Can is n Get a Commission for Selling to Himself? Asks Judge

When Property Came Into Hands of Trust Company Members of Syndicate Ceased to Be Personally Liable Definition of the Words "Rake Off."

WAS DEAL NOTORIOUS? TURY LEFT TO DECIDE

CHARGES JUDGE WITH UNFAIRNESS

"Finally, I make the general charge that your lordship's summing up was unfair to the You pointed out everything against him, and where you pointed out anything in his favor, you followed up with something which tended to destroy its effect."-

DRIFT OF JUDGE'S SUMMARY.

His lordship instructed the july that remarks concerning such matters were not always libelous. People were entitled to freedom of speech and to comment freely on matters of public interest. There was likely to be little purity in politics if that were not so. The royal commission report was undergoing a wide discussion. It was a matter of importance and a matter which the public had a right to discuss, and make fair and proper comment thereon. There was the cons. and make fair and proper comment thereon. There was the added fact that Mr. Macdonald and been challenged by Mr. Forker in strong innguage to discuss that very subject. Having accused Mr. Macdonald of being a flar, he could not expect to be handled with kid gloves. A man so charged was entitled to defend himself, so long as he kept malice in the background.

and in which many distinguished men have taken part, either as principals, witnesses or counsel, went to the fury at 3.40 Saturday afternoon. Justice Magee's summary was on the whole rather in favor of the defendant, Mr. Macdonald. At the conclusion of the judge's summing up, which lasted from

Montague's Privilege.

Mr. Montague was given the privilege of selling this land and repaying the money from time to time. This resolution was passed by a meeting at which the borrower himself presided. It was to be noticed that Mr. Montague's name alone appears all thru this transaction, which was entered in the books as "the Montague loan." Dr. Montague then purchased 44,267 acres, and the money was provided by the LO.F., and paid out to him direct, without the intervention of Mr. Foster or his company.

Mr. Foster at that time had no connection with the transaction good, bad or indifferent, Dr. Montague paid out \$107,000 for land before the end of June, 1902, and had applied to borrow on 100,000 acres of land which he had not yet purchaser,

In the summer of 1902, after \$107,000 had been invested, Dr. Oronhyatekha offered Foster an interest in the transaction, not only in the 60,000 acres still to be purchased under the resolution, but in the 40,000 acres already purchased. It was for the jury to say whether they had an object in getting Mr. Foster of the Union Trust Co, in the deal with them, or only took him in as a favor.

The syndicate then had four members, and they went into other deals, purchasing Carrot River. Battle River, and Swan River blocks, bringing the total acreage up to about 110,000. It

total acreage up to about 10,000. It was necessary to remember that while the resolution stipulated that the loan was made on the basis of \$4 per acre. \$4.90 was actually paid for the Eattle River lands, \$5 for the Carrot River lands, and \$5.25 for the Swan River lends.

Well. Mr. Foster is authorized by, the syndicate to buy lands. He had met as man named Pritchard, who offered the Swan River block at \$7 per acre, but Mr. Foster had finally purchased it at \$5.25 with the understanding that 25 cents per acre would be turned bock to the syndicate. The offer was accepted and he addressing Whitla of Continued on Page 12

Citizens' Court of Last'Resort

Another of James Gunn's jokes has been published. It is by way of being a general order to street railway employes, but is incidentally directed at the

"If you have any improper treatment to report, do it now," says Mr. Gunn. "Don't waste your time complaining at the city hall, or writing to the newspapers. Go to the Head Office."

The Head Office is the greatest thing in Toronto, according to Mr. Gunn.

"All you have to do is to make your report there. You will find you are dealing with reasonable people, whose sincere desire is to do what is fair by the public." There will be crowds at the Head Office this week, not to make complaints, but just to see those

Mr. Gunn illustrates. Suppose you have a dispute about a red ticket. The explanation is that your watch is wreng. All you have to do is to walk down to the Head Office and they will prove it to you. This will convince you that you have done the poor conductor

Suppose you present a transfer ten minutes late, and the conductor won't believe that you have been waiting 15 or 20 minutes for a car, your duty is to go down to the Head Office and hear the appropriate bluff for the occasion. The conductor "knows nothing about the blockade," says Mr. Gunn, altho it was his own car that was late and blocked.

"Your proper course is to put in a blue or a vellow ticket." Mr. Gunn is quite reasonable. He does not ask for five cents. A blue or yellow ticket will do. But be sure and go down to the Head Office and

North York Convention

have them put it over you.

Millions Involved in Laidlaw Action — Amended Statement of Claim Has Been Filed.

station and hotel-or for additional yardage? That is the imminent question. There are those whose theories as, despite the educational campaign go either way. If the viaduct is built for tubes, the possibilities of subterthe present yard of the C. P. R. at the foot of York-street will be destroyed, and additional yardage will have to be secured elsewhere. That is one factor; the passenger station is the other.

Then the extensive numericase of tend 20 years at present rate. tor; the passenger station is the other.

Then the extensive purchases of land at North Toronto by the same company construite another element. If local freight is loaded and delivered from that neight a certain amount another notable event of the west.

from that point, a certain amount another notable event of the week. of congestion on the Espianade will be Most citizens will stand behind Mr. of congestion on the Espianade will be relieved. For passenger facilities, however, this railway admits that only thru traffic would be attracted there and the Hamilton, Buffalo, New York and Western Ontario business would fall off considerably, and the eastern business might be cut in half.

New Industrial Belt

Most citizens will stend behind Mr. Harris in the opinion that the provincial minister of agriculture has better devote his time to the interests of the man with the hoe and not dictate to Toronto what it should do with the Metropolitan Railway's application for an entrance on a franchise extending New Industrial Belt.

The Grand Trunk have yet the Belt charter. tribution. Any day the word might come from Montreal to get the roadbed in shape for traffic, and before long a new industrial constituency

spite speculations to the contrary, is to promote safety factors to guard Will Take Special Car For Rest against possible contingencies.

JOINING THE POLICE.

Applications are coming daily to Deputy Chief of Police Stark from those anxious to be among the chosen sixty to fill the vacancies upon the force. Many of these are from farmers' sons

the department.

The regulations call for men between 20 and 30 years of age and over 5 feet 10 inches in their stockings. The salary offered is \$700 for the first year, \$800 for the next four years and \$300 thereafter. There is also the prospect of the raising of the scale within the next year or so, as the matter has already been strongly agitated. The pension

City Hall Authorities Want to Muzzle Minister of

Agriculture—The Events of the

After March 1 the business address of Joseph Thompson, commissioner of industries and publicity, will not be the city hall.

Mr. Thompson is firm on the point, altho, by the way, it did not require a will of chilled steel to resist the pressure of the board of contror. There were no cajolings, ho blandishments, no pleadings with tears in eyes that he stay on the job.

The commissioner's feelings were probably somewhat akin to those of the bibulous hero of one of William Jennings Bryan's favorite stories, who, after having been forcibly ejected half a dozen times from a ballroom; remarked knowingly. "They can't fool me; they don't want me in there."

Why the Hostility?

It would not be fair to charge that "You are just as much entitled to the board was antagonistic to Mr. "You are just as much entitled to Thompson. The resentment was write fiction as I am," said a prominagainst the city council for having reproved the board for accepting his resignation. This hostility prompted the the company in making large pur- curt note from the mayor, apprixing the commissioner of what the council had done nine days after council ha From the present indications it is read about it in the papers during the

central prison. In the latter case the company offered the government \$150,000 for the property five years ago.

C.P.R. Was Dissatisfied.

Anyone who is familiar with the inner working of the Union Station in Toronto will know that the C. P. R. has never been satisfied with its bargain with the Grand Trunk. Not only in the station badly designed, but the Grand Trunk has always held the whip transportation questions when the sur-face rallway franchise is taken over. hand and frequent arbitrations have taken place to define the right of the junior rpad. This does not apply to radial bill afar off and with having

an entrance on a franchise extending beyond the life of the street railway

After Strenuous Work With Naval Bill.

MONTREAL, Feb. 26 .- (Special.)-Sir Wilfrid Laurier has decided to give up the house of commons for a

The Dominion Rugby championships were formally handed over Saturday to the three winners. Each club got the championship badge, while Varsity, the winners of the senior, got red plush caps, with gold braid, and Dundas, the internediate winners, received blue caps, with silver braid. St. Michaels were the junior champions

Not so many hockey leagues all season have been tied up on the result of one night's play as there were on Friday night. London and Goderich, in the intermediate O. H. A. finals, evened up on the round and will play off at Stratford Monday night, while Preston ifved up to their record as a good team by holding Barrie to their two-goal lead and tieing on the round. The teams will break their deadlock here Tuesday night at Mutual-street, so the local fans will have a chance to figure out the dope for the finals. In the Intercollegiate a three-cornered tie has resulted between Varsity, Queens and McGill, thanks to McGill beating: Varsity Friday night. Nothing definite has been arranged about the play off, altho Queens offers a suggestion in naming Varsity and McGill for a sudden-death game at Kingston, the winners to meet Queens at Ottawa. The fourth tie-up on Friday night was in district No. 1 of the Northern League, when Wingham won from Harriston, thus tieing them with Mount Forest for district honors.

The home-and-home games between the results at Jacksonville on Saturday:

JACKSONVILLE, Fia., Feb. 26.—The following are the results at Jacksonville on Saturday:

FIRST RACE—Two-year-olds, 4 furlings:

1. Master John, 119 (Troxier), 14 to 3, and out.

2. James Mc, 117 (Hannan), 15 to 1, 9 to 2, and 1 to 2.

3. Ellanette, 107 (Mountain), 6 to 1, 9 to 2, and 1 to 2.

3. Ellanette, 107 (Mountain), 6 to 1, 9 to 2, and 1 to 2. The Sumple of th

President Louis Rubenstein of the Eastern Bowling Association was in the city Saturday and had a long talk with President Frank Johnston of the C. B. A. about forming an interprovincial bowling league, dividing the east and west bowlers into two districts, the winners to play off for the championship. Mr. Rubenstein would have Montreal, Ottawa and Quebec, which now comprise the Eastern Bowling Association, in one group, and London, Hamilton and Toronto in the other group. With the forming of this new league, it would do away with the eastern organization, who, by the way, are still playing that old game, of six men a side, with the bowlers rolling in shifts, for the three strings, not as teams, as they do here and all over. All the teams would join the C. B. A., which is, by the way, slowly but surely becoming a large body.

All Pulka, III (Davenport), 5 to 1, 8 to 5 and 1 to 2.

2. Fulfill, 108 (Musgrave), 7 to 1, 2 to 1, 2 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 2, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 2 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 2 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 2 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 2 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to 1, 2 to 1, 4 to 5.

3. Martinez, 107 (S. Davis), 25 to 1, 6 to

Mr. Rubenstein stated that the M. A. A. of Montreal would send at least three teams to the coming C. B. A. tournament. Entries for this tournament are scheduled to close on Monday and, when they are all in, Buffalo will likely have the largest outside representation with fifteen teams. Their date will be march 12. Toronto will have at least twenty teams, with five from the Royal Canadians and four twent the Athenaeums alone. The C.B. from the Athenaeums alone. The C.B. A. are sending President Frank Johnston to Det oit this week to boost the Canadian tournament, and there is no doubt but Frank will corral in a large

The Tecumseh Amateur Athietic Association are holding the opening of their new club rooms at 87 West Kingstreet on Tuesday evening. This association, now in its infancy, promises to bloom out into a powerful organization, which is bound to be heard from in the athletic world.

So much friction has developed since the adoption of the extended 154-game schedule by the National League that there is some doubt whether the world's series will be played next fall. President Ban Johnson of the American League, who appears to be wrought up by the present state of affairs, says he may call the series off. Johnson has expressed bimself in this manner. the champions of the two big and 3 to 1. leagues will not be able to start the world's series until Oct. 17. The weather at that time is not conducive to good ball playing, and it will take a nighty strong attraction to draw the olg crowds that have attended these

games in recent years.
"When the representatives of the two
leagues outlined tentative schedules in
Pittsburg last month, it was mutually agreed, and papers were signed show agreed, and papers were satisfactory. It would have been impossible to frame better schedules. ...essrs. ...ynch, Ebbets and Dreyfuss, the National League committee, signed the agreement to the effect that if the 154-game schedule in the effect that if the 154-game schedule is the schedule or schedule in the schedule or schedule in the schedule or schedule in the schedule or s adopted by their organization it

would not be altered.

But it is apparent that the National Bleague went back on its committee and is practically guilty of a breach of good faith. As it is, I may say it is extremely unfair to ask the champions of the American League to loaf the days after the conclusion of our schedule on Oct. 3, before meeting the National League pennant winners for the big honors. I don't intend to take any action until I nave learned the any action until I nave learned the sentiment of the baseball public, but under the circumstances I would feel institled in declaring the world's series off without further delay."

At Milwaukee—An agreement was reached to-day between Jimmy Clabby of Milwaukee and Jimmy Gardner of Boston for ten-round no-decision boxing bout in Milwaukee before the Badger Athletic Club on March II. The contest is to be, at

Big Time at Parkdale Alleys. The big event of the year will be pulled off at the Parkdale alleys on Monday. Feb. 28, when the single and married men will battle for the oyster supper. Great will battle for the oyster supper. Great interest is being taken, and the manage

Sporting Notes. At Detroit, Mich., when fourteen local five-men teams met at the Wayne Gar-dens last night, what is said to be the greatest bowling tournament ever scheiled was opened under the auspices of

the American Bowling Congress. I the first ball was rolled Governor M. Warner extended the hospitality of the state to the bowlers, and Mayor Breitmeyer performed a similar office in behalf of the city. Entered in the various events of the tournament, which extends until March 15, are more than 400 five-men teams from many states, and hundreds of two-men teams and individual contestants. Prize money totaling \$25,000 s offered.

That it is by no means certain yet that the Jeffries-Johnson fight will be staged in or around San Francisco became known Friday night, when it was learned that negotiations are about to be reopened with Salt Lake City with a view of ascertaining if the big battle could not be held there. That the promoters of the fight have not met with the reception in San Francisco they had hoped for, and that they are not entirely agreed as to the Francisco they had hoped for, and that they are not entirely agreed as to the course to pursue, has become apparent, and finds vent in various rumors of another split between Tex. Rickard and Jack Gleason, and intimations that extortionate demands are made for a place for an arena. Friday night it was said that Rickard, becoming dissatisfied, had represed negotiations with Sait Lake City. an arena. Friday night it was said that Rickard, becoming disastisfied, had reopened negotiations with Salt Lake City. Rickard denied this, notwithstanding it was learned that representatives from Sait Lake City would be there in a day for two, among them J. Langford, manager of the Saltair Pavillon who is second. ager of the Saltair Pavilion, who is go-They ing in response to a telegram from Rick-

While not denying that matters were would make a statement.

Charity Curlers Play Saturday On Sticky Ice

On sticky ice, the second day's play in the charity bonspiel was played Saturday take a great interest in skating and afternoon at the various rinks, and after racing, ran off a series of races for the Saturday night only four rinks will be boys of the institute Saturday afterleft. These will meet Monday night at noon, the results being as follows: the Queen City Club, when they will play the semi-finals and finals. The following were the scores Satur-

cigar so "full of quality" to sell at such a price.

GAMBLERS GOT ABSTEIN'S GOAT

Bill Abstein at Pittsburg is told by The Cleveland Leader, which says it was due to the continued prosecu- after the baseman. And when

ordered from Forbes Field by Umpire Well, they got the nerve Klem in that memorable series be-the early months of the year. You retween the Pirates and the Cubs, the the early months of the year. You remember when he was cheered as one thousands of Pittsburg fans arose in of the finds of the year. He was hertheir seats and cheered—the ump.

The club manager restrained his anger and stilled his tongue until he reached the stand back of first base.

Then he yelled two words. They were:

"Crap shooters."

Then the gamblers got after him.

"Crap shooters."

And thereby hangs a tale.

Manager Fred Clarke says he will
win another pennant with his pirates.
And he says he will win because he
has found a successor to Bill Abstein in either Sharpe or Flynn.

So passes Bill Abstein. Why? Manager Chance told the story when he
howled "crap shooters." "Crap shooters."

ager Chance told the story when he howled "crap shooters."

Baseball players will tell you that first base in Pittsburg is the most difficult postion in baseball to play. Not because of the location of the diamond. Not at all. But because of the fellows that congregate back of

PERMANENT FORCE

Government Forest Reservation.

Last year the provincial government set apart a large tract of land in Rainy River district, including Hunter's Island, as a forest reserve and come process. and game preserve. An application is now being made to the government to have a permanent staff of fire rangers appointed, as the most valuable pine area remaining in the province. The intention is to send these men out in the dual capacity of fire rangers and game wardens to prevent encroachments by wandering sportsmen from Minnesota. It is likely the government will acquiesce in the arrange-

BIG REAL ESTATE DEALS

Yonge Street Prices Are Still Going Up.

Following the tendency of the last two years, Yonge-street real estate continues to appreciate in value. The upward movement has been particularly noticeable from Wilton-avenue north. The World has repeatedly pointed out that this district is going thru a transition. As the present leases expire the properties change hands hand large firms with ample financial backing establish themselves for terms of ten

establish themselves for terms of ten and twenty years.
Yesterday the northeast corner of Yonge and Ann-streets, having a frontage on the former street of 40 feet 6 inches, was sold to the Burgess-Powell Company for \$75,000. The present lease has three years to run, but on its expiration Burgess. Powell & Co. propose to erect a large office building on the site.

The property owned by Dr. Barrett, it 390 and 290 1-2 Yonge-street (25 x 110 feet), has been sold for \$35,000 to a private buyer. The deal was put thruy Ropins Limited.

Discussing Yonge-street real estate

such a price.

In Property of the world, Frederick B. Robins said: "We are not sellers of Yongestreet property. All properties we have secured we are holding. As the present leases expire the different properties will be improved, new buildings are creded or the old ones remodelled. With one excention—and that a sale—we are one exception—and that a sale—we are iding on to our investments because we have confidence in the future of Toronto."

They are gamblers. And when their tion of the gamblers who infest the bleachers back of first base. The story follows:

after the baseman. And when their money is on the Pirates and the first baseman errs they get after him. For being gamblers, they have no forbearance. They want Pittsburg to win, so

of the season he was referred to as a bonehead. But it wasn't discovered until the gamblers got his nerve.

It didn't require Hugh Jennings
long to make the discovery and Abstein was played as the weak individ-

Then the gamblers got after him.

Day after day they plugged at him.

And finally they got the nerve of the first baseman. Toward the latter part

Said There Would Be Carnival of

Bloodshed If One Man is

Shot by Police. PHILADELPHIA, Feb. 26.—(Special to The Sunday World).—The feature of the eighth day of the Philadelphia Street Railway strike was the arrest and arraignment of John J. Murphy, president of the Central Labor Union, on a charge of inciting to riot thru a newspaper interview. He was taken into rustody in the early hours of the morning, and after a brief hearing at the city hall, police station at 11 a.m., was released in \$3000 ball which was

Conditions were very quiet thruou the city up to noon, nothing beyond the scattered stoning of cars being reported from anywhere. The transit company say it is operating more cars on all lines. Strike leaders report the situation as satisfactory to them.

DELIGHTS OF WINTER

Saturday Was Taking advantage of what will probably be the last Saturday of real good wintry weather the kind that whets the appetite and makes the blood tingle and pulsate thru the veins-crowds

of Toronto people flocked in thousands the skating rinks and toboggan slides on Saturday, both afternoon and night. Away out in the country too, snow-shoeing parties tramped along. "far from the maddening crowd," the general buoyancy and refreshing qualities of the srisp, clear atmosphere brought pangs of regret that winter with all its fun and wholesome outdoor pleasures will soon be gone. many years has there been such a remarkably good winter as the present.
The steady sameness of the weather,
with the thermometere hovering all the time in the neighborhood of zero mark, has been ideal for every

form of winter sports. Hockey, skeing, snow-shoeing, tobogganing, skating, curling, ice-boating—all have been patronized to the full.

Out at the Riverdale slides on Saturday it was estimated that 1500 people were tobogganing, while an additional 2500 were skating on the rinks adjoining the slides. "I have never seen such

mendous. Superintendent Lightfoot has already planned to provide extra accommodation for next season, and At present there are four toboggan slides on the Grenadier hill, and two new arrangements will be enforced. slides reserved for bob-sleighs. Ne year the bobs will all be transferred to the deer-pen road where there is a run of 875 yards from the top of the hill. On Saturday it might be mentioned inthe bobs were going the cidentally, cidentally, the boos were arrived in the course. The new arrangements for next season will leave the entire Grenadier hill for the toboggans and six slides will be in oper-

Good Lenten Resolutions. It is very noticeable the number of men about town who have sworn off all intoxicating beverables for this Lenten season, and to fill the natural wish for an invigorator felt by these gentlemen, nothing is better tha clear, sparkling radnor water, fresh from the springs in the foothills of the grand Laurentian Mountains, Order a supply of radnor and you will not feel keenly the wish for your usual "noggin" of Scotch or rye.

Fined Hundred and Costs. Allan Readman of Aurora, who was convicted on Feb. 8 by Magistrates Walton and Love on the charge of obstructing officers when searching houses under the Liquor License Act houses under the Liquor License Act and fined \$100 and costs on three months' hard labor, was pardoned yesterday by Lieut-Governor Gibson. Application was made by his counsel, C. E. Planton, under the habeas corpus and the case was heard before Chief Justice Meredith, who refused to act, but recommended clemency in his case.

Stories About Twirler Dummy Taylor

his playing days in minor league com-

The vocabulary Taylor used consist-ed of two words of two syllables each, "ma-ma" and "pa-pa." And when he uttered these it sounded much as the coming from a talking doll. His circle of friends was limited, but those who were chosen by him found

those whose friendship "Dummy" didn't care to cultivate. When a new

electric light switch. The conversation before. He'd limp around as the ended as soon as the room was thrown crippled for life.

never liked to see him walk to the coaching box. His ceaseless "ma-ma" and "pa-pa" would get on the nerves of pitchers and infielders and they knw it would be of no use to talk back to Toylor.

He was equally aggravating for the umpires. He gave Hank O'Day many arguments, using his hands rapidly. Hank realized that something was beins said to him, and became curious players go.

Luther Taylor, deaf and dumb, the to know just what it was. That caus man who at one time owned the best ed Hank to learn the language of the drop ball delivered across the plate by fingers. After he mastered it he any pitcher, will probably never be rendered a decision against Taylor one replaced in baseball.

Pitied and admired was Taylor. He cast his lot with the New York Giants for 10 years, but last year he dropped out of the ranks of the majors to end language. This is what Mr. O'Day language. This is made his fingers say:

-p-a-y \$-2-5."
Taylor didn't care to talk back to Not being able to use the sign lan-guage against O'Day, Taylor got to figuring on other schemes to get ever with the umpire.

One afternoon the Giants were play-O'Day ruled that they should play. Taylor went to the clubhouse and bor-

sented with a card you could feel took Harry Tuthill, who was then certain that Taylor had enrolled you trainer of the Giants, to a deaf-mute Before he began pitching he taught two deaf-mutes seated by themselves The Detroit program is an interest-chool. Later he married a woman in one corner of the hall. They were ing one, and includes five-man team, who, like himself, could neither hear holding out their coats and making two-man team and individual contests, nor talk. A brother of the player is signs behind the improvised tapestry, which will be held in Wayne Garden, also a deaf-mute, and during the win- Tuthill asked Taylor what the pair was where 14 new alleys have been laid ter months the entire family conducts up to. Taylor stepped behind the men, for the tournament proper and six aja store in Baldwin, Kas., the brother studied their signals for a minute, then he began laughing. ent New York bowler, conceived the idea of uniting all the bowling clubs in New York under the head of one organization, and called a meeting of the leading figures in bowling affairs of the city. This resulted in the organization of the United Bowling Clubs of the East Side, which was ed Bowling Clubs of New York. A number of tournaments were held to that country.

Bowling Journal.

ers' interests with the establisment of The Gus Holz, a journal devoted entirely to bowling sport, in New York.

This was published in German. But without cost, send your two year slater the publication was changed to an English one, called The lanta, Ga. U.S.A., and he will send changed to an English one, called The Bowlers' Journal, its present name. This is the official organ of the United Bowlers Club of New York and has been responsible for a number of the claims for it as a remedy for castasty.

reforms made in the game.

The American Bowling Congress, which is holding the Detroit tournament, owes its existence to The Bowlers' Journal. This important step began in 1895, when a meeting of the representative bowlers thruout the country was called in New York, and the try was called in New York, and the congress was organized. It was at this meeting that the playing rules vere changed.

ere changed. The congress held annual meetings in Baltimore, but it was not until 1901 that the tournaments began, the first

History of Bowling From Its In- tournament being held in January of that year in Chicago.

ception in America — What

Caused Revival.

But to return to the United Bowlers' Club of New York, which was really responsible for these reforms. It was in July, 1900, that a great lift ternational tournament was held in Union Hill, N.J., under the auspices of the cause of the this organization. Bowlers from all over the world gathered at this meet, liard halls quickly recognized the enor-mous financial possibilities of this scheme. With the establishment of these alleys, bowling became more popular than ever, until now it is regarded as the "king of indoor sports."

Was Alone in Field. From its inception in 1895, the American Bowling Congress laid down all

managing the establishment.

Marvel at Drop Ball.

"Ned" Hanlon one afternoon was watching Taylor warming up. "Dumwatching Taylor warming up. "Boxing a Hobby.

"By George," exclaimed Hanlon, "I governous always Taylor's favorite pastime. He was quite a clever by increasing the weight of the balls over the country on the country of the public alleys are crowded in this undertaking, and the great crowds, which will undoubtedly be present thruout the tournament, is a slight indication of the interest that is being taken all over the country in this greatest of indoor sports that is being taken all over the country of the weight of the balls are try in this greatest of indoor sports that is being taken all over the country of the weight of the balls are try in this greatest of indoor sports that is being taken all over the country of the weight of the balls. and a Liberal.

No Fight Between North and South, But a Railway Scandal Involving Millions of Dollars - Enemies Charge Graft.

ALSO SAY GOVERNMENT IS NOT FIT TO RULE.

No Sectional Fight.

In this legislative controversy there is no fight. Setween the north and the south. No section of the country is inclined to have the road stopped and every section of the country is desirous of having the road constructed, and both north and south are equally desirous of having the road constructed upon a businesslike basis. To give over \$7,000,000 to a company to build a road which will cost little more than had of that amount is something which will be opposed with equal vigor by Both north and south. There is not hour and south. There is not north and south. There is not not not not not not not in the question.

There is not so very great difference of opinion about constructing a road, him there is the greatest dissatisfaction in the outrageous manner in which it is being constructed. The question is not whether or not there should be road to the far north, but whether a covernment which nakes an agreement, the like of which has never been seen in this country, with a company about whom no person know s anything, is a safe government to carry to completion an enterprise of that kind or to conduct the ordinary business of this province. Calgary Albertan.

A Startling Upheaval. The threatened disruption of the Government of Alberta thru the resign of the Hon. W. H. Cushing ister of public works, is one of the t startling political developments in the recent political history of the Osgoode Hall. His primary educa-tion was obtained at Upper Canada If it does not assume the magnitude of the Pacific, scandal it is College. He was born November 30, 1872, at Madoc, Ont., and in his younger manhood became a prominent because of the provincial nature of the padertaking and not because it lacks e elements of interest which caused eaval which swept the federal

Rochester Critics Laud Schubert Choir

Never Before Has Such Singing Been Heard There-Close of Choral Year.

Now that the close season for choirs Toronto has set in, only the concert the People's Choral Union six weeks hence remaining on the musical slate, there is time to take a breath and think over what has been heard. So much has been written and said of the Mendelssohn Cholr that further reference to it would be unnecessary for comparisons, and those who would institute comparisons are not inspired with any true love of art. The best critics of America, in Chicago, in New critics of America, in Chicago, in New York and from other points have heard the Mendelssohn Choir and have agreed that it is not surpassed by anything on the continent, and pro-bably not equalled even in Europe. The Berlin Philharmonic has been declared to be not its superior. Both in New York and Chicago it was agreed that choral societies in those cities had much to learn from Dr. Vogt's organization. If New York has much to learn, Toronto societies need not fee piqued, but should rather be glad that they have a model near at hand

The Schubert Choir. The one choir in Toronto that appears capable of deriving benefit from the Mendelssohn Choir traditions is the Schubert Choir. This does not neces-sarily mean that the Schubert should be a second Mendelssohn Choir. Choirs. like orchestras, express the character of their conductors. Dr. Vogt and H. M. Fletcher are men of entirely different types. They are as different in their way as Emil Paur and Frederick sohn Choir in one line may be attained in another direction by the Schubert Choir. It is entirely a question of "The Sc

Rochester was at least 30 per cent. better in quality. It had gained in inspiration and verve (the telegraph made nerve of that word) and what seemed like the failure of the Roches. The Adve due to the custom of the people there not to applaud, so that when there was any hand-clapping at all it was ter, who really want a chorus, but the tumultuous receptions accorded in the tumultuous receptions accord The exquisite unfinished symphony of Schubert was rendered with the last The exquisite unman.

Schubert was rendered with the ultimate touch of enchantment, but it left the audience cold. When they applauded the drums and cymbals of Chablier's "Espana," it looked as if they were Philistines, but the genuine warmth with which they halled subsemanted in the storm passages, and the jagged antiphonal effects by which the lightning is suggested found the sopranos perfectly prepared. In the sopranos perfectly prepared. In the sopranos perfectly prepared.

The quality goes in be-

wonted applause. If this decorous standard is the normal one in Roches-Stock as conductors. The perfection ter, then the Schubert Choir had a that has been attained by the Mendels-triumph. The criticisms were all most Opinions of the Press.

bert Choir. It is entirely a question of Mr. Fletcher's capacity for concentration and ability to get himself expressed thru his chosen vehicle. No one who has heard the Schubert Choir of the Mr. Fletcher's capacity for concentration and ability to get himself. No one who has heard the Schubert Choir of the Mr. The send color. If he lacks anything it is boldness in execution, confidence in himself, the courage of experience. It would not be true to say that he does not rely on his choir. He knows them too well not to rely upon them. But he also knows how far he can carry them. With ten years more training and weeding it is impossible to say what degree of technical maturity the Schubert singers may "The Schubert Choir," said The Her-

impossible to say what degree of technical maturity the Schubert singers may not attain. It will depend very largely on Mr. Fletcher's own self-developpurity of quality in the tone as some-thing to rejoice at. The choristers Exigencies of space last Wednesday morning led to the omission of the larger part of the notice written of the conductor. "Think of the advantage," said The Express, "which their musical conscientiousness, so highly devening in the rank and file of the conductor. The singing in the rank and file of the conductor. chorus, gives the conductor. The singers become the instrument on wh

to be accepted as an encore. After cannot have it for lack of financial the tumultuous receptions accorded in backing."

pers, The Democrat and Chronicle, for example, describing the audience as several times bursting forth into unseveral times bursting for the forth into unseveral times bursting for the forth into unseveral times bursting f lent. The number was encored and Mr. Fletcher replied with the gem of the previous evening, Miss Boltwood's "The Night Has a Thousand Eyes." This was rivaled by a later number on the program, Elgar's "Weary Wind of the West," the delicious pianissimo of which followed by the splendid burst of power had a magical effect. The male chorus. "Just Being Happy," was very well done, and secured an en-core which was furnished by the repetition of Leu's "In the Forest," from the previous evening. The really dif-ficult music sung by the choir was found in the four vocal dances by Schubert. The complicated writing in these lovely compositions was woven into an exquisite choral fabric by the

> Paur's Field Day. Emil Paur had another field day in presenting Brahms' C Minor Symthony, played for the first time in Can-It took 48 minutes in performance, and no one was weary. Applause broke out after every move-ment, and the whole symphony received an ovation at the end, which Mr. Paur called his whole orchestra to stand up to acknowledge. This was not sufficient, however, and he was recalled four times more. As an en-core he gave the beautiful "Anita's Dance," from Grieg's "Peer Gynt." Many who have failed to respond to Prahms' genius before were captivated by the second and third movements of the symphony. A. E. S. S.

Society Doings in London Town

Stoutness of Peeress Caused Earl Grey, who is now Governor-Genis Recalled by Opening of Parliament.

By Countess of Blankshire

LONDON, Feb. 26.—(Special.)—It is understood that the King will certainly pay at least one other visit to Brighton before he leaves for the south of France. In an probability this will be towards the end of this week. His time at Brighton, since the invigor-ating air of the place, coupled with the perfect rest from affairs of state e gets while there has a most beneficial effect upon his constitution.

and Princess of Wales and Princess Victoria. We wonder if the lastnamed will remember an incident that happened at one of the last drawing rooms the late Queen-Victoria ever held. The princess stood quite near to an extremely stout peeress, whose evolutions caused her considerable likely to be carried out very shortly.

As the lady in question made her courtesy in front of Her Majesty she stumbled badly and would have fallnearly brought the pair to the ground; but luckily the courtier managed to majestically at this untoward incident, and the remainder of those present tried hard to keep a straight face. Princess Victoria, however, suddenly caught the eye of the present Prince of Wales, and her gravity collapsed. She gave a hearty peal of laughter that re-echoed thru the throne room, in which the prince at once joined her. It may be added that subsequently the young princess received a severe "talking to" from her imperial grandmother

The real reason for the sudden retirement of Sir Douglas Gamble from command of the reformed Turkish Fleet is the imminence of war tween Bulgaria and the Porte. King Ferdinand has been arming with this object for years, and now that he has secured the recognition of his independence he is merely awaiting the moment to pay off old scores. The necessity of withdrawing Sir D. Gamble from the Turkish navy-he being still a British Admiral on the active list-is therefore obvious.

Princess Henry has been receiving special reports from the Spanish capiial concerning the health of Prince Leopold, and was ready to start for the south by the Sud Express at a moment's notice. Her Royal Highness, however, soon learned, to her relief, that it would not be necessary to disdisappoint the good folks of Lowes, whose new hospital she is under ensagement to open during the coming week. There is now every reason to hope that the projected sejourn on the nothwest coast of Africa will come off. the exception of a hurried visit which made there by the Battenberg Darty before coming north again.

an Amusing Incident Which eral of Canada. Lord Grey is Lady Minto's brother: and Lady Antrim, who has for so many years been Lady of the Bedchamber and personal friend of Queen Alexandra, and who is the sister of both Lady Minto and Earl Grey, has recently been in Calcutta arranging the matter on behalf of the imperial authorities. Lady Antrim is now on her way home, and the official announcement re the Indian viceroyalty may be expected a month hence.

There are signs that the tactics of Majesty will also pay at least two in disfavor. As one indication of how rights to "London by the Sea" when be returns from his holiday. In view sharp line has been recently drawn with regard to suffragettes at a wellof these frequent visits, reports are being revived that ultimately His Majesty will acquire a house there, and it is understood that there is some truth in these, as naturally the king does not desire to put his friends who has been to jail shall be allowed to come back and live at the club ander the obligation of entertaining to come back and live at the club again. There is no fuss whatever on the direct advice of his physicians her return from durance vile, she is hat His Majesty will spend so much politely told that her room, owing to the large number of applications, been let in her absence. As a rule the militant ones have had sufficient commonsesse to realize the lay of the land, but the decision of the club has come to be held at Buckingham Palace shortly will be a very small one, and the principal supporters of the King and Queen will be the Prince and Princess of Wales and Princess of Wales and Princess social one, and that it should not be mixed up in any way with active polifical movements.

It would not be correct to say, how- ly known. ever, that the King of Saxony will take the place of the late King Leo-pold of Belgium in the Order, since shown itself in various shapes from pold of Belgium in the Order, since the sleeve of the then vice-chamber-limited, and as many, or as few, of the sleeve of the sleeve of the then vice-chamberlain, who was, as is the custom, close these can be created as seems desirto her side. THIS WILL BE GREATEST YEAR IN HISTORY OF TORONTO REAL ESTATE

Men Close to Markets Enthusiastic Over the Outlook -Steady Increase in Population Main Cause, Coupled With Universal Prosperity.

A WEST END ROSEDALE.

That the year 1910 will be a hanner me from a real estate point of view, is the consensus of opinion of the leadng Toronto real estate brokers.

One prominent agent spoke in glow-ing terms of the prospects for the

ming season.
"I have been receiving hundreds of "I have been receiving numerous of enquiries concerning property to the north of the city," he remarked to The World, "and if one-tenth of the people who have approached me buy lots, North Toronto will be a hive of industry for the builder before long. The only dra-back to locating out there appears to be the double car-ride, but when the city gets the car service expropriated, the suburbanites can count on getting down town for

In Beach District. "And then in East Toronto, in th Beach district, real estate business is imming. Houses that were worth \$1800 three years ago, are fetching \$1800 three years ago, are fetching \$2400, which is a pretty fair investment on your money. You can look to seeing the suburbs of Toronto develop this year to a degree unprecedented in the past. The worker, and I do not only mean the working man, but the business man also, wants lots of fresh air and room to move, and he is going where he can get it.

"If the Bloor-street viaduct had been built, the northeast section of the city would have gone ahead also, but

city would have gone ahead also, but people are chary of investing money or building properties when the com-munication with the rest of the city

Easter Specials

The Easter Specials are Here. Two Shipments of Them Direct from the Mills.

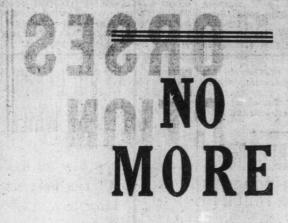

You may choose to-morrow from several thousand patterns in the newest spring weights; the finest woollens ever shown in Toronto; every fabric known--Scotch Tweeds, Cheviots, Worsteds and Serges. All exclusive patterns and new colorings in catchy designs.

To place an order for an Easter Suit at once is a very wise thing for any man to do. All the cloth is in for our spring trade. You can take it from us that there never was a finer stock of good fabrics shown in town than you'll find in our branch now, nor any tailoring establishment better prepared to serve you than "yours truly."

You pay only fifteen dollars for the suit or overcoat, and a guarantee of satisfaction goes with the order. If we fail don't pay us a cent. The loss is ours, and we will be "game losers."

You owe it to yourself to wear good clothes that are stylish and fit right. High price tailors or those working on a small scale will soak you from \$35 to \$50 for a suit such as we will make to your order for Fifteen Dollars. We work between the Mills and the wearer of the clothes.

Made to Order Suit or Overcoat

We take it that most men are wise to what good clothes mean in the battle of life and the affairs of the heart-There should be a lot of orders on the books to-morrow for Easter clothing. Easter Sunday falls upon the 27th of March and the wise man will be ready with new clothes.

All the spring patterns are in. Don't select your spring suit before first consulting us.

OUT-OF-TOWN MEN—You can buy a suit of clothes as easily by mail as in person. Write for our sample book of cloth. It enables you to judge of the quality and pattern of the goods.

Canadian Horsemen Confident of Future Confident of Future Ottawa Parliamentarians Predict Shelving of Anti-Racing Bill — Startling Sequel to Adverse Legislation — New Derby Handicaps — British Turf Outlook — Among the Trotters. Which, only by the grace of the house and the favor of the government has, at the best, much chance of enactment, especially when the session is measureably near its closing period. The recent announcement that the government had decided to limit precedence for private members' bills to Mondays was regarded as sounding the knell for a number of this session's grist, including the eight-hour bill, backed by the Dominion Trades Congress and the Miller bill. Experienced authorities on parliamentary usage point out that, with a committee divided and sending in a majority and minority, report, private bills in the past have invariably falled of immediate enactment. As the matter now stands, the sponser of the bill and two of his colleagues on the committee have indicated their approval of it, while the other four are either its outspoken opponents' or non-committee. It will be another week

The latest indications from the Dominion capital appear to be that no netion by parliament is probable on the Miller bill this session. There are several reasons for believing this. In the first place, the bill promoted by the opponents of racing is not in any wise endorsed by the government. It is stated authoritatively that the application to the federal authorities ast fall for them to introduce a bill similar to that of the Hughes law of New York State met with a negative response. In the committee the case for the bill has proved much weaker than generally expected. The evils attendant upon betting on the track

Three Washington birthday handicaps gave Uncle Sam's citizens opportunity to commemorate the anniversary of the Father of their Country's mativity by interesting feature races at Oakland, California, as well as at Jacksonville and Tampa, Florida. At Oakland the race was technically the California Derby. It was the first Derby of the year; the second takes place to-day, at Juarez, Mexico, and the third at Jacksonville, Florida on the third at Jacksonville, Florida

It is interesting for Canadian horsemen to note that the great English classic—the Derby— has not only giv-en its name to the leading annual races at a number of American tracks, such as the California and Kentucky Deras the California and Kentucky Derby, but in the case of Juarez it annexes the foreign country of Mexico. At the anniversary of Paardeberg it is also interesting to note that a South African Derby is one of the great state events at Johannesberg.

With respect to the California Derby, which marked Oakland's celebration of Weshington's Birthday it

by, which marked Oakland's celebra-tion of Washington's Birthday, it is interesting to remember that it was won last year by High Private, a crack which made a disappointing showing last spring at the Woodbine, but is now in fine fettle, and regard-ed as one of the best prospects for the

Young Taplin, who will be promin-ent on the Canadian circuit as Mr. Mackenzie's jockey, made good riding Turret, the favorite and winner of the California Derby on Tuesday. While Turret, the favorite and winner of the California Derby, on Tuesday. While the California carries with it no such purse as \$5000, as in its palmy days, before Governor Hughes got on the warpath, it retains the traditional position of the premier running-track event on the Pacific coast. This year the stake scaled down under hostile conditions to \$680. This is a sequel to adverse legislation of importance to Canadian horsemen, who might reto Canadian horsemen, who might regard the matter of legislation at Ottawa with some indifference. The idea that racing might be continued in the Dominion under such drastic condi-tions as proposed would, in the light of experience at Oakland and in New York, inevitably mean sweeping reductions in the purses, so that ultimatethe most serious losers, and, tho jockey clubs might survive and

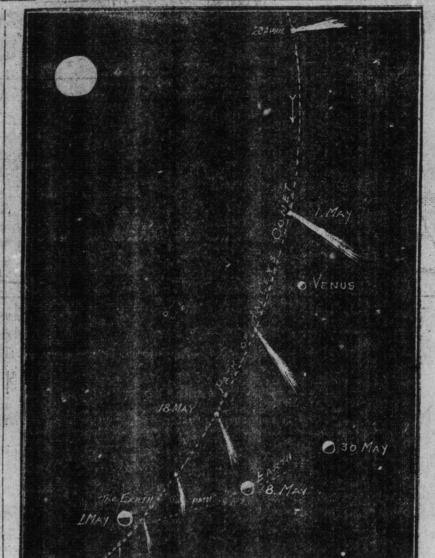

struggle along, the horse industry wuld be the severest sufferer. At Jacksonville the Washington Handicap was inaugurated with purse of \$1500. Here no frowning stat-ute made holiday makers shiver. All united amidst an atmosphere of sun-shine and liberty to celebrate their patriotic holiday. Again a well-known Woodbine jockey piloted the winner. He rode Great Heavens, a familiar horse here last season, which is making good under the ownership of Col. Chinn, and horsemanship of Powers. The rider employed the tactics which endear him everywhere to the racegoer who revels in a thrilling finish. Green Seal, ridden by Ganz, for the St. James Stable, set out to make a runaway race. Off first, Ganz never looked behind, and led all the way until midway of the stretch. Powers. who had restrained Great Heavens in behind the leader, made his move and drew away, finishing gamely with a length and a half to spare. Green Seal tired when challenged and fell back to fifth. The 1 1-8 miles was done in 1.54, two-fifths slower than the

track record. The misapprehension of opponents of the turf that thorobreds have a brief career and then are sold to pull junk carts was again disproved by the Washington Birthday Handicap at Tampa, when old Kercheval, now a 7year-old, won as his rider pleased, finshing two lengths before the 4-yearold Paradise Queen, and six ahead of such a good 3-year-old as Autumn

The Kempton Park Jubilee Handicap includes Sir Martin, the American champion, which fell in last year's Derby, and Minoru, who was the third winner of the coveted classic for His Majesty. The top weights are Langoan and Dean Swift at 126 pounds, Sir Martin 121, Succour 121, Minoru 119, The fixture is a \$15,000 affair. It will be run on May 7.

WITH THE HARNESS HORSES.

Western Canadian Horseman Has Promising Stable-New Six-town Circuit. George Haig, the Calgary, Alberta, trainer and driver, has a fine stable of about a dozen trotters wintering at Calgary. In Mr. Halg's stable are: General H., 2.094; The Indian, 2.124; Sapphire, 2.174; owned by Wm. Parsow: Sir Jain, by Bob Fitsimmons, p. 2.07%; dam by Gold, son of Dictator, 2.13; owned by A. McKillop, Calgary; Kootenal, by Evergets, a son of Prodigal, owned by L. G. Ruttle, Calgary

HALLEY'S COMET RUSHING TOWARD THE EARTH.

This diagrammatic view of a section of the earth's annual journey shows that, on May 18 next, the earth will pass thru the filmy tail of Halley's comet. The path of the comet is shown descending from the head of the picture. The siderial point at which the earth and comet will meet is indicated by the

promising future, having been trained the past spring by Mr. Haag and Nakusp, black trotting filly, owned by worked miles around 2.25; she does not Joe Murphy, of Cochrane; Jack Bowen,

Kootenai is a green pacer with a very wear the "under harness," which

Flashlights

Some Interesting Sales Report-

ed on Saturday -Two More Fine

> Cars Have Arrived.

An evening spent at the auto show is a well-spent evening. You will see the best automobile people and the best automobiles.

It looks as if tire troubles are to be a thing of the past. The numerous quick detachable rims, spare wheels and reinforced inner tubes on exhibition will bring joy to the heart of the man who has spent valuable time in struggling to replace or repair a tire that has given out while on the road.

A feature of the show is the number of cars that are sold fully equipped. The day of asking a man a large price for a car and then making him spend another small fortune on incidentals is over.

A number of prominent American automobile men will be in Toronto this week for the show. Among others, Walter C. White, vice-president of the White Co., is expected.

The McLaughlin-Buick people report two interesting sales. J. A. Halstond of Mount Forest has purchased a line 40-h.p., five-passenger, Model 17, and H. S. Black, president of the U. S. Ite-alty Co. of New York, has bought another McLaughlin, which he will present to his brother, F. J. Black of Tweed.

The Dominion Automobile Co, closed two sales for Packhard thirties the second day of the show. Tho the Dominion Co, received a large allotmen of these cars for Canada, they only have a few more left for sale.

The old style of honk-honk is being given a hard run for first place has popular favor. All sorts of new horns are on exhibition. Some of them give a range of several different notes so that the musically inclined motorist may give warning of his approach in a most harmonious fashion.

Another well-known firm that are going to establish a factory in Torois the Stepney Motor Wheel Co. To wheel is already very popular here.

Two very handsome Pennsylvania cars arrived on Friday night. Two more will be here to-day. The Pennsylvania is one of the finest cars manus factured in the United Stater. The company that puts them out is closely connected with the Pennsylvania Railroad Co. The models shown here are three four-cylinder cars, and a six. The body work is of the highest quality. body work is of the highest quality, and the chassis is the best type of motor-car construction.

The L.M.T. Cars and an Acre of Others

E.M.F. "30" and Flanders "20" Are in Front

At the Automobile Show

Cars Point the Way

OUR finely-furbished E. M. F. Motor Cars stand in the very forefront of the AUTOMOBILE SHOW, and point the way to AUTOMOBILE LAND. These four perfect machines are spick and span in DRESS SUITS of lustrous black body, of beautiful finish and design, contrasted against immaculate light running gear and glimpses of burnished metal. Under the white lights of the entrance colonnade, decked with flags and ferns, automobile admirers find first of all the DODDS-MASSEY exhibit of E. M. F. cars; and eventually, after the long round the acre of other exhibits, the MAN WHO WANTS A PERFECT CAR AT A REASONABLE PRICE comes back to the E. M. F. exhibit. The E. M. F. is first and last in the visitor's eye and mind. The E. M. F. cars are in FRONT in the SHOW and out of the SHOW.

HE E. M. F. "30" at \$1500, and the FLANDERS "20," at \$950, are beautiful cars. And when the the body and exposing to view the "chassis," "beautiful appearance" is removed for a mor or inner mechanism of the car, it is very evident that STRENGTH, DURABILITY and RELIABILITY are strength back of the beautiful exterior.

R. ALLAN R. MACDONELL, one of the many courteous experts of the motor car house of DODDS-MASSEY, was explaining in detail the "chassis" of the E. M. F. "30" to several visitors at the E. M. F. exhibit yesterday, when one of Teronto's well-known physicians voluntarily added this tribute to the many praises of the E. M. F. "30";

"I have been using an E. M. F. '30' for ten months, and I find it gives every satisfaction. Stands "The E. M. F. "30" is a great hill climber. I tried it on the Avenue Road hill—that's a good test—and it took

the hill very easily. "The E. M. F. "30" rides very easily on the roads. The semi-elliptical springs take up the jolt. Dector's

"It picks up the power easily.

"The magneto (Splitdorf) works in perfect order.

FORTY TOROGEO "I purchased the car because it was recommended to me by other gentlemen who have been using the E. M. F. cars." The experience of the doctor is similar to the satisfactory experiences of other Torontonians with the E. M. F. cars.

The test of the doctor, however, is one of most urgent service. The doctor's car, like the doctor himself, must respond to any call at any hour, over any road, and in every kind of weather.

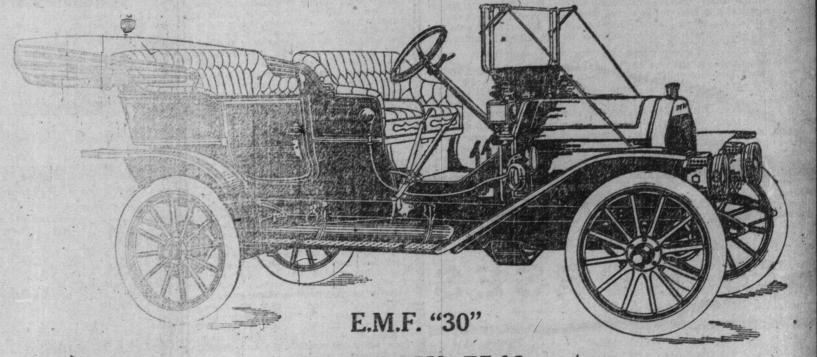

The E. M. F. cars stand this exacting test.

Pion Usa-

E. M. T. Cass

For the doctor-or for any other person who needs reliable and speedy transportation-the FLANDERS "20" carbe well recommended:

The FLANDERS "20," at \$950, is a powerful twenty-horsepower runabout. It is a two-seated car, built on the same substantial and graceful lines of the E. M. F. "30." Two extra seats may be added at the rear of the FLANDERS "20" for \$40 extra cost, transforming the car into an attractive and commodious SUBURBAN.

Ring MAIN 7340

And this car will demonstrate its excellent service to any one who wishes to know more about our cars.

ARSITY LIT CAMPAIGN

THE TORONTO WORLD

Merrick Receives Unionist Nomination For Presidency-A Boost For the Unionists.

Once a year, before settling down final six weeks' grind for exons, the Varsity students ene now historic Unionist and Old Lit arties measure their strength in a ampaign which, in point of enthusiasm nd spectacular features, equals any and spectacular features, equals any tectoral contest in the outside world. Here many a budding politician and party organizer receives the training of which he hopes to make use upon graduation. Nor is the campaign contined to the students. All graduates of University College are eligible for the exercise of the franchise as regards the presidency. And, for a single lay at least, those resident in the city throw themselves into the contest and are boys again, as in the brave days ys again, as in the brave days

throw themselves into the contest and are boys again, as in the brave days of old.

March 18 1910, will witness one of the hardest-fought battles in the history of the Varsity Lit. During the past year the Old Lit party have been in power, under the presidency of Thos. Russell. Mr. Norman-McLarty, the leader of the party, has been a great source of strength to it, particularly in the party debates. His graduation in the spring will distinctly weaken his party. Nor is this the only sign apparent that the Unionists may be successful. During the entire year they have under the leadership of Arthur 7-leming, conducted a most strenuous opposition. An opposition not entirely unsuccessful, as the government has not yet been able to carry its platform into effect. Further—and this will probably be the dominant issue in the campaign — the Old Lit policy of confining the society's interests to purely college topics has failed to satisfy the students, particularly the members of the first year. The latter hold the balance of power, and are rumored to be dissatisfied with the somewhat narrow policy of the powers that be. Meanwhile the Unionists have steadily advocated the broadening of Lit-inte-ests, so as to give live public issues a primary place. Freshman opinion is strongly Unionist upon the subject.

With the elections only three weeks away both parties are eagerly at work. James G. Merrick, B.A., a graduate of '96 in political science, has been placed at the head of the Unionist ticket. His wide and dexaved acquainty in downlown circies will ensure him a strong support, and it is not unlikely that a Unionist president will occupy the chair of the Varsity ill next year. As a member of the bar, Mr. Merrick will divide the legal vote with George Will, kie, his opponent. As secretary of the Employers' Association, he is well known in business circles. And not the least of his sources of strength lies in the prominent part which he has taken in Canadian athletics.

Purvis F. Dean, manager for Mr.

Purvis F. Dean, manager for Mr. Belasco, with Miss Blanche Bates, who will appear at the Royal Alexandra during the week commencing Feb. 28. will receive a warm greeting from a large circle of friends here.

"WAS UNBUSINESSLIKE" SAYS JUSTICE MAGEE IN SUMMING UP LIBEL CASE

SUNDAY MORNING

Continued From Page 1.

Winnipeg, who held the title, Mr. Foster had directed him to remit a cheque for \$2480, covering the 25 cent Syndicate's Borrowing Powers.

The I.O.F. was here asked to advance \$5.25 per acre, and for what purpose? Only \$5 was to go to a vendor and 25 cents per acre to Mr. Fos-ter, who held a share in the syndicate. In other words the syndicate were getting land at \$5 and borrowing money on it and were borrowing money on it at the rate of \$5.25. Was that ever intended by the I.O.F.? If the Foresters had intended to advance only the net cost were they given full information by the syndicate. It is not necessary to suppose for one mo ment that any one of the members of the syndicate believed that they were endangering the funds. I can give him credit for the best intentions. It is a question, however, whether they were dealing fairly in not stating that they got the land at the net cost of \$5 per acre. Foster in getting reduction of 25 cents an acre calls

Unbusinesslike Transaction.

Does a man get a commission for In that connection it was necessary selling to himself? Then for whom for the jury to keep in mind the fact was the commission earned? Practically Mr. Foster had said, we will put Foster. Mr. Foster received that 25 cents in our pockets, and you can cheque and deposited it to his personal look to the land for security for your acc money. Up to only 1903 the LO.F. had not a scrap of paper for security from Montague, who had borrowed the themselves in his position with the money. The fact was the I. O. F. could results of the royal commission inhave sued Dr. Montague for the total vestigation before them, and decide advancements; nevertheless, it was a whether Mr. Macdonald implied that Foster entered the syndicate the ad- whether that was a reasonable con vances were still charged to Montague. struction to put on the evidence taken Subsequent lands purchased, however, by the commission which was before were taken in the name of the Union him. Next was ita deal with trust Trust Co. Singular to say the Union | funds? Trust Co. undertakes to buy the lands, to pay for them and assumes all the responsibility without any beneficial in-terest. It does look as if the transac-esters by Mr. Foster, with reference tion had been conducted in an unbusi-nesslike way. SURPRISE PARTY. On Tuesday evening a party ar-

chaperoned by Mrs. Philip Strath?. then proceeded to lay stress on Clark's statements were to be considered as in to invest in any security outlined in the public interest. The question the Insurance Act, such as decentures, was whether he had made a fair combonds, stocks, etc. The L.C.F. there was matter what dissatisfaction there was enjoyed. Mrs. Strathy was wearing 2 handsome white lace gown over satin and pearl ornaments; Miss Josephine Brouse was in black with rose colored ribbon in her hair and Miss Marjorie Brouse wore white lace with mauv andeau in her hair and violets; Miss Elevated and Underground Railway. Hazel Fitzgerald was in a become gown of Rose du Barri satin with gold mbroideries; Miss Phyllis Moffatt white satin and real lace; Miss Jane Wallbridge white lace over pale yellow: Miss Georgie Sankey looked very handsome in pale primrose ninon and Queen and Miss Helen Mackenzie, Mr. Sidney Fitzgerald. Mr. Finucane, Mr. Stephen Jones, Mr. Harold Morris, Mr. Percy Paterson, Mr. Lewis M. Wood Power Company, all of which are operand Mr. Collis.

Explains His Resignation From Alberta Cabinet-Hot Debate in House Over Railway Contract-Premier Defends.

EDMONTON, Alta., Feb. 25.-The in-Alberta politics. Mr. Cushing gave his with them the strength of conviction. He was followed by the premier, who locked horns with him on the question as to whether Mr. Cushing was present when the agreement was signed. The two not only failed to agree, but flatly contradicted each other

Boyle's Long Speech. Mr. Boyle spoke four hours on what considered the iniquitous features

of the contract. At 12.45 Hon. Mr. Cross took the floor, and replied to Mr. Boyle to the extent of two hours. The debate looked good for all night, but when Cross concluded, Riley moved the adjournment. Mr. Bennett arrived from Calgary by special train at 10.30 evidently in anticipation of taking part in the debate.

A political football was made of the etter which was tabled yesterday from President Clark of the railway to Premier Rutherford, in which he offered to construct the first 50 miles of the railway without drawing one dollar of the guarantee, and promised to make the road a great deal better than the contract called for.

Cushing Explains Resignation. Mr. Cushing in explanation of his resignation said that the agreement with the A. & G. W. R. had been entered into without his cons department of public works, with two ompetent railway engineers on the boy half so much at this time as mar- staff, was never taken into the confidence of the government. He charac-

ly aroused that the company If you are the least bit in doubt as build the road as cheaply as possible,

In his opinion the worst feature of

Women Wave Their Arms In Ecstasy of Strange Religious Impulse

SUNDAY MORNING

Lapse Into Use of Unknown Languages and Worship Under Conditions of Intense Emotion-Meetings In House on Queen-street

WHAT REPORTER SAW

The Sunday World has not had the report that follows. written out of any spirit of criticism. Indeed, we are disposed to reverence the sincere religlous beliefs of all classes of people Experience has taught the newspaper man, whose business is to investigate all sorts things, that there is merit the cults which he had, without reason, despised the most. It is a re markable religious meeting which this Sunday World reporter describes. The exaltation, the groans, the waving o arms and swaying of bodies and the lapses into alleged foreign tongues all afford a study for psychologists. The seeming excess of religious zeal which one would imagine must act upon the nervous systems of the girls and women in particular, is the most apparmen in particular, is the most apparent cause for criticism if one exists. But, we do not say that it does exist. Rather, these people have the right to worship God, in any way they may deter under the liberties enjoyed whetever floats the British flag. No follower of "The gift of tongues", has ever been caught robbing a bank or committing highway robbery. Morally they will stand the severest test as clean-living, sincere people. This is not a defense, but a statement of fact. London, Ont. was excited recently over the weird worshipping of these people and The Advertiser has this to say:

Those who are skeptical of the "signs and wonders" seen and heard of late in a London home need not doubt the earnestness of professing believers. We know nothing of the visitor who claims the apostolic gift, but the citizens whose names have been connected with these peculiar rites have a

reputation proof against any suspicion of fakirism or imposture. They have no selfish purpose to serve. As searchers after truth, however, they should not close their minds to any possible explanation, because it disregards the miraculous or the supernatural. The "manifestations" which they call the gift of tongues are like those obtained by scorediced process. those obtained by accredited practitioners in hypnotism, suggestion, and various cults of mental healing. Psychologists say that the common factor

"Hallelujah, Praise God," and similar utterances punctuating every sentence.

A Dramatic Story.

The leader, Pastor Durham, of Chicago, gave a dramatic account of scene held a few nights ago at the residence of W. H. Workman, a prominent Methodist, in London, Ont. Mr. and Mrs. Workman, who he said are prominent in church work in that city were curious to see for themselves what manner of service the Pentacostal preachers held and allowed Mr. Durham to hold a prayer meeting at their residence, 146 Dundas-street. The exhorted stated that the meeting there was thronged. When he had preached Mr. Workman said that he could accept mest of their teachings, but could not understand Pastor Durham's breaking out into a foreign language, at most unexpected moments in his sermon.

The exhorter's explanation was that the gift of tongues was given to him, the country Club early in the country Club early in the country Club and Mrs. Cassels, Mrs. Kerr, Mr. and Mrs. Charles A. E. Harriss, Mrs. Wm. McDougall, Mr. and Mrs. Charles A. E. Harriss, Mrs. Wm. McDougall, Mr. and Mrs. Charles A. E. Harriss, Mrs. Wm. McDougall, Mr. and Mrs. Charles A. E. Harriss, Mrs. Wm. McDougall, Mr. and Mrs. Charles A. E. Harriss

the gift of tongues was given to him, and to his followers, as an evidence that, like the apostles at Pentacost. they had actually received power thru the descent upon them of the Holv

Five Different Tongues. "I have spoken in as many as five different tongues in one week," proclaimed Pastor Durham, "and of myself I could not speak a word of any other language but my own if I were need a million dollars. I have somepaid a million dollars. I have some-times spoken in tongues not having the faintest idea of what I was saying and an interpreter has explained my

Astonishing scenes are being wit- words." meeting at ... neser every night at the Pentacostal Mission being conducted in various parts of the city by an impassioned evangelist from Chicago. Women become almost frenzied with excitement, Workman's, dear Mrs. Workman sud-denly fell backward and was only prevented from striking the floor by being caught in the arms of those who stood and the revivalists and other exhorters

Sister Semple's Conversion. A young woman, announced as Sis-Semple, gave a thrilling account of ing like Hebrew. The hymn singing her conversion; she had been reading a number of books on evolution, and became greatly perplexed. One night, up her hands to heaven, she appealed to God, to manifest Himself to her. Immediately her heart was filled with joy and ever since she had iced in her salvation. In the excess of her zeal the speaker

suddenly branched off into some unknown tongue and sat down in almost

Will Go to China. Brother Semple, husband of the pre-vious speaker recounted a somewhat similar experience to that of his wife. He is a fine strapping fellow in the prime of young manhood. He announced that he and his wife were about to carry the Pentacostal mes-sage to China. They would make a total of fifty in that country preaching the same doctrine. guarantee them any salary, it would be all a matter of faith. Mr. Semple also startled the meeting by manifesting in a modified degree the possession of 'the gift of tongues."

Gideon's Army. Pastor Durham gave a discourse on Gideon's army. As he told of Gideon visiting the camp of the Midianites and hearing some of the enemy tell of a dream that Gideon and his army would put them to court Mr. Durham would put them to rout, Mr. Durham began to laugh with glee at the plight of the Midimites. His laugh was contaglous and the hall for a few minutes rang with laughter, by his description of the cannonading of the Midianitish camp with "Gideon's artillery," the

was intensified.

The lesson of Gideon's army was, he said, that God demanded of his followers first unflinching courage and in the second place absolute humility. The meeting lasted two hours and osed with the hearty singing of the

MRS. CECIL GIBSON'S TEA.

Mrs. Cecil Gibson gave a small-tea McCuaig, Montreal, who is the guest of her sister, Mrs. Strathy, Spadina Gardens. The hostess was wearing a very artistic gown of pale grey chiffon with tarnished silver embroidery and diamond ornaments. The decorations were of enchantress carnations and unshaded candles.

Mr. Stephen Jones and Mr. J. W. Mackenzie are leaving shortly for the

AGENTS

The weather was most propitious for the skating party at Government House on Saturday afternoon last and a large crowd consequently found their way there and were particularly glad to again have the pleasure of greeting Lady Sybil Grey, who has returned from a visit of several months in England. Her Excellency was not yet sufficiently recovered to be out and Lady Sybil greeted the numerous guests in her stead, looking extremely well in a suit of dark green welvet with toque to match. Among the Government House party were several of Their Excellencies' guests: Lady Alleen Roberts, daughter of Field-Marshal Lord Roberts, who acompanied Lady Sybil on a visit to Canada; Miss Lucy Dodge of Montreal, who spent the week-end at Rideau Hall; Sir William Mulock of Toronto; the Counters Bersdorf, daughter of the German ambassador at Washington, D. C.; Major and Lady Collins of London, England, and Mr. Roche of New York Late in the afternoon the talented English comedian, Mr. G. P. Huntley(who delighted large audiences at the Russell Theatre for three nights of the week), with his charming wife, joined the party, and many had the pleasure of having a chart with him. His Excellency, was on the ice as was also Lady Evelyn Grey. Lady Elleen Butter and a very large number of members of the Minto Club. Hon, Nesbitt and Mrs. Kirchhoffer entertained at a perfectly appointed dinner at the Country Club early in the

International Harvester declared an

World Office. Saturday evening, Feb. 26. Surpluses and shortages of Feb. 16 show a decrease in the surplus of 6087. Cars, but an increased shortage of 4579 cars.

Speyer & Co. are offering for public subscription in New York at 97 1-2 and accrued in the surplus of 6087. sell off early in the week. Accepting the market at its face value it would appear that the financial interests are endeavoring to advance prices against not being catered to at the moment. and it is not improbable that greater wity will be injected into the dealings later, when selling will again be

Factors for and against values have been pretty evenly divided. Good railearnings. Reports are noted bulling Western Union, on account of the new road earnings, cheap money and a reported improvement in the steel business have been met with important ports are in circulation of a big rise in Union Pacific later, perhaps based on trikes, bad reports of the results of winter seeding and expectations of addistribution of surplus. We believe southern Pacific will get a higher dividend and think it should be bought of recessions.—Financial Bulletin. ence on the money market. The bond business is not any too good, and new recurities are not being put out any bull manipulation has, we believe, been too freely. Steel orders promise to increase next month, altho it is considered shorts and facilitating sales of stock ered doubtful whether the trade will bought recently for supporting pur-le much stimulated. Strikes and riots poses. Shorts have pretty well covat Philadelphia and at the Bethlehem steel works have again drawn attention to the necessity of palliating labor if widespread trouble is to be avoided this spring.

Strikes and Poss. Shorts have pretty wen covered and when the support is withdrawn, we regard a vigorous decline as certain. The market is more vulnerable than at any time recently and this spring.

having partially recovered from the political shock. The heavy imports into the States have made it essential to pay foreign obligations, if possible, with securities, and if Europe responds to the necessity it will mage responds to the necessity it will materially assist in maintaining prices. A factor of prime importance is the 1910 crop. A government report will leading issues, especially Union Pacible 1910 crop. A government report will leading issues, especially Union Pacible 1910 crop. A factor of prime importance is the 1910 crop. A government report will be forthcoming on Tuesday night, and this will be scanned closely. The talk-ed-of business reaction has been occaed-of business reaction has been occaed of the scanned closely. The talk-ed-of business reaction has been occaed of the scanned closely. The talk-ed-of business reaction has been occaed of the scanned closely. The scanned closely closely contained to the scanned closely. The scanned closely c stoned to some extent by the break in the prices of securities, and may have been only a transparency affair. The market is admittedly a hard one to make money in, and will continue Denver, Colorado Fuel, Utah Copper, Third Avenue, Sugar and Central Leaso owing to the nervous attitude of the traders as to the future. Stocks Duluth-Superior, 3rd week February, increase \$1573; Sao Paulo, January, increase \$9144; Detroit United, 2nd week February, increase \$26,571; Southern be disposed of on quick showings of profits, and possible big returns not

Altho there has been a certain amount of buoyancy in domestic se-curities during the week, there has also been a deal of irregularity, which initial dividend of 1 per cent. on common stock, payable April 15, to stock was not altogether to the liking of those who are holders of locally listed of record March 25. issues. A decided break in Dominion Coal has led many to believe that the Erickson Perkins & Co. had the following: Stocks sold off rather sharply coal-steel merger has been somewhat cate which took over Mr.Ross' holdings f coal have played an important part. of coal have played an important part.

It has been asserted that when the purchase of Mr. Ross' 50,000 shares of purchase of Mr. Ross' 50,000 shares of for trading. We have cautioned against coal was made the syndicate got a buying except on drives and have of-fered the opinion that it would be a rake-off of \$250,000. With this the deal of offering outside holders of coal trading market for some days yet. stock \$95 a share was put thru, but as surmised, the long period of payments keep stocks within a narrow range, a led to very few of the outside shares but we do not think they want any Banking interests evidently want to being offered to the syndicate. It was announced at the time of the very sharp break. From now on the closing of the offering that only 7000 stock market will be influenced by the shares had come in for redemption, and the syndicate took advantage of days, for fear that the Tobacco case this small lot to pay for the stock in full, and then proceeded to throw the 7000 shares back in the market, leaving the minority shareholders help-less, while at the same time a plaus-NEW YORK, Feb. 26—The statement of clearing house banks for the week (five days) shows that the banks hold ible appearance had been given that the attempt had been made to put thru \$22,701,450 more than requirements of the 25 per cent. reserve rule. This is a decrease of \$2,978,875 in the propor-donate cash reserve as compared with the original deal.

Just how high the pools are going to be able to put Nova Scotia and last week. The statement follows: Loans increase \$7,423.100; deposits increase, \$5.-479,900; circulation decrease, \$655,200; Dominion Steel and retain the confidence of actual holders of securities, who are following the movement, it is legal tenders increase, \$247,600: specie decrease, \$1,856,500; reserve decrease, Ottawa this week that the steel and iron bounties are not likely to be resumed after this year, has caused some misgivings, and unless the Ottahard to say, but the suggestion from wa authorities change their minds, the earnings of the steel and iron companies will certainly undergo a big change next year. The Latin-American part is insured and some companies of Greater N. Y. not recan stocks, electric issues and some porting to the clearing house shows: loans decrease, \$7,257,600; specie deothers have been buoyant of late. London continues to be a buyer of the first named shares, and the supply of these securities on the Canadian markets has become very limited.

Totals decrease, \$1,224,700; specie decrease, \$1,224,700; legal tenders, decrease, \$1,277,700; specie dec kets has become very limited.

Speculation at the Toronto market has not been assisted very materially by loaning institutions. Money rates still hold quite firm. Against this however, is the fact that many of the semi-speculative, glocks are contained. semi-speculative stecks are quite scarce, a feature favorable to the market and one which might readily result in enhanced values.

The decrease shown in savings deposits during the month of January is sufficient evidence that the Canadian public are speculating and investing in

public are speculating and investing in securities to a greater extent than previously. There is not any absolute sign that a danger point has yet been reached in the market, and there is a general expectation that the spring will witness a broadening of speculation in Canadian listed stocks, and it is mainly on this account that the idea is prevalent that the market will witness some further improvement. witness some further improvement. Glazebrook & Cronyn, Janes Building (Tel. Main 7517), to-day report exchange rates as follows:

SHARKS THAT ATTACK MEN

Some Stories Tending to Show That Great Fish is Wicked and Vicious

whether sharks will attack living human begins when in the water has been hotly debated by societies, sportsmen and laymen in general.

Practically none of the dissenters lives in the tropics. Put the direct question to an inhabitant of tropical countries who lives on the sea shore and he will unhesitatingly reply in the affirmative.

The average Panamanian would consider the question foolish. The bay on the Pacific side abounds in sharks,and none of the natives will ever take a swim in the deep waters of it. Some foreigners used to do so until one of the engineers working on the canal during the French regime, a young Colombian named Jules Patterson, was killed by a shark a number of

western, \$7.65 to \$9.25.

British Cattle Markets.
LONDON, Feb. 26.—Liverpool and London cables quote live cattle (American), firm, at 13c to 14c, dressed weight; refrigerator beef, firm, at 10c to 10 1-4c per pound.
LIVERPOOL, Feb. 26.—John Rogers and Co., Liverpool, cable to-day: States steers, from 13½c to 13¾c; Canadians, 12 3-4c to 13 1-2c; heifers, 12 on 124½ 3-4c to 13 1-2c; cows, 12c to 12 1-2c; bulls, 10 1-2c to 11 1-2c. Supplies short, trade slow.

This incident led to a war of reprisal on the sharks. Many of the natives are content with simply catching and killing them, but the favorite method is called "crucifying." The shark is hooked and drawn on deck, care being taken to see that he cannot use his terrible mouth for biting. He is laid down on boards and his fins securely nailed thereto in such a way that he cannot use them. The tail is then cut close off, and the unfortunate animal thrown overboard. He cannot swim and he cannot steer himself. He is helpless and the other members of his own family attack and devour him. his own family attack and devour him.

Man eaters abound in the open ocean
around the Hawaiian Islands, and occasionally one gets inside the coral Cuban Sugar Crop Will Reach Maximum Output.

HAVANA, Feb. 26.—Present conditions in the sugar crop indicate that the optimistic estimates in September and October are not likely of realization, but it is probable that the crop will still break all records, exceeding last year's by 159,000 to 200,000 tons. The indication is that there will be a maximum output of 1,700,000 tons, as compared with from 1,900,000 tons, as compared with from 2,000,000 Cuban Sugar Crop Will Reach Maxi- reefs which surround the islands about

a maximum output of 1,700,000 tons, as compared with from 1,900,000 to 2,000,000 tons in the original estimate.

Approximately one-third of the crop is now ground, giving a reasonable foundation for an estimate of the total Another man eater caught a few days later was 14 feet long and 4 1-2 feet in circumference at the widest part. The mouth measured 22 inches from ton to bottom and 28 inches NOTHING WRONG WITH SLATTER feet in circumference at the widest part. The mouth measured 22 inches

Nation.

The true quality of this remarkable offer we fear, will not be apparent at once. On its face, indeed, it appears to be nothing more than an act of reckless bravado; a symptom of a braggadocia spirit, more picturesque than braye. But a careful examination of the spirit from being swamped. J. J. Dunlap, a sailor belonging to the fittle gunboat Elcano was being rowed out to the ship the plug in the bottom of the boat came out. INSPECTION IS NEEDED

welop into paying properties with unimpeachable title from the Ontario Government, without our reputation for honesty being questioned.

The act says, that discovery of mineral is necessary before a claim can be staked. I know of claims in Whitney which were recorded before they were staked, before they were seen, and before any mineral was known to be on them. They were recorded from the recorder's map which showed them not to have been recorded before. The licensee took a chance in being disputed. Of course, there was fraud and a false affidavit. But who is going to raise objection? What benefit would it be to a licensee to dispute with him and win. Winning the dispute would not give him the claims. They may be worthless in any event. This is not prospecting; it is not even claim staking. It is merely claim recording.

I know of another case where a licensee staked claims in the Reserve

ing. It is merely claim recording.

A know of another case where a licensee staked claims in the Reserve Another licensee found out where he had staked them; and when the first licensee went to the recorder's office, he found the claims he had staked al-ready recorded, affidavits to discovery and staking made as the the second licensee had done the staking and been on the ground. A dispute would no doubt have put him out of possession, but the first licensee could not get his claims unless he was first to stake af-

claims unless he was first to stake after both claims were thrown open. Disputes are costly and worrisome so the claim recorder and not the prospector owns the claims to-day.

Then there are people in cities who send out "prospectors" to stake claims at so much per claim. Imagine how much prospecting is done in the snow. Four feet of it. Is it any wonder swamps and muskegs are staked when "prospectors" are permitted to blanket a country in this way? When spring comes where is the country for the real Penna. and nearby hennery, white fancy, 35c to 36c; do. hennery brown Western first 25c to 25 1-2c; seconds, 24c to 24 1-2c, refrigerators, 21c to 24c.

Fluctuations—Liverpool Cables Higher.

Saturday Evening, Feb. 26.

Liverpool wheat futures closed to-day do "3d higher than yesterday; corn and to "3d higher than yesterday; corn and to "3d higher than yesterday. May corn %c lower, and lower,

to the movement in other markets is due in the main to the narrow trad-ing movement which characterizes dealings in most instances, for, with the public as little concerned in the daily transactions as they are at pre-sent, advances, even tho they may be brought about, are not long maintain-

It is evident that but little buying of Cobalts is coming from New York at the present time. This is due in part to the continued bullish sentiment on the curb market of that centre in relation to the various copper securities there dealt in. Specialists in these stocks have for some ists in these stocks have for some time been advising their clients to liquidate their Cobalt holdings and put the proceeds in such copper stocks as they are interested in bulling. This continued advice, coming as it does from many quarters, has doubtless had a material influence on speculators, and has served to keep away a certain amount of trading in the Canadian mining issues which might otherwise have done its part in indusing a a country in this way? When spring comes where is the country for the real prospector to prospect in? Even the swamps and muskegs are now mines. He would be a trespasser if he dared to look for mineral on properties to which title had been given, and is which title had been given, and is not arrived may check this, and has served to keep away a tain amount of trading in the Canadian mining issues which might otherwise have done its part in inducing a better tone to the markets. The fact that the much-heralded copper boom has not arrived may check this, and should the American exchange seize

time to time, but to date these are proving only fractionally successful, and in some instances fail entirely. The bear selling at the outset of such a movement is apparently overcome by the readiness with which inside interests in different securities have stepped in to the support of the market and have taken in the stock as offered. In this way any recessions stepped in to the support of the stock as ket and have taken in the stock as offered. In this way any recessions which have been brought about have been small, and on the other hand gains have been equally small, as liquidation becomes a material faciliquidation becomes a material faciliquidation becomes a material faciliquidation becomes as any evitor in the market as soon as any evident influence in favor of higher prices

comes into play.

amazing story in the fight for the for-tune of the millionaire Prince Ogin-sky, the last of his line. The prince, lunatic, and was placed in a foreign asylum. These steps were taken by his wife, with whom he lived very un-happily, in conjunction with his bro-ther-in-lay, Count Potuntzky, and a Petersburg, Wilna, Kovno and Riga, in addition to a fortune of \$5,000,000, was married to the daughter of Count Potulitzky, a Russian nobleman. Two years before his death, the

which preceded the incarceration of Prince Oginsky, his best friend and supporter was General Volanjarsky. The general strongly resisted the at-

Volanjarsky was murdered at War-saw under mysterious circumstances. The next act in the drama was a letter addressed by the unhappy Prince Oginsky from his lunatic asylum to the Oginsky from his lunatic asylum to the murdered general's nephew, Captain Volanjarsky. Prince Oginsky wrote that he had previously designated the murdered general as the heir to the greater part of his possession, and that this property would now pass to Captain Volasjarsky, the legal heir of the greater

Urgent Letter.

Captain Volanjarsky received this letter, but subsequently it was stolen from in a most mysterious manner. Subsequently Captain Volanjarsky received a very urgent letter from Prince Oginsky, asking him immediately to visit him at his estate in Retovo, Russia. By this time Prince Oginsky had been removed from the lunatic asylum to his castle at Retovo. Captain Volanjarsky immediately left his house here in St. Petersburg to proceed to Retovo, but at the sta-tion he received a telegram informing him that Prince Oginsky had just died. Nevertheless, he started on his journey, and at Wilna was met by Prince Oginsky's brother-in-law, Count Pot-ulitzky, who delayed him there for several hours. Just as Captain Volanjarsky was about to continue his journey to Retovo news arrived that Prince Oginsky had been interred in the family vault, and that his widow ould receive no visitors.

Captain Volanjarsky then obtained

died from acute inflammation of the intestines. Captain Volanjarsky suggested that the doctors were bribed to conceal the real cause of death. Who is Heir to the Millions?

Father Dombrowsky had care of Prince Oginsky's will and testament, whereby he designated Captain Volanjarsky the heir to the greater part of his estates and fortune, with a codicil desiring the captain to assume the now extinct title of Prince Oginsky. Captain Volanjarsky gave the will to the proper authorities in St. Petersburg and obtained ethe permission of the Czar to use the title Prince Ogin-

a will whereby he was made heir to Prince Oginsky. Neither of the wills contained any provisions for the wi-dow, but Prince Oginsky left other documents denouncing her as the cause of all the unhappiness. All these mysterious circumstances will be cleared up by the approaching trial.

Miss Merritt has written a three act don-Mackenzie, Major Keefer, Mr. NATIVES OF CHEMNITZ ARE FOND OF DOG MEAT

Believing It Has Properties That Will Cure Lung Disease.

In order to gather facts concerning the consumption of dog meat in Chemnitz, a correspondent of The Berliner Tageblatt visited the slaughter houses of that city and found that dogs and horses were slaughtered there, but that dogs were not eaten because of of the poverty of the people, but because of their superstition. "It is a popular belief among the people of this place and the surrounding country," he writes, "that dog meat and the fat which comes from dogs have curative properties for people suffering from lung disease." While there are many consumers among the poorer classes, the investigator says that he saw automobiles stopping at dog meat shops to take home choice bits. In describing his visit to the slaughter houses, he says, that the horses, when slaughtered and hung up, do not lose their shape, as do the oxen and pigs. The long neck and shapely legs of the horse shape, as do the oxen and pigs. The long neck and shapely legs of the horse lose nothing even when the skin has been removed. "The dogs which I saw hung up were not skinned, like the other animals," adds the correspondent, "and I easily picked out wolfhounds, great Danes, bulls, etc. Pet dogs are much in demand, because they are usually fat, and dog fat is valuable." Before the writer had finished his rounds he had eaten horsemeat sausage and dog-meat hash, both of which he pronounced "very good."

FEATS BY HUMAN WATER RATS

The Thames has been the scene of some remarkable swimming feats, one of the most astonishing being that of Mr. Holbein, who swam up and down

performed a notable long swim in September, 1884. Starting from the East Pier, Southsea, Mr. Davenport crossed to Ryde Pier, and then returned to Clarence Esplanade Pier without resting, the double journey in a choppy sea occuping 5 hours 25 minutes.

The swimming performance accomplished by George Shine, a veteran of 55 years of age, is certainly worthy of record. Shine swam from Woolwich to Gravesend, a distance of 18 miles, in five and a half hours. At the finish he was quite fresh, and got into the boat with very little assistance. Seven years ago Shine swam from London Bridge to Woolwich.

The male sex, however, cannot claim a monopoly in regard to long-distance

The Toronto Sunday World

(Copyright, 1910, by The North American Company.)

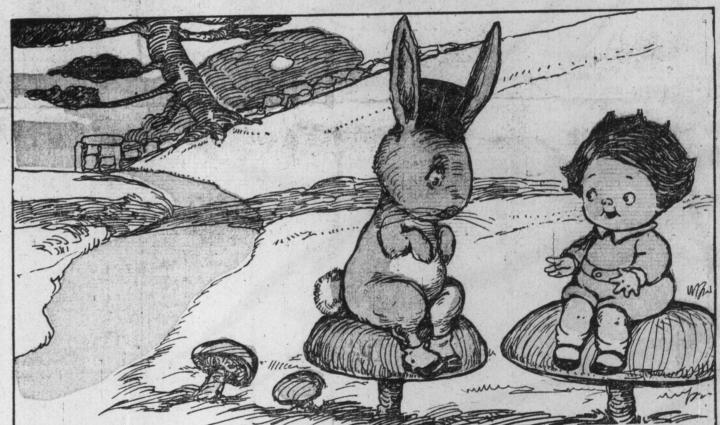

My daddy's a n'orful wise person. He knows lots o' fings, an' he telled me 'bout a little girl name o' Alice, what wented froo a lookin' glass an' sawed lots o' funny fings. An' one day I was lookin' at the lookin' glass in muvver's dressin' room, an' I seed a nice little door in ther', 'way back, an' I—er—I—er—I opened it an'—What-che-know-'bout 'at—ther', I'd gotted to the same place what Alice was 'at!

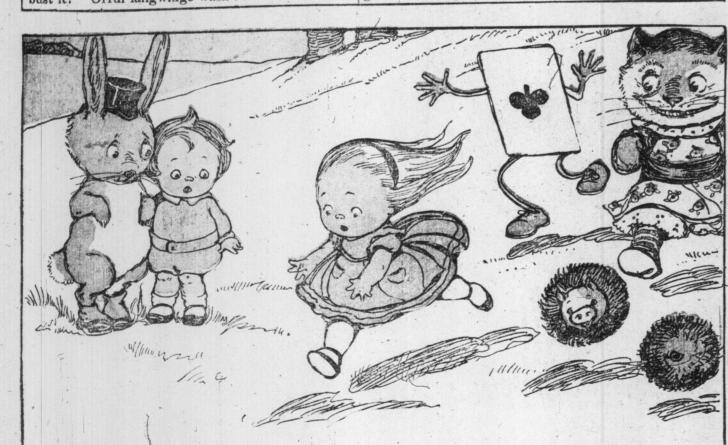

An' ther' was a brown bunny-rabbit ther', an' he had on a magniferous high silk hat. An'—an' he sed, "Hurry up! Hurry up!" An' he sed, "I'm the Mad March Hare." An' I sed, "What-che mad 'bout, eh?" I sed. "Oh! the wind makes me mad—so much dust." An' 'en a n'orful wind—a n'orful big wind comed 'long, an' we wented flyin' orf in it, licketty-kut, heels overhead, suthin' orful, an' scarin'!

An' ther' was lots o' fings in the wind 'sides me, an the Mad March Hare. Ol' ladies top-side down, an' —an' a gr-r-eat big fat mans sailin' long ther' on ther' bald-headedness. An' the Mad March Hare was madder'n ever an' he was goin' flyin' 'long holdin' on 'so his high hat, an' sayin', "Oh! ding bust it!" Orful langwidge wasn't it? 'En he sed it again, "Oh! ding bust it!"

En I sed, "You jus' stop sayin' 'at or I won't play wif you enny more." 'En he sed, "I didn't know 'at we was playin'. Was we playin'? Re-e-aly?" En I sed. "I wish this orful onpolite wind would stop." An' ther' if it didn't. Me an' the Mad March Hare was sittin' side by side on two toadstools, an' he sed, "Why didn't you wish 'at before?" he sed. "Strangers always get ther' wishes in Lookin' Glass Land."

'En he laffed, "Har! Har!" 'En he laffed, 'Har! Har!' An' I sed, "If you don't stop laffin' I'm goin' home." An' then ther' was a p'rade. A dressed up laffin' cat, an' some hedge pigs rollin' 'long like crokay tennis balls, an'—an' some cards like muvvei's bwidge party cards, wif legs on to 'em. An' they was all o 'em chasin' a little girl named Alice. An' the Mad March Hare almos' gotted her, an' she sed, "Help Hel-lup!"

An' I sed, "Get 'way ther' all o' you! 'Cause I'm Kaptin Kiddo." 'En they was all o' 'em orful scared an' they wented 'way from there quick. An'—an' I tooked Alice home wif me froo the lookin' glass into my muvver's dressin' room. An' nobuddy was home, see, 'at day, so nobuddy seed her but me. An' she kissed me good-bye an' wented home to her own house, an' she sed, "Fank you, an' Saddy, an' good-bye, fer savin' me, Oh, you Kiddo!"

THE sleeve of raglan or kimono cut is coming again. In fact, it is with us, and we have the advantage of having partially mastered it during its last stay.

It is none too easy of accomplishment is advantaged in the same too easy of accomplishment. ment, and there is no cause for self-

dissatisfaction on the part of the amateur who is not wholly successful in her first attempt, for this loose type of sleeve requires expelience.

It needs, too, a certain breadth of shoulder, and should be avoided by those who would gain width, in effect at least. The raglan sleeve has, in the main, a narrowing effect, but is admirably suited to the woman of confectable. suited to the woman of comfortable proportions

and generous shoulder measurements.

When made with embroidered or galloon bands it is at its best. There is one on the page showing almost an embarrassment of riches, except for the fact that its decoration is justified by

the elegance of material.

This waist is of the simplest possible cut, the goods being folded over the shoulder, the neck cut out and an under-arm seam so taken as to leave

room for arm movement.

Simple in both material and design is the little white frock of cotton voile embroidered with ailk floss. This bodice is more ample, and its pattern shows almost a bias line from waist to edge of sleeve.

Lemon-colored chiffon forms the sleeve of a perfect creation in white, embroidered with yellow floss in long Japanese stitch. This separate sleeve is slipped on, like an after-thought, over the sleeve of lace, giving a bolero effect, but it is cut with a single under-arm seam, sewed together after ample room has been allowed. By a too-close fit this particular type of sleeve loses all of its grace.

In gray striped marquisette there is shown a model with folds over the shoulder. One width of material is basted into wide pleats and thrown over the shoulder, a plain, unpleated of the striped marquisette there is drawn round the arm and since tightness is not compatible with the raglan sleeve, a straight, narrow gore, like the under-arm gore of a bodice, has been inserted with great care as to its perfect smoothness at the corners of the joint.

A very loose model of light cloth carries with it much style. This sleeve is cut separately, but the garment preserves the seamless quality of the raglan shoulder. Its sleeve is set in under a braided and blocked armhole.

There are 'a hundred variations of this loose shoulder effect and there may be any number more, since they must

Paardeberg-By One of the XIX Brigade

SUNDAY MORNING

ground to reinforce an attack which has failed. Every step of the way, brings home the unpleasant fact that you are on the same task in which others have failed. On everyside you see stricken comrades, few of whom know from what direction the hurt came. You see the chum of a life-time throw up his hands and spin around to fail dry-lipped and motionless, you see the officer leading you, give a sudden hurgle and totter at the knees, the while he tears at his throat laid open by an expanding hullet, and all the time you see nothing of the enemy who is working all this havoc. You

a few turned their tense pain-drawn faces upwards and cheered us as we assed by, or stepped gingerly over them.

I know of pethic them.

I know of nothing which saps the courage, and unnerves the boldest more than a long advance over any last assigned them.

Boers Caught in a Trap.

"The Boers," he said, "are caught like rats in the river bed. One determined charge with the havened to be a second or control of them.

courage, and unnerves the boldest mined charge with the bayonet and more than a long advance over open the fight will be over. The first man ground to reinforce an attack which inside the trenches will win a 55 note."

who is working all this havoc. You holocaust of leaden hail commenced are ready and anxious to deliver your Men bent their heads and staggered fire, but there is nothing to fire at. onward as the facing a blizzard. The It is uncanny this silent death which fire of 4000 rifles was concentrated on

land Brigade, and events would shape themselves sconer or later. Over our heads played the guns of a couple of field batteries; played with a bad aim, too, as we thought when shell after shell spluttered in amongst the ranks. Afterwards, we learnt that the gun-

What Wemen are Doing for the Advancement of Civilization -- Suffrage

BY FLORA Mac D. DENISON.

I have spent a good many hours. It was with unusual regret that we with the overall makers of To- heard of the death of the Rev.

after thousand the casino makes in this way, with no risk at all.

It is different, to a certain extent, at Monte Carlo, as the casino puts up money at roulette, but the money at roulette, but the money would not be put up unless an endless series of precedents proved that it paid in the end. In addition to this, it generally pays in the beginning, and at every other stage as well, the 'distance of Music, assisted by Mr. Armstrong, baritone, and Miss Olive Blain, planist, Miss Meredith-Smith played Rubinstein's sonata op 12 and Mendelssohn's concerto in E minor, and several lighter pieces.

During the floods in Paris the greater part of the city was in darkness, owing to the failure of the electric light M. Branger of the Branger Proto Press, devised a novel scheme for obtaining his own electricity. He man-Sealing wax dissolved in gasoline makes quite a good varnish for terminals. A little linseed oil stirred in will prevent brittleness.

"He's a slave that dare not be in the

I'd rather be in the shoes of the abled to enlarge and enrich their lives striking operators than fear-stricken into silence as some of our members. A less earnest and conscientious

There are a whole lot of people who are "scared stiff" over the other fel-low's opinion. They are afrad to express an honest doubt for fear of of-fending some one when that very doubt would mean growth and progression. They do not be leve in the custom of what would the church people think!
I met a woman the other day who
'ocked worried to death. When I asked what her trouble was she confidthied to be sympathetic and suggested that house work was a hard proposition. The exclaimed: "Oh. it's not the work that I mind, but it's so awkward to open one's own door to callers, and she looked on the verse of pervous prestration. Then I thought of Susan B. Anthony and Dr. Emily Stowe-women who had cooked and washed and sewed and opened doors for all women to pass thro, and who are onered by the great and good everywhere. It is easy to conform; it is easy to avoid criticism; just be noticed. ou will never know the meaning of. 'speedy recovery,

Kingdom in it's accustomed place last week which reminds me that I made a mistake when speaking of Kit's jouranlistic career. It should have read "twenty years" instead of "twenty-five."

But what matter, Kit will always look at life thru eyes of youth, and laugh with youth, with heart of love.

The United States is celebrating the ninetieth birthday of Susan B. Anthony. It is four years since this great woman passed to a larger life and her last words have been an inspiration to thousands to greater endeavor "Wo-man's Suffrage is coming; no power on earth can stop it; but the time of the coming will depend on the devotion of women themselves."

The work which H. M. Fletcher has done in Toronto should give him the appreciation and hearty thanks of all public spirited citizens. Many young men and women, whose lives are not strewn with roses, have had the world

man might have slighted his work in both Choral Union and Schubert Chefr, thru his great grief in losing his brilliant and beautiful daughter but cer-tainly last week showed even greater attainment than ever in the work done by him. The value of such a man to the comunity can hardly be estimated for along with able voice culture Mr. Fletcher never loses an opportunity to impress upon his pupils the ideas of character building, the great reason, after all for our little lives here, The reception given Mme Jomelii,

the Heliconion Club was a bright affair, being thoroly enjoyed by the distinguished prima donna,

We are lioping that good news will come from Dr. Anna Shaw, for the suffrage movement of the world never needed her more badly than it does now. There is no woman more able and just when the National convention is being prepared for with its tremendous program, her efforts, and her ability is of fi st importance. For many been anxious about her health. She months Dr. Shaw's near friends have thing, do nothing, say nothing; but never spared herself, with the result here will be whole worlds that you that the has been woefuly overworked. will never enter and exquisite jovs. We send her our best thoughts for &

Mr. Murray of London. England, is about to publish int his Wisdom of the Last series, "The Master Singers of Japan," by Miss Clara Walsh. This is Japan," by Miss Clara Walsh. This is the first attempt hitherto made in the Line first attempt hitherto made in the Line first language to give the public a language to give the language to give Japan," by Miss Clara Walsh. This is the tire first attempt hitherto made in the binglish language to give the public a comprehensive authology of Japanese verse, amongst which are poems by the Emperor and Empress. The book covers the period between A,D, 629 and the present day; and Miss Walsh is indebted in the preparation of it to many distinguished Japanese scholars.

Out of the thousands of new English books published during the past year. "The Nation." of London, distinguished by the discriminating quality of its reviews, selects but sixty-four as worthy the description, "more notable." The guiding principle in compiling its list was to include only books of some permanent value as contributions to the subjects with which they deal. The numbers in each of the nine classes were as follows: Biography, 7; Criticism and Belie Lettres, 12; Drama, 4; Fiction, 7; History, 19; Philosophy and Theology, 10; Poetry, 5; Sociology, Economics and Politics, 7; and Travel, 2. The autobiography of H. M. Stanley, and two books of travel. Trans-Himalaya." and "The Heart of the Antarctic." mentioned on this page last week, are included among the notables.

Her 'Village Artist' is a novel of and an apparently conscienceless, for which excels it.

Her 'Village Artist' is a novel of and an apparently conscienceless, for the same of the same o

HILLTOP SONG.

And up from the rock-ridged pasture slopes
The sheep-bell tinklings steal,
And the folds are shut, and the shepherds
Turn to their quiet meal;

Mount, like prayer, to the sky

The Sky Pilot Of the Camps

His Preaching His sermons haven't am with Higher Criticism chapters of Genesis. They from the shoulder and my then a wilderness. There was no school, so the boy got no schooling. At eighteen he was converted. He determined to become a minister. At twenty he started to school with little children in Toronto. He spent three years in the public school, then two in the high school. From that he went to preaching as a lay worker in Minnesota. Two years then of University work and he entered regularly the Presbyterian ministry in

Story of Rev. Francis Higgins—
"Sky Pilot" to the Minnesota
Lumber - Jacks—His Career
and His Work as Told by
Norman Duncan.

Francis Higgins was born in Toronto in
1865, the son of a hotel-keeper. To-day,
he is "skypliot" to several thousand
lumber jacks of the remote Minnesota
woods. The story of his work is told by
Norman Duncan in "Higgins—A Man's
Christian," and I have met no more human document than that same little book,
in many years of reading.

The author, Norman Duncan, visited
the lumber woods and saw and heard of
the work of this man. This work is
described by one of the rough and ready
parishioners thus:
"Higgins job is keepin' us boys out of
hell; an' he's the only man on the job."

Struggling Upward.

Higgins is a man of resource, else,
probably, he might never have been more
than the source that the semental than the first chapters of Genesis. They are straight

the case of a dog that threw itself into the canal Saint Martin at Paris, and did not try to swim, because its master had punished it. In 1908, not far from the observatory in Paris, a dog was seen to deliberately run in front of an omnibus and throw itself beneath the wheels—and throw itself beneath the wheels—which will prove of great relief to me. and throw itself beneath the wheels—
its mistress had died. Here was evidently not only despair, but deliberate premedliation and determination to end all.

I wish, however, to call the attention of my readers especially to the dog's power of smell. This seems to be its dominating sense. In man vision is the leading sense, for most of our sciences are based upon optical observation. Even our passions are largely controlled by this sense, love especially.

If the dog had the power of classifi
The dog had the power of classifi
"I may add that if, at the tune you receive this, you have with you a visitor whose head is of much more than usual bigness; and if you think that by some ingenuity of yours you have with you a visitor whose head is of much more than usual bigness; and if you think that by some ingenuity of yours you are get a measurement of the size of his head, you may keep back my messenger a little, so as to get and send used the measurement; and I will end the deal of the measurement. The measurement is a proposed to the control of the size of his head, you may keep back my messenger a little, so as to get and send use the delay, as that is important. The dog had the power of classifi-

If the dog had the power of classification it would give the first place to the sense of smell. The dog does not know its master, its friend or its enemy by sight, but by smell. The dog possesses faculties of which we have little not to the desk, he wrote with a glow of what was the control of the property of the sense of smell. The dog possesses faculties of which we have little not to the desk, he wrote with a glow of what was the control of the property of the sense tion. A dog brought from Paris to London returns home, we know not how.

But that the dog is possessed of a high lice:

"I—canno returns home, we know not how.

But that the dog is possessed of a high lice:

CHANGE OF DATE. Mr. Arthur Blight announces that the recital which was to have been given by Miss Lillian G. Wilson and Warren I. Walker, on Feb. 7, will take place in the Margaret Eaton School of Expression, Monday evening. Feb. 28, at 8 o'clock.

OH YOU CRITICS!

Strauss's music ("Elektra") may be of the kind appropriate to an era of air ships and gyroscopes, of submarines and wireless messages, but it is not easy to recognize in it an impulse of healthful expression or an art that is likely to live. New York Sun

"Let us not question that Strauss' Electra' reveals an even more astonishing command of orchestral technics than Salome." This virtuoso composer's resources, apparently, are unlimited, and if he cannot suggest quite as much thrulis music to the professional straight of the comments of the salore than fault either with the extremely poly-phonic idiom of expression Strauss has made his own, nod lay too much stress on his fondness for what is sheerly ugly. The medium of expression, after all, is comparatively unimportant and genius may make itself quite as conspicuous in dealing with themes that are disagreeable as with subjects that are pleasant."-New

MELBA'S BIRD.

Here is a story of Nellie Melba, told in The New York Telegraph:
She used to live in the Netherlands. There was a sick child lying bedridden in a toom which opened on to the same corridor as did Mme. Melba's apartment. At least every morning did the prima domnal practise i'er runs and trills, and the suffering little one listened in wonder to that mest amazing of volces.
The time came when the child got better and was able to walk about the room, and one day its mother said: "My child, is there anything particular you would like to do to-day? I shall grant your wish."

"Yes," said the little one. "I want you to take me and show me the bird in the lady's room."

"READ THIS.

Why Critics Disagree and Other Musical Queries

With Pertinent Answers to Correspondents By Dr. J. D. Logan.

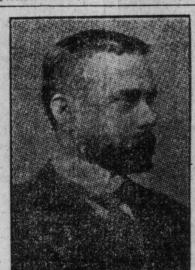

Almost every week the Musical Editor single phrase, by Affistotle, the father of receives letters from those interested in criticism, over two centuries ago. ticism. over two centuries ago.

receives letters from those interested in music asking him to explain certain difficulties they experience in understanding and appreciating tonal art. The editor is very glad to do his best to answer these questions, but most of the queries are so recondite that the only adequate explanation would have to be given viva voce or in a long written presonal communication. However this week I shall attempt to answer in a sort of connected way two or three of the more generally interesting questions.

1.—Why Critics Differ.

One correspondent says that he reads the edifferent papers but why, he asks, if each is competent to judge, does one write adversely of a performance and another compilmentarily? This conflict amongst those supposedly wiser than others in musical appreciation leads the public to believe, he submits, that the critics themselves don't know what they're talking about.

There are two answers to our cor-

Mischa Elman a

Young Russian Violinist Rises Nobly to Test Imposed by Notable Audience

The feature of last night's operatic ist, Mein Herr Blumenberg?" concerts, says. The New York Telegraph, was undoubtedly the playing at the Manhattan of Mischa Elman, the young violinist who is destined to set all the rivers of America afire, from the Hudson to the Sacramento.

The playing of this young genius has already met with due appreciation in these columns. Nevertheless his appearance before a popular audience such as gathers at either of the two opera houses on Sunday night was a decisive test of the breadth of the appeal of his consummate brilliance A few operatic pundits were sitting over and his absolute humanity to Ameri-

Music Epigrams

If music is too complicated it confuses the listeners,-Goethe. All Art constantly aspires tow-

ards the condition of music. -Walter Pater. Music is at once both an Art and a Science; by its results it is the one, and by its processes the other.-Fetis.

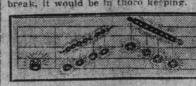

Music conveys the suggestions not of mere objects which may have awakened emotion, but of emotion itself.-Vernon Lee. Of all Fine Arts, Music is that which has most influence on the passions, and which the legislator ought the most to

encourage.-Napoleon.

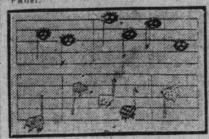

MUSICAL REALISM

By Harvey Peake in Judge. In these days of realism and art con-sistency, why not make our musical scores typical of the accompanying? For

For scintillant, glittering operatic arias what more appropriate notes than

Anything that is forgotten in the way Concert Feature of stupidity by the author of the short story, "The Chosen Instrument" (Everybody's Magazine)' may be found in Mrs. Atherton's new book, "Tower of Ivory," which makes "revelations" concerning the career of an Isolde singing soprano with a shady past.—Musical Courier, "The Chosen Instrument" is by Samuel Hopkin Adams, and is a very excellent musical story, and contains a very beau-tiful interpretation of the meaning of the final lines of Browning's "Prospice." But that aside, what kind of a voice is 'soprano with a shady past?'

RAWSTHORNE SLACK. Celebrated Dramatic Baritone.

Mr. Slack, who is a favorite throut Ontario and the border towns, comes from a distinguished musical family of Manchester England, his grandfather having been organist and cholymaster of one church for 65 years, while his father was one of the most noted English baritones. Mr. Slack has been soloist in St. Anne's Church, Toronto, since 1996, but resigned recently to engage solely in concert work. He has a baritone voice of exceptional power, with a clear range of over two octaves. His tone is round and resourant and his enunciation pure. In conresonant and his enunciation pure. In concert work, like a true-born Englishman who knows the sea, he makes a special of patriglic and sea songs. the heavy dramatic style.

His Good Work Is Appreciated

Max Fiedler, Noted Conductor of Boston Symphony Orchestra, is Retained for Two Seasons More -Begun Humbly and Finishes Brilliantly.

Love songs would inspite their singers with so much more fervor any passion if the notes before them were in the form of hearts. Then, too, if a high note of this particular kind should crack and break, it would be in thore keeping. he re-engagement of Mix Fiedler as con-

This is Mr. Fiedler's second season in Boston. He first arrived in the fall of concerts of the New York Philharmonia Orchestra in the season of 1915-06, but his cusagement by the management of the Boston Orchestra, as must inevitably be the case with a new figure in the musical life of a city, was partly in the nature of an experiment. The experiment has proved an emphatic success.

ini." by Michael Banner, the well-known vlolin virtuoso: "American Students' Waltzes," by the New York Military Band, and "Balmy Night," by the international famous Vienna Instrumental Courtette, Harry Lauder contributes his two very latest songs, "The Bounding Sea" and "When I Get Back Again to Bonnie Scotland," to this list, and Swella Maybew is heard in a screamingly funny descriptive song entitled "I'm a Woman of Importance," while other offerings are "Conversations" by Edward M. Favor, a monologue by Murry K. Hill, "Put on Your Old Grey Bonnet" by Frederic H. Potter, and "The Hat My Father Wore Upon St. Patrick's Day," by Billy Murray.

The two-minute list is made and attached less night.

—Shakspere.

Messrs, Moffat, Yard & Company have published the late Frederick R. Burton's "American Primitive Music," with special attention to the songs of the Ofibways. Burton was identified with this question of Indian music for a long period and wrote compositions in the Indian spirit, as it is understood. In this book he has a lite of the published the late Frederick R. Burton's "American Primitive Music," with special attention to the songs of the Ofibways. Question, What is a Chassis?

in Motor Car Journal (English) it appears that some uncertainty exists them in makers' or importers' lists. Most persons seem agreed that steps, mudguards and other accessories ap-pertaining to the body work are not be expected with a standard quoted chassis. There is, of course, someof a set of tires in a chassis purchase. Down to a year or so ago much more might have been urged against their inclusion because, while the consensus of trade practice was to include the tires, it was almost as often the exqual to the weight of the vehicle and as an accessory stronger tires, or alternatively, by some equivalent means bringing it to the purchaser's notice certain value, and a limitation that were for himself & determine should or should not be obviated at an added cost to himself. Present practice is ore or less uniform in the matter of tire sizes for a given category of car. manufacturers, who indirectly have brought it about by the steps they took to prevent the unfair exploitation of their wares in the manner indigated. That the question of the inclusion or non-inclusion of tires as a standard part of present day chassis has now been raised is partly due to the effect of the tire compaies' action, and largely to the stress of competi-tion during the particularly bad and recent period. There is no doubt that nevertheless, it is of interest as show precedent counts for much when dis-

From a discussion recently closed putes are referred to the courts, and there is equally no doubt that precedent as to the issue in question is on the side of including tires as a standeven in the trade as to the limits of a chassis, styled and purchased as such. A perusal of the interesting correspondence referred to shows that the issue really centres in the question as to whether tires are to be considered as an intrinsic part of a chassis in the absence of any special reference to, or scheduling of, arately assessed, the sartorial trade might tacitly decide for a common rule in respect of the garments for both sexes. It takes time to establish a precedent having the sanction needed to invest it with a judicial worth, but it takes even longer to upset a precedent once accepted as a rule. Applying this dictum to the case of the tire, and having regard to the circumstances that brought about the recent departure, it may be doubt-ed if a sufficient reason exists for despeeds expected by the purchaser, in the absence, of course, of a direct licine the practice grew of listing contrary by the selection of the course, of a direct intimation properly promulgated to the chase sum for a chassis is to be taken to include all appurtenances necessary to enable the machine-for such a chassis is until it is transformed into a carriage or other distinctive type of vehicle-to be adequately tested. chassis without tires cannot be run, and as such lacks one of the essentials to the purpose and style of its construction regarded as a piece of mechanism, carrying an implied war-ranty of suitability for the purpose intended. No one would contemplate the purchase of a tire-less horsed ve-hicle, why then exempt a mechanically

FORD CARS AT THE AUTOMOBILE SHOW

Automobile Show Week is Ford Week in Toronto. Besides the big exhibit of Fords in space 28-30 at the Show, we keep open house at our Branch, 53-59 Adelaide Street West. We cordially invite you to call on us at either or both exhibits, promising you a surprise that will make it worth while.

Most of us have a hankering. secret or otherwise, for an automobile. So have you. Then, why haven't you already bought? Is it because you feel you cannot afford the price? Perhaps two thousand dollars is beyond your means, or one and a half thousand, but why pay that much? Eleven hundred and fifty dollars buys a completely equipped, roomy, powerful, durable, reliable, fine appearing, five passenger Ford Touring Car.

Does the upkeep cost bother you? It is a heavy-weight car that makes a light-weight pocketbook. The cost to move any load varies almost in direct proportion with the weight of the load. The Ford, because of its light weight, costs less to keep than does a horse doing the same work, for the horse eats regularly whether you use him or not. If you can afford a horse you can afford a Ford. This car runs from twenty-five to thirty miles on a gallon of gasoline, will average over ten thousand per set of tires, and will cost but a nominal sum for repairs.

So don't forget the place or overlook the invitation. 28-30 at the Show and 53-59 Adelaide West are the places. and the invitation is to you. If you already own a Ford, come in and see us, and find out about the 1910 improvements. If you do not now own a Ford, come in just to investigate the line. There are surprises in plenty in store for each of you-perhaps it may mean a thousand dollars saved and a score of dollars every month afterward.

53-59 Adelaide St. West, Toronto

Four-Cylinder Reo \$1500

Thirty horse-power-fifty miles an hour

An Engineering Victory

It is comparatively easy for a maker to build a car that will "do things" if he puts enough money and weight into it. But money is money, and weight is money, too-money for big and quickly-worn-out tires, money for more fuel and expensive maintenance.

The Reo is a truimph of engineering. Mr. R. E. Olds is a genius at doing that very difficult but useful thing-making a car of very high quality at low cost. The Reo is full of cost where cost earns its money, and full of economy where economy counts. It has the remarkable get-there-and-back ability of every Reo ever built; it is powerful, light, buoyant, graceful efficent, comfort-

No car at \$2000 is equal to the Reo at \$1500. You must pay \$3000 for its equal, and then you have expensive and unnecessary weight.

How this victory was accomplished is explained by text and picture in the Reo catalogue. Send also for "Number 31" the story of "New Yorkto Atlanta."

Seven or eight years ago not one man in a hundred ever thought that he himself would ever own a car. The Tononto small boy was provided with endless amusement by the few primi-tive machines that were in use in the enty. He would watch with derisive glee the common sight of some unforturate driver trying to persuade his single cylinder froak to move forward. e-day a man may waik the Toronto streets for a month at a time without seeing one of the thousands of cars

First Days of Show Indicate To Automobile Makers, Owners and Good Roads

The good roads convention may be said to be a sort of climax to years of agitation for improved highways, and in the advocacy of which this newspaper has taken an important part. The broadening markets for the automobile has been recome an active advocate of good roads. In the past he had evolution. Millions have been invested in the automobile industry and millions more are going yearly into motor propelled vehicles. It is one of the great industrial and economic wonders of the times. The World recognized its impending importance years ago and realizes that in giving wide publicity to affairs of the automobile world and good roads movement it is fulfilling a duty more, than ever within the scope of present-day journalism. Automobile makers, good roads advocates and business men will find in The Daily and Sunday World an authoritative record of this department of news, views and comment.

Greatest Feature

Greatest Show AN UNQUESTIONED TRIUMPH

The Russell Exhibit is a Revelation

THE RUSSELL CAR has come into its own. Never before at any Automobile Show has a car been so singled out as the one greatest feature.

And why is it such a sensation? Because close comparison can be

There are other good cars, but none like the Russell. In no other make are combined all the good points of superiority. It is a wonderful vindication of the Russell policy—the policy of depending not upon one or a few good features of established value, but upon a COMPLETE proposition without one weak point.

What car can match such construction—such quality of material such painstaking workmanship!

What car can excel the magnificence of style—the luxury of finish—the

When you look ...ese cars over, take in all these points and then think over carefully the following facts:-

1. Specially designed to meet our road conditions. 1. Made in Canada in one of the best equipped factories in

in use here make an involuntary stop.
Transportation is the great problem f modern life and the auto has solved . Every man must get about quickly, neaply, and if possible independently of his neighbors. For years any vehicle that could fulfill these conditions was unknown. Then came the motor car. The fact that it so readily solved this problem explains the pheomenal increase in the manufacturing, selling, and use of the automobile.

And there is no doubt that the motor car does appeal to everybody. A few last three years. years ago it was exclusively a rich man's luxury, now it is within the reach of the moderate income. This is proved by the cars shown here this week. Every manufacturer with but few exceptions is trying to lower the price of his product and at the sametime produce a car that will give unremitting and inexpensive service. From the limousine to the runabout, from the five ton truck to the light delivery wagon, prices show a marked decrease. This decrease does not mean a lowering of the quality of the product, it has been achieved by the enormous production of one type of car from one factory, by better design, and by the elimination of unnecessary, expensive- and cumbersome details.

Like the New York and Chicago erate priced car for its leading feature, Racy and powerful runabouts, roomy from \$1000 to \$2500. There are no freak machines: their day is over. manufacturers have found the best way of doing everything and they all follow it. This of course is to the advantage of the user.

The up-to-date auto buyer knows also among the victims. what he wants. His questioning of the salesman is intelligent. He understands a good deal of the technical side of the auto. Ontario's Greatest Automobile Year

By all indications this is to be Canada's greatest year for automobiles. The thieves made a practice of stealing even articles of small value, such important being in our estimation the reduction in the reduction. important being, in our estimation, the reduction in the price of all the ordinary every-day serviceable machines. As one man put it the other day, darling wife." Sliver toilet articles a dollar goes further in purchasing automobiles this year than ever it did before; while in nearly everything else a dollar buys a good deaf less than between Paris, Berlin and Switzerland, it did last year or the years immediately preceding it. Real estate is dearand they were so adept that in every er; the cost of living has increased; railroad freights are higher, and all along the line there is a stiffening of prices, with the marked exception of

For \$1500 this year you can get a machine that you could not have bought two years ago for \$3000, and for \$700 you can get a runabout that of jewels. A German baroness, a bought two years ago for \$3000, and for \$700 you can get a runabout that Russian princess and several wealthy two years ago would have sold for \$1500. Not only are they cheaper, but The police authorities at Berne, work- improvements on what they had two years ago: so trut not only can you ing with the police at Boxen, eventual- say that the automobile prices have been cut in two but also that the efficiency and quality have been almost doubled. That is the first great fea-

Next, the good-roads movement has made some headway. People have learned more and more of the utility of the automobile, and, with the steady improvement in roads, its range of usefulness is steadily widening. It has also been found out in Toronto, as we have pointed out in these coltown, and that ordinary machines have no difficulty in getting over the connected with the H. H. Franklin show on the streets, and we hope that soon they will be able to get over the Manufacturing Company of Syracuse. country roads. What autoists are finding out is that the best road of all would do credit to the most exclusive ball-room. In America to-day there are thousands of these salesmen, well from Ralph Owen, who is its general some kind of roller driven by a motor. some kind of roller driven by a motor.

Another marked feature to stimulate the automobile industry is the success of the motor truck for business in the city. More and more trucks of all kinds are being ordered by the merchants and manufacturers. They now see that they can do more and better truck work for less money by \$ machine than they can by horse-power.

The auto car has also come into the service of the professional man, especially the doctor, and all this is preliminary to the ordinary every-day man having a substantial runabout machine of his own. The farmer will soon be the biggest buyer of all.

These are only a few of the things that go to indicate that Ontario, with Toronto as centre, will see its greatest automobile year in 1910.

All the indications point also to a great increase this year in the manuacture of cars within the borders of Ontario. We have now quite a furmer of new factories, and others are in contemplation, and we would not he surprised if foundations for large establishments were labil this year, 80 as to share in the market of 1911, which a still greater increase in the acmand for automobiles will create.

country brawn.

We swung off up the hill from fashionable Sherbrooke-street, mourfashionable Sherbrooke-street, mountainward, tuques or ski caps pulled tain with an unsteady, lunging gait, plerced with its thrusts thru fiannel blouses and sweaters. Hugging ourselves for warmth, we exclaimed severally: "What a blow!" "Woof! but it's cold!" "Mon Dieu, what a suffocating wind it makes!"

On reaching Proceed with the mountain gait, Suddenly we noticed that no more snow was falling, and faintly the sun crept out from where he had lain in hiding during the storm. Tho the wind staggered and blustered as much as ever, the blizzard had tired itself out. tained as a park and playground of several thousand acres, with its woods and its drives, it will become more than ever to the people an organ of health, a preserver of country stature and of

snowshoe trails, the Park Toboggan Club, ski tracks and bridle paths. Many prefer merely to witness the

a tragedy had no one invented snow-shoes; these clumsy-looking objects with oval gut-strung bodies and the tapering wooden tails are not only in-struments of pleasure, but of dire necessity outside of towns. There the necessity outside of towns. There the villager has to walk over four feet or so of level snow to get to his henhouse. Before using snowshoes I wondered two things about them; whether they would seem a heavy load for the foot to drag, and, secondly, how, in spite of moccasins, would one's feet keep unforcement and often in the snowfound, in answer to my first ques-loning, that they were no more cumpersome than heavy boots. As for cold warm, especially going up hill hen they can grip thru the square pening purposely left in the gut and each for additional support in the

We of the expedition were hunting for a wild and unfrequented trail up the mountain off the broad carriage drives that branch from Pine-avenue. But we need not have feared a crowd, for no one was in sight—no one on raquettes, at any rate. The snow, like unending swarms of feathery white flies, skimmed noiselessly about us on ne wind, filling even the pockets of our

We out-hooted the wind in our scorn at doing anything mentally improving in such a glorious blizzard. Eventual-ly as we wound up thru passionless woods of pure birches, and on, single "states."

March in a Blizzard.

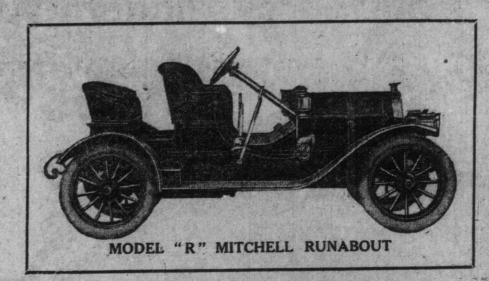

Many are the torchiit snowshoe parties that are made up for a tramp on fine moonlight nights. But this of which I write is a humble expedition, accompanied neither by torches nor escorts, but nevertheless much appreciated by the damsels three who are determined to set out upon it early one afternoon during a madcap March blizzard. One was a jeune fille from France, energetic enough to make anyone deny the assertion that French girls are only entities of languorous charm and "frou-frou." Another damsel, the Canadienne, was dark, big and splendid of build, full of enthusiasm and kindness. The third on the list was a plain Yankee.

It took us some minutes to adjust our It took us some minutes to adjust our "raquettes," or snowshoes, minutes in which stiffened fingers fumbled with stiffer straps of the light harness and buckles displayed a perversity unusual even to their kind. The snowshoes must be fastened on securely or woe betide the unfortunate wearer who loses them in a drift or on a slippery slope!

City in Miniature.

I don't recall in our discussion whethfashionable Sherbrooke-street, mountainward, tuques or ski caps pulled well down over our ears and sweater collars pulled well up over our cheeks, for the wind relling around the mountainward, tuques or ski caps pulled with "wicks" or the "straps" won; probably a heavy gust of wind blew out the controversy before it was legitimately concluded.

THE 1910 "MITCHELL"

We are showing a splendid line of Mitchell Automobiles for 1910. These cars have attracted the eyes of the motor world at the recent shows in Chicago, New York and Buffalo, and will be a feature in the Toronto Show. The Mitchell was the largest seller at these exhibitions.

Model "R" Mitchell Runabout is 35 horsepower, folding glass front, pantasote top, complete, \$1,535.

Model "S". The Mitchell six-cylinder is considered the sensation of the season in sixes. It is a seven-passenger car, 6 cylinders, 50 horsepower, equipped with Cape top, and folding glass front, \$2,750.

SPECIFICATIONS OF MITCHELL MODEL S.

MOTOR-Six-cylinder, 4 1-4 x 5 HORSEPOWER-50 IGNITION-High-tension magneto and single-coil CHANGE-SPEED GEAR-Selective, three speeds forward and reverse. SPRINGS-Half elliptic and platform. WHEELBASE-130 inches.

TORONTO

make the man then each one there, in strangely unmodern costume, is at least a fairy prince. Some are clad in tight-fitting trousers of green wool-moccasins of course—white green-bordered caps and green gauntlet mittens, with white sweaters, possibly bordered in green, too. Or the chief color scheme may be crimson or dark blue, or brown, pale blue or grey. The princesses also with their tuques and sweaters are a bonny sight. Pale blue is the prevailing color for fair damsels and crimson for the brunettes. and crimson for the brunettes.

Touches of Sadness. It is no wonder that the Montrealer loves his city. They all enjoy their mountain, at any rate. Father and mother snowshoers with little children tumbling along behind take a Sunday airing single file thru more beaten tracks, the youngsters on raquettes hardly larger than a good-sized tablespoons. Boys and girls with tobog-gans and skis or even skates slide fearlessly, and who minds an occa-sional broken arm or two?

When Pine-avenue was reached we were warmer in body but a little chilled at heart to see pass at brief intervals, toward the Catholic cemetery two sleighs—not of joy these, but rather of sorrow, And how often one does meet them when returning in a steer of both from some clarification. glow of health from some glorious walk. The first, a rich man's funeral. he hearse on runners, thick with plumes and crosses, passed; several closed sleighs followed. The second was an ordinary lifted sleigh to accommodate four people. In front was the driver, heavy featured and unpassed apparently his fur can pulled moved apparently, his fur cap pulled well over his forehead. Beside him sat a poor French-Canadian stiffly erect, and on his knee he was holding a little box-a baby's coffin. In the seat behind sat another man and woman, deeply veiled. Her head was bowed-ours were, too, for a moment as the humble sleigh of sorrow passed, At the foot of the hill on Sher-

brooke-street there was a chorus of "Au revoir!" "Good-by!" "Une promenade exquise!" "See you soon!" and the Parisienne, the Canadienne and the plain yankee temporarily parted.

POISON IN COMPOSITION OF HALLEY'S COMET

The astronomers say a spetrum oh-

tained of the Halley comet shows that

a most deadly poison is prominent in its composition. Therefore, in the opinion of a distinguished savant, as the earth is due to pass thru the comet's tail, it is possible that all life on this planet may be snuffed out. Still, it is likely that most of us will be still doing business at the same old stand after the comet has disappeared into the fathomless beyond.

Club, ski tracks and bridle paths simost into the woods of the mountain, and, leaning on the balus trusted as the balus occurring ports from sleights or the wealthy build their homes, overleoking the valley of the implify river. SMALL diamond is relatively just as good and just as valuable as a large one.

Montreal is a city full either of green

other side it climbs steeply upward-

In the same sense the Hupmobile is precisely as fine as the largest, the best and most expensive cars made.

We make the comparison because we want you to learn to associate the Hupmobile in your mind with the finest cars you know.

The Hupmobile claims the right (and that right is, conceded by discriminating owners) to travel side by side with the best products of motordom. It confesses no delinquencies; admits no inferior-

ities; concedes no advantage save size and carrying capacity, to cars costing twice and thrice its price. Observe the personnel of its ownership in your own

Note that the majority of men who drive a Hupmobile are the men who know good cars-whose private garage, perhaps, houses several fine cars of

The Hupmobile was built to fill a particular need to supply a special want-to furnish a type of car

Its creators could see no reason why a car carrying two passengers should not be just as good-just as sound and just as trustworthy-as the best big

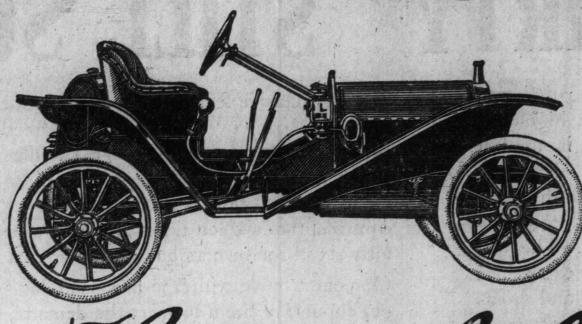

Every part that contributes to power and speed and staunchness in the Hupmobile is precisely as good and fine as the same part in the best big car. The two are mates in quality.

The Hupmobile will go anywhere that the big car will go; climb any hill the big car will climb; and do anything the big car will do except that it

will not carry the same number of passengers. Of course you want to know all about a car which has been favored with the warmest approval ever extended by the

American motor-buying public to any motor car. Even if you own a car to which you are strongly attached, you would like to have placed before you all the information which will shed light upon a condition so unprecedented as the Hupmobile has created.

And if you are wavering in your choice of a car, your de-

tupmobile,

4 Cylinders, 20 H.P. Bosch Magneto Sliding Gear

SPECIFICATIONS

ENGINE: 4 cyl., 20 h.p., 3 1-4 in. bore, 3 3-8 in. stroke: L-head type; water cooled: offset crank shaft; fan bladed fly wheel in front; Parsons white bronze bearings; noiseless TRANSMISSION: Selective sliding gears in extension bolted to crank case; shifting with-Out noise.
CLUTCH Multiple disc type; self-adjusting; enclosed in gear case; running in oil.
REAR AXLE: Shaft drive: Hyatt roller and New Departure bearings; shaft and universal join enclosed and lubricated by oil from crank case through transmission.
BRAKES: Two foot and two emergency (internal expanding) lined with Thermoid on rear hubs

IGNITION: Bosch high tension magneto, doing away with spark coil, batteries and con-TIRES: 30 x 3 inches. WHEEL BASE: 86 inches.

TREAD: 56 inches.

SPRINGS. Semi-elliptic front: patented cross-spring rear.

EQUIPMENT: Two side and tail oil lamps, dragon born, tools, repair kit, pump.

WEIGHT. 1100 pounds: regular equipment.

THE appearance of the "Hupmo-bile" inaugurated a new era in the construction of automobiles. For instance, the 4-cylinder motor (314 in. bore

x 3% in, stroke) is rated at 20 n.p. Dimensions are generous and proportionate—the carbon steel crank shaft is 14 inches in diameter with 36 inch off-set from the centre of the cylinders. The large valves (11/2 inches in diameter, 45 degrees seat) facilitate development of the engine's full power. All valves are on the left side, with spark plugs over

The most important feature in connection with the cam shaft and cams is that the valve tappets (% in, in diameter) have grey fibre inserts where contact is made with the valve stems, insuring

The Bosch high-tension magneto simplifies the operation of the car by rendering a spark control unnecessary.

The engine oiler is the most unique, and at the same time the most effective yet devised. The oil is supplied to the engine in proportion to the amount of fuel supply-automatically increasing and decreasing as the throttle is opened and closed-and more oil is fed turing heavy work and on grades than when running at higher speed on the level. A pipe from the hot water system runs through the oil box, keeping the oil warm at all times.

The intake pipe is new and has proved a wonderful auxiliary to the excellent working qualities of the motor. It is cast with a hot-air pipe in the same piece, the hot air pipe drawing air from around the exhaust pipe down to the bottom of the carburetor, guaranteeing a better mixture on account of the warm air and the fact that heated air preserves the carburctor action under varying climatic conditions.

The multiple disc clutch of ter saw blade steel plates, contained in the transmission case, rons in

The rear axie is of great strength. The exle shafts are 1 1-8 inches in diameter, of cold drawn piston rod steel journaled on Hyatt bearings at the wheels and large shim adjustment two-point bail bearings at the differential case and propeller shaft. A drop forged 40 per cent, carbon steel, heat treated. deep "I" beam section front axle, having an angle drop from the ends and the yokes forged integral, is used.

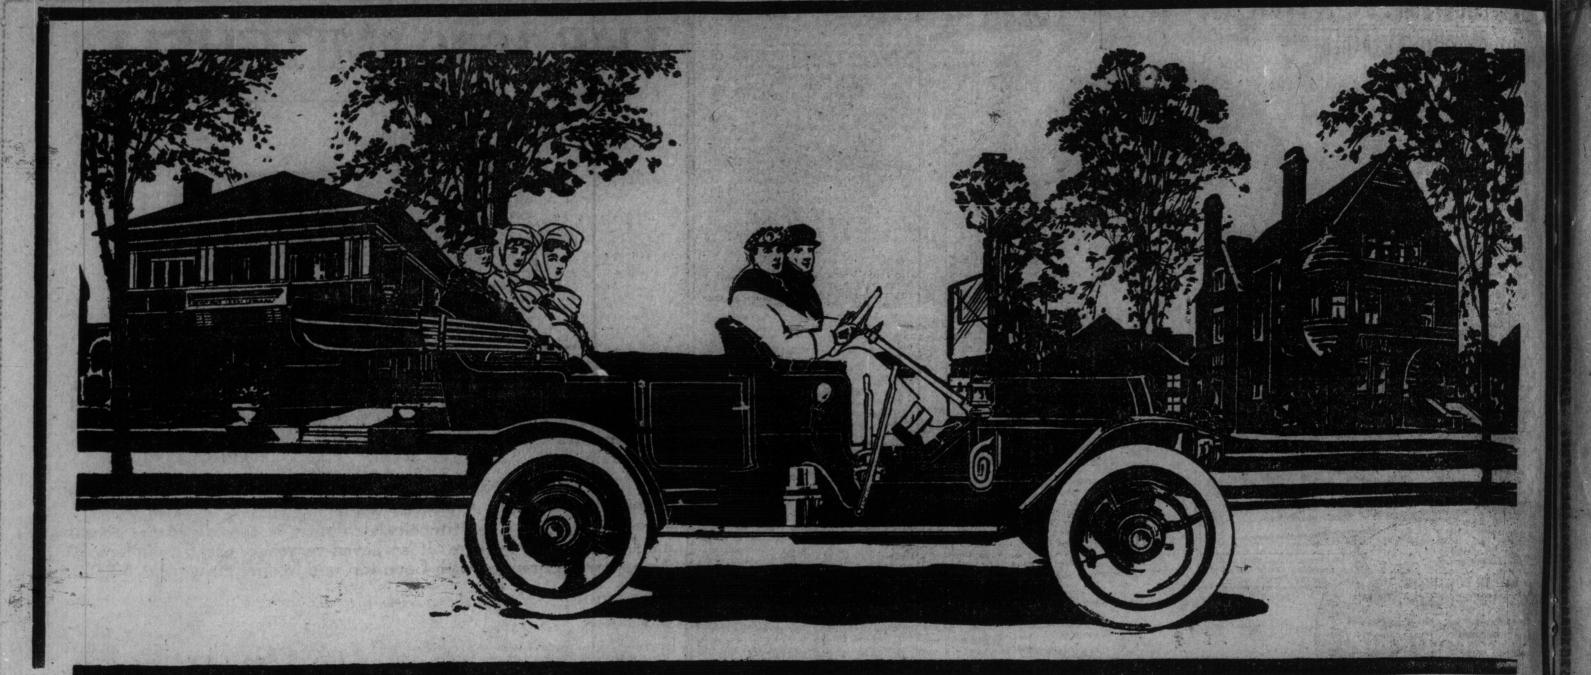

The Hupmobile enters upon its second season with a record of most gratifying success. It has achieved a greater success than any other car ever attained in its first year.

The salient features which proved so successful in the past year are retained for 1910 and the few changes made add to the elegance and efficiency of the car. While we have increased the cost of production, the added reliability and increased satisfaction to the driver will amply repay us.

Be sure to see the Hupmobile exhibit at the St. Lawrence

Agents: MARTIN AUTO CO., Windsor.

Mr. W. H. Martin's Address During Toronto Show Week is ROOM 342, King Edward Hotel, Toronto

ANOTHER HYSLOP YEAR

In the growing competition of the automobile business we are fortunate in having control of two leading makes which have "made good" wherever introduced, and which are immeasurably superior in construction and equipment to any similar cars on the market. The assurance of striking value and absolute satisfaction brought us record trade last year and gives promise of still larger increase this season. Both the Cadillac and Darracq automobile plants are among the largest in the world, fitted throughout with every facility for doing things right, and backed by ample capital and resource for meeting every requirement. The very ex-

know nothing of, and their tremendous output tells better than anything else what buyers think of the cars and the values.

From the first we have insisted on a high standard of quality and only such automobiles as could be fully guaranteed in every detail. That means maximum service at minimum cost, with practically no expense as regards repairs, and the ability to "get there" under all conditions. This assurance of satisfaction is making Hyslop cars at a premium and bringing us trade beyond our best expectations.

CADILLAC "THIRTY" STILL SUPREME

The new Cadillac "Thirty" represents more downright satisfaction for the money than has ever been attempted before in high-class automobiles, and the production of over ten thousand in the last fifteen months makes a new record for quick demand. No other car in the history of the industry has ever been built with the same thoroughness and care, equaling in design, mechanical construction, materials and workmanship the costliest machines. The Cadillac organization has for its foundation over fifty years' experience in the manufacture of fine machinery and gas engines, and holds the distinction of having produced a larger number of high-grade motor cars than any other factory in the world.

The Cadillac "Thirty" deserves its supremacy. It is thoroughly standardized, allowing for the interchangeability of parts, and reducing automobile troubles to a minimum. It embodies a succession

sion of exclusive features and has repeatedly demonstrated its remarkable economy of operation and freedom from repairs. A record recently submitted by 75 Cadillac owners in New York shows a combined total of 398,884 miles actually covered at a cost for mechanical repairs averaging but 71 cents per car. This is equivalent to sixteen times around the world, and of the 75 cars forty-six of the owners had no repair cost whatever.

near fulhas ma Robert ping an pole. S got nea plorer, heading Bruce, Geograf arrange time. C ed the dash to his rea center, compan equippe perience Compan

Our one trouble with the new Cadillac "Thirty" last year was to get enough of them to meet the demand. The factory was rushed with orders from all their agents, and we were unable to get shipments anything like as wanted. Notwithstanding a much larger order placed by us for this season sales already have more than doubled, and the trouble later on will be to ensure deliveries. For that reason we urge immediate interest in the Cadillac proposition.

THE LUXURIOUS DARRACQ

The car that appeals to those who want more power, more speed, more luxury and more achievement, and who insist on the best the world affords. The Darracq represents the perfection of French engineering skill and precise care for details, and is equal to every possible requirement of city and country use. It is essentially the car de luxe and is admitted to be the highest type of automobile construction. Ask for demonstration.

MICHELIN TIRES

The fact that we make a specialty of Michelin Tires is a guarantee in itself of the best. Michelins have won every famous contest since motor racing began, making records for endurance that have never been equaled. Because they wear longer they cost less in the end, and the measure of satisfaction they always give is our reason for selling them. Ask the men who are using them. We will furnish a list of Toronto customers for the asking.

HYSLOP BROTHERS, Limited, Shuter and Victoria Streets, Toronto

BANISHED BY FATHER

This Time King Peter is Forced to Punish or Lose Servian Government.

BELGRADE, Feb. 26.-The Servian lovernment has at last succeeded in forcing King Peter to adopt disciplary measures for the ex-Crown Prince George. - 7

Protests have been made by a numer of officials against the offensive conduct of Prince George during the last year. Heretofore, however, his father has succeeded in mollifying the persons whom the prince had offended, but his encounter with M. Alimpitsch, the prefect of Belgrade, proved too serious for even royal intervention.

Prince George, who has long cherished resentment of M. Alimpitsch, met him at the court ball on New Year's eve and publicly insulted and. The prefect left the palace and promptly tendered his resignation, but the cabinet refused to accept it, and informed king Peter that unless severe measures were taken against the except prince, the government would rown prince, the government would

resign.
It is announced that Prince George's punishment will take the form of ban-ishment to the remote yillage of Gornemilanovats, where he will be nominally attached to a battalion of the Tenth

infantry regiment.
King Peter, was reluctant to order his favorite son's departure from Bel-grade, but public opinion is so strong that he dared not officially overlook his last escapade.

give cars power to mount steep grades without a rack. The wheels ontain four magnet coils, outside of way of the immortal dramatist's soul-

contain four magnet coils, outside of some some solutions of the pole than any other expedience, has announced his intention of heading another expedition. Dr. W. S. Bruce, backed by the Royal Scottish Geographical Society, has been making arrangements to go south for some time. Captain Bartlett, who commanded the Roosevelt on Peary's successful lash to the north pole, has announced between them and the wheel.

By properly timing the energizing of the magnets, each succeeding section is attracted to the rail just in advance of contact with it, the current being cut off as soon as the contact should be heralded as the first to dispasses. On a 13.000-pound truck equipped vine undiscovered depths in Shakspere, with two thirty-five horsepower 550-woff railway motors a drawbar pull of 2500 pounds was developed with trac-of the criminal. namely, the value of certain of his tion fue to weight, but with the wheels magnetized this was increased to 8500 pounds, or more than 300 per cent.

The late Caesare Lombroso was for long unwittingly heralded as the leader in the explanation of how and why criminals exist. With a patience which was most admirable he spent years upon years in the empirical study of criminals, and when, after an accumulation of tens of thousands of "facts," his so-called "psychology of crime" dwindled down to nothing else than this, that criminals are a distinct pathological species of humanity, and simply ought to be treated as insane, the scientific world ,while admiring Lom-

Lombroso's Failure.

broso's employment of scientific me-thod, inwardly smiled and said, "This Lombroso himself was half convinced that there was something wrong, not with his conclusion, but with his method, for he admitted (1) that, after all his mechanical measurements of the physiognomy of criminals, according to individuals, they do not essentially differ in perception, intellection, emotion and volition from respectable citizens, and (2) that a special psychological psychologic logical theory of criminal defects did not adjust itself to explaining the conduct of a special group of criminals. In short, Lombroso realized that, while his investigations were important and resulted in ascertaining quite correct

data about the criminal classes, his objective, scientific method did not really explain how and why criminals actually come to exist. Indefatigable and sincere, as he was, Lombroso implicitly admitted that his objective. statistical, quantitative, method of explaining crimirology failed. Subjective Method. And now comes Inspector Goll of the Danish police force with the theory that if the criminal is to be ex-plained, only he can do it who "can read the criminal's soul like an spen look"; and, astonishingly, it happens

Inspector Goll of Danish Police point out the criminal types, distinguish their differences, analyze their intellectual, emotional and volitional nature, and thus explain "the motives" which, as we say quite justly "made"

them criminals.
Inspector Goll believes that in studying the types of criminals (adulterers, intriguers, murderers, etc.,) in Shakspere we come nearer "seeing the criminal in the man, and the man in the criminal? Practically the Danish in-By. Dr. J. D. Logan

How many citizens of Canada, or thods of studying the psychology of an army citizens.

the way side innikeepers for the horses and harness. As the turnout pilled up at each polst house along the round a fresh pair of horses, often with the northour ready mounted it was found in the species of himselfs, and the species of himselfs, an Cases in Point.

But what value attaches to the study of Iago for the criminologist? Only this—the revealment of the soul of a type of criminal; that is, the revealment of the inner motives which transform a human being into a brute. No Lombrosian measurements and statistics will explain the Iago type of a criminal. The only way to explain this type is to analyze his motives and then you "know" him.

All other types of criminals are psychologically depicted in Shakspere's plays-the designing homicide in "Richard III.," for instance; or the political intriguer, as in Anthony, in "Julius Caesar"; or the congenital criminal, Lombroso's type, as in Caliban, in "The Tempest"—the horribic toathsome Caliban, whom the gentle and noble Prospero aims to make into a human social being. Prospero gives him shel-ter: Caliban uses the kindness to attempt rape; Prospero teaches him the art of articulate speech; Caliban employs it to curse his benefactor; Prospero develops in him the power of reasoning; Caliban exercises it to devise schemes to undo his master. Caliban is, in short, the born devil—the essence of evil and crime incarnate. Such as he, as Lombroso put it, should be

And thus one might go on detailing genius like that of the Bard of Avongreatest of dramatists and, as Inspector Goll has proved to us, greatest of brook trout at the mouth of a short ninologists?

A Belasco Rehearsal

As a rule the rehearsals of plays are pretty commonplace affairs, except, perhaps, the final or dress rehearsal. to the professional players. Such is not the case, however, when David Belasdramatist and manager, directs a chearsal of one of his many companies. Not alone does Mr. Belasco supervise every detail of the production but, as in the writing of his plays, when he actually lives the characters imagination creates, he become an actor to the finger tips and instills his enthusiasm into his fellow players. A case in point was illustrated during the preparation of "The Fighting Hope," the play in which Miss Blanche Bates appears at the Royal Alexandra Theatre on Monday. The play was in rehearsal for many weeks. First came the reading and the assignment of parts, then, two or three times a week, the players would meet Mr. Belasco on the stage of the Belasco Theatre in New York and for hours, without scenery or properties, would go thru the play under his masterful direction. These rehearsals would last for hours and every little detail was carefully considered. Mr. Belasco, on these occasions, would not permit the members of Miss Bates' the rehearsal was over, and, at a suit-

able time, luncheon would be served on the stage. At these luncheons Mr. Belasco would take his place at the table with his players and, as might be expected, the one theme of conversation was "The Fighting Hope," a subject which proved interesting enough to monopolize every thought.

JANE COWL

Talented Young Actress is Fond of Out-of-Door Sports Thinks Toronto a Grand City.

A bunch of beauty, breeziness, brains and business-that's Jane Cowl. Add to this, a few digits of optimism and a monstrous desire to please, and the Jane Cowl would be disguised, not the

When the staid dramatic critics say she is irresistible, they simply don't know what they're talking about. If they could meet her up in her drawing-room at the hotel, in the most exquisitely simple shirt-waist and skirt, with soft low-collar and the dearest little bow nestling against her throat well, they would say she was-well, lovable. That's the way we girls would express it, anyway.

She really couldn't sit still, she was so full of life and bubbling good-humor and this is her first visit to Toronto. Dear me! I do hope it won't be her last. And she thinks it is the nicest, old place she ever knew. "Oh, I had the most glorious drive

the first day I was here," she said. 'A big sleigh with the cutest coachman who looked just like a big teddy bear. There certainly is something in the air here that makes you feel like living. I noticed it first thing and Mr. Worthing did. Oh, it's great! And the girls all have such beautiful complexions. Not a bit like New York, complexions there. Oh, it's so different. And our winters. Why, they're always the trying one. The people joke. Not a bit like yours. And the snow is so dirty and black there Now wasn't that good of her? Well,

really, you could never imagine any New Yorker hiking around that gay, old metropolis in immense snowshoes. That would be decidedly unbecoming. And as for real, snowy toboggan slides in the centre of the place-Miss Cowl is a great admirer of Marie Tempest, which made me like her more than ever. Of course, it is an understood fact that Miss Tempest s the cleverest commedienne on the English-speaking stage—Do you realize all that that means?—but Miss Cowl even superlativizes that statement, and considers Grace George our leverest American comedienne, with

which statement I most heartily agree. "I saw Miss Tempest play 'Penelope' last summer in London," she said. "And I met her and talked with is fine there in summer, and when I horseback and bicycle and play tennis. New York. It is cosmopolitan. You know we must have these recrea-

JANE COWL.

tions, or we'd go crazy. Why, if we couldn't get away from the theatre, out into the fresh air now and then, you know. Someway or other, we never have an opportunity to have good all of us. We'd die of nervous prosseem stiff and undemonstrating. They on't want to applaud, and they just sit there without a smile faces-usually. I like the latter part of the week better. But if Halley's old comet comes along and lets his tail trail along the earth, we won't care much whether there is anyone down in front, will we?" She laughed.

There is another epithet which is most applicable to Miss Cowl. It may not look as dignified in print as a synonym something like athletic, but I'll just whisper it between you and me—she's a tombor. me-she's a tomboy. She admits it, herself.

"I'm the greatest lover of winter sports you ever saw," she said. "But, tell me,"—rather hesitatingly—"What are these high slides like? Are they dangerous? I have an invitation out to toboggan, and I'll go of course. But I'm just the weenlest little bit afraid. her just long enough to want to know Oh, Toronto is fine," she continued her better. She has that effect on one hasn't she? The more you know Montreal and Quebec. I had a bad her, the more you wish to. I spend impression of Canada when I was in all my summers over in England. It the latter place. But this is different, the shops"-note the English adaptado go, I just cut loose from all stage tion of the word—"the hotel, the proceedings and live outdoors. I ride theatre, everything. It is more like

Anna Held Follows In "Miss Innocence"

Great Musical Attraction Booked Next Week at Princess

Miss Anna Held, the noted comedienne, begins a week's engagement at the Princess Theatre next Monday The remarkable success of "The Parisian Model" at this playsurpassed in the new musical comedy. for, in the course of the evening, Miss Held takes the audience on a tour thru Paris, and not a point of interest is left out. She starts in a girls' seminary, located in the Isle of Innocence, but she quickly gets to Paris, where she can see the lights of the Moulin Rouge, visiting it from the neighboring Abbaye Restaurant, which scene is an exact reproduction of that famous resort. The pace is lively, and one of the leading art studios of Paris one of the leading art studios of Paris an equally well-known hotel, a ballet school in Vienna and even a flying machine are shown. And thruout it all is Anna Held, with new gowns and new songs. Miss Held is supported by a large company of uncommon strength. The cast includes Charles A. Bigelow, Lawrence D'Orsay, Gene Luneska, Alice Hegeman, Frances Farr, Maurice Hegeman, John Rein-hard, Adele Cheridah, William H. Powers, Dudley E. Oatman, Martha Dean, Bettle Neill, Bessie Fennell, Violet Jewell, Marjorie Bonner, Lottie Vernon and the largest and handsom-est chorus ever sent en tour.

A Grapewin Story

Popular Comedian Tells One On Billy Emerson, the Mins trel

tells the following story on Billy Emerson, the old minstrel: It seems that Emerson's Minstrels at one time made a tour of the orient. In Shanghai and in other Chinese cities, it has long been customary to do a large credit business instead of using the heavy currency, of which the unit is the Mexican silver dollar, a large coin of is customary for the known patrons of the theatres to sign their names for tickets and at the end of the month a collector visits the purchaser's ories and collects. The slips of paper are called "chicks." When Billy Emrson visited the box-office in Shang-nal, he asked the treasurer: How much money have we in the

Two hundred dollars in cash and fourteen hundred dollars in chicks." Then he showed Mr. Emerson a long spindle containing the signed slips of

paper.
"You don't mean to say that anybody can sign his I.O.U. for theatre tickets and get them?" asked the min-

"Yes." was the reply "Great Scott! What a tremendous business I could do in San Francisco; would play to fourteen million dollars a performance," said Emerson.

capital performance of this popular drama is assured theatregoers of this city when the piece comes again to the Grand next week. Plays may come and plays may go, but "In Old Ebler & Co., is agitating the enactment of a uniform child-labor law, come and plays may go, but "In Old Ebler & Co. produced "Alias Will go on forever."

The second-hand car situation is a little threatening; some phases of it must be treated with, and it is a question of some portent; a matter which may have to be mastered by the makers before the end of the chapter. Perhaps, as once before suggested, makers will find a way to control the repair and further exploitation of second-hand cars, and, if they are in a state of decay beyond repair, it may be designable to fund a holding company which will sustain the loss.

Another Old Play --- Always Welcome

In Old Kentucky" Coming to the Grand Opera House Next Week

The doctrine of the survival of the fittest as applied to stage entertainments is fitly illustrated in the case of that favorite play of the Kentucky hills, written by C. T. Dazey and produced originally in St. Paul by Jacob Litt in 1892, and known from ocean to ocean, "In Old 'Kentucky." After 16 consecutive seasons, it stands in the front rank of money-making plays of America. One does not have to go below the surface to discover the elements which make for the success of this play. It is bountifully supplied with that homely sentiment which is never failing in its power to appeal to the emotions. It has an abundance of comedy to lighten the shadows of the plot, and it reveals a delightful ro mance of the Daniel Boone state. Its incidents are stirring, its realism real and its characters natural and true to life. A fine scenic production, gotten up entirely anew for the season of 1909-10 has been provided by Litt and Dingwall, the managers of "In Old Kentucky" since its inception, and a

Self-love is not so vile a sin As self-neglecting. —Henry V., Act II., Sc. 4.

Self-love is used in this passage synonymously with pride. The Dauphin of France urges the French king to let the English know of what a monarchy he is the head — to boast the strength of his vast kingdom. This self-love has made the British people what they are. It was national self-love that prompted old Gaunt to speak of his country as "this other Eden, demi-Paradise," to boast, with his dying breath, the renown of his countrymen, "feared by their breed and famous by their birth," renowned to the uttermost parts of the earth. Self-love has played an important part in the development of the United States. "We are the people" is a favorite expression. "We are the people" is a favorite ex-pression, and, having uttered it, strenuous effort is put forth to prove

it correct.

Jingoism, the excess of loyalty, is a defect in a nation, but it is not so vile a defect as sloth, indifference, self-contempt. The nations that have achieved most—France, England, Germany and the United States — have been largely controlled by self-love. In the days of her pride and self-love. Spain held half the known world in the hollow of her hand. It was pride, self-love, that carried little Japan victoriously thru her conflict with Rustoriously thru her conflict with Russia, and it was the lack of self-love, national self-neglecting, that made the Russian giant so weak and ineffect-

But there is another side to self-love. It may be vain pride mixed with gross selfishness. In their selfishness and egotism the so-called Christian powers of Europe have forgotten all about the brotherhood of man. They are squandering their substance on fleets and armies that flatter their self-love. Each is striving to out-class the others, not in the interests of humanity as they profess but in the oride of place and power. They are

D'ercome with pride, ambitious past all thinking,

There is a self-love that makes for national greatness, but there is also a "pride that pulls the country down." What is true of the nation is true of ne individual. If it has to be a choice between self-love and self-neglecting, better far self-love. A conceited man is often a bore, but an indifferent one frequently becomes a burden. Conceit in self is an excellent thing, if it will but awaken the latent energy of the soul. A man of any force of chargesoul. A man of any force of character endeavors to live up to his professions. If he takes pride in his phy-sical powers, he strives to train his body so that others may admire his prowess; if he poses as an intellectbe an object of ridicule. But the world is full of charlatans, quacks, fops. However, they do but little arm and their conduct in time brings its own punishment. For the most part they themselves are the only

Shakspere did not consider self-love a great sin. It was otherwise with self-neglecting. On that he is ost emphatic. It is a "vile" sin Each nation and each individual has a duty to perform. To neglect that duty is to transgress the law of God. Every man is born with certain poten-latties. What he actually becomes depends largely on himself. Sin may seem a strong word for self-neglect, but it is the right one. Man is the paragon of animals." That is to say is potentially the noblest of created things. The body has been called a temple for the Infinite. How needful it is to cultivate the body, to train it so that it may be the sound home of a sound mind. To neglect it is to sin against the Infinite and against the Visit the factory districts of England or the slums of 'New York What is seen? Bent, dwarfed, neg-lected bodies. The children are weak-The sin of the self-neglect of the parents is stamped upon them.

On his mental side man is equally vulnerable. He has within him a voice urging him onward and upward.

has hardly been scratched. Orders The ignorance and superstition which are coming in so rapidly at the pres-ent time that we are not able to fill progress of the race have been due polar coldness. Never in his long career at the head of Harvard was he known to approach anything in the least resembling personal relations with a student, or even with members and a full line of Grand Opera Records and a full line of Grand Opera Records. with a student, or even with members of the faculty. He took things in the abstract. To illustrate this characteristic, let the Old Harvard Man ten a yarn or two.

The description of the faculty of the future does into the concerned, the future does not have to be questioned. If any one of us had the slightest doubt as to the future of the business, why should but, if they cannot, far better for the future of the business, why should but, if they cannot, far better for the future of the business, why should but, if they cannot, far better for the future of the business, why should but, if they cannot, far better for the future of the business, which is carefelds, neglected of and the child is born a tainted thing. If men could but strike the Artistote-like the control of the future of the business, which is carefelds, neglected of and the child is born a tainted thing. If men could but strike the Artistote-like the control of the future does and the child is born a tainted thing. If men could but strike the Artistote-like the control of the future does and the child is born a tainted thing. If men could but strike the Artistote-like the control of the future of the business, which is carefeld. we be spending hundreds of thousands of dollars each year in advertising and a corresponding amount in the devel may be salutary in its influence; the or ment of new lines and in experi-mental work? latter is always baneful by its effects, self-neglecting destroys character; it prevents the development of character. It is in a word, "vile" sin.

KING'S FAVORITE HYMN.

'Nearer, My God, to Thee,' has been frequently spoken of as King Edward's favorite hymn. His Majesty's private secretary, Lord Knollys, in a communication of Good Words, states authoritatively that, altho the King admires several hymns, he does not think His Majesty has any particular favorite. The Queen also intimates, thru Miss Knollys, that she is very fond of all church music, but there is no particular hymn that can be called her favorite.

CAUSES OF ECZEMA EXPLAINED Germs Foster in the Skin, and Blood

Cures Are Impossible. After years of debate, medical authorities are now agreed that Eczema and other skin diseases are not seated in the blood, but are caused by germs in the skin. Myriads of microscopic animals gnaw the flesh just below the epidermis. The patient is perfectly nealthy, it is only the skin that is diseased. Hence, scientists are now agreed that you must cure the skin

through the skin.

The medicine must be in liquid form, in order to penetrate properly, as salves and ointments clog the pores without reaching the inner skin. The remedy that will search out and destroy the disease germs, stop the itch and soothe the healthy tissue is that mild, clean compound of oil of wintergreen, thymol, glycerine, etc., known as D.D.D. Prescription.

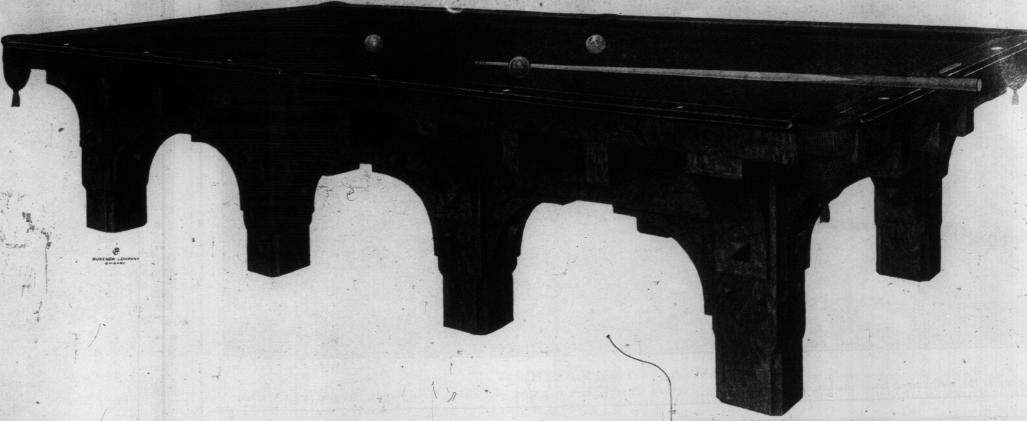

The instant you wash with this soothing liquid you will find the itch relieved. We positively assure you of this.
Write the D. D. D. Laboratories, Dept. X, 23 Jordan-street, Toronto, for

speaking, the meteorological office, in Foronto- is the central office for the whole of Canada and is under the Dominion Department of Marine and Fisheries. For years this excellent institution has occupied premises in Queen's Park, but now, midway beween Spadina-avenue and Avenueroad, on the south side of Bloor-street. stands a grand and imposing struc ture, which is the Toronto Meteorological office of to-day. To this office records from every station in Canada from Cape Breton to the Yukon are forwarded, the directors of these stations being under the control of the irector at Toronto.

In all there are some 360 stations where meteorological observations are taken, many of the operators performing the task gratuitously, from love of the work, the government have fishermen and sailors might be mini-mized. Those who venture to sea in ing supplied them the instruments shallow rice beds of our Lake Erie.

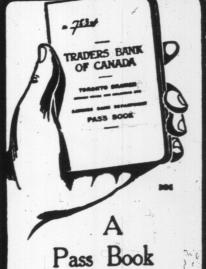

That night Dame Weather changed ther mood and gave no warning and millions of the marsh fowl perished in her icy grip. Thus we learn that weather cannot be accurately predicted by signs and the question arises, will weather conditions ever he suc
mized. Those who venture to sea in necessary for so doing, while at some necessary for so doing, while as the marsh fowl perished intervals across Canada small salations are paid the observers.

Twice each day, the results of the surface of the weather predictors, as stations may now be placed in such places where the laying of the wires has been impossible. things as east rains. In short many of the opinions of the average humans. regarding weather, are proven erroneous. After the pleasant meteorologist talks to us for a while and we begin to grasp his facts - proven facts mind you—we also begin to realize that what we don't know about the weather is colossal. Among the instruments used in the central office, from which records are obtained, is the Canadian Standard Barometer. It is far different from the instrument with which most people are familiar, being a large metal affair, standing about three feet high. It is the same as the barometer which is the standard in Great Pritain, and is called "New the standard in Great Pritain, and is called "New the standard in Great Pritain, and is called "New the standard in Great Pritain, and is called "New the standard in Great Pritain, and is called "New the standard in Great Pritain, and is called "New the standard in Great Pritain". in Great Britain, and is called "New-

he paroxysms of Whooping Cough.
Ever-dreaded Croup cannot exist where Cresolene is used. It acts lirectly on the nose and throat, naking breathing easy in the case of colds; soothes the sore throat and stops the dough.

ERESOLENE is a powerful germoide, acting both as a curative and reventive in contagious diseases. Is a boon to sufferers from sthma. CRESOLENE'S best recommendation is its 30 years of successful use. For sale by all drugsts. Send Postal for Descriptive booklet Cresolene Antiseptic Throat ablets for the irritated throat, of our druggist or from us, 10c in amps. Coughs, Bron-

THE LEEMING-MILES CO., Limited Canadian Agents, Leeming-Miles Building, Montreal, Canada.

"I would advise every actor to spend every summer as I do, for there is no harder life than that of the traveling thespian. We are compelled to be in many stuffy dressing-rooms, and, is not conducive to good health, there-

THE KING OF DREAMS.

Some must delve when the dawn is night Some must moil when the noonday beams:

sigh,

Every man is a King of Dreams!

One must plod while another must ply At plow or loom till the sunset streams, But when night comes and the moon rides Thigh, Every man is a King of Dreams!

One is slave to a master's cry, Another serf to a despot seems,

But when night comes, and the discords Every man is a King of Dreams!

This you may sell and that may buy,
And this you may barter for gold that gleams, But there's one domain that is fixed fo aye—
Every man is a King of Dreams!
— —Lippincott's Magazine.

Charley Grapewin, who will be seen in his latest comedy, "Above the Limit," at the Grand Opera House this week.
