FAIR AND COOL

TWO CENTS

BAXTER FINDS ALL PROVINCE REVOLTING AGAINST WASTEFUL RULE OF FOSTER GOVERNMENT

Special to The Standard.

Campbellton, Oct. 7.—This was a big night for Campbellton. The metropolis of Restigouche was crowded with electors who gathered to hear the political issues of the campaign discussed by the Hon. Dr. J. B. M. Baxter, Leader of the Opposition. The people came in tug boats, motor boats, automobiles and special trains, all intent on becoming informed on political questions by a man whose reputation for honesty and fair mindedness had preceded him. Every settlement for a distance of twenty miles up and down the majestic river was represented by a large delegation. From the mill settlements tug boats, loaned to the workmen by the mill owners, brought crowds, while automobiles conveyed hundreds from the farming districts, and a special train came down the International Railway loaded to capacity.

CROWDED THE OPERA HOUSE.

The Opera House was unable to accommodate the crowd that gathered. The floor, galleries and aisles were packed, in striking contrast to the two hundred that assembled to hear Hon. C. W. Robinson the night before. An overflow meeting was held elsewhere for those who could not get into the Opera House, and was addressed by prominent speakers.

When Dr. Baxter arose to speak he was given a tremendous ovation, and the demonstration continued for some minutes. It was a genuine tribute of loyalty to the man whom the electors will choose to follow on Saturday next. Dr. Baxter treated the questions of the campaign in a fair, broad-minded manner. In a dignified address, which at times reached superb heights of eloquence and oratory, arousing his hearers to enthusiastic outbursts of approval, he pictured the inconsistencies, extravagances and mismanagement of the Foster administration.

When he had finished, business men, professional men, farmers, lumber jacks and ladies shook hands with the Opposition Leader, pledging their support for his ticket in Restigouche County and assuring him of a rousing majority.

MERCILESS IN HIS ARRAIGNMENT.

Mr. Baxter was in excellent form and gripped his audiences from the start. As he made point after point in his masterly arraignment of the Government every shot told and the result of the meeting will be a much larger majority than was expected for the Opposition candidates.

He took up the manifesto of the Premier, and said the only things which that gentleman seemed not to have claimed credit for were the sun, moon, stars and atmosphere. Everything else that had worked out for the good of the people had been seized upon by "his master's voice" and glory taken unto himself because of them, while as a matter of fact practically all the legislation for which they claimed so much credit was the work of the former administration. About the only credit to which the present one was entitled was for having sense enough to adopt a good thing when they found it ready to their hands.

DID NOT GIVE WOMEN VOTE.

Take the woman suffrage bill. Mr. Foster was going around the country patting himself on the back and crying aloud to the women: "Behold, I am the man who gave the right to vote to you, ladies, and now I think as a matter of common justice you should all turn out on election day, and by those votes, which I, the Premier, gave you, return us once more to power." Premier Foster and his party could not in justice claim any great credit for the franchise bill. It was true they were in power and passed the Act, but it was only after the Opposition had practically forced them to do it. When the matter was first brought up, the "master of the administration, Hon. P. J. Veniot, had expressed himself as in favor of a limited franchise for women, and Premier Foster had threatened, if a bill was introduced and passed, to ask the Lieutenant-Governor to refuse his assent.

During the recess, however, they evidently saw a light. The Federal Parliament had given women the right to vote, and they had come to realize it could no longer be denied in this province. A bill was introduced and brought before the House. The Government intended no doubt that it should confer the right to vote on women, but on looking it over he had discovered that it was defective in many ways and would not accomplish the object aimed at, and eventually he himself had to put it in shape for them, and it was then passed by a unanimous vote of the House. Under those circumstances he failed to see how the Government could claim any credit for conferring the franchise on women. The women by their unselfish and heroic sacrifices during the war had earned the right to take a full share with their husbands, brothers and sons in conducting the affairs of the country, and instead of praise the present provincial administration was worthy of censure for refusing to pass the measure when first introduced by Hon. J. A. Murray, and thus depriving the ladies for one year of a privilege they had well earned.

Opposition Leader In Great Rally At Campbellton, After Tour Through New Brunswick, Greeted With Tremendous Enthusiasm. Merciless Arraignment Of The Inefficiency Of Liberal Party Now Piling Up Huge Debt And Deficit Steadily.

The "Workmen's Compensation Act" was another bit of legislation the Foster-Veniot combination pointed to with a great deal of credit, and for which they were claiming great credit. As a matter of fact, there had been workmen's compensation legislation long before the present Government had ever been thought of. The first law was based on the English measure; this was amended from time to time to meet changing conditions. During the Clarke-Murray administrations, he, as Attorney-General, had been asked to look into this matter and draft a new law. Realizing that a matter of this kind needed careful consideration from men in touch with the subject to be legislated on, he had suggested the appointment of a commission on which capital and labor would be represented, and this course had been followed. The commission was made up of two members representing the employers, two representing labor, and a chairman. For the position of chairman he had chosen a man he believed well qualified to fill the position, an insurance man and a lawyer, and none of these men were chosen for their political affiliations, for the chairman was a candidate for the party politically opposed to his party at the previous election. Would the Foster Government in similar circumstances have done the same? Their record hardly bore out the supposition that they would.

TOOK FORMER GOVERNMENT'S MEASURE.

This commission had made a thorough investigation and had prepared an Act which was now on the statute books of the province. To whom by all fair standards of justice did the credit for the Act belong, to the men who realized in the first place the need for such legislation and appointed the commission, or the men who simply took the good the gods provided? Again he claimed the only credit the Foster-Veniot combination were entitled to was in having sense enough to know a good thing when they saw it. Then there was the "Independent Audit Act," about which they cried aloud to the heavens, "Look and behold what we have done to protect the finances of this province." But what had they really done? They had changed the name of the auditor-general to comptroller-general, had provided for the signing of all cheques issued by the provincial secretary and imported a set of chartered accountants to go over their books, and by the way, last year their accountants had not given them a clean certificate, but had simply certified the accounts were a correct copy as they appeared on the books. They carefully refrained from placing themselves in the position of endorsing those books. These were the only changes made; the greater part of the law was enacted just as it was before they got into power. When the Act was passed they made a great ado about the section requiring the counter signature of the provincial secretary to all cheques. But what had really happened? This signature had been affixed by a clerk in the department office, who used a rubber stamp. Truly a great protection! This turned out to be such a foolish provision that it was rescinded at the next session of the House. Was this any indication of wise and prudent government?

"THE WONDERFUL HEALTH ACT.

Then there was this wonderful Health Act of which the Government were so proud. In some respect the Health Act was all right, and he would be the last one to deny the need for legislation along the lines of protecting the health and well-being of the community. It had been charged by Dr. Roberts that he wanted to repeal the Health Act. This was not true, the Health Act would not be repealed, but it would be trimmed of the frills and furbelows, which added nothing to its usefulness and did add greatly to its cost to the several municipalities. Had this Health Act really accomplished anything, except to make positions for a number of friends of the Government, which had not been done under the old Boards of Health at a much lower cost? Every municipality in the province had been called to assess anywhere from one to three times as much for the carrying on the work as under the old practice. He understood Mr. Veniot had been saying some good things about this legislation, but he would like that gentleman to explain to him why this wonderful organization had failed to prevent the outbreak of typhoid in the Hon. Peter's own town of Bathurst, and why, after the out-

break, it had taken it some considerable time to discover the cause. Was this a fair sample of the efficiency which was claimed for this child of the Honorable Minister of Health, and, if it was, should it be given as much credit as its godfather claimed for it?

THE OPPOSITION LEADER

THE HON. JOHN B. M. BAXTER.

After his selection as Leader of the Opposition, at the meeting held recently in St. John, the Hon. J. B. M. Baxter issued the following statement of policy: "The Opposition Party, of which I have been selected as the leader, will go into this campaign resolved to re-create itself in accordance with the best traditions of its past history.

"It will stand essentially for prudent administration of the Province, avoiding increase in the bonded debt for services which can be met out of the annual revenue;

"For increase of that revenue without imposing undue burdens upon any section of the people;

"For government on constitutional lines by the people through their representatives and for recognition of the right of all the people to share in the administration of the affairs of the Province without any distinction based upon race or class or creed."

JOHN B. M. BAXTER.

THE REAL TROUBLE.

The great trouble with the measure was that the head of the department was more concerned with gathering a lot of useless statistics than he was in the real work of such a department. When his Government came into power the Health Act would be shorn of some of these trimmings and more attention paid to the real functions of a department of health.

Premier Foster was saying a great deal about his hydro-electric development policy and had announced that three developments would be undertaken at once at different parts of the province. He only claimed to have one million dollars to spend on water power development, and how was he, with that amount, going to do this work, for any one of the three mentioned would take over a million dollars itself before any current could be obtained.

He recognized as well as any person else the need for hydro-electric development in this province, and he was well aware of the fact that some water powers could be utilized at a reasonable cost, but none of them should be touched until the most careful investigation had been made into their possibilities and what the unit cost of the power would be after it was developed. It would be of no practical benefit to the manufacturers of the province to go ahead and develop water power if after it was ready, it would cost them more than they had to pay for coal.

POLICY OF THE GOVERNMENT.

The policy of the Opposition in regard to this important subject was to make the fullest investigation into the subject, give the people

the facts as they existed, and here he reminded them that up to the present the only persons who knew what the report of the engineers on the developments proposed by the Foster Government was were the members of the executive. They had not taken the public into their confidence in the matter. If the developments already promised by them were feasible at a reasonable cost for the unit of power delivered and they really intended to proceed with the work, why had they not made public the report? His policy would be to lay the cards on the table and let the electors know just what was going to be done and why it was being undertaken.

The Government professed to be a business man's government. A record of their performances hardly bore out that contention, as he intended to show by their own records, printed by themselves. Instead of a proper business method of carrying on the affairs of the province there had been waste and extravagance in every department. Was it good business to go on year after year spending more than the income of the province on ordinary expenditure and piling up a huge mortgage for work which could not by any stretch of imagination be called permanent? He did not think so, and he was inclined to think the great majority of the people of the province would not think so. Yet this was the very thing the Foster party had been doing ever since they had assumed the reins of power.

ROLLING UP A HUGE DEFICIT.

In the two and a half years for which the accounts of the province were available they had shown deficits on ordinary expenditure of over \$300,000, and this in the face of greatly increased revenues. They had increased the bonded debt in two years by three and three-quarter millions of dollars, making the total increase in the debt over four and a half million. Yet in the face of such a record, taken from their own accounts, they claimed to be a business administration. For this year it was expected the showing would be even worse and it was very generally suspected that one of the reasons for the calling of the election just now was to get rid of acknowledging the biggest deficit of their regime.

They claimed to have increased the teachers' salaries. Well, they had done so, but how? By making the municipalities pay it. As a Government they had actually paid out about \$19,000 less to the teachers in 1919 than was paid by the old Government in 1916. Was any credit due them for that?

They had introduced two new things. They had bought some seed wheat, which had to be cleaned before it could be sold to the farmers. This resulted in an expense of about \$5,000. Mr. Tweeddale had also imported some "scrub" sheep, of which, no doubt, he was very proud, but the farmers who purchased them from the department certainly were not satisfied.

FEAR THE FARMERS' WRATH.

They had, while in Opposition, made a great deal of talk, because during the war period the Government of that time, had failed to hold by-elections in constituencies from which Government supporters had retired. But what did they do, shortly after election of 1917, one of the Opposition supporters from the County of Carleton died, and the Foster administration had never opened up the constituency. Why did they do the thing which they said was wrong for the old Government when they got in power?

One of the reasons why they did not open Carleton was because they were afraid of the farmers, and this was one of the reasons why the election was called on now, to head off the farmers. During the three and a half years the Foster Government had been in power they had added three and three-quarter million dollars to the bonded debt, and had gone behind over \$800,000 on current account, making a total addition to the debt of over \$4,500,000.

GOT A GOLD BRICK.

The Premier, through his Minister of Agriculture, was claiming all sorts of things for his agricultural policy, but the only thing for which Mr. Tweeddale deserved credit was in not destroying the good work done by his predecessors in office. When he had undertaken anything on his own initiative he had made a lamentable failure of it, as witness his importation of "scabby" sheep. Then, again, when he started to give the farmers lime instead of giving them fertilizer, he gave them

a gold brick, and this was true of the Government in general.

The policy of the Opposition was to give the country good government and place all on equality without reference to class, race or creed, and also they might depend on it that this would be carried out when the party came into power.

SOME THINGS TO CHANGE.

Mr. Baxter said there were some things which needed revising in connection with elections. For instance, there was the list of voters, of which not a single copy was available for the use of the Opposition or the public generally when the election was called in St. John. Every copy in existence had been secured by the Government, which through the facilities at their command they are able to do. The present Government party called itself the Liberal party, and this practice was a part of the machinery which the so-called Liberal party employed in the hope of getting ahead of their opponents. Such tactics, however, did not pay in the long run. A free ballot list should be provided so that every one could obtain copies. It was one of the fundamental principles of constitutional government that all parties should be equally represented, and there should be equal rights for all.

In the course of the campaign the Government's record had been fully dealt with. First of all, there was the Government's extravagance. He might himself be thought a little old-fashioned perhaps, but he had been brought up in a somewhat narrow school. Just the same, however, he felt that the teachings of that school were not out of date by any means. No Government, any more than any individual, could exceed their income. It is all right to spend money as long as you had it, but the man or Government who spends money they haven't got must sooner or later find themselves in trouble.

MUST SPEND MONEY WISELY.

It is not a question of how much you can spend, but how much can be spent wisely, and it is quite correct to borrow money to buy permanent things, but for ordinary services the ordinary revenue should bear a much greater portion of the expense than was the case at the present time, before the people were asked to burden themselves with additional bonds.

The question must be considered how far was it possible to increase the public revenue without unduly pressing upon the people? There were many cases in which the revenue might have been increased, but the Government was so scared of offending some of its friends that they had preferred to let the revenue go and issue bonds to provide the necessary funds. Moreover the money that they had expended had not been spent with a reasonable regard to economy. Money had been easily obtained and it had been thrown about in all quarters and nothing substantial or lasting had been obtained in return.

Another thing with regard to the present Government was that it was top-heavy. There were too many members and several of the departments might possibly be amalgamated. If the present Opposition should be returned to power that would be their policy and he thought it was a policy which would be approved of by the electors.

WILL NEVER GAIN EXPERIENCE.

In the time of the late Government it was urged that time should be given to properly consider measures brought down to the House, and when the present Government came into power it was widely heralded that they were going to have a business man's administration. In the first year the Opposition had not unduly criticised because they recognized that the Government members were new to their jobs, as well as inexperienced. But that was not the case in the last session of the House, by which time they should have gained experience enough to learn to conduct their business properly. In the last session the greater number of the important measures that were brought down were brought down at the eleventh hour and fifty-ninth minute previous to the end of the session. Bill after bill was brought in and hurried through without any attempt at proper consideration or intelligent discussion. There was no time, and among these bills was the famous water power bill. So outrageous did the practice become that he had stated from his place that they had better pass these bills as they stood without reading them. And yet they call themselves a business government.

Mr. Baxter was given a tremendous ovation when he ended his speech. Cheer after cheer was the reward of a magnificent review of the political situation.

It seemed that the great audience would hardly allow Mr. Baxter to end his speech and would demand that he continue. Everywhere in the crowd electors were heard to declare that never before had the provincial issues been so clearly outlined in their district and that there would be few votes cast for the Government candidates on Saturday.

It is regarded here as clinching the seats for the opponents of the Foster-Veniot power and adding another to the long list of defeats awaiting that party in the appeal to the electors of the province.

Friends of the Government are not talking tonight; indeed after the speeches by Mr. Baxter and the candidates tonight the Frederickton crowd has few it can rely upon here.

L. P. D. TILLEY

ELECTORS OF ST. JOHN:

Before casting your votes tomorrow, just take time to read the following items. It won't keep you long.

J. ROY CAMPBELL

Premier Foster, in his manifesto to the people of New Brunswick, lays great stress upon the wonderful improvement that has been made in the system of keeping the public accounts since the passing of the Audit Act in 1918. Under this system it is supposed to ascertain the exact state of the provincial finances at a glance; and any "juggling" with the figures is said to be impossible.

The accounts are prepared for audit by the Comptroller-General, and then submitted to a firm of chartered accountants, Price, Waterhouse & Co. of Montreal, who prepare the balance sheet. One would naturally suppose that the balance sheet would agree with the accounts supplied by the Comptroller, from which it is prepared.

Yet what have the people got? They have a balance sheet which Hon. Robert Murray says was prepared by the Comptroller-General, and audited by Price, Waterhouse & Co. "to make sure it was accurate," which hardly agrees in any particular with the figures as given in the Comptroller's report. Here is a sample of the discrepancies. The first column shows the amounts received from the different sources of revenue as stated in Price, Waterhouse & Co.'s balance sheet, and the second column the same items taken from the Comptroller's report:

| | As shown In Balance Sheet. | As shown In Report. |
|------------------------|-------------------------------|------------------------|
| Receipts from Stumpage | \$575,617.82 | \$568,383.00 |
| " " Royalties | 29,679.39 | 29,941.34 |
| " " Wild Land Tax | 53,509.70 | 53,944.50 |
| " " Timber Licenses | 78,787.97 | 82,429.33 |
| " " Licenses | 53,309.06 | 53,525.75 |

It will thus be seen that no two items agree. It is the same with four-fifths of the other items in the report. Manifestly both cannot be right. But how comes it that there should be any difference? There is only one set of accounts to prepare the Report and Balance Sheet from. Why the juggling?

A short time ago a tract of land at Brookville containing one hundred and sixteen acres was sold by public auction at Chubb's corner for \$5,000, or about \$43 per acre. It is a limestone tract.

A few months ago the Hon. J. F. Tweeddale, the Minister who is 7-8 a politician and 1-8 a farmer, bought thirteen acres of the immediately adjoining land by private sale for \$10,000, or approximately \$775.00 an acre. This is also limestone land, and it was bought on purpose to supply lime to the farmers here. Does it strike you as good business for the Government to give \$775 an acre for the sort of land that private purchasers would only give \$43 an acre for?

And that is not all. Here is the rest of the story. The limestone on the land that the Government gave \$775 per acre for is only about half as valuable as the limestone on the \$43 per acre lot.

A comparative analysis of samples of lime from the two plots shows as follows:

| From the \$43 plot. | From the Government plot. |
|-----------------------------|------------------------------|
| Calcium Carbonate 91.4 p.c. | Calcium Carbonate 45.14 p.c. |
| Magnesium 2.4 | Magnesium 7.81 |
| insolubles, iron, etc. 6.2 | insolubles, iron, etc. 47.05 |

The Calcium Carbonate is what is required for fertilizer. The farmer has been receiving limestone from the producers from the \$43 land at \$4.00 per ton, f.o.b. shipping point, containing 91.4 p.c. Calcium Carbonate; add the average freight rate to this would make it \$6.35 per ton to the farmers all over the province. The Government's selling price to the farmer is \$5.00 per ton, in which they are only receiving 45.14 p.c. of Calcium Carbonate, and 47.05 p.c. insolubles of no fertilizer value. Take this per cent. against the above production and it means a cost to the farmers of approximately \$11.00 per ton for Government production against \$6.35 per ton from independent producers.

Under the Government sales arrangements of \$5.00 per ton to all points in New Brunswick, they are asking the farmer at the near shipping points to pay the freight loss for the farmers in the Northern parts of the province.

This is a sample of the "economy" that the Foster Government prides itself on practising. Does it not amply justify the Opposition's contention that the Foster Government is wastefully and wantonly extravagant? Do the farmers themselves think this is good business, or do they think that Mr. Tweeddale has gold-bricked them?

In 1918 the Government assessed the Municipalities for Patriotic purposes \$518,000, well knowing that only \$400,000 was needed for the purpose. The balance, \$118,000, which on readjustment was reduced to \$99,079, they STOLE from the fund, and used it for general expenditure.

Here is how it was spent:

| | |
|--|-----------------|
| Interest on Potato Bonds | \$ 6,000 |
| Halifax Relief | 10,000 |
| Halifax Public Works Dept. | 1,003 |
| Grant to Returned Soldiers' Commission | 3,000 |
| Grant to Great War Veterans' Association | 4,000 |
| Food Controller | 1,605 |
| Paid Guards at Legislative Buildings | 3,375 |
| Paid Guards at Reversible Falls Bridge | 3,050 |
| | <u>\$32,033</u> |

"The balance of the fund went towards the payment of the increased cost of labor and materials used in the various services of the Government brought about by war conditions. Having in view all the adverse conditions due to the war the statement that there had been an improper expenditure of the amount could fairly be denied."—Hon. Robert Murray, Provincial Secretary, in his Budget speech.

Was ever a clearer case of misappropriation shown up? Think you, does it lie in the mouths of Premier Foster and his supporters to accuse the members of the late Government of maladministration of affairs in the face of the above noted transaction of their own?

The Foster Government sought election in 1917 on their promises that they would conduct public affairs on business principles, practising strict economy and keeping the expenditure within the revenue. How have they carried out their promises?

In 1917 they produced a balance sheet which showed a surplus of \$30,000, but when it came to be checked up, the truth was that they had an over-expenditure of \$339,713

| | |
|--------------------------------|-------------|
| Their Revenue in 1918 was | \$2,323,633 |
| Their Expenditure was | 2,458,290 |
| Showing an over-expenditure of | 134,657 |
| Their Revenue in 1919 was | \$2,168,822 |
| Their Expenditure was | 2,496,508 |
| Showing an over-expenditure of | 327,686 |

Thus in three years they spent \$802,056 more than they received. This is keeping the expenditure within their income with a vengeance!

In 1916 the public debt of the province was \$15,301,000. At the close of the fiscal year, 1919, it was 20,563,763. So that in 3 years they added 5,262,763 to the debt of the province. This is economical administration!

In the meanwhile their revenue from all sources had increased by over \$600,000. Yet with this enormous addition to their exchequer they could not keep out of debt. Where is the province going to land at the present rate of expenditure? They say, despite it all, the credit of the province is as good as ever in the money markets of the world. Is it? See their bond sales.

| | |
|--|---------|
| They sold an issue of bonds in May, 1919, at | 101,288 |
| The next issue brought | 100 |
| The next brought | 95,133 |
| The next | 96,179 |

(The last was 6 p.c. The others 5 and 5½, which accounts for the higher price). So that each succeeding issue was regarded as of less value by the investing public than its predecessor. Does it look as though the financial credit of the province was keeping up?

In such dire straits for money was the Government, that Premier Foster was compelled to call in the aid of an "expert" to dig out, if possible, some new source of revenue. This individual, who by the way professed to combine the qualifications of political economist, taxation adviser, food controller, itinerant preacher and general Jack-of-all-trades, after poking around in every corner for several months, was unable to make any further suggestion than that the Government should increase the taxes then in force. For this valuable suggestion (it is said) he was paid \$500, and the cost of typewriting his valueless report was \$150 more. Is it any wonder the Government had a deficit, when they squandered money in this foolish way? Any fourth grade child could have given that advice.

When you have read the foregoing, you will come to the conclusion that the Foster Government is no longer fit to be trusted with the administration of the province's affairs, and you will therefore

BROOKLYN CAPTURED THIRD GAME IN THE WORLD SERIES

Sherrad Smith, Southpaw, Held Cleveland Helpless and Led Dodgers to a 2 to 1 Victory — Duplicated Grimes' Feat of Wednesday.

New York, Oct. 7.—Sherrad Smith, Brooklyn southpaw, won a place in the baseball hall of fame today when he held Cleveland batters helpless in the third game of 1920 world's series, and led Dodgers to a 2-to-1 victory over the American League pennant winners.

Last night the name of Pittsburgh Grimes aptly expressed, was on the tongue of every Brooklyn fan. Smith is the hero tonight, for he duplicated Grimes' feat of yesterday and gave the Dodgers their second victory in the series.

Early today baseball historians recalled the unhappy fact that Smith's engagement with Brooklyn is the thirteenth of his professional career. Tonight they are confident that the Southpaw has transferred the "jinx" from his person to the ball. Cleveland, not Brooklyn, felt his baneful influence today. "Sherry" Smith has admittedly won a place with Matthewson, Columbia, McGlinchy and Bender of former world's series, and in so doing, the Brooklyn players looked

up their pitcher nobly. It was impossible for Cleveland batters today to get a drive through the combinations that shifted with lightning speed from place to place, wherever the ball was hit. Three hits and only three were made off the winning pitcher. Steve O'Neill getting two of these, and Tim Speaker one, speaks for the quality of the game. O'Neill followed with a single in the fifth and another in the eighth. But for an error by Wheat in fielding Speaker's double, the game would have been a shut-out. Here is what happened to the Cleveland batters:

Of the twenty-eight Indians who faced Smith, only five reached first base, three on hits, two on passes. Speaker scored on an error, two were out on a double play, and Jameson, who ran for him in the eighth met the same fate. Smith threw 100

Overcoat Race At Woodstock

Woodstock, Oct. 7.—There were no overcoats raced at the overcoat race today, as the weather was delightful. About 2,000 people were in attendance, which was disappointing to the management. The winners were College Swift, Roy Volo and Zeida the Great. Roy Volo won in the 2.12 class, closely followed by Little Anna S. and Peter Suter. Under the rules, after the fourth heat, only winners complete. In the 2.30 class, after P. S. had won a second and a first, and looked like a sure winner, P. S. was distanced in the third heat, and the fight was between Colorado Rose and Zeida the Great, the latter winning. The fastest had picked Colorado Rose to win, but she didn't. A great battle took place between College Swift, Handin Up and Bravis in the fifth heat of the 2.15 class. Cameron drove the latter in his heat, Gerow having been taken down by the judges on request of the owner, Mr. Reed, of Fort Fairfield. Bravis broke in the last quarter in an effort to pass College Swift, Roy Volo won in the 2.12 class. The starter was Frank Power, of Halifax. Judges: Charles Thompson, of Sydney; Dr. McWhorter, of Adam; and M. Moore, of Houlton. Clerk, Roy C. Tait. It is expected that 10,000 people will attend the races tomorrow, if the weather is fine, as all the owners intend to try and clean up the great Free-For-All class, including such horses as Zom Q. Fern Hal, Lady Grattan, Benal, Roy Volo and others. Races start tomorrow at one o'clock.

The summary follows:

2.12 Trot and Pace—Purse \$500

| | |
|---------------------------------------|-------|
| Roy Volo (Lat.), Fredericton | 1 1 1 |
| Little Anna S. (Reed), Fort Fairfield | 3 2 2 |
| Peter Suter (Bevilan), Houlton | 2 3 3 |
| Blandie H. (Hoyt), Piquette | 4 4 4 |
| Jack the Copper (Douss), Caribou | 5 5 5 |

Time: 2:14, 2:13, 2:13, 2:13

2.18 Trot and Pace—Purse \$500

| | |
|--------------------------------------|---------|
| College Swift (Gallagher), Woodville | 5 2 1 1 |
| Bravis (Reed), Fort Fairfield | 1 1 5 2 |
| Victoria (McAllister), Sussex | 3 4 3 3 |
| Don Q. (Wellington), Houlton | 4 3 2 4 |

Queen Petress and Clay Watts also started.

Time: 2:19, 2:16, 2:18, 2:18, 2:30

2.30 Pace—Purse \$500

| | |
|--------------------------------------|---------|
| Zeida the Great (Hoyt), Piquette | 3 1 1 1 |
| Colorado Rose (H. L. Club), Hartland | 1 2 4 3 |
| Mary Heir (Reed), Fort Fairfield | 5 2 2 2 |
| Little Jess (Simons), Limestone | 4 4 3 4 |

P. S., Sis Peters and Helen T. also started.

Time: 2:22, 2:22, 2:25, 2:24, 2:27

great winning Brooklyn team at Brooklyn.

The fireworks opened in the second inning when slight-hitter Griffith made a great running catch off Joe Wood's hit that robbed the Cleveland outfield of a sure double. A moment later Kosey knocked down Sewell's blazing slash and retired him at first with a throw to Smith. Both players were required to do, that Griffith repeatedly as they came to the bench.

In the third Konosky and Kiduff figured in another star play. O'Neill's smash fairly boy; it was through the hands of the Robby big first sacker, but the ball was deflected by Konosky's effort to stop it and shot off toward Kiduff, who scooped it up and thung it back to Smith, who had reeled over to cover the bag.

Fast Double Play

Again in the fifth session two Brooklyn infielders figured in a fast double play. Olson knocked down Malt's wicked drive and reworking his balance with an effort tossed the ball to Kiduff, hoping O'Neill's way through the hands of the Robby big first sacker, but the ball was deflected by Konosky's effort to stop it and shot off toward Kiduff, who scooped it up and thung it back to Smith, who had reeled over to cover the bag.

Real Ball Weather

Today's game was the first of the series to be played in real baseball weather, and the fans roared with showing greater enthusiasm than has been the rule. Bright sunlight, and a welcome absence of wind enabled the fans to throw aside overcoats and sweaters, which figured in the previous events.

As before, the rooting was well divided, Speaker was given greater applause than any other individual player, and while there was plenty of noise, old-timers marked a decided absence of the scenes that usually

speakers still confident.

The outcome of the third game in no way appeared to affect the confidence of Manager Speaker in the ability of his players to win out in the coming battles in Cleveland.

"We will win the series," was the confident comment of Speaker as he left Ebbetts Field. He declared Cleveland's defeat was due to better team work in the field by Brooklyn.

"The Brooklyn batters were up on their toes and certainly played great ball," he said, "while our men in the field did not do so well today."

Manager Speaker praised the work of Shortstop Sewell, who only recently came into major league and predicted that "some day that boy is going to be one of the best."

Manager Robinson, of Brooklyn, declared that his opinion on the final result was still the same as it was before the first game was played. "Just as I thought two days ago," said Robbie, "the series will be very close. The clubs are very evenly matched, but I think we have the edge on Cleveland in respect to pitchers." He paid a compliment to his players for their gameness and their ability to stage a comeback.

"The thing needed in a world's series," he said, "is nerve, and our boys certainly have plenty of it. Both teams are trying their best to win, and their efforts should stop all talk of baseball scandals."

It may have been a lucky thing for Brooklyn that Manager Speaker at Caldwell in the box, for it was while Ray was on the mound, that Manager Robinson's boys got their two runs.

Consistent Player.

Olson, the Brooklyn shortstop who has proved the most consistent player of either team in reaching first, hit for three games being 8 out of 12, drew a pass in Brooklyn's half of the first. Jimmy Johnson promptly sacrificed him to second and he advanced to third when Sewell fumbled Griffith's grounder. Olson completed the circuit on Wheat's hit to left and Griffith went to the midway. From that point the right fielder scored when Myers hit to short right.

Tris Speaker, with the unintentional aid of Zack Wheat saved his team from a shut out. In the fourth the Cleveland leader hit down the third base line. The search was ordinarily wide of the plate. Three went as strikes, four as fouls and two were grounders, one of which was fumbled. The other two were hits that sent in the two runs for Brooklyn.

Malt pitched creditably in his 6 2/3 innings. Although his ball total of 98 was almost equal to that of Smith for innings, he held Brooklyn to three hits and no runs. He sent across 19 strikes and received credit for 14 on fouls. Four fouls came after the second strike. The Cleveland southpaw started well, throwing seven balls in the fractional inning and 8 in the second. After that his total was never less than 11, and in the seventh he pitched 23 times, 12 of which were wide of the plate. Uble, in his one inning, had three balls, 3 strikes, 3 foul strikes and two plain fouls.

Eight Brooklyn men went out in files and ten on grounders, not including the ball Sewell erred on. The ball total for the three infielders was 50, and the strike total half that number. Brooklyn batters fouled off 21 offerings for strikes.

The almost summer-like weather brought out the largest attendance of the series to date. According to the official figures of the National Commission, 25,088 spectators paid admission to see Smith and his team mates turn back the Speaker tribe for the second consecutive time. The collective contribution to the box office was \$81,298. This made the total receipts for the first three games \$236,511, of which the National Commission receives \$28,561.10; the players pool

The Spirit of Fit-Reform

Progress in methods, progress in the skill of master tailoring, progress verging on the pinnacle of perfection, these lie at the foundation of the growth of Fit-Reform during the past quarter of a century.

Far different are the Fit-Reform Suits and Overcoats of today from those of even two or three years ago; yet each season's styles represent for their day the utmost in progress, and the highest standard of style, tailoring, durability and value.

ST. JOHN, N. B., FRIDAY, OCTOBER 8, 1920.

SOME REASONS FOR OPPOSING THE FOSTER GOVERNMENT

The following reasons are given by the Westernmost Farmers' Union for opposing the Foster Government. They are just as applicable to all other classes of the electorate.

Any Government that without the shadow of a legitimate excuse, and one year ahead of time, will deliberately spring an election on thirty thousand farmers (already suffering severe losses from ten days' rain) in the very midst of harvest, should be promptly voted out of power, by a patriotic people. If Premier Foster had purposely planned the further depredation of the country's food and fodder, in the face of approaching winter, he could scarcely cause a greater increase in the losses than by forcing this untimely election on the unfortunate industry, he loudly protests to love so well.

Apparently anxious to add insult to injury, this Foster Government recently had the Transcript (its strongest party paper) publicly read all organized farmers and laborers out of the Liberal party; and threaten its active opposition to any, and all candidates they nominate for election, either federal or provincial. After such treatment as the above, the heated words of Mr. Foster's manifesto, addressed to agriculture, can never be accepted by farmers as more than a base deception, and a well planned fraud.

People are advised to vote against the Foster Government because his whole manifesto, in its conception, is as narrow as the limitations of a "one class man," and as selfish as the "big business," when he allowed to grab the largest number out of history, last year, just before the campaign was raised.

This manifesto is only a wordy effusion of full blown election promises, and pretty "camouflage," but is no barren of any good business propositions, as it is replete with plans for wholesale extravagance and wild-cat propaganda.

In the last three years he has allowed the big lumber operators to make a take-off of one to two million dollars, by selling to them the people's standing timber at one third its market value. And he still persists in selling it for another year, at only a slight advance. Not satisfied yet, with the rapid depletion of our forests, he publicly offers pulp and paper promoters long leases on large tracts, at bargain prices even lower, than to the saw mill men. Worse than all, he then proposes to mortgage this province, from five to ten million dollars further into debt to back Hydro Electric power plants to enable these big interest groups, to monopolize what still remains of our sapling forests.

Nothing however in all this Foster Government is so unfair to farmers, and detrimental to agriculture, as its road policy. That policy is to spend millions on tourist roads for idlers, and to penalize the industry of our farmers who labor on the land to produce the people's food. Fifteen thousand dollars per mile is absorbed out by this Government, to build speedways for "sports" to race the rotary tractors, from town to town, and at the same time, about fifteen cents per mile (or as near nothing as possible) is doled out, on many of our cross country roads, to "aid farm production." Already this Foster Government has saddled two million dollars of bonded debt on this province to build these unnecessary speedways. And, right now, Premier Foster is asking the voters to sanction a similar waste of three million dollars borrowed money more, on so called National Highways.

The policy toward farmers, is the same old tragedy, of driving them from the land with absolute neglect. He starves our greatest industry with the miserly pittance of a fifty thousand dollar short loan. At the same time he fattens the big interests with free gifts of millions, borrowed at excessive interest rates. For the above reasons and a score of others the Foster Government has forfeited the confidence of the people.

Mrs. E. Atherton Smith who on the occasion of the Union Government election in 1917, was very strongly opposed to "my dear boy, Walter" attitude toward, but who now appears to be the latest recruit to his banner, in the course of one of her addresses on her dear boy's behalf, referred to the present administration as "the dear Government." In view of the present condition of the Provincial finances, Mrs. Smith's subjective appears to have been very well chosen.

THAT PATRIOTIC FUND STEAL

Our readers have heard several times of the way in which \$50,000 was stolen from the fund raised for Patriotic purposes, and spent as ordinary revenue. They may be interested in reading the remarks the Hon. Mr. Robinson made on the subject. He said:

"The municipalities last year had been taxed to the extent of \$18,000 for the Canadian Patriotic fund, and during the present year not more than \$400,000 would be needed for that purpose. The question of the readjustment had come up, and some of the municipalities had complained that the assessment was unfair. War conditions were constantly imposing new burdens on the province, and the Government had decided to make no change in the law for the present year; and if it was found that not more than the \$400,000 would be needed for the Patriotic fund, the balance would go into the Provincial treasury and be expended for patriotic purposes. He knew that the proposed was not a popular one, and had had complaints in regard to it from some of his own constituents. This reply was given for the present year, and if the Opposition turned out the administration for taking that course, they were welcome to do so."

Here was Mr. Robinson deliberately announcing that the Government intended to take money collected for a specific purpose, and use it for other purposes. "Patriotic purposes" he said. Now mark the "patriotic purposes" for which it was used:

| | |
|-----------------------------|----------|
| Interest on Potato Bonds | \$ 6,000 |
| Halifax Relief Grant | 10,000 |
| Date, Public Works Dept. | 1,000 |
| Grant to Returned Soldiers' | |
| Commission | 2,000 |
| Grant Great War Veterans' | |
| Association | 4,000 |
| Food Controller | 1,800 |
| Guard Duty, Legislative | |
| Buildings | 3,375 |
| Guard Duty, Reversible | |
| Fairis Bridge | 3,650 |
| | \$32,033 |

"The balance of the fund," the Hon. Robert Murray, Provincial Secretary-Treasurer said, "went towards the payment of the increased cost of labor and materials used in the various services of the Government."

Not one "patriotic purpose" among promoters long leases on large tracts, at bargain prices even lower, than to the saw mill men. Worse than all, he then proposes to mortgage this province, from five to ten million dollars further into debt to back Hydro Electric power plants to enable these big interest groups, to monopolize what still remains of our sapling forests.

A LONG DISTANCE FIGHTER

Mr. Mackenzie King's reputation as a long-distance fighter, strengthened by his absent treatment of the by-election in St. John, is being still further enhanced. There is a by-election in progress at present in the constituency of Yaboucarbou, Yaboucarbou in British Columbia; but although Mr. King has been touring that province, demanding a general election and declaring that the people must rise up in their wrath and smite the Dominion Ministry, his ministry has not yet carried him to the point where he has entered the riding to speak or even put up a candidate to fight. Instead he has abdicated to a soldier-labor candidate, repeating his performance in Colchester, North Ontario and Stormont.

As the Ottawa Journal says:— "It is a humorous spectacle, this sight of the leader of the once great party of Laurier and Brown and Blake running away from a fight, hoping to win elections by not putting up candidates. In England Mr. Asquith, leading a party much more demoralized than that led by Mr. King, entered upon his "dark adventure" of Paisley, and, by his superb courage, overcame tremendous odds and carried Liberalism to victory. Mr. Asquith, believing that there was irreconcilable difference between the bureaucratic creeds of Labor radicalism and the individualism of true Liberalism, was willing to risk something for what he believed. Mr. King, mousing much about Liberalism, is willing to strike his flag to any policy or cult or creed rather than wage a hard fight. But of course there is a wide, wide spread between Herbert Henry Asquith and W. L. M. King.

Times:—"The elector who considers what the Foster government has done in three years, and compares it with the old government record, will have no difficulty in deciding which

WHAT OTHERS SAY

No Danger.
 (Calgary Herald.)
 Speaking of Bolshevism, the Globe says: "The danger in this Dominion is, fortunately, not menacing." So it said of the great war, up to the very opening of hostilities.

Got 'Em Wild.
 (Hamilton Herald, Ind.)
 Whether Premier McLaughlin talks like a desperate man or not, as alleged by the Toronto Globe, he certainly has a desperate effect on the temper of it and its kin, and should feel rather flattered thereby.

An Expert.
 (New York Evening Sun.)
 There is a movement in Japan toward lessening the distance between the people and the throne. If the Mikado really wants to learn how, let him write to the Prince of Wales.

A National Insult.
 (Montreal Herald.)
 During the war and the preparation for it, largely through the example set by the soldiers in training, who acquired it through army discipline, audiences at theatres and other public gatherings stood in respectful attention during the singing or playing of the National Anthem. This good custom is being disregarded most disgracefully. At the theatres now the first bar of the National Anthem is taken as a signal to don overcoats and wraps and make for the door. It is a vulgar, and ignorant habit and should be sternly checked. The theatre management would be doing a good educative act if they informed the audience either on the screen or otherwise, that ladies and gentlemen always stood at attention during the rendition of the National Anthem and that others would be expected to do so.

How You Can Make Hairs Quickly Disappear

(Helps to Beauty)
 Even a stubborn growth of hair will quickly vanish from the face, neck or arms after a single treatment with delafine. To remove hair from arms, neck or face make a stiff paste with a little powdered delafine and water, apply to hairy surface and after about two minutes rub off, wash the skin and it will be left free from hair or blemish. To avoid disappointment, be quite certain you get real delafine and mix fresh.

MURRAY & GREGORY, Ltd.

A BIT OF VERSE

[The following verses from "Life" must have been written with special reference to the speeches of Foster orators, although the author does not say so.—Ed.]

THE OLD HOKUM BUNCOMBE.
 How dear to my heart are the grand politicians
 Who constantly strive for the popular vote;
 Indulging in platitudes, trite repetitions,
 And time-honored bromides surrounded with quotes;
 Though equally verbose opponents assail them
 With bitter invective, they never can quell
 The force of the buncombe, which never will fall them;
 The old hokum buncombe we all know so well.
 The old hokum buncombe,
 The iron-clad buncombe,
 The moss-covered buncombe we all know so well.

They aim to make friends of the laboring classes—
 The trust of the people is sacred with them;
 They swear that they're slaves to the will of the masses,
 They hem and they haw, and they haw and they hem;
 They rave with a vehemence almost terrific,
 There isn't a doubt which they can not dispel.
 They revel in orgies of hope beautiful;
 And serve us the buncombe we all know so well.
 The old hokum buncombe,
 The iron-clad buncombe,
 The moss-covered buncombe we all know so well.

Their torrents of words are a sure paragon;
 For all of the ills to which mankind is prey,
 They pose as a Hamlet lamenting the Yorick
 Who typifies that which their rivals betray
 They picture perfection in every situation;
 We gaze at Utopia under their spell
 And though it is only an optic illusion—
 We fall for the buncombe we all know so well.
 The old hokum buncombe,
 The iron-clad buncombe,
 The moss-covered buncombe we all love so well.
 R. E. SHERWOOD.

BOILER TUBES

Boiler tubes are almost famine scarce, and consequently, high in price.

Our stocks here have been recently replenished by the arrival of a number of shipments ordered from the mills some eight months ago.

The sizes usually in stock vary from 1 1/2 dia. to 4 in. dia. and in a great variety of lengths. Please inquire for prices.

Benny's Note Book

BY LEE PAZ

Us fellows was setting on my front steps and Sid Hunt sed, Hay, has anybody got a rubber band? Wich Ed Wernick took a lot of all sorts of things out of his pocket including a rubber band, saying, Do you want to keep it or do you just want the lead of it?

I want to keep it, sed Sid Hunt, and Ed Wernick stuck it back in his pocket agen, saying, Thats different, I thaw you jest wanted the lead of it.

G, Ed, you carntly keep a bunch of things in your pockets, sed Puds Slinkins. Wich he does, having a reputation for it, and Ed sed, I bet there aint anything any of you can sak me for that I aint got in my pockets, or something like it.

G, fellows, thats a bet, go ahead and ask him for things, Ill be the empire, I sed. Wich the fellows started to do, Puds Slinkins saying, Hay, Ed, have you got a top off of a empty sassa-parilla bottle on you?

I got something like it, heers a cock, sed Ed Wernick, Wich he pulled one out, and I sed, Sure, thats like it, go ahead, fellows, keep on asking him for things, Im the empire.

Have you got a lump of sugar on you, Ed? sed Sid Hunt, and Ed sed, Sure. And he pulled one out still pritty clean looking, and Skinny Martin sed, You aint got a door knob on you, have you, Ed?

Something like it, sed Ed. And he pulled out a iron hinge partly rusty and partly not, and saying, Thats like it, thats like it, a hinge turns wen you open a door and so does a door nob, thats like it.

The heck it is, the does it is, nothing doing, no sir, wats you think we are, youre a heck of a empire. Who ever sed a huge was like a door nob? No sir, like fun it is, thats a farse decision, who ever sed you was a emper? all the fellows sed. And we made such a farse noise arguing that pop looked out the window and ma came to the front door and we all had to get off the steps.

How You Can Make Hairs Quickly Disappear

(Helps to Beauty)
 Even a stubborn growth of hair will quickly vanish from the face, neck or arms after a single treatment with delafine. To remove hair from arms, neck or face make a stiff paste with a little powdered delafine and water, apply to hairy surface and after about two minutes rub off, wash the skin and it will be left free from hair or blemish. To avoid disappointment, be quite certain you get real delafine and mix fresh.

LONDON PREPARES GREAT WELCOME FOR THE PRINCE

London, Oct. 7.—The arrangements made for the return of the Prince of Wales to England next Monday follow the lines of those in force when he returned from Canada. His brothers, the Duke of York and Prince Henry, will meet him at Portsmouth, the King and Queen receiving him at the station in London. The Prince will take a long route through the streets of London to Buckingham Palace, and it is expected he will be greeted by immense crowds.

High School Alumnae Annual

Reports Received and Officers Elected at Meeting in Natural History Society Rooms

The annual meeting of the St. John High School Alumnae was held last evening in the rooms of the Natural History Society. There was a large attendance of members and the proceedings of the meeting were followed with great interest. The report of the Scholarship Committee was received, showing a balance in the bank of over \$2300. This is some \$190 short of the objective that the committee set. The gratifying announcement was made however, at the meeting that Frank Miller had generously donated \$100 towards the fund. Kenneth Sullivan was the first winner of the scholarship and his work during the past year at McGill was favorably commented on. It is hoped credit not only on Mr. Sullivan personally but also on the Alumnae of which he is a member.

Officers Elected

The election of officers resulted as follows: Hon. President, Mrs. H. Lawrence; President, Miss Grace Campbell; First Vice, Mrs. Bertram Smith; Second Vice, Dr. McEldon; Third Vice, Miss Alice Walker; Secretary, Miss Mabel Rogers; Assistant Secretaries, Miss Edith Hamm and Miss Marion Thompson; Treasurer, Miss Laura Myles. The following additional members of the executive were appointed: Dr. Magee, Miss Jessie Lawson, Miss Florence Estabrook, Miss Werner, Miss May Ward, Miss Barbara Dobson, Miss Grace Estey, Miss Hilda Shaw, Stanley Clark and Douglas McKen.

Miss Jessie Lawson, the resigning president, was tendered a hearty vote of thanks which expressed in a measure the appreciation of the members of the Alumnae of the services of Miss Lawson who had filled the office of president with credit for many years.

The regular meeting night has been changed from the first Thursday to the first Friday. At the conclusion of the regular business refreshments were served by a committee of the executive.

MAJOR LEWIS RUNS

Toronto, Oct. 7.—Major Alex G. Lewis today announced definitely that he is a candidate for the Conservative nomination to fill the vacancy in North East Toronto, seat "A" in the Ontario legislature.

MONTHLY MEETING.

The monthly meeting of the Board of Directors of the Home for incurables was held yesterday afternoon. Reports were received dealing with work of the institution, and considerable routine business was transacted. One patient was admitted during the past month.

Dr. F. H. Neve has moved his office from Rodney street, West End, to 147 Union street, city.

FOREMAN WHITE IS NOW BACK ON JOB

Suffered Breakdown Caused by Overwork—Tanlac Restores Him.

"I want to give a little history of my case just to let the public know what Tanlac has really done for me," said Edward White, of 27 Caroline Street, South Hamilton, Ont., a well known foreman for the Dominion Steel Co. "About two years ago I suffered a complete breakdown brought on by over work, and it was only when I got Tanlac recently that I recovered my health. We were making on-pieces for the battlefield, and were anxious to turn out as many as possible, so lots of times I worked both night and day. Well, this finally got the best of me, and I just had to go to bed and stay there for a number of days. This left me in such a bad condition that I had no appetite at all and was so weak that when I walked around, I would just stagger. I took electric treatment and all kinds of medicines, but failed to get any better, and I began to think nothing would help me.

"However Tanlac has completely overhauled me, for it has built me up in every way until I feel like an entirely different person. My appetite is just fine, and I eat good and hearty now at every meal. Why, I've gained eleven pounds in weight, and am back on the job every day working as good as ever. I'll tell you I'm mighty glad to have my health and strength back again, and I simply can't thank Tanlac enough for putting me in such fine condition."

Tanlac is sold in St. John by Ross Drug Co. and F. W. Munro under the personal direction of a special Tanlac representative.—Adv.

SUSPECTED MURDERER FOUND IN PRISON

Believe He Knows Something About Death of Two Poles in the Woods.

Ottawa, Oct. 7.—After weeks of investigation, agents of the Quebec Provincial Detectives' Department, who have been working on the case, believe they have located one of the authors of the double murder committed on the outskirts of Temiskaming village, Quebec, on the afternoon of Friday, July 23, when two Russian Poles, A. Kuszman, 24 years, and T. Koldricky, 20 years, were murdered and their bodies hidden in the brush after the perpetration of the crime.

The suspected murderer is a Pole, Nick Slegieski, a man of about forty years of age, who has been detained for some time in the Bryson jail as a material witness. On Tuesday the crown released Slegieski as a witness, but he was immediately re-arrested by Provincial Detective Regis Clement on a charge of murder. Preliminary examination was set for October 22.

LADIES' ASSN. OF NATURAL HISTORY

Resignations of President and Treasurer Received at Executive Meeting.

An executive meeting of the Ladies' Association of the Natural History Society was held yesterday afternoon. The resignation of the president, Mrs. J. A. McAvity, and the treasurer, Miss Lovitt, were received. The association voted a grant of \$50 towards the work of the society. It is the intention of the association to hold a series of free lectures during the winter, beginning in the month of January, 1921, and a general discussion took place regarding the character of the lectures that will be given. Some of the subjects probably will be "An Evening on France," "Indian Folk Lore" and "Reminiscences" with an account of the life history of the society.

The annual meeting of the association will be held on next Tuesday afternoon.

PURITY - QUALITY - ECONOMY
With the increased cost of labor and materials due to war conditions, it is not reasonable to suppose that a really first class baking powder can be made and sold at the old prices. Rather than sacrifice the quality of

MAGIC BAKING POWDER

we found it necessary to make slight increases in price during the war period. Even though Magic Baking Powder may cost a few cents more than the ordinary kinds it is still by far the most economical baking powder on the market to-day when purity, strength and leavening qualities are taken into consideration.

Great Bargains in Pianos

We were successful in purchasing a lot of those beautiful Haines Bros. & Foster Armstrong Pianos at a right price and have decided to offer them to the public at one of the biggest bargains that has been offered in Pianos in the last five years.

Those Pianos are high grade in every particular, the design and finish most beautiful, and the tone a full round rich singing quality, with a high grade, light responsive action, making the Piano High Grade in every particular.

Those Pianos have been selling for \$575.00 and \$600.00 all over the country, but, as above stated, on account of the way we bought them, we are in a position to offer those Pianos, while they last, at

\$475.00

and arrange easy terms of payments, if necessary.

Please call and examine, or write us for further particulars.

EVERY INSTRUMENT GUARANTEED.

Trade Follows the Merchant Flag of Canada

By willingness and ability to provide ships Canada this year has drawn the West Indies closer to herself and to the Empire. She can make preferential trade agreements with other peoples under the British flag without arousing international complications.

The trade of 45,000,000 people in British Tropical Africa is waiting for us to-day. But we must have ships and a sea-conscious spirit in the people and in the Government.

The West India Trade Agreement

Would not have been worth the paper it is written on had it not been for Canadian ships, and the vision of Canadians who realize those facts.

The Navy League of Canada.

Comfort Baby's Skin With Cuticura Soap And Fragrant Talcum

As a recent meeting of the London, Ontario, Local Council of Women, Mrs. Graham reported on the National Council meeting at St. John, N. B.

Memorial Home For Children

Excellent Reports Given by All Committees at Regular Meeting.

Excellent reports were given by all committees of the Provincial Memorial Home for Children at the regular meeting of the Board held last evening. Dr. James Manning presided. The Board of Management stated that they had secured the services of a capable and efficient matron, Mrs. Coakley, and that Mrs. Bailey is taking good care of the babies at the Home.

Princess Zetta, the Dev'ns Own Daughter, and several other attractions—Poster of a minstrel show travelling in Virginia.

MRS. SOLOMON SAYS:

By HELEN ROWLAND
(Copyright, 1920, by The Wheeler Syndicate, Inc.)
Being the Confessions of the Seventh-Hundredth Wife.

The Love-Song of a Tired Woman, which is Mrs. Solomon's. Come to me, my Beloved! I will greet thee with song and rejoicing, and cries of "Welcome!" I will crown thee with garlands and fill thy hands with gifts. I will cover the walls of thy room with roses, and thy windows shall be hung with colour-de-rose. Thou shalt walk upon rugs of velvet, and recline upon pillows of down.

When the air is rent with the crashing of china, and the shattering of cut-glass, mine ears shall be stuffed with cotton, and my smile will not come off. Nay, I shall bring thee the smelling-salts, and soothe thee with comforting words and "too-bad's." Matinee tickets, and second newspaper, Christmas gifts and silk petticoats, sliken hosiery and hand-painted fans, dream books, seven evenings OUT a week, and a ouija board! Oh come to me, my Beloved! Come live with me, and be my COOK!

MISS DOYLE HEADS WOMAN'S PRESS CLUB

Montreal, Oct. 7.—Election of officers was the main business before the Canadian Women's Press Club at their conference here today. Miss Lucy M. Doyle, of Toronto, was elected president. Judge Emily Murphy, of Edmonton, the retiring president, was elected honorary president by acclamation and presented with a jewelled corsage pin. There was spirited discussion on trade unionism, and it was decided to form a committee to look into the matter in so far as journalism was concerned.

WINDSOR TO HALIFAX RACE

Sydney Coakley, of Halifax, Won Bicycle Race in Three Hours Seven Minutes.

Halifax, N. S., Oct. 7.—Sydney Coakley, Halifax, won the Windsor to Halifax bicycle race, the feature event of today's carnival programme, in three hours and seven minutes. Harry Donnelly, of Port Clarence, N. S., was second.

ACUTE ECZEMA ON BABY'S HEAD

Face, Neck, Arms. Terrible Slight. Itched and Burned. Cuticura Heals.

"Baby was two months old when I noticed little pimples on her head. They kept getting worse and spread all her head, face, neck and arms were one mass of eruptions, burning, itching, and bleeding. I was told it was acute eczema. I had to sew up her arms and legs in linen. She was a terrible sight. For one year, I had no rest night or day.

"We got Cuticura Soap and Ointment. In less than two weeks she began to mend and in a few months she was healed." (Signed) Mrs. Boorman, 243 McDonnell St., Peterboro, Ont., April 19, 1919.

Stop the use of all doubtful soaps. Use Cuticura for all toilet purposes. Soap 25c. Ointment 25c and 50c. Sold throughout the Dominion. Canadian Depot: Lyman, Limited, St. Paul St., Montreal. **Don't** Cuticura Soap shows without soap.

The Nurse told Her to Give

OLIVEINE EMULSION

THE GREAT HEALTH RESTORER

South Brookfield, Queens Co., N. S., Oct. 1919. "Our little girl was very sick with Stomach Trouble and different foods were recommended, but everything failed until a nurse told me to give her OLIVEINE EMULSION. She is now a big, healthy baby and I would not be without it in the house. For coughs and colds and as a health builder, it is the best to be had. We recommended OLIVEINE EMULSION to quite a few who were suffering from the effects of influenza and they used it with good results." (Name on request)

OLIVEINE EMULSION is more than an ideal cough remedy, to pave the way for a quick recovery from heavy colds and deep-seated coughs. It is a body builder—gives strength to the weak—tones up and invigorates the whole system. It is pleasant to take and is agreeable to the most sensitive stomach.

Sold everywhere.

Prepared by Fraser, Thornton & Co. Limited, Cookshire, Que.

HIGH SCHOOL TO PLAY FREDERICTON

Capitals Play at Rothesay Today and in St. John Tomorrow.

Members of the High School Football Squad spent yesterday afternoon improving the city property of Lansdowne Avenue, so that it will be in fit condition for the football game with Fredericton on Saturday afternoon. A drain has been dug by the boys and a portion of the grass has been cut. It is hoped that the grounds will be in good condition for Saturday.

The boys will have their final workout this afternoon, while Fredericton plays at Rothesay.

WEDDINGS.

A quiet wedding took place at St. John's (Stone) church last evening when Rev. Canon Kubring united in marriage William Johnston and Pearl Flowers both of St. John. The bride was given away by her brother, Robert Kelly supported the groom. Mr. and Mrs. Johnston will reside in St. John. The groom served overseas for a number of years.

Still An Enigma.

Mrs. Flivah (whose car refuses to budge)—Do you know anything about a car? Mr. Strange—Not a thing. Mrs. Flivah—Ah!—you've never owned one? Mr. Strange—I've had four.

ONLY TABLETS MARKED "BAYER" ARE ASPIRIN

Not Aspirin at All without the "Bayer Cross"

The name "Bayer" identifies the only genuine Aspirin—the Aspirin prescribed by physicians for over nine-teen years and now made in Canada. Always buy an unbroken package of "Bayer Tablets of Aspirin" which contains proper directions for Headache, Toothache, Earache, Rheumatism, Neuralgia, Lumbago, Rheumatism, Neuritis, Joint Pains, and Pains generally. Ten boxes of 12 tablets cost but a few cents. Larger "Bayer" packages. There is only one Aspirin—"Bayer"—You must say "Bayer". Aspirin is the trade mark (registered in Canada) of Bayer Manufacture of Mannesmann & Co., Ltd., of Germany. While it is well known that Aspirin means Bayer manufacture, to assist the public against imitations, the Tablets of Bayer Company will be stamped with their general trade mark, the "Bayer Cross."

THE RANGE LIGHTS

Range lights are to be set up today on North No. 16. It is reported that the pilots have asked for a ball to be placed on the end of the shed and it is probable that this will be done.

TEA ROOM CLOSED

Beach Hill Tea Room, Gondola Point has closed after a very successful season. Miss Harrison has had over four hundred guests during the summer and many motor parties have found the way to her pretty tea room.

KNIT AND SMOKE IS SOCIAL FAD

Every Watering Place in England Had Its New Entertainment This Year.

(Copyright, 1920, by Cross Atlantic.)

London, Oct. 7.—All through the summer every watering place East Coast or West, has been filled with busy women and girls, knitting and crocheting. It is interesting contrast to last winter. All last winter every woman either knitted or sewed. There was no more call for socks or shirts for soldiers, so the diligent housewife has begun to consider herself or her family and to rest her nerves with the fragrant weed.

The knitting smoker or smoking kitchener, which ever prefer to call her, is really a symbolic as well as an actual type of the English woman of today. She is frankly manly in many of her tastes, but her femininity is undoubted—and it is astonishingly efficient. She smokes—sometimes she uses "language," she plays games for she is free of the world's pleasure grounds as well as of its markets and no door to success is barred for her. Yet if to sew a fine seam and to knit like a revolutionary fury is a title of domesticity she is far ahead of the pre-war girl!

Not "Fast" Now.

Before the war it was a little "fast" to smoke—but it was very "slow" indeed to make one's own clothes. If a young woman ever knitted she made shooting stockings for her brothers and men friends; if she sewed she did elaborate embroidery for the drawing room cabinet; but no smart girl ever admitted to having constructed anything for her personal wear. Today all this is changed and the woman who has not knitted a jumper or hemstitched a nightdress will soon be a curiosity—to be relegated to the past with the girl who did not smoke and who always had a chaperone!

How Romantic.

A visitor to Stratford-on-Avon, whose heart was in better condition than her head, walked about the town quite thrilled with rapture and awe.

When she reached the railway station, where her train had not yet arrived, her enthusiasm was not abated, and she looked about her with brimming eyes.

"Ah," she said, "I think this place affects me more than all. Here Shakespeare must have come to take the train to London."

Soldiers, Attention!

How to Vote

Since the declaration of Peace on January 7th, 1920, returned men have had the right to vote on production of their Discharge Certificates.

This is correct despite the fact that the returning officers may not have been advised of this.

CORONER'S IN IRELAND

Witnesses Become Men—So, G. Abolishes the C.

By HUGH CURRIE
(Copyright, 1920, by Currie)
Dublin, October 7.—Questions on persons killed with present warfare in been abolished in connection with the coroner's inquest. This is a very important one's quest law" in one law under the British. It provides that the coroner of twelve men, should all sudden or violent deaths in the country who have been killed, the coroner in some remarkable cases have found the guilty and the Prime Minister's guilty of murder. In case of shootings of officers or civilians, jurors are to come forward at once, they should be held, by any side or the.

For this reason, set have failed. Now, under conditions, the military "necessary" inquest trial. Military absence of protest against abolition. The military have already been responsible of a number of deaths of a number of the fact that they show when, according to many earnest critics, they show, has aroused some. The abolition of Coroner is announced in a notice in the Dublin Gazette under the title of Order Act. For abolition applies to of a more disturbed of Cork, Clare, Galway, Wick, Longford, Louth, an, Tipperary, and the and Limerick.

CORONER'S LAW IN IRELAND ENDS

Witnesses Become "Marked Men" So Government Abolishes the Court.

By HUGH CURRAN. Dublin, October 7.—Coroner's inquests on persons killed in connection with present warfare in Ireland have been abolished in certain counties. This is a very drastic step. Coroner's court law is one of the oldest laws under the British constitution. It provides that the coroner with a jury of twelve men, should investigate all sudden or violent deaths.

In connection with the present disorder in the country where civilians have been killed, the jurists have brought in some remarkable verdicts. They have found the British Government and the Prime Minister and other guilty of murder. Later, in the case of shooting of policemen, soldiers or civilians, jurors have hesitated to come forward at all but by so doing, they should become "marked men" by one side or the other.

For this reason, several requests have failed. Now, under the new regulations, the military will set up the tribunals. Naturally, there will be a good deal of protest against this form of tribunal. The military and police have already been responsible for the deaths of a number of civilians, and the fact that they should be judges, when, according to many of the more ardent writers, they should be in the dock, has aroused some indignation.

The abolition of coroner's inquests is announced in a notification in the Dublin Gazette under the new Restoration of Order Act. For the present, the abolition applies only to certain of the more disturbed counties, namely, Cork, Clare, Galway, Kerry, Limerick, Longford, Louth, Mayo, Roscommon, Tipperary, and the cities of Cork and Limerick.

Keeping it Warm. Jim—I guess our home will be good and warm this winter. Uncle Ned—How so? Jim—I just heard Dad tell the pastor to give it two coats.

PILES

Do not suffer from itching, bleeding, or protruding piles. Dr. Chase's Ointment will relieve you at once and afford lasting benefit. See a list of dealers, or Edmondson, Bates & Co., Limited, Toronto. Sample Box free if you return 25c stamp and enclose 25c stamp to pay postage.

BED-RIDDEN GIRL HEALED BY FAITH OF J. M. HICKSON

Ottawa, Oct. 7.—Five and a half years bed-ridden, her body and limbs below the waist being paralyzed, Miss Lafontaine, for almost six years an inmate of St. Luke's Hospital, has recovered and now walks with the ease and grace of any other girl of her age. The restoration of the power of her limbs, according to Miss Lafontaine, is the direct result of the ministrations of James Moore Hickson, the Church of England lay healer, who conducted a mission in St. Albans' Church at the end of June last. She is emphatic in her declaration that the physicians attending her were powerless to effect a recovery, and that her healing is due to the laying on of hands and prayer of Mr. Hickson.

GAS IN THE STOMACH IS DANGEROUS

Recommends Daily Use of Magnesia To Overcome Trouble—Caused by Fermenting Food and Acid-Indigestion.

Gas and wind in the stomach accompanied by that full, bloated feeling after eating and almost certain evidence of the presence of excessive hydrochloric acid in the stomach, creating so-called "acid indigestion." Acid stomachs are dangerous, because too much acid irritates the delicate lining of the stomach, often leading to gastritis accompanied by serious stomach ulcers. Food ferments and rots, creating the distressing gas which distends the stomach and hampers the normal functions of the vital internal organs, often affecting the heart. It is the worst of folly to neglect such a serious condition or to treat with ordinary digestive aids which have no neutralizing effect on the stomach acids. Instead get from any drugist a few ounces of Bismarck Magnesia and take a teaspoonful in a quarter glass of water right after eating. This will drive the gas, wind and bloated right out of the body, sweeten the stomach, neutralize the excess acid and prevent its formation and there is no sourness or pain. Bismarck Magnesia (in powder or tablet form—never liquid or milk) is harmless to the stomach, inexpensive to take and the best form of magnesia for stomach purposes. It is used by thousands of people who enjoy their meals with no more fear of indigestion.

THE snug fit, the fine even knit, the soft material, distinguishes it as a Mercury garment. First quality materials and careful making combine a principle that goes into all Underwear bearing the Mercury trade mark. Mercury Underwear for women is made in all the popular textures for light or heavier wear. Dainty trimmings add a touch of charm to the finer Mercury lines. If your dealer does not handle Mercury, send us his name.

Fall Days Suggest The Essex Sedan

Economical—Easily Handled, Beautiful and Comfortable—Compare its Price

Everyone now thinks of an enclosed car for cool nights and the coming winter. But the objection to enclosed bodies on light cars has been their restricted performance. The Essex has ample power to offset the additional body weight. beauty and it is economical as everyone expects a light car to be. Gasoline, oil and tires are small items of expense in the operation of the Essex. But the greatest saving is due to its reliability. Repair and adjustment costs are negligible. Much of the satisfaction in motoring comes from the appearance of the car. It expresses one's taste and individuality as much as one's clothes or the house in which one lives. The Sedan is in every sense a family car of all seasons. And its price is more than attractive in comparison with other Sedan types, regardless of the more important question of performance and durability.

All Fat People Easily Reduce. The world owes a debt of gratitude to the author of the new famous Marmola Prescription, and it is all more indebted for the reduction of this harmless, effective obesity remedy to tablet form. They are so convenient to take, and as pleasant as candy. One after each meal and at bedtime will quickly reduce your weight, two, three or four pounds a week, and leave no evil effects such as loose, flabby skin and unsightly wrinkles. Just go on eating what you like—leave exercise to the athlete—take your little tablets as directed and soon you will be your natural self, slender in form, sleek and trim muscled. Marmola Prescription Tablets may now be obtained at drug stores, or by writing direct to the Marmola Co., 22 Garfield Building, Detroit, Mich., and their reasonable price—one dollar for a good size box—leaves no excuse for dieting or violent exercise for the reduction of the over-fat body to normal proportions.

OBITUARY

Mrs. John K. Macdonald. Mrs. Grace C. wife of John K. Macdonald, Queen street, and oldest daughter of Martha M. and the late James A. Richardson, died after a short illness. She is survived also by one son, George, and two daughters, Helen at home, and Mrs. Vernon L. Ward, of this city, and one brother and five sisters, George H. Richardson, of Renforth; Mrs. W. A. Finley, Kildr street, east; Mrs. W. J. Farron, West St. John; Mrs. Mont Jones, Newmarket; Mrs. F. E. Garret, Renforth, and Mrs. W. E. Richard, Duke street.

At an early hour yesterday morning the death took place of Robert Barnes Travis, 280 Douglas Avenue. The deceased, who was a well known druggist, Main street corner of Portland street, had been in poor health for some time. He was the son of the late H. and Elizabeth Robertson Travis and is survived by his wife, formerly Miss Elizabeth Peddington, two brothers and two sisters, John and Charles Travis; Mrs. Harold Clark and Mrs. Atkinson Morrison, of St. John.

Veruie Graham. At an early hour on Monday morning the death took place of Master Veruie, youngest son of Mr. and Mrs. John L. Graham, Westford. He was 14 years, 11 months old, and had been ill only two days. His charming manner was his chief recommendation to his many friends, who will be grieved to hear of his death. He leaves to mourn, besides his parents, three sisters and two brothers.

PURCHASED ESTATE. Mrs. E. Azar has purchased the Robinson estate, six acres, situated in business place on Union street.

TENDER GUMS - A WARNING

Beware of gum tenderness that warns of Pyorrhea. Four out of five people over forty have Pyorrhea—many under forty also. Loosening teeth indicate Pyorrhea. Bleeding gums, too. Remember—these inflamed, bleeding gums act as so many doorways for disease germs to enter the system—inflicting the joints or tonsils—or causing other ailments. Forhan's positively prevents Pyorrhea, if used in time and used consistently. As it hardens the gums the teeth become firmer. Brush your teeth with Forhan's. It cleans the teeth scientifically—keeps them white and clean. If gum-shrinkage has already set in, start using Forhan's and consult a dentist immediately for special treatment. U.S. If your druggist cannot supply you, send price to us direct and we will mail you postpaid.

Forhan's FOR THE GUMS

SALE OF STEAM CUTTER NO. 71. Lawlor's Island, Halifax, N. S. SEALED TENDERS, addressed to the undersigned and endorsed "Tender for purchase of Steam Cutter No. 71," will be received at this office until 12 o'clock noon, Wednesday, Oct. 20, 1920, for the purchase of the Steam Cutter No. 71 now beached at Lawlor's Island, Halifax, N. S. Tenders may obtain further information, and permission to view the Cutter on application to Mr. W. P. Morrison, District Engineer and Agent D. S. Halifax, N. S. Tenders must be for the best in its present condition and location. Tenders must be accompanied by a certified cheque on a chartered bank for the full amount of the bid, payable to the order of the Minister of Public Works, which will be forfeited if the person tendering declines to carry out his bid. The Department does not bind itself to accept the highest or any tender. By order, R. C. DESROCHERS, Secretary, Department of Public Works, Ottawa, October 1, 1920.

DEPARTMENT OF CUSTOMS AND INLAND REVENUE. EXCISE TAX LICENSES

Retailers, Jewellers, Manufacturers and Sales Tax Licensees as required under the Amendment to the Special War Revenue Act, 1915, are ready for issue and application forms may be had from the undersigned. Firms not in possession of Licenses on the 15th November, 1920, will be subject to penalty as provided in the Act. PENALTY For neglect or refusal to take out a license shall be a sum not exceeding One Thousand Dollars. T. H. BELYEA, Collector of Inland Revenue, St. John.

HUGE LOSSES BY DESERTING SEAMEN

(Copyright, 1920, by Cross-Atlantic.) Southampton, Oct. 7.—Twenty or thirty seamen often desert a ship on the same day, involving the company in a loss of \$3,000 or more, said the prosecuting solicitor in a case where a ship's fireman named Lynn was fined \$100 or ten months' imprisonment for deserting from the Baltic at New York. The loss sustained by the steamship company to date in this particular case it was stated, was nearly \$165. It came from the fact that a substitute had to be provided at the higher American rate of wages, and had to be maintained while in England. The bench ordered the fine, if paid, to be handed over to the company.

ELECTION CARD

To the Electors of Carleton County, Ladies and Gentlemen: The Government having dissolved the House of Assembly and issued writs for an election to be held on the 8th day of October, I have decided to be a candidate in opposition to the present administration. Having represented this county for a number of years, and its views on a very large measure of confidence that has been placed in me by the electors of this constituency in the past, especially on the last two occasions in which I appeared to them, also in view of the fact that there are many questions that require careful consideration, I feel that I can safely trust my influence in your hands at this time. I am not opposing the United Farmers ticket. Their platform, as I have been able to view it, is largely in accord with my own views. This constituency having gone so strongly in favor of the present opposition party in the last contest, it is only right, in my judgement, that at least one member should be returned with two farmers to represent the people as a whole. I am strongly in favor of increased revenue from stumpage rates upon our Crown Lands as advocated, by the Opposition members at the last session of the Legislature. We need more revenue in order to pay our school teachers a higher salary, and to provide for better roads, especially in the rural districts which have been sadly neglected by the present administration. Burdens of taxes have been imposed by the present Government upon the common people, when they (the common people) own the important asset. The large owners of timber lands have been allowed to reap immense profits from the same, while the price for all lumbering materials has been soaring far beyond our expectations. I am safe in saying that \$1,000,000 more should have been gathered from our Crown Lands the last year. Had this been done it would have been unnecessary for the Government to have added to our loaded indebtedness as they have, which has placed burdens upon us for years to come. It is common knowledge that the big Crown Lands are being devastated, not only by the axe, but by insect pests, blowdowns and other things common to the forest, and a careful analysis of the conditions shows us that we are today cutting thirty-two logs for one thousand feet, whereas a few years ago, from eight to ten logs produced the same amount. This in itself tells the whole story, and plainly shows us all, that we want to conserve our forest wealth as much as we can and to get full returns in stumpage rates from lumber that may be cut from year to year.

I am in favor of a prohibition that prohibits the importation of liquors from the methods which have been employed in enforcing the present law. The sale of liquors should be handled in such a way that it would be possible for the medicinal purposes to get it at cost price plus the commission for handling. I wish to take this opportunity to correct an impression, which seems to prevail in some parts of the county, that I had purchased a residence in the County of York, in Marysville, and intended to remove there. There is no foundation, however, for those statements, as the purchase of such property was in common with the purchase of a number of other real estate purchases which were made purely from a standpoint of business, and I may say to the electors of the constituency that I have absolutely no intention of removing from Carleton County. My interests here are growing larger and larger from year to year. My business is also increasing annually and my home is here in Carleton County, the place of my birthplace, and I propose to remain here. The time before polling day is so short that it will be absolutely impossible for me to call upon the electors of the county personally. Having appeared to you many times before, and being well known throughout the county, I feel that I can safely trust the result with the utmost confidence.

D. FRANK SMITH.

At the election of October 8, 1920, I am in favor of the following candidates: Mr. J. J. Bradley, Mr. W. E. McIntyre, Mr. R. C. Desrochers, Mr. J. J. Bradley, Mr. W. E. McIntyre, Mr. R. C. Desrochers, Mr. J. J. Bradley, Mr. W. E. McIntyre, Mr. R. C. Desrochers.

At the election of October 8, 1920, I am in favor of the following candidates: Mr. J. J. Bradley, Mr. W. E. McIntyre, Mr. R. C. Desrochers, Mr. J. J. Bradley, Mr. W. E. McIntyre, Mr. R. C. Desrochers.

Cleared Oct. 6, str Empress of France, Liverpool. Apple shipments. Halifax, Oct. 6.—Heavy shipments of apples continue from this port. The Furness liner Ermenegildo sailed today for Liverpool with 12,000 barrels, and the Manchester Mariner will sail for Manchester tomorrow with 10,000 barrels.

Was Reheated. S.S. Clare Hugo, St. John, N. B., which went ashore last week of Cape John, Pictou County, was refloated yesterday. The steamer will be towed to Pictou today. Had Good Run. Yarmouth Herald, Tuesday: St. John turn schooner E. M. Roberts, Captain William Kelson, arrived in Yarmouth yesterday from New York with coal. Captain Kelson reports a very fair run and although the vessel encountered only light winds for the whole trip, had a fair passage, as she left New York on Friday and made Yarmouth Cape shortly after dinner yesterday. After discharging the E. M. Roberts will probably proceed to St. John.

Service Revived. The Cunard line has revived its service between London, Canada and the United States, with the sailing of the steamer Caronia, which will first call at Halifax and then New York. The Caronia carried 1,600 passengers, the largest number ever taken on a single steamer from London to America.

THE WEATHER.

Toronto, Oct. 7.—A depression is centered tonight in Saskatchewan and pressure is highest south of the lower lake region. The weather has been cooler in Alberta and Saskatchewan attended by some showers. Elsewhere in the Dominion the weather has been fair.

AROUND THE CITY

NEW MOTOR APPARATUS. Commissioner Thornton states that the new motor fire engine and the new motor ladder truck will be here about the middle of next month.

INFORMATION WANTED. The Postmaster is anxious to locate Albert Essary, who is thought to be working in St. John, and for whom he has a letter from Prince Edward Island. Information will be appreciated by the Postmaster.

STEAMER E. ROSS. Ferry steamer E. Ross, thoroughly overhauled and strengthened, was taken through the Falls yesterday morning from Hilyard's blocks and moored at Ladiantown. She will be put into commission probably today.

THE POLICE COURT. There was but one prisoner before the police court yesterday, John McNeil, a stoker of the S.S. Amickokan, who was charged with being drunk and refusing duty. He was allowed to go back to his ship after receiving a lecture from Magistrate Ritchie.

SYNDICATE EXECUTIVE. The executive of the Diocesan Synod of Fredericton held a special meeting yesterday morning in the Church of England Institute regarding the University of King's College, Windsor. After some discussion it was decided to refer the matter to a committee to be appointed by His Lordship Bishop Richardson. A session of the executive committee was held in the afternoon.

PLEASANT GATHERING. The home of Mrs. Jas. Gaulton was the scene of a pleasant gathering, when a number of her friends gathered to bid farewell to her cousin, Miss Edythe McAloney, who is returning to her home in Portland, Me. On behalf of those present Mr. K. Brown presented Miss McAloney with a handsome cameo pin. The evening was spent in games and dancing. All wish Miss McAloney a safe return home.

NEW MOTOR FLUSHER. The new motor flusher for the public works department arrived yesterday. The vehicle will be tested by an official of the producers before being turned over to the city, and will probably be tried out today or tomorrow. The flusher is a Kelly-Springfield truck with a Ledoux Jennings flushing equipment. It has a capacity of 1,300 gallons, as compared with 400 for the old type of watering carts. The speed of the flusher is 14 miles per hour.

POPULAR PRESENTATION. A very pleasant place yesterday afternoon when the office and staff of the C. G. M. M. presented J. P. Doherty with a traveling set. The presentation was made by Harold E. Kane and Mr. Doherty replied briefly with a few appropriate remarks. Mr. Doherty who has been the capable and popular port agent for the C. G. M. M. in St. John, left last night to fill the office of export freight agent for the Montreal office. With him leaves Assistant Manager H. Milburn, who has been in town for the last two days on a tour of inspection. Mr. Kane is now port agent.

THE SILENT COP. Two Ford cars collided on the corner of Charlotte street near the Dufferin Hotel. One was going south along Charlotte, and the other came down the south side of King square. A bent axle and two punctured tires was the result of the crash. Earlier in the season a couple of collisions happened on Sydney street corner. The Commissioner of Public Safety placed a silent policeman at this section, and drivers are keeping to the left. Another silent cop has now been placed on the Dufferin corner and so far is doing excellent duty.

LETTER OF THANKS. Mrs. C. F. Rogan, 302 Germain street, who sent a letter and contribution to the widow of the unfortunate man Johns, who recently committed suicide in this city, has received a letter of thanks from Arthur Grinths, of Swansea, South Wales, father of Mrs. Johns. He expresses warm thanks for the assistance sent, and says that his daughter is now with him and was very ill at the time of writing. Mr. Grinths said the money received would be a great help, as times were rather hard and he had a wife and several small children and had recently lost a daughter aged twenty-one years. Mrs. Johns wishes to thank all who had sent her letters of sympathy, and would try to send Mrs. Rogan a photograph of herself and baby.

Pilot J. Doherty Retires On Pension

Placed on List After Performing Faithful Duty for Over Fifty Years.

Pilot Joseph Doherty has been put on the pension list after a long and most faithful service. Perhaps there is not a pilot along the Atlantic coast who is better known or more popular with the commanders of vessels from the small packet to the largest steamship entering this port than Mr. Doherty.

It is about fifty-five years ago when Joseph Doherty went down the bay as a pilot and ever since that time he has been rated as one of the best. He is still active and has been constantly on the job right up to the time of his receiving word on Wednesday that he was to go on the pension list. The life of a pilot is not an easy one. Their hours are long and the work is one that is on many occasions full of personal danger when they leave their craft to board a ship during heavy weather. There is now a large gangway ladder to walk up to the ship's deck, but the pilot has to make a sure hold of a rope ladder when he leaves his small boat and then climb up the side of a rolling ship.

The pilots earn every cent they receive for work which places a great responsibility on them, and to retire with a good record and having the popular feeling from all mariners and shipping men, is something that Pilot Doherty can claim. The pension received by the pilots is rather small; in fact, too small for a most important duty which has been fulfilled for so many years.

Young Men's Assn. of Germain St. Church Officers Elected, Banquet at Bond's Enjoyed and Addresses Delivered.

A much enjoyed banquet held last evening at Bond's restaurant marked the opening meeting of the Young Men's Association of Germain Street Baptist Church. An organization meeting was held recently at which the following officers were elected: H. Everett Hunt, president; Frank Lewis, vice-president; H. E. Magnusson, secy.-treasurer; Elsworth Field, cor. secretary. A number of chorale songs were sung as the members were gathering for last night's entertainment at which the president, H. Everett Hunt, presided. Members then introduced themselves giving their names and occupations. After a five course dinner had been served and appreciated, the guest of the evening, Rev. Canon Armstrong, delivered an excellent address. He held five things a man should do in order to influence others: He should, he straight, be himself, have a sense of humor, be sympathetic, and have faith in God.

Short Addresses. Short addresses were made by the new president, S. S. Poole, pastor of the church, S. E. Fisher, honorary president and S. H. Davis, W. C. Cross the class leader spoke on "Service," J. Stuart Smith gave a fine solo. There were forty-five present and a good spirit of comradeship was shown the social nature of the affair being a feature. The increased membership is an inspiration to go forward this year and do bigger things than ever.

INVITED TO ATTEND THE FIFTH ANNUAL

Invitations have been received by members of the Motion Picture Exhibitors' League of the Maritime Provinces to attend the fifth annual convention to be held at Halifax, N. S., October 20 and 21. The programme will consist of Exhibitors' conferences, Exchange Managers' conferences, and joint open meetings. E. J. MacAdam, Halifax, is president of the league; J. M. Franklin, secretary. It is probable that a number of St. John exhibitors and exchange managers will go to Halifax for this gathering.

RETURNED FROM VACATION. Magistrate Ritchie has returned from an enjoyable vacation spent in Sydney and Mulgrave, Nova Scotia. Although his honor arrived in the city on the early morning train yesterday, he was back on the bench again at ten. The lone drunk who appeared before the judge found that his well earned rest had in no way impaired his "temperance vocabulary." His Honor was much taken with Sydney's magnificent harbor which he describes as full of shipping, that is not the case in St. John at present, but a few months will make a difference.

"POLLYANNA" GREAT HIT! Mary Pickford in "Pollyanna" is a tremendous success at the Imperial as was evidenced by yesterday's vast crowds. It is Miss Pickford's greatest success. Again today and Saturday.

MARTELLO BAND FAIR OPENS SATURDAY. The great Fall Fair of the Martello Cornet Band, formerly the 26th, will be opened in the Carleton Curling Rink on Saturday evening next by Acting Mayor Frink, assisted by Commissioners Thornton and Jones. A feature of the inaugural night will be announcement of election returns. Elaborate preparations have been made by the band to create a fairyland in the rink and when the final decorations are in place, it is predicted that the scene will be well worthy of public approval. In variety of entertainment and in excellence of its musical programme, the fair is expected to set a precedent for Fall shows. The object of the fair is to procure uniforms in order to re-establish the band on a proper peace footing.

Opening Meeting Of The Y. W. P. A.

Reports Received, Committees Appointed and Much Other Business Transacted

Arrangements for a dance to be held this month, endorsement of the Navy League appeal, a donation of \$10 to the Victorian Order of Nurses and a resolution to undertake the centenary of the Seaman's Institute were among the matters of business transacted at the opening meeting of the Y. W. P. A. last evening at the G. W. Y. A. rooms. The president, Miss Alice Fairweather, presided and much enthusiasm was shown by the members in planning to carry on the useful work of this society.

Committees Appointed. The following committees were appointed to interview the G. W. Y. A. in regard to a dance to be held at the rooms: Miss Borden, Miss Hatch, Miss Dodge, Miss Harriet Smith. It was decided to send milk three times a week and a box of biscuits once a week to the North End Free Kindergarten. Miss Ross undertaking to look after this. Miss Bettle and Miss Gray were chosen delegates to the Hostel Committee. At the request of the management of the Seaman's Institute the Y. W. P. A. decided to continue their work at the centenary, and to give four treats during the season in place of the weekly concerts. The following committee was appointed: Miss Wainwright, chairman; Misses Melick, Colston, Smith, Mackay, Bayntun.

A letter of regret at her departure from the city and of appreciation of her work as a Y. W. P. A. member will be sent Miss Harriet Willett who has gone to Boston. An invitation was received from the Y. W. C. A. to form a Y. W. P. A. class in gymnastics. It was reported that flowers had been sent to the parents of Mrs. Charles Humphrey and \$25 to the widow of Ambrose John.

Reports Received. Reports were received from Miss Alward on the Y. W. P. A.'s work at the Exhibition and from Miss Gray on drives given to civilian patients at East St. John. Miss Gray reported that it is difficult to secure private motors for this purpose. Miss Irene Barber suggested the closing up of the Anti-Tuberculosis membership campaign and this idea was acted upon. About one hundred members having been secured. It was reported that papers and comforts have been supplied soldiers at East St. John Lancaster and River Glade. The treasurer, Miss Short, reported the funds rather low and among the suggestions made for raising money were a dance, two lectures, and an afternoon tea and sale. Miss Alward and Miss Fairweather will make arrangements for an illustrated lecture. One member asked if a twelve year old boy would be found for whom a good home in the country will be provided. Work by the day for a woman was asked for and a young girl is being taken care of a child during the day.

Numerous cases of relief afforded soldiers' families were reported and the Association has paid bond in the country for a member who was unable to work all year because of illness. Two new members, Miss Larkins and Miss Lake joined last evening. Miss Bossie McLeod, of St. John, spent the week-end in Hampton, the guest of her niece, Mrs. Percy L. Robinson.

Big Seaplane Crashed In River

Owing to Accident Was Forced to Descend in Long Reach—Letter to Mayor.

The new Patrol Seaplane, piloted by Colonel Robert Leckie and Major Basil D. Hobbs, passed over the city yesterday morning on the first leg of the Canadian Air Board's Transcontinental flight. Shortly after eleven o'clock it was forced to descend in the Long Reach. While flying at an altitude of something over 1,000 feet, the cowling on the engine suddenly blew off, cutting the gasoline pumps and carrying away a portion of the propellers. The engine was immediately shut off and a fairly good landing was made in the St. John River about half a mile off shore, opposite Fair View, Brown's Flats.

Colonel Leckie said that the machine was a freak one, and had never worked satisfactorily. He expressed the opinion that it was a good thing that it failed where it did, as an accident later might have been attended with much more serious consequences. Crashed Into River. The plane passed over the city about a quarter to eleven o'clock, and followed the line of the river. When almost opposite Brown's Flats the "bird" got in under the cowling, which was about nine square feet, tearing loose the screws by which it is fastened to the fuselage of the "machine. The cowling was hurled violently backward, missing the passengers, as it cut through the petrol pump in its flight and wrecking the propeller.

The accident caused a heavy drag on one side of the plane, making it almost unmanageable and the gasoline tank on the damaged pump was in great danger of taking fire. The engine, however, was shut off and Colonel Leckie started to plan for a landing. It was a difficult procedure, as the drag on one side of the plane caused it to be hard to steer. When nearing the water, however, the colonel flattened out his planes as best he could and she struck the water on a fairly even keel. The under-carriage collapsed, but the floats remained afloat, and the occupants were unharmed, and the occupants of the air boat did not even get a wetting. The under-carriage, Colonel Leckie said, had evidently been strained during some previous landing. The cowling, he said, had apparently been badly attached to the fuselage. With the aid of motor boats and row-boats secured in the vicinity, the hydro-plane was towed ashore and is now lying on the beach awaiting the arrival of a salvage crew sent for by Colonel Leckie. This crew will dismantle the machine and it will be shipped to Halifax. Major A. B. Shearer left Halifax at 1.15 yesterday afternoon to go to the assistance of Col. Leckie, and passed over St. John about four o'clock.

Dropped a Letter. While flying over the city yesterday morning, a letter of greeting from the Mayor of Halifax to the Mayor of St. John, dropped by Colonel Leckie and found in Brock and Paterson's yard, King street, read as follows: Mayor's Office, Halifax, N. S., His Worship the Mayor, St. John, N. B.

Sir:—The City of Halifax sends greetings to the City of St. John, and trusts that the aeroplane by which this message is carried may be the harbinger of a service by the air from one coast of Canada to the other, which will bind yet more closely together the cities of this Dominion, and in comparison to which the railway will seem as slow and antiquated as the mail coach now seems in comparison with the railway. Yours faithfully, J. S. PARKER, Mayor.

ORPHANS' HOME REGULAR MEETING

The regular monthly meeting of the Protestant Orphans' Home, West Side, was held yesterday afternoon, with Mrs. F. W. Murray in the chair. A large amount of routine business was dealt with.
