severe attack of measles, and I was in such a weakened condition my people almost despaired of my life. But I followed the doctor's advice and began taking Carnol, with the result that I improved so much in a short time that on meeting the Doctor he did not recognize me. I received so much benefit from taking Carnol that I feel all I could say would not do it justice. I can safely recommend Carnol to anyone in a weakened condition as one of the best tonics on the market today. & Carnol was recommended to me by Dr. Veniot, of Bathurst, N.B., and I purchased it from J. statistics is indisputable, has given much time to estimating the effect of the use of alcohol as a beverage upon the duration of human life and mortality. He has studied the question critically, from a purely objective scientific point of view. He does not consider moral or social aspects. His unbiased conclusions are not startling : they correspond with those usually reached by common sense (1) The "moderate" consumption of alcoholic beverages does not sensibly alter the mean duration of life or in This conclusion is a statistical one. It may, or may not, be true for any particular single individual. (2) The excessive use of alcohol as a beverage definitely diminishes the main duration of life and increases the rate of mortality. There is need for further critical study, however, to determine to what extent the statistical experience of greater mortality among the intemperate is due to a direct pathological effect of the alcohol on the tissues, and to what extent it is due to an indirect effect through alterations of behaviour and the like. One should also think of Professor Stockard's prolonged experiments with thousands of guineapigs which were treated to moderate inhalations of alcohol fumes. The treated animals were not visibly the vorse; they lived long and well. But arly mortality and were structurally s if the alcoholic treatment of the

Lecture on Siberia

The very disagreeable weather conlitions no doubt were responsible for the fact that the attendance at the lecture in the Methodist College Hall last night was far below expectations. The lecturer was the Rev. (Major) Harry B. Clarke, B.A., of Halifax, and his subject was "Siberia," from perional experiences as Chaplain with the Canadian Forces in 1919. The Chairman was Lieut.-Col. Cluny Macpherson, M.D., C.M.G., and previous o the lecture a plano solo was given by Miss Tait, and a very delightful solo by Mr. Fred Emerson.

Major Clarke began his lecture by stating that in 1918 he had proceeded Siberia, to guard munitions, from the Boishevists. He first described the climate of the country which he said

Man's First Home Sought

PEKING, Nov. 10-(C.P.)-Did man first originate in Mongolia, now a desert wilderness but many centuries ago a tropical jungle-perhaps the Garden of Eden?

Roy Chapman Andrews, the distinguished young American who has contributed more to the world's knowledge of ancient Mongolia than probably any other man, hopes to be returns from his present expedition tions into the Gobi desert, but his bitious. In the past he has sought merely to discover and suitably catalogue whatever he might find of fossil remains. Last year he startled the world with his doscovery of dinosair eggs and other prehistoric specimens of age-old animal life.

But this time he seeks to establish definitely whether Mongolia was once the habitant of the first man. If he can find human remains antedating those discovered in other sections of the world he will have strong ground for exploring his question affirmatively. ber 25th, by Rev. John B. Elliott, Wil "We are going to work on human evolution," he announced here while

A Reminder

Editor Evening Telegram

Dear Sir.-There is no doubt, as the years go by that our Roman Catholic people generally and the ex-pupils of St. Patrick's Hall and Holy Cross in particular, willingly consider their bligation to the Christian Brothers, hence we feel certain next Sunday's collection will reach a sum that all of us shall be proud of. However, to accomplish our object it will be necessary for us to bear this in mind during the week so that we may have reserved for Sunday a generous con-

The Christian Brothers of Mount St Francis now number nearly a score of teachers who devote their whole existence to the training of hundreds of our city boys, but in the natural course of events they need the wherewithal to supply the ordinary expenses of life. It is no hardship on us therefore to help out such a cause as this, the only occasion of the year that we are asked to do so, and the least we can do is to give to the limit | Electric Irons, only . . on this one day out of the whole long year. Come, old school mates, let us go to it again next Sunday and overtop every collection previously made.

Coasting Slides

SHOULD BE BUILT AT SUITABLE POINTS WITHIN CITY.

Along with reports of the first fall of snow in the various sections of the Dominion, the newspapers are beginning to chronicle accounts of coasting accidents. So far and within the past week two fatalities, one in Ontario and the other in Quebec city have been recorded, and with these in mind, the Post once more suggests to the city council that it take action to provide suitable coasting places for the use of the children in the various sections of the city during the coming

"Youth will be served"-(with a summons) would make a good title

> It has been suggested that a slide be erected in Victoria Park for the use of the children of Wards one and two, and that vacant lote on Hardwood Hill and in the Ashby district be utilized for those sections. There being numerous hills in Wards five and six, there should be no difficulty in finding suitable coasting places there. The whole trouble in the past has been that the city forbade coasting on the streets but at the same time failed to make other provision. Its pretty hard to expect a small boy with a new red sled to resist the temptation to try it out, and as a result, there were a number of accidents in the Hardwood Hill district last winter. The city fathers should consider the matter from the standpoint of the children, parents, pedestrians, and autoists and take some steps before the season arrives.—Sydney Post.

Reliewed by Lydia E. Pinkham's Vegetable Compound

Verdun, Montreal, Quebec.—"I am one of thousands who have taken Lydia E. Pinkham's Vegetable Compound and I have great faith in it. I can safely say it has relieved my troubles and I shall never be without a bottle of it in my house. Since my last baby was born I suffered from pains and backache and would feel so tired I could not do anything in my home. Since I have been taking the Vegetable Compound and Lydia E. Pinkham's Blood Medicine I feel so different. I recommend it to all my friends and hope it will cure other women who are suffering from the troubles I had."—Mrs. Thomas H. Gardner, 821 Evelyn Street, Verdun, Montreal, Quebec.

Lydia E. Pinkham's Vegetable Com-pound is a dependable medicine for the new mother. It is prepared from roots and herbs, contains no harmful drugs and can be taken by the nursing

Its worth in restoring the mother to normal health and strength is told again and again in just such letters as Mrs. Gardner writes. A recent canvass of women users of the Vegetable Compound shows that 98 out of every 100 women taking the medicine are benefited by it. They write and tell us so. Such evidence entitles us to call it a dependable medicine for women. It is for sale

Father Was Right

When I was adolescent; In other words—a Youth I wasn't acquiescent To much advice, in truth, My eyes with glamor glistened, I dreamed of days ahead, And very seldom listened To things my father said.

I thought, "Oh, he's old-fashioned,
He doesn't understand
The hopes of Youth impassioned,
Or what I've dreamed and planned.
Poor Dad, his mind is logy
And narrow in its scope;
He's such a dull old fogy
I scorn his line of dope."

I'm older now, behold me, Admitting frankly, quite, That what my father told Was pretty nearly right! Had I but harked to Father I would have dodged, I know Much loss and fret and bother Much toil and pain and woe.

I was a heedless elf, For I've had fun in getting Experience, myself!

Trade Success Feature of Wembley Exhibition

LONDON, Nov. 14 (A.P.)-If the Vembley Exhibition has not been a financial success to the promoters, it has been an unqualified success from the point of view of sales and orders. Many new markets, it is declared, have been created through the exposure of goods, and some Canadian and Australian manufacturers have sold their outputs for the next five

Among the big business deals concluded, the following are recorded; One engineering firm received orders from five different municipalities for an equal number of electrical generating installations; a provincial grocer increased his sale of New Zealand butter by 100 per cent, in two nonths; a Canadian dried milk dealer old his output for the next five years o a British firm; one million boxes of Canadian fruit were ordered by European buyers; sales in the Indian Pavilion amounted to £250,000 in hree months; the little colony of Cyprus was overwhelmed with orders; one French firm asked for 20,000 dozen boot heels, and another dealer ordered \$145,000 worth of Cyprus as-

Actors Fight at a Ball

One Refused to Introduce Another to a Former Leading Lady of the Carroll Players, St. John.

New York, Nov. 17.-Lowell Sherman, one of New York's best known matinee idols, engaged in a fist fight with George Baxter, also an actor, at the Actors' Equity Association Ball which ended at the Hotel Astor early yesterday in a turmoil of fighting, it was learned to-day.

The quarrel between Sherman and Baxter was caused by Sherman's refusal to introduce Baxter to Miss Lillian Foster, appearing in a current Broadway show, according to Baxter. The fight started in Sherman's box, which he occupied with his mother and Nora Bayes. Ethel Barrymore occupied an adjoining box. Both Sherman and Baxter bore marks of the conflict. There was no complaint to the police.

John Saporensky was arrested on a charge of grand larceny on complaint of "Gentleman Jack" O'Brien, former pugilist, who claimed that \$400 was picked from his pocket during a fight

HARBOR GRACE AND BRIGUS.

(H. F. SHORTIS.)

In my last article I promised to give ome particulars of these Mutual Insurance Club meetings. At the time I m writing about, the firm of Thomas Ridley & Sons was one of the most progressive in the country, and from all appearances Mr. Ridley was one of the most aggressive spirits in the place, and it shows the independence of the other lembers of the Club, who were attending to the business to pull this firm up in such a manner. It happened March 11th, 1834, and the following members were present: J. C. Nuttall, Wm. Punton, Joseph Soper, Peter Rogerson, Thomas Ridley, George Thorne, Thomas Foley, John Fitzgerald, Secretary.

Proposed by Mr. J. C. Nuttall, seconded by Mr. George Thorne and carried unanimously, that the schooner Elizabeth, Stephen Johnston, master, Thomas Ridley & Co., owners, is excluded the benefit of Insurance in this Club in consequence of damage received in this port, being unseaworthy this day, and proceeded without being

The Secretary certifies that Mr. Ridley had left the meeting previous to the passing of this Resolution, but he left a copy at Mr. Ridley's residence, who replied that he would not receive the same, but the Secretary says he left it on his table. We can well imagine that some very bad words were uttered, and that they ere certainly "sitting on" Mr. Ridley. The following day another meeting was called to receive letter rom the firm of Thomas Ridley & Co. egarding two of their vessels, one of hich was the "Elizabeth."

seconded by Mr. Joseph Soper that the Proposition regarding the "Elizabeth" is inadmissable, as not according to a resolution made the previous

To this proposition Mr. Peter Rogerson dissented, and stuck out for

It was then proposed by Mr. Wm. Punton that the thanks of the meeting were due Mr. Thorne for his impartial conduct while acting as Chairhands, and agreed to bury the hatchet, that skipper Stephen Johnston was a very successful seal-killer, and was a native of Bay de Verde District.

It is well not to forget that an office does more than perform intangible service. It does that, but it does more. It performs real, actual, original work such as receiving, approving, pricing, extending, billing and shipping orders, which results in correspondence, dictation, typing, filing, handling, distributing and despatching mail, as well as the necessary bookkeeping to see that the goods are charged to the customers and the funds to carry on the business are received according to terms of sale.

How well all of the duties are performed depends almost entirely on the system adopted. A good system is always being strengthened by improvements here and there. A poor system is probably worse than none, for the reason you think you have something, while as a matter of fact what you have is worse than nothing, as it deceives you in your thoughts as to what you have.

"Cabot" Returns

The whaler Cabot, Capt. Larsen, which has been operating at Hawk's Harbor part summer at the plant of the Newfoundland Whaling Co., arrived here on Sunday afternoon. She secured 42 whales at that station and 23 whales at Roserue station earlier in the season. The Cachelot, Capt. Amundsen, which was operating at Roserue and for the past month at Hawk's Harbor secured 7 at the latter place and 109 at Roserue. The Cachelot arrived at St. John's on Thursday. At the time of leaving Yesterday's Fire Alarms Labrador winter had set in and there was three feet of snow on the ground. Both ships operated at Beaverton last year and together secured only 71 whales.-Hr. Grace Standard.
