

FRANKVILLE

Frankville, Oct. 14.—Mrs. Ellen Kennedy, of Toledo, spent a few days last week with her sister-in-law, Mrs. E. Coad.

Miss Etta Morin, clerk in S. Montgomery's store, was treated to a motor trip to Toronto and will be absent about two weeks.

Mrs. Parker and son, A. E. Parker, wife and two daughters, all of Brockville, called on their friends, Mrs. Ellen Gallagher, on Sunday.

Rena Soper, who is attending the Normal at Ottawa, spent the week-end with her parents, returning Sunday evening.

Mr. and Mrs. M. Hanton have returned after spending a couple of weeks with friends in Brockville.

Miss Mulvena, teacher, attended the Teachers' Convention, Miss Smith, teacher at Kibbora's Corners, was unable to attend owing to illness.

Mrs. M. Livingston is visiting her brother, W. C. Dowsley, I.P.S., Brockville.

The monthly meeting of the W.M.S. was held at the home of Mrs. R. C. Latimer, Toledo, on Tuesday, October 14th, and the Ladies Aid at the home of Mrs. A. E. Crummy, October 16th.

Many are pleased to know that Dr. W. K. Bourne is recovering from his recent illness.

A number are planning on attending the W.M.S. convention to be held in Prescott on Thursday, the 16th.

Frankville, Oct. 10.—Mr. and Mrs. L. Nardo, of Brockville, were guests last Sunday of Mrs. Percival, the former's mother, who fell and was seriously hurt.

The Ladies Aid of Frankville met at Mrs. Albert Crummy's on Thursday, October 9. The principal topic was temperance and all enjoyed the meeting immensely.

Alford Ireland fell from a tree in his orchard last week and had his shoulder hurt. He is able to be around again.

Dalton D. Leverette, Mrs. Leverette and little daughter, Marggie, Brockville, passed through Frankville last week on a business trip.

Mr. and Mrs. G. G. Leverette, Smith's Falls, called on their mother, Mrs. G. M. Leverette, last Sunday.

The scarlet fever cases are somewhat better in Frankville and vicinity.

CHARLESTON

Charleston, Oct. 14.—Burt Williamson had the misfortune to hurt his back.

Thomas Heffernan picked ripe raspberries in his garden a few days ago.

Miss May Latimer returned on Monday from Kingston, where she was a patient at the Hotel Dieu hospital, having had an operation on her throat. Her sister, Miss Evelyn, remained with her.

Six guests arrived at Cedar Park on Saturday and more are expected this week. The beautiful autumn weather and excellent fishing is enticing the people to the lake.

Master Charlie Heffernan broke his arm just above the wrist while trying to start the engine that separates the milk. He was rushed to Athens where Dr. Bracken attended his injuries.

Ward-Young Nuptials.

A quiet but pretty wedding took place at St. James Presbytery, Ballycane, when Rev. Father Scott united in marriage Miss Lena Young and John B. Ward, both of Soperton. The bride was assisted by her sister, Miss Alma Young, and the groom by Lindsay Slack, of Charleston. The bride, who is one of Soperton's prettiest girls, looked lovely in a dress of powder blue silk crepe. The bridesmaid wore a suit of dark blue. The gift of the groom to the bride was a rope of pearls, to the bridesmaid a brooch and to the groomsmen a tie pin.

Immediately after the ceremony Mr. and Mrs. Ward left for points east. On their return they will reside at Soperton, where the groom has been farming very successfully for the past two years. The bride is the youngest daughter of Mr. and Mrs. William Young, and the groom is the son of Mrs. Margaret Cleary, Chalk River, but made his home with his uncle, Robert Foster, Charleston, since childhood. Mr. and Mrs. Ward have many friends who wish them many years of wedded bliss.

Charleston, Oct. 6.—Miss Sarah Hudson has gone to Utica to spend the remainder of the fall and winter.

Hibbert Spence went to Deseronto on Monday with his truck and moved M. Foley's household effects to Athens.

Miss May Latimer has returned from Jones' Falls.

A great many visited the lake on Sunday, the day being very fine.

T. Pritchard spent the week-end with his daughter, Mrs. Harry Webster.

Mrs. Leeder, McIntosh Mills, visited her daughters, Mrs. George Haffernan and Mrs. Hubert Heffernan, last week.

Henry Ford has said: "If the United States of America ever repeals prohibition, in the interests of public safety, there should be enacted the next day a law prohibiting the use of gasoline vehicles upon the public highways."

OBITUARY

Almeron Robinson.

Centuries ago, the Psalmists wrote, "The days of our years are three score years and ten," and Almeron Robinson, who passed away on the morning of October 11th, had almost reached the allotted span, having but four days previous to his death passed his sixty-eighth milestone of his earthly existence. A son of the late Isaac Robinson, deceased, was born just west of this village, moving to Hard Island after his marriage thirty-nine years ago to Miss Nina Taggart, Westport. Twenty-two years ago, he purchased the Wiltse Street residence where he and his family have since resided, and where his demise occurred.

Possessed of a genial disposition and ready wit, he was a faithful friend and helpful neighbor, who will be greatly missed by a wide circle of friends.

Over twelve years ago his life was saddened by the early death of his elder daughter, Mollie, Mrs. Robert Donevan, Lansdowne, who was, for a time, a member of the local Public School staff.

The funeral services were conducted at the home at 10.30 a.m. Wednesday, October 13th, by the pastor of deceased, Rev. H. E. Warren, M.A., B.D., who delivered a message full of encouragement and consolation, using as his text a part of 2nd Timothy, 1:10, "Our Saviour Jesus Christ who hath abolished death. A large company of relatives and friends gathered to pay their last tribute of respect to the departed, many accompanying the remains to Westport, where interment was made.

Among the beautiful floral offerings was a handsome wreath from the Methodist choir, of which the only surviving daughter of deceased, Miss Carrie Robinson, L.L.C.M., is leader.

Much sympathy is expressed for the bereaved widow, upon whom the hand of affliction has rested for years, and for the faithful daughter who has ministered so tenderly to both father and mother throughout their physical decline.

Of his father's family but one sister, Mrs. Alex Stevens, Delta, survives, the others being Mrs. Dolores Wiltse, Athens, having pre-deceased him many years ago.

"Farewell, friends! Yet not farewell; Where I am, ye too shall dwell; I am gone before your face, A moment's time, a little space; When ye come where I have stopped, Ye will wonder why ye wept; Ye will know by wise love taught, That here is all, and there is naught."

GEORGE F. JOHNSTON
NEW TREASURER OF
TOWNSHIP OF LEEDS

Appointed to Succeed Late G. F. Deane in Office.

NEWS OF THE DISTRICT

Fine Weather of Sunday Caused Many to Visit Charleston Lake.

Lansdowne, Oct. 8.—George F. Johnston has been appointed treasurer of the Township of Front of Leeds and Lansdowne in succession to the late George F. Deane, who occupied the office for many years.

Mrs. E. Leath, Eden Grove, has purchased the house and lot of David Johnston just below the village. Mr. Cartwright, who is at present occupying Mr. Johnston's house, will move to O. Cornett's house in the village.

Wilmer Grothier, of Woodstock, is spending a week with his parents, Mr. and Mrs. Fred Grothier, Quabbin.

Mr. and Mrs. William Marshall and little daughter, Gannanogue, spent Sunday at Fred McDonald's.

Miss Mayme Donevan, Toronto, is visiting her mother, Mrs. Robert Donevan.

Mr. and Mrs. Brown, who were visiting at the home of Mr. and Mrs. A. Sly, have returned to their home in Syracuse, N. Y.

Mr. and Mrs. Fred Grothier, of Quabbin, spent Sunday with the latter's sister, Mrs. Nelson Warren.

Mrs. George Johnston is visiting friends in Toronto.

A number of friends and neighbors called upon Mr. and Mrs. George McKay on Saturday evening to extend congratulations, it being the 25th anniversary of their wedding.

Miss Marcella McDonald, Fairfax, is receiving treatment for her throat in the Hotel Dieu, Kingston.

Mr. and Mrs. Preston, Mr. and Mrs. Vance Foley, Soperton, and Mrs. Judge, Toledo, were visitors at the home of Mr. and Mrs. Sandy McDonald, Fairfax, on Sunday.

Mr. and Mrs. A. R. Fowler, Mrs. Popper, Mrs. Muldon and Mr. Taylor, of Brockville, spent Friday at the home of Mr. and Mrs. S. C. E. Dixon.

October 18—No games.
October 25—Perth at Brockville.
October 25—Athens at Smiths Falls.
November 1—Brockville at Smiths Falls.
November 1—Athens at Perth.
November 8—Brockville at Perth.
November 15—Smiths Falls at Perth.
November 15—Athens at Brockville.
November 22—Smiths Falls at Brockville.
November 22—Perth at Athens.

FOR THE CHILDREN'S SAKE.

"Be it resolved, that, whereas the Toronto Home and School Council was organized to promote the welfare of the child in the home, in the school, and in the state, and whereas the temperance question is to be again submitted to the electors, we, the members of the Toronto Home and School Council, wish to place ourselves on record as endorsing the Ontario Temperance Act as the best means yet devised to combat the evils of intemperance."—Resolution passed by the Toronto Home and School Council on September 17, 1924.

Baptist Anniversary Services

The anniversary services held last Sunday at the Baptist Church were an unqualified success.

The speaker for the occasion Rev. H. S. LaFlair of Kingston, took for his theme, in the morning, "Jesus the Carpenter and in the evening, "The Prodigal Son"

The choir rendered excellent musical programmes and Mr. Marshall of Kingston contributed much to the enjoyment of the day by his splendid solo singing.

The Church was tastefully decorated by the ladies, the weather ideal, all comprising to make a day long to be remembered.

Mallorytown Wins League Honors

The final contest of the Front of Leeds County Baseball League was played in Athens this Thursday (October 16th) between Greenbush and Mallorytown. The game was a very close one resulting in 12 runs for Mallorytown as against 11 for Greenbush.

For the first part of the game the odds were decidedly in favour of Greenbush who led by 4 runs at the end of the 3rd innings. But in the 4th frame Pitcher Hanna was hit in the right arm by the ball, and from then on Greenbush played a losing game Hanna was game however and stayed in the box, but in the sixth he had to retire in favour of Seely.

Towards the end of the game Greenbush picked up but they never overcame the lead Mallorytown piled up in the fourth and fifth frames.

The score by innings was as follows—

	1	2	3	4	5	6	7	8	9	Total
Greenbush	3	1	2	0	2	0	2	0	1	11
Mallorytown	1	1	0	3	3	2	1	1	1	12

Athens and Brockville Tie

The first game of Leeds and Lanark Interscholastic Rugby League was played in Athens on Saturday October 11th, when Athens and Brockville played a no-score contest.

The game was keenly contested, the teams being very evenly matched. The Athens team were rather unfortunate, A. Mainse, R. Steele and W. Marshall being forced to retire from the game on account of injuries received.

There will be no games in the League on Oct. 18th, Athens playing their next game in Smiths Falls on the 25th.

HIGH SCHOOL LITERARY SOCIETY.

On Wednesday evening, October 22, 1924, at 8 o'clock, a literary meeting will be held in the A.H.S. auditorium. The programme will be selected from Fourth and Fifth Form talent. A cordial invitation is extended to all ex-students.

TOLEDO

Toledo, Oct. 6.—Harold Bellamy, of Kempville, spent the week-end at his home.

Miss Gertrude E. Warne, of Montreal, is visiting at the home of Mr. and Mrs. John White.

Great credit is due the pupils, the teachers and others of the Union Sunday School for the very successful Rally Day Service. The Pageant was thoroughly enjoyed by all present, also the excellent talk to the young folk, given by the pastor, Rev. T. F. Townsend.

Your correspondent was slightly misinformed regarding O. P. Arnold. Although he has purchased the mill recently owned by G. C. Bellamy, he does not purpose moving here, as stated, but will put the mill in charge of a competent miller, Mr. Baker, who, with his wife and family, is settled here.

Visitors for the past week at the home of Mr. and Mrs. John Seymour included their daughter, Mrs. Orville Ailyn, and Mr. Ailyn and their little son, Seymour Ailyn, of Hearst; also Mrs. Mary Ailyn, and during the week-end their daughter, Miss Mildred Seymour.

Mr. and Mrs. Eimer Baldwin, of Brockville, spent Sunday with Mrs. Baldwin's sister and brother here.

G. C. Bellamy is having his sale on Saturday, October 11, under the management of Joseph O'Grady, auctioneer.

MAYNARD

Maynard, Oct. 6.—Miss Gertrude Robinson left on Tuesday for Ottawa to attend the Normal school.

Silo-filling and threshing have been almost completed in this vicinity. Potato-digging will be the next work upon the farm.

The ladies of the Methodist church will serve a New England supper on the evening of Tuesday, October 14. After the supper there will be a temperance programme.

Miss McLelland, of Bishop's Mills, is the guest of her sister, Mrs. Heman Throop.

COURT HELD BY PHILPSVILLE WOMEN'S INSTITUTE

Charges Were Preferred and Justice Meted Out.

NEWS OF THE DISTRICT

Miss Nancy, of the Elgin Section, Passes Away at Age of 88 Years.

Philpsville, Oct. 9.—On Wednesday more than 100 gathered at the Methodist church hall, the occasion being the annual social evening under auspices of the Women's Institute, a community get-together was made specially entertaining for all present. Mrs. Z. T. Gile presided. The first part of the programme embraced the usual opening services of the regular meetings, while the business included the appointment of Mrs. Hollis Chant as delegate to attend the annual convention to be held in Ottawa this week. This was followed by community singing led by a quintette group ladies, charmingly gowned in a Parisian fashion of "Ye Gossamer" Dr. Elliott was musical director, and the audience joined in the familiar and favorite songs. The entertainers also rendered special numbers in rounds, solos and choruses much to the delight of the hall resounding with merriment. During an interval Mrs. H. C. Dawson favored the audience with a reading. This date having been selected for the sitting of the Phillipsville Supreme Court, business was transacted with there being ten cases to be dealt with. Varied and interesting charges against present and respected citizens, all of which were found guilty and judgment passed out without delay, much to the satisfaction of the assembly who spent in social intercourse, while partaking of delicious refreshments during to a most interesting and enjoyable evening.

Miss Nancy Freeman has left for Kingston, where she has entered the General Hospital as a nurse-in-training.

Mrs. Hilliard Davison and Miss Ella Dwyer in Gannanogue attending the annual Teachers' Convention.

H. R. Stevens has moved to the residence lately purchased from Robt. Preston, who will occupy the premises vacated by Mr. Stevens.

Several members of the Myers family attended the funeral at Ballycane to-day of Francis Healey, an aged resident, and father of Mrs. T. H. Myers.

CAR OWNERS WERE URGED TO BRING PEOPLE TO CHURCH

Large Number Responded to Easton's Corners Appeal.

NEWS OF THE DISTRICT

Mrs. James Murdock Speaks in Interest of Prohibition in Village.

Easton's Corners, Oct. 8.—There was an extra large gathering at the Methodist church on Sunday morning, as Rev. E. W. Armstrong had extended an invitation to all car owners to come, and at least bring four passengers. There was a good response. Garland McDonald is in the Brockville Hospital undergoing an operation.

Mrs. M. Willows spent Wednesday in Athens.

Mr. and Mrs. W. A. Weedmark and daughter, Miss Ruby, Weedmark, of Kempville, were week-end visitors at the home of their daughter, Mrs. George Haskins.

Mrs. James Murdock, of Ottawa, gave a splendid address on temperance here in the Methodist church on Tuesday evening.

The annual Thanksgiving dinner given by the ladies of the Methodist church here will take place on Tuesday evening, October 14th.

ALGONQUIN

Algonquin, Oct. 6.—Mr. and Mrs. E. Warren, of North Augusta, and Mr. and Mrs. Jesse Manhard, of Fairfield, spent the week-end as guests of Mr. and Mrs. W. J. Bissell.

Miss Grace Conlon spent the week-end at her home in Athens.

J. H. Boyd and F. J. Boyd, of Merrickville, were recent guests of Mr. and Mrs. G. E. Hornibrooke.

The W.M.S. and Ladies' Aid of the Methodist church met last Wednesday afternoon at the home of Mrs. J. Bishop.

Mrs. A. Wright, of Herron's Corners, was visiting at the home of A. Whitmarsh last week.

Mr. and Mrs. W. Seeley, of Bishop's Mills, spent Sunday at the home of Mr. and Mrs. L. Seeley.

Mr. and Mrs. James Bishop spent a few days recently in Cardinal visiting friends.

Mr. and Mrs. S. Seeley and children, of Brockville, were guests of Mr. and Mrs. G. Seeley on Sunday.

Rev. Mr. Russell, of Wolfe Island, accompanied D. MacInnes from Kingston on Saturday and took the services at Stone's Corners, North Augusta and Fairfield Presbyterian churches on Sunday.

Miss Ruby Whitney, Prescott, spent the week-end with her sister, Mrs. Harold Dawson.

Mrs. Blanchard and sons, of Brockville, are guests of Mr. and Mrs. Jas. Bishop.

Mr. and Mrs. B. Grant, Mrs. Caruth and Mrs. Scharf, of Brockville, were guests of Mrs. Sophia Fields on Sunday.

MOOT COURT HELD BY PHILPSVILLE WOMEN'S INSTITUTE

Charges Were Preferred and Justice Meted Out.

NEWS OF THE DISTRICT

John Dancy, of the Elgin Section, Passes Away at Age of 88 Years.

Philpsville, Oct. 9.—On Wednesday night more than 100 gathered at the Methodist church hall, the occasion being the annual social evening under the auspices of the Women's Institute, a regular community get-together which was made specially entertaining for all present.

The first part of the programme embraced the usual opening exercises of the regular meetings, while the business included the appointment of Mrs. Hollis Chant as delegate to attend the annual convention to be held in Ottawa this month.

This was followed by a quintette of young ladies, charmingly gowned in models of Parisian fashion of "ye old time." Dr. Elliott was musical director, and the audience joined heartily in the familiar and favorite songs.

The entertainers also rendered special numbers in rounds, solos and choruses much to the delight of all the hall resounding with merriment. During an interval Mrs. H. C. Davison favored the audience with a reading. This date having been selected for the sitting of the Phillipsville Supreme Court, business was not proceeded with, there being ten cases to be dealt with.

Varied and amusing were the charges against prominent and respected citizens, all of whom were found guilty and judgement meted out without delay, much to the satisfaction of the assembly who voiced their approval in rounds of applause. The balance of the evening was spent in social intercourse, while partaking of delicious refreshments bringing to a close an interesting and enjoyable evening.

Miss Viola Dawson, of Seattle, Washington, was a visitor in the home of Mrs. J. H. Myer this week.

Miss Evelyn Freeman has left for Kingston, where she has entered the General Hospital as a nurse-in-training.

Mrs. Hilliard Davison and Miss Ella Dwyre are in Gananoque attending the annual Teachers' Convention.

H. R. Stevens has moved to the residence lately purchased from Robt. Preston, who will occupy the premises vacated by Mr. Stevens.

Several members of the Myers family attended the funeral at Ballycanoe to-day of Francis Healey, an aged resident, and father of Mrs. T. H. Myers.

TOLEDO

Miss Gertrude E. Warne, of Montreal, is visiting at the home of Mr. and Mrs. John White.

Great credit is due the pupils, the teachers and others, of the Union Sunday School for the very successful Rally Day Service. The Pageant was thoroughly enjoyed by all present, also the excellent talk to the young folk, given by the pastor, Rev. T. F. Townsend.

Your correspondent was slightly misinformed regarding O. P. Arnold. Although he has purchased the mill recently owned by G. C. Bellamy, he does not purpose moving here, as stated, but will put the mill in charge of a competent miller, Mr. Baker, who, with his wife and family, is settled here.

Visitors for the past week at the home of Mr. and Mrs. John Seymour included their daughter, Mrs. Orville Allyn, and Mr. Allyn and their little son, Seymour Allyn, of Hearst; also Mrs. Mary Allyn, and during the week-end their daughter, Miss Mildred Seymour.

Mr. and Mrs. Eimer Baldwin, of Brockville, spent Sunday with Mrs. Baldwin's sister and brother here.

G. C. Bellamy is having his sale on Saturday, October 11, under the management of Joseph O'Grady, auctioneer.

MAYNARD

Maynard, Oct. 6.—Miss Gertrude Robinson left on Tuesday for Ottawa to attend the Normal school.

Silo-filling and threshing have been almost completed in this vicinity. Potato-digging will be the next work upon the farm.

The ladies of the Methodist church will serve a New England supper on the evening of Tuesday, October 14. After the supper there will be a temperance programme.

Miss McLelland, of Bishop's Mills, is the guest of her sister, Mrs. Heman Troop.

CAR OWNERS WERE URGED TO BRING PEOPLE TO CHURCH

Large Number Responded to Easton's Corners Appeal.

NEWS OF THE DISTRICT

Mrs. James Murdock Speaks in Interest of Prohibition in Village.

Easton's Corners, Oct. 8.—There was an extra large gathering at the Methodist church on Sunday morning, as Rev. R. W. Armstrong had extended an invitation to all car owners to come and at least bring four passengers. There was a good response.

Garland McDonald is in the Brockville Hospital undergoing an operation.

Mrs. M. Willows spent Wednesday in Athens.

Mr. and Mrs. W. A. Weedmark and daughter, Miss Ruby, Weedmark, of Kempville, were week-end visitors at the home of their daughter, Mrs. George Haskins.

Mrs. James Murdock, of Ottawa, gave a splendid address on temperance here in the Methodist church on Tuesday evening.

The annual Thanksgiving dinner given by the ladies of the Methodist church here will take place on Tuesday evening, October 14th.

ALGONQUIN

Algonquin, Oct. 6.—Mr. and Mrs. E. Warren, of North Augusta, and Mr. and Mrs. Jesse Manhard, of Fairfield, spent the week-end as guests of Mr. and Mrs. W. J. Bissell.

Miss Grace Conlon spent the week-end at her home in Athens.

J. H. Boyd and F. J. Boyd, of Merrickville, were recent guests of Mr. and Mrs. G. E. Hornbrooke.

The W.M.S. and Ladies' Aid of the Methodist church met last Wednesday afternoon at the home of Mrs. J. Bishop.

Mrs. A. Wright, of Herron's Corners, was visiting at the home of A. Whitmarsh last week.

Mr. and Mrs. W. Seeley, of Bishop's Mills, spent Sunday at the home of Mr. and Mrs. L. Seeley.

Mr. and Mrs. James Bishop spent a few days recently in Cardinal visiting friends.

Mr. and Mrs. S. Seeley and children, of Brockville, were guests of Mr. and Mrs. G. Seeley on Sunday.

Rev. Mr. Russell, of Wolfe Island, accompanied D. MacInnes from Kingston on Saturday and took the services at Stone's Corners, North Augusta and Fairfield Presbyterian churches on Sunday.

Miss Ruby Whitney, Prescott, spent the week-end with her sister, Mrs. Harold Dawson.

Mrs. Blanchard and sons, of Brockville, are guests of Mr. and Mrs. Jas. Bishop.

Mr. and Mrs. B. Grant, Mrs. Caruth and Mrs. Scharf, of Brockville, were guests of Mrs. Sophia Fields on Sunday.

The Citizens of Athens and Vicinity Are invited to attend the Ontario Plebiscite Meeting IN THE Athens Town Hall Sunday Evening, October 19th AT 8.30 P. M.

Chairman: Mayor M. B. Holmes. Speaker: Mr. Elmer Davis, of Kingston, Ontario. All the Choirs of the Athens Churches are invited to the Platform. An Orchestra will accompany the Massed Choir. An Offering for the Campaign Funds is requested. EVERY CITIZEN IS INVITED TO ATTEND

Efficient Farming

SAVE THE FODDER.

Attempts have been made to control or direct the fermentative action within the silo. The lactic acid bacteria, *bacillus lactis acidii*, has long been known to be beneficial in silage making, and its product, lactic acid, is found to the extent of one per cent. in well made silage. Experience has demonstrated that the addition of *bacillus lactis acidii* in quantity to the fodder as the silos were being filled gave good results, particularly so when the fodder was past the best stage for making high grade silage. The addition of the *bacillus lactis acidii* in quantity to the more or less spoiled fodder provides an active agent to check and override the other bacteria present and thereby control the fermentative process and bring the silage mass to a fairly uniform condition with lactic acid predominant in the silage. This addition of lactic acid culture to the fodder at the time of silo filling is easily accomplished by securing a small quantity of pure culture for lactic acid from a creamery as a beginning. The pure culture is placed in a three gallon can of clean skim milk and allowed to ripen for three days. This can be added to more skim milk and a quantity of the culture developed that there may be at least one gallon for each ton of fodder that goes into the silo. This skim milk culture carrying vast numbers of *bacillus lactis acidii* is sprinkled over the cut fodder as the silo filling proceeds.

If the corn is in prime condition for silage making at the time of ensiling, nothing is to be gained by adding culture. However, its use is strongly advised if the corn or other fodder is a bit off in condition, due to damage through unseasonable weather, delays, etc.

MY METHOD OF SELECTING SEED CORN.

The most satisfactory method of selecting seed corn I have found is to choose the corn as it is being gathered in the field. I place the seed ears in a box on the side of the wagon, and thus keep them separate from the other corn. The main things I consider in choosing an ear for seed are: Soundness, length, diameter, depth of kernel, color, and conformity to type. Ears should be uniformly large and well proportioned. The color should be uniform, and the indentation typical of the variety. The cob should be as small as possible and still permit the maximum growth of the kernel. Corn for seed should not be chosen from stalks advantageously located. I

select about twice as many ears as are needed for planting. It requires about 15 ears to plant an acre.

That the filling-out of the tips and butts does not deserve as much attention as is commonly given from the standpoint of yield has been shown in many experiments. In one series of experiments, covering a period of five years—from 1905 to 1909, inclusive—well-filled tips yielded 51.65 bushels an acre; medium-filled butts, well rounded, yielded 50.66 bushels an acre, partially rounded, 50.96 bushels; not rounded, or otherwise poor, 51.04 bushels. There is a tendency, in selecting tips and butts, to reduce the size of the ear.

The corn for seed should be stored in such a manner that it permits of free circulation of air around the ears, so as to dry them quickly and prevent molding. If they are not well dried before being subjected to freezing temperatures, the germ will be injured. A vacant room in the house that allows free circulation of air is an ideal place to store seed corn, but an attic, if well ventilated, will serve the purpose just as well. Seed houses have regular drying rooms or sheds, but for the average farmer this is not practical.

Seed corn should be tested twice if possible, one test being made in the winter and the other in the spring just before planting. In the winter test, I select one kernel from each ear, and germinate. In the spring I make a more accurate test, about six kernels being selected from different rows and different parts of each ear. If fewer than five of the six kernels germinate, I do not use the ear for seed.—M. Baird.

POTATO HARVEST.

Late blight affects the tuber of the potato as well as the vine, and the disease lives over from year to year in the seed. When harvesting the potato crop cull out all tubers with dark sunken areas on the surface and a brownish discoloration of the flesh.

Black Scurf—This fungus develops small black specks on the surface of the tuber. Such should not be stored for seed.

Stem End Rot—This trouble is evidenced by a decayed and sunken area at the stem end of the tuber. When a cross section is made near the stem end a brownish ring is usually plainly visible.

Tuber Injury—Care should be taken to avoid bruising the tubers while harvesting. Roughly handled potatoes usually have a high percentage of dry rot.

Getting By in Lean Months.

Every chicken man knows October is the lean month with the hens. It is the month when one derives the least income from the flock, primarily because production is at its lowest end.

Our birds are laying an average of between twelve and thirteen eggs each during the month of September, but in October they will drop rapidly until they are only laying round six or seven eggs a bird per month. This means a decrease in revenue of nearly a half.

This being the case, it brings home to us the desirability of working out a scheme of poultry management whereby we will spread out our income to supplement the meager returns received from eggs.

There are two ways of doing it: Hatch some early pullets next year, have them come into lay along in August and they will be up round a 50 per cent. production in October, thus giving in this month of low production but high prices a heavy egg production.

Then the second way of accomplishing this same purpose is to try and diversify our source of income. Though our egg production must be the big end of the business, yet if one has sufficient range and can grow a few hundred extra pullets there is always a ready market for them in October.

When the pinch comes, as it has right now, let us make a resolution to get more eggs in October another year and to supplement our market-egg income by having some pullets to sell at this time.

In Switzerland the price of farm land has become much higher than its productive value, due in a large measure to the fact that more farmers' sons than formerly are buying estates.

The ultimate factor in the solution of most of life's great problems is leadership. The real leader is the man who can get the community, the township, the county or the province to pull together and accomplish something worth while.

Sheep Notes

Before the flock enter winter quarters in the fall they should all receive a thorough dipping. A bright, warm day in October should be chosen and the dipping done in the morning so the wool will have time to dry before night. It is safe to say that fall dipping of the flock should never be neglected. Even in those flocks that are supposed to be clean it will pay in case any sheep are to be added to the flock they should always be dipped before being taken in with those that are already clean.

There are several different kinds of sheep dip on the market, any one of which will give satisfactory results provided directions are carefully followed. The water to be used for dipping should be warmed and the mixture should be stirred frequently to prevent the heavier dip settling to the bottom. The sheep should remain in the dip for approximately two minutes to allow the wool and skin to become thoroughly saturated.

Unless the flock is a very large one it will not be necessary to build an expensive dipping tank. A large trough or barrel may answer if nothing else is at hand. However, a very satisfactory tank may be built of ordinary tongued and grooved matched lumber. Ordinary lumber may be used and have the inside lined with galvanized iron. Strong galvanized iron alone properly constructed by a tinsmith will make a good vat, although possibly rather expensive.

Marketing the Potato Crop.

The potato grower should cater to the wishes of the most particular and exacting customers. He should furnish a choice product in a most attractive form and should carefully study the demands of the market he wishes to serve. For the best prices the potatoes should be uniform, sound, smooth and of good table quality, whether selected by the pound, the basket, the bushel, the bag, the barrel or the car load. The commercial potato grower should not be confined to the local market, but should be in a position to put his potatoes on the best market available either through his own efforts or through the medium of a co-operative association. It sometimes occurs that of the price paid by the consumer for a bushel of potatoes about two-thirds are required to defray the cost of transportation and of distribution, and one-third is left for the grower. This is not as it should be. Undoubtedly one of the best remedies for such a condition of affairs is co-operation on the part of the growers themselves.

Supply the man without a silo has more reason to be concerned about the weather these days than he who possesses one.

Lamps for Floor and Table With Tasteful Shades

BY LUCY D. TAYLOR.

I know that for those of us who have to burn kerosene it is not easy to find pretty, attractive lamps. The hardware stores have a few nickels tucked away in back corners, and the city department stores are not much better. But the effort expended in getting good looking lamps brings worthwhile results, for lamps with colored shades are to a room what trimming is to a dress. They add the little spots of color which show that someone has been thoughtful and painstaking.

Fortunately, there are still possibilities left outside of the regular channels, and it is to these that we must turn. Often an old brown or gray jug of our grandmother's day will furnish the base.

Sometimes a pottery vase or deep bowl can be secured that has a wide enough mouth to make a generous-sized oil reservoir and can be converted into a regular oil-burning lamp.

These bowls and vases come in a variety of sizes and colors: nice browns, tans, and buffs, some in brighter colors—blues, yellows, greens and reds. They are all good, provided you use them so that both base and shade harmonize with the rest of the color scheme.

In the blue and brown or blue and tan room there is nothing better for the base than soft brown or tan, with the shade in parchment, cloth, or silk of lighter tan and banded or trimmed with blue. Sometimes even a bright red base may be used, provided there is a good deal of corresponding red in either in curtain pattern or rug design. Shade colors are tricky. One which may be a delightful spot of color in the daylight may not be at all the one to choose for a good light. Usually it is wiser to keep the yellow

Plant Bulbs Now.

Have you forgotten how you envied your neighbor's bed of tulips last spring? And how you vowed you would have some on your lawn next spring?

If you really meant what you said, now is the time to get busy, for spring flowering bulbs must be planted in the fall—any time now, until the ground freezes.

October is an ideal time for planting, for planting at that time allows the bulbs to become established and make some good root growth before freezing weather puts the bulbs to sleep.

First thing to consider is drainage. The bed must be in a well-drained place. Fertilizer is another requisite. Put on a good application of bone meal—an inch deep is none too heavy—and spade into the soil. Mix it well with the soil.

Tulips, hyacinths and narcissus should be planted about four inches deep, and from five to seven inches apart. Anemones should be one inch deep and from four to six inches apart.

Be sure that bulbs of the same kind are all set at the same depth, so that there will be a uniform development in the spring, thus making sure that they will all flower at the same time. It is advisable to mulch the beds with straw, leaves, or strawy manure after the ground freezes. This keeps the frost in the ground and prevents the alternate freezing and thawing which causes the soil to heave, thus injuring the roots. This mulch should be removed early in the spring before the bulbs start into growth.

The Darwin tulips are the finest of all tulips. The Cottage, Breeder and Parrot types should be planted more widely.

Dutch hyacinths are the ones to plant out of doors. Roman hyacinths are seldom used except under glass. Singles are generally more satisfactory than doubles.

Among the Narcissus there are several types which may be used. The Daffodils with large, medium, and short trumpets, come in the yellows, white, and colors; the singles are better than the doubles, the Jonquills, the Poetaz, and the Poeticus types. The Paper White and the Shinesee Sacred Lily, is not hardy, and so should not be used out of doors.—E. A. K.

The Japanese are developing an appetite for beef. The home supply being insufficient, importers are securing additional supplies from Canada.

To prevent sorehead (chicken-pox) I give once a week for each 100 fowls, one-fourth pound of sulphur thoroughly mixed with greasy bread, and three days after that I give the same measure of Epsom salts. I feed the sulphur in the coops at night. I begin this treatment July 1 and continue until October.—Mrs. M. A.

The Sunday School Lesson

OCTOBER 19

The Parable of the Sower, Mark 4: 1-20. Golden Text—The sower soweth the word.—Mark 4:14.

I. THE SOWER AND THE SEED, 1-3, 10-14.

INTRODUCTION—When Jesus first entered on his work in Galilee, it was possible to hope that the nation as a whole would accept the divine message and lay hold by repentance of the kingdom of God. Jesus knew himself to be divinely sent and commissioned to lead the nation into the kingdom, and everywhere he sought to create a penitent and believing attitude on the part of the people. But while he thus "broadcast" everywhere the word of the kingdom, it was not everywhere that he met with a response. The Galileans did not all believe, and as time went on, the religious authorities took up an attitude of implacable hostility. The minds of the many were either superficial or steeped in worldly conceptions of the kingdom, and hence the preaching of Jesus bore little or no fruit among them.

But on the other hand we see the gradual formation round Jesus, of a new believing society of disciples, who are dearer to Jesus than home and kindred. These believing ones have received the "mystery" of the kingdom.

This now is the stage marked by the teaching of the parable of the sower. We might interpret the teaching of this and the other parables in this chapter as follows: Though many hearers turn away, and refuse to believe the message of Jesus, this does not mean that the message is not divine, or that the kingdom will not come as Jesus has said. Indeed, on the contrary, God's own wisdom is revealed in the selective process by which only the few—those who, like the disciples, are spiritually minded—have laid hold of the message. For this is what happens wherever seed is sown. Much of the seed that the farmer scatters yields no return at all. What Jesus therefore says in these parables of the kingdom is that disciples are not to be discouraged. The seed is sown, and the harvest will surely come.

We should never be discouraged. What a fine lesson to lay to heart lies in the way of the gospel, and of the Christianizing of the world.

II. THE SEED AND THE SOIL, 4-9, 15-20.

V. 1. The crowding on the shore makes it necessary for Jesus to preach from a boat, which for this purpose is moored a few yards out on the water. From this position the preaching can be seen as well as heard.

V. 2. Jesus addresses the multitude, used parables, that is, comparisons or illustrations of divine laws and truths drawn from familiar features of ordinary every day life.

V. 3. The lesson is in short, as we see by v. 14, that Jesus' message of the kingdom is the seed from which the actualized life of the kingdom is to proceed. But, like a sower, Jesus needs a soil adapted to the message, and not all hearts are of this description.

V. 4. There are hearts which are like the roadway or path forming the margin of fields. Seed sown there is immediately picked up by birds. If a heart is hard or secular, if like the common roadway, it is a mere thoroughfare for worldly thoughts and purposes, the word of the Kingdom has not a chance of taking root.

Vs. 5, 6. There are hearts which are like "stony"—that is, shallow soil. The seed only gets in a little way, and as such shallow soil heats too quickly in the sun, the plant which at first sprouts rapidly, soon withers for want of moisture. Jesus is here speaking of enthusiastic and sensational, but his hearers who ardently welcome his first announcements, but are not prepared to give deep and attentive consideration to his ultimate purposes.

V. 7. There are hearts of which the soil is generous enough, but full of thorns and weeds. The seed of the divine word gets in, but its growth is checked by the upgrowth of coarse desires. Jesus is here speaking of hearers whose affections are too much engaged by worldly pursuits and ambitions, for example the love of money which makes them incapable of truly serving and loving God, or whose minds are perverted by worldly conceptions of the kingdom.

V. 8. But there are honest and good hearts, like rich and clean soil, where the message meets with genuine faith and love, and where a harvest of obedience is produced. Jesus is thinking here of his own disciples and of other believers whose hearts God has opened to receive the truth. We will find a description of such souls in the Beatitudes, in Matthew 5:3-9.

Vs. 10, 11. Jesus now explains the secret of his teaching in parables. The kingdom, that is, its spiritual character, revealed to them by God, stage where they require symbols and parables of divine things.

THE SOIL OF PALESTINE.

Two facts should be remembered about Palestine:

1. It is part of the Mediterranean

world. There you have two seasons, a rainy winter and a long, dry summer. What plants will grow in such a climate? Only two kinds: either plants that send their roots deep into the earth and expose little leafage to the scorching winds of summer, or plants that have a life of only a few months and so do not need to live through the drought. Of the latter sort are wheat and barley, and less important cereals. They are sown in the autumn, grow during the winter, and ripen early in the dry season. Of the hardy perennials, the most important are the grape vine and the olive tree. The olive in particular is fitted by its root system and its scanty foliage to withstand the drought. The staple products of all the Mediterranean world were "corn and wine and oil." (See Ps. 105:15.)

2. The other important fact is that Palestine is part of the Arabian desert. In fact more of Palestine is desert than cultivated land,—bare gravelly moors, with here and there a little arable valley; often the soil is not more than half an inch deep, and everywhere there are stony donkey-paths. Almost anywhere in the uplands of Palestine you find the four soils of the parable.

Check Up on Your Sprays.

There is no better time than during the harvest season to get an accurate estimate of how successful one has been in his spraying campaign.

Did you reach the top of your trees in spraying; or do you find a lot of scabby and wormy apples there? The very best apples always grow in the tops of the trees, provided that we keep them clean.

If they are diseased it means that the spray didn't reach them. Why didn't it?

Do you find a lot of injury from codling moth? A distressing experience, but all too common if one does not spray often enough or thoroughly enough.

Are there any apples with San Jose scale on them? You can check up very accurately indeed on the prevalence of scale in the orchard since it will be found on the apples if there is any on the trees, and you can determine which trees or which blocks of orchard should be sprayed next winter or spring for scale.

As the scale is on the increase again in most parts of the country, it is wise to pay special attention to it this autumn.

Do you find sooty blotch on the apples? This is apt to happen when we have much cloudy, moist weather in July, as we have had in some sections this season; and one feels so disgusted that he did not put on one more spray and stop it.

And so the list might be extended. Make a thorough canvass of the situation; make a record of what you find, and make a firm resolve to do better next year.

Narcissus for Winter Bloom.

The narcissus varieties may be potted for winter bloom as soon as the bulbs are obtained in September or early October. If it is desired that the bulbs be grown in the home window, it is advisable to use either a six or eight-inch flower pot, setting from five to ten bulbs according to the size of the stock. If it is desired to grow the bulb bloom in quantity and use the cut flowers in vases, then plant the bulbs in boxes of any shape and not less than three inches in depth. A box twenty-four inches by twelve inches by three inches is very handy. The soil should be rich garden loam to which add one-third of the bulk of leaf mould and sufficient sand to keep the soil from clinging. Suitable drainage provided by means of coarse cinders or broken pottery should first be placed in the bottom of the pots or boxes and then the prepared soil in quantity sufficient to reach within one-half inch from the top of the box or pot after firming. The bulbs should be pressed into the soil and covered firmly, just leaving the tip showing. When all the boxes or pots are prepared such should be buried if possible in cold frame or in the basement, watered well and then covered with five inches of sand or screened cinders. This covering will insure the necessary cool condition and prevent drying out. Such treatment will develop a good vigorous root system, a condition which must precede the bloom. Eight weeks beneath the sand is usually sufficient. A pot may be examined and then if found to be full of roots it can be moved to the light and heat. From four to six weeks of forcing are required to bring narcissus of the following listed varieties into flower: Von Sion, Glory of Lieden, Sir Watkin, Trumpet Major, Emperor, Empress, Golden Spur, Olympia, Sulphur Phoenix, Bi-color, Victoria, Barri Conspecta, Madame Plomp, Alba Stolla, Cyanure, Poeticus ornatus, Poeticus grandiflora and the Polyanthus and Poetaz types of all varieties.

A bundle of small rubbers costing only a few cents, are much better than twine or pine for holding parcels. Put pieces of a kind together, roll and slip a rubber round it. The work of untying to find any particular piece is dispensed with and the roll takes up but little room.

Poultry

When going over the hens in the late fall to eliminate the undesirable breeders, there are a number of definite things that we should look for.

First of all, it should be the purpose, in examining the birds, to be sure that they are physically fit; in other words, that they show no signs of disease, either past or present, which would incapacitate them as future layers and breeders.

The eyes should be examined carefully for evidences of roup and coids. The inside of the mouth and throat should be examined for evidences of canker. The general fleshing of the birds should be determined to see that they are holding up well in weight.

The condition of the feathers in the vicinity of the vent should be examined to see that the birds are free from diarrhoea or any ovarian disorders, which might be responsible for the laying of imperfect eggs.

Do not fail, when making the final examination, to look the birds over from a breeding standpoint, to see that they possess no noticeable defects, such as squirrel tail, side sprigs, stubs and other standard breeding defects which might be passed on to the future generation of chicks.

We must always remember that it is the standard-bred birds which possess production qualities for which there is the greatest demand and the most profit.

When looking over these hens, all of which are superior birds, because they have stood the test of an all-summer culling, be sure to lay special emphasis upon a few very important characters which designate their productive capacity.

Pick those hens, first of all, that have good big bodies with great body capacity; good width of back, with the width carried well back; a back which is free from large accumulations of fat. Be sure and select birds with bodies that are deep, front and rear. Select ones that have large, soft abdomens; large, soft, moist vents, if they are in laying condition; skin which is thin, soft and oily to the touch; pelvic bones which are well spread.

Lastly, do not forget the head. The ideal hen has a refined head. She has a head which is moderately long and broad, and a beak which is short and well curved.

The application of these principles to the selection of the breeds this fall will probably do more to insure good chicks next spring than any other group of things which might be attempted.

Careful studies show that less than 2 per cent. of the girls who win beauty contests can make good lemon pies.

This photograph shows the new sun parlor recently added to the quarters of the Prince of Wales on his "E.P." ranch, located near High River, Alberta.

RED ROSE

TEA 'is good tea'

Next time try the finest grade—
RED ROSE ORANGE PEKOE

HEALTH EDUCATION

BY DR. J. J. MIDDLETON
Provincial Board of Health, Ontario

Dr. Middleton will be glad to answer questions on Public Health matters through this column. Address him at Spadina House, Spadina Crescent, Toronto.

The chief cause of death in the childbirth stage are septicemia or blood poisoning and albumin in the urine. Both of these conditions are largely preventable. The former, better known as maternal sepsis, is an infection usually transmitted from the outside. Local infections such as bad teeth or infected tonsils may be the causative agents. The years 1919, 1920 and 1921, showed an average of 99.1 per cent. of all maternal deaths in Michigan to have occurred from sepsis.

What is the cause of this heavy mortality? Surely a large part of it is due to neglect and mismanagement. Statistics from Toronto hospitals show that the death-rate of expectant mothers who are supervised in hospital during the period of childbirth is very much lower than those who are not supervised. If all expectant mothers would place themselves under the care of a capable physician and have regular examinations, the number of cases of puerperal albuminuria could be cut to a minimum. How often pregnant women experience seemingly trifling ailments such as swelling of the feet, headaches, specks floating before the eyes, ailments which to the average woman uninformed about these conditions may seem not worth mentioning, but which are in reality

grave warnings of approaching danger. If all expectant mothers would place themselves under the care of a physician early in their pregnancy, they could easily report these seemingly trifling complaints and vigorous medical treatment could at once be entered upon. The convulsions that identify themselves with the condition of albuminuria could be prevented in many instances by proper supervision. Albuminuria extracts a toll of just nineteen per cent. of all puerperal deaths, and yet we often hear of expectant mothers never consulting a doctor at all until the pains of labor have commenced.

The care that expectant mothers should observe cannot be over-emphasized. Accidents of pregnancy account for 15.3 per cent. of deaths in the puerperal state; accidents of labor account for 12.2 per cent.; puerperal hemorrhage, 9.8 per cent.; "milk leg," 4 per cent.; other causes following childbirth, 6 per cent.

In 1921 the United States puerperal mortality rate was 6.8 out of every 1,000 live births. The same figures for all practical purposes apply to Canada.

This is too heavy a death rate among mothers, and every effort must be put forth by the Government and the public to try and reduce this heavy mortality.

HEALTHY CHILDREN ALWAYS SLEEP WELL

The healthy child sleeps well and during its waking hours is never cross but always happy and laughing. It is only the sickly child that is cross and peevish. Mothers, if your children do not sleep well; if they are cross and cry a great deal, give them Baby's Own Tablets and they will soon be well and happy again. The Tablets are a mild but thorough laxative which regulate the bowels, sweeten the stomach, banish constipation, colic and indigestion and promote healthful sleep. They are absolutely guaranteed free from opiates and may be given to the new-born babe with perfect safety. You can obtain the Tablets through any medicine dealer at 25 cents a box, or by mail, post paid, from The Dr. Williams' Medicine Co., Brockville, Ont.

We profess to be Christians and then we use the talents God has given us to discover the worst methods of man-killing.—Sir Robert Baden-Powell.

Insects With Flying Homes.

Among our most curious insects are bird-flies, which spend their lives attached to the warm bodies of various kinds of wild birds.

There are not many varieties of these passenger flies, and among those recently discovered in America were a few species known in Europe. This extensive distribution of the few is believed to be due to the fact that the insects frequent certain kinds of migrating birds.

These insects detach themselves from the body of their host should he die, and dart off to find another bird on which to live.

The mother bird-flies lay only one large egg at a time. This develops into a peculiar kind of larva. It lives with its mother until grown up, when it is either deposited in a suitable spot or just left to look after itself.

"A Farm Woman's Prayer" reads: "Keep ever in my soul a sense of the perspective, that my kettles and dishes may not obscure the beauty of the rose blooming outside my door, the quiver of the leaves in the summer wind and the classic purity of the snow on the valley or hill."

Full Fathom Five.

Until a few years ago it was thought that no fish could live very far beneath the surface of the waves, owing to the great water pressure, but it has since been proved that fish actually do live miles below the surface.

Deep sea fish do not feel the intense weight of the water any more than a human being feels the weight of air. This is because the pressure inside them exactly balances that outside.

Little is known of deep sea fish, which nearly always live and die at a great distance beneath the waves, but enough specimens have fallen into the hands of man to reveal how queer these fish are in appearance. Usually they are flat and misshapen, many being without eyes, which are not needed in the intense darkness of their mysterious realm beneath the sea.

THE GROWING GIRL

Requires a Mother's Constant Care and Watchfulness.

In their early teens it is quite common for girls to outgrow their strength, and mothers should carefully watch the health of their daughters at this time, for it is when strength is sapped by too rapid growth that anaemia develops. The first signs may be noticed by peevishness, languor and headaches. The face grows pale, breathlessness and palpitation follow, with low spirits.

At the first symptom of anaemia mothers should act at once. Neglected anaemia often leads to decline, but if you see that your daughter's blood is enriched there need be no cause for anxiety. The finest blood enricher ever discovered is Dr. Williams' Pink Pills. The pure, red blood created by these pills will quickly banish—all signs of anaemia. They will build up your girl's health and ensure her a robust girlhood. Give your daughter a course of Dr. Williams' Pink Pills now. Make her strong like thousands of girls and women throughout Canada who have been rescued from the clutches of anaemia by Dr. Williams' Pink Pills.

You can get Dr. Williams' Pink Pills through any dealer in medicine, or by mail at 50c a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Already Supplied.

"Did that agent succeed in selling a washing machine to Mr. Tightwad for his wife?"

"No, not to that man! He thinks he got one when he married."

A Few Tips for the Boys' Glee Club in Schools.

The boys' glee club should be considered by all the school as a specialized course of instruction in singing for boys. It denotes a considerable degree of talent and training. Although not repaired, there should be some premium put upon ability to read well.

In organizing a glee club the invitation should be extended to every boy, with the understanding that he will be given a competitive examination. There are various ways and systems of giving preliminary examinations. The final test of a voice in so small an organization as a glee club is the blending quality it has with the other voices. It was the writer's privilege to hear a glee club of one of the universities recently. The young men looked and acted well, but they suffered the handicap of poor voice selection, which in turn caused the group to fall in putting over any great thrills that the audience fully expected. An individual voice may sound one way alone, but, possibly, quite another way when with other voices.

Dignified standards should be set up, and when once going should be rigidly adhered to. Troublesome rehearsal attendance can be eliminated by keeping a waiting list of replacements. This also works well in other disciplinary capacities.

However, no standard should be so high as to disgust a boy; no rules so rigid as to be prohibitive of trial and effort. Always consider that such an organization depends largely upon good will and voluntary effort. This alone should be the first evidence of interest. Take this interest and build with it. There is a great deal of interesting work to be done with the boys' glee club.

EASY TRICKS No. 336

Quickness Of The Hand

This stunt is not very easy to do but when it is well practiced it is a very mystifying trick. Properly performed it usually does a great deal to persuade folks that there really is something in the magician's stock claim that "the quickness of the hand deceives the eye."

Hold a half dollar in your right hand between the thumb and the finger tips, the right hand being about six inches from the open left. Move the thumb away from the coin. With considerable force throw the coin flat on the palm of the left hand. As the coin strikes the palm, the left hand moves very swiftly toward the open right and the coin flies back and is caught in the right.

The return of the coin to the right hand is so rapid that the eye cannot follow it and the effect is that the coin was slapped into the left hand which immediately closes. The left hand is opened and is seen to be empty. The right hand is opened and is seen to contain the coin.

(OHP this out and paste it, with other of the series, in a scrapbook.)

Lake Casts Up Sulphate.

When the water of Salt Lake, Utah, reaches a temperature below 50 degrees Fahrenheit, it manufactures sodium sulphate and accommodatingly casts it up on the beach. The fact that the deposit of sodium sulphate can be gathered before it goes back into solution has led to the construction of a plant for harvesting and refining the material into a commercial product. The average period of production will be two months each year. During a season of mild winter there may be none produced and during years of cold winter the sodium sulphate may be precipitated for three months, judging by weather records of twenty years.

Minard's Liniment Relieves Pain.

Pongee silk is unbleached and in its natural color. It is a product, not of domestic, but of wild silkworms, worms do not eat mulberry leaves, but browse, so to speak, on the leaves of the scrub oak trees of the Shantung hills.

Nova Scotia Exports Hay.

For the first time in some years there has been a considerable movement of hay from Nova Scotia to the Boston market, upwards of three hundred tons being shipped.

ISSUE No. 41—24.

World's Wealth Reaches Amazing Total.

The aggregate pre-war wealth of the twenty-odd nations actively engaged in the great war, according to an estimate completed by the research department of the Bankers' Trust Company, of New York, amounted to \$630,000,000,000. The wealth of these same nations to-day is estimated to be about \$619,000,000,000. The pre-war wealth of the British Empire—that is of Great Britain, the dominions, India and the crown colonies, was approximately \$140,000,000,000, while to-day the wealth of this same group of nations is estimated by the Bankers' Trust Company to be around \$149,000,000,000. The wealth of France before the war is placed at just under \$80,000,000,000, and is estimated to be approximately the same to-day. The pre-war wealth of the United States is placed at \$200,000,000,000 and the wealth to-day at \$230,000,000,000, while the pre-war wealth of Germany is estimated to have been upward of \$55,000,000,000. These figures are all on the gold pre-war basis of values, having been adjusted for inflation.

The per capita wealth of Great Britain to-day is placed at \$1,489 and of the different nations composing the British Empire at \$418, including the wealth and population of India. The wealth of France is estimated, in 1913, to be \$1,484 per capita and of the United States, \$2,000 per capita. The wealth of Germany is placed at \$901 per capita.

The Bankers' Trust Company points out that the total wealth of the former belligerents has not materially changed as a result of the war, but that there has been a marked redistribution of such wealth, this redistribution having taken place not only as between nations, but also as between the peoples within the boundaries of each nation.—Mrs. Rec.

Nothing is thought rare which is not new, and followed; yet we know that what was worn some twenty years ago comes into grace again.—Beaumont and Fletcher.

Teach your children that home is a place where everything should be pleasant, and you will have taught them one of the most valuable lessons in life.

NERVES AND FAINTING SPELLS

Sent Woman to Bed. Great Change After Taking Lydia E. Pinkham's Vegetable C. Compound

Sarnia, Ontario.—"After my girls were born I was a wreck. My nerves were too terrible for words and I simply could not stand or walk without pains. I suffered with fainting spells until I was no longer any good for my household duties and had to take to my bed. The doctor said I should have an operation, but I was not in a fit condition at that time. My neighbor said, 'Why don't you try Lydia E. Pinkham's Vegetable Compound?' I am sure it will do you good and will save those doctor's bills." So I was advised by my husband to try it after I told him about it. I am very thankful to say that I was soon able to take a few boarders for a while as rooms were scarce at that time. My baby is 47 months old now and I have not yet had an operation, thanks to your medicine. I have recommended the Vegetable Compound to a few people I know and have told them the good it has done me. I know I feel and look a different woman these last few months and I certainly would not be without a bottle of your medicine in the house. You can use this letter as you see fit, as I should be only too glad for those suffering as I have to know what it has done for me."—Mrs. ROBERT G. MACGREGOR, R. R. No. 2, Sarnia, Ontario. A recent canvass of women users of the Vegetable Compound report 98 out of 100 received beneficial results. This is a remarkable proof of its merit. C.

Serve Mustard with all meats

Mustard neutralizes the richness of fat foods and makes them easier to digest. Mustard enables you to enjoy and assimilate food which otherwise would burden the digestive organs.

HOUSE COMPLETELY LOST IN FIRE AT VAN ALLAN'S CORNERS.

Some of Contents of Will Selleck's Residence Are Saved.

NEWS OF THE DISTRICT

Ladies' Aid of Addison Methodist Church to Open New Hall.

Van Allan's Corners, Oct. 7.—The residence of Will Selleck was completely destroyed by fire on Monday morning. The upper storey was all ablaze before it was noticed, but the contents of the lower floor and cellar were saved. The loss is partly covered by insurance. Mr. Selleck and family are occupying Miss Mae Van Allan's residence.

Mr. and Mrs. Harold Riddell and Mr. and Mrs. Jack Gibson, of Ventnor, were guests of Mr. and Mrs. A. C. MacNillage on Monday evening.

Albert Cater and sister, Bertha, and Miss Joy MacNillage were in Prescott on Friday.

Miss Ruby Selleck, of Ottawa, spent Sunday with her parents here.

Mr. and Mrs. C. Cooper and Miss Georgina, of McReynolds' Corners, were recent guests of G. Morris.

Mr. and Mrs. A. Norton, of Pleasant Valley, were here on Sunday to visit George Norton.

Mr. and Mrs. A. Brown and Charlie were in Halbert on Sunday to visit Mr. and Mrs. K. Throop.

The sympathy of the community is extended to Walter Walker in the recent bereavement he has suffered in the death of his mother, Mrs. Thos. Walker, New Dublin. A number from Addison attended the funeral at New Dublin on Monday.

Miss Mildred Howe, who has been ill, is recuperating at her home here.

FAIRFIELD

Fairfield, Oct. 7.—Miss Florence Steacy, Jellyby, is the guest of Miss Inga Acheson this week.

Mrs. J. E. Acheson and Master Robie Kavanagh spent a few days last week with friends at Athens and Glen Elbe.

Mrs. Harmon Lawson and son, Bernard, Purvis Street, were visitors at Horace Glazier's and Robert Goodison's on Wednesday.

Miss Myrtle Kennedy spent the week-end at her home in Easton's Corners.

Miss Cladys Flood visited Brockville friends over the week-end.

Mrs. O. Brown spent several days visiting friends in Ottawa last week.

Mrs. W. Baker, who is ill at her home here, is improving.

Mr. and Mrs. Stanley Morris and children, Alta and Brenda, and Miss Irvilla Stevens spent a few days in Kingston last week, Alta and Brenda having undergone operations for tonsils and adenoids.

Mrs. Lizzie Phelps left on Monday to visit friends at Smiths Falls before leaving for Detroit where she will spend the winter.

Rally Service was observed in the Methodist Church on Sunday evening.

Mrs. E. J. Morris has returned from a three weeks' visit to Kingston and Inverary.

Mr. and Mrs. Frank Meade and children from the States are visiting Mr. and Mrs. Tom Jones.

The Junior Institute met on Thursday evening at the home of Miss Olive Russell. Fourteen members responded to the Roll Call with "Hallowe'en Legends." A card from the Sick Children's Hospital, Toronto, was read, acknowledging the receipt of \$5 to be used to buy fruit for the children. An instructive paper was given on "Dressing for Health and Beauty on the Average Girl's Income" by Miss Dorothy Kowach. A vote of thanks was extended Miss Keough and after luncheon was served, the meeting was brought to a close.

Mrs. G. Haskins, who underwent an operation for tonsils in the Hotel Dieu, Kingston, returned home on Monday.

Mr. and Mrs. J. Birch, who have been spending the summer at their cottage here, returned to their home in Geneva on Monday.

FEEDS THAT TAINT MILK

Undesirable Flavors Given by Some Plants in Autumn

Ragweed an Offender—Rank Clover, Turnip Tops and Rape Also Make Taints—Oil on Perches Stop Hen Lice—To Remove Paint.

(Contributed by Ontario Department of Agriculture, Toronto.)

One of the worst weeds for producing bad flavors in milk during the autumn season is ragweed. So says Prof. J. H. Dean of the Ontario Agricultural College. This gives a peculiar pungent odour to milk, which is very objectionable for both cheese and buttermaking. For condensing, powdering, and for city milk and cream trade such milk would be rejected and returned to the farmer.

A Bad Case of Ragweed Taint.

A case is known where a cheesemaker was obliged to leave the factory because the cheese was rejected by the cheese buyers on account of bad flavor. On investigation it was found that ragweed grew on many patrons' farms nearly as high as the fences. When pastures are short, as they frequently are in September and October, the cattle eat the weed. This taints the milk and causes no end of trouble for both cheese and buttermakers. The remedy, of course, is to rid the farms of this noxious weed, or else prevent the cows from pasturing in fields where the ragweed grows.

Rank Clover Will Give Taint.

Sometimes very rank clover will give a taint to the milk. The remedy is to turn the cows into a fresh clover field for only a short time each day until they grow accustomed to the clover and the persons buying or using the milk become adjusted to the change in flavor.

Turnip Tops Give Offensive Flavor.

Among crops grown for feeding purposes, one of the worst flavored is turnip tops. As soon as the turnip crop is harvested some farmers turn their cattle into the field to clean up the tops, small turnips, etc. This practice is sure to result in bad-flavored milk and cream. Most creamery men warn their patrons against this, as it has been found impossible to prevent turnip-tainted butter where much cream comes from farms where "cows break into the turnip field unknown to the owner."

Rape Nearly as Bad as Turnips.

Rape is nearly as bad as turnip tops. In beef-raising sections, where rape is largely grown for fattening cattle and sheep, the cows, if allowed into the rape field, are almost sure to give tainted milk. If the farmer is using the milk and cream at home and likes the turnip or rape flavor, all right; but to sell this raw material for manufacturing purposes will spoil the cheese and butter. We cannot be too careful with the autumn foods for dairy cows. Prices are usually good, and we must produce milk of good flavor.—Dept. of Extension, O. A. College, Guelph.

Oil on Perches Stops Hen Lice.

When I started to keep poultry I built a new hen-house, and the first year I had no trouble at all with mites, but the second year gave me lots of work. But one day I went out on a pleasure drive which took me close to a friend's home whom I knew to be a good poultry woman. I asked to see her flock, to which she gladly led the way.

The building was just a ramshackle old affair to which several leans had been added as her flock grew in size. She went right into the house, but I hesitated, for when I looked in I saw all sorts of boxes and barrels half full of straw with hens on them, the only thing provided for them to lay in. But she invited me in, and reluctantly I complied. She led off in conversation, I listening, expecting any minute to be set upon by mites. After a few minutes it dawned upon me there were no mites in there, so I asked her how she managed to keep such a place free from mites. She turned to the perches, pointed at them and said, "See those black perches. That is oil on them."

I went home and oiled the perches in my new hen-house and have had no mites since; that was three years ago. Each year, after the incubating season is over, I paint the perches heavily with the cheapest lubricating oil procurable, and now I don't think I have a mite on the place. Mites all leave the hen before daylight. The oil kills them, and enough of it gets on the feathers to kill the young as they hatch on the hen's body. Don't put the oil on till the hatching is over or you'll regret it.

To Remove Paint.

To remove old paint from wood-work or automobile body, wash with a strong, hot solution of concentrated lye. Dissolve one can of lye in every gallon of water used and apply while hot. A wooden tub or bucket is a suitable container for the solution. An old paint brush or a heavy cloth may be used to apply the paint remover. The hands should be protected by wearing rubber gloves. After letting solution soak into the paint, which requires about ten minutes, it may be removed with a stiff wire brush or steel wool. A brush or wool becomes clogged with paint, rinse in a pail of clean water. In stubborn cases, or where there are several coats of paint, two or three applications may be necessary.

CONTROL THAT DOESN'T CONTROL

On October 23rd, Ontario is to be given another opportunity to roll up a huge majority in favor of Sobriety.

We cannot lose if all electors get out to vote.

There must not be any indifference manifested by votes unpolled.

Brockville Riding (last general election)

Voters on list	-	-	11,420
Votes polled	-	-	7,122
Votes unpolled	-	-	4,298

Athens Referendum Results in 1919, 74 Wet 333 Dry.

Over 80 per cent of the electors of Athens voted Dry. Practically the same ratio obtained throughout the Rural Districts,

There must not be any Unpolled Votes in the Townships or the Village.

Let every Temperance supporter declare his approval of the Prohibition principle as expressed in the Ontario Temperance Act by marking his ballot thus :-

1	Are you in favor of the continuance of the Ontario Temperance Act?	X
2	Are you in favour of the sale as a beverage of beer and spirituous liquor in sealed packages under Government control?	

Remember once liquor is sold it cannot be controlled.

BROCKVILLE RIDING BRANCH OF PLEBISITE COMMITTEE

W. T. ROGERS, President.

G. ELMER JOHNSTON, Secretary.

PLUM HOLLOW

Plum Hollow, Oct. 9.—Miss Maude Jackson left on the 27th of September for Detroit, after having visited her parents here.

The Women's Mission Circle Meeting was held on Wednesday last at the home of Mrs. J. J. Chapman.

Mrs. John Stewart is gaining after an attack of la grippe.

M. D. Barber was in Ottawa recently.

Mr. and Mrs. J. R. Wiltsie and Mr. and Mrs. C. Witte visited at Sweet's Corners on Sunday.

There will be no service held in the Baptist church here on Sunday, October 12, owing to anniversary services being held in the Baptist church at Athens.

The school here will be closed on Thursday and Friday while the teacher, Miss Evelyn Kilborn, is away attending the Teachers' Convention.

Miss Bertha Chapman spent the week-end with her cousin, Mrs. James Weaver, at Greenbush.

Mr. and Mrs. Harry Talbot and children spent Sunday with relatives at Chantry.

On Sunday, October, 19th, at 2.30 o'clock service will be held in the Baptist church here in memory of the little Lindon Talbot, whose sad death occurred at his home here on August

LYNDHURST

Lyndhurst, Oct. 7.—Mrs. C. Church and daughter, Miss Amy Church, entertained the members of the Ladies' Aid on Wednesday evening, October 1st. A very pleasant evening was spent, Miss Ada Wing contributing several musical selections which all enjoyed very much. It was decided that the Ladies' Aid will hold a Thanksgiving supper during Thanksgiving week. Full particulars will appear later.

Miss Bernice Daney was called home from school here by the death of her grandfather, John Daney, of Jones' Falls.

Frank Warren has returned to his position in Montreal after a few days spent with his parents, Mr. and Mrs. J. A. Warren, Ford Street.

Several from the village attended the funeral of John Daney at Elgin on Friday last.

Mr. and Mrs. Gordon Leadbeter and daughter, Birdie, were Sunday guests of the latter's parents, Mr. and Mrs. Caleb Johnston.

Miss Eva Bradley, Outlet, is visiting her friend, Miss Mae Jamieson, for a few days.

Mrs. Warren, Seeley's Bay, is a guest of Mr. and Mrs. W. Sterry.

Potato-digging is the order of the day. Potatoes are proving to be a banner crop in this district.

ROEBUCK

Roebuck, Oct. 11.—Mr. and Mrs. A. Berry, of White Plains, N. Y., and A. E. Foxton, Brockville, were guests of Mr. and Mrs. Jack Maley on Sunday. Mr. and Mrs. Berry returned home on Thursday.

Miss Miriam Johnston received her diploma from the Brockville Business College on Friday.

Mrs. Earl, Miss Attridge, Mrs. Hutton, Mary Hutton and Mrs. Margaret Davison motored to Pittston to visit Mrs. Annie Barton recently.

Miss Edna McLean, daughter of Mr. and Mrs. Wesley McLean, returned to his home on Saturday after a successful operation for appendicitis at the Heburn Hospital, Ogdensburg.

Mrs. David Dixon spent the past week with her daughter, Mrs. B. Bennett, Algonquin.

Miss Mundell, Miss Wright and Miss Alberta Attridge attended the Teachers' Convention at Kemptville.

Master Arthur Kingston and Mabel Whitley are able to attend school after attacks of pleurisy.

Mrs. Freeman Topping is spending a short time in Prescott owing to the illness of her nephew, Ward Jones.

ADDISON

Addison, Oct. 6.—Mrs. Barrett, of Toronto, is at present a guest at the home of her aunt, Mrs. Goff.

Mrs. T. Brown spent the week-end in Brockville.

Dr. and Mrs. Patterson, Burlington, Iowa, Mrs. Patterson and Mrs. Downey, Brockville, were guests last week at the home of Mr. and Mrs. George Taplin.

Miss Keitha Blanchard, who spent a few days with friends here, has returned to Kingston.

Mr. and Mrs. Harold Howe were guests at the home of Mr. and Mrs. E. O. Howe on Sunday.

Miss Earle, Lillie, is a guest at the home of her aunt, Mrs. Percival Empey.

Mr. and Mrs. Kinch spent Sunday with their daughter, Mrs. Verner Moulton.

A shower was held at the home of Mr. and Mrs. C. Moulton for their son, Verner, who has recently been married.

The Ladies' Aid of the Addison Methodist church will hold the opening of their new hall on Tuesday evening, October 14. A chicken supper will be given, after which a good programme will be provided.

Sale "Paper" Must Be Sound

WHEN the last animal has passed through the auction ring, when every implement of the farm has been sold, what then? The vast majority of farm auction sales are conducted on a credit basis, but if the sale is to be counted a success a trained banking expert must pass judgment upon the soundness of all settlements.

Consult the manager of the Standard Bank.

ATHENS BRANCH—W. A. Johnson, Manager

BANKING FIFTY YEARS

Women and Home

PICKLING HINTS

Use enamel or agateware for pickles; wooden or agate spoons; keep them in earthenware, stoneware crocks or the usual glass preserving jars.

Hold pickles below the brine or vinegar to exclude air. Do this with a board or inverted plate with a clean stone or suitable weight to hold them under.

Salt is an essential to pickles as it is to every other food. Most vegetables are soaked from twelve to twenty-four hours in brine before seasoned vinegar is poured over. The brine draws out part of the moisture from the tissues of the vegetable, making a more compact and firmer pickle and gives a good flavor. In addition, the salt checks the action of spoilage organisms, acting as preservative.

Too strong a brine softens the vegetable, on the other hand. The old directions, to make the brine strong enough to float a fresh egg, give good results, although they can be expressed more accurately as one cupful of salt to two quarts of water. A milder brine is often suggested—one cupful of salt to four quarts—one gallon—of water.

HINTS FOR THE HOUSEWIFE

The decorated coat hanger is nice to keep on one's closet for the wrap of the guest visiting us. It will keep the wrap in so much better condition than when thrown on the bed, especially in wet weather.

A sheet of waxed paper over the freezer or mould before packing in ice and salt is a wise precaution. It makes the fit more tightly, preventing any tiny trickle of salty water from getting inside.

Whatever you do, treat the family to one glass of currant jelly served with fresh bread. Do it while the jelly has that pungently fresh taste which is so delightful. Well made, it is a dish for an epicure. With crushed fresh bread it is a feast for the gods.

Don't always serve the same foods in the same kinds of dishes. You grow tired of the same frock after a while. Cottage pudding will keep its popularity longer if it is baked sometimes in a tube pan, sometimes in a loaf tin. Baked beans (even the canned ones) look their best in a bean pot, although they are nice, too, in brown earthen dishes.

OUT IN THE FIELDS

The little cares that fretted me, I lost them yesterday, Among the fields above the sea, Among the winds at play; Among the lowing herd, The rustling of the trees, Among the singing birds, The humming of the bees.

The fears of what may come to pass, I cast them all away, Among the clover-scented grass, Among the new-mown hay, Among the husking of the corn, Where drowsy poppies nod, Where all thoughts die and good are born— Out in the fields with God. —Louise Imogen Guiney.

IT'S A GREAT LIFE

"It was the Psalmist David who said that all men are liars, but the editor of the Trial News seems to want to take pride of place for the newspaper:—

"If the average newspaperman is a liar he generally lies to protect his community. If a boy goes out into the world and gets into trouble, the home newspaper says he was a good boy until he got away into bad company. If the town's tightwad who hugged his pennies to his bosom in life, dies the newspaper throws a mantle over him and says he hated wastefulness and that his hate for useless spending made him over-careful for his investments and his charities. If the town's gossip dies he carefully avoids referring to her outstanding weakness, and tells how she visited the sick and afflicted, and winds up by saying she was a good neighbor. If the home team goes away from home and gets the day-lights whipped out of them, the paper never tells the unsuspecting world that the team was made of second string players. The editor isn't a liar from choice. The truth struggles in his family breast the same as it does in the village preacher, but the pride of his community makes him a trembling rabbit—and he lies to save the local pride of the town. Still—it's a great life if you don't weaken."

AUNT'S IDEAS ON CRITICISM

We like this bit of our Auntie's philosophy. Don't you like it, too? Friendly and kindly criticism it is regarding our home, our selves, or any special work which we undertake. We soon tire and take for granted a person who continually praises what we do, who gushes in rapture over anything, whatsoever that we chance to show them. In-

Pompeii. The ancient Britons used those made of ivory, which were comparatively rare, and looked upon as a luxury. Garments were fastened chiefly with strings, laces, even with thorns and skewers of wood.

The Pin in Literature

When the pin as we know it was first introduced it was a clumsy affair with a globular head of twisted wire made separately and secured to the shank, and the head was continually getting detached from the rest of the pin. Clumsy as it was, however, it met with universal favor, and soon found its important niche. It began to figure in literature. Shakespeare makes Hamlet set his "life at a pin's point," and an unhappy Queen of England compared her "wretchedness to a row of pins."

"Dear me! What signifies a pin?" were the contemptuous words of the heroine of a poem familiar to our grandmothers. But the lady, realizing the value of the slighted object, when at the time appointed for going to the party:—

"The carriage rattled to the door, Then rattled fast away; But poor Eliza was not in, For want of just a single pin!"

We've all read of the youth who on going to apply for his first situation picks up a pin, thereby attracting the favorable notice of his future patron, and sets his feet on the path which eventually leads him to wealth and position.

Superstition has not overlooked the pin. Like other pointed articles it should be lent, not given, and we all know the saying, "See a pin and pick it up, all the day you'll have good luck!"

How "Pin Money" Originated

The term "pin money" originated in the reign of Henry VIII, when a law was passed that pins should not be more than six shillings and sixpence per thousand. Pins were then a very acceptable present; "instead of the gifts, a contribution was sometimes received in money." This was called "pin money," a term extended later to a sum of money "secured by a husband on his marriage for the private expense of his wife." In our day it has come to mean any money bestowed upon or earned by a woman, devoted solely to her own personal expenses.

Addison recorded his dislike of the principle of pin money, proposing that "needle-money" should be substituted in its stead as being a more thrifty name. When we remember how many millions of pins are lost, nowadays, during a single year, it appears to confirm his contention.

THE ROMANCE OF THE PIN

Garments Once Fastened With Skewers and Laces

"The carriage rattled to the door, Then rattled fast away; But poor Eliza was not in, For want of just a single pin."

The useful pin plays such an important part in the world nowadays, that we may well wonder how we could manage without it. In the very earliest times small spikes, probably thorns and the fine bones of fishes and other animals now preserved in museums, and discovered on the sites of pre-historic lake dwellings, served the same purpose.

Among the remains of ancient Egyptian toilette articles there are a variety of pins, some of the crude, and others of a more finished design. Most of them are of bronze, but a few of copper have been found. They seem to have been used chiefly as hairpins, although to fasten the dress and other purposes. Some have ornamented tops of gold, other of amber, and are curious and beautiful. Greek and Roman ladies fastened their tresses with metal pins, and some bronze pins have been found at

A MODERN BOY

By Tudor Jeaks.

He has a bicycle of course, A camera and a racket, And roller skates, a microscope, A banjo, and can whack it, He paints a little, writes a little, Takes four magazines, Owns tennis suits and blazers "Sweaters" and velveteens. He owns a shotgun, rifle, A lantern set of slides, A pony cart and pony On which he sometimes rides. He owns a paper shell and rows, Plays polo, golf, and baseball, He has a lathe and scroll saw, A motor, radio and all, A tool-box holding tools enough To build a railroad car, A pantograph, a violin, Typewriter and guitar. For winter a toboggan, For summer a canoe; And if there's something I've forgot, Be sure he's got that, too. But yet, amid his many fads He leads a duller life Than came to many an old-time lad With just his pocket-knife. —Ex.

LIVING CLAY.

I took a piece of plastic clay, And idly fashioned it one day; And as my fingers pressed it, still It moved and yielded to my will. I came again when days were past— The bit of clay was hard at last. The form I gave it still it bore, But I could change that form no more.

I took a piece of living clay, And gently formed it day by day, And moulded, with my power and art, A young child's soft and yielding heart. I came again when years were gone— It was a man I looked upon. He still that early impress bore, And I could change it nevermore.

SEND IT IN

If the editor's like To go out on a hike And gather up the columns of news Then to touch it up slick, And to spread it on thick, In a way to inform and amuse; But who would take care Of his customers fair, And the other ones ugly and sore With the editor srying, And prying and trying To dig up news items galore? So send him the news— Send him all he can use— Send him columns and columns of stuff Till at last he surrenders And busts his suspenders While frantically shouting "Enough."

ART IN COMMERCE

is in vogue to-day. Demand is growing daily. Artists are busy. Graduates are wanted. We teach you to convert talent into cash. Shaw's School, 46 Bloor West, Toronto. Gift Baker, Chief Director—address Dept. O, for free particulars. Send sample of work for criticism.

THE ANSWER

What makes a home? the timber and the bricks? Foundations strong? the style or roof and rooms? The furnishings within? the builder's tricks? Of making wood so many forms assume. Homes are not made of wood or stone Nor all the things that men can make thereof; What makes a home where joy and faith are known, Where happiness and peace abide; is—love! —Arthur W. Peach.

TIPS TO HOUSEWIVES

Sliced apples, baked slowly in a casserole with butter and brown sugar, are served with cream. A good soup can be made of chicken giblets and potatoes. Breast of cold boiled fowl, cut up as for chicken salad and cooked in a pan with a little cream is an appetizing dish. A delicious jam is made from currants and gooseberries in equal quantities, using pound for pound of sugar.

About the House

THE BETTER WAY.

Adella rose every morning at seven. She ate a hurried breakfast, made her bed hastily, flung on her coat and planted a kiss on her mother's face that slid along the cheek and landed just in front of the ear. Adella was off to school!

The session closed at three o'clock, but Adella was not at home until four. She liked to loiter, for she had "best friends" to see and many of them. She used the next hour for tennis or skating, according to the season. Then came a few moments at the piano. Dinner was followed by a study period that lasted until bedtime. Obviously there was only one day in the week in which Adella could tidy up her room, and the "rush and bang" habit marked the flash of broom and duster in her room every Saturday.

First she swept. Then she dusted the class mottoes, the school and college pennants, the racket, the fish net, the trophies of vacations and college sports tacked to the wall.

On a shelf over the door she had eleven fancy boxes. Once upon a time every box had held candy. It was the thing for girls of Adella's age to save such boxes as an Indian saves the scalps of his victims. The eleven boxes represented eleven different boys who had sent her candy last St. Valentine's Day. No other girl had more. But the boxes had to be dusted.

There were silk and ribbon powder boxes, glove boxes and handkerchief boxes on the dresser. "Too pretty to be put away," said Adella, "I want them in sight." And they too had to be dusted.

On the writing desk were photographs with frames and photographs without frames, two pink candles in brass holders, a fancy calendar, a doll in pink silk that Adella had won at a fair and a miniature Goddess of Liberty in silver to be used as a paper weight when there were any papers to be weighted. All had to be lifted off while the surface of the desk was wiped; all had to be carefully dusted and put back again.

In the open writing desk were boxes of fancy writing paper, a pencil holder, an ink stand with a little vase holding a pen with a pink quill holder; a china box for stamps and another for pens, each of which had a fancy shepherdess on top of it. All had to be dusted, and the little shepherdess had occasionally to have a soap-and-water bath. Adella looked at the pigeonholes and sighed. She knew that the dust was accumulating there, but, "Oh, well, let it wait another week!"

It was eleven o'clock one Saturday morning when she sank exhausted in her chair. Glancing through the open window, she saw a group of her friends going by to play tennis. She was hot and tired, and somehow all those little cluttering adornments of her room did not appear so attractive.

"The Chinese," said a voice from the doorway, "have a better way."

"Well," answered Adella in tired tones, "I wish I lived in China. Come in, Aunt Addie, and tell me about it. I want to hear something to take my mind off that group that just went by to play tennis."

Aunt Addie entered with a smile,

but before she could be seated in the rocker it had to be cleared of one silk workbox that Adella kept on the window sill, one silk bag that after it had been shaken was to be hung over a door-knob, one box of chocolates, a over the foot of her bed because of the "touch of color" it gave to the room and three books.

"When I first entered a Chinese house," said Aunt Addie, "I thought it dreadfully plain. The walls were bare, there were no silk drapes such as we have over here, everything was exquisitely clean, but bare. Then I caught sight of something on a small table two rooms beyond so beautiful that I fairly held my breath. It was a vase of wonderful color and workmanship, and almost the only bit of adornment in the house. I learned then a custom of the Chinese. They have many treasures like the vase, but they usually put them out only one at a time. When they tire of one they put it away and set another in its place. The simplicity of it enchanted me. It seemed much more beautiful than our over-adorned homes. I grew to love it.

"Now, if a girl from China had this room she would put those candy boxes away; she would take down those dust-catching college and vacation trophies, for, really, my dear, they are lace and ribbon, glove and handkerchief boxes into the dresser drawer; she would—

"What exquisite workmanship in that silver frame that holds your mother's picture! Do you know, I didn't notice it when I stood in the doorway. There!" She swept everything else off the dresser and put the picture there alone. "How beautiful it looks now.

"Well, dear, I must be going. Your mother and I are motoring over to Ivy Hill. Sorry you can't go with us, but by the time you have bathed and changed your clothes it will be too late. But of course you will be missing all those things when you have so much dusting to do."

"There," declared Adella to herself a half hour later, "I like my room much better now!" She threw her dust rag into the air. "Next Saturday I will have time to enjoy the day. The idea," she went on in tones of disgust, "of dusting off atrocious decorations that immediately begin to gather more dust to cheat me out of more joys on other Saturdays!"

DISPOSING OF TRASH.

A handy way to dispose of trash is to hang a stout paper bag, such as a flour or meal sack, or an old gunny sack which is too ragged for further usefulness, in a convenient place. Drop into it waste papers and burnable odds and ends until it is full, when it may be tossed upon the bonfire and burned, sack and all. It is always a wise precaution, however, to keep all cloths and papers which have been used in connection with oil out of such refuse sacks and baskets; burn them at once.

OLD TURKISH TOWELS.

Worn Turkish towels seem to many housekeepers a hopeless proposition. Yet the less worn parts may be made to serve several excellent uses. Some of mine I make into wash cloths. I cut away the ragged parts, and from the rest shape square or oblong cloths. I fold them once, usually; but if the pieces are worn thin, they are folded twice, making four thicknesses.

The raw edges are turned in and a few basting stitches hold them in place for the machine. With a long stitch and rather loose tension I run around the edges and also stitch diagonally from corner to corner. The stitching crosses in the middle and keeps the cloth firm for the hand when in use. These cloths are convenient and last a long time. Several can be made in a few minutes.

If old towels are saved until a large number have accumulated, excellent rugs may be made from them. Most of the worn towels are still good along the edges and ends. I cut from these strips about an inch and a half wide and sew them together, lapping end over end as for ordinary carpet rags. They are then wound into balls of about one pound each and carried to the carpet weaver who converts them into bathroom rugs of any desired size. They are fine for this use because they are thick and soft and easily laundered. If a few colored strips are sewed and sent with the

white, for stripping the ends, the rugs are prettier, and can be made to harmonize with the color scheme of the room.

WIND ALONG THE WASTE

BY LYON MEARSON.

PART II.

The visitor and the trader engaged in small talk for a while, and Waterman sat in silence. He did not care to talk to this man, for some reason. He disliked him, that was the long all and short of it. Landon turned to the sergeant after a bit.

"You're in the Mounted, ain't you?" he asked, and Waterman nodded. "Nearly got into the force myself, wunst. Glad I didn't, though. My idea of a rotten job, I'll tell the world. Poor pay and hard, dangerous work. Too many easier ways of makin' money, I'll say."

"How, for instance?" asked Waterman, dryly, looking him in the eye. The man laughed. "Come, now, sergeant—expect me to tell you that?" "An' you a member of the Mounted?" He leered evilly for an instant. Then he laughed, but Waterman said nothing. At this point Sanderson, who had left the company for a brief period, came back with a bottle of whiskey and several glasses.

"Now you're talkin', friend," said the newcomer, jovially. "Fill it up for the sergeant, too." "Fill it up!" "Thanks, no," said Waterman. "I'm not drinking," quietly. The other looked at him. "What's the matter—teetotaler?" "No—I'm just not drinking now." With a shrug of his shoulders Landon turned to the trader.

"Darn peculiar some people is, seems 'em, 'bout who they drinks with," he grumbled to Sanderson, who said nothing.

"Curious thing, that, about the Indian who committed suicide by just making up his mind he was going to die," commented Waterman, turning to the trader and speaking to him as though no one else was there. It was as though their conversation had been continued without a break.

"Yes, only case of the kind I ever heard of," replied Sanderson. "Seems to me that if—"

"Why, that's funny," broke in the visitor. "Imagine you mentioning a thing like that! It just happens I know of such a case right in this section. Happened about twenty years ago." The other two regarded each other in silence.

"Yeh; just about twenty years ago, I guess. I was young, then, an' wuz tradin' around here promiscuous like. There wuz an Ojibway village around here then—don't suppose it's here any more, an' there wuz an Injun gal there that I can honestly say wuz the finest lookin' specimen I ever seen—ain't that so, you can bet your life on that. Say, that gal wuz about the prettiest lookin' thing I ever lapped—thin and supple as a reed, smooth, strong, the blackest hair an' the blackest eyes you ever seen, an' the most regular features."

"Had some eddication, too—got it in a convent. The name the Injuns give her wuz 'Wind Along the Waste'—shortened it, 'Lindy' after a while, of course, and—lindy that's gettin' a little ahead of the yarn, ain't it?"

"Her old man was a regular Injun—the kind that believed his gal had oughter mind him in everything; that's the way they are, among the Injuns. I found that out when I got so I began to hang around Wind Along the Waste. Say—ain't that the darndest name?—I think they give it to her because she wuz so slim and supple and light, looked as though she might be picked up on any wind that come along and carried away—or mebbe it wuz account of a wind which sometimes sounded like a wind whispering soft like in the pines, far away—y'know what I mean?"

"Anyways, she wuz some looker, I'll say, though I suppose by now—if she's alive, she probably looks more like the old squaw what I passed comin' here around a while ago, an' I'd take her down to the post wunst in a while, blow her to a piece of ribbon now and then, so on—but it didn't seem to be much of a go."

"You see, there wuz a young Injun back in the game—these two had it all framed up to marry each other when I butted in an' jizzed up the works. You don't usually hear much about love among the Injuns—that is, the real ones, not the comic opera kind—at least they don't think of it the same way we civilized people do; but I must say that this gal an' that there Injun buck had a bad case of it, an' if it hadn't been for the old man's havin' bring her up to mind him, they would've went an' got hitched up before I ever got there."

"After I got there it wuz all off, because I made up my mind that I'd have that gal whatever happened." He paused for a moment, and moistened his gross, sensual lips with a thick, darting tongue. His eyes leered lustfully.

"I give the old man presents an'

white, for stripping the ends, the rugs are prettier, and can be made to harmonize with the color scheme of the room.

BORDEAUX SAUCE.

My winter larder would not be complete unless I had several jars of this sauce, which is excellent to serve with meats.

Bordeaux Sauce—1 gal. green tomatoes, 1 head cabbage, 5 green peppers, 6 onions, 1 bunch celery, 3 qts. vinegar, 4 cups sugar.

Chop green tomatoes and cabbage fine and let stand one hour in salt water. Drain and add the remaining vegetables, chopped fine, along with the vinegar and sugar. Boil this mixture for two hours and pack in sterilized jars.—Mrs. A. D. M.

Minard's Liniment Heals Cuts.

promised him anything he wanted if he would let me have the gal. Things man sat in silence. He did not care to talk to this man, for some reason. He disliked him, that was the long all and short of it. Landon turned to the sergeant after a bit.

"But although I got the ol' man so he was satisfied to have me get her, I couldn't seem to bring the gal around. She wuz pretty strict around here at that time, an' it looked as if I would have to marry her if I wuz to get her at all. But I wuz willin' to do that—anything, in fact, just so as to get her."

"Her Injun went off on a three weeks' trip, an' no sooner does he get away when the old man says: 'She's yours if you can make her go with you.' I says she'll go with me, one way or the other." He paused a while again, while the others sat in quiet, waiting for him to go on.

"Did she go? I'll say she did. She didn't want to, an' put up an awful fight, but there ain't none of them can get away with that stuff with your Uncle W. L. when he makes up his mind he wants a thing bad enough. I made her with me down the river, an' in your pipe, you can put that in your pipe, I showed her what was what, an' believe me, I knocked a few crazy notions outta her head while I had her. I learned her how to sit up an' say, 'papa.'"

"Say, but she was one sweet Jane, at first! Tried to run away, wunst or twice, but I got her back agen an' learned her proper. Never tried it no more. After that she knowed who I got good an' tired of her—five or six years, in all. I sold her to some half-breed over on the Plate after that, an' ain't never heard of her since—guess she's dead by now."

"But what I started to say wuz about that Injun buck. You see, he didn't get back till about three weeks after I had skipped; there wuz no chance of findin' us then, an' he knowed it, though I don't know what he thought, you can't never tell what an Injun is goin' to pull on you. Anyway, her father tells him that Wind Along the Waste has gone with me of her own volition—that she told him she loved me, an' all that there kind a rot, an' he believed it."

"What does he do but say that he's going to pass in his checks—commit suicide; he does it, too. Goes to his bunk, lies down, turns his face to the wall, and in two days he wuz dead. Say, what'd ya think of that? Shows power of mind over matter. I alwuz thought it wuz a kinda curious thing, if you know what I mean."

"He finished in a dead silence, his small black eyes gleaming unpleasantly and lustfully at the reminiscence. Shortly after he took his leave and plodded on his way.

Sergeant Waterman sat in the room, quietly, without saying a word, and so did Sanderson. They gazed grimly out of the window at the figure padding its way outward, placing the snowshoes carefully and accurately in the beaten path, until it had passed out of sight in the pines. A little later Sergeant Waterman rose and announced that he would go on his rounds. He drew on his fur coat and took his snowshoes from the wall.

"Guess I'll travel along with you a way—need the exercise," said Sanderson. Waterman nodded, and waited for the older man to dress.

Four miles down the trail, in the lee of a big, grim rock they found the man who had called himself Landon. His body was still warm, but all life had departed. Spread flat on his back, his sightless eyes staring up at the brazen heavens reproachfully, he had that in his face that indicated he had seen something that usually comes in the black night—a shade out of a nightmare that had come to horrify him in the daylight. The surprise mingled with the horror in his staring orbs. His revolver was in his hand, but it had not been fired.

A great, jagged hole had been smashed in his skull, such as might have been made by a sharp-pointed stone, and next to him, where it had fallen, lay a tomahawk. The head of it was a long, sharp, heavy piece of flint, bound to the haft with rawhide thong crisscrossed over the hard stone. They examined the body briefly, still in silence, and then faced each other.

"She got him—after twenty years," remarked the trader, and the other nodded.

"The law—your law, doesn't recognize any crime in what this man did," said Sanderson. "Yet it will recognize a crime in what this squaw did—and she will hang for it. Well," with a shrug of his shoulders, "I suppose it must be so."

"Who said she'll hang for it?" asked the representative of the law evenly. "Hanging is for murder. This was not murder."

The other looked at him gravely. "It was—"

"Can't you see what it was. It was suicide, of course. A man's liable to do anything; on a lonely trail like this; when you're alone you get to see how useless life is—and you commit suicide. Let's bury him."

Quietly the men faced each other. It was Sanderson who spoke at last. "I think you're right. He committed suicide twenty years ago."

(The End.)

Housefly Quick Thinker.

The housefly is said to be the cleverest of insects, its intelligence surpassing that of the ant and the bee. One authority asserts that it can think 100 times faster than a man.

For every wash-day method

RINSO is ideal for any wash-day method you use. You do not have to change any of your usual steps—just use Rinso where you used to use ordinary soap.

If you like to boil your white cottons, Rinso will give you just the safe cleansing suds you need in the boiler. If you use a washing machine, follow the advice of the big washing machine manufacturers—use Rinso.

Just soaking with this new kind of soap loosens all the dirt until a single rinsing leaves the clothes clean and spotless.

However you do your wash, make it easy by using Rinso.

Rinso is sold by all grocers and department stores

LEVER BROTHERS LIMITED TORONTO

GIVE CHILDREN "BOTTLED" SUNSHINE.

Children make their greatest growth when they can get the benefit of direct sunshine. Secondary, or "bottled" sunshine, in the form of carrot, comes next.

The sun, though it does not shine upon your child, has, nevertheless, made provision for his well-being. It has stored its vital energy in the products of the vegetable kingdom, and has placed the vitamins, more precious than gold, within the reach of the human family. It only remains for you to select wisely the diet of your child, and he cannot develop rickets.

Fruit and vegetables stand first as vitamin bearers. Among the vegetables, the once lowly carrot stands in the front rank. It is sunshine itself brought to your table. There is no kind of vitamin, so far discovered, that the carrot does not possess.

For Sore Feet—Minard's Liniment

Mackintosh for His Daughter.

Some few years ago an English family rented a place in the Highlands for a few months. It was near a loch, and one morning the party engaged a boat to take them across. The weather had become unsettled, and the father said to the boatman, "By the way, can you tell me where I could get a mackintosh for my daughter?" The boatman rested on his oars for a moment or two, and then said, "There's no ferry many Mackintoshes hearabouts, but there's a fine young Mackintosh, a bachelor, who lives at the loch, and he might be sutting the young lady."

GREAT BRITAIN BEGINS BIG ELECTORAL BATTLE SET FOR OCTOBER 29

After Nine Months of Power Labor Government Meets Defeat When Conservatives and Liberals Unite in Passing Vote of 364 to 198.

A despatch from London says:—Great Britain is embarked on the shortest and what promises to be one of the most hectic electoral campaigns in history.

Prime Minister MacDonald, beaten in the House of Commons on Wednesday night, motored to Buckingham Palace on Thursday and obtained the assent of King George, who had hurried back from Scotland, for dissolution of Parliament.

Accordingly that body was prorogued immediately after the Irish boundary bill had received the royal

The fact that the Premier remained with the King for an hour instead of the few minutes usual in the case of a formal ministerial resignation, lends weight to the rumor that the Throne objected strongly to authorizing an election on an issue which merely involved the conduct of the Attorney-General in dropping a sedition case.

Proceedings during the prorogation in the House of Commons were purely formal. But a great demonstration awaited Mr. MacDonald at the Labor party conference, which has been, by a coincidence, meeting in London during the present political crisis. The Prime Minister came to the meeting direct from the Palace. Here the Labor leader delivered a bitter speech, which indicates the unrestrained language which is likely to be used by all sides during the campaign.

"Murder had been plotted and planned, and it came off," he declared, in summing up the vote of censure which defeated the Government Wednesday night.

This was a Liberal motion demanding an investigation of the dropping of charges against James R. Campbell, Communist editor of the Workers' Weekly, who had been accused of inciting troops to mutiny. The Government has pledged its word that political considerations had nothing to do with the case, and so Labor regarded the demand for an inquiry as an insult to the integrity of its ministers.

The present composition of the House of Commons' membership is as follows:

Conservative 246, Labor 187, Liberal 156, Ulster Unionist 11, Cooperative 6, Independent 3, Independent Liberal 2, Nationalist 2, Sinn Fein 1; total 614.

The total membership of the House of Commons is 615, but there is a vacancy for the London University constituency.

British Labor Premier, Ramsay MacDonald, whose Cabinet has been defeated.

It had been rushed through the House of Lords without amendment. So Great Britain's first Labor Government came to an end with a general election fixed for Oct. 29, instead of Nov. 8, as had been expected.

This scrap book, containing clippings relative to the Prince of Wales' second visit to the United States, is being sent to London so H.R.H. can refresh his memory of the good times he had there.

Canada from Coast to Coast

Halifax, N.S.—Gerald DaCosta, senior member of the firm of Gerald DaCosta, fruit and produce brokers, Covent Garden, London, England, has been visiting the Annapolis Valley and was much impressed with the region's fruit growing possibilities. As a result he has established connection with several of the leading apple shippers. An improvement in the already satisfactory trade between the Annapolis Valley and British markets is expected to result.

St. John, N.B.—It is stated that 100,000 head of live cattle have been shipped to England from this port since the cattle embargo was removed and 40,000 have already left this year. Large shipments are anticipated for the coming winter.

Montreal, Que.—The Canadian Export Paper Co. is looking forward to a new field opening in England as a market for Canadian newsprint as the result of a contract entered into by Price Bros. & Co. with the London Daily Express for the shipment of a large quantity of newsprint to England regularly. The amount covered in the agreement is understood to be in the neighborhood of 15,000 tons, which would cover a daily production of 50 tons for a whole year and run in the aggregate at present prices of over \$1,000,000.

Toronto, Ont.—Reports of discoveries of iron ore north of Sault Ste. Marie have reached provincial assay offices, where they are regarded as of great potential value. The quest for iron has been going on for some time by means of diamond drilling operations. Samples which have been taken from the drills are said to have indicated the location of the ore, the content of which is as high as 65 per cent. hematite iron.

Winnipeg, Man.—The first shipping bill received at the offices of the Manitoba Wheat Pool was from a woman. The consignor of the first carload of Manitoba wheat to be shipped through the pool was Ellen Foss of Stonewall, who is farming in that area. The grain, consisting of 1,400 bushels, graded No. 1 Northern.

Regina, Sask.—The highest aggregate crop ever grown on Saskatchewan institutional farms was recorded last year, according to the superintendent's annual report. These farms comprise two at the mental hospitals, three at the jails, and some 400 acres near the Parliament Buildings, and the total crop produced amounted to 71,312 bushels.

Calgary, Alta.—Between 30 and 40 men will be employed here in the manufacture of a new stoking machine to be put on the market next year by the H. G. Kemp Co. 10,000 of these machines will be completed and delivered to the Prairie Provinces before the opening of the 1925 crop season.

Vancouver, B.C.—Nine thousand crates of onions and ten thousand cases of apples left during the week for New Zealand. Every liner sailing from this port in months which has refrigerated space and bound for the Antipodes has carried British Columbia onions. This has come about through the embargo in the Antipodes against the California product and it is understood that the Canadian product has been so favorably received that its market can now be said to be permanent.

Winnipeg, Man.—The first shipping bill received at the offices of the Manitoba Wheat Pool was from a woman. The consignor of the first carload of Manitoba wheat to be shipped through the pool was Ellen Foss of Stonewall, who is farming in that area. The grain, consisting of 1,400 bushels, graded No. 1 Northern.

Regina, Sask.—The highest aggregate crop ever grown on Saskatchewan institutional farms was recorded last year, according to the superintendent's annual report. These farms comprise two at the mental hospitals, three at the jails, and some 400 acres near the Parliament Buildings, and the total crop produced amounted to 71,312 bushels.

Calgary, Alta.—Between 30 and 40 men will be employed here in the manufacture of a new stoking machine to be put on the market next year by the H. G. Kemp Co. 10,000 of these machines will be completed and delivered to the Prairie Provinces before the opening of the 1925 crop season.

Vancouver, B.C.—Nine thousand crates of onions and ten thousand cases of apples left during the week for New Zealand. Every liner sailing from this port in months which has refrigerated space and bound for the Antipodes has carried British Columbia onions. This has come about through the embargo in the Antipodes against the California product and it is understood that the Canadian product has been so favorably received that its market can now be said to be permanent.

The Week's Markets

TORONTO.
 Man. wheat—No. 1 North, \$1.77½; No. 2 North, \$1.72½; No. 3 North, \$1.69½.

Lighting the sky at night for miles around, this gas well, six miles south of Irma, in the Wainwright oil field, has been burning for over three weeks.

Officials of the Canadian Seed Growers' Association have inspected to date 730 fields belonging to 391 farmers. The total acreage represented is 18,000 and the volume of grain 425,781 bushels. Only such crops as have been grown within the inspected area will be able to obtain a seed certificate.

Vancouver Grain Elevator Claims World's Record

A despatch from Vancouver says:—What is said to be a world's record in grain elevator construction is the claim for the Spillers big 20,200,000-bushel capacity structure here. In 45½ days the workhouse and bins were completed.

Starting construction of a battery of 38 bins, each 25 feet in diameter and 90 feet high, on Sept. 22, they went up at an average of seven feet a day. Basement to cupola they were finished on Oct. 9. The total height of the structure, including cupola, is 115 feet.

The workhouse, with its battery of 150 bins, each of two-car capacity, was constructed in 29 days, rising to a height of 204 feet in that time.

Turks Ignore Two Notes of Protest from Great Britain

A despatch from London says:—The Turks are understood to be reinforcing their troops in the Mosul Villayet, in British mandated Turkey, and have not yet replied to two notes of protest which the British have addressed to them concerning troop movements there.

In diplomatic circles the situation is regarded with dismay, as British prestige in the East will suffer if the Turks refuse even to reply to British protests and attack British troops. On the other hand, the present Pacifist Government does not wish to take strong measures.

Automobile Driver Makes 124.90 Miles Per Hour

A despatch from Paris says:—The English automobile driver Eifridgi, at the new autodrome at Monthery, Thursday, drove his car five kilometres (3.11 miles) in 1 minute 29.25 seconds.

Eifridgi's average of 201 kilometres (124.90 miles) an hour is said never to have been approached before.

Glass windows, except in churches and in the houses of wealthy people, were rare before the reign of Henry VIII.

DETAILS ARRANGED FOR GERMAN LOAN

Await Approval of Reparations Commission When Presented by Owen D. Young.

A despatch from London says:—Owen D. Young left London for Paris on Thursday after a conference with Montagu Norman, Governor of the Bank of England, and German Finance Minister Luther on the reparations loan which will be made to Germany under the Dawes plan.

Mr. Young carried with him the complete plans for and a prospectus of the loan, which he will lay before the Reparations Commission. If it is approved all the facts will be made public soon after.

Everything now has been settled with the exception of the final assent of some powers to the quotas assigned them. Italy in particular is understood to object to her quota, but Mr. Young is sanguine about the general agreement.

NO BILL AGAINST FORMER N.F.L. PREMIER

Sir Richard Squires Charged With Larceny—Grand Jury Dismisses Case.

A despatch from St. John's, Nfld., says:—A grand jury investigating charges against Sir Richard Squires, former Premier of Newfoundland, in connection with alleged irregularities in the course of his administration, returned no indictment on Thursday night. The grand jury held that evidence in support of charges of larceny and of receiving money in the testimony of Mrs. Jean Harsant, formerly secretary to Squires, was insufficient to warrant finding a true bill.

The former Premier was placed under arrest last April on charges of larceny which were the immediate outgrowth of the report of Crown Commissioner Hollis Walker. The Walker report sustained charges that Squires, while Premier, received \$22,000 from the funds of the Government liquor control department which was paid into his account at the Bank of Nova Scotia instead of into the public treasury. It was also charged in the report that \$46,000 was paid into the same account by the British Empire Steel Corporation at a time when negotiations were proceeding between the company and the Government for renewal of the company's ore tax contract. Squires was found to be a consenting party to both transactions in the Walker report.

Evidence presented against Squires consisted largely of the testimony of Miss Jean Miller, secretary to Squires when he was Premier, and who has since been married. Sir Richard has maintained an absolute denial of the charges against him or complicity in the alleged irregularities.

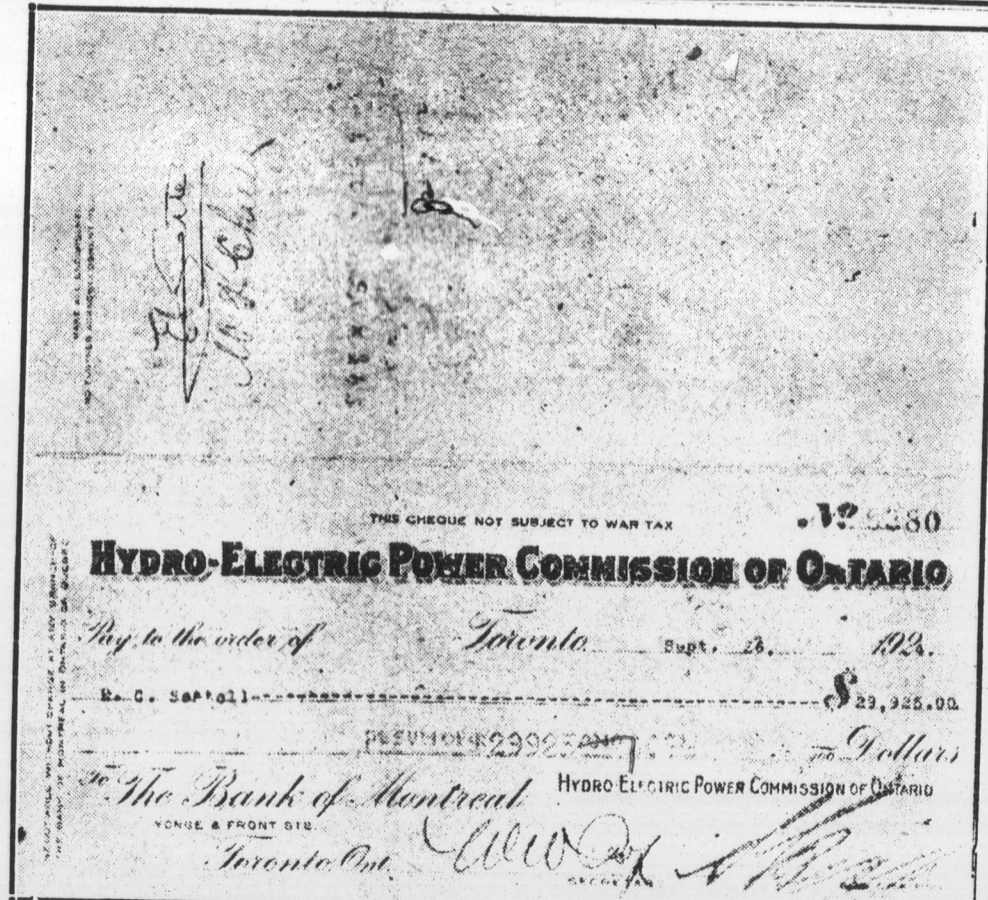

Tokio Plans Subway Despite Earthquake Dangers

A despatch from Tokio says:—Despite the unknown possibilities of damage and danger in earthquakes, Tokio is to have a subway. It is expected construction work will commence by the end of the year.

Out of four original franchise, three have lapsed and the remaining franchise is the property of the Tokio Underground Railway Co., which intends to have subway trains running within two years' time. This company was organized in 1918 with 10,000,000 yen capital, one-tenth paid in, and since that time has virtually completed the survey and geological investigations for ten miles of lines.

The company proposes to start with one line of one mile and a half, connecting Ueno and Asakusa, to be followed by an extension from Ueno to Shinagawa. The directors of the company expect to raise 4,000,000 yen by a call on shareholders. When the Ueno-Asakusa line is completed the property will be used as collateral for loans, the proceeds of which will be used, along with another payment from shareholders, to finance the construction of the Shinagawa line.

"Even the most conservative mining element is beginning to recognize the possibility that Ontario may, within the lifetime of this generation, become the centre of one of the greatest metal mining industries in the world," states the London "Statist," and the London "Financial News" follows this up with the observation: "Look at the number of representatives of the big London financial houses in the Dominion examining and reporting upon the discoveries of prospectors in all parts of Canada, and especially in Ontario and Quebec."

SCRAPS OF PAPER WHICH BROUGHT DOWNFALL OF CLARENCE SETTLE
 Above is the reproduction of the W. Pope, secretary of the Hydro Com.—Sir Adam just previous to the cashing cheque for \$29,935, on which Clarence Settle, on the cheque are genuine, if the cheque by Settle, which is said to be the hydro, obtained the cash. In fact, Settle, at least has acknowledged to contain allegations against the Hydro, escaped to Niagara Falls the exact use to which it was going to a government inquiry by commission. Settle maintained that no forgery or fraud charges will be made. Sir Adam having requested the signatures of Sir Adam and of W. Pope to be prosecuted. But a letter, written to purpose.

LOCAL NEWS

At 7.30 Tuesday evening there will be a public service, to which all are invited. The sermon will be delivered by Rev. G. A. Andrews, a missionary just returned from China. On Wednesday there will be a celebration of the Holy Communion at 7.30 a.m. and business meeting at 10.00 a.m.

THE NEW BROTHERHOOD

We are sifting out the selfishness that marred our olden creeds, From the vineyards where we labor we are thinning out the weeds, We are building for the future to a nobler, better plan, For the world has caught the vision of the brotherhood of man.

We have put the past behind us, as the sturdy pioneers Saw within the tangled forest all the glory of the years, So we face our trials calmly, for beyond them we can see The greater goals of freedom, and the world that is to be.

These are days of self-denial, these are time for sacrifice, It is freedom we are gaining, and each one must pay the price, We are drawing close together with a common end in view, For the greater joys we dream of, we've a common task to do.

We are sifting out the selfishness that marred us in the past, For the light of truth is shining through the clouds of doubt at last, We are building for the future to a larger, better plan, For the eyes have caught the vision of the brotherhood of man.

The Churches

Athens Methodist Church

Rev. H. E. Warren, M.A., B.D., Pastor.
Sunday, October 19th, 1924.

WOMEN'S INSTITUTE AT ELGIN HOLDS A SPLENDID MEETING

by Members.
Two Excellent Papers Are Read
NEWS OF THE DISTRICT

Alfred Ireland, Frankville, Injures Shoulder in Fall From An Apple Tree.

Elgin, Oct. 9.—The regular monthly meeting of the Women's Institute was held at the home of Mrs. J. Sullivan on Thursday afternoon, October 2, with an attendance of 35. Several letters were read, one from Toronto asking that a programme be sent from the institute to the fall convention at Ottawa. These cards received from the different institutes will be discussed at the convention and a prize given for the best one sent in. A letter from Ottawa asked that an account of anything special that we had been doing in our institute be sent in to the Ottawa convention which is to be held on November 23, 24 and 25. Another letter asked that the members sell poppies on Armistice Day. It was decided to send for 300. Mrs. V. De Wolfe gave a report of the booth held at the School Fair. The ladies sold ice cream, homemade candies, cakes and vegetables at this booth and realized a splendid profit from the sale.

Mrs. A. E. Sanderson gave her report of the bazaar committee. Mrs. L. A. Mustard gave a report of the concert committee. This committee is preparing a play "Mother Mine" to be held on the night of the bazaar. Several committees were formed to look after different tables at the bazaar. The delegate was appointed to attend the Ottawa convention; Miss S. Dunn, with Mrs. J. C. Pennock as alternate. The roll was now called and answered by "A Help-ful Idea for Mondays and Saturdays." After the business part of the meeting was concluded a good programme was given. Mrs. J. C. Pennock and Mrs. A. E. Sanderson gave two splendid papers, one on "The Guest in the Home" and the other on "The Sunny Side of Life." "The Ode" was now sung after which a contest was held, Miss E. A. Halladay and Mrs. J. C. Pennock being the prize winners. A lunch was now served consisting of beans, sandwiches and cake. A vote of thanks was tendered the hostess, also the directors, Mrs. R. Taylor, Mrs. B. Kelsey, Miss M. McGuigan and Mrs. W. Yardley.

ELGIN.

Elgin, Oct. 9.—Anniversary services will be held in the Methodist church on Sunday, the 12th inst., when Rev. W. R. Johnston, of Spencerville, chairman of the Brockville District, will take charge of both morning and evening services. Mr. and Mrs. Maniff Dancy, Syracuse, N. Y., Mr. and Mrs. Hollis Dancy, Guelph, and Mrs. A. F. Hageman, Peterboro, have returned to their homes after having been called here by the death of their father, John Dancy.

J. W. Kerr has returned from a visit to Western Ontario. Miss Eva Coon, Sarnia, is spending a few holidays with her parents, Dr. D. A. and Mrs. R. G. Stratton have returned home from their honeymoon and have taken up residence in Mrs. H. Kelsey's house.

Mrs. S. J. Kelly and Miss Mary Murphy visited Mr. and Mrs. H. S. Robeson, Athens, last week. Frank Halliday spent a few days recently in Montreal in the interests of the cheese business.

Mrs. Charlotte Stevens was called to Brockville by the illness of her daughter, Mrs. L. Talman.

Miss Gertrude Botting resumed her work following a brief and well-earned vacation.

G. H. Howard spent the week-end at his home here.

Mr. and Mrs. H. S. Knapp and children, Toronto, are spending a few days with her parents, Mr. and Mrs. William Sly.

Mrs. James Stanton and Miss Grace have returned from a visit with relatives in Watertown.

Mrs. J. Pennock, Miss Dorothy Perryman and Mrs. George Patterson have returned from spending a few weeks with friends in Hamilton.

Misses E. and K. Dwyer, A. Nolan and H. Gordon motored to Gananogue to attend the Teachers' Convention. Another elderly resident of Leeds County in the person of John Dancy passed to the Great Unknown on October 1st. Deceased had been in declining health for several months past due to his advanced years, being almost 87 years of age. His occupation was that of farming. Being of an affable disposition he won many friends. He was twice married, his first wife being Miss Sarah Coon, and the second Miss Eutary Coon by whom he was predeceased some two years ago. He was a faithful member of the Methodist church and a liberal contributor to all funds pertaining thereto. In politics he was a staunch Conservative. The funeral services were conducted on Friday in the Methodist church by his pastor, Rev. A. E. Sanderson, who took as his text II Cor., 13:11, it being the request of the deceased that this passage bear his farewell message to his friends. The pall-bearers were four nephews, Jehoida Coon, Morton; Leonard Coon, Lyndhurst; Claton Coon, Crosby; and Malcom Coon, Elgin. Surviving to mourn his loss are three sons and two daughters: Manliff Dancy, Syracuse, N.Y.; Hollis Dancy, Guelph, on the homestead; Mrs. J. D. DeLong, Elgin; and Mrs. A. F. Hageman, Peterboro. The remains were laid to rest in the family plot.

CARDINAL

Cardinal, Oct. 7.—Mrs. Charles Curry has returned from Ogdensburg, where she spent last week with her daughter, Mrs. A. E. Eastman.

Miss Mildred Morgatroyd underwent a serious operation in St. Vincent de Paul hospital, Brockville, on Friday last.

Miss Medeline Gorman, of Belleville, is visiting her brother, Rev. Father Gorman.

Mrs. Erwin Grant is visiting friends in Thorold.

On Saturday night fire broke out in the Theatorium of Savor's Hall which damaged it to a considerable extent.

The Ladies of Sacred Heart church will hold a cooking sale in John Deaneary's shop on Saturday, October 11.

In Sacred Heart church on Monday morning Mrs. Sarah Brennan and Alex. King were united in marriage by Rev. Father Gorman. They left for Montreal on the 7 a.m. train.

MAITLAND

Maitland, Oct. 9.—Mrs. Tungate has returned from the hospital, much improved in health.

The Misses Steacy, of New York, are visiting relatives in this vicinity. Mrs. Frank Dumbriele is not improving as rapidly as her friends would wish.

Donald McKim visited his grandparents, Mr. and Mrs. J. T. McKim, last week.

Will Collier had the misfortune to break his collarbone on Monday.

James Fanney is leaving soon for Cobalt and Allistair MacCallum has taken his place in Mrs. Ross Thompson's store.

Mrs. Bresee is visiting her son, J. P. Barker.

Donald Giffin and son, Jack, spent Sunday in Cardinal.

Jones Falls

Jones Falls, Oct. 6.—Work on the re-building of the bridge is nearing completion and it is again open for traffic.

On Sunday Mr. Curry preached his last sermon for this season to a large attendance. On Thursday evening the Community Club met at S. Simpson's when they presented Mr. Curry with a fountain pen. Over 60 were present which testifies to Mr. Curry's popularity.

Farmers are busy engaged with silo-filling.

Miss Tilly Ruthven has returned to Westport after having visited Miss Mary Glover for some time.

AND BOOTLEGGING?

Hon. H. H. Stevens, of Vancouver, says: "Never in the history of the country was bootlegging comparable in magnitude, in murderous results to what it is to-day."

The Winnipeg Free Press declares Winnipeg has bars keeping open in broad daylight in which beer and whiskey are sold.

The Presbytery of Montreal, in a unanimous resolution declared: Bootlegging flourishes in and from this province as never before.

As a matter of fact a stringent prohibitory law actively and vigorously enforced is the remedy and the only remedy for bootlegging. That remedy the Government of Ontario has pledged itself to apply if the electors vote for the continuance of the Ontario Temperance Act.

FINANCIAL PROSPERITY.

Canada has "found her soul" financially under prohibition and the home market for bonds has been developed because of the increased savings of the people.

No man can spend his money twice. If he spends it for booze he has that much less for boots, or clothes, or groceries, or other things merchants have to sell.

Dollars spent on food, clothing, housing, recreation, give a return in health, comfort and happiness. Dollars spent on liquor are worse than wasted. VOTE DRY.

Plain Sewing and Knitting done. Reference given if desired.

Three Horses, Rubber Tired Buggy, cook stove, also house and lot, Church St. A. H. Mulvena. 41-2t.

Your Account Book and Your Bank Book

If your account book shows a profit, that profit should be recorded in your bank book as entries of deposits or else it is likely to dwindle away.

It is a good plan to use the two books together. Estimate your profits in one and then transfer them to the other where they will grow even greater by the systematic addition of interest. Open a Savings Account with us at our nearest branch.

"A Bank Where Small Accounts Are Welcome"

Leave your Roll Films AT THE Reporter Office

FAST SERVICE EXCELLENT WORK
