"Wilbur House,"

Bathurst, Gloucester County, N. B.

This House, which has been enlarged and thoroughly repaired, repainted and re-furnished, will be open to the public on Monday next, 12th June.

As regards situation, it is located in a very pleasant town, and being in close proximity to the Bathurst (Chaleur) is one of the very best summer resorts for tourists and families who leave the heated cities to seek the invigorating air of the North. The country is rich in beautiful scenery and excellent fishing grounds. The hotel is within easy reach of the International Railway, and every effort will be made by the Proprietor to secure the comfort and pleasure of all who may patronize the establishment, which will be conducted in the very best style.

THE UNION ADVOCATE, WEDNESDAY, AUGUST 1, 1877.

of the late order of the ten per cent reduction. No violence apprehended.

Collapse of the Reading Riot.

Riot at San Francisco.

New York, July 26.—At Reading there is complete subsidence of rioters to authority of law. Several ringleaders were arrested, and warrants for 100 more are out. The mob is almost hopelessly broken and many are hiding in hills around the city, while others fled.

The consequences of strike and almost complete blockade of railroads are beginning to crop out in several localities. Towns and small cities are threatened with scarcity of breadstuffs and trouble in this direction may be next in order. At Pittsburgh, where the necessities of life are rapidly becoming scarce, the public streets beggar for bread. Prices of the necessities of life are rising rapidly in anticipation of scarcity and destitution. The effect on business is serious. The strike at Pittsburgh shows a decrease in the volume of trade of 75 per cent. The strike of the Morris and Essex road have joined the strikers in the strike. The employees of the Lehigh and the South-eastern road also struck. The strike on the New Jersey Central has stopped all travel and freight.

The trains on the Canadian Southern are abandoned except between Niagara and Buffalo. The Great Western and Grand Trunk are running regularly as far as the Suspension Bridge.

Governor Hartranft, of Pennsylvania, authorized the formation of two more regiments.

Chicago was the scene of much disorder during yesterday and last night. The mob was very bold and defiant, and numerous encounters occurred with the police, in which the latter were generally victorious.

At San Francisco during the night many fires were kindled in the lumber yards, causing considerable loss of property. A fire was started near Madison Dock, and a crowd of ten thousand assembled at the top of an adjacent hill. The police and citizens attempted to drive them off, and were followed by showers of stones. They then stormed the hill in the face of a hot fusillade of shot and shrapnel. The rioters arrived and getting into close quarters used their clubs with telling effect. In the confusion a young man fell probably fatally wounded. Another citizen is reported shot dead, and a great many others wounded by the use of the mob. It is impossible to ascertain the loss of the rioters.

Several persons are reported killed and wounded, but nothing definite is known. At least 100 persons are hurt in the mob; about a dozen are hurt in drug stores. Latest reports are that the crowds are mostly dispersed and under control, and the police are now the masters of the situation. Bands of hoodlums were breaking into Chinese houses but were driven off by the police. The mob finally broke into small gangs, and were closely watched by police. One fireman was shot dead, and two vigilantes were wounded.

Trouble at Chicago.

Chicago, July 26, a. m.—Chicago was the scene of much disorder during yesterday and last night. The mob was very bold and defiant, and numerous encounters occurred with the police, in which the latter were generally victorious. Only one or two fatal results are likely to follow from the disturbances.

11 A. M.—At 10 o'clock the police had a fight with the mob on Newburg Avenue.

The mob held the police in check, and a regiment was ordered to their assistance.

Noon.—It is reported a squadron of mounted veterans of the Grand Army of the Republic, with drawn sabres, and carrying the Union flag, were in the streets. They were fired upon by the mob, and one policeman and 150 wounded.

1.15 P. M.—At 1 o'clock the artillery left their quarters for the scene of conflict, which is now at the corner of Halsted and 16th Sts., and five minutes after the booming of cannon showed that the regulars were in the thick of the fight with grape and canister.

A correspondent at the scene could not get a nearer view than the following:—The slaughter will be terrible.

New York, July 26, p. m.—A Chicago special says a mob, ten thousand strong, are fighting the police at Halsted street viaduct. The mob threw a Chicago, Burlington and Quincy coming passenger train off the track at the viaduct and mobbed an outbound train.

The southwestern part of the city is in the hands of an infuriated mob. The city is all excitement and the wild rioting.

Washington, July 26—p. m. The War Department has issued orders authorizing the use of United States troops to quell the riot in Chicago, by to-night there will be twelve companies of United States regulars in that city. Others are under orders if required.

Chicago, July 26—p. m.—Among the railroad business of the Michigan Central, Illinois Central, Chicago & Alton, North Western, Chicago & St. Paul, Chicago & North Western, Rock Island & Pacific, and Lake Shore and Michigan Southern railroads.

All the men connected with the freight business on these roads have either quit voluntarily or through compulsion. Besides these the rabble caused the men to suspend operations in several manufacturing.

The Round-house Battle in Pittsburg. (Philadelphia Times, July 26.)

Lieutenant James P. Elliott, of the Washington Grays, Acting Assistant Adjutant-General of the 1st Division, 1st Brigade, First Division, P. N. G., who was in the thick of the following conflict, gave to the Times the following account of the affair:—

"Sheridan, after in vain endeavoring to serve his writ, read the Riot Act, at which the mob cheered and laughed; and the deputies and the militia retired in profound disgust. The troops were then deployed in the purpose of sweeping the mob from the tracks, the Grays and Weeacoo Legion facing the two thousand or more strikers that occupied the tracks. At the back of the command was a train of coal cars, behind which there were about two hundred of the strikers. In order to force the principal mob back the soldiers of the Grays and the Legion crossed their muskets, their intention being to avoid doing the strikers injury. The crowd laughed and jeered and finally attempted to wrest the muskets from the soldiers, who then came to a charge bayonet, and in the melee that necessarily followed one of the strikers was wounded by a bayonet thrust. The cry arose from the mob: 'Stick to it; cry to them; don't fall back!'

The strike on the Wisconsin, Kansas and Texas Road has terminated, the Company generally conceding to strikers' demands. Pennsylvania troops moved all its east bound freight from Pittsburg yesterday.

Mine engineers, firemen and pumpmen of the Delaware and Hudson company have struck, and the mines are nearly flooding.

At Keyser, W. Va., seven freight trains were stopped by the strikers. The first being wrecked prevented the others from proceeding. Troops moved to the scene of the wreck, but the strikers dispersed.

At Danmore, Pa., fifty disguised men burned the engine house, fired several other places and fled.

All work is now suspended in the mines and shops in Wyoming and Lackawanna Valleys. It cuts off all means of shipping coal by the Pennsylvania.

Terre Haute engineers, firemen and brakemen on all roads went to work at old wages.

North Shore Trade Returns. We condense from a Chatham paper the Trade Returns for the fiscal year ending June 30, 1877:—

North Shore Trade Returns. We condense from a Chatham paper the Trade Returns for the fiscal year ending June 30, 1877:—

PORT OF CHATHAM.—Imports \$166,279; duties \$53,651.92; Sick Mariners' Fund, \$2,000.94; exports \$909,519. For the year ending June 30, 76, the imports were \$144,830.00; exports \$827,073.78. Fund, \$2,073.78. Exports, \$1,121,483. There were entered from sea during the year, 219 vessels, 107,618 tons and coastwise 239 vessels, 25,265 tons. Cleared for sea, 221 vessels, 112,198 tons, and coastwise 243 vessels, 27,438 tons.

The New York Central has stopped all travel and freight.

The trains on the Canadian Southern are abandoned except between Niagara and Buffalo. The Great Western and Grand Trunk are running regularly as far as the Suspension Bridge.

Governor Hartranft, of Pennsylvania, authorized the formation of two more regiments.

Chicago was the scene of much disorder during yesterday and last night. The mob was very bold and defiant, and numerous encounters occurred with the police, in which the latter were generally victorious.

At San Francisco during the night many fires were kindled in the lumber yards, causing considerable loss of property. A fire was started near Madison Dock, and a crowd of ten thousand assembled at the top of an adjacent hill.

The police and citizens attempted to drive them off, and were followed by showers of stones. They then stormed the hill in the face of a hot fusillade of shot and shrapnel.

The rioters arrived and getting into close quarters used their clubs with telling effect. In the confusion a young man fell probably fatally wounded.

Another citizen is reported shot dead, and a great many others wounded by the use of the mob. It is impossible to ascertain the loss of the rioters.

Several persons are reported killed and wounded, but nothing definite is known. At least 100 persons are hurt in the mob; about a dozen are hurt in drug stores.

Latest reports are that the crowds are mostly dispersed and under control, and the police are now the masters of the situation.

Bands of hoodlums were breaking into Chinese houses but were driven off by the police. The mob finally broke into small gangs, and were closely watched by police.

One fireman was shot dead, and two vigilantes were wounded.

Trouble at Chicago. Chicago, July 26, a. m.—Chicago was the scene of much disorder during yesterday and last night.

The mob was very bold and defiant, and numerous encounters occurred with the police, in which the latter were generally victorious. Only one or two fatal results are likely to follow from the disturbances.

11 A. M.—At 10 o'clock the police had a fight with the mob on Newburg Avenue.

The mob held the police in check, and a regiment was ordered to their assistance.

Noon.—It is reported a squadron of mounted veterans of the Grand Army of the Republic, with drawn sabres, and carrying the Union flag, were in the streets.

They were fired upon by the mob, and one policeman and 150 wounded.

1.15 P. M.—At 1 o'clock the artillery left their quarters for the scene of conflict, which is now at the corner of Halsted and 16th Sts., and five minutes after the booming of cannon showed that the regulars were in the thick of the fight with grape and canister.

A correspondent at the scene could not get a nearer view than the following:—The slaughter will be terrible.

New York, July 26, p. m.—A Chicago special says a mob, ten thousand strong, are fighting the police at Halsted street viaduct.

The mob threw a Chicago, Burlington and Quincy coming passenger train off the track at the viaduct and mobbed an outbound train.

The southwestern part of the city is in the hands of an infuriated mob. The city is all excitement and the wild rioting.

The strike on the Wisconsin, Kansas and Texas Road has terminated, the Company generally conceding to strikers' demands. Pennsylvania troops moved all its east bound freight from Pittsburg yesterday.

Mine engineers, firemen and pumpmen of the Delaware and Hudson company have struck, and the mines are nearly flooding.

At Keyser, W. Va., seven freight trains were stopped by the strikers. The first being wrecked prevented the others from proceeding. Troops moved to the scene of the wreck, but the strikers dispersed.

At Danmore, Pa., fifty disguised men burned the engine house, fired several other places and fled.

All work is now suspended in the mines and shops in Wyoming and Lackawanna Valleys. It cuts off all means of shipping coal by the Pennsylvania.

Terre Haute engineers, firemen and brakemen on all roads went to work at old wages.

Useful Information.

ECONOMICAL PAINT.—Skim milk, 2 quarts; fresh cracked lime, 8 ounces; linseed oil, 6 ounces; white Burgundy pitch, 2 ounces; Spanish white, 5 pounds. The lime to be cracked in water, exposed to the air, and mixed in one fourth the milk. Dissolve the pitch in the oil and add a little at a time. Then add the rest of the milk and the Spanish white.

A good whitewash for walls is made by adding to fresh cracked lime and water, a solution of starch, a little salt, and a few drops of dissolved indigo or bluing. —Scientific American.

Paint intended for outside work, which will not be protected by varnish, is mixed as follows: Crush the lime in lumps, and mix to a stiff paste with linseed oil; then, if a dark color, add brown Japan or gold size, in the proportion of 4 pint to a gallon of oil; in a light color, use patent dryer in similar quantities.

TOMATO TRELLIS.—A cheap and convenient trellis for tomatoes is a four square frame for every hill. It requires corner posts, each about two feet long and one inch square, and three pieces of lath, each one foot long, nailed on each of the four sides. The trellis cost only a few cents, and save many times their cost in tomatoes. If such a trellis be placed around each hill before the plant has fully grown, the fruit will be kept off the ground. It may be made of durable wood and carefully stored during the winter, and will last a score of years, especially if dipped before using in a kettle of coal tar. —Orchard and Garden.

CHEAP & GOOD VINEGAR.—To eight gallons of clear rain water add three quarts of molasses; turn the milk into a clean, tight cask, and seal well two or three times and add three spoonful of good yeast, or two or three yeast cakes. Let stand in a warm place, and in ten or fifteen days add a sheet of common wrapping paper, smeared with molasses and turn into narrow strips; the paper is necessary to form the "mother," or life of the vinegar. This recipe is from a subscriber who highly recommends it.

COLD BOILED HAM.—Chop the ham and add to it milk sufficient to soak the required quantity of toast, sliced of bread in the milk, and as each piece is laid upon the platter, spread with a little butter. When all the toast is moistened, add to the milk and ham that remains, two or more eggs; stir constantly, and as soon as it thickens, pour over the toast and serve.

POTTED HAM.—Chop the ham as fine as powder; put a layer of ham in a jar, sprinkle pepper, cloves and vine, gar over it; then a layer of ham, continuing until the jar is nearly full; finish with spices, and seal with wax as in the depth; let it stand two or three days. Cold meat may be prepared in the same way.

CEMENT FOR BROKEN CHINA, GLASS, ETC.—Dissolve half an ounce of gum arabic in a wine glass of boiling water; add plaster of Paris sufficient to make a thick paste, and apply with a brush to the parts required to be cemented together. I have repaired several articles most effectively by this recipe.

LEMONADE.—Powdered sugar four pounds, citric or tartaric acid 1 ounce, essence of lemon two drachms; mix well. Two or three teaspoonfuls make a very sweet and agreeable glass of extemporaneous lemonade. This recipe is from our little niece, Eva.

ACID UPON CLOTHING. When acid has been dropped on any article of clothing, apply liquid ammonia to kill the acid; then apply chloroform to restore the color.

A skillful sawyer, in sawing a log into scantling, which he knows will split, will first mark off the ends into cuts; and then, after sawing once through on one side of the log, will saw a slab off the other side, and finish in the middle. By this means the lumber will be about as true as if the timber were not inclined to spring at all.
