Daily Hints For the Cook

BACON SANDWICHES
Wipe off breakfast bacon delicately broiled make the most appetizing sandwiches, especially if put between toasted slices of graham bread. The small shreds of bacon must lie on lettuce, and be seasoned with paprika or red pepper. These are an appetizing cold as hot.

CHESTNUT CREAM SANDWICHES
Peel, boil, drain and mash large French chestnuts. Rub them through a sieve and mix thoroughly with sweet cream. Add a touch of salt or sugar, as is liked, and spread the paste on thin slices of fresh white bread, denuded of crust and cut in round disks. Use a biscuit cutter for shaping after slices are cut.

BREAD AND BUTTER BITES
Cut the end from a loaf of fresh white bread, using a sharp knife. Then smear the cut end with sweet butter, shave off the slice and make a second in the same manner. Put the two buttered slices together, and then cut small disks with the finest nut cake cutter. The bites must be only comfortably mouth size. For old-fashioned bread and butter proceed in the same way, except to leave on the crust and cut the slices down in even halves or triangles. The baker's homemade bread of the day is needed.

White Swan Yeast Cakes
If you want your family to eat more bread, bake it with White Swan Yeast Cakes. Try a 5c. package containing 6 cakes—at all grocers or write today for sample. White Swan Spices & Cereals, Limited, Toronto, Ont.

THE LORD MAYOR'S MOTTO
Sir Wm. Thelker when Lord Mayor of London, said: "My motto for womanhood is, 'The better the cook, the happier the husband.'"

There is no earthly reason why wives should not, nowadays, perfect themselves in the gentle art of cooking. Instruction of the very best is open to them; the accumulated experience of centuries is theirs to command and culinary helps such as have never been available before, are brought within the reach of this narrowest purse.

Take, for instance, the delicious H. P. Sauce, introduced only a short time ago from England. The different choice flavours of Oriental fruits and spices are perfectly blended in this new and delightful

The Evening Chit-Chat
By RUTH GAMERON

"THE world is too much with us; late and soon, getting and spending, we lay waste our powers." —Wordsworth.

Because she found that the large rent was a burden which continually fretted and galled her, and absorbed a disproportionate amount of her attention, a woman recently gave up a pretty home in which she had lived for many years, and moved into less expensive quarters.

"It was such a pretty home, and we had fitted it up just to suit us, but after my sister married, the rent was really too much for me. I could have paid it. In fact, I did pay it for three years, as I was always a strait and always on my mind. I was all the time afraid I wouldn't earn enough, or would be sick, or get behind some way or other. One night I sat down and thought it all over, and I came to the conclusion that I wasn't getting enough out of life that way. All I've been doing for the last three years is struggling to make enough money to pay that rent. I haven't been living. I've just been earning and spending, earning and spending. Do you know, in spite of the fact that I miss my pleasant and convenient home, I've been infinitely happier since I left it? The strain is relieved. I can live now."

Don't you think that woman was an exceptionally wise person? I do.

The world is full of people whose lives are just what this woman's was while she was trying to live beyond her means. "Late and soon, getting and spending," says Wordsworth, and describes the whole existence of—yes, I fear it—at least half the world.

We must earn and we must spend, but what a tragedy it is when life holds nothing for us besides these two processes. I know that there are millions of poor people so uneducated and so unfortunate that they must work from dawn till dark and still scarcely earn enough to keep themselves from starving. I can't think of the lives of these people without a passionate rebellion and a passionate longing for the time when the world will not tolerate such conditions and I truly believe that time will come. To these people life can hardly be any more than getting and spending. But these are but a small proportion of the people who get no more out of life. A far larger proportion is made up of folks who, like the woman in the quoted paragraph, are not so poor as they can rightly afford, deliberately chain themselves down to an unremitting round of getting and spending.

No luxury is worth such imprisonment of the soul.

Nothing but absolute necessity can excuse such an existence.

And yet how many of us are deliberately enslaving ourselves in this way! How many of us are leading an existence which, by our means for material luxury, we are making nothing but getting and spending! How many of us have said reason to say with Wordsworth, "The world is too much with us."

Courage, my friends, while there's life there's hope. If you can only arouse your soul enough to make it suffer about this state of things you may alter this condition. You need not be a slave any longer than you wish to be. Sit down and think it all out. Is your life any more than getting and spending? Do you wish it to be any more than that?

La MARQUISE de FONTENOY

Lord Cheylesmore New Head of London County Council—Owns Fine English Estates

(Copyright, 1912, by the Brewster Company.)

The election of Major General Lord Cheylesmore as chairman of the London County Council is an altogether ideal appointment, for it will have the effect of preventing the real chief of the municipality of the metropolis of the British Empire from being in a measure eclipsed by one of his subordinates and mere borough presidents, the lord mayor of the ancient City of London, the smallest of all the twenty-five boroughs into which the national capital is divided.

Lord Cheylesmore possesses as a personal friend of the king, as a retired general of the army, as a peer of the realm, and as a very conspicuous member of the London gentry, a permanent social prestige, to which the lord mayor, with his merely temporary dignities, can never aspire. True, the lord mayor occupies a furnished official residence at the Mansion House, opposite the Bank of England, and the use of a whole household, and of the immensely valuable city silver plate, and receives, moreover, a salary of \$60,000, which enables him to do much entertaining.

But Lord Cheylesmore is very rich indeed in his own right, added to which he married a wealthy American wife, Elizabeth, the daughter of F. O. French, of New York, and sister of the first wife of Alfred G. Vanderbilt. So that he can, without pinching himself in any way, give entertainments more splendid, more state-like, and more distinguished, in his capacity of chief magistrate of the British metropolis than the lord mayor of the borough of the City of London.

The office to which he has been elected carries with it no salary or allowance, and has hitherto been lacking in prestige, owing to the failure of the English people to realize its importance. In fact, Lord Cheylesmore's acceptance can be regarded only as an act of public spirit, and a proof of his readiness to serve his fellow citizens of London, and to devote most of his time to their interests without any reward. His official quarters will be the new palace of the London County Council which is now in course of construction on the south bank of the Thames, almost directly facing the houses of the national legislature at Westminster. King George laid the foundation stone a few weeks ago with much ceremony, and the stately pile, standing immediately on the river bank, will be a worthy counterpart of the Hotel de Ville of Paris, of Brussels and Vienna, and will completely overshadow the dingy and by no means impressive Mansion House and Guild hall in the city.

Father of Civilian Rifle Clubs

Lord Cheylesmore, since his retirement from the army, where his entire career

in Bermuda. One of the battalions of Guards had got out of hand of Wellington barracks in the immediate vicinity of Buckingham Palace, in London. The officer in command was superseded by the colonel Herbert Eaton, as best qualified to restore the discipline and the proper spirit of the men, who were transferred to Bermuda. Colonel Eaton, a singularly good-looking, well set up gentleman, became exceedingly popular in Bermuda, and, having made the acquaintance of Miss Elizabeth French, who had gone there from New York to spend a few weeks with some relatives, he managed to win her heart and her hand. He married her in New York in 1862.

Needless to add that in the troubles which ensued between his wife's sister and the latter's husband, Alfred Vanderbilt, Lord Cheylesmore sided very actively with his sister-in-law; and one of the incidents which preceded the final break

When Berry Time Comes

Did you ever try fresh berries and Tillson's Rolled Oats for breakfast?

The combination is delicious.

Strawberries, raspberries, huckleberries, each in their season, and Tillson's, enable you to prepare a breakfast dish that can't be resisted.

No trouble at all to prepare. Just pour the fruit over the plate of freshly made porridge. Sprinkle with cream and sugar, and then!

Well, you'll know just how good it is when berry time comes.

Death Follows the Surgeon's Knife

Surgery is the fad in medical treatment, and many doctors still recommend a surgical operation for piles. Too often the results are fatal to the patient and even when the operation is a success there is not always a cure.

There is a safer way to cure piles, a less risky and less expensive way. You are certain of obtaining relief by using Dr. Chase's Ointment, and if you persist in this treatment you can also be fully cured.

It is worth while to try Dr. Chase's Ointment, even if you have been told that an operation is necessary. Many have escaped the knife by using this ointment, and others have been cured by its use after operations had failed.

Relief from the itching, stinging sensations which make the suffering from piles so hard to bear is obtained almost as soon as Dr. Chase's Ointment is applied.

THE BANK OF FRANCE AND AGRICULTURAL CREDIT

The Bank of France performs a very important service in the field of agriculture. As we see in an article in the last Bulletin of Economic and Social Intelligence published by the International Institute of Agriculture, its action in behalf of agriculture is twofold. First, what it may call its indirect action consists in providing the state with the funds required for the support of the co-operative credit institutions, such as the regional and local agricultural credit banks; the law of 1897 obliged the bank to pay into the treasury for this purpose 40,000,000 francs as a loan without interest, to be repaid at interest, multiplied by the rate of its rate of discount and never to be less than 2,000,000. This contribution, which has always exceeded what was stipulated and in 1910 amounted to 5,738,398.28 francs; between 1897 and 1910 the bank has in this way paid 62,000,000 francs to the treasury.

The state uses these amounts for loans without interest to the regional banks and other credit institutions, which in their turn operate in favor of the local banks or of the agricultural co-operative societies for production and sale.

The other action of the bank consists in doing direct agricultural credit business either with individual farmers or with their organizations.

From an enquiry carried out by M. Esquier, it appears that in December 1909-1909 it had granted about 79,000,000 francs to the regional agricultural credit banks and discounted bills for them to the amount of 171,000,000.

During the same period the bank granted private farmers 150,000,000 in loans and discounted warrants for them to the amount of 73,000,000, and bills to that of 34,000,000. Most of the discounting business was done in regions principally wine making, especially La Gironde; bills were discounted in largest quantity in the regions where live stock improvement is carried on.

To sum up, the operations of the Bank of France with individual farmers exceeded half a milliard (576,000,000) during the period 1909-1910. If we add to this the business done with the regional banks, we get a total of 828 millions.

It is well known that the bank can only discount at three months and on three endorsements; yet to facilitate credit for its customers, it has been able to evade the second condition, substituting for the third signature a deposit of securities in a proportion fixed by the Bank, in accordance with the good fame and the solvency of the borrower. Bills with two endorsements are thus discounted at the normal bank rate, which is always 3 per cent.

The great bank of issue thus completes the system of co-operative agricultural credit that with 90 regional and 3,390 local banks renders such eminent services to French agriculture.

(Summarized from the Bulletin of the Bureau of Economic and Social Intelligence of the International Institute of Agriculture, 3rd year, No. 2, February, 1912.)

George M. Schumann, accountant at the Bank of Nova Scotia in Fredrickton, has been transferred to the bank's branch at Moncton.

LEFT-OVERS USED

Use the left-over potato I on a previous dinner in cakes with a smaller cake of sausage on top and bake until they are brown, says the Montreal Star. The sausage sold loose at good markets is most convenient for the cakes. The potato should be mashed and seasoned with a little butter, salt and pepper. One housekeeper uses a little lard fat in place of butter on the potatoes. Left-over fish may be flaked, covered with cream mixed with grated American cheese and be heated in the oven and served on toast.

FRANCE DEALING WITH ITS LABOR PROBLEM

Immigration and Employment of Polish Workers in Agricultural Work

For a long time the farmers of northern France have been resorting to foreign and more especially to Belgian labor, in order to meet the decrease in native labor.

But the exodus from the country to the towns still increasing, at certain periods of the year these foreign elements no longer suffice for the work of the farms. The farmers, therefore, have been induced to recruit workers from very far beyond the frontier to fill the gap caused by the constantly greater scarcity of labor, and this has led to the formation of the International Institute of Agriculture, in its February number deals with the emigration and employment of Polish agricultural laborers, according to the results of a recent enquiry undertaken by the labor department.

The first Polish immigrants came to France in 1905, and that year the Central Agricultural Society of Meurthe et Moselle, in agreement with the local government of Galicia, laid the basis of a labor bureau and prepared the clauses of a model contract, adapted to the character and habits of the Polish laborers, while in conformity with French customs.

The movement soon gave rise to respectable proceedings on the part of the agencies, which, in accordance with the provisions of the labor offices founded by two syndicates of French farmers, had no other aim than that of getting the highest price possible for their services.

Watchmakers, shoemakers, medical students, attorneys, clerks and lawyers have been brought to France to cultivate beet-roots. Cases are also mentioned of laborers from the provinces who were fixed 60 francs and from whom the agencies or their employes kept back 180 francs, and so on.

In spite of these manoeuvres of the laborers, which might well discourage both farmers and laborers, it seems this immigration experiment must have given excellent results. When treated kindly the Polish laborers manage to adapt themselves well enough to their environment; they learn French quickly and are not long in accustoming themselves to the implements and methods of work in use in France, which, however, differ appreciably from those of their own country. The reception awarded them by the people of the districts to which they immigrate is most often good, or at least indifferent.

Their wages are also generally nearly the same as the French laborers receive for the same work, so that the latter need not fear serious competition from them.

Under these circumstances, it seems to be desirable that the farmers should completely dispense with the assistance of private agencies. To this end, the French Syndicate of Agricultural Laborers, and the French Mutual Syndicate of Farmers and Agricultural "Industrialists," have been founded, both of them in relation with the local government of Galicia. For their part, certain members of the Polish colony in Paris have founded the society Polonia, to represent and organize the Polish laborers, establish permanent supervision over them, provide them with effective legal, medical, social and moral protection, found a special fund for their assistance and for their return home, etc. The Austro-Hungarian government has officially instructed Baron Henet, Delegate of the Austrian Ministry of Agriculture, to co-

operate himself with the immigration of the Galician laborers into France, while the French Ministerial Department of Labor and Social Traffic, in entrusting one of its functionaries with the conduct of an enquiry into the matter, attests the anxiety of both governments to remedy the defects of a movement which may be equally advantageous to the French farmers and the Polish laborers.

MR. F. B. CARVELL
The banquet tendered to Mr. F. B. Carvell, M. P., at Hartland, was a well-attended tribute to a very able public man, who in his place in parliament has rendered valuable service to his native province and the country at large.

When the Tories were out of office it was very wrong to appoint members of parliament to office. Now that they are in, the Tory members are scrambling to get as many offices as possible.

Several immigrants have lately arrived in New Brunswick. An average of perhaps a thousand a day goes through to the west. The proportion is not encouraging. The provincial authorities must walk up.

The London Financier wants to know why the flag-drapers permit the government at Ottawa to have bank notes and postage stamps printed by an American firm. The London Journal is unwise enough to take Tory professions seriously.

USE OF SCHOOL BUILDINGS
The Times has on several occasions urged that greater use be made of the school buildings of this city.

The increasing use of schoolhouses as social centres is one of the signs of the times. In Chicago, during the past winter, not only were a greater number of schoolhouses opened for this purpose, but the attendance at each of them was also much larger than in the previous year.

KLING'S POEM AGAINST HOME RULE
Rudyard Kipling is out with a denunciatory poem on home rule, entitled "Ulster." It is as follows:

Muscles Useless Without Nerve Force

Perhaps you are not quite clear on the relation of the nerves to the rest of the body. Through the nerve fibres which extend through countless branches to every nook and corner of the human system is conveyed the motive power which operates the various organs.

There could be no breathing, no beating of the heart, no flow of the digestive fluids, no action of any muscle or organ of the body without nerve force. Consequently, when the nervous system becomes exhausted there is complete collapse of the body, the different stages of which are described as nervous prostration, locomotor ataxia and paralysis.

The time to use such restorative treatment as Dr. Chase's Nerve Food is when the headache, sleeplessness, indigestion and other warning symptoms first appear. A few weeks' persistent treatment is then sufficient to revitalize the wasted nerve cells and restore health and vigor.

ARIZONA

Considered Greatest Play of the Kind Ever Given the Stage

In Boston, New York and in all the big cities of the states the announcement that Arizona is to be given means a series of the biggest audiences of the season. It is a truly intense and absorbing play and on its presentation at the Opera House tomorrow evening and Saturday matinee and night it will serve to still further endorse Helen Grayce and her players. The unusual characters in the drama are all handled with remarkable skill. The long cast includes all the types so identified with the southwest. There is the dashing young army officer, the whole souled ranchman, the big dominating post-commander, the fiery Mexican, the soft shod Chinaman, the good natured army doctor, a German sergeant, a breezy cowboy, a San Francisco heiress and many others who make up what has been generally conceded to be the great American play. Romeo and Juliet will be given a most elaborate production tonight, while the Squaw Man is announced for tomorrow afternoon.

TORY LOYALTY DOES NOT EXTEND TO THE BANK NOTE CONTRACT

A Rap for the Borden Government From the Capital of Empire—Preference Given Americans

(Times Special Correspondence.)
London, March 29.—Commenting on the awarding, to an American firm, of the Dominion contract for banknotes and stamps, The Financial says: "Considering how generously Great Britain has financed Canada's development, it is unfortunate that any act of seeming discrimination against British interests in favor of Americans should occur. Bearing in mind, however, that Canada's statesmen profess great ardor for the production of closer relations with reciprocal benefits between the Dominion and the United Kingdom, it is mortifying that when tenders for a government contract of first class importance are invited the conditions should be such as must wreck the chances of English firms."

"The specific instance to which attention is called by Wm. A. Waterlow, of Waterlow Brothers & Lacey, Limited, in yesterday's Times is bound to leave a bad impression. If there be one kind of work which, on grounds of fairness and expediency should be kept in the hands of British subjects, it surely is the printing of bank notes and postage stamps; yet the Dominion contract for these has been given to an American firm! It is true that English tenders were invited, but the conditions were such that the operations except the original engraving should be carried out at Ottawa. But, whilst the calculations were complicated by a requirement so onerous, Messrs. Waterlow Brothers & Lacey only received the form of tender nineteen days before the details had to be delivered in Ottawa! How was it possible to compete in the circumstances with an American firm already established in the Dominion capital? The asking of tenders from English houses seems to have been a useless formality."

NEW SEMI-READY STORE ATTRACTS THE PEOPLE

A Visit to J. P. Condon's King Street Business Premises and a Word About What is Seen

The store formerly occupied by the Dunlop-Cooke Co. has been entirely renovated, and altered to quite an extent, and is now occupied by John P. Condon, who is conducting what has become well known throughout Canadian cities, "The Semi-Ready Store."

Even if only for curiosity a person visits the store, he is well repaid for the courtesy with which he is treated and in learning of the up-to-date ideas and viewing the fixtures, furnishings, and other features which tend to make the premises attractive, while in the latest ideas in fashion, there is a wide assortment to select from.

The store is beautifully lighted and in many ways presents a striking appearance with the most recent method for displaying goods and attending to the wants of customers. Extending the entire length of one side are mirror panels which form the doorway to several apartments where in are kept, on double extension rods, the large stock of semi-ready clothing offered and which can be conveniently shown without delay to the intending purchaser.

The store lighted last night attracted considerable attention, and many spoke in hearty commendation of the window arrangements, nicely shown with the aid of a "large number of tungen lights."

Four hundred and fifty pieces of goods are kept on hand as samples, and when a choice is made from these samples, and an order for a suit given, it can be brought to the city in six days, four being required to make it, and one each way in transferring. A tailor is engaged to make any alterations necessary. The newest ideas in fashionable clothing are to be found in the store, including a fine assortment of the latest brown and grey shades in tweeds. A style book is being presented to every visitor. All going there are certain of being accorded every possible attention and given the best that can be offered in style, fit and wear.

THERE WERE 167 IN COURT ON ONE DAY

(Montreal Witness)

This is Mr. Recorder Weil's busy day. The number cases on the calendar in the recorder's court today is 167, more than the officials at police headquarters ever remember to have seen there before.

This large number is due to the fact that no court had been held since last Saturday until today. Most of the cases arranged before the recorder today were the usual petty offences, such as drunk and disorderly persons.

\$100 Reward, \$100

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address F. J. CHENEY & CO., Toledo, O. Sold by All Druggists, 75c. Take Hall's Family Pills for constipation.

It is thought that the anthracite miners and operators in Pennsylvania will soon be at peace and that work will be resumed before long. The negotiations for a settlement were resumed yesterday afternoon.

SHE SUFFERED TEN MONTHS

Mrs. Blankenship Tells of Her Restoration to Health by Lydia E. Pinkham's Vegetable Compound.

Elliston, Va.—"I feel it my duty to express my thanks for what Lydia E. Pinkham's Vegetable Compound has done for me. I was a sufferer from female troubles and had been confined in bed over one third of my time for ten months. I could not do my household work and had fainting spells so that my husband could not leave me alone for five minutes at a time.

"Now I have been restored to health and it has come from taking Lydia E. Pinkham's Vegetable Compound. Whenever I see a suffering woman I want to tell her that this medicine has done for me and I will always apply a good word for it."—Mrs. ROBERT BLANKENSHIP, Elliston, Va., Montgomery Co.

Was Helpless—Now Well. Trenton, Mo.—"About two years ago I had female trouble and inflammation so bad that I was literally helpless and had to be tended like a baby. I could not move my body or lift my foot for such severe pains that I had screams. I was very nervous and had a weakness.

"Lydia E. Pinkham's Vegetable Compound has helped me to such an extent that I think there is no medicine like it for female troubles. I am up and able to do my work again and I give you full permission to publish my letter for the sake of other suffering women."—Mrs. W. T. FURNELL, 329-10th St., Trenton, Mo.

Ho! For Griddle Cakes and Maple Syrup

Spring is here at last and the sap is flowing free. Now for light, digestible foods and a merrier life under warmer skies. Bring along the griddle cakes and plenty of them. Add plenty of the juice of the maple—the syrup that kings would approve. But, good housewife! If you want your griddle cakes to reflect great credit on you, see that you make them with

PURITY FLOUR

the flour that is far-famed simply because it "makes more and better bread." **Purity** is the name of Canada's extra special flour rolled in bright sun-lit mills from Canada's extra special wheat. No other flour can with it compare. It imparts a flavor and a richness to griddle cakes that makes them surpassingly delicious. Make anything the family desires (anything that you can make with flour) with **Purity** and your reputation as a cook will go up several notches at least.

"More Bread and Better Bread"

Purity Flour is a richer, stronger flour than the ordinary makes. It takes more water and yields more bread. It also takes a little more shortening, on account of its extra strength, when making pastry. And **Purity** only costs a little more, although all users of it would gladly pay a good deal more rather than return to common flour. Now, bring on the griddle cakes made from **Purity Flour** and plenty of good Maple Syrup on the side!

N.B.—Put **Purity** on your grocery list—you'll keep it there.

A SALE OF BEDSTEADS AT COST AND WHY

We intended handling furniture, but on account of the amount of space required, which would interfere with our rapidly growing business in other lines, we have decided to sell off the bedsteads on hand (which consists of brass and white enamel) at cost—the greatest bargain ever offered in this line of goods. The sale will be short, but if you do not require one before May first we will store it free of charge. Come and examine at once before the best selections are made.

A SEMI-READY STORE WORTH WHILE

Open For Inspection

You Are Invited

Let this be your personal invitation --- for you are cordially requested to visit the new Semi-Ready Store on King Street, in Dunlap-Cooke's old stand.

The policy of this store, as in that of all Semi-Ready stores, is not a matter of insistence in buying, but rather that of assistance in the selection of fabrics and fashions for men, of informing our customers of the right and the true.

The great wholesale tailoring organization behind this store has revolutionized the tailoring trade in Canada.

For this is real tailoring, mind you--not factory-made, ready-made nor yet retail tailor made clothes--but rather the product of the greatest designers, the most skilful and expert tailors--the work of men who have attained pre-eminence in their calling by specialized experience.

Here are garments at \$15, \$18 and \$20--and as high as \$25 and \$30--which you are invited to give the closest face-to-face or side-by-side comparison with the best tailoring you know of.

Every garment is guaranteed worth the price label in the pocket. You need not buy because you look, nor keep because you buy. This store shall be always a Clearing House of Satisfaction, for we won't be satisfied until you are satisfied.

LOOK FOR THE PRICE LOOK FOR THE NAME
SEWN IN THE POCKET ALWAYS THE SAME.

We have a Style Book. A copy was printed for you. The title of the book is "Sir!". Will you call and ask for your copy.

Personally, I want You to call anyway, if only to tell me whether such a store as this is a welcome addition to the growth and progress of St. John.

COMMON COUNCIL

Broadview Instead of Sheffield Street--Ferry to Run Till Midnight--Property Matters

The meeting of the common council, which was postponed from April 1, was held last evening, when a large amount of business was transacted, and the results of Tuesday's election was announced by the common clerk.

The Canadian Consolidated Rubber Co was awarded the contract for fitting two inch tires on Nos. 1 to 7 horse carts at a cost of \$497. Scott's Bros. & Co., Ltd. were given the contract for police uniforms at \$22.50.

Those present at the meeting were: Mayor Fitch, Aldermen Scully, Green, O. T. Jones, J. B. Jones, Godger, Elliott, Elkin, Hayes, McRobb, Smith, Potts, Wignmore and Wilson.

Alderman Hayes brought up the subject of the pay for constables for service in the polling booths, and it was decided to make it \$3 for the day. Wellington, Queens, Lansdowne, Dufferin, Victoria and Lorne wards are to have two polling places for the next election. It was pointed out that many citizens did not get a chance to vote in these wards on account of the numbers who were waiting for a chance to enter the booths.

The report of the board of public works was then considered. The tender of Estey & Co. for fire hose for fire protection in No. 4 warehouse at \$110, was approved. The name of Sheffield street was changed to Broadview. The recommendation that representatives of the street railway be given a hearing before the board of works in regard to the conditions of putting down tracks in Wentworth street, was adopted.

The engineer was given authority to negotiate with the residents of Rock and Richey street in regard to putting the roadways into proper condition.

Repairs are to be made to North wharf, and J. S. Gibbon & Co. are to get a lease of a small section of Union street slip for a scale house. It was decided to have a sidewalk built in South wharf, at an estimated cost of \$20. Leases to Mr. Colwell of lots in West St. John for a coal shed were approved.

Alderman Elliot brought in the report of the safety board, as the chairman, Alderman Russell, was absent. It was decided to sell by auction lots in Pitt and Duke streets.

It was decided to offer Centenary church a lot in Leinster street for \$500; John Sealy may have a lot in Queens ward for \$500; the Bank of New Brunswick may purchase a lot in Guys ward for \$800; John E. Costley has the privilege of buying several lots in Brooks ward for \$1,200; Daniel Murphy is to be asked \$1,000 for a lot in Church avenue, Fairville; Mrs. Mary Brennan was offered two lots in Lancaster for \$1,500; Frederick Barnhill is to be offered a lot in Fairville for \$1,000. The lots which Randolph & Baker Ltd. have been trying to secure from the city may be secured by them for \$12,000. J. B. Barclay is to supply 44 helmets for the police at a cost of \$4 each.

Painting contracts were awarded as follows: W. E. Deming, No. 4 engine house at \$100, No. 5 at \$80; James Huey, No. 6 engine house at \$134; Robert Barbour & Sons, No. 7 engine house at \$40, and the police court and guard room at \$57. All work to be done to the satisfaction of the director of public safety.

It was decided to make the following offers for the sale of lots: To Arthur McDonald, 4 lot fronting Essex, for \$295; Mrs. John Fleming, a lot in Lancaster for \$227; James Reedy, lots in Main street, Fairville, for \$4,000; W. B. Nicolson, a lot in Guys ward for \$500; H. J. Taylor, Collins, a lot in Main street, Fairville, for \$750; William Fox, two lots in Fairville for \$1,200; Isaac Duffy, a lot in Brooks ward for \$400; D. C. Clarke, a lot in the West End for \$1,000; E. R. W. Ingraham, a lot in Guys ward for \$800. Leases to John Treacoff, North Ferguson and Geo. A. Troop were ordered to be renewed. George Troop's offer of \$800 for two lots in Sydney ward was accepted.

The salary of W. H. Simon, V. S., was increased to \$250 on account of extra work. The recommendation that Policeman J. K. McLaren receive full pay for time lost through sickness was changed and he is to receive half pay. Policeman James McNamee, who was injured while on duty, is to receive full pay for the month of March.

The report of the water and sewerage board was next considered. William Cairns is to pay \$2.57 in place of \$4 for water rates on account of his house burning. The report of the engineer saying that a sewer was unnecessary in Mill street was adopted. An eight inch water main is to replace the present pipe in Duke street west of Germain street.

The order of council that a lease of the Mispac property be given to Stetson, Cutler & Co. was cancelled, the council reported that they had failed to comply with the conditions. It was decided to place a sewer in Saint John street, West, extending from Albert to Union street at an estimated cost of \$800. Tenders are to be called immediately for the extension of the sewer and water mains in Adelaide road. The water extension will cost about \$10,000.

The recommendation of the ferry committee that employes receive an increase in salary was not adopted, as the estimates did not provide for any increase.

A motion of Alderman Scully that the service be kept going until 12 o'clock every night except on Sunday, was carried. The extra trips will be from the West Side at 11:30 and from the East Side at 12 o'clock, midnight. The recommendation that a new wharf be built was referred back to the committee for more information. Alderman Elliot introduced a motion that fifty ferry tickets be sold for fifty cents, but as the legislature has this matter under consideration, the motion was not seconded.

During the discussion on ferry matters, Alderman Scully said that the harbor bridge was needed, but that politics killed the scheme when it was before the public recently.

The report of the appeal committee was adopted.

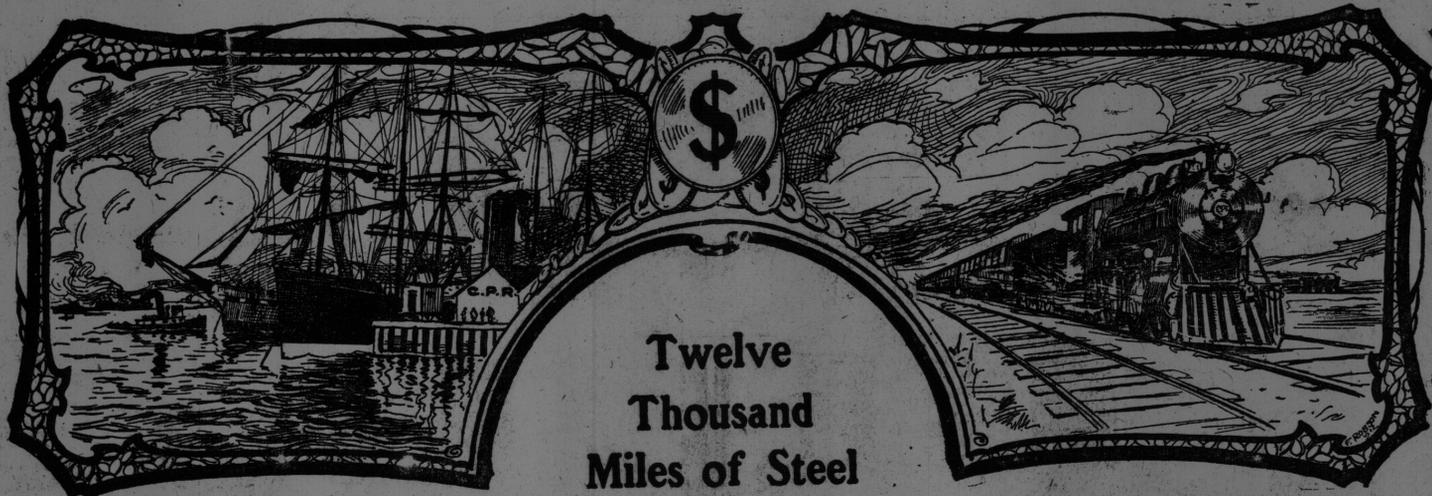

The report of the market committee was received. The plans of Garret W. Wilson, architect, for improvements in the upper flats of the market building were received and the order for payment was given.

The clerk of the market is to receive an increase of \$100 a year in salary.

ASSOCIATED CHARITIES

At the monthly meeting of the Associated Charities yesterday a resolution was adopted urging legislation providing for a Children's Aid Society. The Associated Charities have in their work felt the need of such legislation.

Rev. G. F. Scovill presided at the meeting. The secretary reported that 321 applications of one kind and another had been received during March, and 83 of them were for temporary or regular employment. Employment was found for 57 and a number of others were recommended. The majority of applicants were women and girls. There were only eleven men. Twenty-four persons applied for relief. The record asked for in thirty cases was given, and fifteen cases investigated.

Will Pour Passengers and Freight Into

COQUITLAM

The Pacific Coast operating terminus of the Canadian Pacific Railway and coming industrial centre of British Columbia, the largest and richest province of Canada

COQUITLAM IS A DEEP-WATER PORT
and the Panama Canal is only a year or two away

Coquitlam is a sub-city of Vancouver—the fastest growing large city in America.

Work has already begun on a hundred thousand dollar roundhouse in Coquitlam. This is the beginning of the most gigantic railway and industrial development that Canada ever saw.

Winnipeg, Regina, Moose Jaw, Saskatoon, Calgary, Edmonton—these and many others are children of the iron horse. During the past few years you have seen these grow from villages or small towns to great cities. The rich country surrounding them had lain dormant for centuries, but not until the toot of the locomotive was heard did they grow or prosper. Those who bought lots in any of these or dozens of other railway cities when they were but struggling hamlets are rich men today in every single case.

Besides being the Pacific terminus of the greatest railway in the world, Coquitlam is a deep fresh-water port on the highway of traffic between Western Canada and Europe via the Panama Canal. It is now conceded that most of the grain from the prairie provinces will go through Pacific coast ports. Do you realize what this means—thousands of tons of freight both going in and out.

All the cities mentioned above and every other city in Western Canada, every town, every village and every farming community will pay

tribute to Coquitlam. The Canadian Pacific's long arms will reach every place and pour out its loads into this new Pacific coast port. If Winnipeg, Regina or Calgary will grow and develop, it means that Coquitlam will grow and develop. Every increase in the population, every new town or city born on the prairies or in British Columbia means but more freight, more industry, more population for Coquitlam. All these things will increase lot values, and the man or boy who makes an investment, however small, in Coquitlam, while property is within his reach, will be on the road to freedom. In a few years he will be independent for life.

We are the sole owners of the recognized townsite of Coquitlam—the place for the man with a small amount for investment, the man working for wages or salary, and who cannot afford to wait years for results, but wants QUICK profits.

Coquitlam is advancing with relentless momentum. The forces which are behind it cannot—will not—be stopped by government or man. COQUITLAM will pull you if you hitch yourself up to it. A small investment will harness you up to Coquitlam. Then you will have the cheapest and best pull in the land—one that does not depend on somebody else's whims.

Get your pull today by using this coupon.

SPORT NEWS OF A DAY; HOME AND ABROAD

Bowling
In the City Bowling League game on Black's last night the Wanderers and Nationals took two points each. The total pinfall was 1244 for the Wanderers and 1346 for the Nationals. Logan, with 92.13, led for the Wanderers, and Duffs, with 83 for the Nationals.
In the Commercial League the Brock & Paterson team forfeited four points to the Waterbury & Rising quintette. The latter bowled 1284. Labbe was high, with 90.13.

Curling
Carlton Smoker.
The members of the Carlton Curling Club held a very enjoyable smoker last night. The prizes won during the winter were presented. The rink trophy was won by Jarvis Wilson; the Newcomers' Cup by Harry Lingley; the Magee Cup by Roy Driman. An excellent program was carried out in which Rev. H. E. Thomas, W. O. Dunham, Charles Coster, M. F. Mooney, Rev. G. F. Scott and James Scott took part.

The Turf
Races at Campbellton.
Some good horse racing was held on the ice at Campbellton yesterday afternoon, and was witnessed by a large crowd. Three races were held, the three minute class, the 2.30 class and the free for all. Harry Wilkes, owned by Bruce McBeath, won the first race, J. Dow the second and Ada Mack the third. Good time was made in all three races.

Wife Sues Tod Sloan.
New York—Tod Sloan, a former jockey of international fame, is defendant in a suit for absolute divorce brought here by his wife, known on the stage as Julia Henderson. Her complaint sets forth that they were married in September, 1907, but that they have not lived together since August, 1908. She names several co-respondents, charging him with infidelity in this country and in France, where Sloan is at present. Permission was granted by the court for serving him with notice of the suit by letter.

SUREST TONIC IN THE WORLD

Is "Fruit-a-tives" The Great Fruit Medicine
Like fruit juice, "Fruit-a-tives" acts on the great blood purifying organs of the body—namely the liver, bowels, kidneys and skin, and stimulates all these parts to increased activity. The splendid nerve tonic and intestinal antiseptic, combined with the intensified fruit juices, make "Fruit-a-tives" the finest of nerve tonics.
On the stomach, "Fruit-a-tives" acts as a soothing tonic and allays all irritation. By purifying the blood—strengthening the nervous system and regulating kidneys, bowels and skin—"Fruit-a-tives" builds up the whole system as nothing else will.
"Fruit-a-tives" is a really wonderful medicine—being made directly from fresh fruit—and is the intended juice of apples, oranges, figs and prunes. "Fruit-a-tives" is the only medicine in the world made of fruit. It is mild in action—pleasant to take—and is a tonic of incalculable value.

WAS TROUBLED WITH Weakness and Palpitation OF THE HEART.
Through one cause or another a large majority of people are troubled, more or less, with some form of heart trouble. Little attention is paid to the slight weakness of the heart, but when it starts palpitate and throb, skip beats, beats fast for a time, then so slow as to seem almost to stop, then it causes great anxiety and alarm.
To all such sufferers Milburn's Heart and Nerve Pills can and will give prompt and permanent relief.
They do this by the restorative influence on every organ and tissue of the body.
Mrs. John J. Downey, New Glasgow, N.S., writes:—"Just a few lines to let you know what your Milburn's Heart and Nerve Pills have done for me. I was troubled with weakness and palpitation of the heart, would have severe choking spells, and could scarcely lie down at all. I tried many remedies, but got none to answer my case like your pills. I can recommend them highly to all having heart or nerve troubles."
Price 50 cents per box, or 3 boxes for \$1.25, at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

THE COAL TROUBLE IN THE STATES AND ITS EFFECT ON CANADA
This Country Consumes More Than \$30,000,000 Worth of Coal From Across Border Every Year.
(Montreal Shareholder)
We, in Canada, while interested in the outcome of the British coal miners' strike and affected somewhat by its progress, are likely to be much more vitally affected by the struggle to the south of us. We consume yearly over \$30,000,000 worth of American coal, so it is impossible for us to be indifferent to a coal strike in that country. Fortunately the strike is coming at a favorable time of the year, in so far as householders are concerned. In another month or so there will be very little anthracite coal consumed.

Watch for Barley and Baimum's Circus
The announcement that this celebrated circus is coming has created no little excitement, for this aggregation of clever entertainers will be well worth seeing. Barley and Baimum's is a brand new type of circus, especially designed for indoor exhibitions and consists of troupes of funny clowns, skilled gymnasts, wonderful trained animals, side shows, menageries and all the other accessories of a modern show.

THE LAST GREAT STRIKE AMONG AMERICAN COAL MINERS
The last great strike among American coal miners took place in 1902, when Anthracite and Bituminous miners to the number of 200,000 went out on strike on an average of 63 days per man. In 1904 there was another coal strike, which resulted in 370,000 men going on strike with an average loss of fifty-one days per man. In 1910 another strike occurred among American miners when 210,000 went out on an average of eighty-eight days a man. Since the first big strike in 1902 the consumption of coal has increased 44 per cent, while the customer today is paying about \$1 a ton more for his anthracite than he did ten years ago.

GRAMPIAN MEN PROVE TO BE GOOD ENTERTAINERS

The R. M. S. Grampien men gave a farewell concert last evening in the Seaman's institute before a large gathering of ladies and gentlemen. Under the direction of C. Gouldhorn the entertainers excelled themselves, and made a great success. Doctor Walker, the ship's pianist, being detained, the artists were ably assisted by Miss Walker. The programme opened with B. James singing a popular song. The Macks accompanied by Mr. Somerville on the mandolin were appreciated for their rag-time songs. Mr. Boston, of the S. S. Virginian, comedian, held the audience in one fit of laughter with his jokes, while Mr. Johnson's mandolin selection was a marked success. Phillip Mangon, late of the Wilson Barrett company, added pleasure to the programme by rendering a sketch from the Sign of the Cross. A well known comedian, Jimmy Beddon, gave a good account of himself. The chairman, A. Palmer, left nothing to be desired, and I. Skeeb gave My Brother Sylvest in entertaining fashion. The programme was concluded by the artists' and audience singing. All the Nice Girls Love a Sailor, and God Save the King.

FIGHT STORY TOLD IN COURT

In the police court this morning Ligard Larsen and Harry Shonnon were fined \$20 each for fighting in Buxton street, and Carl Brun, charged with a like offence, was allowed to go. The fine of the other two were allowed to stand. Carl Larsen, a shipping master, said that Brun and Larsen had been fighting together in his house in Buxton street, and that he had put them out. Brun did not fight in the street, but the other two did. Brun had a gun about three inches long on his forehead, caused by falling on a stove in Larsen's house. Dr. D. E. Herriman put several stitches in the wound. Four other prisoners, charged with drunkenness, were fined \$4 or ten days in jail each.

GOLDEN WEDDING

Happy Family Gathering at Home of Mr. and Mrs. James Stephenson

A very happy family gathering took place last evening at the residence of Mr. and Mrs. J. Stephenson, 50 Frederick street, to celebrate the fiftieth anniversary of their wedding. The children and grandchildren who reside in the city were all present to the number of thirty. One son and one daughter who reside in Massachusetts, and one daughter in Ontario, and one daughter in Saskatchewan were unavoidably absent. A happy feature of the occasion was the presentation of a purse of gold and a handsome bouquet of fifty carnations to the aged couple. Mr. and Mrs. Stephenson were married in this city on April 10th, 1862. Rev. Mr. Brown, Church of England rector.

ST. JOHN MAN ABROAD

It must be an out-of-the-way corner of the world where a St. John man falls to turn up when there is anything going on. R. K. Cameron of this city has just received from his son, Kenneth, who is in Omaha, a photograph of Roy Blunt, a young farmer who was compelled by three escaped convicts from the Nebraska penitentiary to take his team and drive them toward the state boundary, and who was shot by the posse in pursuit. There is also a photograph of the half-tracked wagon which figured in the tragedy. Kenneth Cameron is on the staff of the Omaha World-Herald, and is seen in one of the photographs taken at the time of the inquest on the body of Roy Blunt.
