THE BIG BLIZZARD

Further Details of the Extent of the Damage Wrought by the Storm King.

Furious Wind Accompanied by Snow - Worst in Several Years - Ships Reported Lost.

New York, Feb. 2.-The present snow storm along the Atlantic coast is the worst since the memorable blizzard of 1888.

The "up the state" residents have suffered with cold which ranged as low as 20 degrees and more below zero.

Chicago, Feb. 2.-Reports from the various towns in Michigan, Wisconsin and Indiana tell of severe blizzards.

Not a Wheel Turns. Lawrence, Mass., Feb. 2.-The storm has paralyzed business and traffic.

Waterville, Me., Feb. 2.-Small houses have been buried by 20 foot drifts of snow.

Much delay was caused to the railroad mail service; that from the northern part of the state has been practically cut off.

Portions of Long Island suffered almost as much from the storm as the towns far up the state.

Boston Almost Isolated. Boston, Feb. 2.-The storm was the most severe this city has experienced in 25 years.

The head office of the company is situated at 420 California street, in the City of San Francisco.

THE HOUSE OPENS

Larger Representation at the Reassembling Than Has Been the Case for Many Years.

The Premier to Move for a Committee of Inquiry into the Drummond County Ry. Deal.

Ottawa, Feb. 3.-Mr. Bertram will move the address in reply to the speech from the throne.

In the senate Mr. Dandurand, the new senator from Montreal, will be either the mover or second.

When the house met to-day there was a larger representation in the house of commons than has been the case for years.

The new members present were: Ross, Rimouski; Lavergne, Drummond and Arthabaska; Gauvreau, Temiscouata; Malouin, Quebec Centre; Leduc, Nicolet; and Bertram, Toronto.

St. John, N.B., Feb. 2.-The most severe storm in at least 15 years set in yesterday and lasted throughout the day.

St. Paul, Feb. 2.-Below zero weather was general in the northwest to-day.

Shanghai, Feb. 3.-The China Gazette says that the British, Indian, Australian and Pacific squadrons have been ordered to be ready to reinforce the fleet in the Far East.

THE TIMES EXPLAINS

The Thunder Throws Some Light on Britain's Position in the Far East.

Her Withdrawal of the Demand for the Opening of Talienwan is Justifiable.

London, Feb. 2.-Discussing editorially the dispatch which was printed in its columns yesterday.

The fact of such withdrawal is of course consistent with the adoption of entirely different policies upon our part.

It might be on one hand an unworthy and humiliating surrender by a statesman, who having promulgated a great policy and defended it with great words.

On the other hand, it may be a judicious example of the old and tried diplomatic method of adding, in the first instance, to the terms of a bargain some particular object which it was not really desired or expected to attain.

While it is logically compatible with either of these alternatives we are entitled to assume that the second policy is that which is being followed by Lord Salisbury.

On this assumption the withdrawal of the condition of no more than a graceful concession offered on the principle of "do ut des," the gift on our part being the privilege of access to a not especially desirable port.

Russia's objections to a free port at Talienwan are not unintelligible, and if she has offered a compromise on this point and also discontinues her objections at Peking to the remaining conditions of the British loan.

It is on the other hand, our ministers could be supposed to have deferred to her in this matter without having secured an adequate equivalent in return.

They would unquestionably have to answer for their conduct to public opinion, but it would be unjust to Lord Salisbury and his colleagues to entertain any suspicion of the kind on the evidence before us.

Referring to the report from its correspondent at St. Petersburg that a combination of German bankers have arranged with Russian bankers to furnish China a loan of 100,000,000 roubles.

It is, of course, possible that the story is not without foundation. There is not much doubt that Russia can procure the money if she can induce China to do more liberally on our behalf.

It is quite possible that timely action of this nature might result in some of the more desirable terms which are rumored in St. Petersburg. If so, our position is clear.

We are limited to our treaty rights and both parties of the state, with the whole country at their back, are pledged to enforce them. Upon that subject retreat or vacillation is impossible.

We are not going to be either forced or jockeyed out of our treaty with one of the most lucrative markets of Asia.

While we believe, however, that the successful conclusion of a British loan to China upon the terms proposed, even without the opening of the Talienwan world center great advantage both on that country and the nations of the world, we do not see why a failure of the negotiations would be immediately followed by the grave consequences anticipated in some quarters.

It is neither to the interest of Russia of any other power to provoke a contest with this country, and unless we are provoked by some deliberate attack upon our rights it is quite certain that we will do nothing to disturb the tranquillity of the world. Our trade has many interests, it is true, for which we are prepared, in case of need, to fight; but the greatest of all trade interests is peace.

The Times' original announcement created much surprise and excitement among politicians and was eagerly discussed at the clubs. The Liberal vicariously pronounced the reported back-town of the British government, while the Conservative members of the house did not conceal their bitter disappointment.

Many decline to credit the report until it is officially confirmed and a prominent Conservative this afternoon offered a Liberal opponent to pay a substantial sum to a public charity if the back-down is confirmed.

The Liberals declare it would be a humiliating surrender to Russia and a severe blow to British national prestige.

The members of the late cabinet are already communicating with each other with the view of using the matter as a point of attack upon the government during the debate upon the Queen's speech at the re-assembling of parliament.

ACCIDENT NEAR GLASGOW. Mail and Freight Trains in Collision-Six Persons Killed.

Glasgow, Feb. 4.-A mail train and freight train have been in collision on the Glasgow & Southwestern railway near Troon.

The driver and fireman of the freight train and two workmen were killed. In addition, thirty-six persons were injured, some of them fatally.

Later in the day the six persons were killed and four injured in the railroad accident near Troon.

Measures will be submitted to you respecting superannuation, for the repeal of the present franchise act, and for a plebiscite on the question of prohibition.

And other measure I commend to your earnest consideration, invoking the divine blessings upon the important labors on which you are again entering.

COMING TO VICTORIA. A Party From New York State Headed For This City.

Buffalo, N.Y., Feb. 3.-Five seekers after nuggets in the Yukon gold fields from eastern New York state reached Buffalo yesterday.

This morning they departed for Toronto, where they will buy their entire outfit.

On Saturday they will take the Canadian Pacific to Victoria, and on February 15 they propose to sail by way of Canadian Pacific Navigation Co.'s line to Dyea.

WARLIKE RUMORS AGAIN AFLOAT

Reported From Shanghai That Great Britain Will Mobilize a Big Fleet in Chinese Waters.

The Alleged Back-Drop of Salisbury Appears to Have Been Only a Diplomatic Move.

Shanghai, Feb. 3.-The China Gazette says that the British, Indian, Australian and Pacific squadrons have been ordered to be ready to reinforce the fleet in the Far East.

Colonel McMillan had a long interview with the minister of justice to-day and told the Manitoba claim before him.

Mr. Scriver, M.P. for Huntingdon, has accepted the lieutenant-governorship of the Territories, in succession to Mr. Macintosh.

With the exception of Hon. John Costigan, he has set longer in the commons than any other man.

The announcement of the ten year monopoly in Yukon traffic to Mackenzie & Mann has led to the withdrawal of many applications for Yukon railway legislation, the total of which was 32.

A vast amount has been spent in lawyer's fees, advertising, etc., and possibly parliament will be asked to reimburse the applicants.

Some syndicates, notably the Rothschilds, which want to build via Dalton trail, will make a bold bid for their legislation.

It is less than the average number of senators and members here to-day, storms and severe weather having delayed them.

A DOUBLE MURDER

Followed by a Lynching—Tragedy at Copper River—Montana Cowboy Uses His Gun.

Seattle, Feb. 3.—The steamer Alliance, from Copper River, brings news of a double murder and lynching at Port Valdez.

The four men sat about the tent on piles of baggage. It was 6 o'clock in the evening and a candle was flickering out of a box at one side.

The bullet passed through the tent wall immediately behind where Haines had been sitting.

The desperado cowboy, believing he had killed Haines, as well as Call and Lee, walked calmly to a tree about ten paces distant and waited for a chance at Pierce.

While the murderer stood watching wearily, Haines succeeded in speaking away by the back of the tent and roused the camp of miners at Port Valdez.

In the still watches of an almost Arctic night, the body of Tanner was weighed. The majority advocated immediate retribution; a minority held out for sending the prisoner to Sitka to be dealt with by the regularly constituted authorities.

The prisoner was the coolest of them all. He even dozed during the proceedings. He urged that he be sent to Sitka, and he thought he would be able to clear himself of a charge for which he pleaded self-defense.

Notice. Notice is hereby given that 30 days after date I intend to apply to the Hon. Commissioner of Lands and Works for a special license.

THE CHINESE LOAN

An Endeavor to Play Off Russia Against England—Indisposed to Accept Any Loan.

London Times Denounces the Haste of the Public in Condemning the Government.

London, Feb. 4.—The Times on Tuesday published a dispatch from St. Petersburg saying there was reason to believe that if the Russo-German loan to China had not been yet accomplished it was on the point of being settled.

Mr. Deane then took the members of the government in order and pointed out how each had forfeited his right to office by various unbecoming and other usual acts.

Mr. Deane pointed out Mr. Martin's weakness in promising everything asked from him and not keeping his promises, while on this great trip last fall throughout the Boundary Creek country he gave away more roads, bridges, trails and positions than the revenue of the province could pay for in a year.

WORK FOR EVERYONE

D. D. Mann Interviewed Regarding the Stickine-Teslin Lake Railway Scheme.

A Tremendous Task, but One Which His Firm is Determined to Accomplish.

(From the Vancouver News-Advertiser.) Amongst the arrivals in the city yesterday was Mr. D. D. Mann, a member of the well known Montreal firm of Messrs. Mackenzie & Mann, which has been awarded by the Dominion government the contract for the construction of the railway to Teslin lake.

When asked how soon the firm intended to make a start, Mr. Mann said: "I have come through by express direct from the east, and a large part of the plant required is following by freight and should be here by the end of the week. As soon as that arrives it will be shipped to the mouth of the Stickine river and work will be commenced.

In the house to-day Mr. Foster asked when the papers would be brought down in the matter of the Stickine river railway contract. The premier promised the introduction of the bill and full information on Tuesday of next week.

Sir Charles Tupper drew attention to the customs fee charged on Canadian outfits going in at Skagway and Dyea. The premier replied that definite information would be given early next week.

In the house to-day Sir Charles Tupper asked the government if they would bring down as early as possible the agreement between the United States and Canada over the discrimination against Canadian goods at Skagway.

Mr. Reid, of Addington, has got ahead of Mr. Jamieson in giving notice of a bill for the appointment of a railway commission to which subject the Winnipeg convention of late.

Analay Morrison, M.P., presented petitions for incorporation of railways from Lynn Canal to Fort Selkirk, from Stickine river to Fort Selkirk, and from Lynn Canal to Lake Lindeman, and from Fort Selkirk to Lake Lindeman.

Mr. Bertram moved the address in reply to the speech from the throne and Mr. Gavreau seconded it.

DE MALCHIN WINS

The Russian Swordsman Defeats Sergeant Elliott's Last Night at Market Hall.

A Stirring Exhibition of Oleyer Horsemanship and Brilliant Sword Play by the Combatants.

There was one very laughable feature in last evening's mounted sword contest at the market hall, and that was the difference of opinion between the referee and judges and the crowd. The referee, the champion broadswordman of the British Empire, Captain Livingstone Thompson, has had a long military experience and is an old sabreur.

The opening engagements disclosed the fact that de Malchin, at last secured a horse to his taste. The animal was a rough-looking little bay "cow-horse" and was ridden with a high seat.

Among the swordsmen gathered in the market hall last night there was never at any time a doubt as to the result; the only surprise being the high score Elliott was able to run up.

Mr. Mann then referred to the political aspect of the granting of the contract and said: "This is a matter in which politics should not be introduced, but as we are Canadians—and both Mr. McKeenzie and myself were born in Canada—and have lived here all our lives—should join together in this matter.

Mr. Mann will not go up north until the construction work proper is commenced, but then he will stay up there to supervise the work and will remain until the last spike is driven.

GOOD NEWS FROM GOOD MEN

CLERGYMEN SPEAK STRONGLY

IN FAVOR OF

Dr. Williams' Pink Pills

A Medicine that Cures when Other Remedies Fail.

SUFFERINGS FROM RHEUMATISM.

From the Gazette, Galena, Illinois.

A gentleman connected with the Gazette was recently conversing with Rev. Joseph Sechler, a clergyman of the Reformed church and has been a prominent minister of that body for over thirty years, and has nearly all that time resided in Lena, Stephenson County, Ill. He was active in founding the Northern Illinois College at Dakota in that county, and was for eight years secretary of that institution and for two years its financial agent, which position he had to abandon from causes hereafter mentioned, since which time he has taken charge of a congregation of his brethren in the town of Harlem, a few miles from his residence.

The worthy minister informed that for fifteen years he was the victim of that dread disease, rheumatism. The pain was so intense that he contemplated abandoning his calling.

Somewhat discouraged, but with a faint hope of recovery, he was led to try Dr. Williams' Pink Pills for Pale People. After three months he was comparatively free from pain. He continued the use of the remedy at longer intervals, and at the end of six months he felt that the disease was entirely eradicated. Another great benefit came to him at this time.

During this fifteen years of suffering there was added to the malady the lesser one of piles, which itself would have been a terrible affliction but for the overwhelming one of rheumatism. In the effort to cure the greater the lesser one gave way. He can now fulfil the duties of his calling without being diverted by the agony that he suffered for so many years. He can with confidence conscientiously recommend these pills to all afflicted with the diseases mentioned.

THE PASTOR'S WIFE

Rev. B. F. Stratton, of Little Britain, is one of the best known ministers in the Bay of Quinte Conference, of which body he is an ex-president. Wherever Mr. Stratton and his estimable wife have been stationed they have won hosts of friends among all classes for their unassuming and sincere Christian work. A few years ago Mrs. Stratton was attacked with partial paralysis and her restoration having been attributed to the use of Dr. Williams' Pink Pills a reporter of the Napanee Beaver was sent to Selby, where they then resided, to interview her. In reply to the reporter's question Mrs. Stratton said she was perfectly willing to give her experience that those similarly afflicted might be benefited. Mrs. Stratton said that before moving to Selby she had been greatly troubled by a numbness coming over her sides and arms (partial paralysis) which, when she moved, felt as though hundreds of needles were sticking in the flesh. For over a year she had been troubled in this way, with occasional dizzy spells. She was becoming emaciated and easily fatigued, and was unable to get sleep from this cause. The trouble seemed to be worse at night time. Mr. Stratton had become greatly alarmed at her bad state of health, and it was feared that complete paralysis would ensue. Knowing a young

lady in Trenton, where Mr. Stratton had been previously stationed, who had been cured by Dr. Williams' Pink Pills, it was determined to give them a fair trial. When Mrs. Stratton began using the pills she was very thin and her system badly run down, but after taking the pills for a time, all symptoms of paralysis disappeared, and she found her health and strength renewed and her weight increased. Mrs. Stratton is about fifty years of age, and a more healthy, robust, and younger looking lady is seldom seen at that age.

In reply to the reporter's inquiry as to what Pink Pills had done for his wife, Mr. Stratton said: "Look at her, look at her, doesn't she show it?" and the reporter could not but admit the truth of the statement.

A MISSIONARY'S WORK.

One of the most melancholy features of our nineteenth century civilization is the large number of pale, listless young girls to be met with in every walk of life. Too frequently parents do not recognize that there is anything seriously wrong, until at last they are forced to admit that their child is in a decline, and when treatment is taken up it is often too late, and a loved one is followed to an untimely grave. A pale or waxy complexion denotes anæmia—in other words poverty of the blood—which, if not corrected in time, by gradual stages leads to an early grave. Among the symptoms denoting poverty of the blood, are severe headaches, loss of appetite, dizziness, fainting spells, violent palpitation of the heart on slight exertion, etc. In this emergency Dr. Williams' Pink Pills for Pale People are beyond all comparison the most valuable remedy known.

That the claims made on behalf of these Pills are not overstated is amply borne out by the following letter from the Rev. David Forbes, missionary, Poplar Dale, Algoma, Ont. Mr. Forbes writes: "I feel that I would be remiss in my duty did I not write to let you know the wonderful benefit derived by a young lady here from the use of your Pink Pills. Miss Mary Martin was taken sick two years ago, and all the medical treatment she underwent proved of no avail. Visiting the family in my capacity as missionary, I saw with sorrow that unless something was done to avert the progress of her trouble, she would not be long for this world. She was pale, almost bloodless, and subject to all the distressing symptoms which accompany anæmia and bring the victim to an early grave. I urged the parents to try Dr. Williams' Pink Pills. They acted upon my advice, and I am rejoiced that they have fully and entirely restored her health, and in the rosy-cheeked girl to-day you would not recognize the invalid of a short time before. The words of her grateful mother to me were these: "We have to thank you, Mr. Forbes, for recommending Dr. Williams' Pink Pills. They have saved our daughter's life and we are more grateful than we can say, and freely give you permission to send this testimonial, in the hope that some one in similar circumstances may be benefited."

STROKEN WITH PARALYSIS.

From the Simcoe Reformer.

In the early days of Methodism in Canada the gospel was spread abroad in the land by the active exertions of the circuit rider. It required a man of no ordinary health (and strength, an iron constitution and unflinching determination, to fulfil the arduous duties incumbent on one who undertook to preach salvation to his fellowmen. Many fell by the wayside, while others struggled on, and prospered, and a few to-day enjoying a ripe old age, happy in the knowledge that a lasting reward will soon be theirs. Rev. D. W. Williams, who lives two miles southwest of Nixon, Ontario, Norfolk County, was one of these early days circuit riders. He was a man of vigorous health, and without many advantages in the way of early education he succeeded by dint of hard and constant study in being admitted to the ministry. For many years he had been a sufferer from kidney and kindred diseases. He tried all kinds of remedies, and although sometimes temporarily relieved, he gradually grew worse until in October, 1885, he was stricken

with paralysis. From this he partially recovered his powers of speech, but it left his memory so poor that he could not remember the name of the person to whom he wished to speak without thinking intently for several minutes. In addition to this trouble he had intense bodily suffering; pains in the head, across the forehead, in the temples and behind the ears, across the lower part of the skull and in the joint of the neck. He had great weakness and pains in the back, hips and legs. In fact, so much did he suffer that sleep was almost an impossibility, and he fell away in weight until he weighed only 145 pounds. By this time, December, 1895, he became despondent, and felt that if he did not obtain relief he would soon bid adieu to the things of this world. On the 20th December he read of a cure in the Reformer by Dr. Williams' Pink Pills, and, being seized with a sudden inspiration, at once wrote to Brockville for a supply of this marvellous remedy. Immediate good results followed their use and he has improved wonderfully during the past year. He has recovered his bodily health and strength, is comparatively free from pain, and his memory is nearly as good as it ever was. Mr. Williams says: "I can bear witness to the many good things said of these pills in the papers, and strongly recommend them to any one suffering as I was."

A BROADMINDED DIVINE.

The Rev. Samuel R. Calthrop, D.D., is the pastor of the May Memorial church in Syracuse, N. Y., and one of the most prominent and popular ministers in the city. He was born in England, and received his scholastic training at St. Paul's school, London, and Trinity College, Cambridge. He came to Syracuse about '50, where he has labored ever since. We give herewith a good likeness of him and are allowed to publish a letter written by him last year to the editor of the Syracuse, N.Y. Evening News. It follows:

Rev. Dr. Calthrop, Syracuse, N.Y.

To the Editor of the Evening News:

Dear Sir—More than 35 years ago I wrenched my left knee, throwing it almost from its socket. Great swelling followed, and the synovial juice kept leaking from the joint. This made me lame for years, and from time to time the weak knee would give out entirely, and the swelling would commence. This was always occasioned by some strain like a sudden stop. The knee gradually recovered, but always weaker than the other.

About 15 years ago, the swelling recommenced, this time without any wrench at all, and before long I realized that this was rheumatism settling in the weakest part of the body. The trouble came so often that I was obliged to carry an opiate in my pocket everywhere I went. I had generally a packet in my waistcoat pocket, but in going to a conference at Buffalo, I forgot it, and as the car was damp and cold, before I reached Buffalo my knee was swollen to twice its natural size.

I had seen the good effects that Dr. Williams' Pink Pills were having in such cases, and I tried them myself with the result that I have never had a twinge or a swelling since. This was effected by taking seven or eight boxes.

I need not say that I am thankful for my recovered independence, and I may add that my knee is now far stronger than it has been for 35 years.

I gladly give you this statement.

Yours,
REV. S. R. CALTHROP.

A LONDON LETTER

Year 1898 Promises To Be Memorable for Canada—The B. A. Corporation.

Hon. C. H. Mackintosh Sent a Telegram to the Stockholders Which Made Them Cheer.

(From the Rossland Miner.)

London, Jan. 13.—I have not sent you any letters recently because things here have been very quiet. As usual, at the turn of the year business has been very much restricted, and the Canadian mining section has been no exception to this rule. The promoter has been taking a short rest, but that he has been very busy with British Columbia mines during for the past twelve months will be gathered from a perusal of a list of the British Columbia companies formed during 1897, while, if indications are to be trusted, there is every prospect of 1898 being a memorable one for Canada. Every day I hear of new companies in process of formation, whose objects are to be confined either to your province or Klondike, while quite a number of these concerns are of such a composite character that they include not only the two Canadian sections in question, but the whole Dominion. Of course, I need not tell you that the great interest shown in the Klondike discoveries is in a large measure responsible for the keen attention paid to British Columbia. On this side many people seem to think a company can very well carry on operations

both in your province and also in the Klondike, and this is responsible for the many composite titles which have already been registered.

So far as the market for Canadian securities is concerned, business has been very limited, but for all that the tone of this section has been steady, and all look for increasing activity in the next few months.

British American Corporation.

Among the chief companies introduced to the public since my last letter I must mention the British American Corporation, which is under the guidance of Lord Dufferin, Whitaker Wright and Mr. Mackintosh. This company has very quickly called its shareholders together, for the statutory meeting of this important concern was held on Tuesday. At that meeting it was announced that the company had not been able to complete the purchase of the Alaska Commercial & Trading Company, but prospects were regarded as eminently promising; Mr. Mackintosh sent a very decided cable as to that, which arrived on the eve of the meeting, and of which the following is a copy: "The British American corporation has secured, and holds the keys to a majority of the golden treasure houses of British Columbia. We will practically control the mineral resources of this province. I predict a brilliant future for the corporation and congratulate the shareholders." This was greeted with loud applause by the meeting. Lord Dufferin, however, made no reference to the actual position of the corporation in regard to the Le Roi; still the group is so strong a one that I shall not be surprised if it is able to secure this property and issue it to the English public shortly.

Mr. Sola's Company.

Mr. Sola, who has recently returned from the Klondike, and who has written an interesting book upon the far northern gold fields, is responsible for the formation of a company called the Klondike Bonanza, which is acquiring 73 claims on Bonanza creek, and 24 on Last Chance creek. The capital is \$150,000, but it is interesting to note that these claims will not be paid for until the directors can verify the title of the vendors.

Another concern, which has been formed is the Dominion, Fairview and Gold-ore Klondike Syndicate, Limited, which has a capital of \$180,000. This concern has been rather severely criticized and its advisory board seems only second rate.

Another small syndicate is Okanagan and Kootenay Development Syndicate, which, with a capital of \$10,000, will carry on the business of an exploration, trading, finance and general agency in the province of British Columbia and elsewhere.

I am told that Thomas Dunn, of Vancouver, will soon arrive in London with a parcel of Klondike claims, which he is said to have purchased for about \$2,000.

Rosslanders in London.

Ernest Kennedy, of Rossland, is now in London, and gave me a call the other day, in company with J. L. Parker. Before they go back they will probably make some arrangements regarding the representation of the properties with which they are associated in London. A. L. Fearse, of the B. C. Development and Fairview companies, is also back in town. I need not, I think, repeat that those British Columbia companies which wish to gain the ear of the English public will best achieve this object by opening a London office, and making arrangements for a register for a portion of their stock to be kept in London.

Mr. Roberts has arrived from Kootenay, and there are quite a number of British Columbians in town. There is ample evidence that this spring will witness a considerable exodus from this country to Canada of enterprising young Englishmen who wish to push their fortunes in either British Columbia or the Klondike. Among others I may mention Rollo C. Macleachlan, of Edinburgh, who is a son of the late General Macleachlan, of the R.H.A., who is leaving for Vancouver to-morrow, and proposes to go thence to Rossland.

A number of meetings have been held during the past few weeks. The Vancouver syndicate is among the number, and owing to the more hopeful outlook for this company, as reported by P. Comiskey, there has been a sharp recovery in the shares of this company. Callahan's name, of course, came up. The London British Columbia Goldfields were able to report satisfactory progress at their meeting, but the Lillooet and Fraser River Goldfields had but a melancholy record to present to the shareholders. The late engineer, Mr. Jamieson's connection with the company seems to have been unfortunate.

One of the leading Ontario properties held its meeting this week, namely, the Mikado, which is carrying on operations in the Lake of the Woods district. This company was able to announce that satisfactory progress was being made in the development of its properties.

So far, however, as we have gone, British Columbia has undoubtedly taken the first place in the estimation of the public in regard to Canadian mining enterprise—of course after Klondike. We are all looking to Klondike, for it is Klondike which has popularized Canadian mines and will probably be the best friend to British Columbia, for it will ensure the province a continuous free advertisement in Europe.

Has Issued Its Report.

Just as this is leaving, the British Columbia Corporation has issued its report, showing that after providing for debenture interest and transferring \$1,410 to overdue interest account, an available balance of \$2,311, \$1,875 of which the directors propose to distribute in the form of a four per cent. dividend, carrying forward the balance of \$436. The market is quiet and firm. Vancouver syndicates are 2 prem., War Eagle is quoted at \$8. 3d. to 5s., Dundee is 7 1/2, B. C. Development (Pence's company) 1 1/4, Canadian Pacific Exploration, 1 to 1 1/4, L. & B. C. Goldfields 3/4 prem., and Hall Mines 1 1/2. Klondike and Ontario companies are very dull, but New Goldfields of B. C. (Tupper's) are firm had quoted at about 3/4 prem. Fraser Rivers (Home Payne's company) are quoted at 1 1/4, 8 d.

HAD ONE WIFE TOO MANY.

Young Dry Goods Clerk Says He Must Have Been Hypnotized.

New York, Feb. 2.—Did young Edward A. Schirmer, a clerk in a New York dry goods store, try to form a trust when he married two pretty cashiers in four days or was he hypnotized? He attributes the matrimonial tangle that landed him in jail on a charge of bigamy to the hypnotic influence of some one not stated.

But the fact remains that both young women, one a golden haired beauty and the other a brunette, had nice easy jobs when they consented to share the lot of Edward Schirmer, and he graciously permitted them to continue to work. Dividends were declared weekly, it is said, until Mrs. Schirmer No. 2 exploded the trust.

On November 10 last Edward married Susie Grindler, aged 18 years, of Brooklyn. That same evening he escorted his

other fiance, Mary Russell, aged 22, to the theatre, and on November 14 he married Mary.

He and Mary rented apartments in West Tenth street and lived happily together except when Edward sojourned with No. 1 in Brooklyn, until three weeks ago, when No. 2 discovered the duplicity of the enterprising Schirmer. She set the police on his track and detectives captured him in Jersey City on Monday night.

When the bigamist was arraigned in court, his blue eyed Susie, who has forgiven Edward for keeping the wolf from the two doors simultaneously, gave him a kiss and a package of cigarettes as a mark of wifely esteem. Edward said little about himself, except to confess the marriage. He thinks he must have been out of his mind at the time of the second marriage.

INVESTIGATION NEARING AN END.

Columbia, O., Feb. 1.—The investigation into the alleged attempt to bribe Representative Otis to vote for Senator Hanna during the late senatorial contest is rapidly drawing to an end. The committee held a brief session after the senate adjourned last evening. Attorney T. G. Campbell was examined. No other witnesses were examined and the crowd of spectators who had gathered were somewhat disappointed.

COMPANIES STILL DO BUSINESS.

San Francisco, Feb. 1.—The foreign insurance companies under the ban of State Insurance Commissioner Clunie were transacting business as usual, and from all indications they propose to do so right along, leaving the courts to settle the dispute over bonds and taxes. They are prepared to fight the matter to a final issue and determine the exact position of a law which they claim has already been declared unconstitutional by the supreme court of this state.

Fitzsimmons' left fist, Tod Sloan's hands and Hamburg's legs earned the tidy sum of \$125,000 the year just closed. If the earning capacity of Jimmy Michael's shanks were included, the total would reach over \$200,000.

And it is hereby declared that the "Company" in this clause when not used in this company shall be deemed to include any partnership, or other political, mercantile, or otherwise, whether incorporated or not incorporated, and whether domiciled in the United Kingdom or elsewhere, and whether existing or to be formed, and whether existing under my hand and seal of office as Registrar of Joint Stock Companies.

No. 40-97.

Statement of the Registration of an Extra-Provincial Company.

"COMPANIES ACT, 1897."

"Giant Powder Company, Consolidated."

entered the 28th day of December 1897, I hereby certify that I have this day registered the "Giant Powder Company, Consolidated," as an Extra-Provincial Company under the "Companies Act, 1897," to carry on or effect all or any of the objects set forth set forth to which the legislative authority of the Legislature of British Columbia extends.

The head office of the company is situated at 439, California street, in the City of San Francisco, State of California. The amount of the capital of the Company is five million dollars, divided into ten thousand shares of one hundred dollars each.

The head office of the Company in this case is situated in the Adelphi Building, of Government and Yates streets, and Elmer B. Green, Manufacturing Engineer, of the same address, is Secretary for the Company.

The time of the existence of the Company is fifty years.

The liability of the members of the Company is limited.

The objects for which the Company has established are: manufacture, purchase, use and deal in and any of all other explosives and things necessary, and in connection therewith, to lease and hire, in, use, sell, loan and hire factories, and to use, or sell, or lease, or hire, or use of the products or services of the Corporation in the territories of the United States of America, and in all the States and territories of the world, and in the Provinces of Manitoba, Alberta, Saskatchewan, Ontario, New Brunswick, Nova Scotia, and Labrador, North-West Territory, and generally to perform any and all acts which are convenient or desirable for carrying out the purposes of this incorporation, under my hand and seal of office for the Province of British Columbia, on the eighth day of December, one thousand eight hundred and ninety-seven. Juneau Jail Buried the Records Destroyed and Prisoners Turned Loose.

Arrivals from Dawson City Report a Push of Miners to the Stewart River.

News was brought from Skagway early this morning by the steamer City of Seattle of a double murder which has caused excitement to rise to fever heat in the new city at the head of Lynn canal.

Those arriving on the Seattle believe that Fay has by this time paid the penalty of his crime, having been handed over to a citizens' committee, who were being urged to lynch him.

A fire at Juneau a few days before the Seattle started south destroyed the jail, all the records being burned.

The arrivals from Dawson were: C. Younger, Hugh Madden, Nelson; J. J. McDonald, J. Biglow, Charles Lake, C. C. Savage and M. J. McNeill.

J. J. McDonald and Charles C. Yeager, of New York, are registered at the New England. They are two miners who arrived on the steamer City of Seattle last night, having left the Klondike on December 20th.

The steamer Tees and Willapa are due from the north this evening. Both will sail again as soon as possible after their return.

San Francisco, Feb. 4.—The contest between Joe Choynski and "Tim" Ryan set to come off before the Empire Club next Thursday evening is off, as far as the Empire Club is concerned.

The Queen Goes North To-night—The Thistle and Richard III to Sail To-morrow.

The steamer Danube returned last night from Departure Bay, where she went to load 500 tons of coal to be taken north when she sails on Saturday evening.

The steamer Thistle is advertised to sail for Alaska points this evening, but is in full probability well on into to-morrow ere she departs.

Mr. F. M. York, local manager of the Mailand-Kersey Transportation Company, has purchased the steamer Maud.

The steamer Maude will sail to-morrow evening for Lewis Island, where the wrecked steamer Corona is hanging on.

The steaming schooner Oscar and Hattie and Fawn came off Turple's ways this morning and the steamer Transfer was hauled out.

The steamer City of Puebla sailed for San Francisco yesterday evening with a full freight cargo.

The steamer Tees and Willapa are due from the north this evening. Both will sail again as soon as possible after their return.

THE LIBEL SUITS.

To the Editor:—As a member of the English Bar and a stranger in this country, I may perhaps be regarded as expressing considerable astonishment at the line of criticism pursued against the recent libel case of the province of Ontario.

The following officers of the Northwest Mounted Police have been appointed by the provincial government: Supt. Steele, Supt. Perry Inspector Wood, Inspector Belcher and Inspector Strickland.

Notice is given in the official gazette by Messrs. Martin & Langley that at the next session of the legislature they will ask for a charter, empowering a company for whom they are applying to build a railway from a point at or near Observatory Inlet to a point on the Stikine River, near Glenora.

A party is being organized here to carry on dredging operations on the Hootalinqua river. The party will include Chief Cunningham and Sam Hutchinson, the electricians, and probably A. E. Belcher.

Notice of incorporation is given of the Mira Mountain Mining Co., Ltd. This company, which is capitalized at \$100,000, has its head office at Lytton, is formed to acquire the California group of mines near Lytton and do a general mining business.

The current issue of the Gazette contains notices of the registration of four extra-provincial companies, as follows: Byron N. White Co. of Milwaukee, with head office at Victoria, B.C.; "Gold Hill Mining Co." of Spokane, with head office at British Columbia; the "Monarch Gold Mining Co." of Northport, head office at British Columbia at Rossland, and the "Kamblor and Caribee Consolidated Gold and Silver Mining Co." of Spokane, head office at British Columbia at Kaslo.

More Companies Named Which He Helped to Promote. Fort Collins, Colo., Feb. 4.—Francis C. MINERAL ACT AMENDMENTS.

The K.M.P.A. Recommended to the Government Basement of Regulations.

The Kootenay Miners' Protective Association held a series of meetings yesterday afternoon and evening for the purpose of considering the mineral and companies acts, and securing amendments...

With respect to the mineral act, the chief amendment proposed was one which will enable the holders of a mineral claim to several years' assessment work upon the claim in one year...

Another amendment proposed has for its object the extension of certificates of record for work done upon the claims, for a period of 90 days. This is to provide for cases in which miners are delayed in their efforts to reach the record office and record assessment work.

The association congratulated the government for its promise to reduce the fees for water under the water clauses act.

The recommendations of the association with respect to the amendments of the mineral act are manifestly not in harmony with the suggestion of Provincial Mineralogist Carlyle that the holders of mineral claims should be required to do a certain amount of assessment work before being granted certificates of record.

In consequence of the great demand for the service, the Puget Sound Tug Boat Company have increased their fleet by adding two San Francisco tugs, the Rescue and the Monarch.

The steamer Boscowitz sailed for Wrangell yesterday evening laden with all the freight she could safely carry, and as many passengers as she could find accommodation for.

Messrs. Davidge & Co. are making arrangements for the purchase of the steamer Mist, which they propose to use as a ferry and tug at Wrangell in the service of the Wrangell Improvement Company, which is building wharves and coal bunkers and making other improvements at the mouth of the Stikine.

The work of building houses and store-rooms and other necessary works to fit the steamer Thistle for the Alaskan service is rapidly nearing completion, and she is expected to sail for the north tomorrow evening.

The steam scow Bonanza was blown on the breakwater in front of the Dallas Hotel this morning, and is believed to have been badly damaged.

The stern wheel steamer Louise will sail for Wrangell this evening. She will have a number of passengers who were crowded off the Boscowitz.

They are from Los Angeles, Cal., and are on their way to Victoria to outfit. They have come to Victoria to outfit, as they find they can do so more advantageously here than on the Sound.

MR. CARLYLE RESIGNS

Understood That He Has Entered the Employment of the British American Corporation.

Mr. W. A. Carlyle has resigned or is about to resign his position as provincial mineralogist of the British American Corporation, which has recently acquired properties in British Columbia.

Speaking at Rosland a few days ago of the offer made to Mr. Carlyle to enter the corporation's employ, Lieutenant-Governor Mackintosh said: "I have always considered that to make a proper beginning and to see that full justice was done to those who placed faith in my representations and invested in British Columbia, the very best of facilities should be secured."

It is understood that the salary to be paid Mr. Carlyle will be a princely one. Respecting this Governor Mackintosh said: "The salary paid to a good-man is of minor importance to the corporation, providing he has the ability to discharge the duties connected with it."

CORONA'S PASSENGERS.

Party of Thieves on Lewis Island Steal Their Shipmate's Outfit.

Fort Wrangell, Alaska, Jan. 29.—The steamer Oregon, of the Portland-Alaska line, anchored off Lewis Island, British Columbia, yesterday and rescued those passengers of the wrecked Corona who were not taken off by the Alder on Thursday. The sea was choppy and a fresh breeze was blowing from the direction of Dixon's entrance.

There is a big demand for pilots at present, particularly for men who have had experience in northern waters. Several of the officers of the C.P.N. boats have been offered handsome salaries to take charge of the steamer Oregon on the Sound and in the various bays and gulches between Victoria and northern British Columbia ports.

THE NEW BUILDINGS.

The programme for the opening of the legislature and the new parliament buildings on Thursday next, has been decided upon. Some of the rooms will be decorated, showing the advance that has been made in various branches of industry during the last quarter of a century.

LAW INTELLIGENCE.

Schultz and Powell v. Ruthven, Braden and Howe was partly heard before the Chief Justice this morning and adjourned until 10 a.m. to-morrow. In E. & N. Ry. Co. v. New Vancouver Coal Co., Mr. Pinder was cross-examined on his affidavit this morning and the enlarged hearing of the application to inspect defendants' mines is going on before Mr. Justice Walkden this afternoon.

THE RUSH IS ON US

Crowds of Men Arriving in the City Every Day to Outfit for the Gold Fields.

There Will Be Use for All Steamers That Are Coming to the Coast.

The best evidence of the fact that Victoria is receiving her share of the Klondike outfitting business is furnished by the passenger lists of the Sound, San Francisco, Mainland and Australian steamers. The arrivals from the Sound particularly are very large, the Kingston each morning bringing close upon one hundred passengers, the majority coming here to purchase outfits, and unlike those who came last fall, are not bringing a pound from Seattle.

The O.P.N. Co. will do their share towards handling this business. Already they have four steamers, the Islander, Tees, Willapa and Danube running to northern ports and shortly this fleet will be augmented by the Princess Louise, the Yosemite taking her place on the Mercur river route. Then they are outfitting the steamer Queen City for the trade.

Messrs. F. C. Davidge & Co.'s steamers, and the many other vessels that are coming to run direct from Victoria to northern ports, and those which call here en route, will get all the business that they can handle.

There is always room for another, however, and no one need fear that he cannot be served in Victoria. The business men were prepared for a big rush and they are getting it. The Steamer Oregon, of the Portland-Alaska line, anchored off Lewis Island, British Columbia, yesterday and rescued those passengers of the wrecked Corona who were not taken off by the Alder on Thursday.

MEETING OF LE ROI CO.

No Dividend This Month—Money Will Be Used by Buy Ore.

The regular monthly meeting of the directors of the Le Roi Mining and Smelting Company was held last evening, says the Spokane Spokesman-Review. The meeting was several hours in duration. In the absence of Mr. Stewart, the president, the directors decided to pay no dividend this month.

The programme for the opening of the legislature and the new parliament buildings on Thursday next, has been decided upon. Some of the rooms will be decorated, showing the advance that has been made in various branches of industry during the last quarter of a century.

THE STOCK MARKET.

New York, Feb. 3.—Business at the stock market here was not very active today. The market was steady, with some stocks showing sharp gains. The market became active in the first hour on active dealings. Sugar and Vanderbilts were elements of strength. A brisk demand developed for some usually neglected stocks, such as the following: Northern preferred continued buoyant and advanced seven points. Gains in the general list were small.

ADVICE TO MINERS

A Recently Returned Klondiker Gives Some Sound Advice to Prospectors.

All Land Taken Up Around Dawson, but There is Yet a Big Country to Prospect.

Ald. A. G. McCandless has received a letter from Mr. J. E. Dauchy, who went to Dawson City last spring, returning to Seattle on the Alki a few days ago. Mr. Dauchy gives some interesting facts about the Klondike and some sound advice to those who contemplate going there.

Seattle, Wash., Feb. 1st, '09. Friend McCandless—Am pleased to find that you are interested in the Klondike. I have not written to you before, seeing that you so kindly gave me a stamped envelope for my purpose, but the fact of the matter is I was too busy making money and you are not the only one who I have assigned my Klondike claims to.

I hardly know what will interest you regarding the Klondike as you are receiving from day to day the latest arrivals through the papers. The food situation is not as serious as a morbid public would have it. While in Dawson, I was dry goods clerk in the N. A. Trading store, and as well as that, I was also a miner.

It is not a question of the gold, but of the prospecting. The average man cannot do any prospecting to amount to anything but a waste of money. It is necessary that you should have a good outfit, and that you should have a good outfit, and that you should have a good outfit.
