ADVENTURES OF THE TWINS

By Olive Roberts Barton

THE TIN MOUSE IS FOUND.

Just as the Twins were passing the clock, the rest of the Doofunny people all layed behind, while Nancy and Nick went off to find the tin mouse.

The tin mouse had hidden somewhere because he knew he was guilty. This was what he had done. He had jumped out and frightened the pin-cushion lady, and the pin-cushion lady had fallen on the wooden waddle duck, and the wooden waddle duck had such a start that he skidded twenty inches and frightened the tin soldier's horse, and the horse had shied and stepped on the peanut boy, breaking his nose.

There!!! I'm all out of breath. But you see how very guilty the mouse was. No wonder he hid. Doofunny Land was almost empty, for all the people were waiting at the court house, except those who had duties at home that they just couldn't get away from.

The cuckoo was one. Just as the Twins were passing the clock where he lived, he popped out. "Cuckoo! Cuckoo! Cuckoo!" he went three times.

"Hello!" cried Nick. "Hello!" said the cuckoo, "What are you doing in Doofunny Land?" "Hunting the tin mouse. Did you see him?"

"No—not for a day or two. He always comes to see me regularly, runs up one of my strings and pays me quite a visit. But he hasn't been here lately and I was wondering what was wrong!"

"He's wanted at the court house for breaking the peanut boy's nose," said Nancy. "Why the idea!" exclaimed the cuckoo. "He's as gentle as a lamb. I don't see how he could."

Next they met a napkin rabbit just sitting there on his hind legs. "Why aren't you at the court house?" asked Nancy. "You haven't any clock to mind like the cuckoo."

"I know," answered the rabbit, "but I'll tell you a secret. I'm very loose. If I move I'll come all untied. And I feel dreadful about it. It isn't often we have a trial in Doofunny Land and here I am not able to stir a foot."

"But tell me the news, do!" "The tin mouse," he exclaimed when he heard the story. "Why, he's under that bell! I saw him go under a minute ago."

"For goodness sake!" cried the Twins. "And here we have been hunting and hunting for him everywhere. Come on out here, Mister Mouse. You're wanted at the court house."

"I'm not here at all!" squeaked a tiny voice. "Well, if you're not there, who is?" "Nobody!" "Oh, ho! Nobody! Well, I'll tell Mister Fuzz Wuzz that Mister Nobody is under a board and won't come out."

LIQUOR PACT WITH U. S. IS APPROVED

Commons Asks Parliament to Pass Treaty Settling New Limit.

Ottawa, March 21.—The House of Commons this afternoon passed a resolution, moved by Premier King, approving of the run-running treaty concluded between the United States and Great Britain.

Parliament to approve the treaty on the ground of morality, international good-will and commercial benefit. The Canadian Government, said the Premier, had approved the treaty subject to approval by the Canadian Parliament and had asked that a board was appointed to consider the question of compensation to a Canadian vessel, the representatives of the Empire on board should be nominated by Canada.

To this the British Government had agreed. Premier King read a synopsis of the agreement, which gives to the contracting parties the right to extend the right of search and seizure, hitherto confined to a three-mile limit, to a distance approximating one hour's journey from the coast.

The speed of the vessel must itself be considered in adjudging what distance an hour's journey would be. A board would be established to consider grievances arising out of any action taken, and compensation would be awarded to ships unjustly interfered with for any loss their owners might sustain thereby.

TO MAKE HOME HERE. Many St. John friends will be pleased to know that Rev. H. R. Boyer, field secretary for the Baptist denomination in the Maritime Provinces, will remove from Halifax to make his home in St. John. He is expected to take up residence here on May 1.

IMPROPER DIET BRINGS END TO BERLIN'S WAR ELEPHANT. Berlin, March 1.—(By mail)—Mary, perhaps the only elephant in the world who "did her bit" in the great war, died recently at the Berlin zoo where she had been a resident the best part of 35 years.

Death was due to a complication of diseases brought on, it was thought by experts, by an improper diet. Children this winter have been feeding horse chestnuts. Mary first saw the light of civilization when she was captured some 45 years ago by Carl Hagenbeck and was used in the African jungles to lure other elephants to captivity. During the war, when every available horse was at the front, Mary was used to drag wagons about the Berlin streets, and sometimes she hauled great strings of them.

AN AWFUL ATTACK OF PIMPLES ALL OVER HIS FACE. Pimples breaking out on the face and other parts of the body is a sure sign that the blood is not in proper shape. While the skin is the object of the attack the real seat of the disease is in the blood on account of the entire circulation being poisoned.

Burdock Blood Bitters quickly and effectually banish pimples and all other skin diseases as it goes right to the root of the trouble by cleansing and enriching the blood.

Mr. Conrad Anderson, Kelfield, Sask., writes:—"A year ago I had an awful attack of pimples. They broke out all over my face and I could not get rid of them in any way. One day a friend told me about your Burdock Blood Bitters and let me have a bottle he had to spare. After using it I noticed a change, so I bought three more bottles, and now I don't know there is such a thing as pimples."

SOME DIET RESULTS. It is really remarkable what a change slow eating, accompanied by thorough chewing of food, will do for the betterment of your bodily health. In hasty eating, one does not really get the true taste or flavor of food. Careful tasting by retaining the food in the mouth until all the goodness of taste has been obtained is a great satisfier.

The real value of this process is that one is satisfied with a less amount of food and overeating is thereby avoided. The real help of a reducing diet is not only a loss of the non-working fat but in overcoming many other bodily diseases. It is well known, in cases of obesity, that the heart, lungs, liver and kidneys are frequently the sufferers. The relief experienced in the working of these organs from a satisfactory reducing diet is worth all the time one may give to it.

In thirty-one cases out of forty, where investigation was carried out in a large city hospital, it was found that dieting, besides reducing the weight, also reduced the blood pressure. The improvement in respiration was another distinct gain through the dieting programme. Shortwindness and wheezing were stopped. Excessive sweats were also corrected.

In sixteen cases out of forty, serious foot trouble had developed, through overweight and lack of proper exercise. The reducing diet corrected every one.

Carter, among other charming hostesses. Miss Gretchen Smith, of Woodstock, has been the occasion of several small bridges and teas, her hostesses, Mrs. Fred W. McLean, Mrs. Kenneth L. Golding and Mrs. D. W. Harper entertaining informally to give her the opportunity of meeting her many young friends here while making a short stay in the city. Mrs. Roy Fash, of Halifax, was also the occasion for informal entertainment, when Mrs. H. O. Clark, Mrs. G. Wilford Campbell and others gave small functions in her honor. Miss Katherine Murdoch was also given a delightful shower in honor of her approaching marriage. These with the larger affairs for charitable or church purposes have made a fairly busy week. The Royal Standard Chapter, I. O. D. E. tea and sale of the Knox church high tea and St. David's tea were all largely attended. The mothers' day reception of the Y. M. C. A. was an enjoyable affair, as were the Pythian ball and the annual bridge of Union Lodge in Pythian Castle.

Kochaly, maritime field secretary for the Armenian Relief fund, spoke yesterday afternoon in St. Mary's schoolroom and last evening in the Coburg street church hall he showed two films of motion pictures of the work of the relief fund. Substantial collections were taken at both meetings. In the afternoon a small boy, about four years of age, stepped forward and pressed upon Mr. Kochaly a treasured orange and the one cent which constituted his worldly wealth. The little fellow was so sorry for the poor Armenian children that he had made a special trip to offer all that he could.

BAD MONEY CASE SET OVER TO APRIL

Man Charged With Using the Mails For Fraudulent Purposes

The case of C. H. Marcoux, alias H. Marc, charged with using the mails for fraudulent purposes and offering for sale bogus or had money, came before County Court Judge McLatchey at Bathurst on Monday last, when the grand jury brought in a true bill on two counts. A petit jury was selected and the case went before the court clerk on Tuesday and Wednesday when the clerk of the peace, who was prosecuting, asked that the case be suspended owing to the fact that the judge would not admit as evidence some of the material brought forth. The judge took the matter into consideration, and postponed consideration of the case until April 8. This is the first case of its kind in several years in New Brunswick. The prisoner Marcoux was offered bail at \$7,000, but it is believed that he could not get securities. Inspector John Emerson, of the St. John Post Office was present at the trial to represent the Post Office Department.

BRITISH VESSEL IS IN DISTRESS

New York, March 21.—A distress call was received by the naval radio station today from the British freighter Dunclutha, 25 miles northeast of Barnegat, N. J. The steamer Dunclutha, which was under the command of Captain John Emerson, of the St. John Post Office was present at the trial to represent the Post Office Department.

GIRL GUIDES

The Knox church company (6th St. John) have arranged to hold their meetings in the Y. W. C. A. rooms on Tuesday. They have been lacking a room to meet in since the fire and have been grateful for the hospitality of St. Paul's. Now they can carry on by themselves. At a meeting of the officers of all the city companies, held recently, plans for the summer camp were discussed. It has not been quite decided whether a big general camp will be held or whether each company will plan its own trip as was done last year. There is to be a camp held at "Fox-leaf" in England this summer to which guides and leaders will go from all parts of the world. The N. B. representative will probably be Miss Lawson, from St. Stephen. We wish that we could send more people from New Brunswick. It will be such a wonderful experience. The Trinity company are busy planning a concert to be given after Lent. The present plan is for the Scouts and Guides to join their efforts and divide the proceeds. At the last meeting of the Trinity Guides Miss Barbour talked to the girls, suggesting that they form a team to compete for the Wallace Nesbitt cup. The members of the team had not quite been decided on, but it is hoped that one will be formed definitely.

SISTER Mary's KITCHEN
FISH RECIPES
Fish is just the thing for a hearty luncheon salad. Shrimp or lobster, crab meat or salmon salad is most attractive for a party if served in lemon baskets on a nest of shredded leaf lettuce.
Each plate of salad can be garnished with sections of lemon. Unless the fish has been marinated in lemon juice for an hour before mixing the salad, extra lemon should be served.
Any left-over fish can be separated into flakes, mixed with celery, finely chopped pimento, a few nuts, hard-boiled egg and minced gherkins and made moist with mayonnaise to make a perfectly acceptable "family" salad.
Scallops Safely
One pint scallops, 1/2 cup diced celery, 1 teaspoon minced shallot, 1 tablespoon capers, 1 lemon, mayonnaise, lettuce, paprika.
Clean scallops and cook in boiling salted water for 15 minutes. Drain. Cut in small pieces if necessary and cover with the juice of lemon. Let stand one hour. Combine with celery, shallot and capers and arrange on a bed of lettuce. Mask with mayonnaise.

RUM FLEET SCATTERED BY GALES

One Schooner Limp Into Boston, Crew Famished, Sails Gone.

NO LIQUOR ABOARD

Captain Says Blow was Worst in His Whole Experience.

Boston, March 22.—The first news of the Cape Ann rum fleet since last week's gales dispersed its units was brought here yesterday when the British schooner Douglas B. Conrad, out of Lunenburg, N. S., put into Boston harbor in distress, her crew 24 hours without food, her sails, rudder and other gear damaged by the storms.

The Conrad was a unit in a fleet of seven rum vessels reported by the coast guard cutter Tampa at anchor off Cape Ann, February 20. No liquor was found when customs men boarded the schooner in port. The manifest, however, showing that the Conrad sailed from Havana February 3 for St. Pierre, Mig., loaded with alcohol, set forth the further fact that the cargo was jettisoned during a gale to save the vessel from foundering.

Couldn't Land Rum. Members of the crew, in recounting the hard luck of the voyage, complained that the vigilance of coast guardsmen off Cape Ann prevented the sale of any of the liquor on shore. Supplies of food were hurried aboard the schooner as soon as she docked, to relieve the famished crew.

Captain James E. Wynacht, and members of his crew said the gales of last Wednesday and Thursday were in the worst of their experience. The schooner, running before the storm, sprung her foremast, lost one of her boats and had her rudder damaged. Allowed to Enter. The deck engine, used for hoisting anchor and sails, was smashed. Al-

In Jail Mrs. Belle Brown Gaertner, Chicago divorcee, held for the murder of Walter R. Law, automobile salesman, had to doff her finery when she was wearing the regular prison garb—stripes included.

TOM MOORE SAYS WINGS OF SENATE MUST BE CLIPPED

Declares Red Chamber's Powers Must be Curtailed to Save Democracy

That the Civil Service Employees of Canada could not stand the cutting off of the bonus, amounting to \$1,700,000 a year and did not intend to stand for it, was one declaration made by Tom Moore, president of the Trade and Labor Congress of Canada, when he addressed a large gathering of organized labor in the Orange Hall, last night. He said that the bonus was not in reality a bonus at all but merely a method the Government used to increase the salaries of the civil service of the dollar decreased with the increase in the cost of living. It was not cutting off the bonus that the Government proposed, he said, but really the reducing of the wages of the employees.

On the immigration question he advocated the placing of the unemployed on farms and stopping up the leaks of emigration before there was any more immigration into Canada. Unemployment insurance he advocated, as a means of decreasing unemployment and as another remedy advocated co-operation of seasonal industries. Would Clip Senate's Wings. Referring to the action of the Senate in vetoing several bills repealing sections of the Criminal Code, which he described as inimical to the principles of democracy and liberty, he said that the Senate should either be abolished or its power of veto restricted.

LADY LAW PUPILS ARGUE IN CASE

Female Students Take Part in Interesting Mock Trial.

Another trial case was argued yesterday afternoon in the subject of Sales during the usual lecture hour in the U. N. B. Law School. A. N. Carter, lecturer, presided and with

him as assistant judges were W. Haines and N. P. McLaughlin. Miss Margaret Teed and Miss L. Pickett defended the action, which had to do with the passing of property in an F. O. B. contract, while Bernard McLatchey and F. Dodd Tweedie appeared for the plaintiff. Good argument was advanced by both sides, the two young lady students, presenting their side of the argument in true lawyer-like fashion. Some very telling cases, as authorities, were cited by both sides. The court reserved judgment. The question for the most part turns on the passing of property in an F. O. B. contract.

SAYS CHILDREN GAMBLE IN CANDY

N. Y. Alderman Complains to Police Commissioner About Packages.

New York, March 22.—On the urging of candy manufacturers, Alderman George U. Harvey of Flushing has sent to Police Commissioner Enright a letter urging the arrest of distributors and storekeepers handling a certain type of candy packages which the alderman charged induced gambling among children. The letter said:— "A complaint has been made to me by the New York State Manufacturers of Confectionery and Chocolates and by the Confectioners and Ice Cream Manufacturers' Protective Association of the State of New York against certain candies sold to children which are a gambling proposition and which defraud. The attention of your department was called to this evil about a month ago.

"This gambling and defrauding proposition is candy or chewing gum packed in boxes which contain from 150 to 300 pieces to the box. Each piece is sold for 1 cent. The actual real worth is from one-fifth to one-half cent. Usually these candies have centres of different colors. White colors draw blanks. Pink, brown, etc., draw prizes.

"I have inspected boxes containing 300 pieces of candy. They contained an average of fourteen prize colors. These prizes usually are bars of candy, lollipops or toys ranging in value from 5 to 15 cents. Other packages contain one small lemon drop for his or her penny, with the chance of getting a 5-cent bar of candy. "Other boxes contain a grand prize drawing calling for a pound of chocolates. However, the winning piece of candy is so wrapped that the dealer at once recognizes it and removes it from the box, so that when his junk is sold, he, in turn, sells the grand prize for what it will bring, usually 50 cents. "These prize schemes are bad for the morals of the children. They cheat the children and are in violation of the law. Evidence can be found at many candy stores near the public schools.

GLASGOW COURTS RETURN COSTLY CROSS TO ITALIAN PARISH PRIEST London, March 22.—(By mail).—After several years of litigation in Glasgow courts, a Byzantine cross, insured in jewels and valued at more than \$1,000,000, has been ordered to be returned to the parish priest of a church in the province of Aquila, Italy, to which it once belonged. There were two claimants to the property, an Italian ice cream shop assistant of Glasgow named Attilio Franche, and the priest of the parish in Aquila. The cross disappeared from the church in 1918 and was not heard of until May, 1921, when Franche offered it for sale in Glasgow. Franche's story was that he found it in the ruins of his family castle after the earthquake at Messina. The court, however, did not see anything in common with the earthquake and the jeweled cross.

SENSATION IN HOME BANK CASE HINTED

Has to Do With Sale of a Large Issue of Bonds.

ANNOUNCED SOON

Crown Prosecutor will Press for Early Trial of Directors.

Toronto, March 22.—Rumors of new exposures in connection with the former management of the Home Bank as the outcome of the investigations being conducted are in circulation, and while there has been no official confirmation of them there may be an announcement as soon as the Ontario Attorney-General's special auditor has completed his inquiry. A meeting of the depositors will be held here on Tuesday next to prepare for the coming investigation by Justice McKeown of Home Bank affairs.

Trial of the Home Bank directors and officials on the conspiracy charges may proceed at the April sittings, to which they were traversed at the last sittings. D. L. McCarthy, K. C., special crown prosecutor, who has just returned from London, England, where he was granted leave by the judicial committee of the Privy Council to appeal from the decision of the appellate division here to determine whether the accused are entitled to a speedy trial before a county judge, without a jury, on the charges under the Bank Act, stated yesterday that he would proceed on the conspiracy charges and would press for an early trial. As regards the Bank Act charges, Mr. McCarthy declared that the appeal to the Privy Council could not be heard in London before June at the earliest. Should the appeal be heard in June and the court give immediately thereafter, if it goes in favor of the crown the charges under the Bank Act would probably come up for trial at the fall sittings. If the defence does not file particulars of its case with the Privy Council soon enough the appeal may be thrown out after the October sittings, Mr. McCarthy added.

Depositors Meet Tuesday. There will be an all-day session in the home office working on the appeal of the Home Bank depositors' national executive.

A lot of general business relating to the commitments of the Royal Commission, and the pressing of the claim for relief before the Dominion Parliament, will be given consideration. A. G. Browning, K. C. of Hamilton, and R. J. McLaughlin, K. C. of this city, who will appear for the depositors before the Royal Commission on the Home Bank affairs, returned yesterday from Ottawa, where they had been in consultation with Chief Justice McKeown, the commissioner.

Sittings will be held at Ottawa commencing in about three weeks, but when the commissioner finds it necessary to delve into the books and papers of the Home Bank, now in the custody of G. Clarkson and I. E. Weddon, the liquidators, sittings will be held in Toronto.

New Sensation Rumored.

There are rumors of a new sensation in connection with Home Bank financing, which the Ontario Attorney-General's special auditors are now investigating. It is said to concern the disposition and sale of an issue of bonds involving a large amount of money. It is reported that the methods used in connection with this particular transaction "were more reprehensible than anything that had yet been revealed in connection with the affairs of the Home Bank."

Attorney-General Nickle declined to discuss the reporting on the case have been unable so far to discover the name of the person who obtained large commissions from the Home Bank on the representation that he was able to induce the Ontario Government to increase its deposit in the bank.

LANDLORDS' HELLO SWEETHEART! YIELDS WOMAN TENANT \$15,000

When Harris Beckelman, her landlord, called "Hello, sweetheart!" to Mrs. Bertha Goodman, of Brooklyn, N. Y., Mrs. Goodman was so surprised, she alleged, that she tripped over a broken stair rod and fell down the stairs. Mrs. Goodman was in a hospital for six months. A sealed verdict returned by a Supreme Court jury gave Mrs. Goodman \$15,000 and the husband \$1,000 damages against Beckelman.

MILLIONS SPENT ON BRITISH FAIR.

London, March 1.—(By mail).—When the British Empire Exhibition opens at Wembley April 23, it will represent a direct expenditure of \$50,000,000. The amusement park alone has absorbed \$5,000,000. Two of the main buildings, one the largest concrete structure in the world, will cover 25 acres. At least some 2,000,000 electric lights will make the grounds brilliant.

Women generally will take more interest in politics when politics is put on display in the show windows.—Tledo Blade

HEART WAS SO BAD

Mrs. O. E. Fitzgerald, 106 Ross
street, St. Thomas, Ont., writes—"In
the fall of 1921, I was taken ill with
my heart, but I did not pay much at-
tention to it. I kept on with my
household duties, but seemed to be-
come worse and worse, and finally had
to call in a doctor. He said I was all
run down and was a nervous wreck. I
had a severe pain in my chest which
would move over to my heart and it
became so bad I could not lie down, as
when I did I had such a smothering
feeling I would have to sit up in bed
till it passed away.

I tried several remedies, but with no
good results. Finally, I was induced
to try Milburn's Heart and Nerve Pills.

When You Catch Cold
Rub on Musterole

Musterole is easy to apply and it
sets in its good work right away.
When it prevents a cold from turn-
ing into "flu" or pneumonia. Just apply
Musterole with the fingers. It does
all the good work of grandmother's
mustard plaster without the blister.
Musterole is a clean white ointment
made of oil of mustard and other
simple ingredients. It is recommended
by many doctors and nurses. Try Mus-
terole for sore throat, cold on the
chest, rheumatism, lumbago, pleurisy,
stiff neck, bronchitis, asthma, neu-
ralgia, congestion, pains and aches of
the back and joints, sprains, sore
muscles, bruises, chilblains, frost-
bitten feet—colds of all sorts. Seldom fails to
deliver results. 40c and 75c, at all

For Baby's Colds

Novo Scotia Mother Swears By
Vaporizing Salve

Some children seem to have one cold
after another—never have a chance to
build up any strength. This is apt to
make them puny and delicate—just sets
them back for months.
Every day more and more mothers
are finding that they can best break
up a cold with Vicks Vapo Rub, the
externally applied vaporizing salve.
While it acts like a liniment or plas-
ter, it is also inhaled as a vapor, and
so gets into the throat and lungs im-
mediately. The cold is often broken
up over night.

Vicks is prompt, too, in croup and
equally good for skin hurts and itch-
ings.
Mrs. Sherman Black of 8 Silver St.,
Amherst, Nova Scotia, writes: "I
tried Vicks Vapo Rub on my thirteen-
months' old baby, who had bronchitis.
It relieved his breathing when he was
choked. Vicks was also good for my
little boy who had the croup. I
advise anyone who has had a cold of
any kind to use Vicks. I think it is
the very best remedy I have ever
tried, and I have tried many, for bron-
chitis. I even sent to England to get
medicines, but none is as satisfactory as
Vicks."

881 AT 85 CLINICS
HELD IN FEBRUARY

Health Centre Activities
Tend to Reduce Hospital
Cases is Contention

In February 881 people attended the
85 Health Centre clinics. Besides the
clinics there were 25 Little Mothers'
League classes at which girls were
taught home hygiene and health sub-
jects and the school medical inspector
and school nurses tended to 84 cases.
These figures were presented at the
monthly meeting of the directors last
night and were subject of commenda-
tion.
In reply to a query as to whether the
Health Centre was to any degree re-
sponsible for filling up the hospital it
was stated that the Health Centre
work had diverse effects. In one case
this month a boy, who was given ad-
vice at the Health Centre, was sent to
the General Public Hospital where
further examination revealed chronic
conditions and the boy would have to
undergo treatment at the hospital for
three months. As a rule the Health
Centre work would tend to lessen the
hospital population by checking condi-
tions which would tend to produce hos-
pital cases.

Vice-president J. S. Gregory was in
the chair and he submitted the report
of the ways and means committee tel-
ling of the successful bridge under the
bell and Mrs. T. N. Vincent which had
realized the net sum of \$261. The com-
mittee had discussed matters in regard
to the 1924 Day Camp but had taken
no action.

The finance committee reported ex-
penditures of \$448.17 and receipts of
\$316 during the month with a balance
on hand of \$1,160.62.
It was said the dental committee
had under consideration plans for the
extension of the scope of the work of
that section.

Details of Clinics.
The administrative committee re-
port gave details of the various clinics.
At the 17 well-baby clinics, of which
seven were held in the Health Centre,
there were 25 new and 167 old cases
and a total attendance of 192. In
connection with these clinics 301 visits
were made to 244 babies. At the 18
anti-tuberculosis clinics there were 62
new and 82 old cases, a total of 144,
and 11 were discharged and 12 referred
to other care. Three pre-school age
clinics were attended by nine new
cases and one referred to other care.
At the three eye clinics nine new and
five old cases attended. Seven were dis-
charged and four were referred to other
care. The 21 dental clinics had 50 new
and 112 old cases and discharged five
and referred seven. There were 69 ex-
tractions and 68 fillings.

Social hygiene clinics totaled 23 and
they were attended by 14 new and 282
old cases, a total of 296, of whom 11
were discharged and one referred to
other care. There were 260 treat-
ments, 44 tests and 62 laboratory ex-
aminations as well as 82 calls or let-
ters.

Reference was made to the loss the
Health Centre suffered in the death of
Mrs. Joyce McLean.
Miss M. McLaughlin, the director, re-
ported that the Women's Institute had
given \$50 towards a hardwood floor in
the board room and this with a sum
of \$30 from another fund would be
sufficient for the new floor which has
been greatly needed. The gift was
accepted gratefully and authority given
to proceed with the laying of the floor
immediately.

Worry is only Fear
Fear of Self—Fear of Others—
Fear of the Future

AND what is the cause of worry? Lack
of nerve force, energy, vigor. The
man or woman who has good health
and is living a full, successful life does not
worry.

It is when the nervous system gets run
down that worry comes to torment your mind.
There is not much use in advising one
not to worry unless you can also offer some
means of restoring the depleted nervous
system.

The most rational and most successful
treatment available to all is Dr. Chase's
Nerve Food.

It is popular because it does not merely
afford temporary relief but gradually and
certainly restores vitality to the run-down
nervous system.

Dr. Chase's Nerve Food can make a
better human being of you, mentally,
physically—everyway.

The benefits felt will be in the way of
new energy, new vigor and confidence.

LANGUAGE QUESTION IN
IRELAND COMPLICATES
COURT PROCEDURE

Dublin, March 1.—(By Mail).—The
question whether the Irish language
will be used in the courts of Ireland
has its side lights, one of which con-
cerns two interpreters.

It is admitted that at present in
Irish speaking districts the chances of
litigation depend largely on the good
faith and accuracy of the interpreters.
At the end of one case, recently, the
winner said to the loser: "What did you
pay your interpreter?"
"Five pounds," was the reply.
"I gave my man ten pounds," said
the winner, "and the money was well
spent."

President Cosgrave has declared that
under present circumstances the bar
would not be able to man the bench
if a practical knowledge of Irish was
obligatory.

THREE MEN WERE ON THE JOB last
night, loading freight for shipment to-
day and preparing the incoming freight
for delivery this morning.

The freight shed will once more be
open until 5 o'clock in the afternoon
instead of 2.30 for the reception of
freight to be forwarded to points be-
tween St. John and Moncton by way
of freight. This, it was pointed out, gave
the merchants two additional hours to
get their freight into the shed. Parcels
to be forwarded by through freight,
however, must be in the shed by 3
o'clock.

One other change has been effected
by the new orders. The hour for re-
ceiving freight on Saturday was ad-
vanced one hour to 1 o'clock.

What "Semi-trimmed" means to you

THINK of it! At last the troublesome part of paper-
hanging has been eliminated—a job of papering can
now be done in quicker time, with less disorder, and
at considerably less cost than ever before.
Semi-trimming is the achievement of a century in wall-
paper manufacture. In course of printing, the selvage is
cut for you. It does not need to be removed by scissors
or knife and straight-edge. You simply give the ends of
the roll a rap on table or floor and the selvage falls off.
Think what it means to you to save the time of trimming
and to save the litter of sticky selvages. What is more,
you are assured of perfect results. Being cut at the correct
place, Staunton Semi-Trimmed Wallpaper is easily
matched, and looks like one piece on the wall. There is
no spoilage through incorrect trimming, either.
All who hang wallpaper will find it to their advantage to use Staunton
Semi-Trimmed Wallpaper. It saves Time—Labor—Money.

INVENTED BY A CANADIAN
The Staunton factory has been mak-
ing wallpaper since 1856—a long
time for a Canadian manufacturing
concern to have existed.
The semi-trimming process—in-
vented by a Canadian—was developed
and perfected by Staunton's Limited,
who hold exclusive rights for manu-
facturing semi-trimmed wallpaper.
The 1923-4 Staunton line surpasses
everything previously manufactured
in the decorative capabilities of the
goods and in the beauty of its range.

MANY LINES WILL CALL AT HALIFAX. Montreal, March 21—There is to be no diversion of the Royal Mail Steam Packet Company's liners from New York to Quebec, according to advice received here today. The company's ships will merely call at Halifax on their way to New York. In this course, the R. M. S. Co. will be following the lines of more than a dozen other transatlantic passenger lines which have instituted calls at Halifax because of immigration restrictions at United States ports and also because of increasing immigration to Canada.

CHANGE IN CLIMATE BENEFITS HORSES

Australian Experts Think Bitall Won Cup Because of Trip.

The question of whether a change of climate sometimes has a permanently beneficial effect upon race horses has been revived in Australian turf circles by the success of Bitall in the recent Melbourne Cup Classic.

Bitall's success is attributed by many racing men to change of climate having greatly benefited him. It is probable that he had something to do with it. He was in Melbourne months prior to the cup, and a change of even a few weeks to the south often has a beneficial effect.

"What may be for the good of a race horse may act similarly in respect to a stallion," Pilot observes in the Sydney Referee. "I can recall at least a couple of stallions that were successful in New Zealand, but failed to uphold their reputations in the warmer climate of Australia."

If deterioration in some stallions is possible through change, it is only reasonable to look to that cause to improve others. On this point, however, two English experts differ widely. The Special Commissioner of The London Sportsman believes change does benefit man and beast, while Mankato of The Sporting Chronicle is opposed to that theory.

The Special Commissioner of The London Sportsman, in upholding his argument, said Mankato clearly thought that neither Bend Or or Orme had anything to do with it. He said that the stallion was kept all the year at the Eton Stud, whereas he (the Special Commissioner) often maintained that it was from such place that their stock after the first year or two, was nothing like so good as the early samples of it. It was true Bend Or sired Hadlum and Orme had a final flare-up with Orby, but both these horses were from visiting mares. The early successes had been from Eton mares when the sires were fresh and well. Further on the writer I quote said—

"Of course, I do not contend that you can make a bad stallion into a good one by change of air any more than you can cure a man of cancer by sending him on a sea voyage."

It is a matter of controversy as to whether it is a change of air, at certain intervals, benefits all living things.

Mankato, however, in expressing disbelief in much being accomplished by change, also hints the Special Commissioner's feelings when he accused him of 'unloading' moderate stallions on to Australian buyers. Mr. Allison said the expression was ungracious and unjustifiable, as no one had done more than to warn Australian buyers that it was bad business to buy cheap mediocrities with specious pedigrees.

When the late W. L. Wilson in the early '90s wanted to buy a St. Simon horse for 1,000 guineas, he advised him to buy Bill of Portland, because, although a roarer, he was a horse of really high class, whereas a sound medicine would do him no good. He therefore bought Bill of Portland and for that very good reason.

NEWS NOTES GATHERED FROM THE WORLD OF STAGE AND SCREEN

DOES IT WITH HER OWN ROLLING PIN

Blanche Ring Gives Secret of Keeping Married Life Happy.

Boston, March 22.—A marriage that theatrical folk loudly proclaimed wouldn't weather the first storm is still going strong after 12 years, and all because, says Blanche Ring, its feminine principal, "I used a rolling pin."

"My husband doesn't like fat women, so I was afraid to take a chance. I made up my mind that it was my job to keep thin, and I think that rolling pin has been my success," she told her interviewer when she was asked the secret for her happy marriage, and incidentally how she "kept her figure."

"I admit I do deserve a little credit, because once in a while I do manage to believe me, it isn't too easy to look as thin as a Follies girl. And, again, my hubby—I never weep, but I would like to say, if he would only love me like I first fell in love with you."

"That," she whispered, "would never do. I could break that marriage. Miss Ring didn't stop here, but for one acquainted with her history, it wasn't at all necessary for her to explain further."

"Well, the first reason is basic. Mr. Winninger is a wonderful man. His brains as well as good sound theatrical ability. He is a fine musician, but best of all he has a true heart and good disposition and—"

"That's the whole secret in a nutshell. Passing of time, I find, has nothing to do with it. Time doesn't worry me in the least. My hair's hothead," she said, as she ran her comb through the last word in shingles.

The Call Pulls Ruth Roland Back

(By Jack Jungmeyer.)

Hollywood, March 22.—Ruth Roland, serial queen, is coming back to films. She is going to make dramatic features. Will be her own producer. Has already started the first picture.

That will be good news to her myriad followers. But the event has an added significance. It indicates the profound hold the screen, as well as stage, has on its votaries.

Ruth Roland, who made her first stage appearance at the age of three, who came through girlhood in vaudeville and stock companies, who has been a recognized picture star longer than any actress except Mary Pickford, and who has amassed a fortune in pay checks and real investments, tried to quit and couldn't.

"The passion to entertain," she says, "is stronger than desire for money, when one has them both. Public applause, once it sings in your blood, exerts an irresistible force."

Ruth Roland's name in movie theatre lights once was synonymous with the last word in thrilling exploits. She was the original "Kalen Girl," starting in one-reel comedies and western melodramas.

Doing nothing but turn over Hollywood real estate at enormous profits and living on the fat of the land soon began to pall on Ruth. Even the reputation as Hollywood's best business woman began to stale. The movies were beckoning. She thought to eradicate the virus by stepping out into vaudeville. But that only whetted the old craving, despite the fact her amazing attacks of stage fright.

"I couldn't have the public say, 'Look at poor old Blanche Ring. She's fat. I remember her when she was such a thin wisp of a girl. And, again, my hubby—I never weep, but I would like to say, if he would only love me like I first fell in love with you.'"

"What do I think is the reason for my successful stage marriage?" Miss Ring laughed, and laughed so hard that for a moment it looked as if she would lose control of the lip stick she was applying, but she didn't.

"Well, the first reason is basic. Mr. Winninger is a wonderful man. His brains as well as good sound theatrical ability. He is a fine musician, but best of all he has a true heart and good disposition and—"

"That's the whole secret in a nutshell. Passing of time, I find, has nothing to do with it. Time doesn't worry me in the least. My hair's hothead," she said, as she ran her comb through the last word in shingles.

"And to prove my mind, I'm going to say something not any actress in the world, I wager, but Blanche Ring will say, and it is this—I want to be a grandmother."

RUTH ROLAND.

A Clergyman's Wife, Relieved of Constipation, Tells Women the Benefits of Internal Bathing.

Many women write delightfully frank letters to Dr. Pyrrill telling him of the new health and joy that internal bathing has given them. From sufferers of rheumatism and those plagued with constipation and insomnia comes the same tale of amazing success. Internal bathing is a natural, simple way of cleansing the intestines. Warm water circulates through the colon, ridding it of the poisons that should not linger there. As 99 per cent of our ills are caused by the escape of those poisons into the blood it is easy to see that this method of keeping the intestine clean and healthy is a common-sense way of securing health.

A Winnipeg clergyman writes: "My wife is naturally sensitive having and same appear in public print, yet is anxious that others should know what all J.B.L. Cascade has done for her. It has really given her a new lease of life. Before she had been doctoring for constipation, which became worse each year. Since using the J.B.L. Cascade she has not had a day's sickness. She is now a healthy, robust woman. Should any person wish this letter confirmed, you are at liberty to give my name in private."

The J.B.L. Cascade is shown and explained at E. Clinton Brown, Union Station Water Cure, 27 W. Murray, 237 Main Street.

The J.B.L. Cascade is an invention perfected by Dr. Chas. A. Tyrrell of New York, and has done more during the past few years to restore health and lessen disease than all other means combined. It is a natural, simple way of cleansing the intestines. Warm water circulates through the colon, ridding it of the poisons that should not linger there. As 99 per cent of our ills are caused by the escape of those poisons into the blood it is easy to see that this method of keeping the intestine clean and healthy is a common-sense way of securing health.

"Stick to It, Boys!" Wrote Dying Flyer To Brother Pilots

Cleveland, March 22.—Two letters urging his aviation friends "stick to it" were written by Mrs. Kate Hyde-Pearson of Santa Monica, Cal., mother of Captain Leonard Brooke Hyde-Pearson, World War flyer and air mail pilot, killed 10 days ago in the mountains of Pennsylvania, while carrying mail from New York to Cleveland.

The letters addressed "To My Beloved Brother Pilots and Pals," were marked, "to be opened only after my death."

"I go west, but with a cheerful heart," one of the letters read. "I hope what small sacrifice I have made may be of use to the cause."

"When we fly we are fools, they say. When we are dead we aren't half dead. But every one in this wonderful aviation service is doing the world far more good than the public can appreciate. We risk our necks; we give our lives, we perfect a service for the benefit of the world at large. They, my dear boys, are the ones who call us fools."

"But stick to it, boys. I'm still very much with you all. See you all again. Captain Hyde-Pearson was buried here Sunday. It was not until after his death that his associates knew he had been awarded the British Meritorious Service Cross and was a member of the Victorian Order."

THE VARIATION IN BULK TEA. The quality of bulk tea is unreliable for several reasons. In the first place its origin and age is unknown to the housewife so that it does not carry any responsibility. In the second place it is exposed to the air while offered for sale, and therefore very quickly loses its flavor and freshness. Even if it were as good as "SALADA" in the first place it would rapidly deteriorate for this reason and in any case it would be impossible for any dealer to follow consistently the same quality throughout the year.

"SALADA" always maintains an unvarying high standard, possible through skillful blending and careful preservation in sealed aluminum packets.

KREISLER NOT TO PLAY FOR RADIO

No Request to Broadcast Concert, Says Boston Manager.

Boston, March 22.—The management of the Boston Opera House denied a report that Fritz Kreisler's concert, scheduled for Sunday, at the house, was to be broadcast on the radio. It is not the policy of the theatre to allow the music of noted artists to be put on the air, Louis H. Mudgett, manager of the Opera House, said. Furthermore, there had been no request for permission to broadcast Kreisler's concert.

He also denied the report originating in New York, and published in the current issue of a theatrical magazine, to the effect that an advance sale of \$3,000 had been cut in two by refund, and cancellations. He said that the advance sale was normal and very few cancellations in tickets already reserved had been made. Refunds were made Manager Mudgett said, only when concerts or performances were cancelled.

MISSION BAND GIVES EXCELLENT CONCERT

The Mission Band of the Fairville Baptist church under the direction of the superintendent, Mrs. C. T. Clark, gave an excellent missionary concert in the school room of the church last night when Rev. C. T. Clark was the chairman. During the intermission a candy sale was conducted. The proceeds of the entertainment will go towards missions. The children were prettily costumed for their parts and carried through a varied and pleasing programme with entire success.

The programme was as follows: Chorus, "Jesus Loves Little Children of the World," by the Band; exercise, "Brave Little Members," by ten girls; exercise, "Little Children of the Church," by six boys; chorus, "The World Children for Jesus," by the Band; Magistrate Henderson said the dog should either be kept locked up in the house or else destroyed. Logan said he did not wish to have the dog destroyed, but wanted it to be muzzled or else kept off the streets. The owner was warned that if any more reports were made against the dog he would be liable to a fine of \$10 and in addition he would be held responsible if any one was injured by the dog.

TRIED SUICIDE; WILL RECOVER

The condition of Otto Graudal, the third engineer of the steamer Porsanger, who slashed his throat while temporarily insane and was taken to the General Public Hospital yesterday morning, was reported good at noon today, and a full recovery is expected. The injured man was not discovered until yesterday morning at 7 o'clock. When he did not report for duty the chief engineer called at the room and found Graudal in his bunk with a shirt wrapped about his neck. The shirt was covered with blood. Graudal was quite conscious, and told the mate that he had lost his mind and thought he had too much blood, and then cut his throat with a razor for the purpose of getting clear of his blood. He said that he did this at midnight. Detective Bidcombe made an investigation and learned from the officers on board that Otto Graudal was considered of unsound mind, as he had been acting strangely for some time past, but they did not expect that he would wound himself. The injured man is about 38 years of age and a native of Norway. The razor which was used by Graudal was given to Detective Bidcombe.

Hugh McLean, Jr., vice-consul for Norway, was notified of the case so arrangements could be made to send Graudal to his home when he is able to travel.

EIGHT BOYS ARE IN POLICE COURT TODAY

One Lad, 13, Has Quite a Record as a Traveler—Five for Theft.

Several cases against juveniles were disposed of in the police court this morning by Magistrate Henderson. It was brought out that one of the boys, aged 13 years, who had been reported for throwing snowballs and acting disorderly in West St. John, had quite a record as a traveler. He ran away from home on a number of occasions, once going to Cobalt with a construction crew to act as a water carrier, and on another occasion going away with a sideshow connected with a circus. He also visited a number of cities in Upper Canada. In this case Mr. and Mrs. Byron Ross appeared and testified that the boy was obedient to his father in the future, and thrown snowballs at them. He was also reported for staying away from school. He was warned that unless he obeyed his father in the future, went to school regularly and conducted himself properly he would be sent to the Boys' Industrial Home in East St. John for a term of four years.

ST. JOHN IS FINE TRAINING GROUND

Examples of Talent Developed Here are Shown in Papers.

There were two items in last night's Times that held special interest for St. John people. One told of the rapid advance made in the osteopathic profession and, referred to a Boston psychological society. The other item was a notice of a St. John boy, who left home 15 years ago, is president. When home Mr. Stanton, formerly manager of the Star Theatre, North End, and now a clerk in the big firm's garment department. Miss Blanch is one of Canada's leading publicity women, though it is doubtful if her name has ever appeared in print in this connection before.

It was furthermore quite interesting to know that the art drawings of the mediaeval galleons and other ornamental bits used in the large M. R. A. "Voyage of Discovery" advertisement was the work of Miss Theresa Boudreau, member of the art and decorative staff of the concern over which David E. Lynch has superintendence and whose pupil, Miss Boudreau is. This young Nova Scotia maiden gives promise of much success in her work, which frequently turns to special drawings of gowns and other items of apparel illustrated in M. R. A. advertisements. So, it is only fair and appreciative to make this little comment, not done in honor to the bright young people mentioned but to let other young citizens realize that St. John is still capable of being a fine training ground for people of talent and industry and that the green hills afar off are not grayer than here at home—if we'll only think so.
