# GRAND RACE TO HARBIN

## KAWAKURA JOINS IN IT

### Japanese Flying Column Sent to Tatsikar to Cut the Railway in Rear of Northern Fortress.

St. Petersburg, March 20.—The best military opinion here on the situation is that the rival forces are engaged in a grand race to Harbin. Kawakura is hastening along the Kirov road, while Gen. Linévitch's army on the flanks and in the rear. A flying column has been sent to Tatsikar to cut the railroad in the rear of Harbin, the Japanese moving with wonderful rapidity. The Sungari Bridge across the Sungari River near Harbin is the first objective point of the race. The bridge is nearly a mile long and is the greatest span on the Trans-Siberian Railway.

### NOT IN DISGRACE.

St. Petersburg, March 19.—It is stated on high authority that Gen. Linévitch's request, the emperor has appointed Gen. Kurapatkin commander of the first army, and that he assumed command to-day. This cannot be considered. An earlier report said he left Saturday for St. Petersburg.

### 20 MILES NORTH OF THE PASS.

Tokio, March 19.—Headquarters of the Japanese army in the field, reporting under to-day's date, says: "Our detachment continuing its advance north pursued the enemy to Kalyuan, some twenty miles north of the Pass. Kalyuan was evacuated by the enemy on Saturday after he had set fire to the railroad station."

### KUROPATKIN WOUNDED.

Hit by the Fragment of an 11-Inch Shell.

Gen. Kurapatkin's Headquarters in the field, March 18, by way of Fusan.—Gen. Kurapatkin's army continues to lead the Japanese forces, which have now been engaged for nine days in a hard pursuit, and they have covered a distance of more than ninety miles. The weather in the mountains is very cold with frequent hard storms. The brigade in advance occupied the Pass after they had fought a brief engagement. The Russian retreat became more disorganized daily after the storm. During the first day the Russians buried their dead, but since then they have left the dead wherever they fell. Tuesday night the Japanese made an attempt at resistance in entrenchments north of the Hui River, but abandoned it after they had been shelled for two hours. Gen. Kurapatkin's army captured the colors of the 14th Regiment, and the colors were described as having been presented to the regiment by the emperor in 1884. Most of the captured colors were destroyed in burning their standards before surrendering. A few prisoners are being carried daily. It is reported that during Gen. Kurapatkin's resistance at Tower Hill on the first day's battle, he was slightly wounded by fragments of an 11-inch shell which fell near him.

### JAPS IN FAVOR.

#### Army Rapidly Reorganizing From the Effects of Recent Battle.

Gen. Kurapatkin's Headquarters in the field, via Fusan, undated.—Everything now appears to be in favor of the Japanese. They have a magnificent army reorganizing from the effects of the recent battle, and they are equipped with everything necessary for Manchurian campaigning, including great quantities of supplies. Nobody outside of the winter, together with several lines of communication and the best reason of the year. The Japanese gain of the strongest natural position on the entire railway, whereon much money and labor has been expended, under Gen. Kurapatkin's personal direction, without a battle, was hardly expected. The greatly elated army shows how thoroughly beaten are the Russians. All indications point to a continuance of the retreat of the latter to Harbin.

### CAZAR'S LAST HOPE.

#### Fleet Depended on to Save Russian Fortunes.

London, March 19.—The Tsar's fleet now profess to pin their faith in retrieving Russian fortunes on Admiral Rozhkovsky's fleet, just before the battle of Mukden they did upon Kuropatkin. They continue to renounce all idea of peace until this last resort has been exhausted. Nobody outside of Russia, whose judgment is worth quoting if ever, says that the Baltic fleet has any destiny beyond destruction, capture if it ever meets Togo. Its sacrifice, therefore, would mean nothing except further humiliation for Russia.

# FATHER LAWLER IS DEAD

## PIONEER R.C. MISSIONARY

### In His 88th Year, Passes Away in Toronto After Long Illness—Known Thruout the Province.

Rev. Father Edmund Burke Lawler, one of the pioneer Roman Catholic Church missionaries in Ontario, and one of the best known and best loved clergymen in the province, died yesterday in his 88th year, his death following an illness extending over three years. Father Lawler was born of good old Irish family in Boston in 1818. His name he gained from his uncle, Bishop Edmund Burke, the first apostolic delegate to Canada. Alto American-born, and when his early education was completed in the Boston schools he entered on his college course at Montreal. Nine years he spent there, three in the theological seminary. Then he took orders at Kingston at the hands of Bishop Phelan. For a time he was a missionary in North Hastings he took up the life work that made him known and loved thruout the province. Early and late he labored with vigor and spirit, and to his perseverance in the face of the difficulties he had to cope with was due the vigor of his later years.

### FROM LINEVITCH.

St. Petersburg, March 19.—Commander-in-Chief Linevitch, in a telegram dated Saturday, says: "On March 17 Japanese batteries bombarded our divisions in the valleys of Tavannun and Yannu. The enemy appeared near Taotaitse (on the railroad about 22 miles north of Tie Pass), and their cavalry occupied Fakoman. Our armies continue their concentration."

### PRESS CAZAR TO MAKE PEACE BUT NOT LIKELY TO PREVAIL.

Some Ministers Urge That It is Time to Suggest a Reasonable Proposal.

St. Petersburg, March 20.—(10.6 a.m.)—While Emperor Nicholas, whose word is final, still declines to abandon the prosecution of the war, and the government maintains its ability to continue the conflict, the Associated Press is in a position to state that powerful influences, including several of the emperor's own ministers, are now strongly urging that the time has come to indicate to Japan Russia's desire for peace upon a reasonable basis, should Japan then attempt to impose too onerous conditions these influences argue that in view of the universal wish to see the bloody conflict ended Russia's position will be strengthened abroad by the alienation of sympathy from Japan and the situation at home improved when the nation is made to understand that the emperor's pacific proposals have been met with impossible terms.

### WITH 1380 NEW COMERS.

Halifax, N.S., March 19.—(Special.)—The Allan steamer "Tunislar" arrived this morning with 1380 passengers on board, principally from the British Isles. The steamer reported a successful voyage, and that on Thursday a passenger named Cunningham, a pilot of St. John's, Nfld., who was on his way to the coast, was buried the next day. Early on Thursday morning she got into communication with the liner "Cedric" and kept in touch with her for thirty hours. She had been delayed by heavy weather, and had to stop at Cape Race. All the officers of the steamer "Tunislar" had been transferred to the "Cedric" at St. John's, Nfld., and the "Tunislar" had been sent to the new turbine Virginia.

### CANADIAN BRAKEMAN DIES.

Rutland, Vt., March 19.—According to advices received in this city, Andy Schuch, brakeman of a westbound train, was killed at Malone, N.Y., today, died last night at the Ogdensburg City Hospital. Schuch was a Canadian, was badly cut about the head and face and injured internally. He died soon after reaching Toronto.

### EVERY NATION IN AGRICULTURE INTERNATIONAL CHAMBER AGAIN

David Lubin, the Originator of the Idea, Addresses a Conference in Vienna, and Progress Made.

Vienna, March 19.—A further decided step towards the establishment of an international chamber of agriculture, proposed by David Lubin of California, and initiated among the powers of the world by King Victor Emmanuel of Italy, was taken in Vienna to-day. At the invitation of Reichsrath Hohenhausen, the head of the Austrian department for the protection of agriculture and forests, there assembled here today representatives of agricultural interests of Germany, Austria-Hungary, Spain and Italy for the purpose of informing themselves concerning the proposed chamber.

# NO COMPROMISE—FREEDOM OR FIGHT

SUNNY WAYS (who is trying to retain possession of his captive by bribery): I will also free her left hand. MR. WEST: You will give her entire freedom, or fight.

### GUESSING CONTEST IN POLITICS NOW IT'S SETTLED, NOW IT'S NOT

#### Compromise Said to Have Been Reached That is Satisfactory to the Western Liberals.

Ottawa, March 19.—(Special.)—When the house went unchallenged into committee on Friday afternoon, midday of supply suddenly left the chair, thus closing off all opportunity of drawing the government on the Northwest school question, it was suggested in certain quarters that "Sir" Wilfrid would cut an adroit move on the intervening Saturday and Sunday would afford him the opportunity to patch up a peace between the warring elements of his following.

### REBELLING MINISTERS WIN FIELDING BACKING SIFTON

#### Le Nationaliste Declares Government Has Decided to Accept Compromise Proposed by Westerners.

Montreal, Que., March 19.—(Special.)—Le Nationaliste's Ottawa correspondent says: "The rain is pelting down the present situation. The ministry have absolutely decided to accept the compromise offered by Hon. Mr. Sifton and the members from the west. The only thing to be said is that the government has weakened and that the others are becoming exacting, so the former cannot decide to make an avowal before the house of their cowardice."

### MISS EDNA FLUTTER, a girl of about 20 years, died on Saturday morning at her home, 28 Pricestreet. She had been employed in a large city establishment some time ago, and in compliance with the regulations was sent to the medical health officer of the city to be vaccinated. She was afterwards attacked by a malignant disease of the glands of the neck and the arm and was treated in one of the hospitals. Dr. Bingham was called in to perform an operation, but nothing could be done to save her life.

### ST. JAMES' EPISCOPAL CHURCH BURNED EARLY SUNDAY MORNING.

Ottawa, March 19.—(Special.)—At 9 o'clock this morning St. James' Episcopal Church, the finest church here, was destroyed by fire. The walls alone remaining. Loss, estimated at \$200,000, which is partly covered by insurance. The pipes of the organ were saved, but the interior was completely gutted. The extent of \$1000. St. James' Church is situated across the street from the fire hall, but the efforts of the brigade were without avail. The fire originated from the furnace while the church was being heated, and it spread rapidly thru the church. Service to-day was held in the opera house.

### JAMES LAIDLAW DEAD.

St. James' Episcopal Church burned early Sunday morning.

Ottawa, March 19.—(Special.)—At 9 o'clock this morning St. James' Episcopal Church, the finest church here, was destroyed by fire. The walls alone remaining. Loss, estimated at \$200,000, which is partly covered by insurance. The pipes of the organ were saved, but the interior was completely gutted. The extent of \$1000. St. James' Church is situated across the street from the fire hall, but the efforts of the brigade were without avail. The fire originated from the furnace while the church was being heated, and it spread rapidly thru the church. Service to-day was held in the opera house.

### LOWER TEMPERATURE.

Metropolitan Office, Toronto, March 19, 6 p.m.—Rain was general during Saturday in Ontario and Quebec and today showers occurred in the Maritime Provinces and fairly heavy rains in Southern Ontario. In Manitoba and the Northwest Territories, the weather has been dry and mild.

Minimum and maximum temperatures: Victoria, 46-54; Calgary, 24-28; Edmonton, 28-34; Winnipeg, 12-28; Winnipeg, 2 below; Port Arthur, 20-28; Toronto, 20-28; Ottawa, 28-32; Montreal, 22-30; Quebec, 22-30; Halifax, 24-42.

Probabilities:  
Lower Lakes—Fair; a little lower temperature.  
Georgian Bay, Ottawa Valley and Upper and Lower St. Lawrence and Gull-Fair and moderately cold; a little lower temperature.  
Superior—Fair and moderate cold to-day.  
Manitoba—Fair and mild.

# FIRST BOGUS BALLOT CASE

## RUTAN CALLED NOT GUILTY

### Judge Says Jury Took Lenient View and Tells Him He is Fortunate.

Belleville, March 19.—(Special.)—The trial of Rex W. Rutan, charged with conspiracy, came to an end last night, the jury, after being locked up for two hours and ten minutes, returning a verdict of not guilty. The judge, in discharging the accused, told him that he was fortunate.

### USUAL APPEAL MADE.

The usual appeal on behalf of his family were made. Mr. Mabee's address lasted an hour and five minutes, and made a deep impression on the jury. The defence put up a great fight. They had four lawyers, namely: Messrs. Riddell and Mabee of Toronto; J. McDonald Mowat, of Kingston, and F. E. O'Flynn of this city. Very little was left undone which was likely to influence the jury in Rutan's favor.

### FALLS FROM EAST FREIGHT.

Edward Redlow loses an arm and then his life.

Brookville, March 19.—(Special.)—In a mangled condition, the body of Edward Redlow, a Brookville boy, aged about 20 years, was brought here this afternoon on the 2:15 express from Prescott. In company with a number of other boys he got here at noon on Morrisburg stealing a ride on a fast freight train. His body was picked up by the police at Prescott and taken to the hospital. The coroner is attempting to jump off the clothing and the wheels which passed over his right arm, but he has not been able to do so. The coroner is attempting to jump off the clothing and the wheels which passed over his right arm, but he has not been able to do so. The coroner is attempting to jump off the clothing and the wheels which passed over his right arm, but he has not been able to do so.

### \$20,000 FIRE AT ORILLIA.

St. James' Episcopal Church burned early Sunday morning.

Ottawa, March 19.—(Special.)—At 9 o'clock this morning St. James' Episcopal Church, the finest church here, was destroyed by fire. The walls alone remaining. Loss, estimated at \$200,000, which is partly covered by insurance. The pipes of the organ were saved, but the interior was completely gutted. The extent of \$1000. St. James' Church is situated across the street from the fire hall, but the efforts of the brigade were without avail. The fire originated from the furnace while the church was being heated, and it spread rapidly thru the church. Service to-day was held in the opera house.

### SEASONABLE UNPLEASANTNESS.

There needs no weather prophet to tell you that the winter of this year is a most unpleasantry. The weather is so cold and the wind is so strong that it is a wonder that any one can stand it. The weather is so cold and the wind is so strong that it is a wonder that any one can stand it.

THE PHENOMENAL SUCCESS

Gourlay Pianos

is not accidental, but the natural result of the realization of a higher ideal in piano quality than ever before recorded in the history of Canadian piano building.

Musicians and all music lovers who are ready to acknowledge superiority have recognized its superlative qualities and voluntarily paid it unstinted praise.

As one of them any appreciative letters we are constantly receiving, we submit the following lines from Mr. J. E. P. Aidous, Principal of the Hamilton School of Music and organist of the Church of the Ascension, Hamilton:—

"A short while ago I examined in your Hamilton rooms a new Gourlay Piano with which I was charmed. I have every day since meant to write and congratulate you on its excellence, and to hope that it may meet with the success and appreciation it deserves."

"Yours very sincerely, J. E. P. AIDOUS."

BENEFITS OF BIG BATTLE MANY CHANGES WILL COME

Determination to Send Rojostevsky Forward Looked on as Court-judging Disaster.

London, March 19.—Now that the Russian disaster in Manchuria is understood, Europe is beginning to take stock of the new situation in world politics, created by this momentous conflict.

The battle of Mukden is universally recognized as a political factor which must have an irrefragable influence in shaping the history of all the great peoples. Its effects upon the future development of the race may be left to the discussion of political students and theorists. The changes which it will impose upon the existing international relationship absorb the attention of European statesmen.

What It Will Do.

They see first that the paralysis of Russia will release China, Turkey, Germany and Great Britain from enormous pressure. This effect, except in the case of Turkey, will make for peace, and should enable Europe to make great reductions in her armaments, with a corresponding relief of public burdens. Peking will be relieved from Russian dictation, and, perhaps, threatened by other powers, while the Anglo-French entente has much to recommend the intimate understanding between Great Britain and France. The United States will unquestionably become one of the controlling factors in safeguarding the world's peace, and as for Japan, European opinion is inclined to pull her out of the present campaign. It is believed that English, French and American influence at Tokio is quite sufficient to quell the present disquietude in Chinese markets.

Will Russia Revive?

All this, however, is based on the assumption that Russia will fall to accomplish her own emancipation by the overthrow of the present government. It is generally believed that considerable changes will occur, but nothing short of a radical and complete revolution would suffice to regenerate and rejuvenate the nation. If this should come, Russia's recuperation from the present disaster would be easy.

The development of her natural resources under a strong and energetic government would speedily restore her progress to the position of a new government, coming when now there is not the slightest indication, might in a few short years again change international conditions and destinies. A free Russia, would undoubtedly abandon the mad dream of dominating the Pacific, but she would certainly concentrate her energies to secure a more liberal outlet in the Mediterranean. This means the driving of the Sultan out of Europe.

That Sick Man Austria.

The indications are that Abdul Hamid will not wait for such a crisis. European diplomacy is anxiously occupied at the present moment with the problems of how to prevent him from seizing the opportunity of Russia's embarrassment to settle old scores in Macedonia and against Bulgaria. It will be one of the greatest of modern diplomatic achievements, if the spring passes without seeing a Turkish army marching against Sofia, or perhaps Athens. Such aggression would bring down the forces of civilization, against the Turk and the task of expelling him from Europe would fall, probably, to Austria, with, perhaps, Italian assistance.

The Reason for It.

Melodiousness of tone quality in a piano is secured in part by a good sounding board, and the only way to secure a perfect sounding board is to adopt the expensive, but thoroughly adequate method in use by the firm of Gourlay, Winter and Leming. For the Gourlay piano the sounding board is made of clear spruce that has been subjected to the severe eye of an expert. Every piece must be perfect, and must stand an extraordinary heat test before it is passed as suitable. Because of this care in manufacture, the piano has received numerous compliments on the unique sweetness and charm of its tone.

A. F. of L. Executive Ends.

Washington, March 18.—The executive council of the American Federation of Labor concluded its laborer today and adjourned sine die. A conference between the International Union of Bridge and Structural Ironworkers and the International Brotherhood of Blacksmiths relative to the admission of blacksmiths into the former organization was directed to be held before the matter could be again considered by the executive council.

INTO HARBIN ON APRIL 10 RUSSIAN CHINAMEN HANG

Reported That Large Body of Japanese Have Penetrated West of Simintin.

Harbin, March 19.—The Chinese here are in an excited state and say notification has been received that the Japanese will enter Harbin April 10.

Many Chinese refugees are arriving from the south. They report ill-treatment by Japanese, and say that Russian-speaking Chinamen are hanged head downward and placarded "The great Russian translator." They say also that the Japanese take all supplies gratis and that one Japanese general, answering a request to pay at least a little for provisions taken, declared that the "Chinese dogs are not deserving of any other treatment."

The population of Bodun, southwest of Harbin, fears the arrival of the Japanese. In Teymlott, Christian Chinese captured Manchu, a noted Chinese bandit leader, who had been terrorizing the region around Bodun and turned him over to a Russian guard, which, on March 15, brought him to Bodun after beating off attempts at rescue.

It is reported among the Mongols that some time ago a large body of Japanese penetrated deeply into the country westward of Simintin, but were expelled by Prince Dik. The Japanese are reported to have sent out a second and larger detachment.

With the many wounded who are arriving at Harbin from the southward are crowds of Russian inhabitants of the region evacuated and employees of the railroad.

STATE SUES TOBACCO TRUST.

New York World Receiver \$257,000 For Alleged Lottery Guessing Game

New York, March 18.—District Attorney Jerome has brought suits aggregating \$257,000 against the American Tobacco Company, the Continental Tobacco Company, the American Cigar Company and the Florida Tag Company, all subsidiary concerns of the American Tobacco Company, for alleged violation of the lottery laws of the state.

The suits grew out of the guessing contests organized by the companies. About a year ago the companies offered \$142,000 to those who made the nearest guesses to the number of the nearest guesses of the actual number of votes cast for the winner of the last presidential election.

According to the section of the penal code under which the suits is brought, even though the prizes offered have been paid, the companies must again pay out the money to New York County should the district attorney win the suits.

LONDON'S ELECTRICITY.

London, March 19.—A committee of the house of lords is considering a huge scheme of dealing with the supply of electricity for London, for which an influential body of promoters are seeking to have a bill passed. The proposed company will have a capital of \$5,000,000. The area of supply for which the promoters are asking includes the cities of London and Westminster, and practically the whole of London, in addition to numerous suburbs, such as Barking, Teddington and Kingston.

It is proposed to establish three huge generating stations on the Thames, the bill which the promoters are circulating provides that the maximum price shall not exceed three halfpence per unit.

FOUND DEAD IN ST. THOMAS.

St. Thomas, March 18.—Fred Saltsbury, about 24 years of age, belonging to Waterford, Ont., was found dead in the east end of the Michigan Central yards here early this morning. The body was found lying on a bench around the station during the day, and it is supposed he tried to board No. 21 the last limited Chicago express train, which leaves this place at 10:45 p.m. The body, which was badly mangled, was taken to Williams' mortuary, where it will be kept until the man was well dressed, and is said to be well concealed.

Mrs. Theobald.

After a lingering illness, Mrs. Henry Theobald died yesterday at the residence of her daughter, 46 West Queen street, in her 74th year. One son and three daughters survive: G. C. Matlocks, Mrs. E. Ember, Mrs. W. Walsh and D. Bourdon.

RUSSIA STILL IS IGNORANT OF FULL EXTENT OF DISASTER

No Details of Losses Received—Retreat Generally Has Been Without Panic.

St. Petersburg, March 19.—(4 a.m.)—The reports of the retiring commander-in-chief and the new commander in Manchuria, which were issued here yesterday, while relieving the immediate fear of the Russian people that the Manchurian army already is cut off and confirming information already received that the retreat is in full progress, throw no further light on the condition or the losses of the army, and contain no disquieting information.

The City of Fakoman, which is well in the Russian rear, has been seized by forces given out as Chinese bandits, the reports which may be a vanguard of Japanese regulars. From Fakoman one road leads to Kalyuan, about 20 miles north of Tie Pass, and the great Chinese road runs northward paralleling the railroad and offering to a force the alternative of striking directly to the Russian line or pushing on toward Sungari River along the highway, which is better than that road over which Gen. Linvitch will have to retreat.

The new commander will need all the strategic qualities of Kropotkin to effect the withdrawal safely. How far he will be able to continue pursuit remains to be seen, but the Chinese at Harbin expect him there April 10, and if this opinion proves to be founded on a Japanese proclamation, many persons here, remembering the fulfillment of Oyama's assurances regarding the occupation of Mukden March 10, will be inclined to accept three weeks as the limit.

The Story Yet Untold.

The Russian government continues to declare that whatever may be the fate of Harbin and of the present eastern army the war will continue. Vice-Admiral Rojostevsky's orders to try issues with Vice-Admiral Togo have not been canceled, preparations for the mobilization of a new army continuing, and the finance department is busy with measures to provide necessary funds. The lapse of a full week since the beginning of the retreat from Mukden, finds Russia in almost complete ignorance of details as to the effect of that reverse. Kuropatkin, before relinquishing his baton, professed himself unable to give details of the losses, and no private despatches referring to the number of prisoners or their organizations have been allowed to sift thru the strict censorship. The public simply knows the losses in killed, wounded and prisoners are great, and is prepared to believe them enormous, though the Russian correspondents express the belief they will not exceed 80,000 all told. The full story of the awful retreat from Mukden to Tie Pass also remains to be told.

Retreat in Good Order.

Later reports received confirm the first statements that the bulk of the armies retired in good order, the momentary panics affecting only the soldiers who were crowded among the transports in charge of mixed and undisciplined drivers and fleeing civilians, causing the loss, however, of a great amount of supplies and many cannon, which otherwise they would have been able to bring off.

The mobilization order may bring on disturbances, and even uprisings; for the moment the internal conditions are somewhat better. The principal peace disturbances have been quieted, and the authorities have manifested the ability to cope with the situation. The strikes also have largely ceased and the industrial activity has been resumed, until May 1, at least, when the social democrats profess intention to renew the economic agitation.

Moscow the Storm Centre.

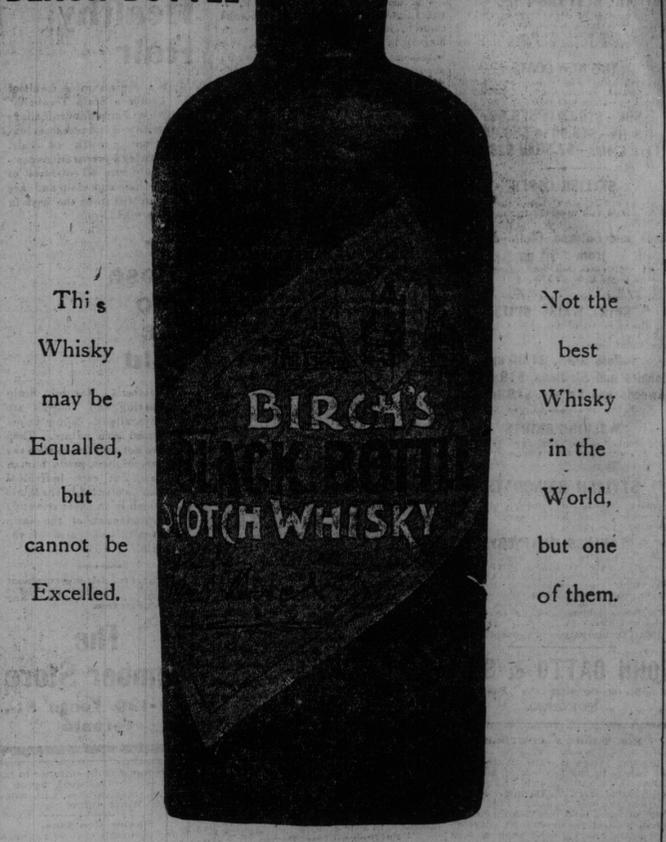

The renewal of the viceregency and the appointment of senatorial commissions give hope for better things in the Caucasus.

The social storm centre seems to be Moscow, where the police are discovering evidences of a widespread terrorism. For the moment the internal conditions are somewhat better. The principal peace disturbances have been quieted, and the authorities have manifested the ability to cope with the situation. The strikes also have largely ceased and the industrial activity has been resumed, until May 1, at least, when the social democrats profess intention to renew the economic agitation.

Regret Kropotkin's Demise.

Paris, March 19.—The French press this morning devotes eulogistic articles to Gen. Kropotkin, expressing regret at the emperor's abrupt recall of the commander-in-chief. The Echo de Paris says that Grand Duke Nicholas Nikolaievitch has been ordered to start for Manchuria to investigate the situation there, and that his report will result in a decision as to a continuation of the war or peace.

THE BLACK BOTTLE THE BLACK BOTTLE

Not the best Whisky in the World, but one of them. Sole Agents for Canada, Cunningham, Strain & Wray, 833 Board of Trade Building, Montreal.

FRENCH READY TO ACT.

Paris, March 19.—The secretary of the Moroccan Commission, in an interview, said that the capture of Count De Segonzac proved the necessity for rapid French action in Morocco, not necessarily a military display, but a strong political protest. The other members of the De Segonzac mission are safe. The government will cable the French minister at Tangiers, M. Tallandier, to invite the Sultan of Morocco and the friendly chiefs to co-operate in an endeavor to secure the liberation of Count De Segonzac.

GAS STOVE EXPLODED.

London, March 18.—Mrs. Lilla Finch, 547 Talbot-street, had a narrow escape from being burned to death this morning. A gas stove which she was attending exploded, setting fire to her hair and clothing. She was rescued by a neighbor. The explosion wrecked three bicycles and the kitchen was gutted; loss \$500.

ALLEGED CURE OF CANCER.

Connection of Violet Leaves and Boiling Water. London, March 19.—William Gordon, a physician in a Devon (Exeter) hospital, reports to The Lancet a supposed cure for cancer, which has aroused considerable public interest. The patient was a man of 59, who had been told by five doctors that he had cancer of the tongue. He refused to undergo an operation, and commenced, on Nov. 10, to treat himself with a handful of violet leaves, and let them soak for 24 hours. He divided the liquid into two equal parts and drank one at once and in the next 24 hours used the other. Hot fomentations were applied continuously to the left side of the neck on the left side for two hours each night.

ARRESTED FOR MURDER.

Fonda, N. Y., March 18.—Sheriff Dodd returned to-night from Argusville, where he has been to-day investigating the death of Peter Conrad, aged 25, bringing with him Daniel Smuller, whom he arrested on suspicion. Conrad and Smuller lived on adjoining farms. They had a quarrel at Argusville yesterday. The two men started for home about 6 o'clock, each driving his own team. Conrad was never seen alive again. On an elm tree in Smuller's yard were found large clots of blood, and snow near the house was also covered with blood.

DIDN'T KILL HIS WIFE.

Montreal, March 19.—(Special.)—Napoleon Lapote, charged with having killed his wife, was acquitted last evening, as it was proved that the woman had been drinking with another man, and had fallen downstairs.

Presented With Regalia.

A large number of companions, as well as grand chapter officers, were present at the last regular convocation of the Royal Arch Chapter of St. Andrew and St. John, No. 4, of Royal Arch Masons, Ex. Comp. W. H. Blight occupied the chair. R. Ex. Comp. H. J. Gibson, grand superintendent, who was in attendance on behalf of the Toronto district, made a presentation to R. Ex. Comp. Henry T. Smith, past grand superintendent, of a beautiful suit of grand chapter regalia, consisting of sash, collar, sash and hand bag.

ZIONIST FEDERATION PLAN. Discussed by Dr. Julian Bachrack of Montreal on Sunday.

Yesterday was shelved day among the Jews in Toronto, and about 200 members of the Zionist Federation movement met in the Labor Temple, where they were addressed by Dr. Julian Bachrack of Montreal, William Collins, Harold Denn and M. Manson.

Commercial Traveler Stricken. London, March 18.—Murdoch McLennan, commercial traveler of this city, was stricken with paralysis this morning while on a trip to Thamesville. He was brought home this afternoon.

Ask your Grocer for Windsor Salt Its Pure—That's Sure.

Too Much Food Too Little Exercise

Are the Conditions Which Lead to Biliousness, Indigestion and Constipation in the Winter and Impure Blood in the Spring.

There are two conditions of winter life which tend to the overworking and subsequent derangement of the liver. First, too much rich food, especially meat and alcoholic drink, and second, lack of exercise, and the breathing of dry and impure air. As the result of excessive eating and drinking the work of the liver in filtering bile and other impurities from the blood is very largely increased. Then, when from lack of fresh air and exercise, the lungs fail to oxidize and purify the blood, this extra work is thrown on to the liver and trouble is sure to result. These are the circumstances which combine to bring about constipation, indigestion and biliousness in the winter and to leave the blood so impure and the system so run down in the spring. To avoid the drowsiness, irritability of temper, headaches and general misery and melancholy of the "bilious" you must set the liver right.

Dr. Chase's Kidney-Liver Pills. Coated Tongue, Headache and Indigestion, Sour Stomach, Muddy Complexion, Wind in the Stomach, Feelings of Weight and Oppression, Smothering Sensations in the Chest, Pains Under Left Shoulder Blade, Drowsiness After Meals, Dropsy, Bad Temper, Biliousness, Constipation. Princess-James Powers in "San Toy" Grand - Adelaide Thurston in "Polly Primrose" Majestic - "Shadows of a Great City" The "Tiger Lilies" will crowd the Star this week...

Public Amusements. Princess-James Powers in "San Toy" Grand - Adelaide Thurston in "Polly Primrose" Majestic - "Shadows of a Great City" The "Tiger Lilies" will crowd the Star this week...

James T. Powers in "San Toy" can be anticipated. Mr. Powers originated the part in America of "Li-Chi-Chi" a Chinaman who has traveled. He played it during the long run at Daly's Theatre, and those who are looked upon as authority in such matters claim he never did anything else quite as well.

There is a fragrance of sweetness and girlish charm ever associated with the mention of Little Adelaide Thurston's annual visits. This little actress has ever held herself aloof from questionable plays, and has established herself as an exponent of purity and cleanliness in the composition of her performances. Theatregoers first made her acquaintance as Lady Rabbie in "The Little Minister." Afterwards she strengthened her hold in "Sweet Clover" "At the Corners" and "Polly Primrose" in which she will be seen at the Grand this week.

Harry Gillill, who is credited with being the best entertainer on the stage to-day, will make his first local appearance in vaudeville at Shea's this week in a sketch, humorous and pathetic, which it is promised will prove one of the best offerings of the season. The Reed Birdie, who has just returned from the Dodges, and Lew Sully will have new songs and stories. Then there will be Keeler's Japs, athletes from the east; Wood and Ray, in a funny bunch of nonsense; Mary Dupont & Co., in a satirical comedy; Lizzie N. Wilson, German comedienne; Swartz & Sound, singing and dancing; and the kinestograph, with all new pictures.

With East River shown with actual water on the stage, and the lights of New York City in the background, while real boats filled with people ply to and fro, it would be hard to imagine a stage picture more realistic; and when the convict hero, who has just escaped from Blackwell's Island Prison,

John Hay, Endorsing Course of His Resignation

Washington, March 19.—Is the great public career of John Hay drawing to its end? This is the question which was most anxiously discussed at the capital to-day on receipt of the news that Mr. Hay had embarked for Europe in a condition verging upon physical collapse. For some time there had been whisperings in the cabinet and diplomatic circles that Mr. Hay might not remain long at the head of the state department.

Members of the cabinet said to-day they would not be surprised if Mr. Hay resigns his post as secretary of state. They would not be surprised if Mr. Hay resigns his post as secretary of state. They would not be surprised if Mr. Hay resigns his post as secretary of state.

Engine Drops into River Engineer Sticks to Post

Buffalo, March 19.—An engine and one car, part of a train of fifteen cars of dressed beef, plunged into the Niagara River about 7.30 o'clock last night close to the Canadian end of the international bridge. The train was on the Michigan Central tracks and was a Michigan Central train. It was approaching the bridge when the accident happened. There is a down grade just before the bridge is reached, and directly in front of the bridge is a switch leading to the old Baxter elevator.

Engineer Delaney stuck to his post to the last, thinking to check the speed of his engine, but when he saw he could not be yelled to his fireman to jump, and then jumped himself. Delaney is from St. Thomas, and is considered one of the best engineers on the Michigan Central. Conductor Higgins of Bridgeburg also jumped and escaped unhurt. The engine and one car jumped the snubbing block at the foot of the decline and plunged into the river.

Officially the Michigan Central last night said it was impossible to estimate the damage, but they did not think it would be large. They said the wonder was someone was not killed, and they emphasized their opinion of Delaney's skill in sticking to his engine as long as he did. The locomotive was a full sized road engine of the type that is used on the Michigan Central, and the work of taking it out of the river will constitute a job which will require much time and effort.

The fire in the boiler was extinguished almost immediately after the locomotive broke through the ice, and there was no explosion. The engine was a full sized road engine of the type that is used on the Michigan Central, and the work of taking it out of the river will constitute a job which will require much time and effort.

FINDS GREAT FORCE

Paris, March 19.—A French scientist, Joseph Hebling, claims to have discovered a new force in nature capable of direct application for commercial purposes and surpassing electricity in every respect. He claims to have discovered the key to this force in the Old Testament, and that was the power used by the Egyptians in building the pyramids and by the ancients generally in accomplishing feats of architecture and engineering which modern science has never been able to explain, since the ancients knew none of the appliances and electric and steam forces which would render such work possible nowadays.

Study of archeology brought Professor Hebling to the conclusion that this secret had existed and had been lost, and he set to work studying all ancient records in the hope of finding a clue. A suggestion in the Pentateuch, borne out by random sentences here and there, convinced him that he held the key, and he at once started experiments which he is still continuing. While refusing to make public any details so long as his series of experiments is not completed, he nevertheless says that he is sure of the scientific reality and practical utility of his discovery, which he expects to revolutionize the world.

Arrangements to Be Made for Victoria Day Outing There. The annual regimental meeting of the officers of the 6th Grenadiers, held on Saturday night, was well attended by the officers. Col. Stimson presided. The reports of the various committees showed satisfactory conditions, financial and otherwise, to exist. It was also reported that, if suitable arrangements could be made, the regiment would go to Victoria Day.

County Constable Convicted. Two Charges of Blackmail Proven Against Him. London, March 19.—Nine months in the Central Prison was the sentence passed yesterday morning on John T. Westcott, the county constable of Exeter, who was recently taken into custody for blackmail.

There were two charges against Westcott. The first, to which he pleaded guilty before Judge Smith, of Ailsea, was that he had demanded money from a man named John Wilson. The second was that he had demanded money from Mrs. Dart, wife of Mr. Dart, a butcher, residing near London Junction. Yesterday morning Westcott was arraigned before Judge Edward Elliott, on the latter charge, and he pleaded guilty. He was represented by Mr. Dyer, who presented a petition signed by many residents of Exeter and vicinity, asking that leniency should be shown to the prisoner. Judge Elliott, however, could not see his way clearly to let Westcott off with a short term. His honor spoke of the seriousness of the crime, and also dwelt on the fact that Westcott had taken such an advantage of his position as a county constable. Under all the circumstances, the court decided to impose a sentence of nine months in the Central.

Westcott was then brought before Squire Smith for sentence on the other charge. Squire Smith also gave Westcott a severe reprimand, and imposed the same sentence as did the county judge. The sentences will run concurrently.

London Papers Swear That Each Has the Largest Circulation in Metropolis. London, March 19.—London is looking with some amusement at a conflict which is now going on among the London evening papers. The Evening Standard, the Evening News, the Evening Standard, and the Evening News, which are now amalgamated, and which came out on Monday boasting that they were the biggest evening paper published.

The Evening News took up the challenge, and, professing to have a larger circulation by seven to one than any other paper, came out on Tuesday, swollen to twice its former size, but at the old price of a halfpenny. This excited the Star, which shouted defiance at The News, and came out on Wednesday with a statement as to its circulation, criticizing the statements of the Evening News as inflated and unworthy, and gave figures which showed that the circulation of the largest circulation. To its own satisfaction, it evidently did, for all over London while the public looked on in bewilderment and wondered which side to back with a copper. The Sun looked on, scoffing at the wayfarer with its placards: "Don't worry, buy The Sun."

THEY, TOO, LOSE CAST. What The Bulletin Says of Messrs. Mackenzie and Mann. Montreal, March 19.—The Bulletin, a Sunday paper here, strongly wedded to the cause of Hon. Mr. Prefontaine, publishes the following Ottawa special: "Messrs. Mackenzie & Mann will be punished on account of their hostile attitude to the government, and the Canadian Northern legislation will not be passed this session. The purchase of La Presse, as the guarantee of this railway subsidized by the state, is this reason why, magnates have fallen into disgrace. The transaction, it will be remembered, was put thru in New York by Mr. Greenfield. From the beginning of the session Mackenzie & Mann, as well as their secretary, Mr. Moore, have done a great deal of lobbying, but their affairs have made no progress."

SMOKE TWO-CENT CIGARS. Paris, March 19.—The French government has announced that it has received from the tobacco monopoly a net profit of \$7,000,000. A curious feature of the statistics is that the largest sum was derived from the sale of two-cent cigars, the proceeds of which will suffice to build three new battleships.
