

Racing Events.
 Half mile dash—Commer, J. Owens, 1; Buckingham, D. M. Barber, 2; Stewart Young, D. Shearer, 3. Time, 54 sec.

Quarter mile open heats—Buckingham, R. M. Barber, 1; Stewart Young, D. Shearer, 2; Dandy, C. Griffin, 3; Midgel, R. Fort, 3.

Boys pony race—In this race Dandy, C. Griffin, took first place, but was disqualified owing to being over height. First prize was given to Peacock, A. B. Chapman. The judges reserved decision for second place until today, between Babe, F. Higgins, and Dickie W. Thompson.

Three quarter mile dash—Buckingham, R. M. Barber, 1; Stewart Young, D. Shearer, 2; Rattlesnake, D. Shearer, 3.

The Officials.
 The officials of the day were as follows:
 Committee—V. T. Richards, A. McLean, F. C. Jamieson.
 Judges—Chas. May, J. L. Porte, Geo. Manuel, J. W. Blair.
 Athletic Committee—J. W. Blair, R. H. Palmer, C. Lucas.
 Starter—Rev. Root, Pearson. Edmond T. Barnes, secretary.

The day's festivities were brought to an end by a very enjoyable band concert given last night in the C.P.B. garage.

LETHBRIDGE ATHLETIC MEET.
 400 Yards—1, F. S. Parsey, 2, S. McLean, 3, Merritt and J. W. Morris, 4, E. C. Williams.
 100 Yards Dash—1, Taylor, 2, Hood, 3, Willie.
 Running race, girls, over 15 years—1, Marion Sherman, 2, Mabel and T. Miller, 3, Addie Brox, 4, Gable House.
 Half mile pony race—First heat, 1, Moran; 2, Addie Brox; 2, Addie Brox; 3, Gable House.
 Free-for-all, half mile—First heat, 1, Addie Brox; 2, Moran; 2, Addie Brox; 2, Moran.
 Half mile run—1, Priestly; 2, Hayes; 2, Fergusson.
 100 yards dash—1, Taylor; 2, Hood; 3, Willie.
 Running race, girls, over 15 years—1, Marion Sherman, 2, Mabel and T. Miller, 3, Addie Brox, 4, Gable House.
 Three-legged race—1, Loggie broth, 2, Fergusson and Sherman, 3, 100 yards, boys under 15—1, Hogan; 2, Parth.

WAINWRIGHT SPORTS.
 Baseball Tournament Provides Exciting Finish.
 Wainwright, July 1.—Following a morning of cloud and rain, the sun broke through this afternoon and the annual sports held here were favored by perfect weather. The rain of the morning put the grounds in splendid condition, and the sports were a huge success. Over 2,000 people were on the grounds. The most exciting event was the baseball tournament for the Dawson challenge. The final game was between Wainwright and a score of 15 to 15.
 The results of the other events were as follows:
 Horse race, free-for-all—1, T. L. Thorson, 2, Henry Myers, 3, T. Sheridan.
 Pony race—1, Wilda, 2, Henry Myers, 3, Miss Denoucer, 4, Martin.
 Best lady rider—1, Bessie Steele.
 Cowboy race—1, Henry Myers, 2, Dumont.
 One mile open flat race—1, Bert Fox, 2, Erickson.
 Boys' race under 16—1, Fred Pawling, 2, Plaxton.
 Boys' under 12—1, Blevins, 2, Gerrie, 3, C. Carol, 4, Toll.
 Girls' race under 14—1, L. Maybe, 2, Ira Steele.
 Girls' race under 12—1, Mary Almas, 2, Amy Springer.
 220 yards dash, open—1, Corbett, 2, Erickson.
 Best four horses outfit—1, Archie McClellan, 2, Lee Wells.
 The bucking contest could not be brought to a finish, as the bronchos dashed through the crowd.
 Five mile race—1, Newport, 2, Sam Lewis. The finish was watched by a large crowd.

CELEBRATION AT STETTLER.
 Nearly Three Thousand Spectators Witness Sports at Stettler.
 Stettler, July 1.—Stettler's celebrations were a distinct success. Nearly three thousand spectators were present on the race track, the weather being perfect.
 Upwards of one thousand dollars were offered for horse racing, all the local cracks being present. Seventy-five dollars were given for the baseball tournament, Gadsby, Alk and Bothe teams competing. The Stettler band gave selections during the day and will play for dancing to-night.
 At ten o'clock the celebration was brought to a close with a Roman candle parade. There was never such a display of flags and bunting in some instances the decorations being most elaborate.
 Tomorrow, one hundred and twenty-five dollars will be given for a bucking contest.
 Engine Crashed Through Trestle.
 Toronto, June 28.—Wharfedale freeman of New Toronto, was scalded to death, W. K. Campbell, engineer, Jas. Howitt, 109 Malver avenue, yard master, had an arm and leg broken as the result of the collapse of a trestle bridge in the Grand Trunk yards in East Toronto, when an engine and two loaded cars crashed through the bridge to the ground, thirty feet below.

THE FARMER'S MARKET.
 Edmonton, Saturday, June 18.—Hay is still very plentiful on the market but the demand is good. Two loads of sheaf oats were sold at \$7 per ton the latter part of the week. Butter and eggs are steady. There is no change in the price of live stock. No potatoes were offered on the market this morning.

Grain and Feed.
 New oats 26 cents to 30 cents per bushel; oats at elevator 24 cents to 28 cents per bushel; feed wheat 60 cents to 6 cents per bushel; timothy hay \$14 per ton; upland hay \$10 to \$12 per ton; slough hay \$8 per ton; sheaf oats \$7 per ton.

Dairy Products.
 Dairy butter 25 cents per lb.; eggs 25 cents per dozen.

Live Stock.
 Choice hogs, 150 to 250 lbs., 9 1/2 cents rough and heavies, 7 1/2 to 8 1/2 cents; good fat steers, 1,200 lbs., 6 to 8 1/2 cents; good fat cows, 1,000 lbs., 4 to 4 1/2 cents; good fat steers, 1,000 to 1,200 lbs., 4 to 5 cents; extra good fat heifers, 1,000 lbs., 4 1/2 to 5 cents; medium quality fat cows, 900 to 1,000 lbs., 4 to 4 1/2 cents; medium quality fat cows, 900 lbs. and up, 3 1/2 to 4 1/2 cents; extra good calves, 120 to 200 lbs., 5 to 6 cents; good calves, 200 to 300 lbs., 4 to 5 cents; choice killing lambs, 6 1/2 to 7 cents; choice killing sheep, 5 1/2 to 6 cents.

Potatoes 90 cents per bushel.

ONE YEAR OF HOG RAISING.
 V. K. Sorenson, of Markerville, Alta., contributes an interesting article to the "One Year of Hog Raising in Alberta." It is as follows:
 I went into my hog business eight acres of land bordering upon the Medicine River. The slope towards the river is covered with brush, and the rest of the land is partly in native grass and partly in corn. I have a feed room with tanks for storing water and buttermilk. The feed room is surrounded on three sides by feeding yards fenced in and they are arranged so that hogs of nearly the same size are fed together. Outside of the regular feed yards I have other buildings used principally for brood sows whenever I find it advisable to separate them from the rest, while those as well as the regular stock are available for quarters, the sows seem to prefer farrowing in the bushes in summer.
 My bunch of hogs is of the Yorkshire breed, bred from registered stock and consisted in February, 1909, of 11 boars, 13 sows and 27 young hogs for fattening. In the year the pigs averaged 100 lbs. live weight, totaling 133 pigs of splendid vitality fattened as follows: 8 litters in March, 5 in May and 4 in August. 1 litter of 10 half-grown hogs was sent away at Calgary. Deceased, who was widely known, has been suffering for some time and had just arranged to go to the coast for his health.
 Mayor S. J. Curry has returned from his trip to British Columbia, and presided at the council meeting where \$10,000 was voted for the purchase of the site of a by-law appointing L. C. Harry as secretary-treasurer.
 The sender of the news to your issue, Miss G. West, had not had a severe shock by lightning must be in error as Miss G. West, greatly to the regret of her friends, has been around the town all right and in good health.
 A novelty in a travelling cart purveying meat, etc., around the town and adjacent districts has been in vogue the last week.
 The Dominion day celebration here has been the small pig feeding contest, which with the Scotch pipers, the infantry band, military drills, baseball, football and fireworks in the evening. Innisfail and Didsbury drew their games at Didsbury, 1-1, and go to Red Deer to play that town on Tuesday next.
 Rev. T. Phelps, of the Methodist church, leaves here this week for Wainwright, being chosen by the conference as chairman of that district.
 Innisfail and Didsbury drew their games at Didsbury, 1-1, and go to Red Deer to play that town on Tuesday next.
 Rev. T. Phelps, of the Methodist church, leaves here this week for Wainwright, being chosen by the conference as chairman of that district.
 Innisfail and Didsbury drew their games at Didsbury, 1-1, and go to Red Deer to play that town on Tuesday next.

INISFAIL.
 Bulletin News Service.
 On Thursday evening Thompson Auld, residing about eight miles from Innisfail, was shot and killed by a stray bullet from a gun which was fired from a house near the town. The bullet entered his chest and he died almost immediately.
 Mayor S. J. Curry has returned from his trip to British Columbia, and presided at the council meeting where \$10,000 was voted for the purchase of the site of a by-law appointing L. C. Harry as secretary-treasurer.
 The sender of the news to your issue, Miss G. West, had not had a severe shock by lightning must be in error as Miss G. West, greatly to the regret of her friends, has been around the town all right and in good health.

BRUCE.
 A. B. Croxson has arrived from Iowa with a car of settler's effects, amongst which was several hundred bushels of corn. He has purchased the G. Johnson farm.
 W. Casebeer has purchased the barber shop and pool-room of J. McIntyre, who has gone to Edmonton.
 On Saturday last the Holden ball team played a match with the local boys, which resulted in a win for Bruce. The score was: Holden 1, Bruce 21.
 Mr. Harverson gave a dance and supper last Friday night, which was much enjoyed by all present.
 A. A. Howard left Bruce last Monday for Edmonton. All are sorry to part with him.
 Bruce, June 30.
HEAT EXPLODES DYNAMITE.
 Two Foreigners Killed, One Blown 100 Yards Away.
 Port Arthur, June 30.—Two foreigners, by the names of Craison and Ouisson, while working on the Transcontinental above Neppigon, were blown to atoms by an explosion of dynamite, which was suddenly a terrific explosion and the men were blown to atoms. Ouisson was blown over 100 yards in the air. He was well known in Neppigon. His name was Craison. The dynamite came to explode while the men were working near where the explosion occurred. The dynamite was suddenly a terrific explosion and the men were blown to atoms. Ouisson was blown over 100 yards in the air. He was well known in Neppigon. His name was Craison. The dynamite came to explode while the men were working near where the explosion occurred.

THEY ARE STILL CONFERRING.
 G.P.R. and Men Expect to Reach Working Agreement.
 Montreal, July 1.—Another conference was held this morning between the leaders of the Tradesmen and Conductors and the officials of the C.P.E., without any definite result being arrived at. Although the leaders on both sides exhibited considerable reluctance, they seemed to hope for a friendly settlement, this being well satisfied with the progress of affairs and a general impression was apparent that within a few days a working agreement might be arrived at which would end the present tension.
 For the men the broad issues have been dropped and the discussion is being waged along the line of working conditions which are closely related to them. It was intimated this evening by members of the men's committee that if the rest will be easily settled.
 All that the leaders would say was that the discussion was going on in a most friendly manner, and would be concluded for several days while the men hoped for a friendly settlement, this, however, depending very largely upon the attitude adopted by the company as the heat still abates their demand for the standard territory wage schedule, Miss F. M. Deller.

WITH THE FARMERS

THE FARMER'S MARKET.
 Edmonton, Saturday, June 18.—Hay is still very plentiful on the market but the demand is good. Two loads of sheaf oats were sold at \$7 per ton the latter part of the week. Butter and eggs are steady. There is no change in the price of live stock. No potatoes were offered on the market this morning.

Grain and Feed.

ASQUITH HAS MADE HIT.
 British Papers Unanimous in Commendation of His Declaration Bill.
 London, July 1.—Commenting on Asquith's measure dealing with the King's declaration, the Daily Mail says: "Asquith could not have chosen a more favorable moment for the bill. Sensible men of all parties will welcome the new declaration."
 The Chronicle says: "The bill seems likely to be so far non-controversial in that the opposition, as such, will be against it. The government's policy is logical and meets a real grievance fully, therefore it contains a promise of finality."
 The Daily Graphic congratulates the government on its courage in attempting to go to the very heart of the subject. The comparatively small minority voting against the bill gives an inaccurate expression of opinion, but it is to be hoped that the opposition will be concentrated not on the principle of the bill, but on the wording.
 The Daily News says: "The new declaration is preferable to the older formula."
 The Leader says there is no guarantee in the old form of the declaration with all its offensiveness to Catholics, which is not to be found in the new.
 The Daily Telegraph says the proceedings in the Commons can only be regarded as the happy prelude to King George's reign and of emphatic service to the moral unity of the empire.
 The Morning Post says no doubt exists that the bill will pass substantially in its present form, and it is desirable that its passage should be marked by as little wrangling as possible.
 The Times anticipates more extensive opposition on the second reading, but it is surrounded on all sides with other safeguards, the declaration must surely be felt to afford every security the formula can give.

SIBERIA AS CANADA'S GREATEST COMPETITOR

Rev. David Arnott in Address in the St. Andrew's Presbyterian Church Declares Russian Province Has Expansive Stretches of Fertile Prairie Like Western Canada.

"You people in Canada will need to look out when the province of Siberia wakes up," said the Rev. David Arnott in a lecture delivered in the First Presbyterian Church Wednesday evening, in which he gave account of his recent journey across the plains of his recent journey across the plains of Siberia to Manchuria, and the work of the Presbyterian missions in that country.
 "Most of us," he said, "have been accustomed to think of Siberia as a great waste wilderness for exiles. That was our impression once of the Northwest, but it has changed. We will need also to change our impression regarding Siberia."
 "Day after day on that journey I travelled across rich prairie land similar to that of the Canadian West, lying ready for the plow. The climate is similar to that of Western Canada, and I believe the country has a future of like greatness."
 "Manchuria is another Alberta, vast in extent and rich in undeveloped resources. It is one of the thirteen provinces of China, but lies outside the great wall, and is named by them 'East of the Barrier.'"
 "It was from Manchuria that, in the seventeenth century, the conquerors of the Manchus, swept down upon the decadent Chinese empire. For the last three hundred years the Manchus have reigned over China from the south of the great wall, and the small feet of the female, are the signs of bondage imposed upon them by this race.
 "Today, however, the Manchus are practically played out. The Chinese have absorbed their conquerors. The question which is agitating the mind of the people is, 'How long will the Manchus dynasty be able to stand?'
 "Today there has set in upon the rich land of Manchuria a strong tide of immigration from the overcrowded provinces of southern China."
 "Most Progressive Province."
 "You know that that must mean for the history of that province and for the character of its people. Those who have had the courage to shake themselves free from the traditions and habits of thought prevailing in the south, Manchuria is therefore probably the most progressive and liberal-minded part of China."
 "The Morning Post says no doubt exists that the bill will pass substantially in its present form, and it is desirable that its passage should be marked by as little wrangling as possible.
 The Times anticipates more extensive opposition on the second reading, but it is surrounded on all sides with other safeguards, the declaration must surely be felt to afford every security the formula can give.

MONDAY, JULY 4, 1910.

PUNISHING THE WAYWARD.

The closing days of the contest in Vermilion were somewhat enlivened by threats from the opposition speakers as to what would happen to the constituency if Mr. Sifton were chosen representative in the event of the election.

THE BYE-ELECTIONS.

The return of the Premier in Vermilion was expected by probably all who were familiar with the situation there those Conservatives whose judgment was unshaken by a too fond hope, and by those—any there were—who expectancies were founded on the fantastic prophecies daily tendered them through the local conservative press.

SPORTING TURN TO SITUATION.

Fruithomme Wants to Bet \$500 That Chevrois is True. Winnipeg, June 27.—The political situation has been given a sporting turn by the offer of J. E. Fruithomme to donate to St. Beniface Hospital, if he cannot fully substantiate his charge regarding Chevrois.

LEFT A VILLAGE AND RETURNS TO BIG CITY

Rev. David Arnott, Presbyterian Missionary in Manchuria, Revisits Edmonton After an Absence of Seventeen Years—His First Week in First Church on Wednesday.

On his return to Scotland from Manchuria, Rev. David Arnott, M.A., minister of the United Presbyterian Church of Blairgowrie, Perthshire, is paying a few days' visit to Edmonton, where he had charge of a mission station seventeen years ago.

NEGRO COMMITTED ON MURDER CHARGE

Chill Passes Over Court as Prisoner—Sobs Audibly and Greatly Affected by Proceedings and Sits With Bowed Head as Evidence of Witnesses is Being Heard.

Saskatoon, June 28.—That Charles Davis did murder Heien Davis, his wife, on the night of June 24, was the charge read this morning in the police court to the accused colored man.

BOMB HURLED FROM THEATRE GALLERY

Twenty Persons Injured, Six of Them Fatally Injured—The Orchestra Plays the National Anthem and Averts a Terrible Panic Among the Audience.

Buenos Ayres, June 28.—Twenty persons were injured, six of them mortally, by the explosion of a bomb hurled from the gallery in the Theatre Colon during a performance last night.

RELIGIOUS NOTES IN SPAIN.

Several Men Are Killed and Others Wound. Madrid, June 27.—Fatal riots are reported today from different parts of Spain as the result of the religious agitation.

A MILLION DOLLAR FIRE.

Blaze in Paterson, N.J., Gets Beyond Control. Paterson, N.J., June 28.—A fire which started in Paterson, N.J., last night, at 11:30 o'clock, had done more than a million dollars' worth of damage at a late hour this morning and is still burning.

NEW ZEALAND AFTER TRUSTS.

Premier Ward's Strong References to Trusts. Wellington, N.Z., June 28.—Premier Ward in forecasting the government's anti-trust legislation today said that there was clear evidence at hand that a powerful American company was exercising a dominating and restrictive influence in New Zealand.

SUFFRAGETTES ACTIVE.

Crusade as Result of Refusal of Asquith to Push Equal Suffrage Bill. London, June 28.—After months of comparative inactivity the militant suffragettes are stirring to life again.

CRUSADE AGAINST SPEECH.

Britain Takes Objection to Utterances of American Minister. Montevideo, Uruguay, June 28.—The British minister here has been instructed to protest against the utterances of the American minister, Mr. Morgan, who, in replying to a speech of the rector of the university, is reported to have said: "Little countries like Uruguay are able to obtain independence because they had ministers. Canada and Australia lack such men, and therefore, have not become independent and probably never will."

ARREST OF BARON STERNBERG.

St. Petersburg, June 28.—The arrest of Baron Sternberg, who is charged with delivering secret documents to a foreign state, is said to have a connection with the recent arrest of Mons. Mastovsky, librarian of the academy.

Viking, the Town of the Fertile Birch Lake District

Magnificent Country of Which This Live Town is the Centre Has Established Envious Reputation As Splendidly Adapted For Mixed Farming

The town of Viking was given its name by descendants of the Norsemen who ruled the seas in the days of long ago. The Norwegians settled in the southern extremity of the Birch Lake district preferred this name, freight with cherished associations, to the appellation, Meighen, chosen by the railway company for its townsite.

Viking existed before the advent of the steel, several miles to the north of the present location of the town which now bears the name. A short distance to the south of the grade was a settlement known as Harland. The two places became one in Meighen, moving from their old location. For a time the post office of the town was known as Viking and the station as Meighen. Confusion arose. On a petition to the railway company the name of the station was changed to Viking. Thus the name of Viking was victorious over all, to the satisfaction of the many Norwegian families settled in the vicinity and the end of a confusion of names.

A strong name is Viking, full of northern vigor, and the town which bears the name does not belie the

half miles north-east of Viking, 5,622 bushels of oats were threshed last fall, an average of 42 bushels to the acre. The field was that of Nels Hagerman. On a field of 70 acres on the farm of T. T. Bury, 3,255 bushels of oats were threshed, an average yield of 53 bushels to the acre. A fifty acre field of wheat on the farm of Leonard Newby, seven miles northeast of Viking, yielded a thousand bushels of grain. Sixty acres of oats yielded 2,400 bushels. On the farm of Ed. Reihus, ten miles north-east of the town, 85 acres yielded 1,450 bushels of wheat. A good deal of fall wheat has been sown in the Viking district and has been a great success, now being headed out in some places.

It fell to a Viking farmer to capture the Lieut-Governor's prize at the annual Provincial Seed Fair in Edmonton this year, with an exhibit of Banner Oats. E. C. Swift, who lives four miles north of Viking, was the exhibitor who won the prize for the best seed oats.

Mixed Farming Country. Almost every settler in the Viking district is engaged in breaking at pre-

vious seasons, a truck warehouse, 2 coal sheds, 2 blacksmith shops, 2 dairies, 2 auctioneers. The town, surveyed about two years ago, sold rapidly when put on the market. The total value of lots sold to date is estimated at \$25,000. The price of lots on Main Street (25 x 130), ranges from \$125 to \$500. Residential lots (25 x 50), cost from \$75 to \$300.

A branch of the Merchants Bank was established at Viking last fall. The bank has been agreeably surprised at the amount of business to do here," said N. L. Standish, the manager, to a representative of the Bulletin. "We did not anticipate the amount of business we have had to do and will have to increase our staff shortly."

As an indication of the general prosperity of settlers of the Viking district it is worth noting that the machine agents of the town did a larger business than that done at any other point of the C.P.R. between Edmonton and Wainwright.

God Hotel Accommodation. The King Edward Hotel, Viking, has a reputation far and wide among

trading machine. The farmers who supply the cream take great interest in the test, wishing to know how their cream is graded. The churn has a capacity of 600 gallons of cream or 2,000 pounds of butter at a single churning. In good weeks the output of the creamery will run from 2,500 to 3,000 pounds of butter.

The butter is all worked and finished in the churn and when taken out the cream is graded. The churn has a capacity of 600 gallons of cream or 2,000 pounds of butter at a single churning. In good weeks the output of the creamery will run from 2,500 to 3,000 pounds of butter.

Mr. Fisher went out prepared to find considerable damage, as a result of the long period of dry weather that prevailed. The district residing near of Edmonton district soil is such, however, that plant life has been able to draw on the reserve moisture in the ground, to such extent that a stranger or anyone not fully familiar with normal conditions, would dry no suspicion that there had been a most unusual period of dry weather.

Pasturage Rich. On every hand the pasturage is rich and abundant and all cattle seen were in splendid condition. Many very fine fields of winter wheat were seen. Timothy and clover are present, somewhat short, but in good healthy condition, and with the rain, which has fallen during the last two days, these crops will sprout up and furnish the usual heavy yield.

Spring crops are somewhat short, but a single field was passed which did not appear to be in any way deficient and satisfactory condition. The plants are strong and of a good rich, green color. The wheat, without the recent rains, a good average crop is assured. With the rain we are now receiving, a big crop may be looked for.

In many fields examined, tests were made for moisture and in every case, though the actual surface was dry as gun powder, moisture was found quite close to the surface. This season will surely demonstrate the value of Central Alberta as a safe country under any conditions.

Mr. Fisher states that the common impression that the fact that there is no rain in certain other portions of the west are badly burned out and suffering severely from drought, is due to an exaggerated report received here, is hardly correct. The difference is not so much in the rainfall as in the different soil conditions. Over the country under any conditions, soil, he says, our land has a lot of moisture in reserve, which comes up from beneath and enables vegetation to maintain its vigor. The soil, he says, is a very rich soil, and has a lot of moisture in reserve, which comes up from beneath and enables vegetation to maintain its vigor.

On field visited by Mr. Fisher, was a fine field of winter wheat, which has been in splendid condition. The plants are strong and of a good rich, green color. The wheat, without the recent rains, a good average crop is assured. With the rain we are now receiving, a big crop may be looked for.

EDMONTON DISTRICT CROPS IN FINE SHAPE

Secretary Fisher of Board of Trade Returns from Extended Trip Through Country—Reserve Moisture Has Greatly Benefitted the Crops.

With a view to obtaining first-hand information as to the actual crop conditions in the various portions of the Edmonton Board of Trade, took an extended drive through the district during the past week, from which he has just returned.

Mr. Fisher went out prepared to find considerable damage, as a result of the long period of dry weather that prevailed. The district residing near of Edmonton district soil is such, however, that plant life has been able to draw on the reserve moisture in the ground, to such extent that a stranger or anyone not fully familiar with normal conditions, would dry no suspicion that there had been a most unusual period of dry weather.

Pasturage Rich. On every hand the pasturage is rich and abundant and all cattle seen were in splendid condition. Many very fine fields of winter wheat were seen. Timothy and clover are present, somewhat short, but in good healthy condition, and with the rain, which has fallen during the last two days, these crops will sprout up and furnish the usual heavy yield.

Spring crops are somewhat short, but a single field was passed which did not appear to be in any way deficient and satisfactory condition. The plants are strong and of a good rich, green color. ASHORE IN ST. LAWRENCE

The Aoti Ran Arrived at St. Martin River, 25 Miles Below Quebec.

Montreal, June 29.—Another vessel went ashore this evening on the lower St. Lawrence river, when the Aoti, of the new Canadian-New Zealand line, an aground at Martin river, 25 miles below Quebec. It was the first voyage of the Aoti to Montreal, this being the opening season of the new line.

It is known of the extent of the accident, which was simply reported by means of the signalling stations, but the spot where the Aoti is aground is very exposed, and if the sea is hard ashore bad weather may mean considerable damage. Efforts are being made to intercept the wrecking tug, Lord Strathcona, which is now towing the Prinz Oskar, which was recently pulled off the rocks of the gulf, up to Quebec, in order to send her back to the rescue of the Aoti.

C.P.R. CROP REPORT IS FAVORABLE FOR NORTH

To South Rain is Badly Needed and Outlook Rather Discouraging—Prospects Could Not Be Better in Strathcona—Chalmers and Penhold Are Rejoicing.

Calgary, June 29.—According to the C.P.R. weekly crop report the condition of crops are good north of the province, but south of this district it averages only fair, and is said to be poor in the Macleod and the Lehigh districts, and excellent at Pincher and on the A. I. and R. line. There has been sufficient rain in the northern part of Alberta to bring the crop up to as good a condition as could be expected at this time of the year, though in the southern portion of the province the report from a number of places is that it is not dry and more rain is needed.

The following is the report from points on the C. & E. line: At Aldred—Crops conditions are fair. It has been mostly clear and warm, with five hours' medium rainfall.

At Carstairs the condition of the crops has been fine, with about four hours' heavy rain. There was no damage from any cause.

At Didsbury the weather has been warm, with sufficient moisture for the present.

At Bowden—Nine hours' medium rainfall during the week. All grain looking fine.

At Penhold—Three hours' heavy and two hours' medium rain. A slight frost, but no damage. Condition of crops, warm and crops fine.

At Lacombe—Ten hours' medium rain. Prospects good; no damage.

At Millet—Six hours' rain during past week. Prospects fine.

At Strathcona—Ten hours' rain during past week. Crops excellent; could not be better.

On the Wetaskiwin branch the conditions of crops are good. There was from ten to twelve hours' rain during the week, seven hours' rain at Bowden, ten at Strathcona, twelve at Sedgewick, and thirty-six at Hardisty. Crops are growing fine.

From the Lacombe branch the report is to the effect that crops are looking excellent.

From points of the Macleod branch the following report: At Okotoks—Fine, and warm; more rain needed.

At High River—Farmers claim that if it rains within the next few days there will be about a two-thirds crop, and if not the crop will be a failure.

At Cayley—Fourteen hours' rain during the week. If more rain next week it is estimated that there will be about a 60 per cent. crop.

Nanton—Only three hours' rain. Grain not growing on account of dry weather.

Staveland—Sixty per cent. of crop dead on account of dry weather.

Clareholm—Six hours' light rain; hot and dry. Fall wheat is heading out, while spring is from 4 to 10 inches high.

Granum—About 50 per cent. crop failures on account of no rain. There was three hours' medium rain during week.

On the Crow's Nest branch, more moisture is needed, and in the Macleod and Lehigh districts prospects are poor.

HINDUS ENTER A PROTEST.

Against the Deportation of Member of Vancouver Colony.

Vancouver, B.C., June 28.—The Hindus of the city tonight held an indignation meeting over the threatened deportation of a prominent member of their colony. He came to Vancouver from Honolulu five months ago, entering as a tourist, but has since engaged in business here. Now the local immigration authorities are endeavoring to deport him on the ground that he did not come by direct passage from India.

The protest of the meeting, which was called to Lord Morley, Viceroy, Lord Minto, and wired to Sir Willoughby D'Almeida, is as follows: "Hinduist Association, Vancouver. In a special meeting protest against the action of the local Dominion Immigration officer regarding the threatened unlawful deportation of Mr. B. B. Rahman, a British subject, a respectable Mohammedan merchant, manager of the Canadian-India Trust Company here, and holding land in the country. As British subjects we demand our inalienable right to residence and move freely in the British Empire, and request immediate redress against the high handed and impolitic and arbitrary breaking action of the local authorities."

(Sgd.) G. D. KUMAR, Secretary of the Meeting.

HON. FRANK OLIVER AT FORT MCMURRAY

Minister of Interior Made Trip From Edmonton to End of Rapids in Less Than Eight Days—The Resources of the Country.

Fort McMurray, June 10.—Hon. F. Oliver and party arrived here on June 9th, less than eight days from Edmonton. At Grande Rapids his canoe, with that of Inspector Tremayne, was loaded into an empty scow and run down the rapids and on to McMurray, making the trip in less than two days.

Northern Travelers. The Hudson's Bay Co.'s transport of sixteen scows reached McMurray Wednesday, two weeks from the Landing. The Roman Catholic mission steamer Joseph Peschke, McMurray from Chipewyan on Sunday, still carrying scows of the mission transport arrived last night, bringing Col. Saunders, Judge Noel and others on the way north. H. A. Conroy, treaty commissioner, arrived with the H. B. transport and pays treaty at McMurray today.

Locating Provincial Boundary. Mr. Selby, D.L.S., also arrived with the H. B. transport to survey river claims at McMurray. His party was already at work, he being delayed by illness. Messrs. Inglis and Cote also arrived by the H. B. transport on their way to Fort Smith to locate the northern boundary of the province. South of this line, the 60th parallel, the provincial authorities hold sway, and north of it those of the Dominion. The survey is to define the boundary for the purposes of administrative law. Wallace's survey party are working south of here carrying the old meridian north, so that township surveys will be possible here next summer. The prospects of a railway had created quite an excitement amongst squatters on the flat at the junction of the Athabasca and the Clearwater. This flat is a beautiful location, over two miles long, fronting on deep, quiet water.

Resources. An immense body of limestone occurs in the river banks and extends for miles above and below McMurray. In the cut-bank immediately above the Athabasca and the Clearwater. This flat is a beautiful location, over two miles long, fronting on deep, quiet water.

The season here seems to be as far advanced as at Edmonton. The country along the river from the Landing was originally heavily wooded, but fires have destroyed a considerable portion of the timber. Where this has occurred the country seems very well suited for settlement. The value of the timber destroyed in years gone by is stupendous and the destruction is still going on, though the timber remaining is chiefly poplar and oak. At one time, however, within the memory of living men, the river was lined with spruce for miles. The value of the timber destroyed in years gone by is stupendous and the destruction is still going on, though the timber remaining is chiefly poplar and oak. EDMONTON BREAKS EVEN WITH THE HAT

Before Record Opened Home Team Won Holiday Afternoon Game Evening Match—Dellar, Pitched Great Ball—Evening Game Lost in First Innings.

SATURDAY'S DAILY. Before a holiday crowd of nearly two thousand spectators who filled the grand stand and bleachers at Diamond Park to overflowing and deeply lined a rope stretched west of the uncovered stand to the right fence, the Edmonton base-

ball team opened its long home series yesterday afternoon by defeating Medi- cine Hat, seven runs to none. Dellar, pitching superbly, held the Hatters hitting till the ninth innings, when Schaefer, the first baseman of the champions, by a scratch single between second and first made the solitary safety to the credit of the visitors.

Nelson, the star twirler of the Edmon- ton stick artists who gathered eleven hits from his delivery. And only the other day Nelson pitched a no-hit game. In the seventh innings when five hits were made by Edmonton and as many runs scored, it was thought that Nelson would be taken out of the box, but he stayed with it to the bitter end.

Edmonton commenced the scoring in the first innings. Mills opened with a single to centre. Baxter made first on Mills' out at second and stole second and third. Between third and home he was tagged out after dodging back and forth till Morse who became a base runner on a fielder's choice was safe on the cushion of the third corner. Cox by a clean single to centre scored. Morse Edmonton's next tally was made in the sixth. Cox led off with a single, in the form of a pop fly which dropped safely back of second base. Lussl sacrificed.

The fatal seventh was opened by Dellar who made first base on an error by the Hat third-baseman. Mills followed with a single. Baxter laid down a perfect bunt and beat it to first. Morse made first on fielder's choice, Deacon White who had gone in to run for Dellar being cut off at the plate. The first run of the innings was scored by Mills who came in on the throw from left field of Cox's sacrifice fly. Lussl in the nick of time smacked a two-base home run to centre scoring Baxter and Morse. Spencer singled, scoring Lussl, stole second and third and came home on an error by Catcher Davidson, who failed to gather in a rather easy punt from Brennan's bat. With five runs scored here today, the morning game went to the Bonapoles 5-0, while the locals won the afternoon contest by scoring the winning run in the ninth. The afternoon game though not a good match as the morning, was full of thrills all the large crowd present. Winnipeg pounded out four runs in the third off Skeels by time- ly and hard hitting. Regina then went in and by holding the locals to the last frame finally succeeded in tying up the score in the ninth. But fast basing by Krueger won back the game in the last half. Miller was knocked out of the game by being hit by a pitched ball. Walters was fined \$10 and put out of the afternoon game. Lohr also contrib- uted \$5 for kicking.

THE MORNING GAME. Regina took the morning game from the Maroons as the result of timely clotting in one of the snappiest games played here this season. Huson had the whiteside brush working nicely and shut out the locals 3-0. Spiezer was given air tight support but he failed to hold his opponent on baseless. Krueger and Costello batted in sensational style for the Winnipeg team.

THE TURF. RACING AT CALGARY. Calgary, July 1—The track was in good condition for races today on Exhibition Grounds. A slight shower laid the dust. Five races were run off in the afternoon. Four entries in the 2 1/2 pace or 3:00 prof. Sir Chaney, owned by W. Brown, Moose Jaw was favorite at the start, but Edith O. after the first heat was fa- vorite by the better. Edith O. won the race. The Indian took second, Sir Chaney third. The 2:30 pace or 2:15 (not had four entries. Lonna and Mosey Musk scratching. Bulah R. won easily leading by more than a length in each heat. Results were: 2:15 pace or 2:00 trot—Edith O. (J. B. Stetson) won; Indian (Haag and Par- ton) second; Sir Chaney (W. Brown), third. Time 2:17.4, 2:19.4, 2:21. 2:30 pace or 2:15 trot—Bulah R. (E. Kaffies) won; Longboat. (A. Storey) 2nd; Kocdonal (L. G. Rattle) 3rd. Time 2:16.4, 2:20.8, 2:23. Six furlongs, open—Graphic (Mc- Abee) won; Nellie Racine (Aford), 2nd; Miss Spokane (James) 2nd. Time 1:18. Edgymors (Dunn) 2nd; Pichepo Rose (Dixon) 3rd. Time 1:48. 1 1/2 miles, open—B. Wanless (Small) won; Bueybody, 2nd; Marvel (McLaugh- lin) 3rd. Emperor William Finished Third. Gled, June 28—In a stiff breeze to- day the Emperor school at Westward, owned by Alexander S. Cochrane, of New York, won the Jubilee prize, de- feating Lieut. Krupp Von Heesen Ute- gen of Germany by one minute and forty two seconds. Emperor Wil- liam's American-built yacht Meteor, owned by the Emperor aboard, finished third only a few lengths behind the German.

BISLEY MEET OPENS WITH EMPIRE MATCH

At the Shorter Ranges for Common- wealth Trophy Canadian Team Third—Great Britain Leads and Australia is Second.

Bisley Camp, Eng., July 1—The annual meet of the National Rifle As- sociation started today with three ranges of the Empire Match, a trophy offered by the Commonwealth Coun- cil of the Rifle Association and Aus- tralia for teams of eight men repre- senting the military or naval forces of Great Britain, Canada, South Af- rica, India, New Zealand, Australia, and other units of the British Empire, with the authorized service weapons of 242 bore issued by the respective governments. The 800, 900 and 1,000 yards will be shot off tomorrow (Sat- urday). Heavy showers fell through- out the match. The Canadian team's score was as follows:

Table with 2 columns: Name and Score. Includes L. Rowe (200 500 600), Capt. Forrest (49 45 47), Staff-Sgt. Mitchell (50 45 46), Color-Sgt. Presborne (49 46 44), Lt. P. H. Jones (49 47 41), Capt. McFar (49 47 41), Sgt. G. W. Russell (49 46 47), Pte. Steele (47 48 45). Total 382 372 364.

Table with 2 columns: Name and Score. Includes Zimmerman (5 1 3 4 0), Bonnett (5 1 1 4 0), Whisman (5 1 3 1 0), Schaefer (5 1 2 1 0), Hodsey (5 1 0 0 3), Davidson (5 2 3 2 0), McCarter (5 1 1 2 0), Harper (5 2 1 1 0), Claffin (5 2 1 1 0). Total 42 10 16 27 14.

MAROONS AND REGINA BREAK-EVEN ON HOLIDAY. Visitors Win Morning Game and Maroons the Afternoon Contest—Winnipeg Pounded Out Four Runs in the Fifth of Sixties, Regina's Star.

Winnipeg, July 1—The Maroons and Regina split even in the double-header here today. The morning game went to the Bonapoles 5-0, while the locals won the afternoon contest by scoring the winning run in the ninth. The afternoon game though not a good match as the morning, was full of thrills all the large crowd present. Winnipeg pounded out four runs in the third off Skeels by time- ly and hard hitting. Regina then went in and by holding the locals to the last frame finally succeeded in tying up the score in the ninth. But fast basing by Krueger won back the game in the last half. Miller was knocked out of the game by being hit by a pitched ball. Walters was fined \$10 and put out of the afternoon game. Lohr also contrib- uted \$5 for kicking.

UNCLE SAM SEEKS TO MAKE ARMY EFFICIENT

Only Highest Class of Men Are Now Enlisted in United States—Recruits Are Now Drilled as if for Actual War Standards Are Raised.

Washington, June 28.—With the navy reorganized, the same process is now being applied to the United States army, with a view to giving that country an adequate land fighting force. At no time in the last score of years has such care been exercised in the selection of men who volunteer for enlistment in the army.

These new recruits issued to army officers in charge of recruiting are the result of much consideration of the methods of examination, and are designed so that there may be a standard of mental and physical qualifications. Desertions from the army have made it appear that recruits, especially in prosperous times, are as hard to retain as they are to obtain, but the fact that there is no intention of increasing the size of the army at the present time has made it possible to be unusually careful in the selection. Quality, rather than quantity, is the essence of the new orders.

The instructions are specific in detail, and leave uncovered no char- acteristic which would be a disqualifying factor when it comes to the military authorities realize there is an opportunity for picking fun at the system, but it is designed to maintain what has been usually described as the standard of the military. There are individuals in the ranks. There are anomalies which may not prove a disqualifying factor when it comes to the military authorities realize there is an opportunity for picking fun at the system, but it is designed to maintain what has been usually described as the standard of the military.

FOOTBALL. A LOOK OVER THE FIELD. The most two weeks football has been interfered with somewhat by the rain, and the matches that have been played have left the clubs in almost the same standing as they were a fortnight ago. The match played last Tuesday week between the Callies and the Y.M.C.A. resulted in a narrow draw, thereby letting St. George's in the running again. It was a good game considering the heavy ground and both teams put up good football. Their victory over St. George's seems to have been a fore- runner of a good fight to be in at the finish. On Wednesday of the same week St. George's beat St. Callie's by a score of 5-0. Strathcona has a few football enthusiasts to whom a great deal of credit is due for the regular season. It is disheartening to be beaten every time a team turns out and still more disheartening when difficulty is experienced in getting a full team together. This week the Hibs should have played the Callies but the weather prevented. The former team has a better time in front of it seeing that three of their matches have been called off on account of the weather and will all have to be played in the near future.

VERY SLICK YANKEE TRICK

Sir Charles Rivers-Wilson on G.T.P. Thus Characterizes Prince Rupert Proposition.

Vancouver, June 28.—Today saw the close of the trial of the Supreme court action of Frewen vs. the Grand Trunk Development company, over 1,000 lots in Prince Rupert. Chief Justice Hunter reserved his judgment. The opening gun of the last day was the request of counsel for the defence that C. D. Thane produce the list of upset prices of Prince Rupert property for the auction sale here last May. The court refused to grant the writness leave to withhold the list and it accordingly was produced.

An interesting witness was Mr. Bon- thorne, the engineer who accompan- ied Frewen to Prince Rupert when he made his selection of the 1,000 lots according to the verbal understanding which he claimed he had had with the present agent of the Grand Trunk Pacific. Bonthorne said that when he had outlined the proposition to Sir Charles Rivers Wilson at an interview in the east he had characterized the deal as "A slick Yankee trick."

In the closing arguments late this afternoon the case was brought down to whether or not the price had ever been fixed, the counsel for the defense holding that no quotations ever had been put on the part of the party which Frewen was now suing for. Counsel for the plaintiff read from a letter written by Hays to Frewen in which the former stated that values would be put on the property as soon as the surveys had been completed and that these values would be no higher than the general public would be asked to pay. He claimed the land values fixed at the instance of the company were the ones referred to in the letter and that the sum of the plaintiff should have got his land, equal of being quoted prices equal or in some cases higher than the top bids at the auction sale. No matter which way the decision goes the case will be appealed.

ENGLAND FREER THAN U. S. American Suffragist Leader Says Men Hurt Cause in Her Country. New York, July 1—Mrs. O. H. P. Belmont will spend the summer in a study of the women's suffrage movement in England, with a view to enlarging her activities here. She will interview the women next to be there until September. "I expect to meet Dr. Anna Shaw in England," she said in a farewell letter published here today, "and together we will make a thorough study of the three suffrage associations there. We will learn the ways of the operative and the militant and then we will adopt in our work here the methods over there which we think best suited to the cause in America. The suffrage bill has already been introduced in England and there seems little doubt now of its passage. If the English women do win then we will know that their victory is due in a large measure to their methods and that is why we are so anxious to give them a close study and bring them back with us. "The men make it easier for women in England, while the men here make it harder. All they have to do in England is to win over a handful of men who are in power, while we have to convert hundreds of men who are headway. Now which is the freer country? I do not consider this a free country."

REPORTED DISCOVERY OF IRON. G. W. Watson, of Calgary, Claims a Find in the Mountains. Calgary, June 30.—After frequent prospecting tours to the foothills and to the mountains, John G. Watson, of this city, announces that he has at last discovered iron ore of such excellent quality and in such abundance that the future of Calgary as the Pittsburg of Western Canada is assured. His discovery is within sixty miles of Calgary, and he says that the ore is in such large quantities in the same vicinity that the preparation of the raw material will be practically an easy matter. The regular agent of Mr. Watson's mountain of ore is within easy access of a line of railway, although at present there is nothing but an Indian trail over it. A test of some of the raw material was made at the Calgary iron works yesterday and it is pronounced of excellent quality and of the kind from which steel may be manufactured.

SASKATOON LANDS SELL HIGH. Biggest Price Obtained Was \$41 Per Acre. Saskatoon, June 28.—Over five hundred people a large number of whom were farmers from the surrounding districts, assembled here yesterday, when Agent Ingram held a sale of second lands. The auctioneer had no difficulty in disposing of every- thing offered, a large portion of which was disposed of to farmers at the upset price. The highest price obtained was during the afternoon, when the figures reached over \$41 per acre. Speculators today did not cut much figure as prices were too high to permit of any great margin of profit on a re-selling.

NEW CANADIAN FLOTATIONS. Steel Company and Algoma Central Will Issue Bonds. London, June 27.—The Paris Bank proposed to issue next week \$1,000,000 of 4 per cent. first mortgage bonds of a steel company, Canada. The brokers are the West- erna Canada Trust. Another issue being underwritten is \$770,000 five per cent. first mortgage bond of the same company. Another issue being underwritten is \$770,000 five per cent. first mortgage bond of the same company. Another issue being underwritten is \$770,000 five per cent. first mortgage bond of the same company.
