MORE SENSATIONS IN
 NEW YORK ELECTION CASE.

Hearst Has Gathered in All the Ballot Boxes,
 But Election Board Won't Receive Them---
 Excited Mobs Block the Streets

NEW YORK, Nov. 9.—Sensational developments followed rapidly this morning in the fight of William R. Hearst to contest the majority election of George B. McClellan. Having secured last night an order from Justice Gaynor in Brooklyn directing the ballot boxes to the Board of Elections forthwith, the Hearst men lost no time in despatching fifty automobiles carrying men armed with the court's order to demand the boxes. In most instances these charges at police stations directed that the boxes be placed in patrol wagons and each lot, guarded by police, hurried to the office of the Board of Elections at West Forty First street. Meantime other Hearst men had gone to the home of John R. Voorhis, President of the Board of Elections, and arousing him asked him to go immediately to his office and receive the ballot boxes.

President Voorhis was surprised at the peremptory demand and was quickly informed of the court's order. Later he appeared at a window and addressing the Hearst men who fairly surrounded the house, said that he would not go to the office of the Board of Elections at such an unreasonable hour but that he would appear at his office and open the same at 9 o'clock, the usual hour today. At 5 o'clock this morning, wagon and automobiles filled with ballot boxes, police officers and Hearst watchers began to arrive at the office of the Board of Elections and an hour later West Forty First street in that vicinity was fairly impassable. Unable to get rid of their charges, there was nothing for the police to do but to await the opening of the office. As every twelve or fourteen boxes were guarded by five policemen, a most impressive array of officers were soon in evidence. As the morning advanced the remainder of the 8,000 boxes began to arrive and the Hearst watchers as numerous as the policemen helped to swell the crowd which was further added to as the report spread that some startling political move had been made necessitating a great body of officers to be of the office of the Board of Elections. When they failed to secure the presence of President Voorhis, the Hearst men called upon A. C. Allen, chief clerk of the board at his home. Mr. Allen could do nothing for them, and expressed the opinion that the court order had resulted from a misunderstanding. He said that the ballot boxes were to be opened in the hands of the police and stated, Mr. Hearst decided to act at once. He directed the police commissioner and all his subordinates in the five boroughs to turn over to the Board of Elections forthwith all the boxes containing ballots and stubs of ballots, and also to file with the county clerk every ballot box used in the election. John R. Voorhis, president of the Board of Elections refused early today to receive the official ballot boxes. Before refusing he consulted police commissioner McAdoo. Attorney General Mayer, corporation counsel Delaney and superintendent of elections Morgan were notified of the situation and the boxes were kept in the police stations in front of the office of the Board of Elections pending a decision by the corporation counsel. Mr. Voorhis said that the United States Supreme Court had held in a recent decision that the Board of Elections is not the proper custodian of the boxes but that the police are.

It was said this morning that the sudden move made by Mr. Hearst last night followed a report received by him that the ballot boxes were to be opened at work Tuesday night buying ballots. The report was further to that effect that the ballot boxes were to be opened while in the hands of the police and stated, Mr. Hearst decided to act at once. He directed the police commissioner and all his subordinates in the five boroughs to turn over to the Board of Elections forthwith all the boxes containing ballots and stubs of ballots, and also to file with the county clerk every ballot box used in the election. John R. Voorhis, president of the Board of Elections refused early today to receive the official ballot boxes. Before refusing he consulted police commissioner McAdoo. Attorney General Mayer, corporation counsel Delaney and superintendent of elections Morgan were notified of the situation and the boxes were kept in the police stations in front of the office of the Board of Elections pending a decision by the corporation counsel. Mr. Voorhis said that the United States Supreme Court had held in a recent decision that the Board of Elections is not the proper custodian of the boxes but that the police are.

When Mr. Voorhis refused to accept the ballot boxes he ordered that they be returned to the police station houses. At that time twenty-five police wagons were lined up in front of the office of the Board of Elections and policemen were unloading some of them. When they learned of the order of Mr. Voorhis they placed the boxes in the wagons again but did not at once return them to the police stations. Mr. Voorhis said he had asked the corporation counsel for an opinion as to whether he should receive the boxes and would not accept them until he had received that opinion. Mr. Hearst's order was obtained from Justice Gaynor after the circulation of a story that a printing firm had been turning out large numbers of facsimiles of the official ballots and that these were to be marked for McClellan and placed in the ballot boxes in place of Hearst ballots to be removed. The moment this rumor reached the Hearst headquarters it was decided that the ballots ought not to remain long in the station houses, and the application to Justice Gaynor was made as quickly as the papers could be drawn up. Among the attorneys aiding Hearst is William M. Bliss, the Republican candi-

dicate for mayor in Tuesday's election. Mr. Bliss volunteered his services to Mr. Hearst and the offer was accepted. Another attorney acting for Hearst is Judge John P. Dillon, who was at one time judge of the supreme court of Iowa.

HORRIBLE DETAILS
 OF MASSACRE.
 Women Missionaries Stripped,
 Mutilated and Murdered.

Two Drowned, One Stoned, and One
 Clubbed to Death—Child Flung
 In River and Speared.

HONG KONG, Nov. 9.—Dr. Machle, the American missionary who escaped the massacre at Lien Chow, confirming the previous accounts of the outbreak, adds horrifying details of the acts committed on the American women.

With the disturbances commenced the mob seized Miss Chestnut and Mrs. Machle and exposed them to public view in the Chinese temple. Amy Machle, a 10-year-old child, was carried off and flung alive into the river. While the two were struggling in the water the Chinese seized them with tridents. Miss Chestnut's body and Amy Machle's head were pierced. Mrs. Machle appealed to the rioters, but they stoned her brains out, stripped the body and flung it into the river. The mob then captured Mr. and Mrs. Peale, stripped them naked, exposed them for fifteen minutes, clubbed Mr. Peale to death in his wife's presence, and subsequently killed Mrs. Peale in the same brutal fashion.

MAY BE INQUIRY
 INTO MRS. EATON'S DEATH.

In reference to the suicide of Mrs. Ruth Eaton, an aged colored woman, which was exclusively reported in yesterday's Star, it has been learned that for some months back Mrs. Eaton has been dependent over her financial circumstances. Not that she had contracted any debts, nor had she at any time gone without food to eat and wear. But she had always worked hard and could not seem to accumulate anything.

On one or two occasions of late she was going to end her life, and urged that the daughter should be allowed to do so. The daughter, however, was somewhat more hopeful than her mother, and tried in vain to cheer up the latter and keep her from growing despondent.

It was 7:30 o'clock yesterday morning when Mrs. Eaton went down stairs and a few moments later her daughter found her on the floor. She died about ten o'clock.

Coroner Barryman at noon today had not decided on holding an enquiry.

The rental of the house was \$4 a month and Mrs. Hawks charged \$1 a month for looking after the plants. The magistrate gave judgment for the plaintiff allowing defendant \$2 for her trouble in taking care of the flowers.

Mutineers Sacked Cronstadt---City
 in Flames---Many Killed---
 Awful Slaughter of Jews
 Throughout Russia.

CRONSTADT, Russia, Nov. 9.—The troops here have mutinied and are pillaging the city. Firing is going on in the streets. The inhabitants are panic-stricken and are fleeing from the town. LONDON, Nov. 9.—A despatch to a news agency from St. Petersburg says that the sailors of the Russian squadron at Cronstadt mutinied last night overpowered their officers and landed and attacked the shops and public buildings and spirit stores. The troops were called out and fighting ensued, during which the machine guns were used and many persons were killed or wounded. In addition a number of houses were set on fire. The fighting lasted all night long.

ST. PETERSBURG, Nov. 9.—It is reported that a massacre occurred at Cronstadt last night and that the infantry using machine guns fired on the people. The city is reported to be in flames. Telephone communication with St. Petersburg is interrupted but the telegraph lines are working. The British Embassy here has requested General Trepoff to protect the British subjects at Cronstadt.

ODESSA, Nov. 9.—Authentic accounts here from various points in Bessarabia show that the anti-Jewish outbreaks were preceded by inflammatory speeches, gendarmes and city officials near the governor's house asserting that the Jews attempted to take the life of the local bishop and intended to loot the town. The mob thus incited started the bloody work. Carrying ikons and portraits of the emperor the mob proceeded to the Jewish quarters and devastated and pillaged unhindered. The attempts in self defense were stopped by troops. Most of the killed and wounded were victims of bayonets and rifle bullets. The looting was accompanied by atrocities similar to those witnessed at Odessa and continued for two days. They stopped as soon as the governor received an order from St. Petersburg.

Seventy Jews were killed and one hundred and twenty wounded. Order is now restored. A mob at Ismail, Bessarabia, burned alive eleven Jews who had hidden in a hayrack.

The town of Kalarash, Bessarabia, was entirely devastated and burned. Fifty-nine Jews were killed or perished in the flames and two hundred fled to neighboring villages where the peasants best a number of them to death with cudgels and burned three Jews after drenching them with petroleum.

LONDON, Nov. 9.—A despatch to Reuters Telegram Company from St. Petersburg says that the chancellor of the Governor General confirms the report of the resignation of General Trepoff.

WARSAW, Nov. 9.—A freight train on the Warsaw East line was derailed by strikers today near Nowa Minsk. The conductor was killed and several soldiers were injured.

PRINCE AND PRINCESS
 OF WALES IN INDIA.

BOMBAY, India, Nov. 9.—The Prince and Princess of Wales arrived here today on board the British battleship Renown. They were greeted with salutes and a band of music. They were accorded an enthusiastic reception by the crowds lining the sea front. The town and people alike are bedecked in the gayest holiday attire.

The Viceroy, Lord Curzon, went on board the Renown to welcome the Prince and Princess of Wales and a notable gathering of native chiefs in glittering uniforms and surrounded by their staffs and escorts, awaited the Royal visitors at the landing stage.

CASE OF GOOD LUCK.

(Church Times).

The Rev. Elijah Kellogg, the well known author of books for young people, lived in Harpwell, Me. A neighbor and fellow-farmer tells this story:
A few years ago I hauled wood from a place called Ireland, near Bath. Now, the road to Bath is very crooked, with many crossroads shooting off in all directions, so it's mighty easy to get lost.

"About a week after I'd got my wood hauled in Mr. Kellogg came to me and asked me to tell him the way to Ireland, as he wanted to haul some lumber from there. I told him the best way I could.

"Well, in about three weeks time I met Mr. Kellogg and asked him how he made it. 'Oh, first-rate,' says he, 'I

made it first-rate. I didn't get lost but twice going over and once coming back."

UNNECESSARY DELAY.

(Newport, N. H. News.)

When Father Cummings, once superintendent of the Little Wanderers' Home, was nearing the close of his career, he attended a watch-night service at his home church. The subject of the meeting was "The Brevity of Life." Father Cummings closed his testimony by saying: "It may be but a month longer that I shall be here, perhaps a week, or even before the close of another day I shall be gone." He had hardly seated himself when a young man in the back of the vestry started the old song: "Oh, why do you wait, dear brother, oh why do you tarry so long?"

Piano Tuning!

It is surprising how many people neglect to tune their Pianos. Not only is a Piano that is out of tune, not fit to listen to, but it is a positive injury to let a Piano run down and stand a long period without tuning. A Piano should be tuned at least two or three times a year.

We have a first-class tuner in connection with our office and would be pleased to have your orders.

ST. JOHN, N. B., NOVEMBER 9, 1905

THE KING'S BIRTHDAY.

King Edward VII. is 64 years old today, and all British hearts join loyally in the prayer that he may see and they may celebrate many more of his birthdays. And however long he may reign it is certain that each succeeding anniversary of his birth or his accession will bring more reason for the prayer and the celebration.

It was with an attitude leaning toward the critical side that the empire viewed King Edward's accession four years ago. His youth had not been free from folly and the work of his mature years was naturally obscured by the greatness of his beloved mother. So, for the majority of people, he was an untried man when the royal mantle fell upon him. His work during these years has more than justified the great hopes of those who did know him. Liberal, tactful, wise, broad and far-seeing, he has proved himself a great statesman. No man during the past century has done more for peace both within and without the empire than he. In a quiet, unobtrusive way his personal influence is more felt in Europe than that of any other man. Each year has added notable instances of his strength and of the wisdom and high ideals by which it is guided.

During the past year his greatest triumphs have been the cementing of the Anglo-French "entente," the averting of hostilities between France and Germany over the Morocco affair and the amicable settlement of the Samoan difficulty. France was in a very dangerous position at one time, and but for King Edward could hardly have avoided war without humiliating herself and in the other case it is well known that it was his wise advice to King Oscar, coupled with the influence he was able to bring to bear, on Norway through the royal house of Denmark, that brought about the peaceful solution of the problem created by Norway's secession. And also, though the chief credit must go to President Roosevelt, it is believed that diplomatic circles that, but for King Edward, the war would never have consented to the concessions which were necessary to end the war with Japan.

The dawn of the coming year is also clouded with international difficulties and if he lives until next November the ninth, it is certain that his subjects will have even more reason than they have today to throw up their hats for "Edward the Peacemaker" and cry with new fervor "God Save the King."

MUNICIPAL OWNERSHIP ENFORCED.

Whether Hearst or McClellan is finally established in the mayor's chair, the result of the New York election will be a victory for public ownership. Though Hearst was the candidate of the Municipal Ownership League, McClellan was not far behind him in his endorsement of the policy for which the league stands. He stood for the municipalization of the ferries and of gas and electric lighting of public buildings, bridges, markets and the like, and had proved his sincerity by carrying out this to a considerable degree during his term of office. Hearst went farther and demanded immediate city ownership of street and elevated and underground railways and about everything else now in his hand was decided position on the question.

The result of the polls shows that those who, either by Hearst or McClellan, endorsed municipal ownership outnumber the opponents of the policy by over three to one. This verdict, coming after Mayor Dunne's victory in Chicago on a similar platform, is a significant indication of the trend of public opinion in the United States today.

THE RESULT IN NEW YORK.

Even more than by the vote in Tuesday's election is the revolt of public sentiment in New York against the corrupt bossism of the party machines indicated by the general support accorded Mr. Hearst in his protest against the methods that secured Mr. McClellan's election.

This is not the first time by any means that Tammany has secured a majority of votes by means of bribery and intimidation and ballot-switching and plunging and violence. Never has this notorious organization fought an election on the level and everybody knows it. But until recently, though there has been no public uprising against such methods. Now, however, though every intelligent man in New York would rather see smallpox than Hearst in possession of the city, the recently quickened love for fair play and decency leads them to support this yellow demagogue in his justifiable protest against the fraud that undoubtedly defeated him.

For this remarkable and significant state of affairs many things are responsible. Chief among these are the exposure recently made of graft and corruption in politics and high finance, the militant attitude against such ends taken by the leading periodicals and newspapers of the United States and the splendid influence of President Roosevelt who by word and deed has labored through his whole career to inculcate honest public ideals and to make "the square

deal" the gospel of every American. Let us hope, for Canada's sake, that this revival of political independence and honesty on the other side of the line is not a temporary effervescence but a permanent reform whose spread may not be confined by national boundaries. For we need it sorely in this Dominion and are needing it more every day.

UNDER WHICH KING?

Between the decision of the county court of St. John, Judge Carleton presiding, and the charge of Judge Forbes of the St. John county court, an officer of the law in this town is liable to be confused as to his duty. Some time ago Chief Clark caused men to be arrested on the charge of prize fighting. The case ultimately came before the St. John county court and Judge Carleton decided that the proceeding was not a prize fight and was not unlawful. The chief of police accepted this decision and when similar occurrences took place he did not arrest the participants. From the same county court bench, but by another judge, the chief is rebuked for allowing an exhibition similar to that which had been vindicated as within the law. What shall an officer do in the face of these conflicting views? Must he obey the judgment of one judge, or the exhortation of the other?—Sun.

THE RAINBOW'S GOLD.

The journey done,
An' the goal is won,
An' the twilight shades descend;
But—the prize we hold
Is the rainbow's gold—
The gold at the rainbow's end!

A weary way
In dark an' day,
An' a foe for every friend;
The toll—the pain!
An' 'twas all to gain
The gold at the rainbow's end!

"The way it's been
Since the world of sin
Neath its burden had to bend;
Stars an' suns—
But the whole world runs
For the gold at the rainbow's end!"
—Frank L. Stanton.

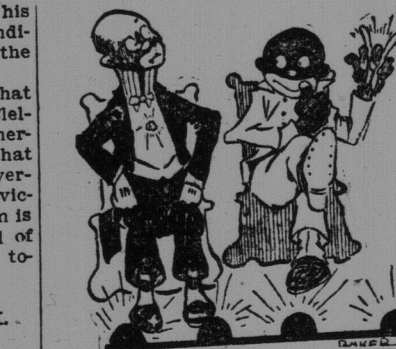

It suits everybody. What? Ungar's rubbers finish.

Noowedd—Yes, set—and found it guilty.

AN END ONE.

DEATHS.

KETCHUM.—On Nov. 7th, at 28 Garden street, Mary E., beloved wife of Geo. W. Ketchum.
Funeral Friday at 2.30 p. m., from her late residence to St. Paul's (Valley) Church.

LABOR TALKS.

FRED THE FOUNDRYMAN AND THE PROFESSOR.

Prof.—You machinists and foundrymen were not such fools as the lime burners of North End. They actually helped to make this law that degrades them below the other workers. You had lost much by accidents and knew the real value of a Workmen's Compensation Act. But if what they tell me be true, you don't deal honestly by your employer.

Fred—Honestly? We work the nine hours we are paid for. By the time we get home and cleaned up it takes nearly another hour.

Prof.—Don't you drop your tools, as if they were hot, just at the moment the clock or bell goes five? Are you ever five minutes before seven, and are you not often a few minutes after seven?

Fred—Well, don't we have to walk quite a distance? In New Zealand they allow you walking time.

Prof.—Bargain fair and keep it. If you have a New Zealand agreement stick to it. But you're a Canadian, an agreement of nine hours, and no walking allowance. Every minute you take away carefully at the stroke of five.

Fred—Tools are for the hand. The eye and brain direct the hands to use them. The tools we use are the concentrated thought of hundreds of minds centuries ago. We must reverence them. What means a saw, an axe, a monkey-wrench? You, in using them, have all the help of the thousands who used them in Solomon's time.

Christ's time, in the days of stone cathedrals and now in the time of iron towers a thousand feet high.

A kind master is kind to his horse and dog. So a good mechanic is careful of his tools.

Fred—Well, some of us are careful. You forget that we are driven pretty hard, but stick to your bargain and take care of the tools. Did you attend the meeting about Factory Act? No! And yet you cry out about pay and hours and smoky air. That is just what the Fabian League people were after and you neither helped nor attended. Read a little more, think more and lend a hand. You will feel better and all the others, both men and employers, will be better.

A DECIDED SLUMP.

(From the Chicago Tribune.)
The great man was disturbed in mind.

"Henry," he said to his private secretary, "have I done anything unpopular lately?"

"Not that I am aware of, senator," responded that functionary.

"Does there seem to be any prejudice taking shape in the public mind against me?"

"I know of none."

"Am I spoken of in a sneering manner by the public prints?"

"Not so far as I have observed. Why are you asking me these questions, senator?"

"Because Henry," said the great man, "I am convinced that the influences are at work. You know there is a brand of 5 cent cigars named after me. I presume?"

"Yes, sir."

"Well, they are selling them now two for 5 cents."

DIAMOND ADVICE.

PUT YOUR MONEY INTO DIAMONDS. Diamonds in your pocket also represent money—more money than you put for them after you have worn them a while, for the advance in prices is very marked and there is positively no danger of Diamonds depreciating in value in our time. Of course it is always necessary to choose wisely and pay the right prices when you make your selection; therefore it is essential that you should choose the gems at a responsible house and I have a record and a reputation I think enviable; and my very large stock of set and unset gems allows for the best selection in this city or province.

Respectfully yours

CLAIM DEAD MURDERER'S BODY.

SAN FRANCISCO, Nov. 8.—In addition to the claim made by Wm. Ellis, the Australian bookmaker, on the property of Milton Franklin Andrews, who killed his female companion and committed suicide on Monday last, when about to be arrested for the murders in the east with which he was charged, two other claimants have appeared. One is his wife, living at Holyoke, Mass., and the other, his brother in blood, Calvin E. Andrews, who lives at Hartford, Conn. The chief of police, of Holyoke, Mass., has wired the local authorities to that effect. The property consists of clothing, diamonds, worth about \$80, a valuable watch and \$100 in cash.

POINTS OF VIEW.

(Boston Herald.)

Robert Crossly, so well known as an evangelist, once had occasion to visit Boston. His natural habit of frugality led him to a cheap eating house at noon. There was a dish of olives on the table, intended for a gratuitous nibble. Mr. Crossly was fond of olives, and partook of them freely.

An Irish laborer who had seated himself at the same table, opposite the evangelist, observed with what relief the latter consumed the "little green plums." Taking one from the dish, which Mr. Crossly courteously moved toward him, he put his teeth into the fruit, and a look of surprise overspread his features at the unexpected taste.

Looking at the olive critically, he remarked as he laid it down: "Iy Jiggers, but that one was rotten."

Twice, and thrice, he made effort, with the same result. Sitting back in

his chair, he regarded the evangelist earnestly a moment, and then said: "Do ye eat them because ye like them?"

"Yes, my dear man," replied Mr. Crossly.

Quick and decisive came: "Yer a liar!"

Nobody outside the journalistic profession has any idea how difficult it is for an editor to please some of his patrons. For instance, referring to a public man's reputation for carelessness in the matter of his toilet, a paper announced: "Mr. Maguire will wash himself before he assumes the office of town clerk." This made Maguire furious, and he demanded a retraction, which appeared thus: Mr. Maguire requests us to deny that he will wash himself before he assumes the office of town clerk." Oddly enough, this only enraged Maguire the more.—San Francisco News-Letter.

LOCAL NEWS

The death took place about two o'clock yesterday morning at her residence on Bayview avenue, Fairville, of Mrs. Raynes, widow of the late John Raynes, for many years a well known lime kiln owner and operator at various points on the St. John River. Mrs. Raynes was in the vicinity of 60 years old, and until recently had been remarkably lively for her advanced age. Five children survive, three sons and two daughters. The sons are George, Thomas and David, all of whom reside in Fairville. The daughters are Mrs. Patrick Sullivan of Douglas avenue, and Agnes, who is married in British Columbia.

John Long, after an absence of thirty-five years, is visiting his sister at the Head of Millstream. Since leaving his home so long ago Mr. Long has been somewhat of a wanderer. He was married, his wife and children are dead. Only two of Mr. Long's sisters are now alive. They both live at the Head of Millstream.

The cost to the city for the reception of Prince Louis on his recent visit amounted to about \$850. At a meeting of the reception committee in the mayor's office yesterday, the financial statement was presented and passed. The committee had authority from the council to spend \$800, so that a further vote of \$50 or \$60 will be necessary.

The question debated last night at the meeting of the St. Andrew's church guild, "Is the church losing its hold on the people," was decided in the negative. Those who spoke on each side showed careful preparation and were quite eloquent in support of their respective sides of the question. After the debate had been decided the meeting was thrown open for all who wished to speak. His Honor Judge Forbes, H. R. Macaulay and Dr. A. D. Smith made a few remarks.

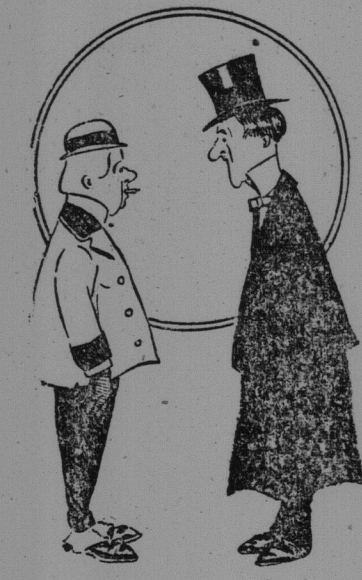

RADIUM MINE IN CALIFORNIA.

SAN FRANCISCO, Nov. 8.—H. C. Jones, a mining prospector and engineer, asserts that he has discovered a large deposit of radium ore in Kern county which is richer than the ore recently found in Gilpin county, Colorado, and much richer than Bohemian ore. His samples are of uranium carnotite, black oxide and pitch blends, all of which contain salts of uranium rich in radium.

Jones refused to tell the exact location of his discovery, but says he has known of the deposit for ten years. Recently he ground up some of the ore, extracted salts of uranium from it, spread these on a sensitized plate and in two hours in a dark room, radioactivity was photographed on the plate. Jones has sent samples of his ore to a New Yorker who imports from Bohemia, and the latter pronounces the Kern county samples radium ore from one-half to three-quarters richer than Bohemian ore. Jones says the ore is in large formation, and evidently of volcanic origin. He estimates that 2,000 tons will be necessary to produce one ounce of radium.

ACCIDENT ON MAINE CENTRAL.

The Atlantic express did not reach this city until after two o'clock this afternoon. The delay was caused by an accident on the Maine Central, a freight having jumped the track at Tomah, a station four-and-a-half miles west of Yonkers. Very little damage was done beyond the delay caused to trains. A special train was made up at McAdam and passengers from connecting trains north and south and at Fredericton were brought to this city only one hour behind time.

METHOD IN HIS MADNESS.

During the South African war one of the privates in a British infantry regiment performed a very gallant deed. He dashed forward from the trenches across the field, which was being swept by a hail of bullets, fired a wounded comrade in his arms and carried him safely into shelter. The colour, who witnessed the action, before

the day was over called the private before him, praised him for his heroism and told him he would be recommended for the Victoria Cross.

Later on the soldier was relating the incident to his comrades. "He said something about the Victoria Cross. I didn't think anything about it, crossed. What I know is that I wasn't going to leave Robinson lying out there with all the company's bones in his haversack." —London Tatler.

LONDON'S NEW LORD MAYOR.

LONDON, Nov. 8.—With the ceremonial ceremonies, Alderman Walter Vaughan Morgan was inaugurated Lord Mayor of London today in succession to Sir John Pount. The new Lord Mayor then drove through the streets to the law courts where he took the oath. The various associations of the city took part and the route was lined by immense crowds of people. Among the floats was one illustrating peace which was draped with immense American flags, a tribute to President Roosevelt's success in ending the war in the far east.

COMPARISON AND CRITICISM.

Any business school will offer the
"promise" of a situation. There is one
school in this city so perfectly organ-
ized in all its departments as to offer
you an absolute guarantee of a position
if successful in passing its entrance ex-
amination.

A school which is opposed to proper
organization and judicious canvassing
for the advancement and development
of business, is fifty years behind the
times. Any prospective student should
accept a free trial of one week at The
Currie Business University, Limited,
then test the methods offered by any
other school and compare.

This is the advice offered by the
school which is fearless enough to chal-
lenge any school to produce its trained
graduates (without office experience)
for comparison under the limelight of
criticism before any competent body of
business men.

The Currie Business University is al-
ways open to this test, and it would
be interesting to see which of the
schools' methods would prove the suc-
cessful one, though in the light of past
events it is not difficult to make predic-
tions.

GILBERT STEPHENS SENT UP FOR TRIAL.

He Admits Taking Money from William
McAllister, But Denies Intent to
Steal—\$17 Was Recovered

At the police court this morning the
case came up of Gilbert Stephens, ar-
rested on suspicion of stealing a pocket
book with \$28 in it from William
McAllister, a seaman on the schooner
Harry Miller discharging coal at Gib-
bon's wharf.

Detective Killen who made the arrest
said that McAllister called at the po-
lice station yesterday and said that he
had been drinking with Stephens and
that Stephens was supposed to have
taken his money from him in a house.
Witness found Stephens at the Gib-
bon's coal yard and asked him if he
had McAllister's money, and if so to
give it to him and there would be no
trouble about it. Stephens said he
did not take the money and never
saw it. Stephens said that he saw Mc-
Allister give the money to the engineer
at Gibbon's. The detective said he
then wished to search Stephens who
refused to be searched and the arrest
was then made. This morning in court
the prisoner called the detective to
him saying "I want to do what's
right. I took the money and hid it in
a cupboard in the work shop." He told
the detective to lift a jack-screw from
the cupboard and under a board he
would find the pocket book with the
money in it. The detective went to the
workshop and found the money where
Stephens said it was.

Kate Smith, who lives with Agnes
Williams near Sheffield street said
that McAllister and Stephens were at
her house night before last. Mc-
Allister handed his pocket book to
Stephens who paid for a few drinks of
beer out of it. McAllister was drunk
and lay down in the hall to sleep. Ste-
phens went out of the house with Lis-
sie Norman and left McAllister in the
house. Witness told McAllister when
he awakened that Stephens had his
money.

Lizzie Norman told of seeing Ste-
phens take McAllister's pocket book.
She stayed with Stephens until about
12 o'clock and left him on the street.

Wm. McAllister, sworn said he had
received wages to the amount of \$23.
When he left Josh Ward's bar on
Dock street he had \$28 in bills and
about 80 cents in change. He said he
wanted to go to Fairville and got in
a street car with Stephens, who said
he would take him where they could
drink. He was taken to the house of
Agnes Williams near Sheffield street
and after a sleep the woman told him
that Stephens had his money. Next
morning he asked Stephens for his
money and Stephens told him to go
about his business, that he did not
have the money. He then put the case
in the hands of the detective.

There was only \$17 in the pocket book
when recovered by the detective.

Stephens went on the stand and said
he was willing to make good the
amount he had spent out of the \$28.
He had taken it for soap and laundry
and hid it until he could pay back what
he had spent out of it.

He was sent up for trial in the
County Court.

ST. JOHN SCHOONER DAMAGED IN COLLISION.

The schooner William L. Elkin, Capt.
Dixon, got in trouble early on Tuesday
morning and was quite badly damaged.
The Elkin is principally owned by St.
John parties. The agent here is J. Wil-
lay Smith.

The schooner which is a big three
master, was driven to shelter in Light-
house Channel, near Boston, by a heavy
snow storm, and was at anchor when
she was fouled by the schooner Helen
Thomas, inward bound. The Thomas
fouled her in such a way that her jib-
boom was snapped off, the jibboom
guys on the starboard side and part of
the cathead carried away and jibboom
was twisted. The Thomas paid her
bobstay and lost a couple of turnbuck-
les off the misen rigging on the port
side.

Mr. Smith has had no advice from the
captain as to what he will do.

CLOTHES IN WASH; CAN'T LEAVE JAIL.

Today was civil court day and among
other cases that of Samuel Ritchie
against Norman Petrie claiming that
Petrie owed him board. Petrie was ar-
rested last Friday and was brought in
from jail this afternoon. The plaintiff
was not in court and the case was dis-
posed of. Constable Gibbon explained
that although Petrie was discharged
he could not leave as he was wearing
clothing he got in jail, and that his
own were in the wash. Petrie was al-
lowed to go back to jail until he could
get his clothes out of the jail wash.

WHY NO. 3'S FLAG DOESN'T FLY.

The flag at No. 3 engine house did
not float to the breeze today in honor
of the birthday of his majesty the king.
This was not because the men in the
house are not loyal but because they
did not have a man about who could
climb to the slender mast-head and
nail the bunting there. The trouble
with No. 3's flag pole is that there are
no hayrads there, and as a matter of
fact there have been none for about a
year. The members of the company
think it strange that the City of the
Loyalists cannot afford new hayrads
for one of their principal fire stations.

GOOD SUPPLY OF FISH.

The fish market will be well supplied
tomorrow, at least that is the opinion
of the local dealers who while having

noon a goodly quantity of halibut.

The prices quoted are:
Cod and haddock, 5c. to 6c. per lb.
Mackerel, 22c. to 27c. each.
Halibut, 12c. to 15c. per lb.
Smelt, 8c. to 10c. per lb.

TO UTILIZE POWER FROM REVERSING FALLS

Board of Trade Wants City to Pay
Expert Engineer to Look Into
the Matter.

The question of utilizing the Revers-
ible Falls, which came up at a recent
meeting of the Board of Trade, has re-
ceived the serious consideration of the
council of that body. A number of en-
gineers were corresponded with, and
their opinion asked.

The council has now sent a communi-
cation to the mayor, asking whether
the city would be willing to pay for the
expense of having an engineer report
upon the matter and estimate to what
use the falls might be put. It is calcu-
lated that such a report could be ob-
tained at only slight expense.

His worship, speaking about the
above, said that the idea of making use
of the water at the falls was an old
story, but with the late developments
in electricity and the late improve-
ments in machinery he considered the
matter worth looking into.

The Board of Trade's communication
will probably be considered at the next
meeting of the common council or at
the next meeting of the Board of Works.

SCANTY CELEBRATION OF KING'S BIRTHDAY.

There was no general celebration of
the King's birthday, and around the
streets people seemed to be unacquaint-
ed with the fact that this is the natal
day of his majesty.

The display of bunting was very
small, no doubt chiefly on account of
the wet weather. At ten o'clock almost
the only flag flying around the city
was at the post office. Shortly after-
wards the flag was raised on the cus-
toms house, and gradually on the rest
of the public buildings and on many of
the private buildings.

No special programmes were carried
out in the schools, but in most of the
rooms the teachers called the scholars
attention to the day.

At twelve o'clock a royal salute was
fired from Fort Dufferin in honor of his
majesty. The salute was fired by No.
4 company, under command of Capt.
Zaker.

The Marlborough lodge, Sons of En-
gland, held a patriotic concert at Union
hall tonight.

noon from Fredericton.

noon from Fredericton.

rived in the city this morning from

fined to his house for the last few days
expects to be out again on Monday.

TOOTH HINTS!

"When ought we to go to the dentist?"

Many think it unnecessary to devote
particular attention to the teeth until
the appearance of the mouth is affected
by decay, decayed or broken teeth.
Others give their teeth no attention till
pain compels them.

The stumpy and short-sightedness of
either policy is evident.

Every one who thinks a moment on
the subject knows that we cannot mas-
ticate our food satisfactorily if one or
more of the teeth are tender, inflamed,
decayed or otherwise out of working
order; and that if this be the case the
mouth requires immediate attention.

HEADACHES!

No doubt there are other causes for headaches than fatigue of the eye
muscles, but when so many cases respond with such quickness to treat-
ment based on this hypothesis it is advisable that all sufferers should try
spectacles or eye glasses if defects that are remediable with glasses can
be found.

Our opticians will tell you if such defects are present.
