## LABOR LEADER ARRESTED FOR COMPLICITY IN DYNAMITING

Sequel to Destruction of Los Angeles Times on Oct. 1—Explosives and All the Material for Infernal Machines Found in Headquarters of International Union—President of Union Claims It Was a "Plant."

STORY OF AN EXCITING TRAIL BY DETECTIVE

INDIANAPOLIS, Ind., April 22.—After months of investigation, directed by William J. Burns, the San Francisco graft investigator, now head of a detective agency, John J. McNamara, international secretary of the Bridge and Structural Iron Workers of America, the headquarters of which are in Indianapolis, was arrested here late to-day charged with complicity in the dynamiting of the Los Angeles Times, on October 1st, 1910, and the plant of the Llewellyn Iron Works in Los Angeles.

Four hours after McNamara was arrested, detectives found two quarts of nitro-glycerine and seventeen sticks of dynamite in a barn three-quarters of a mile west of Indianapolis. The barn, the detectives say, was rented by McNamara from T. H. Jones, the owner.

A later investigation of the international offices of the union disclosed, in a storeroom, in the basement of the building, 64 sticks of dynamite, 200 feet of fuse, 500 granite caps, one dozen small alarm clocks and a leather case made to carry a ten-pound can of nitro-glycerine. Detective Burns took possession of all the explosives.

Question papers from the governor of California, having been signed by Governor Marshall, before the arrest of McNamara, he was arrested immediately before Judge Collins in police court.

Rushed Out of City in Auto. Twenty minutes after McNamara had been seized in the association headquarters in the American Central Life building, where a meeting of the executive board of the organization was just adjourning, he was taken from the city by four detectives, in an auto. It is supposed it was the object of the officers to get McNamara out of reach before his friends had a chance to fight the requisition.

Soon after the prisoner had been hurried into the awaiting automobile, Detective Burns ran for another automobile and rode to the American Central Life building, where M. Ryan, president of the association, and six members of the executive board were being held by the police, pending an investigation. Doors of the room were guarded with a squad of police.

Immediately after the officers of the union were searched, Detective Burns said a search in the basement of the barn west of Indianapolis, where the explosives were unearthed. The detectives then returned to the city when a search in the basement of the headquarters revealed more explosives. Claims it is a "Plant."

President Ryan said to-night that he had been connected with a union labor for several years, and had never heard of a case similar to the one charged to McNamara, but he had known of cases where "plants" had been made by enemies of labor organizations, and that if explosives were found to-night they had been placed by enemies of the organization.

The custodian of the building where the offices of the union are, said that McNamara had come to him six months ago and asked for a store room and that the request had been granted. He added that he had never seen McNamara or his companions carry anything to the store room.

Burns says Otto Mankig, who was arrested in Detroit, told him where these explosives could be found, and it was upon this information that the search was made to-night. The dynamite and nitro-glycerine were found buried under sawdust in the barn. Jones, the owner of the barn, is also a structural iron worker. He said the explosives were placed there last January, and that McNamara and other men made various trips to the barn with suit cases, but he did not know the purpose of their visits. Jones says that McNamara rented the barn and paid him \$25 a month for its use. It is situated about three-quarters of a mile west of the city.

Detectives on the Trail. CHICAGO, April 22.—Officials of the agency with which Wm. J. Burns is connected, to-night told of the events leading up to the capture of the men charged with the dynamiting at Los Angeles. Burns was in Los Angeles at the time of the explosion and attended a conference with Mayor Alexander, the chief of police and the Merchants and Manufacturers' Association. For a while he worked under the supervision of the Los Angeles authorities, and then, following a misunderstanding, took up the work on his own responsibility.

He turned to his evidence gained of an attempt to dynamite a bridge in Peoria, Ill., in Sept., 1910, where an infernal machine, planted near the bridge, had failed to explode. The conditions in Peoria coincided so closely with the evidence following the Times explosion that the detective decided both explosions had been the work of the same men. The detective already had suspicions that the Peoria work had been done by Orville E. McGinley of Chicago, a structural iron worker.

Continued on Page 7, Column 5.

## More Arrests to Follow

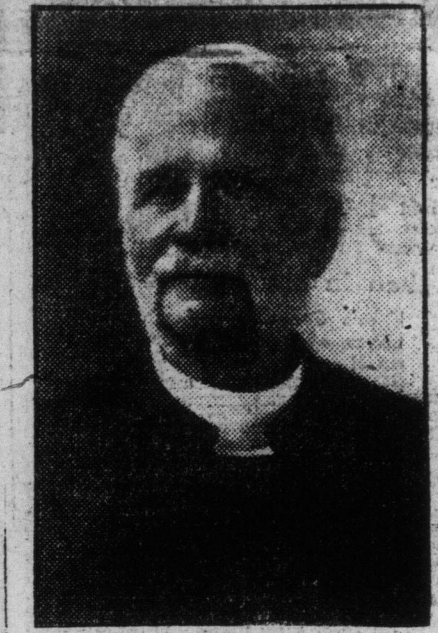

LOS ANGELES, Cal., April 23.—The arrest at Indianapolis to-night of John J. McNamara, secretary and treasurer of the International Bridge and Structural Iron Workers, for alleged complicity in the dynamiting of the Los Angeles Times building on Oct. 1, 1910, and the consequent loss of 21 lives, was made on instructions from the district attorney of Los Angeles County. These arrests are the first that have been made since the grand jury, after several weeks of investigation and examination of many witnesses, returned 23 indictments against persons alleged to have been concerned in the disaster. District attorney Fredricks stated that other arrests involving prominent labor leaders will follow, and that the theory of the prosecution in the case will be that the explosion was the result of a conspiracy formed for the purpose of retaliating upon the newspaper for the stand it had taken in a strike of the structural iron and brewery trades, and for its attitude toward union labor.

## GOLDEN JUBILEE FOR ST. STEPHEN'S RECTOR

Eulogistic Words Spoken of Rev. Canon Broughall's Ministry—Talent, Coupled With Humility.

Fifty years of loyal, faithful, helpful ministrations on the part of Rev. Canon Broughall was celebrated by congregations which taxed the capacity of St. Stephen's Church yesterday. A large number of ex-members of the congregation were present at both services.

Bishop Sweeney preached at the morning service, choosing his subject from Paul's farewell address to the leaders of the church. During the course of his sermon the bishop referred especially to the rector's continuous pastoral dispensations and spoke of him not only as a pastor, but a father. Coupled with that his activity was characterized by humility and ambition. Continuing, Bishop Sweeney pointed out that during the fifty years of Canon Broughall's ministry, 4,145 persons had been baptized, 2,200 confirmed, and 1,281 marriages had been performed. For over twenty-five years

REV. CANON BROUGHALL

he had been examining chaplain, and during that time examined 222 candidates for deacon's orders, and 183 for priest's orders. At the evening service Rev. W. E. Graham spoke. The words of his text were "If Christ, who is our life, shall appear, then we shall also appear with Him in glory." Suiting his remarks to the occasion, Mr. Graham referred to the time when he himself was a student at University College, and attended at St. Stephen's. Referring to his impressions of that time he said he had never been at a service at St. Stephen's church, but he went away disappointed, and wishing he had gone somewhere else. The rector's personality was evident in every word he spoke from the pulpit, and he was known among his brethren as a man whose great work and gifts were found hand in hand with even greater humility.

The approaching his 75th birthday, Canon Broughall is hale and hearty. A slight indisposition prevented his attendance at the service yesterday, but he was much improved towards evening and will be around again this week.

## POLICE HAVE CONFESSION

One of Men Arrested Tells How Los Angeles Times Was Dynamited.

CHICAGO, April 22.—Capt. Stephen Wood, chief of the Chicago detective bureau, said to-night that a full confession had been obtained from one of the men arrested in Detroit in connection with the dynamiting of the Los Angeles Times Building. Detective Burns has already stated that he had got information of the whereabouts of the dynamite in Indianapolis from McGinley, covers ninety typewritten pages, and describes in detail the dynamiting of buildings, railroad trains and factories, entailing the loss of many lives and two million dollars worth of property.

## MINISTERS WILL FORCE THROUGH PARLIAMENT BILL

No Strenuous Resistance Expected—Hope to Pass Measure by Third Week in May.

LONDON, April 22.—(N. Y. Tribune Cable.)—The ministers have determined to force the parliament bill through the commons by the end of the third week in May, and, having the majority behind them, they will do it. This date corresponds with the German Emperor's visit to the unveiling of the Victoria memorial and the assembling of the imperial conference. It will not be a favorable time for strenuous resistance by the peers.

The ministers are reported by the resentful Unionists to be taking a highly provocative course in the demand for the passage of the bill by the lords before the coronation. This is a partisan exaggeration. The ministers will not be so hasty. They are expected to bring a second reading in the upper house before the coronation. Probably this will be done, and the month of July will be reserved for the committee stage, with belated and ineffectual efforts to obtain a compromise. There is loud talk outside of parliament about the lords, maintained in the last ditch and never surrendering, but, as the lords themselves are not in a hurry to do so, the ministers are not in a hurry to do so either. The moderate men of the opposition are not in a hurry to do so either. The moderate men of the opposition are not in a hurry to do so either.

Lord Lansdowne's bronchial trouble has been a hindrance in the last ditch and never surrendering, but, as the lords themselves are not in a hurry to do so, the ministers are not in a hurry to do so either. The moderate men of the opposition are not in a hurry to do so either.

Lord Lansdowne's bronchial trouble has been a hindrance in the last ditch and never surrendering, but, as the lords themselves are not in a hurry to do so, the ministers are not in a hurry to do so either. The moderate men of the opposition are not in a hurry to do so either.

## WORKING TOWARD FRENCH OCCUPATION OF MOROCCO

General Molinier Expects to Reach Fez With 4000 or 5000 Men Early in May.

PARIS, April 22.—(N. Y. Sun Cable.)—Events are working for that powerful, if silent, party which hopes for a military expedition to Morocco, with ensuing occupation on the lines of England's occupation of Egypt. To the French people generally any extension of French action in Morocco, or indeed any imperialistic policy anywhere, is repugnant, but the opposition is silenced when responsible papers declare that their countrymen and countrywomen's lives are imperiled by the pressure of the headlines expressing wonder if relief can reach them in time.

Gen. Molinier, commanding the French forces at Casablanca, reports that the Chaouian column from his district will be ready to start within five or six days and may be expected to reach Fez, 3,500 to 4,000 strong, on May 3 or 4. They will be commanded by French officers, with a framework of French troops, but the government refuses to say how many.

El Mokri, the foreign minister of Mulai Hafid, who is in Paris, is convinced that Fez has not been taken. It is too strongly fortified for the tribesmen, with the means at their disposal, to carry it. Reinforcements which left Marseilles on Friday and to-day, numbering over 2,000 men, will reach Casablanca in ten days. A simultaneous effort to relieve the pressure on Fez is being made by sending 8,000 men from Oran to a point 120 miles east of Fez; but if this column is sent to Fez later it will have to traverse a difficult country inhabited by the most hostile warrior tribes.

TANGIER, April 22.—A despatch from Fez, dated April 15, says that the situation growing out of the revolt of the tribesmen was then unpropitious to France. The tribesmen were slightly less anxious than they had been. The despatch also says that the prices of foodstuffs have been reduced.

Fez Still Safe. LONDON, April 22.—Lives are being saved from the Zamourou tribes captured Meknes, about thirty-three miles from Fez, but that Fez was safe on April 15. The Europeans in that city, however, were still anxiously awaiting relief.

## A RECIPROcity PATCH NEEDED

MR. TAFT: How about it, Mr. Cobbler? Can you fix 'em up?

## ST. GEORGE'S SOCIETY HONORS PATRON SAINT

Canon Abbott of Hamilton Preaches Eloquent Sermon in St. James' Cathedral.

The memory of St. George, the patron saint of England, was honored in St. James' Cathedral last evening, the occasion being marked by the singing of special hymns and prayers, and an eloquent sermon by Rev. Canon Almon Abbott, M.A., rector of Christ Church Cathedral, Hamilton. Special seats were reserved for the members of the Sons of England Society, who all wore roses in their button holes, and the boys on their right, and the girls on their left, wore the red and white flag of St. George, and the service was the more impressive by the presence of the Lord Mayor and his chaplain, Canon Abbott, preaching from the text, "See what manner of love the Father has bestowed on us, that He should send His only-begotten Son into the world, that whosoever believeth in Him should not perish, but have everlasting life." As a young man said in an account, "you task Jesus Christ to be wisely affected by these things, but he was not for other things were things his mind. As a young man said in an account, "you task Jesus Christ to be wisely affected by these things, but he was not for other things were things his mind. As a young man said in an account, "you task Jesus Christ to be wisely affected by these things, but he was not for other things were things his mind.

## REVOLVER DRAWN AT LITTLE ITALY WEDDING

Jealous Sutor's Dramatic Interruption Leads Him in Gals.

The loves and passions of Little Italy came once more to head when Giuseppe Saguto, of 33 August-st., was arrested by P. C. Mattheis (07) charged with attempting to shoot Carmelo Sacchi, of the same address. The address, by the way, is next door to the board game house where the murder and general free fight occurred last Good Friday. As in the former case, the dark-skinned fair sex was the cause of the trouble. Carmelo, the man who had the complaint, was the principal in a pretty Italian wedding. When the wedding ceremony started on Sunday afternoon, pleasant liquids began to flow smoothly and easily, and most of the family and friends began to feel in a good humor. However, there was one on whom the liquor had added to the flames of a jealous heart. After a sufficient quantity of the wet material had been imbibed, the flame broke loose. According to report, this was about 4 o'clock. Giuseppe, former lover of the bride, and rival of Carmelo, pulled out a revolver and prepared to make unceremonious work of his rival. The police then came along and nipped the question in the bud. What are we now? Some of us are born to a business life and profession, some of us may be born to a life of study, some to work certain hours a day for a certain remuneration, some to art, to some music is the mistress, and others have literature for their creed. "Not one is without its value as an absorbing passion of life; not one is insensible enough to overflow an eternal soul." Canon Abbott showed that to grow more like Christ each day should be the sole purpose of each one's existence. "We commend to-day, my brothers," said the canon, "the feast of St. George. We men of British blood are gathered together in this loyal City of Toronto, in this grand cathedral, to do honor to the memory of the saint of our motherland. We are members of an empire so far reaching that at any given time twilful never gathers a source of envy to the other republics and monarchies of the world. We are proud of our language, of our Anglo-Saxon name, of our British institutions, England, the home of arts, the seat of government, where legislative chambers of elevated tone control the safeguard of the empire; the three blessed mother of us all. "We must grasp a higher patriotic ideal," concluded the preacher, "we must be pure and prayerful, unselfish, manifest the heroism that praises unknown men simply because it is heroism and done in humility. We will lay hold of a pure and spiritual Dominion among hearts of men from the Nazarene, not territorial, not martial, the vision of a moral and spiritual Dominion among scale orders to the height of 200 feet to bring her down."

## THIRTY-TWO KILLED IN SOUTH AFRICAN WRECK

Train Plunged to Destruction Into Gorge 250 Feet Deep—Heart-rending Work of Rescue.

GRAHAMSTOWN, Cape Colony, April 22.—According to the latest estimates, 32 persons were killed in the wreck of a passenger train on the Kowie Railway, when it plunged to destruction into a gorge, 250 feet deep thru the collapse of the Blaauwbaan bridge yesterday. In addition many were injured, some of them fatally. It was the worst wreck in the history of South African railways. The rescue work involved heart-rending experiences, and the extraction of the injured from the debris was accompanied by terrible groans and cries. A large mass of wreckage lodged on a ledge 120 feet down, and it was many hours before all were removed from the different crags and hoisted in sacks to the lip of the gorge. One little girl had a miraculous escape. She was caught in a fork of the bridge and held by one foot over the ravine. The rescuers had to scale cliffs to the height of 200 feet to bring her down.

## A TIME TO PREACH LOYALTY.

OTTAWA, April 22.—Rev. Walter M. Loucks, rector of St. Matthew's Church, made a strong appeal to the members of St. George's Society to-night, in his annual sermon, for the preservation in Canada of the English language and loyalty to the British crown. "Possibly never before has there been such need for loyalty as now," he said. "It is not the policy of the pulpit to preach politics, but it can urge that kind of loyalty that is deep seated and manifests itself by action."

## CHURCH NEARED CRISIS BUT NOW IS ALL SERENE

Congregation of Victoria Presbyterian Had to Raise \$2100 and Did It.

In response to an appeal from Rev. Dr. T. L. McKerrill, pastor of Victoria Presbyterian Church, West Toronto, who asked for a contribution of \$2100 to meet a payment on the church, coming due on May 1, the congregation at yesterday's services gave \$2100, making the occasion one of congratulatory. Ten years ago the church borrowed \$25,000, of which \$4000 was to be paid in three instalments of \$1000, \$2000 and \$3000, the last named to come due in May next. Owing to the interim between the appointment of Rev. Dr. Edgerton to Westminster Hall, Vancouver, and the installation of the present pastor, very little more than was necessary for the running expenses of the church was contributed, but a fund was later started, netting \$900 and leaving \$2100 to be raised last Sunday. The morning service brought \$1000 and the evening one \$800. There is still \$300 to be raised.

## ANNE JOHNSON DEAD

Woman Who Fell into Basement Succumbs to Fractured Skull.

After having regained consciousness for nearly 24 hours, Anne Johnston of 22 Alice-street, who fell into the engine room of Osgoode Hall on Friday afternoon last, died in St. Michael's Hospital at about midnight Saturday. Her skull was fractured, and it was feared that she might have some internal injuries, and when first brought to the hospital the doctors cherished no hopes for her life. When she came to consciousness early Saturday morning, however, it was thought that there might be a chance for recovery. Able to converse somewhat, her mind retained no impression of the accident. Her pulse failed all afternoon and, after relapsing into unconsciousness at about 11 o'clock, she soon passed away.

The accident occurred on Friday afternoon, when she was talking to two men. She apparently lost her balance and fell thru the windows to the floor of the new boiler room, a distance of 19 feet. Dr. Lyon will open an inquest into her death to-day.

## WAITING FOR THE CENSUS

Hon. Sydney Fisher Says No Election Till After Redistribution.

MONTREAL, April 22.—The campaign on behalf of the government's reciprocity measure was carried into Westport, on Saturday evening, when about 500 people gathered in Victoria Hall to hear Hon. Sidney Fisher, Minister of Agriculture, and Hugh Guthrie, M.P. (South Wellington), take up the case for closer trade relations. One element of the attendance was in a heeling mood, of which the minister of agriculture was the chief voice. In answer to one question put to him as to why the government did not put the question to the electors, Mr. Fisher replied: "Just as soon as you want it you shall have the chance, but we do not propose to disfranchise a great number of people, who after the census will have votes. We don't think that the present distribution represents fairly the whole country. It would be a national crime for the government to dissolve and go to the country just in the face of a census and redistribution."

## HIGHER STANDARD FOR ENTRANCE TO VARSITY

Senate Considers Change That Will Vitalize Affect Schools of Province—First-Year Classes at University Too Crowded to Permit of Effective Work.

If the strongly expressed desire of President Falconer as laid before the senate of the University of Toronto are carried out the standard of entrance to that institution at present the passing of the junior matriculation, will be raised to that of the senior matriculation, an important change.

It has been known that the president favored a higher standard of qualification, but this is the first definite move in that direction. In doing so he stated that his desire was that the senate should begin to consider this matter, inasmuch as, in his judgment, steps should be taken towards this end.

A statement issued under the authority of the senate indicates sympathy with the president's views, but the senate will not take action until next fall. If the principle is approved, it will be sent to the various departments of the university, for consideration. Affects Schools of Province. The statement issued by the senate says: "Such a change in entrance requirements demands the most careful consideration, inasmuch as it affects not only the university but the schools of the province, moreover, it should be examined as carefully by every department of the university. It is hoped that the other universities of the province will agree to introduce the same standard, and that the schools of the province will recognize that it is for their advantage, and for that of the students' advantage."

Classroom Too Crowded. The pressure in the past course of the first year is becoming very heavy. The classes are too large for effective work. It would be an advantage for most of these students to remain a year longer at school, where they would have the attention of the teachers who know them. It would benefit the students to spend another year at school than to come to the university and take work here that might be done at school. The senate would like to see the standard of the province raised to the standard of the school, and would be a great help to the student in giving him a higher grade of work. It would benefit the various committees of the province, and would be a decided step in the way of promoting a higher standard of education throughout the province.

Degree in Three Years. Those schools that are at present unable to prepare pupils beyond the standard of junior matriculation, until they are able to reach this standard, send their pupils to the nearest collegiate institute or high school. If this change were effected the degree in the general course might be obtained in three years, while the degree in any of the honor courses would require four years. The subjects of the general course being eliminated from the first year in the honor courses. At the autumn meeting of the senate the matter will again be brought up for discussion, and if the principle is approved, it will then be sent to the various departments of the university for consideration.

Universities in Conference. The meeting of the senate on Friday night followed a conference of the representatives of the Ontario universities, when matters relating to junior matriculation were under discussion. Queen's University was represented by Prof. Baker and G. Y. Crown; McMaster by Prof. Warner and Prof. McLaughlin; and the Western University by Prof. James.

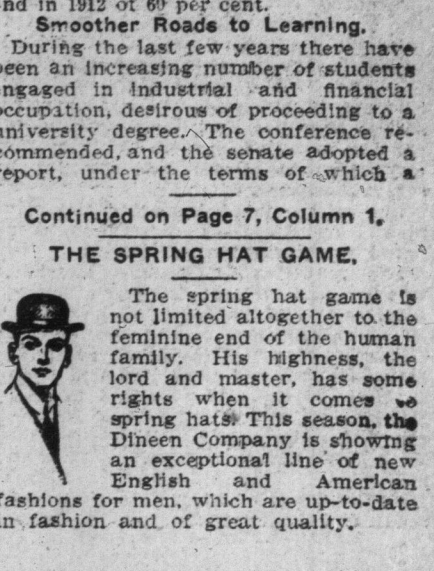

Among the subjects discussed the more important were, a scale of values for the subjects of matriculation, and a plan to aid the student who is unable to attend the regular sessions of a secondary school. The values recommended, which were approved subsequently by the senate of the university, are as follows: English, Latin and mathematics, each, 200; French, German, Greek and experimental science, each, 200; History, 150.

It has been deemed advisable to give such values in view of the fact that the new regulations call for a minimum of 40 per cent. on each paper, with an average in 1911 of 50 per cent., and in 1912 of 60 per cent. Smoother Road to Learning. During the last few years there have been an increasing number of students engaged in industrial and financial occupation, desirous of proceeding to a university degree. The conference recommended, and the senate adopted a report, under the terms of which a

## THE SPRING HAT GAME.

The spring hat game is not limited altogether to the feminine end of the human family. His highness, the lord and master, has some rights when it comes to spring hats. This season Dineen Company is showing an exceptional line of new English and American fashions for men, which are up-to-date in fashion and of great quality.

# HATS FOR THIS SEASON

There are very many new designs in this season's catalogue of hats for men, the principal leaders being the wide brim English derby with the low crown and the high crown derby with the sharply turned brim.

We are showing some very fine blocks in these goods just received. The showing includes particular designs by Heath and Hillgate of London, England, for which we are sole Canadian agents.

Christy's New Stiff Felt Hats are also on view, starting at \$2 and ranging up to \$3.

The price we ask for the Heath and Hillgate blocks is \$4. You would pay eight dollars for the same hat in New York.

**ALPINES**—some unusually novel designs in Alpines and Fedoras by all the good English and American makers and by Borsalino of Italy. The last named maker is the world's greatest manufacturer of soft felt hats.

**SILK HATS**—London, England, is still the leader in silk hat fashions. This season's blocks are something different from those of any previous year. We are sole agents for the silk made by Henry Heath. Heath makes Silk Hats for His Majesty the King and the "Heath" is the exclusive Coronation Hat for Function wear.

See Temperance Street Window Display.

**DINEEN**  
140 Yonge Street Toronto

## AT THE THEATRES

### Margaret Anglin at the Royal Alexandra

Last year Margaret Anglin couched the knell of herself in fearful roles by announcing that thereafter she would appear in comedy. To-night she will return to Toronto after an absence of more than seven years, under the direction of Messrs. Liebler and Company, in a new original comedy entitled "Green Stockings," written by A. E. W. Mason and George Fleming.

William Faraday, widower, residing on the estate, Eastview, in England, had four daughters, two of whom he had married off, one was about to be engaged and one still remained single. Celia, the eldest daughter, and the most popular, but with no sign of a suitor. This annoyed Mr. Faraday, who did not hide his selfish ambition to get all his daughters off his hands and set up bachelor quarters in London. Celia sprung a surprise by becoming quietly engaged, and her fiancé was called with his regiment before she told of her happiness. They warmly congratulated her, and only her aunt and Colonel Vavasseur, the whole story was an invention. After having respiced all the contingent advantages and admiration of being engaged, she sprung another surprise by announcing the announcement of her fiancé's death to appear in a morning newspaper. Then there entered one Colonel Vavasseur, who had travelled all the way from the deserts of the East, bearing the last message of love and a package of trinkets.

Celia's amazement at this apparition was great. Colonel Vavasseur's grief at the death of his friend was apparent to all, but for him to observe her embarrassment, as he brokenly delivered the message and described the late fiancé, she did not observe she twinkled in the eye of the colonel as he tenderly consoled with her.

This outline of "Green Stockings" is sufficient to indicate its author has provided an amusing theme and an opportunity for Miss Anglin to give an exposition of her skill as a comedienne.

Among the supporting company are: H. Reeves-Smith, one of our foremost light comedians; Arthur Lawrence, George Woodford, and the comedienne Ruth Holt Boucault and Ruth Rose. Only one matinee will be given by Miss Anglin and that on Saturday afternoon.

**"Katie Did" at the Princess.**  
Joe Hill, the producer of those exceptionally clever "hits" "Three Twins," "Bright Eyes," and "The Girl of My Dreams," will present his new comedy "Katie Did" at the Princess Theatre for the week beginning to-night.

"Katie Did" is a musical version of "My Friend from India," one of the most successful farces this country has ever known. Mr. Gaites presents a strong company including May Johnson in her inimitable impersonation of the slayer, Bert Baker, who has been playing in Marie Cahill's present success "The Love of Jim Walking in My Sleep," and "Katie Did."

The story of "The Country Boy" comes. Edgar Selwyn's newest four-act comedy, which Henry B. Harris will produce, is to be found in the "Country Boy" of May 1-6, is based upon the familiar incident of the imaginative young man bred in a small town, whose greatest ambition is to get away and make a name in the broad life of the metropolis.

The leading figure in the play abandons a farming home, a good mother and a sensible sweetheart in the town of Fairview, but New York brings him only an attachment to a chorus girl, from whom he thus sways money and business prospects. Added to this comes the news of his former sweetheart's engagement to his rival, Dickson. He is heartbroken, his chin is approaching despair, when a friend, a newspaper man, manages to imbue him with his own healthy, optimistic view of life. The lad returns to his home town. He makes an unequalled success, establishing a newspaper and winning the respect of the entire community. A reconciliation is effected with his former sweetheart and all ends happily.

The production is from the Henry B. Harris studio and is characterized by atmosphere and complete in the cast which Willette Korshak, Mrs. Sturtevant, Forrest Winant, Arthur Shaw, Robert McWade, Jr., Carolyn Eberts and others.

**Reeves-Smith as Horseman.**  
Margaret Anglin's leading man is H. Reeves-Smith, and he is remarkable for his very emphasis on the subject of the English horse. Furthermore, he is regarded as one of the best of our light comedians, and by nationality is an Englishman.

Reeves-Smith is also an excellent judge of horse flesh and has a small racing stable at Durand, near Epsom. He is a near neighbor of the Earl of Rosebery, who also maintains his stable at Durand.

While Reeves-Smith does not boast of a very large stable, he is proud of it, and he is rather an expert on the subject and it is his ambition to win the English Derby. He has already entered horses twice for that classic race. "The Duke" was a winner of 1909. The horse is called "Acceptor" and has a fine record of wins as a two-year-old.

Reeves-Smith makes a point of being in England towards the middle of May of each year in order that he

may superintend personally the final preparations for the horses for their various engagements, and he never misses the English Derby, which falls on the last Wednesday in May.

**"The Kissing Girl."**  
The Royal Alexandra Theatre announces as the attraction for week of May 1 another of the new successful comic operas, "The Kissing Girl." The book is by Stanislaus Stange, author of "The Chocolate Soldier," "Dolly Varden," etc. Harry Von Fliter is responsible for the music and Vincent Bryan the lyrics. The company, which is a large one, is headed by Miss Texas Gulman, and also includes the celebrated comedian, dancer, Mlle. "Fanny." The opera has to its credit a run of some months in Chicago.

**Annette Kellermann at Shea's.**  
Annette Kellermann, "The Diving Venus," will be the premiere attraction at Shea's Theatre this week. This is Miss Kellermann's first appearance in Toronto, and she has been a sensation wherever she has appeared.

"The Diving Venus" has been the name given this physically perfect woman, who has won the best eye championship after another for her aquatic feats. She originally conceived the idea of giving exhibitions on the stage and presented all the time she was sunk seven feet below the level of the stage and a mirror construction makes every movement in the water visible. Proceeding her fancy diving exhibition Miss Kellermann presents the French Diabolo.

The special attraction is Dave Genera and Ray Bailey, among the greatest of vaudeville favorites. Genera and Bailey sing their own songs, and their dance, too, are their own, and there are no greater dancers on the American stage. Miss Bailey is a beautiful woman, and is sure to show her women admirers something in gorgeous costumes. Eugene and Willie Howard are immense favorites, and are among the best Hebrew comedians on the stage. Maud Hill Macy and her excellent company will present her classic, "The Magpie and the Jay." The Magpie played by Miss Macy is a girl from the Bowery who is possessed of a good heart and a head full of the latest slang. The Jay is a warm-hearted farmer who has advertised for a wife, and the combination in the farm house is a scream. Harry Linton and Anita Lawrence have a dainty and clever offering in "The Piano Store."

They introduce their staging in a novel stage setting and their comedy is bright.

Ida Granon has not been in Toronto for some time, and she will be a welcome visitor. She has a charming personality and sings tuneful songs in a way all her own. Harry Johnson is a new-comer, and is playing the comic Black Face Comedian. LaMaze, Quail and Joe are acrobatic comedians, seen here for the first time, and have met with big success elsewhere. New pictures on the kinetograph close the show.

**Fred Irwin's Majesties at the Gayety.**  
The attraction at the Gayety Theatre the present week is Fred Irwin's "Majesties." Never in the history of burlesque it is believed, has such a stupendous organization been attempted in smiling theatres.

It introduces their staging in a novel stage setting and their comedy is bright.

The production is from the Henry B. Harris studio and is characterized by atmosphere and complete in the cast which Willette Korshak, Mrs. Sturtevant, Forrest Winant, Arthur Shaw, Robert McWade, Jr., Carolyn Eberts and others.

Reeves-Smith is also an excellent judge of horse flesh and has a small racing stable at Durand, near Epsom. He is a near neighbor of the Earl of Rosebery, who also maintains his stable at Durand.

While Reeves-Smith does not boast of a very large stable, he is proud of it, and he is rather an expert on the subject and it is his ambition to win the English Derby. He has already entered horses twice for that classic race. "The Duke" was a winner of 1909. The horse is called "Acceptor" and has a fine record of wins as a two-year-old.

Reeves-Smith makes a point of being in England towards the middle of May of each year in order that he

### New Shipments of Rugs from CONSTANTINOPLE

We have just received a large number of bales of rugs from our agents in Constantinople. These rugs include many fine, silky specimens. Nowhere can you find in Canada so exquisite a collection of rare and beautiful rugs in the rich ivory and old rose tints as we are showing. Ladies who live in handsome homes should feel the importance of having beauty and quality strongly featured in the rugs they buy. This store is replete with the most desirable examples.

**HALL STRIPS**—A very fine and varied assortment, all widths and lengths, in light or dark colors, bold or small patterns.

**KAZAKS**—No rug has richer pile or coloring. We have some unusual sizes in Kazaks, 6 ft. x 9 ft. They shine with a glossy lustre truly rare.

**LARGE CARPETS**—We have an extra quantity of Oriental Rug Carpets, and we are making some very special price cuts on them just now. Come and see them.

**WEDDING PRESENTS**  
Oriental Rugs or selections from our very large collection of Oriental Brassware make appropriate and appreciated presents.

### HAMILTON HAPPENINGS

**Bush Fire, Started by Boys, Destroys Tool and Dynamite House—Seizures of Liquor.**

**HAMILTON, April 23.—(Special.)**—A bush-fire started by boys early Sunday morning on the mountain side, near George C. Miller's quarry, destroyed a tool and dynamite house belonging to Mr. Mills, about 6:30 p.m. On account of the explosives contained in the building the firemen would not approach it. The loss was about \$1000. Some burning benches in the moulding room of the quarry plant caused the fire department to turn out about 9:30 Saturday night. The blaze was quickly extinguished.

A small fire in one of the offices at the city hospital, caused by an overheated stove, called out the department at 2:35 Saturday afternoon. Little damage was done.

Sergeants Campbell and Crutchshanks Saturday night made a liquor raid on some houses occupied by foreigners at 72 Locomotive-street, 37 Railway Stands, 118, 156 and 157 Caroline-street north. A quantity of liquor was seized at each place. Constables McKay and Goodman Saturday afternoon arrested Frank Lindo, 251 Sherman-avenue, on a charge of aggravated assault. Thirteen unlicked drunks occupy cells at No. 3 police station to-night.

A military attack on the city was prevented Saturday afternoon, when the boy scouts captured the mounted military contingent which attempted to break thru the scout lines and enter the city. Although there were about 20 avenues of entrance, the scouts were so well deployed that it was impossible for the mounted men to get into the city. About 150 boy scouts engaged in the manoeuvres.

The parks board inspected the city parks to good advantage in the afternoon, and found everything satisfactory.

The condition of Murray Hendrie, who is critically ill at High River, Alta., is to-night reported unchanged.

Hotel Hanrahan, corner Barton and Catharine-streets, Hamilton, conveniently situated and easily reached from all parts of the city. Erected in 1906. Modern and strictly first-class American plan. Rates \$1.50 to \$2.00 per day. Thos. Hanrahan, proprietor. Phone 1165.

### OBITUARY

**John Macdonald.**  
John Macdonald, an old and respected resident of Toronto, passed away at his home, 13 Olive-ave., on Friday, after a short illness. Mr. Macdonald was born in Ferintosh, Ross-shire, Scotland, on Dec. 31, 1839, and came to Toronto in 1871. He was a Presbyterian and in politics a Conservative. Mrs. Macdonald, four sons and three daughters survive. Alexander P., who was for many years connected with the newspapers of this city, but now of Hazelton, B.C.; William, mining engineer of Coalville, Cal.; John of Hazelton, B.C.; Murdo M., with the Grand Trunk Railway; Margaret, a missionary, now in China; Mrs. Wm. Pfeiffer of Winnipeg; and Katharine at home. Mrs. England of 352 Parliament-st. is a sister of deceased. The funeral will take place from the residence on Monday at 2 p.m. to Prospect Cemetery.

### No Chicory

It is almost impossible to get bulk Coffee without Chicory. You cannot detect the difference in ordinary Coffee but if you once try

### Dalton's French Drip Coffee

you will know one of the reasons why it is so different.

Dalton's French Drip Coffee contains no Chicory—no chaff or harsh outer shell. It is pure Coffee of the highest grade and because it is all Coffee and nothing but Coffee, two pounds goes further than three pounds of any other kind.

Mild and Strong Blends in 10, 20 and 40c Tins. Never sold in Bulk.

## EVANGELICAL ASSOCIATION FAVORS CHURCH UNION

Hold Service in Memory of Deceased Brethren—Scale of Stipends Adopted.

ZURICH, April 23.—At Saturday's session of Evangelical Association, a memorial service was held in memory of Rev. Jos. Umbach, Rev. E. Eby and Rev. A. Geiger, who died during the past year. The finance committee reported as follows: A probationer shall receive \$400 per annum; a deacon \$500 and free dwelling; an elder \$800 and free dwelling; a presiding elder shall receive \$950 and \$500 as rent and expenses. The brethren in the northwest shall receive \$90 extra. This report was adopted. The following preachers were elected as delegates to the general conference, to convene in Cleveland, Ohio, Nov. 19: Rev. S. E. Knecht, J. G. Lutz, M. L. Wines, S. M. Mauch and L. H. Wagner, alternatives, Revs. G. D. Damm, E. Burn, T. Burn and A. Y. Hain. The following lay delegates were elected: J. G. Breithaupt.

## WILL RUIN WATERFRONT

Controlled Church Think C.P.R.'s Plans May Upset Viaduct Order.

After a trip over the government house property which the C.P.R. proposes using for freight yard purposes, Controller Church on Saturday, expressed himself as strongly opposed to the level crossings. It is proposed to put in at Spadina-avenue, John-street and Peter-street. He believes that a subway can be put in without any great inconvenience to the company, thru accentuating grades, and desires that he will oppose a single level crossing being allowed the company. He contends that the C. P. R. should give the city a subway, at Spadina-ave. "It appears to me that the company is seeking to get away from the viaduct order and create a condition north of Front-street that the viaduct is being erected to overcome south of that thoroughfare," he said. Should the company be permitted to carry out the plans presented, it is the opinion of Controller Church that the whole western portion of the waterfront will be inaccessible for anything but freight and railway business.

## SCORED 'UNWRITTEN LAW'

Governor of Georgia Declines to Pardon ex-Chief of Police.

ATLANTA, Ga., April 23.—The application for pardon of Thomas E. Stripling was late this afternoon denied by Governor Brown. Stripling was formerly chief of police of Danville, Va., and was under life sentence for killing W. J. Cornett. He escaped from years ago and had been successful in business under an assumed name. Governor Brown declined to pardon Stripling on the "unwritten law" to which Stripling appealed for justification as an anarchistic argument, and in Stripling's escape and subsequent career said he found no reason to charge the decision of the courts.

An Invitation to Ladies. You are invited to call and see Rutherford's millinery, 642 Yonge-street. Style and price will interest you. 1887.

## Imitation Cough Cures

Is an Imitation Cough Medicine Good Enough for Your Children?

When you are sick and send for the doctor you don't want him to send a young medical student he has in his office. You would rather have the young fellow experiment on somebody else. No more do you want imitations of the medicine you know to be of proven value in the cure of disease. The remarkable success of Dr. Chase's Syrup of Limes and Turpentine in the cure of croup, bronchitis and colds has proven too great a temptation to imitations. They expect you to take chances with their medicines because the price is a few cents less. Imitations are never sold on merit, but depend on the merit of the article they imitate. You don't want to be experimented on, and for this reason will insist on seeing the portrait and signature of A. W. Chase, M.D., the famous Receipt Book author, on the bottle you buy. As it is made of simple ingredients of proven value, it is well suited as a treatment for children. That it is effective in the cure of croup, bronchitis, whooping cough and the most severe coughs and colds is attested by its many years of continued success and enormous sales. 25 cents, all dealers, or Edimanson, Bates & Co., Toronto.

## MONEY NO OBJECT

When People Are Seeking Health or Relief From Any Disease the Price Never Counts.

It is a fact that not less than a million is spent every year by people seeking a satisfactory cure for Catarrh, Bronchitis, Asthma, and Consumption. Probably the best and most highly recommended preparation is Catarrhazone, which treats the local symptoms very effectively by means of medicated air supplied through a convenient hard rubber inhaler. The poisons in the blood are driven off by Perrozone Tablets, which are taken after each meal. They promote appetite, aid digestion, and make the blood rich and pure, so that it will nourish all parts of the body. This combined local and constitutional treatment in catarrhal diseases has met with wonderful success and can be relied upon to cure every time. The inhaler stops sneezing, coughing, droppings in the throat, and brings quick relief and cure to all the disagreeable symptoms of catarrh. The following testimonials from well-known Canadians furnish abundant proof what Catarrhazone accomplishes in stubborn cases: Mrs. James Tweedle of Jay, Bridge says: "For years my daughter doctor-ed unsuccessfully for Catarrh. She had droppings in the throat, sickness, nausea, and could not sleep at night. The first day's use of Catarrhazone benefited and ultimately cured my daughter so that Catarrh has never returned. I can recommend Catarrhazone as a grand remedy for Catarrh." Thousands of strong letters could be given like the above if necessary, but all that is required to prove the merit of Catarrhazone is a trial. It is sure as death to cure, and if it fails your money will be refunded. Catarrhazone cured lots of cases worse than yours and can do it again. Complete outfit costs \$1; smaller size 50c; sold by all dealers, or the Catarrhazone Co., Kingston, Ont.

## FORBID CLERGY TO ATTEND

Must Not Go to Camorrista's Trial Under Penalty of Excommunication.

VITERBO, April 23.—(New York Sun Cable).—The bishop has forbidden the clergy to attend the Camorrista's trial upon pain of excommunication unless they are subpoenaed. Abbatemaggio is still ailing, but he insisted yesterday upon attending the trial. The judge concluded the examination of the prisoners, including Maria Standardo. The session was then adjourned until next Tuesday when the prisoners will be confronted by Abbatemaggio. A wild scene is expected. A letter has been received from the Naples chemist Sotro saying that he intended to commit suicide, explaining that he was affected with incurable heart disease. "It is an open secret that Sotro is one of the important witnesses for the prosecution and has repeatedly threatened suicide to escape Camorra vengeance. The police suspect that he is shamming again."

## PLEASURE, NOT WORK, PERIL TO SABBATH DAY

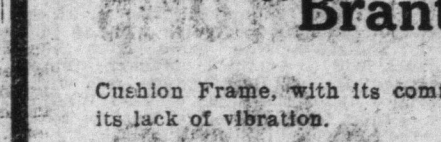

Workingmen Are Anxious For Day of Rest, Says Archdeacon Cody.

In a sermon on Sunday Observance in St. Paul's Anglican Church yesterday morning, the Ven. Archdeacon Cody said: "I do not think the Lord's Day is in peril at all to-day to a serious extent by the demands of labor. No, the laboring man on the continent of Europe, and the laboring man in our own land, is keenly anxious that his one day in seven shall be preserved. "But I tell you, the most serious inroads threatened upon the Lord's Day are the inroads made by the votaries of pleasure and amusement. Of the two great foes—pleasure and pleasure—think pleasure is the more serious in relation to the keeping inviolate of Sunday. And I would say this: As you value that day for your own rest, be careful to your brother, and don't rob him. As you value that day as a great national and public institution, don't you by your own actions do anything that will help to break down the public opinion that keeps Sunday a day apart. "Moreover, negatively, Sunday should not be observed as a mere day of sloth, marked by a heavier meal and a deeper sleep of luxurious indolence—a day that less fits you in body and in mind for the duties that lie before you. But in the occupation of self-culture, and in the service of our fellowmen, there is a rightful use of this day that is not inconsistent with religious duty." In the evening Dr. Cody preached specially to the boy scouts, from the text: "Fight the Good Fight of Faith."

## More Time for Golf if you use a Bicycle

The time that elapses between the hour you leave the office and that at which you reach the links is not getting time.

Why not shorten the interval and have more time for golf? It's easy traveling to the links on a

MONDAY MORNING, APRIL 24, 1911

GET THINGS MOVING.

Vice-President McNicoll of the Canadian Pacific Railway is to be in town to-day to discuss with the city authorities two propositions of considerable importance. First and foremost is that of the creation of a big freight yard on the Government House site, at Simcoe and King-streets, and extending diagonally therefrom southwesterly to Bathurst-street beyond and covering a good many acres now occupied by houses and business concerns.

There is very little difference in the temper of corporations whatever their aims and purposes. An ecclesiastical corporation exercises the same philosophical methods as the commercial one.

Canon Roy, in Montreal, or Manager Fleming, in Toronto, have the same opinion of the public. People will stand anything if it is imposed upon them with a sufficiently bold front.

In the case of a decree like the "No Temere," says Canon Roy, "everybody cannot be pleased. But, as I said before, we are not afraid of anything like that. They will all quiet down after a little while."

And so would Manager Fleming declare. "In the case of a street-car order everybody cannot be pleased. But we are not afraid of anything like that. They will all quiet down after a little while."

IMPROVEMENTS AND COST. We cannot agree with Engineer Rust that the cost of improvements like the extension of Gould-street to Jarvis-street is too great to warrant their achievement. It is certain that they can never be done more cheaply than at present.

The second matter to be dealt with by Mr. McNicoll is that of the rounding of the corners at King and Yonge-streets. In this case we trust that the railway will concede something in the way of helping the city to facilitate traffic at what is now our busiest corner.

What is wanted on both questions is a policy of give and take, but most of all, quick action.

AN OLD WHARF.

A few days ago the workmen engaged in making excavations on Front-street, for the low-level sewer, came upon the long-buried portions of an old wharf. This was a relic of the time when Front-street really fronted directly on the bay.

The discovery just followed the judgment of the privy council, upon the viaduct case, and there is some interest in noting the coincidence. The decision in favor of the city curiously enough turned entirely on just such evidence as this discovery furnishes.

When the evidence was being collected under Mr. James Fullerton, K.C., and Mr. W. C. Chisholm, K.C., then city counsel and city solicitor respectively, special attention was given to procuring information bearing on the question of the city's rights of user. This, it is said, was the result of a second thought, but it was a most fortunate one, as the privy council decided the case upon this very point.

The Star still thinks that a small group of intimates on the terrace of a private house after dinner in the moonlight constitutes a public gathering. We now understand the huge political meetings which we hear the leader of the Ontario opposition is addressing.

KNOWLEDGE MEANS VIRTUE.

Very strong representations were made at the recent Ontario Educational Association meeting as to the necessity for more definite instruction to children on matters of birth and life. Rev. Lawrence Skye went to the heart of the question.

"We will have," he said, "to do in the schools what the parents either cannot or will not do—teach our children about the origin of life, the mystery of birth, and the sacred laws of reproduction and the degradation of the vital organs."

For some years past in England and the United States, a great deal of this educational work has been done, and The Ladies' Home Journal has been alternately ridiculed and abused for the stand it has taken on the question, which it has discussed with freedom and much intelligence.

Parents appear to be to blame primarily for most of the ignorance, which is in turn the cause of most of the shame and sorrow. But the parents are usually too ignorant to teach their children, and they are overwhelmed

with the tradition of a mock-modesty which would be absurd were its results not so pitiful.

Undoubtedly it is a matter which requires delicate handling, and as the chairman of the meeting remarked there may be only a few people in a city competent to speak or teach such subjects. Great tact as well as special knowledge is needed.

There is no doubt that clergymen and ministers have a great responsibility in this. They should insist that every parent properly instructs his or her children as soon as instruction on the subject can be conveyed. At seven and eight years old children learn in the stable, in the street, from the ignorant and the vile what parents should take pains to surround with reverence and sanctity.

The medical testimony is overwhelming, and it is a distinct weakness in our social structure that in our wealthy and most prominent families, as well as in the humblest, the whole subject is tabooed.

There are many useful books now published dealing with the knowledge which children should have, and no parent, however much he may shrink from the task, can absolve himself of culpable negligence if he fails to impart the instruction which may save from worse than death.

CORPORATIONS AND THE PUBLIC.

There is very little difference in the temper of corporations whatever their aims and purposes. An ecclesiastical corporation exercises the same philosophical methods as the commercial one.

Canon Roy, in Montreal, or Manager Fleming, in Toronto, have the same opinion of the public. People will stand anything if it is imposed upon them with a sufficiently bold front.

In the case of a decree like the "No Temere," says Canon Roy, "everybody cannot be pleased. But, as I said before, we are not afraid of anything like that. They will all quiet down after a little while."

And so would Manager Fleming declare. "In the case of a street-car order everybody cannot be pleased. But we are not afraid of anything like that. They will all quiet down after a little while."

IMPROVEMENTS AND COST.

We cannot agree with Engineer Rust that the cost of improvements like the extension of Gould-street to Jarvis-street is too great to warrant their achievement. It is certain that they can never be done more cheaply than at present.

The second matter to be dealt with by Mr. McNicoll is that of the rounding of the corners at King and Yonge-streets. In this case we trust that the railway will concede something in the way of helping the city to facilitate traffic at what is now our busiest corner.

AUTO-FIRE APPARATUS IS NOW A NECESSITY

Hugh Cameron & Co Receive Orders From Two Cities For Auto Fire Trucks

Of all the inventions which have affected modern life the self-propelled vehicle has been perhaps the most important. Transportation is the ever present problem of humanity and the motor vehicle has been the solution.

This has been especially the case in regard to the working of modern fire departments. Every fire chief knows that the B. C. fire business is to get control over a conflagration before it gets control over him.

One of the first firms in Canada to recognize this was that of Hugh Cameron & Co., Ltd., of Toronto. For some time this firm has been well and favorably known for their steamrollers which are used all over the Dominion.

On the 21st of this month the company received a second order from the City of Hamilton for two auto-drawn fire trucks at the same price. There is no doubt that Toronto and the other large Canadian cities will rapidly follow suit in providing themselves with a fire-fighting equipment of this kind.

Messrs. Cameron & Co. Company deserve their success for their progressive and enterprising spirit.

To the Heart of New York via Grand Central Station, via Valley R.R.

The Hudson River Terminal, R.V.R. Company's Hudson Terminal station in New York City is situated at Greenway Square, Broadway, Sixty-sixth Street and Thirty-Third-st., in the heart of the hotel, theatre and shopping district.

It is not expected that the railway companies will have their plans ready for submission by that time. They have a general plan prepared, but it will take two months at least to prepare the detailed plan which the commission will be asked to adopt.

City Solicitor Johnston states that the chief feature of the viaduct case at the forthcoming sitting will be a general discussion of the plans. An effort will be made to get a general idea of what is to be done.

It is expected that the board will fix a time for the presentation of the plans.

Salada Tea Co. Doing Nicely, Thank You.

The "Salada" Tea Co., so far this year, have made the greatest progress in their history. Their increase alone in Canada and the United States amounting to more than the total business they did during the first five years of the company's existence.

Opportunities

To the man with a little available capital, being presented opportunities for profitable investment, for increasing his income, for multiplying that capital. How many have been opportunities there have been in the past.

How many have been in the past. Young or old! And in this "growing time" there are and will be for several years, many more opportunities than there have been in the past.

How many have been in the past. Young or old! And in this "growing time" there are and will be for several years, many more opportunities than there have been in the past.

CANADA PERMANENT MORTGAGE CORPORATION

Toronto Street, Toronto

The Encyclopaedia Britannica, 11th Edition

Is a clearing house of modern thought, knowledge, and achievement, through which the layman can pass his doubts and difficulties, with the certain assurance that no reasonable demand for information that he may present will be dishonored.

The work has all the comprehensiveness of an ideal library, the quick accessibility as to contents of an ordinary dictionary, and (in the convenient and flexible leather-bound format) the unprecedented quality in a work of reference of being as easily handled as a magazine. Its necessity as a resource is measured by the helplessness of even the most learned man alive in the face of the vast complex of things knowable, and its value in use by the thoroughness with which everything that can possibly interest a civilized people has been traversed and indexed by the experts who wrote it.

Of all kinds of loneliness, loneliness in a crowd is the most depressing, and of all kinds of ignorance, the ignorance of the modern man which is the outcome of his necessary intellectual isolation is the most humiliating.

The special torture of Tantalus was not merely that he was condemned to perpetual thirst, but that in the midst of an abundance of water he was unable to drink, and it is the similar misfortune of the man of to-day that between himself and the streams of knowledge springing up in every direction around him there is interposed a barrier which the very richness and variety of modern intellectual life only serve to render the more intolerable.

It is primarily as an instrument of record and research constructed by the leading specialists themselves for lay use that the new Encyclopaedia Britannica is offered by the press of the University of Cambridge as a complete solution of the problem of the man who is desirous of being of his age as well as in it.

In its pages 1,500 representative experts chosen solely on the ground of pre-eminence in their respective fields have co-operated to break down the intellectual isolation of the general reader by presenting him with an exhaustive account of human achievement to 1910 in which he will find what he seeks and understand what he finds. Vast as is the sum of human knowledge, it is finite, and it has been found possible to exhaust its essential contents within the compass of 27,000 quarto pages of 1,500 words each, and at the same time to preserve an encyclopaedic arrangement by which, with the further aid of an index volume containing 500,000 references, any isolated item of information is instantly accessible.

As further extending its usefulness as an instrument of popular culture the editors of the 11th Edition consider that the innovation of India paper logically completes on the material side a refining process by which an aggregate of knowledge estimated to be twice as great as that contained in the 9th Edition has been brought within the covers of 28 volumes.

It is not altogether easy to realize that a thin, flexible volume, occupying one inch of shelf room as against almost three, not only contains 25 per cent. more reading matter than the bulky quarto of the Ninth Edition, but also excels it in durability. Indeed, in this respect, the substitution of India for ordinary paper is reminiscent of the change in structural work from stone to steel.

Advance-of-Publication Prices Soon to be Withdrawn.

All subscribers who register their applications before May 31 will effect a very substantial saving and will acquire the foremost work of reference at a price which has never before been possible.

NOTE—Those who possess copies of previous editions of the ENCYCLOPAEDIA BRITANNICA (now out of date) are requested to advise us of the fact, clearly indicating which edition they possess (giving name of publisher and number of volumes), and if they wish to purchase the new edition they will be informed how they can dispose of their old editions at a fair valuation.

The New Edition is sold direct to the public and through the leading booksellers. No Agents or Conspans are employed or recognized.

Continued From Page 1.

student unable to attend the regular sessions of a secondary school may receive credit for a subject or subjects, provided he obtains 40 per cent. on each paper, with an average of 60 per cent. in the subject or subjects. Matriculation under this plan must be completed in four successive years, and should prove of great assistance to many deserving students.

An invitation from the University of Toronto to be present at the centennial celebration to be held in August. The award of the degree of master of arts to R. K. Gordon, and of the degree of doctor of philosophy to Saul Dushman, and the degree of bachelor of applied science to J. B. O. Kemp and A. E. Holmes.

The conditions of the award of the Canada Law Book Co.'s prize were amended so that a graduate of this university in the department of political science, who passes the examination of the first year at Osgoode Hall, may be eligible for the prize by submitting a thesis not later than Oct. 30 following his law examination.

The calendar of arts, junior matriculation, applied science, forestry and music was approved for the session 1911-12.

A DOUBLE FEATURE

Suffragette Carnival and Hockey Match Tuesday Night.

The Excelsior Roller Rink has completed arrangements for a burlesque hockey match and suffragette carnival to be held on Tuesday night, and have now a list of names of over 25 suffragettes who will compete in the hockey match in full dress attire. You will match in harem skirts, some in hobble skirts, and other original make-ups.

The Excelsior Rink is more popular than ever this season, and on Saturday night was filled to capacity. The management give strict attention to every detail, and as a result of these efforts are now receiving a good deal more than their share of roller skating patronage.

Once more the superiority of the Excelsior has been demonstrated by the fact that the Musical Protective Association, of which all local musical clubs are members, have selected the Excelsior as the best place to hold their big musical festival, dance and supper to-night.

CONFIRMATION AT ST. LUKE'S.

Fourteen children confirmed their vows to the church last night when Bishop Reeve performed the confirmation service at St. Luke's Anglican Church. The seven girls were beautifully gowned in white, and the seven boys went up to the altar rail to receive the bishop's charge and benediction. The choir rendered a most effective program of special music.

THE WEATHER

OBSERVATORY, TORONTO, April 23. (8 p.m.)—A pronounced area of high pressure covers the greater part of the continent, the weather being comparatively cool from Ontario to the maritime provinces, and quite warm in the west.

Minimum and maximum temperatures: Victoria, 38-47; Kamloops, 34-48; Calgary, 32-42; Moose Jaw, 32-46; Port Arthur, 34-40; Winnipeg, 32-41; Qu'Appelle, 32-40; Pelly, 30-40; London, 28-41; Toronto, 31-40; Ottawa, 28-39; Montreal, 32-40; Quebec, 30-42; Halifax, 30-42.

THE BAROMETER.

Table with 3 columns: Time, Bar., Wind. Data points for 8 a.m., Noon, 2 p.m., 4 p.m., 8 p.m.

STEAMSHIP ARRIVALS.

Table with 3 columns: Date, At, From. Arrivals for April 22 and 23.

TO-DAY IN TORONTO.

April 24. Royal Alexandra—Margaret Anglin. In "Stockings," 8.15. Princess—Katie Did., 8.15. Sines—Vaudeville, 2.15 and 8.15. Star—Burlesque, 2.15 and 8.15. Gayety—Vaudeville, 2.15 and 8.15. Majestic—Vaudeville, 2.15 and 8.15. St. George's Society annual dinner—St. George's Hall, 7.30. Annual meeting Canadian Club—Mortimer's, 7.30. Railway Commission—City Hall, 11.

CRAIG @ SON

Formerly A. M. Craig & Co. Funeral Directors. Queen St. W., 3 Doors West of Dundas Ave.

DEATHS.

BURK—On Friday, April 21, 1911, at his late residence, Walnut Hall, 106 Shuter-street, Captain David C. Burk, in his 78th year. Funeral on Monday, April 24, at 2.30 p.m. to St. James' Cemetery.

DEWAR—On Saturday, April 22, 1911, at the Western Hospital, Toronto, Canada, David G. Dewar, 66 years, dearly beloved son of Mr. and Mrs. John Dewar, Auchterarder, Perthshire, Scotland. Burial in Mount Pleasant Cemetery, Toronto, Tuesday, April 25, at 2.30 p.m.

GALLAGHER—At his late residence, 35 Humbert-street, at 8.45 p.m. Saturday, Charles Gallagher, in his 65th year. Deceased leaves a widow, four daughters and two sons, Patsy and Charlie. Funeral, Tuesday, at 9 a.m. from St. Mary's Church to Mount Hope Cemetery, Lurgan, Ireland. Papers please copy.

HASLETT—On Saturday, April 22, 1911, at 1433 Yonge-street, John, beloved husband of Sarah Haslett, aged 50 years. Funeral to-day (Monday) at 2.30 p.m. to Mount Pleasant Cemetery.

KIRKPATRICK—On Sunday, April 23, 1911, at 211 Oak-street, Jane Kirkpatrick, widow of the late Joseph Kirkpatrick, in her 78th year. Funeral from the above address on Tuesday, 24th, at 2.30 p.m. to Prospect Cemetery. Friends and acquaintances please accept this intimation.

LIBBY—At her late residence, 117 Mackenzie-street, Sunday morning, April 23, 1911, Elizabeth Ball, relict of the late John Libby, in her 75th year. Funeral private at 2 o'clock Tuesday at the residence of her son-in-law, Mr. James Coulter, 24 Robert-street, Toronto. Burial in Mount Pleasant Cemetery. Private 2.30 p.m.

MONTGOMERY—Saturday morning, at his father's residence, 302 Albany avenue, Howard Lyle, only son of William A. and Elizabeth McIntosh, in his 22nd year. Funeral private, Box Grove, Tuesday, 18th inst. Clarence Stoner, in his 17th year. TAYLOR—On Friday, April 21, 1911, Rebecca Taylor, wife of A. W. Taylor, 56 Bellevue-avenue. Funeral on Monday, at 2.30 p.m. to Mount Pleasant Cemetery.

TURNER—On Friday, April 21, 1911, at midnight, at the residence of her daughter (Mrs. William Tomlin), 63 Clinton-street, Toronto, Emeline Wagner Turner, in her 81st year. Funeral on Monday from above address at 2 p.m. Interment in Mount Pleasant Cemetery. Private 2.30 p.m.

WILSON—On Saturday, April 22, 1911, at the residence of his son-in-law, (Mr. James Coulter), 24 Robert-street, Toronto, Margaret Smith, widow of the late Joseph Wilson, formerly of Aurora. Funeral on Monday, April 24, at 1 o'clock from the above address to Aurora Cemetery via Metropolitan Railway special car. WRIGHT—At her late residence, 154 Western-avenue, West Toronto, on Saturday morning, April 22, 1911, Louisa Mary, dearly beloved wife of Charles Wright, aged 73 years. Funeral from above address on Tuesday, April 25, at 2.30 p.m. to St. John's Church, thence to Prospect Cemetery.

Restored the License. WOODSTOCK, April 22.—In the face of a number of petitions and delegations from church and temperance organizations, the North Oxford license commissioners today granted a license to the Grand Trunk Railway Hotel at the station. This will make eight hotels in the city. The Grand Trunk Railway Hotel was out of some time ago, but there was a largely signed petition asking for the restoration of the license.

BOY SCOUT MOVEMENT BUILDING UP NATION

Scout Masters Impressed With Magnitude of Task That Confronts Them.

The Scoutmasters' Association of Ontario concluded their first conference by holding a banquet at McConkey's on Saturday evening. The chairman, C. J. Stalker, called upon Capt. R. S. Wilson, who dwelt in eulogistic terms upon the personality of the chief scout, General Baden-Powell. The speaker felt it a great honor that he was the representative of the chief scout in Ontario. There were 6000 scouts in Ontario, and a heavy responsibility rested on every scoutmaster in the province. It was necessary to get the best material to back up the movement. The boys in the scouts would be eventually the men of this country, and he had noticed a distinct improvement in manners, experience and looks already.

The best kind of material, concluded the speaker, is to teach the boys to reverse the flag; it is only a piece of bunting, but we don't half appreciate its value, but it is going to be one of the greatest factors of loyalty in the British Empire. One sometimes heard the loyalty of the empire threatened, but it was a wonderful fact that 6000 boys had taken an oath to be loyal to God and King, and with an enthusiasm worthy of the best, they had done so.

Capt. Roland Williams felt that a marvelous work had been done. Scouting was only in its infancy, but it was going to be one of the greatest factors of loyalty in the British Empire. One sometimes heard the loyalty of the empire threatened, but it was a wonderful fact that 6000 boys had taken an oath to be loyal to God and King, and with an enthusiasm worthy of the best, they had done so.

Lieut.-Col. Robertson spoke in very appreciative terms of the work H. G. Hammond had been doing. The colonel mentioned the fact that in a few months' time he would complete five years service as commanding officer of the 4th Highlanders, and he was good discipline had been kept in his regiment by giving each man a free hand, doing his best, and he was sure to do theirs, and he was sure the same principle applied to the boy scouts. "I will have an eye single," concluded Colonel Robertson, "to do what we can for the scouts in this province, and a year hence, instead of having 6000 boy scouts, we will have 12,000. The militia will never hurt the boy scout movement, but by working together in harmony, the one can help the other."

Scoutmaster Gibson of Ingersoll thought that at this particular stage of the development of Canada, the country required the closest attention. It was a nation in the making and largely upon the work the scouts were doing to-day would depend the future of the country. Scoutmaster Marriot of Galt said that since the organization of the boy scouts in Galt he had never known an instance where a pupil of his had got into trouble. When an employer wanted a boy to work for him he always wanted a scout.

Capt. Hammond thought that if Mr. Andrew Carnegie were to give his millions to the boy scout movement, instead of to power-worshippers and peace palaces he would be doing a greater service to mankind. He hoped the scoutmasters would give him the greatest support. Brief speeches were made by S. M. Allan of Montreal, C. Walker of Toronto, District Commissioner, and C. J. Atkinson of Toronto.

The proceedings closed with the singing of Auld Lang Syne and the National Anthem. Spirit of Militarism. The scoutmasters, numbering about 100 from all over the province, were in conference at the city hall Saturday morning and afternoon.

There was some difference of opinion as to whether the training boys designed to imbue the boys with military spirit. Most of the delegates appeared to favor the idea of giving them a military drill, but W. C. Marriot of Galt spoke for those who opposed making scout organization a feeder for the militia.

Field Days, Not Sham Fights. At the afternoon session A. Baird welcomed the association in the name of the city council, and said that he thought such meetings were most desirable for the good of the movement. R. Davis, secretary, was the next speaker, taking as his subject, "Field Day Ideas." Mr. Davis described to the council the field day as a sham fight or a military manoeuvre. He gave the description of the preparation for a field day, as for instance, the location of camps for operations, installing into the minds of the boys the necessity of protecting private property; the necessity of settling program arranged for the day, and the scouting should be of the individual patrol tactics, rather than massing in large bodies. The speaker wished the scouts to be considered more as backwoods men than members of a military organization.

During the discussion H. G. Hammond, vice-president, said he didn't care whether they had a prize fight provided the boys were doing something valuable. He thought it would be irrelevant to exclude the boys from five cent shows. They should not be forbidden there provided the pictures were good.

Boys for Coronation. A. Roland Williams, president, Toronto district scout council, thought military tactics were good, and he didn't care whether they were sham fight or a real fight. He thought it would be a very good thing for all outlying districts to amalgamate at some season of the year and join in a united field day.

In regard to a number of scouts going to the coronation Mr. Hammond said that one member would be chosen from each troop; it would be necessary for the boy to be fourteen years of age or over; he must be physically well mannered and be a King's scout. Owing to the inability of A. E. Mercer, hon. secretary, to be present the address on Monday was given by the president, who was dispensed with.

Conference a Success. Scoutmaster Allen, executive council of the Scoutmasters' Association, Montreal, before leaving for New

KITCHENS

DISH-PANS COLANDERS ETC. KEPT DAZZLING BRIGHT & CLEAN BY

Old Dutch's Cleanser Full directions and many uses on Large Sifter-Can.

York last night, told the World that the conference had been a great success and the representatives of Montreal were impressed with the excellent work done by the patrol leaders of Toronto.

Mr. Allen said there would be a similar conference in Montreal in the near future and hoped scoutmasters from the whole of Eastern Canada would participate. Mr. Allen said he had been to Toronto in the past and had been very much impressed by the excellent work done by the patrol leaders of Toronto.

A Note to North Toronto Residents. When you are bound for Ottawa or Montreal or intermediate points, do you make a long trip downtown to the Union Station? That is because you have not tried the direct service from the C. P. R. North Toronto station at the head of Yonge-st. Train carrying through sleepers for Montreal and Ottawa leave the North Toronto station daily except Sunday at 10 a.m. You save time and trouble and when returning, this convenient service will land you at home before the through train is in at the Union Station. "Time saved is money earned." Earn some money the next time you travel.

Broke Both Legs. STRATHROY, April 22.—While returning home from Strathroy last evening accompanied by her son, Mrs. Duncan Crawford, 5th concession, Carleton Place, Middlesex County, was thrown out of the buggy in a runaway accident and broke both legs just above the ankles. The fractures were reduced, and no fatal results are anticipated.

G.T.R. Operator's Office Robbed. BERLIN, Ontario, April 23.—Chief O'Neill today arrested Ernie Hamill, aged 23, formerly of Galt, on a charge of breaking into the Grand Trunk operator's office and stealing about \$215. Others may be implicated later on. In the prisoner's possession was found a revolver, which has been identified by Operator Ober as one he had left in the till.

LABOR LEADER ARRESTED

Continued From Page 1.

and when he returned, he surrounded McGonigle's home with watchers. Changed His Mind. McGonigle, in the meantime, not knowing he was being watched, returned to Los Angeles, with a plan, the detective claims, of destroying the auxiliary plant in which The Times was being issued. It is said he made several inspections of the plant, but apparently changed his plans. Just to show his good faith, Burns says McGonigle placed an infernal machine under the plant of the Llewellyn Iron Works in Los Angeles.

Detectives watching this were unable to make use of their knowledge to prevent an explosion, being fearful of warning the dynamiters of their presence and by putting them on their guard and prevent an arrest.

The detectives closing in on the Chicago man, followed him to his first meeting with Jas. W. McNamara, a printer, whom at that time they knew only as J. B. Bryce or Bryson, under which name the explosive said to have been used in blowing up The Times plant was purchased.

McGonigle and McNamara then came east, the same train bearing the watchful eyes of the Chicago police, to Milwaukee and a dozen other points, always carrying a mysterious suitcase, which it was later learned contained the clock work basis from which the infernal machines were formed. Finally the pair went to Indianapolis, where interviews were held with Secretary John McNamara, the first time he had appeared in any connection with the dynamiting.

Prevented Destruction of Bridge. First, the two visited Secretary McNamara's office at night and held a long consultation. The next day Secretary McNamara kept an appointment with the two in a street near his office, and the three went into another consultation in a saloon. Then McGonigle and James McNamara went again to Kansas City, and following them, watchers found a "plant" arranged under a new bridge, and by throwing a quantity of nitroglycerine found there into the waters below, prevented another explosion. From this time many visits were made to the office of McNamara in Indianapolis. They followed McGonigle to Toledo, where he was joined by James McNamara. The two then left for Detroit, where they were carrying heavy suitcases. Watchers in Detroit had informed Burns, the detective asserted, that an attempt would be made to wreck the new \$2,000,000 terminal in Detroit, and it was determined to prevent this loss. Chicago detectives were asked to aid in the arrests, and Detective Biddinger and Reed were sent from here.

James W. McNamara and McGonigle were arrested by the Chicago men and told they were wanted for safe blowing. Confronted they would prove an alibi on this charge, they made little resistance. Fear that premature disclosure of the facts behind the arrests would complicate proceedings in the arrest of McNamara, who already had been secretly indicted by a Los Angeles grand jury, prevented the authorities making the prisoners acquainted with the real nature of the charges against them.

Became Suspicious. On their way here, however, the men became moody and suspicious and McNamara started the police with the question: "Say, is it for the Los Angeles job you fellows went up?" The men, however, refused all attempts to force a confession from them.

Raymond Burns, son of William J. Burns, asserted that McNamara had offered him \$20,000 and later \$30,000 for the liberation of himself and McGonigle. The story of the alleged bribe is said to have been heard by the Chicago officers and corroborated by them.

"After we arrested the men in Detroit," Raymond J. Burns said, "we went thru their suitcases and found 12 clockwork infernal machines, similar to the one found in Florida, and those which were placed at the Otis residence in Los Angeles the night of the Times explosion. We also found an automatic pistol, a heavy revolver and a rifle equipped with a silencer intended to deaden the report of a shot."

Mishap Delayed Train. The breaking of a driving rod on the engine of the C. P. R. train leaving here for Montreal at 9 a.m. yesterday caused an hour's delay between Locust Hill and Agincourt. A number of ties were torn up. An engine was secured from a freight-train in a siding.

Prof. Law to Speak. Prof. Law of Knox College will address the Baptist Ministerial Association in the parlors of Jarvis-st. Baptist Church today, at 10.30 a.m., on "The Historical Influence of Calvinism."

No Smoking on Open Cars.

Citizens are reminded that the by-law against smoking and spitting and the carrying of lighted pipes, cigars, or cigarettes on street cars applies to open cars as well as to closed cars.

The rear seats being no longer occupied by smokers, they will be at the service of women and children as freely as any other seats in the car. The front seat, of course, remains, as formerly, for the accommodation of adult male passengers only.

In view of the fact that the season for open cars is at hand, the foregoing points are worth bearing in mind.

James Gunn, Superintendent Toronto Railway Co.

COMPARTMENT SLEEPERS C. P. R. Building New Cars Which Present Novel Features.

MONTREAL, April 23.—(Special.)—In a few weeks the C. P. R. will start building at its Angus shops, Montreal, six new compartment sleeping cars, which will be a distinct departure from the sleeping cars at present operated by the company. The new cars will be of practically the same exterior dimensions as the ordinary sleepers, but in the inside instead of having berths separated by curtains, the car will be divided into compartments. There will be seven of these compartments and the rooms on board the ocean liners. Each stateroom will have its own electric lights, wash basin, etc. These new cars will be used on the Imperial Limited.

The Angus shops of the Canadian Pacific Railway at Montreal have just issued their new switching engine. These engines are of the standard size build and will be distributed throughout the company's lines.

Mishap Delayed Train. The breaking of a driving rod on the engine of the C. P. R. train leaving here for Montreal at 9 a.m. yesterday caused an hour's delay between Locust Hill and Agincourt. A number of ties were torn up. An engine was secured from a freight-train in a siding.

Prof. Law to Speak. Prof. Law of Knox College will address the Baptist Ministerial Association in the parlors of Jarvis-st. Baptist Church today, at 10.30 a.m., on "The Historical Influence of Calvinism."

Do You Feel All Tired Out? Do You Feel Dull, Listless, and Have You That All-Gone, No-Ambition, Don't-Care-to-Work Feeling? If So You Have Spring Fever

BURDOCK BLOOD BITTERS

Is Without a Doubt The Best Spring Medicine

It Has Been Used by Thousands Every Spring for Over Thirty Years as A SPRING MEDICINE

# This is the Season for Piano Bargains

It has been our custom for years past to offer at greatly reduced prices each spring, a list of splendid slightly-used upright pianos of well-known makers that have come into our hands as part payment on the "GERHARD HEINTZMAN" pianos, as well as a Gerhard Heintzman piano that has had a few months' concert use.

The list below has been specially prepared. Each instrument is guaranteed by us to be in first-class condition, and if not satisfactory when received by you we will pay return freight and charges.

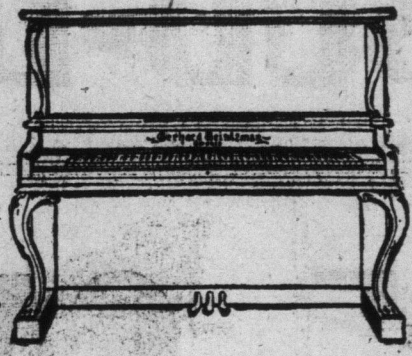

As is our custom, we have priced the pianos below at figures that you cannot overlook if you have the slightest intention of investing in a good piano.

Send us your first, second and third choice, and be quick, as our spring bargain list is recognized as absolutely reliable. The list is not a large one, but every offering is a bargain and will be quickly taken advantage of.

### TERMS OF SETTLEMENT

Cash payment of \$50.00, then \$6.00 per month. For cash settlement a discount of 10 per cent. will be allowed. A fine new stool accompanies each instrument.

- BERLIN—Cabinet grand size, three pedals, seven and one-third octaves, handsome mahogany case, like the famous mahogany case, with a higher and more brilliant tone than any other piano of this class. \$215.00
- STANBURY—Upright grand size, three pedals, seven and one-third octaves, in colonial walnut case. \$233.00
- HEINTZMAN & CO.—Small size, seven and one-third octaves, ebouized case, piano has been thoroughly overhauled and is just like new. \$225.00
- SCHUBERT—Cabinet grand size, Boston fall, three pedals, seven and one-third octaves, handsome mahogany case, has only been used for three months. Guaranteed as new. \$235.00
- DOMINION—Upright grand size, three pedals, seven and one-third octaves, colonial paneled design of case, in handsome mahogany case. \$243.00
- MARTIN-ORME—Cabinet grand size, full Boston fall, three pedals, seven and one-third octaves, in colonial walnut case, has only been used for a short time. Guaranteed as new. \$245.00
- MEINDELSON—Upright grand size, very handsome burli walnut case, carved paneled design, three pedals, seven and one-third octaves, just like new. \$255.00
- GOURLAY—Cabinet grand size, Boston fall, three pedals, seven and one-third octaves, very ornate case of handsome burli walnut, only used a few months. \$265.00
- NEW SCALE WILLIAMS—Upright grand of handsome colonial walnut case, seven and one-third octaves, three pedals, Boston fall board, has only been used a few months. \$275.00
- STEINWAY, N. Y.—Full cabinet grand size, rosewood case of colonial paneled design, three pedals, seven and one-third octaves. Fully guaranteed \$279.00
- MASON & RITCH—Cabinet grand size, colonial paneled design, Boston fall, three pedals, seven and one-third octaves, handsome mahogany case. Cannot be told from new. \$285.00
- GERHARD HEINTZMAN—Upright grand, colonial paneled design, with square fluted trusses and pillars. Boston fall, three pedals, seven and one-third octaves, rich dark mahogany case. This piano has recently been received in exchange for one of our player-pianos, and is guaranteed as new. \$310.00

## NORTH TORONTO MAKES BIG GAIN IN VALUES

Assessment Now Foots Up to Over \$4,000,000—Best Year Town Ever Had—East and West York Licenses Granted—Seeding in Full Blast Out in County.

NORTH TORONTO, April 22.—(Special.)—The most optimistic predictions made in respect to the growth and prosperity of North Toronto have been abundantly verified, and the assessment returns practically completed and returned by Assessment Commissioner Brennan on Saturday cannot fail to be of a most gratifying character to every well-wisher of the town.

They show splendid progress along every line of municipal life, and never before has the volume of increase over the preceding year been so marked. The growth has been, apart from the figures submitted, the greatest in the southern section, as was naturally to be expected, but everywhere there has been a steady, if not phenomenal, increase, and the season upon which the town is entering will without a shadow of a doubt far eclipse that of 1910, it is a well-known fact that between 250 and 260 residences, mostly of the better class, will be erected in North Toronto this summer, while many of them will be of outstanding merit. In view of this, coupled with the figures here given, who can hazard a guess as to the residential possibilities of the town in the near future?

The total assessment on land is \$2,783,397, total on buildings, \$1,343,375; business assessment, \$2,783; income tax, \$1,150; exemptions, \$142,880; grand total, \$4,126,304; less exemptions, \$3,83,124.

The statistics show buildings, 1418; children, 1503; persons, 5217; manhood, 150; births, 147; deaths, 60; number of male persons over 14, 1410.

Mayor Brown is absent in New York, and his worshipful opinion of the assessment returns could not be obtained. The World talked to him to-night, but Chairman D. O. Ross, who can hazard a guess as to the assessment, said: "I certainly am delighted," and the chairman, "I am not sure, but I think it is just what I expected and hoped for. I said last year that our assessment would run up to \$4,000,000, and in fact we are now just in the neighborhood of that figure."

Applications for licenses for the ensuing year, when the following were granted: Woodbridge—John T. Moore and Nelson R. Eakin. York Township—J. J. McLaughlin, Fairbank (three months for repairs). Wm. E. O'Leary, Fairbank, transfer to E. E. Leary. Fasherville (three months for repairs). John K. Fleming, Lambton Mills; Frank McCutcheon, Lambton Mills, two months to sell out. Lambton Golf and Country Club. Wm. Miles, Humber Bay, transfer to Mr. Emily Nolan, Islington. Ambrose O'Brien, New Toronto. Wm. J. J. Jones, three months' extension. Thos. J. Boland, Humber Bay, transfer to the nominee of the Grand Trunk. Frank McDonald, Tillsonville.

## WELL-KNOWN LOCAL RETIRED FARMER PASSED AWAY ON SATURDAY

MILLIKEN, April 22.—(Special.)—The death of William Ashford Morgan, a well-known and highly respected resident of Markham Township, took place at his family residence here Saturday. Deceased had been in ill-health for a long time, but his demise was not unexpected. Mr. Morgan is survived by a widow and one son, Leonard, at home, has been some 22 years from active life some years ago, and has since resided in this village. Deceased was a member of the Methodist Church, and the funeral will take place on Wednesday afternoon at 2 o'clock to Ebenezer Cemetery.

## YONGE-STREET FARMS SELL HIGH

Area of High Prices is Stretching Out on All Sides.

Yonge-street farms away to the north of the city for from sixteen to eighteen miles continue to sell well, and while the fancy prices obtained in York Mills and other near-town districts are not being paid, the figures are interesting.

Toronto men have within the last few days bought the old Clubine farm at Biggin Mills, containing 100 acres, for \$12,000.

Another 200-acre farm at Oak Ridges, belonging to Philip Phillips, and bought by Mr. Phillips seven years ago for \$10,000, has been sold for \$22,000, a gain of more than 100 per cent. An increase in value of \$200,000 a year, ceased was a member of the Kingston-Ontario farmers, are making money in all directions. No wonder they want an electric line out thru Markham Township.

## A CHANCE FOR COUNTY MEN

At a meeting of the Ontario Dairy-men's Association, held in the city the other day, it was decided to hold another dairy farm competition similar to that of 1908 and 1910, with the exception that those who were successful in taking the leading prizes before will be divided into four districts, and one of these will comprise the area lying between Kingston-road and Yonge-street.

## WESTON

WESTON, April 22.—(Special.)—The Weston License Commissioners (Jas. McNeill, chairman, Geo. Holden, R. L. McCormack and Inspector Mackenzie) met here on Saturday to consider the ap-

## MARGARET ANGLIN HERE

Noted Canadian Actress Pleased to Return After Long Absence.

Margaret Anglin, who stands foremost among Canadian actresses, arrived in the city yesterday for an engagement of one week, beginning to-night at the Royal Alexandra Theatre and appearing in her latest play, "Green Stockings," a clever comedy.

Miss Anglin's last visit to her native city was in "Cynthia," a delightful little comedy. That was seven years ago, and since that time she has had many notable triumphs, including a great deal of success during an extended professional tour at the antipodes. A visitor to her apartment at the Kings Edward yesterday afternoon found a veritable garden of blossoms, tributes from many admirers of her acting and development, and most remarkable. Even the accomplished actress herself assured The World that for almost all American cities she has been acting without one single day's vacation, and in addition, traveling most of the time, it seemed hard to believe in view of her high spirits, good health and tremendous energy. Miss Anglin, however, remarked, "No woman can hope for success on any other footing than that of which I am not lucky enough to be endowed with more than ordinary strength, and who is not prepared to make every day's effort to keep her career. The strain upon our physical resources is such that only the strong can hope to accomplish anything of permanent value."

Toronto Surprised Actress. Miss Anglin, who has not seen Toronto for several years, takes a long drive, and as she remembered its environment in her girlhood, she changed and developed into a most remarkable Canadian. "I have already played one week of my Canadian tour, visiting Ottawa, Hamilton, Kingston and Toronto, and all of which cities I was splendidly received, and now to-morrow I am to face an audience in my home town, she exclaimed, "I am so glad that I am a little excited and perhaps somewhat nervous? I want to do my best for them and for the city which I have not seen since I was in my last case here."

Miss Anglin said that her managers have just arranged to take a theatre in New York, beginning next September, where she will appear in a repertoire of plays now being selected. She will remain in the city for the season, so that in any case these days will be the last of her travels for a long period.

## SEEDING GOES IN WELL

What's Doing Out in County Among the Farming Community.

Out in York County there never was a spring when the farmers got the long delayed rain so early. The seedling in short order, than just at the present time, and in two or three days the ground has dried in a wonderful way, and the seedling is being sown in a most satisfactory manner. The farmers report the ground as being in splendid condition, and so early sown, filled as to require little or no cultivation previous to sowing the seed. With the many small farms, and the fact that the average agriculturalist, such as the farmer, who has a few acres, will sweep his acres a week or two on the average, and the seedling is being sown in a most satisfactory manner. The farmers report the ground as being in splendid condition, and so early sown, filled as to require little or no cultivation previous to sowing the seed. With the many small farms, and the fact that the average agriculturalist, such as the farmer, who has a few acres, will sweep his acres a week or two on the average, and the seedling is being sown in a most satisfactory manner.

# MONEY MADE EASY

## UNIVERSITY SUB-DIVISION THE ROSEDALE OF CALGARY

*The Beautiful West End Residential Annex*

Everybody knows what Calgary is. The city of **GOLDEN OPPORTUNITIES**. The **ST. PAUL OF CANADA**. Most marvellous growth of any Western Canada City. Four years ago a population of 17,000, to-day over 60,000. Will have 100,000 in two years and only in its infancy yet as to growth and development.

This sub-division lies directly west of the city and has sold more rapidly than any other sub-division. A Toronto commercial traveller bought 20 lots after seeing this. Another bought ten and returned a week later buying a whole block. Calgary builders have bought in tens and twenties.

**WHY?** **BECAUSE** it is close to the New University, and you know what that does for residential property. **BECAUSE** it will be served by an Electric Car Line before the end of this year. **BECAUSE** it is the best view stuff around Calgary, commanding a beautiful view of the city and of the mountains. **BECAUSE** we guarantee every lot to be **HIGH, DRY and LEVEL**. We will stake our reputation upon every statement we make and are willing to back it up with the proofs. **BECAUSE** Calgary is growing to the west, as all western cities do, and your money will triple quicker there than elsewhere. Everything to make residential property valuable and desirable goes with this sub-division. Invest to-day and watch your money grow. **GOOD COLD CASH. REAL MONEY.** We want you to make money. We want you as permanent customers.

**LISTEN** We will sell for a few days only at \$125 for inside lots and \$150 for corners, and then we will be compelled to advance the prices. All information given by calling at our Toronto Office, Room 106 Dominion Stock Exchange, 14 King Street East, where our Calgary manager will meet you.

**INVEST** Now as you cannot afford to miss this golden opportunity.

**TERMS** \$10 Cash and \$10 per lot per month, or we allow a discount of 5% for cash.

**DEEDS** Are given by the Government, and payments can be made at your own bank.

**ACT QUICKLY AS ONLY A FEW LOTS WILL BE SOLD AT THIS PRICE**

**THE BANK OF HAMILTON**

**Dividend Notice**

Notice is hereby given that a dividend on the capital stock of the Bank of two and three-quarters per cent. for the quarter ending 31st March, 1911, has been declared, and that the same will be payable at the Head Office and Branches on and after 1st June next.

The transfer books will be closed from the 24th to the 31st May, both inclusive.

By order of the Board,

**J. TURNBULL, General Manager.**  
Hamilton, 18th April, 1911.

**IN THE STOCK MARKETS**

**Financial London on the Outlook—Current Comment on Recent Movements on Wall Street.**

The following summary of financial conditions is cabled by the special representative of The New York Evening Post.

LONDON, April 22.—The undoubted trade boom which England is now witnessing has its basis largely in the prosperity of various parts of the British Empire, notably India. This is what has led to the increase in our export trade to record-breaking totals. But financial activity is quite as manifest at home, where internal trade, bankers' clearings and issues of new capital are establishing unprecedented figures.

All of these movements are partly ascribed to the comfortable conditions prevailing in the money market, and partly to the fact that our business movement, must in a measure be ascribed to the fact that the activity is now largely localized in the English markets, whereas it was in the boom of 1908 and 1907, was world-wide.

The Next Development.

On the stock exchange this has been a week of profit-taking based on the recognition, first, that the bull account in English railway stocks, which was second, that the increased activity of the home trade was involving larger demands for money; third, that revival in American trade would really tighten the money market.

After next week's fortnightly settlement it is believed that stock exchange activity will revive again. For it is thought that the present indications favor comparatively easy money through the summer. The quarters of surplus revenue to activity in America is still the matter of dispute. Everyone seems to expect at least a moderate revival in activity following the Washington decisions; but the Wall Street, our people still lay stress on the uncertainty of the situation, they may not possibly be postponed until autumn, and if so, whether conditions of trade inactivity might not be inevitable. There is, however, some further increase in the supply of American bills coming forward to Lombard Street, which suggests that your market finds some use for money.

Aspects of Foreign Markets.

Taken as a whole, the upward movement has not so far exceeded the downward in our markets, the there is apparent now a dangerous tendency to speculate in oil shares, and of such a nature as to bring about a sharp fall in the new mining properties. At Vienna there is a great deal of speculation in the week's moderate shipments of gold from here to Paris were perfectly satisfactory. The London market is still in a state of uncertainty, but the general conditions, indicating a favor retention of our present three per cent. Bank of England rate, seem to be more favorable.

The Missouri Pacific episode is not understood here. In a vague way, the present position of the railway is probably, because of the combined financial strength represented in the control of the property as it stands. Nevertheless, the suggestion of a quarrel over the property has been discussed.

Our home political controversies and the government's fiscal program are passing into another somewhat acute stage, which may have its effect on consols and kindred stocks.

**WALL-STREET TRADING**

NEW YORK, April 22.—Unsettlement was shown by today's stock market from the start. Stocks were active, the number of shares traded during the two hours of the day's trading exceeding the total amount yesterday's full day. The movement was directed against the market, traders' reports of a decline in the early trading led to a low price since the early part of the year. The market was in a state of uncertainty in the steel trade continued to exercise a depressing effect on the stock. Sloss Pines also declined, but this was probably owing to the same cause. Other shares fell off in sympathy, the result being a general decline in the whole lot. Price of most of the leaders declined a point or more. Toward the close there was a partial recovery, due apparently to short covering.

Much of the selling was obviously for the short account, but if required no stretch of imagination to assume that a part of the business reported unloading of long stock held by speculative interests, which have finally got of the market's extreme bullishness.

One of the few exceptions to the general movement was International Harvester, which gained two points. The annual report of this company, which is expected to be issued in a few days, shows large earnings applicable to the common shares. American Cotton Oil was steady today, after its severe decline of the week, and closed steady with a substantial gain, a dividend reduction apparently having been discontinued.

The weekly trade reviews were in line with the reports of the business. Trade is said to be moving slowly in almost every line. The fortnightly report on the number of idle cars showed, however, an increase, owing to heavier coal requirements.

Money continued to pile up at this center, as was shown by today's bank statement. The banks gained nearly \$100,000 during the week, this amount being nearly as large as the highest estimates.

New York Bank Statement.

NEW YORK, April 22.—The statement of clearing banks for the week ending 21st March shows that the banks hold \$9,888,200 more than the requirements of the 25 per cent. reserve ratio. This is an increase of \$2,680,850 in the proportionate cash reserve, as compared with last week. The statement follows:

Daily average—Loans, increase, \$8,301,000; deposits, increase, \$5,532,200; legal tenders, decrease, \$423,750; deposits, increase, \$17,600; circulation, increase, \$28,200; re-

**Imperial Bank of Canada**

Dividend No. 83.

Notice is hereby given that a dividend of two and three-quarters per cent. on the paid-up capital stock of this institution, for the quarter ending 31st March 1911, has been declared, and that the same will be payable at the Head Office and Branches on and after 1st June next.

The transfer books will be closed from the 24th to the 31st May, both inclusive.

The Transfer Books will be closed from the 24th to the 31st May, both days inclusive.

The Annual Meeting of the Shareholders will be held at the Head Office of this Bank on Thursday, the 24th day of May 1911. The Chair to be taken at noon.

**OVERHANGING FACTORS OF DOUBT AND FEAR**

Wall-street in State of Hesitation—Market Uncertainty a Big Influence.

On the stock exchange the much-desired activity fails to materialize, some marked stimulus of change being necessary to overcome the habitual inertia. The market is in a state of uncertainty, and the first in importance being the supreme court decisions, which are not yet known. The market is in a state of uncertainty, and the first in importance being the supreme court decisions, which are not yet known.

**PHILADELPHIA**

PHILADELPHIA, Pa., April 22.—Charged with stealing \$4,000 worth of jewels from a wealthy New York widow, whose acquaintance he had made in that city, Robert J. Davidson, of Ottawa, Ont., was arrested by Detective Scanlon of this city and Detective Barnhart, of Atlantic City, Saturday night and locked up at the central station for a hearing to-morrow morning.

According to the detectives, Davidson was traced by means of pawn tickets, having pledged a ring, valued at \$100, at the seashore resort and one in Philadelphia. The woman with whom he made the charge is Mrs. Fannie Caldwell, of No. 232 West 72nd-street, New York City, and she followed the man, who it is claimed, made his way into her affections, to Atlantic City. She first had him indicted in New York, and Barnhart set on the man's trail at the seashore. When Davidson saw Mrs. Caldwell at Atlantic City, it was too late to get a train, but he pawned a ring and came over by automobile. He proposed to marry her, and when she refused, he decamped with her jewelry.

Met Widow on the Ice.

NEW YORK, April 22.—Mrs. Fannie Caldwell, who caused the arrest of Robert J. Davidson, in Philadelphia, on the charge of robbing her of \$4,000 in jewels, met the young man last winter at the St. Nicholas Rink in Philadelphia. Davidson was a member of the New York Hockey Club, and it was his ability on the ice that first attracted the widow. From the time of meeting they were together a great deal, and there was not a hockey game last winter in which Davidson took part that was not witnessed by the widow. Mrs. Caldwell is an expert skater herself, and has been a well-known figure at the St. Nicholas Rink for ten or twelve years. She is a handsome brunette, about 45 years of age, and has a son 25, which is also Davidson's age.

Davidson was employed as a traveling salesman by a downtown hardware firm. Mrs. Caldwell refused to discuss the case last night. Friends of Davidson expect her to withdraw the charge.

**GOOD HOWING**

Montreal Street Railway Shows Increase of Over \$1000 a Day.

NEW YORK, April 22.—Montreal Street Railway March showed an increase of \$1,000 gross earnings, or over \$1,000 a day. The surplus for the month increased \$18,874, or 2 1/2 per cent. This one of the best earnings, showing the company has made for a long time.

London Market Quiet.

LONDON, April 22.—Money was in fair supply and demand and discount rates were steady to-day. The stock market was quiet, irregular. Government securities were depressed by new issues, but copper and oil shares were active. The market was quiet, irregular. Government securities were depressed by new issues, but copper and oil shares were active. The market was quiet, irregular. Government securities were depressed by new issues, but copper and oil shares were active.

**Cotton Markets**

Ericksen Perkins & Co. (J. G. Bealy), 14 West King-street, report the following prices on the New York cotton market:

Best	
May	14 1/2 14 1/4 14 1/8 14 1/2
July	14 1/2 14 1/4 14 1/8 14 1/2
Oct.	14 1/2 14 1/4 14 1/8 14 1/2

Liverpool Cotton Exchange.

Cotton-spot, good business. Prices seven points higher. American market in renewed support. Good ordinary, 7 1/2; low middling, 7.00. The sales of the day were 12,000 bales. Futures were for speculation and export, and the market was quiet. Receipts were 10,000 bales, including 200 American. Futures opened quiet and steady and closed quiet.

**SAID HE WOULD KILL JUDGE**

But Police Believed He Was Drowned in Welland Canal.

NIAGARA FALLS, Ont., April 22.—(Special)—The provincial police to-night say they believe Roland B. Tanner, who left his home at Point St. Charles yesterday afternoon, declaring he would kill County Judge Wells, has been drowned in the Welland Canal. Tanner was arrested several months ago on a warrant charging him with criminal libel of Judge Wells. He had been thought to be drowned, but was rescued last night.

**FOR SALE**

FOR SALE—Murray-Kay, 5 shares Trusts & Guarantees, 1 share Erie & Ontario, 1 share Dominion Farm Loan, 1 share Sun & Hastings Loan. Special price for quick sale. J. E. CARTER, Investment Broker—6 Queen's, Ont.

**NIGHT LETTERS BY CABLE UNDER CONSIDERATION**

Coalition of Lines May Be Effected With This End in View.

LONDON, April 22.—(New York World Cable)—The Evening Standard cable, which has been in consideration for some time, is now under consideration. The object is stated to be to create a monopoly, but to provide a service of the highest quality. The Anglo-American and the Direct Companies, which are British corporations, will each retain its individuality. The agreement will not mean amalgamation, but rather a community of interests. The object is stated to be to create a monopoly, but to provide a service of the highest quality.

**THE CANADIAN BANK OF COMMERCE**

# Porcupine Gold Camp

## ACTIVE WORK PLANNED ON STANDARD PROPERTY

### Claims Across Border in Deloro Will Be Thoroughly Developed This Summer.

Porcupine City, April 19.—(From Our Staff.) The Standard Mines Company's property in Deloro, where an east and west ridge cuts thru the entire north part of the township, and it is on this massive formation that the rock is to be mined.

The rock is quartz and feldspar, except that about three per cent of the mass is fine pyrite crystals, with some of the phenocrysts of quartz and feldspar appearing, that it is the same as commonly applied to this ridge of quartz porphyry has significance. Pay claims appear thru the formation.

In order to get to depth, to determine if there are paying values for a mill, Manager Silver has prepared for heavy work this summer. A boiler to operate a steam hoist in place and ready to run. Also a steam pump in place and ready to run. No. 1 shaft, which is located on the north side of the ridge and now down to a depth of 45 feet, will be dewatered and sunk to a depth of 100 feet. From this main shaft the drifting and cross-cutting will be done.

A Cobalt firm is also on the ground with a diamond drill, and just as soon as water for the boiler and the drill can be supplied by sinking pits to catch the seepage from the ground, the work will be started. The ridge to a depth of 300 feet to be proved up.

For work in the shaft a steam drill has also been purchased. The drill will be operated by power from the boiler, used to run the hoist.

Buildings sufficient to accommodate 20 men are up and sleeping accommodations for the summer will be made in a big tent to avoid congestion in almost airtight cabins. The cook camp is sufficient to accommodate all the men the company desire to put on. An assay office and a store house are also up.

Following the work of running down the main shaft, prospecting on the surface will start. Recent soft winds and a bright sun for days at a time have taken away the snow on the mountain, and with the ground once more in slight outside work will start up.

Manager Silver hopes before the snows of fall appear again to have the big ridge bounded by the east and west ridges down 200 feet with drifts and cross-cutting to determine if the pay claims will make an ore body.

## WHAT IT COSTS TO MINE AN OUNCE OF SILVER

### T. and N. O. Official Reports on Average Mining Costs in the Cobalt Camp.

Dealing with mining costs in Cobalt, Mr. A. Cole in the annual report of the T. & N. O. Railway, has some interesting deductions whereby he estimates that the average price is 22 1/2 cents per ounce. On that basis, and it has been made carefully by Mr. Cole, the profit on the mine is \$100,000.

Value of Cobalt output for 1910, \$11,500,000  
Cost of mining 2,000,000 ounces at 22 1/2 cents an ounce ..... 4,500,000  
Total costs are 2,875,000  
Profit is \$8,625,000

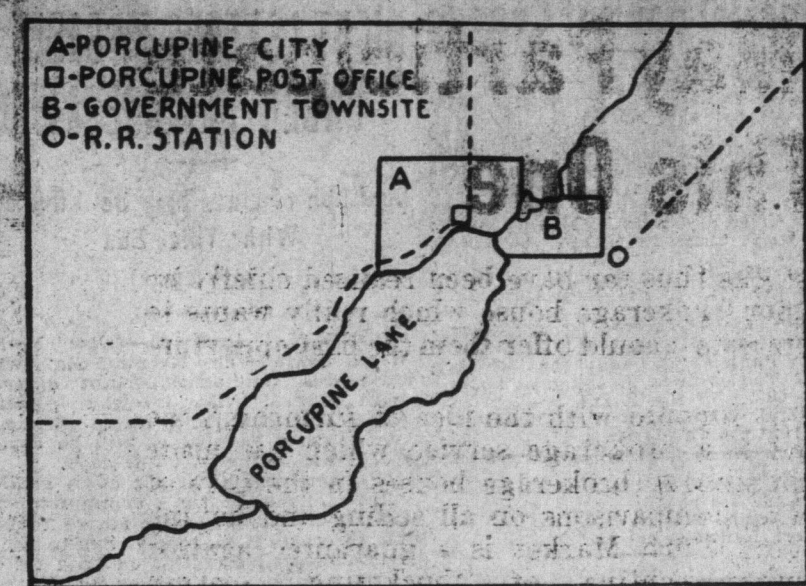

Obviously it would be unfair to draw comparisons between different porphyries, but a general figure for the camp that should be kept in mind in making comparisons with other silver camps may be worked out as follows:

For the year 1910 to 1911:  
Tonnage shipped ..... 112,365  
Value ..... \$47,340,586  
Total dividends declared ..... 15,184  
City of Cobalt ..... 15,184  
Cash reserves as on Jan. 1, 1911, 29,000,000  
Cost per ton of ore shipped ..... 185  
Taking the year 1910:  
Tonnage shipped ..... 83,877  
Total costs are 2,875,000  
Quintals of silver produced ..... 20,000  
Cost of production per oz. .... 19.1 cts.

Cost of mining being charged to the ore shipped. In the richer mines the cost will necessarily be below this figure.

Crown Reserve, McKinley-Darragh, Kerr Lake and Nipissing in their last annual reports average 12 1/2 cents. Crown Reserve holding the record at 10.21.

In the above calculation the figure of 185 is the cost per ton of ore shipped. To find the cost per ton of ore mined, tonnage mined must be included and figure then obtained is 216 1/2.

Porcupine City is a town of 1000 inhabitants situated in the Porcupine Goldfields, for more than a year and within its boundaries every line of business catering to the everyday needs of the people is well represented.

In Porcupine City the point of convergence for traffic from the north and west, as well as from the south, we find a combination of good points—railroad and highway facilities, good business houses, and a land, whose surface offers no difficulties in the matter of inexpensive and good drainage. Lots in this townsite are for sale by

## Charles A. Stoneham & Co.

Commission Stock Brokers  
23 Meinda St. Toronto.

Our business is strictly that of buying and selling mining securities on commission. We are not promoters, and we do not give advice. We are simply the medium through which the interests of our clients are served. We maintain correspondents in all camps and at all points where there is a constant touch with influential news. Our Weekly Market Letter, issued every Friday evening, is a guide to market prices. Put your name on our mailing list. Private advice, book and map guide furnished free.

## REPORT ON ELORADO

We received an excellent report on this property on Saturday from an engineer on the spot—sufficient to urge our clients to negotiate at once. Best in mind the total capitalization is only half a million dollars, in two million shares of the par value of 25 cents, and only 200,000 shares were put on the market at 10 cents to prove the value. Work will be started very soon. We believe the stock an excellent speculative purchase.

Who buy or sell all Cobalt and Porcupine stocks or supply information in regard to any of them.

## Camp About Isolated From Outside World

Staging Into Porcupine Now Over, But Men Still Hit Trail for the Steel.

Porcupine City, April 19.—(From Our Staff.) The one that carries the mail, have stopped, and so far as connection with the outside world by means of transportation is concerned, Porcupine is isolated from the world. However, as to communication, the telegraph and telephone wires are working. Sunday's papers arrived here Thursday.

Two days of heavy thawing, with the wind in the northwest completely put the roads to the bad. Loss and stumps which were driven over in the centre of the road all winter are now up in place. However, walking to the steel is good and there are those who make the trip.

However, it will be two weeks or more at the least before the lakes and rivers are clear of the ice and three weeks at the least before boating starts. No definite announcement has been

## COBALT ORE SHIPMENTS

Following are the shipments from the Cobalt camp for the week ending April 21, and those from Jan. 1, 1911, to date:

Shipper	April 21, 1911	Jan. 1, 1911 to date
Baldwin	56,300	211,800
Barber	120,000	1,671,600
Barber	6,000	1,081,800
Beaver	55,234	1,832,400
Buffalo	288,000	2,046,500
Chambers-Ferland	28,800	89,700
City of Cobalt	123,200	25,400
Cobalt Township	62,100	331,800
Colonial	55,170	1,410,000
Contractors	11,000	11,000
Crown Reserve	118,000	778,100
Harrington	18,800	18,800
Hudson Bay	18,800	117,200

The shipments for the week were 1,075,000 lbs. or 21 tons, and from Jan. 1 to April 21, 1911, the shipments amounted to 24,400 tons, valued at \$1,475,000. In 1910, 25,483 tons, valued at \$1,475,000. In 1909, 23,000 tons, valued at \$1,475,000. In 1908, 21,000 tons, valued at \$1,475,000.

## LOW PRICED PORCUPINES

Oftentimes in the mining markets more money is made in buying the low-priced securities. This was the case in Cobalt, as evidenced by Crown Reserve and others. We are strongly recommending two Porcupine stocks which we consider exceedingly cheap for the possibilities ahead of them.

These are Standard Porcupine Gold Mines and Gold Reef. News of importance will come later of these properties, and on the best information we recommend their immediate purchase.

Our large map, showing all the Porcupine properties, can be had free for the asking.

## PORCUPINE THE GOLDEN CITY

Station of the T. & N. O. R.R.

The Town of Porcupine is located on Porcupine Lake, in the heart of the greatest gold field ever discovered. Stages and motor boats clear in every direction to the various mines. "Bobs Lake," a mile distant, the source of water supply, now being installed for the town, has been carefully analyzed, and is the only body of water in the vicinity that is adapted for drinking and cooking purposes.

It is your own time to think about it as a business proposition, but act quickly before the choice sites are selected. Every mile of advance of the railroad adds dollars to the value of the sites now offered for sale.

Choice Hotel Sites on the Lake Front, ideal locations, convenient for business men of tourists, the chance of a lifetime for wide-awake business men and manufacturers, but the selection of these sites must be made at once. Remember there are over three hundred buildings already erected. The fact that the government lands, recognized the importance of the camp to construct a railroad, is assurance of its permanency. Choice lots for residences are offered in the different sections of the town.

Local maps or charts of the town will be sent if requested, and selections will be held for a limited time on receipt of deposit, and lots will be sold in easy payments.

Write at once and make money orders, cheques, payable to

TIM WARLEAU, Box 153, Porcupine.

SHARP ADVANCE IN CORN IN CHICAGO PIT

Values Run Up Rapidly When Shorts Are Run to Cover—Wheat Market Firm.

CHICAGO, April 23.—Corn to-day had the greatest advance for weeks and the highest price for the crop since the Argentine brought about the upheaval. Closing prices were firm, 42c to 43c higher than last night. The rest of the day left wheat 1/2c to 3/4c dearer to 1c, with oats unchanged to 1/4c off. In provisions the outcome was a gain all around, varying from 1/16c to 3/16c to 3/16c net.

Table titled 'Winnipeg Wheat Market' showing prices and market conditions for wheat in Winnipeg.

Table titled 'ST. LAWRENCE MARKET' listing prices for various commodities in the St. Lawrence region.

Table titled 'Market Notes' providing additional market information and price updates.

The Public May Participate In This One

The profits in Porcupine stocks thus far have been realized chiefly by the Underwriters. A commission brokerage house which really wants to serve its clients in their best interests should offer them the first opportunity on flotations of merit.

We have opened an office in Toronto with the idea of furnishing the Canadian public with that kind of a brokerage service which has made us one of the largest commission mining brokerage houses in the City of New York.

PORCUPINE TOWNSITE MINES LIMITED

was brought to our attention. After thorough investigation we found the company owned one of the most promising properties, consisting of 80 acres, in the camp of Porcupine. Its capitalization of \$1,000,000 is fair; its titles are clear, valid and unencumbered.

The Officers and Directors are men of high commercial and professional standing, as follows:

- List of officers and directors: C. J. Musson, Esq., President; Charles T. Lunt, Esq., Vice-President; A. J. Gillies, Esq.; Hon. Amos H. Stephens; George Gouinlock.

Of the property, Engineer Carl S. Willis says: "I am confident that it will make one of the Camp's big mines."

With the above facts before us, we have decided to let the public in on the first offering of 200,000 shares at 35c, and it is not in a spirit of philanthropy that we do this, but because it is more to our advantage to have a thousand satisfied clients than ten or a dozen capitalists.

Every share of the capital stock is held in trust by the Union Trust Company, Limited, of Toronto, under an agreement whereby it is pooled and can only be delivered in accordance with that agreement to Aug. 20, 1911.

Application will be made to list the stock in both Toronto and New York within a few days.

We believe that Porcupine Townsite Mines shares will advance rapidly, and that quick profits can be realized, but our confidence is in the property, and the greatest profits should come to those who wait the dividends.

Mail or telegraph orders to nearest offices. Prospectus and Engineer's Report sent on request.

### Correct Suits and Dresses

It does not require an unlimited purse to be well dressed. A woman's smartness does not always increase with her dress allowance. "Unlimited means" often mean the purchase of exactly the right thing for somebody else; the woman with the average dress allowance generally thinks a little more, buys the right thing from the right place in consequence, and the result is gratifying.

Here are some beautiful dresses and suits made at the right place by the right people. They are fashionable, as interpreted by a person of refinement. There are many styles and many prices, the former distinguishable by an artistic "up-to-dateness," and the latter by their reasonableness.

The clothes described are exactly the thing for wear at the Horse Show, and the dresses and suits, now on view in our Mantle Department are specially suitable for such occasions this summer.

#### WOMEN'S SUITS, DRESSES, COATS AND SKIRTS.

Beautiful Suit of fancy serge, in cream only, is modelled on correct lines; coat has the slanting rolling collar, with deep pointed revers, outlined with wide silk braid, and satin piped with narrow pale blue silk; fastens with one white silk corded ornament; the new four-gore skirt, with front 42.50 and back panel, trimmed to match coat

Exceedingly stylish and beautiful Dress, of rich quality king's blue foulard satin, with tiny white dots; waist has Dutch neck, outlined with soft silk, three-quarter sleeves, with cuffs to match; this dress is made with the high French waist line, trimmed with tabs and buttons of 39.50 self; skirt is trimmed to match waist part

A beautifully made Coat of a rich satin, in tan, blue or black shades; is in one of the latest approved styles, on the straight lines, with kimono sleeves, finished with wide cuffs, with Oriental trimming and fancy buttons, new collar, with wide revers, trimmed to match; coat fastens to 37.50 left side with novelty buttons. Price

A very handsome and fashionable Coat of black lace over coronation blue messaline skirt, made up on straight lines; a large square cut collar, edged with a fold of black satin, and black satin revers, ornamented with black silk tassel; coat fastens to side with a braid ornament; a wide fold of black satin gives an effective finish to bottom of coat. 67.50 This coat is special value at

Girl's Full Length Coat, of cream serge, mannish collar and lapels, plain tailored sleeve and stitched cuffs, double breasted styles, and trimmed with buttons. The coat is lined throughout with cream satin. Sizes are 6 to 14 years. Price 6.50
