Nineteen Prisoners. Twenty Killed, Others Blown Up in Dugouts Constitute One of Most Successful Raids Undertaken.

By W. A. Willison.
Canadian, Headquarters in France,
March 17.—Nineteen prisoners taken:
20 Germans killed by rifle fire or bayoneted; others blown up in their dugouts and an indefinite number wounded—such is the success of 25 minutes' work of our infantry in front of Oricourt this morning. In front of Oricourt this morning. In addition an enemy machine gun was captured; his forward and rear assembly areas and communications were shelled and gassed by our heavies, and his field guns were swept by our machine guns and shelled by our trench mortars. The raid was one of the most successful in Canadian history. Our men, in moving to the attack, had to cross half a mile of No Man's Land. This difficult manoeuvre over the machine gun swept area was carried out with complete success.

Just before the raiders attacked a regular pitched battle was waged only 200 yards away between the Canadian patrol and an enemy raiding party of double strength. When the miniature battle was over and the Hun had been forced to abandon his offensive intents we had one man wounded, and we had captured two mortally wounded Boches.

"A raid attempted by the enemy north of Lens was repulsers were now going forward under the protection of a mixed smoke oast few days there has been a marked increase in the activity of the enemy's artillery southwest of Cambrai and also along the whole front from the neighborhood of La Bassee Canal to the Menin Road."

attack, while our centre battery guns were doing excellent work on the enemy gun positions. Our smoke barrage, according to enemy prisoners, was very effective, blinding the enemy and covering our attack. Cerally quiet during the operations.

Encountered Little Opposition. Our raiders encountered scarcely any opposition in advancing to the enemy outpost positions. They then moved up a hostile trench to the Boche, "a living line" where the party bombed their way along more than a quarter mile of the trenches north and south. Enemy dugouts were blown up, and the men who offered resistance were killed or captured or driven out, and some of the raiders went forward until they had penetrated to a depth of over 200 yards behind the enemy line, making a total advance of well over a thousand yards. One of our men, after three members of an enemy machine gun crew had been killed, ran up and bayoneted a fourth, and put the gun over his shoulder and tramped back over 800 yards of No Man's Land to the officer commanding his regiment, to whom he presented the gun as a memento. Every detail of the morning's operations worked like clock work. The men, who had been carefully trained before the attack, were in the fines

fighting form. Their only regret, as that of other raiders earlier in the week, is that the Huns did not make a better fight of it.

Had Few Casualties. During the retirement our men passed thru a very heavy barrage, but the whole operation, from beginning to end, was carried out with few casualties, the majority of them slight wounds. At daybreak, when all had quieted down, and the Hun was coming up from his dugouts, etc., all our guns along the front opened up simultaneously with two minutes of gun fire, shot after shot as fast as the guns could be worked. This hail of lead swept the enemy's front line supports, reserved assembly areas and communications and must have caused many casualties and much destruction. Prisoners taken emphasize the event of such operation, but the whole ing, the enemy having been thrown into confusion.

With the exception of one noncommissioned officer the prisoners are poor specimens, having nothing like the physique or morale of our own

*WAR SUMMARY

THE DAY'S EVENTS REVIEWED

In Russia the Soviet congress at the Franco-Belgian front to the large great Hamburg shipping interests and would never venture on a trip to Petrograd until the Geramsn had acquired a predominating hold. In the Ukraine the Germans have occupied ikolaiev, 70 miles northeast Odessa, and the reputed granary of Russia. They apparently encountered no serious opposition. The Cossack forces, supposed to be before this city and Black Sea naval base, apparently are elsewhere.

In Siberia the Cossacks have overcome the Bolsheviks and imprisoned leaders at Blagovieshtchensk. They disarmed the red guards and sailors and re-established order. This town lies 500 miles west of Harbin the Siberian railway, and it was the reputed scene of a butchery of Japanese. The Government of Japan has made no formal decision on the Siberian question, but its military preparations are said to be perfect. Tokio newspapers are demanding mobilization and an agreement with the United States. The evident aim of the Japanese is to have the United States finance the expedition, dermans, meanwhile, are organizing an army corps or so in Siberia out of the German prisoners of war and, at is reported, they are going to organize an army in the Ukraine. The German danger in the east is so great that the intervention of Japan will probably not be lon delayed. The chief problem is the provision of shipbut with the commandeering of the Dutch ships this problem may be considered as mainly solved.

The British continued the policy of carrying out raids far into Germany by daylight bombardments of Kaiserlautern and Zweibrucken. They made targets of the barracks, munition factories and railway stations. The German avlators at Kaiserlautern rose up in a cloud to engage the unwelcome visitors, but they were beaten off and the British machines returned without a loss. Behind the front the British also kept up an incessant aerial strikes in allied countries. It is susbombardment of German billets from one period of 24 hours to another. > The enemy appears uncertain of the allied intentions and dispositions of forces, so he is continuing his policy of raids. Two of these raids against point northeast of Lens and against Zonnebeye in Belgium were complete failures, but one attempt against the Americans apparently succeeded in taking a few prisoners and in securing the information that the enemy was seeking. The Americans and French east of Luneville a few days ago, it has come out, annexed about three miles of German trenches and retained them against counter-attack. The French regard this gain as valuable.

The French made a successful attack on a front of less than a mile and advanced half a mile on the western bank of the Meuse. They also beat off strong German attacks on the eastoff strong German attacks on the east-ern bank of the Meuse, losing, how-ever, some front trenches. The chief actions on the various fronts and also in Italy and Macedonia, outside of the air fighting, are the almost continuous artillery bombardments. But one must not everleok the moral factor."

The despatch concludes with the following French comment:

"Thus de those express themselves who are at the present moment the real heads of the German nation. Beneath the apparent confidence their words convey one can detect anxiety. They know that on the west they will come up against the victorious will of the great democracies of the world, more formidably armed and determined than ever. Hindenburg could never achieve success except on the east front. He has always had great fear of the disillusion which the west has in reserve for him, However, it is possible that the Germans are carefully concealing their plans in the hope of deceiving their adversaries and upsetting public opinion, but, whatever happens, the allies are prepared, and nothing can surprise them."

SUPPORT IS GIVEN CITIZENS' COMMITTEE

The "Hands Off O'Connor" resolution forwarded to Premier Borden from the elitizens' committee of Earlscourt, which was unanimously adopted at their meeting held at the Royal George Chambers, Earlscourt, Friday evening, has created wide interest, and many expressions of approval and endorsement have been received by George R. Ellis, president of the organization, from presidents of rate-payers' associations and others.

John M. Skelton, president of the central council of ratepayers, said: "I am in hearty sympathy with your committee's resolution to Premier Borden requesting that the government support the cost of living commissioner in his splendid work on behalf of the people of Canada. It is a vital matter between the big interests and the people, and we must see that W. F. O'Connor is kept on the job."

Dr. Geo. W. McIntosh, president of the Caledonia District Ratepayers' Association, said: "Your timely resolution to the premier regarding the cost of living commissioner, and his straightforward work in the people's interest, will show the government in no uncertain manner that the cost of living commissioner's department is not to be abolished or merged into the food commissioners' board at the appeal of the big interests."

"I am in hearty sympathy with W. F. O'Connor's work as cost of living commissioner, and he should be encouraged and assisted in every way in his efforts to show the public the workings of the big interests," said Ald Clifford E. Blackburn, "It is very evident that the profiteers are not favorably disposed towards Cost of Living Commissioner W. F. O'Connor," said T. S. Smithbone, "and the premier will please the people of Canada very considerably by taking prompt action with regard to the resolution of our committee requesting him to support Mr. O'Connor against any interests who seek to oust him from his position."

Not alone this, but George Bennett, a neighboring farmer, who the various branches will attend Bennett, a neighboring farmer, who bought it, has on two occasions since turned down offers of resale at an increased price. On the farm are a good house and splendid barn and outbuildings, which would cost to build more than half the price paid for the property.

YOUTHS' SECRET SOCIETY BROKEN UP BY POLICE

Much Booty Stolen Was Recovered in Shack Which Was Headquarters.

Another secret society came to grief yesterday when the activities of Acting Detectives Nicholls and Baynes, of Cowan avenue station, put them on the trail of a gang of juveniles who have made a practice of stealing motor rugs in the Parkdale vicinity and storing them in a shack in the rear of 228 Dufferin Street where a secret society, formed by the youths, had its headquarters. According to the police of the division several complaints have been made by residents in the vicinity to

the effect that rugs had been stolen from their cars, and in one instance a garage had been entered and a valuable buffalo rug removed. All the youths worked under assumed names and were known to one another by such names as "Wha Sing," etc. Several soldiers' water bottles were also found by the detectives hung around the walls of the boys' shack. Summonses have been issued for the boys to appear in the juvenile court

A Special Offer in Easter Portraits at \$5.00 Dozen

With Easter but two weeks distant, this special offer should be of unusual interest to those who prefer this season as the most appropriate for their annual photograph.

It's rather difficult, without seeing, to realize the extent of this offer, for the portraits are the popular panel style, size 3 x 6 inches, that fit the ordinary s envelope, and are finished in the new French grey style that shows a natural rounded effect on the figure, and not the ordinary flatness that is oftentimes seen on ordinary photos. They are neatly mounted in a grey two-flap folder with burlap finish. This offer is for a limited period, and as appointments are sure to fill up quickly, we advise arranging for a sitting at once. Anxious Days

EVER in the history of this old world have the people lived under such tremendous nervous strain as to-day. Millions awake each morning in fearful dread of what the day may bring forth, and live each hour with nerves at highest tension.

While many are falling under the strain, others have found one means er another of fortifying the nervous system so as to maintain health and vigor.

The treatment most widely used is Dr. Chase's Nerve Food, popularly known as the food cure, because it feeds the exhausted nerves and stores up nerve force and nervous

Nothing breaks down the nervous system so quickly as worry and anxiety, and this is why so many people are suffering from nervous headaches, sciatic and neuralgic pains, nervous indigestion and general failure of the vital organs to properly perform their functions.

When you get so nervous that you do not rest and sleep well nights it is time to be alarmed, for it is very much easier to prevent nervous prostration, paralysis and locomotor ataxia than it is to cure these dreaded diseases.

After years of testing under the most severe circumstances Dr. Chase's Nerve Food stands in a class by itself as the most successful nerve restorative to be had. This is being proven every lay by new evidence. Ask your neighbors and friends about it and read the reports in this paper, from time to time, from persons who have been cured.

Demonstration of "La Victoire" Corsets With a Full Range of New Spring Models

A much-wanted shipment of La Victoire Corsets, that has just arrived, will add greatly to the interest of Mrs. Ingersoll's demonstration of these well-known models.

Mrs. Ingersoll, who is well qualified to speak with authority, says that these new corsets are the most attractive models she's seen in years—they're beautifully moulded according to the ne west lines, and the materials are of lovely quality. We strongly advise ou to see them soon.

"La Victoire" Corsets are made of fine coutil or broche, pink or white, and all models are prettily trimmed. The lines are straight, the corset is low in front, curving up a bit at the back, and the hip is of medium length. The prices range from \$2.50 to \$8.50

A particularly nice model for medium or dull figures is made of very fine pink or white broche, trimmed with dainty Val. lace, medium boning, with elastic insertions at the lower edge. This corset may

The Postmen and the Price of Food.

As we gradually persist in the levitational phenomenon of lifting ourselves by the bootstraps, thru the failure to fix prices, allowing every interest and every class of labor to fix its own remuneration without any regard to the general welfare, we must be prepared for insistent demands for those who suffer from the results without any power to help themselves.

We begins the bootstrap business?

It is quite obvious who begins it. It is quite obvious who begins it. It begins with the most necessary of all trade and labor—the food men. STRANGER'S PRESENCE

PLANT RECOGNIZED

Dr. T. P. C. Barnard of North Tonawanda, divisional lecturer of the Theosophical Society, in the course of an address upon "Evolution and Reincarnation," given on Sunday at Foresters' Hall, stated that Billy Sunday and religious orthodoxists of the day denied the factor of evolution in the consideration of religious philosophy. In view of the fact that evolution was a scientifically factor of evolution in the consideration of religious philosophy. In view of the fact that evolution was a scientifically established fact it would seem, said Dr. Barnard, that the tendency today was to drag religion along with the tide, whereas it should be in the vanguard leading all after it. Touching upon the theory of evolution the speaker stated that it could be easily traced in the classification of vegetables, minerals, lower animals and thru all grades of human beings to the height of the greatest spiritual-intellectual manifestation. That there were species of plants which were sensitive to surroundings had been proven to him over and over again. He recalled a mimosa plant, which remained open and indifferent among the 52 dogs or the children of the family, but which would immediately close when strange dogs or humans made their appearance. The ordinary theological ideas of life and religion, concluded the speaker, did not explain why one twin differed from another, why one man was born in a hovel and another of lower principles was another, why one man was born in a hovel and another of lower principles was born in a palace; why one man made a fallure of life and the other climbed to the top rung of the ladder with little effort.

"NOTHING ELSE LIKE IT," SAYS MRS KING

Years of Suffering-Gains Ten Pounds.

"For about four years," said Mrs. Joseph King, "I have suffered from stomach nervousness and a general to get anything to help me until I began taking Tanlac."

Mrs. King and her husband, who is a well known employee of Gooderhan & Worts, reside at 189 Berkeley street, Toronto. They are lifelong residents of Toronto and have a host of friends. "I was so nervous," continued Mrs. King, "that the least excitement would would have to lie down. Many a night it was two or three o'clock before I could only doze and seemed to get no rest at all. My stomach was out of order all the time, I never had much appetite and what little I did eat invariably gave me indigestion very badly. After eating I nearly al-ways had a bloated feeling and severe pains in and about my stomach. My back hurt me dreadfully, I had splitting headaches and my nerves at times got so bad I fust had to go upstairs away from everybody and be quiet be-fore I could feel right again. I seemed to have no life or energy at all and felt tired and worn out all the time.

My headaches have been entirely broken up. In fact, all the pain is gone and my nerves are perdectly calm. I rest well at night now and get up in the morning feeling fine. My weight has increased ten pounds and my health is better than it has been since my troubles began. So I have the best of reasons for praising Tantac and I cheerfully re-

commend it to everybody."

FARMERS PROTEST AGAINST GAS ACT

Health Restored After Four Big Gathering of Agriculturists of Western Ontario Held at Chatham.

RIGHTS INFRINGED

Pass Resolution Pledging Themselves to Secure Amendof Law.

Chatham, March 17 .- One of the largest gatherings of farmers of west-ern Ontario which have ever been held in this city, met hera yesterday afternoon for the purpose of openly ex-pressing their indignation with regard to the new Gas Act passed by the provincial legislature at the present session, and taking steps to have amendments made to the act giving parties having contractual rights a right of appeal, also compensation for losses sustained as a result of the passing of the act. Farmer made scathing attacks on the measure which they Union Gas Company, the largest company in the western Ontario gas fields, which would absolutely prevent further development in either the oil or

gas fields of this section.

Very bitter feeling has been enin Tanlac at first than I did and in-leases, who not only feel that it is un-sisted on me trying it, but now I don't without compensation, but un-British. In giving the chairman of the railway certainly done me a world of good. board supreme powers the legislature practically destroyed the contracts existing between all the municipalities

A strong deputation of farmers is to be sent to Toronto to present the resolutions.

The following resolution, moved by W. A. Chrysler, seconded by Edwin Hea, was carried: "That this meeting of farmers and municipal representatives from the western part of the Province of Ontario places itself squarely on record as unalterably opposed to the provision of the Natural Gas Act of 1918, passed ture, and that we adopt every means in our power to secure the amendment of this law before the legislature rises

tire loss.

that no such high-handed invasion of the rights of land owners and the municipalities has before been attempted in the history of Canada. Under this act, the Ontario Railway Board may utterly wipe out any franchise or agreement between a municipality and a gas company by which rates are fixed and permit the gas company to break its contracts and charge higher rates than are allowed under its franchise. Every township when granting a franchise to a gas company protected its inhabitants the matter of rates, and now this law permits the railway board to take away the protection, and gives the township and the farmers no right of appeal to the courts or to the lieuten-

ant-governor in council, and no compensation. "And be it resolved that a copy of this resolution be sent to Sir William Hearst, William Proudfoot, K.C., M.L.A., leader of the opposition, and to the members representing western On-

tario constituencies." Another resolution, moved by ex-Warden James Miller and seconded by James Slater, was carried, impressing upon the government and the opposition the fact that several essential industries, particularly tile industries, are unable to operate because the railway board will not permit them to have gas, while millions of feet are daily being conveyed out of the county

All appointments to the fishery inspection staff should be placed under the civil service commission, and political patronage eliminated.

Beginning with 1910

Beginning with 1919 the commissioners recommend that attached licenses be done away with, that only one form of gill net license be issued without reference to any cannery, and that competence as a fisherman be established as a qualification for the license. British citizenship should be insisted on. They suggest a recon-sideration of the administrative system, so as to make it more effective in dealing with the Pacific fisheries to establish co-ordination and to avoid everlapping activities.

IRELAND'S PEOPLE LIVE HEROES' LIVES

Miss Katherine Hughes Speaks Before Big Irish Gathering.

CHILDREN'S CONCERT.

Four Hundred Make Fine Showing on the Platform.

St. Patrick's Day was celebrated by some 3000 of the sons and daughters of Erin, who gathered at Massey Hall of Erin, who gathered at Massey Hair on Saturday evening, and while they listened to the songs which held "the tear and the smile," thoughts flew over the ocean to the little isle, Irish feet in fancy walked the valleys known in childhood, and Irish eyes saw once again the hills and valleys

schools made a fine showing on the platform, the girls in white frocks, blatform, the gives in white frocks, their hair bowed for the most part with green ribbon, and the boys making an attractive, background. The three-leaved shamrock was out strong, the tiny emblem appearing on the coat of almost everyone in the audience. Opening with "All Praise to St. Patrick" and closing with "God Save Ireland," the children gave a number of choruses in splendid style under the leadership of Prof. Donville. Others who appeared in the musical program were Victor Gaynor, Mrs. D. Ryan, Albert Downing, the Misses Margaret Breen and Muriel Travers. Irish dances were given by

The speaker of the evening was fiss Katherine Hughes of Montreal. Miss Hughes told of visiting Ireland in 1914, when she had found a unanimity in the north and in the south, all filled with the hope of one country. Recalling past history and comparing it with the present, the speaker said the men and women of Ireland are today living heroes' lives

Of the new movement, Miss Hughes of the new inovenent, was bringing back a civilization that was making for the common good. It had no religious bigotry and was the most vital thing in Ireland today. The mentality which she had found among its members was the finest she had met anywhere, except in western Canada; but in the west it was turned on things material, while in Ireland it was employed on the working out high ideals.

This was ex-plained by the fact that keener competition was experienced by the binder manufacturer than by the separator

Different Selling Methods.
An important difference in the nethod of selling farm implements between Canada and the States was re ferred to by Mr. Findley. The American manufacturer sells his product to dealers outright. These dealers make

arving profits according to local con ditions, and prices vary in conse-quence For instance, in Montana binder costs \$20 more than it does in line the manufacturer sells direct to the farmer thru local agents, who secure a commission on whatever they Prices are therefore standard ized and vary only as they are affected by cost of transportation from the dis-dributing centre. At the same time the agents are but seldom unable to give immediate delivery of repairs and they tender expert service to the farmer.

With reference to the 'Liberty' motor which was mentioned by Mr. Wilson as an example of standardization. Mr. Findley sard that in this instance the government had given large orders to various manufacturers, which were sufficient to enable them. to concentrate on producing a single shipped their particular parts to a central assembly plant, where the motor was completed. The manufacturers had a definite order of a suffipart of the engine. These factories cient volume as well as a patriotic incentive. This motor was also a wartime measure only and would not be manufactured for commercial pur-poses after the war. But the Canadian implement manufacturer had not sufficient business to enable him to concentrate on a portion of a standardized machine. Furthermore, it would be impracticable from a selling point of

Chapman Endorses Idea.

F. M. Chapman ,editor of Farmers' Magazine, and who is also a farmer on is own account , expressed himself strongly in favor of the idea of standardization. He mentioned that well-digging pipe and knuckles were standardized, also plumbing and electric light fixtures. He felt that as a war measure farm implements should be standardized in their essential breakable parts. As an example, he stated that a binder might be standardized insofar as the sickle bar, Pittman attachment, gearing and binding attach-ment were concerned and that the manufacturer might keep the general design of his implement similar to his present individual taste.

Examples of loss thru lack standardization were cited by Mr. Chapman The Ross rifle would not carry the standard shell of the allied armies, and therefore was thrown into he discard as unserviceable.

The Tractor Example. In the early history of the tractor movement heavy tractors made their appearance in western Canada. many cases the manufacturers were mushroom concerns with not sufficient capital or experience Consequently when their tractors were found to be unsuited for the purpose of the Canadian farmer these manufacturers went out of business. The farmers who had purchased trac-tors were unable to purchase repairs and the tractors became scrap fron

and a heavy loss to the farmer.

This condition resulted in the demoralization of the tractor industry and it cost the reputable manufac turers much time and money to overcome this setback. If the tractors had been standardized under government supervision the farmers as well as the reputable manufacturers would have been protected from loss.

Western Farmer Desires It. Mr. Chapman remarked that Western Canada felt the high cost of repairs more than Ontario, where cost of transportation was lower, and repairs were more readily obtained. He stated that the western farmer was much interested in the subject of standardizing the manufacture of the implements he purchases.

As evidence of the high cost of re-pairs under the present system, Mr. Chapman said that if one purchased a pinder piece by piece the cost would be three or four times the price of the assembled inplement. On the other and a Ford car cost but comparaively little more when purchased as repairs" than the price of the assembled car. Standardization was more in evidence in the manufacture of a Ford car than in that of a binder.

High Cost of Selling.
Speaking as a farmer and also as an employer of farm help, Mr. Chapman said that the cost of selling would be materially reduced thru standardizing the manufacture of implements. Under the existing conditions a great deal of the time of the farmer as well as that of the agent was unnecessarily taken up by arguing the merits of the particular machine which the agent was desirous of selling. Agents of several different machines would call two, three or more times in the effort to make the sale. The farmer, the crops and the agent would be losing the time thus

taken up. If there was a standard type of machine, with all desirable improvements embodied in it under the supervision of a government commission of experts, the farmer would not have to take the words of an agent working for his commission, but would have judgment of the government to guide him. He would merely purchase his binder as a city man does his electric light fixtures. When repairs were needed he could either borrow a part rom his neighbor, if in a hurry, or he could purchase his repairs by tele-

Montreal Produce Market

Montreal, March 17 .- The spot market r cash oats was weak Saturday, and dealers generally reduced their prices 2c per bushel, and at the close quoted car per bushel, and at the close quoted car lots of No. 3 Canadian western and extra No. 1 feed at \$1.06 per bushel.

There was no change in the flour situation. Millers are all busy filling domestic and export orders and making shipments. Government standard spring wheat flour continues to sell at \$11.10 per barrel in bags, f.o.b. cars, Montreal, and to city bakers at \$11.20, delivered:

A weaker feeling has developed in the market for eggs, owing to the warmer weather and the prospects of increasing supplies, and prices declined 2c per dozen on the local market Saturday. Canadian and American fresh-gathered eggs, in a wholesale jobbing way, sold at 48c to 50c per dozen. Some fair-sized lots of Canadian eggs were bought in the country last week at 45c per dezen, f.o.b., and it is reported that they are selling in a wholesale jobbing way in the Toronto market at 46c per dozen. Receipts were \$76 cases Saturday, against \$22 a week \$20.

Prices of butter have had a steadily downward tendency this pest week, owing to increased supplies and limited demand, and sales of finest creamery have been made in the last few days at 48c to 48½c per pound, and fine at 47c to 47½c, but the indications are that prices will not go much below this level. New milk commences to be offered more freely. The receipts of butter yesterday were 100 packages, against 73 the previous Saturday.

The demand for oleomargarine continues good, and sales were made at 23c

Boys-Here's a Real Job for You

Starvation faces millions of the women and children of our Allies. The cry reaches Canada for food, more food and vet more food.

Canadian farmers are willing to raise every pound of food the soil will yield. But it takes plenty of work to plant, cultivate and harvest the grain and roots.

15,000 boys, from 15 to 19, must be obtained in Ontario to help in this emergency. Boys, it's a real job_one requiring work and self-sacrifice. Think of your grave responsibility and the awful result if you don't rise to the occasion and "do your bit."

Thousands of Canadian boys made good on the farm last year. They were paid from \$12.00 to \$30.00 a month and board. This year there's an additional incentive for boys to distinguish themselves-A National Bronze Badge of Honour.

Enrolment Week, March 17th to 23rd Enrol with your School Principal, or Enrolment Officer whose name will be announced in the local press.

VIOLENT BREAK IN GRAIN AT CHICAGO

Wave of Spring Liquidation Finds Market Bare of Support.

Chicago, March 16.—Grain prices collapsed sudderly today under a burden of annual spring liquidation, which chanced to catch the market bare of support. After extreme breaks of 5c to 64c, however, rallies ensued. Corn closed unsettled, %c to 2%c net lower, with March \$1.26% and May \$1.23%. Oats finished 25%c to 44c down, and pork off 22c to 50c. Suggestions that German peace feelers might have had a bearish influence on corn met with emphatic general dissent. Once the downward plunge of values had started, however, everybody in the trading pit seemed to be imbued with a single idea, and that was to sell. Buyers were at no time numerous enough to hold the market in check until 5c a bushel setback tempted purchasing on the part of heavy interests that had previously withdrawn entirely as bidders. A leading industry was fonspicuous in following this course. Total disappearance of wintry weather appeared to be the chief element of bearish sentiment, with much notice also being taken of a prospect, that lower grades would soon be made acceptable on ordinary contracts. tracts.
Oats were swayed largely by the same influences which affected corn. Provisions dropped owing to heavy ware-hopse stocks here and the acute weak-

GRAIN AT WINNIPEG

Winnipeg. March 16.—At times du . s the session of the market today the market simost verged on panicky conditions. It was the first real bear market the exchange ras seen in a long time. The rapid fluctuations were very hard to follow. The decline of almost five center a bushel in the American markets was the chief reason for the weakness in Winnipeg. A considerable number of stop orders were uncovered on the Jociline. The buying, all the way down, was of a very strong nature. Bits interests necumulated oats all the way down although their buying was not in a sufficiently large volume to stem the wave of bear enthusiasm. In the cash market spreads were practically un 1,000

JAP INTERVENTION **FAVORED IN BRITAIN**

Newspapers in General Desire Action With Certain Russian Support

London, Friday, March 15 .- Considerable space is devoted by the news-papers to comment on the address made by Foreign Minister Arthur Balfour in the house of commons on the subject of Japanese intervention

in Siberia.
The Chronicle says: "Mr. Balfour indicated the possibility that Japan might give promises to respect the ter-ritorial integrity of Russia. He insisted very properly that if Japan gives such a promise we must assume she will keep it."
The Daily News remarks: "The case

against intervention reses on fears of the effect it would have on Lussia herself. If any safeguards or guar antees can be adopted to allay Russia's suspicions there is an overwhelming

case for adopting them."

"The commons should be very critical of proposals of Japanese intervention without the clear consent of responsible Russians," says The Liver-

pool Post.

The Manchester Gaardian says: "If we are to help Russia it can only be in co-operation with her government. President Wilson sees this

Birds, Blossoms, Figures

Hundreds of New Designs

That Chintzes have lost none of their favor is evidenced by the beautiful art chintzes so artistically displayed in our extensive Drapery Department.

Combinations that beggar all description—ranging from the delicate tones for bedroom use to the rich rare shades for living-room or sunroom.

As to patterns—here birds flitting among the branches, there great blossoms bursting with color, or again a ravishingly Oriental pattern of ancient origin. Designs and colors to harmonize with practically every scheme for home decoration.

You will be pleased, too, with the moderate prices at 59c, 69c and 98c per yard, while shadow cloths in softly blended hues are priced at \$2.00 per yard.

You will want many things this spring to make your home more comfortable and attractive—suitable wall paper, rugs and curtain materials make a vast difference to the interior appearance of the home. There is not a need we have not anticipated. You'll find our array of new home furnishings replete with all that is new and beautiful. Prices will attract you as much as will the charming variety. To celebrate the occasion of the opening of these departments, we have arranged "special price" events for today's selling.
