NORTHUMBERLAND GOES OVER THE TOP IN VICTORY LOAN CAMPAIGN

Subscriptions Exceed One Million Dollars—Honor Flags and Crowns for Many Districts—Derby the Leader with Seven Crowns.

"Over the Top" and over a million dollars' worth of money to bring victory to the Allied armies, and supply the needs of our comrades in arms with food and clothing, as well as ammunition, etc., for our boys in France and Russia.

With victory crowning the British Flag, Canada's final Victory Loan has met such hearty response that the whole world stands amazed at her wonderful achievement of, after successfully floating four previous loans, endorsing the fifth with almost \$75 for every man, woman and child in the Dominion.

New Brunswick has done well with upwards of sixteen million to its credit, and West Northumberland with almost five hundred and fifty thousand deserves every credit, as also does East Northumberland, whose total is expected to exceed six hundred thousand.

With the exception of Hillsfield, every district in West Northumberland has won an Honor Flag for exceeding their quota, but in addition to these the Parish of Derby has the right to

D. C. M. FOR UPPER BLACKVILLE SOLDIER

Pte. Herman Campbell, One of Three Brothers in Khaki, Wins Honors on Battle Field.

Mr. James Campbell, of Upper Blackville, has received word that his son, Acting Sergeant Charles D. Campbell, of the original "pitt" battalion, who has been reported missing since September 20th, is not killed as the reports stated, and Mr. Campbell still has hopes that his son is alive and a prisoner of war. He also has two other sons with the 97th (Duchiedan) Grenadier Guards—Charles, who is at present with the Lump Line in France, and Herman, who is in a convalescing home in Epsom, England, and he is in receipt of the following letter from him:

My Dearest Dad—Just a few lines to let you know I am still on earth and going O. K. No doubt you have had word that I am wounded again, for the fourth time. Well, it was near R. I. P. but as luck was my way, I got out easy, I got a gunshot wound through the back of my neck. Had it been an inch deeper I would have been killed instantly. But Dad, as you have often told me, an inch, as good as a mile, and it proved that way in this case. By the way, I have not heard from Nat or Charlie since I have been wounded. This last time, but trust they are all right. Well, Dad, the last time I went to France Nat and I went to the machine gun, but when we got to the battalion we were put in the LUMP Line Section and we were sent to the French Mortar for a carrying party for that was my way, you see, Dad, it was just this way. A party consisting of twelve of us and a corporal, we went for ammunition. As Fritz was starting us, we had to take time to rest our corporal. I didn't see anything else to do but I took his place. I said, "Come along, boys," and they followed me, and went over and succeeded in getting the ammunition and came again. One of the boys told the O. C. what I had done. He took me out of the LUMP Line Section and gave me two stripes, also the D. C. M. It seemed but a small thing to do but that's the way with this war. These officers make no much out of so little.

Well, as it is near supper I guess I will have to say good-bye for now. Give my love to all and write soon. I remain, Your ever loving son, HERMAN.

ROGERSVILLE MAN DEEPLY BEREAVED

Mr. Jerome Gallant, Who Was Conservative Candidate for Local House, Loses Four Members of Family.

Mr. Jerome Gallant, of Rogersville, who was a successful candidate for the local house at the last election, has been heavily bereaved by the influenza epidemic, having suffered the loss of his wife and three sons, aged 7, 25 and 13, and is himself just recovering from the effects of that illness. Mr. Gallant also lost a little girl a few years ago rather suddenly, she having died from the effects of eating some pills. His many friends extend to him their heartfelt sympathy in his sad loss.

ENGLAND DEBATES EX-KAISER'S FATE, BUT ISN'T ANXIOUS

London, Nov. 17.—Much speculation exists here regarding the ultimate disposal of the Kaiser and the Crown Prince, though opinion has not yet crystallized into widespread instances on their physical punishment.

More attention is being given to the necessity of forcing the German nation to pay for its sins. It is hoped that the epithet of "vicious" and "unrepentant in their insanity" applied to the armistice terms, remains the German or those they inflicted or planned to inflict on their opponents. It can be officially stated that Versailles is one of the possible if not the most probable places for holding the peace conference, but this question is not yet settled. No expectation exists that the peace conference will start for some time yet, for the preliminaries still to be settled will take a long time.

Meanwhile many conferences are likely at Versailles and London. It is thought the peace conference itself will be of short duration, because a great part of the work will be accomplished in the preliminaries.

According to some views Lord Robert Cecil was optimistic when he said Tuesday in Birmingham: "Sanguine men speak of peace by Christmas, but the far-sighted regard next summer as a far more probable date."

The spread of Bolshevism in Germany and elsewhere at present is not officially regarded with great alarm.

The German complaint concerning the continuance of the blockade strikes the most unreasonable German expectation that they will have free run of the world's supplies while other countries are rationed.

London's peace carnival is still in full swing. The nightly celebrations show no decrease in intensity. Crowds which have been equally large each night, have spread and hung in the now brilliantly lighted streets. Some damage was done to the Nelson monument in Trafalgar Square by a bonfire which, among other things, was thrown a neighboring contractor's hut, a German gun and a motorcycle.

DOAKTOWN HARD HIT BY THE EPIDEMIC

Strikes There with Renewed Energy; Many Deaths Resulting.

Doaktown, Nov. 15.—This community is having a very serious run of the influenza epidemic at present. It seems to have broken out with renewed energy, and several deaths have resulted. Three funerals, deaths resulting from pneumonia, occurred here today. The conditions are as serious now as they have been at any time since the epidemic appeared here. Nurses have been sent for to assist in caring for those down with the disease.

LEMONS WHITEN AND BEAUTIFY THE SKIN

Make this beauty lotion cheaply for your face, neck, arms and hands.

At the cost of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin softener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing white cream, and then adding a strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to smoothen rough, red hands.

INFLUENZA EPIDEMIC IS STILL SERIOUS

The influenza epidemic shows no signs of abating, and is still very serious, there being no less than 471 new cases reported during the past week, with 58 cases complicated with pneumonia, and 27 deaths. Rogersville seems to have the worst hit place, while the upper end of the County is also bad.

The cases were divided by parishes as follows:

Parish	New Cases	Complicated	Deaths
Hillsfield	30	3	3
Blackville west	42	3	3
Ladlow	71	8	3
Blackville East, Derby, Upper Nelson	12	4	1

MANY SOON WILL CHANGE FROM KHAKI TO CIVILIAN ATTIRE

St. John, Nov. 19.—Before Sunday of this week some of the boys living under the strict routine of military life will shed their khaki clothes and be back in civilian attire.

This information emanates from military headquarters. While the number who will thus be the first to enjoy the privileges of demobilization will not be large at first, the squads will gradually increase in size as the days pass.

Every preparation and facility is being afforded for the early disintegration of the Depot Battalion, the 9th Siege Battery and the overseas section of the artillery depot. All draft-giving units in Canada will be the first to demobilize as the others may be required for a while yet.

Harvest leave, upon which many draftees are now out of barracks, has been extended indefinitely. The men will be notified to assemble for formal discharge.

An interesting though not important question has been asked by some of the soldiers, as to the disposition of their uniforms and accoutrements. The information given is, that overseas men will probably be allowed to retain their regimentals as souvenirs, but some of the newly issued draftees may be returned to the government.

ROYAL BANK HAS BRANCH IN SIBERIA

Announcement was made in Montreal last week that D. C. Rea, Toronto, manager of the Royal Bank of Canada, and two other officials will sail from Vancouver within a few days for Vladivostok with a view to establishing a branch of the bank there.

The opportunities for Canadian trade in Eastern Siberia are considered promising and these will be investigated by the Royal Bank officials. If the outlook is considered satisfactory the Royal Bank will proceed with the opening of a branch which should prove a valuable adjunct to the present plans for the extension of Canadian trade abroad.

BELGIANS SHOW FERCE HATRED FOR ACTIVISTS

Free-for-All Fighting in Brussels and Deputation to King.

ROW AT SOLDIERS' BALL

Ceremonies at Ghent Interrupted for Few Minutes by Ugly Flamingand.

(By Philip Gibbs)

With the British Army, November 15.—While the King of the Belgians was making his entry into Ghent on Wednesday rumors came of wild happenings in Brussels, and these, to some extent, were confirmed by a deputation which came from the capital with safe conduct through the enemy lines and with the sympathy, it seems, of German troops, to inform the King that the Brussels people desired a more popular form of constitution for the monarchy. This deputation consisted of members of the Socialist and Catholic parties, and the King conferred with them on the situation.

What happened in Brussels seems to have been exaggerated, and from a reliable source at Ghent I hear that the rioting and demonstrations which occurred there have been due to the revolt of German soldiers against their officers, and not to any revolutionary movement among Belgian civilians. German soldiers threw a discipline to one side as soon as the armistice was signed, and some of the uniforms of officers and sergeants, the motor cars in which they were getting away. They then raised the red flag above the Royal Palace, and paraded through the streets singing the "Marseillaise."

There was also, it seems, a certain amount of free-for-all fighting between patriotic Belgians and Flemish activists, who had followed the German lead, whose sole object was to divide the French and Flemish nations, and to secure Belgium. Many of these "Flamingands," as they called themselves, were purely pro-Germans, and acting as secret agents for the German cause, and playing the bully against their own people. Hatred against them is intense, and many were slain during their retreat when the enemy began his retreat, but some have stayed, hoping to brazen things out. They are uncertain as to what to do, and are recognized when they appear in public places.

15,000 PRISONERS FREED BY GERMANY RETURN TO FRANCE

(By Edwin L. James)

With the American Army, Nov. 15.—Fifteen thousand prisoners of war came through the American lines, northeast of Verdun today. They were mostly French with a few Americans among them. These men, recently captured, have been held in camps near the front. When the Germans withdrew yesterday they left them, and they made their way towards our lines. As they marched into Verdun they presented a bizarre spectacle. Clad in a cold war, without sufficient clothing, they had realized on anything warm at hand. And thus some came in with German overcoats, others with synthetic uniforms, and some wearing women's clothes.

It is stated that the Germans are withdrawing rapidly in the direction of Luxembourg. In their day and a half march toward the American lines the released men had seen very few Germans, and those had not hindered the homeward pilgrimage.

All the erstwhile prisoners showed the effects of being overworked without proper clothes and food.

The Americans are busy preparing for the advance towards Germany which is soon to start. American divisions will follow the withdrawing German armies to the French border, and the proceedings on the German soil, will occupy the assigned zone along the Rhine. Orders have been issued, our zone assigned and under the terms of the armistice the American army of occupation, but it is not yet permitted to give these details.

When the Americans move forward, it will be in full military array with the equipment of all branches, including war planes. The divisions selected have been chosen with due regard for their military achievement since reaching France.

No one of importance hazards a guess as to how long the Allies' armies of occupation will remain on German soil. Thirty days has been tentatively set as the duration of the armistice, but that may be extended. Then it is not yet settled whether the occupation will end with the signing of the peace pact, or if it will be remembered that it did not happen in France in 1917, when the German army of occupation remained until France had paid all the indemnities.

French civilians and German deserters entering the lines say the Germans withdrawing from the front of the First American Army have gone beyond Montmedy, leaving weak rearwards behind. Observers report numbers of explosions and fires as if the Germans were destroying ammunition and other war material. Two hundred French Italian prisoners of war have entered the American lines in the past twenty-four hours, and two hundred German deserters have come into the American lines. The weather has turned very cold.

NEW EVIDENCE PROVES KAISER DELIBERATELY PLANNED THE WAR

Roumanian Statesman Discloses Germany's Role, Took Late Royal Cousin into Conference Regarding Conflict He Would Precipitate.

Paris, Nov. 17.—I had the good fortune to meet the former Roumanian Premier, Take Jonescu, soon after he had received the news of the abdication of the Kaiser. He decided that the moment had come to make an interesting revelation, which adds a new mystery to the circumstances which led to the outbreak of the war in 1914.

"The abdication of the Kaiser, who has already inflicted upon himself his own chastisement for the monstrous war for which he is responsible, reminds me of what a Roumanian statesman said to me in the course of an interview which I had with the late King Carol at Simla, July 9, 1914, and a half march toward the American lines the released men had seen very few Germans, and those had not hindered the homeward pilgrimage.

CHURCHES WERE OPEN SUNDAY MORNING

Slight Relaxation in Berlin Conditions as Churches Were Open Sunday Morning.

The lifting of the ban on church services, etc., by the Prussian Board of Health, was not carried out locally, as it was the opinion of the local Board of Health that the influenza epidemic was still serious, and every precaution is necessary to prevent its spread. The regulations were, however, relaxed to allow services in the Churches on Sunday morning and there were large congregations in church services. With the exception of the Rev. Mr. Wilkinson, who conducted the services in St. Andrew's Church, where his parents now reside.

He is survived by his widow, one daughter and a son serving with the Canadian army in France. His remains will be sent to Canada for burial.

AGREEMENT IN BRITAIN THAT HE CANNOT STAY IN HOLLAND

London, Nov. 19.—The rumors that William Hohenzollern, the former German Emperor, may possibly be returned to Germany, as supported by the Berlin Lokal Anzeiger's hint that he would not be refused an entry to that country, have created a considerable stir here. They are featured by several of the morning newspapers as creating an uncertain situation which is rendered more doubtful by accounts of the activity of German propagandists in several countries.

The fear mainly is that the former Emperor will sooner or later become the centre of a reactionary movement in Germany when the present revolutionary storm has blown over, and the advocates of this view consequently fear his return to his former empire.

In the other hand the fact of the former ruler placing himself or being placed in the hands of the new rulers of Germany would be welcomed in other quarters. These rumors, the Morning Post argues, should be able to execute judgment upon him and its doing so would only be acting as fitting instruments of justice.

There is everywhere, however, agreement in the idea that the former Emperor's presence in Holland is intolerable, and it is insisted that he must somehow be made impotent to do further mischief.

He Cannot Sleep

IT isn't the body that craves rest, but the mind.

When you are bodily tired you can usually fall to sleep at the first opportunity.

But when the nerves are irritated by anxiety and worry rest and sleep seem to be impossible.

The mind seems to be most alert, and you are thinking, thinking—often matters of little or no importance. But you simply cannot sleep.

Sleeplessness is the most common and often the first indication of a breaking down of the nervous system.

The object of sleep is to allow the body to rebuild tissue and the nerves to recover tone. Sleep is the ideal condition for this process.

If you cannot sleep you worry, and worry breaks down nerve cells at a tremendous rate, so that instead of laying up nerve force for the demands of the day you are using up the reserve.

The nerve centres are sometimes likened to storage batteries. If you continue to consume the nervous energy in reserve, without paying back, these centres become sooner or later depleted, and you find yourself a nervous wreck.

After a sleepless night you get up feeling tired and lacking in mental energy. Your day's work seems more than you can face, and you become down-hearted and discouraged.

The future is not bright, for you must realize that the natural result is exhausted nerves, paralysis, locomotor ataxia or some form of helplessness.

In Dr. Chase's Nerve Food is found the most natural and the most rational treatment for the nerves imaginable, because this food cure contains the vital substances which go to the building up of the blood and the depleted nerve cells.

Dr. Chase's Nerve Food does not induce sleep, but it does restore the nervous system, and after you have been using it for a few days you will begin to find yourself resting and sleeping naturally.

A little patience is necessary if your nervous system is greatly exhausted, but you will be encouraged by the benefits obtained to keep up the treatment until the exhausted nerves are fully restored, and you feel the energy and snap which means success and happiness.

REPORTS FROM GERMANY OF MORE HOPEFUL TONE

Copenhagen, Nov. 15.—(By the Associated Press)—All reports reaching here from Germany are of a more hopeful tone. A great impression has been made by the Socialist Government's pronouncement concerning the constituent assembly. The Vorwarts declares that the pronouncement "makes the constituent assembly a certainty."

The Berlin correspondent of the Hamburg Fremdenblatt is encouraged by the events of the last few days. He reports that a large part of the members of the soldier's councils have removed the red hands from their sleeves.

Not all danger for democracy has passed, the correspondent adds, but he says the government can rely on the soldiers who are the "real holders of power."

At a meeting of soldiers the withdrawal of the order for the formation of a civilian red guard was demanded. One socialist speaker who said: "But comrades, you are socialists." "We are soldiers."

The same socialist speaker's declaration that it was a duty to spread the revolution to England and France was loudly disapproved. A resolution was passed that the Berlin soldiers would view the arming of laborers with distrust as long as the Government failed to declare expressly for the summoning of a constituent assembly as the sole basis for the adoption of a constitution.

A good impression has been created by the Government's orders to the soldiers to obey their officers and maintain discipline.

The Prussian Government has announced that Prussia's future will be determined by a constituent assembly and the Wurttemberg Government has made a similar announcement. All the factories in Berlin have resumed operations.

London, Nov. 15.—A despatch to the Exchange Telegraph Company from Berlin saying that three civilian politicians will enter the German Cabinet, Herr Waldstein and Dr. Bernhard Dernburg, former Secretary of State for the colonies to represent the progressive popular party and Herr Erberger, who will represent the Centrists.

The summoning of a constituent assembly has now been prepared for the correspondent says.

Thursday in Berlin was quiet.

TO ARRANGE FOR RAPID RETURN OF AMERICAN TROOPS

New York, Nov. 15.—The Government intends to return to this country rapidly a large part of the American expeditionary forces, Edward N. Hurley, chairman of the United States Shipping Board, announced here to-night on the eve of his departure for Europe to arrange the details of their transportation.

To offset the loss of transport tonnage through the withdrawal of British ships hitherto engaged in carrying American soldiers overseas, Mr. Hurley hopes to utilize 25 or 30 German and American liners with accommodations for 4,000 men each. In compensation for the "loan" of these vessels, he said, food would be sent to the people of Central Europe on their return voyages.

Mr. Hurley said the Shipping Board would be able to bring troops back at the rate of three hundred thousand a month, "if the War Department wants them returned as fast as that." He would meet General Pershing at American Field Headquarters, he added, to discuss the details of their home-coming.

HUNGARY TO BE PROCLAIMED A REPUBLIC TODAY

Berlin, Nov. 15.—A wireless despatch from Budapest says that Count Esterhazy, Count Szechenyi, Count Desffy and Baron Vianates have returned from Eckarissas Castle where they conferred with Emperor Charles. The latter, they declared, has decided to renounce all participation in Austrian and Hungarian affairs.

The Hungarian National Council and the two chambers of parliament, the wireless message adds, will meet to-morrow to proclaim a republic, dissolve the two chambers and elect Count Karolyi, Governor of Hungary. It is also planned to proclaim universal, secret and equal suffrage for both men and women. The message adds that all these resolutions will be come effectively immediately and that to-morrow will be made a holiday, enabling the population to celebrate the event.

SHOCKING CRIMES BY HUN OFFICERS IN CITY OF LILLE

Paris, Nov. 15.—(British Wireless Service)—As a result of investigations made in Lille and the region of the department of the north very precise charges have been made out against German officers guilty of having ordered or of having themselves committed shocking crimes.

In the presence of evidence that has been revealed by a commission of inquiry, the Under-Secretary of State at the Ministry of Justice has ordered that criminal proceedings be instituted at once against the German officers in question. They will be tried by court martial in their absence if the Allies are unable to secure their arrest, but whatever sentence may be passed will remain valid.

CARRYING OUT TERMS OF THE TURKISH ARMISTICE

London, Nov. 15.—A war office statement in regard to the Turkish armistice says that the terms include the evacuation of Mosul Vilayet by all the military forces and the surrender of the artillery supplies. The town of Mosul must be cleared by November 15.

The Turks evacuated the territory of the Caucasus and north Persia and withdrew the Turkish forces behind the pre-war frontiers. In Syria and Cilicia, Turkish withdrawal to the hinterland is being overcome.

Alexandretta was occupied by Anglo-French forces on November 10, the announcement says. In Arabia, delays through difficulty in communicating with Turkish commanders in the hinterland are being overcome.

In the town of Mosul the local civil Turkish administration will be controlled by British political officers.

100 PERSONS KILLED DURING FIGHTING IN BERLIN

London, Nov. 15.—About 100 persons were killed in the fighting in Berlin which marked the overthrow of the Imperial Government, according to a report from Berlin received by Exchange Telegraph Company. The dead were buried in the Friedrichstrasse Churchyard.

BRITISH U-BOATS PLAYED BIG PART DURING THE WAR

Two Battleships, Four Cruisers, Seven Destroyers, Twenty Submarines, Fourteen Transports, 197 Sailing Ships Among Enemy Craft Sent to the Bottom.

London, Nov. 15.—(British Wireless Service)—Details can now be given of the part which British submarines played during the war. This service destroyed the following enemy warships:

Two battleships, two armed cruisers, two light cruisers, seven destroyers, five gun-boats, twenty submarines and five armed auxiliary vessels.

Two zeppelins, three battleships and one light cruiser were torpedoed but reached port badly damaged.

Other enemy craft destroyed were: Fourteen transports, six ammunition ships, two store ships, two store ships, fifty-three steamships and 197 sailing ships.

In no case was a merchant ship sunk at sight. Care was taken to see that the crews of all vessels got safely away.

In addition to carrying out their attacks on enemy war-craft the submarines played an important part in convoy work.

In the third year of the war one of the British submarine commanders carried out twenty-four cruises totalling 22,000 miles which probably constitutes a record for any submarine.

In the first and second years of the war seven British submarine commanders carried out a total of 120 cruises, extending for 150 days, all of which were actually spent in the enemy theatre.

SAMUEL GOMPERS SERVES NOTICE ON LABOR EMPLOYERS

Laredo, Texas, Nov. 15.—Samuel Gompers, President of the American Federation of Labor, in the closing hours of the pan-American Labor conference here to-day, served formal notice that no general reduction of wages or increase in working hours after the war would be accepted without a bitter fight by Organized Labor.

Mr. Gompers issued a statement inspired by a recent public utterance of William H. Barr, president of the National Founders Association that a reduction of wages and longer hours would be the only means to enable American manufacturers to continue to cope with foreign industries after the war.

"Notice is given here and now," Mr. Gompers said, "that the American people will not be forced back by either Barr, his association, or all the Bourbons in the United States."

DEFAULTERS ARE NOT TO ESCAPE PUNISHMENT

Ottawa, Nov. 17.—"Defaulters are to be punished." The Government declared in an official statement issued to their relief but of relaxing the law, so that they may secure for themselves the bare necessities that will give stable government," said Herbert Hoover, Food Administrator, before sailing for Europe to discuss food measures for the relief of starving populations.

In a formal statement on the food problems to be met in Europe, Mr. Hoover laid emphasis on the necessity of lifting the blockade so that the German people can help themselves.

The statement in part follows:

"Our first and deepest concern now must be for the little allies who were under the German yoke, they are the Belgians, Serbians, Rumanians, Greeks, Czechs, Jugoslavs and others. There are some seventy-five million people in these groups and they must be systematically helped and at once. We have already doubled the stream of food flowing toward Belgium."

"Our next concern must be to relax blockade measures as far as possible in order that the neutral states in Europe who are now all on short rations, should be able to take care of their people and prevent the growth of anarchy. This is another group of about 40,000,000. Another problem lies in the 50,000,000 people in North Russia, a large part of whom are inaccessible owing to the break-down of transportation and through sheer anarchy. Millions of these are beyond help this winter. These groups are the ones that must enlist the sympathy of the American people and for whom we are prepared to make any necessary sacrifice.

"There is a great problem in the situation of the enemy people—about 90,000,000. This problem is not one of going to their relief. It is a problem of relaxing the watertight blockade, which continues through the armistice, sufficiently so that they may secure for themselves the bare necessities that will give stable government. Unless anarchy can be put down and stability of Government can be obtained in these enemy states, there will be nobody to make peace with and nobody to pay the bill to France and Belgium for the fearful destruction that has been done. I would certainly approach this problem with mixed feelings, having been long a witness to the robbery of food from

Children Cry for Fletcher's CASTORIA

TIDAL WAVE SWEEP WEST COAST OF NEWFOUNDLAND

Curling, Nfld., Nov. 16.—A south-east hurricane, blowing ninety-five miles an hour and accompanied by a tidal wave, swept the west coast of Newfoundland to-day causing heavy losses. Virtually all the water-side property in this vicinity, including that occupied by the Gorton Pew Fisheries Company of Gloucester, Mass., was swept away. Huge seas swept over channel head, causing a blinding light one hundred feet above the sea level. At Grand Bay the railway tracks were torn away. The damage is estimated at a quarter of a million dollars.

on suffering with that obstinate sore, if you will only use Zan-Buk—the great herbal skin cure. This salve, owing to its unique composition, is the very thing for sores and skin troubles that have resisted ordinary treatments.

Mrs. Herbert Cox, of Port McNicoll, Ontario, writes: "For nine years I suffered with an abscess on my knee, which was both painful and disgusting. I had the abscess lanced repeatedly, but it still remained. I also tried ordinary ointments, but without any permanent benefit. Finally the doctor told me I had a tumor on the bone, and would have to undergo an operation, which I did; but instead of improving, the wound only became worse. I was in despair when a friend got me to try Zan-Buk. I soon noticed a marked improvement. Zan-Buk seemed to get to the very root of the trouble, and in the end the abscess was entirely cured—yet even leaving a scar. This was a great joy, and there has been no return of the trouble."

Zan-Buk is not a mere ointment, but a rich herbal salve. The ingredients are: aloe vera, zinc oxide, salicylic acid, borax, glycerine, and all other ingredients. Price, 25c. All druggists or Zan-Buk Co., Toronto. Send 10c stamp for sample on free trial basis.

THE SAME CELEBRATION.

It is to be congratulated in every manner in which the anniversary of the signing of the armistice was observed here on Tuesday. Every place of business was closed for the day, and there was a marked absence of drunkenness which generally marks such a celebration, and which, according to press reports, was in evidence in almost every other town in the province, and due, no doubt, to the absence of liquor, there was no rowdiness of any kind practiced, and the festivities were greatly enjoyed by all.

BLACKVILLE CELEBRATED ALLIED VICTORY

Torchlight Procession, Huge Bonfires and Speeches on Wednesday Last.

The village of Blackville was entire last week in honor of the defeat of the German troops and the signing of the armistice. There was general rejoicing by the ringing of bells and blowing of whistles, when the news was first received on Monday, while Tuesday services of thanksgiving were held in all the churches, and Wednesday the main celebration was held. A grand torchlight procession was held, followed by a huge bonfire, upwards of thirty feet in height, over which the effigy of the Kaiser was burned, much to the delight of the large crowd that had gathered. This was preceded by a public meeting in the hall, where patriotic speeches were given.

THE AFTER EFFECTS OF DREADED LA GRIPPE

Worse Than the Disease Itself—Victims Left Weak, Nervous and Worn Out.

La Grippe, or Spanish influenza as the epidemic now sweeping over all America, is called, in some of the most dangerous diseases known to mankind. Anyone who has felt its pangs is not likely to forget the trouble. La Grippe, or influenza, starts with a slight cold and ends with a complication of troubles. It lays the victim on his back, it tortures him with fever and chills, headache and backache, it leaves him a prey to pneumonia, bronchitis, consumption and other deadly diseases. Its after effects are often more serious than the disease itself. It is quite possible to avoid la grippe by keeping the blood rich and red by the use of Dr. Williams' Pink Pills—a tonic medicine which enriches the blood and strengthens the nerves. If, however, the disease attacks you, the patient should at once go to bed and call a doctor before complications set in. That is the only safe thing to do. To recover your strength after the severity of the attack has passed, you will find Dr. Williams' Pink Pills an unsurpassed tonic. Through the use of this medicine all the evil after effects of this trouble will be banished. This has been proved in thousands of cases throughout Canada, where in previous seasons la grippe has attacked them. Among the many thus restored to full health is Miss Irene Boston, Portsmouth, Ont., who says: "I take much pleasure in recommending Dr. Williams' Pink Pills, because I have proved their worth in my own case. Last winter I had a severe attack of la grippe and it left me weak and all run down. I had severe pains in the chest and under the arms, palpitation of the heart and attacks of neuralgia which left me with the feeling that life was scarcely worth living. I was advised to try Dr. Williams' Pink Pills and began their use only on the principle that I would try anything that might better my condition. I had only been using the pills a couple of weeks when the pain began to leave me. Gradually my strength returned, my appetite improved, and in a little more than a month I felt all my old vigor back. I am now in the best of health and I was persuaded to try Dr. Williams' Pink Pills, and I shall always have a good word to say for them."

F. D. SWIM AGAIN BEREAVED

The sympathy of many friends is extended to Mr. Frank Swim, ex-M. L. A. and Mrs. Swim, Doaktown, in the death of their eldest son, Earl, which occurred Thursday afternoon from the ravages of pneumonia. For the young widow and child the deepest of sympathy is expressed. Earl, who was 29 years of age, was associated with his father in the lumber business, and was a young man of sterling character and sound business judgment. The funeral took place Friday afternoon from the late home and was under the auspices of the Orange Lodge. It will be recalled that Mr. and Mrs. Frank Swim lost another son, Frank, a few weeks ago, death resulting from typhoid pneumonia. Mr. Swim and his wife are both reported as being very ill with pneumonia at their home in Doaktown.

SAD DEATH AT SUNNY CORNER

Mrs. Albert McTavish Dies After a Short Illness of Influenza.

Sunny Corner, Nov. 10.—Mrs. Ernest Masterson, Nelson, is spending a few weeks with her mother, Mrs. Allan Nowlan.

Miss Mae Johnston, who has been visiting here for the summer, left for Melrose, Mass., last Wednesday. Mrs. Frank McFarlane, of Chatham, spent the week end at the Corner. Congratulations to Mr. and Mrs. George Leach on the arrival of a baby boy.

The anguish of death came to Sunny Corner Thursday morning and carried away Jane, the beloved wife of Mr. Albert Tozer, who had been ailing for some months, seemed bright and cheerful until she took the influenza, the latter which made her weaker and weaker until she finally threw off these earthly cares and went to her God. She leaves behind to miss her loving care the following children: Edith, Harold, Ruby, Will, Mary, Norman and Lawrence, the latter being only about ten months old.

Mrs. Tozer had many friends scattered near and far who will be sorry to hear she was taken so quickly. Deepest sympathy is extended to the sorrowing father and loved ones, who shall not forget her though she sleeps away from home. Interment took place at 2 p. m. Friday in the Presbyterian cemetery, Red Bank.

NEWCASTLE BOY OFF FOR RUSSIA

Gunner Alex. MacDonald, Who Enlisted at Sixteen in Siberian Expedition.

Mr. and Mrs. Lawrence MacDonald have received word from their son, Gunner Alex. MacDonald, who has just been discharged from a hospital in England, where he has been undergoing treatment for gas which he received at the front. In a letter written on October 14th, Gunner MacDonald says that he is leaving the next day for Russia. The letter in part says: "I am going to a country that is some cold and would be glad to have some socks and tobacco sent me, as I understand that it is harder to get things there than in France. Don't worry about me, as I think I can stand the cold better than the mud, and anyway a fellow is not going to die until his time comes, and I have seen through thick and thin and am still on the top side. I often wonder how it is some lads get off so lucky to others. I will have a fine time watching the Subs on the way over Russia will be a new place and the change will be as good as a rest."

WHEN PEACE WAS MADE IN 1871

Interesting Account Taken From the Old Files of the Union Advocate.

In connection with the signing of the armistice by Germany last week the following account of the Peace Terms of 1871—made between Germany and France is most interesting. The account was clipped from a copy of the Union Advocate of March 2nd, 1871.

PEACE

Late telegrams say that the war between France and Germany is now over, and that Thiers, Favre, and the Consultative Commission have accepted the conditions, which are as follows: The cessation of Alsace and the fortress of Metz, and the payment to Germany, as a War indemnity, \$200,000,000. Let us thank God for Peace, and may it be a permanent one. We may read of the terrible devastations occasioned by the late war, but words cannot express all the terrible results. The sacrifice of life has been on an awful scale, and how many thousands of loving hearts are now mourning over the loss of dear ones, who have shed their life's blood for their country. May God grant that we on this Continent may be preserved from the terrible scourge—War—and may the whole of Europe have rest for many years to come, and unwrapped within the folds of the mantle of Peace, enjoy the sweet fruits of continued prosperity.

FRANCE DOES NOT FORGET ALLIES OR ENEMY IN VICTORY

Herve's Eloquent Tribute to England, Ally From the First Hour of Tragedy.

REMEMBER WAR'S HEROES Honor Living Fighters and Keep Dead in Memory—Noblesse Oblige to the Beaten Foe.

Paris, Nov. 17.—In this time of celebration when everybody is so much inclined to live completely in the present, Gustave Herve, the eloquent editor of La Victoire, who is known for his patriotic ardor, always to the point, addressed the Allies, and particularly his own countrymen, with an appeal to remember the debt we all owe the heroes of the war.

"Only the dead will not see again," he says. "Yesterday morning as my windows were being adorned with flags, a pious hand had draped with crepe in honor of two deaths in the family, a woman of the middle class, in mourning, who did not fear what a pious hand had draped with emotion: 'Vive la France.'"

"How fine have been our French women during these four years. Without that we would not have held. Thanks to them, our politics have been so magnificent. It can be acknowledged today that even children as well as adults, it is less difficult, you will say. No doubt, but a people as civilized as ours, that has had to combat flags, that is a great honor for a people of humanity, in whom there is a grain of idealism, has some merit for holding our for years without weakness, without meeting foolish acts."

Continuing, M. Herve, claims full recognition for the services of the President and the right leaders; Millerand for organizing the workshops in 1914; Briand, in Salonica, and lastly, Clemenceau. "Others must be remembered, whom all France halls with enthusiasm despite faults which she unanimously recognizes."

WILL NOT FORGET ALLIES

"France in joy," he adds, "will not forget our Allies, neither in mourning, nor Belgium, whom henceforth we shall always hold in as great affection as our dear peoples east and north; nor England, our great ally of the first hour, without whom we would have been crushed despite the Marne; nor Italy, who came with help in the most difficult hours of the war; nor Portugal, who gave such a noble example to Spain; nor Roumania; nor the great American Republic, by whom our war was made able to enjoy the privileges of a Noblesse Oblige. It is Clemenceau himself who today reminded us, amidst the wild joy of the nation, that we must not forget the soldiers of God, in the words of our fathers, or in those of today, a soldier of the ideals of humanity."

PLAYER LIMIT REDUCED

Recommendation Will be Sent to Major Leagues

Chicago, Nov. 16.—Eighteen players will be sufficient to win a major league pennant next year, if baseball is resumed, and the recommendations agreed on at a meeting of the National Baseball Commission here today are accepted by the American and National Leagues at their annual meetings next month.

President Johnson, of the American League, and August Herrmann, chairman of the commission, were participants in the conference which had to do with some left over commission cases in addition to a discussion of the methods necessary to restore baseball in 1919.

PROUDEST MAN IN NEW BRUNSWICK

Mr. M. Schaffer, the Well Known Blackville Merchant, an Austrian by Birth, but True British Subject.

(Friday's Gleamer)

One of the "happiest" men to visit Fredericton in some months is M. Schaffer, a prominent merchant of Blackville, who was in the city yesterday, an Austrian by birth, forced to leave his country because of oppressions of the people by the autocrats, he came to this country 25 years ago and has since fought his way along to a position of prominence in New Brunswick. The war news of the week has made him happy and that happiness is shown in his eyes as he speaks of the great victory of Allied arms.

For his own countrymen he sees deliverance from the bonds of oppression, light and freedom ahead. He says he is proud of the fact that he is a subject of King George and has been able to enjoy the privileges of a free people. Mr. Schaffer was too far advanced in years to fight against the common enemy, but it is recalled, he hired a man to fight for him and in addition to what the military pays the soldier.

He is full of true patriotism and shown it in his large contributions to patriotic events. He says the happiest moment of his life was at a public demonstration in Blackville, Wednesday night, when he was invited to speak from the same platform with a number of leading speakers of that section. It proved that his loyalty to the cause of freedom was not questioned by his neighbors.

The merchants have got to earn a living, but flour had been hoarded on a very small margin, and they should not substitute be handled likewise. The Town Council now has power to investigate prices if they thought they were excessive. In closing he asked for greater cooperation among the merchants, and Mr. Thomas M. Malby was chosen as the representative to receive the regulations of the Food Board and acquaint the merchants with the same.

Since the above was written the following ruling has been passed by the Food Board: Following the action of the Allied food controllers, all orders and rulings requiring the sale, purchase, use or consumption of substitutes for wheat flour are repealed, from Thursday, whether in the trade or in private homes. The main factor enabling this to be done is the immediate release of

"Try It To-day"

DR. KIERSTEAD ADDRESSES GROCERS.

Urges Sale of Substitutes at Lower Prices—Should Work Together.

Dr. Kierstead, representing the Canada Food Board, paid Newcastle a visit on Wednesday last, and during the afternoon addressed a meeting of the grocers of the town.

Dr. Kierstead said that he did not believe that peace would ease up the food situation, but in the contrary would likely increase the tension as Great Britain had promised assistance to Turkey, Bulgaria, Rumania and Armenia, and would also like to assist the Central Powers in the way of food supplies. He urged the merchants to assist by the sale of substitutes, and asked that they play fair with one another. He knew of instances where a man went into one store and finding he could not obtain flour without substitutes, had gone to another store and by bluffing had been able to secure it.

"It is the honest merchant that stands to lose," said Mr. Kierstead, "but if all lived up to the regulations of the food board, none would be the loser. It was up to the merchants to get behind the law and see that it was enforced. If any person would give the evidence of where the food laws had been violated, he would take the matter to the law and see that the merchant's license was cancelled or suspended."

The fact laws have now been changed so that anyone can get a 25-pound bag of flour, providing they take the substitutes, and any family that can use a barrel in ninety days is entitled to receive a barrel of flour, as is also a family living at least five miles from a licensed dealer.

The merchants have got to earn a living, but flour had been hoarded on a very small margin, and they should not substitute be handled likewise. The Town Council now has power to investigate prices if they thought they were excessive.

In closing he asked for greater cooperation among the merchants, and Mr. Thomas M. Malby was chosen as the representative to receive the regulations of the Food Board and acquaint the merchants with the same.

Allied shipping to make the voyage from Europe to Argentina, India and Australia, where there are accumulated stocks of wheat. Wheat substitutes only are affected by the new order. The same regulations as hitherto will remain in effect. Milling extraction of standard flour.

Always the Same

"Beaver" Flour is as uniform in quality as a minted five dollar gold piece. Its proportions are as accurately fixed, and as scientifically determined. The wheats used in milling "Beaver" Flour are analyzed—and the percentages of gluten, starch etc. are found by chemical tests.

We know—

from years and years of experience—just how much western spring wheat to add to the choicest Ontario winter wheat—to obtain the desired strength.

BEAVER FLOUR

Equally good for Bread and Pastry. Milled of Blended Wheat.

This is why "Beaver" Flour always gives good results—why it requires less shortening—why everything you make with it has a flavour that you cannot get with western spring wheat flours. Try "Beaver" Flour yourself for both Pastry and Bread—you'll find it equally good for either, and best for both. Remember, to insist on having "Beaver" Flour—the original blended wheat flour. GERMANS IN FORCE WITHDRAWING IN FRONT AMERICANS

Headquarters of the American First Army in France, Nov. 15—(By the Associated Press)—The German 23 force will begin Saturday to leave the points they now occupy northwest of the American lines, according to German wireless messages. Opposite the American front there was much wagon and automobile traffic Friday. The Germans apparently hauling out the supplies of war material which are not to be left behind. A few German rear-guard units will remain as patrols and, to pick up any stragglers, should some of the Germans attempt to desert. American observation balloons went up today, the observers endeavoring to get an idea of the extent of the German withdrawal, but most of the traffic was so far back that little of the activity could be seen.

INDELIBLE RECORD OF VICTORY SHINES WITH LLOYD GEORGE

Plain Little Man of People Made up British Mind to Win, Then Victory Certain

TRIBUTE FROM PUBLIC
Downing Street Blocked With Cheering Crowd—Sons and Daughters Won War, Says Premier.

New York, November 15—The Evening Mail says in its leading editorial today: "The hour of unqualified triumph for justice the eyes of the harassed world turn with affection and high regard to a plain little man of the people in Downing Street, London, who applied a homely phrase to great purpose. The phrase has become historic. The fulfilment is a patent fact of today. The man is David Lloyd George, Prime Minister of England. The phrase which seemed historic and which he helped mightily to convert into irrefragable deeds is the 'knockout blow' which he urged upon the minds and consciences of his countrymen and their allies as the only method of dealing with Germany."

The other day, when the German bull had taken the count in the ring of nations, a great mob surged into the dingy confines of Downing Street, the official residence of the Premier, to pay their respects to him. After he had stood silent, smiling and firm-tipped until the first enthusiasm of the crowd had worn itself out, Lloyd George spoke unemotionally of the great victory. He said:

"It was the sons and daughters of the people who have won it. It was Britain's most devoted, silent, and happy accomplished. It was Lloyd George who had the vision, the magnetic personality, the soul of iron and the heart of fire to grapple with the problem without compromise. It was David Lloyd George who brushed the accumulated traditions and obstacles of the past out of the path of victory and rescued the British people as one man to the task of delivering the 'knockout blow'."

A man of granite resolution and a hand of steel, he dared to lay a strong hand upon the sacred ark of Britain's most deep-rooted prejudices and traditions. His one inexorable purpose was the winning of a complete victory. To the heaving of that line, straight and clean and undeviating, he inspired the united spiritual and material resources of a people whose proud and justified boast is that they will stand when they are beaten—once they have made up their mind to win. It was Lloyd George who made up the British mind to win. When the history of this struggle of giant forces is written, the name of David Lloyd George, the plain little man of the people, will stand high in the indelible record of victory.

ABOUT 500 MORE CANADIAN CASUALTIES TIES TO COME

Ottawa, Nov. 15—With the advent of peace it will relieve the suspense of many people in Canada to know that the casualty list, of ten weeks behind, are tapering off to the end. There are numerous tragic cases where, since the celebration of peace, news has come of men previously killed in action. We are not exactly certain, but our advice indicate that about five hundred more are to be added," said the acting director.

GERMAN OFFICERS KILLED IN DISORDERS IN BRUSSELS

London, Nov. 14—More than one hundred men, mostly German officers, have been killed in disorders in Brussels, and soldiers' councils have been found in that city and at Antwerp, according to an Amsterdam despatch to the Exchange Telegraph Company, quoting the Telegraph. The new soldiers' council in Brussels has published a number of proclamations urging for the orderly evacuation of German troops, appealing to the soldiers not to ill-treat their officers, and sending a brotherly greeting to the Belgian population.

CROWN PRINCE SAFE IN HOLLAND IT IS REPORTED

Took Circuitous Route to Avoid His Beloved Troops—Was Disarmed by the Dutch.

Amsterdam, Nov. 14—Crown Prince Frederick William, of Germany, arrival at Maastricht on Tuesday from Spa, having taken a circuitous route, to avoid military troops. The party, which travelled in three motor cars, was held up by frontier guards because all its members were armed. Internement was ordered, but when it became known that one of the party was the Crown Prince, all were disarmed and detained until the arrival of the Dutch commander to the latter's home, where he remained, with his suite, under guard, pending instructions from The Hague. The Crown Prince accompanied the eldest son to a place of safety. According to the Tagesspiegel, Berlin, Amsterdam, Nov. 14—Officers of the German air service have taken the Crown Prince and his commander at Maastricht, and other officials.

CONFERENCE OF PROVINCIAL PREMIERS AT OTTAWA

St. John, N. B., Nov. 15—Hon. W. E. Foster, Premier; John F. Tweeddale, Minister of Agriculture, and Hon. C. W. Robinson, President of the Executive Council, left tonight for Ottawa to attend a Premier's conference called by Hon. Mr. Borden. In reference to the western demands for control of their lands and natural resources, New Brunswick's representatives will offer no objection but will ask to be compensated at partners in the Dominion. Their requests will include the taking over of the Valley Railway by the Dominion. An Ottawa despatch of recent date says:

"For years the western provinces have been demanding control of their natural resources—lands, minerals and the like. These are all likely to be accorded to them in the forthcoming conference. The provinces would attend to the settlement of soldiers on the land, the Federal Government assisting by way of money grants. "In connection with the administration of the lands department, and dealing with soldier problems, there are renewed rumors of shifting in Cabinet portfolios. A story current on Parliament Hill is that the Department of Immigration and Colonization may be merged with the Interior Department, both to be headed by Hon. J. A. Calder, while Hon. Arthur Meighen would go to the Railway Department vice Hon. Dr. Reid. On Tuesday there will be a meeting of the representatives of the provincial governments. Besides the premier, Hon. C. W. Robinson, of Meighen and Hon. J. F. Tweeddale, Minister of Agriculture, will be in attendance. The former left for Ottawa on Thursday and the latter will leave on Saturday night. Hon. F. B. Carvell will preside at the conference."

CANADIAN FIRST IN CONSTANTINOPLE

Turks Gave Allied Airmen Warm Welcome—All Germans Have Fled.

Mudros, Island of Lemnos, Aegean Sea (undated)—(By the A.P.)—Nine British airplanes landed at Galata, a suburb of Constantinople, two days after the signing of the Turkish armistice (October 31). The first Allied officer to reach European Turkish soil was Flight Commander Henry Wisner, a Canadian and a graduate of Yale in 1912. The Turks gave the airmen an enthusiastic reception, declaring they were thankful that Turkey had been cleared of Germans, who had fled to the Rumanian and Russian ports in the Black Sea. The Turks said they were eagerly awaiting the arrival of the Allied fleet, which had been concentrated at Mudros. An Allied army and navy entry probably will be made simultaneously at the Dardanelles. No military occupation of Constantinople at present is probable, unless disorder demands that such a course be taken. A commission composed of British naval and military officers is now inspecting the forts of the Dardanelles, under escort of a son of Tewfik Pasha, the Grand Vizier, with a view to occupation. French and British torpedo boats entered the Dardanelles on November 3, according to a despatch from Paris on November 11.

Wisner a Prescott Man. Ottawa, Nov. 13—Flight Commander Henry Wisner, mentioned in the Mudros dispatch, is a son of Mr. Isaac Wisner, of Prescott, Ont. Mr. Wisner was informed this afternoon by an Ottawa paper of his son's flight. "Sure, that's our boy," he said, when the name was mentioned. "But this isn't his first trip to Constantinople. He was there before with bombs. He enlisted in Ottawa with the Naval Air Forces. I'm glad to hear news like that. Thank you."
