## RAILWAYS HAVE OVERCOME DIFFICULTIES OF STORM MOST TRAINS OPERATING

### C.P.R. Train Which Left Ottawa on Wednesday Reaches Toronto—Passengers Well Treated at Peterboro.

The battle with the snow may not yet be over, but last night the railways had the upper hand and ways were kept open. It is not so high winds to blow the snow back on the track. It will not require a very high wind, however, to blow the snow very seriously, as all along the lines the snow is piled in huge banks and easily drifts back upon the tracks again.

Both the C.P.R. and the G.T.R. are to be congratulated on their really magnificent work in overcoming the enormous difficulties of the last week. The C.N.R. have had a harder time of it. Last night it had cleared forty miles of the road from Washago south last night. Two double headed snow plows were at work and the officials hoped to get a train in and out of Toronto to-day. The Grand Trunk yesterday were running practically all night, having 27 arrivals and 23 departures. Nearly all the trains had two or three engines attached.

C. P. R.'s general superintendent, James Osborne, of the Canadian Pacific Railway, might have been seen late yesterday afternoon waiting upon lower platform at the Union Station. Shortly after his patience was rewarded when a train, hauled by two locomotives, emerged in snow, steamed into the station. As soon as it had come to a standstill, Mr. Osborne leaped up into the engine cab and gave orders to the fireman and a heavy hand-shake. Then he climbed into the second and did likewise, by which time the conductor had also come forward to receive his congratulations. Mr. Osborne's enthusiasm was that of a commander whose battalion had won a fight, for the arrival of the train he had come out to meet in its battle against the snow. It was the first train to arrive at Toronto since Wednesday, and had been on the road from Montreal since early Wednesday morning. In quick succession seven or eight trains followed from the east, all having been stalled or held up at different points along the line.

Some shovellers still out. Last night the C.P.R. had its main line open from Montreal to Detroit. On the Owen Sound and Orangeville line it was open as far as Orangeville. Snow plows and shovellers were at work on the section from Burlington to Junction, and it was expected to have that line open by this morning. The St. Thomas and Port Burwell branches were open, but the Owen Sound and Orangeville line was still closed. There the railway is having its hardest fight. The Muskoka line was open last night from Eola to Eutopia, and it was hoped that the track might be cleared from Eutopia to Bolton Junction by noon to-day, thus giving entrance to Toronto. A big gang of men will start from Owen Sound this morning to fight their way thru to Orangeville. The line will be a hard one, as at Orangeville Junction the snow is 20 feet deep and two snow plows and engines have been at work since Wednesday, but unable to get the way clear. The C.P.R. trains to and from Lindsay, Carleton Place and other points were sent out and one came in last night from Orangeville. The morning train for Montreal yesterday was sent out to make what progress it could. Last night the C.P.R. trains for Montreal and Ottawa were combined and sent out a little behind time.

### Grand Trunk's Record.

The G.T.R. between Toronto and Montreal has been kept open all the time, the trains were, of course, subject to delay, and the G.T.R. are deservedly proud. Mr. Brownlee, general transportation manager, came up from Montreal, and Wednesday night has been directing the operations with Superintendent Gillan, who went to London as an official aide in the middle district. Mr. Gillan reported last night that his territory was "open." Between Toronto and Detroit, the line was kept practically open, the delays here being due chiefly to obstructions across the border. The service to Niagara Falls was maintained through with hardly a break. Northward, the line is quite open to North Bay and the T. & N. O. also affords free communication with Cobalt. The 9 and 11:30 p.m. trains were cancelled last night. Only branch lines in the wild country are still snowbound and Haliburton are still showing the advance made on the storm fighting capabilities of the road. It is pleasant to note that whereas two years ago Owen Sound was storm bound for weeks, in this case a day or two broke the blockade, and a train reached there Thursday night and the line was open yesterday.

If some were elated last night, some were sadly disappointed. They gathered at the station to take a special scheduled to leave on the G.T.R. at 7 o'clock for Whitby, and had hoped to get to the annual convention of the Whitby Ladies' College. From Whitby Junction to Whitby, however, the communication was cut, and the train was cancelled, the "convers" being postponed.

### Some Experiences.

The first of the passenger trains on the Canadian Pacific, belated east of Peterboro, came into the main station a few minutes after six Friday evening. It was No. 13, passenger and, and left Ottawa Wednesday night at 2:45. It consisted of two sleepers and the passenger coach, with a full complement of travelers. The train left Ottawa in a blizzard, but got to Smith's

### A Special Jury

In the action brought by the shareholders of the Ontario Bank against G. R. R. Cockburn and the other directors, the bank, on application at Osgoode Hall, took out a writ of "venire facias juratores" directing the sheriff to return a "special jury" of sixteen good and lawful men of the body of the county, qualified according to law, by whom the truth of the matter is to be better known, and who are in no wise akin either to the plaintiff or to the defendant, to make a certain return upon the trial of the action.

## A NINE-TWO-YEAR CANADIAN PORT

### Line From Quebec to St. Catharines Bay Will Be Built This Year.

MONTREAL, Feb. 7.—(Special).—By letters received to-day from London, information was imparted to The World to the effect that the long-talked-of North Short Railway which Roderic Forster, M.P., has been promoting for some time past, extending from the City of Quebec to St. Catharines Bay, near the mouth of the Saguenay River, will be commenced on the opening of spring, and completed in its entirety, a distance of about 155 miles from the Ancient Capital.

This enterprise has been contemplated for some years by the Quebec & Saguenay Railway Company, but it will be under a later charter than the one now in force. Two bridges, one at Bay St. Lawrence, and another at St. John's, are the important features of the latest railway enterprise in the Province of Quebec in its claim that St. Catharines Bay will, in a very short time, be the recognized winter port of the country. Experts like Mr. Tache of the marine department declare that this port has been entirely free from ice for over 60 years, and that the largest steamship can sail out to sea from the St. Catharines Bay during any day of the year.

Contractors who have examined the plans, which comprise a very careful survey and location from St. Joachim, 30 miles east of Quebec, to which point a good steam and electric railway is already completed to the proposed terminals at St. Catharines Bay, declare that the road can be completed within one year, and that a practically level route will be obtained. It is 30 miles from Quebec to St. Joachim, while Murray Bay, 55 miles below St. Joachim, will be another important place on the proposed railway, and watering places and tourist resorts generally are expected to spring up at every point along the most interesting coast. All the way to St. Joachim's Bay the lines closely hug the shore, the entire location being a very short distance from St. Lawrence high water. The road bed will be sufficiently broad to admit of a double track, but a single track will be provided for. Only two bridges, one at Bay St. Paul, 160 feet span, and a second at St. Jean, 50 feet span, are the only structures of any importance on the entire line, but it is on the fact that St. Catharines Bay may become a real winter port for the province.

They have reports from reliable men who have passed winter at the port, and they are convinced that winter sailings from St. Catharines Bay to Great Britain and the continent are in the very near future.

### ARRESTED FOR SHOPBREAKING

#### Two Men Charged With Breaking In to Butcher Shop.

Ernest Smith, aged 32, married, of 132 Denison-avenue, and Alex. Black, aged 34, 16 Carlyle-street, were arrested last night by Inspector Dickson and Acting Detective Moffatt, charged with shopbreaking.

It is charged that the men entered the butcher shop of George Manley, 264 St. Patrick-street, Thursday morning at 1:30, after breaking the lock of the door, and stole some coppers and meat.

Both men are well connected and have no police record.

### BOY TUMBLED DOWN STAIRS

#### Has Concussion of Brain, While Another Boy is Arrested.

Charged with wounding Herman Herman, aged 14, a message boy employed at the United Factors, West Adelaide, Basil Hartnett was arrested yesterday by Detective Guthrie.

The boys were quarrelling on the stairs and according to Herman's story he was thrown downstairs by Hartnett. Herman was taken to his home at 107 Wickson-avenue suffering from concussion of the brain.

He was first taken to the Shelter and after investigation made by the department was allowed out on bail of \$500, put up by his father, Thomas Hartnett.

A convention of provincial Liberals to formulate a platform is being advocated by J. W. Curry, K.C., candidate for East York.

## Meeting "On the Quiet" But in the Name Only

### Anti-Reductionists and Reporters Finally Retired From Temperance Workers' Rally.

The man who had made the first speech said that, with his friend, he was there to find out the lay of the land. He understood it was a public meeting, then he made another long address, condemning the action of the council in the license reduction.

Then a young reporter, fired by a zeal for fair play all round, took a hand in the game and moved in amendment that the men be allowed to remain.

Mr. Scott explained that the meeting was private, and that those who were present should not say anything about the meeting having been twice announced in the papers.

"If you send these men away," said the scribe, as a clincher, "I will report the whole proceedings." Whereupon the chairman and several members, surprised, began to make apologies for their attitude, for fear it would all come out. They all explained that the meeting was private. In the meantime, the man who appeared for the anti made another speech.

Another gentleman got up and said that he did not think that the meeting should be reported, and that the newspaper men present should not say anything about it and should retire.

This brought A. B. Davison to his feet. He was not in sympathy with the scribe. He was there only to cord with the ideas for which the meeting was called. Should retire. He desired to know why they were at the meeting at all, as it was a private one, and simply a committee meeting to discuss matters relating to the action of the temperance people.

## MINE EXPLOSION TAKES TEN LIVES

### Disaster at Cape Breton Colliery From Unknown Cause Has Fearful Results.

PORT HOOD, C.B., Feb. 7.—(Special).—At half-past seven this morning, shortly after the men had gone to work, an explosion occurred in one of the southern levels on the Port Hood mine. The news spread rapidly. Much anxiety was felt through the town by relatives and friends of workmen in the pit.

Manager McLellan organized and headed the rescue party and proceeded immediately to the scene of the disaster. It was then discovered that all occupants of the room had been instantly killed. The position of the bodies when found indicated that the men did not receive a moment's warning. In the hands of some were pickaxes, diamond product of the world, the Synaunders and other working tools, held as if in the death grasp. Of ten men killed, six were miners, natives of the town and neighboring districts, and four were Bulgarians.

The miners were all young men, married, except one, and left widows and in some cases children. About 1 o'clock all the bodies had been recovered and brought to the surface. Considerable difficulty was experienced in identifying them, so charred and disfigured were they from the force of the explosion, but the clothing enabled the relatives to identify the bodies. They were laid out in a room in the company's office, which had been reserved for an undertaking room, and the scene was indeed pitiful.

All the employees of the mine stood around the bodies of the deceased. The first accident at the mine attended with serious loss of life and its awfulness made a deep impression. The officials brought to the surface, to show their sympathy and consideration for the feelings of the employees and relatives and friends of the deceased.

Coroner Cameron empaneled a jury and proceeded to hold an inquest. After hearing evidence of identification, he ordered the bodies laid out in a room and adjourned the inquest, awaiting the arrival of the deputy inspector of mines. A committee of the P.W.A. took charge of the remains after the inquest adjourned. There is considerable speculation as to the cause of the accident, whether done by gas or powder. The mine is practically unimpaired.

Those killed in the explosion are: John Campbell, who leaves a wife and three children; Duncan R. McDonald, leaving a wife and one child; Lauchlin Gillie, leaving wife and two children; Allan R. McDonald and Willie McKenzie, single, and four Bulgarians, all married, leaving families of two and three each.

## ENDS LIFE WITH BULLET.

### Slater Finds Frank Green Victim of His Own Despondency.

Arriving home from work last night at 6:30, Emily Green, 166 Berkeley-st., found her brother, Frank Green, aged 40, a tailor, who has been out of work for some time, sitting dead in an arm-chair in the parlor, with a bullet wound in the temple.

In his hand was a 22-calibre revolver with one chamber emptied and two loaded.

For some time past Green has been suffering from fits of melancholia.

Dr. Sheard, chairman of the provincial board of health, has called a meeting of the board for Tuesday next and is endeavoring to arrange for a conference between his board and the board of control for Wednesday afternoon for the purpose of discussing the water supply and sewage problems.

## ICE SHOVE AT CORNWALL CAUSES SERIOUS FLOOD

Mills Close Down and Gas Supply and Car Service Shut Off.

CORNWALL, Feb. 7.—(Special).—The water in the St. Lawrence has been stationary for the past two days, but a few minutes before noon to-day the ice gave away, and there was a shove, which smashed the upper gate at lock No. 17.

The dry dock was flooded, and the water rushed in a torrent. The bridge near the Canada mill was soon under water and the mill had to close down.

At the Stormont mill the water went up about 9 feet in less than an hour. The employees had left for dinner before the shove occurred, and when they returned they found the mill shut down. The water was four feet deep on the floor of the finishing room and half way up the doors of the boilers. The water backed up in the government sewer and the town's supply. Several cellars in the front of the town were flooded and considerable damage was done.

The bay above the narrow passage in the river at the east end of the town is a solid field of ice, the enormous blocks being piled so high that they can be seen from the town above the canal banks. The water in the river seems to be almost as high as in the reach of the canal opposite the town, but there is no sign of it receding at present.

The street cars are tied up again, their power being cut off by the flood.

## NEEDN'T EXPECT A BREAK IN DIAMONDS

### Dealers Hasten to Explain That Sparklers Will Continue to Retain Their Value.

Some stir has been caused in the wholesale diamond trade by rumors that the prices of diamonds were coming down, and, in fact, had come down. The Levy Bros. Company, Limited, of Hamilton, composed of Abraham Levy, president; Adolph S. Levy, vice-president; and W. E. Boyd, secretary-treasurer, has some standing in the diamond trade in Canada, and an opinion from this firm, naturally appears to have some weight. The following letter from the vice-president of this company expresses his views:

Editor World: Our attention has been drawn to a despatch from New York, published in your paper of Feb. 5, under the heading of "Diamonds and Jewelry," and as same is entirely erroneous and misleading, it is to the interests of the public at large and the jewelry trade that same be contradicted.

The writer has but recently returned from Europe on a purchasing trip, and, whilst there, visited the important diamond centres. Needless to say, owing to the financial emergency and the money market during the past few months, diamonds have not sold as readily as during previous years. This, however, has not been felt in nearly the same proportion in the Canadian markets as in the American markets.

In Amsterdam.

The writer, whilst in Amsterdam, found that although business was extremely quiet, there was no break in prices whatsoever amongst the larger manufacturers. There is always a possibility, however, of a small manufacturer or dealer being in financial straits, and selling goods at cost or slightly below in order to tide over temporary embarrassment in his financial affairs.

A few cases of this kind, however, would have no bearing on the price of stones. The DeBeers Mining Company and The Premier Consolidated Company both passed their dividends, not that they have not earned them, but in order to strengthen their position, and they may maintain prices at the present level, and in order to further insure maintaining existing prices they have issued orders to decrease their output.

On Jan. 27, The Jewellers' Circular of New York, the principal trade paper, received the following cable from Abraham, president of the Diamond Syndicate of London: "Syndicate will continue their policy of maintaining prices, and this is in agreement with the DeBeers and Premier companies." As the Syndicate markets the product of the DeBeers Consolidated Company, Limited, and the Premier Mining Company, whose combined output is over 85 per cent. of the output of the diamond product of the world, the Syndicate's action gives assurance that there is no real prospect of a break in the diamond market in any way, or in any of the districts, and the four were Bulgarians.

Small Ones May Be Cheaper.

The price likely change in the price of diamonds might be in the very small stones, where the cost of cutting same is the principal item of expense, and the reduction in the price of labor at the present time.

On account of the depression in the United States and the falling off temporarily in the demand for diamonds, a large percentage of the diamond-cutting factories in Amsterdam and Antwerp have been closed for several months. This has had the effect to keep the

## BODY LEFT UNCARED FOR.

### No One to Provide Murdered Woman With Decent Funeral.

LONDON, Feb. 7.—There is a sad lack of Christian charity somewhere around Cobblehill, where Mrs. James Hartwick was so foully murdered a few days ago by her husband.

Since the day of the murder the old woman's body has lain in the shack in which she lost her life.

Nobody took charge of the remains and Rev. Mr. Snell went to-day to conduct a short service a pathway had to be dug thru the snow to the shack. There lay the body in the condition in which had been left by her husband, frozen stiff. It was put in a rough box and sidled off to the cemetery.

Hartwick has cooled down and it is now believed that he was crazy drunk when he committed the crime. In the house was found a quantity of the hardest brand of cider.

### SEED GRAIN BILL PASSED HOUSE WAS UNANIMOUS

Members Will Have Chance to Deal With the Regulations on Tuesday.

OTTAWA, Feb. 7.—(Special).—The resolution to provide for the purchase of seed grain for distribution among the farmers of Alberta and Saskatchewan and the bill in this connection were passed unanimously by the house this afternoon.

Both sides having agreed to vote, and as it was their wish to adjourn at 4 o'clock, it was decided to defer discussion on the regulations contained in the order-in-council till Tuesday, when the fullest opportunity will be afforded members to suggest changes, to the ministry were careful not to commit themselves to amending the regulations.

The bill calls for an expenditure of \$2,850,000, of which \$855,000 is for purchase of seed grain for homestead settlers in two provinces, cost to be repaid by settlers, with interest at 6 per cent, by March 31, 1909; \$440,000 as an advance to Alberta for the purchase of seed grain for settlers, and \$1,555,000 as an advance to Saskatchewan for the same purpose.

Manitoba included.

Mr. Staples (Con. Marquette) thought Manitoba should be included, and Mr. Burrows, from the other side agreed with him.

Mr. Fielding said it was important that the vote be made without delay, as it was a matter of utmost urgency. Then the house could take time to consider the regulations.

Some of the Manitoba members insisted that their province be included. Mr. Oliver stated that the representations had been made by the government. However, the government was prepared to deal with Manitoba if the same conditions existed in that province.

Mr. Blain sarcastic about Ontario. Some farmers in the province were in need of assistance.

Mr. Martin (Queen's, P.E.I.) protested against rushing the vote thru and Mr. Foster said that the government was open to ensure for delaying the bill. He was willing to extend a little grace and allow the vote to go thru, as the matter was urgent.

After protests from several members who did not vote for the bill, the government would consider any suggestion the opposition might make when the regulations were taken up on Tuesday.

Mr. Oliver said the regulations were made with the co-operation of the provincial governments and any change would have to be with their consent.

### HAD THIRTY-TWO BOILS ON HIS BACK AT ONE TIME.

#### TWO BOTTLES OF BURDOCK BLOOD BITTERS CURED HIM.

Boils are simply evidence of the bad blood within coming to the surface.

Just when you think you are cured of one, another seems ready to take its place and prolong your misery.

The only way to rid yourself of boils, pimples, and all skin blotches and blemishes, so that they will never return to bother you again, is to have the blood thoroughly cleansed of all its impurities.

For this purpose there is no other blood medicine to equal Burdock Blood Bitters. It has been on the market for over thirty years, and in that time we have received thousands of testimonials stating positively that it will cure the worst known cases of boils.

Mr. James Coombs, Eden, Ont., writes: "I think Burdock Blood Bitters a great medicine for boils. I had them so bad I could not work. I had thirty-two on my back at one time. I used only two bottles of B. B. B. and they completely cured me. I cannot recommend it too highly."

## Hamilton Happenings

### HAMILTON'S WALK OVER ST. CATHARINES WAS EASY

Ambitious City Hockey Team Laid It on to Tune of 11 to 2—Sergeants' Annual Ball.

HAMILTON, Feb. 7.—(Special).—In the second round in the O.H.A. intermediate series Hamilton made a runaway of it when they met St. Catharines at the Thistle rink this evening, winning with a score of 11 to 2. The half-time score was 4 to 1.

The return game will be played at St. Catharines Monday night. Tonight's game was as one-sided as the score. May at goal put up a good game for the visitors. McIntyre, Toronto, was the star. The teams:

Hamilton (11)—Morden, goal; Murrison, point; Morin, cover; Southern, right wing; Motherwell, left wing; McKee, left wing; Harrison, right wing.

Sergeants' Ball.

St. Catharines (2)—May, goal; Brook, cover; Finley, cover; Sutton, right wing; Miles, centre; Rooney, left wing; Collins, right wing.

The annual ball of the sergeants of the Thirtieth Regiment was held at the Waldorf Hotel this evening. The patronesses were: Mesdames J. M. Gibson, S. Mewburn, Labar, Feenstra, Zimmerman, Wright, Griffith, Herring, Henderson, Robertson, Donville and Carter. The committee in charge were: Staff-Serg. Woodroff, Col-Serg. W. Keith, Col-Serg. Syme, Sergts. W. Harvey, A. Stone and Ferguson.

Applying for Increases.

Many of the city officials are applying for salary increases. Among the number are City Engineer Barrow, who wants \$1000 a year more; Tax collector Wright and Griffith.

The crown attorney has notified the city that it must refund \$300 of the \$900 collected in fines from Chinamen charged with gambling.

A meeting of business men will be held in the mayor's office at noon Wednesday, Feb. 12, to discuss plans to buy the Central Presbyterian Church property, upon which it is proposed to erect an auditorium with a capacity of 2000.

Charles Siebert, hotelman, Stony Creek, will appeal to the court Wednesday morning on the charges of sustaining the local option bylaw passed in Saltford.

Alfred H. Rogers is suing the street railway for \$2000 damages for injuries received in the collision between a street car and a G.T.R. train at the corner of Ferguson-avenue and King-street.

A summons has been issued against Louis Birk, charging him with selling papers on Sunday.

David Green, a market hall dealer, has been summoned to police court Tuesday morning on the charges of receiving the goods stolen by Stanley Cunningham.

It is not likely that proceedings will be taken against Mrs. Camelle, who created excitement on Macnab-street Thursday by following Charles Laing with a loaded revolver.

C. W. Meakins Dead.

Charles W. Meakins, head of the firm of Meakins & Son, brick manufacturer, died at an early hour this morning. He was in his 70th year. Death followed a stroke of paralysis. His widow and the following family survive him: William G. Charlesworth J. John C. and Louis Meakins; Misses Florence and Marion. The funeral will be held at 2 p.m. Sunday.

Some of the members of the board of works think that the street railway will offer to renew its system of Barton and West King-streets this year, and will renew the rest of the system in two years.

Ben Broughton has issued another writ against Harry Barnard of the Stamp and Stencil Company, to restrain Mr. Barnard from acting as president of the company.

Big Sale of Oriental Rugs.

BOSTON, Feb. 7.—For the first time Mrs. Mary Baker G. Eddy saw the new \$2,000,000 temple, which is the home of the mother church of Christian Science and the biggest monument dedicated to the cause she originated. Since her removal to Chestnut Hill from Concord, N.H., she had anxiously awaited an opportunity to see the church, the big dome of which is visible from the study windows of her new residence.

Accompanying her, as he usually does for her drives, was Calvin A. Frye, her secretary, who was riding inside the closed carriage instead of on the top. There was a small gathering at the church as the carriage drove by, but no demonstration, and Mrs. Eddy gave no greeting.

### BLOCKED RADIAL BILL FOURTH DAY OF THE FIGHT

None of the Ministers Present and Promoters Presented Absolutely No Plea.

OTTAWA, Feb. 7.—Opposition to the radial bill was again sufficiently strong to block the measure for the fourth consecutive day.

It was anticipated that it would be able to be in the house yesterday, but was not present at the committee this morning, nor was any other minister. The promoters have so far presented absolutely no argument or plea, and of what is set out in the preamble, and what may have been said in the lobby in favour of the bill. The measure is still the first order, and comes up again on Tuesday. All other railway legislation is held up in the meantime.

Richard Blain of Peel, before Armand Lavergne got into the room, called the committee's attention to the Gibson statement that letters written to Hon. J. P. Whitney had not been answered. Mr. Blain got Chairman Guthrie to read again the telegram in which Premier Whitney denied the Gibson statement. The Peel member gave Mr. Gibson a chance to explain. "I not only authorized the statement," said Mr. Blain, "but I made it myself. I will not say that what Mr. Whitney says is false and untrue, but I am in a position to say that no reply came to me or anyone in my office. The onus is therefore upon the postoffice department."

"I am satisfied that it rests there," said Mr. Blain, who forthwith produced copies of two letters written by Mr. Whitney to the editor of the Dominion and the province newspaper, the Gibson letters of March 11 and 28.

Lavergne Again Protests.

Armand Lavergne went on with his protest against the passage of the preamble in the present shape of legal argument.

Mr. Smith of Wentworth objected to the preamble because of its effect on street railways, and he thought that the bill would be performing the same functions as a Dominion railway.

Dr. Sproule produced a Hansard containing a legal argument of Hon. Edward Blake against the passage of the bill, the preamble and the act upon which the present bill is based.

Mr. Wright of Muskoka insisted that there should be some arrangements between the Dominion and the province.

E. A. Lancaster went after the promoters for sending out literature "briefs" and the preamble and act upon which the bill is based.

"This committee," said the Lincoln member, "is being forced to the conclusion that some trick is being put up on us."

Mr. Lancaster pointed to the fact that the promoters had made no explanation of the preamble and act upon which the bill is based, and that they must have something to conceal.

The two English members, Marshall and Jackson, also protested against the bill, as one which, if passed, would leave the way open for every little provincial railway to come to Ottawa. The bill protected some municipalities and not others.

David Henderson of Halton finished the hour by taking in favor of the bill.

### LIFE STORY OF LEADER WHO SHOT KING CARLOS

As a Boy Was Quarrelsome and Audacious—Became Teacher and Professor.

RIO JANEIRO, Feb. 7.—The life story of Buisa, the leader of the band that assassinated King Carlos and Crown Prince Luis at Lisbon last Saturday, has been obtained in this city from a Portuguese clerk in a commercial house who was a school mate of the regicide. He says the assassin's full name was Manuel Res Silva Buisa, and he was born in the Vinhas district, Province of Braganza, Trazzaz-Montes, Portugal. He was a son of the Abbe of Vinhas, and as a boy he went to the lycium in Africa.

He had nine brothers and sisters, and one of his sisters, named Belmira, lived until a short time ago in this city. Manuel was not the first criminal in the family. One of his aunts killed a servant in her employ when she found that her husband was making love to the woman. She was arrested and sentenced to a long term of imprisonment in Africa.

Was Naughty, But Cowardly.

As a boy Manuel Buisa was quarrelsome, naughty and audacious, but cowardly. He left the lycium with the reputation of a bad student, and as having a vicious character. The life he led in Braganza made it necessary for his father to put him into the army, and he was consequently enrolled in the 13th Cavalry Regiment of Braganza. Even in the army he was a hard youth to control, but in spite of ill-repeated punishments he managed to gain the grade of sergeant. He continued a dissipated mode of life, and was soon transferred from Braganza to the regiment on duty at Alvas, on the frontier. Here he had a serious brawl with six soldiers. For this offence he was court-martialed, and condemned to serve a

### Fireman Frozen in Ruins.

NEW YORK, Feb. 7.—Wreckers searching thru the ruins of the burned building at No. 45 Worth-street found the body of Fireman Frank Eglington. To all appearances Eglington had fallen from the upper floor with the pile of wreckage, had been stunned by the fall and froze to death while unconscious. He had not been buried.

"You are an admirer of McConnell," discovered in the debris under the ceiling of the ground floor. The body had been crushed and buried.

"The men killed were doing their first active work after being taken back from bureau detail."

Meant Much to Him.

"Yes, with the obese passenger with the swastika pin in his tie. 'I always look forward to the opening of the football season with delight.'"

"You are an admirer of McConnell, eh?" rejoined the hardy drummer.

"Well, not exactly," replied the o. p. "but I'm a surgeon."

### DON'T SUFFER ALL WINTER

Read This Evidence and Begin To-day to Cure Yourself With Dr. Williams' Pink Pills.

Sciatica is neuralgia of the sciatic nerve. Its origin is generally rheumatism and is the direct result of taking cold. For this reason the disease is commonly known as "sciatic rheumatism."

There is only one thing more painful than sciatica and that is the treatment of it as practiced. The sickening burning of the flesh is only one of the forms of cruelty employed by the old school doctors, and all too often the nerve is literally starved. It needs rest, and a rest that is entirely vain, for the relief gained is but temporary.

It is a scientific fact that the majority of sciatica cases result from exposure to cold when the patient is in an anemic or bloodless condition, in which the nerve is literally starved. It needs an argument to show any reasonable person that a starved nerve cannot be fed by the application of a hot iron to the outer flesh. It mayadden the sciatic pain for a time, but it will not cure sciatica.

Absolute rest, is the best aid to proper medical treatment. Rest and Dr. Williams' Pink Pills, which actually make new blood and thus food for the starved nerve, will cure most cases.

Mr. H. W. Avasit is one of the leading merchants of Hamilton, N. S., a few years ago he was a great sufferer from this excruciating trouble. He says: "The attack was so severe that I had

PROTECTING BRITISH INDUSTRIES.

Notwithstanding the stalwart attitude adopted by British Liberals towards the policy of free imports and that cheaper articles of foreign manufacture are preferable to the dearer products of home industries...

Mr. Lloyd George, the president of the Board of Trade, and a prominent member of the cabinet, recently had the freedom of the City of Cardiff conferred on him—a tribute all the more noteworthy because the city council contains a majority of his political opponents.

In resolving to ask that the board of education now tackle seriously the question of an equitable scheme of salaries throughout the city schools, the public school principals have taken up a thoroughly reasonable attitude.

It is plain that the principle Mr. Lloyd George enunciated is capable of indefinite extension and cannot be restricted to artificial monopolies made by operation of law.

INTERNATIONAL AND BRITISH ART. International world exhibitions on the scale that their more recent ex-cipitations have attained are more remarkable for their stupendous proportions than truly educative, except to those who visit them with a definite object and for specific study.

THE CANADIAN BIRKBECK INVESTMENT & SAVINGS CO. On Wednesday last the directors of the Canadian Birkbeck Investment & Savings Company submitted to their fourteenth annual meeting of shareholders the usual statement, showing that the company's operations for the year ending Dec. 31 last, their report was of a very satisfactory character.

THE NEW PLANT INOCULATION.

In one of his latest reports, Mr. P. B. MacNamara, Canadian trade commissioner for the Manchester district of England, reports on the valuable scientific discovery made by Prof. Bottomley of King's College, London, recently noticed by The World.

The commissioner reports that tomatoes, cabbages, strawberries and roses have been successfully inoculated with the root nodules which collect and fix the atmospheric nitrogen.

education now tackle seriously the question of an equitable scheme of salaries throughout the city schools, the public school principals have taken up a thoroughly reasonable attitude.

As the personnel of the board has remained practically unchanged, it is a reasonable inference that the public recognize increases of salary to be necessary and will sustain whatever comprehensive schedule it deems called for under the stress of what are really metropolitan conditions.

CITY WILL FIGHT.

Architect Engaged for Expert Opinion in Lennox Suit. Architect A. R. Denison was appointed by the board of control yesterday to assist the city's legal department in scrutinizing the items in the E. J. Lennox bill.

A Remarkable Woman. Mrs. Mary Church Terrell of Washington, D.C., wife of Judge Terrell of the federal court of the United States, who was appointed by President Roosevelt, will be the speaker to-morrow night (Feb. 9) at the People's Bookers Service, directed by J. M. Wilkinson in Massy Hall.

TORONTO PEOPLE INJURED BAD SMASH ON RAILWAY

I. D. Clawson of This City in Serious Condition—His Chest Crushed.

FRANKLINVILLE, N.Y., Feb. 7.—Ten of twenty passengers were injured in a wreck on the Pennsylvania Railroad, two miles south of this village, this morning, at 9 o'clock. No one was killed. The injured are: Wilson C. Gurgenhelm, Buffalo; Mrs. Wilson C. Gurgenhelm, Buffalo; A. E. Neil, Buffalo, traffic manager of the Buffalo & Sun-Quahama Railroad; Eugene E. Kitchin, major on North Tonawanda; I. D. Clawson, Toronto; Julia Hooper, York, Pa.; W. Klimer, Olean; M. O. Blackman, Chicago; and E. J. Bend, Washington, D.C.; A. Mercer, Toronto.

Isaiah Clawson, who was injured in the wreck on the Pennsylvania, is claim adjuster for the Maryland Casualty Company. He came here from Baltimore during the night and lives at 4 Greatville-street.

Albert E. Mercer is injured about the arm and shoulder and will be home in a day or two. He has been in the service of the Toronto medical health department, as inspector of drains, for the past three years. He has interests in Cuba, and about a week ago he obtained leave of absence for two weeks, saying that it was to be used in the future.

Fourth Floor—

While we had great business the first week the severe weather put us behind our big expectations. We tell you this honestly. Perhaps we expected too much. We DID expect a banner week, but Jack Frost and General February, the storm king, worked against us. But what's happened has nothing to do with what's ahead, except in this way: NEXT WEEK'S BUSINESS IS TO BE BIGGER than we intended, because last week wasn't up to expectations.

This Furniture Sale MUST beat all former February Sales. We'll give you prices that will command your buying.

Go anywhere, examine, compare; our prices mean money saving SURE. We're starting the new week, Monday, with all sails set for a regular gale of business. Come. Look. You don't need to buy if we can't save you money.

have the case of a man gathering sticks on a Sabbath day. As the Sabbath was only a shadow of the things to come, what shall be done with the man who gathered sticks on the Sabbath? The Lord said: "What shall be done with the man who gathered sticks on the Sabbath?"

Is there not something very peculiar in the prohibition of all manner of work on the Sabbath? Here the wages of work is death. Not only are the wages of work death, but the wages of sin are death. Yes, they heard, they believed, they entered by faith into the true Sabbath, perfect and eternal rest in Christ.

Not only must the work of redemption from Egypt, by the blood of the typical lamb, be triumphantly finished, but the entire type of heaven must also be given. Then, after that gift of manna, the Sabbath is for the first time mentioned in John v. 18.

"I am the living bread, which came down from heaven. If any man eat of this bread he shall live, and his life shall be in me. For the bread of life is the Son of Man, and he shall give life unto whosoever will eat of him. For the Son of Man is the Son of God, and he shall give life unto whosoever will eat of him. For the Son of Man is the Son of God, and he shall give life unto whosoever will eat of him."

Matthew xlii, 28. Jesus presents Himself as the true Sabbath of rest. "Come unto me, all ye that labor and are heavy laden, and I will give you rest." And at that time we find Jesus leading his disciples on the Sabbath day, thru the shadow must flee away.

Take the case of the impotent man mentioned in John v. 18. Here was one whose case could only be met by the Son of God. And what was true of his body is also true of all men as to the state of their soul before God. Now the Lord Jesus in this not only says: "Rise," but also, "Take up thy bed and walk." The man had lain exactly the same number of years as Israel had withered away in the wilderness, and as God in grace gave them possession of the land, when all the men of war were consumed, so grace meets the poor man's full need, when his strength was gone and he had none to help. Jesus meets him in the dignity of divine power, and it must be seen that the Sabbath is the same. In Jer. xlvii, 21, we have God saying: "Bear no burden on the Sabbath day." Now Christ says: "Take up thy bed and walk."

The same thing is seen in the case of the man born blind, John ix. 6. One word and his sight would have been restored, but the Lord must again set aside the shadow (Sabbath) by making a sign. Observe that nothing so often as the Sabbath with madness, as this treating of the Sabbath as a shadow. They sought the more to kill him, because he had not only broken the Sabbath, but said also that God was his Father, making Himself equal with God. Paul calls the Sabbath a "shadow of things to come." Surely one shadow of things to come is the impotent man who was blind the Sabbath day, who, in the case of the man who must be put to death for gathering sticks on the Sabbath, and it must be seen that the principles of the two dispensations are as different from each other as light from darkness. In the past dispensation,

LAKE'S AMENDMENT DEFEATED

House Divided at 3:15 Friday Morning. The amendment to the motion to go into supply, which was defeated by a vote of 111 to 55.

OTTAWA, Feb. 7.—At 3:15 this morning the house of commons divided on Mr. Lake's amendment to the motion to go into supply, which was defeated by a vote of 111 to 55.

The amendment asked for a committee to investigate into the alleged timber sale scandals and was debated three days.

On the government side the policy and methods of carrying it out were defended by several speakers.

OTTAWA, Feb. 7.—(Special).—At the National Live Stock Association meeting here to-day the C.P.R. methods of transporting live stock came in for very severe handling at the hands of the western shippers. Delays or refusals in the delivery of stock cars were frequently instanced, and when H. C. McMullen, live stock agent of the C.P.R., was asked as to why this existed, he said: "My office is in Calgary, and I will be there to receive complaints."

This was "resisted" by several presiding, who were agreed that the railway commission should be petitioned to have legislation enacted to the end that men out in the western country should get their rights.

Mr. Cross, M.L.A., Calgary, pointed out that the only place the C.P.R. refused cars for was the U.S. trade, for the reason that in the majority of cases, was by far the best, for obvious reasons.

OTTAWA, Feb. 7.—(Special).—The senate to-day discussed the Japanese bill, Senator MacDonald of British Columbia, declared a happy solution of the question had been reached and it should not be stirred up again.

TILBURY, Feb. 7.—Fire broke out in the residence of G. C. Chambers here this afternoon and the upper storey was destroyed before the fire was checked. Loss about \$150, fully covered by insurance in the Gore Mutual.

The board of control granted Mrs. Watkins, wife of the late superintendent of Allan Gardens, permission to remain in her house until May 1.

Mrs. Beardmore gives a dinner party to-night. Invitations for the special exhibition of Canadian and home industries, the formal opening of which will be held on Tuesday, Feb. 11, have been issued by the president, Mrs. Dignam, and officers.

The at home given by Harbord Graduates' Association last evening was one of the most successful events yet held in connection with the Collegiate Institute. It was an indication of the spirit which prevails among the former students and of the regard in which the institution is held.

HER HUSBAND WAS A DRUNKARD. A Lady who cures her husband of His Drinking Habits writes of Her Struggle to Save her Home. A PATHETIC LETTER. "I had for a long time been thinking of trying the Tasteless Samaria Prescription treatment on my husband for his drinking habit, but was afraid he would discover that I was giving him medicine, and the thought occurred me, I hesitated for nearly a week, but one day he came home very much intoxicated and his week's salary nearly all spent. I threw off all fear and determined to make an effort to save our home from the ruin I saw coming at all hazards. I sent for your Tasteless Samaria Prescription, and put it in his coffee as directed next morning and watched and prayed for the result. At noon I gave him more and also at supper. He never suspected a thing, and I then boldly kept right on giving it regularly. As I had discovered something that he had never seen, my body began to feel better and happiness, and I could see a bright future ahead of me before me—a peaceful, happy home, a share in the good things of life, an attentive loving husband, content with everything else dear to a woman's heart; for my husband had told me that whiskey was vile stuff and he was taking a dislike to it. It was only too true, for before I had given him the full course he had stopped drinking altogether, but I kept giving him the medicine till it was gone, and then sent for another lot, to have on hand if he should relapse, as he had done from promises before. He never has and I am writing you this letter to tell you how thankful I am. Honestly believe it will cure the worst cases."

Free Package. A complete giving five bottles and price sent in plain sealed envelope. Correspondence and orders to: Address: THE SAMARIA REMEDY CO., 59 Jordan Ave., Toronto. Also for sale by Geo. A. Bingham, 100 Yonge-street, and by E. J. Duak, Drug-gist, 366 Queen-street west.

A Henry W. Savage Co. In a musical piece, for which Edward German wrote the score, will be the attraction at the Princess Theatre all next week. This is the comic opera "Tom Jones," with book by Root, Courtneidge and A. M. Thompson, taken from Henry Fielding's master piece of 18th century English fiction. It was produced with much success at the Apollo Theatre last season and had a long run. In New York this season, it has won great favor. "Tom Jones" is old English, in the music for the comic opera Mr. German has reproduced the delightful style of melodies of 150 years ago. There are glee, madrigals, roundeys, ballads, comic ditties, rollicking rustic dances, the graceful Nocturne dance, and there are many jart songs and rousing choruses. The music is a reflex of the tunes of our ancestors, and its charm and quaintness has a refreshing novelty which made it popular in London and New York. To the accompaniment of this music there is a book of decided interest. It is the story of the life of Tom Jones, a novel where Tom and Sophia Western have fallen in love and relates the many adventures following this disclosure of the true relationship of the couple and the reconciliation of the father of one and the guardian of the other.

Many of the celebrated characters in Fielding's immortal novel are introduced. The comedy is most effective. There is a contrast of town and country, the accentuated humor and wit, thru the keen and brisk comedy and fun runs a pretty romance, with an interval of the dramatic to lighten the effect. It has been said that the libretto for "Tom Jones" would serve as an excellent comedy apart from the music, and the two combined make an admirable comic opera.

The company is a numerous one and has its vocalists and comedians of exceptional talent. Louise Gunning is the Sophia Western, William Norris the Jolly Benjamin Partridge, Gertrude Quinlan the pert and mischievous maid of honor, Albert Parr is Tom Jones, Henry Norman is the choleric Squire Western, John Bunny the amusing bumpkin Grogan, Howard Worley and Bernard Gorey are the comic Dobbin and Grizzle, May Mooney is the counsellor Lady Bellaston, the part of the dignified Allworthy, Vaughan Trevor the crafty Bliss.

Florence Bufette is the jolly hostess at the Upton, Mrs. E. W. Smith is the knowing attendant on Lady Bellaston, Lucy Tonge and Anna Hall are the merry serving maids at Upton and Odette Beckwith is the "silly" Wheatcroft. There are also squires and dames, beaux and bettes of fashionable London, and a host of other characters which means that there is a big chorus for the merry scenes and rollicking dances. In addition, the company carries its own big orchestra, and "Tom Jones" is in three acts. The first opens with the hunt breakfast on the lawn at Squire Western's, the second is in the inn at Upton, the third is at Ranelagh Gardens. The period is 1745.

English Players at Alexandra. On Monday evening the new Royal Alexandra English players will make their first appearance in Toronto in "Sardou's" great masterpiece, "Diplomacy." The opening performance will be given under the auspices of the Toronto Garrison Sergeants' Association and will be under the distinguished patronage of his excellency the governor-general, his honor the lieutenant-governor, Sir Frederick Borden, minister of militia, Brigadier-General Otter and others. The officers and non-commissioned officers will appear in uniform. There seems to be little doubt but that this new dramatic organization will prove a success and will be a welcome addition to Toronto entertainers. Mr. William Sauter, the director of the company, as in fact most of the members, are favorites in Toronto, having been seen here in support of the great stars. Mr. Sauter was leading man for E. S. Willard. Miss Darragh, the leading woman, is one of the most noted actresses that have been brought from England to America. Ernest Stirling was comedian for a number of years with Mr. Willard. David Glasgow was with Sir Charles Wyndham. Ivan Simpson was also prominent in the work of Mr. Willard and Forbes Robertson. Mr. Willard and Forbes Robertson, Ida Waterman and Jane Marbury will be well remembered as prominent players in Charles Frohman's Company.

All the other members of the company come highly recommended, and will no doubt become exceedingly popular. The story of "Diplomacy" is one of the best that Sardou wrote. He chose a time when there was an international strain and manufactured from the love of Captain Julian Beauclerc for Dora, the daughter of a Spanish marquis, a drama that has never lost its entertaining powers. Julian is beginning his diplomatic career as an attaché to the British embassy. Zicka is a spy in the service of Baron Stein, who is secret agent of the Russian Government. At his suggestion she steals from Julian an important paper, for which he is responsible for the safe delivery, and upon which the world's peace depends. She contrives to have the blame of the theft placed upon Dora. The plan is recovered by Henry Beauclerc, Julian's elder brother, who also places the blame for the theft in the right quarters. This is brought about with so much ingenuity that only a Sardou could have thought out the plot. "Diplomacy" will be given a most elaborate stage production. Mr. George Riddell, who will be remembered here as stage director for Ben Greet, has been given carte blanche to make every production which will be given a success, as far as stage craft and period matinee will be given Thursday and Saturday.

Francis Wilson Coming. Francis Wilson, the comedian, has been provided by Charles Frohman with the most screamingly funny farce that he has ever had since he gave up comic opera for the more legitimate form of entertainment. It is called "When Knights Were Bold," and is from the pen of Charles Marlowe. It takes its hero back to the middle ages when he is essentially a modern of moderns and absolutely full of twentieth century ideas and ideas of the farce, when Mr. Wilson in a dream goes back to the days of his "glorious and royal ancestors," gives him the greatest possible opportunity for irrepressible and inimitable comedy. He comes to the Princess Theatre the week after next.

"The Flower of the Ranch." There is a little romance connected with "The Flower of the Ranch," the big musical comedy, which will be seen here at the Grand Opera House next week, but it has been very successful elsewhere. In his music also he is said to have caught the spirit of the swiftd western picture, and the result of this is a characteristic dash and swing to a dozen or more musical numbers introduced.

"Anita, the Singing Girl." A new play along entirely new lines, with an equally new budget of catchy songs, will be the presentation for this week at the Majestic, when "Anita, the Singing Girl," a comedy drama, musical comedy, that has been very successful elsewhere, will be seen for the first time in this city. Agnes Cameron, who has been prominent in dramatic, musical and vaudeville circles, is featured in

soaring local color and picking out types for his characters. The leading character, played by Howard himself, was modeled after a young Englishman, who had come to America as a settlement man, tried cow-punching, and found it to his liking. He saved his money, bought a ranch, and became a power in his community. He was able to entertain Mr. Howard very kindly and divulged to him the story of his first vaudeville appearance here. This incident Howard took as the basis for his play, and the leading roles

draw from the Englishman and the girl, with the result that "The Flower of the Ranch" might almost be said to be taken from real life. Mr. Howard has written a play whose story reminds one of the delightful compositions of Bret Harte. In his music also he is said to have caught the spirit of the swiftd western picture, and the result of this is a characteristic dash and swing to a dozen or more musical numbers introduced.

LOUISE GUNNING as "Sophia" in Tom Jones.

any bill and he is promising a budget of new songs and parodies. Another feature for the week is Barney Fagan and Henrietta Byron in their well-known singing and dancing specialty. Juno Salmo is a newcomer to Toronto and is called the Devil Dandy. He has an act that is a sensation and employs magnificent stage effects. Redford and Winchester are great burlesque jugglers and their act is full of bright comedy.

Maize Scott and the latest song hits and new pictures in the kinetograph fill out the big show for the week. The Mendelssohn Choir. There only remain the rehearsals for this afternoon and evening when the Mendelssohn Choir will be in the park in connection with their series of choral concerts, beginning Monday, the 15th inst. The program for each evening provides the best concert to be heard in this city as yet heard. Dr. Vogt is enthusiastic about the spirit as corps and the musicianship of the Mendelssohn choir, and says that the Mendelssohn choir many to be only second, if not equal, to the Boston Symphony Orchestra. For his own part, he will present several novelties. Dr. Vogt, in his novel act, has not included a composition of his own, as a composer he showed us last year the noble quality of his own act. POSTAL BARRIERS FOR AMERICAN MAGAZINES MAY ENTER

United States Periodicals May Apply for and Secure Entry to Canada at 2nd Class Rate.

WASHINGTON, Feb. 7.—In May, 1906, the Canadian postal authorities gave the six months' notice required by the convention, that they would no longer permit American newspapers and periodicals to be mailed to points in Canada at the second-class, or pound rate, of postage.

The notice of abrogation of this agreement by Canada was protested by the United States postal authorities, but Canada had a legal right to abrogate this feature of the convention, the protest of Postmaster-General Meyer was without avail.

After nearly one year under this agreement the Canadian postal authorities reached the conclusion that the conditions which they had forced upon American publishers were not to their advantage, and sought a re-opening of the question.

RESTORATION OF OLD PRIVILEGES.

A further agreement has been reached under which legitimate daily newspapers may be mailed in Canada without payment of postage at the second-class rate.

2 GENTLEMEN SCOLDING OVER THE BILL OF COSTS

Justice Mulock's Summary of Arnoldi-Cockburn Suit—Evidence is Concluded.

The evidence in the suit of Frank Arnoldi, K.C., for \$7500, claimed for legal services rendered to G. R. R. Cockburn, ex-president of the defunct Ontario Bank, has been concluded without any thing having been brought out of the class sensational anticipated.

Still there were some interesting remarks from the witness-box yesterday. Police Magistrate Denison, Crown Attorney Corley, Mr. Cockburn, Mr. Arnoldi and Mr. Robinette giving expression to fact and opinion. The crown attorney was called by the defense, but his evidence rather emphasized the importance of Mr. Arnoldi's work.

Mr. Cockburn was on the stand nearly all morning. Questioned by his lawyer he said that Mr. Arnoldi's evidence relating to the proposed option which was to be exclusively for the London and Canadian Loan Company was incorrect.

The bill of particulars was gone into and the witness said that the item referring to "keeping the press quiet" was nonsense.

Mr. Hodgins introduced the ability-to-pay idea. Mr. Watson objected, but Mr. Cockburn stated that he had lost \$50,000 in the Ontario Bank smash, that he had lost heavily in the great Chicago and Toronto fires, and about \$20,000 in the Western Assurance Company. There was an income loss of \$13,000 a year besides the stock loss.

Mr. Hodgins then commenced to refer to matters connected with the bank when his lordship reminded him of the position of solicitor to the London and Canadian Loan Company.

Mr. Cockburn said that it had been said that he wilfully signed a false monthly return. He did not.

Mr. Cockburn denied that he was unfit to instruct or to consult with Mr. Arnoldi. It was not made president of three or four companies that kept his reputation. I am not the kind of man that sits still and does what he is told.

Mr. Cockburn went on to say that he had seen Arnoldi many times in reference to that gentleman's own business as a solicitor for the London and Canadian Loan Company.

The bill of particulars was gone into and the witness said that the item referring to "keeping the press quiet" was nonsense.

Mr. Hodgins introduced the ability-to-pay idea. Mr. Watson objected, but Mr. Cockburn stated that he had lost \$50,000 in the Ontario Bank smash, that he had lost heavily in the great Chicago and Toronto fires, and about \$20,000 in the Western Assurance Company.

be divided into two parts. While engaged as actual counsel he should charge \$100 per diem as a fair charge. As to the preparation work as counsel, that depends on the appreciation of the lawyer of his time. It is very hard to say what this is worth to Mr. Arnoldi.

"You have heard that fees amounting to \$500, \$600, \$1000 have been charged in criminal matters," cross-examined Mr. Watson.

"Yes, I have, but they did not come my way," said Mr. Robinette, who added that if an agreement was made between a lawyer and a client in criminal matters, it should be in writing, as a matter of business.

Mr. Arnoldi recalled. He said that the interview between himself and Mr. Cockburn regarding the fee was not amicable. The latter had to be told that he (Cockburn) was in receipt of from \$14,000 to \$16,000 per year from his directorates, aside from his personal income, and that he had lived in luxurious style, using up all his income, as it came in.

Mr. Arnoldi said that he had "to travel very far, as far as the crown traveled."

"How far did the crown travel in the McGill case?" asked Mr. Watson.

"That will do," said Mr. Watson. At this point Mr. Watson mentioned the correspondence between Arnoldi and Cockburn, after the bill had been rendered, but his lordship said that he had read over the letters and could see no significance in them.

"There were two gentlemen scolding each other and quarrelling over a bill of costs," said his lordship.

"I want to say," said Mr. Arnoldi, "to the court, in regard to Mr. Cockburn's appreciation of my work. I was sick in bed on Jan. 18, 19, 20, and every day Mr. Cockburn came and spent three or four hours. One night he sat on my bed until 1.30 in the morning. I could never get rid of him. He haunted me."

"You are making him pay now for haunting you," said Mr. Hodgson.

Mr. Arnoldi did not answer.

Frank H. Pope, former chief clerk of the Ontario Bank, said that he had only seen Arnoldi at the bank on one or two occasions. He had had no interview with Mr. Arnoldi, except over the phone. Arnoldi had charged for interviews with Bogart and Morden which had been prepared by these gentlemen.

His Worship Desires That Government Give Electrical Development Co. a Share.

The board of control showed indifference yesterday when Controller Harrison brought forward his proposal that the Toronto Electric Light Co. be asked to allow the city to make a valuation of the company's plant thru an expert to be appointed by the city.

Controller Hocken said he would favor such a proposition only when negotiations had reached the right stage, and Mayor Oliver agreed. His contention was that the board should first find out whether the government for the hydro-electric commission would make an arrangement by which the Electrical Development Co. would get a share of the contract for supplying power from Niagara, which contract is at present held entirely by the Ontario Power Co.

Nothing could be done until this information had been obtained, the mayor held.

Controller Ward's opinion was that the city shouldn't "chase after the Electric Light Co. case."

"We shouldn't present circumstances," agreed Controller Hocken.

Controller Spence feared that the only information the city's expert would get would be such as the company was willing to give out and that the "essential knowledge" would be withheld.

"There'll be no time lost," he promised.

**ELECTION ACT CHANGES BALLOT MADE SECRET**

**Ontario Will Adopt Much of the Federal Procedure—Trials of Election Cases.**

Wholly technical was the sitting of the legislature yesterday. A number of petitions were presented indicating the continuing unpopularity of section 806 of the Municipal Act. First readings were given to bills introduced by Hon. Mr. Foy respecting controverted elections of members of a legislative assembly, respecting elections of members of the legislative assembly, respecting the executive council, respecting the provincial public matters, and respecting the legislative assembly.

The bills are the result of a committee of the legislature which was appointed and effect of the revision of various existing acts. The Election Act introduced a number of modifications of existing practice, and brings provincial procedure into conformity in many respects with the Dominion procedure. The ballot, for instance, has been adopted, and no ballot, except in one instance, can hereafter be identified. The names of candidates will be printed on separate pieces of paper, and placed in a box. The voter's list is presently used by the D.R.O. is abolished, and a separate voter's list will be used in future. No voter will be recognized who is not on the list. Indians not living with a band are ordered to register. A grant or not, have been given the franchise. Temporary absence from the district will not disqualify a voter. Returns will be permitted regardless of the size of the majority. Corrupt practices are regarded from a stricter standard than before. An application for a government position pending an election is made an offence, as is also impersonation. The hiring or sending of rigs for hire on polling day is a corrupt practice. The circulation of a false rumor that a candidate has withdrawn his name is prohibited. Several penalties are provided for corrupt practices. A returning officer will be held responsible for the accuracy of the list. In the controverted elections bill it is provided that an election must go on independently of a dissolution of the legislature. Cases may be tried in future have no option, as hitherto, and this court has final decision on elections, the bill following the English act in this matter. A summary of the bill is given in the executive committee.

**TARIFF REFORM LOVEFEAST.**

**Protectionists More Than Satisfied With Progress Made.**

LONDON, Feb. 7.—The Tariff Reform League held its annual "lovefeast" here today, and, judging from the enthusiasm of the fifteen hundred delegates in attendance, the protectionists are more than satisfied with the progress of the movement which Joseph Chamberlain himself declared in a message he sent to the meeting "has surpassed my most sanguine expectations."

**PLOW AND ENGINES OFF TRACK**

**Temporary Defeat in Battle on Goderich Division.**

GODERICH, Feb. 7.—The Grand Trunk had quite an accident here today. Fully determined to open their line, they started a plow with three powerful engines from Stratford to Goderich. All fared well until approaching the Goderich yards, when, running at high speed, the plow jumped the track and went down the incline towards a house, followed by two of the engines. The third engine remained on the track.

NEW YORK, Feb. 7.—The Association of Life Insurance Presidents, of which former President Grover Cleveland is chairman, at its regular meeting today instructed its secretary to proceed to Albany and present bills asking for a modification of the life insurance laws of New York State in three particulars.

**TORONTO'S MACEDONIANS.**

**Were Stopped at Boston—Referred to in the House.**

OTTAWA, Feb. 7.—(Special.)—Claude Macdonell called the attention of the government in the house today to the case of a party of Macedonians, formerly residents of Toronto, who were stopped at Boston by officers of the Canadian immigration department while on their way back to Toronto after a visit to their native land, on the ground that the Canadian authorities feared they would become a public charge. They were sent to Liverpool and returned to Canada at considerable expense. Mr. Oliver promised to enquire.

HERE is a Reason—Why the Good People of America buy Cascarets as Fast as the Clock Ticks. Every second some one, somewhere, is buying a little Ten-Cent Box of Cascarets. 1, 2, 3, 4, 5, 6—60 times to the Minute, 60 Minutes to the Hour, 3600 Boxes an Hour, 36,000 Boxes a Day of Ten Hours, 1,080,000 Boxes a Month, and then some. Think of it—220,000 People take a Cascaret tablet every day. Millions use Cascarets when necessary. The Judgment of Millions of Bright Americans is Infallible. They have been buying and taking Cascarets at that rate for over Six years.

It is not an Experiment, not an Accident or Incident, but a sound, Honest Business, based on Time-Tried-and-Tested Merit, never found wanting. There is a Reason. Cascarets are the implacable foe of All Disease Germs; the incomparable cleanser, purifier and strengthener of the entire Digestive Canal. They Act like Exercise on the Bowels. Muscles, make them strong and active—able to Help Themselves do their work—keep themselves clean. Cascarets are the safe-guard of Innocent Childhood against the Dreadful Death-dealing Dangers that threaten the Lives of the Little Ones. They are Purely Vegetable, absolutely Harmless, always Reliable and Efficient.

**Was a Little Red Tape, But Finally Got Him There.**

ST. CATHARINES, Ont., Feb. 7.—(Special.)—A young lad of Merriton, named William Fix, who has been sadly neglected, was taken in charge near St. David's a few days ago by High Constable Boyle, and brought before Police Magistrate Comfort, who claimed he could do nothing as the boy had passed the age of 14 years. The constable appealed to Crown Attorney Brennan, who informed him that the boy could be sent to the Industrial School at Mimico. Boyle communicated the intelligence to the magistrate, who returned him to Mr. Brennan with several statute books with pages bearing upon the case duly marked.

**FRANCO CALLS THEM MADMEN**

**Assassinations Not Result of an Elaborate Political Plot.**

MADRID, Feb. 7.—Senhor Franco does not believe that the murders of the King and crown prince resulted from an elaborate political plot; they were the acts of madmen instigated by a money bribe. The best proof of this is found in the fact that after the assassinations when the monarchy was passing thru its critical hours, and the ministers without government, no serious attempt was made to proclaim a republic.

**WEAK MEN, LISTEN!**

**I Can Make You Strong AND YOU CAN PAY WHEN CURED.**

Have you lost the fire and strength of youth? Have you "come and go" pains in your back and shoulders? Are you growing old too soon? If you have those symptoms or any other sign of breaking down of your nerves and vitality you will find new life in electricity as applied while you sleep.

**DR. McLAUGHLIN'S ELECTRIC BELT**

is for you—it is the best way to use electricity. It pours a gentle stream of life into the weakened parts continually for hours every night. It refreshes the nerves, expands the vital powers, enriches the circulation, and makes you feel bright, active and vigorous in one night's use. You get stronger each day, and in a few weeks you are stronger and younger in the fire of youth. It cures to stay cured Nervous Debility, Weakness, Rheumatism, Lumbago, Kidney and Stomach Trouble, Indigestion and Constipation. It is grand this method of mine. **Business Men, Professional Men, Ministers, Athletes, Men of National Renown** and men in every walk of life who have used it are praising it.

**The Following were Cured and are Now Happy—**

Dear Sir,—Your Belt has done wonders for me. I very seldom get the pain, and I wish I had tried it before, as I can do my work twice as well. I have told about what the Belt has done. I cannot thank you enough for what you have done for me, and I am sure I would have given twice as much if I only thought of it so much. I have been treated for years by all sorts of doctors, but I have received more benefit from your Belt than all of them, so tell you I am perfectly satisfied with my investment, and will recommend it to all I can. Again thanking you for your kindness and all you have done for me, I remain, Truly yours, W. ATYLL.

MARKETS VERY NARROW QUOTATIONS ARE HEAVY

Wall Street Prices React Under Urgent Pressure—Sentiment on Toronto Market Bearish.

World Office, Friday Evening, Feb. 7. The Toronto Stock Market showed the usual animation to-day, but the transactions in the market were principally for the account of trading brokers. A feeling of apprehension pervaded the exchange from the opening, but no one was prepared to say why this was the case.

Wall Street Pointers. No pronounced improvement in steel or iron trade, but slightly more optimistic feeling.

Steel preferred still commands a premium in the local market. Pennsylvania orders 50,000 tons of steel rails, deliverable in present year.

WASHINGTON.—The director of the mint to-day purchased 150,000 ounces of silver at 56.31.

ALBANY.—The public-service commission of the second district to-day asked the New York State to rescind its order to explain why it did not ask the consent of the commission to issue the \$30,000,000 of new certificates which has been offered for sale.

COPENHAGEN.—Owing to the recent heavy withdrawal, the Copenhagen Freeholders' Bank has temporarily suspended payment. Capital about \$5,000,000.

DENVER.—The American Smelting and Refining Co. has announced a reduction in wages commencing Feb. 11. The reduction affects 700 men, and varies from 10c to 20c a day.

NEW YORK, Feb. 7.—Further short covering in the stock market to-day, especially in rally leaders, is indicated by developments, with strength until a manipulative check or real long stock sell-off is met, when reactionary tendencies may again be expected in the trading area, which is still maintained. Fair returns on stocks bought after covering in the weakness yesterday should not be ignored. Reading and Northern Pacific are in excellent position for rally leaders. Union Pacific has gained a little technical strength, but may be slightly reactionary for a time. We would buy if them.—Financial News.

NEW YORK, Feb. 7.—Unfavorable developments, according to reports we receive, still overhang the local financial situation, and now there will be liquidation from time to time in both bond and stock. A disconcerting feature in the circumstances is the fact that the good demand for bonds recently manifested seems to have been pretty well supplied, notwithstanding the prevalent ideas of the great amount of idle money in the country and the desire to invest. It would seem that the public does not differentiate very much between bonds and stocks when the attitude of the administration as opposed to Wall Street is taken into consideration. This makes far more difficult the task of those bankers who are doing their best to arrange absolutely necessary financial negotiations. About the best that the bulls may hope for with reason is intermittent rallies when the bear position is over-extended. On the

other hand, there are so many bear arguments developing from time to time in the way of earnings, dividends, security issues, poor business and failures, that the market all the while would seem to be not very far from the edge of a bad break. We would sell the active issues on all the bullish, we look for a dull professional affair, but before next week's holiday shorts should have an opportunity to cover to advantage.
