The following communication from Judge Grierson re certain changes and repairs needed at the County Court House, was read:

DEAR WARDEN CLARKE: I would respectfully call your attention to the fact that the Court House at Annapolis is not properly lighted.

On several occasions in the past when it was necessary to sit in the evening we had to adjourn to the Queen Hotel as it was found absolutely impossible to carry on the work in the Court House with the poor light provided.

By holding evening sessions a whole day can often be saved to litigents and court officers. Electric lights could be installed at very little expense as the building is now partly wired and it should cost very little to make the extension to the court room. I respectfully request your Council to deal with this matter at its present session. I think your Council should also consider the advisability of having one modern court house for the whole County. There is no reason at the present day why any county

should be put to the expense of keeping up two Court Houses. There are no toilet or other conveniences in either of your present Court Houses such as should be provided in all public buildings.

One modern up to date building should be provided without delay.

Respectfully yours,

J. A. GRIERSON,

Judge of County Court

What's Your SKIN TROUBLE ? ? ?

Does your skin get chapped and irritable? Are you distressed by slightly reddened patches on which appear tiny watery heads that burst and form into sores? Do your arms or face feel sore, inflamed and itchy? If so, a coarse fatty ointment will have little effect. You need Zam-Buk whose refined herbal extracts penetrate to the underlying tissue and drive disease out. Being powerfully antiseptic, Zam-Buk purifies the skin. It soothes raw angry surfaces, stops the intolerable burning, itchy irritation, and clears away sores and eruptions.

Mr. A. Josay, Spry Harbor, Halifax, N. S., says: "I had eczema on the hands for three years. The intense itching kept me awake night long. I had 'eczema cures' but got no better until I applied Zam-Buk. This wonderful healer, however, has entirely rid me of the distressing disease." Don't suffer winter skin torment a day longer. Get Zam-Buk 10-day! 50 c. box, all dealers.

PAINS SO BAD STAYED IN BED

Young Mrs. Beecroft Had Miserable Time Until She Took Lydia E. Pinkham's Vegetable Compound.

Hamilton, Ont. - "I have suffered for three years from a female trouble and consequent weakness, pain and irregularity which kept me in bed four or five days each month. I nearly went crazy with pains in my back, and for about a week at a time I could not do my work. I saw Lydia E. Pinkham's Vegetable Compound advertised in the Hamilton Spectator and I took it. Now I have no pain and am quite regular unless I over-work or stay on my feet from early morning until late at night. I keep house and do all my own work without any trouble. I have recommended the Compound to several friends." - Mrs. EMILY BEECROFT, 269 Victoria Ave. N., Hamilton, Ontario.

For forty years women have been telling how Lydia E. Pinkham's Vegetable Compound has restored their health when suffering with female ills. This accounts for the enormous demand for it from coast to coast. If you are troubled with any ailment peculiar to women why don't you try Lydia E. Pinkham's Vegetable Compound? It is made from native roots and herbs and contains no narcotics or harmful drugs. For special advice women are asked to write the Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of forty years experience is at your service.

LOCAL DEATH ROLL

MRS. HENRY LOCKHART

It was with deep, sincere regret the relatives, friends and acquaintance learned on Wednesday, Jan. 4th, of the sudden death of the late Jane Lockhart, wife of Henry B. Lockhart, of East Leicester, N.S. She was the daughter of late Robert and Mary McKennie, born in East Leicester, November 24th, 1845. She was one of a family of nine, of which only two remain, namely, Mary, wife of M.T. Shipley, Amherst, and Robert, of Leicester.

The deceased is survived by a husband and nine children, Annie, wife of M. D. Forrest, Amherst; Chas. E. of Notre Dame, N. B.; Mrs. Minnie R. Miller, Bridgetown; Bertha, wife of J. N. Grace, Roxbury; Bent W. of Moncton; Lillian, wife of J. M. Ferguson. Northport. Hugh, Florence and Mable at home.

It may be noted that the death is the first break in the family—the nine children all attaining manhood and womanhood, and all present at the funeral, except Mrs. Grace, deceased by illness.

The funeral held on Friday afternoon Jan. 7th, was conducted by the Methodist minister, Rev. Mr. O'Brien, Oxford, Chairman of the District, and largely attended by her numerous friends. Among the beautiful floral offerings—the flowers she loved—was a handsome spray from the W. F. M. S. of which she was a most interested and valued member. The pallbearers were the three sons, Chas. Bent and Hugh and the three sons in law, Morton D. Forrest, J. N. Grace and J. M. Ferguson. The deceased was a woman of unusual sterling character and her home was always open to one and all, especially the ministers, who labored on this circuit and the absent children and loving grand children, who loved to gather within the old home.

PERCY COVERT

The death of Percy Covert occurred on Saturday, Dec. 4th, at the home of his father, Frank Covert, Lower Granville, after a lingering illness of tuberculosis, at the early age of 24. Deceased was a young man very highly esteemed by a large circle of friends. Of a kindly disposition, generous nature and genial manner, he was a favourite. He is survived by a widow and one son, besides his parents, one sister and brother. He went overseas with the 112th Batt., and while in England took pneumonia. After arriving home he spent eighteen months at N. S. sanatorium. The universal sympathy of the community goes out to the bereaved ones in their sad loss. Funeral took place on Tuesday, Dec. 7th. Burial at Port Wade.

JOHN GAUL

On Sunday, Jan. 2nd, John Gaul died at the home of his brother, Samuel Gaul, Inglisville. He was 48 years of age and had been in failing health for a number of years.

While living at Morrisstown he was baptized by Rev. L. F. Wallace. He was a young man of excellent character. He is survived by seven sisters and two brothers. The interment was in "Fairview Cemetery," Lawrencetown, and Rev. H. Jones conducted the service Tuesday afternoon.

JOHN J. PHINNEY

Mr. John J. Phinney, aged 72 years, passed away at Falmouth N. S., Saturday, after an attack of pneumonia. The deceased was the father of Mrs. (Dr.) Ralph Woodbury, of Halifax, and he is survived by a wife, three daughters and one son. The funeral was held from his former home, Victoria Vale, Annapolis County on Monday.

A Yarmouth despatch says: Archr. Rose Anne Belliveau, Comeau, Vineyard Haven. This vessel will lay up for the winter, no business offering.

FRIENDS ADVICE MADE MAN OF HIM

Was Just About All In When They Urged Him To Try Tanlac-- Now Feels Like Old Self

"I'm only too glad to tell you what I think about Tanlac. This is the fourth bottle I have bought and if it wasn't doing me good I wouldn't be wasting my time on it," said Charles Neel, of 31 Meadow St., St. John, N. B.

"When I returned from overseas my digestion was so upset I could eat a thing scarcely without suffering the worst kind of distress and pain afterwards. After every meal I had a heavy feeling like I had swallowed a lump of lead, and my food would sour and bloat up till I was in perfect misery. I also had such pains in the back I could hardly get around and could sleep so little on this account I often heard the clock strike every hour of the night. I was tired and weary all the time and in fact became so run down I was just about all in when I started on Tanlac.

"When my friends saw what a terrible shape I was in they urged me to try Tanlac, and it has made a man of me. By the time I had taken two bottles my stomach was in fine condition and I could eat anything I wanted and never suffer the least ill effects. I have gained ten pounds in weight and am so much stronger I can do as much work in one day as I used to be able to do in two. I am no longer bothered with pains in the back, I sleep like a log all night and get up in mornings feeling ready for a good day's work."

Tanlac is sold in Bridgetown by S. N. Wearie in Middleton by Clifford A. Mumford and in Bear River by L. V. Harris.

A FORDSON TRACTOR SPEEDING

WINDSOR Jan 15—Essex public officials are somewhat perturbed by a new problem in traffic administration. They find no great difficulty in coping with trucks, automobiles and motorcycles, but when the driver of a Fordson tractor gives him as an excuse for speeding that he is not driving a motor vehicle and anyhow was off to fetch the doctor, this situation becomes a difficult one.

Legally the driver is said to be within his rights as tractors are not required to carry numbers and are not motor vehicles according to statute.

The normal speed of the make mentioned, when equipped with rubber road wheels, now so closely rivals that of a motor truck, even when the tractor is hauling two or more loaded wagons behind it that local authorities are seriously perturbed as to the future growth of this traffic.

It is claimed that to license all tractors would be a hardship as the majority of the types on the market are too slow to be seriously considered for road transportation purposes. The matter may be taken up with the Hon. F. C. Biggs in the near future.

MISS CROWELL ORDAINED AT MONMOUTH

Miss Bessie F. Crowell, pastor of First Monmouth, received ordination at Monmouth, Maine, on Oct. 20. The service was held in the evening and was largely attended. The ordination sermon was a masterly one, preached by Dr. J. H. Eob of Augusta. Rev. W. H. Palmer of Hallowell, Assistant Superintendent of State Work, made the ordaining prayer. The charge to the candidate was given by Rev. H. S. Capron of Bangor. Rev. O. E. Barnard of Winslow gave the right hand of fellowship and in well chosen words gave a cordial welcome to Miss Crowell to the fellowship of the Kennebec Association and the church at large.

Miss Crowell became pastor of the church at Monmouth, Dec. 1, 1919. She has had wide experience in Christian work, having been a missionary in India for seven years, and so brings with her into the ministry a broad knowledge and experience gained by work with other races and in other lands.

[Miss Crowell is a sister of Mrs. L. R. Miller of this town.]

WINTER LAYERS OF DIFFERENT AGES

(Experimental Farms Note)

ABOUT WINTER LAYERS—It is thought that farmers keep hens until too old for profitable winter egg production and it is also a common belief that late hatched pullets commence to lay only during the following spring. To throw some light on this subject, it was decided in 1915 to compare early pullets, late pullets, yearling hens, and old hens as winter layers, at the Cap Rouge Experimental Station.

THE EXPERIMENT—The experiment began on the first day of November and ended on the last day of February, during five consecutive years. The number of birds in each pen was about twenty five and the whole lot occupied the same house. A strict record was kept of all feed consumed, also of all eggs produced by every pen. At the beginning and at the end of each experiment the birds were weighed so that, in the spring, the gain or loss in weight could be credited or debited to them.

THE RESULTS—If the cost of production of one dozen of eggs, during winter, is taken as 100 for early pullets, hatched before May, it would be represented by 249 for yearling hens, by 280 for late pullets, hatched after April, and by 848 for old hens. In other words, when pullets hatched before May produced a certain number of eggs at a cost of \$1.00, yearling hens produced the same number at a cost of \$2.49, pullets hatched after April at a cost of \$2.80 and old hens at a cost of \$8.48.

WEIGHT OF EGGS—It is sometimes objected that, though early pullets lay more eggs than yearling or older hens, the size of the eggs is such that they would bring much less if ever eggs were sold by weight. Taking the figures from the present experiment, we find that, for the same weight of eggs, when it cost \$1.00 to produce them with early pullets, it cost \$2.35 to produce them with yearling hens, \$2.92 with late pullets, and \$8.10 with old hens. It will be seen that, as expected, the weight of eggs from hens was a little larger than that from early pullets, but the difference does not materially change the figures for the cost per dozen.

SAME BIRDS COMPARED

The birds used for this experiment were not specially bred for eggs production, so that the early pullets put in each year were not from best stock than the yearling or older hens. Two seasons, the yearling hens used for this experiment were the same birds, with the exception of a very few which had died, as the ones in the pen of early pullets of the previous year, and in both cases they were, for cost of production, below the new lot of early pullets taken indiscriminately in the farm flock.

EARLY PULLETS BEST—That early pullets are the cheapest producers of winter eggs has been told and written so often that it is like an old story. But a carefully conducted experiment will again remind farmers of a well known fact which they often seem liable to forget.

KEEP LITTLE ONES WELL IN WINTER

Winter is a dangerous season for the little ones. The days are changeable—one bright, the next one cold and stormy, that the mother is afraid to take the children out for the fresh air and exercise they need so much. In consequence they are often cooped up in overheated, badly ventilated rooms and are soon seized with colds or grippe. What is needed to keep the little ones well is Baby's Own Tablets. They will regulate the stomach and bowels and drive out colds and by their use the baby will be able to get over the winter season in perfect safety. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

The scarlet fever situation in Bridgetown, we regret to state, is not improving. Our townspeople are very anxious that some thing should be done. It is now interfering with the attendance in the schools.

BRIDGETOWN'S PUBLIC LIBRARY

The Committee appointed some time ago to start a Public Library, have much pleasure in announcing that the Library is now ready and will be open every Tuesday afternoon and every Saturday afternoon and evening.

A room in the Royal Bank Building in the rear of Miss Davies' store has been fitted up. One of our citizens, the Hon. O. T. Daniels, has presented a splendid book case large enough to accommodate about 700 books.

Miss Georgie Davies has been engaged as Librarian and will receive annual subscriptions. A few splendid books have been donated, and the Librarian will be pleased to receive donations of books and magazines in good condition.

ST. JAMES CHURCH ANNUAL MEETING

Altho in spite of the storm a quorum was present for the annual meeting of the parish of Bridgetown (St. James) last Monday evening. It was thought advisable to adjourn without transacting any business until next Monday evening at 8 o'clock.

FREE PUBLICITY

We have received the following warning from the Canadian Weekly Newspaper Association of Toronto:

Has it Made You Rich? Eastern members may have very soon plenty of free publicity sent them on behalf of Mount Allison University.

The MONITOR is already in receipt of several installments which reach our waste basket regularly. To make it more ridiculous, the envelopes which contain this copy have printed on them in big type "Rush News."

AN UP TO DATE ANSWER

"What little boy can tell me the difference between the quick and the dead?" asked the Sunday School teacher. Willie waved his hand frantically. "Well, Willie?" "The quick are the ones that get out of the way of automobiles; the ones that don't are dead."

LOCAL DEATH ROLL

MISS MARY C. JEFFERY

On Friday evening last, at the home of Mr. Frank Crowe, 44000 Street, death removed one of Bridgetown's oldest inhabitants in the person of Miss Mary C. Jeffery, born on June 2nd, 1834, the daughter of John and Sarah Jeffery, Miss Jeffery has spent practically the whole of her life in this community, consequently she was well versed in all matters pertaining to its growth and welfare. To spend an hour in her company was to enter a mine, as it were, of local history. A woman of very considerable ability, she had a particular fondness for poetry, and could always quote at great length from many writers. Until a month since she had lived at the old homestead but being then very ill she was removed to the neighboring home of Mr. Frank Crowe where, as stated above, she died on Friday evening last, in the 87th year of her age. She is survived by her twin-brother, Thomas, who at present resides with his daughter, Mrs. George R. Jones, Melrose, Mass. Mrs. Jones arrived in Bridgetown a few days before her Aunt's death, remaining until after the funeral, which took place on Monday morning, interment being in Riverside Cemetery, the Rev. E. Underwood, rector of St. James Church, officiating, assisted by Rev. M. S. Richardson.

MANLY BENSON

Mr. Manly Benson passed peacefully away at Carleton Corner last Thursday morning, aged 87 years. The deceased was born in Centree, moving to Carleton Corner about 30 years ago. He joined the Centree Baptist Church 45 years ago and soon after became a deacon of that church, continuing in office until his death, and for 18 years he had been secretary of the Carleton school. In politics he was a staunch Conservative and took a deep interest in public affairs. His wife predeceased him two years ago. He leaves five sons: Albert, of Staten Island, N. Y.; Judson and Avar, of Amesbury, Mass.; John E., of Providence, R. I.; and Warden, of Lawrence, Mass.; and one daughter, Mrs. Frederick Rice, with whom he resided. He is also survived by two brothers, Major and William, who reside in Massachusetts, and one sister, Mrs. Mary Clarke, of New York. The funeral took place Saturday afternoon with interment in the Baptist cemetery at Centree, the services being conducted by Rev. M. S. Richardson, pastor of the Irtdgetown Baptist Church. The pall bearers were Bernard Spurr, Frank Fowler, Milledge and Alfred Rice.

MRS. E. THURBER

Leila, wife of Ervin Thurber, died at her home in Freeport last Sunday, aged 36 years. She has been ill for some months following an operation last summer. She was the eldest daughter of Samuel Thurber. Besides her husband and father she leaves to mourn two sons and one brother, R. E. Thurber, of Bear River, as well as two half-sisters and a half-brother.

MR. PHINNEY'S FUNERAL

The funeral of the late John J. Phinney whose death notice appears on page three, took place on Friday.

Rev. Mr. Piper officiated, assisted by Rev. Jabez Appleby, of Middleton.

The "Middleton Quartette" rendered "Good-Night, Beloved" very effectively. The floral tributes were very numerous and very beautiful. The late Mr. Phinney was widely known in middle and western Nova Scotia, greatly loved, and highly respected by all who knew him. He was seventy-two years of age. He was, in politics an ardent Liberal, and in earlier years, a strenuous worker for his party. His death came as a great shock to the whole community. The deepest sympathy is extended to Mrs. Phinney and the family in their bereavement.

WEDDING BELLS

BISSELL—SNOW

A very happy event occurred at the home of Mrs. Margaret Bissell, 11152-89th, Avenue Garneau, Edmonton, on Tuesday evening, December 28th, the occasion being the marriage of Miss Helen Maude, youngest daughter of Captain and Mrs. J. W. Snow, Port Wade, Nova Scotia, to Joseph Wallace Bissell, only son of Mrs. Bissell. The ceremony was performed by Dr. Tuttle. The bride entered the living room on the arm of B. F. Pritchard, to strains of Wagner's Wedding March, played by Miss Thelma Barrington, cousin of the groom.

The bride was prettily gowned in white diaphanous tulle, trimmed with pearls. She wore the conventional veil and carried a bouquet of white roses and maiden-hair fern. The bridesmaid, Miss Deima Snow, wore a gown of maize georgette crepe. Miss Martha Barrington, daintily gowned in white silk voile, was maid of honor, and carried the wedding ring on a tray in the heart of a rose. Gordon L. Flack, M. A., ably supported the groom. Mrs. Bissell, mother of the groom, wore taupe satin with an overdress of georgette crepe and a corsage bouquet of white roses and maiden-hair fern.

During the signing of the register Miss Thelma Barrington sang "Because."

The living room was decorated with white and silver bells and streamers, and the dining room with Christmas bells and streamers. The table decoration were bouquets of pink and white carnations and asparagus fern. A sumptuous wedding dinner was served to about thirty guests.

The young couple received many useful and valuable gifts of silver, linen, china, French ivory and cutlery. Special mention might be made of a clock from Sawridge, S. D., and a unique tray from Mr. and Mrs. Warren and Mr. and Mrs. Evans.

The groom's gift to the bride was a set of silver fox furs; to the bridesmaid, a cameo and pearl necklace; to the maid of honor, a ruby ring; to the best man a wrist watch.

The young couple will leave shortly for their new home at Waterhole, where Mr. Bissell is stationed in the Alberta provincial police. Friends wish them a long and happy married life.

MARRIED FORTY YEARS

A Karsdale correspondent writes: One of the most delightful occasions of the season took place at the home of Mr. and Mrs. Gilbert W. Shainer on Wednesday evening, (12th inst.) It was the 40th Anniversary of their marriage. About 8 o'clock a procession numbering over 60 marched to the door and in response to a knock, Mrs. Shainer appeared. To say that she was puzzled and surprised puts it mildly. However, all were ushered in, and after being seated, James Rice, was appointed chairman. At his request, E. H. Porter, in behalf of those who contributed, presented a purse of twenty dollars to the bride and groom of 40 years, referred to the time of their marriage, to the happy companionship extending over so long a period, the lights and shadows, the joy and sorrow in their experience and hoped that many years of happy married life was yet their portion. Mr. and Mrs. Shainer acknowledged the presentation in an appropriate way. Then followed excellent addresses by Mrs. Heisler, Miss Betts and Mr. Rice. Rev. Mr. Heisler was unable to be present until a late hour owing to a previous engagement, much to the regret of all. Excellent music was then rendered by Miss S. Manning and Miss Milledge McNeil at the organ, with vocal accompaniment by Miss Ruth McNeil and Mrs. Kenneth Young. A splendid collation was then served as only Lower Granville ladies can, and at a late hour the happy company dispersed.

AMONG THE METHODISTS

New Germany is having electric lights installed in the church and parsonage, to the joy and comfort of Rev. A. J. Reynolds, pastor. Though lumbering operations have been suspended causing depression the financial outlook is still good.

Samuel Holden, of Petite Riviere (N.S.), celebrated his one hundredth birthday on Dec. 26, and Mrs. Holden is in her ninetieth year. They were married in 1855, thus having passed the sixtieth anniversary. Both are in good health and the centenarian takes a lively interest in the doings of the world. He has never used tobacco or intoxicants. His hearing is as acute as ever and he reads the daily papers and many books without the aid of glasses. Mr. and Mrs. Holden had five daughters. Three are dead. The two living, are the wife of Rev. Robert Williams, now at Digby Neck, and Mrs. Elizabeth Sperry, with whom the aged people reside.

BELLEISLE

(From an occasional correspondent.)

Mr. J. B. Gesner, of Belleisle, spent the New Year week very pleasantly with relatives and friends at Kingston, returning home on Thursday.

One of those particularly pleasing social affairs that will linger in "Many Moons" in the minds of those who were present, took place at the home of Mrs. Fred Moxey on Tuesday afternoon and evening the 4th inst. We refer to a party given by Mrs. Moxey in honor of her two cousins, the Misses Helen and Gladys Graham, of Lawrencetown, who are spending the New Year with relatives in this place. The afternoon was spent in the playing of games and other amusements suitable for the entertainment of about twenty of Belleisle's pretty little "society buds," followed between five and six by a supper as a hostess like Mrs. Moxey knows that little girls like. The evening, however, proved the best in every way different from any party we ever to before. Gee what a good time, each little girl had taken part in some form of Xmas entertainment and each one in turn stood up on a little platform specially arranged for the occasion and recited sang or read some funny little piece then more games were played, and then bill the "Village Fiddler" having played in all hands broke into a regular old fashioned "hoe down". On the floor could be seen what might well have been interpreted as a tableaux, representing the passing of the old and the beginning of the new—the little lassie of some eleven summers beside one who had passed the three score and ten, sometimes ago, the latter, we are told, displaying an agility that was surprising. At a late hour the party broke up each little guest declaring that she had never had such a good time before and as they bade their hostess good night they were each presented with a little souvenir. Just some Little Jim Crack" to place on the mantel piece or hang on the wall, to remind them from time to time of the right jolly time they had at the Little Girls' Party at Rhoda's.

Among the other callers on "Uncle Israel" New Years were Mr. and Mrs. A. B. Clarke. We hope Mr. Longley will be spared to spend many more as pleasant holidays as those just past and we can assure him that his friendly calls on the editor are always appreciated.

Miss Charlotte Bowly has returned to Truro Normal College. Congratulations to Mr. and Mrs. Frank Balcom on the birth of a son. The High School had a sleighing party to Bridgetown on Thursday evening. Misses Marion Bishop and Bessie Durling have gone to Acadia to take courses in music. Mrs. Stewart Covert, of Massachusetts, is spending some time with Mrs. Chas Covert. Mrs. H. H. Saunders left last week to spend the winter with her sister in Massachusetts. Miss Helen Pearson is paying a visit to her brother, Mr. Homer Pearson, Portland, Maine. Lawrence Bowly, of Halifax, spent the New Year holiday with his parents, Mr. and Mrs. B. Bowly. Miss Violet Banks returned to Framingham, Mass., after spending some time with her mother, Mrs. G. N. Banks. Among the students who returned to Acadia University after spending their vacations here, were Max Saunders, Ewart Longley, Earle Saunders and Llewelyn Bowly.

The Literary Society held its regular meeting at the home of Mr. and Mrs. Eugene Morse, Monday evening, Jan. 10th. One feature of the program was an old-fashioned spelling match.

"UNCLE ISRAEL'S" CHRISTMAS

Mr. I. F. Longley Resides on the Same Farm Formerly Occupied by Great Grand Father

We had a pleasant call this week from Mr. I. F. Longley, of Belleisle, who on account of his affectionate disposition and kindness shown to the young people, is known by many of his acquaintances as "Uncle Israel".

Mr. Longley resides on the same farm formerly occupied by his great grand father, grand father and father, whose names were Israel, Israel, Robert and himself Israel F.

Mr. Longley spent Christmas with his only sister, Mrs. Andrew Walker, at Upper Granville. He received a large number of presents, including a box from Halifax packed with cakes, etc.

On New Years Day Mr. Longley invited Mr. and Mrs. Andrew Walker to spend the day with him. He certainly had prepared for his guests a sumptuous repast which was greatly enjoyed. During the day, however, as at Christmas, boxes and parcels began to arrive and "Uncle Israel" was a happy man, the only regret being a few unoccupied chairs which at a time like this always bring back sad recollections. While the editor had an opportunity of sampling both he is unable to give a decision on the quality of the cake received in the Halifax or Clarence boxes. Both were good.

YOUR GROCER IS NOT A PROFITEER

Have a heart! Your grocer is not a profiteer! He is passing along to you reduced prices, as fast or faster than they come to him. Just because prices on many good things are still high, don't blame him. It is usually the poorest quality of everything that shows the greatest decline.

If he is as good a man as the average, your grocer is still doing his utmost to give you the best value for your money. But don't push him too hard. He is only human. You don't know, but we do, that he is recommending goods that pay him less profit than other well known brands which he might easily persuade his customers to take if he cared to do so.

We know this because he pays us more for Red Rose Tea and sells it at less profit than other teas, so when he recommends you to buy Red Rose Tea, you will know it is because he believes it the best and is willing to take a little less profit for the sake of giving you the best value he can.

We are publishing this because we believe the more our people know of the true facts concerning the profits made by those they deal with, the more generous they will be in their judgments.—T. H. Estabrooks Co., Ltd., St. John, N.B.

STUDENTS' RESIDENCES

(By Stephen Leacock.)

When I was a student at the University of Toronto thirty years ago, I lived, from start to finish, in the conventional boarding houses. As far as I am aware these houses have not, or not yet, been marked with tablets. But they are all still to be found in the vicinity of McCaul and Darcy, and St. Patrick's Streets.

Anyone who doubts the truth of what I have to say may look at them. I was not alone in the nomadic life that I led. There were hundreds of us drifting about in this fashion from one melancholy habitation to another. We lived as a rule two or three in a house, sometimes alone. We dined in the basement. We

Canada's Great Humeral Professor of Political Economy at McGill University. They used to have a brand of soda biscuits in those days in Toronto boarding houses that I have not seen since. They were better than dog biscuits but with not so much snap. My contemporaries will all remember them. A great many of the leading barristers and professional men of Toronto were fed on them.

In the life we led we had practically no opportunities for association on a large scale, no common rooms, no reading rooms, nothing. We never saw the magazines, personally I didn't even know the names of them. The only interchange of ideas we ever got was by going over to the Caer Howell Hotel on University Avenue and interchanging them there.

I mention these melancholy details not for their own sake but merely to emphasize the point that when I speak of students' dormitories, and the larger life which they offer, I speak of what I know. If we had had at Toronto, when I was a student, the kind of dormitories and dormitory life that they have at Harvard, I don't think I would ever have graduated.

The trouble is that the Universities on our Continent are only just waking up to the idea of what a University should mean. They were, very largely, instituted and organized with the idea that a university was a place where young men were sent to absorb the contents of books and to listen to lectures in the classrooms. The student was pictured as a pallid creature, buried under the "midnight oil," his hair face bent over his desk. If you wanted to do something for him you gave him a book; if you wanted to do something really large on his behalf you gave him a whole basketful of them. If you wanted to go still further and be a real benefactor to the College you endowed a competitive scholarship and set two or three more pallid students working themselves to death to get it.

That, as I see it, was about the idea and theory of the Canadian Universities as they were in the course of time and through the plain teaching of circumstances, we have been getting away from that idea. We are beginning to see that the text book and the class room are but a part of the student's life. If they are taken by themselves, in undiluted doses, they probably do more harm than good. They not only injure the student's health but they impair his mind. True education cannot be achieved after this fashion, by shovelling in information. The most that this can ever give is erudition and pedantry, never capacity and genuine acquirement. The typical product of it is the college pedant possessed of a stomach-full of fact but with a mind that is the outlook of a child.

The real process of education consists (as the derivation of the word implies) in bringing out of the mind the inborn capacity that is in it. I think that Horace said something of this sort before. But there is no harm in saying it over again. Since the melancholy days of which I speak, I have had the experience of nearly a quarter of a century of post graduate work and of university teaching. It is a noble profession, and, with the continued aid of the Governors of McGill University, I hope to have another quarter of a century of it at least before I hang my mortar board and sink into the arms of the trustees of the Carnegie Pension Fund. But as a college teacher I have long since realized that the most that the teacher, as such, can do for the student is a very limited matter. The real thing for the student is the life and environment that surrounds him. All that he really learns is the life and environment that surrounds him. All that he really learns is the life and environment that surrounds him.

Students must live together and intimate contact with his fellows. Experience shows that that is how their minds really grow. And they must live together in a rational and comfortable way. They must eat in a glass in the dining room or at a table here and there upon the wall, to remind them between times of the men who went before them and left a name worthy of the memory of the college. If a student is to get from his college what it ought to give him, a college dormitory with the life in common that it brings is his absolute right. A university that fails to give it to him is cheating him.

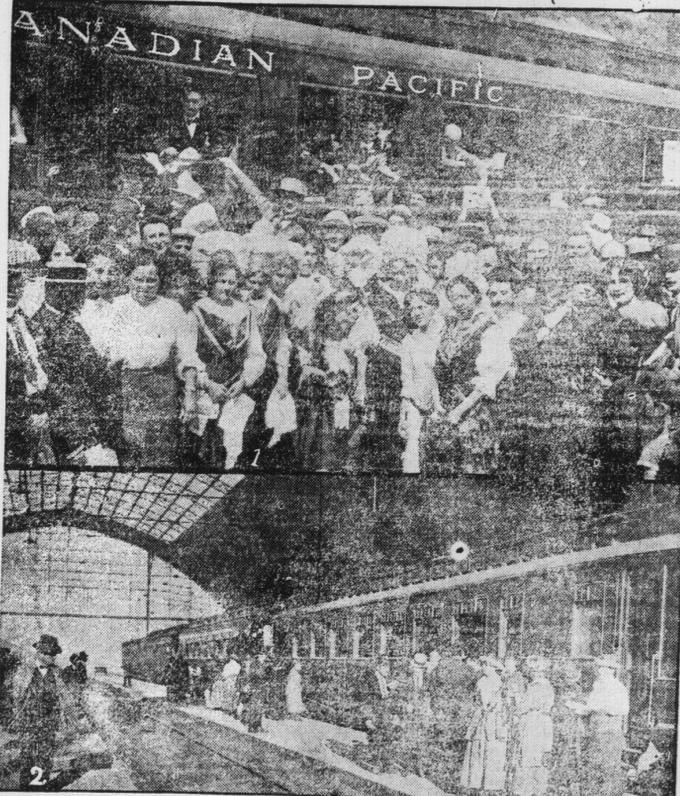

If I were founding a University, and I say it with all the seriousness of which I am capable (just think of that), I would found first a smoking room; then after that, or more properly with that, a decent reading room and a library. After that, if I still had money over that I couldn't use, I would hire a professor and get some text books.

We are conducting a campaign—just now to raise, or lift five million dollars for McGill University. I have a notion that we are going to get it. And it is the duty of those of us who are in the University to show to our generous friends outside what it is that we mean to do with it when we have it.

To my mind the greatest of all our needs is the building of college dormitories to supply to our students a wider college life than we can give them now. There is no nobler object of beneficence than this. The memory of one who is lost, than that the name and memory should be inscribed, cut deep in stone, over the gate-way of a College Dormitory at McGill.

THE PROFITABLE SKUNK

The advantages of the artificial raising of the fox, beaver, and muskrat, specifically, have been pointed out, and here it is proposed to devote a few words to that much abused animal, the skunk. The fact that the animal is to be found in practically every part of the American continent, and that the pelt has sold as high as ten dollars, is sufficient to attract the attention of farmers and induce a study into the feasibility and advantages of the industry.

Many years ago Ernest Thompson Seton, the well known nature writer and naturalist to the Manitoba Government, advocated a more extensive artificial propagation of the skunk, and himself operated a most successful ranch of this kind. Because largely of a prejudice against the little animal and its method of defense, skunk farming has never been firmly established in Canada as and possibilities are so obvious so have demonstrated the feasibility of establishing the industry firmly and profitably in the Dominion.

The skunk is widely found over the Canadian Dominion in every corner and nook where it can find food suited to its needs, and notwithstanding the fact that it is persistently hunted, trapped and worried by dogs, it continues to thrive and multiply in close proximity to settlements. The animal is neither timid nor vicious and is practically fearless, devouring large quantities of insects including grasshoppers, crickets, beetles and caterpillars. In captivity, its feeding is very economical, the diet consisting of meat, fish, cooked cereals, vegetables and milk. The food problem is most easily solved where the ranch is established within reach of a hotel. The contents of the daily garbage can well feed a considerable number.

The skunk multiplies rapidly with litters of from six to twelve, the period of gestation being eight weeks. Descending from eight to ten when the animals are five weeks old and all possibility of future nuisance may be eliminated, but in domestic raising this is not really necessary contrary to general belief.

As the animals become remarkably tame and friendly with those handling them and never bring into play the powerful weapon nature has given them except when badly frightened by some intruder. Skunk ranching could be successfully carried on in practically every section of Canada for the animal is indigenous to every part and would find his natural conditions wherever a farm was located. In wire enclosed pens of suitable land the rows and dens are made their own burrows and dens and need little attention beyond feeding. The demand for pelts is steady and general, and the high prices prevailing during the past few years make skunk ranching a very profitable concern and suggest a successful future for any development along these lines.

The Cause of Colds

Men who work indoors—in offices, stores, factories and warehouses, are in constant danger of contracting coughs and colds, through over or under heated buildings and cold draughts. Their most reliable protection is

RAN INTO A STORM

Schooner Roxana Burton From Bay of Islands to New York

Enroute from Bay of Islands, Nfld., to New York with a cargo of frozen herring and mackerel, the three masted schooner Roxana Burton, Capt. Burton, put into Halifax Sunday for a supply of fresh water, and is at Campbell's wharf. The vessel left Bay of Islands last Wednesday and on the trip to Halifax encountered heavy weather. On Thursday night she ran into a gale that did some damage on deck, tearing away a stairway, as well as smashing a dory. Despite the heavy weather the vessel made a good run. While docking Sunday evening the bowsprit of the Roxana Burton, which has auxiliary power, crashed into the shed on Bissett's wharf and was damaged somewhat. The Roxana Burton was launched at Church Point, Digby Co., during 1920.

FRAGILE, PALE AND MISERABLE

The Malancholy State of Thousands of Bloodless Children and Young Girls

How often do you hear the remark, "She is very delicate?" How often it means that some young women is living in misery, suffering from periods of prostration, dizziness loss of appetite and disordered digestion. Headaches afflict her at intervals; pain in the back and limbs follow any exertion. She is never really well.

This fragile state of health, this lack of vitality, calls for prompt treatment. The blood must be nourished and made strong enough to vitalize the system that is so lacking in energy. In such cases Dr. Williams Pink Pills have proved remarkably successful in making the new, rich, red blood necessary in restoring tone to the system. Mrs. L. M. Duncan, South Mountain, Ont., tells of the wonderful benefit Dr. Williams Pink Pills made in the case of her young daughter. She says: "It is only right that I should let you know of the good derived from the use of Dr. Williams Pink Pills by our girl of eleven years. She was always very thin and not gaining in weight. Her appetite was poor and she had no desire for wholesome food. Finally we decided to give her Dr. Williams Pink Pills. After taking one box, she went away on a three weeks vacation, taking three boxes of pills with her, which she took regularly while she was away. When she returned home we were surprised and delighted to see how well she looked, and to find that she had gained seven pounds in weight. She had a much better color and her appetite had improved so that she was always ready for her meals. She continued using the pills until she had taken seven boxes, and the great improvement they made in her condition was noticed by many around here. I can only add that I believe Dr. Williams Pink Pills, are a splendid medicine."

The best time to begin taking Dr. Williams Pink Pills is the moment you feel the least bit out of sorts. The sooner you do so the sooner you will regain your old time energy. You can get these pills through any medicine dealer or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

CASTORIA

Fletcher's Castoria is strictly a remedy for Infants and Children. Foods are specially prepared for babies. A baby's medicine is even more essential for Baby. Remedies primarily prepared for grown-ups are not interchangeable. It was the need of a remedy for the common ailments of Infants and Children that brought Castoria before the public after years of research, and no claim has been made for it that its use for over 30 years has not proven.

What is CASTORIA?

Castoria is a harmless substitute for Castor Oil, Paregoric, Drops and Soothing Syrups. It is pleasant. It contains neither Opium, Morphine nor other narcotic substance. Its age is its guarantee. For more than thirty years it has been in constant use for the relief of Constipation, Flatulency, Wind Colic and Diarrhoea; allaying Feverishness arising therefrom, and by regulating the Stomach and Bowels, aids the assimilation of Food; giving healthy and natural sleep. Through the Kettle Valley

Southern British Columbia, with its placid lakes that mirror fruitful shores, the orchards of the Okanagan Valley, the Grand Forks Valley and a country, rich in mineral and forest wealth, are made accessible by the Kettle Valley railway which links a vast extent of British Columbia with the Pacific Coast through a route of rare scenic beauty. At the southern end are linked the Kootenay and Arrow lakes, the route offering all the charm of mountain, lake, river, cataract, ravine and soft and rounded landscape of cultivated slopes.

Leaving the junction at Hope, you travel through nature's wonderland of snow-capped mountains with evidence of man's science in the Quintal Tunnels, a series of five tunnels in a direct line with the Coquihalla river, spanned by steel bridges, zigzagging between each of the tunnels. The rushing streams and innumerable waterfalls everywhere speak of the marvellous water power awaiting to be harnessed for man's needs. Winding up to the Coquihalla Summit, 3,300 feet above sea level, the line passes through the towns of Othello, Lear, Jessica, Portia, Iago, Romeo, Juliet, following the Shakespearean tradition.

Princeton, the next spot of interest is a renowned mining town of twenty years ago. It is located at the junction of two mountain streams, Similkameen, meaning "Swift Flowing Water" and Tulameen (Red Water). The Indian nomenclature, in all its euphony, has been retained and native legends abound. The late Pauline Johnson, Indian poetess in her "Indian Legends" tells of "Red Water," Tulameen, said to be haunted by the spirit of an Indian woman who "gave her life for her lover."

Coalport Collieries are passed where a tunnel three-quarters of a mile into one seam, gives an almost inexhaustible supply of high grade coal. There are at least ten million tons of coal "blocked out" and ready for mining and shipment.

The town of Jura is another interesting point, as the home of the famous old "Bill Miner," notorious

(2) The Quintal Tunnels, Near Hope, on Kettle Valley Railway.

train robber who, as Bill Edwards, was known as a kindly citizen who studied his Bible. He was sent to British Columbia penitentiary in 1903, for twenty years, for holding up a train, and escaped in 1905. He was again heard of as a prisoner in Atlanta, Georgia, where he died in the State penitentiary.

Skirting the orchard covered benches, the valley is unfolded where nestles the town of Pentiction at the foot of Okanagan Lake. Viewed from the hills, golden in the sunshine, it seemed the desired resort, shine, it is a resort desirable in summer and has proved as attractive in winter.

Beyond Pentiction, the Kelowna Valley comes into view, with orchard covered slopes, giving a picture of settled prosperity. Ascending to the Kettle Summit, an altitude of 4,200 feet is reached, giving a vista of ravines, silvery streams and valleys packed with purple bloom. The Kettle river drains an area of 4,260 square miles and is 170 miles long. There is a considerable area of good bench lands, suitable for agriculture, while portions are heavily timbered and lumbering is an important industry. The total drive of one year on the Kettle and its tributaries, exceeded twenty million feet.

FORESTS OF CANADA ARE SOURCE OF RICH REVENUE

Canada's 225 million acres of merchantable timber is the second largest asset of her natural resources wealth. The bulk of this timber is within easy reach of tidewater. Nova Scotia, New Brunswick and British Columbia can almost dump their logs in the ocean, while Quebec and Ontario have the St. Lawrence River for a path to the sea.

In 1908 the greater part of Canadian lumber exports went out in the raw state, only a little over one-third was manufactured in Canada. The next ten years saw a strong and continued increase in industrial development and by 1917 the tables had quite turned. In that year more than 70% of Canada's lumber exports were manufactured and less than one-third left the country in a raw state.

Ever increasing demand for pulp-wood and paper is responsible in large measure for this rapid development. American imports of Canadian woodpulp (all kinds) for four months, ending July 31st, 1920, amounted to \$20,839,881. According to latest statistics Canada's available supply of pulpwood is 901,000,000 cords and covers 350,000 square miles. Over a third of this spruce and balsam stands in the eastern provinces, convenient to the eastern states with their many newspapers and publishing houses. It is estimated that, at the present rate of cutting, this supply will hold out for 62 years. Strict cutting regulations, wise conservation and reforestation plans are looked to prevent the annihilation of Canadian forests and lumbering industries.

British Columbia's woods are attracting much foreign capital. American money is going into new pulp and paper mills on the Pacific Coast. Approximately, 85% of all capital invested in the paper pulp industry in Canada is American. An English syndicate is building a \$250,000 furniture factory in British Columbia. Box factories flourish all over the province, the small fruits, vegetable, honey and poultry ranches of the southern part of the province need countless crates and boxes for getting their produce to market. British Columbia's strategic situation for shipping to Pacific Coast ports and the Orient, its numerous good harbors and the fact that the climate permits all the year round lumbering have not been overlooked by capital seeking investment.

New Manager For C.P.R. Hotels

Mr. Frank L. Hutchinson, after many years service has resigned his position as manager in chief of Canadian Pacific hotels in Montreal, Quebec and other business, and Mr. Andrew Allerton is appointed general superintendent of Canadian Pacific hotels with offices at Montreal.

FRANK L. HUTCHINSON, Retiring Manager-in-Chief of C.P.R. Hotel Dept.

These announcements have been made in a circular issued by Mr. C. E. E. Usher, passenger traffic manager of the C. P. R.

ANDREW ALLETON, New Chief of Hotel System.

Mr. Allerton, who is well known to Montrealers through his success as manager of the Algonquin Hotel, St. Andrews by the Sea, and the Place Viger Hotel, Montreal, and the Algonquin.

Mr. Hutchinson, who is understood to have purchased a large farm in Vancouver Island, where he intends to reside, was born in London, Ontario, on August 10th, 1869. He entered the service of the Bank of Montreal in 1885 and remained there until 1901 when he became a member of the Montreal Stock Exchange. In March, 1908, he joined the C. P. R. service as assistant to the manager, Chateau Frontenac, Quebec, becoming manager in March, 1909. In June, 1911, he became assistant to the manager in chief of hotels, Montreal, and in April, 1913, manager of the Hotel Vancouver. In July, 1913, he resigned from the C. P. R. to manage the Windsor Hotel in Montreal but in April, 1915, he rejoined the service to become manager in chief of hotels.
