTTAWA, 7th February, 1884.

On motion of Sir Leonard Tilley, the said Message and Estimates were referred to the Committee of Supply.

The following Addresses to His Excellency the Governor General were voted,—and Orders of The House issued to the proper officer, viz.:—

By Mr. Cameron (Huron):—Address to His Excellency the Governor General,

1. Copies of all Orders in Council or Departmental Orders, and all communications and correspondence respecting the appointment of Samuel J. St. Onge Chapleau, as a Sheriff in the North-West Territories.

2. Copies of all complaints or charges made against the said Chapleau, while he

was an employé in the Department of Railways and Canals.

3. Copies of all Orders, decisions or resolutions of the said Department dismissing or dispensing with the services of the said Chapleau.

4. Copies of such portions of the evidence taken before the Railway Commission,

as relate to the conduct of said Chapleau, while he was such employé.

5. Copies of all correspondence between the said *Chapleau* and the Government, or any Member of it, respecting the said complaint and charges, or respecting in any way his conduct while such employé; respecting his quitting the Public Service, and respecting his appointment as such Sheriff.

By Mr. Ouimet:—Address to His Excellency the Governor General, for copies of all Correspondence between the several Provincial Governments and the Dominion Government, respecting the readjustment, or increase of the money subsidies paid, or to be paid, by the latter to the former, in pursuance of the Confederation Agreement, or of any other arrangements since made.

Also,—Copies of all Petitions from the several Provincial Legislatures to the Government, or to the Parliament of Canada, and of any Memorials received by the latter from the several Provincial Governments, asking for aid or assistance in money, or otherwise.

Also,—A Statement showing all that has been granted in money, or otherwise,

by the Government of Canada, to the several Provinces since 1867.

Sir Richard Cartwright moved that it be-

Resolved,—That it appears from papers laid before this House, that the Minister of Finance on the 12th and 16th days of April, 1883, advanced the sum of Two hundred thousand dollars (\$200,000) to the Exchange Bank of Canada, and thereafter, on the 12th day of May, 1883, advanced a further sum of One hundred thousand dollars to the said Bank, for which latter amount a letter of guaranty was taken from the Hon. A. W. Ogilvie, a Member of the Senate of Canada, agreeing to indemnify the Government for any loss arising from the said advance.

That it further appears that the Minister of Finance was aware at the time of

making the said advances that the said Bank was embarrassed.

That the said Exchange Bank of Canada had already within two years previously, been compelled to suspend specie payments and to reduce its original capital by one half.

That it does not appear that the Minister of Finance took proper precautions or instituted adequate inquiries into the affairs of the said Bank prior to making the said advances.

That the said Exchange Bank of Canada has since become insolvent, and that a large sum of public money has in consequence become imperilled and will probably be lost.

That it was not expedient that the Minister of Finance should have advanced the

said Three hundred thousand dollars.

That it was not expedient that any sum of money whatever should have been advanced upon personal security, and especially on the security of a Member of the Legislature; which was negatived on the following division:—

Whereas in pursuance of this recommendation, and on the representation made to this Parliament by the Advisors of His Excellency that it was not a matter of policy, but a matter of necessity that an Act intituled: "The Liquor License Act of 1883," was passed by this Parliament last Session.

Whereas since then, the Lords of the Judicial Committee of the Privy Council, have rendered another judgment in an analogous case, "Hodge vs. the Queen" in which their Lordships explain their decision in the case of Russell vs. the Queen, and declare that—"that decision, when properly considered, has not the effect supposed, and that it should be taken rather as an authority in support of the judg-

ment of the Court of Appeal" (of Ontario).

Whereas the necessity of keeping in force "The Liquor License Act of 188;" has thus ceased to exist, and whereas it is desirable, and in the interest of the harmony of relations between the Federal Power and the Provincial Powers of this Dominion that this Parliament do not interfere with the Legislation of the different Provinces on the subject of Liquor traffic, for the preservation of good order and morality within their limits, therefore it be resolved that the House form itself into Committee of the Whole to consider the following Resolution: "This House is of opinion that 'The Liquor License Act, 1883' should be repealed."

(In the Committee.)

The following Resolutions were adopted: -

1. Resolved, That the Government may return to the Canadian Pacific Railway Company the securities now held under the third section of the Act 44 Victoria, Chapter 1, entituled, An Act respecting the Canadian Pacific Railway, and under the second section of the construction contract referred to in the said Act.

2. Resolved, That the money subsidy hereafter payable to the Company may be paid as the work on either the Central or Eastern Section of the Railway proceeds, in the proportion which the value of the work done on such section, and for which payment is demanded, bears to the value of the whole work now remaining to be done,

under the contract, on such section.

3. Resolved, That the time for the payment by the Company of the sum of Two Millions Eight Hundred and Fifty-three Thousand Nine Hundred and Twelve Dollars (\$2,853,212) agreed by the said Company to be paid on or before the First day of February, One Thousand Eight Hundred and Eighty-four (1884) as part of the fund referred to in their agreement with the Government of the Seventh day of November last, shall be extended to the Seven day of November, One Thousand Eight Hundred and Eighty-eight (1888), when the sum of Four Million Five Hundred and Twentyseven Thousand Dollars (\$4,527,000) being the last instalment of the said fund payable by the Company to the Government will fall due, the whole with interest payable half yearly at the rate of four per cent. per annum as agreed upon at the time of the execution of the said agreement, and that the same shall then be paid to the Government, together with the said last mentioned amount; forming together the sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars (\$7,380,912), bearing interest at the said last mentioned rate until paid.

4. Resolved, That the Government may, out of any unappropriated moneys forming part of the Consolidated Revenue Fund of Canada, make a loan to the said Company of an amount in money, not exceeding Twenty-two Million Five Hundred Thousand Dollars (\$22,500,000) to be repaid to the Government on or before the first day of May, One Thousand Eight Hundred and Ninety-one, (1891) with interest at the rate of five per centum per annum, payable half yearly, until full payment of the principal; and that as part of the said loan the Government may pay to the Company forthwith, such amount not exceeding Seven Million Five Hundred Thousand Dollars, (\$7,500,000) as shall be required by the Company to extinguish its present floating debt, the amount of such debt to be established to the satisfaction of the Government: and that the remainder of the said loan shall be paid to the Company as the work of construction proceeds, in the same proportion as that which is hereby provided for

the payment of the balance of the money subsidy.

5. Resolved, That as security for the repayment of the said loan, with interest as aforesaid, and as additional security for the payment of the said sum of Seven Million Three Hundred and Eighty Thousand Nine Hundred and Twelve Dollars (\$7,380,912) and interest, falling due on the Seventh day of November, One Thousand Eight Hundred and Eighty-eight (1888), the Government shall have a first lien and charge upon the entire property of the Company real and personal, now owned or hereafter to be acquired or owned by them, including their main line of Railway, the extensions thereof, their branch lines of Railway, the whole of their equipment, rolling stock and plant, and including all steamers and vessels; and also upon the land grant of the Company, earned and to be hereafter earned; saving always, however, the rights of the holders of the existing mortgages on the extensions of the line of the Railway from Callander to Brockville and Montreal, as security for the unpaid balances of the purchase money of the lines constituting the said extensions; and subject to the mortgage upon the land grant, executed by the Company to secure their issue of land grand bonds. 9. Resolved, That the stock of the Company, amounting to Thirty-five Million Dollars (\$35,000,000), now in the hands of the Government, shall be held by the Minister of Finance, and may be sold by the Company, with the consent of the Government, on condition that the proceeds of such sale, less the amount required to be paid to the Government to secure a half-yearly dividend thereon, at the rate of three per centum per annum, up to the Seventeenth (17th) day of August, One Thousand Eight Hundred and Ninety-three (1893) inclusive, shall be applied, under the direction of the Government, either to the improvement or extension of the Railway, or its equipment, or to the repayment of the indebtedness of the Company to the Government; and that if at any time the stock of the Company should reach a price which, in the opinion of the Government, would render it expedient to sell the said stock, or any part thereof, then and thereupon, on notice being given to the Company by the Government, requiring that the said stock, or any part thereof, be sold, and specifying the minimum price at which the same shall be so sold, the Company shall cause the same to be offered for sale, and sold in conformity with such notice; and in default of their doing so, within a reasonable delay (which delay shall be in the discretion of the Government) the Government shall have the right to sell the same or any part thereof at or above such minimum price, and shall apply the proceeds thereof as it is herein provided such proceeds shall be applied in the event of the sale of such stock by the Company.

10. No. 29.

VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

OTTAWA, TUESDAY, 26TH FEBRUARY, 1884.

PRAYERS.

Seven Petitions were brought up, and laid on the Table.

Mr. Abbott, from the Select Standing Committee on Banking and Commerce, presented the Fourth Report of the said Committee, reporting the following Bills, with amendments, viz.:

Bill No. 24 to incorporate the Halifax Steam Navigation Company (Limited); —and

Bill No. 28 to incorporate the Canada Temperance and General Life Assurance Company.—With reference to this Bill, they have amended the *Preamble* thereof, to make it conform with the provisions contained in the said Bill.

Mr. Ives, from the Select Standing Committee on Miscellaneous Private Bills, presented the Second Report of the said Committee, reporting the Bill No. 45 to incorporate the Owen Sound Dry Dock Shipbuilding and Navigation Company (Limited), with amendments.

Mr. Scriver, from the Joint Committee of both Houses on the Library of Parliament, presented the First Report of the said Committee, which is as follows:—

The Committee have taken occasion of their first meeting to record their extreme regret at the recent sudden death of Dr. Alpheus Todd, for many years, Librarian of the Parliament of Canada. In his demise not only this Parliament and country, but all countries possessing similar forms of Government have sustained a heavy loss. His great constitutional knowledge, and general erudition made him a most reliable counsellor to all those who had occasion to consult him, whilst his courteous manners and kindly disposition enhanced the value of his intellectual endowments.

The regret which the Members of the Committee, in common with Dr. Todd's many other friends, experience at his unexpected removal from their midst, finds some mitigation in the reflection that his admirable works will survive as an enduring monument of his untiring industry and extensive and accurate knowledge, and of his

devotion to the institutions under which we live.

Last Session the Committee recommended that the bulk of the Law Books be permanently transferred to the Supreme Court Building, where the series of English and American Law Reports, formerly in the Library, have been sent by Order of this House; that the Department of Justice be henceforth responsible for the maintenance and management of this Law Library, that it be no longer regarded as forming part of the Library of Parliament; subject, however, to a right of preferential access by Members of both Houses to these books, whenever and wherever they may require

to consult them. Such text-books only to be retained in the *Library* of *Parliament*, or, hereafter added thereto, as may be necessary for purposes of Legislation. The Committee beg leave to renew their recommendation,—their Report of last year, not having been concurred in by Parliament.

A Sub-Committee has been appointed to determine, along with the Assistant

Librarian, what Law Books should be retained in the Library.

In view of the vast number of Maps and Charts possessed by the Library, and of the numerous publications of this nature issued every year referring to Canada and the North-West Territories, it is thought advisable to adopt means to render them more accessible for reference. The Committee, therefore, recommend the organization of a section of chartography and to set aside for this purpose one of the side rooms of the Library, and to furnish it with the necessary apparatus.

The Committee also recommend that wire screens, similar to those placed over the works on Canada, be extended to the principal sections on the ground floor to

secure better protection for the books placed therein.

On motion of Sir John A. Macdonald, it was Resolved,—That when this House adjourns this day, it do stand adjourned until Thursday next, at 3 o'clock P.M.

OTTAWA, THURSDAY, 28TH FEBRUARY, 1884.

PRAYERS.

Mr. Blake moved, That it appears, that the Office of High Commissioner of Canada is an Office in the service of the Government of Canada at the nomination of the Crown, to which salary, wages, allowance, emolument or profit of some kind is attached, within the meaning of the Act for further securing the Independence of Parliament.

That it appears that in addition to the salary of \$10,000 a year, attached to the Office of High Commissioner, there has been voted yearly, since the establishment of the said Office, a sum of \$4,000, to cover amongst, other things, the payment of house

rent, fuel, light, and taxes of the High Commissioner.

That it appears that on the 23rd March, 1881, it was ordered by the Governor in Council, that in lieu of payment of house rent, fuel, light and taxes, an allowance of \$3,500 be made to Sir Alexander Galt, then High Commissioner, to be taken from the annual vote for his personal contingencies (being the said sum of \$4,000) to commence from the 1st April, 1881.

That it appears that thereafter during the tenure of the Office by Sir Alexander

Galt, such allowance was regularly made.

That it appears that Sir Alexander Galt resigned on the 1st June, 1883, and that Sir Charles Tupper, then Member for Cumberland, and Minister of Railways and Canals, was appointed High Commissioner of Canada in his place, retaining the Office and salary \$7,000 a year, as Minister of Railways and Canals; and the Order in Council making such appointment, bearing date the 30th May, 1883, states, that Sir Charles Tupper has kindly consented to proceed to England and perform the duties of the Office for the present without salary; and that the expenses of the High Commissioner will be paid in the same manner as the expenses of Sir A'exander Galt.

That it appears that the said Sir Charles Tupper accepted, and still holds the said

Office of High Commissioner of Canada.

That it appears that on the 27th August, 1883, the said Sir Charles Tupper, as such High Commissioner, received from the Government of Canada £800, or \$3,893.33, in respect of the said allowance of \$4,000, being within a fraction of the whole sum voted and payable for the current financial year, ending 30th June, 1884.

That it appears that the said payment is exclusive of the removal expenses of the said Sir Charles Tupper, amounting to \$836, and of his travelling expenses as

High Commissioner

That the seat of the said Sir Charles Tupper, as Member for Cumberland, was prior to the commencement of the present Session of Parliament, by reason of the premises vacated, and his Election has become null and void.

That Mr. Speaker do issue his Warrant to the Clerk of the Crown in Chancery, to make out a new Writ for the Electing of a Member to serve in this present Parliament for the Electoral District of the County of Cumberlant, in the place of Sir Charles Tupper.

Sir John A. Macdonald moved in amendment thereto, that all the words after the first word, "that" in the said proposed motion, be left out, and the following inserted instead thereof:—"The question whether Sir Charles Tupper is now Member for Cumberland, or whether he has vacated his seat, be referred to the Select Standing Committee on Privileges and Elections;" which was agreed to on the following division:—

Government locomotives on the Intercolonial Railway?

Did the Government at first refuse to pay that claim, and why? Did the Government subsequently pay that claim, and why?

Mr. Kirk-On Wednesday next-Enquiry of Ministry-Is it the intention of the Government to erect a Lighthouse on Goose Island, Guysboro' County, Nova Scotia, this year, for which a sum was voted in 1882.

Mr. Davies-On Wednesday next-That by the terms of the Treaty of Washington, 1871, the privilege of using the territorial waters of the Dominion of Canada and the then Provinces of Prince Edward Island and Newfoundland for a certain term for fishing purposes, in common with British subjects, was granted to American Citizens, on and after such times as the necessary laws to carry the treaty into effect were passed by the Imperial and Dominion Parliaments, the Legislatures of the said Provinces and the Congress of the United States, in consideration of the payment by the United States Government of such compensation as should be determined by Arbitrators appointed by such Treaty.

That the necessary legislation in the premises was passed by the then Province of Prince Edward Island, in the year 1872, while such Island constituted a separate Province, and being also passed by the Imperial and Dominion Parliaments and the American Congress, the Treaty came into force on the 1st July, 1873, from which date the American fishermen have continued to use and enjoy the said Fisheries.

· That immediately upon the passing of such Legislation, Prince Edward Island as such separate Province and as a consenting party to the Treaty, became entitled to a share of any award which might afterwards be made in favour of Great Britain as compensation for the fishing privileges conceded by the Treaty to the Americans.

That Prince Edward Island entered the Confederation on the 1st July, 1873, upon certain specified terms which did not either expressly or by implication transfer to the Dominion the right vested in the Province to a share of such compensation.

That subsequently the Commissioners appointed under the Treaty awarded to Great Britain the sum of \$5,500,000 as compensation for the privileges accorded to

the United States fishermen.

That the Imperial Government paid out of such award to the Province of Newfoundland the sum of \$1,000,000 as its share of the award and the balance of the said sum less certain expenses, was paid over to the Dominion of Canada which now holds the same.

That in the opinion of this House the Province of Prince Edward Island is entitled to receive such a fair proportion of said award as the value of the privileges conceded by that Province to the Americans, before entering Confederation, bears to that conceded by the Dominion as constituted when the treaty of Washington was ratified.

Mr. Cameron (Huron)-On Friday next-The following Resolutions:

That it was represented to the Parliament of Canada in the Session of the said Parliament held in the year of Our Lord, one thousand eight hundred and eightythree, that the judgment of the Lords of the Judicial Committee of the Privy Council, delivered in June then last, on the appeal of Russell versus the Queen, shewed, that in order to prevent the unrestrained sale of intoxicating liquors, and for that purpose to regulate the granting of shop, saloon and tavern licenses, legislation by the Dominion Parliament was necessary.

That in pursuance of such representation and to meet such alleged necessity, an Act intituled "An Act respecting the sale of Intoxicating Liquors, and the issue of Licenses therefor," was brought into Parliament by the First Minister and duly

passed.

That the judgment of the Lords of the Judicial Committee of the Privy Council, on the appeal of Hodge and the Attorney General of the Province of Ontario, subsequently delivered, shews, contrary to the said representations, that legislation by the Dominion Parliament is not necessary in order to prevent the unrestrained sale of intoxicating liquors, and for that purpose to regulate the granting of shop, saloon and tavern licenses.

That it has thus been shewn that the said Act was brought into Parliament and

passed under a misapprehension.

That it is not desirable that the Parliament of Canada should attempt to interfere with the constitutional right of the several Provinces, to regulate the granting of such licenses, which they have exercised ever since Confederation, and which is now established by the Judgment of the Court of last resort.

That the House do form itself into Committee of the Whole to consider the fol-

lowing Resolution:

"That in the opinion of this House the Liquor License Act of 1883 should be repealed."

D. McDonald, Zotique Lalonde and Etienne Leblanc, from Cornwall to

the polling place where they were severally inscribed as electors qualified to vote. I, the undersigned Judge of the Superior Court of Lower Canada, sitting in pursuance of the provisions of the Dominion Controverted Elections Act of the Dominion of Canada and presiding at the trial for the purposes of the petition in this case; hereby declare that that part of the conclusions of the said Petition whereby the Petitioner prays that the Respondent be disqualified: is not well founded; and it is hereby dismissed; that the second part of the conclusions of the said Petition whereby it is prayed that the said Election be annulled, is to be and it is hereby granted, and the undersigned do declare the said Election null and void and of no effect, the whole with costs against the Respondent save the costs of the following witnesses, namely: Hilaire Asselin, Joseph Bissonnette, Joachim Bissonnette, Olivier Bissonnette, Joseph Samson, Bernard Théoret, Antoine Bourbonnais, Bercom Pilon, Emery Thaurette, Saul Trottier, Amable Huneau, Isaïe Leroux, Onésime Cuillerier, Gatien Séguin, Moïse Bourbonnais, Benjamin Duval, Odile Lalonde, Michel Lefebvre, Félix Théoret, Ludger Brasseur, Stephen Châles, Charles Méthot, Arthur Biron, Rodolphe Biron, David Lalonde, Jean B. Jules Prevost, Thomas Grange, Henry P. Grange, Camille Lalonde, Dr. H. R. Perry and Gédéon Lalonde.

(Signed,) L. O. LORANGER, J.S.C."

And the said Appellant (Respondent in the Court below) having thereupon appealed from the said judgment to this Court, and a motion having been made to this Court on behalf of said Appellant this fifteenth day of January, 1884, for the dismissal of the said Appeal, and this Court having heard Counsel for said Appellant in support of said motion, and Counsel for the Respondent being present and assenting thereto, this Court did Order and Adjudge that the said Motion should be and the same was granted, that the said judgment of the said Superior Court for Lower Canada, sitting in the District of Montreal, should be and the same was affirmed, and that the said Appeal should be and the same was dismissed.

And this Court did further Order and Adjudge that the said Appellant should pay to the said Respondent the costs of the Appeal to this Court; that the sum of one hundred dollars (\$100) deposited by the said Appellant in the Court below as security for costs of the said Appeal should be paid to the said Respondent to apply pro tante on account of the costs of said Respondent in this Appeal and that the original Record be transmitted by the Registrar of this Court to the proper officer of the

That in pursuance of this recommendation, and on the representation made to this Parliament by the Advisors of His Excellency that it was not a matter of policy, but a matter of necessity that an Act intituled:
"The Liquor License Act of 1883," was passed by this Parliament last Session.

That since then, the Lords of the Judicial Committee of the Privy Council, have rendered another judgment in an analogous case, "Hodge vs. the Queen"

in which their Lordships explain their decision in the case of Russell vs. the Queen, and declare that-"that decision, when properly considered, has not the effect supposed, and that it should be taken rather as an authority in support of the judg-

ment of the Court of Appeal" (of Ontario).

That the necessity of keeping in force "The Liquor License Act of 1883" has thus ceased to exist, and it is desirable, and in the interest of the harmony of relations between the Federal Power and the Provincial Powers of this Dominion that this Parliament do not interfere with the Legislation of the different Provinces on the subject of Liquor traffic, for the preservation of good order and morality within their limits. That the House do now resolve itself into a Committee of the Whole, to consider the following Resolution: "This House is of opinion that 'The Liquor License Act, 1883' should be repealed."

Sir Hector Langevin moved in amendment thereto, that all the words after the word "That" in the said proposed motion be left out, and the following inserted instead thereof:-" in the opinion of this House, it is expedient that the question of the competence of Parliament to pass the Liquor License Act, 1883, should be submitted with all convenient speed, to the Supreme Court of Canada, or the Judicial Committee of the Privy Council, or both."

And a Debate arising thereon; - and The House having continued to sit after 12 of the clock, midnight;

WEDNESDAY, 19TH MARCH, 1884.

Mr. Ouimet moved in amendment to the said proposed amendment, that all the words after "thereof" in the said amendment be left out, and the following inserted instead thereof:-"it is expedient to amend the Canada License Act of 1883, so as to strike out from said Act all provisions, which do not relate to total prohibition of the Liquor trade, and leave to the Provincial Legislature in passing Laws for the raising of a Revenue for Provincial, Local or Municipal purposes, to make enactments regulating and determining the matters following, that is to say:-

"(1). For defining the conditions and qualifications requisite to obtain tavern licenses for the retail, within the municipality of spirituous, fermented or other manufactured liquors, and also shop licenses for the sale by retail, within the municipality, of such liquors in shops, or places other than taverns, inns, ale houses,

beer houses, or places of public entertainment.

"(2). For limiting the number of tavern and shop licenses respectively, and for defining the respective times and localities within which, and the person to whom, such limited number may be issued within the year, from the first day of May of one year till the thirtieth day of April inclusive of the next year.

"(3). For regulating the taverns and shops to be licensed.
"(4). For fixing and defining the duties, powers, and privileges of the Inspector of licenses of their district; "-which was negatived.

The question being then put on the amendment to the main motion; --it was agreed to on the following division :--

Menckle and others, of Haldimand and Norfolk; of R. F. Regan and others; and of Alexander McLaren and others, of Tyendinaga; of James McPane and others, of Linwood; of C. L. Consolidated Insurance Act, 1877," may not become law.

Mr. White (Cardwell), from the Select Committee appointed, to supervise the Official Report of the Debates of this House during the present Session, presented the Third Report of the said Committee, which is as follows:—

The Chief Reporter having submitted a letter, enclosing an application from Mr. J. W. Mathewson, (copies of which letter and application are hereto appended), asking that he be remunerated for his services in repairing and keeping in order the caligraph writing machines, used by the Official Reporting Staff—the Committee have carefully considered the same, and would recommend that the application be granted, and that Mr. Mathewson be paid the sum of \$130 per Session for that service, such payment to commence with the present Session. The Committee would also recommend that one additional caligraph writing machine be purchased for the use of the House in connection with the Official Reporting.

(Letters referred to in the Third Report.)

"DEBATES" OFFICE, March 19th, 1884.

THOS. WHITE, Esq., Chairman Debates Committee.

DEAR SIR,—I beg to forward enclosed memorandum from Mr. J. W. Mathewson with this single remark: It is necessary to have some expert available to repair the

caligraphs, otherwise they may prove useless when the work is exceptionally heavy; and Mr. Mathewson has performed this work efficiently since the opening of the Session.

Your obedient servant,

G. B. BRADLEY, Chief Reporter.

OTTAWA, March 19th, 1884.

G. B. BRADLEY, Esq., Chief Official Reporter,

Sir,—I desire to submit to the *Debates* Committee, through you, my claim for compensation for extra services performed in repairing and keeping in order the writing machines used by the Reporters of the Official Staff. I base my application

on the following grounds:-

1. For several years past my time has been largely occupied in operating, handling and repairing the caligraph writing machine. During this period, I have gained a thorough knowledge of its mechanism, and of the weak points which are inseparable from such an intricate and delicately constructed machine. As a result of this experience and observation I have frequently succeeded in placing disabled machines in perfect working order where purely mechanical experts, not having a practical

experience in operating them, have failed.

2. During the present Session the task of keeping in repair the six machines used by the staff has devolved solely upon me. I have not sought this extra work, but it has fallen to me apparently by common consent, in view of my larger experience, and at your request, as Chief of the Staff. In the performance of this work I have had occasion many times to repair or set in order every one of those machines, and I have no doubt that but for the services I thus rendered some of them would have had to be sent to the manufactory, involving considerable expense, and seriously retarding the work of the staff. As it is, they have been kept in good order, and no time has been lost. It has also fallen to me, owing to my technical knowledge of the machine, to see that duplicates of all the delicate parts are kept on hand against accident.

3. On the just commercial principle of value for value I submit that I am entitled to compensation for the extra time I have spent in doing this work, not to speak of the value of the skill and experience which I think all the members of the

staff will admit that I possess.

I would point out to the Committee, that the longer the machines continue in use the more attention they will require to keep them in order; the labour therefore, in this respect, will probably be greater in future Sessions than it is at present.

I submit that in view of my services in this respect I should receive \$130 per

Session, including this Session.

I have the honour to be, Sir, Your obedient servant,

JAMES W. MATHEWSON.

He also presented the Fourth Report of the said Committee, which is as follows:-

The Committee have had before them an application from the members of the Official Reporting Staff, (copy of which is hereto appended), respecting the remuneration they receive for their services—and have after carefully considering the same, decided to recommend, that commencing with next Session, the salaries of the members of the Official Reporting Staff be \$2,000 per annum.

To the Chairman and Members of the Select Committee appointed to Supervise the Debates:

The undersigned members of the Official Reporting Staff of the House, respectfully submit:

That towards the close of the Session of 1880-81, in a report which was printed in the Journals we showed that by every fair comparison available in our case, the salaries paid us where wholly inadequate.

In 1882 we made another report in which we re-stated the facts to the Com-

mittee as reasons why we would be paid salaries of at least \$2,000 per Session.

After receiving that report the Committee recommended and the House resolved

that the salaries of the reporters be fixed as at present.

In renewing our application we beg to state that the sum of \$2,000 per Session is simply the lowest amount which would ensure us against loss by the retention of our present positions.

The grounds upon which we ask the Committee for an advance are:

1. That we were given clearly to understand when we accepted our present positions that if the new scheme proved to be a success we should be well paid. The new scheme has admittedly been a success yet we remain, as stated in our first report, the worst paid officers of the House and the worst paid official stenographers in either Canada or the United States. The appended statement of facts and figures from official and other sources abundantly proves the correctness of this assertion.

2. That without unduly magnifying the special attainments, long experience, and political and general information required of the Staff, we would simply remind the Committee that it took eight years careful selection to secure an efficient corps of reporters and establish The Debates on a basis satisfactory to the Committee and the House. During that period stenographers, who held first class positions in both England and the United States were tried and found inefficient as Debates reporters. Further, the service is peculiar inasmuch as it admits of no grading, no apprenticeship. To enter it, a man must not only be in a general way a first-class reporter, master of his profession, but he must be specially and intimately acquainted with Canadian politics. On the other hand he has no promotion to hope for.

3. It is perhaps hardly necessary to point out that our work is of a character commonly described as "skilled," or "expert," and bears no comparison whatever with ordinary clerical or departmental work. Yet we find that such officers as Clerks of Committees, Translators, Clerks of Votes and Proceedings, Journal Clerks, &c., are paid salaries varying from \$1,500 to \$1,800 per Session. It is unnecessary to enter into a comparison between the arduous and exacting nature of our work and

the merely routine character of theirs.

4. Experience has confirmed our former contention that practically the salaries paid us are annual salaries. Even when we submit to the humiliation of peddling out our services where we may, during the recess, the odd jobs which only some of us thus secure are casual, uncertain, and poorly paid. We are compelled to relinquish all hope of professional advancement, and, by reason of our sessional engagements, the means by which we might supplement our salaries are drifting more and more into other channels. It is a fact known to members of the Committee that one of the very few men in Canada really competent for the work we perform has steadily declined to accept a position on the Staff, when vacancies occurred, finding it more to his interest to retain his present position on the Press.

5. The work is of such an exceptional character that even the slightest impairment of nervous energy is fatal to its continuance. The working life of a protessional stenographer is, compared with that of most persons occupying positions in the public service, a very short one. As a rule, the career of a really efficient reporter is confined to the years of his vigorous manhood. We submit that it is not fair to ask us to spend our best days in working for Parliament for less incomes

than we might receive from other employers.

In brief, we rest our case on these facts; that we are not now earning the incomes that are open to us in other fields; that several of our number have within the past year refused better positions pecuniarily than those they now occupy, and that we have all along firmly believed that the Committee and the House, if they really entered into the merits of our case, would not allow us to remain in our present unfair positions.

LAW REPORTING.

We annex statements showing the salaries earned by law stenographers in Ontario and the United States, for a class of work of a much lower grade than that of parliamentary reporting.

In Ontario the incomes of Court reporters, including salaries, fees, and receipts

from special examinations, &c., amount to from \$1,800 to \$2,500.

From papers read at the New York State Stenographers' Association for the years 1879 to 1882, and at the International Shorthand Association, the following table has been compiled, showing the salaries, (including, in most cases, fees and travelling allowances) at present prevailing, or provided for by recent statutes, in those of the United States and Territories in which official court reporters have been appointed.

Alabama	\$2,300		
Arizona	3,000		
Indiana	2,000	to	\$2,500
Louisiana	1,800		DO OH
Maryland	2,500	to	3,000
Massachusetts	2,000	to	2,500
Michigan	2,000	to	2,500
Minnesota	2,000	to	2,400
Missouri	1,800		
Nehraska	2,000	to	3,000
Nevada	3,000		
New York	2,000	to	2,500
Pennsylvania	2,000		
South Carolina	2,500	to	3,000
Wisconsin,	2.000		STATE OF THE STATE
	2,500	to	3,500
Wyoming	V. L. S. S. S. C.	-	LE TO BE SEE

For the Federal Courts of the United States, a Bill was introduced in Congressin 1882, providing for salaries of \$2,500 and fees of ten cents per folio-equivalent to at least \$3,000.

STATE LEGISLATIVE REPORTING.

None of the American States has a regularly organized system of official report ing in its Legislature. With reference to the New York Legislature, however, Messis. Rodgers & Ruso, Law Reporters, Albany, write:

"The New York Legislature has a reporter in the Senate, and one in the "Assembly, each of whom receives \$1,500 per Session for taking notes, and ten cents " per folio for such speeches as members desire copies of. I should add that the " official stenographers of our Legislature regard the place as of little value except as " a wedge to secure committees of investigation, for which the pay is twenty cents "a folio. Last winter we controlled all but one committee-a small one of \$150 "only-and got out some 4,500 or 5,000 printed pages."

This would be equivalent to at least 18,000 folios, yielding \$3,600, in addition to

the salary above mentioned.

CONGRESSIONAL REPORTING.

On this subject we cannot do better than quote a letter from Mr. D. F. Murphy, who has charge of the official reporting of the United States Senate:

UNITED STATES SENATE, WASHINGTON, D.C., Jan. 16th, 1884.

[&]quot; DEAR SIR,-Prior to 1873 the Congressional Debates were published in the " Daily Globe and paid for by Congress, the Globe reporters being allowed by the " proprietors of the paper \$4.50 per column for the debates, which allowance was "supplemented by an appropriation of \$800 yearly to five reporters in each House, "from the Treasury, a discovered attached bloom assessed he stays

"When the Globe was discontinued and the debates were ordered to be printed at the Government printing office in the present form of the Congressional Record, the compensation to be paid was fixed by taking an average of the amounts actually paid for the six preceding years and making it a round sum. In consequence of this, \$25,000 a year is allowed for the reporting of each House. The House of Representatives divides this among five official reporters, giving each a salary of \$5,000, out of which each reporter provides all the assistance he needs, some having two, others three amanuenses. The Senate pays its total to its official reporter and requires him to furnish all the assistance in the way of reporters and amanuenses required to do the work promptly; and what this involves you may infer when told that last Session the daily sittings of the Senate averaged more than seven hours.

"The sessions of Congress last one year from December till such time as the two Houses agree to adjourn, hardly ever before July, sometimes late in August, and the alternate year till March the fourth, with constant liability to extra sessions

"which often occur and for which no extra compensation is allowed.

" Yours truly,

" D. F. MURPHY,
"Official Reporter, U. S. Senate."

With reference to the cost of amanuenses, Mr. T. F. Shuey, one of the reporters of the House of Representatives, states:

"The House reporters employ on an average two amanuenses each, at a cost of

" probably \$1,000 a year for both."

This leaves the net salary of each reporter \$4,000. This figure is just double what we are asking from Parliament. Yet a careful comparison shows that United States Civil Service incomes are only about 30 per cent. in excess of those paid in Canada, while the salaries paid by the State Governments rule very much lower than those in the Dominion.

As to the expense of the official report, we would point out that the entire cost of reporting, printing editions in two languages, translating, binding, &c., barely exceeds in the aggregate the sum paid for reporting alone in the House of Repre-

sentatives at Washington.

It must be evident to the Committee, from the above considerations, that the permanency of the Staff—the most essential factor in the success of the new system—can only be guaranteed by placing their salaries on the basis which we have shown

to be fair and just.

We desire to express our willingness to meet the wishes of the Committee, in case they should think it desirable to adopt some scheme whereby our services might be placed at the disposal of the Government for a portion of the recess, for special, official, short-hand work, such as commissions, enquiries, Dominion election trials, &c.; thus practically placing our employment as well as our salaries on an annual basis.

We believe that no objection can be raised against our case that cannot be successfully removed, and we would respectfully suggest that in case any further explanations be deemed necessary, a committee of the Staff be permitted to confer

with the Committee.

All of which is respectfully submitted.

The amendments made by the Senate to the following Bills, were severally taken into consideration, and concurred in, viz.:—

Bill No. 11 respecting the Union of certain Methodist Churches therein named; —and

Bill No. 92 to incorporate "The Traders' Bank of Canada."

The House then resumed the Debate on Mr. Homer's amendment, to the motion of Sir Charles Tupper, that The House do now go into Committee of the Whole, to consider certain Resolutions.

And the question being put on Mr. Homer's proposed amendment;—it was negatived.

Mr, Reid then moved in amendment thereto, that all the words after "that" in the said proposed motion be left out, and the following inserted instead thereof:-"In the opinion of this House the proper course to take in the proposed settlement with British Columbia, is to pay over to the Government of that Province the sum of \$750,000, as proposed by the Resolutions, and to leave the Government of that Province to deal with the question of the construction of the Island Railway;"-which was negatived.

The main motion was then agreed to, and the said proposed Resolutions were considered in Committee of the Whole, adopted, reported, read a second time, and

cone rred in.

Sir Charles Tupper then introduced a Bill No. 126 respecting the arrangement with British Columbia; which was read the first time, and ordered for a second reading, on Monday next.

Sir Leonard Tilley moved, that The House do now go again into Committee of

the Whole on Supply.

Mr. Mills moved in amendment thereto, that all the words after "that" be left out, and the following inserted instead thereof:-"the Act creating the office of Resident Representative Agent for Canada in the United Kingdom recites :- that it is expedient that Canada should appoint a Resident Representative Agent in the United Kingdom to watch over her interests to be duly accredited to the Imperial Government, and it enacts that such officer shall hold office during pleasure; shall act as Representative and Resident Agent of the Dominion in the United Kingdom; and shall in that capacity discharge such duties as shall be assigned to him, and shall carry out such instructions as shall be given by the Governor in Council; and shall take charge of the Immigration Officers and Agencies in the United Kingdom under the Minister of Agriculture.

That in June 1883, Sir Charles Tupper, then Minister of Railways and Canals, and Member for Cumberland was appointed High Commissioner, retaining his office of Minister of Railways and Canals, and the salary of \$7,000 a year, and receiving the allowance of \$4,000 a year, voted in respect of the office of High Commissioner.

That in June 1883, Sir Charles Tupper went to England as High Commissioner and he returned to Canada to act as Minister of Railways in December, 1883, and

since that time has been in Canada.

That the tenure of the Offices of Minister of Railways and Canals and of High Commissioner simultaneously, is not fitting, and this House disapproves of the continuance of the arrangement; -- which was negatived on the following division .-

Mr. White (Cardwell), from the Joint Committee of both Houses on the Printing of Parliament, presented as their Fifth Report, the Report of their Sub-Committee (hereto appended) "appointed to enquire as to the best method of performing the Printing Services in future," which having adopted, they respectfully recommend for the consideration of both Houses.

COMMITTEE ROOM, 21st March, 1884.

The Sub-Committee appointed to enquire as to the best method of performing the Printing Services in future beg leave to submit the following as their Report:—

Your Committee have had under consideration the subject of the best method of carrying on the Public Printing, namely:—Whether by the establishment of a Government Printing Office where all the printing and binding of Parliament and of the

Public Departments could be performed, or by contract, as heretofore.

They have obtained a Statement (Appendix No. 1) from Mr. Robert Romaine who was for many years Superintendent of the Queen's Printing Office under the late Messrs. Derbishire and Desbarats, and a letter (Appendix No. 2) from Mr. S. P. Rounds the United States Public Printer, which are hereto appended. They have also examined Mr. Gliddon of the Queen's Printer's Office as to the manner in which the Departmental printing is now carried on, that is the prices paid for special work, and the manner of measurement adopted in checking and auditing the accounts of the Public Contractors and others performing printing for the Government.

They append statements of the cost of the Public Printing forthe last four years, both that done for the Departments (Appendix No. 3) and for Parliament (Appendix No. 4), and they are of opinion that the sum of two hundred thousand dollars may be regarded as the minimum cost per annum in the future, of the Public Printing and Binding including the Departmental and Parliamentary work, and the Printing of

the Official Debates of the Senate and the House of Commons.

Your Committee have not been able to obtain such information as would enable them to make a positive recommendation on this important subject. Such information as they have obtained points to this result: that, by means of a Government Printing Office under the superintendence of an experienced man, the printing would be done about as cheaply, and certainly better than by the Contract system; and they have formed this opinion on the belief that with the Public Printing under the control of an efficient superintendent whose interest and duty it would be to economise, the duplication and the spacing out of matter, which now obtains in the Public Reports, adding to their size as well as to their cost, would be avoided.

Your Committee however as already stated, do not venture upon a positive recommendation. They believe the subject is one which should be thoroughly enquired into before a final decision is arrived at, and with the view of permitting that enquiry to be made they would recommend that in accordance with the provision contained in the present Contracts, by which Parliament has the right to extend the same for five years, they be extended for the present for one year, from 31st December next, and further thereafter it found necessary, to which extension the several

Contractors have signified their consent in writing.

All which is respectfully submitted,

THOMAS WHITE, Chairman, Sub-Committee.

APPENDIX No. 1.

REPORT

To the Sub-Committee of the Joint Committee on Printing ;-

Gentlemen,—In compliance with your instructions dated 6th February, 1884, to report as to the best method of performing the Printing Services of Parliament for the future, the probable cost of such an office as would be capable of performing all the Departmental and Parliamentary work, that is, the cost of the building, the necessary plant, &c., the cost of working, and a comparison as to the work performed in a public printing office as compared with the present contract system, I have the

honour to submit the following Report :-

In all my experience as a practical printer, well acquainted with all the Departmental and Parliamentary Printing and Binding, not only as apprentice and conductor of the late Messrs. Derbishire & Desbarats' Queen's Printing Office, but the actual organizer, in detail, of all the printing plant and machinery in that establishment; and being the first printer in Canada to introduce steam printing in 1844, I am convinced the contract system has not been a success, either to the Government or to the contractors, for the following reasons among many others I could mention:—

1st. WORKMANSHIP.

By the wording of the printing contracts it has been evident the Government desired to have first-class workmanship. In this they certainly have not succeeded, as can be readily verified by comparing the Canadian Public Documents with those we exchange with other countries. Nor is it likely we ever will under the contract system.

2ND. ECONOMY.

If the Government desired economy in the price of composition and presswork, they have also failed to obtain their desire, because the contractors will, invariably, in order to make the low-priced composition remunerate them, have to blank or space out the matter from 20 to 40 per cent. thereby adding to the number of tokens of presswork, besides adding to the quantity of paper to be supplied by the Government and also the extra number of volumes of the Sessionals to be bound, which, if allowed to go on at the rate of the last ten years, will necessitate the Government providing more storage and shelving. As to the increased expense in forwarding by mail this extra and unnecessary weight of matter I have no means of ascertaining.

3RD. DEBATES CONTRACT.

With regard to the English Debates Contract, I think it ought to pay well at 60c. per M., and all alterations being paid for extra. Especially so will this be this Session, now that copy is supplied from the Type Writers, punctuated and capitalized, before being sent to the printers. The French Debates ought also to pay if any kind of readable copy is supplied and alterations paid for, seeing it is principally daywork.

4TH. DEPARTMENTAL JOB WORK.

It is a well known fact that the last two or three Government contracts for printing have been more profitable than those preceding, on account of the large and gradually increasing Departmental job work. And it is in this class of work that a well-managed Government Printing Bureau would produce the greatest economy, as well as the best service and workmanship. With a suitable building a portion of which could be set apart for storage of printing and fine job papers, advantage could be taken of the slack time to strike off the needed supplies of all permanent and standard jobs for the several Departments, especially those of the Customs and Post Office Departments. Then again a large portion of the jobs requiring heavy editions might remain in store till called for, and if found convenient might be wrapped, packed, addressed and shipped direct from the Printing Bureau to the place of destination, by means of the present staff appointed for that purpose, saving time, double handling and the expense of cartage, first inwards and then outwards, relieving thereby some of the now overcrowded rooms in several of the Departments.

5TH. EXCESSIVE HANDLING AND CARTAGE-THE WANT OF STORAGE.

To illustrate the economic results that would be certain to follow in having the storage immediately alongside the Printing Office, under the one roof, take for instance, the tons weight of Parliamentary matter to be mailed by the House of Commons and Bureau of Agriculture, every heavy parcel of which, could, at least, be wrapped in covers by the same hands that folded and stitched them, and be ready when required for the proper parties to ship direct to their place of destination, saving several handlings, cartage and time.

The foregoing merely refers to the Parliamentary matter after it has been printed and received by the Senate, House of Commons, the Bureau of Agriculture or any of the other Departments previous to its being mailed or otherwise distributed. I will now describe the round-about method the annual 115 tons weight of Printing Paper takes before it reaches the hands of the Printing contractor and binder, and then

afterwards delivered to the Departments alluded to

It is first received at the station, carted to the east or west end of the Parliamentary Buildings, unloaded off the carter's vehicle and loaded on to a tramway truck and run into one or other of two vaults, consigned for its reception, under the Chambers of the Senate and House of Commons respectively. Then it is again unloaded from the tram-truck and carried, in single bundles, of 104 pounds each, into the vaults, piled up, checked as to quantity and quality by the Clerk of Stationery and then delivered by him on requisitions from the printer, in quantities of 50 bundles or 200 reams at a time, having to go through a similar process of handling and carting as

already mentioned. The cartage from the station to the Parliamentary Buildings is paid for by the contractor for the supply of the paper, and costs \$4.16 per hundred bundles, or at the rate of \$1 per load, but the cartage from the vaults to the printer is paid for through the Contingent Fund of the House of Commons at the same rate

of \$4.16 per 100 bundles.

The expense of returning these 115 tons of double royal and double cap printing paper to the several Departments and House of Commons, after it has been struck off in printed sheets, is not so easily computed as that just mentioned for receiving it from the station, because fire proof storage must be had, and is insisted upon by the Government, to store the sheets until the several documents, in the act of being printed, are completed and ready to be stitched into Blue Books, or bound as Sessional Papers. It is computed that about one third of the bulk or weight of the 115 tons of paper is returned direct to the House of Commons Distribution Department for daily requirements, the other two-thirds being carted back daily to vaults under the Library of the House, in small bundles.

The next process the printing paper takes is to be again carted back from the vaults, one portion,—the Blue Book sheets to the printer to be stitched and covered, the other, the Sessional sheets, to the bookbinder, and both to be dealt with in delivering back again as already explained. These printed sheets are certainly not improved in appearance after so much handling and carting. This last expense of handling and carting these 115 tons of paper has to be borne by the contractors of both the printing and binding and is no doubt a heavy item to be deducted from the profits of

doing the work by contract.

6TH: BUILDING.

Having resided in London and other parts of England off and on for nine years, in Paris for seven or eight months, and worked for a season in one of the best book and job offices in New York, and having met and discussed in these places with some of the best Master Printers, about the best methods of laying out and organizing large printing and bookbinding establishments, I have no hesitation in stating that a great deal more reliable work, contentment, respect for their overseers, and orderly conduct, can be had from a body of employees in a large and permanent printing office, well lighted, ventilated and clean, than there could be had from, what is now very

common, a crowded and filthy office.

A Government Printing Bureau, therefore, ought to be located in an open space capable of being added to if required hereafter. It ought to be two stories high having a good basement and attic, built of stone and lined with brick, having an air space to dispense with furring and lathing, and be plastered on the brick; it ought to be 60 feet wide and about 150 feet long, divided longitudinally in the centre and transversely into three compartments by brick walls; the basement to be divided into three compartments longitudinally, the centre one the narrowest being appropriated to the steam heating apparatus. The six compartments having their dividing walls built up above the roof would render them fire-proof from each other, with the aid of

fire-proof doors for communication.

This building being divided longitudinally one half facing the north would be devoted to the printing department, and the other half facing the south, devoted to the storage of all the printing and job paper; and the Blue Books and Sessional volumes would also be stored here until finally mailed or otherwise distributed. The press-room, with all its machinery, the job and making-up departments, with the stereotype room, would be located on the ground floor, preventing any noise or bustle reaching the second floor, where would be located the composing room, proofreading or any other offices. There ought to be four fire-proof staircases all built outside the main walls of the building, one at each end and one at each side about the middle, all being extended at their ends, to accommodate the water closets or dry earth system if approved of. Each side of the building would have its hoist or elevator located at one side of the staircase, no openings or staircases to be allowed from one floor to the other inside the main walls of the building from basement to attic, the communication to be had only by way of the outside staircases, so that in the event of a fire taking place in any one of the eighteen rooms of 30 x 50 ft., an easy exit for the employees to escape by would be constantly present from basement to attic.

Looking to the very probable increased demand in the near future for storage, printing, and lithographing accommodation, and the absolute necessity of its being located in close proximity to the Parliamentary, the East and West Departmental Buildings, as well as to the Post Office and Custom House, I know of no open space so admirably adapted for a site as the south end of Major's Hill Park, with its broad Park Avenue on the east side, by which all the traffic required to or from could be be had. Starting from the south end of the Park say 300 or 400 ft. along the avenue, the Printing Bureau ought to be placed the most northerly, in order that if at any future time the Government thought it advisable to stretch a light steel angle lattice girder bridge across the Rideau Canal, the building would then be very convenient for the transit of parcels, messengers, &c., besides being out of the thoroughfare of the City; it would also have perfect immunity from fire from outside causes.

A building of the dimensions given of plain but substantial stone work, having very little wood work inside, good strong floors deafened between the joists and wood-sheeted ceilings, would cost in the vicinity of \$50,000, and the printing plant

complete to do the present wants about \$50,000.

7TH. FUTURE METHOD OF PERFORMING THE SERVICE.

The foregoing relates principally to the immediate necessity for a Government Printing Bureau, namely, cleaner press-work and better composition—more storage room for the Sessional documents and the unprinted paper, less expense and labour in handling both the printed and unprinted paper, and lastly the size and class of

building and where it ought to be located.

or of.

at

Although the reasons thus far put forward are considered quite sufficient to warrant the establishment of a Government Printing Bureau, still very much yet remains to be said in favour of the undertaking, if time permitted to do so, in order to enable me to consult some of the Deputy Heads of Departments in regard to condensing some of the Departmental Reports. I believe, however, I am justified in stating that information is given in the Trade and Navigation Returns, that is repeated in the Public Accounts, and some information is given in the latter that is also given in the Auditor-General's Report. A Government printer interested in doing his duty, no doubt would naturally remedy this if permitted to do so. It would be his duty to see that official printed matter would not be repeated two or more times in the public documents unnecessarily. The fact is, a Government printing contractor cannot have the interest of the Government at heart, but is working all his might and main in the contrary direction to make the most he can out of his contract, knowing full well he has, while his contract lasts, to recoup himself for the large capital invested in his printing plant, not being at all certain he will be awarded the next contract.

I will now place a few facts before your Committee in relation to the inside management and organization of what a Government Printing Bureau ought to be. The first and most important necessity is that the Government printer should be a practical printer, acquainted if possible, with both the French and English languages. One acquainted, if possible, not only with Government printing but with commercial printing also, in order, that, in purchasing printing material for daily consumption, he may be enabled to go into the market and be a match to cope with the keen wholesale merchant, or his assistant, the commercial traveller. He ought to have been a Master Printer and therefore accustomed to command a body of men, and avert any attempt at discontent or actual strikes amongst the employees. When I speak of a practical printer I do not mean a mere newspaper type setter, but a printer who has served his five or six years apprenticeship to the business in all its details, one who as a boy has learned to wash an ink table and dry it from all moisture,

and who can readily detect when a roller, after being washed and sponged, has lug enough to make good distribution; who when he becomes an older apprentice can put a job to press, make a good impression, who before he has completed his time will be well acquainted with book and job work. Such a printer after he has travelled and worked as journeyman in other towns or cities, need not hesitate to start business on his own account, other things being equal. Such a Master Printer can not be hood-winked or cheated by his foremen, journeymen and apprentices, as has often been the case with some of the printing contractors. The really few permanent journeymen and apprentices requisite as a reliable staff for a Printing Bureau could without difficulty be trained in the manner mentioned.

Another important fact and one that would have to be gradually remedied, is the manner in which the printer has always been supplied with copy for the Departmental Reports. He has at least a dozen masters to please in the proof reading, who are, as a rule, not experienced in that line of business, and who have no fixed ideas as to uniformity or style of typography. The result is, the foreman printer and

compositor are allowed to space and blank out as they please.

With regard to the documents laid on the Tables of the Senate and House of Commons, and ordered to be printed, the blanking out practice is largely curtailed, as has been often shown and explained by me to several of the members of the Printing Committee for these last three Sessions. Before the copy is sent down to the printer we examine it thoroughly, take out all duplicate and useless matter, condense and mark all head and date lines, signatures and addresses as close in as possible. But still all we can do and threaten we are often checkmated after we return our first galley proof, by several little dodges, as spacing out a few lines at the end of a few paragraphs in order to gain a few lines and thereby a page in making up a form. This blanking out practice in contract Government printing is a very old one, and I cannot see any remedy but for the Government to do their own printing, and I have no doubt this may be as easily accomplished, as when several years since, the Government became their own importers of stationery.

After a careful study of not only the desirability, but the absolute necessity there is for the establishment of a Government Printing Bureau I have arrived at the

following conclusions :-

1st. That for the reasons set forth in the foregoing, a saving of at least 25 per cent., can be had in the quantity of paper, presswork and book binding,—especially now as five copies of the Debates are ordered for the members instead of three as

formerly.

2nd. That taking the nominal prices now paid the contractor for the composition of Parliamentary and Departmental job work, I do not consider them excessive at all, but taking in conjunction with the facts stated in regard to the bad workmanship and blanking out system then I do consider the prices excessive, because the contract is not honestly carried out, nor ever will be under any contract that can be written.

3rd. That taking the amount now paid under the contract system annually, I firmly believe that the whole cost of the plant and building of a Government Bureau

would be recouped in five years.

4th. That irrespective of the profit and loss involved in the contract system of printing, there still remains the question of the absolute necessity for more storage room, as set forth under the head of storage and excessive handling and carting.

DEBATES.

In the former part of my Report I have alluded to the Debates contract paying well. I have not seen the contract, and only base my opinion upon the price per mille ems, and the hearsay arrangement that all "alterations" are to be paid for "extra." It would, therefore, be advisable to have Mr. Boyce, the proof reader of the Debates, brought before your Committee to find out what is meant by the word "alterations,"—is it merely the natural corrections in first proofs for first edition, or is it alterations in the speeches made by the members for the second edition? Then again who is it decides and examines these "extra" charges, is it Mr. Boyce who is a practical English printer, or is it left to the discretion of the contractor.

DEPARTMENTAL JOB WORK.

On application to the Postmaster General and the Minister of Customs, I have obtained a complete set of formes, very well classified, from both Departments, the former numbering about 800 and the latter about 400. It would be impossible in a written report to give a correct or adequate idea of the extent and variety of these jobs. Mr. Gliddon, who is also a practical printer, in the Department of the Queen's Printer, ought also to be called before your Committee and state as to the several prices paid, how often these jobs are put to press and paid for as new composition, faint lining, binding, &c., and whether the indorses are paid for as full pages or not, as they are in the case of the Parliamentary printing.

There are several questions of importance alluded to in my Report, which, in a technical sense, could be more clearly explained and described when accompanied by the documents themselves, both printed and unprinted. For this reason I would like to be permitted to appear before your Committee also, and give what information you may think necessary in furtherance of your views for the establishment of a permanent Printing Bareau, an establishment that would be a credit to this great and

rapidly increasing Dominion of Canada.

I have the honour to be, Gentlemen, Your obedient servant,

ROBERT ROMAINE,
Proof Reader, English, and Clerk of Stationery

APPENDIX No. 2.

Office of Public Printer, Washington, D.C., 9th February, 1884.

HENRY HARTNEY, Esq., Clerk, Printing of Parliament, Ottawa, Canada.

Dear Sir,—I have the honour to acknowledge the receipt of your communication of the 6th instant; and I regret to say that it came just at a time when every hour of my time is taken up with pressing official duties, and which will at this time prevent my giving you any articles, figures or estimates. But I will send you by this mail a copy of my last Report to Congress, which will give you much information about the working of this office. I can say that for many years the work of this Government was done on the contract system and it gave so much trouble, and was so expensive that Congress determined to establish this office; and the change has been a very beneficial one. Not only is the work done much cheaper, but far more promptly and satisfactorily than ever before,—and I have no doubt but that you would have the same experience should you establish a Government office. With a proper and careful selection of modern machinery, type and material, good workmen, and care in the purchase of stock, &c.,—there is no reason why the Government should not save all the profits that are earned in the regular business, as conducted by private parties.

Should your Parliament decide to establish a Government Office, I have no doubt that with my life long experience as a Printer and a manufacturer of printing materials, added to my experience as Public Printer, I might be able to be of some

service, and I would be very glad to render any such aid in my power.

I have the honour to be, Very respectfully yours,

> S. P. ROUNDS, United States Public Printer.

nd

the

Bill No. 38 to prevent fraud in the Manufacture and Sale of Agricultural Fertilizers.

The House resumed the adjourned Debate on Mr. Foster's proposed motion,—and which motion was, that the object of good government is to promote the general welfare of the people by a careful encouragement and protection of whatever makes for the public good, and by an equally careful discouragement and suppression of whatever tends to the public disadvantage.

That the traffic in alcholic liquors as beverages is productive of serious injury to

the moral, social and industrial welfare of the people of Canada.

That despite all preceding legislation the evils of intemperence remain so vast in magnitude, so wide in extent and so destructive in effect as to constitute a social peril

That this House is of the opinion for the reasons hereinbefore set forth, that the right and most effectual legislative remedy for these evils is to be found in the enactment and enforcement of a law prohibiting the importation, manufacture and sale of

intoxicating liquors for beverage purposes.

Mr. White (Cardwell) moved in amendment thereto, that the following words be added to the said motion :- "And this House is prepared, so soon as public opinion will sufficiently sustain stringent measures, to promote such legislation, so far as the same is within the competency of the Parliament of Canada;"-which was agreed to.

And the question being put on the main motion, as amended;

Mr. Robertson (Shelburne) moved in amendment thereto, that the following words be added to the said motion:—"And this House is of opinion that the public sentiment of the people of Canada calls for immediate legislation to that end;"—which was negatived on the following division:—

Does the Government still allow and pay interest on said Fund at the rate of 5

PRAYERS.

Nineteen Petitions were brought up, and laid on the Table.

The following Petitions were read and received :-

Of Charles Knapton and others, of Napier, and other places; of the Reverend J. S. Henderson and others, of Wendigo and other places; of Jasper Wilson and others, of Camlachie; of Henry Thomas and others, of Bridgewater; of William Oliver and others; of George Habkirk and others; and of Peter Macfarlane and others, of McKillop, all of Ontario; severally praying for such amendments to the existing law, as will secure a better observance of the Lord's Day.

Sir Hector Langevin, from the Select Standing Committee on Railways, Canals, and Telegraph Lines, presented the Fourteenth Report of the said Committee, reporting the Bill No. 91 to incorporate the Niagara Frontier Bridge Company, with amendments.

The Bill No. 63 to consolidate certain Railway Companies therein mentioned, under the name of the Eastern Railway Company, they beg leave to report the Preamble thereof not proven, for the reason that in view of the representations made, it is inexpedient to proceed further with the proposed measure, they would therefore recommend that the said Bill be withdrawn, and the fees and charges paid thereon be refunded, less the cost of printing and translation.

Mr. Scriver, from the Joint Committee of both Houses on the Library of Parliament, presented the Second Report of the said Committee, which is as follows:—

The Honourable the Speaker of the House of Commons having communicated a request from the Speaker of the Legislative Assembly of Ontario, to borrow from the Library the Journals of the Legislative Assembly of Upper Canada from 1792 to 1825, the question whether MSS. should be taken out of the Library was brought up. The Committee considered that such a practice would be most objectionable and recommend that it be a Standing Order:—"That while every facility be given to those who desire to copy MSS., under no circumstances are the latter to be removed from the Library."

It having been brought to the notice of the Committee that it is proposed to publish a second edition of the late Dr. Todd's work on "Parliamentary Government in the Colonies," they recommend that, in view of the desirability of bringing out a new edition of this valuable work, the Government be requested to ask for an appropriation of \$2,000 for the purpose of purchasing three hundred copies of the same.

In 1879 it was found necessary to supply the Library with a new Catalogue, to replace the old one worn out by twenty years use, and, at the request of the late Dr. Todd, the work was entrusted to Mr. Thayne, on account of his special qualifications. Experience has shown that it would be advisable to give the charge of the Catalogue to the same person in order to insure uniformity of classification in the constant additions made to the Library, and in view of the fact, that it will soon be necessary to remodel the American and Canadian Sections of the Catalogue—a work requiring a great deal of method and extensive bibliographical knowledge. The Committee, therefore, think it desirable to have Mr. Thayne, who has been employed since 1879 as extra clerk, added to the permanent Staff of the Library, and they recommend his appointment at a salary of \$1,000.

The Committee have considered the question of loaning books to the public during recess, and they have agreed to the following Rules which they recommend

to both Houses to be adopted as Standing Orders: -

1. That the Librarian be directed to report at the beginning of each Session to the Committee the names of those persons who have failed to comply with the Rules under which they have been permitted to borrow books from the Library.

2. That the Librarian be authorized to renew the tickets of admission to the

Library to those only who have complied with the Rules.

Eight Petitions were brought up, and laid on the Table.

Mr. Beaty, from the Select Standing Committee on Standing Orders, presented the Ninth Report of the said Committee, which is as follows:—

The Committee have considered the Petition of the Winnipeg and Hudson Bay Railway and Steamship Company; praying for the passing of an Act empowering them to continue and amend their Act of incorporation, and find that no notice has been given, the necessity for the application having arisen too recently to admit of it, and the reasons assigned justify them in recommending a suspension of Rule 50 in this case.

They also recommend, that the time for receiving Private Bills (which has expired) be extended one day, and that for receiving Reports thereon (which expires to-day) for five days; and further that the notice required by the Rule 60 to be given by Committees prior to the consideration of Private Bills, be reduced from a week to one day, for the remainder of the Session.

On motion of Mr. Beaty, the time for receiving Private Bills was extended one day—for receiving Reports thereon five days—and the notice required under Rule 60, was reduced from one week, to one day for the remainder of the Session, in accordance with the recommendation of the foregoing Report.

Mr. White (Cardwell), from the Select Committee appointed to supervise the Official Report of the Debates of this House during the present Session, presented the following as their Fifth Report:—

That as the contracts for the *Printing* and *Binding* of the Official Report of the *Debates* of this House expire with the work of the present Session, and as the Contractors have expressed in writing their willingness to accept an extension of their respective contracts for another Session on the same terms and conditions, as those of the present contracts; the Committee recommend that the same be extended accordingly.

The Committee have had under consideration the question of the Translation of the Official Report of the Debates of this House, and have decided to recommend:

1. That commencing with next Session, with the object of securing the more prompt delivery of the daily French Edition, the English proof-reader be required to prepare for the use of the Translators, a fair copy of the Daily Sheets of the Debates as revised and corrected by Members for the bound edition, and that thereafter the translation be performed from such revised daily sheets.

2. That the Chief Translator be required to keep a record of the daily work performed by each Member of the translating staff, which record shall shew the translation performed, and be signed, be each translator and certified to by the Chief, and fyled every Saturday with the Clerk of the Committee.

3. That the appointment of Messrs. Bouchard and Lassalle, as additional translators, for the work of the present Session remaining to be done be continued and

made permanent.

4. That Mr. A. E. Poirier be appointed as an additional translator and that his

appointment date from the commencement of next Session.

A Message was received from the Senate, with an Address to Her Most Gracious Majesty of condolence on the death of His Royal Highness, Prince Leopold, Duke of Albany, to which the concurrence of this House was desired;—and the said Address was read and is as follows:—

To the Queen's Most Excellent Majesty,

MOST GRACIOUS SOVEREIGN:

We Your Majesty's dutiful and loyal subjects, The Senate and a man and of Canada, in Parliament assembled, humbly approach Your Majesty with the renewed assurance of our attachment to Your Majesty's Person and Government.

The intelligence of the further affliction which has befallen You, in the early and sudden death of His Royal Highness, the Duke of Albany, has deeply touched the hearts of Your Majesty's subjects in this part of Your Empire; We speak in their name, as well as in our own, when we humbly tender You the expression of our respectful and earnest sympathy.

Your Illustrious Son had spent some time in Canada, during the residence here

of the Marquis of Lorne and Her Royal Highness the Princess Louise.

Our attention was thus naturally drawn to the high position he had, so early in life, attained in the world of Literature and Science, and we had looked forward with confidence and hope to the increasing usefulness of his already distinguished career.

Your Majesty's bereavements have indeed been many and grievous, and the interest which You have so often and graciously shown in the afflictions of Your subjects, of low as well as of high degree has intensified our sympathy with Your own; Your Majesty's sorrows, we say it with respect of dutiful subjects, have been ours.

We pray that the God of consolation may comfort Your Majesty, and long preserve

You to Your people.

On motion of Sir John A. Macdonald, the said Message and Address were ordered to be taken into consideration, to-morrow.

Mr. Davies moved, that by the terms of the Treaty of Washington, 1871, the privilege of using the territorial waters of the Dominion of Canada and the then Provinces of Prince Edward Island and Newfoundland for a certain term for fishing purposes, in common with British subjects, was granted to American Citizens, on and after such times as the necessary laws to carry the treaty into effect were passed by the Imperial and Dominion Parliaments, the Legislatures of the said Provinces and the Congress of the United States, in consideration of the payment by the United States Government of such compensation as should be determined by Arbitrators appointed by such Treaty.

That the necessary legislation in the premises was passed by the then Province of Prince Edward Island, in the year 1872, while such Island constituted a separate Province, and being also passed by the Imperial and Dominion Parliaments and the American Congress, the Treaty came into force on the 1st July, 1873, from which date the American fishermen have continued to use and enjoy the said Fisheries.

That immediately upon the passing of such Legislation, Prince Edward Island as such separate Province and as a consenting party to the Treaty, became entitled to a share of any award which might afterwards be made in favour of Great Britain as compensation for the fishing privileges conceded by the Treaty to the Americans.

That Prince Edward Island entered the Confederation on the 1st of July, 1873, upon certain specified terms which did not either expressly or by implication transfer to the Dominion the right vested in the Province to a share of such compensation.

That subsequently the Commissioners appointed under the Treaty awarded to Great Britain the sum of \$5,500,000 as compensation for the privileges accorded to the United States fishermen.

That the Imperial Government paid out of such award to the Province of Newfoundland the sum of \$1,000,000 as its share of the award and the balance of the said sum less certain expenses, was paid over to the Dominion of Canada which now holds the same.

That in the opinion of this House the Province of Prince Edward Island is entitled to receive such a fair proportion of said award as the value of the privileges conceded by that Province to the Americans, before entering Confederation, bears to that conceded by the Dominion as constituted when the Treaty of Washington was ratified.

And a Debate arising thereon; -at 6 o'clock P.M., Mr. Speaker left the Chair, to resume the same, at half-past seven o'clock P.M.

7.30 P.M.

(The Order for Private Bills was called under Rule 19).

Also appended to this Report will be found applications from Mr. Romaine and Mr. Sloane (Appendices A and B), in charge of the Stationery and Proof-reading Department of the House of Commons, for a yearly allowance for certain services performed, as set forth in a document hereto also appended (Appendix C) entitled "Office duties of the Stationery and Proof-reading Department," for which service the Committee would recommend \$300 per annum to Mc. Romaine and \$200 per annum to Mr. Sloane—such payments to date from 1st January last.

REPORT OF THE SUB-COMMITTEE.

COMMITTEE ROOM,

2 4h March, 18:4.

The Sub-Committee on the Printing of Parliament, to whom was referred the auditing of the Printing Accounts for the past year, and other references, beg leave to report as follows:—

That they have carefully examined the Annual Statement of the Parliamentary Printing Accounts for the fiscal year from 1st July, 1832, to the 30th June, 1883, and compared the several items of expenditure with the vouchers connected therewith, and found all the entries correct, and being thus satisfied with the correctness of the accounts, they have certified accordingly—and have signed.

On the reference of the Sub-Committee as to the appointment of an additional Messenger in the Distribution Office, they would respectfully recommend that John Wiltshire be so appointed at the same rate of remuneration as the other Messengers.

On the reference to the Sub Committee of the letter of Mr. Romaine applying for remuneration for extra proof reading and preparing Index during the past Recess, they would recommend that the sum of \$100 be granted for that purpose, to be paid to Mr. Romaine and his Assistant.

All which is respectfully submitted,

THOS. WHITE, Chairman.

COMMITTEE ROOM, 29th January, 1884.

To the Chairman and Members of the Joint Committee on Printing:

GENTLEMEN,—I beg to submit the Annual Statement of the Receipts and Expenditure on account of the Printing of Parliament, for the fiscal year ending 30th June, 1883. It is contribled to by the Auditor General, and signed by him, as being correct.

During the Recess the several services have been performed in the usual manner; but I must again respectfully draw attention to the crowded state of the Distribution Office. The space being so very limited that it is impossible for the Employés to perform the necessary work with safety, or with satisfaction to themselves, or those whom they serve. Action was taken by the Committee in this matter last Session,

but no practical result has as yet followed.

I received notice from the Deputy Minister of Finance, requiring me to send in the Estimates for the printing of Parliament for next year; and also, whether a Supplementary would be required for this year. As the quantity of work performed during the first six months of the present fiscal year was much larger than usual, and estimating the cost of the present Session by that of the preceding one, I thought it advisable, in reply, to ask that \$20,000 be placed on the Supplementary Estimates for this year, and \$70,000 on the Estimates for next year, subject to the approval of the Committee.

On the 31st December next the present contracts for the Printing, Binding and the supply of Printing Paper, will expire,—it is therefore necessary to make immediate provision for the future performance of those services. The contracts however contain the following provision: "With the right nevertheless to the ————said "party of the second part, or his successors in office, at the option and by the direction of the two Houses of Parliament of Canada, to continue the contracts during the further period of five years, from the day last aforesaid," that is, from the 31st day of December, 1884.

All which is respectfully submitted.

Resolved, That this Sub-Committee having examined the arrangements made by Mr. Romaine in the Stationery room, express their cordial approval of the system which he has introduced into all the details of his department, by which a large saving has been made in expenditure and better facilities afforded for meeting the

wants of the Members of the House of Commons.

John Charlton, G. W. Ross, Alph. Desjardins, R. Stephenson.

I have the honour to be, Gentlemen, Yours very respectfully,

> ROBT. ROMAINE, Proof-reader, etc.

To the Joint Committee of both Houses on the Printing of Parliament :

Gentlemen,—Mr. Romaine having read me his application to your Honourable Committee, asking an annual allowance on account of work performed for your Committee in this Office, I, on the same grounds, place my application in your hands, trusting it will receive your favourable consideration. I have been for the last seven years employed in this Office.

I have the honour to be, Gentlemen, Your obedient servant,

Assistant Proof-reader, etc.

(C.)

OFFICE DUTIES OF THE STATIONERY AND PROOF-READING DEPARTMENT.

The Office during the Session is kept open from 9:30 a.m. to 11 or 12 p.m. (except from 6 to 7:30 for tea) for the delivery of stationery to the several Committees, Members, Reporters and Officers of the House. During the Recess we often remain in the Office till 6 p.m. to push forward the proof-reading. We took exactly five months after the close of the last Session to finish the proof-reading of the Sessional Papers.

Stationery Department.

(1.) Stock has to be taken by the end of June to ascertain what has been issued the past year and what will be required for the following Session.

(2.) To make out the orders for Stationery required for the ensuing year.

(3.) The new stock begins to arrive from England about the middle of September and ends about the middle of January, and generally consists of upwards of 200 cases. which have to be unpacked, invoices checked, the contents sorted and placed on the shelves.

As soon as sufficient stationery is received, the work of packing the Members

and Reporters' trunks is commenced; this year they numbered 250 in all.

(5). Deliver the stationery, as it may be required to the Members, the Committees, the Officers, and Extra Clerks of the House, etc., and keep accounts of the quantity.

that to be ordered, with the cost price.

- (7). To count out the paper and prepare for the binder and printer the annual blank books, blank printed forms, circulars, tickets required by the several Officers of the House.
- (8). A good deal of time is taken up attending to the Hansard Staff (English and French) giving practical instructions to the binder and printer, and making small purchases of stationery in the city during the Session and Recess; requisitions having to be given and the accounts for the same certified before payment.

Proof-Reading Department:

(1.) To receive all Returns ordered to be printed by the Printing Committee. examine their paging, cull out duplicate matter, shorten the signatures, date-lines, titles, etc., and keep a memorandum of the number of pages of manuscript expunged.

(2.) Read and revise the proofs of Documents required during the Session, as well as proofs of Sessional Papers, and Appendix to the Journals, as soon as possible so as not to detain the Printer from putting to press. There are also several miscel-

- laneous jobs to be read for the Offices of the House during the year.

 (3.) A Register is kept of the dates of all Sessional Papers received from the Clerk of Printing, when they are sent, when the first proof is received, and final revise is returned to the Printer, in which is also entered the number of manuscript pages, maps, etc., contained in each document, and whether extra copies are ordered or not.
- (4.) We keep also a Register of the Proofs and first and second Revises received and returned to the Printer.
- (5.) The collating of the 28 Volumes of English and French Sessional Papers was not completed till the latter end of October last.

(6.) Prepare during, and in time for the close of the Session the Numerical and

Alphabetical Indexes for the Sessional Papers.

(7.) To receive from the Contractor, during the year, about 8,500 reams (or 11 car loads) of printing paper, check it as to quantity, quality and weight, see it stowed away into the vaults, and then after deliver it in small quantities to the Printer and Binder as required.

NOTICES OF MOTIONS.

Mr. Baker (Missisquoi)—On Monday next—Enquiry of Ministry—Is the Right Hon. the Leader of the Government correctly reported in Hansard as having stated last Session "That if the Minister of Justice was spared, and the Government lasted till the next Session, they would be prepared to submit a measure upon the subject (the re-adjustment of Judicial Salaries) for the consideration of the House?" Has the Minister of Justice been spared? Has the Government lasted? When is it the intention of the Government to submit the promised measure?

Mr. Gigault—On Monday next—Enquiry of Ministry—Whether the Government have considered the Report made by the Committee appointed to enquire into the best means of encouraging and developing our Agricultural Industries, and whether they purpose giving effect to the recommendations of that Committee by providing for the establishment of a Board of Agriculture and of an experimental farm?

Mr. McLelan—On Monday next—Bill intituled: "An Act respecting the Department of Marine and Fisheries."

Mr. Ouimet—On Monday next—Enquiry of Ministry—Whether the Government have received any communication from the Grand Trunk Railway Company offering to place the North Shore Railway, from St. Martin to Quebec, at their disposal, with a view to an arrangement of such a nature as to enable the Canadian Pacific Railway Company to reach Quebec by that line; and if so, what is the nature of the said communication, and have the Government taken any action in relation thereto?

Mr. Ouimet—On Monday next—Enquiry of Ministry—Whether it is to the knowledge of the Government that the Canadian Pacific Railway Company has adopted measures for the acquisition of the North Shore Railway, or that it has taken any steps for that purpose?

Mr. Hesson—On Monday next—Enquiry of Ministry—Whether they have seen an article in the Winnipeg Sun to the following effect: "Trouble is likely to arise over the inauguration of a new system of having goods manifested at St. Vincent by the Canadian Customs authorities rendering it necessary to carry manifests with the Way Bills—that an Immigrant who arrived with the first load of Immigrants this season informed a reporter that a Customs Broker named Chapman who lives in St. Vincent charged each member of the party who had baggage fifty cents a piece for passing it. Owing to some hitch the manifests were not signed and the Immigrants had to pay another fifty cents to get their goods passed. Enquiry was made at the Canadian Pacific Railway offices about the matter, and the facts were in the main corroborated." And is there anything in such statements?

Mr. Cameron (Middlesex)—On Monday next—Order of The House, for a Return shewing the various sums paid by the Government of Canada to John Lowe, George Johnston, George R. Kingsmill, and any other person or persons, since 1880, as expenses or remuneration for services rendered in connection with investigations into, or information respecting the alleged exodus of population from Canada to the United States.

Sir John A. Macdonald—On Tuesday next—In Committee of the Whole—That it is expedient that a salary of \$4,000 be provided for an additional Puisné Judge of the Queen's Bench in the Province of Manitoba.

Sir John A. Macdonald—In Committee of the Whole—That it is expedient to amend "The Liquor License Act, 1883," in several respects, and especially as to the time for applying for and taking out Licenses,—as to the appointment of Commissioners and as to legal proceedings enacted and the penaltics imposed by the Act, and by providing that any deficiency in the license fund, in respect of expenses, may be made good out of moneys voted by Parliament for the purpose.

Mr. Scriver, from the Joint Committee of both Houses on the Library of Parliament, presented the Third Report from the said Committee, which is as follows:—

The First Report of the Joint Committee on the Library of Parliament having been referred back for further consideration, the Members on behalf of the House of

Commons beg leave to present the following as their Third Report:

The Committee took occasion at their first meeting, to record their extreme regret at the recent sudden death of Dr. Alpheus Todd for many years Librarian of the Parliament of Canada. In his demise, not only this Parliament and Country, but all Countries possessing similar forms of Government, have sustained a heavy loss. His great constitutional knowledge and general erudition made him a most reliable counsellor to all those who had occasion to consult him, whilst his courteous manners and kindly disposition enhanced the value of his intellectual endowments.

The regret which the Members of the Committee, in common with Dr. Todd's many other friends, experience at his unexpected removal from their midst, finds some mitigation in the reflection that his admirable works will survive as an enduring monument of his untiring industry and extensive and accurate knowledge, and of his

devotion to the institutions under which we live.

In view of the vast number of Maps and Charts possessed by the Library, and of the numerous publications of this nature issued every year referring to Canada and the North-West Territories, it is thought advisable to adopt means to render them more accessible for reference. The Committee, therefore, recommend the organization of a Section of Chartography and to set aside for this purpose one of the side rooms of the Library and to turnish it with the necessary apparatus.

The Committee also recommend that wire screens, similar to those placed over the works on Canada, be extended to the principal Sections on the ground floor to

secure better protection for the books placed therein.

The accounts of the Librarian of the expenditure of the Parliamentary grant for the augmentation of the Library during the past year have been examined and approved.

The Report of the Sub-Committee of Audit, composed of the Hon. W. H. Odell,

Messrs Colby and Scriver is herewith submitted.

GEORGE A. KIRKPATRICK,

Speaker.

NOTICE OF MOTION.

Sir John A. Macdonald—On Thursday next—Committee of the Whole, to consider the following Resolutions to be embodied in the Bill (No. 152) An Act to amend "The North-West Territories Act, 1880":

That the Governor in Council shall fix, from time to time, the fees and charges

to be paid for the registration of deeds and instruments.

That the salaries of Registrars shall be fixed by the Governor in Ceuncil, and shall be payable out of the Consolidated Revenue Fund of Canada; but no such salary

shall exceed twelve hundred dollars a year.

Whenever the registration fees and charges collected or collectable by any Registrar in any two years consecutively amount to more than fifteen hundred dollars a year, as ascertained by the quarterly returns and Report of Inspector hereinafter mentioned, the salary of such Registrar shall cease to be so payable, and thenceforth he may retain to his own use all the fees and emoluments received by him in each year.

That the salary of the Inspector of Registry Offices shall not exceed twelve hundred dollars a year, and shall be payable out of the Consolidated Revenue Fund of

Canada.

That the Sheriff may, subject to the approval of the Lieutenant Governor, appoint Deputy Sheriffs, who shall be paid such fees as are appointed by a schedule to that effect made from time to time by the Governor General in Council.

That section eighty-vine of the said Act be hereby amended by striking out the

following words, "To District Registrars not exceeding \$1,000."

O'TTAWA: PRINTED BY McLean, Roger & Co. 1881.	HOUSE OF COMMONS.	2d Session, 5th Parliament, 47 Victoria, 1884	NO. 68. OTTAWA, TUESDAY, 15TH APRIL, 1884.

No. 64.

VOTES AND PROCEEDINGS, HOUSE OF COMMONS.

OTTAWA, WEDNESDAY, 16TH APRIL, 1884.

PRAYERS.

One Petition was brought up, and laid on the Table.

The following Petitions were read and received :-

Of the Reverend George Porteous, and others, of Kitley, County of Leeds, Ontario; of the Reverend Kenneth Mackenzie, and others; of D. F. McRae, and others; and of Arthur W. McCurdy, and others, of Baddeck, all of Nova Scotia, severally praying for such amendments to the existing law as will secure a better observance of the Lord's Day.

Mr. Ouimet, from the Select Committee on the Petition of Joseph D. E. Myrand, of the City of Quebec; praying for an examination of his new model of a Ballot Box,—with instructions to examine the merits of the said Ballot Box, and to report to this House as to the expediency of adopting the same for Dominion Elections, presented a Report from the said Committee, which is as follows:—

The Committee have examined the new mechanical Ballot box of Mr. Ernest

Myrand;

After having carefully considered the matter, the Committee are of opinion that the new system of Balloting offers the advantages mentioned in the Petition—hereunto annexed—by the said inventor, to The House, to wit:

1. Simplification of the method of voting;

2. Doing away with conventional signs on the voting Ballots;

3. The securing of absolute secrecy of voting;4. Lessening the danger of the loss of a vote;

5. Obviating the necessity of a Judicial recount in the future;

There is nevertheless a difficulty as to adopting the system for counties, where more than one Member is to be elected, and that if that objection could be overcome, the Committee would have no hesitation in recommending the Box to the special attention of The House.

(For the said Petition herewith, see Appendix No. 9.)

A Message was received from the Senate, agreeing to the Bill No. 139 respecting the London Life Insurance Company, without amendment.

Also,—agreeing to the Bill No. 120 to amend the "Weights and Measures Act Act of 1879," with amendments.

Sir Hector Langevin moved, that the Bill No. 134 from the Senate, intituled: "An Act turther to amend the Act 31 Victoria, Chapter 12, intituled: "An Act respecting the Public Works of Canada," be now read a third time.

Mr. Davies moved in amendment thereto, that the said Bill be referred back to the Committee of the Whole, with power to amend the same, by adding thereto the following words:—"provided that no such sale or lease shall prejudice or affect any right or privilege of any riparian owner;" which was agreed to.

The said Bill was accordingly recommitted, amended, reported, considered as

amended, agreed to, read a third time, and passed, (as amended).

Mr. McLelan moved, that the Bill No. 140 respecting the Department of Marine

and Fisheries, be now read a third time.

Sir Richard Cartwright moved in amendment thereto, that the said Bill be read a third time, this day six months;—which was negatived on the following division:—

To this Bill the Royal Assent was signified in the following words:-

"In Her Majesty's name, His Excellency the Governor General thanks Her Loyal subjects, accepts their benevolence, and assents to this Bill."

After which His Excellency the Governor General was pleased to close the Second Session of the Fifth Parliament of the Dominion, with the following Speech:

Henourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

The assiduity and zeal shown by you in the performance of your important

dnties deserve my best thanks, and I desire to convey them to you.

There is every reason to anticipate that the liberal aid given by the loan to the Canadian Pacific Railway will secure the speedy and satisfactory completion of that great national work.

I congratulate you on the adjustment of all matters of difference between the Dominion and the Province of British Columbia by the legislation of this Session.

The larger appropriations made for the furtherance of railway construction may be expected to assist materially in the development of our commerce, both foreign and domestic, as well as to open up for settlement extensive fertile districts hitherto almost inaccessible.

The several measures for the benefit of the Indian communities and for their encouragement to assume the responsibilities of self-government are well adapted for the purpose, and the amendments of the law relating to the Dominion lands will give additional facilities and advantages to settlers in the North-West Territories.

The re-adjustment of the annual subsidies to the several Provinces, while adding to their resources, will place their pecuniary relations with the Dominion on a satis-

factory and permanent basis.

The several important measures which occupied your attention, and will now become law, must all tend to the benefit and improvement of the country, and the numerous Private Bills with industrial objects, submitted to me, indicate the existence of a healthy spirit of enterprise among our people.

Gentlemen of the House of Commons:

I thank you, in Her Majesty's name, for the supplies you have granted for the Public Service.

Honourable Gentlemen of the Senate:

Gentlemen of the House of Commons:

In bidding you now farewell until next Session, I trust that when we next meet I may be able to congratulate you on the continuing prosperity of our country.

The Parliament of the Dominion of Canada was then prorogued to Thursday the 29th May, next.
