Every soldier with whom the correspondent spoke was full of admirawhich opened the way for their great success. Fort Malmaison itself shows signs of the accuracy of the French cannon fire. It has been plerced at many places, from roof to foundation, by 16-inch shells. As has been related, the fort had been dismantled long before the war and often was used as a target for experiments with high explosive shells. The ruins had been sold to a building contractor on condition that he use the stonework in the construction of a barracks in a nearby town, and he already had begun to remove the stone when hostilities were opened. One thing which elicited praise from the infantrymen was the rapidity with which ammunition supplies were brought to them after the attack. The American amfulance did herale work in the construction and the last couple of days, and it makes it rather nasty, especially when we are cutside all the time." Pie. Pte. T. Melbourne, son of Mrs. J. Melborne, Holmsdale Crescent, North Earlscourt, enlisted for overseas at the commencement of the war at the age of 14 years, and has been in the trenches until recently, when he was withdrawn from the firing line and attached to the Canadian Base Depot at Etaples, where he will remain until he reaches the age of 19 years. This news was contained in a letter received by Mrs. Melbourne from the department of militta and defence, Ottawa. Mrs. Melbourne had recently written an appeal to His Majesty for the return of her son to Canada, pleading that the boy had done his bit and asking that he be placed on home duty in Canada, or failing this that he be granted furlough.

TELLS OF VIMY RIDGE.

In point of interest and attendance the patriotic lecture given in Central Presbyterian Church, Unionville, by Rev. George P. Duncan of Port Credit on Friday night, has seldom, if ever, been surpassed. Rev. Mr. Duncan, a former pastor of the village, has only recently returned from the front, where one son, Gorgon, was killed and another wounded, and his description of Vimy Ridge and other battle scenes thru which he passed were

Teachers and Senior Girls Carry Out Successful Function.

Under the auspices of the teaching staff and senior girls of Earlscourt School. North Dufferin street, a fancy fair and bazaar was held on Saturday last, for the benefit of the old boys of the school overseas. The rooms were tastefully decorated with old flags and busting and the various staffs were stocked with fancy work and comforts, home-maide ples and cakes, made by the pupils and teachers. A brisk sale was conducted, and a large gathering of the parents and friends were present thruout the proceedings. The proceeds will be devoted to the purchase of Christmas cheer to be sent to the trenches.

EFFECTIVE DEALING.

However, they did not hesitate when the moment for the advance came, and, as told in previous despatches, they did even more than was asked of them. The Zouaves, who captured the fort, were still in that vicinity when the correspondent was there today. They had not eaten a warm meal since the oftensive began, but, despite privations, they were full of cheer and ready to go on, according to the traditions of this famous regiment, which has fought on every part of the front where the flighting has been severest.

UNDERWEAR

If you're attacked by a severe cold there'll be very little enjoyment in that hunting trip. So be well underclothed. A suit of combinations that should appeal particularly to hunters is made with heavy elastic rib and in natural color. The body part is double and the "combs." are finished with closed crotch and tight-fitting cuffs and ankles. Sizes 34 to 42, suit 4.00

In Two-piece Underwear there are heavy elastic ribbed garments. Shirts are made with double breast and have close-fitting cuffs and sateen facings. Drawers are ankle length, with close-fitting ends and suspender

SWEATER COATS

A good Sweater Coat is usually one of the first accessories the hunter looks for when he's getting together his equipment—it's so warm, comfortable and always ready for service. In a heavy Jumbo stitch are excellent Sweater Coats, made with deep roll collar, two pockets and tight-fitting cuffs. Slate grey and dark brown.

In pull-over style are good warm Sweaters, in plain cardigan stitch. Have double roll collar that fits snugly around the neck and tight-fitting

The first step in preparation, perhaps, is to survey your equipmenthave you got lots of good, warm clothing, and bedding, enough cooking utensils, etc.? All are important, in fact essential to any hunting ex-

Here's a page full of suggestions of clothing and accessories of the desired warmth, but made to least affect the actions of the wearer.

CLOTHING

It's usually cold enough in Northern Ontario during November to warrant the wearing of the warmest of clothing. The most desirable of garments is, perhaps, the Mackinaw Jacket. It is just long enough to impart all the warmth necessary, and that's all. It's when you're scurrying from one place to another, leaping quickly from a canoe, or when you're hiking over rough territory, that you'll fully realize the true value of the Mackinaw. In such unmistakable colors as red, brown and heliotrope, are big, thick Mackinaw Coats, with dark overplaid checks. These are double-breasted, have yoke box pleats front and back, all-round belt and a shawl collar that can be rolled well up on the neck. Sizes 36 to 46, price 9.50

Heavy Grey Frieze Mackinaw, made double-breasted style, with belt all around waist and deep shawl collar. Have three flapped pockets, reinforced with leather. Sizes 36 to 46, price 7.75

Black Mackinaw Jackets, strongly sewn and have belt at waist. Sizes 36 to 44, Canvas or Brown Duck Jackets, lined with warm sheep pelts, single-breasted, with

storm collar of nutria. Fasten with clasps, have wool shield cuff in sleeves; pockets Extra Heavy Brown Duck Jackets of 36-inch length, have wind break in front, fas-

HUNTERS' OUTFIT

When you can put 38 pieces of cooking and serving utensils-enough for 4 people-in a receptacle, about 12 inches in depth and 10 inches in diameter, and the whole pack weighing only 93/4 lbs., it is convenience in every sense of the word. This outfit is made entirely of aluminum, and comprises the following pieces: -

Short Fleece-lined, Horsehide Gloves, made with welted continuous thumb and two-inch band top and cord fastener at wrist. Pair 1.50

BOOTS

Proper boots are just about as important to the pleasure of the trip as a reliable gun is to the success of it. For oftentimes the hunter, in pursuit of the animal, is forced to go through all sorts of rough, damp and swampy country, and in many cases has to even wade through streams, so that he needs a pair of boots that are waterproof and strong, yet light and flexible, for sometimes he must be fleet of foot. Finance Commissioner's Annual Report Ready for Board.

WAR EXPENDITURES

These Will Amount at Close of This Year to Five Millions.

The City of Toronto has a surplus of assets over all liabilities of \$18,-405,586, according to the annual statement of Thos. Bradshaw, commission er of finance. His statement will be presented to the board of control durng the next few days. This sum, nowever, excepting \$236,096 pertaining to current account, is purely proprietory, that is, it exists exclusively as the value, owned by the city, over and above offsetting habilities, in as-sets which have been acquired and are intended only for continuing usen It may be considered as having ariser chiefly from increase on realty values from the acquisition of permanent assets thru current revenue funds, and from the retirement of debentures is-

The year 1916, says the commis-sioner, was characterized by tempor ary borrowings of unusually large sums, due chiefly to the prosecution of works for which very little perma nent financing had been affected, and to the necessity to provide moneys i anticipation of revenues from taxes for of the year such borrowings amounted to no less than \$15,700,000, figure. which perhaps few can begin to realize as to what they actually involve. The heavy strain placed upon the credit of the city and the unsoundness and unwisdom of permitting such a condition to become possible must be abundantly evident to every citizen.

Due for Taxes.

Speaking of the revenue due the

Expenditures in connection with the war up to the close of 1916, including insurance, amounted to \$2,-500,015. By the end of this year it is estimated that this amount will have increased to \$5,000,000. The annual debt charges represents more than one mill on the dollar of the present assessment and forms part of

the yearly tax rate.

Next year, says Mr. Bradshaw, the rate of one mill will be increased.

GOOD PROGRESS ON STATION.

The Toronto Terminals Railway Co. are pressing contractors to push con-struction of the new Union Station or the Esplanade, and there is good prospect now of trains being able to enand depart therefrom in time for the National Exhibition, August next. The World was informed by an Ottawa public works official that the big east end of the new station, which is to be the largest postoffice building in Canada, might be occupied by July I next year. Letters when taken from the postoffices and mail boxes thru-out the city will be taken there for despatch and all the letters for Toronto will be sorted there for the letpapers and parcel post. All Canada Is Your Security

THE essential feature of any I investment is the security offered, that is, the ability of the borrower to repay the principal and to pay the interest promptly as it falls due.

The security behind Canada's Victory Loan consists of all the resources, developed and undeveloped and all the assets of all the people of Canada, supporting Canada's promise to pay.

Can you imagine any security more rock-ribbed in its soundness than the signed pledge of the Dominion of Canada, backed by all its boundless resources?

There is no security so secure; for in it are embraced all other securities. Every farm, every forest, mine, factory, bank, business, every conceivable kind of wealth that exists within the borders of this great Dominionall this is the security behind Canada's Victory Bonds.

Canada's Victory Bonds are the promise by the Dominion of Canada to pay a specified sum of principal money at a given date,

and to pay promptly the Interest every six months.

Canada's Victory Bonds are always as good, and at most times better, than cash. For this reason: if, for example, you put \$100 in a safe, at the end of fourteen years you would still have your \$100, but only that, and nothing more. But if you put a \$100 Canada Victory Bond in the safe, and then put the interest on the Bond in the Savings Bank, each six months, and let this interest accumulate, you will have at the end of fourteen years at least \$200.

And Canada's Victory Bonds are readily convertible into cash. You can sell them at any time. Any bank will lend you money upon their security.

Also their ownership is proof that you have responded to the call to Save, so that you might Serve in this the vital day of your country's need—that you have been willing to dedicate your savings to the noblest purpose to which money was ever appliedthe winning of Victory and the preservation of Freedom.

B. C. LIBERAL CANDIDATE

Special to The Toronto World.

The indications are that there will be two election contests in the three prairie provinces of the west—Manitoba, Saskatchewan and Alberta—hardly any outside the cities of these provinces. An arrangement has apparently been come to between the union government ministers and the two parties to divide as far as possible the constituencies of these provinces on a fifty-fifty basis, and in provinces on a fifty-fifty basis, and in that way avoid as many contests as possible. But these unopposed candidates far as possible the constituencies of these that way avoid as many contests as pos-sible. But these unopposed candidates will all be win-the-war men.

Following these lines the question of nost interest here is whether the exmple of the west will be followed in ntario and the contests be reduced to the smallest number, especially in those constituencies where there will be an overwhelming vote in favor of a unionis standard bearer. The talk in Toronto that of the nine seats making up the city and the three adjacent ridings in York there may be three or four go practically without contestation. Beginning Today and Continuing Throughout the Week We Shall Hold Our Winter Opening You Are Cordially Invited to Attend

We Are Pleased to Announce That We Have Secured for This Occasion a Very Beautiful Collection of Vogue, Fisk and Ufland Models, This Array Being Augmented by Charming Creations From Our Own Workrooms

As a foreword to your enjoyment of this yearly event, we may say that the new Winter Millinery contains many delightful surprises-all sorts of new conceits that will charm you at sight.

For instance: There's the use of soft beaver for crowns, facing or upper side of brim; there's the undoubted popularity of embroidery in metal thread; there's the introduction of fur and the stronger liking for ostrich as trimming.

> As for the models: The BUSTLE HAT is among the novelties that promise to take Milady's fancy. The POKE HAT is quaint and uncommonly becoming. The big SAILOR, with straight or turned-up brim, loses none of its popularity. The TURBAN is represented in most delightful fashion. Here are a few of the model that are typical of what is newest and best in winter millinery.

Taupe Panne Velvet Sailor by Fisk, a big, dressy model, the brim underfaced with turquoise blue panne, a band of sable round the crown, a beautiful corded drape of blue panne going from one side of crown to the other.

Bustle Hat of Black Panne Velvet by Ufland, the soft gathered brim rising high in the back, the only trimming being a band of silver braid and

Matron's Turban by Fisk, being soft and comfortable; a most fascinating mount of taupe ostrich furnishing the trimming.

MONDAY MORNING, OCT. 29.

Dark Hours.

When things look blackest they generally take a turn, is a proverb that is much thought of, and if it affords any consolation to anyone they may study it. It will be in great favor with the Germans at present, because two weeks ago German stock was going low on a falling market. The drive in the Gulf of Riga and the really clever and successful drive by General Mackensen on the Italian front will restore the waning spirits of the Germans to some extent, but let us assure ourselves at once that it will not give them victory.

It is impossible to say what General Cadorna will be able to do to stem the tide of affairs, but he is an experienced and skilful leader, and there is no need to be panic-stricken because things look black. All our pacifists, and anti-war people, and those who think porary borrowings was one of the results of these the Military Service Act unnecessary may well be panicstricken, for they have assisted in preparing the conditions that have led to the German success, and consequently to an indefinite prolongation of the war.

Sensible people, however, will only see another phase of the big job opening out. The United States has been preparing for three years of war, and there is no reason to suppose that it will go beyond that term. No one knows this better than Germany. It is to force a decision, if that could be possible, that the tremendous drives at Verdun were made at the climax of the German power, and the effort failed. It was to evade a decision after the Somme campaign that Hindenburg \$236,095.94. stole away to his new line behind St. Quentin, and still sits as tight as he can on the defensive.

There is another side to the matter. There would be poetic justice in having all our profiteers, our slackers, our pacifists, pro-Germans, and antis of various must not be overlooked that this surplus is not one of brands subjected to the same miseries that the Belgians cash, but of values. The position of the city is like that and the Serbs and other beleaguered peoples have had of a man who has a fine house and a steady revenue, to suffer, but that is no reason why the rest of us, who have toiled and saved and given our best, incidentally carry on his affairs and meet his current expenses. The to protect those unseeing ones, should undergo more city's finances at the present time are in a condition suffering than is necessary. If the darkest hour is that where it would be most imprudent to add further to before the dawn it is necessary to be up and doing to take advantage of the dawning. There is a very general feeling that the man has not yet risen who could of debentures sold during the past year. and should dominate all the activities of the allied powers against Germany. France and Britain are cerher to utilize all their reserves to repel the present blow of the enemy. The case of Russia is so obvious that it is scarcely necessary to mention it. Gigantic forces, which might have met and conquered Germany single-handed, have melted away like snow-wreaths in May. A great army has remained inactive at Salonica, fulfilling some useful purpose, we presume, but not upon the men who went to the front. The amount apparently forming a part of any active aggressive plan. It is beginning to be felt that as the navy retired too. soon from the attempt to force the Dardanelles when another 24 hours would have achieved success, so also the retirement from Gallipoli by the army was not the result of a dominant will and purpose in leadership.

In union is strength, and Germany has the tremendous advantage of this union. The result in northera Italy is potent. There will be very serious consideration of all these conditions in Britain and in the United States. As was found necessary in Great Britain to abandon loose governmental methods and adopt a small war council of the cabinet, so it will probably be found necessary to form a general war council for all the allies who intend to pursue the war to its logical conclusion, a council which will embody the war-wisdom of the allies, which will have a clear and definite policy of action as well as of principle, and which will have supreme control over all the forces of the alliance.

Theoretically, this unity of control is supposed to exist at present, but quite evidently it does not exist in the same way that it does in Germany. We shall hear The Times or some other agency thundering in this direction ere long. The burden of the war is too horrible, too oppressive, to be carried on by intelligent nations who learn of any way to lighten it or shorten the time during which it must be borne. There is no desire anywhere to yield to Germany. There is no flinching from the determination to destroy the Destroyer, to restore the violated nations to their own, to set up once more the landmarks of human freedom, honor, truth and justice. But the world cannot afford to carry on war to infinity. We must have the solidarity and cooperation which makes success in any great enterprise possible. We must have the selfless and dominant genius which can give unity of effort effect.

The City Balance Sheet.

For the first time in the history of Toronto a financial statement has been issued which shows exactly where the city stands. This new phase of city administration is due to the commissioner of finance, Mr. Thomas Bradshaw, who has prepared the annual statement for 1916 of assets and liabilities, of receipts and disbursements, so that there is no longer any mystery about the solvency or otherwise of the city. Incidentally, the fact emphasizes the opening of a new and businesslike attention to details, and the introduction of accuracy and system into the management of civic affairs.

There has been some delay in issuing the statement owing to the desire to have the several substatements "supported by full and verified details of each of the items contained therein." The extraordinary complexity of the accounts, and the disorder attending them, rendered this impracticable in some respects, but the investigations going on will be completed before long, and the statements for the current year will supply all missing data. The Herculean task assumed by Mr. Bradshaw is very inadequately indicated by this explanation, but it involves consideration of the extraordinary labors that have had to be under-

taken, covering practically all the bookkeeping of the city hall for a generation or more.

One of the first results attained was a realization of the outstanding revenue of the city, amounting almost to \$5,000,000. Heavy borrowings were entailed by this uncollected revenue, and the city paid much higher interest on its borrowings than it could collect Unless Government is Wholly from its debtors. The law in this respect has been changed, and the interest at six per cent., it is hoped, will hasten payments,

This necessity for borrowing by the city is the great obstruction to simple financing of the city's affairs. In 1916 matters had reached such a pass that at one period of the year the amount of the borrowings came to \$15,700,000. This imposed a strain on the city's Enough Money to Carry On credit which accounts for many of the difficulties of the last year or two and the delay in regard to sundry important public works.

The situation was due to a lack of counting the ultimate cost. Projects were initiated without proper estimates having been made, and as the work proceeded the charges rolled up. As a result, at the close of 1916 "works either completed, or in progress, not permanently financed, most of them inaugurated several years ago, involved approximately \$10,000,000." This amount has to be added to the funded debt of the city.

That the heavy liabilities did not daunt the commissioner of finance is apparent from the sale of securities reported, amounting to \$12,385,915. These were sold to such advantage that the average cost to the city was 5.08 per cent. The liquidation of the heavy temwell-managed transactions.

A statement of assets and liabilities, while not furnishing the details that had been anticipated, is highly satisfactory, and a complete statement of this description is promised. The permanent assets amounting to any sna \$99,822,235.22 will be inventoried for further state-

The balance sheet shows total assets of \$125,797,-542.69, with a surplus over liabilities of \$18,405,586.12. The current account at the close of the year showed cash balances of \$993,967.95 with other assets, amounting in all to upwards of \$6,000,000, the surplus being

City Financial Outlook.

In the report of the commissioner of finance, while a surplus of \$18,000,000 in the city assets is noted, it most of which is hypothecated, and who needs cash to its liabilities. Some ten or eleven million dollars have still to be provided for in addition to the \$12,385,915 provincial or federal house, gave ris-

Italy been doing splendidly but not with the united force have been consulted that only the most messery and has been doing splendidly, but not with the united force of unity with the other allies which would have enabled of liabilities.

It is owing to this state of the finances that the board of control has seen fit to restrict the payment of insurances to those who have joined the Canadian expeditionary force as volunteers from Toronto, and Declare among these, to those who were actually dependent already paid is over \$2,500,000, and this may soon be doubled. The payment of these insurances is being covered by the issue of ten-year debentures, and the annual charge on these issues comes to a mill on the dollar in the taxes, which, with the provincial tax of one mill, makes two mills on the dollar war taxes. Owing to the failure of the government to see that the Assessment Act is uniformly observed, Toronto is taxed on an average twice as much as other municipalities. so that Toronto is carrying a very heavy load independently of voluntary individual contributions to the various war funds.

It is not remarkable, then, that the commissioner of finance remarks in his report, that "there are war obligations which we have assumed, and others which we have been urged to assume, which, in my judgment, do not come within the scope of municipal enterprise, even when that scope is interpreted in the broadest sense."

Mr. Bradshaw does not take an optimistic view of the progress of the war, and the events of last week justify conclusions which have, no doubt, been recorded much earlier. As the outlook is "far from promising," he thinks "that the continuation of the present S. WELLINGTON LIBERALS policy of war expenditure only tends to lessen our influence and to weaken our ability to assume to the full the share of responsibility which it is expected we shall do thruout the course of the war."

He has in view the possible lessening of voluntary gifts to charitable war funds as an effect of the increase of civic obligations. These views of the commissioner of finance must receive serious attention from the city council if the city finances are to weather the storm in a satisfactory fashion.

This Tube

The insidious—the dangerous enemy of tires is under-inflation. The great cause of under-inflation is tubes that allow air to seep out through imperceptible flaws.

Defends Tires

Here lies the superior merit of Goodyear Tubes. They hold air, and hold it unfailingly. They keep the pressure up, support the casing in all its work and fortify it against shocks.

They help tires go farther and last longer, and they save many times their cost.

Their virtue lies in the Goodyear method of construction. They are tubes of good thickness, built up from many layers of paper-thin rubber. From these layers every flaw has been eliminated, as it cannot be from a single thick sheet of raw rubber.

For extra goodness we vulcanize the valve patch in, not stick it on.

It is easy to say "Goodyear" when you buy tubes. It is economical, too.

We especially recommend the Goodyear Heavy Tourist type for severe and sustained service. It is exceptionally stout and vigorous, a little higher-priced—and

Russian Artillery Breaks Up Some Good-Fellowship Meetings on East Front.

London, Oct. 28.-In the Gulf of Riga and in the region of the head of the Gulf of Finland the Germans for several days have remained quiescent, naking no endeavor to land further forces on the mainland, where they met with repulse twice last week. No large infantry actions have taken place along the Russian front. On the contrary, there has been a return to the fraternizing between the Russians and Germans which was no-ticeable some time ago on various sectors. Near Illoukst and in the region of Krevo such efforts have been noticed. In the former sector scores of Russians who had gone out to meet the enemy on a footing of friendship were dispersed by the fire of the

Upper Canada College easily won their Upper Canada College easily won their Little Big Four rugby game on Saturday from Trinity College School at Port Hope, score 30 to 15, and now look like prospective champions. The winners came thru unscathed and, the not over-confident, should defeat St. Andrew's on their own grounds next Saturday and thus win the honors.

The half-time score at Port Hope was 18 to 7. Upper Canada College went over for five touch-downs, none being converted. Todd dropped over one goal and they had two rouges. Trinity College School had two touch-downs, one being converted, a kick to the dead line, and a rouge.

Ridley's Three Field Goals Beat St. Andrews

Gartshore's three field goals won the Little Big Four game for Ridley College from St. Andrews in North Rosedale before a large gathering, in fine weather, on Saturday morning. It was a close contest thruout, the strong running of Gartshore and Hyde generally taking the ball out of danger. Teams:

Failed to Kick a Goal Colgate Lost to Brown

Providence, R.I., Oct. 27.—Brown defeated Colgate here today, 7 to 6. Brown got the jump on the Hamilton boys at the start, and a powerful line-bucking game, aided by a forward pass, gave them a touchdown early in the first period, Gordon kicked the goal. Colgate fought hard, but it was not until the third period that the eleven developed sufficient power to penetrate the Brown defence consistently. Gillo and Hubbell in this quarter took holes in the Brown line, and the tore holes in the Brown line, and the former scored the touchdown. Hubbell failed to kick the goal. American college

Guelph, Ont., Oct., 28.—The Guelph Collegiate Institute football team demonstrated beyond any doubt this afternoon that they are a stronger aggregation than the Brantford Collegiate, even tho the latter did hold them to a tie score at Brantford last Saturday. The score today was 20 to 1 in favor of Guelph Collegiate, and the score just about indicates the relative strength of the teams and the play in today's game. The half-time score was 16 to 0. Teams:

Guelph (20)—Flying wing, Sleeman; right half, Susan; centre half, Carroll (captain); left half, Smith; quarter, Purcell; outside wings, Cockburn, Heyes; middle wings, Duckland, McNelly.

London, Oct. 27.—Today's results in the Scottish League provided a number of surprises. Kilmarnock scored a big win over Dumbarton by 4 to 1 before their own supporters and remain at the top of the table, while Partick Thistle jump into fourth position by beating Hamilton Academicals by five clear goals. The great Cetic team had an easy task against the famous amateurs, Queen's Park, the former club gaining the verdict by 3 to 0. The big surprise of the day was the newcomers, Clydebank, who just beat Third Lanark by the only goal scored away from home. Ayr United got away from last place in the table by sharing the points with Hibernians, 2 to 2. Results:

What May Happen in The Baseball World

Whether or not Ed. Barrow will be head of the new major league is up to the National Commission that will meet shortly, and seeing the hand writing on many walls must readjust several territories. Railway fares have cut down the profit of many a club, notably in the American Association, and that's why four of this A.A. circuit are willing to shift for themselves and let the other four get into Ed. Barrow's new league with a quartet of Internationals.

Barrow also saw the way the cat would jump and resigned as presdient. Those who ought to know declare that the International, will be broken up in 1918 whatever happens the different clubs. Montreal, for instance, will ask for compensation, another incidental up to the commission. With the war still going on no one can just tell what is going to happen in Buffalo.

Some city will sure be invited to take Washington's place in the American League, and at this writing Toronto looks first choice.

Ottawa, Oct. 28.—In the second game of the City Patriotic Football League, played at Lansdowne Park Saturday afternoon, the Civil Service team turned the tables on the Rough R'ders, winning by 8 to 5. This placed the local rivals on equal terms, and they will play off next Saturday for the championship. Weather conditions were good, and the teams played brilliant footban at times. Lieut. Tubman, just back from France, with a bandage around his left hand, from which two fingers were shot by a German bullet, was conspicuous. He dribbled the ball across the Rough Riders on one occasion, loutsprinted his field, and fell on the pirskin; it then bourded away from him, and Boucher prevented what appeared a sure try by falling on it for a rouge. Gerard and Boucher were the stellar performers of the game. PATRIOTIC GAME AT OTTAWA.

President Clayback, in his address, stated that, while many of the hockey players would be unable to take part in the game this winter, owing to their duties with various branches of the army and navy service, the formation of a national hockey organization would be a boom for the game, and that the play would be both interesting and high-class, despite the handicap the sport would bear during the period of the war.

The bishop of Kcotenay, speaking in St. Albar's Sunday morning and St. Simon's Sunday morning and St. Simon's Sunday morning and St. Simon's Sunday evening, made a strong appeal for the work of the church in braid, was face to face with two heavy problems. One was the lack of mendue to the enormous number who had responded to the call of duty. This threw the work of keeping up the homes and churches on those who were left, the old and the women, and in many cases they were barely able to make ends meet.

The other was the oriental problem, one which no easterner could possibly understand. As the white men left for the front their places had been taken by the Japanese or the Chinese, and now, as never before, the western province of Canada was facing th yelkow peril.

The bishop of Edmonton gave stirring addresses to large congregations on the need of volunteers for missionary work in the northwest, and also upon the need of an Anglican residence at Alberta University, which would become the contregation of All Saints' Church in the morning, and spoke at St. Cleinent's, Jones avenue, in the evening.

Interesting Comparison of Cost and Convenience of Methods of Marketing Pigs.

When a certain large hog feeder in

Indiana was ready to market a herd of his spring pigs he used to round up his neighbors at nightfall and spend a whole night driving the hogs eight miles to the railroad to be loaded for shipment. He expected to lose three or four fat hogs out of every carload and all the animals would shrink from five to seven pounds a plowing. head during the drve. His loss by this system of marketing varied all the way from \$50 to \$150. valked inside the gate at the pro-vincial plowing match. "We have a very interesting proposition to the vincial plowing match. "We have a very interesting proposition to the proprietors of farms. You are a proprietor, are you not?" This was sufficiently evident without the courteous reply of the farmer to the man, whom he had never seen before (and hopes never to see again) to the effect that he had a son who was already old enough to help him on the farm. "Weil, sir, we have a very attractive proposition to make to you. We will give you a special course at the Ontario Agricultural College and will also mail you regucourse at the Ontario Agricultural College and will also mail you regularly the bulletins of the government experimental farms. You, of course, are interested in livestock and will find these government pamphlets most valuable. What is your name?" While the canvasser is talking he is getting out a pad of blank forms and pencil and quickly writes the name and address of the honest farmer whom he has accusted honest farmer whom he has accusted and tears off one of the blanks.

HEAVY CORN SALES PUT DOWN PRICES

Oats Also Make Fractional Decline in Chicago

Chicago, Oct. 28.—Prospects of larger receipts from the new crop led to heavy selling of corn yesterday, and made prices average lower. The market closed unsettled at the same as yesterday's finish, to 3/c down, with December at \$1.15½ to \$1.18½, and May at \$1.12½. Oats declined ½c to %c. The result in provisions varied from 2½c drop to a rise of 60c.

Some of the largest houses on the exchange took a conspicuous part in selling

Some of the largest houses of the exchange took a conspicuous part in selling
drives that at times forced sharp breaks
in the corn market.
Railway embargoes nampering shipments to the seaboard depressed the oats
market and so, too, did the downward
tendency of corn.

Provisions advanced, owing to continued
scarcity of, hog arrivals. In the last
hour, the realizing sales by holders wiped
out mest of the gains.

BUYERS BOOST POTATO PRICE.

Brockville, Oct. 28.—Buyers boosted the price of potatoes on the Brockville market Saturday, picking up wagonload lots, to the exclusion of householders. Quotations jumped from 60c to \$1.50 per bushel, and the yield in the section which supplies Brockville was never greater.

Thursdays and Fridays, and so help to avoid a possible power shortage for munition plants and other essential industries. You have been urged lately to economize in the use of many thingsperhaps you are sometimes tempted to remark with impatience that little urging to economy is necessary the way the price of everything has gone up. But that is not the case with Hydro. The price has gone

down-not up-since the war, in accordance with the Hydro policy of supply at cost. This, with the advanced price of other illuminants and sources of power (together with the manufacture of munitions and other war supplies) has resulted in a largely increased demand for Hydro.

Had the Hydro System been operated for private profit this increased demand might have been met by advancing prices and imposing more

exacting conditions on customers. The Hydro has, however, always endeavored to keep down costs, and supply the requirements of the public.

The Hydro is supplying a very large amount of power for munition factories and other war supplies, as well as essential industries, and more will be required. These demands must be

met at all costs. At present we are advised that there appears to be a sufficient supply of power for use in the daylight hours and in the evening after the day load goes off. It is in the early darkness that economy is necessary, when the lighting demands tend to come on before the power load in factories

If you cannot always reduce your demand during the hours mentioned, do so to as great an extent and on as many days as possible. Every economy, however small, will help to achieve the result aimed at. If each of the 50,000 Hydro customers in Toronto uses even one or two lights less during these hours it will mean a greater reduction than though the whole of the street lights in Toronto were turned off.

By Co-operation You Have Made the Hydro a Success. Co-operation Cannot Fail. Will You Co-operate Now?

STANDARD STOCK EXCHANGE. TORONTO STOCKS. Buoyant, Tho Silver Fails to Continue Advance.

A cheerful tone prevailed at Saturday's session of the Standard Exchange, and, while silver remained charge, went thru its daily performance of establishing a new low level. The most noticeable display of arrangth was in Timiskaming, which after a quiet opening at 27 3-4, advanced to 29 on confident buying, recording a gain of a point for the day. The movement may have seen due to covering by shorts or to growth of optimism regarding the new report on ore reserves expected about the end of the year. Nipissing at 8-40. La Rose at 42 and McKinley a 62, showed steady support. Adanac lost half a point on profit-taking, and Chambers-ferland was also elightly easer.

An advance in Moneta to 9 1-2, a gain of 3-4, and a steady demand for Molhtyre, Newray and Hollinger featured the gold group. Traffing in Moneta was quite brisk, 7-60 shares changing hands. Good news is said to have come from the north regarding this property, but the exact nature of it is undisclosed. Acintyre held well around \$1.39, and Holly at 19-10 to 11 1-2. West Dome as a trifle reactionary at \$7.90, and Thompson-Krist, on realising sales, went back haif a point to 11 1-2. West Dome at 17, was unchanged.

WHOLESALE FRUIT AND VEGETABLES

Receipts were fairly heavy but trade was very dult on most offerings at generally lower prices on the wholesaic fruit market Saturday.

Peaches—Peaches were shipped in quite freely, but were of exceptionally low grade, and as there was practically no dentand for them they declined in price, selling at 15c to 20c per six-quart flat basket, 20c to 40c per six-quart leno, 25c to 35c per 11-quart flats, and 35c to 50c per 11-quart leno, with a very few better ones bringing 60c.

Pears—Keiffer pears sold at 20c per six-quart basket, 40c to 50c per 11-quart leno, with some better quality bringing 65c per 11-quart leno sold at \$1.25 per 11-quart leno, with some better quality bringing 65c per 11-quart leno sold at \$1.25 per 11-quart leno sold at \$1.25 per 11-quart leno at 40c to 45c, and 11-quart lenos at 40c to 45c, and 11-quart lenos at 50c to 60c.

Grapes—Grapes continued to bring higher pricas—the six-quart lats selling at 35c to 40c, six-quart lenos at 40c to 45c, and 11-quart leno basket of really choice ones bringing \$1.25.

Corn—Corn is still being shipped in, but it has absolutely no flavor, and certainly was not worth the price obtained for it, namely, 20c per dozen.

Tematoes—Tomatoes were quite scarce, the six-quart basket of ripe ones selling at 25c to 30c.
