ANNUAL REPORT

— OF THE —

BOARD OF TRUSTEES OF QUEEN'S COLLEGE.

It is with renewed pleasure that the Trustees of Queen's College embrace the opportunity afforded by the meeting of Synod, to submit a brief Report upon the present position and operations of the important Institution entrusted to their care, together with full information as to the finances of the College. In these documents they will endeavor to show that, while the training Institution for the Ministry is keeping pace with the growth of the Church, and thus strengthening its claims upon the cordial support of the Synod, the benefits conferred by Queen's College are far from being confined to the youth passing through her Theological Halls, but are now felt in every profession and by every class in these North American Provinces.

During the session recently brought to a close, the number of young men studying for the Ministry has been larger than in any previous year, a fact which cannot fail to be gratifying to the Synod and Church. The Theological Hall embraces 17 students, an increase of 6 over last year, and in addition to these there are 22 young men in the Arts classes now prosecuting their studies with a view to the Ministry, making a total of 40 who hope in due time to be presented for ordination.

The following statement will show the number of students in each of the four Faculties:

The Preparatory School continues to be an efficient auxiliary to the College, and is attended by 45 scholars.

At the commencement of the session the Trustees had the pleasure of welcoming to the scene of his future labors the Rev. Principal Leitch, and they cannot better express their satisfaction with this appointment, than by stating that Dr. Leitch has more than realized those high expectations which the College and Church were led to entertain of his qualifications and fitness for the important office committed to him.

In addition to high standard of mental qualification which the Church wisely requires before admitting to the sacred office, the Principal has introduced a system of practical training for the duties of the Ministry, from which the Trustees venture to hope for the most satisfactory results.— The Theological students have had missionary and other duties regularly assigned to them during the winter at the following stations in and near Kingston:—

Pittsburgh—	Back Road,	Mission Station.
Do.	Front Road,	do.
Barriefield	—————	do.
Kingston—	House of Industry.	
Do.	Hospital.	
Do.	Jail.	

Valuable aid has also been rendered to the following Sabbath Schools :

St. Andrew's Church	Sabbath School.
Portsmouth	do.
Barriefield	do.
Kingston Union	do.

These practical duties are discharged under the immediate superintendence of the Principal, who frequently accompanies the students, takes part in the services, and by his advice and example affords instruction of a most useful kind. The services thus rendered are highly prized by those who attend at the various stations, but they are even more important to the students trained in this manner for the active duties before them in their future career, and whose energies are early drawn forth and cultivated. A large number of the students will this year seek openings as Catechists, under the direction of Presbyteries of the Church, a course rendered necessary by the wants of destitute Congregations, and without which many of the scattered adherents of the Church would be lost to her communion. For this sphere of labor the practical instruction afforded during the winter will greatly tend to qualify our students, and render them even more useful to the Church at large.

During the past winter the organization of the College has been completed by the formation of a Law Faculty, the expense of which the Kingston Bar have liberally engaged to bear. Three Lecturers have been appointed, one of whom, the Hon. Alexander Campbell, presides as Dean over the instruction of the Law students. Two of the Lecturers, Messrs. J. J. Burrowes and G. W. Draper, deliver regular courses of lectures in

the College, while the Dean presides over a moot class in the Court House, at which legal questions are argued as before a Judge, and decisions given. In the Law Faculty the students proceed to the degree of L. L. B., which qualifies to a certain extent for the Bar.

Queen's College is now the only one in British North America with a full equipment of the various Faculties of Arts, Theology, Law and Medicine. Three of these Faculties are largely attended by young men belonging to other Churches, among whom no complaint has ever yet been heard of sectarianism in the course of instruction. The wisdom of the founders of the College in placing it under the control of members of the Presbyterian Church of Canada in connection with the Church of Scotland, has at the same time been proved by the confidence with which parents of other Churches send their sons to the Institution, in the full persuasion that while no interference with their peculiar belief will be attempted, the whole course of instruction and discipline will tend, in the highest degree, to the cultivation of good morals and sound religious principles. Upon this fact, not less than upon many others, does Queen's College base her claim for a more just and equal distribution of the munificent endowment hitherto monopolized by the so called unsectarian University of Toronto, the benefits of which are chiefly confined to the City from which it derives its name.

It may not be unimportant to state, as marking the growing influence of the College, that a Botanical Society was formed in connection with it during the past session, which has been accepted by the Naturalists of Canada as the Society for the Province. Although yet in its infancy, the success of this Society has been most gratifying, and the Trustees feel that they are greatly indebted to the zeal and scientific attainments of the Secretary, Professor Lawson, for this happy result. The most distinguished Botanists of Great Britain, British America and the States, have contributed papers and sought the aid of the Society in the pursuit of scientific investigations, and part of the first year's volume of transactions is now published.

Another important acquisition during the winter is the Astronomical Observatory, which has been transferred to the College by the subscribers and Corporation of Kingston. A grant in aid of this has been obtained from the Provincial Legislature, and Mr. Airey, the Astronomer Royal of Greenwich, has promised his valuable services and co-operation. The prospects of the Observatory are such as to give good cause for hope that it will contribute in no small degree, to the cause of astronomical research, in addition to cultivating a knowledge of this most important science among the youth of Queen's College.

While thus mentioning the new and valuable accessories to the ordinary course of instruction at Queen's College, the Trustees have again to express their regret at the incomplete state of the College Library and museum. A few valuable additions has been received during the year, but much remains to be done to render this important department worthy of the place which it should occupy in the University. The Trustees trust that their want in this respect will kindly be borne in mind by the Ministers and Members of the Church whenever opportunities occur of procuring much needed contributions.

The care of the Bursary Scheme having been confided by the Synod to an active Committee, whose report will be duly submitted, the Trustees need not here attempt to prove the usefulness of this scheme. Although deeply grateful for the liberality of many of the Congregations and Members of the Church, the Trustees cannot refrain from giving expression to the earnest hope that many who have not yet contributed will do so at an early day. To the appeal which was made at last Synod, and repeated by special circular in January, but few Congregations have yet responded, and the much needed aid afforded to many most deserving students for the Ministry has been far too restricted in consequence.

His Royal Highness the Prince of Wales left a pleasing memento of his visit to Canada, as well as an expression of his interest in the education of Canadian youth, by the gift of Two Hundred Pounds Cy. to the College. This sum has been funded, and the interest will be annually appropriated as a Bursary, bearing the name of the Royal Donor, and made subject of competition among the students.

Much attention has lately been given throughout the Province to the munificent endowment for collegiate instruction in Upper Canada, hitherto monopolized at Toronto by the University and College there, to the total exclusion of other deserving institutions. Full information on this important question, and as to the just claims of Queen's College for a share of the funds, thus in good measure misappropriated or wastefully squandered, has been widely circulated throughout the Church. It is hoped that Ministers and Members of the Church will give this most important matter their earnest attention, as the effort to obtain a more just and equal distribution of these funds is one in which the Church has a strong interest, not only on account of Queen's College, but also for the advancement among all denominations in this Province, of the cause of higher education.

During the winter, the work of instruction has been steadily carried on, and in the Faculties of Arts and Theology, which come more directly under the notice of the Board, the past Session has been distinguished by the harmony and good feeling which prevailed. The Trustees take this opportunity of expressing their high satisfaction with the whole course of instruction, and more especially their deep obligations to the able and zealous Professors, whose unwearied labors have tended so much to elevate Queen's College, and to benefit the youth within her walls. The conduct and progress of the students has also been most pleasing, and no record of discipline has been needed in any of the Faculties.

In conclusion, the Board of Trustees commend this rising College to the fostering care of the Church, and to the sympathy and aid of her Ministers. In many ways can this be afforded. Few young men decide upon a College course, or upon studying for the Church, without seeking the counsel and guidance of their Ministers. Parents especially are open to such influence, and many a young man of piety and high promise would now be filling a position of usefulness in some of our vacant Congregations, had the path and the duty been faithfully pointed out. If the Church is to keep pace with the religious requirements of the Presbyterian population of Canada, the College Halls must send forth laborers fitted for the work. The Trustees thankfully acknowledge the attention which was

given to this important question at last meeting of Synod, and while earnestly urging Ministers to keep the call to preach the Gospel before the minds of their Congregations, they would also respectfully give expression to the necessity for wise discrimination in keeping back such as from want of physical, mental, or religious qualifications, are unfitted for the spiritual care of Congregations. Let the Institution further have a place in the prayers offered up in the House of God, as well as in the families and closets of all who seek the prosperity and welfare of the Church. If we constantly pray that the Lord of the harvest may send forth laborers, it is surely our duty to seek the advancement of an Institution which is the direct agency employed to train up such, and also to implore the Divine blessing upon its operations, and the outpouring of the Holy Spirit upon its youth.

JOHN PATON,
Secretary to the Trustees.

COPY OF PETITION FOR UNIVERSITY REFORM, SENT TO
LEGISLATURE.

TO THE HONORABLE THE LEGISLATIVE ASSEMBLY IN PARLIAMENT ASSEMBLED :

The Petition of the Board of Trustees of the University of Queen's College,

HUMBLY SHEWETH,—That your Petitioners made application to last Session of Parliament praying for a parliamentary enquiry into the management of the University of Toronto, and the public University Fund for Upper Canada, under the Act of 1853, and for the repeal or amendment of that Act which had failed to secure the ends for which it was designed.

That the evidence taken before the Committee of Parliament, last Session, on this subject, and printed for the information of your Honorable House, fully substantiates what your Petitioners then stated.

That your Petitioners, therefore, confidently rely upon the justice and wisdom of the Legislature to bring to an end a system so inevitably productive of unseemly hostility between different seats of learning, and in itself so detrimental to the best interests of the country.

That your Petitioners, as representing Queen's College, in which it is well known that the instruction in the different departments is as thorough as in any other University College in Canada, have no doubt that you will take such measures, either with or without the incorporation of the several Colleges in one University for Upper Canada, as shall give for secular education in each a just share of a fund intended for all, shall leave no room for unfounded pretensions on the part of any, but fairly test the merit of each, and shall tend best to diffuse the benefits of University education throughout the land,

And your Petitioners will ever pray.
