

### GENERAL STRIKE

#### Of the Carmen's Union Takes Place in Quebec.

By Courier Leased Wire. Quebec, Aug. 30.—At five o'clock this morning a general strike of all employees of the Street Railway came into force following the refusal of Quebec Railway to recognize the union. The carmen some time ago asked for a raise of salary and delegated a committee of their union officers to meet the railway officials, but the latter refused to discuss matters with the union saying they were willing to raise the salaries but would have nothing to do with the union.

On the various circuits of the street car service to-day only four cars are circulating, unmoled by the strikers. On account of the thousands of visitors here for the exhibition, the city authorities are mobilizing to-day all their motor cars, trucks, fire brigade automobiles, and an appeal is being sent out to all the members of the Quebec Auto Club and owners of cars to organize a motor service from various points of the city to the Fair grounds, at the regular street car fare.

### FEVERISH ACTIVITY ON U.S. RAILROADS

(Continued from Page 1) officers and representatives of ship-owners were invited to appear. Each side will be given three hours in which to discuss their views of legislation proposed by President Wilson to prevent the threatened strike and to provide for operation of trains in the event of a strike.

Chicago, Aug. 30.—Railroad strike developments turned the wheat market down grade and then led to a sharp rally. Active preparations to meet a general tie-up of the roads on Monday caused material declines in wheat prices as soon as trading began and further losses ensued before word was received that President Wilson was making efforts to bring about a postponement of the strike. Opening prices ranged from 3-4 to 2 cents lower, with September at 142 1-4. Immediate subsequent losses, which were fractional and December 145 1-4 to 145 were followed by nearly complete recovery to yesterday's finish.

Chicago, Aug. 30.—Railroad strike developments turned the wheat market down grade and then led to a sharp rally. Active preparations to meet a general tie-up of the roads on Monday caused material declines in wheat prices as soon as trading began and further losses ensued before word was received that President Wilson was making efforts to bring about a postponement of the strike. Opening prices ranged from 3-4 to 2 cents lower, with September at 142 1-4. Immediate subsequent losses, which were fractional and December 145 1-4 to 145 were followed by nearly complete recovery to yesterday's finish.

### FRUIT PICKING STOPPED

By Courier Leased Wire. Sacramento, Cal., Aug. 30.—Picking of California deciduous fruits for eastern shipment was practically discontinued to-day because of the threatened railroad strike. Upwards of 5,000 carloads of table grapes valued at about \$5,000,000 remain on the vines and should be lost if the strike is called and should continue to any length of time, according to dealers.

### INCREASE SUSPENDED

By Courier Leased Wire. Washington, Aug. 30.—Proposed increases in transcontinental freight rates from the east to inter-mountain territory and from the Pacific coast to the east, which it is estimated would bring the railroads about twenty million dollars a year additional revenue, were suspended to-day by the Interstate Commerce

### Social and Personal

The Courier is always pleased to use items of personal interest. Phone 276.

Mr. Robert Henry and son, Stewart, were visitors in the city yesterday.

Mr. W. L. Hughes is a business visitor in Toronto to-day.

Mr. C. Whitney has returned from a fishing trip to Port Rowan.

Mr. E. W. Tooker, of Simcoe, visited in the city to-day.

Mr. and Mrs. Raney, Queen's Hotel, Simcoe, and Mrs. A. Benwell, were visitors in the city yesterday.

Miss Drake of Jersey City left to-day for her home after a visit to Mrs. T. Hendry, 14 Nelson St. Miss Riddell of Hamilton has also returned to that city after a visit with Mrs. Hendry.

Commission for further investigation. They were to have become effective at midnight.

In Chicago Chicago, Aug. 30.—Railroads of the nation rushed preparations to-day to enforce the embargo on perishable freight. Shipments of live stock and perishables were refused by some roads to-day, others issued warnings that perishable fruit which cannot reach its destination by Saturday, September 20, will not be accepted.

From Chicago, the railroad centre of the country, orders were flashed to ticket agents to inform passengers that unless they reach their destinations by Sunday night they would be subjected to "perplexing delays."

Big manufacturers and business houses swamped telegraph companies with messages urging that their shipments be rushed at once. Many of them authorized sending their orders by express. Several large commercial houses already have recalled their travelling representatives.

### RANELAGE

(From Our Own Correspondent.) Mr. James Hogard has returned home after spending last week at Simcoe.

Mr. and Mrs. James E. Hoggard spent over Sunday at Brantford.

Mr. James Siquance and Miss Cora spent the latter part of the week at Brantford.

Miss Orpha Terryberry is spending a short time at Hamilton.

Quite a number from here attended the decoration service at the Gore cemetery on Sunday afternoon.

### CHOPPED 'EM OFF

By Courier Leased Wire. Rome, Via Paris, Aug. 30.—Workmen to-day chopped off the marble memorial names of Emperor William and the German crown prince, Frederick William, which had been placed in the senatorial palace on the ancient Capitol Hill during a visit of the German Emperor to Rome twenty years ago. The names were ordered removed by the city government.

Cleveland, finely supporting Bagby, shut out Washington, 4 to 0. Bagby pitched a beautiful game, holding the Senators to four scattered hits. Shaw was wild, and Ayres, who relieved him in the seventh, was hit in bunches.

### WE OFFER

A small block of Treasury Stock in a gold mine now being worked in Porcupine District, which we consider an excellent speculation, at 14 CENTS PER SHARE. If you are interested and wish further particulars write PLUMMER & CO. 108 Bay St. TORONTO.

### INTERESTING DIARY TELLS OF VOYAGE OF 125 TH BATTALION

Continued from Page One

hour's physical drill, dinner at noon, tea at 4:30 p.m. and supper (cheese, biscuits and coffee) at 7:30. Then we have to be below deck at 9:30 and lights out at 10:15. So you see it's just a pleasure trip, in fact better because the hour's drill makes you feel fine and causes lots of fun. To-day we sighted six sailing vessels and one steamer.

Funeral at Sea Friday, Aug. 11th.—Quite a few sick for a start, but none serious. It's a bit rougher and we keep getting into fog banks. It's wonderful how quickly the men get separated in the fog. When the fog lifts we're dotted all over instead of being in line. We sighted a large white steamer to-day and the cruiser started to come and be recognized, as it wasn't very long before it was again. Sorry to say one of the 124th Battalion died yesterday and was buried to-day. The liners all stopped for the ceremony, but we could not see anything of it, as it was the last liner in line. Had to parade to-day with life belts, just to see if we knew how to put them on. I guess, we're treated just like any individual passengers. Did I tell you before how Major Shultis said good-bye to us boys. If ever a man nearly had a broken heart it was him. Now the whole Battalion admits him to be the best officer of the 125th. He was heart and soul in it, and is on the staff at Camp Borden now.

Saturday, August 12th.—Well, to-day we had to slacken down because the Cameronian had a boiler burst, but nothing happened otherwise. We finished up with a good concert and had some real good talent too. Some of the officers join us in all these things. Lieut. Andrews, Smith and Orr, who were turned down, are with us in the ranks (with stripes). In fact there is quite a change around these things. Lieut. Andrews, Smith and Orr, who were turned down, are with us in the ranks (with stripes). In fact there is quite a change around these things. Lieut. Andrews, Smith and Orr, who were turned down, are with us in the ranks (with stripes). In fact there is quite a change around these things.

Talking of Brantford Sunday, Aug. 13.—Still sailing along, one of the best trips I've ever made for weather, but very little excitement so far. Maybe we'll get all we'll want presently. We had church service this evening, Marshall, and the others and myself are in the same room, and, of course, have a good time. We've had no rain yet, but I quite a while since I saw any, and I was just wondering if you have, and how the potatoes are coming. It must be getting serious if you have had any rain yet. I'm glad to hear of you. Quite a few of us would like to be there for a day or two, but I guess we'll have to wait a day or two yet.

### GOING OUT

Monday, Aug. 14.—To-day there is talk of meeting an escort coming from England for us, and I guess we must be getting near the war zone because the cruiser put all her guns out to-day. Some looking vessel alright. Of course, each of the liners has a gun on deck, but so far we've not seen anything to suggest we're not going to talk of meeting an escort. Notice they don't tell us how far we have gone or anything. In fact, the ship's captain, I don't think, knows where we are going to land yet. We had another concert to-night.

Changes in Battalion. Tuesday, Aug. 15.—It is quite a bit cooler to-day and looks like rain. Begins to look like English weather alright, and no escort in sight yet.

### GOING OUT

Wednesday, Aug. 16.—Drizzling rain and very dull and cool. Nothing new happened. Capt. Lovell is a pretty good sport. He arranges concerts and this afternoon we again had some fine sports, running, jumping, wheel-barrow race, potato race, and other races and games. It passes the time fine. Then all at once they sounded the alarm, and every man had to be in line on deck with his life-belt, and of course the men were all upstairs and some upstairs. Those upstairs had to go down to get their life-belts, and you should have seen the rush and 'jamb' on the stairways; it was fierce. If it had been the real thing, we'd have all gone down, but still, I should worry. Wednesday, Aug. 16.—To-day, too, they opened up a hatchway and got out rifles and ammunition for us. I think, though, it's just to have an armed guard of about 100 to prevent any disorder or panic, if anything happens to our boat, so I guess our exciting time is near at hand. We finished up to-day with a smoker, given by Major Newman. He supplied cigarettes. We had a good singing.

### STRICT ORDERS

Thursday, Aug. 17.—Strict orders this morning. No lights or cigarettes on deck after 8:30 p.m. We have all got life-belts strapped on and they are to remain on day and night until we get to our destination. Some night's sleep to-night, I bet. We have to remain quiet at night. I have not seen any escort yet or anything else, although all our boats are zig-zagging all the time. First we go one way and then another, so now we don't know which way we're going at all. Men are placed, too, all round the sides of the boat with rifles and ammunition. Our platoon is on fatigue to-day. We had just a little bit of scrubbing to do and then

### People more Particular

HE demand for package goods grows greater every year. Why? Because the world is ever growing more and more particular about foods.

Packages keep the goods in wholesome, sanitary condition. They keep out dust, flies, moisture and odors, preventing deterioration. They preserve flavor, freshness and strength, insuring value for the money.

In sealed packages only.

The cruiser, though, chases around sometimes. First it is one side of us, then the other. Things are still changing in the battalion. Sergeants and officers are in the saloon, while we are in the deck and 3rd department, and so have separate decks, and some sergeants come down with the men. Bert O'Heron, especially, I am afraid some of us are going to find it pretty hard in England when we get those English officers. We seem to be going awfully slow, just 9 knots an hour, but I guess there's a reason. There is always the signalling going on from the cruiser.

A Test Alarm Wednesday, Aug. 16.—Drizzling rain and very dull and cool. Nothing new happened. Capt. Lovell is a pretty good sport. He arranges concerts and this afternoon we again had some fine sports, running, jumping, wheel-barrow race, potato race, and other races and games. It passes the time fine. Then all at once they sounded the alarm, and every man had to be in line on deck with his life-belt, and of course the men were all upstairs and some upstairs. Those upstairs had to go down to get their life-belts, and you should have seen the rush and 'jamb' on the stairways; it was fierce. If it had been the real thing, we'd have all gone down, but still, I should worry.

### STRICT ORDERS

### Raw Silk 39c

300 yards Natural Color Raw Silk, 32 in. wide, regular 65c. Sale Price ..... 39c

## J. M. YOUNG & CO.

you'd think they were swamped; also awfully narrow and pointed in front. I guess they burn oil, too. The Cameronian is already far in front of us (it was the last in line). The Metragram, which was third, is also a little faster than us, and now a little ahead, but the Scotian, the second in line, is the slowest, and is now left behind us and nearly out of sight, so it's each one for itself now. I guess you can imagine a little bit what such a scene looked like on the ocean. Of course bands were playing and altogether it was a time I'll never forget. Just a wee bit of our navy, eh. We had to sign our names in these new Canadian army bank books, and so far I can't understand them. It's to start from Sept. 1st. They stop so much, and bank so much. I was just about to quit to-night, but they've come around and told us to get our kit packed up and to fill our water bottles to-morrow, and they are issuing us with a 24-hour ration, so I guess we'll be there Friday night or Saturday morning and hustled away somewhere. I'm afraid we'll have more sick men to-morrow. As for myself, I have felt splendid all the time, and I did not mention we had travelled 4,000 miles by water up till to-night. That shows how we

### Voiles at Clearing Prices

36 in. wide Plain Voiles in Pink, Sky, Nile and Saxe fine make, regular 65c. and 75c., Sale Price ..... 50c

**THE SITUATION**

The Roumanians have lost no time in getting exceedingly busy. It is said that they are striking against Hungary at three points and have effected a junction with the Russians on the Bukovina frontier. That the entry of this country, small though it is, into the war, has already had far reaching effect, cannot be doubted. One Berlin correspondent even goes so far as to predict that the outcome will be an early end to the war, as Russia will now be able to isolate the central powers. In a commercial sense the effect on the wheat market is likely to be very great as Russia can free millions of bushels.

Despite very bad weather conditions the British have gained additional ground in the Somme fighting and the French also have made some advance. In the Saloniki fighting, the French and the Serbians are also stated to be making progress.

The Germans have again been repulsed in strong counter-attacks on the Verdun front and the Hun dream with regard to this place may be classed as definitely over.

There is a rumor that King Constantine at last realizes that he must give in to the people and that Greece may soon be in the fighting. Another statement is that Bulgaria would like to drop out of hostilities, but there is nothing at all to confirm this idea.

**LENGTHY WAR.**

It is the consensus of opinion of those best qualified to judge, that the war, now on its third year, will yet last for a considerable period. They point out that although Austria and Turkey are commencing to feel the strain to a vital extent, Germany still possesses many tremendous resources, that she still occupies Northern France and Belgium and that when the pressure becomes more marked on her far flung fronts she can shorten them and present areas of concentrated resistance.

These things admitted, the struggle is not by any means nearing a close, and the draughts of men from Canada and other portions of the Empire are likely to be necessary for some time to come. If so, it would hardly seem possible to avoid in the long run some form of conscription in these Dominions. There are still far too many slackers of eligible age, whom no platform or other appeals can reach, and if they fail to realize their duty voluntarily, they can have no just cause for complaint if the State finally takes a hand in the enforcement of a duty which they will not personally recognize.

**PRESIDENTIAL INCIDENTS**

One of the cries on behalf of Wilson in the Presidential contest now taking place in the States is "He has kept us out of the war." Apparently his supporters consider that this is one of the strongest things which can be urged in his behalf.

It is true that our neighbors have kept out of the maelstrom, but at what price? The whole conflict has centered about the very tenets of which they claimed themselves to be the prime exemplars, and they were equally with Great Britain signatories of the agreement under which Belgium neutrality, as of smaller countries was to be observed. Failing their clear duty in this regard they have also had to swallow without reparation, the brutal murder of their citizens on the Lusitania and other vessels, and to stand Hun plotting within their very gates. War orders, of course, have poured in and there has been great prosperity, but what of the future? Sooner or later hostilities will end without any doubt in favor of the Allies, and then the "keeping out" will not seem to be such a glorious piece of business. The countries which have stood the heat and the burden and the losses on behalf of the establishment of world freedom as much for the States as any other land—are certain when peace is restored to continue their alliance in a commercial and trading sense, to the ignoring more or less of neu-

trals, of whom Uncle Sam is the biggest. The great republic is going to feel that exclusion in a variety of productive and trade channels, and they will then not be so apt to gleefully acclaim the man who kept them out of hostilities at the expense, in the first place, of national self-respect, and in the second place of diminished trade.

As far as Hughes is concerned he has had much to say regarding the Mexican muddle, the need of a protective tariff, which is effectual, the desirability of Civil Service reform and so on, but so far as the Courier has noticed, he has never yet denounced the Lusitania, or kindred outrages. It is generally conceded that the German element in the States is anxious to see Wilson defeated because they consider that he went too far in his notes to the Fatherland, and appearances tend to the belief that the Republican candidate would like to get the support of the hyphenated outfit. Hence his avoidance of even the appearance of treading on their toes. The spectacle is thus presented of one of the candidates seeking credit because he sidestepped a part in hostilities, and the other seeking to gain votes by not offending the large Teuton element in the States—an element which on behalf of Kultur and German domination would just as soon see their adopted country smashed as any other land.

Does anyone think that the circumstances do credit to either of them?

**NOTES AND COMMENTS**

There must be something wrong with the Globe. Three whole days have elapsed without any bitter personal attacks upon any Conservative.

There has been another shake-up in the German Supreme army command. It is nothing, however, to the shake up which the Hun machine is suffering.

The Berliner Journal, a paper published in old time Berlin, Ontario, warns the Ontario Government that by changing the name of the place to Kitchener, and doing away with beer, it has earned the enmity of the German population of the province. There are some denizens of that burgh who need to be brought up with a sharp lesson. Their Hun impudence is amazing and intolerable.

**GEORGE V. CONGRATULATES LATES ROUMANIA**

London, Aug. 30.—King George has sent the following congratulatory message to King Ferdinand, of Roumania:

"I desire to express the great satisfaction with which the news of the entry of Roumania into the war has been received by the whole British nation. I rejoice that the valiant Roumanian army will now fight side by side with the armies of the allies, bringing still nearer the approaching triumph of our great cause and hastening thereby the fulfilment of Roumanian national aspirations."

**BRITISH TAKE 15,469 GERMANS SINCE THE FIRST DAY OF JULY**

London, Aug. 30.—In a report from British headquarters on the west front (France) issued by the war office last night is the following:

"Twenty prisoners were taken in the last 24 hours, making the total captured by us since the first of July 266 officers and 15,203 other ranks, in addition to 86 guns, 160 machine guns, besides other war material."

**BILLION DOLLAR CROP EXPECTED**

After a thorough canvass of various points throughout Western Canada, Dr. McGill of the Dominion Grain Commission, is quoted in Calgary as saying that Alberta would have a crop as good as last year, that the most fertile districts in Western Canada are served by the lines of the C.N.R. and that this season they can travel from their home districts to destination Canadian Northern all the way.

"The country as a whole never looked better than it does at present," said Dr. McGill. "The weather was made to order, as you might say, and I am of the opinion that this year's harvest will be another wonderful one."

Those who contemplate going West will do well to remember that the most fertile districts in Western Canada are served by the lines of the C.N.R. and that this season they can travel from their home districts to destination Canadian Northern all the way.

Arrangements have been made whereby passengers may travel in comfortable Colonist and lunch counter cars being a feature.

The first of these excursions will be run in August, the date will be announced later.

For further information apply to nearest Canadian Northern Agent, or write to R. L. Fairbairn, General Passenger Agent, 68 King St. E., Toronto.

High Wilkinson, believed to be the last surviving member of the first team of the Ontario Rifle Association to go to Wembley in 1871, is dead at Beckville.

**TAKE NOTICE** that the Municipal Corporation of the City of Brantford intends to take into consideration and if deemed advisable to pass a By-Law for the purpose of closing and stopping up as a public highway that part of Read Street in the City of Brantford, described as follows: All and singular that portion of Read Street lying West of a parallel line to and one hundred and twenty-six feet, eleven inches West of the West boundary of Leonard Street and extending therefrom to the Easterly boundary of Morrell Street, according to the plan of Dufferin Park, in the City of Brantford, registered as Number 322 in the Registry Office for the Registry Division of the County of Brant.

**AND FURTHER TAKE NOTICE** that a By-law for the purpose aforesaid will be taken into consideration at a meeting of the Council to be held at the Council Chamber at the City of Brantford on the 11th day of September, 1916, at which time and place any person desiring to be heard thereon in favor of, or in opposition to the passing of such By-law will be heard.

Dated this 11th day of August, 1916.

WILKES & HENDERSON,  
City Solicitors.

**BERLIN CORRESPONDENT FORESHADOWS EARLY COLLAPSE OF STRUGGLE**

The Novice Vremia says: "The decision is the more important because we have not to do with the passing mood of a people, but with the studied calculations of politicians. It is the best evidence that the enemy has lost her strength."

According to Colonel Shumsky, the military critic of The Bourse Gazette, a great allied stroke from the north along the Danube, will force Bulgaria to abandon her plan of passively defending this front and conducting the principal operations against the French and British in Macedonia.

"Bulgaria," says Colonel Shumsky, "will be compelled to abandon active operations in Macedonia and will have to face the serious danger of an allied advance into her territory from the north. Roumania, on the other hand, will have only one important front to defend, since her strong natural boundary prevents serious danger from the side of Austria."

**ALD. PALMER ELECTS TO BE TRIED BY JURY**

London Aldermanic Fracas Case Postponed Until December Assizes

London, Ont., Aug. 30.—The Police Court was crowded to-day to hear the trial of Ald. Palmer, who was charged by Ald. Wm. Wilson with having assaulted him with intent to do grievous bodily harm. Ald. Palmer elected trial by jury, and the case was postponed until the December Assizes. At the preliminary hearing Ald. Wilson told of the Council meeting, where Ald. Palmer and he had a dispute, ending in Ald. Palmer throwing a tumbler and inflicting a deep wound in his head. George S. Gibbons, for the defence, argued that no intent to do grievous bodily harm had been shown, but magistrate Judd refused to reduce the charge to common assault, and committed Ald. Palmer for trial. By asking for a jury the defence scored, in that Ald. Palmer thus holds his seat in the Council for the year and obviates a bye-election.

## GERMANS ARE GLAD

Over the Appointment of Von Hindenburg as Chief.

By Courier Leased Wire.  
Berlin, Aug. 30, via London 1.45 p.m.—Emperor William's appointment of Field Marshal Von Hindenburg as chief of the German general staff is acclaimed generally with enthusiastic satisfaction. The Berlin newspapers unite in saying that the emperor has fulfilled the long-cherished wish of the German people who are declared to have limitless confidence in the victor at Catannberg, and who expect him to conduct the war to a successful end.

It is assumed here that the appointment of Von Hindenburg was connected with the present critical phase of the war and in consequence of the situation created by the entry of Roumania into the conflict.

The newspapers give unstinted praise to General Erich von Falkenhayn, the dismissed chief of the Imperial general staff. They give him credit, especially for the successful Serbian campaign and for reopening communications between Germany and Bulgaria and Turkey.

No guess is ventured in military circles in regard to the new appointment to succeed Von Hindenburg in active command of the German troops opposing the Russians on the Eastern front, but it is expected to be one of the greatest importance.

Stratford City Council passed a by-law providing for the sale of the Kemp factory to the Kindel Bed Co., Toronto, for \$17,500.

Ida Fern, thirteen months old child of Willis Hodges, Holland Landing, crept through a fence on the C.T.R. track and was killed by a train.

W. F. Nickle, M.P., who visited the battlefield in France, returned home on Saturday, bringing with him the second best Russian wolfhound in England.

## MORE DRASTIC

Are the Measures with Regard to London Lights.

By Courier Leased Wire.  
New York, Aug. 30.—According to a London despatch to The World, a new lighting order, more drastic than the one now in operation, will come into force in London on Friday. All external lights whether public or private must be extinguished with the exception of such public lamps as the Police Commissioner directs kept in use for public safety.

All lights not extinguished must be reduced to a minimum intensity and so obscured that no more than a diffused light is cast on the ground. The internal lighting must be so reduced or shaded that no more than a dull, subdued light is visible from any direction outside and no part of the pavement or roadway or any building or object is illuminated. This new order suggests the official expectation of more Zeppelin raids during the coming dark nights.

## Railway Strike

Will Not Affect Grand Trunk As Far As President Can See.

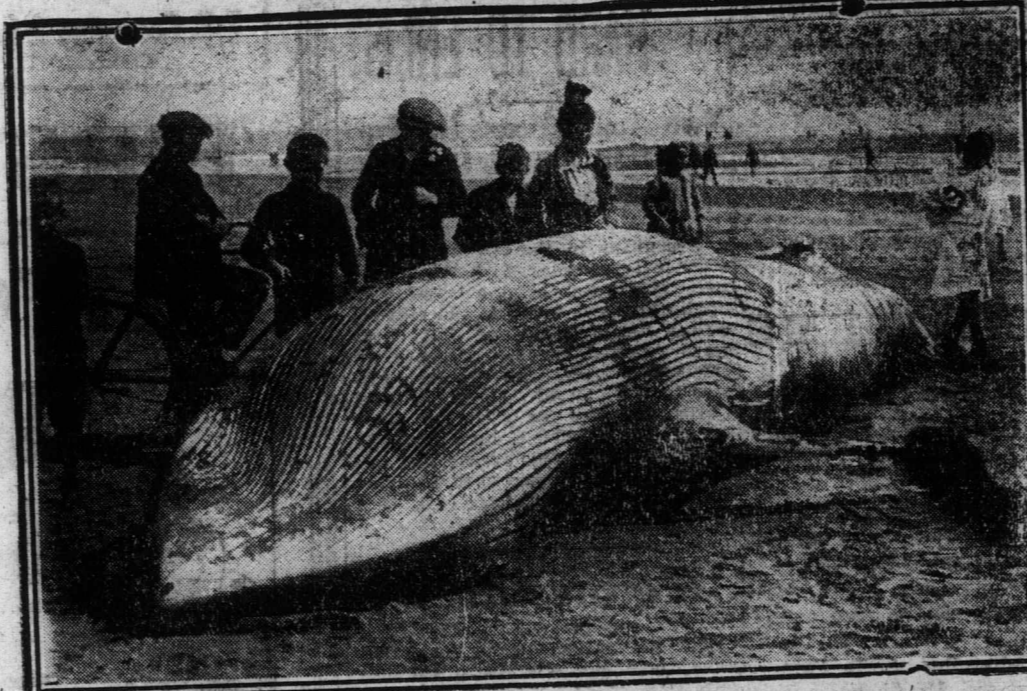

By Courier Leased Wire.  
Montreal, Aug. 30.—President E. J. Chamberlain, of the Grand Trunk Railway System, speaking of the effect of a general railroad strike in the United States said:

"Railroad labor on the Grand Trunk System will so far as we know, remain unaffected and operation of trains, passenger and freight will continue over the sections of the Grand Trunk which run through United States territory, with the exception, possibly, of those passing over the Niagara frontier to connect directly with lines affected by the strike. The Grand Trunk train service employees in the United States are responsible to the United Brotherhood and the railway's relations with this organization are amicable. There is no cause of apprehension or that sympathetic sentiment on strike would crystallize in action among the men working under the Canadian agreement.

"Business routed from one point to another on the Grand Trunk Lines in the United States would not therefore be generally interrupted, while traffic could be shipped from these American points on the system to Canadian points and to the eastward terminals of the Grand Trunk System in New England. There would of course be some disarrangement of traffic between the United States and Canada and the Grand Trunk would have to refuse all through freight dependent on American roads for ultimate delivery, and would also have to refuse the large volume of freight now routed from Chicago and other lake points, via the Niagara frontier for re-entry into the United States at Suspension Bridge, as the American roads at that point would not be able to receive it."

George Bury, first vice-president of the Canadian Pacific Railway, intimated that he had no statement to make.

NOT A GERMAN SUBMARINE—BUT JONAH'S

A whale which was washed ashore at Carnoustie Bay on the English coast. Before it was left high and dry a visitor wagered it was a German submarine and lost his bet. Here it is seen lying on its back, an object of much interest.

## ROUMANIANS AND RUSSIANS

Unite in the Invasion of Bulgarian Territory, To-day's Despatches Say.

They Are Quite Busy Now on the Bukovina Border.

London, Aug. 30.—Military developments have been rapid following the announcement of Roumania's entrance into the war.

Roumanian troops are striking against Hungary at three points, according to news reaching here today. King Ferdinand has gone to the front to join the general staff at main headquarters, having, before his departure from Bucharest, issued an order mobilizing all arms of the service.

On the frontier of Bukovina Roumanian and Russian troops already have effected a junction, and are attacking the Austrians in the Carpathian foothills under the direction of the Russian General Letichsky.

The following official statement from Vienna was received to-day:

At all the passes of the 375-mile Roumanian mountain frontier our frontier guards engaged the enemy with success. Only an extensive circling movement of strong Roumanian forces forced our advance guards to withdraw, as had been planned, to prepared positions in the rear.

The only reference to the Roumanians in the German war office report is contained in the following sentence:

"In the Carpathians there was fighting with the Russo-Roumanian vanguards."

**Build Pontoon Bridges.**

In southern Bessarabia the Russians have made great preparations and have brought up pontoons to construct four bridges across the Danube at Tulcea, a Roumanian town near the mouth of the river, to establish a junction between the Russian and Roumanian forces.

Russia controls the Black Sea absolutely. Either by rail or water Russia can pour troops into Roumania indefinitely without interference.

From Constantza on the Black Sea a good railroad runs to Bucharest, crosses the Danube at Rustchuk and connects up with the main railroad system of Bulgaria. Russia therefore has every facility for continuous communication with her new ally.

**Seek Three Passes**

In the Transylvanian Alps the Roumanians are fighting on Austro-Hungarian soil, but owing to the nature of the ground and the fact that the main forces have not yet come into collision, no important result has yet been attained.

The Roumanian attack are three strongly fortified passes, Rothernheim, Toerzburger and Tomas, which will open the road to the important industrial cities of Kronstadt and Hermannstadt to the Roumanians.

Scarcely had the premiers of the Entente nations welcomed into their Councils the Premier of their latest ally yesterday before word came from Berlin that the German government had practically given up hope of preventing Greece from joining the Entente.

This information, coming by way of The Hague, was followed by word to the effect that the Central powers are perfecting every preparation to meet the situation which will arise through a declaration of war by Greece.

**Border Patrols Clash**

A despatch from Geneva last night quoting reports from Vienna, states that Hungarian and Roumanian patrols fought an engagement on Sunday night along the Transylvania frontier.

On Monday the Roumanians crossed the frontier at many places. It is officially stated that there are three big concentrations of Roumanians near the border.

## ROUMANIANS OCCUPIED

(Continued from page one.)  
and Drama were still in possession of the towns and had not been attacked. It was announced at Athens last week that Germany and Bulgaria had given a written undertaking to Greece that their troops would not enter Kavala, Drama or Seres.

**Silenced Batteries**

London, Aug. 30.—Bulgarian batteries were silenced by the British after an artillery engagement on Monday and Tuesday, the war office announced to-day.

"On the Struma front," the announcement says, "hostile artillery shelled the Kopriva bridge on Monday night and the following morning. Our artillery retaliated and succeeded, in silencing the enemy batteries."

**In Egypt**

London, Aug. 30.—An official statement was given to-day by the government press bureau, regarding military operations in Egypt. It said:

"On Tuesday an enemy reconnoitering party 100 strong, mounted on camels, attempted to approach Bi-el-Bay. It was driven off by our patrols and pursued six miles."

**Two Cities**

Paris, Aug. 30.—The Petit Parisien publishes a report that the Roumanians have occupied two important cities beyond the mountains.

**Further Progress**

Paris, Aug. 30.—The French launched another attack on the Vardar front east of Thessaly last night and made further progress the war office announced to-day.

**Severe Fighting**

Paris, Aug. 30.—Severe fighting is in progress on the Macedonian front. The war office report of to-day says the French gained ground west of Vardar river. Bulgarian attacks west of Lake Ostrovo were repulsed by the Serbians.

The Entente Allies bombarded Bulgarian positions on the Struma front at Porna, apparently with successful results.

"On the Doiran front, near Dold-

zelli, our batteries dispersed an enemy working party."

**An Abandonment**

Berlin, Aug. 30, via London.—The abandonment of part of Transylvania to the Roumanians is forecasted in despatches from newspaper correspondents at the Austrian army headquarters.

Forecasting the strategy on the Roumanian frontier, the correspondents intimate that the Central powers will not attempt to defend the entire border line owing to its crookedness, and to the large number of troops which would be required for the adequate protection of a front half as long as the Russian battle line. On that account and inasmuch as Russia and Roumania are operating as a single unit, the despatches say, it will be advisable to shorten the front by abandonment of certain parts of Transylvania.

**Attacking Assets.**

Berlin, Aug. 30 (by wireless to Sayville).—The German authorities have issued an order attaching all assets of the Roumanian government. German concerns are ordered not to pay money to Roumanian subjects or corporations.

A Berlin despatch dated yesterday said that the military commander in the Danube region had published a decree ordering the sequestration of all property of the Roumanian government in that district.

**Captured Passes**

By Courier Leased Wire.  
London, Aug. 30.—A despatch received from Bucharest by way of Rome, says the Roumanians, operating in conjunction with the Russians have captured the principal passes of the Carpathians. For twelve hours the despatch says, the Roumanians have marched uninterruptedly on Hungarian territory, meeting only weak resistance.

**READY TO JOIN**

By Courier Leased Wire  
Saloniki, Aug. 30, via Paris.—An Albanian contingent is ready to join the combatants of the five allied countries in Macedonia. The Albanians already have disembarked here. They will be commanded by Essad Pasha, chief of the Albanian Government, who arrived at Saloniki yesterday.

**AN ULTIMATIUM**

By Courier Leased Wire.  
London, Aug. 30, 4.30 p.m.—An Exchange Telegraph despatch filed in Athens on Monday gives a report from Saloniki that Roumania has decided to present an ultimatum to Bulgaria, demanding the evacuation of Serbian territory.

**PERSISTENT HUMOR**

By Courier Leased Wire.  
London, Aug. 30, 12.22 p.m.—"It is persistently rumored here," wires the Central News correspondent at Zurich, Switzerland, "that Roumanian cavalry has crossed Rothern-thurm Pass and is approaching Hermannstadt, Hungary."

Montreal took two games from Baltimore 4 to 3 and 17 to 8. The Royals won the first game through Cadore's good pitching, although errors behind him nearly cost him the game. The second game was a farce. Twelve errors also featured the contest, seven by Baltimore and five by Montreal.

## TENNIS EXPERTS

Notable Players at the 1916 Championship meet in the United States.

Is a New Lighting Order to Come Into Effect in London.

By Courier Leased Wire.  
Paris, Aug. 23.—(Correspondence of The Associated Press)—France has taken all the necessary steps to enter into negotiations with England to build jointly a tunnel under the English channel to connect the two countries, the long-talked-of project which the war has revived because it has demonstrated as nothing else could the value of the tube to both countries.

Had the tunnel been in existence during the present conflict it would have been of immeasurable value to England and France for the transportation of troops and supplies and would have liberated French and British war vessels from one of their biggest tasks.

The plans were outlined by M. Sartiaux, chief engineer of the Nord Railway Company, who is one of the strongest advocates of the project. He said:

"The tunnel will cost 16,000,000 pounds, half of which would be borne by England and half by France. Each country would have one half of the tunnel. Well, Britain is spending just now 6,000,000 pounds per day and France 4,000,000 pounds, so that two days' war-time expenditure of both countries would more than cover the cost of making the tunnel.

"It is proposed to make two tunnels, one for traffic from France to England and another for traffic from England to France. Some people seem to think a cross-channel tunnel might be a danger, because it might fall into the hands of the enemy and be an easy task. The mouth of the tunnel on French soil would be ten miles from the coast, and in order to reach it the enemy would have to capture Calais and negotiate three intervening hills of an average height of 150 feet.

"The tunnel on the French side would begin its tunnel under the world at Sangatte. In my belief it would be impossible for an enemy to reach the mouth of the tunnel and get at the electric plant. In order to do so could be instantly suppressed and the tunnel immediately rendered useless by filling it with poisonous gas.

"One can hardly exaggerate the services the tunnel would have rendered to the Allies. It would have been in existence when hostilities broke out. During the twenty hours of daily use (for four hours must be deducted out of the twenty-four) 100 and 120 trains could have been sent in each direction.

"At 500 tons per train that represents 50,000 to 60,000 tons each way, much more than is necessary.

"Apart from the diminution in delay, risks, losses, and difficulties every nature, the British fleet would have been liberated from one of the heaviest parts of its task and freed to serve the cause of the Allies in other directions."

**Again Champions**

Forest Hills, N.Y., Aug. 30.—The first national turf tennis championship of 1916 was won on the court of the West Side Club here yesterday afternoon, when W. M. Johnston and Clarence J. Griffin successfully defended their titles against Maurice E. McLoughlin and W.

TENNIS EXPERTS

Notable Players at the 1916 Championship meet in the United States.

Is a New Lighting Order to Come Into Effect in London.

By Charles Leased Wire. Paris, Aug. 23.—(Correspondence of The Associated Press)—France has taken all the necessary steps to enter into negotiations with England to build jointly a tunnel under the English channel to connect the two countries, the long-cherished project which the war has revived because it has demonstrated as nothing else could the value of the tube to both countries.

Had the tunnel been in existence during the present conflict it would have been of immeasurable value to England and France for the transportation of troops and supplies and would have liberated French and British war vessels from one of their biggest tasks.

The plans were outlined by M. Sardaun, chief engineer of the Nord Railway Company, who is one of the strongest advocates of the project. He said:

"The tunnel will cost 16,000,000 pounds, half of which would be borne by England and half by France. Each country would bore one half of the tunnel. Well, Britain is spending just now 6,000,000 pounds per day and France 4,000,000 pounds, so that two days' war-time expenditure of both countries would more than cover the cost of making the tunnel.

"It is proposed to make two tunnels, one for traffic from France to England, another for traffic from England to France. The tunnel from England to France would be a double-track tunnel, because it might fall into the hands of the enemy. To capture the French end would not be an easy task. The mouth of the tunnel on French soil would be ten miles from the coast, and in order to reach it the enemy would have to capture Calais, and negotiate three intermediate hills of an average height of 150 feet.

"The tunnel on the French side would begin its journey under sea at Sangatte. In my belief it would be impossible for an enemy to reach the mouth of the tunnel and get at the electric plant. The motive power could be instantly suppressed and the tunnel immediately rendered useless by filling it with poisonous gas. One can hardly exaggerate the services the tunnel would have rendered in existence when hostilities broke out. During the twenty hours of daily use (for four hours must be deducted out of the twenty-four for upkeep and repairs, etc.) between 100 and 120 trains could have been sent in each direction.

"At 500 tons per train that represents 50,000 to 60,000 tons a day each way, much more than is necessary. Apart from the difficulties of delay, risks, losses, and expenses of every nature, the British fleet would have been liberated from one of the heaviest parts of its task and free to serve the cause of the Allies in other directions."

Again Champions Forest Hills, N.Y., Aug. 30.—The first national tennis championship of 1916 was won on the courts of the West Side Club here yesterday afternoon, when W. M. Johnston and Clarence J. Griffin successfully defended their double title against Maurice E. McLoughlin and Ward

Dawson, of Los Angeles in a four-set match, which they won by scores of 4-6, 3-5, 7-6, 3-3. The winners wrested double honors from McLoughlin and Bundy on the same night a year ago. McLoughlin, pairing first a year ago, had hoped that he might be able to regain the crown, but the team work, so essential in doubles play, of Johnston and Griffin was entirely too much for the third set, in which McLoughlin flashed in his old-time form, the outcome was never in doubt. Griffin was the more spectacular, his smashes and cross-court placement drives from close to the net scoring many points. Johnston, while not so brilliant, played a steady game, the pair repeatedly manoeuvring the losers out of position by their change in point of attack and pace. Dawson, while showing flashes of form, was on the whole, erratic, and much of the play was directed to his side of the court.

The entire first round of the singles championship was cleared up without any upset, the more prominent players coming through quite generally according to form and ranking. The best match of the day was the five-set contest between Karl H. Behr, of New York, and Conrad B. Doyle, of Washington, which Behr won at 2-6, 2-6, 6-2, 6-4, 6-4.

Would You Help The RED CROSS FUND?

Would you do it more pleasantly if you could do it without expense to yourself. Then save your old rags, rubbers, metal, paper, bottles, etc., for the Red Cross Collectors. Save it. Don't let some pedlar coax you to sell it to him. The little he would give you for it would help to make some soldier boy more comfortable at the front. The Brantford Iron and Metal Co. have agreed to collect for the Women's Patriotic League. Each of their collectors and their horses are supplied with a Red Cross Badge, and you can make no mistake if you ask to see this badge before giving up your junk. They will gladly call for it. Just phone 797, as soon as you have anything for them.

Pa Wouldn't Disappoint--Wouldn't He?

DOUBLE-HEADER FROM WORLD'S CHAMPIONS Boston, Aug. 30.—St. Louis tightened up the American League race still more to-day by taking two games from the leading Red Sox, 5 to 3 and 8 to 2.

In the first contest the Browns took the measure of three of the leading Boston boxmen, Leonard, Ruth and Mays, by hitting in the pinches, while Davenport kept the champions' hits scattered. St. Louis pressed their attack against Shore in the second contest and Carrigan called upon his reserves in a vain effort to stem the tide. Groves was very effective and was given strong support. Scores: First game—R.H.E. St. Louis . . . 200003000—5 6 3 Boston . . . 003000000—3 7 1 Davenport and Severid; Leonard, Ruth, Mays and Thomas.

Second game—R.H.E. St. Louis . . . 200100410—5 13 1 Boston . . . 000002000—2 6 2 Groom and Severid; Shore, Wyckoff, Jones and Cady.

MARKLE'S PITCHING BLANKS RICHMOND Toronto, Aug. 30.—Two runs have been scored against the Leafs in the twenty-seven innings played in the Richmond series which closes to-day with a double-header. The Leafs have scored seventeen times in the three games. Yesterday's fixture was a 6-0 victory for Clifford Markle and the bats of his supporting cast. The Islanders are casting furtive glances at the big pennant in left field these days. A double victory in to-day's twin bill will have the folks talking about a championship.

THE INTERNATIONAL At Buffalo . . . R.H.E. Newark . . . 000300000—3 8 1 Buffalo . . . 00001104x—6 12 1 Healy and Egan; Gaw and Onslow. At Montreal—1st game—R.H.E. Baltimore 0 0 0 2 1 0 2 3 8 14 7 Montreal . . . 00 10 30310x—17 17 5 Crowell, Morrisette and McAvoy; Fullerton and Madden. R.H.E. At Rochester—R.H.E. Providence . . . 020000000—2 8 1 Rochester . . . 000000000—0 1 1 Schuitz and Yelle; Hill and Hale. Second game—R.H.E. Providence . . . 112131000—12 12 1 Rochester . . . 012011010—6 12 3 Tincep, Riceo and Yelle; Laverenz, Test and Dooin.

Six months in the Ontario Reformatory was the sentence imposed upon two deserting soldiers, Harry Bannister and Fred Willingham, at Niagara Falls.

AN ARMY OF WOMEN

Now Employed in British Government Offices—Total Reaches 11,000.

London, Aug. 29.—(Correspondence of The Associated Press.)—There are 11,000 women clerks and stenographers now employed in the British Government offices in Whitehall, a fact which gives some idea of the way the women have filled the gaps left by the men who have joined the army. And still the cry is heard for more women, which leads to the belief that the demand has outstripped the supply.

Even the government departments are finding difficulty in securing the clerical assistance they require. At one time Whitehall officials could pick and choose their clerks, and the minimum rate of seven pence was an adaptable age—from 20 to 30—but an intelligent girl of 17 without experience can now find a place, and middle-aged women need no longer feel that they are not wanted.

To meet extensions of the activities of such busy places as the war office and the ministry of munitions, it is estimated that some 20,000 clerks can be absorbed every week into the official machinery. The pay is not high, though it is more than what was regarded as a satisfactory starting salary for young girls before the war. It is, of course, far below the salary paid for similar work in the United States.

For ordinary routine work or (re)writing the pay is one pound (£5) a week, with six pence (12 cts.) an hour for overtime. For ordinary clerical work the pay is 25 shillings (£6.25) a week, with an overtime rate of seven pence. Competent stenographers start at 26 shillings a week, which may be raised to thirty after a period of satisfactory service, and the overtime rate is nine pence an hour. The normal hours of work vary from 42 to 48 a week in different departments.

The Civil Service Commissioners are greatly engaged in the task of supplying the staffs required for temporary employment in public departments. The ministry of munitions and the post office departments have to a great extent made their own appointments, but in the last six months the commissioners have found nearly 6,000 women for other government departments.

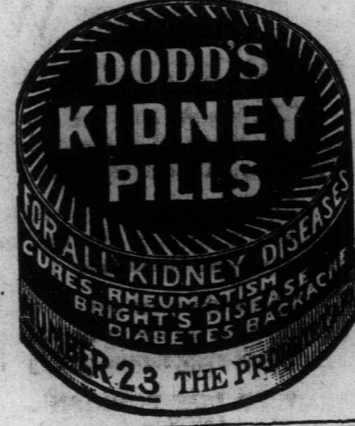

Popular Idea Adopted by the Canadian Pacific. The ice cream parlor plays such an important part in the life of the people that Mr. W. A. Cooper of the Canadian Pacific dining car service has decided to incorporate it into his train service and has initiated what may be called the Ice Cream Parlor Car on the chief trains between Montreal and Ottawa, that is to say, the trains which carry a Buffet-Library-Observation-Parlor Car. It is now possible on such cars to obtain soft drinks, ice-cream and sundae, and, though the service has been in existence only a few days, its popularity has been so pronounced that it will no doubt be extended to other services in the near future.

NEW TEXTILE By Courier Leased Wire. Copenhagen, Denmark, Aug. 29.—A new German textile in which paper is spun with about 20 per cent of cotton is being exhibited here. Unspun cotton in the form of down is glued to one side of endless rolls of paper and the paper is then spun into threads, which are spun with the cotton side outwards. Danish experts were shown paper underclothing, jerseys, sheets, bandages and horse-blankets, but the cost of production of the article is said to be too high to allow of its competing with cotton or woolen cloth under normal conditions.

DEAD LETTERS By Courier Leased Wire. Washington, Aug. 30.—The dead letter office of the post office department received the greatest number of undeliverable letters and packages in 1911 when they numbered 13,614,416. Since that time there has been a decrease each year and in 1915 the number was 9,681,927. Each year there is a sale of articles found in letters for which the department is unable to find owners. The proceeds of this sale last year amounted to \$35,514.

JITNEY'S AT PORTO RICO. San Juan, Porto Rico, Aug. 29.—The jitney automobile is carrying more than 3,000 passengers a day here and causing a serious loss to the electric street railway system, according to a statement made by O. M. Sewall, General Manager of the Porto Rico Railway Light and Power Co., who asserts that the company's loss since January 1 has amounted to \$34,000.

Reports prepared by the company show that since the jitney first made its appearance here last November there have been from 35 to 183 in daily operation. None of the jitney owners operating cars before January 1 now have their cars in service. It is asserted, and all have lost money, is the contention of the street railway company. Gasoline was nine-tenths of a cent per gallon when the jitney first appeared, now it is 36 cents per gallon.

New Prices August 1, 1916

- Chassis . . . \$450.00 Runabout . . . 475.00 Touring Car . . . 495.00 Coupelet . . . 695.00 Town Car . . . 780.00 Sedan . . . 890.00

C. J. MITCHELL 55 DARLING STREET

HOT WEATHER

Stockholm, Aug. 30.—(Correspondence of The Associated Press.)—Travellers returning from the north this summer are complaining of the intense heat prevailing at the southern edge of the Arctic Circle. Travellers from Russia, who have had to make a journey by rail all the way across the Gulf of Bothnia, say they are suffering intensely from the heat while on the northern reaches of their four-day trip.

At Haparanda, where passengers transfer from Sweden to Finland, the temperature this summer has ranged from 10 to 20 degrees warmer than here in Stockholm, several hundred miles to the south. This difference is of course attributed to the longer hours of sunshine prevailing in the north, Haparanda being but a short distance from the zone of the midnight sun.

In company with the rest of Europe, Sweden turned on the clock one hour this summer, although "daylight saving" was hardly a necessity in this land of long twilight and white nights. Daylight football games have been played this summer beginning at 3.20 p.m., and eighteen holes of golf have been possible after 7 o'clock dinner.

POST OFFICE GROWTH Washington, Aug. 30.—The growth of the post office department of the United States is best illustrated by the estimates made by department officials of the number of pieces of mail of all kinds handled. The first estimate recorded is 124,173,480 pieces in 1847, no account having been kept of earlier years from the beginning of the service in 1789. The latest estimate was that of 1913, when 18,567,445,160 pieces were handled.

EXCLUSIVELY BY WOMEN London, Aug. 30.—"Somewhere in England" there is a government factory where aeroplane engines are called the eyes of the army, are built almost exclusively by women. In one large shed alone women are engaged in making tents to house the machines, the wings of which other women in an adjoining shed cover and paint.

In one machine shop women are engaged in welding parts of the machines—an extremely difficult and delicate work, which requires much patience, concentration and skill. In other shops women are engaged upon press-tool work, rough milling, re-entrant milling, capstan lathe work, string sewing and small wood work. The women are also employed upon the inspection of stores and varnishing all woodwork. Sir George Maurice O'Rourke, Speaker of the New Zealand House of Representatives, is dead. The American Bible Society has announced that the price of Bibles is likely to be advanced at once. The London Weekly Graphic suggests that Queen-Mother Alexandra be appointed Vicerine of Ireland, and the London Star supports it.

France is Taking Necessary Steps to Negotiate With England.

New York, Aug. 30.—The 36th annual championship tournament of the United States National Lawn Tennis Association which started Monday has brought together the leading racket wielders of the country.

The present standing of the players who have won legs on the bowl is as follows: Maurice E. McLaughlin, San Francisco, two wins; J. H. Williams, 2nd, Philadelphia, one; William M. Johnston, San Francisco, one; W. A. Larned, New York, one.

Larned, who has retired from the tournament play, was the title and money holder in 1911. McLaughlin captured the trophy in 1912 and 1913. He was defeated in the final round by Johnston at Newport in 1914 and by Johnston at Forest Hill last August.

In order to fight his way into the finals this week the California Crown must defeat a number of very high class players by his name was drawn in the lower half which contains a majority of the leading stars of the country, in addition to very high class players by his name was drawn in the upper half.

St. Louis defeated Boston twice, 5 to 3 and 8 to 2, vaulting into third place, a game behind Detroit.

Money-Making Ways of Using Want Ads

HOW WANT ADS CAN FURNISH A HOME CHEAPLY. The moment things are bought, they become "second-hand." Many of these articles are truly as good as new.

Either as a buyer or seller, fair chance is always near you if you turn to the quickest, most inexpensive market on earth—the Want Ad.

There are so many splendid openings in the house furnishing line, no buyer or seller need go begging: These suggestions may point the way to you:

HOW TO BUY FURNISHINGS. WANTED - Parlor, Dining room and bedroom furniture, in good condition and at your lowest cash price. Tell me just what you have and what you want and when I can inspect it. Address immediately.

HOW TO SELL FURNISHINGS. TO SELL - Furniture, 3 brass beds, box mattresses and beddings; dining-room set, parlor furniture, 3 rugs, hall runner, etc. Spot cash takes the lot at one-fifth actual price. Call now at address.

HOW TO MATCH FURNISHINGS. WANTED - A Mahogany Library table to match my other furnishings. Will trade early English table cash, or piano. Call up phone.

STORAGE, INSURANCE, ETC., HANDLED IN THE SAME WAY.

You do not need to stop with buying, selling, exchanging or matching. You may advertise storage for rent, or seek storage, trade furniture for fire insurance, or get private loans at low rates on chattel mortgages.

A great deal of time and inconvenience will be spared you if you turn to these Want Ad. columns. Indeed,

The WANT AD. is the Greatest Specialist on Household Goods

Every 10c Packet of WILSON'S FLY PADS

Belgium's Queen Sets an Example

Of Self-Sacrificing Devotion to the Victims of the War.

"I am not a queen at present. I am a fellow sufferer and helper." No words ever uttered could express more forcibly the attitude of the entire Belgian populace than this pronouncement of Elizabeth, Queen of the Belgians.

Queen Elizabeth did not literally shoulder a rifle, but she has made her way among Belgium's suffering populace ever since the outbreak of the war, and has rendered invaluable assistance in the work of relieving those suffering the pangs of hunger and privation inflicted on them by the Germans.

When King Albert said to his prime minister, "If necessary, you, my dear minister, and I will take our rifles and go into the battle, Queen Elizabeth, who was present, added, "And I, and with me all the Belgian women."

Hardly a Canadian woman but she spends carelessly during a month. That \$2.50 would keep a Belgian mother and her helpless babes from starving for a whole month, provided the money is sent to your local committee or the Central Belgian Relief Committee, 59 St. Peter street, Montreal. Isn't it worth while?

DISCOVERED SKULL

London, Aug. 30.—Charles Dawson, discoverer of the famous Pit-down skull, has died at Lewes, aged 52. He was for 22 years a local magistrate court clerk.
