DEPUTY SHERIFF KILLED BY STRIKING MINERS

Shot and Beaten to Death—One Arrest Made—Women Also Taking a Hand—A Non-union Parade

(Canadian Press) Calumet, Mich., Oct. 8—James Pollack, a deputy sheriff, was killed this morning by copper mine strikers at the Isle Royal mine near Houghton. He was shot in the back of the head, and attacked with clubs by a party of ten men and died an hour later. Pollack was found by other deputies lying beside a road. His head had been so badly pounded that his brains were exposed.

DUBLIN ON VERGE OF STARVATION

Hundred Thousand in Serious Plight CITY FACES RUIN

Strike Rations and Relief Supplies Only Bar to Absolute Desstitution—Encouraged by Contribution

(Canadian Press) New York, Oct. 8—A cable to the Tribune from London this morning, says: Dublin is being ruined by the continuance of the transport war, which is now in its fifth week. The plight of the poorer section of the population, is dreadful, one hundred thousand men, women and children, or one third of the city's whole population, being on the verge of starvation. Rain fell heavily in the city yesterday, intensifying the misery of the strikers, and their wives and children, huddling together for warmth. A crowd of girls and boys lined up at the Liberty Hall headquarters of the Irish Transport Union, to receive a dole of soup and bread and then sit down on the nearest doorsteps to nourish their wasted bodies.

The food which has come in the relief ships, is the only thing which has kept many families from actual death by starvation, and any cessation of these supplies would be followed by indescribable misery. As it is, strangers are dogged by child beggars, who implore the price of a meal, without hesitation and without relaxation. Other children, more fortunate than these, are to be seen staggering home through the driving rain, with sacks of potatoes and groceries from the food ship stores.

The decision of the Miners' Federation to contribute \$3,000 a week is hailed with path etic joy by the strikers, whose confidence that, with English support, they will overcome their employers has never been seriously shaken.

MINERS PLEDGE SUPPORT FOR LABOR PAPER

A Shilling a Year Will Yield \$450,000—Other Organizations Slow to Respond

(Canadian Press) London, Oct. 8—It was announced at the annual conference yesterday of the miners' federation at Scarborough, that a poll of the members resulted in the decision that each should contribute one shilling a year, for three years, to finance the labor newspaper, the Daily Citizen. It is estimated that the total will be \$450,000.

The Daily Citizen, the organ of the labor party, was started with a capital of £70,000, of which £20,000 had been spent before the paper appeared and it was expected that a total of £150,000 would have been received.

The labor organizations have not come along with much support since. It is not many weeks since a resolution was passed by delegates in the name of 1,600,000 workers pledging themselves to secure from their members an amount equal to one shilling a member, every year for three years, to secure the permanent success of the paper. The miners, however, may carry out their pledge.

SAY COMPANIES WILL NOT YIELD TO LONGSHOREMEN

(Special To Times) Montreal, Oct. 8—It is reported here that the matter of the longshoremen's wages at St. John does not look so easy of adjustment as was supposed and that the companies do not propose to meet the men's demands.

TRIED TO WRECK I. C. R. TRAIN ON THE NORTH SHORE

Attempt Made at Same Place Where Previous Trial Was Successful—Throwing Missiles at Trains

(Special To Times) Moncton, Oct. 8—Train wreckers are again busy on the I. C. R. line here on the north shore. About 2440 this morning a freight special, south bound had a narrow escape from serious accident between Derby Junction and Newcastle, when it struck a tie which had been wedged across the rails on a sharp curve about a mile east of the Northwest Miramichi bridge. The locomotive passed safely over the obstruction, but the running gear of one of the cars was badly damaged. This is at the exact spot where a northbound maritime express was recently derailed by a sleeper placed on the track.

BISHOPS MEET IN NEW YORK

Triennial Convention of Episcopal Church WILL SIT TWO WEEKS

113 Bishops, Only Two Missing and 600 Lay Delegates—Change in Church Name and Divorce Problems to be Considered

(Canadian Press) New York, Oct. 8—One hundred and thirteen bishops and more than 600 clerical and lay delegates, gathered in the great unfinished cathedral of St. John the Divine today for the opening session of the triennial general convention of the Protestant Episcopal church. It will not come to a close until Friday, October 24.

Today's forenoon session was set aside for the opening procession, the sermon by the right Rev. William Lawrence, Bishop of Massachusetts and a musical programme. This afternoon, both the House of Bishops and the House of Deputies, hold business sessions. At both meetings matters of vital importance to the church, were to be discussed.

Of the 115 members of the House of Bishops, two only were missing. They were Bishop Garrett of Dallas, Texas, whose advanced age prevented his coming, and Bishop Hall of Vermont, who is ill. The right Rev. David H. Greer of the diocese of New York, presided, but in the great procession which marked the opening of the services, Bishop Tulle of Missouri, by right of seniority, was in the place of honor, at the end of the line.

Thousands of laymen have made application for seats in the Cathedral, but many were disappointed. The structure seats only 2,500, while requests for more than 5,000 seats were made. A military rain clung about the Cathedral today, adding to the solemnity of the services.

Analysis of Yesterday's Game For Our Readers

ST LINE ALL NIGHT TO MAKE SURE OF TICKETS

Baseball Fans at Philadelphia Spent Long Hours in Varying Degrees of Discomfort—Arrangements for Today's Game

(Canadian Press) Philadelphia, Oct. 8—The battle for supremacy in the baseball world, between the champions of the National and American leagues, which opened auspiciously for the Philadelphia Athletics yesterday, on the Polo grounds in New York, was shifted today to Shibe Park, in this city. The New York Giants, National League winners, under the leadership of John McGraw, are thirty for revenge for their defeat, while the American League pennant winners are determined to repeat their success on the home grounds and make it two straight.

Despite a drizzling rain which began before midnight and continued until early today, more than a thousand fans camped outside Shibe Park, many of them since four o'clock yesterday afternoon in order to get choice bleacher seats for the second contest. If the predictions of the weather men hold out, these devoted followers of the national pastime, may have their long vigil in vain.

In Line All Night Peanut, sandwich and sausage vendors did a thriving business along the line. Many of the men and boys, however, brought their own lunches and some of the car arrivals came with food enough for four meals. Soap boxes, boards, camp stools and improvised seats of all descriptions were pushed against the park wall, so that many of the waiters were quite comfortable. One of them had provided himself with a sofa and blankets, and secured a seven-hour sleep during the night. Two enterprising youngsters had rigged up a long board resting upon two soap boxes and sold seats at 25 cents each.

Ticket speculators were much in evidence on the street today, and at the hotels, and a number of the coupons were sold at many times their face value. One \$2 seat for the three days sold for \$40. Most fans generally refused to sell the seats separately. Police arrangements include a special detail of men to guard the Giants' leader and all his players while in this city. The plans of the police for the game are the most elaborate that have ever been made by the local authorities in connection with baseball. Five hundred blue-coats and more than fifty plain clothes men, have been assigned to duty at the park, while many detectives will be distributed throughout the crowd in the stands, to protect the spectators from pickpockets. It is said that absolute orders have been issued to suppress open betting on the contest, within the confines of the park.

CHALLENGE TO GIRL KILLED BY AEROPLANE

Liberal and Conservative Members of Parliament Agree to Resign and Contest Their Seats

(Canadian Press) St. Chrysostome, Que. Oct. 8—Two important by-elections may result from the present contest in Chateauguay county, Tuesday afternoon if the parish of St. Antoine, D. A. Lafontaine, Liberal M. P. for Montcalm, hung a challenge to Albert Sevigny, Nationalist M. P. for Dorchester, to resign his seat and contest Montcalm on general party principles. Mr. Sevigny jumped to his feet and accepted the challenge unconditionally, and deposited one hundred dollars as a pledge of his faith, while Mr. Lafontaine pledged a similar sum.

The member for Montcalm has been famous in past contests for the readiness with which he has thrown down the gauntlet in this manner. In this case the conditions are favorable to him, as he did not offer to enter Dorchester, but invited the member for that constituency to contest his county. After Mr. Sevigny had accepted the terms, a memorandum of agreement was drawn up, and read in the presence of the candidates and the audience.

ON TRIAL FOR ASSAULTING HIS WIFE, NOW DEAD

(Special To Times) Gagetown, N. B., Oct. 8—The trial of Elijah Starkey for alleged assault of his wife, since deceased, was begun here this morning in the circuit court before Judge Barry, and is to be continued this afternoon.

J. R. Dunn is conducting the case for the crown, while George W. Fowler appears for the defense. Only two witnesses were called this morning—Dr. Hetherington and Harry Starkey, a son of the deceased. Their evidence was much the same as that given previously before the local magistrate. Much interest is being taken in the case and the court room was well filled.

THE MOUNT TEMPLE

Montreal, Oct. 8—The Mount Temple will be fully repaired by Thursday and will be released from the dry dock on Friday. She will then return to her berth and commence loading with a cargo for London. The injuries sustained by the Mount Temple included plates forward, which had been badly dented and pierced, while amidships, the water flowed in a continual stream through the damaged plates beneath her No. 8 tank.

COLLINS THE STAR

Baker Next—The Giants' Chances For Today's Contest—The Rivals Compared

(Special To Times by Joe Page) New York, Oct. 8—Under a leaden sky but before an audience of forty thousand spectators the New York Giants met their first defeat and the Philadelphia Athletics their first victory by a score of 6 to 4.

Both teams came on to the field shortly before one o'clock and after a short batting practice by the both teams the Mackmen took their positions for practice and, aside from catcher Sebaug and Melanos were plainly on the previous side, the rest of the players put up a fast snappy practice. Especially was this true of Baker, Barry and Collins. The two latter pulled off leading stunts that showed that they, at least, had the goods that would be needed to win the opening contest.

When the Giants took the field for their practice one could see with the eye that they were fully there with the nerve required for a grueling fight. Herzog, Fletcher and Doyle played equally as fast and cleverly as their opponents, while the outfielders of both teams took care of everything, and showed as little concern as though in ordinary league combat.

Just before Umpire Klein called for the start of the game Jack Daiber, received an automobile and Manager John J. McGraw a beautiful bunch of roses contained in a solid silver vase presented by the acting mayor, Kline, of New York. At the conclusion of the pre-entertainment speech, Umpire Klein called for the game to start, with assistant Umpire Rigger on the bases, Evans and Connelly in left and right field, respectively.

It was generally held that McGraw was on the pitching slab for the Giants. Murphy was the first man up for the Athletics and the game was on.

While it cannot be given to McGraw, the lion's share of the credit, might undoubtedly go to Herzog, Umpire premier second sacker of the Mackmen, by reason of his having been able not only to score three of the six runs scored by his team, but also because he was able, at the right time, to get the ball started the Athletics on the jump after the Giants, who had scored the first run on two hits and a sacrifice by slushing out a clean triple in the fourth inning.

Getting a base on balls in the fifth, making a successful steal of second, the only one of the game, again in the eighth, and a grand slam home run, the ball towards first and beating it out with ease—these are the offensive feats that give him first share in the Athletics' victory.

But to see him on the defensive! Even those who have watched his work for years say he eclipsed all his previous efforts in fielding. With every first and third in the seventh and one down, Fletcher hit to Doyle and it was only with the wonderful activity that only a Collins can show that he turned the chance for a Giant victory into certain defeat by making the pivot of a seemingly impossible double play taking the ball from Barry.

Baker qualified for a share of the laurels by his timely hitting in the fourth when he hit a grand slam home run, with Schang's superb catching and Bender's coolness were the whole works and side show for Connie Mack in yesterday's game.

A Clean, Strong Fight On the other hand the Giants have no great cause to worry. They put up a clean strong fight. Fletcher not only batted strongly, but his fielding was even superior to Barry's, and he showed to better advantage Doyle at second, while he did not shine in this game, owing to the exceptionally brilliant work of Collins, took care of everything, and batted hard and timely.

To Marquard's inability to stop the Athletics' stick work can be attributed the defeat of the Giants in the first game. The game was already lost when Crandall was called in as reliever and in the fifth and had a chance of finally winning out. When Crandall showed distress signals by getting touched up for three hits in the eighth, Pesera was called on but, while able to hold the Athletics tight, the Giants were unable to overcome the two run lead.

Today's Prospects One thing can be taken from the first game, Bender, the mainstay in the box for Mack, was hit very heavily by the Giants and it need surprise no one to see the New York club win around in the second game and reverse the order of things. Both teams from this contest show they are mighty dangerous stick wielders against the best of the pitchers, and with the break in luck coming any one way the team lucky enough to have it will more than likely be returned the winner. McGraw has still Matthewson and Damare against Plank for Philadelphia, which, a great many think, will give the Giants the edge in today's game at Philadelphia.

Divorced Women Are Being Received in Select Circles

THE CHANCELLOR'S WIFE

Mrs. Lloyd George Gives a Public Demonstration of Her Sensible Democratic Ideas - Canadian Premiers in the Old Country

(Times' Special Correspondence)

London, Sept. 27.—Although the king and queen taboo as much as ever the divorced woman, she is feeling her way back to society. A notable example of this is furnished in the case of Lady Hamilton of Dalzell, who has quite re-established herself.

Some years ago she had a most appalling motor accident with Major Laycock himself, the finest amateur driver in society at the wheel. She lost a leg and the shock and subsequent illness left her a wreck for years.

Marriage and Money. A few young recently married prospective peacemakers are talking about separations. One of these confided to me that she had to sell her dresses to wardrobe dealers instead of giving them as perquisites to her maid.

"Madame," replied the assistant, "we keep nothing old-fashioned. Our coats are quite narrow and 'grip' at the knees. Ladies don't ask for the kind of garment you describe."

"Perhaps 'ladies' don't," replied Mrs. Lloyd George. "I am just a woman and I like comfort. I can't wear freak clothes. The Chancellor of the Exchequer would not like me to."

"I may yet open a school to teach women good sense and show them the real value of money and its uses," Mrs. Lloyd George has declared.

Premiers from Canada. The Hon. Walter Scott, premier of Saskatchewan, has arrived in London from Germany and will sail for Canada via New York on Sunday.

While in Germany Mr. Scott has been carefully studying the traveling library system arranged by the government by means of which the German farmers acquaint themselves with modern thought in all branches of activity and research.

One of the reasons why the German of today is so well informed, as so many Canadians have remarked is because of his wise selection of reading matter. Fiction does not dominate the libraries as it does in Great Britain.

The premier of British Columbia has fled from London and is on the continent—address unknown here. Mr. McBride came to London to transact some business and presumably also to enjoy a holiday.

BRITAIN'S POSTMASTER. ADDRESSES MEETING OF JEWISH WORKING GIRLS. Toronto, Oct. 8.—Yesterday afternoon the Right Hon. Herbert Samuel, postmaster-general of England, visited the new premises of the Jewish Working Girls' club at 254 McCaul street, where a large gathering of prominent Hebrews of Toronto greeted him.

Mrs. Maurice Frankel, president of the Council of Jewish Women, under whose auspices the work of the club is conducted, was in the chair, and in a few well chosen words welcomed the illustrious visitor.

In introducing Mr. Samuel, Rabbi Jacobs said that the guest, by his presence, proved that he was faithful to the traditions of his family, which for many years has identified itself with all philanthropic work in the Jewish communities of England.

Mr. Samuel said that he was glad to have accepted the invitation of the Rabbi and to see the work that was carried on in this city. Indeed, for many years he and his wife and Lily Montague have conducted clubs of a similar nature in England with good results. He maintained that institutions of that description were a necessity, and expressed the wish that all present would continue their interest in such a great movement.

HAD A CLOSE CALL. Capt. Luther Trotter and young assistant of the fishing schooner Hullocon arrived at Eastport Sunday afternoon after a thrilling experience and narrow escape from being drowned in the Bay of Fundy last Friday night.

When two miles off Red Head, Point Lepreaux, N. B., during thick fog and a heavy gale, with all sails set and the two gasoline engines of 18 horse power each, running, her propeller shaft pulled out and water rushed into the two and one-half inch hole so fast that they could not keep her afloat.

They had only time to jump into the dory, saving only a compass, and after rowing about in the fog for a few hours reached Point Lepreaux light house in an exhausted condition.

The schooner, owned by Lewis D. Clark & Son, canners of sardines in Eastport, sank stern first and cannot be recovered. She was valued at \$8,000 and partly insured.

Daily Hints For the Cook

Four cups flour, 1 1/2 cups of butter, 8 eggs, 1 cup sour cream, a teaspoonful of salt, a little nutmeg, ginger, salt and a teaspoonful of rose water.

Hamburg Cakes. One egg, salt, pepper and little onion grated, mix together, make in cakes. Fry out salt pork scraps, add a little butter to the grease, then fry your cakes in this fat until done through and brown. Remove cakes from the pan to a platter, add some water to the fat, so it will not be too rich, thicken and pour gravy over and around cakes on the platter. Flour cakes before frying.

One-Egg Cake with Apple Frosting. Sift one and a quarter cups pastry flour, one cup sugar and a heaping teaspoonful of baking powder into a mixing bowl. To quarter cup melted butter add one egg, not beaten, fill cup with sweet milk. Make hole in center of flour and pour this in. Beat all with egg beater until light and creamy, add teaspoon of extract. If put in a shallow tin it requires about three-quarters of an hour in moderate oven to cook.

Apple Frosting—White of one egg, beaten stiff. Add one cup sugar and one large or two smaller tart apples, pared and grated. Beat all together until firm. This is enough for the two-piece layer cake in the middle and on top.

As far as can be learned the terms of contract say that in consideration certain sum, which could not be ascertained, Moncton releases their last hockey team to one of the Torontonians and the Halifax Crescents. It is understood that Moncton does not decide to re-sign this year and go into the H. A. Further than this, the terms of the agreement state that in Moncton wants any of the men year, they can secure their release that team and will have first opportunity. This likely means that W. The Hand That Moves The Lever Saves 162-3 Per Cent. of Your Coal Bill

Here is the opportunity for the housewife to deal the high cost of living question a hard jolt without any effort on her part.

The way is to make sure that her new range is controlled by a Gurney Economizer, which will save 1 ton of coal in every 6 burned in an ordinary range.

The Economizer is to the stove what the control lever is to the engine or automobile. Without control neither is efficient.

With the Gurney Economizer it is possible to quickly vary the heat of the oven. Various foods require different temperatures. The Economizer keeps this desired temperature absolutely uniform.

It also means that when cooking is over, you may have a cool kitchen and still have your fire going—while you can have the fiercest heat in a few minutes by a slight pressure on the lever.

If you possess a Gurney-Oxford your advantages are innumerable. The Divided Flue means heat for every hole on the stove. The New Special Grate guards the lowest fire. The Lrolier exposes every inch of the coals.

These features are exclusively "Gurney-Oxford."

It will furnish your kitchen handsomely—it will do your work adequately.

The new Women's Apartment, at the city police station, has been completed and all the necessary furnishings provided. There is an iron bedstead, oak dresser, rocking chair, and a large amount of towels and other linen, all of which is neatly embroidered with the words "Police Station."

The furniture was put in by the city council, but the linen and a number of other useful articles were provided by Mrs. (Dr.) M. F. Keith, president of the City Sunshine Guild.

Altogether the room has now a most attractive appearance and reflects much credit upon all those who were in any way concerned with the work of fitting it out.

TODAY AT OTTAWA

The delegation which left last night for Ottawa to demand justice for the port of St. John is a thoroughly representative one, and one which will have no difficulty in convincing Mr. Borden and Mr. Hazen that St. John is a unit in pressing its claim.

ers that Mr. Pidgeon and Senators Thorne and Daniel are trying to create prejudice against the government? There is an interesting condition of affairs in China this week. Why does not the Standard devote its attention to the affairs of the Orient, until its readers have had a little time to forget its colossal folly in this matter of the rights of St. John?

THE LIBERAL LEADER

In the great speech which he delivered to cheering thousands at St. John's, Quebec, on Saturday, Sir Wilfrid Laurier expressed the hope that he would yet be able to lead the way to victory, and re-establish Liberal principles in the government of Canada. These principles, says the Montreal Telegraph in its report of Sir Wilfrid's speech, were to give equal attention to the needs of every section of the community, to improve the condition of the laboring classes and of the agricultural section of the community, to help the mother of a family as much as the father, and to see that the children who were to become the Canadians of to-morrow were brought up in a way that would make them the best citizens.

HALIFAX AND ST. JOHN

In Halifax the people are rejoicing that the Intercolonial Railway is likely to have more traffic than it may be able to handle during the coming winter, in the great cargoes of the big C. P. R. and Allan steamships. The Halifax Herald expresses the hope that the C. P. R. has secured running rights over the I. C. R. It finds a special cause for rejoicing in the statement that "now for the first time in the history of the Dominion is there an intelligent system of transportation and trans-Atlantic service, utilizing our two Atlantic ports in the way and for the purpose for which they were originally and geographically best fitted, and giving to the whole country the benefits of such wise and business-like management."

Thus Halifax the town-organ in Halifax puts its feet upon the aspirations of St. John, and relates this port to the position of a mere freight port, that should never have the hardihood to assert any claims to a mail service. There can be no doubt at all that the Canadian Pacific Railway Company would like to see the rights to suit itself over the Intercolonial Railway, and it would like better to have the government railway handed over altogether. There would be fine pickings in the Maritime provinces for the big corporation, if it could get control of the Intercolonial Railway and make the rates to suit itself. Apparently there are some people in Halifax who would even welcome C. P. R. ownership, however much the interests of the country at large might be sacrificed, if only more freight were hauled to Halifax.

That which St. John has most to fear, however, at the present time, is a co-operation between the government railway and the Canadian Pacific by which the former will be made to serve the interests of the port of Halifax at the sacrifice of the unquestionable rights of the port of St. John.

GENTLY, BROTHER

The Times last evening made the following statement: "The battle is now on. Mr. Borden has done an injustice to the port of St. John, and unless the wrong is righted he will have brought about his head such a storm as will not easily be quelled." The Standard, upon reading this, politely observes that the Times is a liar, and that its sole aim in this whole matter is to create prejudice against the government. With some trepidation in the presence of so truculent an adversary the Times begs permission to quote some remarks made at the mass meeting on Monday night by Mr. D. F. Pidgeon, who is a very pronounced Conservative. Mr. Pidgeon said:—"Let us pass the resolution now and see that Mr. Hazen puts his shoulder to the wheel in this most important battle for the city. I believe he will show Hon. R. L. Borden, who, I believe, was responsible for this injustice to St. John, that the 'will not stand for it.'"

Consider also the following from Senator Thorne:—"Why have the C. P. R. suddenly decided to send all their mail steamers to Halifax without even calling at St. John, to the detriment of this port? They showed their preference for this port and the change must have been due to some outside influence or some unwarranted concessions which amount to a serious discrimination against St. John and against which we are bound to protest. What right has anyone to allow this discrimination against St. John when the C. P. R. had fully decided to make their mail sailings from this city and thus test the merits of the rival ports?" Likewise Senator Daniel said:—"But we learn tonight that the I. C. R. is to carry C. P. R. freight and passengers at special rates, or for nothing for all we know, and we have a right to protest against such an arrangement. It is a real grievance and I feel that we have a right to go to the government and ask that the concessions to the C. P. R. be repealed, and in making this claim we will stand on solid ground."

Who but Mr. Borden would grant the 'concessions'? Not Mr. Hazen, surely. And will the Standard tell its readers that Mr. Pidgeon and Senators Thorne and Daniel are trying to create prejudice against the government? There is an interesting condition of affairs in China this week. Why does not the Standard devote its attention to the affairs of the Orient, until its readers have had a little time to forget its colossal folly in this matter of the rights of St. John?

His Method

Friend—Now, confidentially, how do you figure what to charge for a prescription?
Druggist—Well, our system is perfectly fair to everybody. The clerk makes up the prescription he goes to the back of the store and shakes up a lot of cards in a hat. The cards are marked with prices ranging from 25 cents to \$1.50 and whichever card he draws settles the price of the prescription.—Puck.

MAKE ST. LOUIS THE FUR CENTRE

Government Catch to Be Sold There

FORMERLY IN LONDON

The History of the Seal and The Seal Business—How the Price of the Seal Skin Has Gone Up

St. Louis, Oct. 8.—The United States government through Secretary of Commerce Redfield, has just made a decision that will make St. Louis the fur centre of the world.

That is to change the sale of all the government catch of seal skins, foxes and other Alaska furs, from London to St. Louis.

This is the first time in history that the American seal catch has been marketed through American channels, and the action of Secretary William C. Redfield is regarded by the commercial organizations and bureaus of commerce with great favor, particularly as being significant of the activity of the Wilson administration in paying close attention to all manufacturing and trade interests.

The United States thus will dispose of several thousand raw seal skins constituting the 1913 catch. And under the protecting laws favoring the increase of seals, the sale will increase many fold in the coming few years.

The next step will be the removal from London to St. Louis of seal skin tanners and dyers, establishing in America a great new manufacturing industry.

Thus will a trade of great proportions be fostered. But more than this it will mean the elimination of the present heavy duty now paid on dressed and dyed skins prepared in Europe; while the skins will be dressed and dyed in America just as well, if not better, according to the statement of the best European dyers themselves.

The economy thus effected by this home industry and by the absence of the former heavy duty will eventually mean a saving of several hundred dollars a garment to milady in the purchase of the aristocrat of all furs.

The government furs, by the decision of Secretary of Commerce Redfield, will be sold at public auction by Funsten Bros. & Co., of St. Louis, who are eminently qualified for the responsibility.

The first sale is scheduled for some time in December, at which time the representatives of the great furriers of America and Europe will assemble at the Funsten Fur Exchange where this wonderful collection of seal skins will be sold to the highest bidder. Philip B. Fouke and A. M. Ahern of Funsten's will conduct the sale for the St. Louis firm.

Some Seal History

The history of the seal is one of the most absorbing and romantic of all the great American industries. While the U. S. government has produced wonderfully interesting books on the subject, and which can be had free of charge, the whole country will be interested in a few facts bearing on the seal history of North America, especially in the light of the recent action of the department of commerce which stamps St. Louis as the fur center of the world.

The price paid for the seal skin of the Alaska was \$7,000,000. The revenue from the seal islands alone—rough, barren, forbidding spots that comprise but an infinitesimal area of

WHAT IS HOME WITHOUT AN APPETITE?

Many a Miserable Dyspeptic Can Quickly Enjoy a Good Appetite Using Stuart's Dyspepsia Tablets.

There is nothing so deplorable as a home where at every meal one member of the family sits in silence eating a special diet while others are partaking of the regular food.

Not only does this condition become almost unbearable to the dyspeptic, but it robs anything but a joyous spirit over the rest of the family.

The Child—"Please eat some nice chicken, papa."

The Father—"No, Buster, daddy don't feel like eating."

The presence of dishes before him that a stomach sufferer cannot eat, makes him sick at his stomach and he is actually doing himself an injury when he eats at such a table.

A Stuart's Dyspepsia Tablet taken after each meal will excite appetite and in a short time one will find the sight of food becoming less and less repugnant until after a few meals one will take courage enough to join with the family in the regular fare.

As soon as this is done and there follows no evil effects then by continuing the use of Stuart's Dyspepsia Tablets you will soon be restored to your normal, healthy and vigorous appetite. One of the real pleasures of eating is the joy of smelling and seeing food. These qualities are essential to the normal digestion for they excite the flow of saliva in the mouth, and the gastric juices in the stomach and thus make ready the digestive apparatus for the food when it is eaten.

Stuart's Dyspepsia Tablets contain ingredients that every system needs. Weakened fluids of nature used in digestion are quickly restored to their normal proportion, and in a short time are so evenly balanced that the system can manufacture its own pepsin and hydrochloric acid as it should.

Go to your druggist today and buy a box of Stuart's Dyspepsia Tablets, price, 50 cents.

the Alaska map, has been \$15,000,000—

more than twice the sum paid for the entire territory.

This area comprises the Pribilof Islands discovered in 1771 by the Russian Navigator whose name the islands bear. It is the seat of the most important fur seal colony in the world. Next in importance are the Kuril herds owned by Russia, while the Kuril herd owned by Japan comes third. During the first year of Uncle Sam's possession, the catch was about two hundred to 300,000 seals, but the herd has diminished so considerably that as a result laws have been enacted by which the herds will be conserved and future catches increased.

The Greatest Evil

This great diminution of the herds has been the result of pelagic sealing—the killing of seals in the open sea. Whole fleets would sometimes lay off the seal islands while their crews killed the female seals which swam out to sea seeking food.

At sea the sexes cannot be distinguished, and the females predominating the pelagic catch is made up largely of this class, the percentage being from 85 to 95 per cent of females. The death of a female seal was not the only evil. She was out seeking food for her pup which she had left on shore, so that her death meant also the death of the young one.

The United States, Russia, Japan and Great Britain have made a pact which stipulates that no longer shall the fur seal be killed on the high seas.

King of the Harem

The seal is a polygamist. The larger and stronger males have harems, ranging from twenty to forty in number, according to the fighting strength of the King of the Harem. One bull has been known to have 200 cows in his harem.

Naturally there is a large surplus of useless males whose the object in life is to get a harem of their own, entailing continuous warfare and bloodshed in which often the female is torn to pieces or maimed in the struggle for ownership. To kill off a goodly number of these disturbing bachelors of the herd is therefore necessary—not only for the good of the herd itself but also for the good of the skins, for naturally a mutilated skin or an old one has but very little market value.

Nearly two years ago congress made a law stopping the killing of seals entirely on U. S. Islands, for five years, except seals needed for food by the natives on the islands. While from the usual standpoint of game-preservation this seemed a good thing, zoologists and experts on seal life are not in favor of it. They say that the ruling regarding the preservation of deer or grouse does not apply to the seal. They claim that if the number of male seals is not kept down they will continue to fight and kill each other, and the pups and females of the harem as well—that only a small percentage of male seals is needed to increase the herd. But besides this if the killing is closed for five years thousands of skins will be lost, because a skin older than four years and a half is worthless. Scientific men say that killing rightly governed, with none on the open sea, will mean a quick growth of the herd.

However Congress decided the other way, and closed the season for five years. The skins of the several thousand seals killed under the law as food for natives are not to be sent to London as formerly. Secretary Redfield has ordered that the entire quantity be sold in the United States. After a close study of the fur markets of the world he selected Funsten Bros & Co. of St. Louis to act as agents of the government in their dis-

In 1837 a seal skin fetched from \$2 to \$3; in 1850, \$17 to \$30; while in 1909

the price reached the \$40 mark. The

prices on seal garments, however, have indicated a fictitious value, due to the heavy duty entailed by London shipments, and fur dealers have had to demand an exorbitant figure for an article which is a home product and should, and could have been, bought for much less.

So that naturally this signal recognition by the U. S. Government of the commanding position held by St. Louis in the fur markets of the world cannot fail to have its effect on the fur business in this country as well as in time reduce the price to the consumer. At the present time St. Louis is the largest primary fur market in the world, and it is estimated that three-fourths of all the furs trapped on the North American Continent are shipped to St. Louis houses to be sold.

The books published by the U. S. government on this interesting subject can be obtained free by writing to the Department of Commerce, Bureau of Fisheries, and will afford enjoyable and instructive reading. Dealing as they do with the purchase of Alaska by the United States from Russia, and comprising a veritable natural history of the fur bearing seal as well as setting forth the economics of the sealing industry, these books cannot fail to be a source of real instruction to any good American citizen.

ITCHY BURNING ECZEMA ON FACE

Very Bad Case. Little Blisters Broke and Formed Scabs. Thought Would Be Disfigured for Life. Used Cuticura Soap and Ointment a Month. Completely Cured.

Cold Brook, St. John, N. B.—"Cuticura Soap and Ointment certainly cured my little girl of a very bad case of eczema. She had eczema on her face for almost two years. First little white blisters covered her face, then those would break and form scabs, and they were very itchy and burning. I used to have great trouble in getting her to sleep at night. She scratched so I had to do all I could to prevent her, for sometimes she would scratch the scabs off and then it would be very sore and burning. She was certainly a great care. I treated her for it and also used different kinds of blood medicine, and ointment but got no cure. I thought she would be disfigured for life.

It had lasted about two years when one day I saw an advertisement for Cuticura Soap and Ointment in the paper so decided to give them a trial. I had not used them for more than a month when she was completely cured. I cannot praise Cuticura Soap and Ointment enough. Of course I continue to use Cuticura Soap as I find it the best soap on the market for children." (Signed) Mrs. John Newman, Dec. 30, 1911.

Cuticura Soap and Ointment are sold by druggists and dealers everywhere. For a liberal free sample of each, with 32-p. book, send post card to Postee Drug & Chem. Corp., Dept. 3023, Boston, U. S. A.

WHY THEY ARE GOOD

The Rev. Dr. Morton, who succeeds the late Dr. Evans as manager of the Supernumerary fund of the Methodist church, having been elected to procure a house in Hampton, has wisely concluded to make his headquarters at Sackville. He will reside with his aunt, Mrs. (Dr.) Stewart, and will have start farming, must have at least two thousand dollars to lay out in the way of horses and farming utensils. Here it is altogether different. Several men can buy an expensive piece of machinery together and the cost comes light on each individual. In addition to this is the fact that the best is a better country to live in. When we were in Manitoba, Mr. Acton remarked, we had to drive five miles to a church and three miles to a school.

The other day when a sub-inspector was hearing a class of little Dublin boys repeat Macaulay's "Horatius" he inquired whether three soldiers would be likely nowadays to hold a bridge against a whole army.

"No, Sir," said the class.

"Would three Scotchmen?"

"No, Sir," came the answer.

KAISER'S FAMILY IS SPLIT IN TWO

Ruler of Germany and Son-in-Law Not on Good Terms - Have Not Met in Week

London, Oct. 8.—The Express prints a cable from its Berlin correspondent that says:

"The Kaiser's family has been split in two over the Guelph claims to Hanover. It is announced that on the occasion of the Kaiser's birthday the Kaiser, for the first time in many years, has arranged to be away. He will thus avoid meeting his daughter and Prince Ernest of Cumberland, who have arranged to be at Potsdam for the celebration."

The Mail's Berlin correspondent cables quite as interestingly:

"I learn tonight from court quarters at Potsdam that Prussia is disposed to allow time to exercise its influence on the Hanoverian question, because through the recent disappointment to the Kaiser's daughter the question of succession is less acute than would otherwise have been. My informants are of the opinion that the Kaiser will be inclined not to allow his son-in-law to ascend the throne of Brunswick without guarantees in regard to Hanover, in the hope that within the next year events may shape themselves so it may be easier for the prince to make the renunciation he now feels constrained to withhold."

"Rumors are already in circulation of strained relations between the Kaiser and his son-in-law, based on the assertion that they have not met since the Kaiser's jubilee last June, but it is now announced that the prince, who has been weeks while his wife has been recuperating under the care of the Kaiserin at Potsdam, will arrive at Potsdam at the end of this week. The prince and princess are expected to return to their home at Rathenow on Oct. 17, but will come back to Potsdam Oct. 22 for the birthday of the Kaiserin."

"The federal council now sitting at Berlin will not take up the question of the Duke of Brunswick until all negotiations have been concluded."

McQUARRIE-McQUARRIE

An interesting event took place at four o'clock this afternoon at the residence of the bride's uncle, William Alston, when his niece, Miss Marie, daughter of the late Mr. and Mrs. David McQuarrie, of this city, became the bride of Charles McQuarrie, of Dalhousie. Rev. Gordon Dickie performed the ceremony.

The United States is planning to exhibit at a coming exposition in New York a complete model of the Philadelphia mint, in which all the processes of making money will be seen going on. In the same exhibit will be a model of the Dulekton of Brunswick until all negotiations have been concluded.

After 10 years of service, as a teacher in Schenectady, N. Y., may obtain a year's leave of absence for study or travel abroad, receiving one-third payment of salary.

Almost constant treatment was given to Merkle's ankle during the morning hours. While it looks as if Merkle will not get into today's game, the question will not be decided finally until after the Giants reach the ball field.

Under ordinary circumstances Merkle would not play, but he insisted this morning that he would make the attempt. After he reaches Shibe Park he will practice and then Manager McGraw will decide what to do. In the event that Merkle cannot play, McGraw will have to pick either Crandall, Wilson, Grant or Witte to play first. Catcher Walters is also a possibility.

BRILLIANT NUPTIALS AT FREDERICTON

Wedding of Miss Louise Edgecombe to Robert H. MacCunn This Afternoon

(Special to Times)

Fredericton, N. B., Oct. 8.—One of the most brilliant weddings this city has seen in years took place this afternoon at Ashburton Place, residence of Mr. and Mrs. Fred B. Edgecombe, when their eldest daughter, Louise Edgecombe, became the wife of Robert H. MacCunn, accountant for F. B. Edgecombe Company, formerly of Greenwood, Scotland.

Rev. Neil McLaughlin performed the ceremony in the presence of one hundred and fifty invited guests. The bridesmaids were Miss Muriel Eaton of Princeton, Me., the bride's cousin, and Miss Muriel Massey, of this city.

Charles H. Edgecombe, the bride's brother, was best man. The bride, who was given in marriage by her father, was charmingly costumed in ivory duchess satin with coat effect of rose point lace. Roman pearl trimmings and pearl ornaments. She wore a Juliet cap and veil and carried a shower bouquet of white orchids.

The bridesmaids wore corn colored silk crepe with royal purple velvet trimmings and bridesmaid's caps and veils. The floral decorations were on a magnificent scale and elicited much favorable comment. The bride party stood beneath a miniature arch trimmed with sinlax and backed with palms and ferns. The initials of the bride couple were worked in white orchids.

After the ceremony the bride couple held a reception, after which luncheon was served.

The bride, who is a most popular lovable young lady, was the recipient of a splendid array of wedding gifts. The groom's present was a diamond and platinum dinner ring, and to the bridesmaids he gave gold bar pins with whole pearl settings.

The gift of the bride's father was a furnished house and transportation for a trip to England. The bride's mother presented to her a grand piano. Other gifts included one hundred pounds from the groom's brother in Australia.

Mr. and Mrs. MacCunn will board Superintendent Groulx's private car at five o'clock this afternoon and proceed to Montreal, where they will board the steamer Megantic for the old country.

OPERA HOUSE DATES CONFLICT

But the Thompson & Woods Company Are Kindly Endeavoring to Make Way For Local People

The members of the Royal Kennebec Yacht Club are having some little trouble with their attraction, booked in the Opera House for next Friday week, Miss Eva Mylott, the contralto.

When arrangements were made for this singer's appearance, the Opera House had not decided definitely as to the opening of the stock season. With the advent, however, of the Thompson-Woods forces, the yacht club was notified that it would be impossible to play the date, so they decided giving the concert at the Nickel, but unfortunately delayed securing the date until the Kennebec people had rented the premises for the 17th. The only recourse left them was to endeavor to make arrangements for the Opera House on the original date. Mr. Spencer was in a peculiar position, being between two contracts, but the local manager of the stock company expressed himself desirous of doing everything possible to accommodate the Yacht Club, and at very great inconvenience is trying to arrange so that the date may be available for Miss Mylott, and to this end, has communicated with the New York office, in an effort to make arrangements that will avoid the necessity of cancelling the concert engagement.

It is expected that definite word will be received this evening and an announcement made tomorrow.

OPERA HOUSE DATES CONFLICT

But the Thompson & Woods Company Are Kindly Endeavoring to Make Way For Local People

The members of the Royal Kennebec Yacht Club are having some little trouble with their attraction, booked in the Opera House for next Friday week, Miss Eva Mylott, the contralto.

When arrangements were made for this singer's appearance, the Opera House had not decided definitely as to the opening of the stock season. With the advent, however, of the Thompson-Woods forces, the yacht club was notified that it would be impossible to play the date, so they decided giving the concert at the Nickel, but unfortunately delayed securing the date until the Kennebec people had rented the premises for the 17th. The only recourse left them was to endeavor to make arrangements for the Opera House on the original date. Mr. Spencer was in a peculiar position, being between two contracts, but the local manager of the stock company expressed himself desirous of doing everything possible to accommodate the Yacht Club, and at very great inconvenience is trying to arrange so that the date may be available for Miss Mylott, and to this end, has communicated with the New York office, in an effort to make arrangements that will avoid the necessity of cancelling the concert engagement.

It is expected that definite word will be received this evening and an announcement made tomorrow.

Almost constant treatment was given to Merkle's ankle during the morning hours. While it looks as if Merkle will not get into today's game, the question will not be decided finally until after the Giants reach the ball field.

Under ordinary circumstances Merkle would not play, but he insisted this morning that he would make the attempt. After he reaches Shibe Park he will practice and then Manager McGraw will decide what to do. In the event that Merkle cannot play, McGraw will have to pick either Crandall, Wilson, Grant or Witte to play first. Catcher Walters is also a possibility.

F. E. Walters of Philadelphia, a railroad brakeman, has just fallen here to \$25,000 but has decided not to give up his job.

ATHLETICS WIN FIRST OF SERIES

Demonstrated Superiority to Giants in Every Phase of Game—Score 6-4

New York, Oct. 7.—Outbitting and outfielding the New York Giants in the opening game of the world's series the Philadelphia Athletics defeated the National League representatives at the Polo Grounds this afternoon by a score of 6 runs to 4.

The game was witnessed by a gathering of spectators that taxed the capacity of the New York Club stadium and swelled the coffers of those financially interested to the extent of more than \$75,000.

Each team gathered eleven hits from the delivery of the rival pitchers, but the Athletics' drives were more timely and of greater length. The Giants gathered twelve bases from their eleven hits, while the Athletics total was twenty.

Eddie Murphy, playing in his first world's series, faced Marquard when the Athletics' Merkle made the out.

Olding started the Athletics' "rooters" shouting when he slashed a single to right field.

Olding would try to steal second, kept him close to the bag, and finally, by a lightning throw, caught the Philadelphia napping.

Olding protected against Egan's decision, but it availed him nothing. On the next ball pitched Collins shot a clean base hit to center, but he was left at first when Baker flied out to Burns.

When New York came to bat there was much cheering, but the shouts of the Giants' supporters did not last long.

Shaffer, the first man to face the Chief, sent up a fly to Murphy in right field, and Burns flied out to Strunk.

Fletcher sent a grounder past short. On the first ball pitched Fletcher tried to steal, but Schang's beautiful throw to Collins beat him, and the side was out.

The Giants broke the ice in the third inning, when Bender was touched up for two hits. Merkle brought cheerers from the stand by sending a slow bouncer to Shortstop Barry, who could not get up to it quick enough to handle it cleanly and make the out.

It was a scratch single for Merkle. Marquard sacrificed him to second. He was held on the middle, while the wonderful catchout by Strunk, but he sprinted home a minute later when Doyle shot a smoking single to right field.

The New York "rooters" shouted wildly for Fletcher to bring Doyle home, but he was not equal to the occasion. He tried hard, but sent a long fly to Murphy.

New York having the "edge" on Philadelphia, put the crowd in good humor. The Athletics simply gritted their teeth and went after Marquard. They shelled the outer works of the Giants, and when the smoke cleared away three runs were across the plate.

The fifth inning brought more fame to "Home Run" Baker. Both Murphy and Olding were thrown out at first by Marquard, who got their easy grounds.

Collins on second, exactly the same situation as obtained in Philadelphia two years ago, when Baker hit Marquard for a home run, presented itself.

The crowd was exactly the same. Collins long distance batted stepped to the plate. He let two balls fly by him and then opened his shoulders as the next one came down. There was a crack of the bat, and the ball sailed high and far, dropping in the right field stand for the circuit.

Collins beat the plate, and the Philadelphia batsman on the back, as the Philadelphia partisans yelled themselves almost hoarse. McInnis sent a pop fly to Fletcher.

It looked all over for New York, but Bender's one bad inning came in the fifth. Merkle singled to center. McCormick, batting for Marquard, made good by driving a base hit to centerfield.

Merkle taking second. Shaffer went out, Collins to McInnis, both runners moving up on the play. Doyle here shot a grounder at Barry who made a poor throw to first, and the runner was safe.

Just Apply This Paste And the Hairs Vanish (Beauty Notes.)

It is no longer necessary for a woman to go through life with a face figured by a fuzzy growth, for if she will apply a pleasant paste to the objectionable hairs for two minutes, then rub it off, every trace of hair will vanish.

To make the paste, mix some water with powdered detlone. After the paste is removed, the skin should be washed to free it from the remaining detlone. Better results are obtained if the detlone is purchased in an original package.

TUBERCULOSIS HOSPITAL FOR THE COUNTY

Bond Issue of \$50,000 Authorized by Municipal Council—New Morgue Also—Street Railway Extension

At the quarterly meeting of the municipal council of St. John held yesterday afternoon in the court house, the report of the non-war commissioners that the erection of the tuberculosis hospital in Merritt street would be proceeded with, and that plans and specifications had been prepared, was submitted, a resolution dealing with the details of the \$50,000 bond issue for the hospital being adopted on the motion of Councillor McLellan.

A petition largely signed by residents and owners of property in East St. John calling for an extension of the street railway from Kane's Corner to Little River was read.

Having heard the St. John Law Society respecting further consolidation of indices in the registry office, the committee recommended that the registrar of deeds be empowered to consolidate the indices from box 103 to 122 inclusive at a cost of \$225, the work to be completed about January 14 next.

The committee, being of the opinion that the trial of Viola Reid should have not taken place in St. John, and that the expenses should be borne by the county of Sunbury or the province of New Brunswick, recommended that the county treasurer be instructed to decline payment of any further expenses of this trial until the matter should be adjusted to the satisfaction of the committee, and that the county secretary take the matter up with the provincial government.

Councillor Golding moved that the plan of the Lancaster sewerage extension be extended by laying a new sewer in Charlotte street extension across the rear lots fronting on Lancaster avenue owned by Daniel C. Clark, P. W. Henderson, John Baillie and others, to take the place of another sewer on Lancaster which should be abandoned, and that the sewer in Window street extension be extended 100 feet, provided that a free easement or right of way be granted from Charlotte street extension across the lots owned by the same parties.

Commissioner McLellan moved that the county secretary be authorized to communicate with the premier respecting that the opinion of the council was that the bill for admission fees to the Provincial hospital should not be paid.

A request was received from Samuel Clifford and W. J. Cunningham, trustees of the city jail for an increase of salary. An increase was granted of \$5 monthly on the present salary of \$60.

A petition signed by residents of Kane's Corner was presented asking that the council do what they could to have the street railway extended to Little River. "I might say that we are ready to do business with the street car company at any time," said Warden Carson.

Councillor McLellan moved that the county secretary write to the government to ask that the sum of \$845, paid by the Pejeesoot Lumber Company for taxes and by some mistake used for other purposes than road-work, be refunded to the parish in order to meet a part of outstanding liabilities. Adopted.

The funds for paying the Bay Shore policeman being exhausted, Councillor Long moved that the money be appropriated from the Lancaster Fire Fund. Adopted. Councillor McLellan reported as to the cost of the new morgue. He said it would probably cost in the neighborhood of \$17,000.

SAGE AND SULPHUR DARKENS GRAY HAIR

It's Grandmother's Recipe to Restore Color, Gloss and Thickness

Hair that loses its color and lustre, or when it fades, turns gray, dull and lifeless, is caused by a lack of sulphur in the hair. Our grandmother made up a mixture of Sage Tea and Sulphur to keep her locks dark and beautiful, and thousands of women and men who value that even color, that beautiful dark shade of hair which is so attractive, use only this old-time recipe.

Nowadays we get this famous mixture by asking at any drug store for a 50 cent bottle of "Wyeth's Sage and Sulphur Hair Remedy," which darkens the hair so naturally, so evenly, that nobody can possibly tell it has been applied. Besides, it takes off dandruff, falling hair. You just dampen a sponge or soft brush with it and draw this through the hair, taking one small strand at a time. By morning the gray hair disappears; but what delights the ladies with Wyeth's Sage and Sulphur is that, besides beautifully darkening the hair after a few applications, it also brings back the gloss and lustre and gives it an appearance of abundance. Introduction of New Wool Blankets

THESE ARE BLANKETS OF PEDIGREE.

We give to buying and selling blankets the careful attention that such intimate articles of household economy deserve. Consider the service that one expects from good blankets, and helter skelter buying or selling seems unwise.

Our advance showing of Wool Blankets, critically examined, will demonstrate our point. The soft surface of true wool blankets which leaves no doubt of quality is an assurance not to be misunderstood.

There is satisfaction in buying in the early season, when stocks are fresh from the looms, and one has the unlimited choice that only early buying assures.

NEW WATER MAINS NEARING COMPLETION

Though the complicated nature of the connections to be made in carrying the water mains over the new culvert at the Newman brook in Adelaide street has caused some delay in the completion of the extension, good progress is nevertheless being made in finishing the work, and Commissioner Wigmore expects to have the final connections made before the end of the week both in the Adelaide street extension and the new Douglas avenue mains. As the mains are being laid stop cocks and cross connections, as well as connections for hydrants that will be installed, are put in, so that the trenches can be filled without extra delay after the laying of the pipes. THE PAVING WORK

That the south side of King square, emerging from a state of chaos, may be completed before the end of next week is not unlikely in view of the fact that the curbing, after some delay, has now arrived and is on the ground ready for placing.

The concrete bed has been practically completed by the Warren Bitullic Company, who have also contracted for the surface work. The laying of the surface is only a matter of three or four days' work, and should be completed next week if the company start on King square without delay. Their surface plant is now being used in Wentworth street, where the paving between Queen and St. James streets, undertaken by the St. John Railway Company, is nearly finished.

MUST HAVE HURT HIS FEELINGS TO LOSE THAT TEN

Prisoner's Plea of Poverty Followed by Display of Big Wad—Truant's Father Fined

Louis Kominaskey, Ross Neill and Samuel Katsiskey were each fined the maximum penalty, \$10, by Magistrate Ritchie this morning for violating the law regulating street traffic. They were reported by Policeman Ross, who said that previous to Monday, he had warned them several times, but they did not heed him.

Katsiskey protested that he could not pay the fine. "I know I did wrong, but I'm too poor to pay a fine like that. I haven't a cent in my pocket," he said.

He was ordered to sit down if he could not pay. He sat down after a good deal of parleying, but came forward again in a few minutes and asked the magistrate if he wouldn't excuse him this time. The magistrate refused and he sat down again. After talking and discussing the matter with every one in court, he walked up to the magistrate again and entered another plea. Seeing that the magistrate was not disposed to listen to him, he slowly drew a wad of money from his pocket and placed two five spots on the clerk's desk.

Katsiskey wanted to have the case appealed. He was instructed he would have to deposit the money in the police court anyway, so he paid the fine and is considering appealing the matter. The other man said he had not the money to pay.

Three prisoners charged with drunkenness were remanded, and one was fined \$8 or two months in jail. One of these the magistrate was the most emaciated and dilapidated individual he ever met in the police court in his twenty-four years there.

A twelve year old boy arrested for truancy was before the magistrate in the juvenile court. He pleaded guilty to "jigging" from school at least twenty-one days in the last term. The lad's father said he had done his best to keep the boy at school, but he could not go with him every day. "His mother is dead, and his fourteen year old sister keeps house. I have to go out early in the morning, and I can't possibly get a chance to go to school with him," he explained.

The magistrate said he had not done enough. The boy, he told him, was liable to be taken from him and he might be compelled to pay \$75 for the authorities keeping him. A fine of \$2 was imposed on the father, and the boy was sent downstairs.

LOCH LOMOND FAIR OPENED THIS MORNING

Many Exhibits of High Class—Good Crowd Attending, Including Many From City

There is a large exhibit of country produce, including all kinds of fruits and vegetables. The live stock exhibits are also good, the horses and cattle being of an exceptionally fine character. The domestic science exhibit is also attracting much attention.

The weather was somewhat clearer at noon and the people began to flock to the fair in larger numbers, and it is expected that, before the close of the fair this evening, the attendance will be a record one. A large number of people were present from the city.

CONFERENCE ON PHYSICAL CULTURE

Dr. Brown, Supervisor for Canada, Gives Local Y. M. C. A. Officials Valuable Suggestions

Dr. John Brown, Y. M. C. A. supervisor of physical culture for Canada, held a lengthy conference with the local officials yesterday morning on local conditions, and Dr. Brown gave many valuable suggestions for the expansion and improvement of physical culture in St. John, and conveyed ideas which will greatly help the local heads in the movement for a more pretentious programme this winter in the various departments at the city institution.

General Secretary Watts, Secretary Milligan and Director Howard, who attended, were greatly pleased with the result of the conference, and were of the opinion that the Y. M. C. A. here would derive marked benefit from the visit of Dr. Brown. The local heads of departments will draw up a programme of winter entertainment, and influenced largely by the excellent suggestions and ideas brought out at the conference, will undoubtedly issue an announcement which will show satisfactory evidence of a forward stride in Y. M. C. A. work in St. John. Dr. Brown left this afternoon on the 12:40 train for Moncton, where he will discuss the situation with the Y. M. C. A. executive there.

Barnes-Tufts

A pretty wedding took place this afternoon at the home of the bride's mother, 236 Duke street, when Miss Birdie Isabel, daughter of Mrs. Isabel Tufts, was united in marriage to Charles Rupert Barnes, son of Mrs. C. W. Barnes, of Gouverneur, U. S.

The ceremony was performed under an arch of autumn leaves and a floral bell. The officiating clergyman was Rev. Wilfred Gaetz.

The bride, who entered the room on the arm of her brother, Ray Kenneth, was becomingly attired in a traveling suit of wisteria blue spongy with hat to match. She carried a bouquet of roses. The groom was in a dark suit. Mrs. Balderson, sister of the bride, acted as matron of honor. The groom was attended by Dr. J. U. Balderson, of New York, as best man. Miss Turner played the wedding march.

After the ceremony a dainty luncheon was served. Mr. and Mrs. Barnes will later visit upper Canada and northern New York state. They will reside in Gouverneur, N. Y.
