LOOK FOR FURTHER SHARP DECLINES IN FOODSTUFF PRICES

Fresh Slump in Wheat at Chicago Strengthens Optimistic Views.

Chicago, Sept. 26.—Another sharp drop in the price of wheat futures in Chicago, declines extending from 3c to 7c a bushel following Friday's 12c break, strengthens views of economic experts here that foodstuffs in general are trending definitely downward in price as well as manufactured goods.

POLES PRESS HARD ON RED STRONGHOLD

Hard Fighting Now Taking Place in Vicinity of Grodno.

Warsaw, Sept. 26.—Hard fighting is taking place in the vicinity of Grodno on the Niemen, a stronghold which is being hard pressed by the Poles in the campaign of their northward army against the Russians, says the Polish communique issued shortly after midnight dealing with Saturday's operations. To the southeast of Grodno, the Bolsheviks brought up reinforcements, but were repulsed in an attack in which the Poles made important captures of prisoners and machine guns.

LEGAL TO SEND LIQUOR BY TRUCK

Montreal Despatch Says Transportation into Ontario in Motors is All Right.

Montreal, Sept. 26.—(Canadian Press)—Loopholes in the prohibition law and what appears to have been a too great eagerness to make cases, have resulted in an awkward situation for the officers seeking to enforce the prohibition law following the seizures of last week on the roads leading out of Montreal of automobiles laden with liquor. The trouble with the seizures is that the Quebec prohibition law does not specify that it is illegal for a man to go to a wholesaler in Montreal, load his automobile with liquor and take it outside the province. Orders for Ontario are usually shipped there by express, but there is nothing in the law forbidding the use of automobiles in the connection. On the other hand, liquor so shipped, is known to be sold up and down the province, but proof of such sale is necessary before seizure can legally be made.

SWISS GOVERNMENT TURNS DOWN SOVIET

Will Ask Lenine's Emissary to Get Out of the Country.

Berne, Sept. 26.—The Swiss government has decided not to open political or commercial relations with soviet Russia. Lenine's emissary, named Brattmann, who recently arrived here to inaugurate relations, will be asked to leave Switzerland on Friday, says Leo Kameneff, who has been in London in connection with trade negotiations, and return to Moscow. The fact that Swiss residents in Russia have been mistreated by the Bolsheviks has influenced the Swiss government in its present action.

Vancouver, B. C., Sept. 26.—The Duke of Devonshire, governor-general of Canada, received word on Friday of the death in England of his mother, Lady Emma Cavendish. The viceregal party which arrived here yesterday, will not be able to fill all their engagements on the coast in consequence.

STRIKERS IN JAIL SEND A MESSAGE

Delivered in Winnipeg by R. E. Bray—Sooner Stick Than Be Aided by Labor Council.

Winnipeg, Sept. 26.—R. E. Bray, the first of the local strike leaders to be released from jail today made his first public speech to the labor men. He delivered a message from the other leaders now in jail to the effect that they would sooner stay in custody than be released by the efforts of the Trades and Labor Council or get out so as to get credit for Tom Moore or P. M. Draper. Another part of the message said the imprisoned leaders believed themselves to have been somewhat overlooked in that the workers were either afraid or unable to fight by means of a strike on their behalf.

STERN REPRISALS QUICKLY FOLLOW MURDER OF POLICE

LYNCH WAS SHOT IN SELF-DEFENCE

Dublin, Sept. 26.—The judge conducting the military inquiry into the death of Councillor John Lynch, who was shot in his room at the Royal Exchange Hotel last Wednesday morning, finds that the fatal shot was "fired by an officer of the crown in self-defence in the execution of his duty." Councillor Lynch was a prominent Sinn Feiner.

Three Civilians of Belfast Killed in Homes by Armed Men—Killings Were Deliberately Planned—City Seething With Excitement, and Rioting is Resumed.

Belfast, Sept. 26.—The Falls District of Belfast was seething with excitement today as a result of the murder Saturday night of a policeman, the wounding of two others, and the rapid vengeance enacted in the killing of three civilians, who were shot down in rapid succession by bands of men who visited their homes. Previously the shootings in this city had occurred in the heat of rioting, but now for the first time deliberately planned killings have been carried out. The affair had its beginnings around 11 o'clock last night, when Leonard and Carroll were patrolling the Falls road, when passing a public house they heard footsteps behind them. Swinging around they were confronted by two men armed with revolvers, who ordered "hands up." The Simonsons, with the hold-up order, fire was opened upon the officers and Leonard fell dead, the first bullet taking effect in the breast. His companion had a miraculous escape. Four shots were directed at him. Three of them missed, the fourth lodging in the thigh. Apparently thinking both men dead, the assassins made off. At about the same time Constables Farrell and Kearin were fired upon in a locality about a mile from the scene of the other attack. The assailants sprang upon the policemen unexpectedly. Farrell was shot in the arm, Kearin was knocked down and several shots were fired at him while he was on the ground. Some of the bullets passed through his cap without touching his body, and he came away from the affair unscathed. Farrell was taken to a hospital.

DESIGNS OF SOVIET ON U. S. REVEALED BY ARREST OF RED

Plans for Tying Up Industry Found Among Belongings of Lenine's Ex-Secretary.

Chicago, Sept. 26.—Original copies of orders from the Russian soviet government at Moscow to its representatives here were said today by police, to have been found among the belongings of Witty Schachman, alleged radical, and formerly secretary to Nikolai Lenine, who was arrested yesterday in a raid on communist headquarters. Some of the orders were dated as late as Sept. 1, 1920, and threatened to strike the industry for failure to comply with plans, or failed to destroy copies of orders received. Other documents told of plans to tie up industry thru a general railroad strike, so that the entire nation would be easy prey to a revolution. Details for a revolution in Japan, Hindustan and Turkey, also were revealed. More than \$20,000, had been sent to Chicago alone by the soviet government, and receipts for \$15,000 paid out were found in Schachman's rooms, police say. Schachman was born in Odessa, Russia, fleeing from there when 20 years old to escape military service, he said. After working in Canada for some time he came to Chicago and has worked ostensibly as a tailor. He is thirty-seven years old.

39 BILLION MARKS GERMANY'S DEFICIT

Loss of Her Colonies Has Greatly Changed Her Economic Situation.

Brussels, Sept. 26.—German reports to the financial conference in progress here, attribute the present financial condition of the country to the length of the war. Germany's decline in financial strength is shown clearly by the fact that the national debt of the empire proper, exclusive of those of the federated states, has risen from five billion marks before the war, to 240,000,000,000 marks. The government's budget estimates for 1920 put the deficit at 40,000,000,000 marks, or 25,000,000,000 marks more than the 15,000,000,000 marks provided for in the budget of 1920, for the same purpose. Loss of territory, of population, of production and merchant shipping are dwelt upon, and attention is called to the fact that Germany's relation to the economic situation of the world has been greatly changed thru the loss of her colonies. A table annexed to the report shows that the exports of Germany, including products furnished an account of reparations, exceeded imports by six hundred million marks in April, and by 195 million marks in May. The balance of trade against Germany in 1919 was 22,000,000,000 marks. The report explains that the increase in export receipts is due essentially to the depreciation in the value of the mark.

25 WERE KILLED IN KOREAN RIOTS

Japanese Papers Claim Mob Was Led by Students From Canadian Mission.

Gensan, Korea, Sept. 26.—Twenty-five persons were killed in rioting here Thursday night, when Korean students attacked and destroyed or damaged branches of the Korean Industrial Bank and the Oriental Development Company and seven Japanese houses. The following night there was further shooting, resulting in additional casualties, the number of which has not been learned. Arrests of alleged participants in the rioting are continuing, and troops and armed civilians are searching the country for suspects. Reports printed in Japanese newspapers allege that the rioting was led by students from the Canadian Presbyterian Mission.

DECLARE NO SUGAR BOYCOTT FROM CUBA

Canadian Commissioner Reports Cuban Growers to Wait for Good Price.

Ottawa, Sept. 26.—There is now little likelihood of Canada receiving more sugar from Cuba this year. In a despatch to the department of trade and commerce, H. A. Chisholm, Canadian commissioner at Havana, Cuba, writes: "Whatever may be the existing stocks of raw and refined sugars in the United States and Canada, it is now a certainty that the world cannot count on any appreciable quantities of Cuban sugar until the sugar mills commence grinding the last crops towards the beginning of the new year."

BISHOP SWEENEY'S ELOQUENT PLEA FOR LEAGUE OF NATIONS

Wishes It Were Possible for Canada to Accept Mandatory Power.

"God hath made of one blood all nations to dwell upon earth." This was the text upon which Right Reverend Bishop Sweeney based one of the most stirring addresses he has delivered to a Toronto audience in many a long day. And the touchstone of his address was the composition, the grandeur, the responsibility and the permanency of the covenant of the League of Nations as expressing the true limits of Christian idealism, brotherhood and humanity, a grandeur and permanency of ideal which formed the chief theme of discussion and resolution at the recent African conference at Lambeth, attended by 33 bishops from all parts of the world. "It is notable that the presiding genius of the very first committee of that great conference of Lambeth, which adopted the ideal of Christian brotherhood of nations and races as expressed in the covenant of the League of Nations was the bishop of the Cape of Good Hope."

LAST TWO BANDITS KILLED BY POSSE

In Death-Battle With Saskatchewan Poice—Fire 400 Shots.

By Canadian Press. Prince Albert, Sask., Sept. 26.—True to their vow not to be taken alive, the two remaining of the quartet of bandits who held up the Red Deer lumber camp a week ago were taken dead by a posse of police late Saturday afternoon. They were taken from a hay-stack, five miles east of Tisdale, after having held the police, who surrounded the stack, located in the centre of a 200-acre field, for five hours. They stood pat to the very last and constantly returned the police fire. The capture was effected only after they were riddled with rifle and revolver shots and the hay-stack had been set on fire. The bodies are now hard to recognize, but on the arm of one man are several tattoo marks, including a Russian name, which has been interpreted as Joe Truchuck. No name could be found on the other man except that it was learned from the two bandits captured alive that he went under the name of "Tony." The battle, which preceded the capture of the last two, was probably the most desperate ever between police and bandits in the history of Canada. Over 400 rounds of shot were fired by the police and bandits and all of the posse escaped unharmed.

INFLUX OF PEACHES CAUSES PRICE DROP

Fruit Goes From 85 to 50 Cents Basket at Earlscourt.

The result of a great influx of peaches from the Niagara fruit belt caused a drop in the price from 85c to 50c per basket, which they were selling for on St. Clair avenue Saturday evening. Press reports of a fall in clothing prices and other wearing apparel will hit some of the northwest merchants pretty hard, as they already have big stocks on hand for the fall and winter season. Information of a few weeks back indicated a rise rather than reductions, and now the falling in this section is that high prices will not be tolerated by the public, which is largely the working class around here.

SOVIETS TO ANSWER POLISH PROPOSALS

Conference Will Meet Today and Work Out Details of Peace Terms.

Riga, Sept. 26.—The Russo-Polish conference will be resumed tomorrow. The soviets are expected to answer the Polish counter proposals, M. Joffe having agreed to this at M. Dombolski's request, in spite of the fact that the Poles are not yet ready to answer the Moscow declaration presented on Friday. The conference will begin working out the details of preliminary peace proposals with a meeting of the joint boundary commission after the preliminary session on Monday, both the soviets and Poles considering it necessary to dispose of the question of the line of demarcation first. The boundary commission is the only one yet appointed, M. Joffe informing the Poles that the soviets would appoint their members of the other commission later. Neither delegation showed activity today. The Russians rested, while several of the Poles, including M. Dombolski, went hunting.

LIVE HOG INDUSTRY SUSTAINS BIG LOSS

Ottawa, Sept. 26.—The live hog industry of Canada sustained a loss of approximately \$1,000,000 during the seven months ending July 31. The sum represents the difference in value between the visible hog market during that period and the same period of 1919. The loss in revenue is attributed to the liquidation of breeding stock during 1919.

SINN FEIN ADHERENTS ASSEMBLE IN TORONTO

Bitter Resolution Passed Denouncing Toronto Orangemen in General and Mayor Church in Particular for Attempt to Ban Meeting—Quebec Branch Declares a Boycott Against Toronto.

The Toronto branch of the Sinn Fein Determination League for Ireland sent in a written notification to The World last night that despite the opposition of the Orangemen of the city, the league was able to hold a meeting in Toronto yesterday, with about 500 delegates in attendance. It is stated that Lindsay Crawford acted as chairman, and that delegates to the forthcoming national convention to be held in Ottawa on Oct. 16-17, were elected. A resolution carried by the meeting consisted largely of a bitter tirade against Toronto Orangemen and Mayor Church, who are accused of trying to suppress by mob rule the rights and liberties of Canadian citizens. The Orangemen are declared to be trying to "revert the reign of terrorism that brought union government into power in 1917." It is alleged that a fiat has gone forth that the Sinn Fein government must be returned to power at any cost, and there are references to "organized mob violence," "czarist police regulations," "brute force," "Orange-Tory alliances," "hunting Orange leaders," etc., etc. The concluding paragraph follows: "This convention further proclaims its steady support of the Irish in Ireland in their determination to assert the right to the full and free exercise of the principle of self-determination. That right inheres in the Irish nation. Only a perverted intellect would concede this right in the case of the Poles and other small nationalities and deny it to Ireland. The Irish race has played a not unworthy part in the building up of the Canadian nation. In lending its moral support to the cause of human freedom in Ireland it has made its case on the fundamental principles of the Canadian constitution, which admitted alike by English and Canadian statesmen, confers upon this country the unrestricted right to complete its national evolution by the declaration and assertion of its sovereign powers as the co-equal in status of the English nation. Quebec Threatens Boycott. A Quebec despatch last night gives a resolution issued by Quebec branch of the Self-Determination League for Ireland, in condemnation of Mayor Church's attitude in his recent speech as the Toronto resolution. References are made to the "weak mentality of Toronto's ultra-loyalists" and says nothing but intolerance and justice can be expected from men of the same strain as the Belfast police brigades and hordes of Catholic property." The resolution goes on to declare that the members of the league will boycott Toronto, its banks and business houses, and financial concerns and insurance companies. The resolution concludes: "Free speech in Toronto is a dead issue, and these are the folk first to denounce other provinces who would dare do their own governing politicians. The Toronto mayor's plea for objectivity in the holding of our country is a poor one. The trouble, if any, would be to sell, part and parcel, of Toronto's own making."

GIVES EVIDENCE OF GAME-THROWING

National League President Publishes Details of Private Investigation.

Chicago, Sept. 26.—President John Heydler of the National League tonight made public evidence he has gathered in a private investigation of alleged baseball gambling and "game throwing" and declared President Comiskey, Chicago Americans, and Manager Gleason were convicted after the first world series game last year that the series had been "fixed" and sought his aid in an investigation.

The matter was brought to the attention of President B. B. Johnson, American League, but Johnson did not seem very enthusiastic over starting an investigation, Heydler said.

Heydler brought the name of Jean Dubuc, former Detroit American League pitcher, into the scandal, and also gave hitherto unrevealed details of the Hal Chase and Lee Magee case.

President Heydler quoted J. C. (Rube) Benton, New York National League pitcher, as saying Dubuc was the man who received telegrams from Bill Burns, former Major League pitcher, tipping him that the world series had been fixed, and that Benton had received his information from this telegram.

Benton told Heydler he had seen Hal Chase make one bet of \$100 on the series, Heydler said.

Says Magee Confessed. Discussing the Magee case, Heydler said he and William Veck, president of the Chicago National League, had obtained Magee's confession that he had attempted to throw a game, and that Magee had shown them a check sent him by Hal Chase.

Heinz Zimmerman also had been accused of throwing games, said Mr. Heydler, but he would neither confirm nor deny reports that Zimmerman was released by the New York Giants for that reason. Reports that Zimmerman was suspended a year ago for trying to throw a game, and no longer breaking training, as was announced, were not denied.

President Heydler expects to testify before the grand jury Tuesday. He will give additional evidence if he does not disclose tonight, he said, including a quantity of documentary evidence.

Deny They Are Involved. Fred McMullin and Buck Weaver, Chicago American players, tonight denied they were involved in the alleged "throwing" games in the world series last fall. Reports of evidence given the Cook County grand jury, said McMullin had acted as the "go-between" between a ring of gamblers and the Chicago players. It also was said McMullin had taken a small oblong package to Weaver's home after one game and that Weaver, when he came home and found the package, refused at first to accept it, but finally did keep it.

PAVING THE WAY FOR REAL WORK

Delegates to Financial Conference Are Holding Informal Meetings.

Brussels, Sept. 26.—The public session of the financial conference has been characterized only by the presentation of an enormous mass of data and figures, the instant. He invited co-operating in an effort to find a way for the financial crisis of Europe and the world, and an attempt to find a way to reserve what he had to say for the conference itself, adding that the German delegation might be counted on to do everything possible to make the conference a success.

Dr. Schuller, head of the Austrian delegation, expressed the hope that some generally effective means might be found by the conference, but said he regretted only unofficially creating a "Balkan" which reminded him of a conference in which lenders and creditors, with the principal creditor being the United States, with a deficit of 12,000,000,000 crowns, is the possibility of a "Balkan" and export, which means raw materials, or in other words, credit abroad.

The outstanding features of the financial statements thus far presented at the conference, he said, were the "Balkan" without exception, and the "Balkan" ahead, provided capital necessary for the well-known increase of 24,000,000,000 crowns, which means raw materials, or in other words, credit abroad.

TO BE BETTER IN WALL STREET

Oils, Rails and Some Steels and Equipments Prominent in Rally.

New York, Sept. 25.—The short interest in the stock market, attempted at the outset of today's brief session to press its advantage of recent days, further losses being sustained by many speculative shares.

Buying of oil, rails and some of the steels and equipments turned the tide, however, the general list making rapid recovery, with some substantial gains at the fairly steady finish.

Increased strength was shown by the bond market, in which Liberty issues were conspicuous for additional gains.

OPTIMISTIC OVER G.W.V.A. OUTLOOK

Nominate Sir Arthur Currie for Empire Convention of Veterans.

C. G. MacNeil, Dominion secretary-treasurer of the G. W. V. A., visited Toronto yesterday, in order to discuss matters of policy and administration with officials of the provincial and district commands.

The request for a conference to "agree on a common political policy, with a view to future amalgamation," was keenly debated, and the resolution passed by the convention is made interesting by reason of Mr. MacNeil's statement that it reflects the majority opinion of members of the organization.

1. That assurance be given of the keen desire of all members of this association to promote the utmost degree of co-operation between all returned soldiers' organizations in advancement of common aims.

2. That any conference to discuss the question of co-operation be inclusive of representatives of all soldiers' organizations in Canada of a national character.

3. That the officials of the G. A. U. V. be informed that until the question of political action has been referred to the general membership of this association, it is impossible for the representatives to enter into the alliance proposed.

4. That a conference be held of the presidents and secretaries of the major soldier organizations in Canada solely for the purpose of devising ways and means for promoting co-operation on a basis that is now of common interest.

5. That at such conference discussion be made of establishing a permanent national council, with representation upon a per capita basis to discuss all questions affecting returned men generally, it being understood that said council shall not be endowed with superior executive power, and that a report be made back to the association of the result of such discussion for confirmation by the membership.

Offer Prize for Ritual. The convention recommended that a prize be offered for the best ritual for both Dominion and provincial command use, in order to follow out the fraternal basic idea of the 1920 convention. They called for full payment of war service gratuity to the pensioned widows of men who fell on active service.

They called for important amendments in the soldiers' insurance act, and nominated General Sir Arthur Currie as Canadian representative to the British Empire conference of veterans' organizations, to be held in Cape Town in February, 1921.

Protest was registered against the exclusion from the 1920 pension bonus of those C.E. pensioners residing outside the Dominion, and dealing with the demand for additional war bonus for the purpose of re-establishment of the pension on record as favoring the appointment of a royal commission, which would travel Canada to get at the facts of the case.

RESTAURANTS ARE NOW ON TRACK OF PACKERS

Walsh's Cafeteria Announces Reduction in Prices Today—Muirhead's Took Lead—Indignation of Public Having Good Results—Proprietors Declare Packing Houses Are People Making Big Profits—Staple Lines Dropping

The proprietors of restaurants are becoming concerned at the indignation of the public at the present prices of "eats" is evident by the reductions being announced. The owners of city restaurants declare that they will be losing money at the new scale of charges, and they further declare their determination to go after the packers in the same way as the public are going after them.

In Saturday, Muirhead's announced a reduction, and today, Walsh's cafeteria in Adelaide street, where over one thousand meals per day are served, commenced on a reduced price list. The rates will be as follows:

Table with 2 columns: Old Price, New Price. Items include Prime ribs of beef, Pot roast of beef, Lamb stew and vegetables, Roast spring chicken, etc.

Mr. Walsh told The World he would not be making money at the above prices, but as he had lately reconstructed his cafeteria at a cost of thirty thousand dollars and was out to please the public, he was prepared to put up with the consequences until the packers came to his relief by reducing their big profits.

Muirhead's Reductions. Muirhead's Ltd., announced on Saturday big reductions along its long line at their two cafeterias at Long street. Mr. Muirhead said he stood to lose temporarily on the new scale, but he believed the whole food situation was heading towards lower levels and wholesale prices would soon justify sweeping reductions by restaurants.

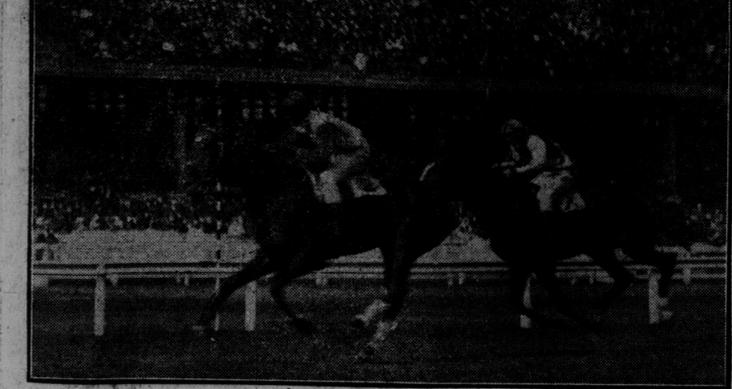

Staple Lines Dropping. These are happy days for the common citizen, for the reason probably for the winter and has his coal bin full. Prices of other necessities are on the toboggan, and financing the family is likely to be easier from now on.
