Kingsville, Sept. 11.—The charge that Mr. Meighen is the champion of the private ownership interests which would wreck the success of the national railways was made by Right Hon. George P. Graham, minister of railways and canals, at the enthusiastic Liberal convention here this afternoon, which chose him man, who died Thursday night again as the Liberal standard-bearer for South Essex.

"Mr. Meighen's policy," said Mr. Graham, "is to tie the Canadian National hand and foot, cut its throat, and tell it to proceed to compete successfully, not only with the Canadian Pacific

but also with the United States lines." So fine is the record of the national railways this year, under the control of Sir Henry Thornton, said the Dominion minister of railways, that it is much better than most of the railway lines Answered Meighen Charges. "This proves beyond a doubt,"

failures for August of 1925 gives evidence on this point. Their report says:

"There were fewer commercial failures in the Dominion of Canada during August than in that month of all years since 1920, while the liabilities are the smallest for the period in six years. Numbering 126, last month's defaults compare with 130 in August, 1924, and with 289 in 1922, the high point for the month. In August, 1920, the number was 102. At \$1,801,584, last month's liabilities make a close comparison with the \$1.837,160 of August, last year, but are much below the amounts for August of all other years back to 1919. The indebtedness was particularly heavy in August of both 1922 and 1921, being in excess of \$12,000,000 and \$10,000,000, respectively.

Another way to find out if conditions are improving is to look at the prices quoted today for the stock of a varied list of Canadian concerns. There is no sentiment in these figures. If a company is doing a reasonable amount of business, and earning a profit that produces dividends, the value of that stock goes up and people pay good hard cash for it on that basis. The following list represents twenty-three Canadian concerns in a variety of lines, with the quoted price of their stock in 1921 and the market value of the stock today:

death of J. D. F. Drummond. The only thing wrong with the first statement is that Dr. McNeill, having been dead nearly three years, could hardly have been nemi nated this year.

The only thing wrong with the second statement is that the late J. D. F. Drummond was never a member for East Middlesex, but sat for the west riding. The Advertiser never objects to being cor-

#### About the Mule

If when you pull a bone some day, although you've done your very best, it's good advice to face the thing and get the trouble off your chest.

There is one chap it's good to know, his life is like a merry song, because he's sense enough to see that what he does is sometimes wrong. It's easy for folks every day to pull a bone in what they do, and easy, too, to click the jaw determined then to see

It's better far to see the thing and get it off your chest right quick, than try to bolster up what's wrong and heave the odd defendin'

For none of us were ever born with brains that ticked so fine and true that not an error come to pass in all things we say or do. The best that most of us can hope as we go trudgin' right along, is that we're right a few more times than what we be accounted

About the only thing I know that gets away from this old rule is what the most of us describe as being a stubborn, long-eared

A mule, you know, he sets his mind, if he has got a mind at all, and by the thinkin' that he does that mule's prepared to stand or fall. If he has took it in his mind his footwork's going to take him east, a charge of dynamite would fail to pry the notion from the beast.

And some one goes and gets a gad, another grabs a scantlin' too, to try and make that mule proceed and travel how he ought

Yet in the end he's got to move and do his little gee or haw, but he's got bumps upon his ribs and blisters camp upon his jaw. So when you're wrong the wisest thing is just to go and meet the guy, and swallow at your pride a bit and look him square upon the eye. Then get the thing from off your chest and twist your compass round a spell, you'll find the breeze a-springin' up and prospects lookin' mighty swell,

It's just as how I said before, that as we go and trudge along, the best we can expect is that we'll be right more than what we're

Buster Bear was getting out of sorts. He certainly was. He was beginning to realize that he couldn't look in every tree in the Green Forest for those missing mushrooms. His neck began to ache in no time at all. You see, he wasn't used to walking along with his head tilted up. Of course, he knew that Chatterer couldn't have carried those mushrooms a very great distance, but even at that there were more trees than he cared to think about.

Buster sat down to rest his neck. "Gr-r-r-r-r, this won't do at all." "Gr-r-r-r-r, this won't do at all." "grumbled Buster. "In the first place I can't half see up in these trees. The Coast of Folly.

The Coast of Folly, starring Gloria wanson at Loew's theatre for the palance of the week, shows the glorous Gloria in her first dual role on the screen, and proves beyond doubt hat she is easily one of the greatest if moving picture stars.

The Coast of Folly is a story as The Coast of Folly is a story as inlike Madame Sans Gene, her preious success, as day is from night. It is a warning for the girl who lares; an idyll for the girl who cares. The picture is laid against a background of Palm Beach and New York where so many lives, young and old, have been wrecked on the rocks of public opinion and the shoals of lander.

Special to The Advertiser.

Sarnia, Sept. 10.—William Renaud of Belle River was acquitted on a charge of armed robbery at Port Lambton early this summer by Magistrate C. S. Woodrow in county police court. Renaud was alleged to be the man who held up Fred Studor, caretaker of a liquor scow at Port Lambton, taking \$6.30 in cash and 38 cases of whiskey. The defence was an alibi, the magistrate deciding at the close of evidence that identification had not been fully established by crown witnesses.

# Making Tire History SUPERTWIST is doing that in Goodyear Balloons

MOST of the earlier users of Goodyear Balloon Tires were impelled to buy them by a desire for greater riding comfort. But these users have long since learned that in Goodyear Balloons this greater comfort is matched by a surprising increase in serviceability.

They are piling up mileage totals, and records for freedom from trouble, which users say are astonishing.

Back of the splendid achievements of these Goodyears is the new cord fabric, SUPERTWIST, developed by Goodyear to solve the special needs of the balloon tire.

The superiority of this new material lies in its greater elasticity; SUPER-TWIST far outstretches the breaking point of standard cord fabric.

When a Goodyear Tire made of SUPERTWIST strikes a stone, the elastic cords yield to the impact, stretching under the blow like rubber bands.

If you want the fine kind of tire performance that is reflected in this impartial testimony, get the only tires that are made with SUPERTWIST

-Goodyear Tires. Your Goodyear Selected Dealer has tires made with SUPERTWIST in both Balloon and High-Pressure types.

## I. O. D. E. VOTES TO ERECT CENOTAPH WITH CITY HELP

Municipal Chapter Plans Large Program For Coming Season.

#### PRESENT MARCHETA

The Municipal chapter, I. O. D. E., has decided to let other organizations assist in the erection of a cenotaph for London. This decision was reached at yesterday afternoon's meeting of the chapter, held in Cronyn Hall. The members decided to put aside any selish desire to erect the memorial themselves, because they felt that such a memorial cause they felt that such a memorial should be a city-wide expression toward the men who sacrificed their

toward the men who sacrificed their lives overseas.

Mrs. George MacDonald, convener of the cenotaph committee, reported progress during the summer months. Already the following chapters have promised to back the scheme, while others have not yet held meetings on the subject: Trafalgar, C.E.F. Returned, Lord Elgin, Nicholas Wilson, Seventh Regiment, Sir George Ross, Overseas, Loch Lomond and Harriet Overseas, Loch Lomond and Harriet

MISS EDITH GRAY.

Though the girls who represent Manitoba in the demonstrations be-ing given in the women's building at the exhibition declare their disinclination to marry farmers, this young lady, Miss Edith Gray, provincial organizer of the girls' clubs of Mani-toba, affirms that she is willing to wed a farmer—when she finds the right one.

The Canadian National Institute for the Blind is to have a booth at the Western Fair, and Mrs. E. B. Smith appealed to the members for their support in this connection.

A report of the children's hospital committee presented by Mrs. A. E. Miller consisted largely of an appeal to the chapters for jam showers. Until the present time the hospital has not had to buy or make an ounce of jam, because of the generosity of the citizens of London. But just now there is nothing in the ounce of jam, because of the generosity of the citizens of London. But just now there is nothing in the larder. The report also mentioned the opening up of the third floor.

Letters of sympathy were forwarded to Miss Winnifred Gordon of Kingston and Mrs. Strathearn Hay of Toronto.

The Happiest Wives Are Those Who Are Active Members of Matrimonial Partnership.

A man asks: "Can a husband be too good to his

Yes. A husband can be too good to his wife. So can a wife be too good to her husband. Hushands and wives are just as easily spoiled as babies are, and they react to spoiling exactly the same way that babies do. They become peevish, and fretful, and unreasonable. They howl for the moon. The more they are given in to the more they demand and the more unrelenting their tyranny becomes. They smash things in sheer wantonness, and they need nothing on earth so much as to be turned across somebody's knee and given a good spanking, and made to behave themselves.

All of us know plenty of men and women, with many fine and noble qualities, who would have made splendid husbands and wives if they had not been badly spoiled by their overindulgent wives and husbands. But instead of being disciplined. and forced to control themselves. and made to act like reasonable from the past.

Finally, the longed-for moment arrived, when she dared retire.

She murmured something conventional—afterward she could never to, until they became a curse to to, until they became a curse to themselves and to those who had the remember what it was she said-and slipped away to the sanctuary of her misfortune to be married to them.

> Of course, when my correspondent speaks of a man being "good" to his wife, he means it in the sense of being indulgent to her. No man can be too good to his wife in the way of being kind, and tender, and sympathetic, and just, and fair to her. But he is not good to her-in fact, he does her a cruel wrong -when he is overly indulgent to

He ruins her life no less than his own because the spoiled wife is never happy. She is always discontented, restless, dissatisfied, wanting something she hasn't got and that is just beyond her reach. She thinks only of herself, and, her pleasures, and the self-centered can always find flaws in their lot. The By AILEEN LAMONT. Copyright, 1925. New York, Sept. 9.—Despite civil only contented wives are those who are doing their part toward making their marriage a success. The grafting wives are always whiny, and complaining, and disgruntled.

> A man, for instance, is too good to his wife when he lets her lie down on her end of the matrimonial partnership. His part of the contract is to work and make the money to support a home. Her part is to make a comfortable home.

There are many women who refuse to do this, and who force their husbands to live around in boarding Many people wonder where the houses and hotels. There are many masque pockets on the youthful velmore women who are so lazy and vet two-piece frocks originated. Well, shiftless that they keep their houses as dirty as pig stys, and never sit their husbands down to a meal that isn't a first-aid to the coroner.

Nothing but a woman being a bedridden invalid excuses her for not doing her share of the work and for not feeding her family on properly cooked food, and any man is very silly who puts up with slack housekeeping from an able-bodied wife. She would get busy quickly enough with the broom and the cookbook if she knew she would lose her job unless she made her man comtortable.

A man is too good to his wife or too bad to her-when he lets her ruin him with her extravagance.

# Borotra and Lacoste Lose To Americans In Opening Matches For Davis Cup

### FRENCHMEN BEATEN IN TWO HARD BATTLES

Borotra Forces Tilden To Five Sets Before Yield-

#### U. S. HAS BIG LEAD

Associated Press Despatch. Philadelphia, Sept. 16. — The United States emerged triumphant today from the opening two matches for the Davis cap, but only after France, making her first challenge for the emblem of tennis supremacy, had given the defenders a spectacular and thrilling struggle. Jean Borotra, the whirling Dervish of the courts, came close to winning for his country undreamed of tennis glory when he forced William T. Tilden, the when he forced William T. Tilden, the U. S. champion, to a sensational five-set battle before yielding by scores of 4-5, 6-0, 2-6, 9-7, 6-4, while his countryman Rene Lacoste rallying on the brink of crushing defeat, carried William M. Johnston to another stirring finish before losing at 6-1, 6-1, 6-8, 6-8.

ring finish before losing at 6—1, 6—1, 6—8, 6—3.

Not in six years of victorious Davis cup play has the United States been carried to any more strenuous fight than she had today in turning back the gallant challenge of those young sons of France. Theirs was the real glory of the day even in defeat for in a single afternoon they came close to achieving what was looked upon as the tennis impossible.

They played with a reckless, spectacular dash that would have broken probably any defence but that of the two "Bills," veterans of many a hard and testing campaign. probably any deterans of many a hard and testing campaign.

Borotra's heroic fight for victory over Tilden was the high spot of the day, and when he finally went down to defeat in a nerve-wracking, exhausting two-hour struggle. France's real hopes went with him. What chances the challengers really had were carried in the magic racquet of this inspired star, whose play almost singlehanded had accomplished the defeat of Australia in the interzone finals over last week-end. The Basque's downfall followed by Lacoste's setback, left France with a virtually hopeless prospect of triumph and the U.S. with a commanding lead. Victory in only one of the remaining three matches will clinch the cup for this country, while France must sweep is country, while France must sweep three to gain the crown. Miss Miller and Miss McFarlane ased similar styles of play at the commencement of the game. They stroked cautiously, each endeavoring to strike the other's weakness. #### WOODSTOCK CRICKETERS TO PLAY STRATFORD FOR CUP

Special to The Advertiser

Woodstock, Sept. 10. — The Oxford cricket club was informed today that it will play against Stratford at London on September 19 in the playoff for the Nash trophy of the Southwestern Ontario league. The original understanding was that the first and second teams in the league standing were to play for this trophy, but the Ontario Hospital team of London, which finished first in the league, volunteered to forego playing in this series, and the two clubs in second and third place are therefore matched for the cup. The Stratford team is at present second in the league, while the Oxford club, with one game still to play, is two points behind. It has been decided to hold the annual banquet of the league at Stratford on Friday, September 25.

#### THE NEW RULE.

The big question agitating soccer fans at the present time is not so much "How goes the battle?" as "How is the new offside law affecting the game?" The new rule has now been given a thorough test, and the almost unanimous opinion is that it is a great success. Reports from Scotland indicate that the fans there are pleased with the change, and the Scottish reputation for high-class football-supposed to be threatened by the alteration, in view of the fact that ball control and subtle combination have always been preferred to mere "push and go" -is such that these reports are encouraging. The new rule has resulted in fewer stoppages in a game-that is

something to be thankful for. In the recent Aberdeen-Airdrie game there was not a single stoppage for offside throughout the 90 minutes. More goals are being scored, certainly, but there is not a glut, except in a few isolated cases, and once the players become thoroughly familiar with the changed conditions, the operation of the new rule will be hardly noticeable. A reasonable increase in goal-scoring will be for the general good of the game. The next big question that will come before the legislators is the use of substitutes for injured players.

#### BOXING.

The boxing card being staged during Fair week at the Arena will probably determine the future of the game in London. It is a card which will contain all experienced men to back up Ryan, one of the biggest figures in the bantamweight ranks. London is later to have a chance to get a grudge affair, too, in which one of the principals asks nothing but a chance to defeat a chosen opponent before he retires from the fight game. This go may be staged whether patronage during Fair week warrants the bringing of first-raters here or not.

It is believed that fall and spring cards, staged when sport is in the season of change and more or less quietness, will be welcomed in London once the proper sort of entertainment is provided. Whether this should consist of men of proven ability or a card of rough and tumble but earnest battlers remains to be determined.

#### A MATTER OF FENCES.

The paucity of home runs hit at the local park is a matter almost entirely of fences. People, wondering how Charlie Gehringer has developed into such a slugger, forget that the fences over which he slugs the ball are much closer than they are at Tecumseh park. Threebaggers in London are home runs at any other park, especially if they have height. However, there is consolation in the fact that home runs, when they occur here, produce a double-sized thrill. If they go over the fence, its history. Ernie Calbert has the only distinction of that

#### WILLIAM FORAN NAMED JUDGE LANDIS OF HOCKEY

Canadian Press Despatch.
Ottawa, Sept. 10.—The Morning Joural publishes the following on its front page this morning:
"William Foran, Stanley cup trustee. "William Foran, Stanley cup trustee, and internationally-known sport authority, raconteur and after-dinner speaker, has been made the 'Judge Landis of hockey.' His powers will not be so broad in scope as that of the supreme arbiter of baseball, but will follow along the same lines. The Western Canada hockey league and the N. H. L. heads have been in conference for some time over the selection of a suitable official for this office, and the endorsement of Mr. Foran followed. "The certainty of such an appointment in hockey has been apparent for some time, and was emphasized last year in the case of the Hamilton players' strike. Mr. Foran because of his vide experience in hockey, his fairness and dignity, is the logical selection. He will have all authority in matters of dispute between the two leagues, such a territorial rights, the arrangement of games, and will wied supreme authority over both leagues in those instances where the leagues cannot meet in agreement."

London Advertiser:

Johnny Dobbs and Red Mc-Kenna Secured For Welter Bout.

BOTH ARE FAST

Next Wednesday's fight card has been filled with the exception of the preliminaries. Yesterday Johnny Dobbs of Hamilton and Red Mc-Kenna of Niagara Falls, N. Y., agreed to terms. These boys are welters with reputations to make, and are good earnest battlers even if they are not long on experience. The Mc-Donald clan is still a fighting aggregation as there are no less than McDonalds fighting here next week. Mickey McDonald is a lightweight and he is to meet Joe Gardner All these mitt wielders are starting

out on a season they expect to get them somewhere. For that reason,

the fans will be seeing them in McDonald had an in and out season part of last year. There were times looked championship material all over and then several times he ran into rude jolts. In times he ran into rude jolts. In Wallace of Chicago, he is meeting a boy who isn't afraid to take it. Mc-Donald is said to be the cleverer of the two. He is far from a light hitter. The fans should get plenty of action in the Dobbs and McKenna embroglic. Dobbs was a four rounder. embroglio. Dobbs was a four rounder last year and is said to be anxious to be placed on Cy Pook's long waiting list this season. Whether the St. Thomas boy is going to campaign this year or not is not definitely known. He's willing and strong and a win over McKenna will assure him bout later in Niagara Falls, N. Y. Mickey McDonald has been fighting Mickey McDonaid has been figured several years, and so has Gardner. Both need wins in their records to get work this coming winter and neither have gone far enough in the Miss Olga Miller yesterday became the 1925 ladies' singles champion of London, when she defeated Miss Nina McFarlane in the finals. game to gather the idea that they

haven't a golden future ahead. Anyway both are starting out this year with high hopes of fighting their way up to a place where they can be sure of steady attention and recognition. The seat sale will start Saturday. Ringside and the popular-priced \$1 seats will be on sale at Strong's Grug store, Brisco's sporting goods store and at the Richmond Hotel. Seats will not be reserved, but the holders of tickets will not suffer the queues, and earliest arrivals will have first choice of seats.

#### HAL MEDIUM, ALLAN GRATTON ARE WINNERS AT GODERICH

your valubale columns to express our appreciation of the wonderful sportsmanship shown us last evening by London softball fans, during the course of our game on the Federal Square with the Hermitage club. London fans applauded many of our plays just as heartily as they did their own players good work.

Particularly sportsmanlike was the action of Harrison, London third baseman, in the ninth, when he admitted dropping the ball after one of our men had slid in. The umpire called the runner out, but Mr. Harrison promptly admitted that he had dropped the ball. We were in an excellent position to tie the score at this stage, and it can readily be realized what a fine thing Harrison did. We had intended protesting the eligibility of two of the London players, but after the treatment accorded us last night, we have decided to forget it all. Wishing the Hermitage club the best of luck in the finals, we are.

MONTREAL.

Canadian Press Despatch.

Montreal, Sept. 10.—These was a slight improvement in the demand from English importers for grain on the Montreal market today, and on the decline in prices in Winnipeg exvorters were in a position to accept some of the bids received, with the result that a moderate amount of business was worked in Manitoba wheat, oats and barley for nearby shipment and some barley for October and November loading. The only business of importance in the local cash grain market was the sale of some No. 2 northern wheat at 22c per bushel over the Winnipeg October option, extra No. 1 oats at 9c per bushel over, and No. 3 barley at 79c per bushel over, and No. 3 barley at 79c per bushel over, and No. 3 barley at 79c per bushel c.i.f. Montreal.

Ontario and Quebec oats were stronger, owing to the small offerings and the good demand for the same, and sales of carlots of No. 2 white were made at 50½c. No. 3 white at 49½c and No. 4 at 47c per bushel. ex-track. Oats—Canadian western. No. 2, 64c. No. 3, 57c: extra No. 1 feed, 57½c.

A fairly good business has been done in ocean grain freights from this port of late, and the bulk of the available supply for September has been booked up, with the result that a stronger feeling prevailed in the market for October room. and rates to some ports have been advanced 3d to 6d per quarter, with Liverpool, London and Glasgow.

St. Marys' Name Was Misspelled

St. Marys, Sept. 10.—The attention of the department of public highways has been called to the fact that it has, either by mistake or otherwise, misspelled the town's name on the many road signs throughout the district. The proper spelling of the name is St. Marys, whereas the signposts all have St. Mary's printed on them. This Mary's printed on them. may seem a small error to many, but to the residents of the mis spelled town it is a very annoying mistake, and should be rectified.

## CLIFFORD GIRLS' TEAM NORTHERN CHAMPIONS

Takes Deciding Game of Series Braves to Invade From Drayton by 25-9 Score.

Special to The Advertiser. Palmerston, Sept. 10.—Before one of the largest crowds that has assembled at Palmerston ball park for many years the Clifford ladies' softball team beat Drayton today, 25 to 9, for the Northern ladies' softball league championship and the right to meet the London champions in the second round of the O. A. S. A. play-offs. Drayton was minus Gowdy, its fast and clever backstop: also Duff. its heavy hitting outfielder, but the substitutes played equally as well as the regulars today. They were playing for below their usual form and could on nothing right while Clifford could no nothing wrons. Miss Graef, the Clifford first sacker, deserves special mention, as her fielding was perfect and at times sansational. She collected five singles and one home run out of six times to the plate driving in three runs ahead of her on the circuit clout. Her teammates also played nice ball, and the northern team was never in trouble from the time it won the toss and took the field.

Drayton had but 13 hits with nine left on bases against its opnonents 29 ship and the right to meet the London

Batteries — Drayton, Fletcher and Cushing: Clifford, Eckel and Cook.
The score:

should defeat them in a two-paine series.
Niagara Falls has pitching and plenty of it. They are strong offensively at bat.
Steve Bova and Trapnell, both of whom beat the Hamilton team, should be ready. Either of these hurlers is a said to be fit for pro company. Bova is a slow ball pitcher, and Trapnell is a

It looks as if the locals would be able to meet any sort of attack. They've been playing strong baseball in every department.

Both Ward and Silverstein, who fell off in their hitting in the Dresden series, lave been clouting hard at batting practice. Ward needs only a 250 hitting average to make him one of the flashiest and most efficient second basemen developed in years in local baseball.

A double-header on Saturday afternoon and another game Monday evening next, will wind up the third series of the major girls' softball league. In the curtain-raiser of the twin bill to-morrow. ARCTIC EXPLORERS

Associated Press Despatch.

Washington, Sept. 10.—After battling an 80-mile gale, and rescuing the crews of two small boats from the Island of Taulk, a Danish naval vessel, the steamer Bowdoin, of the MacMillan Arctic expedition, has joined the Peary at Godthaab, Greenland. Both the crews of the Bowdoin and Peary took part in the rescue, the men from the two longitudes.

Mrs Adams Escapes Operation

The following statement contained in a letter from Mrs. A. A. Adams of Provost, Alberta, should bring hope to other women who are in the same condition she was. She says:
"I was in a very bac condition and my doctor said I could not have children without an operation. A friend recommended Lydia E. Pinkham's Vegetable Compound. I have taken three bottles and now have a bonny baby girl. I am recommending the Vegetable Compound to my friends who have female trophes."

## BEATTY SAYS BUSES WILL REMAIN IN USE

C. P. R. President Declares Railroads Must Reckon With Them.

Canadian Press Despatch. Toronto, Sept. 10.-Discussing the development of motor-bus competition, E. W. Beatty, president of the Canadian Pacific Railway, told news. papermen today that this method of transportation is becoming increasingly important, partcularly out of

large centers, such as Toronto, and to

a lesser degree out of Mtnreal. "It will continue to be a factor in the short haul traffic situation during the summer months," said the president. "The railways have to maintain a service all the year round. and certain part of the country motor buses cannot successfully compete during the winter months. We are considering the adoption of methods to retain as much of the short haul traffic as we can by gasoline service by smaller types of cars. We haven't yet considered going into the motor truck business ourselves. These selfpropelled cars would be used for uburban service within a limited

radius.
"It is the natural development of the motor system," he said, in expressing the opinion that bus competion would be permanent.
