THE STORM-SWEPT ISLANDS.

WRECKS AND LOSS OF LIFE ON THE BRITISH COAST.

Enormous Damage Reported in England, Scotland and Wales—The Sea Washes Over the Land and the Rivers Overflow Their Beds, Causing Much Loss to the Interior.

LONDON, Oct. 15.—The storm that set in over Northern England, Scotland and Wales night before last threatens to cause as much damage as the phenomenal gales and rains that passed over the country last autumn. The telegraph lines are down in several sections and communication with some of the coast towns is greatly interrupted. Things of disaster continue to be reported, and are being reported as follows: The fishing vessel James A. Anderson was capsized yesterday in a heavy swell in the Firth of Forth, westward into which she was putting for shelter. She had a crew of five men and all were drowned. Much damage has been caused by the floods. At Leeds the River Aire has got out of its banks and overflowed the surrounding country. In some places the railways leading into the town are submerged. Houses in the lower portions of Leeds are flooded, and in many cases their occupants have been obliged to take to the water. A number of craft at various points along the coast have broken from their moorings and sunk. At Malton, on the River Derwent, it has rained continuously for 40 hours, and the storm shows no sign of abating. The River Don and its tributaries are overflowing, and the country in some places is inundated. Half the crops still unharvested are submerged, and vast areas of pasture are impassable. Much alarm is felt at Doncaster at the rapid rise of the River Don, and every precaution is being taken to avert a disaster. A later despatch says the water continues to pour in a flood over the banks of the River West and hundreds of cattle and sheep that feed on the moving sea are in great danger of being drowned. Large numbers of men and boys are out driving live stock to other ground. At Durham, which is nearly surrounded by the River Wear, the water is very high. The railway bridge has been swept away by the torrent, causing a heavy loss, and a further disaster is apprehended. The bridge fell a freight train was just going on it, and the engine and loaded cars went to the bottom of the river. The train hands had sufficient warning of the impending disaster to make their escape. At Wakefield, near Leeds, several people were injured by the explosion of gas in a hotel. The basement was flooded by the overflow from the River Wear, and it is supposed that the water displaced the gas, allowing it to escape. The injured were taken to the hospital.

A POPULAR APPOINTMENT.

Mr. James Mathew, President of the Evicted Tenants Commission.

LONDON, Oct. 15.—It is recognized on both sides of the political camp that Mr. Morley made a good move in appointing Justice Mathew to the presidency of the Evicted Tenants Commission. Sir James is an Irishman, and a nephew of Father Mathew, but his friends well know he is a Liberal and a Home Ruler. So high is his reputation for integrity, that no whisper of disrepute breathes over his name. Justice Mathew was raised to the bench 11 years ago. Since that time he has been a model magistrate, and his conduct in his judicial office has been a model. He is married to a daughter of a Kentish peer, and is reported to be a member of the cabinet. He is a man of high standing in the law, and his appointment to the presidency of the Evicted Tenants Commission is a mark of the high regard in which he is held by the government.

GUARDIANSHIP OF MARSHALL'S OFFICE.

LONDON, Oct. 15.—The court has decided that Justice Marshall is a member of the Squadron of the 1st Life Guards Regiment, and is entitled to the rank of major.

DOCTOR STRICKEN WITH SMALLPOX.

He Visits the Two Hospital Patients and Contracts the Disease—Smallpox is now in the City.

Another case of smallpox developed Saturday. The victim is Dr. Barnhart, the Medical Health Officer of East Toronto, and has been unwell for some days. He visited the two smallpox patients who were lying at the General Hospital, and the disease was no doubt contracted there.

OSBOURNE & L. ELECTIONS.

A Large Vote Filled—The Grant Ticket Elected—Sweeping Majorities in Some Cases.

The Grant ticket was elected without an exception at the Osprey Hall Literary Society's election of officers Saturday. Many amusing incidents took place at the polls. Amongst others Hon. A. S. Hardy was challenged and refused the privilege of voting, as he was thought to be a non-resident of Toronto.

SHOOTING AT ST. THOMAS.

A BOARDER FATALLY WOUNDED IN LANDLADY.

He Lodges Two Bullets in His Victim's Body—He is supposed to be the Inmate in the Custody of the Police—The Woman Still Living.

[From The Sunday World.] St. THOMAS, Oct. 15.—Citizens had scarcely recovered from the excitement caused by the shooting of Detective Phair at home, which will in all probability also be the death of the victim.

John D. Sullivan, who for the past two years has been engaged by George T. Phair to manage his laundry room, Centre-street. Two weeks ago he was brought before the magistrate on a charge of breaking a lamp and dishes at the boarding house. He was then locked up and charged with being insane, but striking her, and confessing without further symptoms and Miss Henderson declining to appear against him, he was discharged.

Wanted to Marry His Victim. It appears he wanted to marry the victim, and he was jealous of her and told her this morning if he saw Mr. W. Webb of the M.C.R. shop, living near by, in the house as he did yesterday he would shoot her.

The prisoner is about 38 years of age, while his victim is about 25. This morning Miss Henderson called him to breakfast. On coming down they had words as mentioned, when he once pulled out a revolver and opened fire on her. She was struck in the head, and one lodging in the door, one going through her arm and shattering the bones of her hand and one entering her body at the bottom of the stomach, passing through the liver and lodging under the ribs on the left side.

Miss Henderson ran screaming into her neighbor's, Mrs. Birdall.

THE MANITOBA SCHOOL QUESTION.

A Way in Which the Matter May Be Settled To the Courts—An Appeal to the Legislature.

[From The Montreal Gazette.] The suggestion was made in these columns a few days ago that the Government ought to exhaust all the resources of law before permitting the Manitoba school case to become the football of contending factions.

The subject is admittedly no easy of solution, but the Government has a duty to perform, and it is the duty of the courts to see that the Government does not shirk its duty.

The object we have had in view is to see that the Government does not shirk its duty, and that the courts do not shirk theirs.

Drifting into Civil Strife.

Annexation can never be without strife. The great majority of Canadians are built that way.

He therefore who is a Canadian and argues for annexation is arguing for civil war, he is stirring up civil strife.

The World therefore trusts that the Chancellor, Mr. Blake, the President of the University, Mr. London, and the Vice-Chancellor, Mr. Mulock, will arrive at some understanding in this matter.

These are further hard and undeniable facts. But before we draw our main conclusions, we wish to silence once and for all these men who are arguing for annexation and denouncing Sir Oliver Mowat for interfering with "the freedom of speech."

Annexation cannot be attempted without strife. Elgin Myers, certain Liberal papers, and certain other Ontario officials some openly, some secretly, some half openly, are suggesting, are aiding annexation.

Resignation of the Dean of Residence. It is understood that Prof. Baker, who has been Dean of Residence of University College for some years, has resigned that office.

A Substantial Finding in Favor of the Action of Vice-Chancellor and New Build Hospital. The old University Senate held its last meeting on Friday night, at which Mr. Mulock presided.

The report of the committee connected with the creation of the Biological buildings was presented by the chairman, Judge Falconbridge. It is as follows: Your committee, to whom it was referred to inquire into matters connected with the creation of the Biological Buildings, and the establishment of the Park Hospital, have the honor to report as follows:

That in connection with the subject of the reference regarding the creation of the western wing of the Biological Building, witness caused to be produced before them all the various sketches and other plans which were submitted in connection with such wing, also the minute books of the Board of Trustees and orders in council concerning the building, and also personally examined the building. The desire of your committee to make a thorough investigation into the matter referred to involved the expenditure of several days' labor which protracted nights by men who were anxious to see the work done.

THE AMUSEMENT WORLD.

The Coghlan Company Tonight. Whether it is a matter of pride or a desire to retain all the applause themselves, or a fear of rivalry, certain it is that very few of the well-known and successful stars are disposed to surround themselves with good people.

Moore's Muse. Me and Him, aged 30 years, and weigh respectively 485 and 110 pounds, will create any amount of fun in the lecture hall this week by appearing in their burlesque boxing match, which will take place on Monday before the public.

McKENDRY'S MONDAY.

The Mondays come speedily one after another, but we are never caught napping. During the week we've made big gains in several wholesale stocks and have them here to-day and all this week at prices that'll satisfy every corner.

Two of the most important items in millinery trimming this season are ribbons and buckles. A poor quality in either spoils the appearance of a hat. Our prices, however, enable you to buy the best without feeling the appearance of a hat.
