Hundred or More Drowned Or Trampled To Death In Excursion Disaster

Steamer Hits Obstruction in Illinois River and Sinks

PANIC AMONG 200 DANGERS

Vessel Backs Away After Blow and Then Sinks With Hurricane Deck Remaining Above Water —Twenty Bodies Recovered When Task Given Up Till Daylight

Peoria, Ill., July 6.—Approximately 100 people were drowned or trampled to death last night when the excursion steamer Columbia, carrying more than 600 people, struck an obstruction in the Illinois River and sank.

The excursion party started from Peoria, fifteen miles distant from here, early in the evening, spent several hours at an amusement park near this city and when the return trip to Peoria was about half completed, the steamer ran into the obstruction on the Peoria shore, in the fog, smashing a big hole in her bow. The pilot signalled full speed astern. As soon as the vessel pulled clear of the log or rock, she began to settle and within a few minutes sank, carrying many persons down.

Soon after the steamer struck, a panic occurred among the passengers, and many men, women and children jumped into the water without securing life preservers. Those who could swim reached shore, which was only a few feet away. The second deck of the boat, where the dance hall is located, was crowded when the crash came, and it was here that many were crushed to death in the panic.

Big losses, however, were sustained. It is estimated that between 150 and 200 persons were on the dance floor when the vessel struck, and he believed many of these perished. When the boat settled on the bottom, the water reached the slight rooms immediately below the pilot house on the listed side. The pilot, when he found his boat was sinking, sent distress signals, and within a short time boats from various directions came to the rescue and began to pick up those struggling in the water, but on account of the darkness their efforts were decidedly hampered.

The police of Peoria early today estimated the number of dead at 150, but Captain H. F. Mehl of the steamer said he believed the number of dead was not more than fifty.

Search for the bodies was abandoned at 4 o'clock this morning until daylight came. Approximately twenty bodies had been recovered.

This morning only the hurricane deck of the steamer is visible above water.

CANADIAN TROOP SHIP ASHORE, ALL ABOARD SAVED

Ottawa, July 6.—It is officially announced through the office of the chief press censor that the City of Vienna, a Canadian troop ship, having troops on board, has gone ashore on the Atlantic coast during a dense fog. The troops and crew have all been safely taken off. It is thought that the ship herself may become a total loss.

SEVENTY-THREE IN CASUALTY LIST

Ottawa, July 6.—Today's list of seventy-three casualties includes six killed in action, three died of wounds, twelve died, twenty-seven presumed to have died, one missing, believed wounded, seven missing, twelve wounded, four ill and one suffering from burns. The New Brunswick names are:

TODAY'S NEWS FROM THE WEST FRONT

London, July 6.—The German artillery was active last night in the region between Villers-Bretonneux and the Ancre, northeast of Amiens, where the Australians have captured valuable ground.

Paris, July 6.—German troops last night attempted to raid the American sector in Lorraine, at Xivray, but were completely repulsed, as also in raiding attempts on point on the French front.

IRISH HOMES RAIDED AND WEAPONS SEIZED

London, July 6.—A press association despatch from Dublin says that the police of Ballinacree, Galway, have raided houses within a radius of fifty miles, seizing hundreds of guns and arms of various descriptions.

Father and Son Who Are Soldier Pals

Sergt. Major William Kirkpatrick and Corp. Wallace

Rothsay Veteran's Three Day Hunt on Horseback for His Boy "Over There," Then a Jaunt to "Blighty"

Herewith is printed a picture of father and son who are fighting shoulder to shoulder for the Union Jack in France. They have been over there two and three years respectively and write home most cheerfully of their soldier work and the day when the Huns receive their inevitable quietus.

Both soldiers were granted a brief furlough and off they went to dear old "Blighty" to see the sights not only as loving parent and son but as soldier pals as well. It was in London that they had this photograph taken—truly a scene of loyalty and family devotion to the flag and country, succeeding generations of Kirkpatricks may well cherish.

Some time ago the sergeant-major, hearing that his boy had arrived in France, diligently hunted for his whereabouts. He was granted three whole days and after riding on horseback three weary days came across him. The meeting under such circumstances can be left to one's imagination.

NO INCREASE IN WHEAT PRICE CONTEMPLATED

Winnipeg, July 5.—A statement which was published yesterday, credited to A. B. King, of the Western Canada Food Board, to the effect that the price of Canadian wheat was to be raised to 22½¢ in consequence of the new price set in the United States was absolutely contradicted by Mr. Magill, chairman of the Board of Grain Supervisors this afternoon.

There is no truth in the reported statement whatever," he said, "and such a report being sent only works hardship on those who are trying to get their wheat out of the country."

"The increased price in the United States is made to offset the increased price in Canada, and the price which are already in force. In Canada the matter has not even been considered and will not be unless the freight rates are increased, in which case the price might be raised for the new crop, but this would not put one extra cent in the pockets of the farmer, as any raise would be made only to meet increased freight rates."

HE SAVED FOUR, LOST OWN LIFE

W. A. James, Y. M. C. A. Secretary, and Three Others Drowned Near Igloo

Ignace, July 6.—A young Indian brings word of the drowning of W. A. James, secretary of the Y. M. C. A., two of his children, Bessie and Bobbie, aged respectively twelve and four, and Sammie, two years of age, on Lake Assiniboia, two miles south of here. A party of eight, including Mr. James, his wife, father and mother, his three children and Sammie Tait, son of James Tait of Ignace, while out in a motor launch ran on a reef and the launch almost immediately sank. Mr. James was able to save his parents, his wife and one of the children, but was drowned while trying to save the remaining three children.

ARE IN FAVOR OF THE TUNNEL

Strong Support for Connecting Link Between England and France

London, July 6.—(British Wireless Press)—Strong support for the English channel tunnel scheme from the French and Italian delegates was voiced at the international parliamentary conference here. A resolution in favor of constructing the tunnel was carried unanimously.

It was estimated that the passenger traffic from France alone would be three million persons annually instead of 100,000 that travelled by steamer before the war. The tunnel, which should be completed within five years of its commencement, would be worked, ventilated and pumped by electricity supplied from a power station in Kent.

DECIDED INCREASE IN INLAND REVENUE

Nearly 50 Per Cent Greater in June Than Year Ago—War Tax Helps Much

Ottawa, July 6.—Inland Revenue receipts for June show a decided increase over the corresponding month of last year. The total is \$8,098,081, as against \$2,219,090 a year ago. The war tax on railway tickets, telegrams, etc., brought in \$668,510. This amount, it is expected, will grow steadily with the imposition of the new taxes on matches, etc., and other articles. The increase in excise revenue was \$808,240, the only decrease being in metropolized spirits. The net increase in revenue was \$654,480.

BLOWN TO PIECES BY DYNAMITE BLAST

George Phillips, a farmer of Pembroke, about four miles from Woodstock, was instantly killed yesterday while engaged in road work. Phillips, with others, was doing some blasting along the road. One of the shots failed to go off and Phillips went to examine the dynamite, with the result that it exploded. He was blown to pieces.

Fateful Hour of War Near

Bonar Law Sees Much In Next Three Months

NO SIGN OF EARLY PEACE

Only Road To It Is Rugged Path of Victory But Germans Must Be Taught That War Does Not Pay

London, July 6.—The coming German blow will not be less dangerous because of the time employed in preparation for it, but it is comforting to know that the men responsible for the command of the allied armies are confident of the result, said A. Bonar Law, chancellor of the exchequer, last night at a dinner to the delegates of the parliamentary commercial conference.

"It is impossible to foresee the future," he said, "but I do believe that the fateful hour of this war is upon us, and in another three months our enemies have won no strategic object, then their campaign will have failed and it will, I hope, be a decisive failure."

The Germans possessed the most perfect military machine that ever existed, but the chancellor said he believed that had had many illusions regarding the war. One of these was that the new American troops would not be capable of meeting those of Germany, trained to the minute.

Premier Lloyd George reiterated forcefully that the Allies do not cover a single yard of German soil and do not desire to dispossess Germany of her rightful inheritance or the German people of their legitimate rights.

Mr. Law said he trembled to think what would have been the position of the Allies after Russia went out of the war, but for the help of the United States. He has not departed from Russia, which was like a patient in a delirium. It was impossible from hour to hour to tell what the future might bring. The population of the enemy powers was 126,000,000, that of the Entente Alliance 100,000,000. That in itself was a league of nations with a military force that was terrific, but the economic force also was strong.

Of one thing, he said, there was no doubt, just as the Allies were standing together, so would they stand when the war was over to repair the ravages of the war.

The chancellor concluded: "I see no immediate hope of peace. There is no road to it, I fear, except the rugged road of victory. It will be fatal to the world and fatal to the Germans themselves if they do not learn the lesson that war does not pay."

Loss of Hamel Admitted.
Berlin, July 5, via London.—The official communication from general headquarters issued today follows:

East of Ypres strong attacks launched by the enemy were repulsed. On both sides of the Somme replugh morning the enemy infantry attacked after strong artillery preparation by the British. On the north bank of the river the attacks broke down before our lines with sanguinary losses.

"South of the Somme the enemy penetrated to the village and the wood of Hamel. On the height east of Hamel his attack was frustrated by our counter-attacks. East of Villers-Bretonneux we threw the enemy back into his position of departure.

In the evening the fighting activity revived on nearly the whole front of the army of Crown Prince Rupprecht and kept up with increased intensity during the night, especially in yesterday's hot sector. There has been increased fighting activity on the west bank of the Aisne and on both sides of the Aisne."

PTE. HICKMAN, WHO WAS ON HOSPITAL SHIP, WAS SAVED

Private George R. Hickman of this city, who was on the hospital ship, the Lindover Castle, is among the survivors. Official advice has been received from Ottawa by his parents, Mr. and Mrs. Edward Hickman of 2 River street, that he has been landed safely in England.

The young man was employed in Stetson, Cutler & Company's mill at Indiantown before he enlisted in the field ambulance corps, with which he went overseas. Afterwards he was transferred to the hospital ship and had made two trips to Halifax on her. The news that he has escaped death will be received with deep gratitude by the friends of himself and his family.

"No Indian Campaign."
London, July 5.—After the debate in the German Reichstag on Wednesday the Roumanian peace treaty was adopted, says a Berlin telegram by way of Amsterdam to the Central News Agency. The independent Socialists were the only deputies to vote against the agreement.

Foreign Secretary Von Kuhlmann announced that an exchange of thoughts had taken place with the Moscow government regarding the occupation of the Crimea and Sebastopol, from the fact that a line of demarcation was being drawn, said the foreign secretary, it was evident that Germany was willing to settle all the questions peacefully. Von Kuhlmann added that an "Indian campaign was not a part of Germany's policy."

Hospital Ship Deliberately Sunk On Orders From Berlin

London, July 6.—(Reuter's Ottawa Agency)—Reuter's Limited is authoritatively informed that the outrage on the hospital ship Lindover Castle, which is the fourth hospital ship torpedoed this year, was deliberate and premeditated, following upon orders given the submarine commander by the supreme German authorities, which alleged the presence of eight flying officers. The allegation is foundationless and could easily have been tested by the British man authorities, which alleged the presence of eight flying officers. GROH LEADS Replaces Merkle as First Place Batsman

Chicago, July 6.—Heinie Groh of Cincinnati is the new batting leader of the National League, depositing Fred Merkle in second place. Merkle averages .335, with Groh leading a point behind. Jake Daubert, Brooklyn veteran, also is batting .340.

Max Carry, of Pittsburgh, who is leading the base stealers, brought his total up to thirty-four. Howsh of Cincinnati, and O'Mera, of Brooklyn, are on even terms for honors in sacrifice hitting, with sixteen each. Wickland, of Boston, and Craze of St. Louis are tied in home run hitting with five. Chicago leads the clubs in batting with an average of .373, while the New York Giants, their closest rivals, are on top in fielding with .971.

Other leading hitters are: Smith, Boston, .341; Mann, Chicago, .322; Williams, Philadelphia, .320.
Tyres Cobb is setting a merry clip in the American League. The Detroit outfielder has jumped from seventh to second place among the hitters and has advanced into a tie for second place with Bobby Roth of Cleveland for stolen bases. He is six bases behind George Sisler, St. Louis, who is leading with twenty-nine thefts. "Babe" Ruth, Boston, before leading his club early in the week because of a reported misunderstanding with Manager Barrow, slams leads the home run hitters with eleven.

Chapman, Cleveland, leads the sacrifice hitters with a mark of 22. New York leads in team batting with an average of .269.

The leading hitters are: Sisler, St. Louis, .346; Cobb, Detroit, .342; Baker, New York, .339; Ruth, Boston, .338; Burns, Philadelphia, .332; Milan, Washington, .323.

CAPT. RALPH ROBERTSON SERIOUSLY ILL IN FRANCE

Captain Ralph Robertson of this city is seriously ill at a hospital in France. This announcement was received this morning by his wife, in a telegram from the records office in Ottawa. No further particulars were given and his family and friends are anxiously awaiting further word.

Captain Robertson, who was a member of the staff of the Maritime Naval Works before going overseas, went across as paymaster of the 104th battalion, and afterwards was transferred to an artillery brigade in France.

WAS A GOOD WEEK More Than 5,000 Germans Were Taken Prisoner

Many Others Were Killed, Important Ground Won by Allies and 173 German Airplanes Were Downed

London, July 5.—(By the Associated Press)—During the last week the Entente Allies on the western front have taken more than 5,000 prisoners. A series of minor operations also resulted in their gaining possession of several important strategic points, inflicting heavy losses on the enemy and obtaining valuable information.

Another satisfactory feature of the last week's operations was the work of the Allies in the air. Great damage was done by the aviators to German communications and concentrations of men and material behind the lines. The superiority of the Entente fighters is shown by the fact that during the last week on the British front alone, 173 German airplanes were downed while only thirty-three British machines are missing.

"With the British Army in France, July 5.—(By the Associated Press)—Along the whole British front today the main topic of conversation was the remarkable success achieved in Thursday's attacks south of the Somme by the combined Australian and American troops, assisted by a fleet of English-man-made tanks. Even the German prisoners admitted ruefully that the drive had been conducted with cleverness and invincible courage. To this praise was added a telegram from Field Marshal Haig to the forces involved, expressing his warm congratulations on the victory which attended the operations and on the skill and gallantry with which it was executed.

The Australians and Yankees today were holding their newly-won possessions strongly after having repulsed a series of three counter-attacks during the night.

NO TRAINS FOR SUMMER PICNICS

Sunday Schools Will Have to Make Special Plans if Transported by Rail—Auto and Basing Outings

By order of the Railway Commission and through a general understanding between various roads operating out of St. John, and in fact nearly all over Canada, it is assumed, Sunday school picnics by train routes are taboo this year. If there are to be any of the old-time basket outings or other forms of excursion they must be transported either on regularly scheduled trains—provided accommodation is available—or by steamer. Of course the ubiquitous automobile in its various ominous models might be pressed into service, as expected by last week's outing to Black River, the Sussex runs, etc. As a matter of fact the infant classes of Central Baptist church were taken up by this mode of transportation to Rockwood Park a fortnight ago on the Sunday school's annual outing, whilst older children and adults took street cars or walked. The Main Street Baptist Sunday school is going to Crystal Beach. In the meantime river outings will probably be held in numbers, although food measures are having a dampening influence somewhat on all such summer gatherings.

Vienna Reports Bitter Fighting.

Vienna, July 5, via London.—The text of the official statement issued by the war office tonight, reads:

"Between the Piave continues uninteruptedly, the forces engaged fighting with equal bravery. Strong Italian attacks against our left wing were balanced by counter-attacks near Chiesanuova. Italian units which had penetrated our positions were driven back by a quick thrust by a Silesian regiment.

WEATHER ADDS TO DISTRESS OF AUSTRIANS

Zurich, July 6.—Vienna newspapers of Wednesday report violent rains and abnormally low temperatures in every part of Austria-Hungary. There also were severe snow storms and frost in Bosnia, Herzegovina and Dalmatia. The snowfall continued for nine hours and greatly damaged the crops.

GERMANY CAN HAVE PEACE AT ONCE BUT ON THE WILSON TERMS

Lloyd George Reviews American
Army in France—Says Kaiser
Realizes Now That Defeat Is
Sure

With the American Army on the British Front, July 5.—(By the Associated Press)—Until Germany accepts the conditions laid down by President Wilson, she cannot have peace and she can have peace tomorrow if she accepts them. David Lloyd George, the British premier, gave this message to the American troops training on the British front, after he had seen them at review today.

The arrival in France of one million American soldiers had made the German emperor realize that his defeat was certain. The emperor, the premier said, had had many illusions regarding the war. One of these was that the new American troops would not be capable of meeting those of Germany, trained to the minute.

Premier Lloyd George reiterated forcefully that the Allies do not cover a single yard of German soil and do not desire to dispossess Germany of her rightful inheritance or the German people of their legitimate rights.

BOHEMIA MAY BE BAR TO GERMAN MARCH TO EAST

Outbreaks of Czech-Slovaks are hopeful sign for future of Middle-Europe - Aspirations That May Curb Teutonic Policy of Grab

(Toronto Globe)

News that Bohemia is averse with rebellion is important, as showing that the people of this oppressed section of the "ransackable empire" of Austria-Hungary are willing to strike for freedom, even at the risk of terrible punishment under the German heel. There have been signs for some time of an outbreak in Austria, for the distress of Czech-Slovaks (the race name for the people of Bohemia), have been in close touch with Italy, and a great army, have enrolled to fight for the allies. Thousands are being called, and the movement to give them a larger place in the war against the Teutons is steadily gaining force.

A Bohemian Leader

Recently Dr. Thomas G. Masaryk, a great Slavonic scholar, arrived in the United States to represent the interests of his race in connection with the war. He began life as a hick farmer and philosopher in the University of Prague, before the war. He is now recognized as the foremost living Slavonic scholar. He early became interested in the democratic movement in Bohemia and soon became its leader. He was elected a member of the Austrian parliament, but gave it up to devote himself to the political education of his nation. Dr. Masaryk opposed Austria-Hungary, and at the outbreak of the war he was sentenced to death and all his property was seized. He escaped to Paris, where he founded the Czechoslovak National Council, which now has branches in all the allied countries.

In Russia Dr. Masaryk has since organized the Czech-Slovak patriots into an army of 50,000, which he expects to see transported to France. Some of the men are already at Vladivostok. The main problem is shipping.

To Block Germany's Path

"What will put an end to Germany's dreams forever?" said Dr. Masaryk. "Buffer states between Germany and the East. Note Bohemia's position between Germany and Austria. It is a guarantee against Mittel Europa, such as an unbroken line of buffer states." Dr. Masaryk's great bridge would drop out.

On the same subject a Czech-Slovak leader, Edward Benes, has recently been enlightening the people of Italy. His race, he points out, number 12,000,000 live in the mountainous country containing 140,000 square kilometers.

The formation of such a state would be an independent Bohemia, which would present an insurmountable obstacle to the imperialistic projects of the Germans and the Austrians. It would touch the Polish State on the north and the Yugoslav state on the south, thus forming a barrier against German expansion to the east and west.

The Czech-Slovak block would be a present, a logical outcome of the application of the ideal of independence for all nations, which would greatly weaken Germany and mark the end of an odious system, the source of which was the union of Austria-Hungary, which was a political system for the purpose of displacing the ancient Austria-Hungary.

Close Relations With Poland

Bohemia under this regrouping of Central European States would be a long frontier in common with Poland, and surrounded as it would be by Germany, France and Russia, it would be at a strategic point of an alliance and a single political, economic and military system, which would be the natural ally of the Polish state. It would counter-balance the German forces on the east. These two forces, if Russia proved slow in recovering herself, would be the natural ally of the Polish-Czech-Slovak block a guarantee against German expansion toward the east and a substantial political system.

The formation of an economic Czech-Slovak block would impose a barrier on the economic policy of Germany and Poland with the means of restoring the country to remain peaceful and not to allow itself to be the instrument of Pan-Germanist intrigues.

ARMY WIFE'S YEAR TRIP

Journeyed 30,000 Miles to See Captain for Two Days.

Mineola, L. I., June 12.—After a chase of nearly four years and more than 30,000 miles, Mrs. William Whaling caught up with her army husband and Uncle Sam's army orders here a few days ago. Four years ago she became Mrs. Whaling, wife of Captain Whaling, a western army post. About two months after the wedding the war department ordered the husband to the Philippines, and he made arrangements for the bride to follow, after the rainy season in the islands. While she was in the middle of the Pacific Ocean Sam got busy and the captain passed his wife on the ocean. When she reached Puerto Rico, she was to go back for a month—and her husband was in San Francisco. When she finally reached Puerto Rico, she was run down the gangplank into the arms of—disappointment! Uncle Sam had been busy again and her husband was in Alaska.

A telegram of warning to the army wife reached Seattle an hour after her boat had sailed north. Husband and wife passed each other on the ocean again, he on his way to Puerto Rico, she back to wait another month for a boat. But when she reached Texas she found the captain was in Mexico. By this time she grew tired of travel and returned to her home at Kansas City. But her husband telegraphed that he was in San Antonio and there she went, only to find he was at the national army camp at Chillicothe, Ohio. It was no use. When she got there, he was at Camp Mills. This time she beat the army order by two days and then the 48-hour reunion was cut short by more orders.

"I don't know whether I'm still a bride, or a widow," said Mrs. Whaling after her husband had gone. "Being the wife of a regular army officer is about as bad as having a divorce."

ST. JOHN GIRLS IN BRADFORD

Bradford, Pennsylvania, Pa.—The Misses Elizabeth and Thelma Bandy Forman street, entered at one o'clock luncheon at their home on Forman street, yesterday afternoon in honor of their guests, Miss Helen Godlip and Miss Phyllis Kenney of St. John, New Brunswick. Twenty-five were present.

THE LOG DRIVERS.

Frederick Mall, Friday.—The St. John River will be cleared up as far as lumber is concerned with in a short time as the last drive of the St. John River Log Driving Company which started recently from German street, entered at one o'clock on Friday evening, June 28th. The lumber which was hung on the Upper St. John this season is too far away for any expectation of its coming out before next spring. On the lower section of the river, where it runs through the mill and the Log Driving Company has only small crews at work there.

MITCHELL, FORMER NEW YORK MAYOR, WHO BECAME AN AIRMAN IS KILLED

Lake Charles, La., July 6.—Major John F. Mitchell, former mayor of New York city, died in an airplane crash while on a flight from New York to Lake Charles, La., today.

EVEN "POOR LO" CATCHES ON.

(From "Morning Gossip" in the New Bedford Mercury.)

An Indian in one of the western reservations was in the habit of bringing Mrs. Gray each spring several baskets of wild berries, for which from time immemorial he had charged fifty cents a basket. A few days ago he paid his usual visit to Mrs. Gray's back door. The maid took the berries and tendered the usual payment. The Indian shook his head. "One dollar a basket now," he said. The maid called her mistress and explained the difficulty. Much surprised, Mrs. Gray again offered the money to the Indian, who once more refused to accept it. "Why is this?" asked Mrs. Gray. "The baskets are the same size as usual, are they not?"

THE WEATHER.

ANTI-TUBERCULOSIS CAMPAIGN

Another Sidelight on Activities of Toronto's Health Department in Fighting Disease

(Toronto Star)

Eight years ago a city nurse went into a home on a street off Spadina avenue and found there a boy who was dying of tuberculosis. The remainder of the family appeared to be free from infection, but they would not consent to examination. They lived in unclean surroundings, took no precaution and declined co-operation with the health department. Since that date, the father, daughter of fifteen and a married sister have died of tuberculosis, and at present all the rest of the family, including the mother, are infirm.

The Man In The Street

As Harry Leon Wilson's cow-puncher would say, this was very, very steady. There we did not say that you should use language of that description.

Finland threatens to declare war on the Allies. Now, if the Eskimauz will take similar action against Germany, the balance will be restored.

Lord Derby, discussing British colonial policy, says, looking at America, the revolutionists taught Britain how to treat her children. The widespread adoption of his method of teaching might appeal to the small boy.

Germany is preparing another peace offensive, and there is little hope that it will be less offensive than the last.

Friends of General Botha will regret to notice, according to the picture published in the Standard this morning, that he has aged considerably of late. We hardly recognize him with a full and flowing white beard.

Talking of things like that, we notice in the dramatic news that the ladies of the Hampton I.O.O.F. put on "Whisking How the Hailstones to hate the liars," they were putting on sidewalks or moustaches.

Germany is preparing another peace offensive, and there is little hope that it will be less offensive than the last.

Halifax is raising a huller over the alien enemies at large in the sister city. How those Hailstones to hate the liars light!

Depressing Depressions

The returned soldier arrived at the United depot this morning at 10 o'clock on the front door. He glanced at the pathway that leads to street and stopped in amazement.

Well, that looks familiar," he ejaculated. "She'll craters in old St. John. I didn't know that you had been raised here," he said.

Latest outrage is suggestion that every school boy who salutes every returned soldier who he meets. Give poor men a chance. A ship who has been answering salutes since the war began went to rest. The idea of having to come back and salute every returned soldier who he meets is such an honor that it does not sound like as much an honor as it may be intended to be.

GEORGE OF TONGA DEAD

Last of the Independent Kings of the Pacific—Daughter Succeeds Him.

London, July 6.—(Correspondence of the A. P.)—King George Tubou II. of Tonga, whose death is announced, was the last of the independent kings of the Pacific islands. He succeeded his grandfather in 1922. At the time he was a boy of twenty-one, and he was New Zealand, fonder of cricket and rowing than of the science of government.

GERMANY AND POWER

Frederick William, The Crown Prince
This is No. 9 of a Series of Ten Articles Written For The Times By W. FRANK HATHEWAY.

The emperor's son Frederick, whose army reached the Marne in June, is in many ways a chip of the old block. He was born at Potsdam in 1892 and has gradually become a thorough militarist. His career was rapid from colonel of the Death's Head Hussars in 1911 to commander of an army in 1914. An ardent sportsman, he was not in his youth a fighter in the military sense. His note book says: "This pleasure, in the struggle itself, alone, is really not what attracts us sportsmen out into the woods. The great book of beautiful nature opens willingly before the real huntman. Nature speaks with ever varying, ever powerful voice to us lonely stalking hunters and sings to us the song of songs of the Creator."

He speaks about "being nearer to God in the golden morning of the mountain heights." What a pity that this young affectionate, responsive heart could be so changed by the war spirit and "Will to Power!"

His evident affection for and praise of English people and customs endeared him to many. One cannot doubt his sincerity in that earlier period. When traveling in India in 1910 he is reported to have said: "The spirit of the German people is not bellicose, but peaceful, and war is the last thing we want. Why should we fight with England allied to us by blood and sentiment, the only

country with which we form friendship on a footing of equality? Personally, I like England, and follow the policy of the peace of the world can only be maintained by a close understanding between England and Germany."

All this sounds well, but later, in 1911, we hear him from the royal box in the Reichstag leading the applause when Dr. Hoysbrand attacks England on the Morocco and Agadir questions. This politician said: "This has revealed to the whole German nation where her enemy (England) is. The German nation knows now if it wishes to expand in the world, if it wishes to seek its place in the sun which has been assigned to it by its rights and by its vocation, it now knows where stands the one who will speak the word of command, whether it is to be allowed or not. We Germans are not accustomed to have to put up with this kind of thing, and the German nation will know what reply to give. The German nation when the hour strikes knows what this reply has to be. For it is a question of its final existence and its nation will allow itself to be deprived of that."

The Morocco question had been settled as between England, France and Germany, yet this doctor, leader of the Prussian militarists tried to inflame the people against Britain. Why? Because

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands, each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

Prince at 29 had developed into a strong upholder of militarism, a denouncer of peace, and a hater of Great Britain.

W. FRANK HATHEWAY, St. John, N. B., July, 1918.

DEMONSTRATION AND TALK ON CONSERVATION

The first of a series of demonstrations and talks on food conservation and kindred subjects, which had been arranged by the Housewives' League under the supervision of Mrs. Richard Hooper, was held in the Y. W. C. A. rooms in Union street, yesterday afternoon. It can be taken as a sample of what the series will be. The first of what the series will be. The first of what the series will be. The first of what the series will be. The first of what the series will be.

The amount of space available in the Y. W. C. A. rooms limits the number who can attend the demonstrations to about twenty-five. There was no unoccupied seat there yesterday afternoon and all present were grateful for having had the privilege of attending.

Young Man: How can you serve your country? CONTROL OF THE WIRES

Washington, July 6—The joint resolution authorizing the president to take over and operate until the end of the war all telegraph, telephone, cable and radio systems in the United States was passed tonight by the house. It now goes to the senate, but indications were that action on it there would be deferred until after the mid-summer recess, planned to begin the end of this week.

The vote was 221 to 4. The four members voting in the negative are all Republicans.

THE WAR SITUATION.
The week ends with some evidence of a renewal of activity by the Germans on the western front. During the week the British, French and Americans have been able to improve their positions and take a considerable number of prisoners.

Dr. Beland, M. P., in an interview in London, utters a grave note of warning against underestimating the strength of the Germans. He says the truth is kept from the people of Germany, and that they are still expecting word that England has been starved into submission.

A serious condition of affairs has developed in South Africa, where German agents have been busy among the natives. A statement by Premier Botha shows a state of serious unrest, and the government has taken police and military measures to meet the threatened danger.

German writers are beginning to admit that there is some unity in the British Empire. They are calling for only a "revival military spirit" and they, too, are under German influence. Unless the Allies are able to intervene in some way, the situation there will go from bad to worse.

SOME REFLECTIONS.
A little girl and a very little boy came to the editorial rooms of this newspaper yesterday with a written paragraph telling the story of their father, who is missing and believed to be dead.

GERMANY AND POWER

Frederick William, The Crown Prince
This is No. 9 of a Series of Ten Articles Written For The Times
By W. FRANK HATHEWAY.

The emperor's son Frederick, whose army reached the Marne in June, is in many ways a chip of the old block. He was born at Potsdam in 1882 and has gradually become a thorough militarist. His career was rapid from colonel of the Death's Head Hussars in 1911 to commander of an army in 1914. An ardent sportsman, he was not in his youth a fighter in the military sense. His note book says: "This pleasure in the struggle itself, alone, is really not what attracts us sportsmen out into the woods. The great book of beautiful nature opens willingly before the real huntsman. Nature speaks with ever varying, ever powerful voice to us lonely stalking hunters and sings to us the song of songs of the Creator."

England would not aid her to get the port of Agadir on the west coast of Africa.

This violent political speech won the heart of the Crown Prince. Later on to show his changed feeling for England, he sent a congratulatory telegram to Col. Frobenius, whose book was an attack on Great Britain. Again in April, 1914, he telegraphed Prof. Buchholz, endorsing a fiery speech lately made by him. Thus the nature-loving prince of earlier days had been quickly changed into the commander calling for war. About this same time a man named Wm. Lunususs wrote a reasoned but violent attack on militarism. This book, "The Human Slaughter-house," showed in lurid pictures the savagery of war. The edition ran up to 200,000. The author received the thanks of the peace conference. The Crown Prince smiled through a military magazine, and at once became famous in Germany. In it he says of a drill cavalry charge: "If it were only in earnest," and adds, "the sacred duty to maintain the army and feet always at the highest degree of readiness to strike."

LEMON JUICE TAKES OFF TAN

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost. Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

CONTROL OF THE WIRES

Washington, July 5.—The joint resolution authorizing the president to take over and operate until the end of the war all telegraph, telephone, cable and radio systems in the United States was passed tonight by the house. It now goes to the senate, but indications were that action on it there would be deferred until after the mid-summer recess, planned to begin the end of this week. The vote was 221 to 4. The four members voting in the negative are all Republicans.

THE WAR SITUATION. The week ends with some evidence of a renewal of activity by the Germans on the western front.

Dr. Beland, M. P., in an interview in London, utters a grave note of warning against underestimating the strength of the Germans.

A serious condition of affairs has developed in South Africa, where German agents have been busy among the natives.

The news that comes from Finland shows the people of that country to be completely under German influence.

SOME REFLECTIONS. A little girl and a very little boy came to the editor's rooms of this newspaper yesterday with a written paragraph telling the story of their father, who is missing and believed to be dead.

U. S. TRANSPORT SUNK. The American army transport Ovington, homeward bound, after having landed several thousand American soldiers in France, was torpedoed and sunk in the war zone last Monday.

Users of dynamite should be extremely careful. The sad tragedy in Pembroke, Carleton county, is another warning.

EXPERIENCES OF AMERICAN WITH CANADIAN ARMY

Winfield Scott Gray, a Bangor young man who, in the three years that he has spent in the Canadian army, has been engaged in some of the fiercest fighting since the days of the Boer war, has returned to his home in Bangor last week after spending a vacation with relatives in East Holden.

"Private Gray says that war is exciting, it's great, but he really was more interested Wednesday than at any other time in his career, when he made a big catch of trout in a stream near Holden. It was much more fascinating than war, he declared, and the glory of the battle-field in his opinion cannot equal that of catching more fish than anyone else in the party."

"I came home in kilts as a member of the Cameron Highlanders," he told a Commercial reporter, "but I had such an ugly looking wound in my knee, which was raked with shrapnel that I gave them to my wife to make into a dress for herself. I felt like a bonyard savage in my plaid petticoats. When in civilization, dress as they do there is my motto. My wife is an English girl whom I married a few months ago. She's visiting my folks in East Holden now."

"In the army my little bit was to spray the Hun with lead from a Lewis gun and I have done some execution with it, too. It weighs only twenty-six pounds, and deals death out in wholesale lots. There are two Lewis gunners with each platoon, at either end, and our work is to keep the Hun's heads down so that they can't aim at our boys as we over the top."

Canadians as Storm Troops.
 Private Gray declares with emphasis that the American army will win the war for the simple reason that our soldiers are of the same stuff as the Canadian army, which has won the highest honors in France, never failing to hold a position it was ordered to hold, nor failing to take a position it was ordered to take. The Canadians had so much pep and go that they were used as storm troops most of the time. One general remarked "Give me 100,000 more Canadians and you can take the entire British army back to England!" The English, Gray says, are stubborn fighters, but lack the dash that characterizes the Canadians and Americans.

The vast numbers of superior American troops going to France will turn the scale in favor of the Allies, he is sure. The Americans and Canadians are the best soldiers on earth, for they combine energy with brains and are always eager for a fight. While in Liverpool recently, 10,000 Americans landed in a truck, and the English people outdid themselves welcoming their cousins from overseas. Relations between the two countries have changed wonderfully for the better since America began sending troops over.

"Why, when I first went into the Canadian army they found out I was a Yank. I had three fights every morning before breakfast. One morning an officer went for some boxing gloves to give to myself and another fellow. Before he got back we had mixed it up, so strong that we knocked the wash house down. The officer was satisfied then that we didn't need any gloves. But after we had been in a few battles with the Germans, we had no more trouble; we were the best of friends."

Three lines the Canadian army prevented the Germans from taking the channel ports and saved the part of Belgium as yet not taken by the Hun. "We did well for a small army," he remarked modestly. He also bears the three stripes for three years in the war, the brass emblem "L. G." for Lewis gunner; three gold stripes for as many wounds; a portion of the French gray uniform for distinguished service at Vimy Ridge and underneath his coat there lies a German whistling bullet, close to his shoulder blade.

Military Indecision.
 A sergeant was trying to drill a lot of raw recruits and after working hard for three hours he thought they seemed to be getting into some sort of shape, so decided to test them.

"Right turn!" he cried. Then, before they had ceased to move, came another order, "Left turn!"

"Where are you going?"

"Here you!" yelled the angry sergeant.

"I've had enough," replied the recruit in a disgusted tone. "You don't know your own mind for two minutes running!"—Harper's Weekly.

WATERING.

There is always the danger of watering vegetable crops over abundantly. New Brunswick has been fortunate this spring in the amount of natural watering that the gardens have received, but this does not necessarily apply all over Canada. A city garden should never be watered in the heat of the sun. In any event, the water should be applied in fine spray as it is possible to obtain. Force will expose the roots to the sun's rays and thus cause the wilting of the plant. It is necessary to stir the soil after each rain or watering in order to conserve the moisture. Particular care must be taken in the watering of plants in the vegetable garden. It is a good plan to put a little water in the holes before the plants are put in them. Or, on the other hand, the watering may be done immediately after planting while the soil is still loose. This will prevent the plants from wilting.

CONTROL FLEA BEETLES.

The small dark colored "flea beetles," one-twentieth of an inch in length, so-called from their habit of leaping or jumping, eat holes into the leaves of turnips, radishes, potatoes, tomatoes and other vegetables. They are most injurious in spring when the young seed leaves are often visited by large numbers of the insects and quickly destroyed. The Potato Flea Beetle feeds upon the foliage of the potato, tomato, cabbage, cucumber, beans, tobacco, squash, etc. The Turnip Flea Beetle, also, occurs regularly in the vegetable garden. The Red-headed Flea Beetle is destructive to potatoes and beans. Infested plants should be promptly sprayed with an arsenical mixture containing either Paris green or arsenate of lead, or with Bordeaux mixture alone. The latter acts as a deterrent.

HOPE TO CUT INFANT DEATH RATE IN HALF

Aim of the Toronto Health Department Nurses to Conserve Baby Life

The Proper Feeding—Twenty-Two Child Welfare Clinics a Week For Mothers to Attend

(Toronto Star).

"Save the babies," must be the slogan of Toronto mothers this summer. Owing to the great wastage of life which goes on daily in the division of child hygiene, the mothers aid in every way in the conservation of life. According to the personal testimony of the havoc of war, the department of public health, if the mothers will only work with them during the summer months in this city was 470. This rate has steadily declined. In 1917 there were 297, in 1918 this was reduced to 149, during 1916 the number slightly increased to 168, while those recorded for 1917 were 98.

Change for Mothers.
 "May and June are the two months of the year when every consideration must be given infants to prepare them to go through the hottest weather." In the hands of the nurses the greatest difficulty is with the feeding of the children. Bitterness and sicknesses affecting the digestive tract must be guarded against.

At the present time there are twenty-two child welfare clinics a week in English and Yiddish which will give mothers in doubt as to the physical fitness of their infants should visit these clinics regularly and receive instruction as to the best method of caring for their children to meet their individual cases. Emphasis is also laid on the necessity of all parents registering the birth of new infants, when a booklet will be sent out from the health department printed in English and Yiddish which will give them pointers on the care of the infant and young child.

Baby's Food.
 General directions for feeding young children from twelve to eighteen months as planned by the nursing division are as follows: Breakfast, 6 or 7 a. m., fruit, juice of half an orange, pulp of four to six stewed prunes, pineapple juice, two tablespoonfuls; cereal, sugar from oatmeal, wheat farina, cornmeal, fine hominy, barley with milk, no ghee. Toasted bread or zwieback or toast, milk, one cup, warm or cold. Lunch, 11 a. m., glass of milk alone or with zwieback or toast. Dinner, 2 p. m., broth of chicken, beef or mutton with rice in it, or leaf juice, or soft cooked egg mixed with bread crumbs, potato baked till mealy, rice or macaroni, bread 24 hours old, or toast, glass of milk. Supper, 6 p. m., bread, 24 hours old, toast or zwieback and milk, or cereal and milk, or junket and breadstuffs, baked apple, or apple sauce, or prune pulp. All cereals must be cooked at least two hours.

LABOR MEN'S PROTEST.

A strong protest against the employment of Chinese labor in Canada was registered at a meeting of the Trades and Labor Council last evening. The resolution will be forwarded to the deputy minister of labor in Ottawa. Speaking to The Telegraph last evening, J. L. Sugrue stated that, according to the statement in a morning paper a few days ago, thirty-seven Chinese had been engaged to fill the positions made vacant by the same number of lumbermen, who had enlisted in the dominion forces. The Chinese were employed at Bathurst and presumably had been brought from British Columbia. At the meeting a committee was appointed to enquire into the Labor Day situation, and, if possible, a Labor Day parade will be arranged in St. John. J. L. Sugrue is chairman of this committee.

A partial strike of New York taxi-cab drivers was welcomed by the owners, who claim they lose money every day they operate.

HINDENBURG, THE IDOLIZED BEAST.

(Syracuse Post-Standard).

The Countess Laura Tarnopolowicz was the most effective speaker of War Chest week, for she brought her own personal testimony of the havoc of war. She has lived through the horrors of German warfare in a country which has suffered German brutality and atrocity without the relief which America has been able to extend to Belgium. She has lived in a war area in which the most ruthless and heartless of all German commanders made the reputation for inhumanity which commended him for promotion to the head of all the German armies. The countess was compelled, as part of her Calvary, to set as an example to General Hindenburg, to see him lock men and women in a church for two weeks without food or water, to hear him tell distracted fathers that they could not have their own daughters back, as they "belonged to the soldiers."

Thus she describes Hindenburg: "You have seen his pictures. That's just the way he looks, only more so. He is purple and red. I don't think it is apoplexy. It is temper and alcohol. He is the cruelest creature that ever drew breath."

This beast is the idol of Germany, his ugly statue adorning the public squares of her cities, his power throughout the empire second only to that of the emperor himself. What hope is there for the world with the Hindenburg monster in command of Germany's armies—and her soul!

WAR TIME COOK BOOKS.

The war has been made the excuse for all kinds of books and booklets, some of them very good and some indifferent. There have been informative pamphlets that did not inform and educative books that did not educate until we are perhaps a little apathetic when we hear that others have been added to the hundreds we already have.

But the Food Board has endeavored to give the women of Canada something new, eminently practical and distinctive in the shape of four cook books, which will help them to solve many of their war-time problems. No matter how clever a woman may be in her own kitchen she can usually learn something from an expert and the leading strings given her in these booklets range strictly "within the law" so that in following them, she may rest assured that she is conducting her home on food control principles.

In each case a fore-word by Henry B. Thomson, chairman of the Canada Food Board, contains practical advice and appreciation of the service women have already rendered. Charts, cartoons and indices give "punch" to the booklets and make them simple to follow. They do not contain one recipe that cannot be carried out by the least experienced housekeeper and they are all economical and intended to spell conservation of the food-stuffs needed overseas.

The all-important subject of bread-making is treated in one book and the use of substitutes is clearly explained. In another, fish, the best substitute we have for meat, is dealt with, and we are given bowing acquaintance with the lesser known varieties that are just as delicious as higher-priced fish if properly cooked.

With the fruit season at hand the canning, drying and storing of fruit and vegetables is a timely subject for another, while the fourth is a compilation of different ways and means of cooking vegetables. The almighty potato, needless to say, is given pre-eminence.

The books have attractive colored covers. After all, there is none of us who turns aside from a pretty picture without looking twice at it. And the women who see the outside of the new booklets will certainly hasten to look between the covers. Once she does that, she is certain to return again and again for plain, practical advice and helpful hints. It is hoped that these books are going to mean a great saving in food-stuffs and that they will teach Canadian women the most advanced principles of conservation.

(Opp. Church St.)

THE CROP SITUATION.

(Toronto Globe).
Notwithstanding the larger acreage
sown to wheat in western Canada this
year, it can hardly be expected that the
total yield will exceed the average of the
last two years. Conditions in the west
have been exceptionally favorable in the
last week or ten days and were most
promising at seed time. But, between
these two periods, high winds, lack of
moisture, and most unusual cold formed
a trinity of adverse circumstances more
than sufficient to offset early and later
advantages.

In Ontario there has also been a marked
improvement in the situation during the
past week. Although Monday's tem-
perature was most unreasonable there
was some good weather before Dominion
Day, and as a consequence grain, and
later hay, which had been almost sta-
tionary for a fortnight, have commenced
to go ahead. Despite this late growth,
hay will undoubtedly be a rather light
crop in this province and straw will be
short, but there is yet reason to expect
fairly good yield in grain and corn,
while roots promise to do extra well.

A really bountiful harvest in Canada
as a whole is too much to count on, but
a fairly liberal one may reasonably be
hoped for.

RECENT DEATHS

Howard H. Carle. After an illness of more than two years duration the death of Howard H. Carle occurred on Friday, July 5 at his residence at South Town, Queens county. He was born in Scotland, Canada and all his life of seventy-eight years, was spent there by all in his family. There are left to mourn his loss his wife and one sister, Mrs. John A. Lister of West St. John to whom Mrs. Carle's interment is extended.

Mrs. George A. Proffit. News of the death of his daughter, Mrs. George A. Proffit at her home in Edmonds (Wash.), was received yesterday by James H. Pidgeon, of Victoria. The family here had had no intimation that Mrs. Proffit had been sick and the announcement of her death, which occurred after a brief illness, came as a great shock. Mrs. Proffit, with her husband who also is a native of St. John, left about eight years ago and settled in the state of Washington, where they since have made their home. Besides her husband and two children, Mrs. Proffit is survived by her mother, one brother, Frank, and one sister, Mrs. A. H. Ward, the latter all of this city.

Miss Bessie May Brown. Frederickton, N. B., July 4.—(Special)—Miss Bessie May Brown, daughter of Mr. and Mrs. George F. Brown, passed away this morning at her home in this city at the age of 19 years. She was a bright and cheerful girl and was an active member of the Y. W. C. A. Her father and mother are well known in this city.

THE PRAIRIE PROVINCES AS EXPORTERS

A remarkable increase during 1917 in the handling of live stock, and of butter, cheese, eggs, cream and poultry over its lines in western Canada is indicated in a statement compiled by the freight department of the Canadian Northern Railway. Any great increase in tonnage in these commodities is of course not to be accomplished without pronounced progress in permanent farming in areas served by the C. N. R. in Manitoba, Saskatchewan and Alberta. It is significant that the prairie provinces are becoming exporters of dairy products where in recent years they were importers on a considerable scale. During 1917 11,868 cars of live stock were handled over the lines of the C. N. R. system, as compared with 7,282 during 1916. This is an increase of 62.9 per cent. Of cattle in 1917 there were handled 5,941 cars as compared with 3,990 in 1916. Of hogs 2,974 cars as compared with 1,768 in 1916. Of sheep 291 cars in 1917 as against 76 in 1916, and mixed stock 3,407 in 1917 with 2,601 in 1916. The percentage of increase in cattle was 50 per cent, sheep 284, hogs 29, and mixed stock 36 per cent.

Cure Through Work Is The Best Method

How the Training of Returned Men is Conducted in Nova Scotia By the Vocational Branch of the Invalided Soldiers' Commission

(Halifax Echo.) Outside of those who have had some dealings with it, there are probably very few people who know what the vocational branch of the Invalided Soldiers' Commission stands for, or that its workings are such as will have a vital effect on the future industrial and economic welfare of the whole Dominion of Canada.

habilitation of Canadian soldiers and sailors, aims to make it possible for every disabled member of their services to take a responsible and respectable position in the community, by teaching him some new industrial proficiency to offset the disability resulting from his service.

In Old Age

Health and comfort in old age depends largely on keeping the liver and kidneys in healthful action. Pains and aches, stiffness of the joints, lumbago and rheumatism tell of poisons left in the blood by sluggishness of the liver and kidneys.

Dr. Williams' Pink Pills for Pale People in high esteem because of the promptness and certainty with which they awaken the action of kidneys, liver and bowels.

LIFT OFF CORNS FREEZONE IS MAGIC

Costs few cents! Sore, touchy corns lift right off with fingers. No pain!

Drop a little Freezone on an aching sore, instantly that corn stops burning, then you lift it right off. It doesn't hurt a bit. Yes, Magic!

Why wait? Your druggist sells a tiny bottle of Freezone for a few cents, sufficient to rid your feet of every hard corn, soft corn, or corn between the toes, and caluses, without soreness or irritation.

THE DANGER OF THIN BLOOD

If Not Corrected in Its Early Stages Consumption May Follow

In no disease is delay or neglect more dangerous than anemia, a poverty of the blood. It is very common in young girls and in persons who are overworked or confined within doors. It makes its approach in so stealthy a manner that it is often well developed before its presence is recognized.

But taken in time there is a specific medicine which increases the number of red blood corpuscles thus enabling the blood to carry the life-giving oxygen to all the tissues of the body. Dr. Williams' Pink Pills have had unbounded success in the treatment of this condition.

CHURCH MUST MOVE FORWARD

Principal Gandler's Ringing Call To Establish Peace by Good Will

(Staff Correspondence of the Toronto Globe.) London, Oct. 10.—When the church is willing to enlist her men and make her sacrifices on a war scale, in that general sense, the church must move forward.

Dr. Gandler's address was a fiery manifesto heralding the great forward movement which all churches are uniting to launch in the present war. "We are face to face with the general conviction that the Church has failed."

Imperial War Museum

(From Women's Section, Office of Director of Public Information.) Plans are already under way for the great Imperial war museum which, in many ways, will resemble both the British and the Victoria and Albert museums.

Nothing could be finer than the tribute which the Imperial government pays to its women by creating a woman's work sub-committee as part of the planning body of this great museum. In the years to come British women will be remembered for the part they have played so heroically to save and let their forget the tremendous odds against which their liberators fought, this great museum will serve as a reminder.

In one way and another every branch of woman's work in this war will be shown. Records and charts will record the growth of women's work in all lines. Just how this work was carried on will be shown by photographs and, in some cases, by models showing the women at their tasks. Specimens of their work will also be included in the exhibits.

REDMOND'S MESSAGE

(From the Brockville Recorder.) The subject of the Redmond message to the London Daily Express and handed to the Recorder and Times by a venerable friend. It speaks the voice now silenced by death. Here it is: "Redmond's death was the news of John Redmond's death was announced, 'He was a delightful man, I remember perhaps twenty years ago he came to me at Lunenburg for a week to shoot pheasants. The other two guests were Poles apart from his political and mine—Lord Bandon, the Baroness of the county, and Sir John Arnott, the proprietor of the Irish Times, who I met on a capital. I had a photograph of him and it being then a new toy, we all fell into the cylinders. I hope I have a voice still, but this was the message he left us—a good legacy today for Irish and English, too."

CONSTIPATED CHILDREN

Childhood constipation can be quickly banished through the use of Baby's Own Tablets. (Toronto Globe.) Upon the evidence gathered by detectives in the employ of the Ontario License Board, Dr. H. H. Moorhouse, 600 Dundas street west, was yesterday convicted of four breaches of the Ontario Temperance Act and fined the maximum in each case. The total fine was \$1,200. Dr. Moorhouse displayed some hesitation in accepting the sentence. His counsel, T. C. Robbette, K. C., asked for time to pay the fine. Magistrate Denison could not give a respite of this character under the act and Dr. Moorhouse went to his bank with a clerk of the police department for a marked check.

Dr. Moorhouse, according to a report compiled from the records of the liquor vendors, Messrs. Giles and Woods, had given 1274 prescriptions each for a quart of whiskey in eleven days. For these prescriptions he charged at least \$1, the evidence showed. Mr. Aycart pressed for convictions in each case and the imposition of maximum penalties. Neither of the liquor vendors was asked by Crown Attorney Corley to give evidence. However, Mr. Giles told The Globe that prior to the period of eleven days Dr. Moorhouse had not sent many prescriptions to him or his colleagues. The prescriptions then came to him at the rate of 100 or more a day until he refused to accept more. They were then filled by Mr. Woods. During the period of eleven days the License Board became aware of conditions and placed its detectives on the case.

Doctor's Office Crowded. Alexander Courian, who has been employed as a spotter for many years, described the case with which he obtained a prescription for \$2. He said that when he went to the doctor's office he found them crowded with people who were desirous of obtaining prescriptions. The applicants for liquor prescriptions became so numerous that Dr. Moorhouse's housekeeper was forced to close the door. The doctor asked him his name, address, and occupation, and gave him a prescription. The whiskey was given for shell shock.

License Inspector Aycart said that Dr. Moorhouse had come to his offices in the Parliament buildings after the prosecution had been launched. Mr. Aycart did not exactly remember the conversation. "Dr. Moorhouse asked what could be done," said Mr. Aycart. "I told him that I thought he was up against it, and there was nothing but a conviction in sight. He said that some of these fellows did not require the liquor, but that a good many others did." He said that he was giving the whiskey orders to shell-shocked soldiers since he heard that the authorities had pronounced favorably upon its use.

"Mr. Aycart, do the liquor vendors have to fill a prescription?" asked Mr. Robbette. "It's my opinion that they are to use their own discretion," replied the license inspector.

122 Prescriptions in One Day. Mr. Aycart's records showed that on June 1 Dr. Moorhouse had given 122

The Most Artistic Roof is the one that completely harmonizes with the design and finishing of the house. For this reason there is a steadily increasing demand for Brantford Asphalt Slates for the modern style of homes. Brantford Asphalt Slates have a surface of crushed slate embedded into our asphalt coating, the base of the roofing being felt saturated with asphalt. They are cut the size of shingles, and their beautiful soft colors of reddish brown and dark green give a roof a most artistic appearance. The colors are the natural shades of the slate as it comes out of the quarries. Brantford Asphalt Slates are, therefore, unfadeable—never require painting.

Brantford Asphalt Slates are accurate in size and pliable, which makes them very easily handled and quickly laid, saving time and labor, and therefore costing less to lay. prescriptions for liquor. This was a most unusual practice. Dr. Arthur James Denison, giving evidence as to the extent of a doctor's practice, said that one physician was known many years ago to have treated sixty-one patients in a day. This constituted something of a record. He questioned any physician's ability to treat 122 people in his office in one day. "The doctor did it with the best of intentions. You know, your Worship, these are times when men seek stimulants. They are now taking to drugs. One of his sons is a Colonel and another a Major," said Mr. Robbette, in pleading for leniency. Dr. Moorhouse, he pointed out, was over seventy years of age, and had always borne an excellent reputation. He asked for a conviction in the case, expecting that the other cases would be withdrawn. Mr. Corley was obdurate. He said that the License Board wanted a fine commensurate with the gains of Dr. Moorhouse.

In Compiling Record. For several days past the board had had a number of officials compiling a detailed report upon the number of prescriptions issued by Toronto doctors and filed through licensed vendors. The Medical Council asked for a record of the last three months. However, the business has been so great that while the board has had a number of officials employed they have only been able to prepare the report for nine days back. Issue Many Prescriptions. The records show that a minority of Toronto doctors have been supplying prescriptions at a rate that indicates at least carelessness by the doctors of their responsibilities, if not defiance of the statutes. A few doctors have issued no prescriptions at all, and the majority have issued few orders for liquor. Several doctors have already appeared before the board and been warned, as sometimes a doctor will issue a prescription to a friend, without realizing that he is committing a wrong. The Board will not wait for the Medical Council to take action in disciplining its members who have erred. Where the facts warrant it, the board will prosecute. An attempt is being made in U. S. shipyards to make July 4 a world record day in ship launching.

FOUR BROTHERS KILLED IN WAR; FOUR MORE ARE IN THE FIGHTING

Remarkable Record in Which St. John Has Close Interest

EIGHT STARS ON SERVICE PIN

Brothers of Mrs. George C. Clark Whose Father Was Real Estate Man and Auctioneer Here—Mrs. Webster, a Daughter, Has Also Done Great War Work

The following from a Chicago paper tells the story of a woman who is the wife of a former St. John man, and who has lost four brothers in the war and has four more fighting in France. Her husband is George C. Clark, son of George H. Clark, formerly in the real estate and auction business in St. John. The latter moved to Chicago after the late A. D. Wilson, of Princess street, died about two years ago, within three months of each other.

Their daughter, Minnie, is the wife of Frederick R. Webster, of Evanston, Chicago, a noted portrait painter. Mrs. Webster's husband is a Chicago artist, and with doing more than any other single individual to organize knitting classes in the big mercantile houses, for the benefit of the Red Cross, Chicago being the first city in the United States to go systematically after employed women for this service. She first organized Evanston and then carried the campaign into the city with wonderful success. The Herald devotes nearly two columns to an account of her work and what it accomplished.

But the story of particular interest is that of Mrs. George Clifford Clark and her eight soldier brothers. Of them the Chicago News says—
Mrs. George Clifford Clark, 1115 Stephen street, Evanston, has the honor of wearing what is perhaps the most remarkable "service pin" in America. It wears eight stars—four gold and four red.
Four brothers, Alfred Pin, forty-nine; Stephen, forty-seven; Charles, thirty-nine, and Sydney, thirty-five, fighting under the English flag, have been killed in France.
Percival, forty-two; Albert, thirty-seven; Septimus, thirty-three, and Vivian, thirty-one, are still fighting in France.

In All Big Battles.
"Of all my splendid brothers," Mrs. Clark said last night, "I am proudest of Septimus. During the first twenty months of the war he fought in the trenches. He was in all the big battles—the Marne, Mons, and Neuve Chapelle. The heel of his boot was shot off while he was sniping. A bullet embedded itself in his puttee, but his leg iron stopped it. He escaped without a scratch."
In the battle of the Somme with Septimus. In that battle Charles was the field and brought him in. In a letter to me, he said:
"I found Charles lying badly wounded, looking up at the sky. He was conscious, and when I leaned over him he said, 'I knew you'd come back, mate.' As I carried him off the field I hit a German. I'm on furlough now, but shall return to finish my vengeance on the most despicable race of people I have ever been my lot to meet."
"Five of my brothers were in the army reserve when England declared war. The other three straightaway enlisted. Stephen enlisted in Canada, May, 1916. He was sent overseas to England in that year. In May, 1917, he went into the trenches in France. He was wounded July 8, 1917, and died the next day.
One Follows the Other.
"Albert, my fifth brother, was the first one to leave our home and mother. Very soon we had news of his enlistment in the English army, which meant that he had agreed to spend seven years in active service and to be on reserve."
Not long after this Charles and Sydney visited Albert at Aldershot camp. The following day they wired my mother that they, too, had enlisted. Six months later, Septimus and Vivian went to see their brothers. They enlisted before returning home. All these brothers saw active service in India.

"My mother, Mrs. Charlotte Louise Finn, now seventy years old, is living at our old home in London. She is alone. My father died in 1912. My brother Charles, unmarried, always lived at home and was everything to my mother until he was called to war in August, 1914. He fought at Mons, was wounded Oct. 21, 1914, and died of his wounds the next day. My mother writes:
"I have just heard of the loss of our dear boy, Charlie. I can scarcely write about it. I cannot realize that I shall never hear his loving voice or clasp his dear hand again. He died a noble death, and I feel proud to think I am the mother of sons who are fighting for their country's cause and the honor of all that is dear to them. I am resigned and can now say 'The Lord gives, and the Lord taketh away. Blessed be His name.'"
IS IN ENGLAND.
Friends of Gunner Douglas W. Allan will be pleased to learn of a cable received by his grandfather, Robert Allan, announcing his safe arrival in England.
