Commissioners Defer Action

Await Railway Board Decision On Time

MORE DAYS OF CONFUSION

A Motion to Ask School Board Also to Await is Presented But Withdrawn—Statements by the Commissioners

It was unanimously decided at a meeting of the common council in committee this morning that the matter of daylight saving for the city of St. John be left over until the decision of the railway board at Ottawa is known.

There was a general feeling that something ought to be done to relieve the present day confusion but no action will be taken until the railway board is heard from.

Commissioner Fisher said that as no word had been received from the railway board the council should take no action. He added that opinion on this matter was divided in the street.

Mr. Jones asked if the council did pass it would there be a penalty if it was not adhered to. He was informed there would not but a vote by the council legalized the matter.

Mr. Bullock said that daylight saving was introduced too early. He favored it later, when the real benefit could be derived. There was a lot of confusion now which should not be.

The mayor interposed and said it was brought about by the action of the railways.

Communications were read from the Longshoremen's Association, the men of the water and the men of the docks. The men of the docks were objecting to daylight saving.

SPOT CASH TO BE RULE IN QUEBEC

Retailers Decided to Abolish Credit System—Start on May 1

Quebec, April 2.—The Quebec Retailers Association, at a meeting last evening decided to adopt the spot cash system of sales to do away with the credit system that has become the scourge of business in Canada.

The grocers, who sell commodities of life and who are the heaviest losers through the credit system were also of the same stand. The new spot cash system is to be put in force in Quebec city on May 1.

TO REORGANIZE THE TERRITORIAL FORCES OF GREAT BRITAIN

Fourteen Divisions and Fourteen Mounted Brigades—Statement by Winston Churchill

London, April 2.—(British Wireless Service)—It is proposed to reconstitute and reorganize Great Britain's territorial forces into fourteen divisions and fourteen mounted brigades from army troops, garrisons and old line of communication units, said Winston Churchill, secretary of state for war, speaking at a conference held here yesterday.

Mr. Churchill declared, in discussing the liability of territorial forces for overseas, that they should not be called upon for such service until the situation became so serious that the general military service act, calling for troops for the duration of the war, has been assented to by parliament.

NOTED OFFICERS COMING HERE ON THE MELITA

Among the distinguished soldiers who are to arrive in St. John on the S. S. Melita are Lt.-Col. Clark-Kennedy, V. C., C. M. G., D. S. O., Montreal, who has had a very brilliant career as a staff officer and a commander of a Montreal battalion while in France. Major H. N. Niven, V. C., D. S. O., formerly of London, Ont., but now of Calgary, is also to arrive on the Melita. Major Niven is one of three surviving officers of the original Princess Pats, and at one time while in the trenches in France had command of the battalion when but a lieutenant. He is a brother-in-law of Major K. H. McCrimmon, assistant director of supply and transport at local military headquarters. Both of these officers are en route to their homes after having spent considerable time in the service of their country.

Quebec Clearings Quebec, April 2.—Bank clearings for the week ending today are \$4,709,587; last year \$3,689,586.

Died in Quebec Quebec, April 2.—The wife of Albert W. Dunn, stock broker, of this city, died suddenly today at her home.

Then there was an estimated saving of 25 per cent in gas and electric light bills for the seven months, and the conservation of approximately 1,500,000 tons of coal.

As It Is in Moncton. Moncton was priding itself upon possessing a city council which would be superior to all its predecessors in promptness of action and decision. Its solution of the daylight saving situation, however, in its adaptability to local requirements does not bear out that anticipation. The fire horn still blows at 7 o'clock at night to tell us that it is 6 by old standard time. The city hall still blissfully ignores the situation in the busy city outside of its sacred walls and sometimes the city council will be adjourning its meetings at midnight when the city is peacefully slumbering instead of dispersing at the usual hour. Perhaps the city council like the railway board at Ottawa is waiting for more arguments than heretofore advanced. The Transcript itself is not enamored of the daylight saving but it regards uniformity of action locally as being essential. We should conform to the railway and the time in the L. C. R. works. If the present order is countermanded then the city can easily adapt itself to the old time, but in the meantime we should not have two times.

HIGHER CLASSES GIVING WAY TO THE SPARTACANS

Begin to Argue That Bolshevism Can Not Make Matters Worse

DISCONTENT EVERYWHERE

Say Only Large Increase in Food Supply Can Save Situation—Munich Newspapers Give Choice of Three Courses, or Close up Shop

London, April 2.—A long Berlin despatch from Reuters' correspondent comments on discontent noticeable everywhere among the German people of all classes and the talk of a new coup being imminent.

Sympathy with Spartacism, says the correspondent, is beginning to invade the better classes, including officials, clerks, teachers and people in similar walks of life. They argue that things cannot be worse and that Bolshevism at least opens the prospect of "better things one day for our children" as regards food.

They ask, the correspondent continues, whether nothing can convince the man of small means that Bolshevism is not calculated to bring him the ideal state of which he dreams. He people say that a liberal increase in the food rations, especially of meat, bread and fats, alone can work such a miracle.

Monich, April 2.—(By the Associated Press)—Munich newspapers were told yesterday that they were given three choices if they wish to continue operations—the adoption of syndicalism, communism or state ownership. This announcement was made by a newly appointed economic ministry official, Dr. Neuraath, who was named at the instance of the minister of the interior to handle the socialization of the press.

Dr. Neuraath has announced he will make energetic use of the powers conferred upon him by the Diet, and that his papers shall henceforth belong to the employees, the city of the state, and must be printed in the German language. The people newspapers will be permitted only limited political freedom and will not have the right to make political utterances. They will be allowed to publish only educational and diverting articles. The communists parties will have the right to political freedom of the press. Editors have not ventured to answer the announcement of Dr. Neuraath, since the pressure exerted upon them effectually prevents public utterances.

VOICE OF WEST IS HEARD AGAIN IN DEMAND FOR EARLY TARIFF REDUCTIONS

Winnipeg, April 2.—Two important resolutions were passed by the Canadian Council on Agriculture here yesterday, one a pronouncement on the tariff question and the other dealing with political action. In the former, which was voted by the government at Ottawa, the council reflects the determined support of the western rural districts in their claim for a substantial reduction in the tariff during the present session of parliament.

It is understood that the council tomorrow will adopt a resolution to be forwarded to western members in the house of commons calling upon them to stand fast in their representations for such a tariff policy when the budget is presented.

MIDDLE OF MONTH BEFORE ICE OUT OF ST. LAWRENCE

Quebec, April 2.—Good progress is being made by the Canadian government steamer Montcalm clearing the ice above Three Rivers. The Lady Grey is still stuck in the jam. The cold snap of the last five days killed all chances of seeing the river clear this week and the clearing of the ice is not expected before mid-April.

WEATHER REPORT

Issued by Authority of the Department of Marine and Fisheries, R. F. Stewart, director of meteorological service. Synopsis—There are no very pronounced movements in progress in any part of the domain, but it is probable that a shallow depression now in Iowa will move to Lake Erie. The weather continues quite mild in the western provinces and is becoming milder on Ontario eastward. Fair and Cool. Maritime—Moderate to fresh southwest to northwest winds, fair and rather cool today and Friday. New England—Fair, warmer tonight; Friday increasing cloudiness and warmer, probably rain in western Massachusetts; moderate winds, becoming south.

ALL OF THEM FIGHTING MEN

Here are some of the principal officers connected with the work of the information and service branch of the department of soldiers' re-establishment in Toronto district. They have all seen active service. From left to right they are: Capt. W. S. Cleverly, special representative for Toronto district; Major A. S. Hamilton, supervising representative for Ontario, and Lieut. C. W. E. Meath, assistant local representative.

Hindenburg Reported Violating Armistice

Said to Have Ordered Mobilization in Northern Silesia; Hundreds of Women and Children Reported Killed

Geneva, April 2.—Field Marshal Von Hindenburg, with a large staff, has arrived at Gliwice, northern Silesia, and, contrary to the terms of the armistice, has ordered a general mobilization in that region, according to dispatches to the Reuters' correspondent.

The Polish agent at Lausanne states that the Germans are systematically destroying the industries of Upper Silesia and taking everything away from the factories. Owing to the seriousness of the situation, it is said, Premier Paderewski of Poland has postponed his visit to Paris.

ONE OF THE FINEST FREDERICTON HOMES IN GRIP OF FLAMES

Heavy Loss in Jas. F. VanBuskirk's Residence—John Herbert Repeatedly Missing

Fredericton, April 2.—The residence of Jas. F. Van Buskirk, York street, one of the finest in Fredericton, was almost destroyed by fire between 6 and 6 o'clock this morning. The occupants were aroused by smoke and escaped in their night clothing over which they threw coats. It is believed that the fire originated from the furnace. The building was of wood with metal roof. Much of the furniture was not getting and was a heavy loss. Much clothing and some jewelry and other valuables were destroyed. The third story destroyed and the others, damaged by fire, smoke and water. A rough estimate of the loss is \$20,000. The building was purchased by Mr. VanBuskirk about twelve years ago and rebuilt by him. Prior to that it was the property of the late Hon. David Stearns, who had purchased it from the late Ezed Fisher. John Herbert, sometimes known as John Hebert, formerly of Moncton, has disappeared from this vicinity and much anxiety is felt by his wife, living in Marysville, formerly Miss Ethel Courter, to whom he was married a short time ago. Before being discharged from the Canadian expeditionary force he was corporal. He went overseas in 1916. Recently he served with the military police here and later took a vocational course at the N. B. military hospital.

There will be a contest for the mayoralty of Marysville on Monday. The candidates are Mayor Stafford and ex-Councilman Stephen. All councillors were elected yesterday by acclamation—Geo. R. Sloan, Chas. Finmore, Thos. McDowell, John Stafford, J. William Macpherson, Marjorie Minto, Wm. Wister and Wm. McElwain.

Prof. W. J. Smith, organist and choir master of Christ Church Cathedral, has returned to his home in St. John on April 29 by S. S. Minnedosa on his native land, Scotland, where he and his family are to spend the summer. They will return to Fredericton in September.

Joshua Hallett Dead. Joshua Hallett, of Millville, died this morning, at the age of sixty-two. Pneumonia developing caused his death. He is survived by his wife, five sons and five daughters, two brothers and two sisters. Two of the sons are now overseas. Another, Arden, after four years' service was killed in action in France in 1918. Mr. Hallett was a prominent farmer and conducted extensive lumbering operations. Last year he operated for the Nashuaak Pulp & Paper Company on the Nashuaak River.

HALIFAX EXPECTS HEAVY TROOPSHIP SUMMER BUSINESS

Halifax, N. S., April 2.—It is expected that the discontinuation of returning the Canadian troops at this port will continue during the summer and that few of the troop ships which have been coming to Halifax this winter will be transferred to the St. Lawrence route. Cunard liners, such as the Caronia and Carmania, which are on the regular service to New York, will probably continue to call here westbound to land troops and the same is expected of such White Star liners as the Celtic, Celtic, Baltic and Adriatic on the New York route.

High Praise For The 26th At Inspection

ST. LOUIS BAKER KILLS THREE MEN

St. Louis, April 2.—Frederick T. Fielder, a baker, last night shot and killed three men, one his former employer and the others, former workmen of his, in a bakery here. Fielder was arrested, and, according to the police, said he fired at the men because he recently had been discharged from the bakery.

LOCAL NEWS

PATROL STALLED The police patrol was stalled in Union street this morning for more than an hour. It had been out conveying to the police station two men arrested on drunkenness charges.

POLICE COURT Two men were in the police court this morning charged with drunkenness. On being questioned, they said that the liquor was given to them. They were remanded to jail.

FOR Y. M. C. A. Twenty-five teams, composed of two men each, started out to canvass the city this morning in the interests of the Y. M. C. A. drive and from reports received at noon, all were meeting with a good reception and the outlook was bright.

AT THE HOSPITAL. Roger Clancy, who was injured yesterday by falling fifty feet into the hold of a vessel, becoming unconscious, is reported today at the hospital, as being conscious. Although very seriously injured there is hope for his recovery. Frederick Barrett, who had his leg taken off by a car in the C. N. R. yards, is reported from the General Public Hospital to be resting comfortably.

CHEERING WORD. W. A. Macdonald has received a letter from his son, Major Mathias, written by himself, also a letter was received from the Royal Victoria Hospital where Major Macdonald is undergoing treatment on account of wounds received in France, that he is to be allowed to sit up this afternoon. This is very encouraging news, as it was feared at one time he might not recover.

ZION CHURCH SOCIAL The third of a series of socials in Zion church was held last evening in the school room under the auspices of the Ladies' Aid Society. The proceeds are for the benefit of the society. A large number of people attended and a very enjoyable time was spent. An impromptu program was given. Clifford Hannah was in the chair. Those in charge of the refreshments were Mrs. Frank Cameron, Mrs. Wood Mrs. Henry Power and Mrs. Charles Berryman.

HEALTH MATTERS Three cases of influenza were reported to the board of health this morning. They are in one family in the city, but are only moderate cases. These are the first cases reported originating in the city for more than a month. There is no death from influenza last week, in the dependent hospital, but a case brought to St. John.

Dr. J. F. L. Brown, district medical officer for the southern district left for Hampton today in connection with board of health matters in his district. Dr. G. G. Melvin, chief medical officer for the province, went to Fredericton today on business.

BURIED TODAY The funeral of Miss Philomena M. Kelly took place this morning from the residence of her parents, Mr. and Mrs. John Kelly, 314 Rockland road, to Holy Trinity church, where requiem high mass was celebrated by Very Rev. J. Walsh. Interment was made in the new Catholic cemetery. The funeral was attended by many friends and relatives were pall bearers. A large number of spiritual offerings and floral tributes were received.

The funeral of William Marshall took place this afternoon from the residence of his sister, Mrs. John O'Neill, 64 Murray street. Service was conducted by Rev. R. P. McKim, and interment was made in Fernhill.

LISSON-LOCKHART Miss Helen L. Lockhart of 192 Tower street, West End, daughter of Mr. and Mrs. Thomas Lockhart, and Melley Lisson of Upham, Kings county, were united in wedlock at the Lockhart home yesterday afternoon by Rev. Dr. J. A. Morrison of the Presbyterian church. The bride's brother, Thomas Lockhart, Jr., gave his sister in marriage, and Mrs. Lindsay Hoar of Oram, Me., was bridesmaid. The groomsmen were the bride's brother Walter. Miss Lockhart was attired in blue satin with veil and orange blossoms and her bouquet was of cream roses. A dainty luncheon was served and on the evening Canadian train Mr. and Mrs. Lisson left for their home in Saskatchewan.

PLANS FOR WORLD-WIDE TELEPHONE SYSTEM

New York, April 2.—Plans for a world-wide telephone system are being considered by the General Electric Company, according to a statement made by F. W. Alexanderson, consulting engineer of the company, in an address here before the American Institute of Radio Engineers. Mr. Alexanderson declared that two devices invented by him—the bridge receiver and the barrage receiver—would make possible introduction of such a system, so that business deals could be transacted in a few minutes by persons thousands of miles apart. He explained that the system contemplated is virtually a replica of the exchange system of ordinary telephony. Central offices, he said, would be established in all the principal cities.

Last Review Before Leaving For England

GEN. RAWLINSO'S TRIBUTE

A letter from Belgium written by a member of the 26th Battalion—St. John's Own Tigers—gives not only a slight on the standing of that unit in the whole battle array on the western front, but it drops a hint about homecoming that suggests thoughts of a big welcome. The communication, written with the freedom of personal correspondence, tells how the 26th was drawn up in a large square at Avelais, Belgium, only a short time ago and put through a rigid inspection by that old war-dog, General Rawlinson, commander of the 4th Canadian Army, who gained so much fame among soldiers and civilians by his stand in the terrible Hun drive of the final phase of the war.

Every man was a battle-scarred fighter and while the personnel of the battalion was not that which left St. John, there were enough officers, non-coms, and privates to retain its individual identity. General Rawlinson said, while it was not always advisable to make comparisons, he felt that the 26th was the finest Canadian battalion he had ever inspected. He seemed greatly pleased. The appearance of the battalion, he said, was most highly creditable. They looked like good parade soldiers and he knew they had been good soldiers in the line. Then came the march-out with the battalion swinging by in good style. The writer was hopeful of return to St. John by June.

THEFT OF \$950 IN NEW GLASGOW; WOMAN SAYS S. E. IS GUILTY

No Sign of the Money in Place Where She Said She Hid It

New Glasgow, N. S., April 2.—William Weluck and his wife, Elizabeth, Austrians, have been arrested following a confession made by the woman that she stole \$950 from a boarder in her house. She said she had buried the money in the cellar but when she took the police to the place it was not to be found, and is still to be recovered. William Neal has confessed to being implicated in the series of midnight robberies which have recently started the community. A suspect has also been placed under arrest in this connection.

PEOPLE OF LARGE PART OF POLAND REPORTED IN DIRE DISTRESS

Washington, April 2.—Widespread suffering and distress throughout eastern and southeastern Poland are described in a cablegram from Warsaw received yesterday by the American Red Cross headquarters here from a Red Cross mission which had just returned after an eight day tour of inspection during which it had covered 1,600 miles and distributed food, clothing and medicines in twenty cities and numerous villages. The members of the mission were said to have found the population practically without any of the necessities of life and disease prevalent everywhere. Thousands were sick and dying from epidemic of typhus, the smallpox and trachoma, while whole towns were reported to have been practically wiped out by the disease. "In many of the isolated villages," states the cable, "starving peasants lined the roadside and begged for food."

Halifax Banks

Halifax, N. S., April 2.—Bank clearings for the week ending today were \$3,821,566; corresponding week last year \$3,141,469.

GOOD THINGS COMING TO THEATRES OF ST. JOHN

BIG PROGRAMME AT PALACE FOR FRIDAY AND SATURDAY

The Palace Theatre presents five different pictures for Friday and Saturday: "The Fight for Millions," serial episode fourteen; Mutt and Jeff in a comedy cartoon, "The Wooling of Riley." Another of those two-act western comedies (first time in the city), Little Mary Alister in a two-part drama and last a single reel comedy to complete the bill. One of the best mixed programmes offered yet. With a big matinee on Saturday.

TONIGHT'S AND NEW OPERA HOUSE BILLS

Tonight is the last time for the present vaudeville programme at the Opera House—usual two shows at 7:30 and 9:30 o'clock, not on the daylight saving schedule as yet.

The regular change of bill opening tomorrow night offers Mile Zinkovans in a novelty musical offering; Miller and King, comical skit with class songs, dances and gossip; Smith and Toel, classy ebony entertainers; LeEmma and Boyd in a sensational serial act; Eddie Vine, comedian, singer and all around funny fellow and the third chapter of the serial, "The Terror of the Range."

HACKETT-MCKNIGHT CONCERT TONIGHT

At sharp eight forty-five this evening the programme for the big Imperial concert will begin. Not for some time has so important a musical event been held locally, and music lovers have been anticipating with much interest. The programme is a most interesting one, and it is to be hoped that as plenty of good positions remain.

They ate in silence for a time, then Miss Workalot said: "Nice bit of tripe, ain't it?" "Well, mine's a bit stringy," Mrs. Workalot looked and laughed, "Try it with yer veil off, dearie," she said.

SELL THE CITY RESIDENCES IN LANCASTER

Com. Bullock Presents Matter At City Hall

SAVS THEY'RE NOT PAYING

Council to Take up Question on Monday—Mr. Carvell's Proposed Garage in Cliff Street—Paving Motion Laid

The common council this morning, besides discussing the matter of daylight saving agreed in committee to recommend to the council the sale of the city houses in Lancaster. The mayor presided and all the commissioners were present.

Commissioner Bullock submitted a proposition asking for the sale of the city houses at Lancaster. The terms would be \$30 down with a fixed rate for twelve years in monthly payments without interest. He said the city was going behind on these buildings, on an average of \$800 a year.

Under the proposed plan the water rates, insurance and taxes would be paid by the purchaser, who would secure a deed, own the property outright with the city holding a mortgage until all paid for.

The commissioner said one house was badly dilapidated, another much in need of repairs, and the general upkeep was beyond the income. His resolution, was carried and will go before the council.

Commissioner Bullock submitted a request for half pay of \$107.05 for time lost owing to illness.

The Commissioner Fisher thought all departments should be uniform in this regard. The mayor agreed. The matter was laid over until next week.

George Carvell was heard. He said he had been given unanimous authority to build a garage in Cliff street. Upon applying to the building inspector he was informed that there would have to be some change in the by-law before the permit was issued. He had later seen where the matter was again before the council and being further considered. He asked for a permit.

Commissioner Thornton said the whole matter was under consideration. He was looking into the by-law relative to garages being erected near churches. He added that there were some strong objections to the building of this particular garage in Cliff street.

The mayor said Mr. Jones agreed that Mr. Carvell should be given a decisive answer. The matter will be reported on Monday by Mr. Thornton.

Commissioner Bullock said the by-law should be changed.

The council was also petitioned for the eighth hour day by the men of the public works and the water and sewerage departments. This matter will be considered when the time question has been settled.

A motion by Commissioner Fisher that Union street, between Sydney and Brussels, be paved the work to be let by contract and paid for by bond issue, was lost, as the vote was not unanimous.

Commissioner Bullock read a communication from the Colwell Fuel Company, West St. John asking that the limitation on the city's property in Carleton street be removed.

The limitation on the city's property in Carleton street expires on May 1 and they have been paying a rental fee of \$150. The limitation for repairs, etc., is at present placed at \$8,000. They are now asking that this be increased, they expressing willingness to pay a higher rental.

BRING EMPLOYEES OF GROWN UNDER RULE OF GARNISHEE ACT

Requests Presented to Government Today by Retail Merchants Association

(Special to Times)—Fredericton, April 3—A delegation representing the Provincial Retail Merchants' Association waited on the government today. They asked for an amendment to the early closing act under which stores are required to close at 5 p.m. on days when the majority of those engaged in that particular business. Difficulties have arisen over stores handling more than one line of goods, many of which may be affected and the other not. They also ask that the limit for which the garnishee act may be invoked be reduced from \$50 to \$25, that the act should be simplified and that steps be taken to bring the government railway and other crown employees under its jurisdiction. The delegation included F. W. Daniel, H. H. Scovil, A. A. McIntyre, St. John; Robert Strain, Woodstock; H. E. Grass, A. E. McWeeney and T. Greenwood, Moncton.

A delegation from the N. B. Fruit Growers' Association asked the government for permission to secure incorporation, like the Nova Scotia association, also that the horticultural staff under Mr. Turney be increased and that an annual grant be made to the association. A delegation from Chatham will ask for a subsidy for the steamer Max Allen.

AUTO LICENSE FEES

Commissioner Bullock at the next meeting of the city council will recommend the following auto licenses rates for delivery of merchandise, etc.: 2c. 500 lbs. to 1,500 lbs. weight, 2 1-2c. 1,500 lbs. to 2,000 lbs. weight, 3c. 2,000 lbs. to 2,500 lbs. weight, 4c. Over 2,500 lbs. weight, 5c.

Passenger autos for three—Four passengers or less, \$10; over four passengers, \$18.

In the vehicle by-law, the words "for hire or wages" to be struck out.

Mrs. and Miss Workalot were having a little treat. They'd gone to a hot, steamy, smouldering little restaurant and were having a "bite o' dinner." They ate in silence for a time, then Miss Workalot said: "Nice bit of tripe, ain't it?" "Well, mine's a bit stringy," Mrs. Workalot looked and laughed, "Try it with yer veil off, dearie," she said.

Chicago, April 3—No change in meat prices will result from removal of government profit restrictions on that department of the packing companies, according to statements issued today by Armour and Company, Swift and Company and Morris and Company.

WILL SOON GO WEST

Fred W. Eddleston and Mrs. Eddleston of 818 Princess street were pleasantly surprised last evening when a party of relatives and friends arrived at their home. Mr. and Mrs. Eddleston are soon to remove to British Columbia. They will first visit Mrs. Eddleston's brother, John B. Beiding, C. P. R. station agent at Slemons Junction, and will settle in that neighborhood or elsewhere in the Pacific province.

Mr. Eddleston, well known as a painter, was for years a member of the 8th Artillery Battalion and went overseas with the band that later joined the Princess Path. He, however, was invalided home last year. Last evening's visitors went with little gifts of remembrance for him and his wife. Refreshments were served and a very pleasant evening spent.

TENDERS

Tenders will be received at the office of Peter McIntyre, 387 Main street, up to April fifteenth, 1919, at noon, for sale and removal of the building, 223 Main street, known as Baptist Parsonage. Highest or any tender not necessarily accepted. For further particulars apply PETER MCINTYRE, Secretary Trustees. 97084-4-14.

JOHN READE POET—SCHOLAR—GENTLEMAN

(In Montreal Gazette.) By the death of John Reade Canadian literature loses one of its brightest ornaments, Canadian poetry a shining mark, and Canadian life one of its finest characters. An Irishman by birth, John Reade possessed all the genius of the Celt, his largeness of heart, his breadth of vision and his brilliancy of expression.

He was essentially a poet; it is upon his poems that his fame will eventually rest. His prose work, although important and voluminous, was largely of an ephemeral character; his poems, bearing the lasting impress of his genius, will bear his name to future generations as one of Canada's greatest poets. No anthology of Canadian verse will ever be complete without a wide selection from John Reade's work, rich as it is in its content and faultless in its technique.

It was in his youth—that " budding-time " of poets—that John Reade did his best poetic work, but while in latter years he produced some notable verse, his best work was done in his youth. It was his youth—that " budding-time " of poets—that John Reade did his best poetic work, but while in latter years he produced some notable verse, his best work was done in his youth.

Even the fifty years that have passed since the day the poem appeared—a comparatively short time in the life of a nation—have justified John Reade's faith in the Dominion.

Deeply versed in the classics, in French and in many other languages, John Reade was not only a master in original composition, but also excelled in adaptation, and his translations of many Latin, Greek and French poems bear the mark of distinction. Several of his finest translations are to be found in Lawrence J. Burpee's "Songs of French Canada," published by the Musson Book Company.

It was John Reade's good fortune to have his poetry appreciated in his lifetime, and to have his name placed in the annals of Canadian literature. He was long recognized as the dean of Canadian poets and on his seventy-fifth birthday his fellow poets all over the Dominion united in paying him a striking tribute of their esteem and regard.

Of his prose work all that need be said is that he put into his most notable work in this respect—his Old and New contributions, which were a feature of the Saturday issue of the Gazette for so many years—his vast store of erudition, his unrivalled powers of lucid narrative and his unsurpassed knowledge of men, events and literature. In this field he was facile princeps.

Many honors rightfully fell to him. A member of the Royal Society of Canada, and of many learned bodies, he had the honor of being elected to the C. O. C. committee, and under him there were squads of secretaries, numbering from 50 to 100. More than 200 K. of C. men are in Germany with the army of occupation.

While in Europe Mr. Mulligan opened fifty new K. of C. places.

In a long interview he had with General Sir John Bull, Mr. Mulligan learned that the general was thoroughly satisfied with the work of the various organizations. General Bull stressed the value of athletics for the men and was enthusiastic over the elaborate boxing programme being carried out by the Knights of Columbus in Paris and elsewhere.

Mr. Mulligan was the guest of Cardinal Mercier while in Belgium. He presented to Cardinal Mercier a check for 10,000 francs from Cardinal Gibbons. He also financed a building for K. of C. activities in Antwerp, where hundreds of American soldiers and sailors are stationed. While abroad he supervised the expenditure, in all of \$3,000,000 for the men in the service.

M. P. S. CHALLENGE

A striking challenge to the Yorkshire Miners' Association was made by James Walton, M. P., for the Don Valley division, in a speech at Thorne in England.

He said he understood that for attaching his name to the circular of the National Democratic party urging the miners not to strike he was to be dis-membered from the Yorkshire Miners' Association under a rule which specified that members must work in or about a mine.

He had been a member for twenty-five years, and would not relinquish membership without a struggle. If it dis-membered him because of his membership of the House of Commons they would have to do the same with five other members whom they had sent to parliament.

If the association persisted in its attitude he had sufficient grit to do five days of the week at Westminster and the sixth day underground at Mavers Main Colliery, Yorkshire, in order to retain membership.

TWO SENT TO DORCHESTER

In the case of William Devlin and Robert Golding, charged with breaking and entering summer cottages of Bowyer S. Smith, Fred Kinsman and The Ashburn Fishing Club and stealing the prisoners were tried under the speedy trials act and admitted the offences. His honor sentenced the prisoners to two years in Dorchester in respect to each break or theft, and the sentences ran concurrently. William R. Scott appeared for the defendants.

In the King vs. John Devlin, charged with receiving stolen goods, the grand jury returned no bill.

Joseph Perry, convicted of stealing a watch from J. W. McDuffee, was sentenced to six months in jail. Perry is also wanted by the military authorities for reported parading in a soldier's uniform unlawfully.

In the case of the King vs. Therses McVane and H. C. Mayne, the prisoners pleaded guilty, but in view of extenuating circumstances his honor allowed the defendants to go on their own recognisance.

K. C. WORK OVERSEAS

Statement By Wm. J. Mulligan After Return From War Lands.

New York, March 30—After being abroad supervising the reorganization of the Knights of Columbus war relief work to conform with conditions of the signing of the armistice, Wm. J. Mulligan, chairman of the K. C. war relief committee, has returned.

According to Mr. Mulligan all the war relief agencies were confronted with the necessity of making their work more intense when the excitement of hostilities had been taken away, leaving a reaction which had to be relieved by an increase of the means of diversion and recreation.

The Knights of Columbus had 700 workers overseas when the armistice was signed. Since that time, in conformity with the programme of more intense effort, 800 additional workers have arrived in France. The K. C. work has been reorganized into a system of zones, corresponding with the postal zones of the United States. Each zone has a supervisor, and under him there are squads of secretaries, numbering from 50 to 100. More than 200 K. of C. men are in Germany with the army of occupation.

While in Europe Mr. Mulligan opened fifty new K. of C. places.

In a long interview he had with General Sir John Bull, Mr. Mulligan learned that the general was thoroughly satisfied with the work of the various organizations. General Bull stressed the value of athletics for the men and was enthusiastic over the elaborate boxing programme being carried out by the Knights of Columbus in Paris and elsewhere.

Mr. Mulligan was the guest of Cardinal Mercier while in Belgium. He presented to Cardinal Mercier a check for 10,000 francs from Cardinal Gibbons. He also financed a building for K. of C. activities in Antwerp, where hundreds of American soldiers and sailors are stationed. While abroad he supervised the expenditure, in all of \$3,000,000 for the men in the service.

INFLAMED GUMS— A CAUSE OF LOOSE TEETH

Pyorrhea is undoubtedly a vital danger to both gums and teeth. Tender gums indicate it, and with it come loosening teeth. Imperceptibly, at first, the gums recede from the normal gum line. They inflame. They present many tiny openings for millions of bacteria to attack the unenameled tooth base. Tooth-base decay quickly follows. Even if the cavity be filled and the tooth saved, the gums continue to recede. Remember, too, that inflamed and bleeding gums are not many doorways for disease germs to enter the system—infecting joints or tissues—or causing other ailments.

Against this Pyorrhea (Riggs' Disease) ordinary tooth-pastes are powerless. Yet Pyorrhea attacks four out of five people who are over forty, and many under this age. But Forhan's— if used in time and used consistently positively prevents Pyorrhea. It is a scientific tooth cleanser as well. Brush your teeth with it. See how promptly bleeding or gum tenderness ceases and how your teeth are kept white and clean.

If gum-shrinkage has already set in, start using Saturday's special treatment. 50c and 60c tubes. All Druggists. FORHAN'S, LTD., 307 St. James St., Montreal.

C. P. R. AND DAYLIGHT SAVING. Owing to the decision reached by the large wholesale and retail merchants of the city to adopt daylight saving time, the times of arrival and departure of C. P. R. trains will revert to their original schedules. This will become effective Wednesday, April 2.

It means that the early morning train from Fredericton will arrive at 8.55 a. m. Atlantic daylight time. This train has been running one hour behind schedule. The afternoon local for Fredericton will depart at 5.10 p. m. and will make all the local stops. Subsequent trains will now be able to use this train instead of going on the Boston and making special stops. All the other trains, that is the incoming and outgoing Montreal trains and the regular express trains for Boston, and all other C. P. R. trains in and out of the city will revert to original schedules. The same thing applies to the S. S. Empress between St. John and Digby.

The privilege of commuters to use the evening Boston express train for special suburban stops will be cancelled with this arrangement. 4-4

A very enjoyable entertainment was held in the school room of Zion Methodist church last evening by the members of the Ladies' Aid Society. Clifford Hannah presided and there was a very large attendance present, the hall being filled to its capacity. A programme consisting of musical selections and readings was given which was greatly appreciated and applauded. Refreshments were served and a very pleasant social evening was spent.

"SOBBING SICKNESS" ONE RESULT OF WAR

People of Central Europe Afflicted With All Kinds of Nervous Diseases

Juvenile Crime Rampant—General Demoralization Caused by Physical Weakness Combined With Overwrought Nerves

(By Julian Grande, in New York Times) Berne, Feb. 27.—During the war I have been several times in England, France and Italy, but since the armistice I have been obliged to remain here, in the heart of Europe. Consequently I cannot say how the war seems to have affected the people either in my own country or in those of our allies in the United States. If, however, I were asked how it has affected people on the Continent generally I should say that it has made them more nervous and some of them even nervous wrecks.

Perhaps nowhere was this more noticeable than at the meetings of the International Socialist Labor Congress, attended by delegates from twenty-seven countries. I have spoken to delegates from most of these lands, and there was not a single one who did not show signs of extreme nervousness. Either he was constantly clapping and unclapping his fingers, or he was fidgeting in his chair, or constantly blinking his eyes. Moreover, if I asked one or other to jot down something for me on paper, I noticed that his hand positively trembled as he wrote, and when a delegate addressed the congress he usually exhibited still more marked signs of overstrained nerves. Several delegates to whom I spoke volunteered the information that they slept very badly at night, and this testimony was quite independent, for not one knew what the others had been saying to me. To some I suggested that perhaps they were doing too much mental work. "No," was the reply, "even the laboring classes in our country are not sleeping well just now."

In Austria for instance, the people are suffering from what may be called a sobbing sickness, which is the result primarily of nervousness. Both men and women suddenly begin to sob, and very often continue sobbing even in their sleep. Some doctors seem to think this malady is due to unwholesome food, which causes stomach dilatation; others attribute it to nervousness alone. In some cases this nervousness has become so acute that people have attacks in the night not unlike an epileptic fit. The sufferer begins by feeling a choking sensation, and then cries out, and finally becomes quite unconscious, very often remaining so for twenty minutes or even half an hour, after which he falls into a deep sleep. Afterward he remembers nothing whatever about what has happened to him. The

result of this sobbing sickness and these attacks is, of course, still further to weaken a people already very greatly enfeebled. Another effect of the prevailing nervousness is naturally to make people far more irritable than usual; and the physical weakness combined with the overwrought state of their nerves also makes them disinclined for effort or exertion. Religion, it is significant, seems to have lost all influence over them. Not only have adults become careless and indifferent as regards morality, as is proved by the grave increases of certain diseases, with which the medical authorities no longer know how to cope, but the condition of the children in the cities and towns, particularly of Austria, is distressing beyond words. For example, the number of offences against the law committed by children and young persons under 18 in Vienna alone was in 1918 7,889, but in 1917 14,029—nearly 75 per cent. And now it is scarcely possible to keep count of the number of thefts and other misdemeanors of which even young children are guilty.

CAPITAL AND LABOR

Dr. Charles W. Elliot, president emeritus of Harvard University, recently set forth his views regarding the relations between capital and labor necessary to cure industrial ills.

recommendations as to what should be done in the interests of both labor and capital before May 15, and upon that report, upon these recommendations we propose basing a government policy for the promotion of greater harmony in the industrial and labor world.

Senator Robertson pointed out that as a result of a conference of representatives of labor and capital at Ottawa last year twelve principles had been adopted which greatly improved the relations existing, and now with the approval of both capital and labor the proposed commission is to be appointed.

The following officers were elected: Honorary president, Jas. S. Nell, Fredericton; president, Colonel O. W. Wetmore, Clifton; vice-president, T. C. Clark, Chartersville, Westmorland county; secretary, A. G. Turvey, Fredericton; additional members of the executive, W. B. Gilman, Fredericton; R. A. Filmore, Burton. Resolutions were adopted favoring greater development of the small fruit markets of Montreal and other large cities, and the incorporation of the association. The prospects for apple growing this year are considered good. SMOKE MCDONALD'S INDEX

The Story of the Diamond

Chapter 8.—The Mines of Brazil.

About the middle of the 18th century, somewhat important discoveries of diamonds were made in South America at various points in Brazil.

In one instance at least as many as 20,000 native workers were engaged in a single mine.

They were there found under conditions very similar to those prevailing in India, and these two countries continued to supply the diamond needs of the entire world.

until completely eclipsed by the discoveries made in South Africa in 1867.

The story of the South African mines reads like an Arabian Night romance, and while adding almost untold wealth to our Empire, also adds much to the mystery surrounding the origin of the diamond, because of the different conditions under which it is there found.

We'll tell you about this more fully tomorrow.

Write for our Year Book—It illustrates our Diamond Rings.

THE AMBUSH OF YOUNG DAYS

The phrase is Shakespeare's, and it occurs in his seventeenth sonnet, where he says to his mysterious friend: "Thou hast passed by the ambush of young days, either not mangled, or victor being charged."

The figure is of psychological value and it vividly portrays an interesting human situation. It is a picture of a section of human life—a certain stretch of the road between childhood and old age. In plain prose it means that life for the young is fraught with danger. When we examine the figure minutely, we see enemies lurking to attack the young travelers. Some get through almost unscathed; some are "victors being charged"; some may limp the rest of their days, and carry the marks received to their graves.

RUB NEURALGIA PAIN AWAY, DON'T SUFFER

Instant Relief! Rub Nerve Torture Pain and Illness Right Out With "St. Jacobs Liniment."

Conquers pain—never fails. Rub soothing, penetrating "St. Jacobs Liniment" right on the ache or pain, and out comes the neuralgia misery. Here's a joyful experiment! Try it! Get a small trial bottle from your druggist; pour a little in your hand and rub it gently on the sore, aching nerves, and before you realize it—in just a moment—all pain and neuralgia disappear. It's almost magical, but the joy is, that the misery doesn't come back. No! The nerves are soothed and congestion is relieved and your neuralgia is overcome. Stop suffering! It's needless—neuralgia and pain of all kinds, either in the face, head, limbs or any part of the body, is instantly banished. "St. Jacobs Liniment" is perfectly harmless and doesn't burn or discolor the skin. Today she is confronted with a task

RECENT WEDDINGS

Lyons-Barton. William D. Lyons, of Doaktown, and Miss Florence V. Barton, of Erin street, this city, were united in marriage at the Tabernacle parsonage last evening by Rev. A. Lawrence Tedford, pastor of the Tabernacle Baptist church. The bride was formerly a resident of Cumberland Bay, Queens county. They will reside in this city.

Garland-Martin. Oran Fenwick Garland, of St. John, and Miss Marguerite Martin, of Millers, St. John county, were united in marriage last evening by Rev. A. Lawrence Tedford, pastor of the Tabernacle Baptist church. The ceremony was at the parsonage.

RECENT DEATHS. The death of Mrs. Emma Taylor took place at her home in Hillboro on March 29 at the age of seventy-five years. She is survived by two sons and one daughter.

Isiah Milton died at his home, Albert Mines, on March 29 at the age of ninety-one. He leaves two sons and three daughters.

The death of Mrs. William D. Bennett took place at her home, Hopewell Hill on March 31. She leaves her husband, one son, who has recently returned from overseas, three daughters, one who has been serving in France as a nursing sister, two brothers and one sister.

PATRIOTIC FUND

The Provincial Patriotic Fund has now on hand \$174,985.22, and it is probable that work will be continued about eighteen months longer. A meeting of the fund was held yesterday afternoon at the board of trade rooms, Hon. Josiah Wood of Sackville presiding and R. E. Armstrong acting as secretary in the absence of Secretary Allen. The others present were Judge Forbes, J. M. Flewelling, St. Stephen, E. A. Schofield, Mayor Hayes, Former Mayor J. W. Frink, M. E. Agar and Thomas Bell.

A financial statement submitted showed the total contributions up to August 31, 1918, to have been \$1,441,989.64. The sum of \$174,985.22 is available to carry on the work of the organization. The work will continue until the soldiers are all demobilized.

A statement was submitted indicating that many municipalities were behind with their funds. It was suggested that the statement was an old one and that many not credited with paying had forwarded the amounts due from them. St. John city and St. John county have paid the full amounts.

Hon. Mr. Wood said that the feeling of the general committee was that the work should be continued for eighteen months by which time everything will have been cleared up.

LEONTS G. APTER

There was a very large attendance at the meeting of the Leontes chapter of the I. O. O. F. held yesterday morning under the presidency of the regent, Mrs. George K. McLeod. Reports received showed that the chapter has been doing excellent work and is planning to do still more. Two new members were welcomed into the chapter at the meeting and several donations were voted towards most deserving causes.

An appeal from the Retired Soldiers' Reception Committee met with a hearty response and \$300 was voted towards its funds. Two other donations of \$25 each were voted to the Annual Rescue League and to the Great War Veterans for their Tag Day collection on the anniversary of Vimy Ridge. It was decided to hold a concert at the Studio in Germain street at the end of the month, the proceeds of which will be given to the society for the prevention of tuberculosis.

Mrs. M. Teed, educational secretary, reported that the chapter had placed a library in the school at Lorneville for the benefit of the scholars.

There was a very large attendance at the Oddfellows' fair, West St. John, and keen interest was taken in the different contests and sports. The door prize for the evening was a ton of coal and was won by ticket 601. The other prizes were as follows: Mr. Knowles, lady's bean toss; Thomas Menan, gentlemen's air gun; and Miss Beatrice Hammond, lady's air gun.

unique in history, and she is gridding herself anew. While she is gridding, she must do it to make childhood sacred, and reconcile age to the detachment which time demands, she should be the great teacher of the young, the hope-filled crowd, budding into manhood and womanhood, who have it in their power to make or mar the future of this land.

Stuffy Head Cared Of Catarrh Germs By "Catarrhose."

To catarrh victims we have just one word of advice—cure it now. The remedy is "Catarrhose." That it will cure permanently you cannot doubt. Catarrhose has cured thousands; it will cure you, too.

It acts in two ways: First, it destroys the germ that checks the progress of the disease. Its second action is to heal the sore places the germs caused. It is such absolute thoroughness that makes Catarrhose so effective in grippe, catarrh, and colds. Then by its sedative influence upon the mucous surfaces it lessens the cough and soothes the tenderness very quickly. We owe something to a science that has given us Catarrhose—that wonderful remedy which so surely enables us to permanently cure disease of the breathing apparatus. We all know that stomach dosing is useless, and this departure in the mode of treatment is an advance in medical science that everybody can appreciate and value. Complete outfit of Catarrhose, which is guaranteed to cure any case of catarrh, asthma, bronchial or throat troubles, last three months, price \$1.00; smaller size, 30¢; trial size, 25¢; sold everywhere.

List of Offences By German Leaders

French Author Compiles "Who's Who" of International Crime, Specifying Cases for Attention of Allies

Under the title, "Hanging the Kaiser," The World's Work says in its March issue: Several respectable authorities in England have declared that there is no tribunal before which the Kaiser and his associates can be called to answer for their crimes; despite this, the Peace Conference has made an excellent beginning by appointing a committee to determine among other things, "the degree of responsibility for these offenses, attaching to particular members of the enemy's forces, including members of the general staffs and other individuals, however highly placed." Probably there is no sentiment more generally prevailing in the world today than the demand for the punishment of those who have fought the most atrocious war in history in the most atrocious way. If no tribunal exists for bringing these criminals to book, it is simply because the crimes of which they stand accused have been hitherto unknown.

A Blood-Food Discovered That Entirely Overcomes Anæmic Weakness

CAREFULLY INVESTIGATED REPORTS REVEAL TRULY WONDERFUL RESULTS. Hereafter it has often been a hopeless task for a thin-blooded person to gain either strength or weight. Neither food or medicine in many instances had beneficial effect.

What is practically a perfect blood-food, containing such elements as iron, has at last been produced, and when taken after meals will put new life and vigor into people that have despaired of ever being strong again. This truly wonder-working treatment consists of taking two small chocolate-coated Ferreroze Tablets at the close of every meal.

That gnawing tiredness leaves you, Ferreroze drives it away. Sleepless nights are turned into periods of rest, and you pick up fast. Day by day your appetite improves—this means more food is transformed in nutriment that will build and energize weak organs. The inclination to worry passes away because Ferreroze imparts nerve—and bodily strength and prevents depression. Think it over—Ferreroze is a wonderful tonic, in fact, it is more than a tonic, because it establishes health that lasts. Thousands use it and thereby cleanse and restore the entire system to a perfect condition. You'll feel the uplifting power of Ferreroze in a week—it's bound to help you if you only give it the chance. Sold by all dealers, 50¢ a box or six boxes for \$2.50; be sure of the name Ferreroze. Forwarded by mail to any address if price is remitted to The Catarrhose Co., Kingston, Ont.

Martel, has done the world a service by assembling in concrete form the particular individuals in his recent book "What Will Be the End of William II. and His Accomplices?" M. Martel has compiled a list of "Who's Who" in International Crime, containing 573 high-placed Germans who may with propriety be held before the bar of justice. Most of the German leaders who have figured in the war news of the last four years figure in M. Martel's list. Inevitably, the Kaiser is at the head, and the Crown Prince, Bethmann Hollweg, Hindenburg, Mackensen, and all the rest follow in all their hideous enmeshment. The following are a few of the specific offenses which, according to M. Martel, demand the consideration of the Allies: Von Hindenburg—As commander in chief in East Prussia ordered that bread which had been found soaked in paraffin should be given as food to the Russian prisoners. Being at Roisel (Somme) on the 10th of March, 1917, gave the order that everything should be destroyed, burned and pillaged in the regions which the barbarians were about to evacuate. Was responsible for the violation of tombs at Carpefont, Candor, and Houglie in March, 1917.

Von Mackensen—Responsible for thefts, incendiarism, and the execution of hundreds of prisoners of war. Ordered about 1,000 Roumanian children from ten to seventeen years of age, to be shot on the ground that they had conspired against him. Stole 120,000 lbs. in the occupied parts of Roumania.

Prince Rupprecht of Bavaria—Massacred and hanged civilians in Russian Poland in 1915. Is responsible for the deportations of Lille, Koubaix and Tourcoing, accomplished with the help of Von Hindenburg, military governor of Lille. Convinced at the theft of money from the deportees.

Von Schuberth—Shelled a number of old men, women and children who had collected in the hospital at Brouage, on the ground that they were "useless mouths." Caused thirty-two girls to be carried off and placed at the disposal of his officers.

Von Bulow—Posted the following notice in Andenne on the 22nd of August, 1914: "It is with my consent that the whole place has been burned and about 100 people have been shot." Posted the following notice on the 25th of August, 1914: "Ten hostages will be taken in each street. If there is any disturbance in the street all the hostages will be shot."

Klauss—Responsible for massacres at Gerbeville and Fraimbois. At Gerbeville alone sixty civilians were assassinated. One of them, engaged in Red Cross work, was soaked in petroleum and burned alive.

Stenger—Author of the following order of the day: "All prisoners, even if taken in large numbers, are to be put to death. No living man is to be left against his will."

Von Graevenitz—Military Governor of Lille. Carried 30,000 civilians, including many women and children, into slavery, and told the Bishop, who protested, to hold his tongue.

Von Drehtsch—At Arlon, being drunk, ordered the execution of 117 hostages. Laughed when he was told, on recovering sobriety, that the order had been carried out.

Blegen—Responsible for the destruction of Dinant and the massacre of more than 600 persons, including forty-four old men, seventy-one women and seventeen children, under nine years of age. Von Manteuffel—Ordered the burning of Louvain and the expulsion of 10,000 civilians from the town.

of the town to stand by, with their arms in the air, for six hours, witnessing the conflagration.

Eberlein—Boasted, in an article printed in the Manchester Neueste Nachrichten, that he had compelled civilians to march in front of his men as a screen against the enemy's fire.

GERMAN COMPANIES USING WAR LOANS IN DIVIDEND PAYMENTS

Berlin, Tuesday, April 1—(By the Associated Press)—The declaration of a ten per cent. dividend in cash and in bonds of five per cent., payable in war loans,

by the Techenberg shippers at Bremerhaven, presages new procedure with respect to the distribution of profits by big industrial and commercial companies in Germany are believed to be responsible for commencement of the practice of using war loans by disposing of them as dividend payments.

A false alarm was rung in at about 4.30 o'clock yesterday afternoon from box 152, Mill street, opposite the Union depot.

A metropolitan matron once ventured to ask James Lane Allen: "Are you a bachelor for choice?" "Yes," came the answer promptly.

COUGHED, COUGHED ALL NIGHT LONG

Terribly wearing on the system is the cough that comes at night and prevents sleep. Sometimes it is a constant cough, cough that will not be quieted.

Sometimes it is a choked-up, stuffed-up feeling that makes breathing difficult, and sleep impossible.

Whatever kind of a cold or cough you have, Dr. Wood's Norway Pine Syrup is the remedy you need to cure it, for the simple reason that this valuable preparation combines all the lung healing virtues of the Norway pine-irp with which is combined with cherry bark, and the soothing, healing and expectorant properties of other excellent herbs and barks.

Last fall I took a severe cough and cold in my head. I was unable to do anything. At night I could not sleep, but cough, cough, all night long. A friend advised me to use Dr. Wood's Norway Pine Syrup, and before the second bottle was used, I was entirely cured, and I have found this the best cough medicine I can buy.

Do not accept any other "pine" preparations when you ask for "Dr. Wood's." This remedy has been on the market for a quarter of a century. It is put up in a yellow wrapper; three pine trees is the trade mark; price 25c and 50c. Manufactured only by The T. M. Co., Limited, Toronto, Ont.

HALAS STANDS HIGH IN YANKEES' RATING

Great Lakes Outfielder is Most Promising of the Recruits in Florida Camp

Jacksonville, Fla., March 31—The Yankees had their first vacation of the training period yesterday, baseball on Sunday, being under the ban here. The respite from the two-day practice schedule was more than welcomed by the ball tossers. Huggins had kept them very busy during the first week of exercising here. There was no man to interfere with the training programme, and the result was that twelve strenuous work-outs were crowded into six days.

It is important that advertisers in The Evening Times take notice that, under the prevailing conditions due to change of time on the railroads, this newspaper is obliged to issue one hour earlier than usual, in order to make mail connections and, consequently, begin work an hour earlier in the day, therefore the business office will be open from 8 a. m. to 5 p. m., (old time) and advertisers are requested to have their copy in the office one hour earlier than usual. This to ensure prompt service and changes.

### LOCAL NEWS

#### A NICE GAIN.

The St. John bank clearings for the week ending today were \$2,222,225; last year, \$2,181,555; in 1917, \$2,144,654.

#### NOTE FOR HERE

The S. S. Scotlan, due to arrive here tomorrow afternoon with 1,700 troops and a number of cabin passengers, has no St. John men on board.

#### CONDUCTING STAFFS.

About 210 officers and N. C. O.'s conducting staffs will arrive in the city tomorrow and will embark on the S. S. Empress of Britain en route to England to conduct the returned soldiers home.

#### TO P. E. ISLAND.

The war trophies, which were on exhibition in the Eastern Steamship Company's shed, are being shipped to Charlottetown, P. E. I., where they will be exhibited.

#### FOR A PLAYGROUND

The Times prints today a report from the Frederick Gleaner of an appeal to the city council for use of Queen's Park in that city as a playground. At its meeting on Tuesday evening, the council agreed to give the use of the park and grant \$500 toward putting it in shape.

#### MELITA NEARS PORT.

The C. P. O. S. liner Melita is due here tomorrow night or early Saturday morning. She has on board 1,918 passengers, 302 second class and 1,481 steerage. Of that number fifty-eight are returning officers and 302 other ranks. Five special trains will carry the passengers to their destinations throughout Canada.

#### TO SEE CANADA.

Col. Land, and his staff, who are here en route to England from Bermuda, where they have been doing garrison duty, expect to sail on the S. S. Scotlan in about nine days. In the meantime they are taking a hurried tour through upper Canada to see some of its beauty. The C. P. R. has arranged an itinerary so that they may make it in Niagara, Toronto, Ottawa, Montreal and Quebec.

#### RUSHING THE SEASON.

A well-dressed elderly gentleman who came up from the West Indies by yesterday's boat startled noon-time crowds in the principal streets with his straw hat. The breeze cool and attached seemed the only reasonable thing about it. Cynics who smiled at the innocent visitor had another smile coming when a bevy of girls—all decked out in straw hats themselves—gave the old gentleman the impolite "haw-haw."

#### ELECTRIC MEN CHANGE.

F. A. Pumble, who for several years has been manager of the Eastern Electric Company's stores, Dock street, a subsidiary enterprise of the N. B. Power Company, has assumed a prominent position with the General Electric Company, which is fitting up its large branch in German street in the recently acquired Scovill Bros. building. William C. Brown, traveler for the Eastern Electric Company for some time, will also join the new concern by April 12.

#### THEODORE W. PARKER.

Relatives and friends of Theodore W. Parker were saddened to hear of his death, which occurred in Cheyne Settlement, Public Landing, Kings county, at 1 o'clock on Sunday morning, March 30, from influenza followed by bronchopneumonia. He was the son of the late James H. and Eleanor Parker and was thirty-seven years of age. He leaves to mourn four sisters and four brothers. The sisters are Mrs. Jennie L. Gosline, Mrs. Thomas J. Saunders, Misses Mary of St. John and Elmina at home. The brothers are Herbert of Public Landing, Hedley O. of West St. John, Samuel and John at home. This is the second death within two months in this family, the first being that of the dear mother. Heartfelt sympathy goes into the grief-stricken ones. The interment took place in the family lot at Brown's Flat. The funeral was private. Rev. Mr. Smart conducted the service at the house at 2 o'clock on Monday afternoon.

### O. S. IRVINE DEAD IN EDMONTON, ALBERTA

There will be widespread regret among St. John people at announcement of the death of O. S. Irvine, which occurred in Edmonton, Alberta, yesterday. A member of a family worthy noted for its activity in railroad circles, Mr. Irvine had made this also his life work. He was for some ten years in the I. C. R. service here and about sixteen years ago he moved to the west, where he upheld the family record. At the time of his death he was a conductor on the C. N. R. Death followed an operation made necessary by an attack of appendicitis. Mr. Irvine is survived by his wife and two children, also brothers and sisters. The brothers are Thatcher L. Irvine and J. J. Irvine of St. John and T. S. Irvine of Boston and the sisters are Mrs. Clarence Clark, Mrs. W. B. Nelson and Mrs. Harry Graham, all of Calgary. Burial will be in Calgary. The bereaved ones will have the deep sympathy of many here in their great loss.

### DIES BUT FEW DAYS AFTER HER HUSBAND

The death of Mrs. Nathan Ryder took place at her home in Lakeside, Kings county, last night at 10 o'clock. She was one of the oldest and most respected residents of that section and the community deeply regret her death. Mrs. Ryder was the wife of Nathan Ryder, who passed away only last week. Her son, William E. Ryder, was taken down with influenza and died last January. The shock from these two sad events was probably the means of hastening the end. She leaves two sons, Herbert, a well-known farmer in Hampton, and Percy E. of the C. N. R. operating staff, employed at Hampton, and one daughter, Mrs. Elias Prince, Lakeside. Many friends extend their sincere sympathy to the bereaved ones.

### GAVE UP WHEN THE BURGLAR ALARM WAS ENCOUNTERED

#### A Break Into Glendon H. Allan's Drug Store in Fairville, Evidently in Hope of Getting Liquor

A case of fear quenching thirst was brought to light this morning when Glendon H. Allan, proprietor of the Fairville Drug Company, arrived at his store and found that it had been broken into during the night. Upon investigating the cause of his shattered front window he found evidence of some person or persons having entered the store and gone to the room where, as vendor, he had some liquor stored. That the person knew he was a vendor and that they were familiar with the place in which it was kept in was apparent, but they evidently had not figured on Mr. Allan providing for an undesired visitor and installing a modern burglar trap. When the entry was made it appears that the burglar went directly to the door of the room where the liquor was kept and then noticing a section of the burglar contrivance decided to leave the door and lock unmolesated. When Mr. Allan arrived at the store this morning he was surprised to see the plate glass window in the front of his store shattered. Thinking that boys had thrown something through it or that somebody had unintentionally struck it he unlocked the door and found the unmistakable evidence of an entry. That liquor was sought was evident for the cash register, cigar and chocolate cases were apparently unmolesated. Mr. Allan congratulated himself for having installed the burglar device.

### WM. ALCHORN HOME

#### Three Brothers Who Did Well Their Share in Defeating Germans

Among those to arrive home from the war last week was Wm. Alchorn, son of J. A. Alchorn of 147 Queen street. Private Alchorn enlisted with the 40th Battalion of Sydney, C. B., at the outbreak of the war and went over with that battalion on Aug. 14, 1915. He was transferred to the Princess Patricia two years ago and with them he was until the armistice was signed. His brother, Bert, also went over with him and he was transferred to the 26th Battalion and still is with it. William brings with him an interesting little souvenir in the form of a medal which the civilian population of Mons gave to each soldier whom they regarded as their deliverer. Another brother, Lieut. Charles, arrived home at Christmas from the Royal Flying Corps, with which he received a commission. William will leave tomorrow for Sydney, where his wife and three children reside. His many friends are pleased to see him safely home without a scratch.

### CATHOLIC RED CROSS

#### Excellent Reports on Work in War Times Presented to Cathedral Circle

A meeting of the Cathedral Red Cross Circle was held yesterday afternoon in St. Vincent De Paul's society rooms, Mrs. D. P. Chisholm presiding. It was announced that it was the last meeting of the circle, but upon a request of the local Red Cross Society, it was decided not to disband, so that in case of emergency they will be in readiness to assist in any way desired. Reports were presented, including one from Mrs. Joseph H. Ritchie, who had been accomplishing since last November. Mrs. Richard O'Brien, secretary-treasurer, gave a very comprehensive sketch of the life of the circle since its organization in the rooms in Cliff street, until the present time. She referred to the activities of the members of the circle in conjunction with the other Catholic circles for Red Cross purposes, and told of the various ways and means used to procure funds for the many enterprises, laying particular stress on the success achieved in a drawing conducted under the supervision of the president, from which the sum of \$300 was realized. She spoke of the great loss sustained by the circle in the death of three valued members—Mrs. John T. Kelly, Mrs. Edward F. Greany and Mrs. Francis Leonard. She also spoke of the circle losing the assistance of Miss Kathleen O'Neill, an energetic worker, who had entered St. Vincent's Convent. She also spoke of the depth of gratitude owed to St. Vincent de Paul Society for the use of the rooms.

A letter from Miss Alice Walker, of the local Red Cross Society, asked the circle to form a branch of the war saving society. She also extended to the circle the heartfelt thanks of the members of the Red Cross Society for valued assistance. The president addressed the members, thanking them, and in particular the convenors, for their excellent work during the troubled times and for their hearty co-operation and willingness to assist on all occasions. Before the meeting adjourned Mrs. James Gerow presented to Mrs. Chisholm a handsome gavel.

### Have You Seen the Leather Den Set Now In Our Window?

They say every person has two countries—his own and France.

Same with regard to taste in Den Furnishings. No matter what style of suite is chosen, in wood or tapestry, an all leather set is always attractive.

The set now showing consists of three pieces—lounge, chair and rocker—and is of the over-stuffed style with spring back and sides.

Leather, while stout and highly durable, is soft and very appealing to eye and inviting to body.

A "close-up" inspection costs nothing and will serve in good stead when you do buy a set of this kind, even if this isn't the set.

Not overly expensive either.

CRITICISM IN BRITISH COMMONS

Matter of Amount of Indemnity for Which Germany Should be Called On

London, April 2—In the House of Commons tonight the government was subjected to a good deal of criticism concerning the amount of the indemnity which Germany is to be asked to pay.

Andrew Bonar Law, government leader in the house, in the course of a long reply, announced that no decision had yet been reached as to the amount demanded from Germany.

"It would be unfair to that great country," Mr. Bonar Law said, "to suggest that our action had thus been influenced."

B. F. SMITH ATTEMPTS ROLE OF CRITIC IN LEGISLATURE

Fredericton, N. B., April 2.—B. Frank Smith, potato dealer and member of the censured quartette, who like his colleagues in disgrace has not accepted the invitation of the House to resign his seat, spoke this evening on the budget debate. It was an interesting if not entirely edifying performance. The man who was condemned by the Legislature only last week for misleading the house by answers placed on the records in 1916 had the temerity to accuse the government of showing "a tinge of insincerity" in some answers given this year. He who had been given notice to quit because of his part in the potato transactions which even the opposition describe as unbusinesslike and impudent, attempted to teach businesslike methods and business prudence to the present administration. With the McQueen report dealing with the concealment of the potato losses fresh in the public mind, the member from Carleton alleged deception on the part of his successors in office.

Dr. Adam Shortt Utters Warning at Meeting of Mortgage Men—Financing a War

(Toronto Globe.) Strong and apt warnings against the acceptance of fallacies that high prices and high wages could be indefinitely maintained without correcting the economic disturbance caused by the war were uttered in an address by Dr. Adam Shortt, formerly of Queen's University, last night before the members of the Dominion Mortgage & Investments Association. The occasion was the annual banquet of the association at the King Edward Hotel, and Dr. Shortt's timely subject was "The Functions of Capital." From the experiences of the past four years, he said, the belief had become widespread that wages and prices could be raised again and again, because people had seen it done. This idea persisted in spite of the fact that hundreds of thousands of Canadian producers had not been producing, but on the contrary had been destroying the wealth that others had been making.

A Strong Letter of Commendation

From a Prominent Toronto Manufacturer Who Has Depended on Dr. Chase's Nerve Food to Enable Him to Attend to His Daily Duties as Manager of a Large Glove Factory.

M. R. HERBERT STREET COWAN, President and General Manager of the Craig-Cowan Co., Ltd., Glove Manufacturers, 154 Pearl St., Toronto, writes:

"About ten years ago, at the age of 37, I had a stroke, as a result of which I have been partially paralyzed ever since. For two years I lay in the house in a helpless condition in spite of all that six doctors could do to restore me. I also resorted to massage and electrical treatments, but without very much apparent benefit. About seven years ago I began to use Dr. Chase's Nerve Food, and have used it at intervals ever since. It is only by using this restorative treatment that I have been able to attend to my large and growing business, and for this reason I feel that the least I can do is to recommend the use of Dr. Chase's Nerve Food to others who suffer from nervous derangements.

"In fact, it has afforded me a great deal of pleasure to recommend the use of Dr. Chase's Nerve Food to my friends, and to observe the way in which they have been benefited by its use. As a result of the large number of cases I have observed, as well as my own remarkable experience, I feel that I can speak with some authority."

Dr. Chase's Nerve Food is known and used in the best homes in the land, and is recognized by physicians and laymen alike as a most excellent means of enriching the blood and building up the nervous system. You can make no mistake in giving it a trial when occasion demands. 50 cents a box, 6 for \$2.75, all dealers, or Edmansons, Bates & Co., Ltd., Toronto. Every box of the genuine bears the portrait and signature of A. W. Chase, M.D.

Mr. Melanson of Kent. was no provision in the act for conserving those claims. In as much as a question might arise with reference to the recovery from accidents before the passage of the act it was proposed to arrange that proceedings could be carried on under the act. His attention had been called to a case in St. John where a man had been injured under the old act and had after the new act had come into force. It was prophesied by the amendment to provide a remedy for cases of that kind.

SICK HEADACHE and CONSTIPATION CURED BY MILBURN'S LAXA-LIVER PILLS

When your liver becomes sluggish and inactive, the bowels become constipated, the tongue becomes coated, the breath bad, and the stomach all out of order. Then comes those terrible sick headaches. They take out every bit of life and ambition, bring on depression, and often end in complete mental and physical prostration. To keep the liver active, and your bowels moving regularly is the only way to get rid of the constipation and the distressing sick headaches. Milburn's Laxa-Liver Pills will do this for you by stimulating the sluggish liver into manufacturing sufficient bile to act properly on the bowels, thus making them active and regular. Mrs. Winifred McKay, Jordan Branch, N. S., writes: "I have been sick for a number of years with sick headaches and constipation. I tried all kinds of doctors' medicines, but none did me any good. I tried Milburn's Laxa-Liver Pills and after using four vials I am completely cured. I would heartily recommend them to all sufferers." Milburn's Laxa-Liver Pills are so easy to take, and do not weaken or sicken as so many pills. Price 25c. a vial at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

VINY RIDGE TAG DAY

A meeting of the women's patriotic societies, which will take part in the Viny Ridge tag day, was held last evening in the rooms of the Great War Veterans, Wellington row, and seventeen women's societies were represented. Major Morgan presided and Sergeant Pink and A. E. Frame also represented the Great War Veterans. The meeting made full arrangements for all the details of the tag day. The organization is under the auspices of the Y. W. P. A., with Miss Alice Fair-weather as convener, assisted by a composed of Miss Dodge, Miss Helen Church, Miss Deboyes and Miss Marion Terry. It had been decided to dispense with refreshments for the workers, but two of the societies represented suggested that the day would be too arduous without refreshments and offered to provide them. The Salvation Army, which is not represented at the meeting, sent a

message saying that it was very willing to help in any way possible. It was decided that any organizations that wished to help but were unable to do so might show their support in their donations. It was also decided that requests should be sent out for automobiles for use on the tag day.

The various societies present were each apportioned special work for the day. The Women's Canadian Club and the Soldiers' Comforts Association will each furnish a team of workers. The Local Council of Women subject to the approval of an executive meeting offered its help in any way, but thought that it would probably undertake to provide refreshments for the workers. Loyalist Chapter and the Royal Standard Chapter of the I. O. O. F. will each canvass one of the West Side wards. Val-carter and Lady Roberts Chapter together will canvass another ward. The Seven Seas Chapter and St. Vincent's

Alumnae will take charge of another ward.

Mrs. E. A. Young, of the Field Comforts Association, will look after the tagging on the West Side, and Mrs. Fred Foley of the Soldiers' Comforts Association and Miss Edith Magee of the Red Cross Society will look after the tagging in East St. John. The Y. W. P. A. will tag in the streets and will make all arrangements in regard to the boxes and tags. The Soldiers' Wives League offered to assist either with refreshments or to give a donation.

The Senior Girls' Club of St. Paul's church held a supper in the school room yesterday evening, with Miss Yeoman's girls' work secretary of the Y. W. C. A. as the guest of honor. Archdeacon Crowfoot presided and a very enjoyable social time was spent.

Very Effective Method for Banishing Hairs

(Modes of Today) At very little cost any woman can rid her face of hairy growths if she will use the delatone treatment. This is made by mixing some water with a little powder of delatone. This paste is spread upon the hairy surface for 2 or 3 minutes, then rubbed off and the skin washed, great is her relief after fifteen years of it. No harm results from this treatment, but care should be used to buy real delatone.

HON. J. P. BASS

Bangor Editor Who Played Large Part in the Life of Maine

(Bangor Commercial) The death of Hon. Joseph Parker Bass, editor, publisher and chief owner of the Commercial for some forty years, which occurred at the home of Mr. Bass, High street, Thursday forenoon, will occasion deep regret to all who knew him, sincere mourning to all who knew him best and general sadness in Bangor for whose interests he worked so steadily during his long life.

Mr. Bass won recognition in Maine because of his exceptional ability as a business man, because of his energy, his fearlessness and his keenness of vision as a publisher and editor, to which were combined a dauntless courage and an absolute refusal to desert a position once taken because of conviction.

There will be but the kindest remembrance of Mr. Bass by the thousands toward whom in one way or another he manifested his generosity, his hospitality and his innate courtesy. He counted his personal friends by the hundreds and even in the multiplicity of his business affairs he was never too busy to give of his time to assist in the perplexities and troubles of others.

Mr. Bass was best known to the world as editor and publisher of the Commercial. For many years he exercised his fine talents in the production of a newspaper, that would stand in the front rank of New England Journalism.

Mr. Bass always believed in cleanliness in Journalism and often told his editors to avoid publishing anything that could not be properly read at the family table. Until within a few days of his death, Mr. Bass manifested keen interest in the direction of the newspaper, his attitude from the time that he acquired the Commercial. He never held any newspaper detail as too trivial to engage his attention and was always ready with his assistance and his guidance.

was certain to arouse opponents but it can be said with perfect truth that no matter how warm the controversy, how heated the discussion, Mr. Bass did not bear malice and he often gave a helping hand to men who had bitterly opposed him.

For many years Mr. Bass gave acute attention to legislative matters and was recognized as a power in the state, both through the influence of his newspaper and by his personal application to public affairs.

He was for many years regarded as the most influential visitor at Augusta and many beneficent laws bear the stamp of his effort, while many attempts at unwise legislation were balked by his work and influence.

work he never benefited by a dollar personally.

Mr. Bass worked constantly for the benefit of the farmers of the state and obtained several legislative enactments for the assistance of agriculture; he was a steady and consistent friend of the University of Maine, of the Maine Music Festival and of the various charitable organizations of Bangor.

We know of no man in this state who had a wider and a more intimate acquaintance with men of affairs and prominent in the national life than had Mr. Bass. Many he met during his summer residence at Bar Harbor, others at Washington, and invariably he impressed them with his ability and his clearness of vision and often the acquaintance led to lasting friendships.

Mr. Bass met death with the courage and fearlessness that characterized his life, composed and self-possessed. He had the right to look over a long life of accomplishment, of public achievement, marked by the highest integrity in private and public affairs and of an established position in New England won by ability and constant application.

In the death of Mr. Bass the State of Maine loses one of its most influential citizens, the city of Bangor one whom we consider to have been its leading resident for many years and the Commercial its guiding hand.

Bangor residents generally will mourn the death of Mr. Bass as the passing of an exceptionally public-spirited citizen who always placed the interests of his city first. Even after he was confined to his bed in his last illness he devoted himself to the formation of an \$80,000 stock company to take over the property of the old Bangor Opera House and build a new theatre for the improvement of Main street and the benefit of Bangor people.

It is difficult to express the sense of personal bereavement that the passing of Mr. Bass has brought to the employees of the Commercial as well as to his other employes and friends of long standing. To them he was a guide and an inspiration, kindly, thoughtful and always considerate, a standard of integrity, a fount of wisdom. A man of achievement has passed to his reward.

AMPLE SUPPLY OF MONEY.

(Toronto Globe.) Canadian financiers from loan, life insurance and trust companies, comprising the Dominion Mortgage and Investments Association, held their annual meeting in the board room of the Canada Life building on Friday.

There is apparently an ample supply of money for investment in Canada, said President Hume Cronyn, M. P., of London, general manager of the Huron & Erie Mortgage Corporation, in moving the adoption of the report of the executive. "The sharp advance in the price of government and municipal bonds since the armistice is evidence of that fact. It is worthy of note that Canadian, provincial and municipal bonds today command a price which yields a lower return than that to be derived from the present issue of the national war bonds of Great Britain. For this and other reasons, it is unlikely that for some time to come Canada can expect any removal of the inflow of British money. The treasury board of Great Britain has declined to repeal its order of January, 1915, whereby the export of capital was forbidden. Once that restriction is removed and the national needs in the money markets satisfied, we

### Ottawa Takes Important Step In Labor Matters

Ottawa (Ont.), April 2—Appointment of a commission, composed of five or seven men commanding the complete confidence of the nation, including labor and capital, to proceed to all centres of industry in the dominion, survey the situation in all its aspects, ascertain all the facts, and report to the government before May 15 upon the project of the joint control and operation of certain industries by capital and labor—such was the momentous announcement made to the senate this evening by Hon. Gideon Robertson, minister of labor.

Mr. Robertson, whose announcement of such a far-reaching step was made in the course of a statement replying to an interrogation by Senator Michener as to what steps the government was taking to secure greater co-operation between capital and labor, did not divulge the personnel of the commission he has in view, but he emphasized that it would be composed of men who would have the confidence of the whole Canadian people; and it is understood that the names of those composing it will be announced almost immediately.

#### Capitalists Co-Operate.

"One week ago," continued Senator Robertson, "it was decided to hold a conference with captains of industry. They came to Ottawa—all of them who could—and we discussed matters all day last Friday. I laid before them for consideration a certain course of action and asked for their views as to its wisdom and they gave it their endorsement, just as it had been given endorsement by many leaders of labor before. And, as a result of that conference, instead of parliament or the government saying to labor and capital 'do this' or 'do that,' we propose appointing a small commission of five men who will absolutely command the confidence of the public, asking them to proceed to all centres of industry, to survey the situation, to get all the facts and to let us have their recommendations as to what should be done in the interests of both labor and capital before May 15, and upon that report, upon these recommendations we propose basing a government policy for the promotion of greater harmony in the industrial and labor world."

"That inquiry will go so far as to find out what are the possible lines of joint control and operation of certain industries by labor and capital. It may not be feasible in certain industries, may not be as feasible in some industries as in others, but I am convinced as a result of conferences with industrial leaders that complete democracy in our industrial life is just as feasible and just as necessary as complete democracy in our political life."

Continuing, Senator Robertson said

that another reason why labor felt it should be given a voice in the control of industry was because of the charge against it of inefficiency. Employers made the charge that increased wages brought no corresponding increase of efficiency from workmen. That charge, perhaps, was in some measure true, but he was of the opinion that if they had joint control of industry, if employees were jointly interested in its success with employers and knew that it was to their own interest to increase production, the case would be different. "I say that this will come about some day," said Senator Robertson, "and in my humble judgment it is the only way by which Canada can be kept from industrial conflict."

#### STOKE MACDONALD'S INDEX

A concert party under the auspices of the Young Women's Patriotic Association visited the Old Ladies' Home last evening and gave a most delightful entertainment that was heartily enjoyed by the ladies. Refreshments of ice cream and cake were also served and the evening was from start to finish a very pleasant social gathering. The programme contained the following items: song, Miss Frances McInerney; reading, Miss Tilley Ross; dance, little Miss Gregory; song, Miss Madeline deSoyres; violin accompaniment, Mrs. H. West; song, Miss Cella Cohen; dance, Miss Gregory; song, Miss Frances Murdoch; and reading, Miss Fleet. The accompanist was Miss Marion Terry.

##### Hon. Mr. Carvell Says Brakes Should be Put on Harder in Some Parts of Canada

Ottawa, April 2—In the house of commons this afternoon Charles R. Harris, the Labor member for Nipissing, moved a resolution calling upon the government to develop works for navigation and for power purposes on the French river. He said that with a few improvements it would be capable of conveying large lake steamers to Lake Nipissing, thus connecting with the Great Lakes. At only three points in the river would there be heavy construction work, but more than 35,000 horsepower would be produced, which would net at least \$875,000 per annum and meet the entire cost of the water-way.

Hon. F. B. Carvell said that the canal station of the French river would be the first link in the construction of the Georgian Bay Canal and an addition of the Georgian Bay Canal policy. The assistant deputy minister of public works, he went on, had submitted a report showing that the scheme would yield 25,000 electrical horsepower. That would require some steamers work. Assuming the revenue at \$20 per horse-

power, which would be the maximum, there would be a total revenue of \$500,000. It was estimated that the cost of the scheme would be around \$20,000,000. At six per cent. the interest charge would be \$1,200,000. Therefore, as between interest charges and revenue there would be an annual deficit of \$700,000. Hon. Rodolphe Lemieux, late in the

afternoon decided to move the adjournment of the house to discuss the charges made by Brigadier-General Smart and Lieutenant-Colonel Pratt, in regard to military conditions overseas. He was ruled out of order, but it was agreed that these matters would be discussed later.

#### PORTERS ARRESTED AND LIQUOR IS SEIZED

Moncton, N. B., April 2—Two colored porters on a dead-head equipment train en route to Halifax were arrested here at noon by railway police, charged with having liquor in their possession. The porters had two grips containing many bottles of whiskey, gin and other brands. Two other grips were also seized containing a large quantity of liquor, but the owners of the grips were not found. The inspector also found laudanum, paracetamol and phenacetin.

H. J. Page, of Toronto, superintendent of the identification bureau and chief special agent of the entire C. N. R., is here in consultation with Chief Special Agent A. J. #### Do You Remember The Old Corn Doctor?

He stood on the street, in the olden days, and offered a "magic corn cure."

The same ingredients, harsh and inefficient, are sold in countless forms today.

But they did not end corn, and they do not now. Nor does padding, nor does paring—methods older still.

#### The One Right Way

Modern scientists in the Bauer & Black laboratories have evolved a perfect method and embodied it in Blue-jay.

In 48 hours, while the corn is forgotten, Blue-jay completely ends it, and forever. Hardly one corn in ten needs a second application.

The way is sure. It is easy, pleasant, scientific. Quit old-fashioned methods. Try Blue-jay on one corn—tonight.

### Gave Up Much In Music Interest

Former St. John Man Could Have Made \$20,000

President John A. Cowan

Fine Tribute Paid to Him in Connection With the Kansas City Conservatory of Music—Story of a Battle and a Victory

(Musical Courier)

The Chamber of Commerce of Kansas City, numbering 5,000 members, the greatest body of commercial men in the west, has set aside one day each year to be known as the Kansas City Conservatory of Music Day. At this time all problems concerning the conservatory and its relation to the musical development of the west will be discussed and steps taken to meet any emergency that may arise. Recognition of any improvement or campaign necessary for the further development of musical educational interest in the southwest will also be considered.

Great Interest Centers on Initial Meeting

The first meeting was held at the Baltimore Hotel, February 19. The great dining hall was filled to capacity with the leading men in the commercial, financial, social and educational life of the southwest for two and a half hours, these "captains of industry" during the rush hours of business routine, remained away from their own offices in order that they might actively participate in the great movement to make Kansas City the musical center of the vast territory west of the Mississippi. Addresses were made by the past president of the Chamber of Commerce, F. D. Crabbs; W. T. Kemper, chairman of the board of directors of the Commerce Trust Company and the Southwest National Bank of Commerce, the greatest banking institution west of Chicago, with deposits of more than eighty millions; B. A. Parsons, president of the Bank of Commerce; Cliff O. Jones, first vice-president of the Chamber of Commerce; Allen Hinckley, formerly of the Metropolitan Opera Company and now director of the vocal and opera departments of the Kansas City Conservatory of Music; and John A. Cowan, president of the conservatory. It was conceded by all that the enthusiasm at this meeting was only exceeded by the great meetings which had been held in the interest of the war campaigns during the last two years.

F. D. Crabbs in a most dignified and eloquent manner called the attention of those present to the wonderful possibilities

of music as a civic asset. W. T. Kemper followed Mr. Crabbs in a complimentary eulogy on the development of the Kansas City Conservatory of Music and the devotion of its president, John A. Cowan, to his ideals and the high standard of efficiency he has established and maintained in the conservatory.

#### Mr. Cowan's Generous Gift

In part Mr. Kemper said: "I am not an orator, I cannot express my ideas in the eloquent manner in which the past president of the Chamber of Commerce has clothed his remarks. I asked for the privilege of speaking on this occasion because of the interest I have in the musical life of Kansas City and particularly in this Kansas City Conservatory of Music and to tell you what I know of Mr. Cowan. Before going any further, I want to say that my bank will pay Mr. Cowan a great deal higher salary than he is receiving from the Conservatory of Music. I want also to say, and I know that you gentlemen do not know it, that Mr. Cowan secured for himself a lease on the finest piece of property on Linwood Boulevard. A few days after he secured that lease he was offered a profit of \$20,000 for his lease, which he turned down. The next day, without any compensation whatever, he gave that lease and the Kansas City Conservatory of Music, which he had been struggling for nine years to establish in Kansas City, under hardships and privations of which you have no conception, to a board of trustees, of which I am one of the vice-presidents. Mr. Cowan did this in order that Kansas City might have, maintain and develop a great music school to be owned by the citizens of Kansas City and conducted for the benefit of the students throughout the southwest territory, a non-sectarian, non-profit sharing, non-money making organization, the surplus, if any, to be turned back into the institution to further the interests for which the conservatory was established.

"I want to tell you gentlemen, members of the Chamber of Commerce of Kansas City, that such a sacrifice on the part of Mr. Cowan for the benefit of the musical and educational development of our territory cannot and must not go unrecognized by the men and women whose fortunes have been made in the territory and upon whom must rest, to a great extent, the raising of the necessary funds for the higher development of our esthetic life."

#### Unusually Fine Voices Due to Western Climate

Mr. Hinckley followed Mr. Kemper and in a few brief remarks stated that he had studied under the greatest masters in Paris, Vienna, Berlin, London and New York and later visited the leading studios of all the great musical centres in search of information concerning the standard of talent possessed by the students, and that nowhere in the world had he observed so many wonderful voices, such volume of tone, quality, color and natural resonance as he had found in the young men and women of this territory possessed. This, he added, existed in spite of the rapid climatic changes in Kansas City.

#### Mr. Cowan Makes Striking Address

In a stirring manner which held the attention of his hearers to the end, President Cowan said: "I feel today a great deal like the young man who had been going with the same girl for fifteen years. Shortly after he met her he proposed, she laughed at him, a year later he proposed again, again she laughed at him, still later another proposal, the laugh came again, but not so heartily and after fifteen years of steady endeavor she finally consented to have the engagement announced but they were not then married. For fifteen years the Kansas City Con-

servatory of Music has been courting the business interests of this territory. At first I received nothing but laughter on every side. One business man even made the statement that no one but a fool would think of establishing a conservatory in Kansas City. 'Good! I am the fool, I will undertake it,' I said. 'Well,' said the gentleman, 'you will not get my help.' 'I must have it,' I said, 'and will get it!' It took sixteen trips to that man's office before he came across and when he did come, he came nobly. Today the Kansas City Chamber of Commerce announces its engagement to the Kansas City Conservatory of Music.

#### The Definition of a Successful Business Man

"When one of my good friends read in the Kansas City that I was to address the Chamber of Commerce today, he called me up and said: 'Cowan, I want to give you a tip. I know you are a member of the Chamber of Commerce but I do not believe you fully understand the business caliber of the men you are going to address. Do not talk to them about business, because you are not a business man. You must stick to the higher plane. One or two of them may understand what you have to say, but the rest, who will not understand, will probably give you more credit than you deserve.' Now gentlemen, my definition of a successful business man is: The man who can make the most out of a dollar and make everybody happy. If this is so, I want to refer you to the remarks made by Frank Moss some years ago when he introduced me to a number of business men in the directors' room of the Commerce Trust Company. He said: 'I do not know how well you know this man Cowan, but let me tell you he can get more out of a dollar than any man I ever knew.'"

#### Saved the Conservatory Money

Then Mr. Cowan spoke of the business management of the conservatory; how he

kept down the overhead, how the printing let out by contract would cost from 60 to 80 per cent. more than the printing now costs the conservatory under his method of conducting business affairs, etc. "Now, gentlemen," said Mr. Cowan "you will understand such economy is practised only in connection with the business affairs of the institution. The educational affairs of the conservatory cannot be considered on a dollar and cents basis. Show me the educational institution in the United States that charges a normal sum for tuition, pays its professors an adequate living wage and in addition makes a profit for the owners or stockholders, and I will show you an institution of the third, fourth or fifth class. Successful educational institutions can only pay a profit in the educational developments of the students, and what is true in ordinary academic institutions is likewise true among the music schools, orchestras and grand opera companies. If the teachers are paid anywhere near what they are entitled to for their services, outside help must be secured in the form of endowments or public subscriptions to maintain the institution. The Kansas City Conservatory of Music cannot live, let alone pay a profit on the tuition fees it receives from its students, the highest grade of teachers only are secured and adequate compensation is paid for their services.

#### Faculty Composed of Best Teachers

"Now, gentlemen, I want to tell you something of the caliber of the men we have at the head of departments. In the management of these departments we have adopted the same business principles that are adopted by the great department stores of our city. The manager appoints a department head and he says to that department head: 'You have absolute charge of this department, it is up to you to organize this department that it will be conducted according to the highest principles of business ethics and pay an adequate profit for the sum invested.' So I say to the heads of the various departments in the conservatory: 'Mr. Hinckley, you are at the head of vocal and opera departments. You must organize your forces that they will turn out students equal in musical efficiency to any of the students turned out by any of the great musical institutions of this country. If you cannot do so I shall have to get another man to conduct the department.' I say the same thing to Mr. Thompson, head of the piano department, and so with all of the heads of the various departments. Remember, gentlemen I did not ask these departments to pay a dividend in cash. I demanded that the departments pay a dividend in efficiency and the artistic development of the various students who complete the course. They have a standard to go by, and to show you that they are maintaining that standard I have only to refer you to the leading positions held by the graduates of this school in the various educational institutions and in the operatic and concert fields." Mr. Cowan further spoke of the needs of the conservatory, and he hoped the time would soon come when the Kansas City Conservatory of Music would have endowments of not less than two millions of dollars."

#### New Campaign

The Chamber of Commerce sincerely and heartily endorses the efforts of the conservatory and urges every member to take part in the campaign that is to be started immediately for the greater musical education development of the southwest. Committees have been appointed to take charge of the advertising campaign

"THE NEW FUTURE"

Rev. D. Chown's Recent Lecture In Sackville

Audience Listened With Rapt Attention as the Lecturer Told of His Visit to Devastated Cities of France—League of Nations a Glorious Enterprise

(Sackville Tribune.) Rev. Dr. Chown, superintendent of the Methodist Church in Canada, delivered an eloquent, instructive and interesting lecture entitled, "The New Future," in the Fawcett Memorial Hall, Friday evening.

Colonel F. B. Black presided and others on the platform were Hon. Josiah Wood, Rev. H. E. Thomas, Dr. Bortien, president of Mt. A. University; Rev. Hamilton Wigle, principal of the Ladies' College, Rev. A. J. Vincent and Rev. F. G. Mackintosh. The latter opened the meeting with prayer, after which the chairman introduced the speaker of the evening.

Rev. Dr. Chown, who was listened to with rapt attention, opened his lecture by telling of the situation in France as he had found it during his visits to the various French towns and battlefields. He pictured the brutality of the Hun, and the devastation wrought in the various regions occupied by the enemy. On April 24th, 1916, a campaign of frightfulness was commenced in Lille, where 60,000 people—men, women and young

girls—were torn from their homes and taken to Germany. There was a whole week of horror. Families were summoned by the ringing of the door-bell, and members ruthlessly taken away by the Huns, regardless of family ties. The lecturer also spoke of the ruin and devastation he had witnessed at Ypres, Mons, Douai, etc.

The speaker referred to the terrible loss and suffering endured by France. The latter nation more than any other was entitled to indemnities. The United States had done excellent work in sending men overseas, but their losses were trifling compared with the other armies of the Allies. Dr. Chown spoke strongly against the principle of allowing President Wilson to go over to the Peace Conference to adjudicate in a matter of this nature, when he had not even seen the horrors and ruins of the land, and had not witnessed the depth of tragedy wrought by the unspeakable Hun.

While there were events of horror, the speaker stated that he had also seen shimmering of glory. He had stood on the top of Vimy, when 6,000 shells were fired in two and a half hours. He had seen the Canadian troops pass over the top, and advance step by step as the wonderful barrage lifted. He had seen men going into the very jaws of hell to rescue us from the grave of barbarism that was being dug deeper and deeper by the Huns.

Referring to the League of Nations, the speaker stated that there was no more glorious enterprise. It was not an entirely new project. Lord Tennyson with prophetic vision looked into the future and saw "the parliament of man, the federation of the world." While President Wilson had the credit for the conception of the League of Nations and was pressing it on the Peace Conference General Smuts by the exercise of his intellectual strength, was reducing the league plan to a practical issue. To uphold the league would mean the surrender of many of our so-called sovereign rights. The speaker questioned whether the Will-to-Peace is strong enough to stand the strain. The peace problem was greater than that of the

carrying on of the war. The League of Nations requires an international mind; a mind that understands the psychology of each nation. There is need for the Golden Rule—the spirit of Christ is necessary in order to prevent chaos. The speaker referred to British officialdom. While the attitude of British officialdom had to be fought against

Canadian troops when they crossed overseas were subjected to the wet canteen. It was not set up by the Canadians, but was already waiting for them, owing to a contract made with certain liquor interests. It was simply a matter of making arrangements to share in the profits. The speaker referred to the Rhyli riots. He considered the men had just cause for complaint. During his last night in Rhyli, one thousand men had expected to sail for Canada, and at the last minute the orders were cancelled; although during the night accommodation was found for three hundred men. No wonder there was trouble when the great troop carrying ships were turned over to the Americans, to carry home men who had scarcely reached the battle-field, while others who had borne the strain for three or four years were left behind.

Speaking of the necessity of Canada realizing that she is really a nation, the speaker stated that the people must cultivate the ability to do great things without being elated about it—without boastfulness. He had observed that the people of Britain were not conscious of their greatness. We Canadians must learn to do without boasting.

The speaker referred to the international changes which had taken place. Diplomacy had failed; even the marvelous strategy of the great statesman, Viscount Grey, had failed to keep the peace. Norman Angell tried to make us believe that international commercial relations would prevent war; but instead of that, commerce and expansion had been the great factors which brought about the war. Only Christianity, pure and unadulterated, can save the world.

Referring to the industrial conditions of the future, the speaker pointed out the changed relations between capital and labor. Many of the great industrial concerns are falling in line with the new conditions. Lord Shuggens had recently stated in effect that workmen must be put in a different social condition. A man must not be looked down upon merely because he is a laborer. All must have a hand in shaping the future. The speaker referred to the democratic movement of many of the industrial concerns such as the Imperial Oil Company of Canada. The latter company has organized for the welfare of its 4,000 employees. The policy—Not working for us, but with us.

It will not be long before business is re-organized. If capital will not cooperate with labor, private capital will be abolished. We cannot expect returned men to stand around corners waiting to have jobs doled out to them, by the business men whose business they have saved. The same morale that is necessary in the army must be applied in the business world. France a morale in the labor situation, and the working hours will be decreased—because of the better work produced by the men. He hoped that as custodians of the future, the young men and women present would take these things into account.

At the conclusion of the lecture Ex-Governor Wood expressed thanks to the speaker for his eloquent and instructive address. Dr. Bortien seconded the motion, expressing pleasure in having the distinguished speaker present to give his views on a topic of such vital importance. A unanimous vote of thanks was tendered Dr. Chown by the chairman, Col. F. B. Black. The meeting closed with the National Anthem.

Semi-ready Shop Talk: "We sell a lot of clothes in our shop—have to, for the price label in the pocket compels us to sell Semi-ready tailored suits and overcoats at a smaller profit than any merchant in Canada thinks is possible. In fact, the only objection ever offered by any merchant when he was offered the exclusive selling rights for Semi-ready was that it was not possible to sell at such a close profit. All can see the fact that small profits make a big wholesale trade. Many wholesale houses handle goods on 10 per cent. margin." The Semi-ready Store Kline and German.

### More American Capital Will Be Sent To Canada

Consensus of Opinion of Big Financiers of States

Consolidation of Interests of Big American Financial House and Meredith & Co., Montreal, Evidently Significant

(Financial Post.)  
New York—What direction will the investment of American capital within the Dominion of Canada follow in the coming years? There seems to be no division of opinion among Canada-American bankers and financiers that the future will bring a further and more complete penetration of this country's surplus capital in the neighboring Canada. Such outstanding men as Thomas W. Lamont of J. Morgan & Co. and H. P. Willis, former secretary of the Federal Reserve Board, have predicted in full confidence the development of that community of action and interest which was built up between the two countries during the war period, with the return of peace. But an official announcement emanating from the Guaranty Trust Company this week raises the question as to the possible financial assistance which Canada may expect from now on.

"Canadian financing has heretofore been done largely in England. American capital invested there has been in a few lines not largely representative of the dominion's chief industries," says the Guaranty Trust Company's statement.

**New Funds for Canada.**  
But the Guaranty Trust Company which itself is likely to become a direct factor in the Dominion's future financial needs believes that funds for Canada will be obtainable here. "The present financial strength of the United States, together with the promise of great expansion both in transportation and in industry which is generally looked for in Canada, provides an opportunity for a closer relationship than has heretofore existed."

"The proportion of American capital invested in Canadian enterprises is expected to increase from this time forth," say the Guaranty Trust, a statement

### Eyes Inflamed?

If your eyes are inflamed, weak tired or overworked; if they ache, if picture shows make them feel dry and strained, get a bottle of Bon-Opto tablets from your druggist. Dissolve one in a fourth of a glass of water and use as an eye bath from two to four times a day. Bon-Opto relieves inflammation, invigorates tired eyes.

which is particularly significant at a time when this influential American corporation has linked up with Canadian interests in the new formed United Corporation, Ltd., which is representative of the Guaranty Trust Co. and C. Meredith & Co., Ltd., of Montreal. Offices operated by the Meredith firm in Montreal and Toronto will be taken over by the new organization. Harold Stanley, vice-president of the new concern, is a vice-president of the Guaranty Trust Company, as also are the following directors of the new organization: Alfred Bretton, W. P. Conway and E. W. Stetson.

**Canadian Loans in U. S.**  
American holdings of Canadian securities at the present time approximate \$800,000,000. A summary of the government, municipal and corporation loans placed by the Dominion in the United States and at present outstanding according to a compilation for the Federal Reserve Board follows:  
Government ..... \$180,000,000  
Municipal ..... 116,000,000  
Railroad ..... 68,840,000  
Public utility ..... 71,707,800  
Industrial ..... 81,466,793  
Total ..... \$468,008,953  
**An Economic Factor.**  
Raleigh S. Rife of the Guaranty Trust Company, treating this week on the investment relations between Canada and

the United States, said that there are certain signs which would indicate that after the declaration of peace the financial relations between the two countries should become more important than they were before the outbreak of the war. Mr. Rife offers the interesting thought that one of the important factors in the relations between Canada and the

United States having been the movement of peoples between the two countries, "one of the important economic results of the war will probably be an increase in the movement and it is not unlikely that the great Canadian northwest will be further developed by the sturdy men of our great middle west who have had their spirit of adventure quickened and naturally the opportunities of this region will make an appeal to them."

**Americans Know Canada.**  
"Because we know Canada better than perhaps any other country and because of the Dominion's great opportunities," says Mr. Rife, "our country ought to play a more important part in the development of the natural resources of Canada which will be beneficial to the industry and enterprise of both countries."

**The Drift of Capital.**  
Analysis of the Canadian loans at present outstanding in this country shows very clearly the small proportion of American capital which has been invested in Canadian industrial offerings. Holdings of \$31,486,793 of these corporate obligations represent but 7 per cent of the Canadian loans which remain to be liquidated here. Is it not probable then that the new drift of American funds will be toward building up Canada's industrial fabric?

### SIR ROBERT ON VISIT TO LONDON

Premier to Confer With Canadian Authorities Regarding Demobilization.

Paris, April 2—(By Louis Trepanier)—Sir Robert Borden proceeds to London on Thursday, where he is to confer with Sir Edward Grey, and Sir George Perley, as well as with members of the British government, respecting demobilization and other important subjects. While in London he will attend the McGill dinner on Friday, and unveil a memorial, the gift of Major and Mrs. Astor, which is to be erected in the cemetery on the grounds of Cliveden consecrated to this purpose. Hon. Mr. Doherty has been a member of the international law union, recently organized as one of the results of the deliberations on the league of nations. The union will have its seat in Paris and its membership is confined to forty persons. Its object is the active study of new problems growing out of the war which are to be approached in the spirit of co-operation upon which the league of nations is founded.

**Case Heard Again.**  
Newcastle, April 1—The now famous trial of George Donohue and William Gallis charged by Jackson Balsley with the acceleration of the death of the latter's sister, Mrs. Donohue, by their forcible seizure of her at the home of her sister, Mrs. Archie Stewart, and the conveying of her against her will to Hotel Dieu, Chatham, was resumed before Judge Lawlor here yesterday. E. P. Williston for prosecution, George McDevide for defence. Court adjourned till next Thursday at 11 a.m.

**CANADIAN CAPTAIN KILLED IN ENGLAND BY FALL FROM TRAIN.**  
London, April 2—(By Canadian Associated Press Cable)—An open verdict was returned in the inquest on Captain John Alexander Proctor, of the 9th Canadian Reserve, aged 24, who fell from a train when returning to Whiteley Camp. The deceased was accompanied by a lady friend who was positive he was sober and in good spirits. She fell asleep in the train and did not awake until after the accident, when both the carriage doors were found open.

**MEGANTIC ON WAY.**  
London, April 2—(By Canadian Associated Press cable)—The Megantic sailed on Tuesday from Liverpool for Halifax carrying thirty-two officers, two nurses and 1,187 men all from Kimmel Camp, except fifteen officers and two nurses from London.
