## ALLIES PLAN STAGE SETTING FOR SIGNING OF TREATY

### Outlook for Settlement of Winnipeg Strike Seems Less Favorable Than Ever

### FOOD PROFITEERS HIT BY CASGRAIN IN FEDERAL HOUSE

In Bohemia Are Hanged, But in Canada Receive Titles.

EIGHT IN DEBATE  
Dr. Whidden of Brandon Says Budget is Move in Right Direction.

Ottawa, June 13.—Several more speakers were heard in the budget debate in the commons today, but the division on the McMaster amendment is not expected until towards the end of next week. It is expected that nearly every member from west of the Great Lakes will want to place himself on record before casting a vote. Today the first western member to do so was Dr. Whidden, member for Brandon. He said he would support the finance minister's proposal, although he would have been better pleased had the concessions made to the west been greater. However, the budget was a move in the right direction, he said, and the west could not expect all the tariff changes to be made in one year. Mr. Casgrain, who followed, asserted that protection was at the root of our national troubles. In Bohemia, he said, food profiteers are hanged, but in Canada they give them titles. He claimed that there was little unrest in Quebec because the church teaches the people to obey the law. Dr. Edwards of Pontiac vigorously defended the government against the budget proposals, maintaining that the Unionist government had lowered the tariff more than the Liberals had done during the many years they were in office. Mr. D'Anjou, Rimouski, said that Canada was faced with bankruptcy because of our unreasoning policy in the war. He opposed the budget because it favored the manufacturers at the expense of the consumers. Buchanan Disapproves. W. A. Buchanan, Liberal Unionist from Leithbridge, in voicing his disapproval of the budget, maintained that the opportunity for tariff reductions be-

The Vimy-Vickers bomber plane now at Newfoundland, all ready to start off on the long trip to Ireland. The start was to have been made yesterday, but owing to a faulty carriage, it was postponed until today.

### TORONTO GROCERS BLAME GUILD

#### Cost of Living Board Told Manufacturers Are Not Permitted to Sell Direct.

Ottawa, June 13.—Several Toronto retail grocers who gave evidence this afternoon before the special committee of the commons on the cost of living agreed in stating that while their profits are lower than they were before the war, the manufacturers and wholesalers still continue to make good profits. They complained because they cannot purchase certain articles direct from the manufacturers as they were permitted to do a few years ago. This, they said, was due to the fact that the grocers' guild had put on the embargo and would not allow the manufacturers to sell direct to the retail trade. Mr. Clark, who told the committee that he employs a staff of ten, asserted that during the last three years he had made no net profits because of the high expense involved in carrying on business. A few years ago when prices were lower it had been possible to make money, but conditions had changed. Packers in Combine. Mr. Burns, a Dundas street grocer told the committee that it had not been possible to buy canned goods from independent packers during the last two or three years, because they sell direct to the wholesalers. Mr. W. S. Fielding asked what the effect would be if the duty was taken off canned goods. "One witness went over a list of Toronto prices for the month of February, furnished by the department of agriculture, and pointed out in many instances that they were lower than dealers were compelled to charge the public at the time in order to make a living.

### RAILWAY MEN'S DEMANDS WOULD AFFECT SOLVENCY OF CANADA'S RAILROADS

Railway War Board Makes This Claim in Official Statement on Threatened Shop Workers' Strike.

Montreal, June 13.—Following official statement on threatened strike of railway shop employees is issued by the Canadian railway war board: "The Canadian railway war board has been notified by a committee representing division No. 4, railway employees' department, American Federation of Labor, composed of employees working in locomotive and car shops, that unless certain concessions are made to these employees before Wednesday morning next at 10 a.m. the employees will cease work at that hour. "Among the demands of the employees' committee are the following outstanding factors: "Increases in rates for helpers from 45 cents per hour to 70 cents; for the machinists, blacksmiths, carpenters and similar tradesmen ranging from 53 to 68 cents per hour to 83 cents. "Forty-four hour week as compared with forty-eight hours now in vogue in round houses and operating shops, and forty-seven hours in main shops. "Double time for overtime in place of time and one-half. "The employees have been informed that an eight-hour day has been granted with Saturday afternoon holiday where that privilege is already enjoyed, and the payment of punitive overtime for work performed on Saturday afternoon were provided for in existing agreements. "Other points, however, are involved gravely affecting not only the solvency of Canadian railways but the ability of Canadian business concerns to meet foreign competition. The board has declined to conclude negotiations or to give definite assurances except and until the same conditions are met by the main branch of the same labor organization, constituting 90 per cent. of its membership with the United States railway administration at Washington have been announced. "The adjustment of the Canadian situation, with its inevitable consequence in the form of increased freight rates, in advance of the American adjustment, becomes the point at issue. "In adopting this view, the Canadian railway war board is thoroughly consistent. The American negotiations have been under way much longer than those in Canada, and the questions are still under consideration. "In the event that increases are

Montreal, June 13.—Negotiations undertaken this morning by the Canadian railway war board with the representatives here of division No. 4 of the railway shopmen of America in an attempt to prevent 30,000 men striking for higher pay, have failed. The railway war board sent a communication to the union delegates in session asking that negotiations be reopened. It asked that negotiations at least be carried on during the remaining days of the week and the first of next week before the ultimatum goes into effect next Wednesday. The officials of the union at one o'clock to day answered the communication by stating that they had decided to retain their former position that unless the railway war board was willing to talk wages, that negotiations would not be reopened, reiterating the statement that it would be a waste of time to negotiate if it was not distinctly understood that wages would be discussed. "The Canadian Pacific Railway has returned home from its western trip, and it is reported today that he, together with President Kelly of the Grand Trunk Railway and high officials of the Canadian government railways, were in consultation this morning, discussing the situation.

Aleck Wright. The late A. W. Wright was an able man who played a leading part in making the destiny of Canada. First of all he knew the inside life and mind of the people of Ontario; he was a great admirer of and speaker for Sir John A. Macdonald; he stamped all over the country for the National Policy in the most vigorous and effective way; he was a capable newspaper writer in many papers including The World; he drafted the first resolution passed in the Ontario legislature in favor of public development of power at Niagara Falls; he was as strenuous for J. P. Whitney as he was for Sir John; and he was always on the platform talking for the rights of labor. He had wit, a beaming way, and a radiant kind of sociability that seems to be growing rarer in our people. If The World were asked: Why is Canada as strenuous would be because of a dozen men like Aleck Wright, who wrote and spoke and fought from 1875 on; and he was one of the youngest and now the last of them.

### RETURNING SOLDIERS

S.S. Olympic, with the 10th, 11th and 12th Canadian Engineers' Battalions, will arrive at the wharf of the 124th (Pala) Battalion, docked at Halifax yesterday, at 4 p.m. These troops are now en route for Toronto, and should arrive Sunday. The ambulance transport Essequibo, carrying 585 wounded and sick Canadian soldiers, as well as 18 nursing sisters, will reach Portland on or about June 19. The Royal George, with about 700 Toronto, is also on the ocean.

### WILL ATTEMPT TODAY TO CROSS ATLANTIC

Unsuitable Wind Compels Retaining Vickers-Vimy Plane in the Hangar. St. John's, Nfld., June 13.—A stiff southwest wind prevented Capt. Jack Alcock and Liout. Arthur Whitten Brown from "hopping off" late today in their Vickers-Vimy bomber in an attempt to capture the \$50,000 prize offered by The London Daily Mail for a non-stop flight from Newfoundland to Ireland. The aviators announced tonight that they would take the air at 10 o'clock tomorrow morning, weather permitting. A sprung axle on the under carriage wheel, this morning made a start to replace before the hour set for departure and final adjustments were made to the wireless apparatus. The wind, however, shifting to a quarter which the Vimy to take off uphill, caused its pilot to keep the machine at the hangar, as he felt uncertain of getting off the ground under such conditions with the load his plane carried. The Handley-Page machine at Harbor Grace, commanded by Vice-Admiral Kerr, which this morning circled Trinity Bay for 20 minutes, this evening made another trial flight of three hours, flying over St. John's. Admiral Kerr has set Sunday as a tentative date for his transatlantic attempt. Frederick F. Raghnan, whose Martindale plane was damaged when he attempted to leave Newfoundland with Harry G. Hawker, today had the new wings and engine brought from England by the steamer Grecian moved to his hangar at Quidiway. It is expected that the work of shifting motors will be completed tomorrow. Admiral Kerr said the Handley-Page's flight tonight had proved so satisfactory that he might leave tomorrow afternoon for Ireland. The machine covered nearly 200 miles. Only the directional wireless was pronounced by her commander below expectations. Eighty satisfactory results were obtained with the sending set which transmitted messages 250 miles.

### DISSENSIONS IN THE CHURCH!

Stoort: Maister Rowell is a rank protectionist. Josephus: So are all our Unionists. Stoort: Nae, nae, I'm gettin' back on it! Rock your more. But ye'll be jinin' in the same faith wi' Maister Rowell? Joseph: Speaking in an institutional way it is incumbent on those in one profession to be ready for the call, never knowing from what angle it may originate. Stoort: And you, brother, are also on the Rock of Service at Cow Joseph: But not professionally.

### BIG DAY FOR MEN'S HATS.

This should be one large shopping day for men for hats. The fact that the Dineen Company is receiving daily new shipments of the latest designs and that the stock embraces such exceptional blocks as those by Henry Heath of London, England, for whom Dineen is sole Canadian agent, and summer weights; tweed and outing hats and caps, and motor caps. Motor dust coats and raincoats—everything ready for a busy day. Extra clerks, no waiting. Come as early as you can today. Dineen's Store, 200 King St. W.

### PLANS FOR CEREMONY OF SIGNING TREATY HAVE BEEN COMPLETED

Drawn From Pigeonholes When Date Uncertain, and Brought Up to Date—Historic Table Selected—After Ceremony Germans Will No Longer Be Regarded as Enemies.

Paris, June 13.—Plans for the great formal ceremony of the signing of the peace treaty at the Chateau de Versailles have been withdrawn from the pigeon holes in which they were gathering dust when no definite date for the signature was in prospect for the signing on June 5. It is probable they will soon be submitted to Premier Clemenceau or the council of five for the necessary approval before being put into effect. French officials entrusted with the arrangements were informed originally that everything must be ready for the signing on June 5. They worked out an elaborate project with diagrams, sketches, time tables and suggestions for sample tickets for the plenipotentiaries, representatives of the press and spectators. They also laid out the routes for the automobiles which will replace the state carriages of the former peace congress. The project was forwarded almost a month ago thru the proper channels for approval. Even Table Selected. The officials went so far as to select a table on which the treaty should be signed, and splendid examples of bublmarquetry from the history of furnishings of the chateau—and to build carriers in the great Place d'Armes in front of the chateau behind which the general public will be permitted to witness the arrival of the delegates. They also tried out the great fountains in the park at Versailles which will be played in connection with the ceremony. Unexpected delay arose and the project for ceremony disappeared from sight. It has been resurrected now, for possible use about the end of the month. In the Hall of Mirrors. The actual signing, as originally announced, will be staged in the historic Hall of Mirrors, so often described. The delegates, who will arrive by automobile, after traversing the Bois de Boulogne and the historic park of St. Cloud, where the favorite residence of Napoleon once stood, will enter Versailles by the Avenue de Paris—a boulevard almost 100 yards wide leading directly to the main entrance of the chateau. Beyond the enclosure reserved for the general public they will pass between the tribunes erected for the members of the senate and the chamber of deputies. They will descend from the carriage at the doorway of the chateau thru the grand staircase to the magnificent day of the French revolution broke into the chateau, massacred the Swiss guards and compelled King Louis and Queen Marie Antoinette to return to Paris. To reach the Hall of Mirrors the delegates will traverse the state apartments, at one time occupied by the monarch and his queen. A space at either end of the Hall of Mirrors will be reserved for the plenipotentiaries, while the other will be the correspondents representing the newspapers of the world. The German Route. The German delegation will approach the chateau from the other side. (Concluded on Page 2, Column 4).

### SAME STREET NUMBERS, BUT DIFFERENT HOUSE

A ridiculous situation has been created by the postoffice refusing to recognize the change of name of Bracondale avenue, which runs north to St. Clair avenue, to the name Wychwood avenue, which is the name of the street running north of St. Clair avenue. The city has neglected to renumber the street north of St. Clair avenue, with the result that there are two sets of numbers, 1 to 138, Wychwood avenue, and the confusion for the postoffice, the stores, and deliveries in general is indescribable. The renumbering should have been done at the same time as the changing of the name.

### TORONTO POLICE SURRENDER CHARTER

The Toronto Police Union have surrendered their charter. Three meetings of the union were held yesterday in the Sons of England Hall, where the officers of the local placed the report of the royal commission before the men, stating that the commission had recommended that the union give up the charter. The meeting decided to give up the charter under protest, and steps will be taken by the executive to turn the organization into an independent one. It is not the intention of the officers to call any further meetings this month. Steps will be taken, however, to keep the men in the union organized, and the new association, if formed, will be known as the "Toronto Policemen's Local, No. 1."

### RAILWAYMEN THREATEN TO JOIN "PEG" STRIKE

Issue Ultimatum for Reinstatement of Winnipeg Police Force—Mayor Promises Important News in Twenty-four Hours.

Winnipeg, June 13.—Trainmen and firemen Brotherhood officers at 9:30 p.m. stated that, so far as they knew, no members of their organizations had joined the sympathetic strike movement, as scheduled at an unauthorized meeting held last night. Some union men said that action had been deferred till tomorrow. Railway officials reported that railway traffic was moving normally. "If some compromise does not result from the conferences, the metal trades situation will present an absolute deadlock." Mr. Robertson played an important part in bringing about renewal of mediation efforts. "Vigorous action is being taken by the police department against leaders and participants in street fighting and it is believed that the police have in Steinberg one of those who assaulted Sergeant F. G. Coppins, V. C. Several others alleged to be leaders in the rioting of Tuesday, are under arrest. Mayor C. F. Gray has promised to give to the public some very important news within the next 24 hours, and there is much speculation as to its character. Officials at the city hall expressed belief that settlement prospects are brighter. Ghastly Misunderstanding. Addressing representatives of the running trades who waited on council this afternoon, Mayor Gray reiterated the statement that the police commission had been forced to assert its authority when the strike committees had usurped it. "There are many have since felt that they were not fairly dealt with by their adjustment committee. One man told me he was not given the city's order until one hour before the time set for it to be carried out, whereas it was available five days previously. He said that it was shown that there was something wrong in the policeman's organization, that 'this whole trouble is a ghastly misunderstanding.'" Running trades representatives stated that there was nothing new in what the mayor had said. The Strike Bulletin published the following today: "According to information reaching the strike committee, it is said that between 100 and 150 strike leaders are slated for early arrest."

### CANADIAN DRUG KILLED MOSHER

Coroner Suggests Free Importation of Syphilis Curatives. "We find that Norman J. Mosher died May 27 in the Western Hospital from uremia, possibly induced thru an intravenous injection. "We are of the opinion that drugs of the 914 series, manufactured in allied countries, should be allowed to be imported for the use of the medical profession in the treatment of venereal diseases." At 12:30 this morning the jury at the morgue presented Coroner J. Laidlaw with the above verdict, touching the death of Pte. Mosher, a returned soldier who had been wounded nineteen times, and who collapsed on Bathurst street, near the corner of Elster, and died after being admitted to the hospital. Mosher, believed himself to have been suffering from syphilis and had an injection of a drug which according to the post-mortem examination, might have caused his death. Dr. Dwyer, who performed the autopsy, stated that in his opinion death was due to hemorrhage of the brain. During his examination of the body he found symptoms of syphilis. He also found that an injection of Neo Diarsol had been administered into the dead soldier's body within 24 hours of his death. The evidence of Dr. Dwyer started the fireworks. Coroner Snyder and Capt. T. Wallace, representing the military, endeavored to find the person who had given the Neo Diarsol. Dr. Tuck of Bathurst and Elster streets was recalled to the witness stand and was subjected to a grueling examination. Dr. Tuck was asked to attend Mosher when he collapsed. Cross-examined by Mr. Wallace, the doctor denied that he had given Mosher more than one injection, and swore that it was not on the day on which the veteran collapsed. The coroner was unable to establish who the person was who had attended the soldier on the day of his death, and this point was not brought out by the jury. W. King, of St. Michael's Hospital, declared that the Mosher should be lifted and doctors allowed to import drugs from France and England, for the treatment of venereal diseases. He said that the drugs available in this country at present were not of as high a standard as those abroad. In reviewing the case to the jury Dr. Laidlaw stated that it would be import drugs and use them for syphilis cases.

### FOOD PROFITERS HIT BY CASGRAIN

(Continued from Page 1)

cause which would reduce the cost of living which had been enhanced by the war. The tariff changes were, therefore, a proper remedy to apply during the reconstruction period. He said the cost of living was making people uneasy and dissatisfied.

Edmund Proulx of Prescott, in supporting the McMaster amendment, said he was prepared to go as far as the member for Red Deer (Dr. Clark) in making tariff changes.

Mr. Johnston of East Mountain expressed his dissatisfaction with the budget proposals, while Col. Lang, of Humbolt, intimated that he was still a strong supporter of the Union government and its measures.

Major W. B. Cowan of Regina, moved the adjournment of the debate and will be the first speaker on Monday.

D. D. McKenzie, opposition leader, is also on the Monday list of speakers.

**Cannon Criticized.**

Dr. H. P. Whidden of Brandon resumed the debate on the budget. He said he wondered when listening to the member for Dorchester (Mr. Cannon) last evening, why a member of parliament who gave such a glowing account of the progress of the war in Germany in 1917, could be so interested in English precedent as to appear to be in attempting to discount the work of the prime minister and other members of the cabinet at the peace conference, he had used the expression "have we not made enough sacrifices?" Dr. Whidden said he could not understand the significance of the word "we." "We" were supported by eight men.

The member for Brandon then went on to discuss the industrial situation. He said that part of the unrest was a wholesome desire for the recognition of rights that should be free to all, but part of the unrest was the expression of diseased imaginations.

**Honor True Labor.**

Those who say the Bolshevism an uprising of the soul of the common people were making a mistake, in the opinion of Dr. Whidden. There was, he said, no labor and it should be honored and given its right. But there was also "rank redism," and it, unfortunately, sometimes got mixed with labor. If the laboring man would work thru the present difficulties in a spirit of fairness, the final result would probably be advantageous to the country.

Dr. Whidden said he wished to support a resolution submitted to the government by the G. W. V. A., asking that a general conference on the industrial situation should be held.

As a westerner Dr. Whidden said he felt grateful for much in the budget, although naturally wishing that some further concessions could have been made. But he did not see how all the reductions could have been made in the tariff this year that had been looked forward to.

**Casgrain Scores Profiteers.**

Mr. Casgrain criticized the government for "being asleep when the whole economic life of the country is paralyzed." He considered that the industrial unrest was due in the main to the high cost of living, and he saw no reason why butter, for instance, should cost more today than it did a year ago. They hanged the food profiteers in Bohemia, but in Canada they gave them titles. Protection was at the root of many of the national troubles. It created privileged and anti-social classes.

Dr. Edwards of Frontenac said he did not propose to argue with Mr. Casgrain as to why the enlistments in Quebec were not greater in proportion to the population of that province. He joined with him, however, in paying a tribute to those French-Canadians who fought overseas.

Dr. Edwards expressed the view that this was not the time for a general revision of the tariff. He strongly contended that Mr. Casgrain's statement that there were abandoned farms in Ontario. Dr. Edwards claimed that within the last decade farms had increased. In the ten years from 1910 to 1914, the value of the farms, buildings, live stock, etc., had increased by \$197,000,000.

**Attacks Retail and Grocers.**

Dr. Edwards, after 9 o'clock, turned his attack upon Hon. T. A. Crerar, declaring a minister of agriculture for the last 18 months, and was chiefly responsible for the high cost of living. He himself claimed that prices of food were high primarily because of the relation between world supply and world demand. However, there were companies operating in foodstuffs which had made enormous profits. One of these was the enormous Greiner Grain Company, which owned and operated 300 elevators, and of which Hon. T. A. Crerar was president.

Mr. D'Anjou of Rimouski declared that Canada was face to face with bankruptcy. "I believe," he said, "that this deplorable financial condition is due principally to unreasonable participation in the war."

### PREMIER ORLANDO LEAVES FOR ITALY

Paris, June 13.—Premier Orlando of Italy left for Rome last night, intending to confer with the parliamentary leaders in secret relative to the work of the peace conference and to settle certain urgent questions, notably those concerning military precautions contemplated on the Casimian frontier. General Diaz, commander-in-chief of the Italian armies, accompanied Premier Orlando and will be in personal contact with the premier.

In the absence from Paris of Premier Orlando, his place was taken on the council for four today, by Baron Sonnino, the Italian foreign minister.

### Favor France or Britain For Mandate Over Turkey

Paris, June 13.—There has been no communication as yet between officials of the peace conference and the Turkish delegation which is at Yaucresson under French supervision. The restrictions about the Turks are the same as those at St. Germain and Versailles.

The Turks, it is understood, stand firmly for the retention of the Ottoman government in Constantinople. They are divided about equally as to whether France or Great Britain should have the mandate for Turkey. There has been no mention of the United States in this connection. It is understood.

## YORK COUNTY AND SUBURBS

### DANFORTH RATEPAYERS HOLD OPEN AIR MEETING

#### Seek Immediate Hydro Lighting and Road Repairs for District.

A well-attended open air meeting of the Danforth Park Ratepayers' Association was held on W. Curtis' lawn last evening, when the question of a peace celebration for the district was discussed, and it was decided to hold same in August, on Civic Holiday, with a picnic and sports in Danforth Park.

W. Curtis reported the matter of road repairs and his interview with the York township council. He stated that owing to the illness of the roads commissioner the work was delayed, and will now be proceeded with.

Hydro-electric lighting in the district was discussed at considerable length. D. McCarthy pointed out that a committee was appointed to interview the Hydro officials regarding the demand for guarantees from the ratepayers previous to installation, and that an effort should be made to have the matter settled immediately. The question will be further discussed at the next meeting.

The matter of a community hall and playground for the children was also discussed. The secretary stated no further communication was received from Hon. Geo. S. Henry, who promised to notify the association and report progress.

The York township council will be asked to secure a site for a playground in the section before all the available land is sold for building purposes. Other matters touched upon were school accommodations at Second and Gedhill avenue and the York township housing commission.

The chairman expressed the hope that the township housing commission would move with greater rapidity in the matter of housing the homeless than the Toronto housing commission.

### PLAINS ROAD PICNIC.

The annual picnic of Plains Road School (S.S. No. 7) will take place at Thorncliffe Plains on June 28. Robert MacGregor, treasurer, and an executive committee are working strenuously to make the picnic the event of the year.

### COL. WARREN EXPECTED.

Lieut.-Col. C. A. Warren, C.E.F., No. 16 Field Ambulance, Siberia, is expected to arrive in Toronto tomorrow.

Col. Warren, who was for many years a medical practitioner in the St. Clair avenue district, where his brother, ex-Ald. J. M. Warren, still resides, may eventually return to his home. His home is at Elm Grove avenue.

### RIVERDALE WILL FIGHT TO GET BACK ONLY PLAYGROUND

"What are our ward aldermen doing to allow the supervised playground at the corner of Rhodes ave. and East Gerrard street to be taken away from the children of the Midland district?" queried an indignant mother of a large family to The World yesterday, who added that the civic authorities are catering to districts more favored with the world's goods than those in the Rhodes avenue section.

The matter has been brought to the attention of L. W. Mullen, president of the Riverdale Ratepayers' Association, who will take immediate action. Mr. Mullen points out that children will not go along to Roden playground, and mothers will not let them cross the car tracks.

"The residents should have been consulted as to their wishes by the civic authorities, before removing their playgrounds."

### "DEVIL'S HOLLOW" HELD UP.

What is holding up work on the "Devil's Hollow," East Gerrard street is the question which is troubling the minds of the Riverdale residents.

"The work should be well advanced by now," said an East Gerrard street resident, "but not a move has yet been made by the works department." George Smith, secretary, and L. W. Mullen, president of the Riverdale Ratepayers' Association, who have been prominent in the matter of the stand the delay, and a special meeting of the executive has been called to investigate the matter.

### "BLOT ON CIVILIZATION."

"The execution of Frank McCullough in my opinion, is a blot on the civilization of Canada," said Mrs. R. B. Nelles, wife of Rev. R. B. Nelles, pastor Western Congregational Church, and spiritual adviser to the late Frank McCullough, speaking to The World yesterday.

Rev. R. B. Nelles will have a communication prepared for the press regarding the matter, within the next few days.

### BEACHES HELPING BILL DIES.

Good progress is being made by the residents of the Beaches district, who have taken the case of the disabled soldier, Bill Dies, in hand to provide him with a future means of livelihood. The Beaches hockey team collected material was furnished by others. Bricklayers and artisans furnished their labor free in order to erect a store front to his residence at the corner of Waverley road and Queen street, where a stock of tobacco and sundries will be furnished and the veteran started in business.

Mr. Dies lost both eyes and legs in the battle of Vimy Ridge.

### EARLSCOURT WILL MEET IN SCHOOL.

The new branch of the Fairbank G.W.V.A. has obtained permission from the board of education to hold their regular meeting in the Fairbank Public Schools. Charles T. Lacey, late secretary of Earlscourt G.W.V.A. is the new secretary, and meetings are likely to be held on Friday evenings.

### COMRADE WINES SICK.

Comrade Joseph Wines, organizer of the Earlscourt branch of the G.W.V.A., is still on the sick list and unable to attend to his duties. The doctor advises complete rest. Mr. Harry Wines, a son, recently returned from the front and is now at home.

### NEW BUSINESSES OPEN.

New businesses still continue to open up on St. Clair avenue, the latest being Douglas's, the general manager of the W. J. Keens Clothing Company of Toronto. He will open up a large clothing and gentlemen's furnishing store. Another dealer is to locate here, a furrier and a milliner.

### CHOIRMASTER RESIGNS.

W. H. Harper has resigned his position as choirmaster of St. Chad's Anglican Church, North Dufferin street, Earlscourt. This church is entering on a plan of extension to accommodate a larger congregation. Mr. Harper lost his son in the war and is an official of the British Imperial Association.

### G.W.V.A. CONCERT SOCIAL.

Under the joint auspices of the ladies' auxiliary and the Silverthorn G. W. V. A., a concert-social was held last night in the basement of the Calvary Church on Silverthorn avenue. Alex. MacGregor, barrister, occupied the chair and gave a short address on the brotherhood of man born of peace. Other matters touched upon were Douglas Haig's recent speech at the general assembly in Scotland. He congratulated the veterans and the lady helpers on the fine spirit of comradeship existing and hoped the result of the concert would bring a substantial sum to the building fund for the new memorial hall about to be erected in Silverthorn, which, when completed, will be the first in Toronto.

### MAYOR TO OPEN FAIR.

Mayor Church has been asked to officially open the second Earlscourt fall fair, to be held immediately after the National Exhibition. The second year Sir William Hearst was in, and he is the honorary president of the fair. A special boxing stunt is to be held this year on the grounds for amateurs, and several other new features.

### REV. PETER BRYCE BACK.

Rev. Peter Bryce has returned to Earlscourt from Atlantic City, and resumed his ministerial duties at the Earlscourt Central Methodist Church, and will preach on Sunday next. The Rev. Mr. Bryce held a concert and social at the church last evening, and addresses were given by members of the league.

### B.I.A. BOYS' BRASS BAND.

The members of the boys' brass band of the British Imperial Association, held their regular Friday night practice in the Regal Road Public school, under Bandmaster James Greenwell. The boys are making progress, and now have their complete uniform and a full musical equipment. Those, Snary, secretary, is in England on a visit to his parents, and is expected back in Toronto at the end of the month.

### NEWMARKET THREE DIE FOLLOWING BOILER EXPLOSION

Three of the fourteen persons injured at the cane factory at Oakwood on Thursday, died yesterday, as a result of injuries sustained when a boiler burst.

Chas. Eade, 35 years of age, a machinist, succumbed at 10:30 yesterday morning, and Nellie Mase, a young girl of 16, died at 7:30. Both had been taken to the Toronto General Hospital suffering from contusions and severe lacerations.

The third victim, Alfred Bishop, died at his home at Newmarket about this late day, severely burned and bruised during the accident.

No explanation of the affair can be given and an inquiry was opened last night to determine the cause of the explosion. Ten other employees were injured but are progressing as well as can be expected.

### WEATHER IS HUMID, BUT NOT EXTREME

Humidity rather than intensity of heat characterized yesterday's weather in Ontario, although both Parry Sound and London registered temperatures above 90 in the shade. So far as temperature was concerned Toronto was not broiling, but was admittedly paragon. The average in temperature was exceeded, however, by 13 degrees. Maximum temperatures throughout the Dominion ranged all the way from 60 at Prince Rupert to 92 at London, 85 and 46 at Calgary, Edmonton and Battleford.

Probs for today are not alluring, and Torontonians may look for a day or two yet.

### KEW BEACH LIBERAL-CONSERVATIVE PLAN ANNUAL PICNIC

A well-attended meeting of the Ward Eight Liberal-Conservative Association executive committee was held in Kenilworth Hall, corner of Kenilworth avenue and East Queen street, last night, when reports of the various committees in connection with the annual picnic to be held in Scarborough Beach Park on Saturday, June 21, were received.

T. Murphy stated that promises to attend were received from Sir William Hearst, Henry Ferguson, Thomas Foster, M.P., and others. A communication was received from Dr. Field, regretting that Sir Robert Borden would be unable to attend owing to pressure of business.

Ald. Baker stated that over 20 events have been arranged and 200 prizes secured for the children. The East York veterans' band will furnish the musical program.

T. Stephenson, vice-president, occupied the chair. There was a fair attendance.

### LACK OF LAVATORIES

The residents of the Beaches in the Woodbine district are complaining for the lack of lavatory accommodations for the large number of visitors who patronize the district during the summer months.

"It is positively disgraceful the lack of these conveniences for women and children," said J. Lennox, a well-known resident who pointed out that the civic authorities are lacking in their duties to the citizens.

### NORWAY WELCOMED HOME.

Major (Rev.) Baynes-Reed, C.E.F., rector of St. John's parish church, Norway, who recently returned from overseas, was accorded an enthusiastic welcome at St. John's parish hall, when congregational reception was held. Many members of the 15th Battalion, residents of the district, were also present and a very enjoyable time was spent. The hall was tastefully decorated with flags of the allies and bunting and a high class musical program was rendered. Several prominent residents of the east end were also present.

### MARKHAM GOOSEWHEAT CAME UP ONE YEAR TOO LATE

In the spring of 1918 John I. Baldwin, rector of St. John's parish church, Markham, who recently returned from overseas, was accorded an enthusiastic welcome at St. John's parish hall, when congregational reception was held. Many members of the 15th Battalion, residents of the district, were also present and a very enjoyable time was spent. The hall was tastefully decorated with flags of the allies and bunting and a high class musical program was rendered. Several prominent residents of the east end were also present.

### PLANS FOR CERE MONY FOR SIGNING TREATY

(Continued from Page 1)

It is expected that the ceremony will be timed to begin about five o'clock in the afternoon. There will be speeches by Premier Clemenceau as chairman of the conference, and by the head of the German delegation. The actual work of appending the signatures of the representatives of all the warring nations will occupy them for at least two hours of daylight on the long summer evening during which the fountains distributed over many of the chateaux will play for the admiration of the delegates and spectators.

Money will leave in the afternoon after the opening of the terrace, by a portal of the chateau, and will be distributed to the delegates, no longer regarded as enemies, will walk along with the other plenipotentiaries.

### REBELS PREPARING TO ATTACK JUAREZ

El Paso, Texas, June 13.—A courier who arrived late tonight from the rebel headquarters near Zarazosa, less than 13 miles from Juarez, reports the rebels have 4000 men, all armed with rifles and each man supplied with 300 rounds of ammunition.

Two field guns and eight machine guns are included in the rebel fighting equipment. At the time the courier left the camp the intention was to attack Juarez before daylight tomorrow morning.

### FIX HUNGARIAN FRONTIERS.

Paris, June 13.—The council of four has approved the propositions submitted by the council of foreign ministers for fixing the Hungarian frontiers bordering on Rumania and Czecho-Slovakia.

## Better Spark Plugs For Every Purpose

There is yet to be found a type of motor, a condition, use or industry, where spark plugs are required, that has not been served successfully and efficiently with Champion Spark Plugs. In aeroplanes, where dependability marks the balance between safety and death. In high and low powered motor cars. In low speed tractors with heavy load. In gas engines on farm or in factory. In speedy motor-cycles or motor boats, and in the slower moving trucks, with ever-changing load and road conditions, a "plus service" is rendered by

**Dependable Spark Plugs**

This "plus service" is the result of ten years of constant study and experiments which produced the "Champion" No. 3450 Insulator. This insulator has demonstrated its ability to withstand shock, vibration and quick temperature changes to a degree that makes it practically indestructible.

Our patented Asbestos Lined Gaskets are another exclusive feature that cushion the insulator, absorb heat expansion and eliminate compression leaks. When you see "Champion" on the insulator "that's the plug" that will give efficient service under any condition that the motor itself will withstand.

Dependable service, satisfaction and economy are "built-in" qualities of every "Champion" and are backed by our guarantee of "Absolute satisfaction to the user or full repair or replacement will be made."

arrest. Martial law is to be declared, and an armored car is ready for action.

City and special police, aided by provincial and federal police organizations, have started a round-up of the men who were responsible for the rioting which took place on the city streets Tuesday and Wednesday. Several of these organizations, that respect the law, are now being rounded up. Warrants were issued for three more this afternoon. Other rioters may be apprehended later, the police assert.

In an open letter to returned soldiers and the G.W.V.A., William Eadie, who had been one of the association's representatives on the general strike committee, says:

"There is no getting away from the fact that the cause of the trouble fundamentally did not originate in Winnipeg," and he declares that the returned men who are supporting the sympathetic strike are the "goats of a propaganda that seeks the destruction of everything constitutional."

"It is a gross abuse of the freedom of this country to permit Bolshevism to tolerate the activities of these aliens, who believe in the destruction of everything constitutional."

"The Bolshevism is an undesirable alien of the most pronounced type. With his diseased mind he is even more dangerous than the alien with a diseased body. Put him out of the country and keep him out."

"Labor and capital should be partners," Mr. Beattie affirmed, "not enemies."

## YORK TOWNSHIP

NOTICE is hereby given that a Bylaw (No. 471) was passed by the Municipal Council of the Corporation of York on the 6th day of June, 1919, providing for the issue of debentures to the amount of \$150,000 for the purpose of enabling the Board of Public School Trustees, School Section No. 27, to purchase the site in said section, and for the purchase of the present school site in said section, and that such Bylaw was registered in the registry of the County of York on the 6th day of June, 1919.

Any motion to quash or set aside the same, or any part thereof, must be made within three months after the 7th day of June, 1919, the date of the first publication of this notice, and cannot be made thereafter.

Dated this 7th day of June, 1919.

Clerk of York Township.

## TORONTO ISLAND DELIVERY.

Delivery of The Morning World a Hanlan's Island Centre Island and Ward's Island will resume on May 1st. An early and efficient service is assured. Orders telephoned to Main 5308 will receive prompt attention.

## Cars Not Running.

The worst inconvenience under which citizens suffer is the absence of street cars and this has been emphasized during the past two days by torrential rains. Rusted ribbons of steel demonstrate the failure of the Winnipeg Electric Railway to reopen a service. The financial position of the company is such that it is doubtful whether it has either the means or the will to take decisive measures to resume service.

There is a good deal of street talk as to the city being perhaps compelled to take over the operation of the street car system.

Citizens with cars pick up as many pedestrians as they can and there is a limited jitney service at high price, but most of the people walk to and from work, and after a month of this it becomes decidedly tedious.

Here Are Color-  
ed Eyeglasses  
That Reduce  
Sun Glare

For comfort out of doors, to reduce sun glare from streets or water, have your prescription made up in tinted glass. A single pair is lighter and cooler to wear than a tinted pair over your everyday glasses. You may have such glasses ground in smoke or amber, or in Crookes' lenses. The latter are of chemically prepared glass, which cuts off the rays of light below the "reds" and above the "violets." In fact, tinted lenses are necessary to eyes which are hyper-sensitive to light. Consult our Optometrists regarding these lenses.

CLAIRVOYANT SEES VERA OUTSIDE JAIL

Was Praying in Park All Night, Says Mental Telepathist. ADDRESS NOT GIVEN

World Representative Broke Trance Just at Critical Moment.

Where is Vera De Lavelle? Was she in Toronto on Thursday? Is she broken hearted because McCullough has departed from the earthly world? The above questions are but three out of hundreds asked and debated yesterday by nearly every man, woman and child in Toronto.

With a view to clearing up some of the points, The World yesterday sent a representative to interview Vera. As it was impossible to find her in the city, the interviewer sought communication with her through telepathy, and succeeded in obtaining some details which go to show that Vera is still true to her lover of happier days.

From a certain district of Ontario there lives a most charming personage, who for the love of her art, practices clairvoyance, but specializes in mental telepathy. From this seat The World sought assistance in finding Vera. The clairvoyant, after the details of the representative's mission had been explained to her, was quick to point out that Vera was still alive, and she could not possibly get into communication with her spirit.

On the other hand, if she could catch the Lavelle woman in her sleep, she could, by a process of mental telepathy, read her sleeping thoughts, transfer her (the clairvoyant's) thoughts to Vera's brain cells, and compel her to open the necessary brain cells which contained the answers.

Vera Will Hear. "If you are anxious for some information about Vera," said the clairvoyant, "I will throw myself into a trance and see what I can do, but I warn you to keep very quiet, for through me Vera will hear any noise made in this room, and if she woke up during my trance I should lose all my powers over her."

It was exactly 4.05 p.m. yesterday afternoon when the clairvoyant consented to try her powers. She first pulled down the blinds on the windows, pulled the curtains across them and generally made the room as dark as possible.

The woman next placed herself at full length on a couch, and asked her visitor to pull a screen around her, which acted as a kind of barrier between the communication with spirits and the earthly plane.

At 4.23 p.m. she announced that she was just going into a trance. After a couple of ten minutes—a silence that could almost be felt—the clairvoyant, with a snap that sounded like the semi-palpable, "I have located her."

and honeysuckle, looking beautiful in all its spring newness. The upstairs window on the right hand side of the porch is open wide, and a gentle breeze is scenting the room—it is a bedroom—with the odors from the honeysuckle. The room is plainly but nicely furnished. It contains a single bed, a washing-stand, a dresser with glass, and there is a rug on the floor. Lying about the room are big wads of cotton wool, a black skirt, and evidently belonging to a past period, a pair of old out-of-shape country-made boots, a big woman's black bodice, and a large old-fashioned hat, such as the women who come to the market are in the habit of wearing.

On the walls hang two well-shaped dresses for a slender woman, and on the dressing table, in addition to a brush, there are a few dollar bills. In the bed there lies a woman covered only by a sheet. She is asleep. It is Vera de Lavelle. Again there was silence for fifteen minutes.

SPARK PLUG SALESMEN MEET IN CONVENTION

Toledo, Ohio, June 14.—One hundred and twenty-five salesmen, constituting the sales force of the Champion Spark Plug Company, are gathered at their semi-annual convention. They come from all parts of the United States and Canada, and, according to the program mapped out by Sales Manager F. B. Caswell, the convention promises to be the biggest and most interesting ever held by the Toledo concern.

Owing to the war and the fact that so many of its salesmen were in the service, the spark plug company did not hold its regular January convention. But in the last few months, the sales force, so that the event now in progress brings together many members of the sales organization who have not seen each other for more than two years.

The jobbers' salesmen assembled on Thursday for a three-day preliminary session. Monday will see all of the company's traveling representatives in Toledo, including those in charge of the thirty-five advertising cars who are now driving cross country on a schedule that will bring them to Toledo in time for the meeting.

PAUL RADER TELLS LIFE EXPERIENCES

Missionary Alliance Greet Noted Evangelist Back to Toronto.

Speaking at the meeting of the Christian Missionary Alliance at Massey Hall yesterday afternoon, Rev. Paul Rader expressed his delight at being again in Toronto. His address included an account of his own entry into the missionary field, and a call for service and financial assistance from others. In response to a delegation who waited upon him, to invite him to take up evangelical work after a revival in Chicago, in which a great number were converted, he said that God had given him a peculiar doctrine, that he believed that he had a call for the mission work, and that he would not take up the work of the evangelistic field.

The speaker told of being connected with the Christian Missionary Alliance at Harrisburg, but he hated Pittsburgh, and if there was any place which God would let him pass by it was that city. Circumstances made him change his mind, and he took up work there for two years. He had learned not to be too confident about making plans. He was like the kitten with the mother-cat, which takes up her young by the back of the neck and carries it just where she likes. Tho he had made up his mind that he should not himself go to China, he declared he would send others to that country. He sent dollars after them. Hammered Away. At the Moody Church Tabernacle, Chicago, he found the people far from being imbued with the idea of the need for funds for missionary purposes, but he hammered away, and told them they were not going to get what it was intended they should have until they sent dollars after them. He started a big revival, and the first contribution he got was for \$10,000. The subscriptions at this church increased so that the missionary fund for last year was \$44,000, and there were also 300 missionary volunteers. Referring to the time at which he took leadership of the Missionary Christian Alliance, Mr. Rader said he thought the matter out, with fasting and prayer, and when he decided to accept, he determined to remain at the base and see that the 300 working in Chicago and the Congo would get the money and other things needed.

Cost of Living Commissioner Tells You What We've Been Telling You for Years

LAST Monday the Cost of Living Commissioner announced some important facts about the clothes question. He told you that high prices for clothes were not warranted. He referred to the big item of cost in a suit of clothes not rent or overhead expenses—but materials. He declared that many retailers were buying materials at false high prices—because the middleman was getting an extortionate rake-off.

We've told you that fact before. For years we have been urging you to buy clothes on the Mill-to-Man money-saving policy. Take the report and examine the facts.

We have never complained of a shortage of materials. We have never boosted our prices on the basis of scarcity of materials. Scotland Woolen Mills clothes are higher in price than before the war. But only slightly higher. And only high enough to cover the extra cost of labor and the actual advance in the prices of materials made during the war. We are still selling made-to-your-measure suits—good suits of good fabrics—as low as \$25.

For several months we have been telling you of these new peace-time fabrics—the first run since the mills in the old land left khaki. Goods we're proud to offer you—new patterns, new shades, new effects. New greys, club checks, "Yank" stripes, overlaid, iridescent, copper tints—a wonderful profusion of the new ideas you've been waiting for.

Scotland Woolen Mills have always done business direct. Our Mill-to-Man policy cuts out the middleman AND THE MIDDLEMAN'S PROFITS. The mills in the Old Land hand us a big saving on all our vast purchases—and that saving we pass on to you. That's the returned man's guarantee of getting VALUE here. In addition, we don't, never have, and never will employ "runners" on a commission basis in order to grab off a slice of the returned man's gratuity. We give him an honest deal—where we can, a BETTER DEAL.

We make a very small profit per suit. We've sold over 200,000 suits in our Toronto store alone. Vast volume takes the place of big profits in our business. Right along we've shaded down profit to the narrowest margin. As soon as labor costs or material costs are reduced to us, we will reduce prices to our customers. But to-day, under to-day's conditions, Scotland Woolen Mills clothes are the best buy in Canada. Values offered here cannot be matched anywhere on the continent. Come in to-morrow. Get measured for a suit cut from to-day's materials in to-day's styles—to YOUR MEASURE.

McCullough Duly Hanged After Another Hand-Waving to Assembled Crowd.

"Let my death be a warning to other boys who start on the wrong path in life," was the last message of Frank McCullough a few minutes before paying the supreme penalty of the law on the scaffold in Toronto jail yesterday morning for the murder of Acting Detective Frank Williams on Nov. 10, 1918.

Simple Home Remedy for Wrinkled Faces

Thousands of the fair sex are spending fortunes in frantic efforts to remove the signs of premature age from their faces. Such women willingly pay almost any amount of money for worthless wrinkle removers, of which there are made up in less than a minute. They have only to get an ounce of powdered salicilic acid and half a pint of witch hazel at the drug store and mix the two. Apply this daily for a while as a refreshing lotion. The effect is almost magical. Even after the first treatment a marked improvement is noticed and the face has a snug, firm feeling that is most pleasing.

WICKER COMPANY BUYS SITE ON DANFORTH

Gendron Manufacturing Company, 157 Duchess street, are making preparations to vacate the present site. The new factory, which will cover 85,000 square feet of floor space, is one block north of Danforth avenue, adjoining the Canadian Northern tracks to the north and is part of the Massey estate. Here ten acres have been purchased by the company for the price of \$45,000.

WILL PAY YACHT CLUB FOR DAMAGES BY ICE

In the early part of the present year the clubhouse of the Alexandra Yacht Club was partially wrecked by an ice-shove and application was made to the city for reimbursement for the loss sustained. The board of control, after a thorough review of the conditions and provisions appertaining to the deed and the details, which appear to have been incorporated in the negotiations, have arrived at the conclusion that the city is entitled to reimburse the club partially for its loss, owing to the fact that the piling driven under the supervision of employees of the corporation had not been protected by sand filling as originally intended, and therefore recommended that a grant of \$2,000 be made to the Alexandra Yacht Club towards the cost of erection of their new clubhouse.

DRESSED IN MEN'S CLOTHES.

Dressed in men's clothing two 17-year-old girls, Pearl Wilson and Gladys Leon, appeared in the women's court yesterday morning charged with the theft of \$400. Robert Van Era, complainant, alleges that the two young girls held him up in High Park on Thursday and relieved him of about \$400 in cash. On request of their counsel the magistrate remanded the case for one week.

# Lacrosse C.L.A. Schedule Traps Tournament Second Day

## THE LEAFS AGAIN LEAD THE LEAGUE

### Splitting Even at Reading, While Bingos Down the Orioles.

Reading, Pa., June 13.—Two singles, two bases on balls and an error netted Toronto three runs in the eighth inning of the second game here this afternoon, giving the Leafs and 8-to-5 victory and an even break, after Reading had won the first game of a double-bill, 8 to 3.

The second game goes on record as the nice city victory for Johnny Jones, the Leafs' pitching ace, who has now turned back every club in the league. Jones was hit hard by Reading, five of the Doinettes' dozen hits being doubles, but the locals presented a leafy defense and the Leafs were not slow in picking out the holes.

Barries, a 20-year-old pitcher, just started by Reading, started the second game, and after three innings had scored errors had netted the Leafs five runs in the first two innings. Brown took over on the next four rounds. Brown took over on the hill in the seventh inning, with the figures deadlocked at 5-all, and the grand slam came during his tenure. Holden pitched out two home runs during the afternoon, both netting two tallies. This gives him three circuit drives in two ways.

Reading put the first game on ice in the third inning, when four hits and two errors netted six runs. Sheridan accounted for three of the tallies with a circuit drive. Attenburg drove in two with a triple, and the sixth came on Burns' sacrifice fly. Barries' error in the seventh scattered, except in the seventh and ninth frames, when the Leafs got four of their seven blows and scored their three runs.

The Leafs started off with a rush in the second game and picked up five runs before Reading got started. Three came in the first innings. Doolan booted Gonzalez's grounder in the opener, and the latter advanced to third, as two men crossed the plate. Sheridan and Jones caught Onslow stealing, after the latter reached first on a fielder's choice. Holden's error made the score 3 to 0.

In the second frame, Deuel was safe on Barries' error, advanced on Jones' sacrifice, and Gonzalez stole second and scored on Whitman's ray.

Two runs in the third and three in the fifth brought Reading neck-and-neck with the champs. In the third, Konick sagger, after Weiser had singled and Hummel doubled, hit the bags and was loaded when Weiser singled. Weiser and Hummel, with the bases full, and Doolan went out at first, and Crossin's double brought Konick home.

Toronto won in the eighth, when Sandberg walked, Jones singled and Gonzalez walked, filling the bags. Doolan booted Gonzalez's grounder in the opener, and the latter advanced to third, as two men crossed the plate. Sheridan and Jones caught Onslow stealing, after the latter reached first on a fielder's choice. Holden's error made the score 3 to 0.

In the second frame, Deuel was safe on Barries' error, advanced on Jones' sacrifice, and Gonzalez stole second and scored on Whitman's ray.

## HAMS WIN ANOTHER FROM KITCHENER

### Coming From Behind After Home Run Scored Three for Visitors.

Hamilton, June 13.—Heavy hitting featured the game between Kitchener and Hamilton here today. The first home run of the season on the Hamilton grounds was made by Scanlon, who hit the ball to the left field fence with two men on bases, and scored the visitors' three runs. Hamilton scored one in the first and went to the front again in the sixth when hits by Lowry, Carlin, Bohan and O'Rourke netted three runs.

## TWO CLUBS AGAIN IN THE C. L. A.

### Officers Elected and Schedule Arranged—Review of the Past Season.

The annual meeting of the Canadian Lacrosse Association was held last night, when officers were elected and the schedule for a two-team league drawn up. The president, review of the past season stated that the C.L.A. was organized last year under, perhaps, the most unpretentious circumstances of any organization of its kind, and, notwithstanding those circumstances, had, perhaps, the most successful lacrosse season in many years.

When the demands of the military service act had been complied with, little was left for the amateur body to carry on with, so the Ontario Amateur Lacrosse Association, so far as competition was concerned, was a thing of the past. It should not be thought that the game should not be allowed to reach the stage, and, knowing that its perpetuation could best be accomplished by encouraging that spirit of emulation noticed in youth, an effort was made to get some sort of game going, with the result that the C.L.A. was organized. The result was to play only men who had already played on the professional teams of the city—the Toronto and Tecumseh—but at the appointed match hour gaps appeared in the ranks, which were filled by amateurs. These men were instrumental in assisting the C.L.A. to have the successful season they had last year. Had they not filled the gaps at that psychological moment we would not be now sitting in the stadium of the C.L.A. These men sought reinstatement to their former position as amateurs and were received into the interest of the game, and endeavored to secure their return to the amateur fold. The A.A.U. of Canada, Ontario branch, did not see any benefit in the game had secured commensurate with their efforts, so they were refused reinstatement. Under these circumstances, deplorable, though they may be, and inexorable, so far as the interest of the game is concerned, is nothing left for the C.L.A. to do but carry on. Last year the schedule was carried out without a hitch. As no money was paid any player for his services, and carried on with a will, each doing his best in the interest of the game, no complications arose to disturb the harmony of the relations that existed among the clubs. The rivalry was keen, especially between the Indians and Mattlands. St. Catharines early made a run-away of the season, but the league wound up its season with Mattlands in the lead. The winning of the championship of the league, the qualification of Toronto for the Dominion Cup, this year is nothing left for the C.L.A. to do but carry on. ## LONDON LOST, AFTER FOUR RUN LEAD, TO BRANTFORD

### Two straight from London today, winning by the score of 8 to 6 after London had

obtained a lead that looked good enough to win. Foster, who started for London, was yanked after he had passed the first man up in the seventh. Malloy, who followed, was batted all over the lot, and Gero succeeded where Foster had failed. The Red Sox had put the game on ice. Score: R. H. E. London.....8 1 1 7 18 3 Brantford.....6 2 1 10 20 0 Batteries—Foster and Malloy; Gero, P. and Gero.

## FIRST DEFEAT HANDED TO CAUSEY OF GIANTS

### At St. Louis (National League)—

Doak held Boston to three hits while St. Louis hit Demaree freely and shut out the Braves yesterday 4 to 0. Hank Gowdy was badly out about the neck and shoulders, by being glad to get away from the game. Score: R. H. E. Boston.....0 0 0 0 0 0-0 3 0 St. Louis.....4 2 1 10 20 0 Batteries—Demaree, Scott, Wilson and Trassgrove; Doak and Clemens.

## YANKEES LOST, BUT RETAIN THE LEAD

### White Sox Fell Before Barrow's Boston Crew—Walter Johnson Wins.

At Boston (American League)—Boston got an even break from Chicago in their four-game series by winning, 8 to 1, yesterday. In the fifth, Shellenbach led off with four bases on balls, with two out, and McInnis' single scored one run. Schang's single scored another, and after Russell's hit, Shellenbach, Scott's single scored three runs. Russell filled the bases by passing home, and Kerr relieved Russell, finishing the game and holding Boston hitless. Score: R. H. E. Chicago.....1 0 0 0 0 0 0-1 2 0 Boston.....0 1 0 0 0 0 0-4 5 2 Batteries—Shellenbach, Russell, Kerr and Schang; Lynn, Jones and Schang.

## Uster United Won Ontario Cup Game

Uster United made no mistake in their replay Ontario Cup game with the Toronto Albions last night. For the first twenty minutes they completely outplayed their opponents, long scoring a lovely goal from a pass by McNeilly. Then Davenport came to life, and up to the interval they had the Uster defenders busy. Several times the Uster goal had miraculous escapes, but the interval arrived with Uster leading by 1 goal to 0. Davenport opened the second period in determined fashion, Hunt and McCue, most clearly on several occasions. McNeilly accepted a forward pass from McGuire, and, bearing Robinson, shot for goal, the ball glancing off Mead's foot into the net, making Uster 2 up. Horace Fidler and Hunt combined nicely, but could not circumvent the Uster back, who were playing a steady game. Then McGuire had a brilliant solo run, tricking man after man, and coolly placed the ball in the net, after drawing West Uster played confidently and retired easy winners by 2 goals to 0.

### JONAH'S WHALE FIRST SUBMARINE

Hun Submarine Also Put America Where She Ought to Be.

### WERE POTENT FORCE

Bishop Nicholson Says Methodists Helped Make United States Fight.

Bishop Nicholson of Chicago told the Toronto Methodist Conference at Elm Street Church yesterday that the Methodist pulpits of the United States were a potent factor in getting the United States into the war. The whale which swallowed Jonah was the first submarine. It sent Jonah where it was his duty to go. The Hun submarine did the same thing for Uncle Sam.

Two million dollars arrears of salaries are due the Methodist preachers of Canada, owing to annual defaults by congregations since Methodist union in 1884, according to the official statement of Rev. J. D. Simpson, the new treasurer of the superannuation fund.

Rev. Dr. J. A. Macdonald, Presbyterian, addressed the conference on church union. He declared that "brotherhood of nations is the only thing that will save the world from hell, and unless we Christianize our politics we are doomed."

Rev. E. N. Baker, who has been in the ministry for 49 years, reported great prosperity at Albert College, Belleville.

Addresses in support of the campaign to raise eight million dollars for Canadian Methodist mission funds during the next five years were given by Rev. J. H. Armp and A. E. Ames.

Hot Shot From Laymen. Hot shot was fired at the ministers by some aggressive lay delegates leaving the preaching of the gospel to step into the various general secretariats.

Spirited replies were made declaring that the general secretaries preached the gospel just as much as when in the regular ministry. A motion condemning the appointment of ministers as secretaries was voted down.

Rev. Frank Langford, the new Sunday school secretary, pleaded plus for the extension of religious education, especially by holding Methodist young people's summer conferences.

A reception service, addressed by the probationers who are to be ordained on Sunday morning, was held last night.

### TRUCK FULL OF BRICKS STRUCK BY LOCOMOTIVE

A thousand bricks, a miraculous escape from instant death, a horrible mess of what was once a fine specimen of a Gray-Dort motor truck, and a Gray-Dort which traveled a hundred yards after colliding with the bricks, all these figured in a spectacular collision which occurred yesterday at 12:45 p.m. at the Victoria Park G. T. B. crossing, East Toronto.

Josh Scoble was towing the Gray-Dort car, plus a thousand bricks, to the brick company nearby. R. G. Summers of Danforth was on the Gray-Dort. The local was traveling at a moderate speed west when it collided with the car carrying a thousand bricks. Summers jumped off a few seconds before the engine struck the car, and escaped uninjured. The car itself, however, with its ton of bricks, was shot high into the air and landed nearly a hundred feet to the other side of the crossing.

J. R. Scoble, whose man was driving the car which was towing the Gray-Dort over the crossing, stated that his man heard no warning whistle from the approaching train.

### PRESBYTERIAN CHURCH APPEALS AGAINST CITY

Grosvenor Street Presbyterian Church will appeal to the judicial committee of the privy council against the judgment of the Canadian courts, which exempted the City of Toronto from carrying out the terms of an award under which the church building and organ were transferred to the city for \$55,000.

Mr. Colquhoun, of the city solicitor's department, who leaves for England on Monday, states that there is a possibility that the Queen street bridge case will not come before the privy council.

"I have heard from my agents in London that this case has not been filed with the privy council yet," he said.

### DE LA SALLE CADETS BEST IN PROVINCE

The annual inspection of De La Salle Cadets took place yesterday afternoon on the Normal school grounds, when 200 students in their fine uniforms, with green facings, headed by their pipe and bugle bands, were inspected by Col. Huggins, C.E.F.

Physical drill and other manoeuvres were smartly carried out, and Col. Huggins complimented the corps very highly, and stated that they were the best cadet corps in the province of Ontario.

Sergt. Will Nealon was in command, under the supervision of Capt. Kenneth Cavill.

The De La Salle Cadets, who won the cup at the Canadian National Exhibition two years ago, have been asked to compete for the King's cup at this year's Exhibition.

### Two Hundred Thousand Plants Bedded in Toronto Parks

The employees of the parks department have been hard at work and no fewer than 174,149 plants have been bedded. In addition some 26,875 plants have been bedded at island, making a total of over 200,000.

### GAS COMPANY MAY LAY PIPES

The second divisional court at Osgoode Hall yesterday allowed the appeal of the Ottawa Gas Company against judgment in its dispute with the city of Ottawa over the right to use certain city highways for the laying of gas pipes. The court set aside judgment of the lower court with costs.

### LETTER FROM VERA

Yesterday morning after Frank McCullough had been handed the jail authorities received a lengthy, sympathetic letter from McCullough. The letter was dated June 10 and was signed Vera de Lavelle.

### ADMIRAL INSPECTS BUDDING SEAMEN

Boys' Naval Brigade Show Their Prowess to Admiral Kingsmill.

Over 200 boys of the Boys' Naval Brigade assembled at the whar at the foot of York street last evening, for inspection by Admiral Kingsmill, K.C.B., who, besides examining the equipment, also made the rounds of the training ship, Commodore Jarvis, which is moored at the wharves.

The admiral was given an ocular example of the excellent progress made by the boys in their training to fit the call of the sea, and was much impressed by the capable manner in which the youths could pull an oar, and also their efficiency in the use of firearms.

Immediately upon Admiral Kingsmill's arrival at the ship, he was received by Commanding Officer H. Stewart, and other officers of the ship's crew. The admiral was accompanied by his Flag-Lieutenant, Mr. H. Macrae, Boys' Brigade, committee of the Navy League, and Messrs. Kennedy, Lount and Archer, members of the Boys' Naval Brigade committee.

All in Good Order. The guard, with rifles, and the Boys' Naval Brigade Band were formed up on the wharves for inspection by the admiral, and moved through the ranks, asking questions and making suggestions where necessary.

Later he made a tour of the ship, in the company of the committee and ship's officers, and proclaimed everything in good order. From the deck he witnessed the capable manner in which the boys handled the 24-foot yawl boats, equipped with ten oars.

Before departing, the boys were all lined up in a hollow square in the centre of which stood the admiral. He outlined for their benefit the traditions of the British navy and its wonderful work in the great war.

The admiral departed from the city last night following the inspection.

### RUN ON LIBRARIES EVER ON INCREASE

At the meeting of the library board held at the Reference Library yesterday afternoon, the report of Dr. Locke, chief librarian, gave the rate at which books were taken out from the various branches during the past month, and on the whole reports showed that the Toronto public is becoming more and more a reading community.

The report included an increase of 4000 calls for books over the preceding month, when there were 20,000 at College street; High Park had an increase of 1000; Church street an increase of 1800; Earlscourt 1500; Queen and Lisgar an increase of 1300. The majority of the branches had the same report of increased circulation from the other business was the discussion of the two proposed new libraries, for which new sites and equipment have to be arranged, and the acceptance of the resignations of two members of the staff.

### SIMPSON WELCOME PICNIC

The spirit of comradeship amongst the employees of the Robert Simpson Co. manifested itself Thursday when the social committee, under the auspices of the Ottawa Gas Company, carried out a "welcome home" picnic and dance for their returned men and friends at Long Branch Park. Over five hundred were in attendance.

### NEGOTIATING FOR SETTLEMENT

H. H. Cousens, general manager of the Toronto Hydro-Electric system, stated his belief yesterday that the threatened trouble between the commission and its employees would be averted. The increase asked for by the men apply to every branch of the system, and the commission is now negotiating for settlement.

### PROF. HAULTAIN RESIGNS

Prof. H. E. T. Haultain, director of vocational training in D unit soldiers' civil re-establishment, has resigned office. He refused generally to discuss his resignation, but stated he believed the former returned soldiers held the helm. This is one of several resignations within the department.

### "PALE" HOME SUNDAY

### BELGIAN KING MAY VISIT CITY

Coming to America in August—Invited by C.N.E. and Mayor Church.

Albert, Belgium's hero king, will visit America in August. Official invitation to this effect was received thru Washington yesterday afternoon by the Canadian National Exhibition, but no details of the tour have as yet been announced. He is coming to America to personally thank the allies on this side of the ocean for their part in the war, and it is understood that his itinerary will include a visit to Canada.

General Manager Kent and the board of directors of the exhibition have sent an invitation thru the Belgian High Commission and the British embassy, to the ruler of the Belgians to visit the exhibition, and Mayor Church will be asked to supplement this with an official invitation to come to Toronto while the big fair is in progress.

### EASIER NAME TO SAY

Claiming that Cooper is an easier name to say and remember, Herrman Kupka yesterday changed his name by deed poll to Herbert James Cooper at Osgoode Hall. Mr. Kupka is a British subject, having been born in Scotland.

On behalf of Rosmond Lillian Smith, her four-year-old daughter, Lillian Rose yesterday changed the name of the child and heirs by renouncing the surname of Smith and adopting Reid.

### FORCE COMMISSION TO RESIGN OFFICE?

Toronto Housing Commission Not Favored by Returned Men.

Complaints against the alleged arbitrary ruling of the Toronto housing commission, that prospective purchasers of houses pay 10 per cent. down, before they receive every day from practically every returned soldier's organization in the city.

Opinion among veterans, as expressed yesterday in interviews held with the World, was strong that unless the commission could assume a less indifferent attitude its resignation would inevitably follow the stress of feeling now upon the part of Parkdale members of the G.W.V.A. who reported the report of the commission. West Toronto G.W.V.A. executive has recommended direct opposition to the report. Riverdale G.W.V.A. officials have received many complaints from individual members respecting the ruling of the board, and the consequent difficulty of procuring the homes desired, and is expected to make strong recommendations against the commission. The G.A.C. is up in arms against the commission as presently constituted, and practically every returned men's organization is lined up to fight the issue. Many men pointed out yesterday that conditions were becoming more and more intolerable.

### NO OTHER COURSE OPEN BUT TO RESIGN POST

Colonel F. W. Marlowe, the veteran ex-army director of medical services, stated to the press yesterday that Dr. McKelvey Bell, hedged in as he was by a political compromise arising out of the dispute between the military hospital commission and the militia, had no recourse as a sane, independent man but to resign. Deprived as he was of individual initiative by virtue of the general administration of the soldiers' civil re-establishment, the proficiency and experience of Dr. Bell had been sadly neglected, said Colonel Marlowe.

In the meantime the rank and file of the returned soldiers are urging a reconsideration of the resignations of both Dr. Bell and Dr. Ryan.

### MANY VACANT HOUSES

In wards eight, one and seven, according to figures presented by the assessors in May, there were 565 vacant houses, the numbers, respectively, being 210, 120 and 135. This, however, as is well known with the housing situation so acute, does not represent a surplus over demand, the chief reasons for these unoccupied dwellings apparently being that they are for sale or the rents are too high for the people who are after accommodation. It has been found that on account of the scarcity and the high rentals, a great many houses have been sub-let.

### SUGGESTS ELECTRICITY FOR CITY RAILWAYS

The remedy which Property Commissioner Chisholm proposes for the smoke nuisance which prevails on account of puffing locomotives is the electrification of all railway coming into the city. Riverdale, it is pointed out, has been a particular sufferer in this respect.

A test case, it is stated, will be instituted next week to see if the city smoke bylaw cannot be enforced against the company for operating locomotives that belch dense smoke for a period of more than six minutes in any one hour.

### PAY LAST TRIBUTE TO LT.-COL. WINDEYER

Over one hundred men of the 74th Battalion gathered in St. James' Cathedral Thursday to pay their last tribute to their late commander, Lieut.-Col. R. C. Windeyer. The interment took place at St. James' Cemetery in a quiet, simple way, without military honors, according to the wishes of the deceased.

Aldor Burch and Rev. J. A. Turnbull conducted the service, and General Gunn and a number of the officers from headquarters staff were present. The pallbearers were: Major Hedges, Major O. Harcourt, Lieut.-Col. W. Cowan, J. A. Marriott, J. Bruenner and D. E. Donaldson.

### CHOOSING ENUMERATORS FOR LIQUOR REFERENDUM

The Toronto members of the legislature had a conference yesterday with the Hon. I. B. Lucas, attorney-general, regarding the enumerators for the referendum on the liquor question in the fall. They are to report back their suggestions for these enumerators early in the week. It is expected that similar steps will be taken in some of the other large cities shortly. It is regarded as likely that the lists for the referendum will be used at the next provincial election.

### TO DECIDE T. S. R. SHARE IN DON BRIDGE

According to information at the legal department at the city hall, the Don bridge case is likely to go over to the autumn session of the judicial committee of the privy council. The matter involves the liability of the Toronto Railway Company to pay \$80,000 as its share of the cost of constructing the Queen street high level bridge over the Don. The point is whether or not the Dominion railway commission has jurisdiction over an electric railway.

### T. S. R. MUST PAY

In a judgment handed down at Osgoode Hall yesterday, the appellate division dismissed the appeal of the Toronto Railway Company against the judgment given by Judge Winchester for \$700 in favor of James Clarke, and \$200 in favor of James Clarke, the son of the people with whom Mr. Parsons lives. The case arose out of a collision between a motor car and a street car, and the original claim was for \$1000.

### STORY OF MUTINY IN FRENCH FLEET

#### Red Flag Was Run Up and Movement Was Without Violence Till Settled.

Paris, June 13.—An account of the mutiny of seamen of the French Black Sea fleet at Odessa in April was told in the chamber of deputies by Deputy Emil Goude, a socialist. During the trouble a red flag was run up on the battleship France. On April 20, a zealous young officer ordered a machine gun fired against French soldiers and sailors fraternizing with Russians, and several persons were killed and wounded. After negotiations, the demands of the sailors were met and it was agreed that they should not be punished.

"The signal to clear for action was given on the morning of April 19," the deputy said. "The men gathered in crowds on the deck and refused to disperse when ordered. Then from the battleship France arose the strains of the international revolutionary hymn. The men gathered in groups on the ship, and the captain then intervened and tried to discuss the matter with the sailors, who appointed delegates to explain why the international flag had been hung. One of the delegates said: "The war we are being forced to make against the Russians has not the right to use us, for a war parliament has not voted."

"The captain advised the admiral in command, who was on board the battleship Jean Bart, of the situation. The admiral listened to the attempts of the sailors, but refused to obey his orders, and insisted they should be returned to France. The international hymn was sung in the evening, and sailors on other ships took up the singing.

"The red flag was run up on Easter morning beside the tricolor, which had been hoisted with customary honors. The work on the ships was carried out regularly, and officers had full liberty. There was one unfortunate incident for which the sailors were not responsible. When the men were going ashore on April 20, a young ensign, fresh from the naval academy, seeing the sailors and French soldiers fraternizing with Russian men and women, ordered a machine gun fired. A naval lieutenant rushed up, placed himself in front of the men and stopped the firing. However, some were killed and wounded.

"The movement continued without violence, insolence, disorder or riot. The tricolor never was lowered. It was a true revolutionary movement in the highest and purest sense of the word. The sailors, proud of the great French revolution, remembered there are legal measures beyond which French soldiers and marines cannot be employed.

"After four days of negotiations the admiral granted the demands of the delegates that they should return to France and that no punishment be inflicted.

**Stand by Delegates.**  
Deputy Goude asked M. Leygues, the minister of marine, if he intended to respect the pledge worded that the admiral, but the minister did not answer. The deputy continued: "The sailors will not abandon their delegates. Attempts are being made to make the delegates appear as leaders of the trouble. Four hundred sailors met at Toulon recently and adopted Admiral Lecaize that their comrades must not be touched or they would strike."

"Discussion of the mutiny continued today in the chamber.

#### WILHELM II. LEAGUE TO BRIBE DUTCH PRESS

Berlin, June 14.—Letters exchanged between officials of the League for the Protection of William II, one of which refers to a remittance of 20,000 marks to Holland for the purpose of "cultivating" the Dutch press, are printed by the Socialist Vorwarts. This sum, the newspaper remarks, is not a considerable one in view of the present state of valuations, but it fears that the league must spend considerably more than this on its propaganda. "In view of the determination of the entente to have the ex-emperor surrendered."

#### MOB IN ITALIAN TOWN LOOTS THE FOOD SHOPS

Rome, June 13.—There have been sporadic strikes throughout Italy for several weeks past, in which the demands have been for decrease in the hours of labor and increases in wages, while others have been in protest against the high cost of living. The most serious of the strikes is that of 78,000 school teachers, who demand a minimum of 12 daily.

#### AUSTRALIA TO PASS EFFECTIVE TARIFF LAW

London, June 13.—W. A. Watt, the acting prime minister of Australia, according to an exchange telegraph despatch from Melbourne, told the industries protection league Thursday that the Australian government intends to introduce a tariff measure to protect industries created during the war, at the approaching session of parliament. The measure would also encourage new industries and extend those already in existence. The acting prime minister said it was the intention of the government if parliament approves, to pass an effective tariff.

R. R. No. 4, Gilbert Plains, Man.

In the year 1910 I had nervous prostration in its worst form; was reduced in weight from 170 pounds to 115 pounds.

The doctors had no hope of my recovery and every medicine I tried proved useless until a friend introduced me to take "Fruit-a-lives."

I began to mend almost at once, and after using this fruit medicine for three or four months I was back to my normal state of health.

I never had such good health for twenty years as I have enjoyed the past six years. We are never without a box of "Fruit-a-lives" in the house.

### WOULD END UNREST BY TAXES ON LAND

#### At Ottawa Sitting, Mathers Commission is Told New Ways of Adjustment.

Ottawa, June 13.—The first sitting in Ottawa, and the last in its tour of the Dominion, of the industrial relations commission, was held in the city hall here today. Evidence was heard from several representative citizens.

The first witness heard was W. M. Southam of The Ottawa Citizen, who, after outlining a plan for the taxation of land values as an extremely important step towards the ultimate solution of social unrest, declared that an eight-hour day, old age pensions, and other labor reforms were but palliatives which were desirable for the present, but did not touch the root of the problem.

L. L. Pelletier, deputy president of the Railway Conductors, who said he came to give testimony as an ordinary citizen, began his evidence with what he termed a dogmatic statement: "Freedom to Organize."

"Unless the international brotherhoods," said Mr. Pelletier, "are allowed to function fully within their own laws, there is nothing to it but 'one big union.'" He then went on with some general observations. The cost of commodities, he said, had been given too much stress as the cause of industrial unrest. The commission might consider the tremendous increase in money circulation and the cheapening of its purchasing power. Where a worker was getting 45c an hour in 1914, he should be getting more than 90c now.

As to collective bargaining, Mr. Pelletier said that any attempt to limit it was futile.

#### Premier of Saskatchewan Finds Mennonites Obstinate

Swift Current, Sask., June 13.—Premier Martin has returned from a visit to the old colony Mennonite settlement near Swift Current, where he met Bishop Wiebe and was informed that he had no assistance from the head of the church in inducing his flock to send their children to public schools. After much difficulty Mr. Martin succeeded in being allowed to enter a Mennonite parochial school and witnessed a class at work.

# Texas Oil Is In Toronto

Everybody come and see it. Everybody means YOU. It makes no difference whether you are rich or poor, man or woman, you are welcome to call at our office and see the CRUDE PETROLEUM shipped to us direct from the wells of TEXAS GLOBE OIL COMPANY on its Burkburnett Lease.

It will not cost you a cent to see it, but if you are not familiar with crude oil you will be greatly interested in seeing it, smelling the strong gasoline odor, and hearing about it. You will be welcome any work day between 9 a.m. and 5 p.m. except Saturdays, when you can come from 9 a.m. to 12 m. We have made a careful investigation of

## TEXAS GLOBE OIL CO. OF FORT WORTH, TEXAS

and are so much impressed with the values of its leases, the personnel of its board, the quality of oil from its wells and the possibilities of big profits to every person who buys its stock, that we have just underwritten its entire unsold treasury stock. The authorized capital is \$100,000, divided into 100,000 shares of the par value of One Dollar each.

Texas Globe Oil Company owns the following leases, all proven oil land:

40 acres in Burkburnett Field, valued at	\$80,000
20 acres in Caddo Parish Field, valued at	50,000
20 acres in Brownwood Field, valued at	6,000
<b>NOT AN ACRE OF WILD CAT LAND</b>	<b>\$136,000.00</b>

#### ARE YOU WISE? If you are you will seek more wisdom from the experience and wisdom of wise men.

**READ THESE REPORTS OF SAYINGS OF WISE MEN.**  
John D. Rockefeller: "Get in on the ground floor; if you wait until oil is flowing you lose the opportunity to make the big money."  
Henry M. Plaxier: "The plain unvarnished truth about oil investments is so astounding that one fears to state what he knows to be a fact, lest he be not believed."  
George Westinghouse: "Five thousand Americans are worth millions each, because they invested their savings in new oil companies."  
Andrew Carnegie: "Fear has kept untold millions from making fortunes."  
Edward H. Harriman: "It is the keen-brained man who invests at the start of an enterprise who makes the money."

#### THE BIGGEST BANKER IN THE UNITED STATES.

George M. Reynolds, President of Continental and Commercial National Bank of Chicago, is a man of thinking and action, and the following interview must think for himself: "Fortunes are built on deals that are largely the impulse of the moment. Those who take questions to bed with them are not the ones who are making the most money. It is better to fall once in a while than never to have the courage to succeed. Courage is as much of a necessity to the man or woman who would build up a fortune as it is to a soldier on the battlefield."

#### THE MOST SUCCESSFUL SPECULATOR OF HIS TIME.

Jay Gould said: "When you invest in the stock of a company, don't look for the best, for you will never find it. Look for a good one, then invest and do it quickly. Don't wait to see if it pans out all right, for there is where you lose your opportunity. When you have waited to see if it pans out you will have lost the biggest advance in its value. You must make money on your judgment and foresight and not on demonstrated facts."

#### THE GREATEST EVANGELIST IN NORTH AMERICA.

Billy Sunday said: "A conservative is a darn coward."

#### THE MANAGER OF FORT WORTH OIL EXCHANGE.

James W. Mastin, a man thoroughly informed relative to the oil fields of Texas, recently made the following statement from the platform of Fort Worth Oil Exchange: "I have personally inspected the forty-acre lease of Texas Globe Oil Company in the Burkburnett Field. I have reports from reliable parties in regard to its twenty acres in Brownwood and twenty acres in Caddo Parish. I am personally acquainted with all its officers and their business methods, and I have no hesitation in saying that I consider Texas Globe Oil Company stock one of the best buys in the State of Texas."

This is not the only case like this—THERE ARE OTHERS.

An automobile dealer of Waxahachie, Texas, being exceedingly anxious to make a sale of an automobile, took \$100.00 worth of Hog Creek oil stock in the deal, which both he and the farmer thought to be a very little value, and in less than 60 days this automobile dealer sold this share of stock, that he gave per value \$100.00, for \$4,000.00. It is now worth \$7,000.00.

A barber of Burkburnett, Texas, invested \$500.00, (which he is said to have borrowed at the bank on his shop), in the Fowler Farm Oil Company. In the morning of January 3rd, 1919, he was called to the office of the Burkburnett Oil Exchange, where he was told that he had a share of stock worth \$400.00. He had invested \$500.00, and he had a share of stock worth \$400.00. He had invested \$500.00, and he had a share of stock worth \$400.00. He had invested \$500.00, and he had a share of stock worth \$400.00.

#### DO YOU REALIZE WHAT IT MEANS TO PUT NO NET INTO TEXAS OIL?

On the morning of January 3rd, 1919, an officer of this company was standing at the corner of Hemphill Street and Pennsylvania Avenue in Fort Worth, Texas, waiting for a street car. Nearby stood a man about 30 years old. A young lady approached, held out her hand to the man, and said, "I have a share of stock worth \$400.00. It is an odd sensation to go to bed with a share of stock worth \$400.00. It is an odd sensation to go to bed with a share of stock worth \$400.00. It is an odd sensation to go to bed with a share of stock worth \$400.00."

#### WHAT MORE WOULD YOU WANT?

A colored porter working for William Monnie, a merchant of Fort Worth and President of the Chamber of Commerce, bought one share of Hog Creek Oil Co. stock last summer for \$100.00. And about Christmas, 1918, he refused \$4,000.00 for that one share. The truth of the matter is that Higgins made a small investment in the Burkburnett oil field, which has changed work into a side issue for him. His income now is \$35.00 per day, and steadily increasing.

#### BURKBURNETT A CONVINCER.

Of the hundreds of thousands of persons who have visited the Burkburnett Oil Fields every single one has come away enthusiastic and determined to get an interest in oil. That sounds like a strong statement, but the experience of the Californian who visited there this week is a sample. He came back and tanks, eight and ten men crowded into one automobile, railroad trains with men standing packed like sardines in the aisles, everybody wildly enthusiastic and all perfectly good-natured. If I had stayed there another day I would have become looney. Give me your prospectus and I will get my friend to \$3,323.33 for each \$100.00 invested, and they were JUST ORDINARY PEOPLE LIKE YOU.

#### THE MOST PHENOMENAL OIL FIELD THE WORLD EVER SAW.

## BURKBURNETT

where a year ago stood one lone derrick over a partly drilled well, and today there are 1600 GUSHERS, DRILLING WELLS AND DERRICKS.

Excerpts from The New York Times of June 1st, 1919:

"Standard No Longer Dominates Field and 6,000 Companies Have Sprung Up. Even Wall Street Gambles on Them."

"One of the most striking features of the oil boom in the North Central Texas, Oklahoma, Kentucky and Wyoming fields is the manner in which the speculative enthusiasm has been imparted to Wall Street. Never before in the history of the financial district has there been such a display of interest in the development of oil properties."

"New companies are continually being launched by houses which some years ago would never have thought it feasible or proper to promote an orgy of oil speculation such as has never before been witnessed on the Stock Exchange here. Moreover, it is country-wide. 'The drilling of one well may establish the speculative value of an entire tract of country. At least property close by. There has sprung twinkling. The gate to wealth is therefore opened more quickly than in almost any other undertaking when the 'open sesame' has been discovered. 'There is no question that in the Ranger and Burkburnett fields there has been discovered a quantity of oil such as has probably never before been tapped in this country. The production has been enormous and is increasing, and for this reason many believe that it will continue.'"

#### DO YOU REALIZE THAT THIS IS YOUR OPPORTUNITY?

There are people staring at this page RIGHT NOW who will never make a dollar outside of salary or wages. There are people reading these words who will invest a few dollars in oil stock and receive thousands of dollars of profits.

TO COMBINE AFFECTS THE BUTCHERS

At Cost of Living Inquiry It is Alleged That Swifts Control Union Yards.

Ottawa, June 13.—That labor troubles at the present time are partially responsible for the high cost of living in Canada was declared this morning at the meeting of the common committee dealing with that matter.

Thomas Barton, retail butcher of Toronto, said he paid less for hedges than he to the trade and he preferred to sell to the trade.

Asked why he did not buy animals on the hoof and slaughter them, he said there was no open market now in Toronto.

Mr. Stevens declared that if it was the case that Swifts controlled the Union Stock Yards and farmers could not sell to the trade, except through the commission men, it was a restraint of trade and action should be taken.

Mr. Hocken said the farmers could sell their cattle direct in the western market. The City of Toronto had spent a lot of money there and had built an abattoir. The city had done everything possible to enable a man to buy and kill and to enable a man to buy and kill.

Chairman Nicholson pointed out that the effect of Mr. Barton's evidence was that a combine existed in Toronto to prevent the small butcher getting meat in order to do business. The matter, therefore, should be inquired into further.

J. C. WATTERS ADVISES AGAINST HASTY STRIKES

Stratford, Ont., June 13.—Admitted in a signed statement made before Crown Attorney Bowdler and Chief Goeman that he had helped to bury the murdered Russian with stones while the man was still alive, Stako Boyeff was today, along with Ivan Potocoff, a fellow Bulgarian, of Stratford, charged with the murder of John Sorokaty, a Russian, who was arrested at Kitchener on May 25.—Both men were committed for trial at the fall assizes at Kitchener by Magistrate J. R. Blake.

FRENCH BARONESS BEATS RUTH LAW'S RECORD

Paris, June 13.—Announcement is made that Baroness de la Roche, a widely known French aviatrix, driving a small biplane in which the late Jules Vedrines landed on the roof of a department store here last January, has reached an altitude of 15,700 feet. Reports of her flight have been checked by a commission appointed by the French Aero Club, and she is given the record for height attained by women flyers. The level she reached is over a thousand feet higher than the best record made by Ruth Law, who has hitherto held the women's altitude title.

NEW ORDER IN RUSSIA WILL BE ESTABLISHED

Omsk, June 14.—A Bieurussov, the radical writer who is chairman of the committee in charge of the preparation of the elections for the constituent assembly which will succeed the Kolchak government, has issued a statement that the future constituent assembly will have the sovereign power over all political and social problems.

EMPLOYERS THE EMPLOYMENT SERVICE OF CANADA

The PROFESSIONAL and BUSINESS SECTION has been established to assist professional, business and technical men and women.

Many officers, soldiers, sailors and war workers, who sacrificed their positions during the war, now desire to secure employment in the occupations for which they have been specially trained.

Employers should not wait until increasing business forces them to employ anybody they can obtain, but should look ahead and avail themselves of this unusual opportunity to enlist the services of highly trained workers, ordinarily secured only with difficulty.

These workers are returning to civil occupations with increased initiative, a broader view of life, and a greater capacity for work.

Please state your requirements to the nearest office of the EMPLOYMENT SERVICE OF CANADA PROFESSIONAL AND BUSINESS SECTION

In each office the INFORMATION and SERVICE BRANCH DEPARTMENT OF SOLDIERS' CIVIL RE-ESTABLISHMENT has a representative to render special service in the re-establishment of the returned soldier.

JAMAICA TO DEVELOP THE SUGAR INDUSTRY

Kingston, Jamaica, June 13.—The government has taken active steps looking to the development of the sugar industry in the colony. The legislative council has decided to erect a central sugar factory, to cost \$1,000,000, at the western end of the colony, and it is hoped that sugar will replace bananas as the chief product. American capitalists are reported to be interested in the purchase of a chain of sugar estates to supply the new central factory.
