DEBATERS WENT FAR AFIELD ON CORONATION RESOLUTION

Premier Laurier and Leader Borden Made Statesmanlike Utterances, and Mr. Monk Evinced Constitutional Acumen and Knowledge.

But Messrs. Haggart, Maclean and Northrup Took Up the Right Lead, and the Motion Was Amended in Accordance With Opposition Suggestions—A Decidedly Interesting Time — Costigan's Motion Adopted.

Ottawa, March 1.—(Special.)—The debate on the sovereign's coronation declaration occupied practically the entire time of the House this afternoon and evening. It was rendered remarkable by three of the contributions made to it. The speeches of Sir Wilfrid Laurier and Mr. R. L. Borden were broad, lofty and statesmanlike. They will go on record as among the best ever heard in the Canadian Parliament. But for constitutional acumen and knowledge Mr. Monk of Jacques Cartier, the Quebec Conservative leader, shone alone, and supplied light and learning to the House. The debate was listened to by a crowded gallery. Lady Laurier and the wives of many members and Senators were present.

Wide of the Mark.

The debate, however, was wide of the mark, and, notwithstanding the moderation of the speeches of those who supported the motion, it was not until Messrs. Haggart, Maclean and Northrup spoke that the real effect of Mr. Costigan's motion was recognized, namely, to abolish the whole declaration made by the King.

As Mr. Haggart and Mr. Maclean pointed out, the essential portion of the declaration was the abjuration of the Catholic faith, and therefore that we were strictly limited to this, that the Canadian Parliament petition the King and Parliament to amend the declaration and abjuration by the King of the Catholic faith in terms that would not be offensive to Catholics, and after them came Mr. Northrup, who showed that, instead of this, Mr. Costigan and some others who supported him really wished to abolish the whole declaration. And for our Parliament to do this would, so these three speakers pointed out, be met with rebuke when it came before the English people and Government.

When these points were thus made clear Sir Wilfrid Laurier and Mr. Costigan consented to accept the suggestion first made by the leader of the Opposition, Mr. Borden, to petition the King to eliminate from the declaration any terms or words that were especially offensive to any of the King's subjects.

Mr. Costigan's Speech.

In moving his coronation ceremony resolution, Mr. Costigan said: I am afraid that outside of Parliament a misapprehension exists in the minds of a portion of the people with regard to the meaning of this movement and the complaint covered by the resolution which I hold in my hand. If such a misapprehension exists I hope that every member of this Parliament will feel it a duty, no matter what his views on this question may be, to assist in removing that misapprehension and in having the question fairly understood. In moving the resolution which I intend to move for an address to His Most Gracious Majesty I do so because I feel impelled, on behalf of those I represent, to ask this Parliament to sympathize with the demand we make that we be relieved from certain expressions connected with the coronation ceremony—not with the coronation oath, as has been said outside of the House, and also, I understand, inside it. We do not complain of the coronation oath. I do not propose nor would I propose to touch it to the extent of the crossing of a "t" or any party feeling; it is altogether apart the dotting of an "i." The coronation oath may remain intact. It provides for the succession of Protestant sovereigns in the British Empire. Every sovereign who ascends the throne is bound to take and subscribe to that oath by which he is sworn to maintain the Protestant religion as established by law. What I am dealing with is not the coronation oath at all; it is a declaration beyond and beside the coronation oath.

Kendall Seconder.

Mr. Arthur S. Kendall (Cape Breton): On any occasion I would consider it an honor to have the opportunity of seconding this resolution, but I appreciate the distinction all the more since I have the honor of representing a constituency which formerly formed part of that which in 1822 secured for the first time in the nineteenth century for a Roman Catholic a seat in a British Legislature. It may be of some interest to the House that I should state circumstances:

In 1822, Richard John Uniacke, a Protestant and a Loyalist, and Mr. Cavanagh, a Roman Catholic, were returned by their constituency of the County of Cape Breton for the Legislature of Nova Scotia. Mr. Cavanagh was willing to take the oath of allegiance to the King, but he declined to violate his religious belief by subscribing to a declaration against the doctrine of transubstantiation, and he was consequently not permitted to take his seat. His colleague, Mr. Uniacke, took up the battle in his behalf, and by means of a great influence which he wielded had a petition adopted by the Legislature addressed to the King, with the result that on the 3rd April, 1823, when the next session of the Legislature took place, Mr. Cavanagh was allowed to take his seat without subscribing to the objectionable oath declaration.

N. S. Resolution.

But the Legislature of Nova Scotia did not stop there. A few years later, this same Mr. Uniacke, with the assistance of Mr. Haliburton, caused the following resolution to be adopted by the House: That a committee be appointed to prepare a humble address to His Majesty, requesting that His Majesty would be graciously pleased to dispense with the declaration and test oath against Popery which His Majesty's subjects in this colony are called upon to take.

And let me say, sir, that in a House of forty representatives, only one of whom was a Roman Catholic, the remaining thirty-nine being Protestants, this resolution passed unanimously.

Sir Wilfrid's Opinion.

Sir Wilfrid Laurier: Mr. Speaker, the House may not unnaturally, perhaps, expect from me, since it has fallen to my lot to be the First Adviser of the Crown in this country and to be intrusted with the leadership of the House in its deliberations, that I should at once express the view which, in my opinion, ought to prevail upon the resolution moved by my hon. friend from Victoria, N.B.

Let me say at once—and to this I am sure there will be no dissenting voice—this is not a question as to which there can be any party feeling; it is altogether apart and beyond the scope of party controversies. Let me say, also, that it is not the intention of the Government to make it a Ministerial question. This is one of those matters which had better be left altogether to the judgment of every individual member to be voted upon, to be acted upon, either one way or the other, according to what is his conception of what is best for the country and the Empire of which we form a part.

Favors the Motion.

Personally, I may say, I favor the resolution of my hon. friend, tho, if I had had the drafting of it perhaps I should have expressed the prayer of it in somewhat different language.

But even with this, such as it is, I favor the motion, and I have no doubt that if this motion were accepted unanimously by this House, it would have a most beneficial effect for the peace and for the harmony of all creeds and all races in this country, and thru the whole British Empire.

Is it Our Business?

But the question would be asked: Why should this resolution be introduced in this House? It is not within our jurisdiction; it is not within our competence; we have no power to affect it one way or the other; at all events, we have no power to affect it directly; and, whatever may be our judgment, or even our action upon it, it cannot have any effect, for this is altogether within the purview of the Parliament of Great Britain. Such an objection, if it had been made twenty years ago, would have had, no doubt, great force, and perhaps it would have been found to be valid. But I submit that in this year, 1901, when Canada has attained the development she now has, such an objection has very little force, if it has any force at all.

Other Occasions Recalled.

We have, on more than one occasion, affirmed our authority, affirmed our right and privilege to act beyond our legislative sphere, and to offer to the Imperial authorities our views, and to make our representations upon questions which were not within our immediate domain, but which affected British subjects in whole or in part. Thus, on one, two, and, if I mistake not, three different occasions, this House passed resolutions in favor of Home Rule being granted to Ireland. Thus, at a later day, not yet twenty months ago, we passed a resolution of sympathy in favor of the Outlanders in the Transvaal. I am bound to say that, as a matter of history, at the outset, our representations were not accepted with any very great favor in England. I have a distinct recollection, which is shared, I am sure, by many of the members of this House, that we were told, in polite tho frank language, that we should confine our deliberations within our own sphere. That was years ago. Times have changed since then. Canada has progressed and developed since that time, and of late years, when we have chosen to offer to the Imperial authorities our views, affecting not Canadian but British subjects,

DEWET IS OUT OF CAPE COLONY LOST TWO HUNDRED MORE MEN

Lord Kitchener's Despatch to the War Office Tells of Success and Reverse—Eighty British Scouts Captured After a Severe Fight—Dewet Believed to Have Gone Crazy.

London, March 2.—The War Office has received the following from Lord Kitchener, dated Pretoria, March 1:

"Dewet has been forced north over the Orange River, and is now clear of Cape Colony. Two hundred prisoners have been taken, others who were stragglers being captured.

"Eighty men of Kitchener's Fighting Scouts were attacked by superior numbers, and, after a prolonged fight and sustaining twenty casualties, surrendered."

DEWET HAS GONE INSANE.

That is the Belief of Col. Plumer—Hasbrouck Has Ignored Him.

London, March 2.—The Houptoum correspondent of The Times, in a despatch dated Feb. 27, describing Col. Plumer's pursuit of Gen. Dewet, which has been continually hampered by heavy rains, says:

"Since Col. Plumer's attack at Wolvekuil, Feb. 15, the invaders have behaved like harried hares. The report that Dewet had crossed the river arose from some small parties crossing in a boat at Mark's Drift, where Col. Plumer prevented the crossing of the main commando, and took 100 prisoners.

"After the capture of Dewet's guns, Feb. 23, the enemy were in full retreat, and ought to have fallen into the hands of the column from Kimberley, but they slipped past in the night, recrossed the railway, and are now trying with Hertzog to recross the Orange River at Zandt Drift, but Hertzog's commando has melted away, the majority having been dispersed or having surrendered.

"Dewet in his fanaticism is reported as demented. It is said that he flogs everybody, and that Hasbrouck, who still has a compact commando, refuses to co-operate with him."

POUR PARLERS STILL GOING ON OVER MANITOBA RAILWAY DEAL

Board of Trade Committee and Cabinet Discuss the Bargain—Prohibitionists Demand Appeal to the Privy Council Re Liquor Law—Recruiting for Africa Finished.

Winnipeg, March 1.—(Special.)—There was not much of interest at the Legislature this afternoon. The railway bills will not be up for their second reading until Tuesday, when it is expected the Board of Trade Committee will have completed the consideration of the contracts with the members of the Cabinet. A meeting was held this forenoon and another this evening. One of the committee, when spoken to on the subject, said that good progress was being made and the discussion going smoothly. William Mackenzie, Z. A. Lash and J. Stewart Tupper C. P. R. solicitor, paid a visit to the buildings this morning to see Hon. Mr. Campbell. Mr Lash left a bunch of formidable-looking documents, and the trio withdrew without seeing any of the Ministers. Mr. Tupper appeared in an animated discussion with Mr. Lash.

Prohibitionists Still Fighting.

The Prohibitionists' Committee have issued a manifesto on the court's decision. It says: Having introduced the matter into the courts, the Government cannot fail in its duty now to carry it to the highest court of appeal. No Government can permit its own important legislation, especially when it is in response to the demand of the people, to be nullified and repealed until the judgment of the highest court of appeal has been adverse to its validity. We, therefore, counsel Prohibitionists not to be discouraged by the delay, nor to imagine that they have labored in vain. The Privy Council Committee may reverse the judgment of the lower court. It may be confidently expected that they will define more clearly the provincial powers, and our Legislature would then be able to so amend the Act, if necessary, as to bring it into harmony with our constitutional limits.

Recruits for Africa.

Major Williams completed the work of enlisting and swearing in the recruits for the South African constabulary to-day. A large surplus of applicants were disappointed when the notice "No more vacancies" was posted on the door outside the D.O.C.'s quarters. One hundred and thirty-eight men enlisted. The train arrived to-day from the west, having on board 250 men who have enlisted. They will be joined by about 200 Manitoban recruits here, and the whole will go forward for the Atlantic coast by special train, leaving Winnipeg about 4 p.m. Saturday.

MESSRS. MOXHAM AND WHITNEY BOTH DENY THAT A DEAL IS ON

Positively State That There Has Been No Proposal From Morgan Syndicate and No Negotiations Regarding the Sydney Works.

Ryan's Statement Branded as False From Beginning to End—President and Manager Declare That the Sydney Plant Is to Be Worked by the Present Company —"There Is Not Room For a Deal," Is the Way Mr. Moxham Puts It.

Montreal, March 1.—(Special.)—"There is not room for a deal between those who control the stocks of the Dominion Iron and Steel Company and the Morgan Syndicate. I do not think I can put it any stronger than that."

This statement was made to-day by Mr. A. J. Moxham, vice-president and general manager of the Dominion Iron and Steel Company, who reached here to-day with President Whitney, not to hold a directors' meeting, but to discuss financial matters with the company's trustees.

Mr. Moxham declares most emphatically that Ryan's stories, so far as they concern the Sydney Company, are false from beginning to end. There has never been an overture, added the vice-president, and he said he did not believe there was a shareholder in the Dominion Iron and Steel Company who felt like selling out to the trust.

Mr. Moxham's Toronto Speech.

When Mr. Moxham was told that some of the western papers had interpreted his address at Toronto as a bid to the Morgan syndicate, he replied that it was a prayer for the holders to keep their stock, rather than a bid to the American Trust to purchase. He declared that the favorable position of the Sydney works had already been understood by the American syndicate, and they did not require to be enlightened. The American shareholders of the Dominion Iron and Steel Company also understood the splendid advantages of Sydney, but they were not fully known by the Canadians, hence the Toronto address.

In reply to a further question, Mr. Moxham said he had been a pioneer several times in the manufacture of iron and steel, but never before had he seen such success as that attending the initial stages of the work at Sydney. He had always been confident of these results, but his knowledge of these facts did not prove them. Now, however, the case is proved.

Speaking of the Sydney fakir, Mr. Moxham states that he believes the name of Thomas F. Ryan, a well-known and conservative manufacturer of the United States, has been used by the unknown at Sydney.

Mr. Whitney Says the Same.

Mr. Whitney also made the following statement:

"No offer has been made by the Morgan syndicate. No proposition has been made to the latter from any person interested in the Canadian enterprise. We have not sold nor thought of selling. We have a good property, which will be developed along the lines indicated by Mr. Moxham, and which will have the effect of developing in Canada kindred industries, as has been proved in the United States. When you can supply the iron and the steel, kindred industries will spring up in other towns all over the country. This is the general experience. Industrial development is thus aided by the original enterprise. We cannot get into the United States, owing to the tariff, but we can stimulate Canadian industries, and we can get foreign trade. This is our object, and we are quite satisfied to develop our industry in our own way."

A Pretty Good Indication.

Mr. W. H. Whitney's intention may be pretty well understood from to-day's events. The president of the Dominion Iron and Steel Company announced here to-day that his future home would be in Sydney.

A FEELING IN OTTAWA

That There Have Been Negotiations, Notwithstanding Repeated Denials.

Ottawa, March 1.—(Special.)—While all sorts of denials are being published of the acquirement by the big American steel combine of the Sydney steel and iron works, the best informed people here say that there must be some negotiations on, and that they will ultimately be successful. They also say as a matter of fact that the Canadian and Boston magnates who control the Dominion steel works stand to divide up among themselves, after being paid full cash for any investment they have made, the round sum of $40,000,000 in bonds of the big steel and iron trust. While these bonds and shares may not sell to-day on the market at par, they will in time, and here is the big inducement to quietly engineer the deal.

TRIO OF JUVENILE THIEVES

Caught Ransacking a House on Metcalf-Street—Other Charges Against Them.

Some clever work on the part of Detective Forrest of the Wilton-avenue Station brought about the arrest yesterday afternoon of three lads, who the police believe are responsible for several cases of housebreaking which have occurred in the East End during the past month. The prisoners, all of whom are under 15 years of age, are: Harry Crombie, 372 Wellesley-street; Ernest White, 397 Wellesley-street, and Norman McFadyen, 359 Wellesley-street.

About 11 o'clock yesterday morning Detective Forrest received information that three lads had been seen hurriedly leaving the dwelling of K. Ishikawa, dealer in Japanese silks, at 67 Metcalfe-street, with a basket in their possession. The detective went to the place, and found that thieves had secured an entrance to the house thru a cellar window, and had carried off a quantity of preserves.

From a pedestrian who saw the lads leave the dwelling the officer got an excellent description, and went in search of them. After walking thru the division for about two hours, the detective met the prisoners, and followed them around until they stopped in front of the home of Mrs. Fannie Moffatt, 68 Metcalfe-street.

The lads were apparently aware that Mrs. Moffatt was away from home, for they immediately went to the rear of the house and forced a window. One of the youthful thieves climbed inside, while the others kept watch. Presently the prisoner McFadyen appeared on the sidewalk, and was placed under arrest, the detective placing his hand over his mouth to prevent him from warning his accomplices. Detective Forrest then went to the rear of the premises and succeeded in arresting young Crombie. All this time White had been ransacking the house, and was not aware of what was going on outside. Fortunately, Constable Burley put in an appearance and the third lad was taken into custody.

When the prisoners were searched nearly 100 keys and some old silver were found in their possession. The booty secured at the home of K. Ishikawa was recovered by Detective Forrest at a place frequented by the alleged thieves. Two other charges of entering houses on Metcalfe-street on Feb. 17 and 27 may be preferred against the prisoners to-day. McFadyen and White have been in trouble before.

SOLDIERS ARE FEELING SORE.

Regulars Cannot Purchase Their Discharge to Join the South African Constabulary.

The soldiers at Stanley Barracks are sore because an order from Ottawa has been posted, which practically prohibits any member of the permanent corps in Toronto joining Baden-Powell's police force in South Africa. Twenty-five of the men of the Royal Canadian Dragoons and the R.C.R.I. have made application to enlist in the South African Constabulary, but as many men who are not members of the Canadian permanent corps have applied. It is evidently thought unnecessary to draft from the regulars.

The order that has been issued prevents men from buying their discharge from the Canadian service, to go to South Africa, and that is the point on which some of them feel aggrieved. They simply compare it with "white slavery," and speak in no gentle manner of the action of the Militia Department.

The enlisting for the South African Constabulary in Toronto commences at the Barracks on Monday, before Col. Otter, and, in accordance with the order issued, it looks as if there will be no members of the permanent corps in Toronto chosen, with the exception of four or five whose time will expire within a few weeks and they will try to qualify by asking for a furlough up to the time their service expires.

NOW, WHO GUESSES BEST?

Wild-Looking Statement of a Gentleman From Ottawa Regarding Mr. H. F. Gardiner.

Montreal, March 1.—(Special.)—Liberal politicians do not place a great deal of faith in Editor Gardiner's alleged promotion to the Hamilton postoffice. A gentleman who arrived from Ottawa this evening declares that the Hamilton journalist is slated for the general superintendency of Lord Aberdeen's canned goods factory in British Columbia, at a salary of $2500 a year.

Steamer Montfort Has Left Liverpool and Will Arrive at Halifax Next Week.

Ottawa, March 1.—The transport Montfort, on which the Canadian recruits for the Baden-Powell's will sail to South Africa, has left Liverpool, and is expected to reach Halifax on the 8th inst. It is not expected that she will sail from Halifax before March 20. The Canadian recruits will be provided here with sufficient equipment to make them a uniform body, and also make them comfortable. The equipment is being looked after by the stores branch of the Militia Department, Col. Macdonald giving the work his personal attention.

HALIFAX PROPOSES A BONUS.

City Council Offers $100,000 Now and an Equal Sum Later for a Shipbuilding Plant.

Halifax, March 1.—The City Council tonight passed a resolution bonusing the establishment of a steel shipbuilding plant in Halifax to the extent of $100,000, and an additional sum not exceeding $100,000 on the completion of machinery and boiler shops turning out not less than 20,000 tons of steam shipping annually.

More Chinamen Captured.

Malone, N.Y., March 1.—Twenty-three Chinamen were captured on the Canadian line north of Malone to-day, and are in jail here. The same number is coming Saturday. They probably will be taken to Ogdensburg. Commissioner Woodward of Plattsburgh refused to hear cases until his back pay and the five-dollar-a-head fee are forthcoming.

MR. CREELMAN FOR C.P.R.

Toronto Lawyer to Become Chief Solicitor—Judge Clark to Be Counsel.

Montreal, March 1.—(Special.)—Toronto, it appears, will furnish the new chief solicitor of the Canadian Pacific. President Shaughnessy stated this morning that the company had offered the position from which Judge Clark is retiring, namely, that of chief solicitor of the system, to Mr. A. R. Creelman, K.C., of Toronto, and that the offer would very probably be accepted. Arrangements, he said, were now in progress, which he hoped would allow of Mr. Creelman taking up the duties connected with his new position in June next. Judge Clark, he further intimates, would be retained as counsel for the system.

DEATH OF MR. COCKSHUTT.

One of the Oldest and Most Respected Residents of Brantford Died From Pneumonia.

Brantford, March 1.—Ignatius Cockshutt, aged 88, passed away at 1 o'clock this afternoon from pneumonia, his family being all present. Deceased was one of Brantford's most highly esteemed and respected citizens. He had accumulated considerable wealth. He retired from his merchant's business some years ago. He was very liberal to the poor. He had been identified with all of Brantford's enterprises for years, always taking a deep interest in any undertaking that would benefit the city. His sorrowing family have the sincerest sympathy of the citizens.

APPEARS LIKE A MURDER.

George Maynard of Montreal Says He Found His Wife Dead When He Reached Home.

Montreal, March 1.—(Special.)—This morning Mrs. George Maynard, living at No. 2 Desjardins-avenue, was found dead at her home, and her body presented the appearance of having been hacked right and left. The medical men believe, in fact, that a brutal murder has been committed. George Maynard, a C.P.R. employe at Viger Station, was at home when the police arrived. He had evidently been on a spree, and said his wife was dead when he reached home at midnight, but he did not want to disturb the neighbors. There were several dogs in the house, and the husband said the animals might have killed his wife. Maynard has been held awaiting developments.

KINGSTON SMELTER MATTER.

New Offer of Promoters to Build and Equip and Operate for Not Less Than 20 Years.

Kingston, Ont., March 1.—The Kingston smelter matter stands thus: Messrs. A. S. Terril and Delos P. LORD SALISBURY'S SALARY.

An Interesting Debate on the Subject in the House of Commons About It.

London, March 2.—The House of Commons had an interesting interlude last evening in the vote on Lord Salisbury's salary. Mr. James Henry Dalziel, Liberal, protested against a revival of the salary attaching to the office of the Privy Seal. He urged that if the Premier was to have a salary it ought to be a respectable one.

The House was crowded, and the debate excited considerable interest. The vote was adopted, 183 to 107.

The Reverend Chaplain of the First Contingent Further Shows His Broad Christianity.

GIFT TO PROTESTANT HOSPITAL.

Fifteen Hundred Dollars Bequeathed to Jeffrey Hale Institution at Quebec.

Quebec, March 1.—Rev. Father O'Leary has just given another proof of his broad, tolerant and Christian spirit by bequeathing to the Jeffrey Hale Hospital of Quebec $1500 of the testimonial fund lately presented to him, the governors of that institution undertaking to pay him a small annuity until his death, when the money will become the full property of the hospital. This generous action on his part is in keeping with the determination which he expressed on his return from South Africa, and when he heard for the first time of the testimonial, namely, that as a considerable portion of the fund had been subscribed by his Protestant fellow-citizens, the money should revert to them and be applied for their benefit at his death. When all the returns are received the fund will amount to about $3700, after all expenses are paid, some $3630 having already been deposited in the bank.

A SENSATION IN BRANDON

The Basso of the Methodist Choir Arrested Yesterday on a Charge of Bigamy.

HE LEFT A WIFE IN ENGLAND

And Married Another in Winnipeg, According to Allegations in the Warrant.

Brandon, March 1.—A sensation was caused here to-day by the arrest of one of the prominent members of the Methodist Church choir on a charge of bigamy. The prisoner's name is John Schofield. He came here from Winnipeg two or three months ago and secured employment with W. W. Carruthers in a hide and wool warehouse. Schofield, previous to coming to Brandon, resided in Winnipeg, where he was a member at different times of Westminster and Congregational Church choirs. From what can be learned of him there, it appears that Schofield was married in 1889 in Oldham, England, to Miss Emma Ward. Shortly after this he came to Canada, and Mrs. Schofield lost track of him. The John Schofield arrested here to-day was married a year or so ago to a lady in Winnipeg, where she now resides. Evidence has been secured, it is said, which goes to prove that John Schofield of Oldham, England, and the prisoner are one and the same. Action was commenced at the instance of his first wife. Schofield made many friends during his short residence here, his ability as a singer helping him considerably. He was the basso of the Methodist Male Quartet.

CONTRACT LET TO SCOTCH FIRM

For Steel Works at Port Talbot, Ont.—Special Despatch From London to N. Y. Sun.

New York, March 1.—The Sun has the following from its London correspondent: The contract for building the new steel works at Port Talbot, which it is estimated will cost £100,000, has been awarded to a Scotch firm.

Port Talbot is in the Province of Ontario, on the shore of Lake Erie, in West Elgin County.

The Liberal Was Elected.

London, March 1.—The result of the Parliamentary bye-election in Maidstone today to fill the vacancy caused by the unseating of Mr. John Barker, Liberal, owing to bribery of voters at the recent general election, was the return of the Liberal candidate, Sir Francis Evans, who received 2375 votes against 2162 for his Conservative opponent, Mr. Thomas Milvain.

SIX OF THE POWERS JOINED.

In Friendly Pressure on China to Prevent Russia Getting Concessions in Manchuria.

Berlin, March 1.—Statements representing that Germany, Japan and Great Britain have jointly remonstrated against Russian annexation of Manchuria are officially denied. The facts of the case are that the powers constituting the triple alliance and Great Britain, Japan and the United States have separately made to the Chinese plenipotentiaries in Pekin friendly representations as to how unwise it would be for China at the present stage of the peace negotiations to grant one power separate concessions, and thus to render more difficult an agreement with the others.

United States Ambassador White confirms the foregoing declaration of German officials, adding that the United States is in perfect accord with Germany in this matter. The German press continues to discuss the situation thus developed, in which it sees most critical possibilities threatening the harmony of the powers.

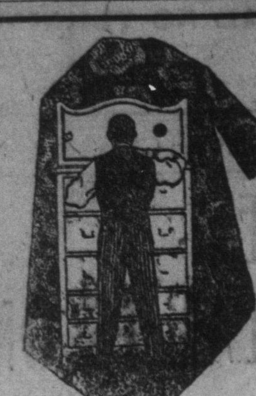

Business College At Home.

The students of the Central Business College held a successful at home last night in Forum Hall. Nearly 300 couple were present. The concert embraced piano solos, songs and recitations and was contributed by D'Alesandro's Orchestra, Miss Brinston, Miss Agnes Haines, Miss McCormick, Miss Harrison, Miss Rice, Mr. J. Dawson, Mr. J. J. Williams and Mr. A. M. Kennedy.

U. S. TROOPS ORDERED AWAY.

Gen. Chaffee Instructed to Further Reduce His Military Force at Pekin.

Washington, March 1.—Carrying out the policy inaugurated by the State Department, when it changed its military force in China into a legation guard, the War Department has sent orders to Gen. Chaffee to still further reduce his force. The General now has under his command about 1800 men, composed of troops "I," "K," "L" and "M," 6th United States Cavalry; Battery "F," 5th Artillery, and the 9th Infantry. Altho nominally a legation guard, Gen. Chaffee's force is of rather formidable offensive quality, and not desirous of retaining an unnecessary menace to the Chinese court, and, in order to hold out inducements for its early return to Pekin, the United States Government some time ago determined upon a further reduction of the American forces, and the orders went forward. Considerable discretion was left to Gen. Chaffee in the selection of the troops to remain, and it is assumed at the department that the Pekin despatch announcing that these consist of two companies of the 9th Infantry, under Major Robertson, is correct. If the other powers represented at Pekin can be induced to follow this policy, it is hoped that a long step will have been effected toward the restoration of normal conditions at Pekin. It is said at the War Department that the arrangements have not yet been made for bringing away the troops from Pekin, and it is believed that this cannot be done before the ice clears out of the Pei River, which is usually some time in the latter part of March. The troops are to go to Manila, thereby making good the losses which Gen. MacArthur's command will sustain thru the withdrawal of the volunteers who are coming home to be mustered out.

It is the understanding at the War Department that Gen. Chaffee, who will leave Pekin with these troops, is to relieve Gen. MacArthur of the supreme command in the Philippines.

HAMILTON NEWS

MUNICIPAL LAW DISCUSSED

City Fathers Wrestled for Two Hours With the Proposed Amendments to the Act.

HOW TO DISTRIBUTE CHARITY

And Not Be Taken in by Professionals, is a Question for Consideration—Sewer Matters.

Hamilton, March 1.—(Special.)—The city fathers sat for two hours this afternoon discussing the amendments to the Municipal Act which the Ontario Municipal Association proposes to place before the Legislative Committee of the Legislature next week. The aldermen battered the amendments quite severely, and when all was over there were several large holes in them. The aldermen condemned the proposals to have two representatives for each ward in place of three; to allow half of the aldermen to hold office for two years; to have nominations from 7 to 8 p.m., and to make the qualification $5000 freehold and no leasehold. They expressed themselves in favor of these amendments: In case of an alderman's resignation, that the man getting the next highest number of votes be declared his successor; in case of the death or resignation of the Mayor his successor to be appointed from the aldermen; the new Mayor's ward successor to be chosen when an alderman resigned; a two-year term for the Mayor and power given to the Council to revise and control estimates of bodies receiving appropriations from the Council but not elected by the people.

On Ald. Walker's suggestion it was resolved that if other cities are given permission to spend more than the statutory amount on the reception of the Duke of Cornwall, Hamilton be given similar power.

Distribution of Charity.

Representatives of the various city charitable institutions met in the Mayor's office this afternoon to consider means of devising some systematic distribution of charity. W. A. Spratt occupied the chair. The discussion showed that the professional beggar was getting in his fine work, and something must be done to squelch him.

A suggestion that there be one distributing centre was not approved of. It was agreed that a list of those who received aid should be available, and that meetings might be held bi-weekly.

The representatives will report to their societies and meet again next Friday afternoon.

To Beautify Courthouse Square.

The Court House Property Committee met this afternoon and decided to make the Court House Square look handsome by means of several flower beds. About $75 will be expended. Several pieces of furniture for the offices of the County Judge and Master-in-Chancery were ordered to be purchased.

Sewer Committee.

The Sewers Committee met to-night. John Patterson and John Grantham were present, asking that the Imperial Canning Co.'s factory be connected with the city sewerage system. It was practically decided to meet the demand, the cost to be $650.

A Charge of Stealing.

Harvey Oliver, 67 West Jackson-street, was arrested to-night by Detectives Campbell and Bleakly on a charge of stealing $20 from the St. Nicholas Hotel proprietor last night.

Indoor Baseball.

In the indoor baseball series to-night St. Patrick's Club defeated the Germania Club by a score of 10 to 9. The Hamilton B.C. failed to appear and the V.Y.C. was awarded the game by a score of 9 to 0.

Police Points.

At the Police Court this morning Roy Edmonstone, Park-street, pleaded guilty to a charge of theft, and was remanded until to-morrow for sentence. His pal, Charles Johnson, was remanded for trial.

John B. Ridge, grocer, was acquitted on a charge of illegally keeping $5 belonging to D. Durham.

Is Charged With Fraud.

At the Police Court to-morrow morning the public will be told something about the furniture business which was carried on on King-street over a year ago, under the name of R. McClenahan, but which in reality, it is claimed, was run by Assessment Commissioner Hall. McClenahan has been summoned to answer to a charge of obtaining $15.75 under false pretences from William Hoey.

According to the complainant's story Hoey purchased $30 worth of goods from McClenahan, giving a note for the amount. On account of this note Hoey paid McClenahan's bookkeeper $15, and later paid McClenahan the balance, $15.75. McClenahan, it is alleged, represented that he would deliver the note in a few days. As a matter of fact, the note had been transferred to the Bank of Hamilton, and has never been lifted. The first intimation that Mr. Hoey had that the Bank of Hamilton was in possession of the note, he says, was three months after McClenahan made an assignment.

McClenahan's story is that the business belonged to John T. Hall, the present Assessment Commissioner, and that he paid over to Mr. Hall the money he collected from Mr. Hoey. John G. Farmer is counsel for Hoey.

Tailors Want an Increase.

The Journeymen Tailors' Union has addressed a circular letter to each of the city merchant tailors, advising them that the newly-proposed schedule of wages will include a 10 per cent. rise, to take effect on March 15. No action has yet been taken by the merchant tailors.

PRINTERS AND BOOKBINDERS.

The Masters Made Their First Annual Dinner a Most Enjoyable Affair.

The first annual dinner of the recently formed Master Printers' and Bookbinders' Association was held last night in McConkey's Restaurant and proved a most enjoyable affair. Nearly 150 members were present, who listened to eloquent addresses and an excellent musical program. After partaking of a sumptuous repast an interesting toast list was gone thru. The toast of "The King, Queen and Royal Family" was honored by the singing of the National Anthem, after which Rev. Dr. Briggs delivered an appropriate address. Mr. A. F. Rutter proposed "Canada and Our Parliamentary Institutions," which was replied to by Prof. George M. Wrong and Mr. J. S. Willison, while the toast of "The Imperial Forces" was coupled with the names of Mr. James Murray and Lieut. Jno. A. Cooper. Mr. S. R. Hart, vice-president, proposed "Ye Ancient Arts," the toast being replied to by Messrs. Richard Brown, A. W. Thomas and A. W. Briggs, while "Kindred Industries" was looked after by Messrs. T. G. Wilson and J. F. Ellis. Mr. R. G. McLean and Mr. P. W. Ellis spoke for "Trade and Commerce," and to "The Press" Major Horn, John Imrie and Rev. R. Douglas Fraser. Messrs. R. J. Copeland, Richard Southam and E. J. Hathaway responded to "The Ladies."

Interspersed with the speeches were selections by a quartet, composed of Messrs. Charles Dinnmock, J. Alexander, Wm. L. Richardson and W. G. Blackgrove. Mr. D. A. Chapman officiated as accompanist. Glionna's Orchestra rendered pleasing music during the evening.

A pleasant surprise was given Mr. Atwell Fleming, the popular secretary, when Mr. S. R. Hart, vice-president, presented him with a beautiful cabinet of silver and an illuminated address on behalf of the members. The recipient replied briefly, thanking the members for their gift.

Letters of regret were read from Premier Ross, Hon. Richard Harcourt, Hon. James Stratton and Mayor Howland.

"G" Co. Royal Grenadiers.

The Temple Cafe was the scene last night of the annual dinner of "G" Company, Royal Grenadiers. The function was the most successful ever held under the auspices of this company, being participated in by over 75 members and a few of their friends. The toasts were: "The King," "Canada," "Our Regiment" and "Our Guests," and were ably and eloquently responded to by Lieut. Kingsmill, who officiated as chairman: Mr Thomas E Champion, Capt McKay, Capt Myers, Sergt-Major Johnson, Sergt-Major Cox, Color-Sergt Bennett and Sergt Brimley.

During the evening a handsome gold locket was presented to Sergt. Lay, a South African veteran, by the members, the presentation being made by Lieut. Kingsmill. A musical program was contributed by the Olympic Quartet, Herb Sproule, Mr Johnston and Mr. Cooper.

Manager T. G. Davey of the Temple Cafe provided an excellent repast, which was heartily enjoyed by all present.

PYRAMID PILE CURE

Physicians Recommend It, Druggists Sell It, Everybody Praises It.

If we could sell one package of Pyramid Pile Cure to every person in America who is troubled with piles, and who would gladly give the 50 cents to be rid of piles, we would have about ten million dollars. The only reason that we don't sell that many packages this year is that we will not be able to get ten million people to try it. Just one application will prove its merit and amply repay the cost of a whole box.

The effect is immediate. Comfort comes at once, and continued treatment will cure any case no matter how bad.

Pyramid Pile Cure soothes the inflamed surface the instant it touches it, heals it, reduces the swelling and puts the parts into a healthy, active condition. There is no substitute for it. Nothing compares with it.

We have never heard of a single case that it failed to cure; we have heard of thousands it has cured quickly and completely.

Here are a couple of letters recently received:

From Geo. C. Geick, Owens Mills, Mo.: "Some time ago I bought a package of Pyramid Pile Cure for my wife, who had suffered very much. The first trial did her more good than anything she has ever tried. It is just what is claimed for it."

From Richard Loan, Whipple, Ohio: "I have used the Pyramid Pile Cure and am entirely pleased and satisfied with results. It does the work and no mistake."

The proprietors of the Pyramid Pile Cure could publish columns of similar letters, but these are enough to show what it will do in different cases.

All druggists sell Pyramid Pile Cure or will get it for you. It is 50 cents per package, and made only by the Pyramid Drug C., of Marshall, Mich. 36

WOODSTOCK LIGHTING PLANT.

The Town Authorities Took it Over Yesterday and Will Hereafter Operate It.

Woodstock, March 1.—The town of Woodstock to-day took over the electric light plant and will in future run it themselves. Over two months ago the property-owners voted on the purchase and it carried by a large majority. Since then, however, there has been considerable trouble over missing bonds, but up to date there are only $2000 worth missing and the town took over the plant, paying the purchase price, less the $2000. When these bonds are found the other $2000 will be paid the company. The price to be paid is $14,000, $12,000 of which was paid to-day.

Grip and Appendicitis.

The somewhat startling statement of Dr. Lucas Championniere, made to the Academy of Medicine of Paris, that "appendicitis is but a localization of the grip affecting the intestines and often the appendix itself," will hardly accord with facts observed in this country.

There is no doubt that occasionally the two diseases occur together, but not frequently enough to make out any direct relation of cause and effect. It seems much safer to say that influenza, in certain cases in which the intestinal complication is severe, may predispose a patient to catarrhal inflammation of the appendix than to assume that the grip poison itself is the distinct causative factor.

There do not appear to be any more chances of the appendix being directly affected than obtain with any of the other organs; in fact, by no means so many. Besides, medical authorities here are quite well agreed on the question of the pathology of appendicitis, which in no essential respects corresponds with that of well-known complications of grip in other parts of the body.

Appendicitis starts merely as a catarrhal inflammation, but afterwards has laws of its own. It is quite possible, then, that the distinguished French savant is attempting to prove too much by his somewhat sweeping theory.

Several surgeons of this city who have been interviewed on the subject are evidently of this opinion, and the public can at least congratulate itself that it is not to have another terror added to our winter epidemic. From every point of view the discussion is interesting.

Observance of Sunday.

Chambers' Journal.

There are many English laws extant relative to the due observance of Sunday. Most of the old sumptuary acts have a clause laying down regulations about the special clothes to be worn on Sundays and holidays. By an act of the year 1603 a fine is authorized to be levied on the goods of all persons absenting themselves from church on Sunday. The last successful case under this act was heard in the year 1864. Isaac Walton, not the "compleat angler," but a less famous namesake, was fined for refusing to attend church at the request of his mistress, and there is an instance of a boy causing his mother to be fined for the same offense. According to law, no one is allowed to take a ride in his carriage on a Sunday without getting a certificate stating that he has urgent business to perform. Prosecutions for Sunday trading have been brought at the instance of the Sunday Closing Society; so, perhaps, it is worthy of note that a private gentleman may sell a horse on Sunday, but a horse-dealer may not.

Vigorous Measures.

Harper's Magazine.

For a long time the favorite form of "make believe" of little Faith was that of "getting married." For weeks she was a bride, marching down an imaginary aisle, to the strains of an imaginary wedding march, to meet an imaginary bridegroom. At last, her mother, becoming tired of it, said:

"Faith, don't you know that when you get married you will have to leave me?"

This was a rude awakening, and the game stopped.

Not long afterward she came to ask the difference between "Miss" and "Mrs." To make herself clear the mother said:

"Well, when you grow up and become a young lady you will be Miss Butler, but if some man should ask you to marry him"—

"I'd call a policeman!" exclaimed Faith, and her interest was at an end.

Niagara-on-the-Lake, Ont., March 2.—An old building on the corner of Queen and Victoria-streets, known as the Centre House, was almost totally destroyed by fire this morning. The fire, which was of incendiary origin, had made considerable headway before discovery. The building was used by Wm. McClelland as a storehouse and ice house, and had just been filled with ice. The loss will reach several hundred dollars.

BRITISH AMERICA ASSURANCE COMPANY.

The sixty-seventh annual meeting of the Shareholders of this Company was held at its offices, Toronto, on Thursday, 28th February, 1901.

The President, Hon. George A. Cox, occupied the chair; and Mr. P. H. Sims, who was appointed to act as Secretary, read the annual report, of which the following is a summary:

Your Directors have the honor to present the annual report and financial statement of the Company's sixty-seventh year, duly vouched for by its Auditors.

It will be noted that there has been a considerable increase in the premium income for the year, this being mainly due to the business derived from the new fields in which the Company has established business connections, and also to the improved conditions that have prevailed in the marine business.

Two half-yearly dividends have been declared at the rate of seven per cent. per annum, amounting to $60,323.96, and the Reserve Fund has been increased to $581,457.22.

In view of the abnormal fire losses on this continent during the year 1900, including the disastrous conflagration in April last in the cities of Hull and Ottawa, which involved a loss of property to the value of about ten million dollars, your Directors feel that the statements herewith submitted must be regarded as satisfactory by the Shareholders.

The capital stock of the Company has been increased to one million dollars, in accordance with the bylaw passed at the last annual meeting, the $250,000 new stock authorized to be issued at a premium of fifteen per cent, having been all taken up.

Summary of Financial Statement.

Total cash income	$1,951,233 34
Total expenditure, including appropriation for losses under adjustment	1,890,347 57
	$ 60,885 77
Dividends declared	60,393 26
Total assets	$1,776,606 45
Cash capital	1,000,000 00
Reserve fund	581,457 22
Security to policyholders	$1,581,457 22

The President, who moved the adoption of the report, which was seconded by the Vice-President, referred to the exceptionally heavy losses by fire on this continent during the year under review, and said that although the report just read did not present so favorable a showing, as far as the balance between income and expenditure for the year was concerned, as the preceding annual statements which he had had the honor during the past eight years of submitting to the shareholders, he felt that there was perhaps as much matter for congratulation in the figures embraced in the accounts for the year 1900 as in those of some preceding statements which have shown a more favorable balance sheet. It was gratifying to observe the continued increase in the volume of the business transacted. While there had been a satisfactory growth of income from fields in which the Company had for years past been carrying on operations, he was glad to be able to say that, from the agencies recently established beyond the limits of this continent, very encouraging returns have been received. The prediction that the Directors ventured to make a year ago as to a probable improvement in conditions of marine business had, he was pleased to say, been realized, and, as a result of the better rates, which, speaking generally, had prevailed, both upon inland lake and ocean risks, there had been a fair margin of profit upon the business written in that branch during the year. But what in his estimation was more a matter for congratulation than any of the figures to which he had referred was the fact that at the close of a year in which the fire losses, in Canada and the United States, have been very largely in excess of those of average years, they were able to present a balance sheet which showed a loss of less than one per cent. upon the premium income as the result of the year's underwriting transactions—that is, ignoring the income derived from interest and rent.

The report was, on motion, adopted, and the following gentlemen were re-elected to serve as Directors during the ensuing year:

Hon. George A. Cox, J. J. Kenny, Hon. S. C. Wood, Thomas Long, John Hoskin, K.C., LL.D., H. M. Pellatt, R. Jaffray, A. Myers and E. W. Cox.

At a meeting of the board held subsequently, the Hon. George A. Cox was re-elected President and Mr. J. J. Kenny Vice-President

Old No. 5 Co., Q.O.R.

Those who attended the fifth annual dinner of the ex-Members' Association of No. 5 Company, Q.O.R., last night, in the Merchants' Restaurant, Jordan-street, were treated to an excellent program of speeches and songs. The dinner was presided over by President Walter H. Blight, who lost his son in South Africa. About 50 were present. The chairman read letters of regret from Lieut.-Col Delamere, Capt. Edwards, J. T. Wetherall, R. E. Kingsford and Capt. J. H. Knifton of Parry Sound. The toasts were: "The King," "Our Regiment," "Our Comrades in South Africa," "Our Company" and "Sister Associations." The speakers were: Color-Sergt A G Carruthers, Henry T Smith, Corp Anderson, Pte Pepper, Pte Powell, Pte Spink, Pte Bingham, Pte Spena, William Gibson, J Noverre, Fred Harris and W G Ritchie. The speeches were interspersed with selections by John Alexander ,E J Cashmore, S J Rugg, W N McKendry, J Cantwell and C Jones.

About midnight the gathering dispersed, after spending a right royal and jolly evening with "Old No. 5 Company."

Young Woman's Sudden Death.

The sad and sudden death of Mary Dorsey, a young woman employed as a machine operator at the T. Eaton manufactory, was brought to the notice of the police yesterday. Miss Dorsey lived with her widowed mother at 40 Defoe-street, and a few days ago it was said she went out of her mind. Friends of the family yesterday interviewed the police in reference to having the unfortunate woman removed to the Asylum, and Sergt. Vaughan went to the house to learn the real condition of the patient. The officer saw Miss Dorsey about 11 o'clock, and shortly afterwards she was seized with violent convulsions and expired. Dr. T. H. Little, the physician in attendance, certified to death from acute anaemia. Miss Dorsey was 21 years of age.

The Prince's Cigar Stumps.

One day at Marlborough House, when the King was Prince of Wales, he happened while passing three workmen to throw away his cigar. He had barely gone half a dozen yards, says The London Express, when, hearing a scuffle, he turned round. There were two workmen struggling furiously for the cigar end.

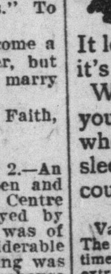

The Princess, who was with him, walked on, but the Prince returned and asked: "What is the matter?"

The two men stood abashed and confused, unable to reply, but the third man spoke up: "You see, it's this way, yer Royal 'Ighness, Jack Smith and Bill Jones have been trying for days to get one of yer cigar stumps to keep as a memento,an' when yer Royal 'Ighness flung that 'ere stump away they went for it."

"I see," said the Prince, kindly. "Just wait a moment."

His Royal Highness walked back to the house, and returned immediately with his hand full of cigars. He gave each of the men two cigars each, and said: "Now, then, here is a cigar each to smoke and one to keep, but I would advise you to smoke them both."

Asthma.

You've tried almost everything for it, haven't you? And we presume you are about discouraged. Now what do you think of our idea of breathing-in the medicine, bringing it right up to the diseased part? It looks reasonable, doesn't it? And it's successful, too.

When you inhale Vapo-Cresolene your breathing becomes easy, the wheezing ceases, and you drop to sleep. For croup and whooping-cough it's a quick cure. 16

Vapo-Cresolene is sold by druggists everywhere. The Vaporizer and Lamp, which should last a life-time, and a bottle of Cresolene complete, $1.50; extra supplies of Cresolene 25 cents and 50 cents. MORE FATALITIES BY FIRE

Rochester Again Suffers From a Conflagration Costing the Lives of Two Persons.

NEBRASKA PENITENTIARY GONE.

Only One Life Was Lost, But the Institution Was Destroyed—Loss $300,000.

Rochester, N.Y., March 1.—In a fire this noon, which destroyed the Leary Dye Works, a five-storey brick structure, at the corner of Platt and Mill-streets, two lives were lost, one man fatally injured, and 10 other persons more or less seriously hurt.

The dead: Two unidentified bodies, a man and a boy, at City Morgue, both burned beyond recognition, and their identity will be difficult to establish.

Injured: Edward Theis, back injured, arm broken, will recover; Frank Udell, fatally injured, jumped from fourth storey; William Boeyink, back injured and badly bruised, will recover; David W. Allen, face burned, right arm broken, will recover; F. Conrad, face burned, body bruised, not seriously injured; Lieut. Kelcy Martin, Hose Company No. 11, ankle broken; Mary Vincent, burned about face and arms; Raymond Belcom, burned about head and face; Frederick Case, bruised by jumping from third storey into blanket.

Where the Fire Started.

The upper floor of the building was occupied by the Seneca Camera Company, who employed a force of about 25 men and women. The fire started in the third floor, and is supposed to have been caused by a slight explosion of chemicals stored in that floor. At the outbreak of the fire, word was carried to Bridgford's machine shop, across the way, and ten or twelve of the employes secured several heavy pieces of canvas and ran to the scene of the fire. They were in time to catch two men, Frederick Case and Conrad, who jumped from the fourth storey, but a third, Mr. Udell, missed the canvas and was fatally injured.

In the room in which the fire started there were between two and three dozen persons. So suddenly did the flames fill the room that it was impossible for all to escape by way of the doors. There was a wild rush for the fire escapes, and 24 persons are said to have made their escape in that way. Total loss, $53,000.

STATE PENITENTIARY BURNED.

Nebraska's Penal Institution Went Up in Smoke.

Lincoln, Neb., March 1.—Nebraska's State Penitentiary, three miles from this city, was almost destroyed by fire which started last midnight. The loss will exceed $300,000. One convict, George Pfleuger, lost his life. He was released with the other convicts, and had marched out with them, but went back to his cell for some personal effects. When the ruins began to cool off to-day his charred body was found. Pfleuger was serving a life sentence for the murder of his wife.

There was no disorder among the convicts, who were guarded by militiamen hastily summoned from Lincoln. The main building of the penitentiary was practically new. Nothing was left but the east wing, occupied by the warden, the chapel and a small reserve cell room. The prisoners were removed to the reserve room under extra guard, without difficulty. Lieut.-Gov. Savage arranged to have a sufficient number of the National Guard sent to the penitentiary to prevent any escapes being made.

With the exception of the books, records and papers of the institution, nothing else of value was saved from the burning structures.

"I have no opinion to offer regarding the origin of the flames," said Warden Davis. "The fire started in the kitchen, but how is more than I can tell. The loss will reach $300,000, with no insurance."

Serious Fire at Ballston, N.Y.

Schenectady, N.Y., March 1.—A special to The Union from Ballston says that fire destroyed $75,000 worth of property in that village this morning. The flames originated in Massey's Hotel in Milton-avenue, and rapidly spread to adjoining business blocks, and before the fire was under control five business blocks had been destroyed. The local fire department was not able to cope with the fire, and in response to an appeal Saratoga sent a part of its fire apparatus to Ballston. The insurance will not meet the loss by one-half.

PERSONALS.

Mr. Ben Pearce, superintendent of the Barber & Ellis Company, is at present in St. Louis, Mo., on a business trip.

Oak Marten, the poster artist for the Binner people, New York and Chicago, is at present in town. Mr. Marten is well known in art circles here, and his brilliant career is of great interest to his many friends. Mr. Marten was called here by the sudden death of his father.

Mr. John W. Platten, an old Toronto boy, who was formerly assistant purchasing agent for the Erie Railway, has been elected treasurer of the Pennsylvania Coal Company, No. 1 Broadway, New York. Mr. Platten has many friends in Toronto, who will be glad to hea of his success.

Mr. George Lyman, son of the late Lieut.-Col. Lyman, came from Montreal to Toronto yesterday to enter the head office staff for Canada of the Norwich Union Fire Insurance Company. Mr. Lyman was very popular in Montreal, and on leaving for this city was presented by his associates in the Liverpool, London & Globe office with a valuable traveling outfit.

A Toronto wholesale merchant wrote to a retail merchant in Peterboro after the recent grave robbery that Peterboro was rather an unsafe place to "die and be buried in." The retail merchant responded that Peterboro was quite a hustling place, as, when it was discovered that a grave was empty, one of the rural inhabitants killed a man so that the grave might be filled. The retail merchant referred to the Sharpe murder case.

Peddler Was Held Up.

Henry Johnston, a vegetable peddler, who lives at 311 Pape-avenue, reported to the police yesterday that on Thursday afternoon at 4 o'clock, while on Park-road, three men attacked him and took $3 from him. Detective Harrison is investigating.

WHY DOSE YOURSELF WITH NAUSEOUS DRUGS WHEN DR. H. SANCHE'S OXYDONOR Will Cure You While You Sleep?

Why Are You So Behind The Age?

Read an American Physician's opinion of the instrument

DR. H. SANCHE:

At the time I first heard of your "Victory" I was suffering from typho-malarial fever and exhaustion. For months was unable to walk.

Your claims seemed preposterous, but a trial has verified all you promise. I have cured myself of its use, and treat hundreds of my patients with the Oxydonor "Victory."

Am satisfied any disease, not past the curable stage, can be cured by the Oxydonor "Victory" properly used. I have cured through its use nearly every form of disease I have ever seen, including Consumption, Paralysis, Epilepsy, Cancer, Tumor, Insanity, Bright's Disease, Syphilis, Blindness, Gall Stone, Malaria, Dropsy, Rheumatism, Gout, Asthma, Locomotor Ataxia, Impotence, Phlebitis, White Swelling, Constitutional and Hereditary Diseases.

I think more of "Victory" every day, and have an opportunity to watch scores of people cure themselves and others in every disease. Very truly,

ST. GEORGE'S WON BY 2 TO 1

Stratford Hockeyists Beaten by a Better Team in the Play-Off at Guelph.

THEY WERE 1 EACH AT HALF TIME.

Losers Were the Heavier Men and Roughed it, Especially After the Interval.

Guelph, March 1.—The St. George's of Toronto and Stratfords were ordered to play off their tie in the Petrie Rink here to-night, and when, at 8.15, the two teams lined up, there was a record-breaking house to cheer their respective favorites. The Stratfords ran a special train, and had hundreds of supporters. The St. George's were not without supporters, however, and they made the rink ring with their songs and yells. Referee Telfer of Toronto was strict on all off-sides, but allowed considerable unnecessary roughness, in which the Stratford team was most at fault. The score, 2—1, in favor of St. George's, gives a brief but comprehensive idea of the work of both teams.

The Stratfords were put on the defensive for the first few minutes, and it was evident that their opponents were out for business. Several close scrimmages kept the Stratford defence very busy, and before they were aware St. George's had netted the puck with a nice side-shot. The second game was much longer, and the team work of both showed up well; the combination was well worked, and equally as well broken up when the defence was reached. However, the Stratfords, after repeated shots, succeeded in scoring. At half-time the score stood 1—1, with honors even.

In the second half everyone predicted a win for the boys in red and white, but the rough play commenced, and Eason and Pardo had a collision; shortly after this Perry fouled Pardo and was promptly ruled off for a couple of minutes. With the extra man on, St. George's pressed hard and scored their second goal, after some lightning combination. This caused the followers of the black and yellow to lose heart, and from this to the end the St. George's had the play well in hand, and repeatedly had the puck half-way thru the goal. Too much praise cannot be given to Woods, in goal for Stratford. He took care of some very difficult shots.

Near the end Gillies was ruled off for two minutes for fouling, and Eason was also penalized for his repeated tripping. Lightfoot was sent to the boards for lifting his stick too high. It is safe to say the best team won. The St. George's are a gentlemanly lot of players, and, altho much lighter, they attended to the puck, and did not depend on bodying as much as their opponents, which probably accounts for their victory. The teams were:

St. George's (2)—Goal, Temple; cover, Platt; forwards, Bish, Hynes, Pardo, Gillies, Dobson.

Stratford (1)—Goal, Woods; point, Eason; cover, Gifford; forwards, Farquharson, Rankin, Perry, Lightfoot.

Referee—Telfer. Goal umpires—Garrow and Rankin. Timekeeper—Welsh.

Tavistock Beat Stratford.

Tavistock, March 1.—A friendly game of hockey was played here last evening between Stratford and our local boys, resulting in favor of Tavistock by 8 to 5. Stratford came down with the intention of winning, but the local boys were too much for them. The play was fast at all times and free from rough play. C. Lightfoot, referee gave good satisfaction, and both sides were well pleased. The teams lined up as follows:

Tavistock (8): W. Schaefer, goal; E. Schaefer, point; W. Schmidt, cover-point; E. Loth, C. Holmes, J. Landreath and R. Loth, forwards.

Stratford (5): Goal, Keller; point, Bradshaw; cover, Struthers; forwards, Loyd, Dillon, Powland and Rankin.

Referee—C. Lightfoot.

To-Day's Bank League Final.

This afternoon's Bank League final game between Toronto and Commerce is creating great interest. The Victoria Rink management has made unusual preparations for the crowd. The whole of section A, north side, was taken up last night. The following teams will line out promptly at 3.30 o'clock:

Toronto: Goal, Carlyle; point, Crawford; cover, Gray; forwards, McKay, Wylie, McCallum, Grant.

Commerce: Goal, McMaster, point, Motherwell; cover, Smith; forwards, Steele, Ruttan, Kelso, Taylor.

Whitby Beat Bowmanville.

Whitby, March 1.—One of the best hockey matches of the season was played in Barnes' Rink here this evening between Bowmanville Juniors and Whitby Boys' Brigade, with victory for the home team by a score of 10 to 7. At half-time the score stood 7 to 4 in favor of Whitby. H. Martin of Bowmanville and A. Blanchard of Whitby were the star players. Referee, Reddy Mathison.

Bowmanville (7)—Goal, Legge; point, Martin; cover, Edick; forwards, Johnson, H. Martin, Hooper and Neads.

Whitby (10)—Goal, Lawler; point, Deverell; cover, Henderson; forwards, Blanchard, Smith, Cormack and Thompson.

Chips From the Ice.

Here's that St. George's splendid victory at Guelph last night may be followed up to-night at Kingston with the Wellingtons skating away from Queen's!

There is disaffection in the management of Queen's Hockey Club. Manager Walkem resigned because he was not consulted in selecting the team to meet the Wellingtons.

The Hamilton Thistles-Prospect Park match for the Carlyle Cup, which was to have taken place to-day, has been postponed until Tuesday afternoon next on account of the weather.

The second concluding game at Guelph for the Kloepfer medal between the Royal City and Union Curling Clubs was played Thursday, the former coming out 24 shots ahead, and winning the medal for this year.

J. S. Russell, secretary of O.C.A., who is a great admirer of the game of points, has kindly donated a very handsome gold-mounted medal for a competition at points, which (weather permitting) will be played next week.

The Devonias of Nisbet & Auld defeated the Waverley's Thursday night by 5 to 2. The following represented the Devonias: Goal, Crone; point, Christie; cover, Marks (captain); forwards, Jackes, Perram, Gibson, Davidson.

A hockey match was played on Old Orchard Rink on Thursday evening between teams from the Consolidated Cloak Company and Messrs. Boulter & Stewart. The game was well played and strongly contested thruout, and the score was 3 to 0 in favor of the Consolidated Cloak Company's team. The match was ably refereed by Mr. Lucas, and adds much lustre to representatives of Consolidated Cloak Company, who can rightly be considered champions of the cloak houses, having won in every match they have played this season.

At the Victoria Rink on Thursday night teams from the Confederation Life and North American Life came together for the second time this season. The result was again in favor of the C.L.A. by 6 goals to 4. Both sevens played hard hockey, and Referee Sweatman had to penalize several of the players for slight infringements of the rules. During the first half Frank Hodgson of the C.L.A. broke his arm by colliding with a goal post. The winners lined up as follows: Goal, Andras; point, Macdonald; cover, Perry; forwards, Lillie (captain), Staunton, Robb and Hodgson.

Royal Canadian Bicycle Club.

The Old Orchard-Royal Canadian hockey match, which was to have been played on the Old Orchard Rink on Friday night, has been postponed till further notice.

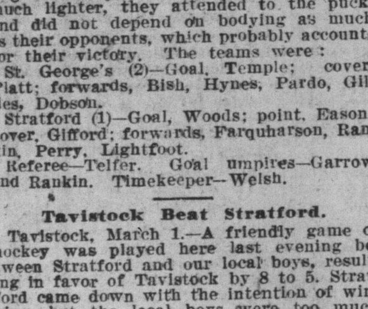

The regular monthly meeting of the Royal Canadians will be held on Monday night, when the new officers will make their first report for the year.

The Royals are taking a lot of interest in the Pedro League, in which they stand first.

Toronto Club Competitions.

The medal competition in the Toronto Curling Club was finished this week, and resulted in the rink skipped by A. D. MacArthur winning the President's prizes. Dr. Gordon being the runner-up. A. F. Webster's team won the Vice-President's medals, R. K. Sproule being the runner-up. The club will have its annual points competition this afternoon.

Varsity Assault-at-Arms.

The final preparations are now being made for the assault-at-arms, which takes place on March 13 at Varsity Gymnasium. The tickets will be on sale on Monday. This year the team is much stronger than usual, and, appearing in the new uniforms of blue and white, will give an excellent exhibition. Some new work is being tried on the flying trapeze, and horizontal bar, and the tumbling and long-horse work, which were missed last year, have received considerable attention. A new feature will be the bayonet drill, old and new style, given by a squad of student-soldiers. Another thing much missed last year was the performance of the clowns, and these have been selected for this year and are racking their brains for new feats. Combats with the foil, sabre, bayonet and quarter-staff will be given by the students.

TORONTO-ROSEDALE CRICKETERS.

Officers Elected at the Annual Meeting—Talked About Grounds.

The annual meeting of the Toronto-Rosedale Cricket Club was held at the Walker House last night, with D. W. Saunders in the chair, and these gentlemen present: Messrs. Heighington, J. H. Forrester, W. E. McMurtry, A. Ogden, E. Marsland, H. J. Martin, J. W. Wright, M. C. Cameron, H. Fellows, R. C. Reade, E. J. Livingston, H. J. Martin, A. Mullen. The meeting, if not as large as usual, was most enthusiastic, and it is to be hoped by all that the season of 1901 will be a successful one. The treasurer's report was more satisfactory than that of the Executive Committee. The receipts for the year were $548; the expenditure $540.

The secretary's report went on to say that on the whole last season was a most disappointing one, as the number of matches played were fewer than in previous years, and that the only noteworthy feature was the visit of the Philadelphians; that the debts of the club were all paid off, and showed 36 senior members, 10 honorary members, with 22 colt members.

Some mention of the disadvantages of the grounds being so far away was made, and the negotiations for the University lawn for the use of the club is again opened up. Captain Mullen of Varsity was present at the meeting, and favored the Toronto Club having the use of the lawn at the back of the University. When Treasurer Martin was asked, if these grounds were secured, would it mean a dissolution, he said that all the cricketers except a few would go over to the Torontos if the college grounds were secured.

The club are negotiating for a pro., and probably Flett, with Galt last season, will be asked to come here. The following officers were elected for the year:

President, J. Hardy; vice-president, A. F. Rutter, H. M. Blackburn, J. Woods; secretary, M. C. Cameron; assistant secretary, J. W. Wright; treasurer, H. J. Martin; auditor, A. Ogden; Executive Committee, D. W. Saunders, J. H. Forrester, E. Heighington, A. Gillespie, H. Somerville, W. E. McMurtry, H. Lownsborough.

CANOE CLUB'S ANNUAL DINNER.

Two Hundred Members and Guests Enjoyed a Sociable Evening.

The annual dinner of the Toronto Canoe Club was held last night in the club house at the foot of York-street. The banquet was held in the large reading room, where covers were spread for about 200. The rooms were tastefully decorated in the club's red and white, intertwined with numerous Union Jacks around the walls.

The chairman of the evening was Commodore Howell, while the guests of honor were: Mr. T. P. Galt (Argonauts), Mr. Forbush (Buffalo), Ald. Loudon (Queen City), George Ewart (Toronto Rowing Club), W. E. Rundle (Canadian Club).

The usual toasts were proposed and responded to in a genial way, after which a first-rate impromptu musical program was presented and thoroly enjoyed, most of the talent being members of the club. Napolitano's Orchestra supplied the music.

FOR A FOUR-CLUB CITY LEAGUE.

Park Nine, Crescents, St. Mary's and Capitals Named as a Formidable Circuit.

Onlooker, a well-informed and substantial patron of amateur baseball, sends the following pointed letter: I see all kinds of notices of organization meetings for the different baseball leagues in the city, but the one I want particularly to call your attention to is the Toronto Senior League. I was last season, and hope to be this, a regular patron at old U.C.C. grounds. The point that I wish to bring before your notice is the make-up of this league. We have within three blocks of one another no less than three teams, all of whom are represented in the Senior League, and I might say, while each team has some good material, none of them can be called strong teams. I refer to the St. Mary's, Night Owls and Wellingtons. Now, speaking of the Wellingtons, I might say that this team was for the most part last year without a catcher, and also really without a pitcher, that is, amateur pitcher, as they had a man by the name of Edwards whom they brought down from St. Kitts, and who, I understand, was neither more nor less than an American professional, whose real name is Stetchner. Now the above style of running a team certainly does no good to the game of baseball. If two of the above three teams were to amalgamate, or, perhaps better still, the whole three of them, they would make one first-class team, and thus leave an opening for an east or north end team, say the Capitals, and by so doing make a strong four-club representative city league. If amateur players want to hold their own next season something like the above should be done. We would have by this the St. Mary's (or amalgamated teams) for the south, Park Nine for Parkdale, Crescents for Centre and Capitals for the north. This would make four strong teams, good healthy rivalry amongst the different teams, and good big crowds at every game.

Opening Games Next Month.

New York, March 1.—Contrary to all previous schedules issued by the National League of Baseball Clubs, the western nines this season make a trip to the east before the eastern section goes west. The eastern clubs also finish in the west, which brings the season in this city and Brooklyn to a close on Sept. 13, earlier than at any time in the history of National League baseball. The schedule adopted may be changed at any time to conflict with the American League dates at Boston, Chicago and Philadelphia on March 20. The National League season will open on April 18 and close on Oct. 6. The opening games are:

Boston at New York.
Brooklyn at Philadelphia.
Pittsburg at Cincinnati.
Chicago at St. Louis.

North Toronto Baseball Club.

The North Toronto Baseball Club held their annual meeting at the Deer Park Hotel last night, when it was decided to enter President Robinson's Intermediate League. The following were elected officers: President, J. O'Hallern; vice-president, R. Reid; secretary, C. Hackett; treasurer, George Coutts; captain, Joseph Sweeny; manager, Walter Elworthy.

Sporting Notes.

George McFadden was given a decision on a foul in the eighth round over Dal Hawkins in San Francisco on Thursday night.

Liederkranz B team was dined at C. Burns' hotel last night, Capt. Ganz providing. About 25 members and friends sat down and enjoyed a social evening.

Joe Walcott and Charley McKeever, the welterweights, are matched to meet in a 20-round contest before the Waterbury Athletic Club of Connecticut on March 31.

A bout has been arranged to take place in Ottawa between Alf Allen of Ottawa and George Benoit of Hull on March 16.

Barney Reich, manager of Tom Sharkey, announces two matches for the former sailor. The first affair will be with Peter Maher at Louisville and the other will be with Jim Jeffries at Carson City.

The Toronto Shooting Club will hold the first match of the March series at McDowall's this afternoon. A watch and several other prizes will be shot for; traps set at 2 and club shoot will start at 3 o'clock.

Harry Lyons of Baltimore defeated Jack Hamilton of Troy in a 25-round bout at Baltimore Thursday night. Hamilton went the limit, but Lyons got the verdict on points. The men fought at about 136 lbs.

The annual meeting of the Gore Vale Football Club will be held next Monday evening at 138 Dundas-street at 8 o'clock, when the officers for the ensuing year will be elected. All members and those wishing to join are requested to be present.

The Oriole Lacrosse Club of North Toronto held a very successful meeting Thursday night, and decided to enter both a senior and junior team this season. A meeting will be held next Thursday night at John Kirk's, 506 Yonge-street, when all wishing to join are requested to attend.

A Memphis despatch says: According to information received here to-day the legislative bill by Secretary J. W. Russwurm of the Tennessee Breeders' Association, to limit race meets to 10 days in the State, is a dead one. This is a scheme to down the 25 days' meet at Memphis, originated by the Nashville people, and grows out of the big turf row on in the South.

Johnny Fay, the Louisville bookmaker, has returned to Memphis from New Orleans. Fay says that all of the layers are behind the game at New Orleans. Eddie Austin, Fay says, is about $22,000 to the bad, and Steve L'Hommedieu is out about $20,000. Harry Laudeman is $5000 loser, and Ed. Stutte tops the list with $25,000 lost. Fay says that, with two exceptions, all bookmakers who have been doing business in New Orleans this winter are losers at the game.

Sammy Kelly and Harry Harris are matched to fight in England next month. Kelly is matched to fight Will Curley at Newcastle on March 11. Harry Harris will tackle Peddler Palmer at the National Sporting Club on March 18. The Kelly-Curley affair will be 20 rounds at 119 lbs. for a purse of $1000 and a side bet of the same amount. Palmer and Harris are also scheduled to go 20 rounds, and the National Sporting Club has hung up a purse of $1200 for the bout.

West York S. S. Association.

Maple, March 1.—The West York Sabbath School Association closed the most successful convention ever held by them in the Methodist Church here this evening. Rev. S. Dean welcomed the delegates, who came from all parts of the county and numbered upwards of 400. Mr. C. T. Corrnill spoke on "Missions in the Northwest," and gave an interesting discourse, in which he exhibited several interesting relics, and had with him Rev. Dr. Jackson in Indian costume, with buckskin coat, leggings, moccasins, etc. He stated that the Galicians who have recently settled in the Northwest have low morals and need the Christian influence. Rev. Mr. Hassard of Crawford-street Church took the subject, "The Sabbath Schol in the 20th Century," in the absence of Rev. Mr. Tovell, and Rev. Elmore Harris gave an interesting talk on "The Benefits of Teaching to the Teacher." Mrs. Harvie of the City Rescue Work also contributed a paper on "Neglected Children." "Field Work," by Staff Officers J. J. Gartshore, G. S. Martin and T. L. Moffat, embracing enlisting, drilling and equipping, was fully dwelt upon, and Mrs. Duncan spoke on the "Soldier in Primary Work." Seventy dollars was pledged to the Provincial Association, and in the evening J. A. Jackson, B.A., secretary of the Provincial Association, together with Rev. Elmore Harris, gave addresses. The officers elected for the year were as follows:

President, J D L Macpherson, Islington; Vice-Presidents, S W Bingham, Etobicoke, Mr. Atchison, Vaughan, and S J Douglas, York; Secretary, A H Clemmer, Toronto Junction; Treasurer, J H Moore, Eglinton; Primary Superintendent, Mrs. Abbott, Toronto Junction; Superintendent of Normal Work, Rev J W Rae, Toronto Junction; Superintendent of Home Department Work, T L Moffat, Weston. Jailer Forbes of Woodstock.

Jailer James Forbes of Woodstock is in the city, on his way home from Kingston, where he left Forger Pearson to stay for three years.

Jailer Forbes was very intimate with the murderer Birchall when he was his custodian at Woodstock Jail, and to-day he is the wearer of a beautiful gold watch which was presented to him, suitably engraved, by the prisoner on the day before the hanging, as a mark of appreciation of kindness and consideration bestowed upon the murderer.

When in Kingston Mr. Forbes was allowed to talk with Reginald Launcelot Willoughby Middleton, the man of many wives, and railway promoter, who was going to build a railroad from Brantford to Woodstock in order to shorten the run from Detroit to Buffalo. Middleton still maintains that his railway project would have gone thru but for the interference of the newspapers, but having experienced a change of life and turned his clever mind in a spiritual direction he forgives everyone instrumental in placing him where he is serving a seven-years term.

One of his wives, a Toronto lady, is at present suing him for divorce, and he expresses surprise that she did not do so before. He says she probably thought he would die in the prison and thus save the trouble, publicity and expense, but he has no expectation of dying, and is patiently working out his time with a hope of resuming work upon the railroad a few years hence.

Decker, the counterfeiter, who gave Sheriff Brady and Jailer Forbes the chase when he jumped from the train on his way to Kingston, is reconciled to his fate, and is working for all the good conduct marks he can get.

"There are several prisoners from Woodstock in Kingston," remarked Mr. Forbes, "and altho we do not have many bad criminal cases, we usually get well-advertised ones when they come our way."

James Crawford of St. Catharines Badly Injured Yesterday.

St. Catharines, Ont., March 1.—James Crawford, lineman here for the Bell Telephone Company, narrowly escaped being killed at 7 o'clock to-night. He climbed to the top of the pole immediately in front of the company's office to remove some arresters, and in some way got hold of a live wire. His screams could be heard a block. Before assistance reached him, however, he fell head foremost to the ground, cutting a deep gash in his head and injuring himself internally. He missed the curb-stone by about a foot, and will likely recover.

Public Ownership Endorsed.

"Labor Laws in New Zealand" was discussed by L. F. Heyd, K.C., before the Canadian Socialist League in Forum Hall last night. He reviewed the progress of New Zealand in nationalizing the land, railroad, telegraph, telephone, postal and express systems, as well as securing universal suffrage, Government insurance, old age pensions, etc. The compulsory arbitration law was also commended, it having been in force for seven years and had abolished strikes and the army of the unemployed, both capitalist and wage-worker being satisfied with its workings. Canadian legislation should be patterned after this model, as the introduction of labor-saving machinery and the centralization of business is fostering a system of wage-slavery worse than chattel slavery. In the discussion which followed, Lloyd's recent work, "Newest England," was quoted to show that all existing governments are capitalistic, and, therefore, bad, but, as Lloyd says, New Zealand's is "the least bad," the country being no Utopia or no Paradise, and industrious men, after 25 years of work, still need the old age pension, which is given them at 65 years of age. A resolution, moved by Messrs. Wrigley and Goodchild, was passed, urging the Postmaster-General to introduce a bill nationalizing the telegraph systems, but to compensate the companies only for the value of the plants purchased, the franchise value really belonging to the whole people. Dr. Hunter was chairman.

A Good Railwayman.

Mr. William G. Farrell, who has been yardmaster of the G.T.R. in Hamilton for the past year and a half, came yesterday morning to Toronto, he having been appointed yardmaster here, to succeed E. A. Mowyer, who has received another appointment.

Mr. Farrell has been in the employ of the company many years, starting in the service in the parcel office in London, when a boy of 14 years. He was later appointed a brakesman and was soon promoted to the position of conductor. Some years ago the London yard became tied up and he went to the relief of the yardmen and straightened out the tangle and was made yardmaster there. From London he was sent to Hamilton as yardmaster and now he has been promoted to Toronto at a large salary, the yards here being the most important on the system in Canada.

Socialists Made Trouble.

Budapest, March 1.—Two well-known Socialists caused excitement in the lower House of the Diet to-day, by showering from the gallery a number of pamphlets entitled "Bread, and the Rights of the People." The Socialists were arrested.

Strathclyde Camp, S. O. S.

The annual at home of Strathclyde Camp, No. 17, Sons of Scotland, held last night in St. George's Hall, was a pronounced success. Nearly 500 members of the camp and their friends were present, and enjoyed the concert program rendered by the Misses Mae Dickinson, M. Donaldson, J. Holliday, Claxton, Delane and Messrs. S. Leask, C. Munro, J. Miln, George Cockburn and Harry Bennett. The concert was followed by a dance. Mr. J. Rogerson occupied the chair.

New Old Boys' Association.

While all the old boys' associations are being formed it would be a great idea to start an association of the old boys who are wearing those thirteen-fifty suits made at Archambault's, 125 Yonge-street. Such an association would have an immense membership, for Mr. Archambault says his old boys always come back to him, because he treats them right all the time. His store will be headquarters for the new association.

The Toronto General Trusts Corporation

The second annual meeting of the shareholders of the Toronto General Trusts Corporation (being the nineteenth of the Toronto General Trusts Company) was held in the board room of the corporation on the corner of Yonge and Colborne-streets, Toronto, on Wednesday, the 27th February. There were present: John Hoskin, Esq., K.C., Hon. S. C. Wood, Mr. W. H. Beatty, the Hon. Mr. Justice Maclennan, Messrs. Walter Barwick, K.C., John L. Blaikie, E. H. Bickford, B. E. Bull, R. K. Burgess, James Davey, Dr. Rigby (Brantford), J. J. Foy, K.C., Robert Jaffray, William Gordon, Henry Gooderham, Edward Galley, E. R. Greig, John Gowans, Alfred Hoskin, K.C., J. J. Kenny, A. B. Lee, Thomas Long, J. W. Langmuir, A. D. Langmuir, W. D. Matthews, E. T. Malone, K.C., Donald Mackay, Alexander Nairn, S. Nordheimer, Thomas Paterson, George Porter, T. Sutherland Stayner, J. G. Scott, K.C., and R. S. Schell.

Mr. J. W. Langmuir, the Managing Director, acted as Secretary and submitted the statements, showing the operations of the corporation for the year ended 31st December, 1900.

The report of the Directors for the year was then read, as follows:

Your Directors beg to submit the Second Annual Report of the Toronto General Trusts Corporation (being the nineteenth of the Toronto General Trusts Company), accompanied by the usual financial statements showing the results of the corporation's business for the year ended 31st December, 1900.

The subscribed capital stock of the corporation is $1,000,000, of which there has been paid up to 31st December last the sum of $906,720, leaving two instalments of 10 per cent. each due on the partially-paid stock at that date. The last instalment falls due on the 19th March, and when received the paid-up capital stock will be $1,000,000, and the Reserve Fund $250,000, thus furnishing the clients of the corporation, in addition to the specific investments held for each estate, security to the extent of $1,250,000 for the proper performance of all the duties entrusted to the corporation.

The profit and loss statement, herewith submitted (which has reference only to the capital funds of the corporation), shows the revenues for the year and the sources from which they were derived, and the charges against the same for management and all other outlays. It will be seen that the net profits for the year, including the balance from 1899, amount to $89,658.20, out of which there has been paid two semi-annual dividends on the paid-up stock of the corporation, at the rate of 7½ per cent. per annum, amounting to $57,036.54. Your Directors have also, out of the net profits, written off from the cost of the corporation's building the sum of $15,000, and from the vault fixtures and furniture $3102.54, and have placed to interest reserve the sum of $6000, leaving $8,519.12 to be carried forward to the credit of Profit and Loss.

The Contingent Fund of $163,000, referred to in the last Annual Report, which was set apart at amalgamation to meet ascertained and contemplated losses, has been dealt with by your board during the year, and the loans for which such provision was made have been written down to the full extent of the fund thus set apart, and the Contingent Account has been finally closed out.

Not infrequently surprise is expressed at the comparatively small net profits of the corporation, with assets under its care exceeding $20,000,000. In that connection it should be borne in mind that the profits upon funds invested for beneficiaries belong to them, and not to the corporation, which only receives a percentage commission for its care and trouble in connection with the investment of the money and the collection of interest.

The Toronto General Trusts Corporation strictly confines itself to the performance of the duties devolving on it as trustee, executor, administrator, agent and such kindred offices, receiving for the administration of the same such compensation only as the court allows it, or as may be arranged with the parties interested. It eliminates from its transactions every undertaking of a speculative character, no matter how profitable it may promise to be, and it assumes no guarantees of any description, except of securities coming strictly within the scope of the Trustee Investment Act. In further explanation of the limited profits of the corporation, it should also be remembered that the diversified character of the business entrusted to it, and its great magnitude, require a large and expensive staff in order that its affairs may be properly conducted in every department.

Recognizing the paramount importance of a continuous and systematic inspection of the books and securities of a corporation charged with the execution of trusts and the care of estates, the bylaws of the corporation provide (in addition to the usual examination by skilled auditors appointed by the shareholders) for the appointment of an Inspection Committee, comprising three members of the directorate. This committee in the discharge of its duties becomes cognizant of every act of the Executive Committee, as recorded in the minute book. It has to see every mortgage and debenture that has been acquired by order of the Executive, in order that it may ascertain whether the conditions under which the same were authorized have been carried out; and, finally, to see that such securities are registered or ear-marked in the books of the corporation as the property of the estate or trust to which they belong. Your board appointed to the Inspection Committee three of the directors, who in their opinion are eminently qualified to perform the responsible duties devolving on them, namely: Mr. W. H. Beatty, Vice-President Bank of Toronto (Chairman); Mr. Henry S. Howland, President Imperial Bank of Canada; Mr. Aemilius Irving, K.C., Treasurer Law Society of the Province of Ontario.

In order that the shareholders and the interested public may have a knowledge of the thoroughness with which the inspections by this committee are conducted, their Annual Report, which is supplementary to the reports submitted by them at each quarterly board meeting, is herewith appended.

Your board is glad in being able to report the entire completion of the alterations and additions to the corporation's premises on the southeast corner of Yonge and Colborne-streets. The alterations practically involved the entire reconstruction of the interior of the building, as well as making important changes to the exterior; the vault accommodation, which is now the most extensive of any building in Canada, comprises, with the safe deposit vaults, 1544 superficial feet. The corporation occupies the whole of the ground floor and basement and the most of the first floor. The remainder of the building is all let to excellent tenants under terms of five years.

Your directors record with deep regret the death during the year of two old and valued members of the board—Mr. Samuel Alcorn, who was appointed to the directorate in 1896, and served continuously until his death. The Hon. Sir Frank Smith, Senator, became a member of the board in 1889, and brought to the discharge of his duties as a director that great business ability and ripe experience which has proved so advantageous to all the institutions with which he was connected. Both of these deceased directors left large estates and showed their appreciation of the objects of the corporation and their confidence in its management by appointing it their executors and trustees. They also regret to announce the death of Mr. B. B. Osler, K.C., who was formerly a director of the Trusts Corporation of Ontario, and since the amalgamation acted as standing counsel for the corporation, and who by his will also appointed the corporation trustee of a portion of his estate.

All which is respectfully submitted.

Toronto, February 25, 1901.

J. W. LANGMUIR, Managing Director.   JOHN HOSKIN, President.

J. W. LANGMUIR, Managing Director.

INSPECTION COMMITTEE'S REPORT.

To the Board of Directors of the Toronto General Trusts Corporation: The Inspection Committee of your board, in addition to the usual quarterly statements which they have presented to the directors during the past twelve months, desire, at the close of the year, to submit a condensed report of their inspections, comprising forty-six meetings held during the year ended 31st December, 1900.

The duties of the Inspection Committee are set out in Bylaw No. 10.

The minute book of the Executive Committee was placed before your committee at all its meetings, which clearly sets out the operations of the corporation for the year. Statements were also submitted, showing the executorships, administrations, trusts and all new work assumed by the corporation during the year, together with the inventoried values of the assets connected therewith. Simultaneously with the reading of the Executive minutes these statements were checked, and it was found that proper authority had been given by the Executive Committee in every case to assume and take over all the new work, namely:

Executorships	$721,588 03
Administrations	107,116 25
Administrations, with will annexed	125,000 00
Trusteeships	340,067 61
Investment Agencies	206,287 82
Estate Agencies	336,796 70
Guaranteed Mortgage Investment Agencies	28,000 00
Committeeships	40,650 00
Guardianships	2,700 00
Receiverships	295,567 38
Lunatic Estate Agencies	39,334 26
	$2,243,108 08

In addition to the duties thus summarized, the corporation also acted as trustee for the issue of bonds to the value of $1,300,000. The only responsibility assumed by the corporation for this last class of work is to certify, as trustee, to the respective issues of the bonds under the terms of the trust deeds. If, however, default takes place in the payment of principal or interest, the corporation may be called upon to take possession of the property and assets covered by the trust deeds, and operate or dispose of the same under the provisions of the trust or by the authority and direction of the court.

Your committee caused to be produced for its inspection all the mortgages, municipal debentures and other negotiable securities which had been acquired or purchased and closed during the year, together with the valuations of the properties covered by the mortgages, certificates of title and also the renewals of maturing mortgages. The mortgages and securities thus examined were as follows:

Mortgages on real estate	$515,495
Municipal debentures and Government bonds	277,117
Mortgages renewed	244,049
Mortgages realized and reallocated	205,687
Debentures realized and reallocated	81,906
	$1,324,254

As the result of their inspections of the securities your committee beg to report: (1) That the requisite authority had been given by the Executive Committee for the acquirement and purchase of all the securities specified; (2) that the valuations of the properties mortgaged, and on which the loans were passed by the Executive, were produced (with two exceptions, which had been waived by the Executive), and found on examination to correspond with the valuator's reports; (3) that the certificates of title in respect of mortgages, and certificates of validity of debentures (except in two purchases of debentures, where legislation had passed confirming such issues), were signed in all cases by the respective solicitors; (4) that the mortgages and debentures were found to be entered and ear-marked in the books and registers of the corporation to the estates and accounts to which they respectively belonged; (5) that the renewal agreements of mortgage securities incorporated all the conditions on which such renewals and extensions were made by the Executive.

Your committee also examined the Auditors' Reports for the year, and beg to report that the certificate of correctness is duly signed by both Auditors and recorded in the following books and statements:

Cash Receipts (Trust and Agency).
Cash Receipts (Capital).
Cash Disbursements (Trust and Agency).
Cash Disbursements (Capital).
Mortgage Diary Journal (including interest on interest).
Debenture Diary Interest Journal.
General Journal.
Ledger Balances for each quarter of the year 1900.

All which is respectfully submitted.

W. H. BEATTY, Chairman.
H. S. HOWLAND.
AEMILIUS IRVING.

Toronto, Feb. 25, 1901.

Dr. Hoskin, in moving the adoption of the report, said: I must first congratulate the shareholders on meeting in our new board room, and in the building which is also completed and fully equipped, up to date in every particular. After the meeting, if you find time, it will be worth your while to pass through the offices and examine the vaults, which, as stated in the report, are the most complete in Canada. You will observe we occupy the whole of the ground floor and parts of the first floor, which will be sufficient for our purposes for the next four or five years. At the expiration of that time I think our business will have so much increased that we shall require the whole of the first floor also.

The report which has just been read is so full and complete that it leaves little for me to say. I did think it advisable to say something respecting the volume of business which has been done here during the last nineteen years—the moneys received, the moneys paid out and assets distributed, and also referring to the aims and objects of the corporation—but next year will be the twentieth year of the existence of the Toronto General Trusts Company, and I will defer until then any lengthy remarks, which will then form the basis of a pamphlet, which will be circulated throughout the country. There is one particular, however, on which I may dwell for a moment—that is, the new departure decided on to publish our Profit and Loss statement. Heretofore it has not been customary, but since the amalgamation of the Toronto General Trusts Company with the Trusts Corporation of Ontario our capital has been increased to one million dollars, all paid up, with the exception of the last instalment of 10 per cent. In addition, the corporation has its reserve of $250,000, and we think it but right that the shareholders and the public should be furnished with a pretty full statement, in so far as our Capital and Reserve are concerned, of our earnings and the various sources from which they are derived. I think you will agree with me that the statements set out in the report are eminently satisfactory. We have earned net profits of nearly $90,000; we have paid the shareholders dividends amounting to $57,036.54, and have written off the building and our vaults over $18,102.54, and have added to interest reserve the sum of $6000, carrying forward to the credit of Profit and Loss the sum of $8,519.12.

This statement of our financial affairs may appear very simple, but when it is stated that we have under our management at the present time about fifteen hundred estates you will be able to form some idea of the volume of business and the care required. In connection with some of these estates we have to keep from two to ten ledger accounts, requiring a most accurate and careful system of bookkeeping. It must always be borne in mind that in connection with trusts we differ from other institutions; we are not simply managing our own moneys, but are dealing with the property and assets belonging to other people, and that we may in a year or twenty years have to render a most accurate account of our dealings. Our duties are varied and extend to every relation in life, and go on after death. The longer I am connected with this corporation, the more I am convinced of its public utility, and have often wondered how we got on when institutions of this kind were not in existence. Our Manager, Mr. Langmuir, is certainly entitled to great credit for being the founder of Trust Companies in Canada, and he must feel pleased at the results which have followed.

As well as other financial institutions, we are experiencing a better condition of affairs. I am very pleased to say that of our own properties there is not a dwelling or store unoccupied, and that of the properties we hold as trustee there are no buildings vacant, and sales are being made every day at enhanced values.

I may say further that, with regard to the volume of business, this time twelve months, I stated that we had under our control about twenty millions of assets. We have distributed to parties entitled during the year over a million dollars, and we have still under our control twenty millions of assets. The report deals only with the work for the year 1900. During the two months of this present year—January and February—the new work which we have received already amounts to about two millions, and our business is constantly increasing. The number of wills and trust deeds in our vaults give an indication of how the corporation has taken hold of the public, and I am sure it is entitled to the confidence of the shareholders and the public at large. The report will have told you that since our last annual meeting two of our directors have passed away—Mr. Samuel Alcorn and the Hon. Sir Frank Smith, and one who was formerly a director of the Trusts Corporation of Ontario, and standing counsel of this corporation—Mr. B. B. Osler, K.C.

I do not think it would be wise, and it is not my purpose, to further enlarge upon the report. I therefore conclude by moving the adoption of the report which has been read, and which will be seconded by Vice-President Wood.

Hon. S. C. Wood, in seconding the report, said: "The shareholders have had submitted to them a very complete statement of the affairs of this Corporation, and have also heard read a very full report from the Board of Directors, which report embodies a most important one from the Inspection Committee. They have also had a very interesting statement from the President; therefore, anything I might say would only be in corroboration of what has already been said. I have very great pleasure in seconding the adoption of the report.

The motion was declared carried.

Certain bylaws and amendments to bylaws were confirmed.

The Hon. Mr. Justice Maclennan, in moving (seconded by Mr. S. Nordheimer) a vote of thanks to the directors of the Corporation, and more particularly to the Executive Committee, said he had the pleasure for several years after the organization of the Toronto General Trusts Company of having a seat upon its Board of Directors, so he had some idea of the magnitude of the business that has to be transacted, and the infinity of its details, and of the care, pains and constant watchfulness which the business of the Corporation requires in order to its proper transaction. It had given him much pleasure to hear of the progress which the Corporation had made. He was sure it was largely owing to the diligence given to the business by the directors and the several committees that the results which have been made known to them should have been accomplished. He was much interested in the report of the Inspection Committee. He had the pleasure of being a member of that committee for several years. It is a very important and valuable part of the constitution of the Corporation, and must give to the shareholders who have heard the report additional confidence in the way in which the business has been transacted.

Votes of thanks were also tendered to the President and Vice-Presidents.

Messrs. R. F. Spence and J. M. Martin, F.C.A., were reappointed Auditors for the year 1901.

Mr. Alfred Hoskin, K.C., and Mr. James Davey, who were appointed Scrutineers, reported the following gentlemen elected directors for the ensuing year: John Hoskin, K.C., LL.D., Toronto; Hon. S. C. Wood, Toronto; W. H. Beatty, Toronto; John Bell, K.C., Belleville; John L. Blaikie, Toronto; W. R. Brock, M.P., Toronto; J. W. Digby, M.D., Brantford; J. J. Foy, K.C., M.P.P., Toronto; John Foy, Toronto; Geo. Gooderham, Toronto; William Hendrie, Hamilton; H. S. Howland, Toronto; Aemilius Irving, K.C., Toronto; Robert Jaffray, Toronto; J. J. Kenny, Toronto; J. W. Langmuir, Toronto; A. B. Lee, Toronto; Thomas Long, Toronto; W. D. Matthews, Toronto; Hon. Peter McLaren, Perth; E. B. Osler, M.P., Toronto; J. G. Scott, K.C., Toronto; T. Sutherland Stayner, Toronto; B. E. Walker, Toronto.

At a subsequent meeting of the directors Dr. John Hoskin, K.C., was re-elected President, and the Hon. S. C. Wood and Mr. W. H. Beatty Vice-Presidents. The Executive Committee was re-elected, and Mr. W. H. Beatty, Mr. Aemilius Irving, K.C., and Mr. John L. Blaikie were appointed the Inspection Committee.

STEAMSHIPS IN COLLISION.

German and British Vessels Badly Crippled by Contact With Each Other.

London, March 1.—The British steamer Indiana, Captain Kershaw, from Venice Jan. 15, via Messina for London, was sighted off Worthing at daybreak this morning in a sinking condition. A strong sea was running, and a lifeboat which was sent out failed to discover any signs of life on the steamer. It is believed she had been in collision in a fog. Hopes are entertained that her crew are aboard some other vessel. The beach is strewn with fruit for miles.

The German steamer Washington, from Rotterdam for New York, while making Dover, was driven ashore at Folkestone during a gale, and had a narrow escape from going on the rocks. Her bows had been stove by collision.

It was subsequently learned that the Indiana and Washington had probably been in collision. The Indiana was beached near Worthing by a tug. Her crew had previously been landed at New Haven. The Washington's port bow is damaged above the water line and several of her frames are bent; she anchored in the Downs.

Like Tearing the Heart Strings
—"It is not within the conception of man to measure my great sufferings from heart disease. For years I endured almost constant cutting and tearing pains about my heart, and many a time would have welcomed death. Dr. Agnew's Cure for the Heart has worked a veritable miracle."—Thos. Hicks, Perth, Ont.—59

DEBATERS WENT FAR AFIELD ON CORONATION RESOLUTION

Continued From Page 1.

in whole or in part, I am pleased to say that our representations have been met with favor and with courtesy.

Transvaal Resolution.

In order to make this point clear, let me recall what took place when we last offered our views to the Imperial authorities in 1899. The occasion was the unfortunate condition of things which then prevailed in the Transvaal. That resolution did not meet with the disfavor which similar resolutions had received in former years; it was accepted not only as an act within our scope, within the sphere of our legitimate aspirations, but it was accepted with great favor, and reply was sent. The reply came directly from Her Majesty, and was transmitted thru the instrumentality of the Colonial Secretary.

A Pertinent Conclusion.

Now, sir, I would like, if possible, to approach this subject in a spirit wholly uncontroversial, and I put it to the sense of justice and of fairness on both sides of this House, that if our resolutions were thus appreciated in England, if we were not only permitted but, as it were, encouraged to give an expression of our opinion and our sympathy in the efforts which were then being made by the Imperial authorities to secure justice and equal rights to a section of Her Majesty's subjects in a very distant land, why should not our efforts this day be accepted when they tend to relieve the conscience of at least 12,000,000 of His Majesty's most loyal subjects? Only a few days ago Lord Salisbury had to speak upon the subject.

Prejudice Still Exists.

I have no doubt, whatever, that there are still portions of the Old Country and in parts of this country, where among our fellow-countrymen these emotions of two centuries ago yet exist. The best reforms are always slow to come. Nobody expects that prejudices will disappear in one day or even in one generation; but, if such a resolution as is now before you were adopted by this House, even if it had no other effect than to do away with such prejudices in the minds only of one of His Majesty's subjects, still I think this resolution would not have been adopted in vain. [Applause.]

It is Deplorable.

With regard to the legislation which is mentioned in the motion in our hands, Mr. Speaker, and which is now almost two centuries old, I have to say no more than has been said by Lord Salisbury, that, to say the least, it is deplorable. Such legislation would not be adopted now. It is repugnant to the spirit of this age; it is a remnant of those intolerant ages which for many centuries disrupted Europe, desolated Europe. It is a sad commentary upon our Christianity that for three centuries two of the leading denominations of Christians, Roman Catholics and Protestants, fought one another with a fury unparalleled. It is a sad commentary upon our Christianity that for three centuries Roman Catholics and Protestants assailed each other in the most enlightened countries of Europe wherever one had the superiority over the other — wherever Roman Catholics had a superiority over Protestants, or Protestants had a superiority over Roman Catholics. In 1685 that King of France, Louis XIV., revoked the Edict of Nantes, which had been granted by his grandfather to the Protestants of France, and which gave them religious toleration and civil rights. By that act he expelled from his kingdom no less than half a million of the best artisans and mechanics of France, who carried over to England, to Holland and to Germany the arts and industries of their native country. Four years after that, in 1689, the legislation which we now have before us was adopted by the Parliament of Great Britain.

Let me recall the painful circumstances under which it was adopted. The year before had taken place the revolution of 1688, which was caused undoubtedly by the duplicity of King James II., whose tyrannous conduct alienated from himself the sympathies of his English subjects and inspired them with deep distrust for himself and for the church to which he belonged.

Does Not Affect Succession.

But, before I proceed any further, let me illustrate a point and make some comment upon it—the point which was made by my hon. friend from Victoria in his opening speech. The object of this motion does not at all affect the Protestant succession or the supremacy of the Established Church in England, or of the Protestant religion. There are two others to be taken by the King. In 1688, after the accession of William and Mary, the form of oath was prescribed by Parliament, in a statute passed in the very year of the revolution, in 1688. This is the test oath, which has been taken. Now the motion of my hon. friend does not in any way contemplate to do away with this oath. If the motion of my hon. friend were to carry in this House, and if it were to be accepted by the Parliament of Great Britain, the Sovereign would still be forced to take the oath which I have now read.

Bill of Rights.

But, in the following year, 1689, another statute was passed, which extended to the King; a statute which has been for some time on the statute book, and which was to apply to the subjects of the King. In the reign of Charles II., in 1677, a statute had been passed which compelled all the members of the House of Lords, all the members of the House of Commons and all the servants of the Crown, that is to say, all those who held commissions under the Crown, to take the very oath which is embodied in the motion of my hon. friend from Victoria. This oath is contained in the statute entitled "An Act for the More Effectually Preserving the King's Person and Government by Disabling Papists from Sitting in Either the Houses of Parliament." In 1689 this statute was extended to the King.

You see, then, that this declaration, which was enjoined upon the subjects of the King who happened to sit in the House of Lords, who happened to sit in the House of Commons and who happened to be servants of the Crown, was extended to the King, and had to be taken as well by his subjects.

In Parts Abolished.

Now it is a matter of history that this oath, in so far as it applies to subjects of the King, has been long ago abolished. No peer of the realm, no members of the House of Commons, no servant of the Crown is bound to take that oath, but it is still enjoined upon the King, and it has been found quite consistent with the security of England to dispense the subjects of the King from taking that oath. It is still enjoined upon the King, and the object of my hon. friend from Victoria is to represent to the British Imperial authorities that this oath should be dispensed with by the King as well as it has been dispensed with by his subjects.

Personal Expression.

I may be permitted to say, as a Roman Catholic subject, that this legislation in England is not altogether according to my views, but I know too well the temper of my fellow-countrymen. I know too well the necessity in which they are in England, to offer even the slightest objection, and for my part am quite content to be a subject of the Protestant King of England. All the disabilities which at one time affected Roman Catholics have been removed from the laws of England; they have been removed, and let me call the attention of the House of Commons to the severe struggle, and against the objection I am free to say of many a man who thought that if Roman Catholics were admitted to civil and political rights, perhaps the liberties of England would be endangered.

History Recalled.

It is a well-known fact, for instance, that William Pitt long entertained the hope and wish to give Roman Catholics emancipation, but it is also a matter of history that George III. would not agree to it, and that Pitt died before he carried out the wish of his heart.

In 1806 the Ministry of Lord Grenville, of which Charles Fox was a member, took the matter up and attempted to bring legislation for the emancipation of Catholics, but the King, who, as we know, and as history tells us, was a good, a pious man and a moral man, thought that the dignity of his Crown and the liberties of his subjects would be endangered thereby, and he promptly dismissed his Ministers. The matter was taken up again later on, and in 1829 at last an act was consummated. Catholics were emancipated, they were given civil rights, they were given political rights, and they were placed on the same footing as their fellow-subjects, but we know that George IV, who was then sovereign, hesitated a long time before he signed the act. We know that he was not like his father, either a good man, a pious man or a moral man; still, he held the same views upon the subject, and it was only upon the strong remonstrances of the Duke of Wellington and Sir Robert Peel that he finally agreed.

Who Would Go Back?

Now, I would ask any man is there amongst your fellow-countrymen of the Protestant religion, let him be ever so strong in his convictions, a man who would not say to-day that it was a happy day for England when the Roman Catholics were granted emancipation? Is there a man who would go back to the condition of things that prevailed up to that time? Look at the services which in this country and in this age since 1829 have been rendered to the Crown and people of England by Roman Catholics and you have the answer. Had not the Act of Catholic Emancipation been passed in 1829, England would not have had the services of the late Chief Justice of England, who was a Roman Catholic.

And if there is one man to-day who has done more than perhaps any other during the last 20 years for the prestige of England in the Orient, that man is Lord Cromer, who, by his services in Egypt, has rendered imperishable services to his country, and Lord Cromer is a Roman Catholic.

Pope Not Secular.

Let us look at the cause of all this exceptional legislation against Catholics, apart from the prejudices which existed at the time, prejudices which were just as common then to Roman Catholics as to Protestants and to Protestants as to Catholics. In the European civilization of that day these prejudices were common to both religions. Wherever Catholics had the power they persecuted Protestants; wherever Protestants had the power they persecuted Catholics, but if you go to the bottom of this legislation in England there is one thing which the English people had in their minds in passing all these laws, and that was that they would not have the Pope to rule in England. We need not mince matters; it is just as well to go to the bottom of things. That was the thought in the minds of English Protestants. Time has dispelled many of the misconceptions as to the power of the Pope, and let me say here, as a Roman Catholic of the twentieth century, that the Pope has no authority or jurisdiction whatever in secular matters. His power, jurisdiction and authority are exclusively in spiritual matters, and we Catholics accept him as the power which has the final authority to pronounce upon all controversy in matters of faith and morals. Beyond that the Pope has no more authority than any member of this House. He has no jurisdiction over secular matters in any shape or form, and Catholics do not claim that he has.

No Reason for Legislation.

Then, sir, if these views are well understood and do prevail, it seems to me that there can be no reason whatever to maintain this legislation upon the statute books of England. I may be asked: Why should this declaration be removed from the law? It is simply because it is offensive. It is simply because it is painful to Roman Catholic subjects who honor their King and are loyal to him; who are ready to fight, and, if need be, to die for his Crown: it is painful to them that their King should take such an oath against dogmas which are dear and sacred to them. That is the reason; the only reason.

Loyalty Not Disturbed.

Sir, I do not desire to approach the subject in any controversial spirit, whether this motion pass or does not pass; whether if it is passed it is heeded or not heeded in England; whether this oath is maintained or not maintained in the law, the loyalty of Roman Catholics will not be affected thereby. They will continue to be, as they are to-day, willing and cheerful subjects of His Majesty King Edward and of his successors. [Applause.]

Could Be More Enthusiastic.

But it can be well admitted that the pride and devotion which we all take in this great Empire, which was the first refuge of liberty of conscience when liberty of conscience was still banished from the rest of the world, would be more enthusiastic if that legislation, the last remnant of persecuting ages, the last vestige of these ages of which I have spoken, were to be blotted out forever from the statute books of free England. [Loud Liberal applause.]

Mover's Wisdom Questioned.

Mr. R. L. Borden (Halifax): Mr. Speaker, in view of the discussion which has taken place in the press of the United Kingdom and in view of what has been said by men eminent in public life in the Mother Country, it seems to me highly probable that without any action on the part of this House the offensive portion of this declaration would probably be eliminated therefrom at a very early date. Therefore, I question very much the wisdom of the hon. gentleman who introduced this motion here, because the discussion of matters of this kind among men who have strong opinions either one way or the other is sometimes productive of more harm than good.

Not a Party Question.

As has been well said by the right hon. gentleman, this is a matter into which party consideration should not enter. This is a matter which should be above all party considerations, and I for one as long as I have any voice in this House or in this country shall protest against any question of race or creed being introduced into the party politics of Canada.

Some members: Hear, hear.

Every Man for Himself.

Mr. Borden: In what I am saying, in what I am about to say, I speak entirely for myself, because every hon. member of this House, whether he be on the one side or the other, must vote on this matter according to his judgment and to his conscience. The declaration is one which at first was not applied to the Queen or King of England at all. It was applied in the first place to peers and members of Parliament, and the object of it was to prevent persons professing the Roman Catholic religion from sitting or voting in either House of Parliament in England. In the first place, by the statute which is known as the Bill of Rights, which was passed in 1689, it was set forth that this declaration should be taken and subscribed by the King and Queen of the realm.

Act of Settlement.

By a further statute, which is known as the Act of Settlement, which was passed in the year 1700, it was provided "that every King and Queen of this realm who shall come to and succeed in the Imperial Crown of this kingdom by virtue of this Act shall have the coronation oath administered to him or her or them on their respective coronations, according to the Act of Parliament made in the first year of the reign of His Majesty and the said late Queen Mary entitled an Act for establishing the coronation oath, and shall make, subscribe and read the declaration in the Act, as above recited, mentioned or referred to, in the manner or form therein prescribed."

Statutes Repealed.

That brought into operation the words of this declaration as contained in the Act of 1662, being the thirteenth of Charles the Second. As has been well said by the right hon. the Prime Minister, this is one of the series of statutes which two centuries ago imposed many disabilities upon Roman Catholics in Great Britain. These statutes have one after another been repealed, except in respect to one or two matters; in 1774, by an Act of the Irish Parliament, Catholics were allowed to take a special oath of loyalty to the King. In 1778 an Act was passed for the relief of Catholic bishops and priests, with respect to schools and with respect to the holding of property. In 1791 an Act was passed with respect to the necessity of taking the oath of supremacy and making the declaration against transubstantiation. In 1793 an Act was passed for the relief of Scotch Catholics with regard to the holding of property. In 1817 an Act was passed for the relief of officers of the army and navy and making it unnecessary for them to take oaths that were offensive to their religious belief; and in 1829 was passed the Catholic Relief Act, which is well known to all the members of this House.

Question Simmered Down.

The result is that this declaration remains as a declaration to be taken by the sovereign that the sovereign of this country must under the law of this country be a Protestant, and that two officers at least—the Lord Chancellor, who is supposed to be the keeper of the King's conscience, and I think the Lord Lieutenant of Ireland—are still, by virtue of the constitution, required to be Protestants.

Is Constitution in Danger?

Now, the question I first ask myself with regard to this declaration is whether or not, in case it should be amended or abolished, the constitution establishing the Protestant succession to the Crown is in any way in danger? Looking, in the first place, at, but not quoting from, the Bill of Rights, and looking, in the next place, at the Act of Settlement, which recites the Bill of Rights, it seems to me that all those securities which are dear to the convictions of a great many people of this country are sufficiently safeguarded without the declaration. By section 2 of the Act of Settlement, which recites the Bill of Rights, containing somewhat similar provisions, it is provided that the succession to the Crown must devolve upon persons of the Protestant faith. By sec. 9 of the Bill of Rights Act, it is provided that the Crown and Government shall from time to time descend to and be enjoyed by such person or persons, being Protestants, as should have inherited and enjoyed the same, in case the said person or persons so reconciled holding communion or professing or marrying as aforesaid, were naturally dead.

That is to say, if the Crown should descend to any person or persons to whom it should belong, and that person should enter into communion with the Roman Catholic church, the Crown should descend to the next in descent who should be a Protestant. The same is affirmed in the Act of Settlement: "That whosoever shall hereafter come to the possession of this Crown shall join in communion with the Church of England as by law established."

Succession Secured.

It is, therefore, clear that without this declaration the succession to the Crown is by the two statutes I have quoted absolutely secured. Therefore, it seems to me that a right thing, and a proper thing, so far as this declaration contains matter which is offensive to the religious belief of any British subject, that it should be abolished or amended; and I for one am prepared to state that in this House, or before my constituents, or upon any public platform in this country—[loud applause]—the coronation oath which has been referred to by the rt. hon. leader of the Government is another safeguard.

How to Look at It.

Now, it is desirable that those of us in this country who are Protestants should look at this declaration from a standpoint which would be presented to us if the Roman Catholic faith were the established faith of this country, and if the 12,000,000 people who are now in the minority were Protestants. [Applause.] Would we not feel a sense of injustice if a King, whom we loyally served, whom we were ready on all occasions loyally to serve, should be obliged on his accession to the crown to make a declaration with respect to the Protestant faith which contained matter so offensive as that which is found in this declaration? [Applause.] I ask my hon. friends all over this House who are of the same religious belief as myself to take that into consideration, and to say whether or not they would feel like making some effort to have an injustice of that kind redressed. [Applause.] And the feelings which would animate us in the case which I have supposed are those which animate our Catholic friends thruout Canada. [Applause.]

Therefore, altho we may question the wisdom of introducing this matter into this House, nevertheless we can well understand the feelings which animate gentlemen in making this motion, and we can better appreciate the standpoint from which we should regard their action.

House Could Suggest.

I do not desire to say very much further, except with respect to the right of this House to interfere to pass any motion or tender any suggestion with regard to a subject of this kind, which properly pertains to the Imperial Parliament. The way that matter presents itself to me is that this Parliament has, as has very truly been said, offered suggestions with regard to Imperial matters in the past, but, irrespective of all considerations of that kind, let us look at the question from this standpoint. No King, from William the Conqueror down, has ever become truly a King of England until he has taken the coronation oath and made the declaration prescribed by law. He becomes King in the true sense of the word when he has done those two things. It is part of the compact between the Crown and the people. We are a portion of the British Empire. The compact which the King makes with his people when he ascends the throne is a compact which he makes with us as well as with the people of the Mother Country; and it seems to me that it might be competent for us in this House, without its being regarded as going beyond our legitimate sphere, to respectfully make a suggestion that that compact should not be expressed in terms which are offensive to so large a body of the citizens of this country.

Religious Toleration Moves Slowly.

It seems to me that in that way we might justify this, altho I do not disguise from myself the fact that this is a question upon which there may be a legitimate division of opinion in the House. We all know how very slowly and painfully the world has made progress in these matters of toleration in religious belief. We have seen how slowly even the institutions of our own country have permitted themselves to progress. I trust and believe that there is in Canada at present very little intolerance in respect of such matters, and that in the future there will be still less intolerance in this country. We know that we have men in this House and country who hold strong opinions on one side or the other with regard to this matter.

Plea for Moderation.

May I venture in conclusion to express the hope that whatever views are advanced, whatever opinions may be expressed in this House on this question, will be advanced and expressed in a generous and moderate spirit, so as not to arouse any religious animosity, which we so much deprecate. [Loud cheers.]

Change the Wording.

Might I be allowed to make a suggestion to the hon. gentleman who has moved this resolution and the hon. gentleman who has seconded it? What the motion says is this: "That in the opinion of this House the Act of Settlement should be amended by abolishing the said declaration." Would it not be better for my hon. friend and the seconder to consider whether that particular paragraph should not be amended in some way. If you logically follow the language that precedes this paragraph, all you would require to say would be this: "That in the opinion of this House from this declaration should be eliminated anything offensive to the religious belief of any subject of His Majesty." [Hear, hear.] In all sincerity and with every desire to prevent this matter becoming the subject of controversy, I would suggest to my hon. friend that he might very well consider this change and, I hope, adopt it.

Members Handicapped.

He will remember that he has introduced his motion in such a manner that it is impossible to offer any amendment, and he thus handicaps gentlemen in this House who are extremely anxious that this should not become a matter of controversy. He handicaps them by introducing his resolution in this particular way, so that it cannot be amended. Therefore, it seems to me that my hon. friend and the hon. gentleman who seconded the motion should be all the more ready to adopt some suggestion of this kind, which might express the views of hon. gentlemen who cannot bring their consciences to vote for the resolution exactly in the way in which it is framed. If my hon. friend should entertain that suggestion and desire a little delay to consider it, I am sure there would be no objection in this House to concede him the delay he requires, but I would trust and hope that he would not require much time to consider the suggestion I have made, and which I have made in the utmost possible good faith and sincerity.

I regret that I have trespassed so long on the attention of the House, and, as I have said before, I sincerely hope that this will not become a matter which will arouse any controversy in this House. [Applause.]

John Charlton, who followed, in a long speech declared that he did not believe in the declaration, but he knew he had no right to brand anyone who differed from him in faith as an idolator.

Mr. Wallace Sees Collusion.

Hon. N. C. Wallace, after making personal allusions to the mover of the resolution, and the member for North Norfolk, pointed out that the Westminster Confession of Faith contained the same references as those complained of in the declaration, and the Westminster Confession was subscribed to by the King. He felt that if any injustice existed the generosity of England would undo it, but he could not divest himself that there was an understanding between the mover of this resolution and the First Minister. He strongly opposed the resolution, which had been brought forward in a manner unfair to the House.

Mr. Emmerson (Westmoreland), ex-Premier of New Brunswick, spoke in support of the resolution.

Suggest an Amendment.

The debate was continued after 8 o'clock. Hon. John Haggart drew the attention of the House to the point that the declaration of the King in no way affected him in his legislative capacity. He also contended that the coronation oath did not make the sovereign declare himself a Protestant. It was the declaration that did, and this resolution would abolish the declaration.

Sir Wilfrid Laurier: Does the hon. gentleman pretend to say that in the declaration the sovereign says he is a Protestant?

Mr. Haggart: To the extent of the declaration only.

Sir Wilfrid Laurier: The oath could be

TO PURIFY THE BLOOD

Nature Has Only Provided One Means, and That is the Kidneys.

Every Drop of Blood Passes Through the Kidneys to be Filtered of Morbid Impurities.

The Kidneys Are Made Vigorous and the Blood Made Pure by Using Dr. Chase's Kidney-Liver Pills.

The blood carries nourishment to the various parts of the body, and at the same time collects the matter thrown off by the wasting process which is continually going on.

To separate the poisonous waste matter from the nutritive elements of the blood, nature has provided the kidneys, which act as filters. The kidneys, and the kidneys alone, can purify the blood. The only way to help nature is to help the kidneys—to strengthen and invigorate them.

If your blood is vitiated by the evil effects of winter life, the most effectual way to get rid of the poisonous impurities and prevent the ill of spring, is through the use of Dr. Chase's Kidney-Liver Pills, which act directly on the kidneys, making them active and vigorous in their work of filtering the blood.

About the first indications of deranged kidneys and vitiated blood are backache and deposits in the urine. The skin gets hard, yellow and dry; there are body pains, headaches, depressed and languished feelings and stomach troubles. All of these distressing symptoms disappear when the kidneys are set right by the use of Dr. Chase's Kidney-Liver Pills.

Mr. Fred Meggs, general merchant, Wolverton, Ont., writes: "I was troubled for five years with kidney disease and a very lame back, and was so bad I could not ride in a buggy. At times I could not turn over in bed, and there were brick-dust deposits in the urine. In vain I took medicines of various kinds. They seemed to do me no good. Samples of Dr. Chase's Kidney-Liver Pills helped me, and two boxes completely cured me. They made my kidneys healthy and vigorous, and I am now a well man. I can recommend them as the world's greatest remedy for backache, kidney disease and sick headache."

When the kidneys are kept healthy the blood is kept pure, the system is perfectly nourished, the waste matter is carried off, and disease finds no lodgement in the body. You can make no mistake in using Dr. Chase's Kidney-Liver Pills. They are the tried and tested prescription of the great kidney doctor, Dr. A. W. Chase. They are purely vegetable, and of marvelous efficacy as a strengthener of the kidneys and liver. They have a record of cures unapproached by any other kidney medicine. One pill a dose: 25 cents a box, at all dealers, or Edmanson, Bates & Co., Toronto.

CONTAGION AND INFECTION

La Grippe Is Infectious, but Not Contagious.

Contagious diseases are communicated from one person to another; infectious diseases are conveyed through the air.

Smallpox is a contagious disease; La Grippe is infectious. When an epidemic of the grip is prevailing it is in the air we breathe, and no one is safe.

The only safeguard is to keep the system in the highest possible condition of health, and on the first appearance of a cold in the head to use some safe antiseptic like Stuart's Catarrh Tablets freely; a tablet taken every hour or two for a couple of days will be sufficient to break up the attack.

La Grippe attacks the weakest part of the system: it may be the lungs, heart, liver, stomach or kidneys; but, wherever it finally locates, it almost invariably starts with cold in the head and throat, or, in other words, the disease at the beginning is acute catarrh.

This is the reason Stuart's Catarrh Tablets have been so successful in breaking up attacks of grip. The antiseptic properties of the remedy destroy the germs before the whole system is thoroughly infected.

Dr. Anniston says: Stuart's Catarrh Tablets, being free from cocaine and harmful drugs, should be freely used at this time of year on the first appearance of grip symptoms.

They check the excessive catarrhal secretions, stop the fever and prevent pneumonia.

They are composed of antiseptics and may be used by little children as freely as by adults and with great benefit.

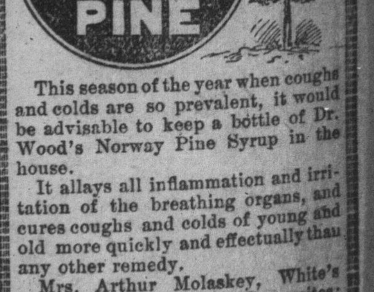

Dr. Lewiston says: My usual prescription for the grip is Stuart's Catarrh Tablets, which can be found at all drug stores. Keep to the house for a day or two and use the tablets freely, and I have never heard any complaints of failure to cure. 246

This season of the year when coughs and colds are so prevalent, it would be advisable to keep a bottle of Dr. Wood's Norway Pine Syrup in the house.

It allays all inflammation and irritation of the breathing organs, and cures coughs and colds of young and old more quickly and effectually than any other remedy.

Mrs. Arthur Molaskey, White's Point, Queen's Co., N.B., writes: "In the fall of 1899, I was taken down with a severe attack of La Grippe which left me with a bad cough. I tried several remedies and could obtain no relief and was almost in despair of a cure when a friend advised me to take Dr. Wood's Norway Pine Syrup. I took three bottles in all and it made a complete cure."

A MOST THRILLING RECITAL

Ernest Hecht, Charged With Murder, Tells His Story in Court in Dramatic Fashion.

A CASE OF WOMAN'S INFATUATION.

Hecht Says Mrs. Louise Foster Planned for a Double Suicide and He Agreed.

Syracuse, N.Y., March 1.—Ernest Hecht, on trial for the murder of Mrs. Louise Foster, testified in his own behalf to-day. The prisoner told of meeting the woman and of their subsequent friendship and love. He maintained that their relations were platonic and there was an irresistible affinity. The day previous to the tragedy she came to him and said:

"Ernest, to-morrow is the day we are to die."

"I said," continued Hecht, "'Is there no help?'

"Mrs. Foster replied, 'No; no help; no hope.'

"She said she would make all the arrangements for the double suicide. I tried to dissuade her, but in vain. She kissed me good night, and said, 'Go to work to-morrow and keep cool.' I was miserable.

"At noon I called. She led me to the front room, and said, 'This is where we are going to die.' I said, 'Why should we die?' and she answered, 'Because it is better so.' I returned later, and asked her to go to the theatre. She answered, 'Ernest, I will never leave these rooms alive.' I went out and bought something to eat and a red rose. She said: 'Have you come to stay?' I said, 'Yes,' and she kissed me. I told her it was hard for me to die. 'Why must I go?' 'Because I go,' she answered. I got excited and said I would not die until she gave me a good reason.

"Then occurred such a scene as no man ever witnessed. All the furies in hell could not equal her denunciation of me and her agonizing cries and wailing. Finally, she quieted and hugged and kissed me. She said, 'Are you ready?' and I responded, 'Yes.' Then she saturated a handkerchief with chloroform and poured out morphine pills containing 24 grains and took them, handing me the vial to take the rest, and I did so. She lay down, placed the handkerchief over her mouth and nose, and I became half-dazed. I tried to write a letter to my brother and spent the night in agony. I felt of her face, and found it cold. I placed the red rose upon her breast and waited. In the morning Mrs. Wilbur came, then the police and I was arrested."

The recital was listened to by a crowd filling the court room. It was dramatic in the extreme.

Value of Eaton's Land.

Evidence was given at yesterday's session of the Eaton assessment appeal as to the value of the land occupied by the company's stores. Mr. J. W. G. Whitney, real estate agent, placed the frontage on Yonge-street at $1800 per foot; Queen-street, $790; James-street, $350; Albert-street, $200, the depth in every case being 165 feet.

Mr. R. M. Graham of the assessment department was called by the city. He negotiated for the purchase of the land on James-street for the Eaton Co. when he was in the real estate business. The properties were sold for $200 per foot. He bought for Mr. Eaton 10 feet on Queen-street at $400 per foot. This was about fifteen years ago. Messrs. James Foreman and T. H. Sabiston of the Assessment Department were recalled and gave unimportant evidence. The case goes on this morning.

Law Suit Settled.

The suit of Madill v. Little was settled in the Civil Assize Court yesterday. The action was brought by James Madill against his wife's brother, James Little, to get a share in the estate of his wife, to which Little laid claim. Mr. and Mrs. Madill formerly occupied a farm near the village of Weston, but owing to inability to agree sold the farm, and Mrs. Madill went to live in Cleveland. Mr. Madill died in March last. She had some property from her father, valued at $3000, and it was over this that the suit arose.

The peremptory list for Monday is: Severn v. Dew, Platt v. Platt, Dominion Radiator Co. v. Bull, Mackie v. Phillips, Laishley v. Gould, Saunders v. Hendrie.

Railroad Y. M. C. A. Notes.

The parlor concert given at the home of J. D. Morice on Thursday evening under the auspices of the Ladies' Auxiliary of the Railroad Y.M.C.A. was a great success in every way. A delightful program was provided by Mrs. Reddie, Miss Powell, Lewis Trusdate, Messrs. Dimmock, Owen Smily, Lugsdin, Nasmith, Paynter. Mr. Edward Leadley, president; Rev., Mr. Winchester, and Railway Secretary Colville gave short addresses.

The Gospel service on Sunday, at 4.15, at the Railway Y.M.C.A., 4 Spadina-avenue, will be addressed by Rev. Peter Nichol, pastor St. Mark's Presbyterian Church. This service is open to all.

At Osgoode Hall.

The assessment case of the trustees of the estate of the late Hon. William McMaster against the city, specially stated for the opinion of the court, has been referred by Mr. Justice Lister to the full Court of Appeal. The question is as to whether the city has the right to assess the income of the estate.

The application to wind up the Ontario Radiator Co. was yesterday enlarged for one week by Chief Justice Meredith.

Peremptory list for Monday's sittings of the Divisional Court: Merchants' Bank v. Sullivan, Vivian v. Taylor, Chance v. Hay, Brewder v. Metropolitan, Thorne v. Parsons, King v. Leeson.

Y. W. C. Guild Notes.

The Gospel service at 4.15 Sunday afternoon will be addressed by Miss Carson of the Fred Victor Mission. All young women are cordially invited.

There is room for new members in the class for Practical Cooking, which meets on Friday evenings, also in the Shirt Waist class.

The annual conversazione on March 5 promises to be more than usually interesting this year.

Mrs. MacBeth, principal of the School of Domestic Science, is leaving for Brooklyn in a few days, when she will visit the Pratt Institute.

Estate of the Late P. Jacobi.

The late Philip Jacobi, leather merchant, left an estate valued at $126,922.54. The sons Emil and Frederick are given equal shares in the business at 5 East Wellington-street. The widow gets an annuity of $1000, with the household effects and furniture; while $1000 in ten annual payments is to be given the German Lutheran Church. Alfred Lewis, an old employe, is given $500 and a niece in Germany $250. The balance of the estate is divided between the daughters Ida and Minnie. The will was entered for probate yesterday by the National Trust Co.

Minister Wins the Case.

Magistrate Kingsford yesterday afternoon gave judgment dismissing the assault case brought by Bailiff Stevenson against Rev. J. M. Sawers of Macdonell-avenue. Crown Attorney Curry made an application for a reserve case, which was opposed by Mr. J. W. McCullough, counsel for the defendant. Mr. McCullough argued that as the defendant was tried under the section of the code relating to summary trials for indictable offences the Magistrate had no power to grant a reserve case. Magistrate Kingsford will make known his decision upon the question to-day.

New Century Forward Movement.

A meeting for prayer will be held each Saturday afternoon at 3.30 o'clock in the Y.M.C.A. Building, to which all Christians are invited. This is the outgrowth of similar movements in Great Britain and the United States, and will doubtless commend itself to the prayerful support and sympathy of the Christian community, inasmuch as the objects in view are the deepening of the spiritual life of Christians and the evangelization of those out of Christ. The meeting this week is to be addressed by Rev. W. H. Hincks, LL.D.

At the Sign of the Scales.

Patrick Honan was convicted of a grave offence in the Police Court yesterday, and was given 10 years in Kingston Penitentiary. Abraham Cohen was acquitted of a long-standing charge of bigamy. Sydney Duck admitted taking some boots and rubbers from a skating rink, and was allowed to go on suspended sentence. The five remaining charges against the Toronto Railway Co. were allowed to stand for a week. The non-support cases against George Brown and John Burns will be heard next Friday.

Elm-Street Methodist Church.

Educational services will be conducted at Elm-street Methodist Church to-morrow. Rev. W. H. Hincks, LL.B., will preach at 11 a.m., and Rev. Chancellor Wallace of McMaster University at 7 p.m. The sacrament of the Lord's Supper will be administered at the close of the evening service. The Church Quartet, which is composed of Miss Mawhinney, Miss Macpherson, Mr. Fisher and Mr. Carnahan, will sing at each service, and Mr. Carnahan, a solo, in the evening.

Canadian Institute.

The members of the Canadian Institute will hold their usual meeting in the Library, 58 East Richmond-street, this evening, at 8 o'clock. Captain Bernier will lecture on his projected "Canadian Polar Expedition," with lantern illustrations. The subject is captivating, and no small degree of interest attaches to the lecturer himself—a Canadian, with generations of sailor ancestors behind him.

Victorian Order of Nurses.

The monthly meeting of the Household Committee of the Victorian Order of Nurses was held yesterday. The report showed that 50 patients have been cared for and 370 visits made during the past month. Miss Dunn, a graduate of the training school, has gone to Baddeck, C.B., to take charge of the work there.

Bishop of Kingston.

The Right Rev. Dr. Mills, Bishop of Kingston, will preach in St. Paul's Church, East Bloor-street, to-morrow, at both the morning and evening services. This will be the first occasion on which His Lordship will preach in Toronto since his consecration.

The Soldiers' Ball.

The non-commissioned officers and men of the R.C.D. and R.C.R. at Stanley Barracks will hold their annual garrison ball, which was postponed owing to the death of Her late Majesty the Queen, on Thursday evening, March 7. Invitations have been sent out to a large circle of friends.

HOW CATARRH CAN BE CURED.

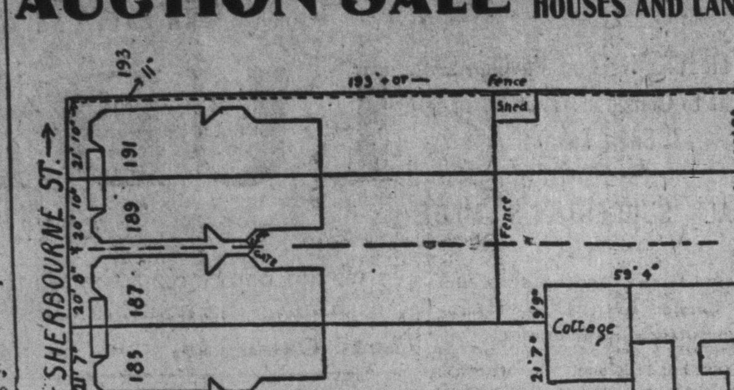

Now, see here a minute, my friend, you ought to know that you can't cure Catarrh of the Nose and Throat by swallowing Tablets, Blood Purifiers and things of this sort. The stuff you swallow goes into your stomach, and the trouble is not there at all. To cure any disease, you must bring the right remedy under the right conditions right in contact with the disease; in other words, you must reach it. That is just why Japanese Catarrh Cure is so successful in treating and curing Catarrh. You apply it to the nostrils, and by the very act of breathing it spreads itself over the entire membrane, where all the trouble is. It immediately kills the Catarrhal germ, heals and soothes the irritated membrane, and completely removes every trace of Catarrh. The dropping in your throat and pains in the head all stop. The throat no longer has that fulness in the morning, the desire to hawk and spit ceases.

Mr. J. Sloan, 78 McGill-street, Toronto, has had considerable experience during seven years with the hundred and one Catarrh remedies on the market. Here is what he says: "For seven years, I have been troubled with catarrh, which finally affected my throat. I had doctored with some Toronto doctors, used tablets, powders and everything I saw advertised, some of which relieved me at the time, but was worse after I stopped using them. About a year ago I procured a sample of Japanese Catarrh Cure, and even this small sample did me more good than anything I had yet tried. I used in all about two and a half boxes during two months, which have completely cured me. It certainly does all claimed for it, which I cannot say of scores of other remedies tried."

Japanese Catarrh Cure is without a rival. It is the only permanent cure for Catarrh. Thousands of people tell us so. Sold by all druggists. 50 cents. Trial size, 10 cents, by mail, postage paid, from The Griffiths & Macpherson Company, Limited, Toronto, Canada.

TREASURER'S

SALE OF LANDS

In Arrears for Taxes in the Town of

NORTH TORONTO!

Town of North Toronto, County of York. To wit:

By virtue of a warrant issued, as subjoined by the Mayor of the Town of North Toronto, dated the 27th day of December, 1900, and to me directed, for the collection of the arrears of taxes due upon the undermentioned lands in the said town, together with the fees and expenses thereon, all such lands being patented lands.

I give notice that unless the said arrears of taxes and costs be sooner paid, I shall, on Thursday, the 11th day of April, 1901, at the hour of 2 o'clock in the afternoon, and upon the following day or days, until the sale is completed, at the Town Hall, in the Town of North Toronto, proceed to sell by public auction the said lands, or such portions thereof, as shall be necessary to pay such arrears, together with all charges thereon.

Treasurer's Office, Town Hall, North Toronto, 27th December, 1900.

W. J. DOUGLAS, Town Treasurer.

To William J. Douglas—

Of the Town of North Toronto, in the County of York, and Province of Ontario, Treasurer of the said Town of North Toronto:

Town of North Toronto, County of York, To Wit:

By virtue of the authority given me under chapter 224, sections 173 and 224, of the Revised Statutes of Ontario, 1897, I, Joseph Stanley Davis, of the Town of North Toronto, Mayor of the said town, do hereby authorize and direct you to levy upon the lands described in the return of lands liable to be sold for arrears of taxes, made by you in duplicate to me, bearing even date herewith, attested by my official signature, and the seal of the said town, one copy being returned to you with this my warrant attached thereto, to sell the said lands, or so much thereof as may be sufficient to pay the taxes thereon, together with the fees and expenses chargeable under the aforesaid act.

As witness my hand and the seal of the Corporation of the Town of North Toronto, this 27th day of December, 1900.

[Seal.] J. S. DAVIS, Mayor.

ESTATE NOTICE.

EXECUTORS' NOTICE TO CREDITORS of Michael Ryan, Deceased, Formerly an Employe of the Toronto Water Works Department.

Notice is hereby given pursuant to Revised Statutes of Ontario, 1897, Chap. 129, that all creditors and others having claims against the estate of the said Michael Ryan, who died on or about the 24th day of January, 1901, are required, on or before the 15th day of March, 1901, to send by post, prepaid, or to deliver to Foy & Kelly, 80 Church-street, Toronto, solicitors for the executors their Christian names and surnames, addresses and descriptions and full particulars of their claims, duly verified, and the nature of the securities (if any) held by them; and, further, take notice that after such last-mentioned date the said executors will proceed to distribute the assets of the deceased amongst the parties entitled thereto, having regard only to the claims of which they shall then have notice, and the said executors will not be liable for the said assets or any part thereof to any person or persons of whose claim notice shall not have been received by them at the time of distribution.

THE CATTLE MARKET.

Toronto's cattle market is not as large as it should be. Everyone admits that. The time for its removal, however, has not yet arrived. The interests favorable to the market's remaining at the present site are powerful enough to dictate the situation, and the cattle men and others engaged in the business recognize that there can be no change for a number of years. If this fact is admitted, viz., that the market must remain where it is for ten years more at least, then the policy that the city should adopt is clear enough. Improvements must be made and better facilities provided for conducting the business. The present condition of the market almost beggars description. The business of the market is transacted in the centre of what seems to be a big barn yard. Men and cattle are jumbled together in a most chaotic way. The accommodation for the cattle is bad enough, but that provided for the market officials, the drovers, bankers and others is execrable. One bank clerk pays out $20,000 a day in a room about 6x12 feet. It will accommodate two individuals at once. If a third enters, the bank is crowded. The cattle dealers' offices are on each side of a narrow hall for all the world like bedrooms in the attic of a cheap and nasty country hotel. When the weather is soft this hall and the offices become more offensive than the cattle pens. During the winter the men probably have the better of it, but for the balance of the year we would prefer to associate with the cattle in their pens rather than come in contact with the filth and odor of the business section of the market. Well on to ten million dollars' worth of business yearly is transacted on a dunghill. Toronto's cattle market is an abomination. We do not know how far the city officials and how far the aldermen are responsible for the disgrace, but no one who has had a hand in fitting up the market in the past should have a voice in its future improvement. The next man who attempts to improve the market should be an architect and a business man. A farmer's hired man would have understood better what was wanted than the master intellect who devised the present mix-up. The first thing to be done is to separate the cattle from the men, the pens from the offices, the counting-house from the dunghill. The business should be transacted adjoining, but outside, the market proper. The offices should be large enough for the business transacted in them. There should be an exchange or assembly room, and proper lavatories and other conveniences. If it is decided to add Stanley Park to the market, the business part of the market should have its frontage on King-street. If not, it should be located at the most convenient point outside the enclosure. The next step would be the rearrangement of the pens. In order to increase the efficiency of the market all cattle kept longer than a day, as often happens with cattle bought for export, should be removed to the annex, and kept there in a building to be constructed for that purpose. The market proper should be limited to selling cattle, not storing them. The scales should be located at a more convenient place, and other changes made for the quicker handling of the animals. Commission an expert to remodel the market and he will increase its efficiency 50 per cent. But the greatest improvement of all would be to add Stanley Park to the market. This would nearly double its capacity as far as the cattle are concerned. The city committed a huge blunder when it leased the property west of the market for a lumber yard. This property would have been worth three times as much to the city if it had been added to the market. The only course remaining is to take in Stanley Park. This so-called park is of little use to citizens, but, if necessary, it could easily be replaced by another breathing spot in the neighborhood. If Stanley Park is annexed, the market will meet the requirements of the next twenty years. Advantage should be taken of the location of the crematory within the market to utilize the cinders for filling up and raising the level of the grounds. We understand enough of cinders and earth could be secured for nothing to raise the level of the whole market to the street grade within two or three years. All these improvements can be undertaken at a comparatively small expense. The rentals from the offices will more than meet the capital charges for construction. The cattle men are willing to pay for better accommodation if they can get it. It is unnecessary to particularize any further. The city should commission an architect to make a plan in accordance with the views of those who do business on the market, and who know what is required. At the same time, let the Council add Stanley Park to the market, and let part of the annex be used for storing cattle. If improvements are made along these lines the cattle market question will be settled for twenty years.

THE C.P.R.'S BOGEY-MAN HOUSTON.

Some short time ago the C.P.R. put up one John Houston to make the statement that it would be dangerous to allow United States railway men to get an entrance into British Columbia, because they would "squeeze Canada like a sponge." John's interview was intended solely for publication in the east. In British Columbia, where he is known, his dread of American competition is regarded as a joke, for he is the same John Houston who not long ago was fighting night and day for an American line into Nelson. The Fernie Free Press warns the people of Eastern Canada against the C.P.R.'s bogey man. "Were this same Houston," says The Free Press, "as well known in the east as he is here there would be but little fear of his grossly misleading statements doing any harm, but the people in the east only know him as an ex-Mayor and an M.L.A., and for this reason his statements, false tho they be, may have some weight." We are told that Houston supported the American line to Nelson on three grounds:

1. That a railway to the south was necessary to free Kootenay from the monopolizing grip of the Canadian Pacific Railway.
2. That it would give freer communication between Victoria and Vancouver and Kootenay.
3. That anyone who wanted to build a railway in any direction should be allowed to do so free from legislative restriction which was always exercised in favor of the corporation with the "pull" and against the interests of the people.

The reasons which Mr. Houston advanced a few years ago in regard to Nelson prove the case in favor of the proposed new line to Fernie. All talk of the smelters in British Columbia being compelled to shut down for want of coal and coke is utter nonsense, says our contemporary. "In less than two months the Crow's Nest Pass Coal Company will be turning out over three thousand tons of coal per day—more than British Columbia will use for a long time to come, and within a few months more the output will be nearly ten thousand tons per day—provided a market can be had for it. If an outlet to the south is refused it simply means that the coal industry in these parts will be crippled and the entire district suffer an irreparable loss."

The Toronto General Trusts Corporation.

The report of the proceedings of the annual meeting of the Toronto General Trusts Corporation appears in our present issue. It is a most satisfactory one, and is well worthy of perusal by all persons who are considering the question of appointing executors and trustees under their wills.

The financial standing of the corporation is of the highest order. Its paid up capital of $1,000,000 and a reserve fund of $250,000, in addition to the specific investments held for each estate, furnish securities to the extent of $1,250,000 for the proper performance of all duties entrusted to the corporation.

Apart, however, from its excellent financial standing, there are certain features of management brought out in the report which show the great care and constant supervision that is exercised in the management of its business. (1) Its general agreement with the Executive Committee of the board, all excellent business men of the highest standing in the community. (2) In addition to auditors appointed by the shareholders, the board appoints an Inspection Committee from its directors, which committee becomes cognizant of every act of the Executive and personally has to see every security that is acquired, and to certify that such securities are registered to the estate or trust to which they belong. (3) The corporation strictly confines itself to the performance of the duties of executor, administrator, trustee and such kindred offices, and eliminates from its transactions every undertaking of a speculative character.

British America Assurance Co.

The sixty-seventh annual meeting of the shareholders of the British America Assurance Co. was held on Thursday last, the president, Hon. George A. Cox, in the chair. The report of the directors showed that two half-yearly dividends at the rate of 7 per cent. per annum had been paid, and the reserve fund increased to $581,457.22. The capital stock of the company had been increased to $1,000,000, and the $250,000 of new stock authorized to be issued at a premium of 15 per cent. had also been taken up. In view of the large losses which the company sustained by the fires in the cities of Hull and Ottawa, in the early part of last year, the statement may be looked upon as a very satisfactory one.

The Fundamental Monopoly.

Editor World: In the course of Mr. W. F. Maclean's very able speech on public ownership of railways in the House of Commons—a speech in which I venture to say he had the heart and conscience of the thinking public with him—I find this paragraph:

Science, genius, enterprise, public spirit utilize the thousand and one imprescriptible legacies of the past, are constantly assisting to better the lot of mankind, and, up to the present time, the wealthy, the ambitious, the trusts, the combines, the corporations, have tried to corner and restrict—have succeeded in cornering and restricting the use of these discoveries, of these gifts to man, made by genius, intellect, enterprise and public spirit.

That is to say, monopolistic trusts and combines have shown themselves able to appropriate the fruits of human labor without giving fair equivalent therefor. They are, in short, able to steal to an unlimited extent; and when laws are passed to restrain them from the voracious forms of grand larceny by which they live, they are able to circumvent such laws in a thousand ways. All this is only too true, and Mr. Maclean cannot be too emphatic in pointing out the peril that is involved to civilization.

What I want to call particular attention to, however, is that before any trust or combine can corner and restrict any of the things which human genius, intellect, enterprise or public spirit has bestowed as gifts on society, they must first entrench themselves in a legal ownership of one or other of the things which the Creator has bestowed on the human family. A trust, to be perfectly impregnable, must be based on the ownership of land, for only then has it command of the storehouse from which human genius or intellect can make anything. If it owes its power to the ownership of goods, more goods can still be made; if it monopolizes simply the tools of production, more tools can be manufactured; if it depends for its strength on special tariff protection, the duties can be abolished and importation allowed. But, backed by the solid rock of ownership of the earth itself, the trust, whether it deals in coal, iron, oil or anything else that primarily comes out of the ground (and what variety of wealth does not?) can afford to smile and ask with brazen front, What are you going to do about it?

The only effective and practicable thing we can do about it is to place the taxes where they ought to be placed, on the rental value of the land. In other words, take the unearned or speculative increment of land for public revenue.

LOTS OF COAL AT FERNIE.

Enough Black Diamonds to Last Thousands of Years, The Fernie Free Press Says.

Vancouver, B.C., March 1.—In discussing the campaign of the Canadian Pacific Railway against the building of a railway from the Crow's Nest coal fields to the American boundary, The Fernie Free Press says:

"Every man and boy in Fernie is laughing at the scare talk about coal being drained away by the proposed connection with the Great Northern. We have here 250,000 acres, carrying seams that aggregate 150 feet. Cut it down 200,000 acres with 100 feet of coal seams, and we have 20,000,000,000 tons of coal. If we swell our output to 10,000 tons a day, we will exhaust this supply in the year of grace 8500. Long before that date the men who are trying to prevent the building of railways in British Columbia will have no need of coal."

BURGLARIZED A HOSPITAL.

New Brunswick Man Robbed the Place Where He Was Nursed to Health.

Watertown, N.Y., March 1.—Samuel Potter, aged 28, of St. John, N.B., is under arrest for burglarizing St. Joachim's Hospital and stealing $200. He was discharged from the hospital, where he had been a patient, yesterday. He has confessed to breaking into the hospital last night and committing the crime.

The Ladies' Magazine for March.

"The magazine that grows better every month," is the motto the publishers of The Ladies' Magazine—that high-class women's monthly—have chosen. The March number, now in the hands of the newsdealers, is without doubt the best number yet issued, and proves that they are living up to their motto. Some especially good things this month are: The New Spring Hats, Stylish Shirt Waists for Next Season, Types of Canadian Beauty, The Personal Side of Queen Victoria, Plans for a Moderate-Priced Suburban Home, Successful Women's Literary Clubs, Village Life Among the Doukhobors, The Mission of Household Economics, Short Stories, etc. The Ladies' Magazine is thoroly Canadian in its tone, and should be appreciated by Canadians generally. Over Two Hours Late.

The Grand Trunk Montreal express yesterday morning was over two hours late in reaching the Union Station. The delay was caused by late connections from Boston.

Fell on the Pavement.

W. J. Lucy, who lives at 217 West Richmond-street, fell on the icy pavement on West Queen-street yesterday afternoon and broke his thigh. The fracture was reduced at the General Hospital.

"I am the mother of four children," writes Mrs. Euphemia Falconer, of Trent, Muskegon Co., Mich. "My first two babies were still-born, and I suffered every thing but death. My friends all thought I could never recover. I was reduced to 109 pounds. When I was three months along for my third child I was taken with hemorrhage or flooding and came near having a miscarriage from female weakness. For two months I was under the care of our doctor, but was getting weaker all the time until one day I happened to come across one of your little books and I read it through, and the next day I sent and got three bottles of 'Favorite Prescription' and one bottle of 'Pellets.' I improved so fast I continued to take your medicine until baby was born, and he is healthy and all right. My health has been good ever since. I now weigh 165 pounds."

MEMORIAL TO LATE QUEEN

Public Meeting Held in Pavilion Last Night to Consider What Form it Shall Take.

SEVERAL SUGGESTIONS MADE

And Committee Appointed to Nominate Larger One to Get Subscriptions and Decide.

About two hundred and fifty citizens attested their loyalty by attending the public meeting at the Pavilion last night to consider the question of establishing a memorial to her late Majesty Queen Victoria.

Lt.-Col. Patterson suggested that Mayor Howland take the chair. This being acceded to, His Worship read the proclamation containing the requisition for the meeting. He was rather disappointed that the attendance was not larger, but knew that the citizens were of one mind in their desire that a suitable memorial should be established. Personally, he considered the memorial should be one perpetuating some distinguishing characteristic of the late Queen, preferably her eminence as a philanthropist. He had thought a home for aged men would be appropriate. In the collection of the subscriptions, the machinery of the city might, if deemed desirable, be made use of.

Endorsed the Mayor's Plan.

Mr. Castell Hopkins referred to some of the reasons why the citizens of Toronto should establish a memorial such as proposed. If an art memorial were to be established, Mr. Hopkins thought the statue to the late Queen, to be erected by the province in the Queen's Park, might be supplemented by a statue to the late Prince Consort in front of the City Hall. If a philanthropic form be desired, he was prepared to endorse His Worship's suggestion for a home for aged men.

First Resolution.

Rev. Canon Welch moved the first resolution: That, in the opinion of this meeting of citizens of the city of Toronto, a suitable and permanent memorial should be established within the city to commemorate the many noble qualities and acts of our late Queen Victoria, and to serve as a monument and as a witness to future generations of the loyal affection we had for her.

The rector of St. James' Cathedral, in moving the resolution, was eminently frank. He did not think the small attendance was to be wondered at, when it was remembered what a formidable list of probable speakers was advertised for those attending to have to listen to. He had not given much thought to the form which the memorial should take. He had left it to much wiser heads than his own. If the Mayor's suggestion for a home for aged subjects of her late Majesty was adopted, he thought that it should scarcely be confined to one sex of her subjects. He was sure about that other suggestion of His Worship that some part of the civic machinery might be applied to the collection of subscriptions. Some contributors might not welcome a call for such purpose from the gentlemen who called upon them at other times for their water rates. Why not organize a large committee of ladies to solicit the subscriptions?

Ex-Ald. Scott briefly seconded the motion. He was not prepared to express a preference for the form the memorial should take, but if a public institution were decided upon it should be sufficiently endowed to guard against its usefulness being impaired at any future time by lack of funds.

The motion was adopted.

By Public Subscription.

Mr. Hugh Blain moved that, in order to afford to all citizens the privilege and opportunity of joining in the creation of such a memorial, the amount of money be raised by public subscription and the City Council be requested to contribute to such fund.

The motion was seconded by Mr. J. J. Foy, K.C., M.L.A., who was prepared to be guided by the judgment of the community as to the form of the memorial.

Mr. Henry O'Brien thought the establishment of a home for incurable cases of consumption might be considered.

The second motion having also been adopted unanimously, Lieut.-Col. Mason moved that the following be a Striking Committee to nominate a large and representative committee of ladies and gentlemen to decide upon the form of the proposed memorial, and arrange for the collection of the fund, viz., the Mayor, J. J. Foy, K.C., Ald. Cox, Rev. Canon Welch, Rev. Dr. Milligan, Rev. Father Ryan, Dr. Reid, Rev. Dr. Potts, Rev. Mr. Baldwin, Prof. Mavor, S. C. Briggs, Lieut.-Col. Davidson, Dr. Parkin, J. Costell Hopkins, Lieut.-Col. Patterson, Inspector Chapman, Major Manley, Lieut.-Col. Mason and Dr. Barrick.

Dr. Barrick was asked to second the motion, but declined to do so, as he thought that the committee so nominated should only have power to report a recommendation to another public meeting as to the form of the memorial. He was in favor of every contributor having a voice in the way the fund should be expended.

Lacked Common Sense.

Mr. Henry O'Brien, with some warmth, declared that Dr. Barrick's method lacked common sense, and seconded the motion.

Hon. S. C. Biggs, with equal fervor, defined Dr. Barrick's idea as impracticable.

A gentleman on the floor of the hall suggested that the names of E. H. Massey, T. H. Thompson and W. H. Brown be added.

Dr. E. Herbert Adams proposed that G. M. Wickett, Dr. W. H. Pepler, A. H. McConnell and ex-Ald. Steiner be added. This being agreed to, the list as amended was adopted.

Col. Mason's Suggestion.

Lieut.-Col. Mason suggested that the proposed memorial hall at the University be considered by the committee which is to be appointed.

His Worship said that he would, as the first named on the committee, act as convener, and that a chairman would probably then be appointed. He thanked those present for their attendance, and stated that this concluded the business of the evening. He noticed that it was still quite early, only 10 o'clock, and the meeting might like to hear for a few minutes from some of the other gentlemen on the platform. He would call on Mr. Frank Arnold. As a large proportion of the audience rose to leave, His Worship said, Then let us close in due form by singing the National Anthem. The meeting then closed with a verse of "God Save the King."

Mr. T. L. Church acted as secretary. Most of those placed on the Striking Committee were present and occupied seats on the platform.

THE GARDEN CITY SOLD.

Niagara, St. Catharines, and Toronto Railway Co. Has Bought Her for Toronto Route.

St. Catharines, March 1.—It is officially announced to-day that negotiations have been closed between the Steamboat Committee of the Niagara, St. Catharines & Toronto Railway Company and Mr. Thomas Nihan, owner of the steamer Garden City, by which this popular and well-known steamer becomes the property of the above-named corporation. The committee left here to-day for New York City, where they expect during the coming week to purchase another boat to be used in connection with the one mentioned to ply between Port Dalhousie, the terminus of their electric line, and Toronto. Capt. Coney and the entire last season's crew of the Garden City will be re-engaged by the new owners.

"IT IS A GREAT PUBLIC BENEFIT."—These significant words were used in relation to Dr. Thomas' Eclectric Oil, by a gentleman who had thoroughly tested its merits in his own case—having been cured by it of lameness of the knee of three or four years' standing. It never fails to remove soreness as well as lameness, and is an incomparable pulmonic and corrective.

Public Amusements

Fun in McFadden's Flats.

"McFadden's Row of Flats" has been rebuilt. In lieu of the old ideas the brightest, newest things imaginable have been introduced. Recently-composed music, new songs and specialties, have been added, as well as a number of mechanical electrical devices entirely out of the conventional; in fact, there is evidence on every hand of reconstructed effects and settings from the raise of the curtain until the finale. There is no duo of specialty artists before the public who are better known than McWaters and Tyson, the brothers Frederick, Ima Thomas, Harry Watson, John Price, Alonzo Price, Bobby Ralston, Jennie Lamont, Jerry Sullivan, E. M. Brown and a long string of others. The piece is presented this year in a spectacular fashion, and requires a large chorus of young ladies, who in their gorgeously-made costumes, cut quite a figure in the many different and original ensembles. All in all, the new "McFadden's Row of Flats" is the proper caper in the world of spectacular farce-comedy reviews. It will be the attraction at the Toronto Opera House next week, with matinees Tuesday, Thursday and Saturday.

At Shea's Next Week.

For next week Mr. Shea will offer one of the best bills he has ever presented in Toronto. It will be headed by Grace Van Studdiford, with Ralph Johnson as a special attraction. Miss Van Studdiford was until a few weeks ago the leading member of the Metropolitan Opera Company. She has a voice the equal of which has seldom been heard on the vaudeville stage, and her appearance in Toronto is certain to call out the largest audiences ever seen in Shea's Theatre. Miss Van Studdiford is also a very beautiful woman, and she wears the most magnificent costumes. Ralph Johnson is a trick cyclist, but this utterly fails to describe his work. His act is the most startling, daring and marvelous piece of athletic work ever put on the stage. It is impossible to describe his feats, and some of the New York papers have recently referred to him as a "maniac" on a wheel. Bessie Lamb, who is a splendid coon shouter, will have some new songs. Three Elliotts have the funniest musical act on the stage. Robertus and Wilfrido, Europe's wonderful equilibrists and jugglers. Will H. Murphy and Minnie Allen, presenting a novelty and comedy, entitled "The Bifurcated Girl." Oscar P. Sisson and Esther Wallace, assisted by Walter Caryll, have a very interesting sketch. Forbes and Quinn, dancing and musical act, and the Cinograph complete a very good bill.

The Princess Next Week.

The Valentine Company will close another highly successful week at the Princess with matinee and evening performances of "Pawn Ticket 210" to-day. Monday evening and during all of next week the attraction at the popular King-street theatre will be "Devil's Mine," a sensational melodrama, by Fred Darcy, which deals with people and events in the far western section of the United States, where the search for precious metal is the chief occupation of the sturdy types of humanity whom Mr. Darcy has selected to interpret his story. "Devil's Mine" was a big success when originally produced in New York City, and as a road attraction it proved equally profitable for several seasons. In the production which the Valentine Company will offer the leading role will be played by Louis Bresen, who represented the part of the hero, Jack Hawley, with a road company for two seasons. This will give Mr. Bresen a respite from the villain roles which he has acted so successfully during the season at the Princess, and it goes without saying that his admirers will be glad to see him in a part where he is enabled to counterfeit the hero of the thrilling drama. Messrs. Evans, Kent, Jennings, Searle, Hudson and Crosby and the Misses Blancke, Desmonde and Taylor will also be in the cast. At the opening performance there will be souvenirs of Mark Kent, whose work in each play has been so genuinely satisfactory.

Praise for the Choir.

The deep impression made upon the musical people of this city and province who attended the recent concert of the Mendelssohn Choir has called forth an exceedingly large number of congratulatory letters to members of the executive and the conductor, among these a letter to the conductor from Mrs. Fannie Bloomfield Zeisler, who on the evening of the concert unreservedly expressed the opinion that the choir surpassed any it had ever been her privilege to hear. She says: "I cannot refrain from again thanking you for the beautiful work of your magnificent chorus. I wish our people in Chicago could hear the elegant phrasing and rich tonal qualities of the choir. I am writing you to urge you to arrange to be heard at the Buffalo Pan-American or perhaps, better still, at the St. Louis World's Fair. You would certainly create a sensation on our side of the line. It was a real joy for me to be associated in your concert with so remarkable a society. My best wishes are with you in your future work.

Villiers Next Saturday.

Mr. Frederic Villiers, the veteran war correspondent, who has been thru every war for the last quarter of a century, in his lecture on "Kruger and Khaki," speaks in the highest terms of the valor and endurance of the colonial troops. His views are remarkably fine, and, in the words of "The Hexagon Gazette," "not the least effective of the great pictures, which followed each other in quick succession for nearly two hours, was that of a heap of British accoutrements after one of the 'frontal attacks,' in which every water bottle had been pierced, and every strap cut by bullets, showing the terrible severity of the ordeal thru which our gallant soldiers were forced to pass." Mr. Villiers will lecture in Massey Music Hall on Saturday evening, March 9.

McEwen's Special Matinee.

At Association Hall this afternoon there will be a special matinee for ladies and children given by McEwen, the wonderful hypnotist. His program is not only very scientific, but highly amusing, and he provides two hours of wonder and incessant laughter. Prof. McEwen will give a performance to-night, which closes his engagement, after a very successful week, in which he has amused thousands of citizens. His entertainment is clean and bright and pleases everyone.

BELL

Bell Orchestral Pianos Supreme

I received the magnificent Bell piano which I ordered for my own personal use. I had been expecting a first-class instrument, but the piano, which is a veritable jewel, surpasses all my hopes. It possesses a splendid quality of sound, rich, pure and melodious, with great evenness of the scale. The action is rapid, with wonderful elasticity. I declare it an honor to Canada to possess a manufactory able to turn out pianos like the Bell, which are unquestionably the best pianos made in Canada.

BIG STRIKE AT CLEVELAND.

Fight Was Not Unionism Against Non-Unionism, But Over a Question of Wages.

Anent the big strike at Cleveland, John N. Taylor, secretary of the Conference Committee, writes to state that the point at issue was that the men in Cleveland demanded $2.85 a day, and the local founders contended $2.75 was a fair wage. It was not a fight between unionism and non-unionism.

An exact copy of the agreement entered into between the joint conference in Feb. 14 is as follows:

Cleveland, O., Feb. 14, 1901.

This Joint Conference Committee, composed of representatives of the National Founders' Association and the Iron Moulders' Union of North America, agree upon the following as a basis of settlement of the strike in the Cleveland and Lorain foundries:

1. That the Iron Moulders' Union of North America shall declare the strike off, and cease immediately to picket the foundries of the city, the men's boarding houses and homes, and co-operate with the foundrymen of Cleveland and Lorain in the operation of their foundries.

2. The contracts now in force between the foundrymen of Cleveland and Lorain and their employes shall be completed in good faith, but no more contracts shall be made for the foundrymen of Cleveland and Lorain unless in case of strike. The National Founders' Association shall discontinue at once advertising for or engaging moulders for Cleveland and Lorain foundries, and give notice as provided in the contracts for the discontinuance of the bonus, and the National Founders' Association agree not to support any member if they refuse to comply with the terms of this agreement.

The National Founders' Association will not require over forty (40) days for the disposition of their men now employed. As fast as the present employes leave and any shop is vacated, the Iron Moulders' Union of North America agree to have that shop immediately filled with their members, and the Cleveland and Lorain foundrymen agree to accept the same to the number required by the foundrymen in the operation of their foundries, and, work started, the selection of the men to be left to the foundrymen. These men may not of necessity be former employes.

3. The Iron Moulders' Union of North America to notify their men to apply for work at once, and make engagements for the time they are to return to work, based on one day's notice, said notice to be sent to the men required by the foundryman as soon as the foundryman has his work, patterns and shop in readiness. If there is a failure on the part of the Iron Moulders' Union to have the moulders return to work, then the Cleveland foundrymen are to engage such moulders as are satisfactory to themselves, and the Iron Moulders' Union agrees not to support its members if they refuse to obey the orders of the president and return to work under the terms of this agreement.

4. That the minimum rate of wages shall be twenty-seven and one-half (27½) cents per hour for floor and bench moulders, and any man returning to his former employer shall be paid at the same rate of wages as he received prior to July 1, 1900, less ten (10) cents per day.

And overtime shall be paid for at the rate of time and one-half time, except in case of accident or cause beyond control, consuming not over thirty minutes, and double time for Sundays and legal holidays, to wit, Fourth of July, Thanksgiving, Christmas and Labor Day.

5. That the further adjustment of wages shall be by means of an agreement to be negotiated on June 3, 1901, for one year thereafter, and shall conform to any joint resolutions and agreements adopted by this conference on that subject.

6. That each foundryman shall take back all of his own apprentices, and each apprentice shall return to his former employer.

7. That the arbitrary limitation of output on the part of moulders, or arbitrary demands for an increase in the output of the moulder on the part of the foundryman, not being in accord with the spirit of equity which should govern the relationship of employer and employe, all attempts in that direction are to be viewed with disfavor.

8. That the right of the foundryman to introduce or operate moulding machines in his foundry shall not be questioned. In determining who shall operate them, regard should be given to the question of how their best possibilities can be brought out, and how the work can be most economically produced.

9. That the work shall commence promptly at the hour from which the wages are calculated.

10. That other questions which have been the cause of friction and bad feeling between the employers and employes of the Cleveland and Lorain foundries are to be the subject of further investigation and correction when such abuse is found to exist, the object of this being to bring into closer relationship the employer and employe, so that their mutual interests may be protected. And, further, that the investigation and removal of the abuses that the foundrymen complain of are to be the subject of a rigid investigation by the president and vice-president of the Iron Moulders' Union, with the understanding that they will see that said abuses cease.

11. The details above mentioned, together with any disputes relating to their adjustment, are to be settled by the presidents of the respective associations, or such person or persons as they may designate.

12. The foregoing agreement applies only to the following foundries now on strike, but in those cases in which only a small percentage of the moulders employed by any of the foundries was involved in the present strike, it is to be understood that the terms of this agreement shall only apply to that per cent.:

The Opening Spring Sales.

Suckling & Co. will open the spring sales for the season on Wednesday and Thursday next. They will offer about $50,000 worth of new dry goods, a large part of which were imported for merchants whose businesses were destroyed by the large fire in Montreal last January. Forty-nine cases of new prints will be sold in case lots. The sale will be by catalogue, and will be one of the most important ever made in Toronto. Further details are given in their advertisement, and catalogues with particulars will be mailed on application to the auctioneers. The following stocks will be sold en bloc on Wednesday, at 2 o'clock: F. C. Manning, Leamington, dry goods, boots and groceries, $12,000; W. J. Brumpton, Moorefield, dry goods and groceries, $4035, and by order of J. P. Langley, trustee, a stock of up-to-date clothing, amounting to $4100. This clothing has been removed to the auctioneers' warehouse, where it may be inspected. On Thursday the stock of Strong & Co., Tottenham, dry goods, clothing, boots and groceries, worth $5000.

Next Tuesday at Grand's.

On Tuesday next, March 5, there will be offered for sale, at 11 o'clock, some extra good blocks, drivers, delivery and general purposes. Catalogues for the great thoroughbred sale to be held on Tuesday, March 12, can be had from the auctioneer, Walter Harland Smith. Mr. Robert Davies has sent in a lot to add to the consignments from Mr. Dyment, Mr. Duggan, Major Dent and Mr. Ware.

Stomach Ferment

Is the starting point for three-fourths of the diseases that lay hold of humanity, for in its trail follow:

Indigestion—Dyspepsia—Nerve Disorders—Constipation—Sick Headache—Biliousness—Sallow Complexion—Impure Blood—And eventually a general breakdown that may take months of tedious treatment to effect a cure.

Moral: Keep the stomach sweet with Nature's own panacea. DR. VON STAN'S PINEAPPLE TABLETS act like a charm in curing Sour Stomach—Water Brash—Pains in the Stomach—Sick Headache—Bloating after eating—A "vest pocket" Remedy—Easy and pleasant to take, and a sure cure. 60 Tablets, 35 cents. 13

REMARKABLE PERMANENCY

SOME MEDICINES ONLY RELIEVE FOR A SHORT TIME.

Dodd's Kidney Pill Cures Stay Cured—The Case of Mr. Gilchrist of Port Hope Proves This.

Port Hope, Ont., March 1.—(Special.)—Away back in 1896, Mr. Chas. Gilchrist, ex-Chief Constable of this town, was suffering with Diabetes. He was in very bad shape, and never expected to be well again. He was cured by Dodd's Kidney Pills in March of that year (1896), but some thought that the disease would return. Five years have elapsed, and Mr. Gilchrist is still enjoying good health.

On April 24, 1896, he wrote: "I have been a sufferer for ten years with Diabetes and Kidney disorders. My urine was of a dark, bricky color, and the pain while passing was something awful. I have been treated by the doctors, and have used almost every medicine advertised, but could get no relief. Lately I have been very bad. The pain in my back was dreadful. I could not sit in a chair without having a cushion at the small of my back. I heard of Dodd's Kidney Pills, and decided to try once more for a cure. They cured me completely, and I can heartily recommend them to anyone."

On July 2, 1900, he writes: "I am very well, and have been so since the spring of '96. My urine is a natural healthy color. There is no pain in my back. I am sure I would have been in my grave now but for Dodd's Kidney Pills. They certainly saved my life. There is no medicine like them," and to this letter he adds, "all that I say about Dodd's Kidney Pills is the truth. If they were not good, I would not say they were good. The citizens of Port Hope all know me, and can vouch for every word I have written."

Some medicines only relieve. Dodd's Kidney Pills cure, to stay cured. If you want a satisfactory, permanent and sure cure for Kidney Complaint, use the only remedy with an unbroken record of success in every case, and not a single failure.—Dodd's Kidney Pills.

TIDAL WAVE HIT TEUTONIC

Big White Star Liner Had an Experience Which Will Not Soon Be Forgotten.

HER FORWARD IRON WORK BENT.

Some of the Passengers and Crew Under the Care of the Doctor—One Man Lost a Foot.

New York, Mar. 1.—The White Star Line steamship Teutonic, which arrived this morning from Liverpool, was struck by a tidal wave at 9.20 o'clock on Sunday morning, and in consequence came into port with her forward ironwork bent and smashed and some of the passengers and crew under the doctor's care. The wave, to which was credited by some of the officers to a volcanic eruption, and by others to the turning over of a large iceberg to the northward of the vessel, struck the ship when she was riding in fair weather and under usual speed. At the time of the accident Capt. McKinstry was in the chart room and the first officer was on the bridge. The wave broke high, throwing down the men in the crow's nest. The officers on the bridge held on for life.

John Michaelson, a Dane, 25 years of age, a steerage passenger, was caught by the water and carried along the deck. His foot caught in the deck fixtures and was wrenched from its socket. Dr. Doble, the ship's surgeon, was forced to amputate the foot. The saloon passengers took up a collection for the unfortunate man and raised $120.

S. C. Wilson of Boston, a cabin passenger, was thrown against the rail and his jaw broken.

MR. F. C. HUNT

Of Opemican, Que., Disposes of a Very Serious Trouble in a Remarkably Short Time.

The patrons of the postoffice at Opemican, Que., all know the genial Assistant postmaster, Mr. F. C. Hunt. He is a very popular man with everyone who does business at that office.

Mr. Hunt was for quite a long time much troubled with Dyspepsia. After suffering severely for months, he at last found relief and cure. He tells the story of his illness and restoration in these words:

"I have been troubled for some time with Dyspepsia. Lately, I saw an advertisement concerning Dodd's Dyspepsia Tablets, and I thought I would try a box.

"I felt benefited from the start, and now I feel convinced I am cured. I shall certainly recommend Dodd's Dyspepsia Tablets to anyone suffering from Dyspepsia."

The natural conclusion is, of course, that there is a remedy for Dyspepsia that cures to stay cured, even the worst cases, and that the name of that remedy is Dodd's Dyspepsia Tablets.

What Mr. Hunt says has been said by many: "I had Dyspepsia. I used Dodd's Dyspepsia Tablets. They cured me."

Such evidence should convince the most skeptical.

SOME PLOTS WHICH FAILED.

Robber Sentenced to Ten Years and New York People Tried to Get Him Clear.

Baltimore, March 1.—The local police department announced to-day that a plot had been discovered which had for its object the release of Henry Maas, who was sentenced yesterday to ten years' imprisonment for attacking and robbing Alexander Hubbard, an aged jeweler of this city. According to the police, the original plot was to furnish Maas with the implements necessary to effect his escape from the jail at Towson, where he was confined pending trial. This was frustrated by his removal to the Baltimore city jail. Then the conspirators undertook to "fix" the jury, and the police profess to have the names of at least two men who were approached with offers of $300 each if they would get on the jury and "hang it out." The police in their statement implicate an ex-sergeant of police, who is now on the city's pension rolls, together with a resident of Baltimore, who has figured prominently as a lobbyist at Annapolis. The money to carry out the plot is said to have been raised in New York, and the police assert that Maas was at the head of an organized gang of dangerous thieves in that city.

Newman's Claim for Damages.

Mr. Bishop, Superintendent of Buildings, presented at the meeting yesterday afternoon of the Public School Property Committee a re-draft of the caretakers' salaries, showing the increases asked for over last year's basis. The total increase asked for amounts to $879.69. The claim for damages made by Robert Newman, whose son was injured in Park School some time ago, was not entertained. Solicitor McMurrich reported that there was not sufficient evidence in the case to warrant damages, and advised that any further claim from Mr. Newman be defended. A sub-committee, composed of Trustees Dr. Buck, Kent and L. Brown, was appointed to further investigate this case.

Dr. Tait McKenzie will lecture this afternoon at 3.30 in Trinity College on "Facial Expression." Dr. Parkin of U.C.C. will preside.

JOHN DRYDEN CONFESSES

That the Policy With Respect to Extinction of San Jose Scale Was a Dismal Failure.

TO LEAVE LAKES TO SPORTSMEN

Is a Question That the Ontario Government is Now Considering—Deputations See Premier.

The afternoon was taken up at the Legislature yesterday with answers by Ministers to questions by members. The most important was a confession by Hon. John Dryden, Minister of Agriculture, that the Government's policy with respect to the extinction of the San Jose Scale had been a disastrous failure, sacrificing the orchards of fruit growers for the general good practically without effect. This statement was called forth by Mr. Jessop, who stated that fruit growers complained to him that, while their orchards and those of neighbors had been condemned at the same date, theirs had been cut down, while their neighbors had not been touched. This had meant a discrimination against them of thousands of dollars.

Could Not Tell.

Hon. Mr. Dryden said that he could not tell how this occurred. It must have been accidental. When the attempt was made to stamp out the infection by destroying orchards, it was supposed that it was in only a few places. It has been found that it has spread to a hundred localities, and it would cost half a million dollars to pay the partial compensation for the destruction of the affected trees. It was now proposed to educate fruit growers so that the trees might be systematically treated, and to take energetic measures at the nurseries. If infected fruit were sent abroad the result might be disastrous to the Canadian export fruit trade.

Hon. Mr. Latchford stated that the Government were considering the adoption of a policy similar to that of the Quebec Government, for leasing comparatively remote lakes to sporting clubs.

Premier Ross consented to an order by Col. Matheson for a return of the audits of the arbitrators between the Dominion and Ontario since 1892. Col. Matheson said that it would show that instead of the province only owing the Dominion $1,800,000 there was an additional $400 for various charges.

Hon. Mr. Gibson said that it was not the intention of the Government to recognize the claim of George O. Hays as the discoverer of gold in Hastings County.

A letter from the judge of the County of Lincoln was read by the Attorney-General, in which he repudiated certain aspersions reported in The Niagara Falls Record as made by him upon two eminent judges.

Bills Over Till Monday.

Mr. S. Russell was to have introduced his bill for proportional representation, but Premier Ross suggested that all bills go over until Monday, which was a welcome suggestion to the members, who wanted to catch outgoing trains.

Report Incorrect.

Mr. Whitney rose on a question of privilege, and called attention to an editorial in The News, in which he was quoted as holding the view that aid to the University would not indirectly benefit the whole school system. He said this report was manifestly incorrect.

Notices of Motion.

The Attorney-General: Bill to amend the Trustees' Investment Act.

Mr. Duff: Enquiry of Ministry: When were the commissioners sent by the Government to Michigan to investigate the result of the beet sugar industry, appointed? How long were they engaged in that work? In what way were they paid, and how much did each one receive for his services?

Mr. Richardson: Bill to amend the Municipal Act.

Bill Not Explicit.

The Sisters of St. Joseph, of Hamilton Diocese, bill was passed as technically correct by the Private Bills Committee, but the City of Belleville Waterworks bill was not considered sufficiently explicit in the preamble, and will be amended.

R. McCallum, Government engineer, reports the Central Ontario Railway Company has completed 140 miles of road to 1½ miles from Bancroft, Hastings County. It will add another 40 miles this spring, making a connection with Whitby.

Latest From Orillia.

Smallpox is now reported from 26 centres. The latest is the case of a commercial traveler at Orillia.

A deputation representing the New Ontario Colonization Railway Company waited on the Government yesterday morning. It included Messrs G. G. S. Lindsey, K.C., John Drynan, W. B. Hamilton, ex-Ald. Thomas Davies, Charles Caldwell, William Membry, and D. A. Jones, Toronto; J. V. Teetzel, K.C., ex-Ald. James Dixon, Hamilton, and others.

Mr. Lindsey said the road would not interfere in any way with the road which the Government proposed building from North Bay to Lake Temiscaming. They were asking for a charter and for aid to build a line from Sudbury north to Fort Matachewan, 100 miles, thence 60 miles farther to Abittibi, and from there the road would go northwesterly to Lake St. Joseph, about 500 miles, or to James Bay, 140 miles. The engineering difficulties would be very great, and they asked for a cash bonus and also a land grant. The latter they were prepared to accept in sections remote from the railway.

In reply to the Premier, Mr. Lindsey said the company were prepared within reasonable limits to bind themselves to take in so many settlers per year. They had plenty of capital, and were prepared to go on as soon as they got aid from the Government.

Mr. Teetzel said the line would be of great assistance in the transportation of nickel ore from beds located by the Nickel Steel Company of Hamilton to the latter's smelters. It would also bring the trade to Ontario instead of to Montreal.

Liked it Generally.

Premier Ross said he liked the scheme in a general way, and declared that what the Government wanted was to prevent our trade running away from us. "We are working," he continued, "and hope to be able to build ourselves a railway from North Bay into the Temiscaming country. Unless some better scheme comes up in the next two weeks, I think we will make a move in that direction.' Mr. Ross said he did not think they would be inclined to give a land grant, unless there was pretty good security given for settlement of the country. He saw, however, no objection to the granting of a charter. The matter of bonus would be considered later.

Blacksmiths' Backache.

Dr. Pitcher's Backache Kidney Tablets Cure This Serious Trouble.

There is hardly a blacksmith in Canada who does not know what backache means—the stabbing pain, the sore, lame, stiff back that makes work misery.

Mr. Thomas Leonard, the well-known blacksmith of Port Hope, was troubled as thousands are, and gladly tells of his cure in the following words:

"My life work as a blacksmith has been a hard one, and my back and kidneys bothered me for a long time. I tried many medicines without relief, until I got a box of Dr. Pitcher's Backache Kidney Tablets from R. Deyell, the druggist. Since then I have had comfort, and am able to work with ease. I am sure those who use your medicine for backache, kidney, bladder or liver troubles, will never regret it. They are so easy to take, and yet work so well."

Dr. Pitcher's Backache Kidney Tablets cure so well that you'd be wasting money to experiment with anything else. Price 50 cents a box at all druggists. The Dr. Zina Pitcher Co., Toronto, Ont.

Meriden, Conn., April 19, 1900.

The Dr. Archambault Co.:

Gentlemen,—Yours to hand, and in reply I wish to thank you for sending me those Vital Sparks Free. It is almost two months ago since I received them, and I am sorry I have not written you before. The reason I did not write is I thought I would wait and see how I got along. I will tell you what they have done for me in as few words as possible. You remember that I told you at the time I wrote you for the Paris Vital Sparks that I wanted them for a serious bladder trouble. I am pleased to say they have done me a world of good. I took one three times a day for two weeks steady, and the second day I felt considerable relief, as I did not have to make water so often in the day, and, not only that, but I felt much stronger and more manly. I kept on improving, and at the end of two weeks I had only to pass water once in the night, and that is something I have not done in two years. I am improving all the time, and have taken a little over one-half of the Vital Sparks, and I can safely say they are just what you represent them to be. I recommend them to all that I see that are troubled with their kidneys or bladder. I used to pass water six or eight times in the night and every two hours in the day. Now I can go as long as five hours at a time. I have slept better and more natural since taking your Paris Vital Sparks, and I also feel stronger and better, and I would advise everyone to try them, and they will say as I can say, they are the best I have ever taken. Should you wish to publish this you can do so, as I am not afraid of giving credit where credit is due. Should I require any more Vital Sparks I will send for them. Thanking you for your kindness to me and for the benefit I have received from your free box of Paris Vital Sparks, I remain, very truly,

(Signed) ALFRED NASH.

DIEHL WILL FIGHT THE BILL.

Mayor and Other City Officials of Pittsburg Legislated Out of Office.

Pittsburg, March 1.—The Pittsburg Ripper bill, which was passed yesterday in the Legislature, will be fought vigorously by the present city officers of Pittsburg and Allegheny, who, under the provisions of the new act, are legislated out of office.

In a signed statement, Mayor William J. Diehl of this city says he will retain his position as Mayor of Pittsburg until the highest courts declare otherwise. Without the seal of Pittsburg no municipal acts are legal, and he asserts that he will keep the seal until the Supreme Court of the United States decides that he has no right to use it. The battle ground, he says, will be in the courts, and not in the City Hall, as a seat in his office will not vest the new recorder with the rights to be the city's executive.

Artists' Exhibition.

This afternoon at 2 o'clock the Ontario Society of Artists will open their 29th annual exhibition at the Art School, 165 West King-street. The exhibit has continued to improve, and this year it has made a further advance in regard to the style and subjects of pictures. The membership also has steadily increased, and the society is in a very flourishing condition in every respect. This year the number of pictures exhibited is smaller than formerly on account of the society raising the standard of the work to be exhibited, and also because of the rejection of all small pictures and all work bordering on sketching. The pictures were subjected to a critical examination, and each one was chosen on account of some special point being brought out particularly, with the consequent result that the exhibit abounds with the best in each department, of which there are three. In the first room there will be the oil paintings and sculpture, and in the second the water colors. In both sections of pictures there is a pleasing variety in subjects and in color, in the latter regard ranging from the most brilliant coloring to the most subdued and gloomy. In regard to position the allotments of place have been well chosen, with a view to the best results. The groups are arranged so as not to detract from the beauty of any one work, and there are no harsh contrasts; and while there are a large number of pictures, one is struck by the natural positions and utter lack of the sensation of crowding. The different departments of work are under the headings of portraits, figure subjects, landscapes and animals.

MORGAN'S TRUST BLOCKED

Steel and Wire Magnate Gates May Kill the Proposed Giant Monopoly.

HAS ONLY CARNEGIE COMPANY YET.

Does Not Know if He Can Get Steel Stocks Bargained For.

New York, March 1.—The Journal says: Standing red faced and angry in his office and thumping his desk with his fists, Mr. J. Pierpont Morgan said yesterday to a Journal reporter, in reference to his great iron and steel combination:

"How do you suppose I know whether I can get these stocks or not?"

Mr. Morgan was violently agitated. He strode up and down the floor like a mad man. He started for one of the many doors to his office, and was met by a visitor. He rushed to another and was met by a messenger boy. He went to a third and was faced by his lawyer, Mr. Francis Lynde Stetson.

The gist of the entire steel combination lies in Mr. Morgan's remark. He does not know whether he can get the steel stocks he is bargaining for or not.

Mr. John W. Gates is the man who stands in his way.

In short, a bitter war is threatened between the American Steel and Wire Company and the new steel trust, which J. Pierpont Morgan is trying to organize.

As outlined by this newspaper day by day during the past week the schemes of Mr. Morgan and his associates have proceeded but little further than the paper on which they have been written.

There have been paper figures and paper profits, paper buying and paper selling, and more than anything else, there have been paper promises upon which the United States Steel Corporation has been formally incorporated with a capitalization of $3,000,000. Agreements have been reached, but as yet nothing except the Carnegie Company has been actually bought or sold.

Whether or not Mr. Morgan succeeds in setting his gigantic steel deal afloat depends in a great measure upon Mr. John W. Gates and the American Steel and Wire Company.

Between Mr. Gates and Mr. Morgan there is a disagreement which virtually amounts to hostility regarding the price at which the American Steel and Wire Company is to be acquired by the Morgan trust.

Gates stands at present like a steel Horatius at the bridge over which Morgan must pass before he can complete his combination.

London, Mar. 1.—The continuous decline in Scotch pig iron prices, having reached a ruinous level, is said to be the result of the formation of the steel trust in the United States. It is claimed that the makers are alarmed at the prospects.

TROUBLE IN BLACK REPUBLIC.

War Vessel Sent to Porto Plata, San Domingo, for Reinforcements and Artillery.

New York, March 1.—A special cable to The Herald from Porto Plata, Santo Domingo, says:

The Santo Domingo Minister of War, who is at Monte Cristo, has sent a war vessel to this port for reinforcements and artillery, which are to be sent to the frontier territory, in which the recent disturbances occurred. It is announced that the Government will send 6000 men to the front.

Complications are said to be growing, and it is feared that friendly arrangements of the boundary dispute cannot be made.

Foreign consuls here to-day offered their services with subjects to guard the city in case of necessity. Patriotic sentiment is at the highest pitch.

MONEY IN OLD CLOTHES.

Chicago Ragman Bought $3760 Along With a Parcel for Only Eleven Cents.

Chicago, March 1.—The identity of a rag dealer, who for 11 cents secured a bundle of old clothes containing $3670 belonging to the aged Mrs. Mary Conley, 4013 Armour-avenue, apparently has been discovered. It is thought he is now aboard a steamer bound for Germany and that recovery of the money is doubtful.

Canada's Great Thorobred Sale.

The sale of thoroughbreds to be held at Grand's Repository on Tuesday, the 12th inst., is attracting attention from both United States and Canadian breeders and farmers. Consignments are to be offered from the stables of N. Dyment, Robert Davies, Joseph Duggan, F. M. Ware and Major Dent, and it is safe to say a better lot were never offered in this country. There are 35 horses catalogued, including half a dozen stallions of high class and superior conformation. Catalogues can now be had from the auctioneer, Mr. Walter Harland Smith.

An Important Auction Sale.

Messrs. Charles M. Henderson & Co. have been favored with instructions from the Toronto General Trusts Corporation, trustees of the estate of the late Sir Frank Smith, to sell the household furniture, residence and other properties at the residence, No. 102 East Bloor-street, on Tuesday, March 19.

"PERFECT BREAD BAKING"

WE STUDY BAKING...

That's our business. Other men have studied medicine, law, etc., but our efforts have always been directed into making a loaf of bread that will make people happy. Poor bread will give a man indigestion. Indigestion makes men cranky, so in making good bread for the people we are doing a humanitarian act.

Weston's Bread

No matter what kind you buy, is always made with the greatest care. The very finest wheat made in our own and the leading Canadian mills is used. In the bakery every facility for the turnout of huge quantities of bread is utilized. The best bakers in Toronto paid 15% more than other firms pay, are expert in the manufacture of the best bread.

Don't think you have tried the best unless you have eaten Weston's.

THE LAST CABINET MEETING.

Members of President McKinley's Administration All Tendered Their Resignations.

Washington, March 1.—At the Cabinet meeting to-day, the last under this Presidential term, all of the members presented to the President their resignations, to take effect upon the qualification of their successors. Attorney-General Griggs, who is the only member who has decided not to remain during the coming four years, was among the number, but his renomination will go to the Senate with the others on Tuesday. He will not serve longer, however, than about April 1, when, it is now believed, Mr. Philander C. Knox of Pittsburg will receive the appointment.

The Cabinet to-day talked over the Cuban situation, and Secretary Root read telegrams from Gen. Wood to the effect that, in his opinion, the Cubans would soon become convinced that the action of Congress in fixing the relations which should exist between Cuba and the United States was for their interest as well as the Americans, and would accept them without serious objection.

The Cabinet discussed the action of the Senate with respect to the treaties now pending in that body, and general regret was expressed at their impending failure.

CATARRH OF THE STOMACH

COMMONLY MISTAKEN FOR DYSPEPSIA

Why Ordinary Doctors and Patent Remedies Fail.

When catarrh has been allowed to run along for any length of time, there is a dropping in the back part of the throat. This poisoned mucus is hawked up and spit out during the daytime. But at night during sleep it is swallowed into the stomach, thus poisoning the mucous lining of that organ, and producing symptoms so very like indigestion or dyspepsia that the doctor usually takes it for such, and treats it with the usual routine of pepsin, pancreating acids, alkalis, soda, etc. The result, of course, is failure, never any better than temporary relief produced. The following are the symptoms of catarrh of the stomach:

SYMPTOMS OF CATARRH OF THE STOMACH.

Do you belch up gas?
Is your tongue coated?
Are your bowels irregular?
Do you suffer from nausea?
Are you drowsy after meals?
Is your flesh soft and flabby?
Do you suffer with headache?
Do you feel bloated after eating?
Have you rumbling in your bowels?
Have you palpitation of the heart?
Do you feel languid in the morning?
Do you have pain just after eating?
Have you pain in pit of stomach?
Do you have chilly and then hot flashes?
Do you have a desire for improper food?
Is there a sour or a sweet taste in the mouth?
Is there a gnawing sensation in stomach?
Do you feel as if you had lead in stomach?
Do you feel faint when stomach is empty?
Do you see specks floating before your eyes?
Have you feeling of emptiness in morning?
Have you a burning in back part of throat called heartburn?

If you have some of the above symptoms, mark them and send them to the Doctor. He will tell you what to do to be PERMANENTLY CURED, and what the proper treatment would cost. He makes no charge for diagnosis or advice. Address DR. SPROULE, B.A. (English Catarrh Specialist, Graduate Dublin University, formerly Surgeon Royal British Naval Service), 7 to 13 Doane-street, Boston.

CONSUMPTION IS CURABLE.

Remarkable Recovery of Geo. Young, Formerly Employed By Kilgour Bros.

HE WAS SICK FOR TWO YEARS.

Five Physicians Gave Him Up to Die—Cured By Condensed Oxygen—Solemn Declarations Bearing on the Case Made By George Young, P.M., Mrs. Young and Several Prominent Residents at Roach's Point.

George Young is a son of the postmaster of Roach's Point, Francis Young, Esq. Some two years ago, while in the employ of Kilgour Bros., paper box manufacturers, Toronto, he was operated on for appendicitis by Dr. Herbert Bruce of Toronto. He completely recovered from the operation, but his vitality was very low, and he finally contracted consumption. His physician advised him to give up his position, and he returned home. For a year and a half he battled bravely with the dread disease, and his fond parents did everything in their power to get him cured. He started the new condensed oxygen treatment in the fall of 1900, and from the very first began to get well.

Affidavits or solemn declarations were recently made out to substantiate the statement made by Mr. Young.

George Young's Solemn Declaration

Dominion of Canada, Province of Ontario, to wit:

In the matter of the cure of George Young of Roach's Point, Ontario.

I, George Young, of the Township of North Gwillimbury, in the County of York, gentleman,

Do solemnly declare that

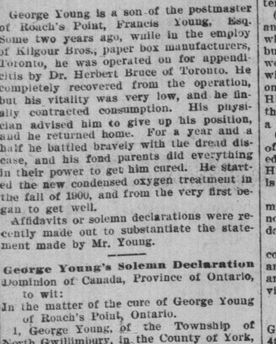

(1) I reside at Roach's Point in the said Township of North Gwillimbury, and am of the age of twenty-four years.

(2) During the year of 1898 and for about four years previous I was employed with Messrs. Kilgour Bros., paper manufacturers, of Toronto.

(3) In the fall of 1898 I was attacked with appendicitis and underwent an operation at St. Michael's Hospital in Toronto for the same.

(4) Some time after the said operation I resumed work at Messrs. Kilgour's, but my health began to decline, and about the middle of March, 1899, under advice of my physician, who informed me that I had lung trouble, I resigned my position and went to my father's residence at Roach's Point.

(5) From the last mentioned date to the present, I have continued to reside there, and up to November last, although having the benefit of treatment from different physicians, and having taken almost every known remedy for lung trouble, among others, cod liver oil, both inwardly and by outward application, and also creosote to the extent of one hundred and eight drops in twenty-four hours, my health continued to gradually grow worse. I lost in weight, and my cough grew very aggravated, in spite of all efforts to the contrary. Owing to the severity of my cough and growing weakness, I gradually became unable to get my sleep, and the expectoration became so frequent that I was forced to keep a receptacle on both sides of my bed. I was almost on the verge of giving up all hope, my strength was gone, my weight was reduced to about one hundred and ten pounds, when in November, 1900, I heard something of the wonderful curative powers of Powley's Liquified Ozone.

George Young of Roach's Point.

At this time my stomach was completely upset, refusing to assimilate and digest my food. For a period of two months I had literally been out of my father's house, and felt barely able to crawl around. I was fearful of taking to bed, knowing that in all probability I would never be about again.

I procured a bottle of Ozone about November the 8th last, and began taking it immediately. Three days after I commenced taking the Ozone I became very weak and ill at the stomach and remained in bed almost all day, but the next morning I could hardly contain myself till breakfast was announced, and for the first time in four months I was able to take breakfast with the other members of the family.

I continued the Ozone and began to feel myself a new man. On the first of December last, my weight was one hundred and nineteen pounds; on the twenty-first, my weight was one hundred and twenty-nine and one-half pounds, and on the nineteenth of January my weight was one hundred and thirty-eight pounds, and now I weigh one hundred and forty-two and one-half pounds.

Before taking half a bottle of Ozone I found my cough decreasing and began to be able to get my regular sleep. After taking about three bottles, I was able to go to bed in the evening and sleep the whole night through, while previous to that I was forced to keep myself propped up with pillows in order to sleep at all. My cough has gradually grown less, and I am not bothered at all with it now.

I am now feeling in splendid health, strong, and able to do anything or go anywhere, having taken long walks, and enjoyed hours of skating on Lake Simcoe.

And I make this solemn declaration conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath, and by virtue of the Canada Evidence Act, 1893.

GEORGE YOUNG.

Francis Young, P.M., Makes Statement.

Dominion of Canada, Province of Ontario, to wit:

In the matter of the cure of George Young.

I, Francis Young, of the Township of North Gwillimbury, in the County of York, postmaster,

Do solemnly declare that

(1) I have resided at Roach's Point for a period of twenty-seven years, and have been postmaster there for nine years.

(2) My son, George Young, was employed with Messrs. Kilgour Brothers for a number of years, and in the spring of 1899 came home from Toronto, having been advised by his physician to leave off working, owing to the condition of his lungs.

(3) Every known remedy was used by my son, but without permanent relief, and we finally came to the conclusion that it was only a matter of time, and abandoned all hope.

(4) However, he began using Ozone, and I do not hesitate to say that it is to this he owes his life. His improvement has been rapid and permanent, and he is now in splendid health, sleeping and eating as well as before his illness. To me it seems nothing short of a miracle to find my son alive and well to-day.

And I make this solemn declaration conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath, and by virtue of the Canada Evidence Act, 1893.

FRANCIS YOUNG.

Mrs. Young's Declaration.

Dominion of Canada, Province of Ontario, to wit:

In the matter of the cure of George Young.

I, Elizabeth Young, of the Township of North Gwillimbury, in the County of York, Do solemnly declare that

(1) I am the mother of George Young.

(2) My said son came home from Toronto in the spring of 1899, having been directed by his physician to quit work, owing to the state of his lungs.

(3) For a period of a year and a half the health of my said son continued to grow worse, and the physician said to me, "He can't get better; it is merely a matter of time."

(4) I persevered using one remedy after another, and every means and medicine which could be suggested was referred to, but without avail, and he grew worse and worse. He was unable to sleep at nights without being propped up in bed, and then only for a very short period at a time. His cough became very distressing, and the expectoration was very profuse and of a most offensive character.

(5) Very shortly after beginning the use of Ozone he began to improve. He recovered his appetite and became able to sleep. His strength came to him, and to-day he is enjoying splendid health.

(6) After commencing the use of Ozone my son quit all other medicines, and I do not hesitate to say that my son's life to-day is due to the use of Ozone.

And I make this solemn declaration conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath, and by virtue of the Canada Evidence Act, 1893.

ELIZABETH YOUNG.

What His Sister Says.

"When George was taken ill first I called on the doctor who had examined him, and he gave me to understand that his lungs were affected and that he could not live a year. He gradually sank, until we all gave up hope, until one day he was recommended to try Powley's Liquified Ozone, which he did, and to our great joy it has effected a permanent cure. I consider it a miracle, and hope that other sufferers will give it a trial."

He Did Not Think He Could Live.

Dominion of Canada, Province of Ontario, to wit:

In the matter of the cure of George Young.

I, Walter Sheppard, of the Township of North Gwillimbury, in the County of York, farmer,

Do solemnly declare that

(1) I have been a resident near Roach's Point for a number of years, and am well acquainted with George Young.

(2) Mr. Young was so ill and weak that he was hardly able to walk about his father's premises, and at one time I had no hope of his recovery.

(3) The improvement in Mr. Young's case has been something wonderful, and I never saw him looking in a more promising condition than at present.

And I make this solemn declaration conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath, and by virtue of the Canada Evidence Act, 1893.

The Stage Driver Says.

Dominion of Canada, Province of Ontario, to wit:

In the matter of the cure of George Young.

I, David Hamilton, of the Township of North Gwillimbury, in the County of York, farmer and stage driver,

DO SOLEMNLY DECLARE THAT

(1) I have known George Young and his parents for a number of years, and I know them as reputable people and worthy of all credence.

(2) I have known George Young, and a few months ago he was in such a low condition that I had no hope of his life, and did not believe he would be living in a short time.

(3) I have seen George Young quite frequently of late, and I can only say that the improvement in his condition is beyond belief, unless I had actual knowledge of the facts.

And I make this solemn declaration, conscientiously believed it to be true, and knowing it is of the same force and effect as if made under oath, and by virtue of the Canada Evidence Act, 1893.

Dominion of Canada, Province of Ontario, to wit:

In the matter of the cure of George Young.

I, Jesse Kaake, of the Township of North Gwillimbury, in the County of York, manager of the St. Lawrence Summer Resort,

DO SOLEMNLY DECLARE THAT

I have known George Young and his parents for a number of years, and they are people of good reputation and very worthy in every respect.

I have been very much interested in the case of George Young, and have carefully noticed the improvement in his case.

A few months ago the said George Young was in such a debilitated condition and suffering from such a severe cough that I did not think it was possible for him to survive any time. I have watched particularly the improvement in George Young's health since the time when he began to use Ozone, and I can say that the improvement is of a most wonderful character, and George Young is to-day well and strong and in a condition of health which I had no hope he would ever enjoy again.

And I make this solemn declaration, conscientiously believing it to be true, and knowing that it is of the same force and effect as if made under oath, and by virtue of the Canada Evidence Act, 1893.

Makes Deep Impression.

This makes the second cure of lung trouble made by Powley's Liquified Ozone in the Sutton district. The wonderful effect of the condensed oxygen on diseased lungs is creating great interest. Powley's Liquified Ozone is condensed oxygen; it builds the system and creates a healthy condition of the blood and tissues in which disease germs cannot live. Its antiseptic qualities stop the coughing almost immediately, and in that way show that the Ozone is able to stop the attack of the bacilli very quickly. This case and that of William McKay of Sutton West, baggageman on the Midland division of the G.T.R., who was cured of lung trouble, have made a tremendously deep impression on the people of Ontario, particularly those whose lungs are at all affected. They prove that Powley's Liquified Ozone is probably the most effective preparation with which to fight the white plague known to science.

Powley's Liquified Ozone is within the reach of all. It is only 50c and $1.00 a bottle at all druggists.

The Ozone Company, at their offices, 48 Colborne-street, this city, are receiving a great number of enquiries for their literature. If you write them they will send you booklet on "The Great White Plague," and "The New System of Curing Disease," free of charge. Your communication will be strictly confidential and will receive prompt attention.

Mr. Young will answer any question regarding his cure. His address is George Young, Roach's Point.

MINES AND MINING STOCKS

Montreal Bank and the Le Roi Mine —How the Former Has Helped the Latter Out.

A NEW NICKEL MINING TOWN.

Crow's Nest Pass Coal Company's Annual Meeting—Sales of Mining Stocks.

The annual meeting of the Crow's Nest Pass Coal Company was held yesterday afternoon in this city. A full report of the proceedings will be published in Monday's World.

New Mining Town in Algoma.

Dr. Ludwig Mond of Brenner & Mond, owners of big chemical works in London, Eng., has invented an economical process for refining nickel. Negotiations for its sale at $20,000,000 to the Canadian Copper Company having fallen thru, Dr. Mond decided to go into mining on his own account. Consequently we have the Mond Nickel Company, capital £600,000, and the new town of Victoria Mines, in the Township of Denison, on the "Soo" line C.P.R., 23 miles southwest from Sudbury. Heterogeneous, unsubstantial towns often spring up suddenly in mining districts, but this is of a different character. The streets are regularly laid out, and there are sewers, waterworks, electric lights and substantial, even elegant, buildings. The manager's residence cost $10,000, and there is a fine club house, also a great smelting and bessemerizing plant, capable of reducing to an 80 per cent. matte 500 tons of nickel-copper ore per day. Double lines of aerial tramways run to the mines two miles distant, where there is also a colony of busy workers. Altogether a population of 1500 has gathered at Victoria Mines during the past six months, thanks to Dr. Mond's millions.

Bank of Montreal and Le Roi Mine.

The present issue of the British Columbia Mining Record contains the following interesting comment on the valuable connection of Canada's greatest bank with British Columbia's greatest mine:

The present satisfactory condition of the Le Roi mine is due entirely to the fostering care of a Canadian banking institution known as the Bank of Montreal, and all its troubles due to the incomprehensible business methods of the people of London who controlled the shares. The Bank of Montreal seems to have recognized a duty to Canada's greatest productive mine, and unquestionably, had it not been for the Bank of Montreal, it would have shared the disrepute into which the controlling group in London has fallen. The money to acquire the interest of the minority stockholders and thus extricate the company from the legal mess in which it found itself was sprovided by the Bank of Montreal. The money for the purchase of the extra quarter interest in the smelter was found by the Bank of Montreal. The money for the enlarged development of the mine and for the enlargement of smelter was found by the Bank of Montreal. Finally the output of the mine, from the moment it left the mine, was taken over by the Bank of Montreal, and sold for the benefit of the company. This course of action has been profitable to the Bank of Montreal, advantageous to the mining industry, and highly creditable to Canadian financial enterprise and foresight, but it reflects no honor on the men who extracted $5,000,000 from the pockets of English investors upon representations which they would have been utterly and absolutely unable to carry out, without the assistance of a colonial financial institution. What would have happened had there been no Canadian bank sufficiently powerful to come to the rescue? It is hard to say. It is fortunate that there was one. When we consider the position of the mine, as revealed in the directors' report, there are many grounds for congratulation. The time covered by the report is from incorporation up to June 30, 1900. There is a balance at the credit of profit and loss account of £93,369 08 2d, out of which £50,000 were distributed in a 5 per cent. dividend. The profits of the mine have been devoted to recoup the Bank of Montreal for its advances on capital account, and if the statement made at the meeting is reliable the account is now about even. That is to say, a five-compartment shaft has been sunk 900 feet and equipped with the necessary hoisting machinery, a quarter interest in the smelter has been purchased at a cost of $300,000, the smelter itself has been doubled in capacity, and the cost of these enormously expensive improvements has been concurrently redeemed out of ore sold, and $250,000 distributed as profits in a period of roughly two years. Very few mines in the world could possibly have endured such a strain without at least being completely gutted of their ore reserves. The Le Roi, on the contrary, has more abundant ore reserves than ever; in fact, these colossal expenditures were incurred apparently to permit the handling of the great overplus of ore continually being developed. It is sincerely to be hoped that no British Columbia mine will ever again be expected to pay dividends on $5,000,000, and at the same time provide its own development capital. It is not a fair demand to make on the resources of any country. Very few mines could possibly have responded to it. And many a good mine has been hopelessly wrecked by just such methods of exploitation.

INDIAN DESPERADO KILLED.

Was Under Arrest for Murder, But Mob Would Not Wait for the Law.

Holdenville, I.T., March 1.—Johnson Miller, a full blood Creek Indian, was shot to death yesterday by a body of masked men. Miller was under arrest for murder. Early the night before the officer, fearing trouble, secretly conveyed the prisoner some miles out of town and lodged at the farm house of Robert Stewart. Soon after midnight about forty armed and masked men forced an entrance into the house, disarmed the guards and began shooting at the prisoner at short range. He escaped from the house by jumping thru a screen door, and fled across the yard, leaping a four-foot picket fence and running 300 yards before he was overtaken and his body filled with lead.

Miller was a desperado and had committed three cold-blooded murders within six months, besides numerous robberies.

LAKE ENGINEERS' STRIKE.

The Movement Has Extended to Chicago and Union Men Quit Work.

Chicago, March 1.—The strike of the National Association of Marine Engineers against the Lake Carriers' Association was inaugurated in Chicago yesterday, when between 20 and 30 members of the union engaged in fitting out vessels stopped work. None of them will be permitted to return, and no work will be done on any of the vessels, say the Carriers, until a settlement shall have been reached.

Jubilee Singers on Sunday.

Thousands may be expected to attend the meeting of the Canadian Temperance League in Massey Hall on Sunday (to-morrow) to see and hear Father George Zurcher, the heroic priest of Buffalo. Father Zurcher has suffered much persecution for his strong adherence to principle and as an apostle of total abstinence and prohibition. The service will be further interesting because of the special song service to be given by the Canadian Jubilee Singers. Ald. Joseph Oliver will occupy the chair.

"the magazine that grows better every month"

When the first number of THE LADIES' MAGAZINE made its appearance we often heard the remark, "Yes, that is a very fine paper, if you can keep it up." Well, we have more than kept it up. Every number shows improvement away beyond our own expectations. The March issue, now at your bookseller's, is, in our opinion, the most entertaining and interesting number ever published in Canada. Get a copy and prove to yourself that an up-to-date, high-class Canadian woman's paper is possible. Nearly every page illustrated.

Some especially good things in March issue are: Types of Canadian Beauty, The New Spring Hats, Stylish Shirt Waists for next season, Plans for a Moderate-priced Suburban House. The Personal Side of Queen Victoria, Queen Alexandra, Successful Women's Literary Clubs, The Mission of Household Economics, Dainty Easter Gifts, Village Life of the Doukhobortsi, What Women are Doing, Songs of the Cradle, Accessories of a Baby's Outfit, Books and Book People, The Domestic Realm, Short Stories, etc. The names of hundreds of Canada's cultured women are being added each month to our list of subscribers. By subscribing now you receive three celebrated pictures as a premium. Order direct or through your newsdealer. **One dollar** a year. Liberal cash commission to agents.

CANADIAN LYNCHED DOWN SOUTH.

John Knox Was the Victim and the Crime Was Committed in Spite of Officers.

New Orleans, La., March 1.—Governor Longino will make a determined effort to bring to justice members of the mob who lynched John Knox, a Canadian, at Scranton, Miss., on Wednesday. When informed that a lynching was probable, the Governor telegraphed to the sheriff of Jackson County, in which Scranton is situated, to summon a posse to protect the prisoner and uphold the law. He received soon after a telegram from the sheriff, announcing that it was impossible to check the mob, and that Knox had been lynched.

Governor Longino has telegraphed to have affidavits made against those implicated in the lynching, and asked Judge Wood, the circuit judge of the district, to hold a preliminary examination at once. He has also requested prominent citizens in Jackson County to sustain the authorities in enforcing the law.

A Smallpox Shock.

North Bay Dispatch: A young Englishman by the name of Leonard, who was on his way to Kingston, en route to England, stopped at Renfrew on Monday of last week. It was found that he had been on the C.P.R. train on which was a smallpox case. The Board of Health immediately got after him and another passenger named James Bailey. Not having a place to isolate the two, the Board of Health called for tenders for the building of a 12x12 feet emergency hospital; cost $47.50. The building was completed next day, and the men are having 14 days' enforced holidays.

BUY AND SELL ALL MINING STOCKS ON COMMISSION.

Production and smelter returns tell the story of success or failure. Before Le Roi, War Eagle and Centre Star passed from their original owners, only picked ore went to the smelters. The "run of mine" is so much lower in value, freight and treatment, rates now form the crux of the situation, and War Eagle is in both. Rarer, but it does not necessarily follow that it will remain there. Over all the mining districts, conditions have changed. The period of inflation has passed, and not many now think that $1 in gold is equal to $2 in the bear metals. With added experience there is earnest work and an honest effort to put the mines on a paying basis, and the future is fairly hopeful. At Sudbury there will be a minimum output of 600,000 tons, sufficient in value to put this district ahead of the Klondike. And the deposits are lasting. Igneous ejections never fail in depth, and when Niagara is running dry there will be mines of nickel and copper on the north shore of Lake Huron.

Send for particulars as to our nickel Development Company and our circular on mining stocks in general.

SWIFT JUSTICE IN ILLINOIS.

Albert Shenkle Was Hustled to Court, Received Sentence and Was Hustled to Prison.

Carrollton, Ill., March 1.—Guarded by four companies of State militia to protect him from a mob determined on lynching, Albert Shenkle, who on Dec. 23 last criminally assaulted the 16-year-old daughter of Charles H. Giller of this place was taken from the county jail at Springfield early to-day, placed on a special train and brought to Carrollton. Thru streets lined with silent spectators he was hurried to the Court House. An hour after the arrival of the train Shenkle had pleaded guilty, received an indeterminate sentence, and was on his way to the Southern Illinois Penitentiary at Chester.

The entire population of the town was gathered around the depot and along the streets leading to the Court House, but the troops prevented any hostile demonstration.

PERIODS OF PAIN.

How Three Women Found Relief.

While no woman is entirely free from periodical suffering, it does not seem to have been the plan of nature that woman should suffer so severely. **Lydia E. Pinkham's Vegetable Compound** is the most thorough female regulator known to medical science. It relieves the condition which produces so much discomfort and robs menstruation of its terrors.

The three letters here published should encourage every woman who suffers:

Aug. 6, 1898.

"DEAR MRS. PINKHAM:—I have suffered since the age of sixteen with painful menstruation. I have been treated for months, and was told that the womb had fallen a little. The doctor says that is now in place again, but I still have the same pain. Please tell me what to do."—MRS. EMMA KUEHL, 112 Trautman St., Brooklyn, E. D., N.Y.

Jan. 19, 1899.

"DEAR MRS. PINKHAM:—After receiving your reply to my letter of Aug. 6 I followed your kind advice, and am glad to tell you that I have been cured of the severe pain at time of menstruation through the use of Lydia E. Pinkham's Vegetable Compound. I have taken six bottles of it, felt better after the first bottle, and after a while had no more pain or womb trouble.

"I had doctored from the age of sixteen to twenty-six, and had lost all hope, but your medicine has made me well.

"I would like to have you use my testimonial, so that others may see, and be inspired with hope, and take your medicine."—MRS. EMMA KUEHL, 112 Trautman St., Brooklyn, E. D., N.Y.

Feb. 20, 1900.

"I saw your medicine so highly recommended I thought I would write to you for advice.

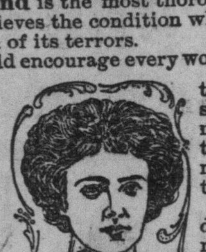

"My menstruation occurs every two weeks, lasts a week, and is painful. I have been troubled in this way for some time. I suffer from sick headache and backache all the time, appetite poor, sick at stomach every morning, everything I eat hurts me, am very weak, thin, and sallow.

"I have tried a doctor, but he did not seem to do me any good."—MISS MAGGIE POLLARD, 319 So. 4th St., Richmond, Va.

April 23, 1900.

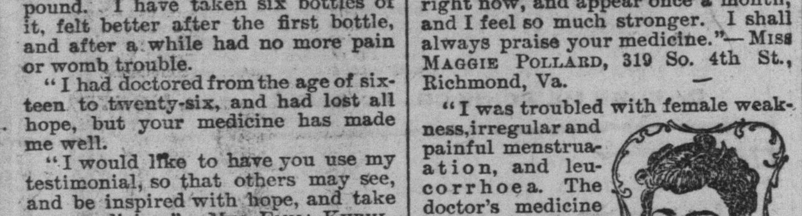

"Since receiving your answer to my letter I have been taking your Vegetable Compound, and it has done me more good than any medicine I have ever taken. My menses are all right now, and appear once a month, and I feel so much stronger. I shall always praise your medicine."—MISS MAGGIE POLLARD, 319 So. 4th St., Richmond, Va.

"I was troubled with female weakness, irregular and painful menstruation, and leucorrhoea. The doctor's medicine did me no good. I have taken one bottle and a half of your Vegetable Compound, and thanks to your medicine, my pains are gone. I advise all women suffering as I have to use your Vegetable Compound."—EMMA J. PRIBBLE, Indianola, Ill.

If there is anything about your case about which you would like special advice, write freely to Mrs. Pinkham. No man will see your letter. She can surely help you, for no person in America has such a wide experience in treating female ills as she has had. She has helped hundreds of thousands of women back to health. Her address is Lynn, Mass., and her advice is free. You are very foolish if you do not accept her kind invitation.

$5000 REWARD.—We have deposited with the National City Bank of Lynn, $5000, which will be paid to any person who can find that the above testimonial letters are not genuine, or were published before obtaining the writer's special permission. LYDIA E. PINKHAM MEDICINE CO.

Queen Victoria's long reign was rich in measures devised for the welfare and protection of children, says The Lancet. Until it began, practically nothing had been attempted for their good. Trade practice was harsh and unscrupulous without restraint, and public opinion was ignorant or indifferent. Even the law was blindly callous in its rigor, so that we are amazed to find terrible penalties recorded against the petty thefts of mere children. Every measure on the statute book, which is intended to protect the rights of children, has come into being within the Victorian era. Factory children, children employed in mines, in brickyards, in chimneys, in agricultural gangs, on canals, on the high seas, pauper children, street beggars and hawkers, acrobats, children in pantomimes, criminal children, all found in their Queen a friend as ready as powerful to help them. The last great act of this series and the crown of her endeavors on behalf of suffering childhood was the comprehensive measure passed in 1889. It grappled with two evils—cruelty practised upon children under whatever conditions, and the corruption of their morals. So great an assault upon the enemies of childhood might well succeed the process of sap and mine by which the same foes had been steadily weakened during 50 years. Its success has been its justification, tho not its only one. There are proofs to show that the operation of this act has accomplished much, not only for the welfare of children, but for the reformation and happiness of their parents also. It has brought into the dreamy indefinite ethics of the late nineteenth century something of "grit" and practical resolution. The national foot has gone down on abuses in our very homes, because they were scandalous abuses which no so-called "liberty of the subject" could excuse.

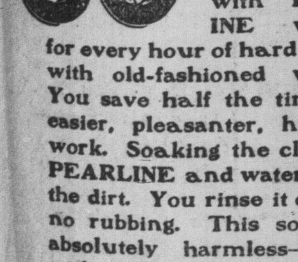

Did you know that your liking for a certain color arises out of your character or temperament? So says one who has been making a study of the matter. She contends that not only one's character is expressed in the color most affected, but also that colors themselves have an inherent meaning of their own. Blue has been declared by artists to be the most beautiful color in the world. Blue means, says my authority, not only beauty, but also truth, faith and all the greater virtues. Grey, the color of the dove's plumage, has long been accepted as the badge of Quaker propriety. In all its shades, from silvery pearl to the deeper colorings, it is quiet and rarely discordant, lending a gentle refined atmosphere to its wearer. Scarlet in all its deeper shades is the wickedest of colors, the very rogue of the rainbow. It flaunts its badness, and as the color culturists say, sounds loud, brazen and defiant as a clanging bell. It is the color of sin and war. While it has its place in a soldier's uniform, it is difficult to understand it in a cardinal's robe. As it lightens to rose, it refines in sentiment, and, reaching the pink shades, it typifies cheerfulness, hope, youth, joy—all that is brightest in life. Violet is one of the most exquisitely picturesque and interesting of colors, poetic, tender, dreamy as the blossom from which it derives its name. Green, long regarded as the emblem of jealousy, has come to mean, since it is the color of returning spring, hope, rejuvenation and eternity. Yellow means light, spirit, action, while black is the color of sorrow, and white the color of brides, babes and death. Brown, again, follows grey for demureness of expression, and to those versed in colors and the many shades of colors, the various shades of any of these colors has each a separate significance.

The London Bookman tells an amusing story which those who have heard fond mammas expatiating on their children's genius will appreciate. Once after Mr. Kernahan had reported unfavorably upon a manuscript the author's mother called to see him. She began by saying that he was clearly incompetent for the post he held, inasmuch as no one who was not either grossly incompetent or grossly ignorant could fail to recognize the genius of her son's work. Her belief was that he had refused the story solely from jealousy. "You are yourself an author, or call yourself one," she said, "and, of course, wish to strangle at birth anything that threatens to eclipse your own wretched work. My firm belief is that when next you publish a rubbishy little book, with a big sounding title, I shall find all my son's beautiful thoughts dished up in your own miserable language." Then she went on on another tack. "Mr. Balfour," she said, "is much interested in my son's career. I have several times seen Mr. Balfour upon the subject of my son's future, and I assure you Mr. Balfour would be truly grateful to anyone who would take my son by the hand."

"I felt that I understood Mr. Balfour's feelings," commented Mr. Kernahan. "If that good lady had any claim upon the distinguished statesman and went to see him often, and in the spirit in which she came to see me, I could well believe that Mr. Balfour would be more than grateful to anyone who would take her and her precious son off his hands."

The prettiest of the new foulards are generally satin-finished and printed with floral designs. Laces are combined with them invariably, but heavy thread patterns give way to the lighter imitations of Machlin and French laces. The form in which this trimming is to be applied is that of the long popular entre-deux, in plain or undulated bands, measuring from two to ten inches wide. White and black lace combinations are equally popular, but the invariable characteristic of the new foulards is a colored ground, with white figures upon it, a feature which is repeated in the cotton prints, organdies and grenadines. A trimming for garments of foulard, and one that is sure to be popular, is the single-face velvet ribbon from two to four inches wide, set on with a single line of stitching at the extreme top edge of the band. A few costumes are shown with velvet bands of graded sizes about the skirt.

The new leather belts are almost universally of round form, and make no concession to the advocates of the "dip" front. The prettiest have rows of stitching that cause the outer surface to be slightly corrugated. Leather and velvet are also combined, the latter laid in a single band in the middle of the wider leather belt, and stitched on both edges. Two or three rows of narrow velvet are banded in similar manner on belts that measure one and a half inches wide. Frequently the ends of the velvet ribbon are continued to varying lengths beyond the end of the belt, and are tipped with long gilt spikes. The most novel of such belts are finished with rosets of velvet ribbon formed of loops an inch or more long, below which fall from six to ten strands of the same ribbon, each finished with a gilt drop or spike. Whether few or many of these strands are shown, their length is from 15 to 20 inches. The same idea of drop trimming, but carried out in ribbon, is also applied to stock collars, that are finished with full rosets, and from five to seven pendent strands. These pretty ornaments are known as L'Aiglon, and tho a prominent feature of the shops for a month or more their possibilities are still being developed with a view to combining the rosets or pom-poms with the light wool spring gowns.

Minutes of soak and rinse with PEARLINE washing, for every hour of hard rubbing with old-fashioned washing. You save half the time. It's easier, pleasanter, healthier work. Soaking the clothes in PEARLINE and water loosens the dirt. You rinse it out with no rubbing. This soaking is absolutely harmless—not so with most soap-soaking. 629

COLLEGE AT HOME.

A Brilliant Gathering of the Students and Ex-Students of the British American Business College.

It was a most enjoyable company that gathered within the college walls of the British American Business College in the Y.M.C.A. Building, last night, at the annual at home of this old-established and very successful college. All the large class rooms of the college were thrown open to the students and ex-students, principal, teachers and friends of the college, Mr. David Hoskins, C.A., the popular principal, was untiring in his efforts to give all possible interest to the gathering. An attractive musical and literary program, consisting of some ten numbers, was carried thru, including musical selections by Miss Frederick, Miss Vancamp, Miss Davidson and Miss Gilby, Mr. Hood and Mr. Jackson, and also the Glee Club of the college, and readings by Miss Stephenson. Brief addresses were delivered by the principal, Mr. Hoskins, C. R. McCullough of Hamilton, secretary-treasurer of the newly organized Federated Business Colleges of Ontario; J. W. Westervelt of London, president of the Federated Colleges; William Brooks of Galt, and A. W. Young of Berlin. Refreshments were served from 10 to 11.30 o'clock, and a most interesting and enjoyable evening thruout was spent by young and old—students, teachers and visitors.

So rapidly does lung irritation spread and deepen that often in a few weeks a simple cough culminates in tubercular consumption. Give heed to a cough; there is always danger in delay; get a bottle of Bickle's Anti-Consumptive Syrup and cure yourself. It is a medicine unsurpassed for all throat and lung troubles. It is compounded from several herbs, each one of which stands at the head of the list as exerting a wonderful influence in curing consumption and all lung diseases.

HER HUSBAND WAS A DRUNKARD

A Lady Who Cures Her Husband of His Drinking Habits Writes of Her Struggle to Save Her Home.

A PATHETIC LETTER.

"I had for a long time been thinking of trying the Tasteless Samaria Prescription treatment on my husband for his drinking habits, but I was afraid he would discover that I was giving him medicine, and the thought unnerved me. I hesitated for nearly a week, but one day when he came home very much intoxicated and his week's salary nearly all spent, I threw off all fear and determined to make an effort to save our home from the ruin I saw coming, at all hazards. I sent for your Tasteless Samaria Prescription, and put it in his coffee as directed next morning and watched and prayed for the result. At noon I gave him more and also at supper. He never suspected a thing, and I then boldly kept right on giving it regularly, as I had discovered something that set every nerve in my my body tingling with hope and happiness, and I could see a bright future spread out before me—a peaceful, happy home, a share in the good things of life, an attentive, loving husband, comforts, and everything else dear to a woman's heart; for my husband had told me that whiskey was vile stuff and he was taking a dislike to it. It was only too true, for before I had given him the full course he had stopped drinking altogether, but I kept giving him the medicine till it was gone, and then sent for another lot, to have on hand if he should relapse, as he had done from promises before. He never has and I am writing you this letter to tell you how thankful I am. I honestly believe it will cure the worst cases."

FREE SAMPLE and pamphlet giving full particulars, testimonials, and price sent in plain, sealed envelope. Correspondence sacredly confidential. Address THE SAMARIA REMEDY CO., 23 Jordan street, Toronto, Canada.

AN EMPIRE BUILDER.

Mr. A. L. Jones, President of Messrs. Elder-Dempster and Company.

Mr. Alfred Lewis Jones is an empire builder. The British Trade Review says:

The mere recital of his commercial undertakings would indicate him at once as a man of action, and, what is more important, a man of prescience. Activity, alertness and real smartness—not the superficial thing which is so often understood by that term to-day—are essential qualities in all creators and leaders of great business concerns; but there is another thing necessary when certain great enterprises, whose ramifications are world-wide and whose interests have very far-reaching effects, have to be launched, and that is prescience, the intuition, or gift, of "seeing a thing thru" rather than "muddling thru," which is usually the alternative adopted by those who are deficient of the all-important quality to which we refer.

Mr. Jones is not only the presiding genius but the animating and sustaining spirit of that great factor in the world's mercantile marine known as Elder, Dempster & Co. of Liverpool, Bristol, London, Hamburg, Canada, the United States, Africa, etc. The period of prosperity covered by this vast undertaking—the last 20 years—has been memorable for many developments in the life and progress of the Empire, but in no department has it been more conspicuous than in the tenacity with which Great Britain has held her own in her supremacy of maritime affairs in commerce. It is not too much to say that the Elder, Dempster Line has played an important part in contributing to this happy result, and the personal element which has been responsible for the initiative in building up this line, and in thus bringing the colonies and other sources of supply nearer and still nearer to the consumer in the Motherland, has been Mr. Jones.

One of the latest movements on the part of Messrs. Elder, Dempster & Co. is in connection with the new service which starts this month between Bristol and the West Indies. Its official title is "The Imperial Direct West Indian Mail Service." At one time it looked very much as if the West Indies had resolved upon giving up the contest of industrial existence. The sugar industry failed them, and they seemed to think that because they could no longer see a remunerative price for their staple article they had nothing else to do but to submit to inevitable bankruptcy. This feeling did not characterize all West Indians, of course, but it is true of them for the most part. What they wanted was Government assistance, and, altho it is may be doubted whether such measures are the wisest, the Colonial Secretary was so impressed with the desire of the colonists to retrieve their position that a comparatively small grant was made. But this was not done until it became evident that the leading planters had resolved to help themselves and their islands by turning their attention to other fields of activity. It was gradually borne in upon the West Indies that they could raise crops other than sugar; that, being enriched with all the advantages of tropical agriculture, they ought to be able to make the lead in supplying Great Britain and even Europe with abundant supplies of the choicest of fruits at a price that was bound to ensure a rapid and extensive sale. But how was this perishable class of goods to be marketed? The islands have nothing to boast of in steamer services, and how could the planters hope to feed the British markets if they had no means of sending regular supplies, so that they reached their destination in the best of condition? Here began the story of the latest achievement of the Elder, Dempster Company. In an incredibly short space of time this company, thru Mr. Jones, instituted negotiations with the Bristol corporation, the West Indian Government authorities and the Colonial Office, with the result, as we all know to-day, that there is to sail regularly between Bristol and Kingston a service of steamers which is second to none in the world. A brand-new fleet has been put into being expressly for this work, and no expense has been spared by the company to perform its part of the contract in a way that shall ensure success, if the other conditions necessary for that success are maintained by the other parties equally.

The growth of the Elder, Dempster Line in Canada is well known to us all and highly appreciated by Montreal citizens especially, and there are many other phases of Mr. Jones' activity which have resulted in marvelous developments on the west coast of Africa and elsewhere. His firm runs two lines of royal mail steamers from Liverpool to the west coast of Africa, the names of the two lines being the British and African Steam Navigation Company, Limited, and the African Steamship Company. It is also pretty generally known that the house of Elder, Dempster & Co. has extensive business interests in the grand Canary Islands, among these being a big holding in a coal and iron company at Las Palmas by Mr. Jones, who is thus able to supply most of the ocean-going steamers which pass that way with "bunkers."—Copied from The Montreal Daily Witness, Saturday, Feb. 23, 1901.

ROSS GOVERNMENT ROASTED.

Single Taxers Strongly Condemn the Action of Granting Land to Soldiers.

The regular meeting of the Executive Committee of the Single Tax Association was held Thursday night. Reports of the Johnston lecture were received, and arrangements were completed for the lecture by Herbert S. Byton on March 29.

The following resolution was then passed unanimously, and the secretary instructed to forward a copy of the same to the Hon. Mr. Ross:

"Resolved, that the action of the Ontario Government in making land grants to the members of the Canadian contingents as a reward for their patriotic services in South Africa is strongly condemned, inasmuch as, under the guise of generosity, they are given what is of little use to them and at the same time, by relieving them from occupation duties, and the land from taxes, settlement is retarded, and the evils of land monopoly in New Ontario are increased.

"And it is further resolved that the Government should make them a grant of money, instead of giving what is worth little at present, and what can only become valuable as the adjoining lands are settled, thus compelling the settlers, and not the Government, to reward the soldiers."

India Famine Orphan Work.

THE NEW FRENCH REMEDY

TRADE **THERAPION** MARK.

This successful and highly popular remedy, as employed in the Continental Hospitals by Ricord, Rostan, Jobert, Velpeau, and others, combines all the desiderata to be sought in a medicine of the kind and surpasses everything hitherto employed.

THERAPION No. 1 in a remarkably short time, often a few days only removes all discharges from the urinary organs, superseding injections, the use of which does irreparable harm by laying the foundation of stricture and other serious diseases.

THERAPION No. 2 for impurity of the blood, scurvy, pimples, spots, blotches, pains and swelling of the joints, secondary symptoms, gout, rheumatism, and all diseases for which it has been too much a fashion to employ mercury, sarsaparilla, &c., to the destruction of sufferers' teeth and ruin of health. This preparation purifies the whole system through the blood, and thoroughly eliminates every poisonous matter from the body.

THERAPION No. 3 for nervous exhaustion, impaired vitality, sleeplessness, and all the distressing consequences of early error, excess, residence in hot, unhealthy climates, &c. It possesses surprising power in restoring strength and vigour to the debilitated.

THERAPION is sold by all the principal Chemists and Merchants throughout the World. Price in England 2/9 & 4/6. In ordering, state which of the three numbers is required, and observe above Trade Mark, which is a fac-simile of word "THERAPION" as it appears on the Government Stamp (in white letters on a red ground) affixed to every package by order of Her Majesty's Hon. Commissioners, and without which it is a forgery.

For particulars of Therapion send addressed envelope for pamphlet to Mr. R. Johnson 43 Holford Square, London, W.C. Large edition post free for 12c stamps.

ASSESSMENT SYSTEM.

GREAT PROGRESS
—OF THE—

CHOSEN FRIENDS.

The progress made by the Canadian Order of Chosen Friends during the past four months has been most astonishing for a purely Canadian Fraternal Insurance Order, as during November the large number of 338 approved applications were received at the Head Office at Hamilton, Ont., 605 during December, 326 during January, and from present indications the month of February will give over three hundred.

This prosperous insurance society has an unbroken record of success ever since it started in the year 1887, and the year 1901 will no doubt be no exception to the rule. It has no connection whatever with any American society of a similar name, which recently failed, it is in a prosperous condition and is forging ahead so rapidly that it will soon be the leading Canadian fraternal insurance order. It now has over twenty thousand members, having taken in over three thousand during the past year, and aims to reach a membership of 25,000 before the close of the year 1901.

The Annual Meeting of this prosperous society will take place at Hamilton, Ont., on March 26th and 27th, at which meeting it is expected that over four hundred delegates will be present. The society is in a most prosperous condition and very successful in every way. Any information desired as to rates of assessment and terms to organizers can be obtained from W. F. Montague, Grand Recorder, or W. F. Campbell, Grand Organizer, Hamilton, Ont. A few good men are wanted to take up organization work in unoccupied territory. F23,M2

QUEEN'S STUDENT FLOGGED.

Reilly Refused to Obey the Mandate of the "Court," and a Fracas Followed.

Kingston, March 1.—The Arts Court of Queen's University summoned a student named Reilly, senior year in arts, to appear before it on a charge of "treason to the court," in having aided a medical student in the recent fracas. Reilly refused to obey the court's mandate, and a "sheriff's posse" were sent after him. They battered down the door in his boarding house and carried Reilly forcibly before the court. The sentence was that he should be flogged, which sentence was carried out in one of the class rooms. Reilly and his brother threaten to resign from the college and take Police Court proceedings against the members of the court.

Independent Forestry.

The High Courts of East and West Michigan held their annual sessions this week, the former at Bay City and the latter at Grand Rapids. H. A. Collins, S.T., and Dr. Millman, S.P., represented the Supreme Court at both sessions. The year's reports of the officers were of a satisfactory nature, showing the order to be making good progress thruout Michigan. Court Sherwood Forest of this city, the largest court in the jurisdiction of Central Ontario, held its regular session on Thursday evening, at which a presentation was made to the Past Chief Ranger, C. A. Stone, and the returned South African heroes, Sweeney and Wasson, each received a handsome Forestric jewel. At the close a banquet was held in the Red Room of the Temple Cafe, when about 150 sat down, the usual toasts being honored. Among those present and who spoke were John A. McGillivray, S.S.; Thomas Lawless, A.S.C.R.; G. L. Wilson, H.C.R.; Atwell Fleming, H.T.; Col. Paterson, P.H.C.R.; A. T. Hunter presided.

TO PRESS RAILWAY SUITS

Board of Works Recommend That They Be Brought on and Settled as Soon as Possible.

THE DUPONT-STREET EXTENSION

Urged by Deputation of Ratepayers, Some of Whom Also Oppose Avenue-Road Extension.

At yesterday afternoon's meeting of the Committee on Works a deputation of ratepayers residing in the vicinity of Dupont-street was present to protest against the extension of the street car line north up Avenue-road. They, however, presented a petition strongly urging the city to compel the railway company to extend their line along Dupont-street.

The committee, on motion, decided to instruct the City Solicitor to bring on as soon as possible the suit now pending in connection with this matter, as well as the several others.

To Change Street's Name.

Another deputation, composed of Messrs. Oliver, Harris, Taylor, Noble, Clinch and Ald. Urquhart, were present, and requested that the name of Lippincott-street be changed to Albany-avenue.

Gas Company's Request.

Manager W. H. Pearson of the Gas Co. asked the committee to reconsider their resolution not to give his company permission to construct an overhead bridge across Parliament-street, south of Front-street. The committee did so, and recommended that the company be given permission to erect the bridge, providing the plans met with the approval of the City Engineer.

Collection of Garbage.

The report of the sub-committee that dealt with the report on the collection of garbage by Street Commissioner Jones brought out an interesting discussion. It was pointed out what an objectionable thing it was to see old barrels and boxes of every description strewn along the streets, and a uniform receptacle for garbage was urged. The Street Commissioner said he was contemplating changing the present system. The report of the sub-committee, which recommends a tri-weekly collection of garbage, was adopted.

Ald. Foster moved that a committee be appointed, consisting of Ald. Hubbard, Russell, Sheard and the mover. All declined to act, and Ald. Foster was compelled to withdraw his motion.

Ald. Graham moved that the City Engineer be directed to notify the manager of the Toronto Railway Co. that it will not in future be allowed to store its cars on Dufferin-street, between King and Queen-streets, during Exhibition time. The motion was carried.

The applications of Messrs. William Mackenzie and Charles H. Edwards, for permission to drain into the Upper Canada College sewer, were referred back to the City Engineer.

The Engineer recommended that the proposal to close the south end of Lippincott-street be opposed, as it is now used as a storage yard. There was appointed on motion of Ald. Lamb a sub-committee, composed of Ald. Bell, Hubbard and Crane, to confer with the City Solicitor and the Engineer in regard to the matter.

The statement showing the big saving to the city by day labor met with the approval of the meeting, and the Engineer was congratulated, as was also Ald. Crane, who has made many valuable suggestions.

Police Estimates.

In forwarding the estimates for the Police Department the Chief Constable says under the heading of salaries that provision has been made for 300 men, and the chief increase is in the pay of the men added to the force in October last, also the natural increases arising by men passing from one class into another, and the men acquiring the right to good conduct badges.

The clothing account shows a slight decrease, while there is an increase of $500 for sundries. The ambulance service is increasing, the chief says, hence the extra expense. Increase in price of horse flesh, necessary repairs to vehicles and more pneumatic tires represent the difference.

In the mounted service the enhanced price of forage and the proposed purchase of 3 new horses cover most of the extra cost. In the patrol wagon service the necessary repairs, painting of street boxes, etc., will consume most of the additional appropriation.

The estimates are as follows:

	Expenditure, 1900.	Estimate, 1901.
Salaries	$221,320.45	$231,280.75
Clothing and equipment	8,725.04	8,042.50
Miscellaneous, sundries	4,536.26	5,078.00
Ambulance service	779.12	1,223.50
Mounted service	939.00	1,550.75
Patrol wagon and signal service	3,880.85	4,646.00
Van service	474.61	457.00
Total	$240,655.23	$252,278.50

T. H. Saunders, who is connected with District Assembly 180 of the Knights of Labor, has forwarded to the Mayor a copy of a resolution passed by that body, protesting against the proposal to send the twenty-four aldermen each in turn to the Pan-American Exposition. If a representative is necessary, and they think one is, he ought to be paid.

As far as can be learned there is no proposal to have the aldermen represent the city at Buffalo. Such a thing has never been suggested.

Are Well Paid.

City Commissioner Coatsworth, in the course of his investigation, has found that the maintenance staff at the City Hall are better paid than those at either the Parliament Buildings or Temple Building. He has also been informed that guards at the Toronto Jail are paid better than those in Montreal, and consequently he will not recommend any increases in their salaries.

Another Investigation.

Mr. R. H. Holmes, in the course of a letter to the Mayor, has some very interesting remarks to make about the Hudson Bay Railway Commission. The letter in part says:

"More than a year ago a statement was asked for in the Council as to what became of the $5000 that was very injudiciously, in fact illegally, given into the hands of an alleged railway commission to inquire as to the building of a line of railway from Toronto to Hudson Bay. The persons appointed on the commission knew nothing whatever of railway matters or the territory thru which the proposed railway was to run. Applications for secretary, one who knew the territory, were invited, and until such secretary was appointed the meetings of the commission were stated to be strictly private. Notwithstanding this, the person afterwards appointed secretary, who was entirely ignorant of the territory, was improperly admitted to all the secret meetings, while all other applicants were excluded and deceived. The $5000 was handed over to him, and his office was used for all subsequent meetings of the commission. The then Mayor, Mr. John Shaw, had himself added to the commission.

"No proper statement of the expenditure of that $5000 has ever yet been furnished to the city. It appears that part of the money was paid over to a firm of solicitors related to and actually connected with one of the commission, for obtaining in the name of the city a charter for a new line of railway which the City Solicitor could have obtained at any time by merely applying to the Government. It is now coolly proposed to hand this charter to some schemer or some fictitious Yankee capitalist, a scheme every taxpayer in Toronto would oppose, and which should not for a moment be countenanced by the City Council. It is doubtful if the city ever yet threw away $5000 for less value than in this instance, and there should be a full and searching investigation by the City Council as to why and how the money was expended and what amounts were paid to and for employes of the city, including the North Bay jamboree.

"The Ontario Legislature has adopted the proper course to build and control the line for the people and lease it to the G.T.R. to secure the trade of the north for Toronto. The C.P.R., of course, oppose it, as they have a line via Mattawa to the east shore of Lake Temiscaming, which practically gives Montreal the whole trade of that great northern territory and thus an unfair advantage over Toronto."

sending our name and address to Dr. W. S. Rice, Dept. K., 75 Yonge-street, Toronto, Ont., he will gladly send you the free trial at once without its costing you a cent. Julius W. Bishop of Bishop's Crossing, P. Q., says: "I am thankful to say that Dr. Rice's method cured me." Wm. Bigford of Bishop Mills, Ont., says: "It cured me of permanently of bad rupture of many years." Hundreds of others have received the same marvelous cures, and all unite in saying it is the most remarkable method ever discovered.

Do not fail to write at once for this free method, and tell your ruptured friends about it or write for them.

For the convenience of ladies who wish to call personally there is a lady attendant thoroughly versed in applying the method to women. 26

A WRITTEN JUDGMENT.

Patterson, the Alleged Grave Robber, Will Be Tried in June.

Peterboro, March 1.—Magistrate Dumble, in committing Will Patterson, a medical student, charged with opening a grave and taking therefrom the body of the late Margaret Sheehan, said:

The prisoner is charged with removing the body of Mrs. Sheehan from the Roman Catholic Cemetery.

It is objected that this is no crime in Canada, that the only crime is that made by sec. 206 of the Criminal Code, which makes one guilty of an indictable offence who "improperly or indecently interferes with or offers any indignity to any dead human body or human remains, whether buried or not."

In England there are several statutory enactments regarding dealing with dead human bodies which are not in force in this country, but it has always been an offence at common law to deal indecently with a dead human body. Now common law is that usage which has always been in vogue which is fitting and suitable to the circumstances of the country, sanctioned by the common sense and the sentiment of the people, and has, without written enactment, been sanctioned by the Court as fitting, proper and legally binding.

To bury the dead and to leave them buried is necessary and becoming, to respect the veneration of the people for their dead, and to hold a cemetery, God's acre, as sacred is characteristic of civilized as well as uncivilized people, and to do so by interfering with or removing the dead has under the common law of England ever been cognizable in a criminal court as being highly indecent and contra bonos mores.

The criminal law of England passes with English people into all the colonies where the conditions for its application are not incongruous. Our conditions are such that it would be monstrous to hold that laws of health and decency should not here prevail. I hold that the sense of decency and the sentiment of our people will assume the existence in this country of a law which will prevent the interference with the dead.

Our statutory law does provide that bodies of the friendless or of persons dying in charitable institutions not claimed by relatives or bons fide friends shall be, under the direction of the Inspector of Anatomy, delivered to the medical colleges, but in this case no such condition exists.

I think that which was a common law offence, based upon decency, has been converted by section 168 of the Criminal Code into a statutory enactment, broad enough in language to cover this case, and that the use of the language used in an English indictment under the common law was not required, but as the language of the information herein only specifically sets out the fact which, in the language of the Code, would be an indignity to a dead body" or an "indecent interference" with it, it is the information sufficient.

It is clearly proved that Margaret Sheehan was buried on the 18th of February, and that on the 20th of February her body was found in a trunk in possession of the prisoner, and the grave was empty.

I think, in the absence of any evidence to the contrary, I must conclude that the prisoner removed the body from the cemetery unlawfully, that his treatment of it was an offence both at common law and under the Code.

I commit him for trial at the next sittings of the Court of General Sessions of the Peace for the County of Peterborough. Bail for his appearance at the trial, himself in $1000 and two sureties in $500 each, may be taken.

The case will be heard by His Honor Judge Weller at the Sessions here in June.

Negro Lynched by Whitecaps.

Burroughs, Pa., March 1.—Last night John Moody, colored, was shot and hanged until dead by whitecaps in the country near here. At the same time another negro was beaten so severely that he may die. So far as can be learned, the trouble arose from the fact that the negroes had run away from contract labor after having got into debt.

NURSING-AT-HOME MISSION.

Encouraging Reports Presented at the Annual Meeting Held Yesterday Afternoon.

Glowing reports of the past year's work were presented at the fourteenth annual meeting yesterday afternoon of the Nursing-at-Home Branch of the Toronto Mission Union, held in the Y.M.C.A. Mayor Howland presided, and nearly 200 members and friends of the mission were present. After religious exercises by Rev. Alex McMillan of St. Enoch's Church, Mr. Henry O'Brien read the president's address, in the unavoidable absence of Mrs. Sutherland Stayner. The address pointed out the work carried on by the mission and the necessity of more suitable accommodation at the home on Hayter-street. In order to care for the consumptive patients, the president urged that a sanitarium be established. The address also urged that missionaries go out among the Italians, Jews and other foreign elements in Toronto, and preach the Gospel. According to the treasurer's statement, the receipts of the past year were $1,661.60, and expenditure $1,631.72, leaving a balance on hand of $29.88. The sum of $88.90 was received in offerings from patients. The report of the secretary gave the number of patients attended to during the year as 591. In all, the nurses made 5577 visits, and worked under 140 doctors. In the dispensary 3163 patients were attended to.

The following officers were selected: President, Mrs. J. Lorne Brodie; vice-presidents, Mrs. Sutherland Stayner, Mrs. S. C. Duncan-Clark; secretary, Mrs. Donald C. Edwards; treasurer, Miss Margaret Burns; Board of Management, Lady Gzowski, Mrs. Jarvis, Mrs. Benjamin Merton, Mrs. Kilgour, Mrs. John Kerr, Mrs. Wechey, Mrs. Lindsey, Mrs. Hunter-Brown, Mrs. Alderson, Miss Goldstone; physicians, Drs. J. Stenhouse, Cruickshanks, D. W. McPherson, Porter, J. C. McIlwraiths and Presail.

Short addresses were made by Mayor Howland, Rev. Alex McMillan, Dr. Stenhouse, Dr. Barrick, Dr. Scott, Mr. Thompson and Mr. Gzowski.

Information.

Commercial tea must be regarded as an artificial production. A certain degree of artificial heat, of manipulation, and induced chemical changes are the agents which develop the flavor and aroma of the tea leaf. And the nature of man's treatment and manipulation determines in large measure not only the desired flavor, but the distinguishing character of the tea, its rank as a green or a black, both of which may be evolved by a skilful manipulation from the same bush, at the same time.

Much has been said in contention upon this latter assertion, and books may be quoted upon either side of the question, but we make the statement without qualifications and upon unquestionable authority.

ROSS HIGH-GRADE TEA is without exception the only pure Ceylon on the market to-day. If your grocer does not keep it, send your name and address on a postal card and we will give you the name of one who does. Get the 25 cent package for greatest economy.

Kidnapping Will Mean Death.

Chicago, March 1.—A special to The Record from Austin, Texas, says: The State Senate yesterday passed finally the bill making kidnapping a capital offence. The bill will go immediately to the House, where it will probably be passed without opposition.

MAKES MEN STRONG.

The weak man does not live who cannot be made a better man by wearing my *Electric Belt.* None of us are perfect, and anything that will add more to such vitality as we may have will make us better. It is hard for a weak man to have noble sentiments. Such things are born of warm blood, healthy nerves and a strong heart.

Dr. McLAUGHLIN'S ELECTRIC BELT

Makes men strong; it causes the nerves to tingle with the joyful exhilaration of youth; it fills the heart with a feeling of gladness, makes everything look bright, and makes the nerves like bars of steel. Give me a man broken down from indiscretions or excesses—one who has lost the very essence of manhood—and I will make him feel like a youth of twenty within a month. How? you ask. Simply by pumping a vital stream of electricity into his body in the right way while he sleeps. It arouses all the dormant energies, develops muscular and nerve life and restores the feeling of youth, courage and manhood. It makes men over again. It makes perfect men of the puniest, weakest specimens of "half men."

Any man or woman who will secure me can have my appliance and pay when cured.

Are you sick? Are you a Weak Man? Are you tired of doctoring and paying out money without result? Then come to me or write to me. I AM THE ONLY MAN IN THE WORLD WHO HAS CONFIDENCE ENOUGH IN HIS REMEDY TO WAIT FOR HIS PAY UNTIL YOU ARE CURED. I know what my Belt will do, and as you do not you can try it first, and I will wait for my pay until you are cured. I have cured 50,000 people in the last twenty years, and though my Belt can't cure every case I am willing to stand the loss where it fails. So come and try it now. You have nothing to lose.

CAUTION. Beware of the old-style, burning electrode belts, which are using an imitation of my cushion electrodes. My office contains hundreds of these old belts, discarded as useless and dangerous by persons whose bodies have been seared and scarred by the bare metal electrodes. I will make special terms to anyone having one of these old back-burners. A FREE TEST TO ALL WHO CALL. Send for descriptive book to-day.

TWIN CITY WAS A FEATURE

Advanced on St. Paul Buying on Yesterday's Boards.

Canadian General Electrics, Richelieu and Ontario and Toronto Railway Are Active and Strong—The Wall Street Market.

World Office,
Friday Evening, March 1.

Twin City has been a feature in stocks to-day, selling up to 69½ in New York and to 69⅝ in Toronto. Buying orders have come from St. Paul on the heavy and increasing earnings of the system. General Electrics are higher. Richelieu and Toronto Railway continue active and strong.

The earnings of the Twin City Rapid Transit Company for the third week of February, 1901, were $54,440, being an increase of $5101 over the same period of last year.

• • •

Cables from London to-day quoted Grand Trunk first pref. at 92⅞, second pref. at 65⅞, and third pref. at 23¼; Anaconda at £9⅜.

• • •

According to R. G. Dun & Co. the aggregate bank clearings in the Dominion for the past week, with the usual comparisons, are as follows:

	1901. Feb. 28.	1900. Mar. 1.
Montreal	$12,858,652	$11,905,741
Toronto	11,145,956	8,400,544
Winnipeg	1,745,816	1,536,313
Halifax	1,903,998	1,307,725
Hamilton	658,032	656,166
St John	611,308	527,446
Vancouver	621,795	681,905
Victoria	394,128	....
Total	$29,939,785	$25,015,849

According to R. G. Dun & Co. the business failures in Canada the past week totalled 31, against 37 the previous week and 28 the corresponding week of 1900. By provinces the week's failures were: Ontario 13, Quebec 11, New Brunswick 1, Manitoba and British Columbia each 3, Nova Scotia and Prince Edward Island each nil.

Notes by Cable.

Consols sold ex-interest to-day on a basis of ⅛ to 3-16 higher than yesterday.

American rails in London declined to-day.

Rand mines in London to-day 42⅜.

Bar silver in London to-day 28 3-16d per ounce.

On Wall Street.

Pressure was relaxed against the steel stocks in to-day's market and Tin scored unequal recoveries. National ube was the most affected, with a rally of 3½ and Steel and Wire is about 2 points higher. Other members of the group gained between 1 and 2 points. There was a marked decline in speculative interest in this department of the stock market, incident to the completion of the proces of adjustment of prices to the conditions disclosed early in the week of the steel merger. Until this condition in the Steel Stock had been fairly disclosed there was more or less heaviness in the general market. The realizing in St. Paul on the stock privileges carried it down a point. But it was well supported at that level and later scored a full recovery.

After the turn in the market had set in there were large buying movements developed in a number of individual stocks or allied groups of stocks. This was most notable amongst the Gould Southwesterns, including Missouri Pacific and St. Louis Westerns, the Missouri Kansas and Texas stocks and the Wabash. The extreme advances here ran from 1 to 2¾, the latter in Missouri Pacific and 2½ in St. Louis Southwestern, preferred. There was active demand for Sugar all day at an extreme advance of 4¼. There were in addition good gains made by a number of stocks not usually prominent in the trading, such as the American Linseed Oil stocks, International Power, the Cleveland Loraine and Wheeling stocks, the Toledo, St. Louis and Western stocks, Evansville and Terre Haute, the Chicago Terminal Transfer stocks and Texas Land Trust, in which the advances ranged from 1 to 4 points. Notwithstanding the advantage of this very considerable show of strength in special stocks, the condition of the general market remained quite apathetic and made only sluggishly upward in sympathy with the general market. The continued ease of the money market detracts from any apprehension over to-morrow's bank statement, which is expected to show a decline in cash reserve, owing to the absorption of over $3,000,000 by the sub-treasury this week. Money still moves towards New York from the interior, altho New York exchange at Chicago has declined steadily to 7 per cent discount. The London money market relaxed to-day with the release of funds tied up by month and requirements and sterling exchange here eased off in response.

J. J. Dixon has the following this evening from Ladenburg, Thalmann & Co., New York:

The opening of to-day's market was fractionally lower and irregular in tone and the movement of the first half hour made it almost impossible to guess the movement of the balance of the day. St. Paul was particularly heavy and opened with a loss of about one point, which, however, it soon recovered without moving much either way thereafter. After the first hour the market showed a better tone and some gains were recorded under the leadership of Norfolk & Western, which scored a sharp advance, thereby helping most of the other roads. Business was on a much smaller scale, but the supply of stocks did not seem to be pressing on the market. In the afternoon railroad stocks again took the lead and it was particularly the Southern Railway issues and those of the St. Louis Southwestern and St. Louis & San Francisco roads which appeared to be most wanted. In industrials Sugar showed the widest range of fluctuations, opening with a gain of over a point, which it held during the forenoon and adding to it in the late trading. Steel stocks were less active, but in general scored good advances. Tractions were quiet. London was not a factor in our market. Demand sterling 4.87¼ to 4.87½.

London Money Market.

London, March 1.—Money was easier today and the demand slackened, tho it was good, owing to consols and the settlement payments.

Business on the Stock Exchange was irregular. Operators were disappointed at the fact that there was no confirmation of the reported surrender of General Botha. Consols were lower. Home rails improved. Among the foreigners, Peruvians were the chief attraction. Americans were dull. They opened below parity, declined further, recovered somewhat and closed steady, with little doing. Trunk lines were slightly better. Anacondas were harder. Kaffirs reacted slightly on profit-taking.

Money, 4 to 5 per cent. Rate of discount in the open market for short bills, 3¾ per cent., and for three months' bills, 3¾ to 3⅞ per cent.

Gold premiums are quoted as follows: Buenos Ayres, 128.90; Madrid, 36.65; Lisbon, 42; Rome, 5.42¼.

The Bank Clearings.

New York, March 1.—The bank clearings in the principal cities of the United States for the week ended Feb. 28, as compiled by Bradstreet's, show a total of $1,747,233,240, an increase of 18 per cent., compared with the corresponding week of last year. Outside of New York thetotal is $622,857,920, a decrease of 7.7 per cent.

Cotton Markets.

New York, March 1.—Cotton—Futures opened steady; March 8.85, April 8.88, May 8.93, June 8.91, July 8.93, Aug. 8.39, Sept. 8.17, Oct. 7.96, Nov. 7.87, Dec. 7.84 bid.

New York, March 1.—Cotton—Futures closed steady; March 8.83, April 8.82, May 8.85, June 8.83, July 8.85, Aug. 8.47, Sept. 8.11, Oct. 7.89, Nov. 7.79, Dec. 7.78.

New York, March 1.—Cotton—Spot closed dull; middling uplands 9 3-16; middling gulf 9 7-16; sales, 2930 bales.

Professor Cody's Lecture.

This lecture, which was postponed from last month, will be delivered this afternoon at 3 o'clock, in the Chemical Building of the University, on the subject of "Rome, To-day and Yesterday." The topic is an interesting one, and doubtless will be ably handled by the popular professor of Wycliffe College.

Piles To prove to you that Dr. Chase's Ointment is a certain and absolute cure for each and every form of itching, bleeding and protruding piles, the manufacturers have guaranteed it. See testimonials in the daily press and ask your neighbors what they think of it. You can use it and get your money back if not cured. 60c a box, at all dealers or EDMANSON, BATES & Co., Toronto.

GRAIN CABLES ARE QUIET

Lower Quotations From Paris on Wheat and Grain.

Chicago Wheat Lower and Chicago Corn Higher—Argentine Crops and Shipments—Local Grain and Produce.

World Office,
Friday Evening, March 1.

Liverpool wheat and maize futures about unchanged to-day. Paris wheat and flour weak and lower for futures.

Chicago wheat futures declined ⅜c and corn futures advanced ¼c per bushel to-day.

Argentine wheat shipments the past week 1,264,000 bushels, against 2,984,000 bushels the corresponding week of 1900. Maize shipments 136,000 bushels.

Receipts of wheat at Minneapolis and Duluth to-day 317 cars, as against 541 cars the corresponding day of last year.

Stocks of wheat at Liverpool 165,000 centals; maize, 920,000 centals; flour, 92,000 sacks.

Receipts of wheat at Liverpool the past three days were 340,000 centals, including 322,000 centals of American. Corn, same time, 367,000 centals.

The Argentine visible supply of wheat increased 550,000 bushels for the week. Corn increased 230,000 bushels.

Primary receipts of wheat to-day 576,000, against 528,000 bushels last year. Shipments 206,000, as against 95,000 bushels last year. Export clearances to-day 376,000 bushels, as against 181,000 bushels a year ago.

Liverpool wheat stocks, 165,000 centals; maize, 920,000 centals; flour, 92,000 sacks.

The following are the stocks of breadstuffs and provisions in Liverpool: Flour, 92,000 sacks; wheat, 1,865,000 centals; corn, 920,000 centals; bacon, 17,300 boxes; hams, 6400 boxes.

Light on the Argentine Wheat Crop.

Argentina Cor. Orange Judd Farmer.

The difficulties in the way of securing correct data as to crop production in a new country of scattered settlement, where the farming population is of a race alien to the rulers of the country and naturally suspicious of government, are almost insurmountable. Practically one can rely only upon the results of personal observation, as information secured at second hand is too fragmentary to be of positive value. During the past six weeks I have visited the principal wheat districts in every part of Argentina, and as a result am convinced that the popular local opinion in the grain trade as to the size of the crop is wholly incorrect. The general consensus of opinion as gathered from the trade in Buenos Ayres and Rosario favors an estimate of a crop some 35 per cent. smaller than last year, with an export surplus of about 1,200,000 tons of wheat, against 2,000,000 tons from the preceding crop. Basing the opinion on personal observation, I believe that the shortage will not exceed 15 per cent., with an export surplus of perhaps 1,750,000 tons. The error of local observers is failure to recognize the full extent of the acreage increase in the so-called southern district, that tributary to the port of Bahia Blanca. Heretofore the result in the provinces of Santa Fe and the north part of Buenos Ayres has governed the size of the crop, but this year there is an increased acreage in the southern district of fully 1,000,000 acres, with every promise of a record-breaking rate of yield, a condition which serves materially to offset the admitted deficiency in the older districts. Last year Bahia Blanca exported 200,000 tons of wheat; this year the shipment will double this figure.

New York Produce Market.

New York, March 1.—Flour—Receipts, 18,883 barrels; exports, 5513 barrels; sales, 6000 packages; dull but steady at old prices. Rye flour quiet. Buckwheat flour dull, $2.10 to $2.15. Cornmeal—Steady. Rye—Quiet. Barley—Dull. Barley Malt—Dull.

Wheat—Receipts, 44,100 bushels; exports, 24,152 bushels; sales, 2,345,000 bushels futures, 168,000 bushels spot. Spot dull and easier; No. 2 red, 80c, f.o.b., afloat; No. 2 red, 78⅛c, elevator; No. 1 Northern Duluth, 87c, f.o.b., afloat; No. 1 hard Duluth, 91⅛c, f.o.b., afloat. Options opened easy and ruled generally dull, with a weak undertone, under heavy deliveries on March contracts. For a time selling was quite active, cables being quiet, unsatisfactory and furnishing no encouragement to look for an increased foreign demand. This led to some inside selling for short account, which carried the price still lower, but the market partially recovered on the failure of the March deliveries to weaken it, it being learned that the grain had fallen into strong hands, as indicated by the reduction in the difference between March and May, which last night was 1c, and to-day was reduced to ⅝c. The market was finally a partial ⅜c net lower. March 78 13-16c to 79 3-16c, closed 79c; May 79⅛c to 80c, closed 79⅝c; July 79⅛c to 79⅝c, closed 79¼c.

Corn—Receipts, 124,500 bushels; exports, 196,362 bushels; sales, 150,000 bushels futures, 160,000 bushels spot. Spot dull; No. 2, 48c, elevator, and 47⅞c, f.o.b., afloat. Options opened firm on covering, with sellers scarce and advices from the West pointing to a smaller movement and increased speculative confidence. The market became very dull, but held firmer undertone thruout and closed ⅜c net higher. May 46⅜c to 46 11-16c, closed 46⅝c; July closed 45⅞c.

Oats—Receipts, 74,200 bushels; exports, 20,505 bushels; sales, 40,000 bushels spot. Spot steady; No. 2, 31c; No. 3, 30¾c; No. 2 white, 33c; No. 3 white, 32½c; track, mixed Western, 30½c to 32c; track, white, 32c to 36½c. Options inactive but steady.

Butter—Steady; fresh creamery, 17c to 23½c; do., factory, 11c to 13c; June creamery, 15c to 20½c; State dairy, 14c to 22c; imitation creamery, 14½c to 18c. Cheese—Firm; fancy large, colored and white, 11½c; fancy small, colored, 12¼c to 12½c; fancy small, white, 12c to 14c. Eggs—Weak; State and Pennsylvania, at mark, 17½c; Western do., 16½c to 17c; Southern do., 16c to 16½c.

Rosin—Steady. Molasses—Quiet. Pig-iron—Quiet; Northern, $14 to $16.50; Southern, $13 to $15.75. Copper—Dull; brokers, $17; exchange, $17. Lead—Dull; broker, $4; exchange, $4.37½. Tin—Dull; Straits, $26.50 to $26.75; plates market dull; spelter weak; domestic, $3.92½ to $3.97½.

Sugar—Raw steady; fair refining, 3 11-16c; centrifugal, 96 test, 4 3-16c; molasses sugar, 3 7-16c; refined, quiet.

Coffee—Spot Rio steady; No. 7 invoice, 7⅜c; mild quiet; Cordova, 8c to 12¼c.

The market for coffee futures opened steady, with prices 5 to 10 points higher on room investment support, supplemented by light foreign buying, based on comparatively small Brazilian receipts, better spot demand, belief that the bull "clique" meant to force values still higher, and talk of a decrease in interior receipts in Brazil from now on. Late in the session the market eased under profit-taking of local character. The market closed quiet, with prices unchanged to 10 points net higher. Total sales reached 32,000 bags, including May and June at $6.45, July $6.50, Aug. and Sept. $6.60, Oct. $6.60 to $6.65, Dec. $6.70.

Chicago Gossip.

J. J. Dixon has the following this evening from Chicago:

Wheat—After early strength wheat has ruled rather heavy, under selling, supposedly for account of elevator concerns and by other long interests. Bears have been active in aiding the decline by free offerings. At the decline there was somewhat better commission house support. Statistics, both from abroad and at home, have been generally favorable to holders, but cables are quite weak and cables are more considered by traders than statistics. Local sentiment bearish, but we continue to favor purchases on weak spots.

Corn—Has been firm, at one time ⅝c over Thursday and holding some of its rally in spite of the wheat weakness. The Phillips party has been a large buyer, some think a million. The selling has been mainly in the way of profit-taking, some by the wheat people. Market helped by thawing weather. Weather favorable and exportable corn surplus 74,000,000. Receipts 280 cars, with 460 for to-morrow.

Oats—Have been steady, because corn has been, but there has been little news and no pit feature. It has been hardly more than bid and asked change in the price. Receipts 203 cars, with 275 for to-morrow. Clearances 37,000 bushels.

Provisions—Opened shade easier on ribs and lard on free selling by the long interests. Local operators were the largest buyers. Cash demand is fairly good. Market closes firm at about opening price. Favor purchases on the breaks; 20,000 hogs to-morrow.

HIDES Highest prices for Skins, Tallow, Wool, etc.

Correspondence Solicited.

LOCAL LIVE STOCK.

The run of live stock at the cattle market to-day was moderately large, 56 car loads, composed of 591 cattle, 1826 hogs, 711 sheep and 15 calves.

The number of well-finished fat cattle was small in comparison with those of the unfinished class.

Notwithstanding the dulness of trade, and low prices for all interior and common cattle, there were few lots left unsold at the close of the market. Many of the drovers decided to sell, even at a loss, rather than be at the expense of holding and feeding stock on the market.

Prices for shipping as well as butchers' cattle, were about the same as they have been during the week. Messrs. Halligan & Lunness stated that they could not obtain enough of the quality of exporters they required, and had to send to Chicago for three loads.

The run of sheep and lambs was large, and trade for these was very dull, with prices lower. One dealer stated that there were more sheep and lambs on the market than would be required for the next 10 days.

Few milch cows of choice quality are coming forward, and more of this class would find ready sale at good prices. Too many of the medium and common classes are being offered, the market for such being anything but brisk. Prices remained about the same.

Too many "bobs" and skim milk veal calves are being brought in. It is a rare thing to see an old time well-fed new milk calf on the market these days, altho the prices for the latter are good.

The deliveries of hogs were fairly large, with quotations unchanged, but the prospects are for lower prices this coming week.

Export Cattle—Choice lots of export cattle are worth from $4.60 to $5 per cwt., while lights are worth $4 to $4.50.

Bulls—Heavy export bulls sold at $3.85 to $4.25 per cwt., while light export bulls sold at $3.40 to $3.60.

Butchers' Cattle—Choice picked lots of butchers' cattle, equal in quality to the best exporters, weighing 1000 to 1100 lbs. each, sold at $4.25 to $4.35.

Loads of good butchers' cattle are worth $3.40 to $3.75, and medium butchers', mixed cows, heifers and steers, $3.15 to $3.30 per cwt.

Common butchers' cows, $2.75 to $3, while inferior, rough cows and bulls sold at $2.40 to $2.60.

Heavy Feeders—Heavy steers, weighing from 1000 to 1150 lbs. each, of good breeding qualities, sold at $3.60 to $3.80 per cwt., while those of poorer quality, but same weights, sold at $3.40 to $3.60 per cwt.

Light Feeders—Steers, weighing from 800 to 900 lbs. each, sold at $3.35 to $3.50 per cwt.

Buffalo Stockers—Yearling steers, 500 to 800 lbs. each, sold at $3 to $3.25, and off colors and those of inferior quality at $2.25 to $2.50 per cwt.

Stock Bulls—Yearling bulls, 600 to 900 lbs. each, sold at $2 to $2.50 per cwt.

Milch Cows—Twelve milch cows and springers were sold at $25 to $45 each.

Calves—Fifteen calves sold at from $3 to $10.

Sheep—Deliveries, 711; prices easier, $3 to $3.30 for ewes, and $2.50 to $2.75 per cwt. for bucks.

Spring Lambs—Spring lambs, grain fed, sold at $4.25 to $4.60 per cwt. Barnyards sold at $3.50 to $4 per cwt.

Hogs—Deliveries, 1826; best select bacon hogs, not less than 160 nor more than 200 lbs. each, unfed and unwatered, off cars, sold at $6.87½ per cwt.; lights, $6.50, and fats at $6.50 per cwt.

Unculled car lots of hogs sold at $6.60 to $6.75 per cwt.

William Levack bought 50 butchers' cattle at $3.25 to $3.75 for common to good, and $4 to $4.25 for picked lots.

W. H. Dean bought 3 loads of export cattle, 1300 lbs. each, at prices ranging from $4.35 to $4.62½ per cwt.

Dunn Bros. bought one load of exporters, 1400 lbs. each, at $5 per cwt., 4 export steers, 1350 lbs. each, at $4.80; 2 export bulls, 1900 lbs. each, at $4.50 per cwt., less $2. 1 bull, 1550 lbs., at $4.35 per cwt.; 2 bulls, 1420 lbs. each, at $3.50 per cwt.

Crawford & Hunnisett bought 2 loads of exporters, mixed cows and bulls, at $3.50 to $4 per cwt.; one load of export steers, at $4.25 to $4.40, bought up in small lots and averaging 1225 lbs. each; 14 good export steers, 1260 lbs. each, at $4.60 per cwt.

W. B. Levack bought 200 lambs at $4.50 per cwt.; 75 sheep at $3.25 per cwt.; 10 calves at $8 each.

Charles Zeagman bought 50 stockers and light feeders, 600 to 950 lbs. each, at $3 to $3.40 per cwt.; one load of mixed butchers, at $3.12½ to $3.60 per cwt.

R. J. Collins bought for M. Vincent, Montreal, 22 cattle, 1010 lbs. each, at $36 per head; 20 cattle, 1050 lbs. each, at $3.50; 4 cattle, 1030 lbs. each, at $3.15, and 6 butchers' bulls, at $2.75 to $3.25 per cwt.

T. Bowes sold 20 butchers' cattle, 962 lbs. each, at $3.50 per cwt.

W. J. Scharis, Fergus, sold 20 butchers' cattle, 1100 lbs. each, at $3.90 per cwt.

Wesley Dunn bought 350 lambs at $4.35 per cwt.; 50 sheep at $3.25 per cwt., and 8 calves at $7 each.

S. Levack bought 20 butchers' cattle at $3 to $3.50 per cwt.

William Harris bought 84 cattle, principally butchers', with a few exporters mixed, at $2.75 to $4.75 per cwt; 18 calves at 5c per lb.; 5 milch cows at $32 to $40 each.

Halligan & Rountree bought 28 butchers' cattle, 1050 lbs. each, at $38 each; 20 choice butchers' cattle, 1100 lbs. each, at $4 per cwt.; 1 load of short-keep feeders, 1100 lbs. each, at $4 per cwt.; 10 exporters, 1200 lbs. each, at $4.40; 5 common butchers' cattle, 1150 lbs. each, at $2.95 per cwt.

M. Gillies of Lindsay bought a thorobred Durham bull calf, 8 months old, from George Tucker of Bosworth, for the handsome sum of $100. The calf, which is a fine specimen of its breed, was delivered to Mr. Gillies on the market to-day.

George Tucker sold 9 heifers and steers, 1035 lbs. each, at $3.80 per cwt.; 7 cows and 1 heifer, 1060 lbs. each, at $3.25 per cwt.

A drover who has never allowed his name to appear in any paper gave the following sales: 20 butchers' heifers, 1088 lbs. each, at $4 per cwt., less $5 on the lot; 8 heifers, 941 lbs. each, at $3.50 per cwt.; 3 butchers' cows, at $3 per cwt.; 15 stockers, 755 lbs. each, of choice quality and color, at $3.35; 2 stockers, at $3 per cwt., which was just $120 less than they cost him, all told.

Messrs. Whaley & McDonald will open a well-equipped office at the corner of Wellington-avenue and Niagara-street. Mr. A. W. Maybee will be the Toronto representative of this firm.

Dun's Canadian Trade Review.

At Montreal there are signs of a freer movement in lines of heavy merchandise, which have ruled quiet during the winter months, and fair shipments of heavy metals, hardware, paints, glass, oils, etc., are ordered for March, to be increased when spring freight rates come into effect April 1. Wholesalers in dry goods report continued good business, and the spring millinery openings, fixed for the 5th inst., are expected to attract a large attendance of country buyers. Country roads are again in good condition, and grocery orders show improvement. The spring demand for cements has not yet set in; British and German makers in this line are quoting higher prices for spring shipments. The linseed oil market shows quite a break, and Western dealers have reduced quotations eight cents a gallon, but local prices have only declined four cents. Turpentine is advanced three cents. Barb wire is lower, car lots being now quoted at $2.70. General collections are reported satisfactory for the season, and the failure list for the district is not large, eight insolvencies being reported for the week. The money market has undergone no special change, and the call rate continues at 4½ to 5 per cent.

Wholesale trade in Toronto is somewhat better this week. In dry goods the movement is satisfactory, and the volume for the month is thought to equal that of February last year. There is a fair demand for staple goods, which are firm in prices. Linen goods are firm, with the tendency towards a higher range in quotations. Only a moderate number of country retail merchants visited the city this week, but large numbers are expected next week, when the millinery season begins. The hardware trade is fair, and metals are steady at unchanged prices. Groceries are quiet and without feature. Sugars are unchanged. Provisions fairly active, with cured meats selling higher owing to comparatively light stocks. The high prices of hogs do not seem to warrant packers operating freely. Butter and cheese are slightly lower, with liberal receipts. Flour and wheat rule steady at about the prices of a week ago. Money is unchanged; prime commercial paper is discounted at 6 to 6½ per cent. and call loans negotiable at 5 per cent. Stock speculation fairly active with good advance in Toronto Railway, Richelieu, General Electric, Bank of Hamilton and Dominion Bank. The Bank of England discount rate is unchanged at 4 per cent., as against 4 per cent. a year ago and 3 per cent. two years ago.

The wholesale millinery opening at London this year has shown more artistic display than perhaps any previous season, the assortment being varied and the stocks comparatively large. It is stated that the business done has been quite satisfactory, and London may be congratulated on having several millinery houses who are entirely up-to-date in their stocks and mode of doing business.

Bradstreet's Trade Review.

Seasonable winter weather has made a very active wind-up for trade in most sections of the country, and wholesale trade reports at Montreal show that business firms have been feeling the good effects of that condition. The conditions of business are sound and healthy, and the prospects for trade are very encouraging. The business done so far this season for the spring and summer exceeds, perhaps, expectations indulged in earlier in the year. Retailers are ordering liberally in the expectation of a big season, and all indications point to the fact that they will not be disappointed. Country remittances are very fair. The value of staple goods continues firm. There is a good demand for money, and rates are steadily held.

At London this week there has been a fair movement in wholesale trade circles. Grain deliveries have been quite liberal owing to the good roads in the country. Retail trade is very fair for this season. Jobbers report a fair business being done for forward delivery. Prices are generally steady.

Trade at the coast cities has been fair lately. There has been rather more inquiry for goods for shipment to the northern mining country, and business for that part of the country is expected to be heavy the next few weeks. The general outlook for trade is improving somewhat. Values are generally firm for staple manufactures. Collections are not very good, but are expected to improve soon.

A very fair business is reported by travelers for Winnipeg houses who have been thru the country lately for the spring and summer trade. The retailers are looking forward to a better season than experienced last year. The orders placed so far show a conservatism on the part of traders as a result of the past year's experience, but with improved prospects they will buy freely in the months intervening before the autumn. Collections are only fair.

A very fair week's trade is reported at Hamilton. The wholesale firms report the receipt of liberal orders for the coming season and the shipments of considerable quantities of goods. Values of staple lines are firm, and owing to the strength of the foreign markets prices of imported goods are firmly held. Collections are very fair.

Toronto wholesale firms this week report a fair number of orders coming to hand. Travelers now on their routes have been sending in some nice orders for the spring and summer. Next week they will be called from their routes to help in receiving buyers expected here in large numbers to attend the spring millinery openings, and a busy week is anticipated. The wholesale trade have made large preparations, and buyers are certain to meet with the usual attractions in millinery and dry goods which in former years have made these openings such a success. Collections are fair, and next week quite an improvement in that line is looked for.

Business at Ottawa continues quite brisk. The retail firms report a well-sustained demand in various lines, and the jobbing firms are doing a nice trade and look for considerable activity the next few weeks.

At Quebec trade in wholesale dry goods circles during the past week has been somewhat quiet, altho numerous orders are reported booked for spring delivery. There is a fair demand for hardware. Groceries and provisions are in demand and prices firm. Shoe manufacturers are running full time, and general activity is noticed in that line. In the city retailers report business fairly brisk, particularly dry goods. Country remittances are reported fairly satisfactory. The outlook in shipping circles is promising. From a reliable authority we learn that contracts for upwards of 1,000,000 bushels of wheat have been made for delivery here, and further contracts are being negotiated.

Wants a Big Organ.

At the Canadian Club luncheon yesterday Mr. A. S. Vogt, conductor of the Mendelssohn Choir, spoke on the progress of music in Canada. He advocated the erection of a great town organ, worth at least $25,000, as the greatest need of the city, artistically.

Proceeds of the Opera.

The president and committee of the Ladies' Red Cross branch desire to thank Miss Rolleri and her friends for their donation of $25, being the proceeds from their very successful opera, "The Chimes of Normandy."

Miller Gets Damages.

On Sept. 1 last William Miller of 755 Yonge-street was riding his bicycle along West Bloor-street, when he was run down by a wagon belonging to John Townsend. He sued Townsend in the County Court,

COLDS, HEADACHE, CATARRH

Relieved in 10 Minutes by Dr. Agnew's Catarrhal Powder.

Rev. W. H. Main, pastor of the Baptist Emanuel Church, Buffalo, gives strong testimony for and is a firm believer in Dr. Agnew's Catarrhal Powder. He has tried many kinds of remedies without avail. "After using Dr. Agnew's Catarrhal Powder I was benefited at once," are his words. It is a wonderful remedy and will relieve any form of head pain in ten minutes and eradicate catarrh.—16.

DEBATERS WENT FAR AFIELD ON CORONATION RESOLUTION

Continued From Page 4.

taken by an infidel.

Mr. Haggart: Yes, or by a Mahometan, a Hindoo or a Buddhist, but to the extent of the oath the sovereign declares he is a Protestant, because it is an abjuration of the Catholic religion.

Mr. Haggart suggested a modification of the resolution. If that were done, the resolution would receive nearly unanimous support. [Conservative applause.]

With the Opposition.

Mr. Bourassa emphasized Mr. Haggart's point. The objection, he said, was not to any declaration that the sovereign was a Protestant, but to a useless anti-Catholic declaration. He agreed with the argument made by the leader of the Opposition.

Put Heads Together.

Hon. William Ross proposed that the leaders on both sides of the House should put their heads together and make a few gentle changes in the resolution.

Mr. Monk supported this suggestion. He had doubted the propriety of bringing such a matter into an essentially political gathering; but the leader of the Government had treated the question not as a Catholic but as a man who fully understood the liberalities of the subject. He (Mr. Monk) had been doubly gratified with the speech which the House had heard from the leader of the Opposition. He reminded the House that the right of petition was inalienable and unrestricted in any way. All British subjects enjoyed it. They could petition upon any subject whatever. He also pointed out that the oath of allegiance on the part of the subject and the oath of the sovereign formed a mutual contrast. Therefore, this was essentially a matter in which every subject had the right to petition the King.

Don't Go Too Far.

"What I desire," said Mr. Monk, "as one professing the Catholic faith, is to see eliminated from the declaration the portions which, in the language of the Prime Minister of England, are so deplorable. But we must not go too far. We should simply limit this petition to the desire which it was designed to attain. We cannot at the present time desire that the declaration should be suppressed altogether." [Hear, hear.]

Mr. Blain and Mr. Pringle continued the debate.

Leaders Should Confer.

Mr. Maclean appealed to the Prime Minister to adjourn the debate. His sympathy was entirely with the object of the member for Victoria, but he felt that the conference suggested was good, and would enable the House to place the petition in the proper form.

No One Hurt Now.

Mr. Blain objected to the bringing of this motion in a way that it could not be amended. He thought it was no business of the Canadian Parliament to meddle with the matter. If there could be pointed out to him one Canadian who suffered from the taking of this declaration he would support the resolution, but not till then.

Mr. Pringle supported the resolution as a matter of justice to Roman Catholics.

Mr. W. F. Maclean suggested an adjournment of the debate in order to have a conference with the object of removing any source of ill-feeling from the resolution.

Sir Wilfrid Laurier declined, stating that there were a number of gentlemen waiting to speak before adjournment.

Would Get a Rebuff.

Continuing, Mr. Maclean said he was in sympathy with the resolution, and he thought nothing should be said that would wound the feelings of Roman Catholics. But he thought that if we would go to the Parliament and to the King of England and ask them to change something that they regarded as an essential bulwark of the Constitution it would be a mistake, and we would, to use a vulgar expression, be promptly "turned down." What was wanted was to have the sovereign abjure the Roman Catholic religion in some way that would not be offensive to Catholics, and the best way to attain that object in a resolution would be to have the leaders on both sides and the mover confer as to its terms.

Nothing to Do With It.

Mr. Northrup took the position that this was a matter with which the Canadian Parliament had nothing to do. It reflected upon the sincerity of Mr. Costigan, that he should have brought in the resolution in a way that did not admit of amendment. The suggestion of the leader of the Opposition, to word the resolution so as to ask that all words be eliminated from the declaration that may be offensive to the religious convictions of any of His Majesty's subjects, was not heeded by Mr. Costigan, whose object seemed to be to get rid of the declaration altogether.

Dr. Sproule accused the mover of being actuated by political motives.

Resolution Amended.

After Mr. Lemieux had spoken, Sir Wilfrid Laurier said that after conference with Mr. Costigan and other members on both sides of the House he would suggest that perhaps the House would accept the resolution if it were amended by striking out the last paragraph and substituting it by the following: "That in the opinion of this House, the declaration referred to in the above-mentioned Act of Settlement should be amended by eliminating therefrom all those expressions which are especially offensive to the religious belief of any subject of the British Crown."

The Debate Continued.

The debate was continued by Mr. Lemieux, Sir Charles Hubbert Tupper, Messrs. Fowler, Osler, Oliver, Robinson, Douglas and Clarke.

Mr. Oliver opposed the resolution, and Mr. Clarke suggested that as the House was asking the amendment of the declaration, the words should be added: "So long as the distinctive Protestant character of the declaration is maintained." Unless that were done he would vote against the resolution.

Amended Resolution Carried.

The question was then put on Mr. Costigan's amended resolution, and a division being demanded, the vote was taen at half-past 1 o'clock, the resolution being carried by 125 yeas to 19 nays.

Those who voted nay were: Messrs. Oliver, Wallace, Sproule, Taylor, Wilmot, Casgrallen, Reid (Grenville), Clarke, Wilson, Roche, Alcorn, Robinson (Elgin), Sheriff, Johnston (Cardwell), Tolton, Lavell, Kidd, Blain and Lennox.

Mr. Mulock laid on the table a copy of the agreement between New South Wales and the Eastern Extension Telegraph Company.

The House adjourned at 2 a.m.

Original Motion.

Mr. Costigan's original motion was as follows:

That a humble address be presented to His Most Gracious Majesty the King, as follows:

Most Gracious Majesty, Your Majesty's most faithful and loyal subjects, the Commons of Canada, in Parliament assembled, beg leave most humbly to represent: That as a token of the civil and religious liberties and of the equality of rights guaranteed to all British subjects in the Canadian Confederation, as well as under the British constitution, the British sovereign should not be called to make any declaration offensive to the religious belief of any subject of the British Crown.

That by virtue of the Act of Settlement of 1689, the British sovereign, on the first day of the meeting of the first Parliament, or at the coronation, is called upon to make the following declaration:

"I, A. B., by the grace of God, King (or Queen) of Great Britain and Ireland, Defender of the Faith, do solemnly and sincerely, in the presence of God, profess, testify and declare that I do believe that in the sacrament of the Lord's Supper there is not any transubstantiation of the elements of bread and wine into the body and blood of Christ, at or after the consecration thereof by any person whatsoever; and that the invocation or adoration of the Virgin Mary or any other saint, and the sacrifice of the mass, as they are now used in the Church of Rome, are superstitious and idolatrous. And I do solemnly, in the presence of God, profess, testify and declare that I do make this declaration, and each and every part thereof, in the plain and ordinary sense of the words read unto me, as they are commonly understood by English Protestants, without any evasion, equivocation, or mental reservation whatsoever, and without any dispensation already granted me for this purpose by the Pope or any other authority or person whatsoever, or without any hope of any such such dispensation from any person or authority whatsoever or without thinking that I am or can be acquitted before God or man or absolved of this declaration or any part thereof, altho the Pope or any other person or persons or power whatsoever should dispense with or annul the same or declare that it was null and void from the beginning."

That such a declaration is most offensive to the dearest convictions of all Roman Catholics. That the staunch loyalty of His Majesty's Roman Catholic subjects in Canada, comprising about 45 per cent. of the entire population of the Dominion, and throut British possessions, should not be rewarded by their being chosen alone amongst believers of all creeds and branded as idolaters by their sovereign.

That in the opinion of this House the above-mentioned Act of settlement should be amended by abolishing the said declaration, and the British sovereign freed forever from the obligation of offending the religious principles of any class of his faithful subjects throut the British Empire.

You Shall Appreciate It.

How many of us know our own constitution? Not until we have ills do we appreciate good health, and while in good health the proper care is seldom taken to remain there. Our greatest enemy often lies on our own table. Too great care cannot be taken of our food. Pure ingredients constitute pure food. Then arises the question, Can we obtain pure ingredients to form our food with? If so, where can we obtain them? No better start can be made than with your milk supply; so get it pure, rich and wholesome, and you are making a good start. S. Price & Sons have adopted the method of pasteurization for their milk, a process that rids it of all germs and disagreeable flavors, making it uniform all the year round. If you have not tried pasteurized milk on your table, do so at once. Have it delivered in time for breakfast, drink a glass of it, use it at all your meals, and watch the results. It is particularly adapted to infants, invalids and delicate people. It aids digestion, and is recommend by physicians as a factor in good health. This milk is getting the appreciation it so richly deserves. Our most careful citizens are using it with good results. S. Price & Sons are the only firm in the city cleansing their milk by this process, which is retailed by them at six cents a quart, or seventeen tickets for a dollar. Place your order, and have their delivery call on you with a sample bottle. Address S. Price & Sons, dairymen, 212 and 220 East King-street, or phone 1339.

Duggan Arrested Again.

William Duggan, who says he hails from London, is under arrest at the St. Andrew's Market Station on a charge of stealing a fancy vest and a pair of tailor's shears from the store of John McRobb at 565 West Queen-street, on Thursday afternoon. Duggan was suspected of the theft, and when McRobb reported the matter to the police yesterday morning it suddenly dawned on the officers that the man had spent the previous night in No. 3 Station, charged with being drunk. When Duggan was arrested on Thursday night he had the stolen vest in his possession, and after being released disposed of the garment at a Queen-street pawn shop, where it was discovered last night by Detective Porter. Constable Newton made the arrest.

Who Has the Cat?

Magistrate Denison and Crown Attorney Curry had a consultation yesterday over an application by a citizen for a search warrant to discover his lost cat. No precedent could be found for a search warrant for a feline, and therefore none was issued.

Where Doctors do agree!—Physicians no longer consider it catering to "quackery" in recommending in practice so meritorious a remedy for Indigestion, Dyspepsia and Nervousness as South American Nervine. They realize that it is a step in advance in medical science and a sure and permanent cure for diseases of the stomach. It will cure you.—60.

YORK COUNTY AND SUBURBS

Residence of John Wray of King Was Consumed by Fire—No Insurance.

SEVERAL TRIFLING ACCIDENTS.

John Marshall Had an Exciting Time With a Fractious Horse at the Junction.

Toronto Junction, March 1.—The Humberside Club gave an at home this evening, at the residence of Mr. Birrell, Pacific-avenue.

Lakeview Lodge, No. 272, I.O.O.F., was to-night visited by a number of brethren from city lodges. Features of the evening were two addresses by W. J. Conron of Chesley Lodge and Mr. Jesse Wright.

The vital statistics for the month of February, recorded with the Town Clerk, were: Deaths 11, births 11, marriages 1.

A boy named Middleton, who resides on Pacific-avenue, whilst coasting yesterday, accidentally fractured the large bone in his leg.

Mr. J. Wilson, ledger keeper in the Molsons Bank, leaves for California shortly. He is succeeded in the bank here by Mr. Forbrook.

Trooper Scott of the Strathcona Horse is amongst those returning home. He is a son of Engineer Scott of Archibald Campbell's mill, and joined the regiment in the Northwest.

John Marshall, an old gentleman residing on Ossington-avenue, whilst holding the reins for Mr. Wills, who was in a store near the corner of Keele and Dundas-street this afternoon, thought he could keep the colt in good humor by driving it about. A load of manure was standing near the corner, and, as he turned around, a street car on the "Y" backed up. He tried to drive between the wagon and the car; but the colt refused to go forward thru the narrow opening. Eventually it turned the buggy upside down, with John Marshall underneath. It then ran away, and the crowd which was standing around the corner turned their attention to recovering the horse. The horse was stopped near the Occidental Hotel, after which the old man, who was lying in a daze on the roadway, was picked up. Presently he was able to walk, and, having satisfied himself that no bones were broken, he was taken home, badly shaken up.

Markham.

Mr. Frank Cole, one of Markham's most popular young men, was made the recipient of a number of valuable presents, accompanied by complimentary addresses, on the eve of his departure for Cobourg, where he has secured a position with the Crossen Car Co.

In the sudden death of Mr. A. T. Moore, Mount Joy has lost a most estimable citizen. Mr. Moore was in the act of passing from the factory a few days ago, when he was suddenly stricken down, and on being found a short time after by his son and carried into the house almost immediately expired. Mr. Moore is survived by his wife, one son and three daughters.

Frank Gould and Larry C. Piper of Toronto have been matched for a three-heat skating contest on the Markham Rink on Friday evening, March 8. Gould and Piper met on the Grand National Rink, Toronto, on Tuesday night in a half mile race, Piper winning by about three feet, the last three hundred yards being done in world's record time.

Ellesmere and Locust Hill hockey teams played an exhibition game on Markham Rink on Wednesday last, resulting in a tie, each side scoring 11 goals.

Rev. Mr. Walker of Unionville occupied the pulpit of the Methodist Church on Sunday evening last, in the absence thru illness of the pastor, Rev. Mr. Blair.

The entertainment given by the members of the Epworth League on Monday evening was of a most interesting and profitable nature. At the conclusion of the literary part of the meeting light refreshments were served.

A social in connection with Peaches Methodist Church will be held at the home of Mr. Arthur Wagg, sixth line, Markham, near Cashel, next Wednesday evening. An enjoyable time is assured.

Mr. J. M. Winkler of Markham and Leslie H. Armstrong of Hagerman, who have been in attendance as delegates to the K.O.T.M., in annual session at Berlin during the past week, arrived home last night and report a most enthusiastic and harmonious convention.

North Toronto.

After several months of hard work by Rev. T. W. Powell, the parish of St. Clement's, Eglinton, has been admitted to a participation in the St. James' rectory fund.

The vital statistics of York Township for February are: Births 9, marriages 2, deaths 13. Of the deaths, four are minors and the remaining nine show an average age of 64 years.

Councillor Brown presided over a meeting of the Finance Committee of the Council, held last night. The recommend of the Works Committee as to the construction of a well was discussed, and Councillor Stibbard objected to the death designated in the contract and specifications, and the report was forwarded to Council without recommend. The Clerk submitted an amendment, which the committee endorsed, to the present statute allowing plank sidewalks to be laid on the initiative, making a proviso for laying cinder, gravel or tar and sand walks on a similar principle. The employment of a solicitor to prepare certain debenture bylaws was talked over, and the name of Mr. T. A. Gibson will be placed before the Council. The employment of another solicitor for conducting the purchase of the land required for waterworks purposes was objected to by the chairman, on the ground that the matter was transacted without consulting the Finance Committee. Mr. Frank Moses asked for the use of the hall for a concert, under the auspices of the C.O.F., and a rebate on the general charge was promised. The Mayor suggested that the Treasurer should be reimbursed for expenses incurred in paying civic employes. Councillor Brown objected to any extras, but a recommend for a small sum will be made.

Mr. A. Webster, a former employe of the Metropolitan, and now on the Toronto police force, is suffering from an attack of scarlet fever.

The Ratepayers' Association is to be revived, and a meeting to talk over better railway communication will be held in a few days.

Newmarket.

The installation of the new electric lighting plant is now completed, and its service will be at once called into requisition.

The North York Farmers' Institute will meet to-day, at the Temperance Hall. Cold storage and the export bacon trade will be discussed by Mr. G. C. Caston of Craighurst; Mr. M. A. Gee, Fisherville, will talk on soil cultivation, and Mr. C. E. Lundy will touch on his favorite topic of sugar-beet cultivation.

The poultry fanciers of Newmarket and vicinity are agitating for the formation of an association, and a meeting to discuss the question will be held on Thursday next, at the Council chamber.

Sugar beet seed will be distributed again this season among farmers willing to risk one-quarter of an acre, and a Distribution Committee has been appointed in the town.

Mr. Harry Legge of Bond's Lake slipped while in the act of stepping from his cutter on Wednesday and broke his leg near the ankle.

East Toronto.

Rev. Mr. John Bailey of Knox College conducted the preparatory service at Emmanuel Presbyterian Church last night.

At a meeting of the Board of Managers of the Emmanuel Presbyterian Church, on Thursday night, it was decided to accept the tender of the firm of MacDonald & Wilson of Toronto for placing combination electric and gas fixtures in the church.

The new postoffice at Norway was opened yesterday, with Mr. W. J. Freeman as postmaster. For about two months the people of Norway have been put to the inconvenience of going to East Toronto for their mail, as their postoffice had been closed, owing to the dissatisfaction of the former postmaster with his salary.

About forty young people of the Kenilworth-avenue Baptist Church, with their pastor, Rev. Mr. Dingman, and his wife, gave a very pleasant surprise party to Mr. and Mrs. William Revell of 618 Ontario-street last night. After a most enjoyable evening spent in music, games, etc., dainty refreshments were served.

York County News.

The spring robin has arrived at King City.

Vellore Literary Society will debate with Kleinburg Society on March 8.

An anniversary sermon will be preached in Lloydtown Methodist Church to-morrow evening by Rev. J. Wilson, M.A., LL.B.

Charles Hesp of Vellore, whilst driving a load of logs out of the bush, got his foot severely crushed between the load and a tree.

In a debate at Maple, the Epworth League could not decide whether the press or the pulpit had done most for humanity.

Vaughan Township Council will not grant the request of the petitioners from Pine Grove to divide the school section into two sections.

Ex-Ald. F. S. Spence of Toronto will address the Maple R. T. of T. at their entertainment next Tuesday.

The Victoria-square Rifle Club beat a team from the Q.C.O.H.R.C., Toronto, by a score of 360 to 318.

Thru the game won by the Stouffville Hockey Club over Claremont this week, Stouffville wins the Otter Hockey League championship.

The Mayor of Stouffville will oppose the private bill asked for by the Metropolitan Water and Power Company. Stouffville has a waterworks system costing $25,000, and it is claimed that the town's water supply will be interfered with in the event of the bill passing.

A large sleighing party from Nobleton made merry at the home of Noah Stong, Woodbridge, last night.

Mr. T. S. Hill, assistant station agent of the G.T.R. at Weston, left with his family for Granton yesterday. He has been stationed there.

The A.O.U.W. of Nobleton gave a successful concert on Wednesday evening.

Before Judge MacMahon yesterday, James Madill of Weston brought suit against his brother-in-law, James Little, to rank on the estate of his wife, which consists of the Central Hotel and other property in Weston. Mr. Madill gave a quit claim deed against any rights he had in the estate, and it was claimed that undue means were used. The case was settled by the two litigants agreeing to pay the costs and divide the estate, amounting to $3000, between them, and not been renewed.

Martin Tedd, a farmer near Mimico, fell off his wagon near the Mimico Asylum on Thursday, fractured the bones of his cheek and nose and injured one eye. Dr. Palmer of the asylum staff dressed the injuries.

SYMPTOMS OF KIDNEY TROUBLE.

Backache, Sideache, Swelling of Feet and Ankles, Puffing under the Eyes, Frequent Thirst, Scanty, Cloudy, Thick and Highly Colored Urine. Frequent Urination, Burning Sensation when Urinating.

These symptoms indicate a deranged condition of the kidneys, and some of them are caused by uric acid in the blood, and unless attended to immediately may eventually cause Diabetes, Bright's Disease, Dropsy, etc., which very often result in life-long misery. Doan's Pills not only relieve but cure all the above complaints.

Here is what Mr. Young, of Harcourt, N.B., writes:

THE DOAN KIDNEY PILL CO., Toronto, Ont.

DEAR SIRS,—Some time ago I was greatly troubled with pains in my back, hips and legs. My water was very scanty and was the color of strong tea and very thick, containing a sediment very much like fine sand and had a very offensive odor. I am very glad to say that after I had taken one box of Doan's Pills all of the above troubles have disappeared and I am perfectly cured and feel like a different person. I might also say my brother was troubled with his kidneys and used Doan's Pills and was completely cured.

New Hats

We have on sale to-day the first consignment of our new spring designs in hats for 1901 — all the latest Broadway fashions in Silk Hats, Alpine Hats and Stiff Felt Derby Hats. We ask you to remember that we are Dunlap's sole Canadian agents, and this shipment includes his spring styles in all lines. We are now at the end of the winter season, in fact right in the mild weather, and we have anticipated your wants by making this early importation.

NEW FURS FOR LADIES

Don't think that we are going to allow you to drop interest in our fur trade. Last week we had the biggest sales of the season in this line, and it likewise saw the largest imported lot of goods yet brought into our establishment. The reduction in prices which we advertised some time ago still continues until further notice. We have on view to-day a splendid lot of Caperines, Jackets, Collarettes, etc., all the newest Parisian fashions.

Caperines — some stole front, tab front, and others with heads and natural tails. St. George's Society.

The monthly meeting of the St. George's Society was held last night, Mr. John Taylor presiding. It was decided to hold the annual banquet on St. George's Day, April 23, after a lengthy discussion had taken place on the question as to whether it would be advisable to dispense with the function this year out of respect to the memory of the late Queen. Messrs. A. Waller, A. T. Taylor and John E. Hall were elected to membership.
