GALLANT SERBIANS HAVE AT LAST GIVEN UP

Troops Having Accomplished Aim Of Delaying Enemy, Leave City

Defeated and Worn Out But Reorganizing for Fresh Action—Meanwhile Austro-Germans Have Stayed Movement Against French and British—The Day's News in Balkans

London, Nov. 30.—Monastir, in southwestern Serbia, has been evacuated. Serbian troops, having accomplished their purpose of delaying their enemy's advance until the civil population of the town had time to escape, have now left the city and, according to reports, are retiring in good order.

Though the Austro-German and Bulgarian campaign against Serbia is described by the Central Powers as finished, and though practically the whole of Serbia is in their possession, they have not accomplished, according to the general belief here, the more important aim of entirely routing the Serbian army.

Though defeated and worn out in the conflict against overwhelming odds, the Serbians are said to be still unbroken and undemoralized, and are reported to be reorganizing their shattered units on the Albanian and Montenegrin frontiers, preparatory to fresh action.

Either bitter winter weather has retarded the Central Powers in their proposed new enterprise against the Franco-British troops in the Strumitsa region, or the rapidly developing Russian menace from the direction of Roumania has caused them to abandon it. In any event their campaign has recently come to a standstill.

Athens, Nov. 30.—Final solution of negotiations of the Entente Powers with the Greek government has been further delayed, it is reported tonight, pending reply of the allies to the Greek proposals to permit the respective general staffs to define the military features of the allies' requirements in Macedonia.

Zurich, Nov. 29.—A telegram received from Bucharest asserts that negotiations are pending between Turkey and Greece for the formation of a union similar to that between Greece and Roumania. The pro-German element in Greece is said to hope the negotiations will prove the basis for a new Balkan alliance with Greece, Bulgaria and Turkey as its initial members.

GREEK EYES ARE UPON MACEDONIA

New York, Nov. 30.—A cable to the Herald from London says Martin H. Donohue telegraphs to the Daily Chronicle from Athens:

"The government's reply to the allied note accepts all the propositions. These have been submitted to the military commission which will determine the best method for rendering them effective, while at the same time maintaining the integrity of Greece's sovereignty and national rights."

"The operations in Macedonia are being watched keenly by the cabinet and king, who are in hourly consultation. Events there in the end will have the deciding influence on Greece's attitude toward the quadruple entente."

Reporting the evacuation of Monastir, Mr. Donohue states:

"The Bulgarians are rapidly approaching the doomed city, and may occupy it within twenty-four hours. The Serbian rear guard is desperately holding its position north of the city, but the thousands of men and children, thousands of whom have perished in the fight, through bitter cold and heavy snowstorms, are being driven toward the Greek soil."

"The Greek authorities are doing their utmost to succor the big army of refugees, but the supply of foodstuffs is small and famine is feared. The allies are attempting to forward supplies from Salonica."

"Bands of Bulgarian commandos are pillaging, slaying and ravaging the country near Monastir. As the Austro-Germans and three divisions of Bulgarians are racing to reach the city first the Bulgarians are attempting to surround and cut off the Serbian rear guard."

DENY REPORT OF TURKISH TROUBLE

Rome, Nov. 30.—It is asserted that reports from Asia Minor that Djemal Pasha, former Turkish minister of marine, was in rebellion against Enver Pasha, the minister of war, are unfounded. Instead he is said to be organizing a new expedition against Egypt.

(Reports from Asia Minor some time ago said there was a complete disagreement between Djemal Pasha and Enver Pasha, and that Djemal, who had been sent on a mission to Syria, had organized a rebellion against the government. One report said that Djemal would co-operate with the Entente Allies.

Popular Russian War Loan Of Hundred Million Pounds

London, Nov. 30.—Careless crowds standing in the snow-covered streets of Petrograd, reading placards announcing a new £100,000,000 war loan at 5 1/2 per cent interest, are described by the Mail's correspondent in the Russian capital. This is the first time an appeal has been made to the mass of the people to subscribe for such an issue, as previous loans have been taken by banks and the wealthier classes.

Roumania With The Allies Soon

THE BRITISH CASUALTIES NEARLY 600,000

November List Totals Nearly 46,500 FEWER THAN IN OCTOBER

This Month's Statement Contains Names of 1,232 Officers—Army Service Corps Men Suffer in Attack on Treopship in Mediterranean

London, Nov. 30.—British casualty lists published during November total 1,232 officers and 46,514 non-commissioned officers and men in all fields of war, bringing the total since the beginning of hostilities up to approximately 600,000.

Heavy as were the losses in killed, wounded and missing for the month, they were much lighter than in October, when the number of 3,110 officers and 71,187 non-commissioned officers and men were included in the lists.

A statement issued in London on October 29 gave the British casualties from the beginning of the war to October 9 as 688,240. The total among officers in that period was 21,298 and among other ranks 470,011.

London, Nov. 30.—The first public mention being of an attack on the British troopship Woodfield is made in a casualty list just issued. The list contains the names of thirty members of the army service corps of whom seven are reported to have been killed, eight wounded and sixteen missing as the result of an attack on the transport Woodfield.

A despatch from Paris on November 9 said services from Melille had given rise to the loss of the transport Woodfield by a German submarine off Penon near the Moroccan coast the week before.

I was working with him about a barbed wire entanglement in front of our line at 7:30 a. m. on Nov. 5, when a bullet passed through his heart. He died in ten seconds and felt no pain. He had volunteered to go with me on a dangerous patrol that night, and I am missing him so much. He was so brave and fearless and had endeared himself to our whole company.

The situation of the front between the regions of Riga and Drinsk is unchanged. The enemy was dislodged from Kasimirovskaya farm and from a wood west of the farm. PREMIER IN CITY; SPEAKS OF VALLEY RY. AND FINANCES

Premier Clarke, who is in the city today, said that the recent issue of £1,000,000 provincial bonds was not an additional issue for the Valley Railway but was for the purpose of replacing the company's bonds to the extent of \$10,000,000, guaranteed by the government.

He said the original bonds did not find a purchaser at a satisfactory price and it was found necessary to be financed more satisfactorily as a provincial issue.

Part of the issue was to cover work necessary done but the balance was for the part of the railway not yet built. Regarding future arrangements for the construction of the railway the premier said there was nothing to be announced at present. The chief problem before the government was that of concluding an arrangement with a dependable contractor.

JUDGE MCKEOWN SPEAKS SHARPLY OF THE JURY ABSENTEEISM

Declares Their Names Should be Struck From The Roll of Citizenship

The adjourned circuit court met this morning. Four criminal cases—the King vs. James Sullivan, alleged theft; James Kerr, alleged theft; Leonard Moore, alleged assault; and Robert Williams, alleged theft, were presented to the grand jury.

Only fifteen of the grand jurors were present, and His Honor commented strongly upon the absence of nine of the number summoned. "If they will not obey the king's order in this simple matter," said His Honor, "how do they expect men to go and fight for the king?"

"If their own premises were broken into they would expect the grand jury to be on hand to deal with the criminals but they do not attend when they are summoned."

"They are all law-breakers themselves and their names should be struck from the roll of citizenship. I would suggest to the sheriff that he should endeavor to select better citizens the next time he summons a grand jury."

"In the county district men will leave their work and drive thirty miles to perform their duty as jurors, but in the city some of these men will not give the little time that is required of them."

The grand jury returned true bills against Sullivan and Kerr, and no bill in the other two criminal cases. The court adjourned until ten o'clock tomorrow morning, when the grand jury will be required to be present.

New Club of Which 1,000 of Most Prominent Men Are Members

London, Nov. 30.—A despatch to the Exchanges Telegraph Company from Amsterdam says that a new club called "The German Society of 1914," was formed in Berlin yesterday, with nearly 1,000 members belonging to the principal commercial, political and social sets.

The principal speeches were delivered by Lieut. General Count Von Moltke, former chief of the general staff, who said the club had been created to form a new link between the prominent men who helped Germany in the present war to become a united people and Colonial Secretary Solf, who was appointed chairman of the club. Dr. Solf concluded a long speech by saying:

"Germany asks nothing more than an honorable peace with guarantees for a happy future, and on this the whole people are united like one man."

The appointment of Dr. Solf as chairman of the club is confirmation of his being high in favor in imperial circles, and is considered to make him a strong candidate for the imperial chancellorship. Dr. Von Bethmann-Hollweg, the chancellor, did not attend the meeting.

MARKED FALLING OFF IN FUNDS TO COMBAT DISEASE

Annual Report of Association For Prevention of Tuberculosis

THE WORK OF THE YEAR

Detailed Report of Dispensary and Work of Nurse—The Matter of The New Hospital in East St. John

At the annual meeting of the St. John Association for the Prevention of Tuberculosis, held this afternoon, the executive presented their report of the work done since the last annual meeting in November, 1914, as follows:—

Dispensary. The work of the dispensary has been carried on steadily during the year under our experienced nurse, but with change, viz.—that owing to the doctors on the staff being so busy it was deemed advisable to employ one doctor on a small salary. Dr. A. E. Logie was appointed in June and since then has been at the dispensary three afternoons a week for the examination and treatment of the cases that present themselves.

The dispensary has been open 177 days in all, fifty-four for children and 123 for adults, with attendance of 866—ninety-two children and 474 adults, and 460 prescriptions were filled. At the beginning of the year there were twenty-three children and sixty-two adults on the books, a total of eighty-five. At the end of the year there were one hundred and forty-nine new cases were reported during the year—forty-five children and 104 adults. Of these ninety were discharged and nineteen died, leaving 133 on the list at the present time.

A good many of these cases come for examination and observation and are often discharged as non-tubercular. While the number of attendances has not been so large as last year, especially amongst the children, there are on the books a larger number of patients. Your committee feel that there are a large number of cases in St. John that do not come to the dispensary, and we again ask any one knowing of such cases to bring them under the notice of the nurse or any member of the executive.

During the last year six cases have been sent to River Glade, three children and three young girls. The children have all been sent cured and the other cases discharged much improved. As we have very little funds for the board of such cases, the member of the executive in charge of the dispensary at the time has had to solicit help from private subscribers. In this work we have been helped by the "Barnack" and the "Monts" chapters L. O. D. E. St. Vincent de Paul, St. Monica's, St. Andrew's societies and many generous citizens.

The dispensary is still the examiner of River Glade and Dr. Townsend is there the first Thursday in every month, also Dr. Ferris, the physician in charge of the new hospital in East St. John, on the third Thursday. All patients presenting themselves can be roughly examined. It was found that this new hospital would have been opened long ago, but delay has been caused by difficulties in procuring laundries and electric plants. Dr. Ferris is, moreover, already in residence and in December the hospital will be ready to receive the patients. There are a number of cases which have been waiting some time to go there. It has always been a great question to know "what to do with advanced cases."

Nurses. We have still Miss Sutherland with us and she has been invaluable, doing large amount of work during the year, making over 1,500 visits to the homes of the patients during the year, to all of whom she has greatly endeared herself by her bright manner and cheerful sympathy. It is through these visits that the most important work of the association is done, for it is then that the instruction is given for the care of the patient, so as to prevent the spread of the disease. Miss Sutherland is at the dispensary three afternoons a week and also when Dr. Townsend and Dr. Ferris examine the patients.

Funds. Since our last annual meeting we have received a bequest from the late Robert Thomson of \$8,000. The tag-day fund, amounting to \$2,400.74, which has been at interest in the Bank of Nova Scotia for five years has been handed over to the dispensary committee. These amounts have been invested in the provincial bonds and yield us an annual income of \$875 without which it would have been impossible to run the dispensary during the last year, for instead of our number of subscribers increasing, as we had hoped, it has fallen off from 811 to sixty-five, and the amount subscribed from \$800 in 1914 to \$281 in 1915. At one time the finances were at such a low ebb as to leave only \$12 in the treasury when the monthly bills were paid. The total amount collected during the year for dispensary work was \$442.41, and of this amount over \$100 was given by the Loyalists and De Monts chapters L. O. D. E. Our milk and egg fund, part of which has been used for paying the board of patients sent to River Glade, has been helped by sources before mentioned. In conclusion, the executive beg to thank the following:—The commissioners of the General Public Hospital, for the board and lodging of our nurses; the city commissioners for the use of the dispensary rooms; the Saint John Press for the printing of reports, etc., from time to time and all those who have contributed during the year to the support of the association.

Signed on behalf of the executive, HELEN SIDNEY SMITH, Sec.-Treas. JOSEPH A. LIKELY, President.

Bisset of this city and three in Boston.

HARRY LAUDER WELCOMED; A VISIT TO MAYOR FRINK

St. John today has a distinguished visitor, Harry Lauder, and he was given a hearty welcome. In his private car, "Olympia," attached to the Boston express, he arrived at noon with the members of his company and a special escort of pipers in Highland regalia. At the depot a large gathering had assembled, and a delegation from St. Andrew's Society, composed of H. C. Rankin, president; F. W. Fraser, secretary, and Charles Bell, and him in his car and tendered him an invitation to a reception in Bond's cafe this evening, which Mr. Lauder accepted.

The skit of the pipes was heard through the streets as the distinguished Scot proceeded to City Hall to pay his respects to the mayor. In a motor car driven by A. Fuggley, and in which were seated with Mr. Lauder, his manager, L. W. Murray and W. H. Golding, manager of the Imperial, Mr. Lauder was conveyed to the city. His approach being heralded by the pipers playing spirited Scottish airs.

"I'm glad to visit this part of the world," said Mr. Lauder in acknowledging the introduction and greetings from Mayor Frink, Commissioners Rankin and Potts, "for I know there are some fine people here, and I know it is a part of our great British Empire which is well doing its share in the country's hour of need. I have anticipated this visit with much pleasure. I know there are some good Scots here, too, and I have felt sure of the true welcome which has been given to me."

His Worship assured Mr. Lauder that the city was proud of his visit, and expressed the pleasure of himself, commissioners and the city in general at being privileged to have him come. "We have heard much about you on these parts," he said, "in fact, wherever one goes, the name of Lauder is known. You have attained great success, and it is our best wish that your success and prosperity will continue for many years to come."

This afternoon at 5 o'clock Mrs. Lauder will be the guest at a tea to be given by Mrs. James F. Robinson, at which her two sisters, who accompany her, the Misses Vallance, will also be present.

IMPERIAL TO RESUME WITH MONSTER BILL WEDNESDAY

Tomorrow the Imperial plans a regular old-time miscellaneous programme for its patrons just to remind the people of the various other good things to be had in the realm of motion pictures aside from the big star productions. This return to mixed motion pictures will be in the nature of a treat as the following programme will indicate: A three-part Vitaphone Broadway feature entitled "Through Troubled Waters" with an all-star cast including Myrtle Gonzalez, who made such a splendid impression in the V-L-S-R feature "The Challenge of Courage"; a Lubin comedy entitled "Think of the Money"; a recent issue of Pluto News Weekly; and two entrancing colored travel pictures, "A Storm on the Pacific Ocean" as photographed from the bridge of the liner Tokomaru.

AUTOMOBILE DRAWING AT THE RINK FRIDAY EVENING

Band Concert Will Begin at 8 O'clock and Col. Danvers Will Probably Draw the Lucky Ticket

The Nurses' Association have, through the courtesy of the St. Andrew's Club, arranged the drawing for the automobile for which they have been selling tickets for the last few weeks, in the interests of the British Red Cross Fund, at St. Andrew's Rink at sharp nine o'clock next Friday evening. A large number are interested in this event as many tickets have been purchased, and so as to avoid an unmanageable crowd, the rink will be closed to charge the small sum of ten cents for admission to the rink.

The band of the 104th have very kindly volunteered their services, and will give a concert beginning at eight o'clock and possibly assisted by another regimental band. It is also hoped that Lieut.-Col. Danvers can make it convenient to attend for the purpose of drawing the lucky ticket, and announcing the name of this and other particulars will be used tomorrow.

Use Whenever Quinine is Needed, Does Not Affect the Head

Because of its tonic and laxative effect, LAXATIVE BROMO QUININE will be found better than ordinary Quinine for any purpose for which Quinine is used, does not cause nervousness, nor ringing in the head. Remember there is Only One "Bromo Quinine" Look for signature of E. W. GRODY.

ST. ANDREW'S DAY

Flags were flying throughout the city today in honor of St. Andrew, patron saint of Scotland. Special services were held in Trinity and St. Luke's churches. This evening members of St. Andrew's Society will assemble in Bond's, where a programme will be carried out. Owing to conditions brought on by the war the celebration will be informal.

EVENING WITH LONGFELLOW.

The Young People's Society of St. John Protestant Church will hold a regular meeting in the school room of the church last evening. The programme will be the reading of the poem, "The Village Blacksmith," and a presentation of a play. The programme was provided and provided a most interesting evening with the poet Longfellow. A life sketch of the poet, readings from Evangeline and other of his more popular poems, with appropriate music, made a perfect hour. The readings were accompanied with tableaux illustrating life scenes described by the poet. Reflectoscope views of the land of Evangeline were shown, and the singing of Longfellow's well known poem, "The Village Blacksmith," was accompanied by illustrative pictures on the screen.

Those taking part in the programme included Misses Lyle Kennedy, Emma Rubins and Jean McAfee, Messrs. T. W. Foulkes, Mrs. B. E. Hooper, Mrs. G. K. McLeod, Hann, Aubrey Armstrong and Rev. Mr. Anderson.

In Trinity church school room last evening an interesting entertainment was given, the proceeds of which are to be given to a fund to provide apples for the boys in kindergartens. The programme was given by Mrs. Courtland Robinson, Miss Knight and Miss Doherty, with Miss Hilda Galley accompanist. It was enjoyed by a large gathering.

The credit system is of great benefit to the working class of people whereby they get anything in fall wear for men and women at Brayley's for \$1 weekly. 4-45

The Young People's Association of St. John's had an excellent programme for the regular fortnightly meeting held last evening in their rooms. Dr. W. Ledwith delivered an interesting illustrated lecture, the subject of which was "Architecture of Great Buildings." A duet was then rendered by Mrs. A. Pierce Crockett and Miss D. Creighton, after which Miss Marion Crutcher gave a pleasing piano solo.

The Big Hoosier kitchen cabinet sale which started on Saturday morning last, will close on Wednesday night. Every woman who wants to enjoy good health and save miles of useless steps and vote more time to her family should not be without this cabinet in her kitchen. Already there are a large number of these cabinets in many homes in this city as well as other parts of the province. Now is the time to make a useful Christmas present to your mother, wife, or sister, as this sale will positively close on Wednesday night.

A reception was held last evening in the Charlotte street Baptist church, West St. John in honor of the new pastor, Rev. J. H. Jenner, A. J. Gregory presiding and gave an address welcoming the new pastor. W. P. Hoyt, secretary of the reception committee, read a letter from Rev. Wellington Camp, after which Rev. Messrs. M. E. Fletcher, W. R. Robinson, P. R. Hayward, B. H. Nables, Dr. Helme, Dr. J. A. Morison, E. Westmorland, F. H. Wentworth, Gideon Swin, F. P. Denison, H. R. Boyer, G. E. Scoville, F. S. Porter delivered eloquent and appropriate addresses. Refreshments were served by ladies of the church.

RAPID METHOD OF "AGING" RAW WINES AND SPIRITS
Paris, Nov. 12.—(Correspondence)—A method of "aging" raw wines and spirits by electricity has been perfected by Prof. Charles Henry of the University of Paris (the Sorbonne), and it is already being successfully used in some of the Burgundy wine districts.

The process is said to impart to liquors the same properties which they acquire by being kept for years in cellar. The spirit or wine is placed in a special receptacle fitted with two tubes called "purifiers," and the tubes are charged with high-tension electricity at from 5000 to 120000 volts. The result is that all the bacteria ferments and impurities collect in the tubes and are removed and all further fermentation is stopped.

The process is very rapid, and the cost less than two cents per 100 gallons. Similar experiments are now being made with beer and essential oils.

COMB SAGE TEA IN HAIR TO DARKEN IT

It's Grandmother's Recipe To Keep Her Locks Dark, Glossy, Thick

The old-time mixture of Sage Tea and Sulphur for darkening gray, streaked and faded hair is grandmother's treatment, and folks are again using it to keep their hair a good, even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the money may be dispensed. All drug stores sell the ready-to-use product called "Wyeth's Sage and Sulphur Compound" for about 40 cents a bottle. It is very popular because nobody can discover it has been applied. Simply moisten your comb or a hair brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive; besides prevents dandruff, itching scalp and falling hair.

GAVE HIS SERVICES.
In connection with the return of more than \$20,000 from the patriotic auction funds, including more than \$7,000 from the patriotic drawing, credit must be given to the work done gratuitously by the manager of the event, H. Porter. It had been agreed that a fitting sum should be given Mr. Porter for his time and services which were most valuable during about four weeks, including the week of the auction and about three weeks of preparation. The suggestion was made to Mr. Porter but he declined to accept, saying that he would rather the returns should go to the patriotic fund without any deduction for his services.

GIRLS! BEAUTIFY YOUR HAIR AND STOP DANDRUFF

Hair Becomes Charming, Wavy, Lustrous and Thick in Few Moments

Every Bit of Dandruff Disappears and Hair Stops Coming Out

For 25 cents you can save your hair. In less than ten minutes you can double its beauty. Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and charming as a young girl's after applying some Danderine. Also try this—mix a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt or excessive oil, and in just a few moments you have doubled the beauty of your hair. A delightful surprise awaits those whose hair has been neglected or is scraggy, faded, dry, brittle or thin. Besides beautifying the hair, Danderine dissolves every particle of dandruff; cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair, but what will please you most will be after a few weeks' use, when you see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair, and lots of it, surely get a 25-cent bottle of Knowlton's Danderine from any drug store or toilet counter and just try it.

THE WAR NEWS

The news from Greece is still far from satisfactory. Among other rumors to-day is one that the pro-German party in Greece is seeing an agreement of some sort with Turkey, looking to a new Balkan alliance.

We are told that the war in the near east is about to enter upon a new phase, but no information is given out to indicate what new moves may be made.

The operations in the west are still confined to trench fighting, and there seems little prospect of important changes there before spring.

Today's reports appear to confirm the feeling that Roumania will join the Allies, and that would be really good news.

The centre of interest, however, continues to be in the Balkan region. Developments there will have a very important effect in determining the duration of the war.

Australia Leads. Australia is setting the pace for Canada. The Commonwealth proposes to increase its force at the front to 800,000.

Germany Cannot Win. Col. Feyler, a military critic, tells a Swiss journal that Germany cannot win this war, and proceeds arithmetically to demonstrate the truth of his assertion.

Chatham World-L'Acadieu strongly urges the formation of an Acadian battalion, and shows how advantageous it would be to the status of the Acadian people of Canada.

There is some discussion in Montreal and Toronto papers on the subject of the care of wounded soldiers.

STRICKEN SERBIA

Of the sufferings of the people of Serbia a letter from Monastir, dated Nov. 23, says:— "Serbia is starving. Men, women, children, and even animals, fleeing before the advance of the hostile armies, are dying in hundreds by the roadside and the mountain passes.

Slavko Crofts arriving here today after a terrible twenty-day trip from Nish, described some of her experiences. "Even the horses we rode were starving," she said.

Dear Sirs: I wish that your request to have our passenger ships call at Halifax on the inward and outward trips this winter, but, as I said to you personally, I am convinced that it cannot be done in the interest of the country.

The war has brought upon us a condition of things with reference to our Atlantic steamship service, that could not have been foreseen, and that it will be difficult for us to satisfactorily meet, even with our greatest efforts.

In these circumstances, we must either utilize such steamships as are available to the utmost, or we must permit a substantial percentage of our Canadian exports to be diverted from our Canadian ports.

Apart from all other considerations, the Halifax call would involve a delay to our passenger ships of from two or three days on each round voyage, with a like reduction in their freight carrying efficiency.

Our endeavor must be this winter to avoid unnecessary detention of a single hour, so as to secure the full advantage of their carrying capacity. By running direct to and from

THE PROPOSED BATTALION FOR WESTMORLAND AND KINGS

Moncton, Nov. 30.—There is considerable interest here in the proposal to organize a battalion of English and French-speaking volunteers from Westmorland and Kent counties. It is expected that if the battalion is formed Moncton will be regimental headquarters until the battalion is recruited to full strength, when the companies will be distributed among towns and villages in the two counties.

The organization of all denominations in Moncton are co-operating with the citizens' recruiting committee. On last Sunday recruiting sermons were delivered from local pulpits. The following recruits signed yesterday with Lieut. Chaudier: Ernest Godwin, Harry Wilson, James Holgate, Stephen O'Hara, Charles Christopher and Ovid C. Smith, Westmorland and Kent.

Monter miscellaneous bill Imperial Wednesday, "The Goddess" to be repeated at the matinee only.

The erection of a lofty white obelisk, visible miles at sea on the Old Head of Kings, is being planned by relatives of Lusitania victims. Persons in America, France and Russia will be asked to contribute.

And You Wake Up With Beautifully Curly Hair!

(Town Tattler)

This is a secret that will, I know, be appreciated by my lady who detests tedious and "nervous" tasks of twisting her hair around a heated iron, or pulling it down the full length of the hair, or from any draught procure a few ounces of pure liquid sassafras and add a little onto a clean tooth brush and draw this down the full length of the hair, a simple thing to do, but remarkably effective, as will be evident in the morning.

The hair will have a wonderfully soft, curly curl, and a natural, healthy look, that when a woman has seen used, she will be glad to have it done every day, and there will be no trouble doing it up in any style desired.—Olea Ormiston.

AMUSEMENTS

FAMOUS DETECTIVE ON OPERA HOUSE SCREEN

"Monsieur Lecocq" Gives Powerful Presentation - Miss Lingley Wins Honors as Vocalist

With sensation, thrills, mystery, romance and drama, all intermingled by a producer and author, who evidently knows what the public demand is like, Mons. Lecocq, the great French picture, shown at the Opera House yesterday, scored a huge success. The average as well as the casual theatre goer would like this clever photo drama, its interesting and racy from its very start and the interest grows more and more as the story unfolds in the screen. It is in four acts and each act is brimful of good strong drama. To one who has read the famous novel by Emile Gaboriau, where the adventures of the great French detective, Lecocq, were so vividly described, this picture has a double interest, as the story has been literally transferred from the printed page to the screen. Whether you like detective stories or not, Mons. Lecocq will satisfy you for it is more than just a detective story. The staging is wonderfully realistic, very French in atmosphere and complete even to the smallest detail, and the photography is a splendid specimen of the artist's work.

In addition to Mons. Lecocq, the programme includes a full reel of the latest Gaumont Weekly, with many interesting views of Kitchener's Army on parade and in training camps, as well as scenes from London and other places of interest. There is also a huge comedy sketch, "Caught in the Act," which provoked a roar of laughter. Besides the opera, Miss Vera Lingley, a clever local singer with a good voice, sang two selections with the greatest skill and accuracy. The same programme will be repeated for the usual matinee and night performances today and for tomorrow.

THEY LIKED THE UNIQUE

Bill Contains Good Drama, Animated Weekly and Billy Ritchie

The bill for the first of the week at the Unique still leaves up the record for pleasing entertainment which that house has enjoyed for some time, and contains a strong drama by the Eclair company, entitled "For the Defence," which deals with a wild boy who in spite of every advantage goes wrong and ends up as a tramp, but is finally regenerated through the efforts of a waitress at a lunch room in the town of New York.

As usual the Animated Weekly presents many items of "vital interest" including a number of always popular war scenes. The comedy element in the programme is supplied by our old friend, Billy Ritchie, in "Roses and a Dollar and a Half," which is one of those L-Ko releases that amusement lovers always like, for, and in this one they will not be disappointed for the manner in which Billy makes the star boarder in his home state and the crew of his ways, is laughable in the extreme as the large audience of yesterday afternoon and evening testified by their shouts of merriment.

KING OF NEWSBOYS LYRIC ATTRACTION

Noodles Fagan Begins Engagement - Has Some Special Features for Week

Noodles Fagan, the so-called King of Newsboys, made his first appearance at the Lyric last evening. Mr. Fagan came unheralded, and few were aware of the remarkable position which he enjoys in the amusement world. What they saw and heard last evening, although the created amusement and pleased much better than the average vaudeville act, still did not make them aware of what big Noodles Fagan had in reserve for the week, as he is booked for the entire six days at the Lyric.

Mr. Fagan is known as the boys' friend, and during the week he proposes to entertain thousands of boys, in conjunction with the Lyric management the greater portion of this entertainment will be free. Wednesday afternoon, at 4.15, he will give a free show for the boys, and on Thursday a free entertainment for the girls at the same hour. Full particulars will be given in the papers as to just what this show will consist of, but it is entirely different from the vaudeville act. He will be assisted by his wife and little daughter, who will contribute to make the play appealing and enjoyable. The contrast between the several characters, the distinctions of caste in the matter of the Jewish and English families, are defined in such a way as to please both sides and to provide for all the heartiest of fun.

Get your seats today for this play. It will open on Thursday, "Red Cross Night" at the Opera House, he repeated on Friday, "Governor's night," and again

ENJOYED "THE HOUSE NEXT DOOR"

Theatrical Man in City Gives Praise—Says It is Good, Clean Comedy—In Aid of Red Cross This Week

"I consider 'The House Next Door' a remarkably attractive play," said a theatrical man well known in St. John yesterday. "I have seen it several times in New York, Boston, and other centres, and each time I have seemingly enjoyed it more, although my delight at the first performance was huge indeed. There is a certain tenderness about it, a light shade, a depth of significance and through it all, an abundance of bright, sparkling humor and satire written in J. Hartley Manners' best vein, and all contribute to make a play appealing and enjoyable. The contrast between the several characters, the distinctions of caste in the matter of the Jewish and English families, are defined in such a way as to please both sides and to provide for all the heartiest of fun."

Get your seats today for this play. It will open on Thursday, "Red Cross Night" at the Opera House, he repeated on Friday, "Governor's night," and again

CAN GERMANS STAND RUSSIAN WINTER?

Paris Figuring When They Will Retreat—A Study of Temperatures

Paris, Oct. 23.—(Correspondence)—Predictions that the winter will be very severe have inspired comparisons between the German campaign in Russia and Napoleon's Russian campaign of 1812.

Abbe Moreaux of the Bourges observatory points out that a curve indicating the European localities where the average temperature in January is zero Centigrade or 32 above zero Fahrenheit would pass along the coast of Norway, protected by the Gulf Stream from greater cold, ascend abruptly along the west coast of Denmark, and follow a line considerably westward from Berlin, turning eastward in the region of Trieste to the Black and Caspian Seas.

Another curve marking a zone where the average temperature is 14 degrees above zero Fahrenheit would comprise Berlin, Vilna, Riga, Drinsk, Moscow and Petrograd. To make up this average, however, zones of greater cold are comprised, the maximum at Petrograd being 38 below and at Moscow 47 below zero Fahrenheit.

War News in Last Night's Cables

London, Nov. 29.—The campaign in the Near East is about to enter a new phase, upon which the visits of Lord Kitchener to Paris and Emperor William to Vienna, it is believed, will have an important effect.

Lord Kitchener, after visiting the Balkans and Italy, has arrived at Paris for an important series of conferences with the French staff, while the German Emperor has gone to Vienna to see Emperor Francis Joseph and discuss with the Austrian generals what the next move will be.

So far as Serbia is concerned, winter appears virtually to have put an end to any important movements, although the Austrians are proceeding to deal with the Montenegrins, whose frontier they have crossed while the Bulgarians are attempting to advance to Prizrend, and Monastir.

Desperate fighting continues on the summits around Gorizia; the Italians claim to have captured more Austrian trenches, but the Austrians declare that the attacks all along the Isonzo have been repulsed.

Artillery and aerial fighting has marked the progress of events in France, while in Russia an almost complete lull prevails. In the Caucasus a recrudescence of activity, however, is reported, Petrograd recording several scouting expeditions.

After clearing the battlefield at Casiphon, near Bagdad, in Mesopotamia, the British have again withdrawn to the river. The Turks report that the British were forced to retire by reason of counter-attacks, after suffering very heavy losses.

Artillery engagements, in which the British monitors took a hand, continue in the Gallipoli peninsula, where it is reported from Rome that Austria is seeking a separate peace with Italy. This is not generally credited, although in some quarters the German London, Nov. 29.—A despatch to the Exchange Telegraph Company from Copenhagen says:

"The Wolf Bureau (the semi-official German news agency) says that several members of the Vienna cabinet will resign.

London, Nov. 29.—Reuter's Amsterdam correspondent forwards the following: "The Telegraf is informed on good authority that serious rioting took place last Saturday in Berlin, in which several thousand women gathered before the imperial castle and demanded the return of their husbands from the front and improvement in food conditions. The crowd finally was dispersed by the police.

No confirmation of this Amsterdam despatch has been received here."

London, Nov. 29.—Canadian and Australian soldiers, with a sprinkling of British territorialists, this evening took charge of Memorial Hall, where the Union of Democratic Control, an organization which is opposed to conscription and favors peace, was advertised to hold a meeting, and unceremoniously threw the speakers from the platform and turned the gathering into a recruiting meeting.

London, Nov. 29.—A German submarine, attacked by a British seaplane of Middelkerke on Sunday, was sent to the bottom, according to the official report of Field Marshal Sir John French, which was given out by the press bureau tonight. The submarine, says Field Marshal French, was deep to break in half. The British commander further reports much activity on the part of the artillery and the aircraft, no less than 15 encounters in the air taking place on the 29th.

London, Nov. 29.—(Correspondence)—No visitor who enters Kobe by sea can fail to observe the great activity in shipbuilding at this port. The most heavily capitalized shipyards in Japan are located here, and all its docks are filled with work. Three large ships and many smaller ones are in course of construction.

The shipyard at Onokuni reported to have nearly 100,000 tons of steel ships in course of construction. It is estimated that the shipyard has 75,000 in course of construction here in Kobe, and smaller yards in various ports probably have a tonnage of 20,000 under way.

Prices for ships have risen at amazing rate. Freight is computed at practically every important port in the Far East. In giving orders the shipping concerns inquire about the speed with which a commission can be executed rather than the charge. It is rumored that the cost of building orders is now being sold and bought at a high premium by those interested in shipbuilding transactions.

Ottawa, Nov. 29.—The Dominion Shell Committee has ceased to exist, and the "Imperial Munitions Board" has been appointed in its place, directly responsible to the British ministry of munitions. The reconstructed board has as its head, J. W. Flavell, of Toronto, who will act as chairman with executive and administrative powers.

General Alpe, Bertram, former head of the committee, will in future hold the position of deputy chairman with the following others comprising the board: Hon. Col. David Carnegie (member of former committee), G. H. Dawson, C. B. Gordon, J. A. Vallancourt and E. R. Wood, the latter four being new members.

Great work also shortly to be made in the country on a considerable scale. A great impetus has likewise been given to the manufacture of explosives, nitro-cellulose powder, tri-nitrophenol and salubrite are now being produced on a large scale, and at moderate prices.

RUSSIA EQUIPPING 2,000,000 MORE MEN

Need Now is Rifles, Says American in London—Scandinavians Become Wealthy

London, Nov. 29.—(Correspondence)—"Russia is now suffering only for want of rifles, and when she is properly supplied at least 2,000,000 additional soldiers will be thrown into the field with results which only next spring's campaign can tell."

This is the opinion of a prominent American mining engineer who has just returned to London after spending six months in the Russian Empire, mainly in Siberia, where he is the chief engineer of an important group of mines. Describing conditions in Russia, he said:

"The depression which prevailed outside Russia during the great German drive through Poland was never really duplicated in that country. Domestic troubles existed as always, but the people have made their power felt as never before and the only thing that could cause revolution now would be the conclusion of an unfavorable peace with the Central Powers.

"The people of Russia are enjoying something in the nature of a boom, and the cost of living of the Russian peasant, who does not require luxuries, has not appreciably increased. The Russian peasant is not an imaginative individual, and the losses suffered in the war have not greatly impressed him.

"Besides, the losses incurred in the great retreat were unbelievably small when the magnitude of the fighting is taken into consideration.

"Even the generally admitted shortage of rifles, the wastage of which has been unprecedented, is not causing the Russians much concern, as the staff has realized that the rifle used by infantry is not an effective arm. The Russian army is now well supplied with heavy guns and munitions and the infantry is being supplied with thousands of machine guns.

"In attacking the Russian infantryman almost invariably detaches the bayonet from his rifle and uses it as a knife when he leaps into the German trenches. He has even been known to discard both rifle and bayonet, relying on a club to win a trench.

"For the greater part of the war we have used Austrian prisoners as miners in our mines, but lately we have been receiving Germans from the Government Prisoners' Labor Bureau. These Germans in the main are absolutely unfit for

NEGLECTED COLDS VERY OFTEN TURN TO CONSUMPTION.

Never neglect what at first seems to be but a slight cold. Your head becomes stuffed up; you start to cough; an irritation in the throat follows; it gets lower down; settles on the lungs; you start to raise phlegm of a greenish, yellowish color sometimes streaked with blood, and you cough persistently.

You think, perhaps you are strong enough to fight off this trouble, but colds are not easily fought off in this northern climate. Colds if not attended to will sooner or later develop into some serious lung trouble.

Mrs. Willis H. Mank, Lower Ship Harbor, N.S., writes: "Last winter I took a severe cold on my lungs, and I would cough and spit up phlegm and blood. I had the cough for nearly a month, and I got medicine from the doctor, but it did me no good. I thought I had consumption. My friends advised me to use Dr. Wood's Norway Pine Syrup, which I did, and it gave me great relief. I am the mother of ten children, and I always keep a bottle of Dr. Wood's in the house. I will highly recommend it to all, especially to all who have little ones to care for."

Dr. Wood's Norway Pine Syrup is the best cure for coughs and colds. It has been on the market for the past twenty-five years. It is put up in a yellow wrapper; three pine trees the trade mark; price, 25c and 50c.

Manufactured only by The W.T. Mills Co., Limited, Toronto, Ont.

hard labor, most of them being old men with grey beards, while others are of the student class, many of them wearing glasses with thick lenses.

"A staff officer, who is closely connected with the prisoners' bureau, told me that for some time on the Drinsk front the Russians have been capturing from 100 to 200 women weekly. These were all in German uniform and were apparently serving as soldiers.

"In the Scandinavian countries nothing was talked about except the food shortage in Germany, and some confirmation of this was given to me by a Dane, who represents in Berlin one of the biggest American packing companies. This Dane told me that England was supplying its prisoners in Germany with food.

"Shipping owners in the Scandinavian countries are making enormous fortunes out of the war, and it is said that in Bergen alone this industry has created twenty-seven new millionaires since hostilities began.

Stallings Signs Chancy. Manager George T. Stallings of the Boston Braves has signed H. L. Chancy of Macon, Ga., for his team for next season.

A statistical person has just arrived at the conclusion that the baseball players received \$7,000,000 in salaries last season, and that it cost nearly \$6,000,000 more to provide sleeping accommodations, railroad fares and other expenses incidental to the season's playing.

WHO WILL PLAY THIRD FOR BRAVES?

Smith Has Gone Back Since He Broke His Foot—Was Unable to Field Bunted Balls. Who is to play third base for the Braves next year? If you can answer that little query, the gold watch is yours.

George W. Donaldson, who has resigned an excellent position in the office of Murray & Gregory, Ltd., to enlist as a private in the 119th Battalion, was over his broken foot of last fall.

Red Smith is a game ball player. But he has never been a good fielder at the hot corner. When he first came to the Braves from Brooklyn, he broke into the hero class as a fielder with several back hands, one hand, leap-in, stand-on-your-head catches.

Smith gets a ball that is banged straight at him. He is one of the best in the National League at smothering the wicked drives when the wicked drives come within reach of his hands. But if an ordinary bounce is a little removed from Smith, he loses the ball.

Swinging bunts usually get away from all third basemen, no matter how stellar. But bunts ought not forever to keep a man from being a third baseman. Red Smith rarely gets a bunt. He plays too deep for the ordinary bunt. Playing deep is a protection for hard his grounders, when a third sacker has a good throwing arm, which Red Smith surely possesses. But it is nothing more or less than rank poison for a third baseman forever to play deep.

A smart team can tap down more infield hits to a third baseman who plays deep than one would believe possible.

Red Smith's batting was pretty fair at the start of the season. He came up from Georgia in good shape, so far as the batting eye went. But Red then fell off in batting. Those healthy two-base blows which batted up so many games in the late 1914 were absent. The best pitchers in the league were forever pitching against Red and the best pitchers kept Red breaking his back after slow balls, floaters and fade-aways, a species of the genus pitch Red never could hit.

But Red Smith's inability to make any stands on the base lines is presumably the biggest and best reason why he stands less than the slightest iota of a chance of being third sacker for the Braves next year. Red never did get

OFFICER OF 69TH GIVES ADDRESS

Heard at Recruiting Meeting—Eighteen Sign On—Some Officers Chosen for North Shore Battalion—News From the Trenches.

The recruiting meeting in the 'Mill street offices last night was addressed by Major Winans, 69th Battalion, and Rev. J. C. B. Appel. Both gave stirring addresses, appealing for more men for the colors. Their appeal seemed to strike a responsive chord, for the total recruits numbered eighteen.

Capt. L. D. Jones, to be junior major; Sergt. Major Duncan, Chaplain, to be honorary lieutenant and quartermaster; Lieut. A. L. Barry and N. C. Mackay to be captains, are announced for the 119th Battalion to be commanded by Lieut. Col. Mersereau. C. F. Archer, Campbell, G. F. Fowle, Black River; B. Douglas, Moncton; R. S. Holmes, Doaktown; J. G. McKnight, Douglastown; J. B. McKay, Dalhousie, and J. A. McIntyre, of Campbellton, will be lieutenants in the new battalion.

Recruiting for the 119th in the North Shore is proceeding satisfactorily. Nearly 100 men applied to be taken on in Campbellton yesterday.

CASUALTIES

Edgar S. Weston, Jardineville, N. B., and Nolly J. Leet, Millerton, N. B., are reported from England seriously ill with the 89th.

H. Barsto, Hallburton, P. E. I., is reported wounded with the 16th Battalion.

Pte. John Donahue, of Brussels street, did not lose one of his legs following wounds received at St. Julien, as had been reported. He is home now, and is able to move about quite freely; expecting soon to be able to use the injured member as well as ever.

Pte. D. H. Hargreaves, 26th Battalion, writing to friends in St. John, asks to be remembered and tells of having seen the 'Old Mounted Rifles' going into the trenches.

C. Ledford, secretary of Marlborough Road, St. J., has received from Private H. Dickey, A. E. Hardiman, and E. Melor, in which they give praise to Lieut. Col. McAvity, O. C. the 26th, to which they belong, for his capability as a commanding officer.

Pte. C. Bennett, 26th Battalion, writing to his father, James Bennett, pilot, tells of being well and of having had some thrilling times in Belgium in recent fighting.

Overheard in The Store.

That man's boot you are selling at \$2.98 is as good as any \$4.00 boot I ever saw. I did not know you carried such a variety of really good boots. I am glad I saw your announcement in the paper. Why, I was pricing Gaiters today and they asked 80c. for that one you are selling at 55c. "Seal Brown Gaiters only 50c." That's all, lady. But they were \$1.25 before we cut the price. "I guess I will get a pair of House Slippers with what I saved on my new boots." "One thing about your Rubbers. They fit nicely at the heels. Do you know I think that makes them wear longer." That clerk certainly waited on me nicely. I never had such a perfect fit. I always dread getting new shoes, but I would not if I could always be served as nicely as I was this time.

Rubbers must be cheaper this year! "No, lady, but we are sacrificing our profit to get them all cleared out. We must be out by January 1st. "My word." "Boy Scott" Rubbers for 70c. That is what I paid for these common ones he has on now. "Well, you know, I always buy your patent leather boots and I have never had a poor pair yet." I am going to tell Ned about these Hookey Boots. Last year he paid \$3.50 for his "Lightning Hitch," and you said \$2.50 a pair now. Well, that is some reduction. It does not seem right to close up altogether and sacrifice everything just after you have had the store fixed up so suitably. I never go to sales, but I am glad I came to this one. I saved more than my husband will earn today.

SECURED 246 RECRUITS IN ONLY FIVE DAYS

Private George English of the 20th, in a letter to his wife, who resides in Brookville, announces that he is in a hospital with a wounded arm. His left arm was struck by fragments of shrapnel and badly injured. The surgeons have intimated that he may lose the use of the arm but Private English is confident that he will recover the use of it. His letter indicates a mild surprise that he should have been struck while in the comparative safety of a trench after passing through some much more dangerous positions. He tells of attempting to save Private Glass of his battalion, whose death was announced some time ago. He says Private Glass was repairing wires when he was shot and lay there wounded. English slipped out of the trench and got him and brought him back but Glass was too badly wounded and died later. Another soldier went out to help English bring Glass in but was wounded in the thigh and rendered helpless and English had to make a second trip to bring him in, escaping both times without a scratch, in spite of a hail of bullets. The wounded soldier speaks very highly of Major Dunfield both as a leader and also for the interest he takes in his men.

Mrs. F. G. Day of King street, West St. John, has received the following letter from Capt. Frank H. Elliott:
 Dear Mrs. Day:
 I received your letter some time ago and was very glad to hear from you. As you probably know, I was transferred from the 20th Battalion to the 12th Battalion and am in command of No. 9 company. This company has 220 men in it; a great many of them are men who have been wounded at the front and as soon as they are discharged from hospital they report to my company, and they are sent to the convalescent homes. They stay in these homes until they are well again and then return to the company. If they are fit for duty they are sent back to the front and if not fit they are sent before a medical board for discharge and returned to Canada.

Sergeant Logan's home is in Adelaide street. He is a son of Howard Logan, who emigrated a few months ago in Montreal after coming back from the Pacific coast, as private but has been promoted to a serjeanty.
