introduction

Canada, a world leader in the manufacture of health care products, has established over the years a reputation for innovation, quality and competitiveness in virtually every sector of the health care market. Canadian hospitals and institutions are world-renowned for their high standards and levels of efficiency, and Canadian industry has responded in kind.

If you seek a reliable, stable source of high-quality health care products that are attractively priced, you need look no further. Consider Canada.

For the first time, a directory of Canadian manufacturers who export health care products has been conveniently provided under one cover. The companies included in this catalogue range from large manufacturers to the small, specialized concerns. However, they all share one thing in common: their dedication to providing hospitals, institutions, retailers, nursing homes, and individuals with the best-quality products at the most reasonable price.

How to Use this Directory

The search for health care products can often be a time-consuming and arduous task. However, this directory has been especially designed to allow the reader to identify easily those companies that are of interest. The directory has been indexed in two ways:

1 Alphabetical Listing. This section includes all the companies with accompanying corporate/ product profiles, and address and contact information.

2 Product Category Cross-Index. This section identifies all the product categories and lists those companies that manufacture products within each product category.

For Further Information

If you or your organization are interested in obtaining further information regarding the companies and products in this catalogue, please feel free to contact the company directly or contact the Canadian trade commissioner at the Canadian embassy, high commission, consulate general or mission nearest you. You are invited to contact the following:

Health Care Products
U.S.A. Marketing Division (UTW)
Department of External Affairs
125 Sussex Drive
Ottawa, Ontario
Canada K1A 0G2

NOTE:

This publication is designed to acquaint foreign buyers with Canadian manufacturers of health care products. The directory is not intended to be a definitive listing of all Canadian health care product manufacturers, although every effort has been made to include most Canadian exporters. The product information contained in this directory was provided by respondents to queries sent to all known manufacturers of health care products in Canada.

The gamma cell 1000 blood irradiator produced by AECL Radiochemical Company, Industrial Irradiation Division, is designed for safety and reliability in service.

world's leading supplier in each of these product categories. Its equipment in combination with other AECL products is in use in over 50 countries. AECL Radio-chemical offers a total package of equipment and isotope sources to the market. This includes consultation services, custom design, manufacturing and the installation of its products, as well as training and sales services.

Orthopedic support canes produced by AmbuTech Inc. offer outstanding comfort and stability, accurate length adjustment and attractive, stylish appearance.

AmbuTech Inc.
6 - 1329 Niakwa Road
Winnipeg, Manitoba
Canada R2J 3T4

Tel: (204) 255-8934

Jon Breen
President

AmbuTech Inc., founded in 1984, specializes in the design and manufacture of orthopedic aids for the handicapped. In particular, AmbuTech manufactures canes and accessories for institutions servicing the blind and visually impaired. Using the HELIX adjustment system, AmbuTech canes offer enhanced comfort and stability, greater accuracy in length adjustment as well as stylish, non-institutional appearance.

Arlink Industries, Division of
Arbell Inc.
P.O. Box 215
Burlington, Ontario
Canada L7R 3Y2

Tel: (416) 632-9494
Telex: 061-8408

A.W. Hart
General Manager

Arlink Industries was formed in 1974 as the manufacturing affiliate of Arbell Inc. Today, the company is probably the best known Canadian designer and manufacturer of versatile workbenches, workstations and related accessories specially suited to the diverse needs of the laboratory environment. Unlike the many types of conventional stamped and welded industrial benches, Arlink designs have tubular steel components, can be assembled with few tools, offer a wide choice of standardized components, have simple classic lines and are easy to clean and maintain.

The Arlink Series 82 was conceived and developed for laboratories and industries that demand a greater degree of adaptability to accommodate the requirements of

new projects or rapidly changing technologies and the need for the more efficient use of space.

AVA Medical Products of
Canada, Inc.
1215 Walker Road
Windsor, Ontario
Canada N8Y 2N9

Tel: (519) 256-3161
Telex: 064-77889

Thomas Amormino
President

AVA Medical Products of Canada Inc., a Canadian-owned company, manufactures a complete line of disposable hypodermic needles and disposable three-piece plastic syringes. AVA hypodermic needles are produced at the Windsor, Ontario plant.

AVA uses only the best of materials and technology to ensure the highest quality in its products that meet or exceed stringent international standards. All AVA needles fit either slip tip or luer lock tip syringes and are triple sharpened and coated to provide the smoothest tissue penetration. AVA needles are made with the minimum allowable wall thickness for easy infusion and minimum patient trauma.

B.M.G. Pharmaceutical
Products Inc.
1450 Nobel Street, Unit 19
Boucherville, Quebec
Canada J4B 5H3

Tel: (514) 641-1262

Marc Guay
President

B.M.G. Pharmaceutical Products Inc., a Canadian-owned company established in 1983, manufactures a dental rinse

which, if properly used, helps to prevent tooth decay. The product comes in handy 5 mL or 10 mL pouches and is ideal for use in hospitals or schools. The B.M.G. dental rinse is easy to apply, has low loss of material, and contributes to the development of better dental health.

Bell Textile products include the Unitrux, laundry bags, basket liners, laundry carts, cart covers, laundry slings, dry cleaning laundry nets, utility carts, and hamper stands up to a four-bag model.

All Bell Textile products are lightweight, durable and available in a variety of sizes and styles.

Biolmplant Canada Inc.
2550 Vanier Boulevard
Saint-Hyacinthe, Quebec
Canada J2S 6L7

Tel: (514) 774-3101
Telex: 830524

Roland Côté
Sales and Marketing Manager

Biolmplant Canada Inc. manufactures heart valves made of porcine tissue. Biolmplant is located near a large pig slaughterhouse to ensure that the best tissues are selected and rushed to its facilities for immediate treatment, tissue denaturation and mounting. Tissue of porcine origin offers many advantages. Foremost among these is the reduced risk of thromboembolism and the avoidance of permanent post-operative anti-coagulation therapy.

Biolmplant's cardiac porcine bioprosthesis has exhibited superior clinical performance in over 10,000 implants for more than eight years. The company's export sales are conducted through distributors.

Bioself Canada Inc.
1101 Victoria Street
Saint-Lambert, Quebec
Canada J4R 1P8

Tel: (514) 465-9010
Telex: 055-60281

Michel Racine
General Manager

Bioself Canada Inc., established in 1982, produces the BIOSELF 110 fertility indicator that enables women to easily identify the fertile and infertile periods of their menstrual cycle. The BIOSELF 110 is available with a print-out option.

Biosig Instruments Inc.
5471 Royalmount Avenue
Montreal, Quebec
Canada H4P 1J3

Tel: (514) 733-3362
Telex: 05-826653

Rob Poirier
Director of Marketing

Biosig Instruments Inc. is an international company with over 10 years' experience in the design and manufacture of biomedical electronics. Biosig designs and manufactures heart rate monitors for all applications, muscle analyzers, EMG monitors, anti-tension devices, anti-headache devices and exercise equipment.

Biosig brand names include Insta-Pulse, Tele-Pulse, Electronic Gym, Sportwatch, Mini Insta-Pulse, Antense, Antache and Exerlopers.

Bomem Inc.
625 Marais Street
Vanier, Quebec
Canada G1M 2Y2

Tel: (418) 683-1707
Telex: 051-3438

J.N. Bérubé
Marketing Manager

Bomem Inc., a Canadian-owned company established in 1973, manufactures Fourier transform (FT) spectrophotometers that offer the highest performance levels available on the commercial market. The Bomem DA3 Series, a new class of high performance FT spectrophotometers, is a complete modular system that reflects the latest advances in spectroscopy and data processing technology.

Based on Bomem's Dynamic Alignment the DA3 Series offers accurate band and line shapes and high sensitivity; wide spectral bandwidth; accurate long-term reproducibility of spectra; high resolution; and immunity to temperature and vibration.

Brant Packaging and Mfg. Ltd.
426 Elgin Street
Brantford, Ontario
Canada N3T 5V7

Tel: (519) 752-4369

Brenda Graham
Office Manager

Brant Packaging and Mfg. Ltd. are makers of Limited Wear garments for use in hospital operating rooms and medical laboratories. Produced in Canada, Limited Wear garments are shaped from Tyvek, a tough but soft, lightweight, non-woven DuPont fabric that will resist tearing, snagging and puncture. Limited Wear garments are virtually unaffected by most organic and inorganic chemicals.

Limited Wear garments cover the full range of protective clothing required in hospitals, from operating gowns, lab coats, coveralls and scrub suits through to shoe covers and bouffant and technique caps.

Broda Enterprises Inc.
1 Adam Street
Kitchener, Ontario
Canada N2H 5P6

Tel: (519) 578-9630

Dr. Brotherston
President

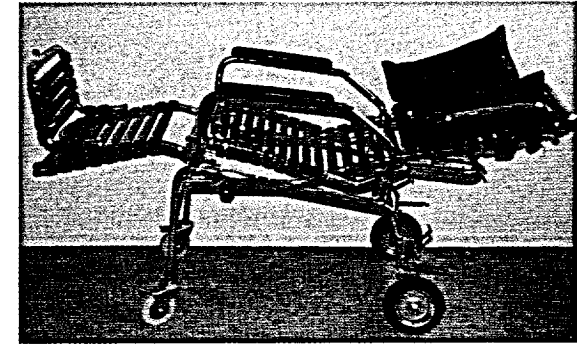

Broda Enterprises Inc., a Canadian-owned company established in 1981, develops, manufactures and markets a complete line of non-powered health care chairs that increase the mobility of the non-self ambulatory, long-term disabled adults and the frail elderly.

The Broda Seating System is engineered for the human anatomy and provides comfort, simplicity of operation, and durability in the institutional environment. The Broda line of chairs includes fixed bases, glider-style rocking chairs, straight chairs, and wheeled Run-A-Bout geriatric style chairs.

The agitated patient or stroke victim can be transported with ease and comfort in the deep-wedge Wing Chair Run-A-Bout manufactured by Broda Enterprises Inc.

The bedridden enjoy comfortable mobility in the Lounger Run-A-Bout chair produced by Broda Enterprises Inc., complete with wing frame and pillow and such options as foot support and removable arms.

Brytech, Division of Bryenton and Associates Inc.
203 Colonnade Road
Nepean, Ontario
Canada K2E 7K3

Tel: (613) 727-5800

Earl Bryenton
President

Brytech, a Canadian-owned company established in 1982, manufactures the revolutionary new Sensory 6, an electronic travel

aid that serves as a mobility device for the blind. The Sensory 6 consists of eyeglasses, earphones and a compact electronics case.

The Sensory 6 emits ultrasonic waves that detect objects in their path up to 3.5 m (12 feet) away. When an object is found, the Sensory 6 produces a tone in the earphones, that rises in pitch as the obstruction is approached. The Sensory 6 helps detect large or small objects in order to locate, or to avoid them. The Sensory 6 combined with a primary aid, such as a cane, greatly improves the mobility of its users.

The new Sensory 6 electronic mobility aid manufactured by Brytech, Division of Bryenton and Associates Inc., for the blind, signals the presence of an object in the path of the blind person by emitting a tone in the earphones.

Burrowes Manufacturing Ltd.
347 Sorauen Avenue
Toronto, Ontario
Canada M6R 2G5

Tel: (416) 534-6327

Blake Marquis
Sales Manager

Burrowes Manufacturing Ltd., a Canadian company established in 1910, has been involved in the fabrication of high-quality steel furniture for many years. In its 50,000 sq. ft. facility in Toronto, the company manufactures vertical and horizontal map and plan storage cabinets; storage cabinets for microfilm, microfiche, aperture cards and index cards; small parts storage cabinets; and custom cabinets designed to exacting client specifications.

Caledon Laboratories Ltd.
40 Armstrong Avenue
Georgetown, Ontario
Canada L7G 4R9

Tel: (416) 877-0101

William Cookson
Vice-President, Marketing

Caledon Laboratories Ltd., a Canadian company founded in 1971, specializes in the purification of solvents.

Caledon uses a variety of batch and semi-continuous distillation units constructed of glass and glass-lined steel for the purification of approximately 50 different solvents. Azeotropic distillation, together with several unique physical and chemical purification techniques are utilized to produce ultra high purity solvents that are individually lot analyzed in batches of up to 2,000 litres. As well, Caledon's production process can accommodate special customer requirements.

Canadian Bioclinical Ltd.
81 Finchdene Square, Unit 1
Scarborough, Ontario
Canada M1X 1B4

Tel: (416) 293-4955
Telex: 065-25422

Dr. Jeremy Clapp
President

Canadian Bioclinical Ltd. was originally incorporated in 1976 as Radio Immuno Assay Inc. The company manufactures products used in diagnostic laboratories. Although the main product line is liquid and coated tube radioimmunoassays, Canadian Bioclinical now produces enzyme-based immunological tests for both the medical and veterinary laboratories.

The biological containment hoods manufactured by Canadian Cabinets Company Limited ensure a high degree of user/product protection for the handling of low to moderate risk biological agents.

Canadian Bioclinical also supplies highly purified proteins that are used by scientists to mix their own diagnostic reagents. In addition, the firm offers custom iodinations and enzyme coupling to proteins.

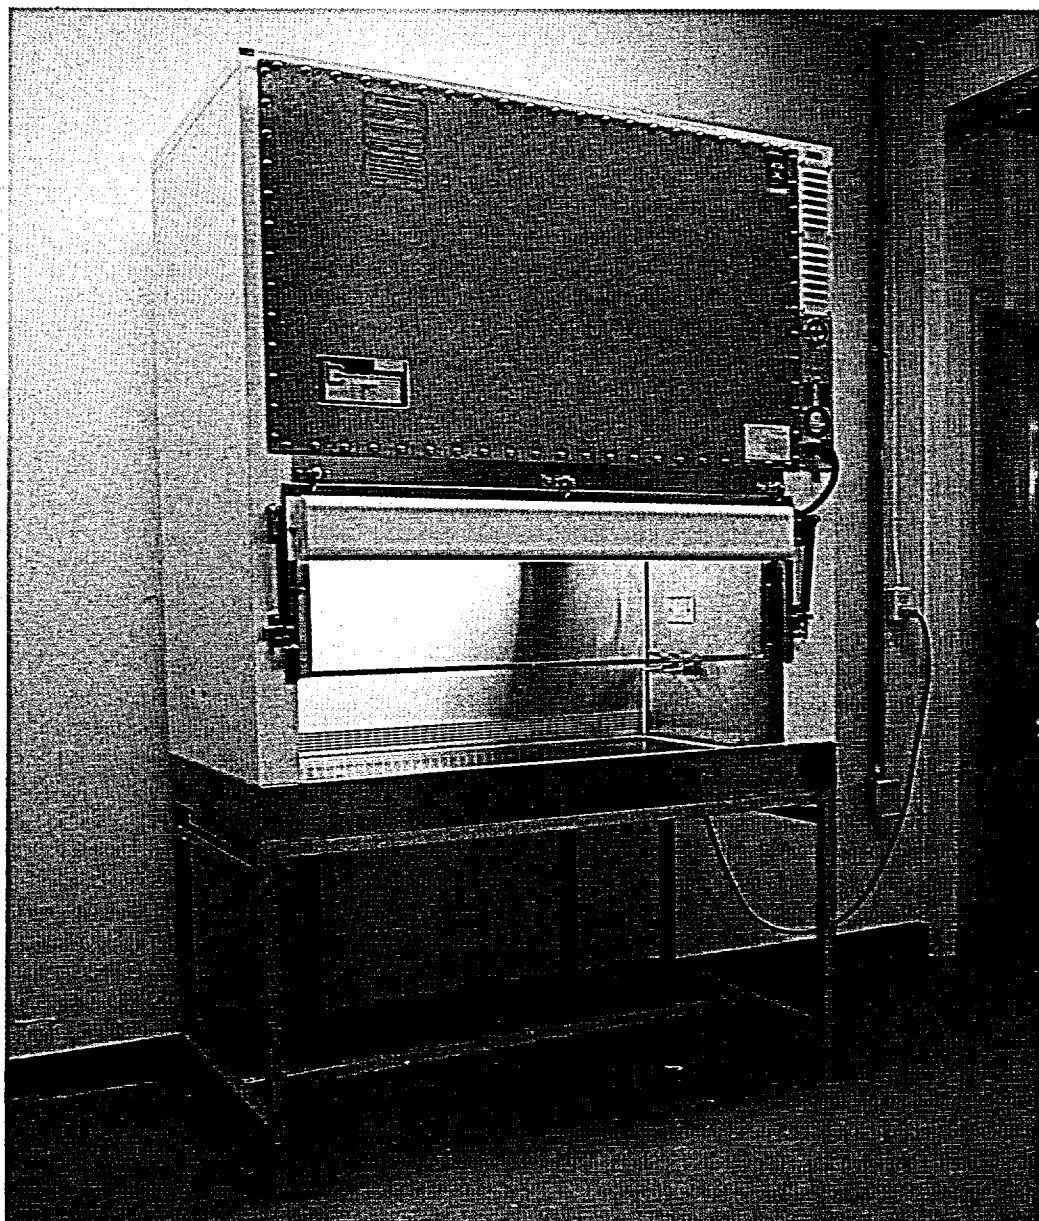

Canadian Cabinets Company Limited
25F Northside Road
P.O. Box 11336 Station H
Nepean, Ontario
Canada K2H 7V1

Tel: (613) 829-1433
Telex: 053-3590

Diane Seguin
Marketing Manager

Canadian Cabinets Company Limited, incorporated in 1968, manufactures a wide range of environmental air control equipment. The firm has developed high quality products for use in such diverse fields as life sciences, low level chemical analysis, bio-engineering, pharmaceutical production and packing, animal care, agricultural laboratories and radioisotope handling.

The product line from Canadian Cabinets includes clean air workstations; biological containment hoods; fume hoods; glove boxes; HEPA filter ceiling modules, pathogen containment facilities and toxic chemical laboratories.

The Canadian Mobilization Table, developed by Cardon Rehabilitation Products Inc., is one of the most therapeutically efficient units on the market.

Canadian Odor Control
68 Broadview Avenue
Toronto, Ontario
Canada M4M 2E6

Tel: (416) 469-1024

Stanley E. Grizzle
Vice-President, Marketing

Canadian Odor Control, a Canadian-owned company incorporated in 1981, manufactures non-toxic, odor eliminating products for the health care industry. The company currently markets liquid, solid and powdered deodorizers as well as a "super-absorbant" for cleaning up vomit and spills and a biocide for eliminating bacteria including legionella from air conditioners and humidifiers.

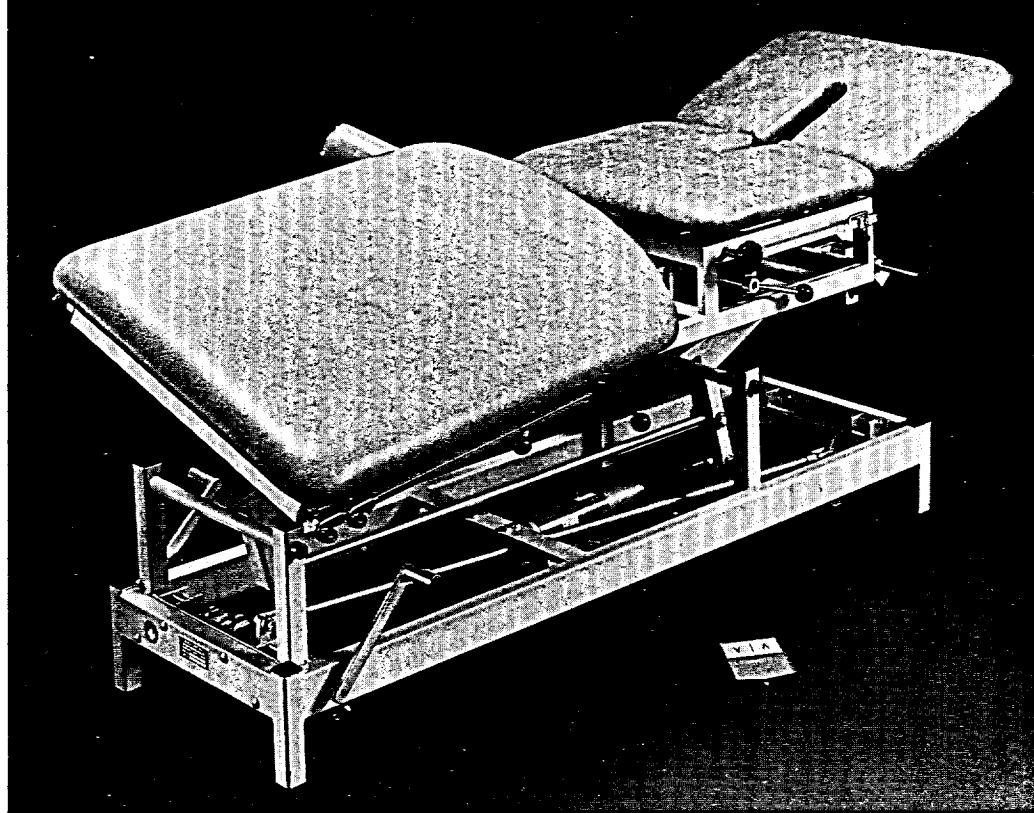

All Canadian Odor Control products are available through distributors.

Canadian Technical Tape Ltd.
455 Côte Vertu Road
Montreal, Quebec
Canada H4N 1E8

Tel: (514) 334-1510

Paul Cohen
Vice-President, Sales

Canadian Technical Tape Ltd., a Canadian-owned company established in 1950, manufactures a wide variety of tapes for the health care industry. These include autoclave tape for sterilization purposes, cloth tape for bandaging and masking tape.

Cardon Rehabilitation Products Inc.
3206 Wharton Way
Mississauga, Ontario
Canada L4X 2C1

Tel: (416) 625-6217

C.E. Cardon
Manager

Cardon Rehabilitation Products Inc., a Canadian-owned company established in 1977, specializes in physical medicine products. With a mandate to become a leader in this field, manufacturing facilities were established in 1979 to allow the company's staff to innovate and develop a new Canadian approach to manipulative techniques for the orthopedic therapist. Thus, the acclaimed Canadian Mobilization Table was designed and engineered. This table allows accurate localization of the vertebral segment, precision and versatility of technique, absolute control of the mobilization forces, and excellent stability for manipulation.

Cardon also manufactures the Canadian Training Therapy Pulley System that assists the therapist in providing appropriate exercise to all parts of the body through specific positioning of the patient.

Cartier Chemicals Ltd.
445 - 21st Avenue
Lachine, Quebec
Canada H8S 3T8

Tel: (514) 637-4631
Telex: 05-821694

P. Katountas
Manager, Export

Cartier Chemicals Ltd., a leader in the chemical specialties field for over 45 years, produces industrial and institutional products of which hospital germicides are a major component. The company exports both finished products and chemical subassemblies for high-quality local manufacture.

The Cartier Chemicals germicidal products include quaternary, phenolic, pine oil and hand soap systems. Its maintenance products are waxes, strippers, cleaners, sealers and others.

CHEMBIOMED Ltd.
11145 - 87th Avenue, 16th Floor
Edmonton, Alberta
Canada T6G 0Y1

Tel: (403) 432-2053
Telex: 037-3886

Dr. J. Barrington-Leigh
Vice-President, Marketing

CHEMBIOMED, incorporated in 1977, is a biotechnology company that is experiencing growing success in export markets. CHEMBIOMED has capitalized on the carbohydrate chemistry research arising from the laboratories of the world-renowned chemist, Professor Raymond Lemieux, and his associates. The company synthesizes biologically active carbohydrates in highly purified form, to allow the development of unique diagnostics and therapeutic products.

CHEMBIOMED products include SYNCLON™ — blood typing reagents; SYNTAGEN™ — synthetic oligosaccharides; SYN-SORB™ — specific adsorbents for the adsorption and/or isolation of blood group antibodies; and BIOSYNSORB™ cartridges — biocompatible immuno-adsorbents suitable for the direct removal of plasma of specific antibodies.

Christopher Portway & Associates Inc.
P.O. Box 610
Pickering, Ontario
Canada L1V 3T3

Tel: (416) 839-8235
Telex: 06-981490

Christopher Portway
President

Christopher Portway & Associates Inc., established in 1978, is a Canadian-owned company with many years of service in architectural specialities. The SYSTEM 200 cubicle track, manufactured in Canada, incorporates an anodized aluminum extrusion that offers versatility in both ceiling mounted

and suspended installations. SYSTEM 200 accommodates building variables such as ceiling heights, the positions of doors, windows, and floor obstructions, and can be used in combination with modern reflected lighting systems. The SYSTEM 200 is also suitable for such installations as shower units and changing rooms.

Coldstream Products of Canada Ltd.
1001 Regent Avenue West
Winnipeg, Manitoba
Canada R2C 4M2

Tel: (204) 669-1201
Telex: 07-57152

Bill Smith
Product Manager

Coldstream Products of Canada Ltd. is a Canadian-owned company established in 1949 with dealers and distributors coast to coast. The company manufactures a wide variety of refrigeration units as well as custom-built buildings using the Perma-Join Building Panels system. Specifically, Coldstream produces blood bank refrigerators, mortuary refrigerators and food service equipment for the health care industry. All Coldstream products are known for their craftsmanship and high quality.

Concord Elevator Co.
7389 Kimbel Street, Unit 2
Mississauga, Ontario
Canada L4T 3M6

Tel: (416) 743-5440

Richard Piatti
Chief Executive Officer

The Concord Elevator Co., a wholly Canadian-owned company established in 1978, specializes in serving the increasing demand for elevating devices for the handicapped.

Through its dealership across the country, Concord offers residential and commercial elevators for the disabled, stair-platform lifts, stair-chair lifts, porch lifts and freight elevators.

Connaught Laboratories Limited
1755 Steeles Avenue West
Willowdale, Ontario
Canada M2R 3T4

Tel: (416) 667-2717
Telex: 06-22184

Robert Sloan
International Bid Manager

Since 1914, Connaught Laboratories Limited has been a world-leading developer and manufacturer of biologicals including bacterial and viral vaccines, blood products and diagnostics. Connaught also produces a number of biologicals for laboratory use.

Connaught is a wholly-owned subsidiary of the Canada Development Corporation, which is an international corporation. Its headquarters, including production and research, are located in Canada, with additional production facilities in the United States.

Cyberfluor Inc.
179 John Street, 4th Floor
Toronto, Ontario
Canada M5T 1X3

Tel: (416) 598-6375

Lijana Polensek
Product Manager

Cyberfluor Inc., incorporated in 1985, is majority-owned by the HSC-Research Development Corp., which was established in 1982 by the Hospital for Sick Children in Toronto, Ontario.

Cyberfluor has developed a fluorescence immunoassay system that includes the immuno-analyzer, a robotic sample preparation system, assay kits for drugs, hormones, viruses, etc., and com-

puter software to operate all components and manipulate data from the assays. The immunoanalyzer is based on the principle of Time-Resolved Fluorescence Immunoassay (TR-FIA).

Dafoe & Dafoe Inc.
P.O. Box 365
Prince Charles Road
Brantford, Ontario
Canada N3T 5N3

Tel: (519) 759-5952
Telex: 061-81148

Garry Surette
Institutional Sales

Founded in 1975, Dafoe & Dafoe Inc. services the retail industry with cost-effective personal hygiene products under store brand and generic brand packaging. The primary Dafoe & Dafoe products are disposable, one-piece, hour-glass-shaped adult diapers; disposable two-piece adult diapers worn with an elastic mesh pant; disposable baby diapers; sanitary pads; breast/nursing pads; and cotton tipped applicators.

Darnell Inc.
7 Staffordshire Place
Toronto, Ontario
Canada M8W 1T1

Tel: (416) 255-8563
Telex: 06-984-568

John Hamilton
Chief Financial Officer

Darnell Inc., established in 1921, is a Canadian-owned manufacturer of industrial and institutional castors and wheels under the brand name DARCOR. From its manufacturing facility in Toronto, Ontario, Darnell produces castors and wheels for crash carts, CSR carts, ICU carts, I.V. poles, hospital beds, commode chairs, incubators, cribs, office chairs, tables, laundry carts, and food carts. The DARCOR Neoprene wheels provide unparalleled durability and performance.

Darnell products are available in the U.S. from its subsidiary, Darcor, in Brea, California.

DEB Swarfega Inc.
Thompson Road

Established in 1973, Electro Therapeutic Devices Inc. is a distributor and manufacturer of electro therapy devices. The company produces the ACCU-O-MATIC VM2, which has both diagnostic and therapeutic capabilities, and operates on microampere current stimulation. It is used in pain relief and muscle re-education relating to trigger points and neuro-muscular conditions. The ACCU-O-MATIC VM2 enhances tissue repair and provides fast pain relief to damaged tissues. Economical transcutaneous electrical nerve stimulators and accessories suitable for patient use are also available.

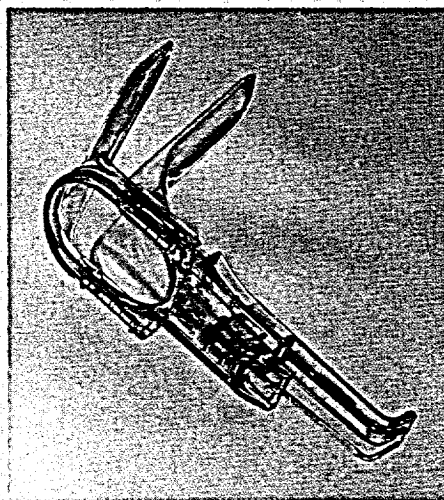

Entreprises Galenica Enterprises, Inc.
P.O. Box 13
Sainte-Thérèse, Quebec
Canada J7E 4H7

Tel: (514) 437-3111
Telex: 05-25134

Jacques Marcotte
Executive Director

Entreprises Galenica Enterprises, Inc., a Canadian-owned company established in 1982, manufactures high-quality disposable vaginal specula and disposable anoscopes. Galenica's vaginal specula are perfect for all routine gynecologic examinations and feature 360-degree angle examination of vaginal mucosa without rotation, easy manipulation, and cost savings due to its disposable nature. The company's disposable anoscopes are made from a hard, non-toxic plastic resin and feature the following advantages: easy manipulation for septic anal/rectal examinations; 56-degree bevel at the insertion end to ease the use of instruments; adaptable fiberoptic lighthouse enabling perfect visual field; and no necessity for deep cleaning and sterilization.

Galenica manufactures illuminating devices for the vaginal specula and also I.D. bracelets.

The disposable vaginal specula produced by Entreprises Galenica Enterprises, Inc., can be used for all routine gynecological examinations with the elimination of sterilization and cross-contamination problems.

Fleetline Industries Ltd.

Indal Technologies Inc. has been designing, manufacturing and installing the Vari-Pool varia-

The movable swimming pool floor produced by Indal Technologies Inc. can be adjusted to change the depth of the pool to suit expert swimmers, novices or children and to provide easy access to persons in wheelchairs.

ble depth swimming pool floors and movable bulkheads for over 12 years.

The movable swimming pool floor allows the depth of the pool to be changed to accommodate expert swimmers or to provide easy access for children or persons confined to wheelchairs. The floor is constructed of lightweight fibre-reinforced plastic planks fastened to a stainless steel frame. Hydraulic rams allow an infinite range of adjustment of pool depth and lift the floor clear of the water for routine cleaning and maintenance.

Instant Temp Inc.
110 Denison Street, Unit 7-10
Markham, Ontario
Canada L3R 1B6

Tel: (416) 475-6773

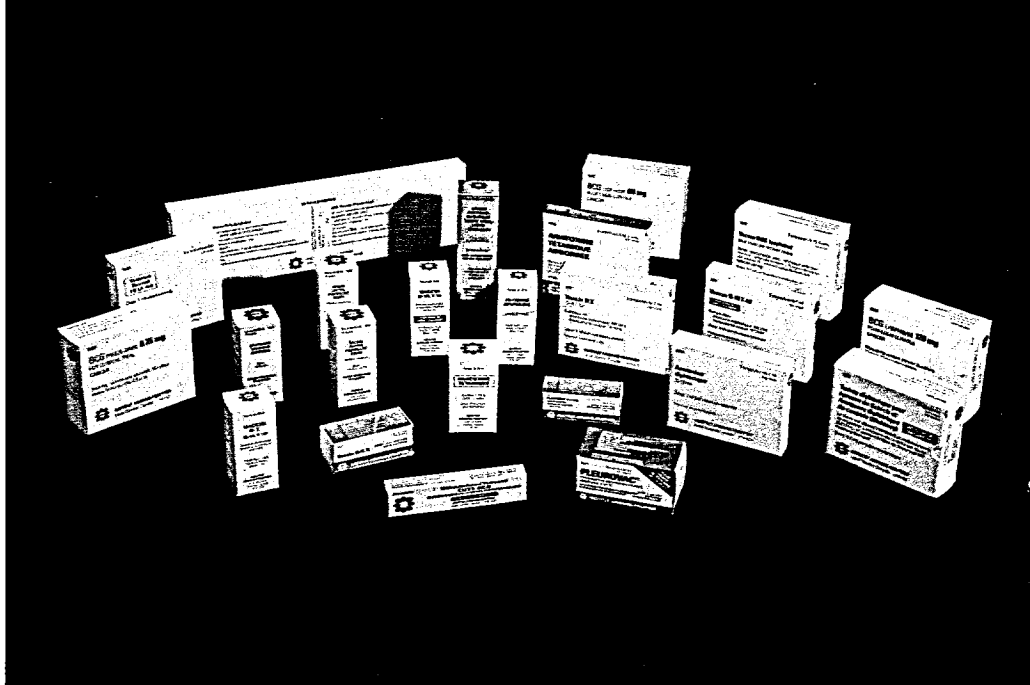

Paul Hamilton
President

Instant Temp Inc., formed in 1983, manufactures and markets a group of patented thermal transfer products in Canada, the United States and Europe. The production expertise and Markham, Ontario plant of Precision Packaging Co. Inc. is utilized in the manufacture of the Instant Hot Pack and Instant Cold Pack products.

Instant Temp's hot and cold packs consist of liquid-filled pouches packaged within another pouch. When the pouch is squeezed, the inner pouch ruptures and releases a liquid which activates a chemical to bring about the desired temperature emission (hot or cold). These packs have a variety of applications including cold and heat therapy, muscle therapy, swelling reduction, easing of headaches, sprains, and backaches.

Instant Temp's hot and cold packs are ideal for first aid kits and are available through authorized agents.

Q'STRAIT
33 Highridge Court
Cambridge, Ontario
Canada N1R 7L3

Tel: (519) 622-0000
Telex: 06959404

James Reaume
Sales Manager

Q'STRAIT, a division of A. Girardin Inc., produces wheelchair and occupant restraint systems. In motor vehicles, occupant and chair are separately and securely fastened independent of one another. This provides the same degree of safety as available to other passengers.

Q'STRAIT™ lap belts attach directly to the vehicle's rear tie-down belts so that all the stress from a sudden stop is placed directly on the rear belts and not the chair frame. Heat-treated steel chair attachment hooks are covered with heavy vinyl to protect the wheelchair frame. The Q'STRAIT™ system is adaptable to most chairs and can easily be retrofitted to any vehicle.

Quadra Logic Technologies Inc.

Universal Home Care Products Inc.

204 - 6th Street
New Westminster
British Columbia
Canada V3L 3A1

Tel: (604) 521-0913

Victor Diduck
President

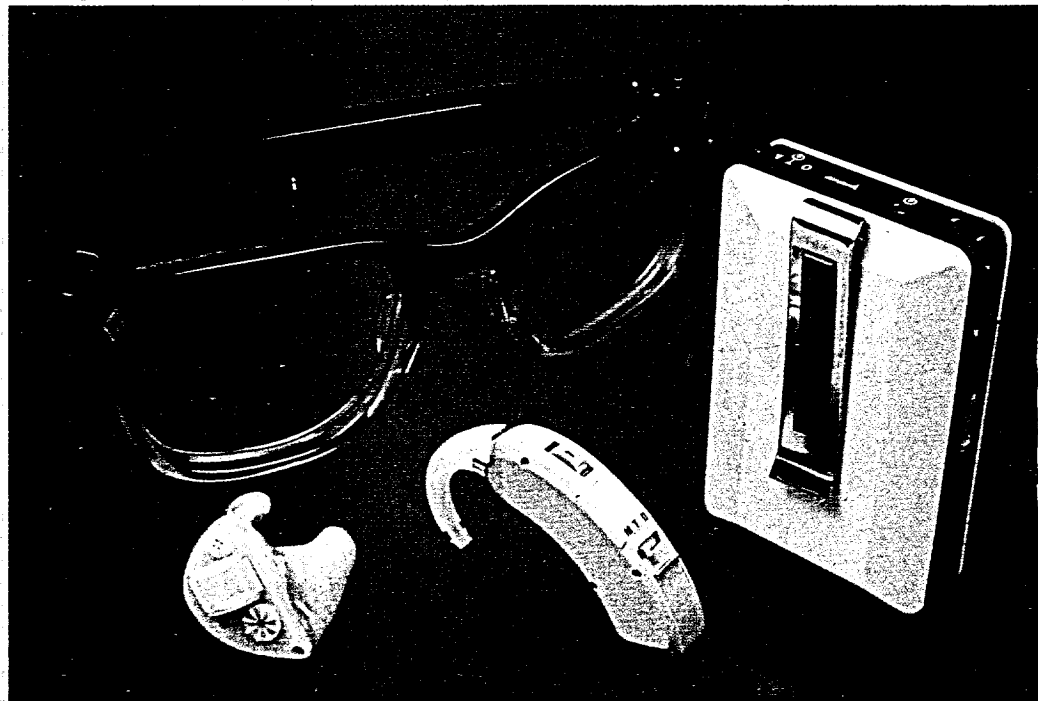

Established in 1982, Universal Home Care Products Inc. produces a variety of health care equipment to assist individuals in moving about their house. Universal manufactures the Handi-Pole which is an adjustable, portable metal support pole that can be positioned between the floor and ceiling of any room. The Bath-Tub Assist Pole provides support for persons moving in or out of the tub or shower. Universal also offers easily installed straight and angled wall-mounted grab bars in a choice of lengths. All Universal products are made of high-quality steel finished with an electrostatic coating.

Variety Village Electrolimb Production Centre
3701 Danforth Avenue
Scarborough, Ontario
Canada M1N 2G2

Tel: (416) 698-1415

Eric J. Nicholls
Manager

The Variety Village Electrolimb Production Centre is a non-profit organization founded in 1970 to manufacture prosthetic and orthotic devices for children. The major products are electric lightweight plastic hands with built-in energy-saving circuits; myoelectric control systems; electric elbows; and a series of orthotic braces (the Toronto and Rochester Parapodiums) for spina bifida children aged 1 to 16. The company manufactures custom steel, aluminum, plastic or wood seating components for clinics involved in specialized wheelchair seating.

The well-designed, excellent-quality hearing aids offered by Unitron Industries Limited are available in a choice of custom-in-the-ear, canal, behind-the-ear, eyeglass and body models.

Vas-Cath of Canada Limited
2380 Tedlo Street
Mississauga, Ontario
Canada L5A 3V3

Tel: (416) 848-5800
Telex: 06-960480

J. Last
Director of Marketing

Vas-Cath of Canada Limited, a Canadian-owned company, was founded in 1977 to design and manufacture catheters for medical applications with special emphasis on vascular catheters for interventional radiology. Since 1980, Vas-Cath has also been distributing single and double lumen subclavian dialysis cannulas and the Vaccess line of vascular access cannulas. Recently, Vas-Cath introduced the Opti-flow line of small gauge catheters for peripheral and digital subtraction angiography.

Ven-Rez Products Limited
P.O. Box 399
Shelburne, Nova Scotia
Canada B0T 1W0

Tel: (902) 875-3178
Telex: 019-21507

Norman Wallet
Sales Manager

Ven-Rez Products Limited, a Canadian firm established in 1949, manufactures school, institutional, office and hospital furniture.

For the health care market, Ven-Rez fabricates patient room furniture, lounge chairs and tables, and storage and library shelving. All Ven-Rez products are designed for durability in heavy duty use.

Ventco Medical Co. Inc.
721 Walker Avenue
Montreal, Quebec
Canada H4C 2H5

Tel: (514) 989-2977
Telex: 055-60562

Elizabeth Sendel
Sales Manager

Ventco Medical Company is internationally recognized for its leadership in the field of health care products. Ventco Medical manufactures a wide range of quality health care products such as the First O₂, a personal emergency oxygen source; the Determin OVU Test, a new self-test method of determining the optimum time for conception; and the Brook Lifesaving Airway, a primary resuscitation device which prevents a victim's breath or fluid from reaching the user to avoid the transmission of contagious diseases.

Walsh Manufacturing
(Mississauga) Limited
505 Iroquois Shore Road
Unit 10
Oakville, Ontario
Canada L6H 2R3

Tel: (416) 844-8344

Paul Walsh
Sales Manager

Walsh Manufacturing (Mississauga) Limited, incorporated in 1975, is working with doctors and hospitals to design products for the neurosurgical and ophthalmic fields. The company's involvement in the manufacture, repair and service of a wide range of generic surgical instruments, has given Walsh Manufacturing an inventory of precision production equipment capable of most prototype work.

Among the customers of Walsh Manufacturing are American Hospital Supply's Instrument Division, V. Mueller, Downs Surgical, Imperial Optical, Narco Pilling, and Bard Canada. The Walsh Manufacturing product list includes the

Crawford Canaliculus Intubation Set, the Medic Lite (diagnostic pen light), the Walsh Tator Compression Clip, and the Lougheed-Kerr Aneurysm Clip.

Waltec Inc., Cambridge Brass
Division
140 Orion Place
P.O. Box 249
Cambridge, Ontario
Canada N1R 5V1

Tel: (519) 621-5520
Telex: 069-59339

Roy Giroux
Sales Manager

Waltec Inc., Cambridge Brass Division, a Canadian company established in 1905, manufactures a complete line of finished brass fittings and controls for laboratory casework services such as water, steam, air, vacuum and various gases.

The company produces a wide variety of faucets, valves, hose cocks, bed pan cleansers, and surgeon's scrub-up valves. An affiliated company manufactures containment hoods for handling antineoplastics/chemotherapeutics that are marketed under the Arista Newman name.

Westnofa of Canada (1979)
Limited
691 Golspie Street
Winnipeg, Manitoba
Canada R2K 2V3

Tel: (204) 667-7106
Telex: 07-55804

J.M. Lemoine
Sales Manager

Westnofa of Canada (1979) Limited, a Canadian-owned company, manufactures seating and table units designed to meet the health care needs of the patient. Westnofa modular chairs and tables are engineered for versatility and are designed for human

comfort despite limited space availability. Westnofa provides seating and tables for patient, lounge, cafeteria, conference room, office, emergency and waiting areas.

Whirlteq Limited
Comp. 17 Bates Building
28 Hubbard Road
Fredericton, New Brunswick
Canada E3B 6B4

Tel: (506) 453-1200

Gary Holmes
General Manager

White Mop Wringer Co. of Canada Ltd.
2 Scott Avenue
Paris, Ontario
Canada N3L 3E7

Tel: (519) 442-4471
Telex: 03-83162

Ron Underwood
Vice-President and General Manager

The White Mop Wringer Co. of Canada Ltd. offers a complete line of floor wringers, buckets and mopping equipment for the health care market. The White Mop squeeze wringer combines efficiency with strength. Enlarged drain openings allow better run-off, and reinforced front, side and back ribs add rigidity to the wringer. The company also manufactures a wide variety of general purpose cleaning equipment and products such as utility carts, mopheads, squeegees, receptacles, window scrubbers and floor pads.

York X-Ray Ltd.
250 Steelcase Road East
Markham, Ontario
Canada L3R 2S3

Tel: (416) 475-4995

Joseph Pritchard
President

York X-Ray Ltd., a Canadian-owned company established in 1971, manufactures over 90% of its medical X-ray apparatus in its modern 24,000 sq.ft. Markham plant. York's machine is a basic radiographic device designed for clinics and small offices, serving the medical, chiropractic and veterinary professions. Models are available with or without X-ray tables or wall-mounted cassette holders, and with or without positive beam limitation. A fixed-arm chest/spine model has recently been added to the York range. York machines comply with both F.D.A. and Canadian health regulations relating to radiographic apparatus.

By concentrating its efforts on an easy-to-use and easy-to-service machine, York has been able to develop a pricing policy that is among the most attractive in the industry.

Z.L. Bocknek Laboratories Inc.
165 Bethridge Road
Rexdale, Ontario
Canada M9W 1N4

Tel: (416) 745-0796
Telex: 06-989319

Paul Haffenden
Laboratory Manager

Z.L. Bocknek, incorporated in 1973, is a Canadian manufacturer of animal blood sera for tissue culture and research. The company specializes in low endotoxin fetal bovine, donor bovine and donor horse sera. Z.L. Bocknek also collects a wide variety of animal parts and glands such as beef and pork pancreas used in the commercial production of insulin.

Z.L. Bocknek products are available through its distributors.

Convenience and reliability identify the floor mop wringers, squeegees, buckets and other equipment in the comprehensive line of cleaning products manufactured by White Mop Wringer Co. of Canada Ltd. for the health care industry.
