MIGHTY SMASH ON ST. QUENTIN FRONT BRITISH INTERFERES ALL GERMAN POSITIONS

TURKEY OFFERS SEPARATE PEACE

Twenty-Mile Gap Torn in German Front by British Attack—French Make Notable Gain on Two-Mile Front in Champagne—Attack North of Scarpe Breaks Thru Hostile Defence.

WILSON REFUSES AN ARMISTICE ASKS EVIDENCE OF GOOD FAITH

British, American and French Troops Advance Three Miles and Are Still Going, Inflict Serious Defeat on the Enemy, Capture Premont and Take 1000 Prisoners.

WITH the British Forces in France, Oct. 8.—The battle begun at dawn today has resulted in a serious defeat for the enemy. The British, Americans and French have advanced everywhere, smashing thru the last lines of the Hindenburg system and driving the disorganized Germans before them.

In some places, and especially at Premont, which appears to have fallen to the Americans, the fighting allied troops have penetrated the German lines for a distance of more than three miles, and still are advancing.

Premont, which is reported to have been captured by the Americans, is more than four miles northeast of Beauvevoir, and only three miles from Robais.

This was the answer of the fighting allied armies to German bid for peace. Early in the day smashing blows had carried the British and Americans deep into the positions of the staggering enemy.

The battle is one of the most furious, as well as one of the most important of the war. British cannon, wheel to wheel, sent tons of explosives crashing on top of the enemy in a whirlwind barrage during the better part of the night and early morning. The very air trembled and the earth rocked with the continuous roar of the explosions. The exploding shells thrashed vividly against clouds from which rain poured, the flashes being visible for many miles.

Two British armies attacked in a converging operation in a northeasterly direction. The fourth army, with which the Americans were co-operating, attacked at a gap in the last Hindenburg system and for miles on both sides, while the third army was in action up to Cambrai, attacking along the continuation of the Beauvevoir-Maamere line both on the front and in a turning movement. So it would appear that the idea is to smash down the Hindenburg system completely on a broad front, enabling operations to be carried out to the east of it.

High Ground Taken. The first phase of the attack began about 2 o'clock in the morning, when the infantry, with the assistance of an intense barrage, stormed the high ground immediately south of Cambrai, where the Cambrai-Peronne railway runs along. Special attention was given to other high ground in the southern outskirts of Cambrai as the town is known to be strongly occupied by the enemy.

Already British forces north of the town have gone well to the eastward, so that success at the south should undoubtedly result in squeezing it into British hands. The troops are now pushing forwards towards Wallincourt, Malincourt, Ennezvielle, Serain, Premont, Brancourt and Lesdain, and towards the Cambrai-Le Cateau road. If this road is cut, it will further insure the speedy fall of Cambrai.

As a matter of fact, some of these towns have probably already been captured, but information is always meagre so soon after an attack of such great proportions is launched. British Demonstrations. While this battle raged, the British in the northern areas carried out demonstrations which gave the Germans something to worry about. Bitter fighting was in progress just south of Cambrai when the British, Americans and French for twenty miles to the south went over the top. A cold rain had started during the night and continued, whipping in their faces. Mist and fog assisted the attack in some places, but where this was not thick enough, smoke was mixed with the barrage, screening the advance.

The enemy counter at many places appears to have been weak and thin, for the Germans, realizing the danger and persistence of their position, had brought their guns well back. The British barrage did terrible damage among the ranks of the retreating Germans. The principal resistance came from machine gunners, fighting from pockets and nests as heretofore. At this hour, 10 a.m., the battle is proceeding with the greatest fury.

HAIG'S REPORT

London, Oct. 8.—Field Marshal Haig's report from headquarters tonight reads: "The Third and Fourth Armies attacked on a front of about twenty miles this morning between St. Quentin and Cambrai, and have advanced along the whole of this front to an average depth of about three miles.

"The night had been stormy, making the assembly of troops difficult; the assault was launched in a downpour of rain. As the attack progressed the weather cleared, favoring the development of operations which from the first were completely successful.

"On the extreme right of the British attack, English divisions have driven the enemy from the ridge of high ground southeast and east of Maenthan and have captured the hamlet of Beauvevoir. In the right centre, the 20th American division, comprising troops from North and South Carolina and Tennessee, under command of General Lewis, captured Brancourt after heavy fighting. Further to the northeast they took Premont, a completely successful advance of over three miles, in the course of which they cleared the enemy from a number of farms and woods.

"On their left, English, British and Canadian divisions captured the village of Robais early in the day, in the centre, English and Welsh battalions broke thru the German defence system known as the Beauvevoir-Maamere line and reached Malincourt and the trench line west of it.

"Obstinate resistance was met from strong bodies of the enemy with machine guns at Villers Outreaux. After hard fighting the Welsh gained possession of the village.

"In the left-centre, the New Zealanders broke thru the Beauvevoir-Maamere line and made deep progress to the east of it. The New Zealand troops stormed Lesdain this morning, and, pressing on, carried Ennezvielle.

"On the left of the attack we had hard fighting about Serainvillers and Niergnies and along the line of the Ennezvielle road, in this sector the enemy counter-attacked strongly, using tanks to support his infantry.

"After pressing us back a short distance, the counter-attack was stopped, and the enemy tanks being put out of action, the possession of Serainvillers and Niergnies and resumed our advance. "North of the Scarpe we have captured a German tank and the tank of the French Reserve, Rouvrouy line, from beyond Oppy, and have taken Fresnoy-le-Montauban and Nesqueville.

"A thousand prisoners and many guns were captured in these successful operations. Progress continues to be made along the whole front."

KAISER NOT TO LET GO OF ALSACE-LORRAINE

Berlin, Oct. 8.—The German emperor, addressing the German soldiers, said: "The French nor the Americans will break thru our front in Alsace-Lorraine. We shall defend with the last drop of our blood these provinces which belong to us and which the Almighty has entrusted to us to administer to His stewards, and we shall keep them for the benefit of their inhabitants and the glory of God.

"Our faithful allies are with us in this. The last drop of blood of every Austrian and Hungarian soldier, the last drop of blood of every Bulgarian and Turkish soldier will be shed before our enemies wrest from us land which belongs to Germany.

"Our enemies cannot and will not succeed. We are under Divine protection."

Turkish Delegates Reach Athens Today

Will Enter Into Peace Pourparlers—Turk Cabinet Resigns—Great Excitement at Constantinople.

Athens, Monday, Oct. 7.—Delegates from the government at Smyrna, Turkey, are expected to reach Athens tonight with an offer of peace to the entente powers.

London, Oct. 8.—A despatch to the Exchange Telegraph from Athens, dated Sunday, says:

"The governor of Smyrna has resigned, and Mitylene three delegates, a Greek, an Englishman and a Turk, to enter into peace pourparlers, according to The Hestia."

The Turkish cabinet has resigned, according to a despatch from Bern, Switzerland, to The Evening Star. The message says that great excitement prevails at Constantinople.

Shell Shocks for the Kaiser.

President Wilson gave the German chancellor a short and sharp answer that will have a most disheartening effect on the Germans.

The Turkish cabinet, very pro-German, has resigned. A revolution may start any hour.

Some kind of a revolution has succeeded in Smyrna, Asia Minor, and delegates are on the way to Athens to propose peace to the allies.

The allies are steadily advancing on the western front, and the Kaiser is holding a series of prayer meetings in his oratory.

The Austrians must be feeling as blue as the Germans.

In fact it's one long streak of despair from Luxembourg to Constantinople, a few more days and the jig may be up.

DRIVEN BACK IN CHAMPAGNE OVER A FRONT OF TWO MILES

Franco-American Troops Capture Plateau North of St. Pierre and Take Numerous Prisoners.

Paris, Oct. 8.—Franco-American troops in Champagne have driven back the Germans over a front of nearly two miles north of St. Pierre, capturing the plateau northeast of Autry and taken numerous prisoners, according to the French official communication issued tonight.

The French northeast of the St. Quentin line have captured Pontaine Urtie, the Bellecourt Farm, the Village of Rouvrouy and other positions. More than 1200 Germans were made prisoner in this region.

GENERAL CURRIE ASKS SUPPORT FOR CANADA'S VICTORY LOAN

Result of It Will Be Watched With Interest by Every Canadian Soldier in France.

WINNIPEG, Oct. 8.—Sir Thomas White, in opening the Victory Loan campaign, made public the following cable from Sir Arthur Currie, commander of the Canadian Corps.

"You are about to launch another Victory Loan campaign, the result of which will be watched with interest by every Canadian soldier in France. We have just won our third and greatest battle since August 8, in which the Canadian Corps has met and defeated 47 of Germany's best divisions, has captured 28,000 prisoners, and more than 600 field and heavy guns, and has liberated 69 towns and villages. These remarkable achievements would not have been possible without the most loyal support and encouragement from home. A continuance of that support is immediately necessary to consummate the final victory, of which we are all confident. The people of Canada will amply respond most generously to your appeal."

Sir Thomas White has sent the following reply to Gen. Currie: "I am deeply grateful for your splendid message which will powerfully appeal to the people of Canada. My hearty congratulations upon the splendid success achieved by our heroic soldiers under your leadership. May God bless and keep you all."

Great Victory Is Won Of Widest Importance

German Defence System South of Cambrai Is Thoroughly Broken on Wide Front and Penetrated Elsewhere on Main Lines.

With the British Army in France, Oct. 8.—A great victory, the results of which undoubtedly will prove of the widest importance, especially at this time, has been won today by two British armies in the field on a front extending twenty miles from Cambrai, southward.

Americans participated in the centre, and they plunged even more deeply into the enemy's position than at first had been intended. The Hindenburg system south of Cambrai now has thoroughly been broken up on a front of considerable width.

Elsewhere the main lines of the Hindenburg system have been penetrated, while to the north of Cambrai it appears to have been turned by the British. East of Premont tanks and armored cars are reported now to be in action, and, if this is true, as it is believed to be, the offensive certainly has been exploited.

At the moment it appears that the new line runs generally from the north, south of Forneville, to the east of Serainvillers. The allied troops are reported in Wambaux and Ancle, in Villers Outreaux and Serain, east of Premont, east of Brancourt, east of Fresnoy-le-Montauban and east of Nesqueville. All the ground to the west of these places is reported now to be in British hands.

It was the Americans who stormed and captured Brancourt and Premont after hard fighting. They reached their objectives well ahead of time. In fact, this was the case almost everywhere along the line.

East of the line the British and Americans now are in the open country, and there seems to be reliable indications that there are no lines of importance there, at least for many miles.

Once more terrific punishment has been inflicted on the shattered and disorganized German army. Many a trench and machine gun post was turned into a shambles in the fighting before the main bodies of the enemy ceased offering strong resistance. From then on, it was a case of fighting from shell-hole to shell-hole, and from one machine gun nest to another nest. In the fighting the German rear-guards held with the greatest desperation until overcome.

The Germans again tried their trick of pouring deadly streams of bullets into the advancing troops until the allies were right on top of them and then calling out "kamerad" and exclaiming "this is the best of the story of a lanky Memphis lad, who said: 'We've come too far and been shot at too often to let them get away with the yell 'kamerad.' They are no kammerads of ours. Three of these Fritzies in a shell hole fired at us until we were right in front of them. They didn't spare us and I didn't spare them. I put the bayonet thru all three of them.'"

"Hons of prisoners were taken during the day, but said they had received vague orders to let them go away with the yell 'kamerad.' They are no kammerads of ours. Three of these Fritzies in a shell hole fired at us until we were right in front of them. They didn't spare us and I didn't spare them. I put the bayonet thru all three of them."

ITALIAN AIRSHIPS BOMB VITAL ENEMY POSITIONS

Rome, Oct. 8.—The war office statement issued today says: "Our batteries have damaged enemy defensive systems in the Guiscardia and Grappa regions. Our airships have bombed vital enemy centres in Trentino and on the Venetian plains."

ONLY WAR MANOEUVRE AS PEACE OFFENSIVE

Rome, Oct. 8.—The American ambassador, Thomas Nelson Page, being asked for his personal opinion respecting the German peace proposals said: "This is nothing but a war manoeuvre, camouflaged to make a peace offensive."

Germans Must Leave Allied Soil Before Peace Can Be Discussed and Maximilian Must Say Whether He Speaks For the German People or Those Responsible For the War.

WASHINGTON, Oct. 8.—President Wilson has met Germany's peace proposals, with a move which will, at one stroke, develop whether her proposal is sincere or merely a pretension, and, if a pretension, it fully justifies for all time before the world the prolonging of the war with force to the utmost, force without stint or limit. At the same time, the president has left wide open the door to peace.

Declining to propose an armistice while the armies of the central powers remain on invaded soil, the president today called on the German chancellor to state, as an absolutely necessary preliminary to a reply from the entente allies and the United States, whether Germany accepts the principles of peace so repeatedly laid down, or merely proposes to accept them "as the basis of negotiations," and whether the chancellor merely speaks for the German military masters, conducting the war or the whole German people.

As the full significance of the president's diplomacy is disclosed, it becomes evident that he has left open the way to peace and at the same time left the military masters of the central powers with a question they must necessarily answer in a way that will lead to peace or confront them with an embarrassing situation in their own countries.

A Master Stroke. Among diplomats here, the president's communication is regarded as one of his master strokes. It is pointed out that upon cursory examination it may not show such strong terms as some may have desired. All the president's advisers, however, are confident that, as close consideration reveals its full import it will be apparent that it is a long step forward if Germany really means peace, and that if she does not it will strip bare the possibility of prolonging the war never can be charged to the allies, even by the German people themselves.

The text of the president's communication was made public today by Secretary Lansing, together with the official text of Prince Maximilian's cable let it be known that there would be no reply at present to the Austrian note, similar to that of the German chancellor. It is not considered necessary to deal with Austria until the time comes for a reply to her dominating ally.

The following correspondence was given out at the state department, Department of State, Oct. 8, 1918. From the charge d'affaires and public the following communications: Secretary of State, Oct. 8, 1918.

"Legation of Switzerland, Washington, D.C., Oct. 6, 1918. "Department of German Interests. "Mr. President: I have the honor to transmit herewith, upon instructions from my government received by this legation late this afternoon, from the German Government received by this legation late this afternoon, from the Swiss Foreign Office. An English translation of this communication is also enclosed. The German original text, however, is also to be considered as authoritative.

"Please accept, Mr. President, the assurances of my highest consideration." "Charge d'affaires a.i. of Switzerland, in charge of German Interests in the United States, (Washington.)" (Enclosure.)

Translation of communication from German Government to the President of the United States as transmitted by the charge d'affaires a.i. of Switzerland on Oct. 6, 1918: "The German Government requests the President of the United States to take steps for the restoration of peace, to notify all belligerents of this request, and to invite them to delegate plenipotentiaries for the purpose of taking up negotiations. The German Government accepts as a basis for the peace negotiations, the program laid down by the President of the United States in his message to congress of January 8, 1918, and in his subsequent pronouncements, particularly in his address of Sept. 27, 1918. In order to avoid further bloodshed the German Government requests to bring about the immediate consideration of a general armistice on land, on water and in the air.

Max, Prince of Baden, Imperial Chancellor. From the secretary of state to the charge d'affaires of Switzerland: Department of State, Oct. 8, 1918. "Sir: I have the honor to acknowledge on behalf of the president, your note of October 6, enclosing the communication from the German Government to the president, and I am instructed by the president to request you to make the following communication to the Imperial German Chancellor: "Before making reply to the request of the Imperial German Government, and in order that the reply shall be as candid and straightforward as the momentous interests involved require, the President of the United States deems it necessary to assure himself of the exact meaning of the note of the Imperial Chancellor. Does the Imperial Chancellor mean that the Imperial German Government accept the Imperial terms laid down by the president in his address to the congress of the United States on the 8th of January last and in subsequent addresses, and that its object in entering into discussions would be only to agree upon the practical details of their application? "The president feels bound to say with regard to the suggestion of an armistice that he would not feel at liberty to propose a cessation of arms to the governments with which the Government of the United States is associated against the central powers so long as the armies of those powers are upon their soil. The good faith of any discussion would manifestly depend upon the consent of the central powers

35c is Today's Price for a 6x8 Enlargement From Any Snapshot Negative.

We'll suppose that some amateur photographer took an exceptionally good snap of his baby. The pose was cunning, the expression natural and the conditions—light, contrast and so on—were ideal. It was a splendid picture—it held a prominent place in the album—he kept a print in his wallet, but to show it in a room—on a mantelpiece or a dresser it was almost too small to be noticed. He was keen on making the photograph conspicuous because he was proud of the baby and the picture, too. An enlargement was, of course, the only practical solution to the problem and the one he had made was of something like this description. 6 x 8 inches in black and white, mounted on a grey card of 10 x 12 inches, suitable for framing if desired. From negative. The price, 35c.

Or from good print, 60c up, according to retouching necessary.

300 TONS OF BOMBS DROPPED IN WEEK

Over Eight Thousand Aerial Photographs Also Taken by British Airmen.

Ottawa, Oct. 8.—The following report of work done by the British air force has been received from the minister of information under authority of the British war cabinet:

In spite of the frequent bad weather during the past week British airmen maintained practically continuous day and night. An immense number of reconnaissance and bombing flights were undertaken, and the enemy attacked at vital positions in the rear.

Some 300 tons of bombs were dropped in German railway and military organizations between the coast and the Somme. More than a third of these were dropped between sunset and dawn, shattering the enemy's night transport of troops and material.

To show the scale of reconnaissance work in connection with the simultaneous British offensive, we learn that 800 aerial photographs were taken during the battle and vigorously successful from our point of view, while against reported missing, 154 enemies were destroyed, 71 were driven down and 31 kite balloons shot down on fire.

On the coast, besides many raids on the enemy's military and naval bases, the airmen co-operated with the Belgian army in its advance, heavily bombing the railway junctions of Ostend, Thourout and other places during the battle and vigorously attacking German transport trains both with bombs and machine gun fire. The R.A.F. independent force worked in conjunction with the first American army and kept up a successful offensive against the German railway communications south of Luxembourg.

CONSIDER INCOME TAX ON CANADIAN PACIFIC

Ottawa, Oct. 8.—The cabinet council met in special session this morning to consider regulations governing the collection by the government of the income tax imposed upon the Canadian Pacific Railway several months ago when a general increase in railway freight rates of approximately fifteen per cent. was authorized by the government. Mr. E. W. Beatty, general counsel for the C. P. R., was in attendance on behalf of the company. It is understood that the proposed regulations were approved.

It will be recalled that one of the grounds of opposition to the C.P.R. in freight rates was that the C.P.R. was in no need of the increased revenues that would arise therefrom. An order-in-council was, as a consequence, passed providing for the repayment in the form of taxes to the government of the greater portion of the whatever betterment the C.P.R. revenues might show as a result of the general increase. It was estimated at the time that the C.P.R. taxation would put seven millions dollars into the public treasury.

JAPANESE ROYALTY ARRIVES AT VICTORIA

Victoria, B. C., Oct. 8.—Traveling incognito, Prince Fushimi of the royal family of Japan, arrived in Victoria this morning on the Japanese steamship Fushimi Maru, on a special mission to London, as a representative of his imperial majesty Emperor of Japan. His highness was accompanied by a distinguished staff, including Marquis Maeda, Marquis Inouye, Viscount Matsumura, Admiral Omori, Gen. Spida and others.

From here the prince will proceed direct to Ottawa, where he will be entertained by the governor-general.

BUTTER CONSUMPTION CAN BE CUT-DOWN

Reduction of Seven Pounds Per Year Per Capita Would Release \$6,000,000 Pounds.

Ottawa, Oct. 8.—How slight the effect will be on home supplies of butter of the recent commanding order, is shown in a statement by the chairman of the Canada Food Board. Incidentally the facts given also show how great is the uncovered field for national butter export.

"The quantity of creamery butter which may be taken under the commanding order," he said, "will probably not exceed 129,000 packages of 56 pounds each. An authority who has been consulted by the board believes that Canadian consumption of butter could probably be reduced 26 per cent. If that measure were adopted, it would release for export 36,000,000 pounds per year. Another of our technical advisors states that national consumption averages 28 pounds a head a year, so that the cut required to enable this addition to our seven pounds for each person in the 52 weeks."

Mr. Thomson added that "from information in the possession of the board it is seen that prices of butter purchased by wholesale now run between 43 and 44 cents a pound."

The wholesaler cannot under order 45 of the food regulations, charge more than 10 per cent. gross profit in his re-sale, and this with all carrying charges included, should not make the price to the retailer more than from 48 to 50 cents. If a dealer should charge more, the surplus can be reclaimed by action of law. With these figures in mind, consumers may see

MUST NOT BETRAY THE GLORIOUS DEAD

Ottawa, Ont., Oct. 8.—That Canadian organized labor strongly opposes betrayal of our glorious dead through the latest peace trick of Germany is the keynote of a statement given by Tom Moore, president of the Trades and Labor Congress of Canada. He says: "Our desire to establish peace for the living must not allow us to accept a peace that would betray the dead or leave the possibility of unborn generations being again engulfed in such a world cataclysm."

"Such a peace it would be to enter into with the Junkers and military caste of Germany, with their love of war and praise of militarism still on their lips."

ALLIES SHOULD IGNORE GERMAN PEACE OFFER

New York, Oct. 8.—The attitude of the American Federation of Labor toward the new German peace proposal is that it should be ignored and here from Washington to the American Alliance for Labor and Democracy, which made it public.

TO MARRY A BOURBON.

Paris, Oct. 8.—A despatch received here today from Luxembourg announced the engagement of Princess Charlotte, eldest sister of the reigning Grand Duchess of Luxembourg, to Prince Felix of Bourbon de Parme, a brother of the Austrian Emperor.

whether or not they are being charged fair prices. There is about 20,000,000 pounds of creamery butter in cold storage for supplying the home consumption.

RIGHT PEACE COMING WITHOUT OPPRESSION

Bernard Dernburg Predicts Settlement by Understanding—No Humiliation for Germany.

Amsterdam, Oct. 8.—"Militarism has not attained its aim of peace by annexation, violence, and oppression—a peace by understanding is coming instead," said Dr. Bernhard Dernburg, German minister of colonies, speaking at Chemnitz, Saxony, on speaking at Chemnitz, Saxony.

"With Prince Maximilian," he added, "the old German ideal comes to the fore—Not what is useful, but what is right, and moral."

"Such a peace will bring a new era and new and better times will dawn for Germany and the world based on justice in thought and action. A new era means a fundamental revolutionary transformation of governmental system for the entire future."

"Militarism is an expression of violence without the restriction of authority. It terrorizes the entire state life."

"President Wilson's fourteen old and five new points can be accepted by us, if put forward honestly, without humiliation for Germany. We shall not accept an unjust humiliating peace. The new ministry is not only a ministry of peace, but if necessary a ministry of national defence and, if it must be, to the bitter end."

TO PARDON LIEBKNECHT.

London, Oct. 8.—The German Government, according to a despatch from Amsterdam to the Exchange Telegraph Company, intends to grant pardon to a number of politicians imprisoned since the war began, including Dr. Karl Liebknecht and Wilhelm Dittmann. A general amnesty, the despatch adds, probably will be granted to political offenders.

LABOR MUST ACCEPT ADVANCED CAR FARES

Washington, Oct. 8.—Plain indication was given today by the national war labor board that in cases where organized labor opposes advanced street car fares recommended by the board in connection with increased wages, awarded to employees of public utility companies, the entire award, including the wage advances, will be suspended.

The board made public a letter to John R. Alpine, acting president of the A. F. of L., calling his attention to the fact that labor organizations in New Orleans were planning to oppose increased fares recommended by the board when it granted an increase of 70 per cent. in wages to conductors and motormen employed by the street railways there.

"If this action is taken by labor organizations," said the board's letter, "it would seem in justice that we shall be compelled to suspend the entire award, including the increases in wages, pending a rehearing of this matter which we now have under advisement."

A RECORD WHALE KILL.

Over a Thousand Will Have Been Taken by End of Season.

Victoria, B.C., Oct. 8.—All records since the big season of 1911 have been lowered by the whale "kill" this year. Since the beginning of 1918 season 575 whales have been taken by the combined fleets controlled by the Consolidated Whaling Corporation Limited. The operations will continue until the latter part of the present month, and a catch of more than one thousand is anticipated.

RETURNED MEN AT QUEBEC.

Quebec, Oct. 8.—Three thousand invalid soldiers from overseas reached Quebec today on three large vessels. They will be cleared to their homes gradually from now on.

GERMANY MUST MAKE AMENDS FOR CONDUCT

London Newspapers Condemn Outrages Still Being Committed by Enemy During Retreats.

London, Oct. 8.—In discussing the ultimate peace terms, the newspapers refer with the deepest indignation to the outrages still perpetrated in Germany's retreating army and unanimously demand reparation and punishment for this latest crime as well as for the stupendous record of outrages committed throughout the war. The Daily Telegraph says that the evacuation of Belgium will not undo the crime of 1914. Reparation to the full extent must also be made, for Belgium has first claim on Germany's resources for the unspeakable outrages she has suffered.

The Morning Post says that the indemnity for Belgium should be made as heavy as possible, and Germany made to feel the weight of her transgressions by the necessity of paying for them. The Post also suggests a war indemnity should include handing over to the allies merchant ships which Germany has been building.

The Daily Mail demands that Germany should be punished with the utmost severity for the wanton destruction of French towns and other papers endorse this demand. The Daily Express commends the sequestration of raw materials to Germany till all accounts are settled.

Warm Time at Meeting of the Local Board of Health.

CALLS MAYOR A JOKE

Dr. McCullough Threatened With Ejection From City Hall.

There was a warm time at a meeting yesterday afternoon of the local board of health...

The meeting had been called to consider the present outbreak of "flu" in the city...

"Dr. Hastings should be here and not in Washington...

"In future, get the consent of the board of control..."

"We are here to consider Toronto, not Niagara..."

"Soldiers Murdered by Neglect. Mayor Church: 'I asked you what steps are being taken to work in harmony with the military authorities...'"

"Dr. McCullough: 'The military authorities have taken steps to check the outbreak and will continue to do so, despite what the city may do.'"

"Mayor Church: 'This expensive board has done nothing. Unless it becomes active at once, it should be abolished...'"

"Says Mayor is a Joke. Dr. McCullough: 'The mayor knows nothing of what he is saying or else he would not make such statements...'"

"Mayor Church: 'That is an impudent statement. My opinion of you is that you are a standing joke yourself...'"

"Dr. McCullough: 'The mayor is a civilian official and half military.'"

"Oh, you don't own it." was the answer.

Turning his attention to Dr. Hastings, the mayor informed him he should apologize for drawing his salary.

The rest of the meeting was taken up with similar little interchanges, and in the meantime the outbreak of "flu" continues.

Coal Men Meet. A private meeting was held at the city hall yesterday afternoon by the coal dealers of the city...

The suggestion was also considered, but not adopted, that to save cost and time, coal be delivered loose instead of in bags...

ROYAL TEMPLARS PUT INSURANCE RATES UP

Members of the Royal Templars of Temperance have been notified that a third increase has been made in the list of payable premiums for insurance.

The order has had three increases in premium rates during the last 25 years, and in each case the cost of insurance has doubled for the older members.

From the headquarters of the Royal Templars the subscribers are informed that the insurance of the order would become insolvent if these increases were not adopted.

SUGGESTS METHOD USED BY CIVIC LINES

Solution of Street Car Problem Sought Before Railway Board.

Higher fares was the solution of the Toronto street car problem given by the Toronto Railway Company before the Ontario Railway and Municipal Board at the parliament buildings yesterday afternoon.

The company's claim is that they cannot get the men. The board cannot increase the fares. We must have service. It has been stated that the city has been able to get operators for their cars and they have no difficulty in getting them.

DOROTHY DIX'S TALKS

MINE AND THINE

By DOROTHY DIX The World's Highest Paid Woman Writer.

A group of young girls have been observing an interesting social phenomenon. It is the inconsistency of man as regards his dealings with women. The girls have been telling me about it. They say with wonder that their brothers have two codes of conduct for girls. And these two codes are diametrically opposite.

These girls say that their brothers like to go about with girls who are free and easy in manner, who will kiss a fellow good night and let him take little familiarities with them, who will drink a cocktail and smoke a cigarette, and whose mothers take it for granted that a cockle or Sadie can take care of herself, and do sit up to lock the door after her when she comes in at night.

But brother does not approve of this kind of conduct in his own sister. He tells her to cut out all this kissing business. That he would rather see her dead than drinking and smoking in public places with men. He is always urging mother to be on the chapter job, and to know the kind of men that Mamie or Sadie goes out with, and to see that the girls are home at a proper hour, and that the boys know that her daughters have somebody to take care of them.

All of this seems very queer to these young girls, and they naively ask: "Why is it that our brothers encourage other men's sisters to do the very things they will not permit us to do? Why do they treat other men's sisters so differently from the way in which they expect their own sisters to be treated?"

Also, dear children, you have put your innocent fingers upon the very blackest spot in the whole character of man. You have touched the heart of his selfishness, which denies the common brotherhood and sisterhood of all humanity, but makes it a small matter of mine and thine. Mine to be held sacred and protected. Thine to be held fair game to be hunted at pleasure.

Men have always divided women into two classes—the women of their own households, and the women of other men's households. The women of their own households must be like Caesar's wife above reproach. They must be models of virtue, paragons of propriety, exponents of the prunes-and-prisms brand of conventionalism.

A man wants his own sister to keep herself white and innocent. It makes his blood run cold to think of her being taken to road houses and dance halls where the very air is a contamination.

It is a curious thing that a man will, without a pang of conscience, do to some other woman the thing that he will kill another man for doing to a woman of his own household, and it that you have his whole measure of the height and depth and breadth and thickness of human selfishness.

We have a poignant and tragic illustration of this in those cases in which an employer takes advantage of his position to lead astray some girl in his office, or business. Sometimes the girl is a grey-bearded oldster who guards with jealous care his own girls are surrounded by every luxury, and set about with every care. They are never allowed to see the slightest risk, or encounter the smallest danger.

Into this man's office comes a pretty, innocent, young girl, whom necessity has forced out into the world to earn her own living, and help support others. The man begins to offer her attentions that are insulting. He makes her understand that she holds her situation only by being compliant. Sometimes the girl is weak and glib, and after a faint struggle follows the line of least resistance. Sometimes the pressure of the need at home is so great that the girl dare not give up her job.

Sometimes the man plays his age and sophistication and social charm against the girl's youth and ignorance, and he wins her heart only to play with it until he wearies of his toy and throws it away in order to get the measure of some other girl's stardust without ever thinking of what he would do to some other man who was treating his own daughter as he is treating this girl's sister and daughter.

President Wilson's enquiry of Chancellor Maximilian—"Who is your principal?" is a piercing and vital stab...

There never was the slightest intention of limiting the power of the Kaiser until the success of the allied arms since July 18 awakened the divine rights...

There is an effort also to split the European powers from the United States in this inspired Vienna article...

"It should be noted," says the article, "that it was always President Wilson who occupied himself with a concrete peace program..."

The suggestion that the Kaiser may abdicate does not meet the whole situation. He may cease to be the German emperor...

New York, Oct. 8.—Press comment from all sections of the United States on President Wilson's reply to Germany's peace note follows:

New York World: In dealing with the German peace offensive President Wilson has employed the same tactics that Foch used in breaking the German military offensive...

New York Herald: America's attitude toward the German peace note is a masterpiece of diplomatic skill and statesmanship.

New York Staats Zeitung: The reply of President Wilson to the German peace proposal of the German chancellor opens a possibility for ending the war.

ABSOLUTE VICTORY NECESSARY FOR ALLIES

Rome, Oct. 7.—"We must have absolute victory. Any kind of negotiation is now more than ever inadmissible," the words of President Wilson immediately after the receipt of the Austrian peace proposal are reprinted by The Epoch in large type as a summary of the attitude of the Allies toward the new peace movement.

The Epoch adds that President Wilson answered in September the press by the words which all must recognize as the whole truth, in the words of leaving Belgian soil, the German armies renewed with reëquipped cavalry, the capture of the invasion of Belgium, and if they were to take to commensurate the ruin of the country by pillage, arson and the wholesale deportation of the people.

AMSTERDAM, Oct. 8.—Germany's new ministry is one of national defence as well as of peace, and is prepared for a stand to the end against a humiliated peace, Dr. Berthold Dernburg, former German minister of the colonies, declared in a statement, according to Berlin advices.

OPENS CAMPAIGN FOR VICTORY LOAN

Sir Thomas White Thrills Winnipeg Audience With a Stirring Address.

FOR SINEWS OF WAR

Not Only Essential for Carrying on Conflict, But for Prosperity of Canada.

Winnipeg, Man., Oct. 8.—Sir Thomas White, minister of finance, opened the campaign for the second Canadian Victory Loan, with a stirring speech in Winnipeg tonight. The industrial bureau was crowded with men and women to hear the minister of finance speak on the new loan.

Five hundred million is the amount required to be raised by the Canadian Government to carry on Canada's part in the prosecution of the war. The minimum amount which the minister of finance asked for is \$300,000,000. The larger amount will be raised if possible.

There are no twenty-year bonds in this issue. Five and fifteen year bonds will be available in the new loan, the amount being payable by investors as follows:

Ten per cent of the total issue price on application; twenty per cent on December 6, 1918; twenty per cent on January 6, 1919; twenty per cent on February 6, 1919, and thirty per cent on March 6, 1919, on which latter date the accrued interest of 1-1/2 per cent will be payable. The net return to be paid to the purchaser of the bonds on this issue, the net return to purchasers will be five, and one-half per cent, on the new loan.

The selling campaign for the new loan will begin Monday, Oct. 28, next, and will continue until Sunday, Nov. 14.

Sir Thomas' Address. Sir Thomas White in the course of his address said: The Victory loan is an undertaking of the utmost national importance to the people of Canada. Its success is absolutely essential to the continued prosecution of the war, and the maintenance of prosperity upon which our way of effort necessarily depends.

It is not necessary to speak of the achievements of the Canadian forces in France. Their valor has won the admiration of the world, and will for all time shed lustre upon the name of Canada. We can all hold our heads higher by reason of what they have done and suffered in Europe. They saved Calais in 1915, and Calais is the key to the invasion of England. They took the famous Vimy Ridge. They have been in the forefront of the victorious fighting of this summer.

CIVIL SERVANTS ASK WAR BONUS

Also That Minister Be Delegated to Deal With Civil Service Matters.

MILLIONS INVOLVED

Sir George Foster Promises Consideration, But Parliament Must Be Consulted.

Ottawa, Oct. 8.—Urging relief from the high cost of living by means of a war bonus of \$350, and incidentally the asking that, for a limited period at least, a minister be assigned to deal with civil service matters, and to be accessible to representations from the service, a large delegation of government employees waited on the cabinet this afternoon. They represented all branches of the civil service, inside and out, and they put forward a strong case.

Means General Employment. This means the employment of ten thousands of operatives. Our great shipbuilding yards are filled with orders for tonnage. How does Great Britain pay for all these products? For the greater part the Dominion Government furnishes her with the money. Where do we get the money with which to supply her? From our Victory Loans. Last year's Victory Loan was the means of finding a market for hundreds of millions of dollars of our products. It has kept Canada prosperous in all departments of national activity.

Rate of Interest Attractive. The rate of interest upon the new loan is most attractive to all. This is a case where each subscriber in helping Canada would also benefit himself. The fact that the great body of Canada's war loans will be held by our own people was one of the strong factors in our economic situation.

Expect \$500,000,000. This year we shall expect at least five hundred million dollars from over a million subscribers. Canada's domestic war issues have been so made that their maturities extended over periods of five, ten, fifteen and twenty years, will give no serious difficulty to future governments. To have adopted the principle of short date financing in the expectation that the war would not last long would have been a fatal error as the principal of large issues would have been due at a time when immense sums of new money would be required. Short date financing is always sound when future conditions are uncertain, to boldly face the interest rates and maturities over long periods.

Essential to Prosperity. There is an all too common vital aspect to the matter. The success of the Victory Loan is absolutely essential to the prosperity of Canada, and every class and individual in Canada. Canada is a great producing country. We produce much more than we require ourselves and have the balance for export. The value of these exports has enormously increased since the outbreak of the war. In the fiscal year, 1914, they were \$450,000,000. Last year they were over a billion and a half. Our total international trade for 1914 was a billion dollars. Last fiscal year it was two and a half billions.

Canadians Salvage Corps Effects Big Savings. Ottawa, Oct. 8.—The administration of England of the salvage department of the Canadian army overseas has effected a saving of \$27,389 to the Canadian people during the last year. The objects of this department, mentioned briefly, are the collection and conservation of all waste material, the keeping of a close check on carriages waste through out the course of the service, the disposal of by-products by sale and the education of all military units to appreciate the value of stores. The Canadian salvage corps has led the way in this work, and its methods have been adopted by the imperial army.

Capt. Mueller Freed. Amsterdam, Oct. 8.—Captain Carl Mueller, famous for his exploits while commander of the German cruiser Emden early in the war, had been released from internment in Holland, owing to the state of his health, according to The Hamburg Nachrichten. Captain von Mueller is now living at the Town of Blankenese in the Harz Mountains, in the Duchy of Brunswick.

More electric current is imperatively needed for Shells
—to keep pace with Victory
—to fill huge U.S. orders
—to complete orders on hand for Britain
—to bring more money to Canada
—to win the war and bring your boys back home soon
There are tremendous shell orders in hand that will keep your factories busy for months and months to come—but, in spite of the large extensions being rushed in the Hydro system, the enormous extra current supply needed is not yet available.
Where is the current to come from that will help the Boys at the Front? From the loyal citizens of Toronto—we hope.
Think! If every user in Toronto saved the current used by only one light—there would be released, immediately, over 3,000 horse-power. This would produce about 4,000 large shells every day!
What can you do? Turn off that superfluous lamp. Do not use that heater, or any appliance, except when absolutely necessary. Even minutes count. A small sacrifice, isn't it, when the results are so big? Do not wait until we are ordered to withhold the current needed.
Co-operation is necessary to win the war. By co-operation you have built up the great Hydro System throughout Ontario. It is your system. Won't you help—and save current—in this emergency?

THREWER HER BABY INTO THE RIVER
Rockland Girl, Arrested at Napanee, Admits Having Committed Crime.
Kingston, Oct. 8.—The Town of Napanee has a murder sensation. At 4:30 o'clock this morning, Chief of Police Barrett took in charge Miss Selma Beard, aged 20, on a charge of having done away with her illegitimate five-months-old baby by throwing it into the Napanee River on Saturday last. The accused belongs to Rockland, Ont., and recently the baby was sent to her. The child mysteriously disappeared and Chief Barrett, after working on the case, arrested the young woman and she has admitted that she threw the baby into the river. Search is now being made for the body. It is not known whether or not the infant was killed before being thrown into the water. The prisoner was arraigned before the police magistrate at Napanee today and was remanded for eight days.
