VICTORIA COUNTY LIQUOR CASE BEING HEARD HERE Judge McKenna Asked to Decide in a Matter Affecting Hugh Johnson's License. A regular liquor case was up before the Hon. Mr. Justice McKenna in the Supreme Court Chambers this morning. The case arose in Victoria county and an application to cancel an extension of license of one Hugh Johnson, near the boundary line of that county. One David Lemmings is the applicant and makes the application on the ground that the liquor commission has no authority to grant a second extension. T. J. Carver of Andover, counsel for Commission, argued that the application should have been by complaint before a Judge of the Supreme Court instead of a petition to the full bench. Also that the granting judge had jurisdiction in matters of this nature to deal with improper sales of licenses. Mr. Jones of Woodstock, counsel for the applicant, argued contra. Inspector Mallory gave evidence as to Commission respecting the issuing of license. At the conclusion of the case His Honor reserved judgment. His Honor is leaving this case under way by virtue of Section 31 of the Liquor License Act.

SAILING RACES AT WESTFIELD TOMORROW The special race for salmon boats and the sail off for second place in class "A" series, Woodman's Point plate race, will be recalled on Saturday, September 4th, with the same course and type. This will likely be a very closely contested race, and great interest is being taken in the result.

WILLARD'S AEROPLANE FELL INTO THE LAKE The Trial Flight Was Not a Great Success Western Farmer Killed by Son-in-Law's Hired Man---Toronto Fire Loss is \$650,000---Nurses' Convention

TORONTO, Sept. 3.—An emphatic denial was given last night to the report that the fire brigade was late in reaching the scene of the recent blaze in the Parliament building. The fire chief declared that there was no delay whatever and claims the brigade ignorantly fought the flames from the outset. The Parliament buildings will be extensively improved as a result of the conflagration. Contracts will be awarded at once for the construction of a new wing. A fire-proof roof will be placed over the entire building. The sprinklers have been busy at the building, estimating the damage. The loss today was estimated at \$650,000. Willard's aeroplane came to grief yesterday afternoon when the aeronaut attempted to make a trial flight. After he had just got well started something in the machinery went wrong and the aeroplane fell into a lake. Fortunately the occupants escaped without injury.

LONDON, Sept. 3.—At the annual meeting of the Canadian Nurses' Society held in Toronto last evening, Miss Brent of Toronto was elected president of the society. Considerable routine business was transacted. SASKATOON, Sask., Sept. 3.—Arthur Scallie was shot dead near Harold Hope, 18 years old, the hired man of his son-in-law. Scallie and son-in-law had up a quarrel over the latter's refusal to lend a horse to Scallie, when young Hope ran in the house and getting a shot gun and shot the man through the heart.

EXPECT AN ARREST IN FREDERICTON ROBBERY Although There Seems No Particular Foundation for the Rumor---Detective on the Case.

FREDERICTON, Sept. 3.—The robbery at the C. P. R. station still remains as much a mystery as ever. All kinds of rumors are current, but up to one o'clock today there seems to be no clue of the guilty party, and though it is rumored that an arrest will be made some time today there is really nothing to support such a rumor. Mr. Beach still continues as an employee at the station, and says that he can give no further account of the transaction. He says he may have mailed the envelope and he may have left it somewhere other than on the table. All he can say is the money has disappeared, but how remains a mystery. A secret service detective of the C. P. R. is expected to arrive this morning and investigate matters. If he has arrived his coming is kept dark. The C. P. R. is most reticent in giving out any information and simply report there is nothing new. The feeling is quite prevalent that the guilty party will be discovered.

CANADA NOW HAS AN AERONAUTICAL SOCIETY It Has Been Formed to Promote the Science---Young Farmer Killed While Duck Shooting.

KINGSTON, Ont., Sept. 3.—Stanley Scallie, a young farmer of Sibleham, was killed yesterday while out duck hunting. He was in the act of stepping into his boat when his gun was accidentally discharged, his contents entering his right lung. Scallie leaves a widow and one child.

KEEPING PHOTOGRAPHS OF THE UNKNOWN DEAD PITTSBURG, Sept. 3.—A gallery of the dead in which he kept a thorough system of photographs and measurements of every unknown person brought to the institution has been established at the county morgue. It is said the gallery is the only one of its kind in the country.

SAYS DR. COOK'S FLAG WILL SOON BE DRIFTING SOUTH THE VALUE OF COOK'S SUCCESS TO SCIENCE Sir Robert Ball Tells What It Means Exact Knowledge of Polar Conditions Will be of the Highest Importance---The Pole a Unique Spot.

NEW YORK, Sept. 3.—A London despatch to the World quotes Sir Robert Ball, professor of astronomy at Cambridge University and one of the most distinguished of British scientists as saying of Dr. Cook's discovery of the North Pole: "Two questions being asked all over the civilized world today are: First, why does any one want to go to the North Pole; second, how does he know when he's there? To answer the second question first, the manner which finds his latitude in the northern hemisphere to be 90 degrees knows he can be nowhere else than at the North Pole. The astronomer will tell you that to anyone standing at the North Pole the sun rises and sets only once a year, six months daylight, six months night, mitigated only by a little twilight at the beginning and end of a period of awful gloom, broken by occasional moonlight or aurora. "The pole is truly a unique spot on the globe. A plum line in his hand the south westerly way he looked he was more than 20 miles nearer the centre of the earth than if he stood at the equator. His weight was greater than anywhere else on the surface of the globe. A plum line in his hand pointed vertically upwards to the pole of the heavens, around which all the stars revolve. Half of the stars he could never see, the other half never went below his feet and would have been visible throughout the six months of night. "The famous constellation Orion ever the north and around the horizon. The pole star stood directly over his head. The gain to knowledge from Dr. Cook's discovery is incalculable. There still is much to learn of tides, currents and the ocean. Meteorologists have a perfect torrent of questions to ask of anyone speaking with authority from the North Pole. But there is another problem of the highest importance, justifying all efforts to discover the Pole. Many scientists believe the Arctic regions have borne at certain times in the mighty epochs of our globe a very different aspect from now. The ice and snow which preserve the mystery of the Poles, probably have not existed continuously throughout the ages. It is believed that in the course of geological time the regions around the Pole have more than once enjoyed a temperate climate permitting highly organized animals and delicate plants to flourish. If specimens of rocks containing the remains of fossil animals and plants have been brought home, the scientific value could not be exaggerated. Thus and thus only could a very great chapter in the history of the earth be written. The Poles are explored man's knowledge of his dwelling place will be sadly defective. To mariners, Cook's momentous exploit must bring especial gratification. Hundreds of their hardiest forefathers have sacrificed their lives in the great quest which is now their prize before the aviators have had time to snatch it from them."

JUMPED FROM TRAIN AND WAS FATALLY INJURED James B. Hill, Who Had Escaped From County Home, Became Desperate When Recaptured.

PITTSBURG, Sept. 3.—Desperate on account of his capture by the authorities of the county home at Goodville, after his escape last month, James B. Hill, Jr., aged 28, leaped from the train which was conveying him to the institution and received fatal injuries were being taken to a corn roaster, was struck by a freight engine at the Saint Clair crossing of the Williamsburg branch of the Pennsylvania railroad. Dorothy Henderson and Edna Envelope of this place were caught in the upset wagon and dragged a great distance. Both were injured internally and the condition is critical. The seventeen others, all young women and men, were painfully cut and bruised.

WILLIAMSBURG, Pa., Sept. 3.—Nineteen persons were severely injured, two probably fatally, last night when the hay wagon in which they were being taken to a corn roaster, was struck by a freight engine at the Saint Clair crossing of the Williamsburg branch of the Pennsylvania railroad. Dorothy Henderson and Edna Envelope of this place were caught in the upset wagon and dragged a great distance. Both were injured internally and the condition is critical. The seventeen others, all young women and men, were painfully cut and bruised. The Maritime express was nearly two hours late in reaching the city this morning, the delay occurring in the northern section. The Boston train was forty minutes and the Atlantic express three-quarters of an hour late. Heavy travel is reported on all lines chiefly due to vacationists returning home and this accounts for most of the delay.

John Corrier, who is employed by John O'Regan, and working on his farm at Spruce Lake, met with a surprise yesterday afternoon. He had reason to go to the lake, and when he did he saw an unexpected sight in a whole army of rats, each one of which he says was as large as a good-sized cat. Seeing a club he determined to double the sum as much as possible and succeeded in laying cold ten of the creatures. This is certainly breaking the record as a rat killer. The size of the rats was surprising, and none of such dimension has ever been met with on the shores of Spruce Lake before.

St. John music lovers will be interested in the recital to be given in St. John's (Grove) Church on Sept. 25, by Mr. Edward Manning and Miss Angela Miller. Mr. Manning has pursued his musical studies in New York and Berlin, where his songs (already known in New York) have been well received by Berlin artists. Miss Miller won the Mendelssohn scholarship at Columbia University and has studied at home and abroad. Her compositions have received complimentary notice in New York musical circles. The programme for this recital promises a musical treat which will be much appreciated by the St. John public, and will afford a pleasant surprise to those who have not already had the privilege of hearing these artists.

FOR IMPERIAL RECIPROcity Berensford Believes in the Preferential Tariff Plan.

TORONTO, Sept. 2.—Addressing the Canadian Club today Lord Charles Berensford said: "I want to talk to you on an Imperial question, and in that question there is no suggestive attitude intended. I believe we should have a reciprocity tariff over there to keep other people out when our own comes in. Of our trade, \$240,000,000 comes from the Dominion. There is a great deal in the argument that we should buy in the cheapest and sell in the best market, but you can't do that if you hurt your own people. A foreigner comes in and dumps goods cheaper than we can sell them. I think the old country's beaten under the old system of free trade and should go to a protective tariff. Take your own country. Where were you before 1873? After that you put on a tariff. Since then you have grown up by leaps and bounds. Look at your bank deposits. I think you would find them enormously increased to what they were before 1873."

HAMBURY WILLIAMS GETS WELL MERITED PROMOTION Made Brigadier General in Charge of the Scottish Forces.

OTTAWA, Sept. 2.—Colonel Sir John Hambury Williams, military secretary to His Excellency the Governor General, has been promoted to the rank of brigadier general in charge of the Scottish forces. He is the youngest of the Scottish command. He will leave Canada in a few weeks to assume his new and important position in Scotland. Sir John came to Canada with Earl Grey four years ago and has been one of the most generally popular and capable secretaries to vice royalty in the history of the Dominion. Before coming to Canada he served with distinction in the Sudan and in the South African campaigns, and was mentioned in dispatches for distinguished services. He is knighted last year on the occasion of the Queen's jubilee celebration. It is announced from Government House that His Excellency Earl Grey has accepted the invitation to lay the corner stone of the new provincial parliament buildings at Edmonton, on October 1st, and at Regina on October 4th.

STICKS AND STONES HURLED AT CONSTABLES WITH DEBTOR While arresting a debtor last evening Constable Sherwood and another constable of a few months' standing were followed from the North End to central police station by a mob consisting of about two hundred men and boys, who for some reason or other hurled missiles of all sorts at the constables while they were performing their duty, with the result that Sherwood received a bad gash in the back of the neck and the other constable serious injury only by an accident.

Daniels Lowers His Record. ROCHESTER, N. Y., Sept. 2.—Before a gallery of about 600 persons, the New York Athletic Club swimmers, lowered his own record of 12 minutes 53 3/4 seconds for a dash of 800 yards by more than forty seconds. Daniels performed his feat in Trout Lake, Seneca Park, north of the city, and went the distance in 12 minutes 18 3/4 seconds. The new record, while not world's mark, will stand as a championship record in the annals of the American Athletic Union.

DETROIT CAPTURES THE WHOLE SERIES Boston Americans Again Defeated SCORE 8 TO 5

DETROIT, Mich., Sept. 2.—(American)—By beating Boston today, 8 to 5, Detroit accomplished the unusual feat of taking every game played with the four eastern clubs in the series closed by this contest. The victory was achieved by scoring enough runs in the first inning to give the team an advantage all the way. Boston hit harder than Detroit, but the latter scored in daring style, and took advantage of errors. The score: Detroit ... 8 0 0 2 1 0 2 8-5 0 Boston ... 0 0 1 0 3 0 2 0-5 0 Batteries—Willitt and Stangor; Collins, Pope and Donohue. Time, 1:34. Umpires, Ferrin and Bryan.

BOSTON WINS A GAME. BOSTON, Mass., Sept. 2.—(National)—Boston won the first game of a double-header from Pittsburgh, 1 to 0, and the visitors captured the second, 5 to 3. It was the first time since the season was completed that Boston has won a game in the first contest. Curtis held the victors to five hits and his good support saved several runs. Matters was hit hard in the third innings of the second game, and this was practically the deciding factor in Boston's defeat. Score: Pittsburgh ... 0 0 0 0 0 0 0-5 1 Boston ... 5 0 0 1 0 0 0-5 0 Batteries—Phillips, Carnitt and Gibson; Mattern, Richte and Shaw. Time, 1:24. Umpires, Higler and Johnson.

LAJOIE MENTIONED AS A YANK NEXT YEAR A New York newspaper states that Napoleon Lajoie, of the Cleveland Naps, is to play second base next year for the Yankees. The deal is authentic since it comes from a close friend of President Frank Farrell of the Hilltop Club. According to the report, Lajoie will be paid \$100,000 for the season. Lajoie will join the Yanks when they go south for the training in next spring. What money consideration figures in the alleged deal as a matter of fact, but it is certain that the Yanks, Farrell will have transferred considerably cash and perhaps added a strong player or two. Willie Keeler and Joe Lake are mentioned in this connection.

Uncle Walt The Poetic Philosopher

I believe a fellow's conscience is a pretty faithful guide; if he follows where 'twould lead him, he won't stray so very wide. When I'm hustling for a living in the city's busy mart, I'm so full of schemes resplendent that the voice down in my heart doesn't have a chance to warn me and I do some doubtful trick, going to my shack at evening feeling sure that I'm a brack. When a man has nailed some where 'twould lead him, he won't stray so very wide.

FEAR BERNIER HAS PERISHED IN FAR NORTH

MONTREAL, Sept. 2.—A good deal of anxiety is being expressed in government marine circles over the disappearance of Capt. Bernier, Canada's ambitious explorer. Capt. Bernier left Quebec on a voyage to the Northern

CAPT. BERNIER.

Seas in July, 1908, and since then no direct word has been received from him. The last word received of his expedition on the government ship "Arctic" was last October, nearly a year ago, when whalers returning to Scotland reported that Bernier's expedition had been planting the Union Jack on a good many of the islands of the Arctic Sea. Since then silence has prevailed as to the expedition, and no mention of it has been made by Scottish whalers who returned this summer. Mails were sent to Scotland to be forwarded to the Bernier expedition by whalers, but it is not known whether they reached their destination or not.

Bernier went North with a well equipped expedition to make surveys and to collect customs duties from American whalers. He was always anxious to go in search of the Pole and it is thought that after concluding his regular work he may have found a favorable opportunity and started on a voyage of discovery. On his other expeditions Capt. Bernier always managed to send fairly regular word of his movements to the Dominion Government, and Mr. R. A. Wallard, of the Montreal Agency, says that the news of his disappearance was a surprise to him.

WOMAN ONCE RICH IN JAIL FOR THEFT

Former New York Resident, a Victim of Morphine Arrested in Chicago

CHICAGO, Sept. 2.—Mrs. Frances Everett, 40 years old, who said she once mingled in New York society and that she had wealthy relatives in the east, told a pitiful story to Municipal Judge Torrison today after pleading guilty to a charge of larceny.

Mrs. Everett was charged with stealing silver and clothing valued at \$75 from Mrs. E. Mullen, owner of a boarding house.

"I beg you to be lenient with me," Mrs. Everett said to the court. "I am an unfortunate woman. I was addicted to the use of morphine for more than a year, but that does not mean that I am a bad woman."

"I was a wealthy woman once. My father is a graduate of Yale. I have been to Europe six times. I was married to Frank Roberts in 1881, and we lived for a time in Elizabeth, N. J. Frank was killed and I fell heir to \$50,000."

"In 1881 I married a man named Boist, a grocer in New York. I eventually became penniless."

AMUSEMENTS

THE VOLUNTEER ORGANIST.

The plot of William B. Gray's famous pastoral play, "The Volunteer Organist," which is booked for Labor Day afternoon and evening and the following two days at the Opera House, revolves around a broad-minded young clergyman who falls in love with the tavern-keeper's daughter and who chafes to take part in the church services unless the young woman resigns from the choir. The minister calls for a volunteer organist, and a tramp, who has been hanging around the village for some time, responds to the invitation and plays. The tramp turns out to be a long-lost brother of the clergyman and happiness is meted out to all deserving of it while the wicked are shown the error of their ways.

NICKEL TODAY, SATURDAY AND MONDAY.

This afternoon, tonight and all day Saturday, including the monster farces, the matinee of the Bush children, the Nickel will have a grand programme for its patrons. The string quartette will have four numbers, different each day, and a complete new picture show is on. In this latter, particular the great feature reel is "On Another Man's Pass," a comedy-drama of Chicago criticized as the "best film of the month" by the leading film journals. A magnificent travel picture is "The Parks of Berlin" and a dramatic offering is Selig's "The Heart of a Race Trail." Mr. Cairns is singing a prettily illustrated ballad and the Orchestra has novelties.

On Monday the Nickel presents a new array of talent. The Marchands are two highly-cultured operatic singers, she a high soprano, he a tenor of excellent quality. They render the best of selections in appropriate costumes. They will fully maintain the Nickel's high musical standard. Little Pauline Barry is the New York Journal's prize-winning beauty child and her songs and dances will surely please. More particulars Saturday.

TWO JONES PICTURES AT H.H.H.

Today the H. H. H. has a splendid programme of pictures, including two of the famous "Jones" pictures by the Biograph Co. Mrs. Jones' Love is "Who's My Hat?" is one of the funniest of the Jones series. Jones gets jealous just because he found a woman's hat in the house, and Jones, when he gets jealous does some very funny things. The second Biograph picture is "The First Quartet." It is a companion picture to "The Would-Be King" and those who roared at that picture will laugh even more at this one. The young couple are married, and Charley wants a night out, and the boys invite him. The fun starts then and it keeps up. The close of the picture will be a cyclone of laughs. The Little Gypsy is a strong drama. Prof. Titus has two splendid songs in the Hungarian Love Song, and Everybody Loves Me But the Girl I Love. Rumors are once more about that great Crowley is Lydia Dreams. The management are prepared to prove the contrary or forfeit \$50,000. They sang three new numbers yesterday—Shine On Harvest Moon, Sonora, and Come to the Land of Bohemia. Only two days more to see him, and those who have not yet done so should see him at once for he's an artist.

SPAIN HAS FUNDS TO CONTINUE WAR

Minister of Finance Denies Rumor Loan is Needed, Declaring Reserve is Ample

MADRID, Sept. 2.—A cabinet council today discussed the operations at Mellilla and the negotiations with Sultan Mulay Haid's envoy, which are dragging along. It is probable the special envoys will remain here a long time yet.

Statements that foreign influence is thwarting the action of the Spanish army and that limitation of its action by the government are strongly denied by the government. Senor Alendarez, the Foreign Minister, declared today to Madrid newspaper correspondents that peace will be established when the Kabyles have received merited punishment.

General Linares is said to have submitted to the King a decree calling up yearly 65,000 recruits for instruction.

The rumor that a loan would be asked for has been denied by the Minister of Finance. He says the stock of gold in the treasury amounts to more than 7,000,000 pesetas. There is, besides, the cash ready for the payment of the next dividend on the funds.

The King has ordered the picture of Captain Murguero to be hung in the officers' room at the palace. Captain Murguero was one of the King's aides-de-camp and was mortally wounded in the fight of July 27. When he fell he handed his insignia as aide-de-camp to a soldier in order to prevent it from falling into the hands of the enemy.

BURGLARS ENTER A CHARLOTTE ST. CLOTHING STORE

Henderson and Hunt's Broken Into

Amount of Loot Unknown-- Burglars Compelled to Climb Roof

Late Wednesday night or early yesterday morning a daring break was made into Henderson & Hunt's clothing store on Charlotte street, where no doubt the robbers got away with a quantity of pilage.

At six o'clock Wednesday evening the employees of the store left the building with everything safe and secure. When they went to work at eight o'clock yesterday morning it was discovered that a daring break and robbery had been made.

The thieves in the night had entered by way of a back window. The building in the rear of the store, in which the workshop is, is lower than the store building. The robbers had climbed upon the roof and had broken through a large window. In order to enter the main store they then broke the door entering it clean off its hinges, after which they probably started in to make a haul.

The police were informed yesterday of what had happened, and Detective Killen is now working on the case. He, however, has very little on which to work, as he is neither acquainted with the whereabouts of the men, nor would he know if he happened to meet them. His only chance is to trace some of the goods stolen and locate the person from whom they came.

Mr. E. A. Harrison, speaking to The Sun last evening, stated that there was no indication as to the number of persons who entered the store, and they left no trace whatever beyond the broken door and window.

There was a small amount of money in the cash register, but this was not stolen, probably because the cash register had a combination. He was unable to say what or how much had been stolen, as it being a clothing and haberdashery store, there are many different kinds of goods and much of each kind. A valuable lot might not be missed, and it is believed that having once broken into the store, the robbers did not go away empty-handed.

BOY SAVED LIFE OF FOUR OTHER CHILDREN

When Rowboat Upset, Although He Had Only Learned to Swim This Summer.

CORNWALL, Ont., Sept. 3--A case deserving recognition at the hands of the Royal Humane Society has occurred near Sheek Island. Five children were rowing in a punt from Sheek Island to Harbair's for a picnic, their parents coming behind in a row boat. The punt struck a swift side current and it upset, throwing all five into the water. Bert Yates, sixteen years who learned to swim only this summer, displayed great presence of mind and managed to keep the other four above water until the second boat came along, when all were picked up and the party returned to Sheek Island. A young lad named Shaver was unconscious when rescued.

AMERICAN SCHOONER REPORTED IN DISTRESS

While Dismasted and Helpless Supplies Gave Out--Steamer Furnished Food But Could Not Tow Her.

PENSACOLA, Fla., Sept. 3--The British steamer Everilda reported at the custom house today that she passed the American schooner Henry Crosby, of Bangor, Me., about 200 miles southeast of Cape San Antonio. The schooner had been dismasted in a hurricane and asked to be towed to some port, all her supplies having become exhausted. The steamer could not tow the schooner, but furnished her with sufficient supplies to last her until she could receive assistance.

THE COURT SMILED.

ANNAPOLIS, N. S., Sept. 3--Rather amusing features enlivened the proceedings in an assault case being tried before a county J. P. a few days ago. Emphatically denying a charge of drunkenness, the prisoner produced a bottle of brandy to strengthen his argument. Drinking about one-third of the contents he challenged his informant to a similar test, which was immediately accepted. Just to try the strength of the remainder his Honor drank also and in a few minutes a more friendly trio was never seen. The court was broken up without the customary adjournment.

ROOSEVELT TURNS UP WITH HIPPO TROPHIES

3,000 Smiths Get Together in Big Reunion.

Catholic Institutions Benefit by Bequests—Killed by a Falling Log—Details of Monterey Disaster.

GOVERNMENT FARM, Nalvasha, B. E. A., Aug. 1—Colonel Roosevelt, accompanied by Major Mearns, came to Nalvasha on Thursday, July 22, riding round the east side of the lake, while J. Allen Loring, the naturalist, came across in Captain Attenborough's launch. Professor Edmund Heller remained at the Attenborough farm to look after the hippo trophies.

SEATTLE, Wash., Sept. 2—Three thousand people named Smith gathered in the exposition auditorium today for a reunion of the Smith family.

MONTEREY, Calif., Sept. 2—Herbert Crosby, 35 years old, died at his home here tonight from injuries received at Cape Jellison dock a few hours before. He was assisting in hoisting a heavy oak log from a vessel when a guy line broke and he was struck by the falling log, which fractured his skull. He leaves a wife and daughter.

MONTEREY, Calif., Sept. 2—A communication is gradually restored with the food-swept section of northern Mexico, previous reports as to loss of life and property are confirmed. Beated despatches received at the headquarters of the third military zone in this city today tell of damage to the towns of Bayones and Galeana and of the practical destruction of the towns of Mier, General Bravo and Camargo. Mier reports as to the damage at Victoria, the capital of the state of Tamaulipas and other towns along the Tampico branch of the Mexican Central Railway, to the south-east of this city have also been received.

General Reyes, Governor of this state, arrived here last night from Galeana.

LITTLE PLANET HAS STRAYED FROM HOME

California Astronomers are Looking After Aethra, Who May Have Been Abducted.

BERKELEY, Cal., Sept. 1—A little planet has strayed or been stolen. Astronomers of the University of California, backed by the strange disappearance of Aethra, a bright asteroid which was discovered in 1873, have applied to the department of astronomy to work out all the possibilities as to what has become of the star.

Aethra, after having her orbit carefully mapped by the astronomer, and being fittedly tagged with No. 123 by her discoverer, suddenly disappeared, and the astronomer has been hunting for her in vain.

The work of locating the asteroid has just been delegated to A. J. Chamberlain, one of the younger members of the faculty of the mathematics department of the State University. He declares that while he has a big task before him, he is confident of success. He has just entered upon his calculations, as to the possible detection of the asteroid from his former path, which has resulted in the huge telescope's sweeping the sky in vain in the quest.

About 800 asteroids are known to astronomers, and each has a name of its own. Aethra was 123 on the list, and her orbit was known to a nicety. It is the theory of the astronomer that some force which they had not counted had deflected Aethra from her rightful direction. It is possible, they declare, that after wandering from her place she was picked up by some other astronomer than her original finder and given a new name and number.

The work to be done by Chamberlain in assisting the astronomer is that of computing the orbits of the 800 asteroids now known and labelled, in order that he may trace back and find whether any of them was Aethra in 1873.

CHATHAM OUT EN MASSE TO HEAR PUGSLEY

Minister Accorded Fine Reception

Dr. Pugsley Promises to Look After Interests of the Miramichi

CHATHAM, N. B., Sept. 2.—Dr. Pugsley received a warm welcome at Chatham tonight in his itinerary of inspection and carried away with him evidence of the citizens' appreciation of his ability and patriotic efforts to develop the Province and Dominion in the shape of an eulogistic address, read to him at a meeting held in the new Opera House by Mayor Knowlton and signed by himself and members of the town council. The announcement was made only a few hours before the meeting, but a large body of citizens gathered in the hall. There was no party feeling in the meeting, as Conservatives as well as Liberals united to do honor to New Brunswick's representative in the federal cabinet.

In the address read by the Mayor, Dr. Pugsley's attention was called to the various needs of Chatham and the Miramichi generally. It was pointed out that large vessels drawing over 25 feet of water are almost daily sailing from Miramichi ports, yet at the present time the bar at the mouth of the river will allow only vessels drawing less than 20 feet to pass over at low tide. The channel should be at least 25 feet deep in all places up to Newcastle. A marine slip was needed here as there was none between Quebec and Picton and as many vessels in this vicinity required docking and repairing each summer the government should do something to aid the building of a slip. The great importance to Chatham of the new railway route into the town was impressed upon Dr. Pugsley, his attention was called to the need of repairs on the present drill shed.

Loudly Cheered

Dr. Pugsley was loudly cheered as he rose to reply. Speaking of his trip through Canada he said it gave him fine insight into the needs of the Dominion. He wanted to do his duty by the whole of the country and gladly welcomed such information as had been given him at various points. Speaking of dredging in the case of the Miramichi, he admitted that the present appropriation was smaller than he desired to see it, but he claimed this was due to general curtailment of estimates adopted last year when the revenues fell off. These projects and public necessities temporarily abandoned because of the trade depression were now within view of fulfillment as trade is now increasing so rapidly that our revenues are increasing one million over last year.

Thus he hoped the next estimates would suitably provide for the Miramichi dredging necessities. Speaking of railway diversions, Dr. Pugsley said this project would receive his heartiest support as this new line would mean great development in Chatham's industries, its trade and its population. Dr. Pugsley said the government could not build marine slips, but would doubtless aid any company to do so, as it now does dry dock concerns, via to the extent of 3 per cent. cost. Other matters in the address would receive his close and earnest attention.

DOORTRY HARNETT.

AMHERST, N. S., Sept. 3.—The death occurred at Highland View Hospital here yesterday afternoon at three o'clock of Dorothy Harnett, daughter of E. B. Harnett, of Bermuda, who is the well known travel agent of the Imperial Tobacco Company, Montreal, for the lower provinces. The deceased was an exceptionally bright child and passed away at the early age of eight years. Her mother was a daughter of Postmaster Deol, of Sussex, N. B., and the remains will be taken to that town for interment on the C. P. R. express today. The funeral will take place in Amherst from the residence of Dr. J. G. McDougall. The parents are well known in St. John.

BUDDHA'S ASHES, THESE MAY BE

Gaze of the Buddhist World Set on Three Bits of Bone.

Relic of the Light of Asia Discovered in the Ruins of One of the Wonders of the World in India.

LONDON, Sept. 1.—The Indian newspapers arriving by this week's mail bring interesting particulars of an important discovery by Dr. Spooner of the Indian Archaeological Department. While conducting excavation work on the site of the Emperor Kanishka's great pagoda near Peshawar Dr. Spooner unearthed a bronze casket containing what is believed to be a portion of the ashes of Gautama, the Buddha.

The site of the excavations comprises two mounds in the fields half a mile from Peshawar. Some years ago the French archaeologist Foucault identified it as the spot on which stood the vast monastery and pagoda described by Song Yun and Hsien Tsang, famous Chinese travellers of the sixth and seventh centuries.

The pagoda was built by Kanishka, one of the greatest of the Buddhist emperors of northern India contemporary, it is believed, of Hadrian and Marcus Aurelius. It was regarded as one of the wonders of the world. The superstructure of carved wood rose in thirteen stories to a height of at least 400 feet and was surmounted by a mighty iron pinnacle. The monastery at its side was of great extent and magnificence.

Before the days of Song Yun's visit the great pagoda had been destroyed by fire three times and as often rebuilt. When the Mohammedan invasion of Mahmud of Ghazni swept down like a cloud on the Punjab the pagoda was taken from his parents and placed in the juvenile home.

For eight days, it is alleged, Joseph Schneider, his wife, and their three children have been living in a casket shed without food, fuel or much clothing. All they have had to eat was what the boys could pick up from garbage barrels. The mother and baby were sent to the women's annex, the two boys to the juvenile home, while the father is locked up, charged with vagrancy.

At dawn, and again at sunset, when the atmosphere flames with exquisite shades of red, rose, and opalescent tints, the scenery of the Karoo is comparatively unattractive. There is much of it, as hour after hour the train crosses the reddish plain, broken by humps of rock piled in fantastic shapes and by the sage green of a coarse vegetation. Periodically the train pulls up and one looks out upon the great expanse of distance, for signs of life, save for the cluster of huts and the hacks round the station house, there are none. Now and again a small township is reached and the passenger is ready to avail himself of a tea or a rest to take a stroll. The trains are comfortable but with a gauge of only 2 feet 6 inches the compartments are small and there is not much space to move about.

Beyond Matfeking the scenery slowly changes. Vegetation becomes richer, the first expanse of country is broken into ridges and little valleys, the natives are more picturesque and less given to wearing the cast-off garments of the white man, and at each station the track round the huts is ready to sell wire bracelets, skins, sticks and other articles of their own workmanship.

When it is realized that less than twenty years ago Bulawayo was the site of a town of mud huts, the change is positively astonishing. Today Government House, a broad, roomy building built by Mr. Rhodes after the style of an old Dutch house, with a broad, cool stoop and thatched roof, occupies the site of the huts, under which its potentate dispensed justice of a savage but effective kind.

Without ever having heard of him he followed on the lines of Gilbert's "Mikado" by making the punishment sit the crime until the country ran with blood and the scene gained the name of "Bulawayo," the "Place of Killing."

FAMILY LIVES IN GOAL SHED; RATS BITE BABY

Eight-Year-Old Boy Never Wore Shoes in Life, He Says.

CHICAGO, Sept. 1.—Eight-year-old Hugo Schneider has never worn a pair of shoes in his life according to his statement made yesterday when he was taken from his parents and placed in the juvenile home.

For eight days, it is alleged, Joseph Schneider, his wife, and their three children have been living in a casket shed without food, fuel or much clothing. All they have had to eat was what the boys could pick up from garbage barrels. The mother and baby were sent to the women's annex, the two boys to the juvenile home, while the father is locked up, charged with vagrancy.

MADE WELL AND STRONG

By Lydia E. Pinkham's Vegetable Compound

Dovedale, Sask.—"I was a sufferer from female weakness—monthly periods irregular and painful and a bad discharge, backache and wretched headache, and had felt weak ever since the birth of my twelfth child. I tried doctors but got no relief. I began to take Lydia E. Pinkham's Vegetable Compound, and after three weeks I was feeling much better, and now I am well again."

Another Woman Cured. Christiana, Tenn.—"I suffered from the worst form of female trouble so that at times I thought I could not live, and my nerves were in a dreadful condition. Lydia E. Pinkham's Vegetable Compound cured me and made me feel like a different woman."

For thirty years this famous remedy has been the standard for all forms of female ills, and has cured thousands of women who have been troubled with such ailments as displacements, fibroid tumors, leucorrhoea, irregularities, backache, and nervous prostration.

THE BULAWAYO OF TODAY.

Site of Lobengula's "Place of Killing"—Travel in South Africa.

(From the London Daily Telegraph.) In the 1362 miles from Cape Town to Bulawayo there is much scenery of a more or less monotonous nature. The harsh, rugged outlines of the Hex River mountains, grim, bare and forbidding, contain a mastery particularly in their own, but the winter's day was fast drawing to night, and the more picturesque portion, where our express was sturdily pulling up a steep gradient at the exhilarating speed of under eight miles an hour, was lost in the dusk.

At dawn, and again at sunset, when the atmosphere flames with exquisite shades of red, rose, and opalescent tints, the scenery of the Karoo is comparatively unattractive. There is much of it, as hour after hour the train crosses the reddish plain, broken by humps of rock piled in fantastic shapes and by the sage green of a coarse vegetation. WILKES-BARRE, Pa., Sept. 1.

While attending the funeral of her 2-year-old son today Mrs. Andrew Zerkoski, of this city, gave birth to another son.

GIVES BIRTH TO BOY AT FUNERAL OF SON

Mother Carried From Church, While Father Goes to Grave of 2-Year-Old.

She was taken ill in the church during the services, and these were stopped while she was carried to the residence of the priest adjoining. There she gave birth to a boy, who is in good health and a lusty youngster. After she was removed from the church the services over the body of her son continued. The husband saw the body lowered into the grave and then hurried to the personage to welcome his new born child.

WILL REGULARIZE FRENCH GAMBLING

Personal Licenses to Cost \$10 Each—Bill Now Before Chamber.

PARIS, Sept. 1.—An attempt is being made in France to regularize gambling while having regard for the interests of public morality and those of the Treasury. An influentially backed bill is before the French Chamber which seeks to introduce personal gambling licenses at a cost of not less than \$10 each. Deputy Leon Berthet fathers the project.

His bill has arisen out of the Finance Minister's recent proposal to levy a tax on all sorts of gambling and out of the fear expressed by Paul Doumer that a tax on gambling might lead to a great increase in the number of gambling establishments. At present everybody plays licitly, roulette or truite et quarante does so freely in the few establishments of the kind existing, but under M. Berthet's system no one would be able to approach the card tables unless he exhibited his license.

The bill makes all games of hazard a State monopoly. No more than one gaming establishment may exist in any one commune, nor shall there exceed twenty-five in the whole of France. No person is to be admitted to gaming rooms unless he is of age and provided with a license to play.

Of the proceeds of the proposed State monopoly 10 per cent. is to be deducted for the benefit of the commune in which the gaming establishment is situated and another 10 per cent. for the general improvement of French gaming resorts. Half the balance is to go to the State Old Age Pension Fund for Workmen and the other half is to be applied to the reduction of the taxation on unimproved land.

MAYOR BULLOCK WANTS HIS GUN RETURNED

It Was Seized by Warden Dean's Son Who Thought the Mayor's Son Was Violating the Law.

Joseph Bullock, the son of his worship Mayor Bullock, was captured by Deputy Warden Dean at Westfield yesterday. The game warden declared that some unknown person repaired the damage done to a store window that had been broken and reported by the police. According to the reports at police headquarters there is a sort of mystery about broken windows.

It appears that the mayor's son had his father's gun, and was in charge of duck shot in it started out yesterday on a hunting expedition. The warden's son, however, was on the trail and took the gun away from the hunter.

This morning the mayor asked young Dean if he was aware who it was that he stopped and took the gun from. Dean said he knew who it was. The mayor then said that he owned the gun taken from his son and wished it returned, but this was refused. The mayor then said that he would make other inquiries regarding the matter. It was supposed by Mr. Dean that young Bullock was out gunning contrary to the law, and that the warden's huntman was unaware that he was doing anything wrong.

It is not thought that the affair will be given as much prominence as the scrape which Earl Grey got into recently in British Columbia, when he went shooting out of season.

IS ASSOCIATED WITH OTHER NEW BRUNSWICKERS

T. B. Thomson Here From Missoula on a Visit to Friends.

Mr. Tyler T. Thomson, wife and daughter arrived this morning via the Calvin Austin and are visiting Le Baron Thomson, 243 Germain street.

It is eleven years since Mr. Thomson visited this city last and for the past twenty-five years he has been a resident of Missoula, Montana.

He holds the position of assistant general manager of the Missouri Mercantile Company which has a paid up capital of \$50,000 and is one of the largest distributing houses in the Western States. Mr. Thomson is also a stockholder and member of the board of directors of the company.

An interesting feature of his company is the fact that it is wholly made up of former New Brunswick men.

Among the officers of the company are, Pres. and Gen. Man. C. H. McLeod, formerly of Sussex; Vice-pres. F. D. Sterling, formerly of Fredericton; Secy-treas. A. B. Hammond, formerly of Grand Falls and Mr. Thomson.

Many former provincial people are numbered among the leading citizens of Missoula. Among the local people he recalled were Chas. F. Dorman, James Fessie of this city and Robt. Puzlev of Sussex.

JUNK DEALERS AGAIN APPEAR IN POLICE COURT

City Issues Licenses to Men Who Cannot Speak English—How the Regulations are Dodged.

There were no arrests by the police yesterday and according there was a clean sheet for the court this morning. The magistrate, however, had rather a busy hour with a few cases that were set down for today.

Joseph McIlhenney, the young man charged with breaking the seal on an L. C. R. car in the railway yard, was before the court.

Detective Killen gave evidence regarding the arrest and told how Watchman O'Brien identified the defendant as being with Wm. Morris at the time the seal was broken. Witness further stated that the seal had been broken before the court before on the charge of theft and was allowed out on suspended sentence. His companion, Wm. Morris, is a ticket of leave man, having served a term in Dorchester penitentiary.

The prisoner had nothing to say and was committed for trial at the circuit court, which opens next Tuesday.

Michael Weigel, a junk man, was charged with doing a junk business without a license. He was represented by B. L. Gorow and gave as his defence that he was only employed by Barry Garson, who had a license, to assist the latter in gathering junk.

The defendant testified that Barry Garson, the holder of a license, could not talk English and had engaged him to go with him as a collector and guide, and for his services he got five dollars a week. He admitted to Detective Killen that he had promised to get a license before September 1st, but has not done so. A written agreement was produced signed by Weigel showing him to be Garson's assistant. The document was also signed by Barry Garson and his brother, Harry J. Garson, but when or by who the agreement was drawn up it could not be learned from Weigel. Harry J. Garson testified that Miss Murphy, his clerk, drew up the agreement. It took some time for the court to get the witness to give his evidence. The witness said he did a junk business but had no license, but that for \$35 he purchased a license for his brother Barry, who could not speak English.

He said that Weigel was only working for him and these conditions were no worse than in other establishments. The Dominion Metal Company had but one license, and had three men in its business. Jacob Myer had one license and two sons at work. John McGoldrick had but one license and a couple of men at work. I. Goldberg had but one license and had two brothers and a son at work.

The magistrate remarked that it was ridiculous to give a license to a man like Barry Garson, who could not speak the English language. There are a number of complaints to the court going into back yards and they frighten the women. There have been a number of complaints to the court about them. The whole matter should be reported to the Mayor.

The case was adjourned until Tuesday morning next at eleven o'clock and the matter may be fixed up in the meantime.

Louis Jones, a colored youth, was before the court, charged with using insulting language to Mr. and Mrs. Bell of Union street. Mr. Bell gave evidence that on August 21st Jones had used bad language to him and had said some bad things to his wife on previous occasions.

Jones pleaded not guilty and said he wished to call witnesses. He was remanded to jail and a further hearing of the case will be held this afternoon.
