HEAT WAVE AND STORM TAKE LIFE TOLL

17 DEAD, MANY HURT IN MIDDLE WEST STATES

Lightning and 90-mile Wind Do Serious Damage

TEMPERATURE 92

Thousands of Dollars Loss Also Suffered in Windsor, Ont., District

Canadian Press. CHICAGO, June 2—Seventeen persons dead and nearly a score seriously injured was the toll today of a heat wave and ensuing wind and electrical storms which hit the middle West. The region welcomed the promise of cooler weather.

Sioux City was the centre of a violent wind storm, which extended to Eastern South Dakota and Southwestern Minnesota. Seven persons were injured, two probably fatally, in the Iowa city. The wind reached a velocity of almost 90 miles an hour. The damage at Sioux City was estimated at \$100,000.

WIND IS FATAL. Two persons were killed during an electrical storm at Des Moines and two men were reported killed near Wayland, Missouri, when the car in which they were riding was swept from the road by a high wind. Another windstorm swept over the mining district of Southeast Kansas, and Southwest Missouri, causing injury to several persons, and considerable property damage.

Chicago reported four deaths and Cleveland one, due to heat prostration. Eight persons in Wisconsin who sought relief by swimming and boating, were drowned Sunday and Monday.

HEAT RECORDS. Heat records for June 1 were broken in Chicago, and Cleveland, with temperatures of 92 and 91 respectively. Detroit recorded 92.

Early today a cooler breeze came to relieve Chicago's millions. Thunder showers and lower temperatures were forecast.

BAD IN ONTARIO. WINDSOR, Ont., June 2—Caught in the teeth of a miniature "twister" that struck Windsor and vicinity late yesterday afternoon, part of the roofing of the part-mutual building at Devonshire race track was hurled clear into the enclosure, narrowly missing several golfers, playing on the municipal links which are situated in the grounds.

Stable roofs were blown off, and dropped some distance away. The totalizer board opposite the grandstand also fell. Race track officials estimated the damage will amount to several thousand dollars.

Many golfers who sought refuge from the downpour of hail, rushed to the part-mutual shed, only to have the covering blown from over them.

HAIL FALLS. Apparently spending its strength in the outlying sections of the city, the short lived cyclone did little damage in the downtown sections apart from razing several signs. Builders reported that many houses under construction, were torn from the foundations. Although practically no rain fell in Windsor, Devonshire Park assumed a wintry aspect as marble-sized hailstones covered the ground. Along some of the principal thoroughfares, trees were stripped. In South Windsor, a garage containing three automobiles, was wrecked, and a dwelling house turned over.

ORCHARDS DAMAGED. Trees and vines lay strewn along the highways. From all parts of Essex County come reports of heavy damage. Fruit trees were uprooted, fields flooded and crops damaged by the heavy hail.

A severe storm was also entered around Dresden, demolishing hydro poles and cutting off power to several places, including Sarnia and Petrolia.

After afternoon and evening meetings, at which counsel for the proposed company, Hon. W. F. Jones, K. C., was present, it was stated that no progress had been made and the meeting was adjourned for a time. It is rumored that the parties have been unable to agree upon some questions and that the new undertaking will be proceeded with without certain dealers who have heretofore been interested.

Germany Will Receive Allied Note Thursday

PARIS, June 2—The inter-allied note on the subject of Germany's violations of the disarmament provisions of the Versailles treaty, will be presented to the German Foreign Minister, Dr. Stresemann by the allied ambassadors at noon Thursday. The note will probably not be given out for publication until Saturday.

MEETINGS HELD

Besco Rejects Offer of Labor Minister to Act As Mediator

GLACE BAY, N. S., June 2—The rejection by the British Empire Steel Corporation of the offer of the Hon. James Murdock, Minister of Labor, to act as mediator in the present wage dispute and the indifferent manner in which several of the United Mine Workers' locals yesterday treated propositions which if accepted would mean negotiations leading up to a resumption of mining operations, are the outstanding features of the strike situation here today.

While practically admitting that their chance of getting back to work at the 1924 scale of rates is remote, the United Mine Workers' officers today are chiefly concerned with the holding together of the district as a unit, and at different mass meetings held throughout the county yesterday, but generally the feeling is that if it is absolutely necessary to take a reduction the mines should return to the scale as a whole and thus save the union from destruction.

MINERS MEETINGS. SYDNEY, June 2—Meetings of the miners engaged in a wage scale struggle, now about to enter its fourth month, with the British Empire Steel Corporation, held in the Northern and Southern Cape Breton and Pictou areas yesterday, failed to provide any definite news in the direction of a settlement.

At Caledonia and New Waterford confidence in the United Mine Workers of America was voted and at Sydney Mines and Thorburn no action towards acceptance of the company's offer was taken.

Interest centred in the meeting at Sydney Mines, where a committee of citizens facing a strike of the town's chief industry, had been furnished with the terms under which the company would agree to re-open Princess Colliery. These terms were placed before the meeting last night, and among the contributors to the discussion which followed, was J. W. McLeod, district president of the United Mine Workers of America.

Norway Government Decides To Send Two Planes To Arctic To Seek Amundsen Expedition

OSLO, June 2—The Norwegian government has decided to send two sea planes to the Arctic preparatory to search for the Amundsen flying expedition to the North Pole, which started from Spitzbergen, May 21.

It was announced today that the government had selected the ship Ingertre to transport two seaplanes toward the Arctic, where they will undertake a search for the explorers.

The Ingertre, a 4,700 ton ship fitted with wireless, is expected to reach Horn, Norway, on the Christiansford, 92 miles south of Oslo, today. She will probably sail for Spitzbergen Friday.

Coroner Porter to Hold Inquest Into North End Case

Jury is Empanelled—Detectives are at Work in Search of Evidence.

The detective department of the police force is examining more fully into the circumstances surrounding the finding of the body of a newly-born infant in a bucket under a house in Somerset street back of Fort Howe on Sunday evening by four small boys.

NO TRACE OF VIOLENCE. While there was no special evidence of violence on the child's body, the bucket in which it was found showed presence of creolin, but whether or not this was part of a plan for deodorizing or merely a common non-toxic scrub-pail, will have to be further probed.

BOYS BURIED BODY. Neighbors say the boys buried the body in a garden plot at the rear of the cellar where they notified an adult.

NEIGHBORS ASSISTING. The police are at a loss to trace the paravane of the dead child. However, the machinery the law is in operation, and neighbors to the place of discovery are assisting, as much as possible, in clearing up the mystery.

JOHN J. WEDDALL IS DEAD AT CAPITAL

Prominent Business Man Succumbs After Short Illness From Pneumonia.

FREDERICTON, June 1—John J. Weddall, aged 79, head of the dry goods firm of John Weddall & Son, and one of the oldest active business men in Fredericton, died at his home this afternoon from pneumonia. He was one of the leading laymen of the Methodist church in New Brunswick, and had been ill only a few days.

PURCHASED BUSINESS.

After acquiring a knowledge of the dry goods trade he purchased, in 1881, the business of the late Thomas Logan and carried it on with great success. His only son, Charles H. Weddall, was admitted to partnership several years ago and since that time the firm has been known as John J. Weddall & Son.

PROMINENT IN CHURCH.

He had long been an outstanding figure in the Methodist church of Fredericton, and will be greatly missed by his late associates in that denomination. He served as recording steward for 44 years, was superintendent of the Sabbath school and had frequently been a delegate to the Methodist conference. His death will be a distinct loss to Methodists in the Maritime Provinces.

O'DUFFY ATTACKED

Free State Commissioner Greeted With Fusillade of Eggs in New York.

NEW YORK, June 1—Two hundred military police and detectives were unable to prevent an outbreak tonight when Gen. Owen O'Duffy, chief commissioner of the Irish Free State civil guards in Dublin, took his place in the army at 26th Street and Lexington Avenue to review the 165th infantry regiment.

The disturbance was quelled and 20 women were ejected from the hall only after eggs had been hurled at the Irish general and he had been greeted with a tempestuous chorus of cat-calls and cries of "traitor" and "he is the second Benedict Arnold."

Natural gas was used centuries ago by the Chinese, but the first man to light his house with it was William Murdoch of Cornwall, Eng., who used it in 1792.

The Government is submitting to Parliament a bill introducing the single transferable vote. This matter was introduced last year, but it was not pressed to a vote at that time.

Odds and Ends

"You never know what you'll find among the odds and ends."—From "Notes by a Waitress"

Miss Unknown

In an effort to prove their claim that properly applied publicity can do anything you want it to do, a group of New York press agents purpose taking an unknown girl in the world and that, even though she prove to be the dumbest of the dumb, she will continue to be a drawing card at the box offices for as long as they labor in her behalf.

The press agents are over-optimistic. Sensational publicity will result in the curious storming of the box offices to see the "unknown," but if she hasn't ability no encores will be demanded. When the novelty wears off, "Miss Unknown" will go back to the laundry or the restaurant or the typewriter or wherever it was she was recruited from to uplift the silent drama.

There is no nationally advertised article before the people today that is not a good article. The public can buy any regularly advertised article with confidence because, whereas sensational advertising might cause the public to bite once at inferior bait, it cannot attract to the hook a second time. Unscrupulous manufacturers do try every little while to get away with misrepresentation, but they are fooling nobody but themselves.

Music in the Schools

An interesting question is raised by Chairman McBrien's expressed opinion that the real purpose of music in schools should be to create patriotism. The Ontario regulations say that "the education in music should be directed toward developing in the pupil a taste for good music and providing him with a means of worthy enjoyment both in school and later life."

But if the teaching of music were confined to two or three distinctly national songs its benefit would be very much restricted. Language put into musical form deals with a wide range of emotion and feeling, including the domestic affections, which are such powerful forces in human life.

It is said of the Western Progressives that they would apparently be willing to stay in Ottawa all summer if by so doing they could get the Hudson Bay Railway built. Maritime members should be ready to stay there all summer in order to accomplish a much more reasonable arrangement—the taking over of the Valley Railway by the Government.

The Pulitzer prize for the best newspaper cartoon published in the United States during 1921 goes to Rollin Kirby of the New York World for a sketch entitled "News From the Outside World." In the picture three forlorn outcasts are gathered about a wayside fire, over which a can of food is simmering. The outcasts are Uncle Sam, Mexico and Russia. Uncle Sam is reading a headline: "Forty-eight Nations Agree Upon League Peace Pact."

A bill which passed its second reading at Ottawa last night provides increased penalties for smuggling. If the value of the goods is less than \$200, the penalty will be a fine of not exceeding \$200, and not less than fifty, or imprisonment not exceeding a year. But if the value of the goods is more than \$200, the penalty may be seven years' imprisonment, and not less than one year for a first offence. A second offence is to be punishable by a maximum sentence of ten years and a minimum of three.

"Amundsen discarded radio to give room for more equipment and provisions," says the Springfield Republican. "Under some circumstances a wireless set that could summon help might be of greater value than equipment for ice work, but things might fall out otherwise. With the limited carrying power of two aeroplanes it is impossible to be fully provided for every emergency, and no doubt the chances were calculated with meticulous care."

Silk And Thick Ankles. (Toronto Globe.) A physician's dictum in the British Medical Journal that thin silk stockings make thick ankles will have not the slightest effect on womankind. There will be no change until fashion decrees it. Man has been always railing at feminine styles, and wasting his breath. Appearance, health and comfort sometimes coincide with fashion, but they have nothing to do with creating it.

books; and an evening devoted to producing or listening to good music is well spent. Obviously it is not enough for that purpose to sing "O Canada," "The Maple Leaf Forever" and the "Imperial Anthem." The programme would have to be expanded and varied. Then as to patriotism, singing is only one means of stimulation. The history of the country, its resources, its needs, and the duties and opportunities which it presents, must all be studied. We have a good deal today about sectionalism in Canada, about cleavage created by geographical and other differences. Children might be taught to take the national rather than the sectional view. Singing is not enough. Mr. Belding, a New Brunswick editor, who traveled through Canada seeking the national outlook, spoke of people who sang "O Canada," but whose real thought was "O Ontario" or "O New Brunswick."

It has been said that our national holiday is marked by little or no commemoration of the achievement of Confederation. As it occurs in the long school holidays, it has not been made the subject of school exercises. But it would be well if a larger place were assigned in the educational programme to the history of Canada.

Old Trees in Spring. (Lowe W. Wren.) There is a quiet glamour to old trees. A fragrant breath—especially in spring—that soothes the soul. No heated clatter of scorns. Their tranquil shade. No restless roving foot. Turns from their easy avenues,—in spring.

Much like old men they nod beneath the sun. Proud of their scars. And here and there one stands. Shorn of an arm, bit by the darting lance. That rules the storm. And some hang heavily. Mute evidence of sudden wrath that caught them unaware. Some random tempest struck. At night, and morning found them strained and bent. Now every year their backs ache in the spring.

Old trees, kind trees, what memories they keep. Though autumn blinds them to forgetfulness. They wake in spring with hands outstretched and hearts alive and lips athirst to every breeze. No murmur of their hundred years but they recall its whim, or tryst, or song of love. No bitter sigh but grieves through all their days. Forget? How can old trees forget in spring!

I would take fainting spells, and my husband had to have somebody to stay with me all the time. He got me everything he could think of to see if they would do me any good, but nothing seemed to help me. One day a friend was in to see me and advised me to try

Two of a Kind. Beggar—"Got a few cents, mister? I ain't had a bite all day." Angler (returning from trip)—"Shake, old man! Neither have I."

Had Enough of Those. The landlord had at last agreed to re-paper several of the rooms. "What kind of paper would you like?" he inquired, "something with large figures?" "Decidedly not!" answered the tenant. "They would be a constant reminder of the rent I have to pay."

Sex Differences. Those Western paragraphs are great observers. One says: "At a party a man usually eats something he shouldn't and a woman generally says something she shouldn't."

Not So Very Odd. "Odd that we should speak of royalties on books." "I don't know. Books have titles, you know."

Evidence to The Soak. A man quite half seas over sagged down on the lobby lounge beside a dignified clergyman. "That's fine hotel," he began. "Yes, I find it very comfortable." "Whadja say to havin' a drink?" asked the boozey one generally. The clergyman's face set severely. "No, thank you. I never touch the vile stuff."

"Shay!" exclaimed the other, "whadja givin' me? You gotcha collar on backwards now."—Boston Transcript.

Cities and School Costs. (Edmonton Journal.) The Ottawa Citizen cites a report made by the senior inspector of public schools in which he draws attention to the steadily increasing cost of education in that city. The annual educational expense there stands at \$1,995,003. The

taxpayers, according to the Citizen, are "becoming more aware of the increasing tax burden which education is placing upon them." But this is comparatively slight as compared with that imposed in Edmonton. Here the sum of \$1,285,000 has to be found for this purpose during the current year, and

Edmonton's population is just a little more than half that of Ottawa. The 1921 census figures for the two cities were: Ottawa, 107,843, and Edmonton 55,921. A species of Siamese carp reaches a length of more than five feet.

MARRY TODAY IN STONE CHURCH

Miss E. Catherine McAvity Bride of W. Arthur I. Anglin

Ceremony at 4.30 O'clock—Others of Interest Also in the City.

A wedding of interest to Saint John people will be solemnized this afternoon at 4.30 o'clock in Saint John's (Stone) church, when Miss E. Catherine McAvity, daughter of Mr. and Mrs. John A. McAvity, will be married to William Arthur Ives Anglin, son of Dr. and Mrs. J. V. Anglin, ceremony being performed by His Lordship the Bishop of Fredericton, assisted by the rector of the church, Rev. A. L. Fleming. The choir will sing "The Voice that Breathed O'er Eden," as the bride party enters the church. Dr. Harry C. Dunlop will play a programme of music before the services, as the guests are arriving, and will play as they leave the church.

Admission to the church will be by tickets, by order of Rev. Mr. Fleming.

Conway-Brown.

Among the pretty weddings of early June was one solemnized in St. Peter's church this morning at 5.30 o'clock, when Miss Frances Helena Brown, daughter of Mr. and Mrs. Charles C. Brown, of Raymond, was married to Raymond Gerald Conway, son of Mr. and Mrs. W. G. Conway, all of this city, were married with nuptial mass, celebrated by Rev. Francis Hill, C. S. S., rector of the church. The bride, who was attended by her sister, Miss Ena Brown, was smartly gowned in a travelling suit of navy blue with fawn hat and squirrel and carried Ophelia roses. Her sister wore a pretty green crepe de chine and hat to match and carried a lovely bouquet of sweet peas. The groom was attended by Harold Conway, his brother. A wedding breakfast was served at the home of the bride's parents, 28 Elm street, at which Mr. and Mrs. Conway left on the Digby boat for a trip through the Annapolis Valley and to Halifax. On their return they will reside at 66 Adelaide street. Many lovely gifts were presented by their large circle of friends.

McDermott-King.

The marriage of Miss Irene Mary King, daughter of Mr. and Mrs. Louis King, to Gregory Francis McDermott, both of this city, was solemnized in St. John the Baptist church this morning when Rev. Arthur W. Kinella celebrated nuptial mass at 6 o'clock. The bride, who was attended by blonde charwomen with hat to match and fox fur of amber shade and carried lovely tea roses, shoes, and gloves. Mr. and Mrs. McDermott left after an informal wedding breakfast with the family for a motor trip through Maine and New Brunswick. On their return they will reside in the city. The young people received useful and beautiful gifts and were shown many courtesies by their friends, previous to their marriage, with gifts and kindly wishes.

Morris-Stilwell.

Central Baptist church at one o'clock today was the scene of a wedding of interest to Saint John, when the marriage of Miss A. Maude Stilwell and George H. Morris, the latter formerly of New Glasgow, N. S., now of Saint John, was solemnized by Rev. James Dunlop, in the presence of a large congregation. The bride was given in marriage by her brother, Bayard Stilwell. She wore a travelling suit of navy blue pique twill, with hat to match. Her hand blouse of French design was matched by her stockings, shoes, and given a pretty finish with an amber fox fur and a bouquet of Ophelia roses. The fur was the gift of the groom. Miss Beryl Blanch, organist of the church, played the wedding music, and the choir, of which the bride had been a member for several years, sang "O Perfect Love" while the register was being signed. Miss Betty Hennigar, a lifetime friend of the bride, and Arthur Stilwell, of West Saint John, twin brother of the bride, were the witnesses. Mr. and Mrs. Morris left on the early afternoon train for Nova Scotia, and will visit relatives of the groom. They will reside at 166 Leinster street.

The bride and groom have many friends in the city, and especially in their church circle, where Mrs. Morris has been a faithful worker in Sunday school and choir and in the Philathea class. The groom was in the war, enlisting in 1915 and throughout the war of the struggle serving in the 9th Field Ambulance.

Both are highly esteemed for their interest in community welfare and were given many gifts of value, including checks, the bride from the Continental Life Company, and the groom from the Canadian Drug Company. To show their regard for Mr. and Mrs. Morris, their friends of Central Baptist church decorated the church with cherry blossoms, violets and other offerings from the spring woods, making a very attractive setting for the ceremony.

Hoyt-Darch.

A very pretty wedding was solemnized on the evening of June 1 by Rev. C. R. Freeman, D. D., at the home of the groom's parents, Wilfrid P. Hoyt, 98 Duke street, West Saint John, when Miss Gwendoline Darch, formerly of Andover, N. B., now of Montreal, was given in marriage to Wesley M. Hoyt, of Montreal. The bride wore a gown of powder blue satin faced crepe and carried a bouquet of Ophelia roses. She was attended by little Miss Barbara Day, cousin of the groom, who was dressed in white voile with pale pink trimmings and carried a bouquet of pink sweetpeas. The wedding march was played by Miss Elsie Day.

The home was artistically decorated with snap dragons and apple blossoms. After the wedding a dainty buffet lunch was served. Only near relatives were present at the ceremony. The bride and groom received many gifts, which testified to the esteem in which they are held. Among the gifts was a chest of silver received from the staff of the Standard Chemical Company, where the bride was employed, and an Oriental rug, a gift of C. E. Darch, where the groom is employed.

Will Wed This Afternoon

William Arthur Ives Anglin and Miss E. Catherine McAvity, principals in wedding ceremony of much interest at St. John's (Stone) Church at 4.30 today.

Mr. and Mrs. Hoyt intend to leave Saint John in the course of a few days and will make the trip to their new home in Montreal by automobile.

Cochrane-Dann.

At Trinity church, Kingston, N.B., on Monday, June 1, at 9 a.m., a pretty wedding was solemnized when Rev. Reginald Britton united in marriage Miss Mary DeMille Dann, R.N., the youngest daughter of Mr. and Mrs. William Dann, of Kingston, and Stanley Ellsworth Cochrane of Annapolis, N.S. The bride who was becomingly attired in a navy and henna ensemble suit with hat to match was attended by Mrs. James W. Dann, Mr. Dann attended the groom.

Mr. and Mrs. Cochrane left immediately after the ceremony for an automobile trip through the Maritime Provinces and Quebec. On their return they will reside at Annapolis, N.S.

Todd-Dunbar.

Monday's Montreal Gazette says:—The wedding is taking place quietly this morning at 9 o'clock, at the Temple Baptist church, of Miss Edith Dunbar, daughter of Mr. and Mrs. William Dunbar, to Charles Frederick Todd, son of the late Mr. E. H. Todd, and of Mrs. Todd of Wakingham, Cumberland, England. The bride, who will be given away by her father, will wear an ensemble suit of navy blue kasha cloth with a peach and blue crepe gown, a fox ensemble choker, navy blue moirai hat. She will carry an arm bouquet of Ophelia roses and lilacs. The groom is wearing a suit of navy blue and will carry mauve and pink sweet peas. Mr. William Beck will act as best man. Immediately after the ceremony Mr. and Mrs. Todd will leave for Saint John, N. B., where they will reside.

Deaths

John Devlin

After a lengthy illness the death of John Devlin occurred at 2 a. m. on June 1 in the General Public Hospital. Many friends of Saint John keenly regret his passing. Besides his widow he is survived by two brothers and one sister. The brothers are Joseph Devlin, of this city, and Edward Devlin, of Bangor, Me., and the sister is Mrs. Robert Chisholm, of this city. There are also surviving two sons and one daughter, children of his first wife. The children are John J. Devlin, of this city, William Owen Devlin, of Hamilton, Ont., and Mrs. Harry McCarthy, of this city. The funeral will take place from his late residence, 264 Prince Edward street, on Wednesday morning at 7.30 to the Cathedral.

Electric Hand Does Work of Dozen Men

Brick handling, as well as many other operations in the manufacture of glass, wood and metal products, may succumb to an electrically-operated machine, which has just made its appearance. It is provided with rows of grippers which are in reality electric fingers. They all work in unison, gripping and lifting at the same time, like a gigantic hand. The grippers are attached to the bottom of a segregator, which is suspended from a crane. The crane moves the segregator to a spot above the conveyor, which brings the freshly-made bricks from the brick-making machine.

As the bricks travel on the conveyor, the first one goes as far as the most distant of the grippers. The motion of the brick actuates the gripper, which is magnetic in action. Eventually all the grippers deposit the bricks, spaced equally apart, on a truck, ready for the kilns. Excellent results have so far been the rule with the mechanism, it is reported especially in obtaining absolute uniformity in the stacking of the bricks before their entry into the kilns. The work of more than a dozen men can be performed by the machine, which has just started in practical operation. Five electric motors, provided by the General Electric Company, control the various movements of the machine.

REVIVING THE CREED

(Edmonton Journal.)

Hindenburg has been telling his subject that duty comes before right. The doctrine is not new, and will not excite surprise as coming from that quarter. It is the central tenet of the "kultur" code. So believed and acted the man who sank the Lusitania, and the men who torpedoed hospital ships, bombed civilian centres, and committed the assorted atrocities which made the name of the German war director hated and despised by decent people all over the world. They were ordered to do it. The criminality of the thing bothered them less than the scarcity of ration.

In 1914 only about 500,000 people in the United States held investment securities. Now the number is in excess of 5,000,000.

WILLIAMS' TRIAL COST WAS \$5,000

FREDERICTON, June 1.—The total cost of the murder trial of Harry D. Williams, who was hanged here in April, will be about \$5,000. Detailed expenses totalled \$4,107.05 and some \$800 in addition was passed on Saturday by the finance committee with an equal amount still outstanding. The heavy cost was due to the large number of witnesses and to the length of time the accused remained in gaol.

THE GRAND CHIEF COMING.

Moulson Temple, No. 14, Pythian Sisters, at its next meeting on June 22 will have an official visit when the Grand Chief Margaret Wadden and at the regular meeting last night arrangements for the visit were discussed. An initiation will take place that evening. Mr. O. Black, M.E.C., presided last night and there was a good attendance of members. The Temple will not meet during the summer months and its next meeting will be the last of the season.

In Parliament Today

THE SENATE will sit. IN THE HOUSE—The resolution of Hon. Arthur Meighen calling for higher protective tariff for Canada, will probably be discussed.

MEMORIAL MEETING.

Oddfellows and Rebekas representing Peerless Lodge No. 19, Oliver Lodge No. 9, Golden Rule Lodge No. 46 and Jewell and Sapphire Rebekah lodges met in Oliver Lodge room, Charlotte street last evening to attend the 106th memorial service of the order. Quite a number of veteran members attended, in addition to members from other lodges outside the city. Appropriate speeches were made by the officers and members of the order.

"Busy as a Beaver" a Joke, Says Yellowstone Park Naturalist

By HARRY W. FRANTZ.

YELLOWSTONE PARK, Wyo., June 1.—One of the last great traditions of the Nature Fakir has been blasted as the result of scientific observation here. The traditional standard for the industrious—"Busy as a Beaver"—is reduced to a meaningless phrase. The beaver is in fact more of a lazy bum—spends as much as ten hours a day sleeping, when, according to the teaching of centuries, he is supposed to be sawing down trees or building dams.

So reports Edmund J. Sawyer, naturalist of Yellowstone Park, who has spent months in observing the habits of the beaver under the favorable opportunities that exist here.

"In some ways," he says, "our learned respect for the beaver's activity and intelligence is bound to suffer from more direct familiarity with the subject. He does not always know which way a tree will fall; he is somewhat behind modern engineering methods in his building operations; for some ten hours of the day the proverbial busy beaver is usually wholly occupied with the strenuous labor of sleep—sweet sleep! On the other hand we are likely to find that his canals in particular are quite marvelous works, exciting our keenest interest and admiration."

Sawyer declares that beavers in the Yellowstone are very abundant, widely distributed and proceed unmolested with their work. "So long accustomed to the sight of man and familiar with the harmless role which he plays here, they pursue their various activities unperturbed by the presence of human spectators. Thus one may study as closely as he wishes their dams, lodges, portages and works in general."

A telescope has been invented which, although only five inches long, will magnify four and a half times.

Swiss Working women who also have household duties now get a half-holiday on Saturday.

Yesterday In Parliament

THE SENATE did not sit. IN THE HOUSE—First reading was given to a bill amending the act providing compensation for civil servants killed, or suffering injuries in the performance of their duties, and a bill increasing the Federal grant to the city of Ottawa. Second reading was given to the following bills: An amendment to the Dominion Elections Act, an amendment to The Supreme Court Act, and an amendment to The Customs Act. Third reading was given the following bills: An amendment to the Canada Evidence Act, an amendment to the Meat and Canned Foods Act, an amendment to the Northwest Territories Act, an amendment to the Animal Contagious Diseases Act, and an interim supply bill granting the government \$31,409,846 for current expenses.

DECREES LENIENCY SHOWN TO KILLERS

Insurance Statistician Lists Causes of Great Murder Toll in the Nation

NEW YORK, June 2.—Subtle methods of destroying human life, borrowed often from bacteriology and other sciences; perfunctory investigations of many deaths, and a disposition toward leniency in the matter of punishment, which suggests that homicide is no longer considered a major crime—these, in the opinion of Frederick L. Hoffman, consulting statistician of the Prudential Insurance Company of America, are among the factors principally responsible for the increasing murder toll in this country. He estimated yesterday that there were about 11,000 murders last year, probably 1,000 more than in 1923. "Murder is advancing from year to year," he says. "To an increasing extent murderers escape the consequences of their crimes through the employment of subtle means of life destruction. Murders are concealed by accident, then appear as suicides or accidental deaths. "Punishment as a rule is entirely disproportionate to the nature of the offense. Capital punishment, although the law in many states, is often not carried into effect, or only in a very small number of cases. If it cannot be enforced it should be done away with. The present situation is the most serious that has ever existed in this country and in lamentable contrast to the situation in England, Canada and Australia."

LOSE \$100,000,000

Wets Say This Amount Spent by U. S. Citizens Outside Country Yearly.

WASHINGTON, June 2.—The country loses \$100,000,000 annually, the Association Against the Prohibition Amendment declared in a statement because American vacations opposed to the prohibition law spend that much abroad.

The statement estimated that 500,000 Americans take two weeks and one day for their vacations this year and would spend about \$200,000,000. "At least half of the tourists," it continued, "will have been influenced by the Volstead law in choosing their summer playgrounds. Therefore, charge \$100,000,000 to be spent outside the country this year to prohibition."

The tourists, the statement said, would travel on foreign ships because "all ships flying the American flag are dry."

Sea coast resorts in this country, it added, "like Atlantic City, have complained of hard times each summer since the passage of the Volstead law, which is significant."

The statement pointed to reports that Americans had spent \$200,000,000 in Ontario on the day 4.4 beer was placed on sale there.

Add to Fund to Aid Crippled Children

In the hope of helping "some little boy or girl," Junior Red Cross members throughout the province are urged to make contributions to the fund recently the mail brought to the Junior supervisor, Miss Jessie Lawson, two letters containing reports of successful entertainments held in aid of the Junior's crippled children's fund.

The Happy Hearts and the Maple Leaves, of Perth, held an afternoon tea and candy sale at which they had a display of their own work in toy-making, sewing and knitting and scrapbook making. Boys and girls both had helped in the undertaking and \$18 had been raised.

The Scotch Settlement Juniors gave a dramatic entertainment presenting two puppets successfully and eked out the proceeds by having a guess cake. They realized \$22.92 and will give the greater part of that sum to the crippled children's fund.

Fables On Health

APPLES GOOD FOR DIGESTION

A RIPE, juicy apple will digest in the stomach in 85 minutes. Thus it is no wonder that apples are recommended for health. Apples contain a larger percentage of phosphorus than any other common fruit, and phosphorus is admirably adapted for renewing the essential nervous matter of the brain and spinal cord. Apples are excellent for sluggish livers. For this reason they are recommended for clear complexion. Sluggish livers permit the body to become filled with noxious matters, which, if retained, make the brain heavy and dull, or bring about jaundice, skin eruptions and other allied troubles. Persons who eat large quantities of meat are especially urged to eat apples, as the malic acid of ripe apples tends to neutralize chalky matter engendered by eating too much meat.

An apple, eaten before going to bed, cleanses the teeth, and protects them from the action of bacteria during the night. Apples are cheap, and plentiful, especially during summer. So—'Eat an apple going to bed, And make the doctor beg his bread.'

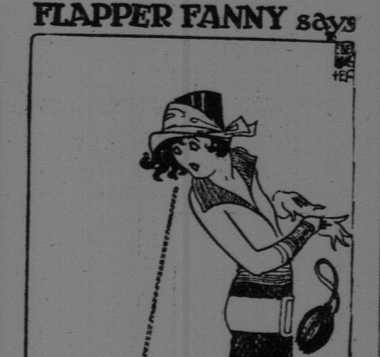

Adventures of the Twins

By OLIVE ROBERTS BARTON. MORE BIRD PATIENTS.

Some very queer birds came to Doctor Bill's hospital. One was the hoopoe. Did you ever hear of him? He is a nice little fellow, a bright brown, with wings all black and white. He has a hard life, indeed, because not only men shoot him for sport, but hawks love to chase him. He doesn't live in America, but I am sure we should love to have him if he would come. 'What happened to you, Henry?' asked Doctor Bill. 'Well, I'll tell you, Doctor,' said Henry Hoopoe. 'It was this way. I hadn't been at my breakfast five minutes when I saw a cloud sort of pass over the sky. And looking up I beheld a terrible hawk. 'He was swooping down right at me, so I dropped the big bug I was eating, and spread out my legs and closed my eyes and pretended I was dead. They say I do it nicely, you know, play dead. 'I twist around all sorts of ways and ruffle up my feathers until I look exactly like an old bunch of rags. 'Didn't it work?' asked Doctor Bill. 'Just wait until I tell you,' said the

hoopoe bird excitedly. 'Yes, it worked all right in some ways. The hawk swooped down, but either he didn't see me or he didn't want a dead bird, for he flew right away again. The things that hurt me was something altogether different. 'What?' asked the Twins who were getting as curious as Doctor Bill himself. 'When I flopped down on the ground there was something right under me I didn't see as there were a lot of old

leaves lying around. It was a snake and he bit me in the leg. How I got away I don't know. 'It does seem too bad,' said Doctor Bill sympathetically. 'Come, we'll fix you up as good as new, sir.' 'Why don't you do like us?' asked another little bird who had just arrived. 'Then you can't get hurt.' 'The newcomer looked like a sparrow, yet he was different. He was gray and had a black head and tall and fat white cheeks. 'Hello, here! What's your name?' asked Doctor Bill. 'I don't seem to remember exactly who you are.' 'Jimmy Java Sparrow,' answered the beebird-near-the-andan-5tooray little bird. 'Well, well, well! I declare! How do you do Jimmy? And what is it you do that is so wonderful?' 'I adopt somebody,' said Jimmy proudly. 'Humph! What good does that do?' demanded the little hoopoe bird. 'It only adds to your troubles.' 'No it doesn't. What I really mean is that I get somebody to adopt me. I usually pick a nice big bird like a dove or pigeon. I go where he goes, and at night when he goes to sleep I roost on his shoulder. Other big birds let him alone and I'm safe, too. 'Then how did you get hurt?' asked Nick. 'It was a mistake,' said he. 'Someone shot at the dove and hit me by mistake.' 'Then it works both ways,' said Doctor Bill. 'But it doesn't matter. I saved his life,' said the little Java Sparrow proudly.

### Mrs. T. N. Vincent Again Is Head of Women's Institute

The Saint John Women's Institute last year carried out with great success an ambitious programme of activities and raised a gratifying amount of money. The reports presented at the annual meeting in the Health Centre yesterday afternoon were heard with much pleasure. Mrs. T. N. Vincent, president, was in the chair and was re-elected president. Other officers were elected as follows: Vice-presidents, first, Mrs. W. F. Rowse; second, Mrs. J. J. McDermott; treasurer, Miss Josephine Durick; secretary, Mrs. J. W. V. Lawlor; additional directors, Mrs. W. H. Thompson, Mrs. Sydney Collins, Mrs. J. McCarthy, Mrs. A. E. Wilson, Mrs. J. Corkey, Mrs. E. Parren. Delegate to the provincial convention in Moncton, June 10-12, Mrs. Rowse; alternate, Mrs. McDermott. Convener of programme committee, Mrs. R. Hooper.

Auditors, Mrs. Hooper and Miss Sharkey. The meeting decided upon July 18, as the date for the fair to be held at Brookville and left the arrangements for the fair in the hands of the executive.

There was an exhibition at the meeting a rug made of samples of coating material, herringbone together, which will form part of the thrift exhibit being prepared by the Institute.

### TO SPLIT OVER CHURCH UNION

Opponents of Merger Will Leave Toronto Meeting After Making Protest

Non-concurents Will Declare Selves General Assembly and Meet on June 11.

TORONTO, June 1—Although there will be between 80 and 90 non-concurring commissioners, lay and clerical, at the Presbyterian General Assembly opening here Wednesday evening, there will be no attempt to divide the court on the question of church union, it was stated today.

Opponents of Union will not nominate a candidate for moderator in opposition to Rev. Dr. G. C. Pidgeon, of Toronto. The report of the Union committee is expected to be a formal report on the progress made in the way of legislation since the last assembly and will not enter upon controversial subjects. There will be a sharp demarcation, however, when the non-concurring commissioners file their final protest against union, declare themselves the general assembly of the Presbyterian Church and adjourn to meet elsewhere on June 11.

#### MUCH BUSINESS AWAITED.

Sessions of the assembly open Wednesday evening in College street Church with the election of the moderator and conclude in the evening of Tuesday, June 9, the day before the consummation of union at a united service here. In the course of the 13 sessions, the commissioners will dispose of a large number of reports and much routine business, and will make final arrangements for entering united church. About 600 commissioners are expected, representing every Presbytery in Canada.

The non-concurents who meet June 11, after union has been an accomplished fact, expect to sit for three days.

### DELEGATES NAMED FOR CONVENTION

Fairville Liberals Meet—It is Decided to Form Club For Young Men.

A meeting of the supporters of the Government party was held last night in Temperance Hall, Fairville to select delegates for the convention. John T. O'Brien was chairman and A. K. Nelson was secretary. The delegates elected to represent Fairville were J. T. O'Brien, A. K. Nelson, H. B. Tippitt, John McKinnon, Charles Masson, Matthew McGrath, Joseph L. O'Brien, Fred McCormick, Perley Barnhill and Thomas O'Rourke. The substitutes appointed were James Quigg, Stewart Nelson, Arthur McKinnon, Max O'Keefe, William Hayes and James McManley.

Those elected to represent other localities with the substitutes were as follows: Milford, William Evans and James Ferguson, with substitute, Michael Gleason; South Bay, Amador Anderson, substitute, William Duffy; Grand Bay, John Gordon; Randolph, George Melanson, and substitute, Raymond Williams.

Speeches were delivered by John McKinnon, J. T. O'Brien, A. Anderson, J. L. O'Brien. The chairman spoke in favor of the formation of a Young Men's Club. It was decided to do so. The following young men were elected as representatives of the club in the various localities: Fairville, John Hayes and Bert Chipman; Randolph, George Melanson; Milford, Michael Gleason.

It was decided that the chairman should call a meeting of the delegates and substitutes four days before the convention. It was announced the committee rooms would be opened at once. After further speeches the meeting adjourned.

ARMORED FLEET TO BATTLE DRY NAVY

BOOTLEGGING RING BUILDS NEW VESSELS

New York Times Says They Will Be Equipped With Machine Guns

WILL BE CAPABLE OF 40 KNOTS AN HOUR

Refusal of Crews to Go Out Without Protection Given as Reason.

Canadian Press Despatch. NEW YORK, June 2.—The New York Times says that it has learned that a New York bootlegging ring is having constructed a fleet of armored rum runners which will battle the coastguard boats blockading rum row.

The liquor smuggling syndicate has given orders to a shipyard for the construction of this fleet, the Times will say. In addition to a heavy armor as protection against the bullets of the rum chasers, the boats, it is understood, will carry machine guns.

40 KNOT BOATS All the new vessels which will attempt to smash the blockade, will be capable of making about 40 knots and will be modelled after the Cigarette, which was captured for the third time yesterday. This reported aggressive move on the part of the beleaguered liquor forces, is said to have been caused by the refusal of crews of rum runners to go out to sea without protection against coastguard fire.

CHURCH UNION VOTE Information Bureau Declares 1,712 Congregations For Merger and 667 Against.

TORONTO, June 2.—The summary issued by the Church Union Bureau of Information last night, reported that 1,712 Presbyterian churches and preaching places have voted in favor of concurrence in church union, and 667 against. By provinces the vote is as follows:

British Columbia, for 218, against 27; Alberta, for 134, against 33; Saskatchewan, for 469, against 18; Ontario, for 498, against 404; Quebec, for 107, against 81; Nova Scotia, for 141, against 69; Prince Edward Island, for 45, against 23. The latest report of the Presbyterian Church Association claims 708 churches and preaching places voting against union.

It takes healthy gums to keep healthy teeth. Bleeding gums are Nature's first warning of Pycorrhoea. Then they begin to recede, lose that rich, pink color. Disease-breeding poisons collect in pus pockets and often drain through the entire system. If used in time and used consistently, Forhan's will prevent Pycorrhoea, or check its progress—something ordinary tooth pastes are powerless to do. It contains just the right proportion of Forhan's Astringent (as used by the dental profession in the treatment of Pycorrhoea). It is safe, efficient and pleasant tasting. Even if you don't care to discontinue your favorite dentifrice, at least start using Forhan's once a day. Forhan's is more than a tooth paste; it checks Pycorrhoea. Twins Born To Sisters On The Same Day

FRANKLIN, Ky., June 2.—What is perhaps without a parallel in the birth annals of Kentucky was reported by Dr. W. L. Brothers, sisters, mothers, aunts and cousins all were reported doing well.

GERMANY DEFENDS BOND REVALUATION Cabinet Says Dawes Plan Safe—Guards Against U. S. Agitation.

BERLIN, June 2.—Reports from America that holders of German securities intend to issue a joint protest against the German government's revaluation plan have not disturbed the cabinet. At the Foreign Office it was stated today the Dawes plan itself constitutes a safe guarantee against agitation of this nature. Germany's creditors have every reason not to disturb the equilibrium which Germany with infinite pains has established, it was stated.

To attempt to force Germany to pay a higher percentage of its government's obligations than provided for in the revaluation law would mean rendering it impossible for Germany to meet the payments called for under the Dawes plan, Foreign Office officials said. Besides this, it was argued, the transfer agent under the Dawes plan would be faced with new problems added to the present intricate ones, if money beyond the normal limits established in the revaluation law was transferred to foreign countries.

THE HART'S CEILING WASHINGTON, June 2.—Army surgeons say it is impossible for a man to live, even with oxygen and electrical heaters, at an altitude of 45,000 feet, or about 8 1/2 miles. About 23,000 feet an artificial supply of oxygen is necessary.

B. E. Steel Corp. Bars Murdock As Conciliator

GLACE BAY, June 1.—The British Empire Steel Corporation has refused to be party to the proposal that the Minister of Labor Hon. James Murdock, act as intermediary in the miners wage dispute. Vice-President McLurg stated this afternoon. The proposal was made by the United Mine Workers' District executive, and was accepted by the Minister conditional on the arrangement proving satisfactory to both parties to the dispute.

RUM WAR SHOOT UP CORN LIQUOR PRICE

Appalachian Moonshine Belt Busy as Officials Concentrate on Whiskey Ships.

BRISTOL, Va., June 1.—Activities of the Federal authorities to demoralize the rum fleet off the Atlantic coast are beginning to have an effect on the moonshine industry in this section of the Appalachian Mountains. Moonshiners declare that the demand for corn liquor is greater than ever and that for the first time during prohibition orders are being received faster than they can be filled.

FRUIT-FED PUPS. LONDON, June 2.—That pups thrive on fruit salad is a discovery made by A. E. Kennard, a veterinary surgeon. He first experimented on a litter of borzoi, feeding half of them on the usual dog foods and the other on a diet consisting partly of oranges, apples and bananas.

FRID M. KEATOR Fred M. Keator, manager of the Royal Securities Company in this city, who testified last Friday in signing the check to the amount of \$2,030.63 which was given to Humphrey, who sold two \$1,000 Victory bonds to the company, was recalled and said the company purchased the two bonds on Nov. 23, 1923. Witness produced the check which he had obtained from the head office in Montreal and the check had been cashed.

DETECTIVE BIDDISCOMBE Detective Biddiscombe testified that about 9 o'clock in the morning on Aug. 11, 1920, with Sergt. Detective Powers and Detective Donohue he visited the office of Frank E. Jones in German street. They found the office in disorder, the drawers of the desk were open and papers scattered about the floor. Witness with the other officers made the visit on account of a call made by Jack Jones, brother of Frank. When witness arrived the office of Frank E. Jones and a boy were in the office. The door of the safe was open and at that time one of the four bonds and some United States currency, and from that time on the detective department had been making an investigation. Eventually one of the stolen bonds was received from George Kane, who gave it to the detectives while in the Royal Securities Company office, Prince William street, when Sergt. Detective Powers gave Mr. Kane a receipt for the bond.

QUESTION ANSWERED. To Mr. Belyea, witness said that John Jones, Jr., reported the robbery to the police. In answer to a question, witness said it may have been common talk that Frank Jones claimed that his brother John had stolen the bonds but witness did not know that. John Jones told the detectives on their visit to the office that the safe door was shut but not locked. John Jones, Jr., said that he knew there had been some money in the safe but he did not know what had been taken from it. From inquiries at the time that the robbery had taken place, witness said that he could not tell whether it had been an inside or an outside job and the detectives had come to the conclusion that they would be obliged to await such time until the bonds were all accounted for and that time would be a real clue leading to a guilty person. Witness said that he did not know that Frank Jones had stated that the stolen bonds had been in the possession of his brother, John, Jr.

CROWN CLOSES At this stage of the proceedings the Crown closed its case and Mr. Belyea in a short address to the court in asking that the accused be allowed to go on bail, stated that as he expected his client would be committed for trial that he did not intend to call any witnesses for the defence at the preliminary hearing but when in the next court of jurisdiction he intended to give the public some news regarding the entire transaction. Before committing the accused to trial, in answer to the magistrate if he had any statement to make, Humphrey said that he had nothing to say. Mr. Belyea then applied to the court to receive bail, but Magistrate Henderson said that he had not the jurisdiction to accept bail but that the depositions of the witnesses would be given to Mr. Belyea and the proper procedure would be for Mr. Belyea to take the same to the judge of the next court of jurisdiction and if that judge was agreeable and sent word to that effect the magistrate would then accept bail.

WHERE ELEPHANTS DIED WASHINGTON, June 2.—Explorers of the Sumatra Islands have come upon a great heap of elephant bones, and they believe it is the spot where the animals went to die. Elephants are said to go to a lonely spot when they feel death approaching.

CANOE IS SIDE-CAR LONDON, June 2.—For a day's outing on the river, a manufacturer has devised a canoe side-car for motor-cycles. A young woman can enter the canoe at her doorstep. Arriving at the water the canoe is easily detached and launched.

YEANDLE, KID-GLOVED SCRAPPER, WHO PUT RUM ROW OUT OF BUSINESS

Liquor Vessels, Unable to Break Blockade, Leave for Other Fields.

By BOB DORMAN.

NEW YORK, May 30.—Back of the war on rum runners' whose ships have been driven from the North Atlantic coast by the vessels of the Coast Guard stands a solitary figure whose exploits have rendered possible, in a great degree, the success of the governmental offensive. Lieut. Com. Stephen S. Yeandle, aid to Admiral Billard, head of the Coast Guard, is the man. More than once has his life been attempted by gunmen of the bootleggers, driven to desperation by a couple of weeks ago a man was arrested in his office armed with two automatics.

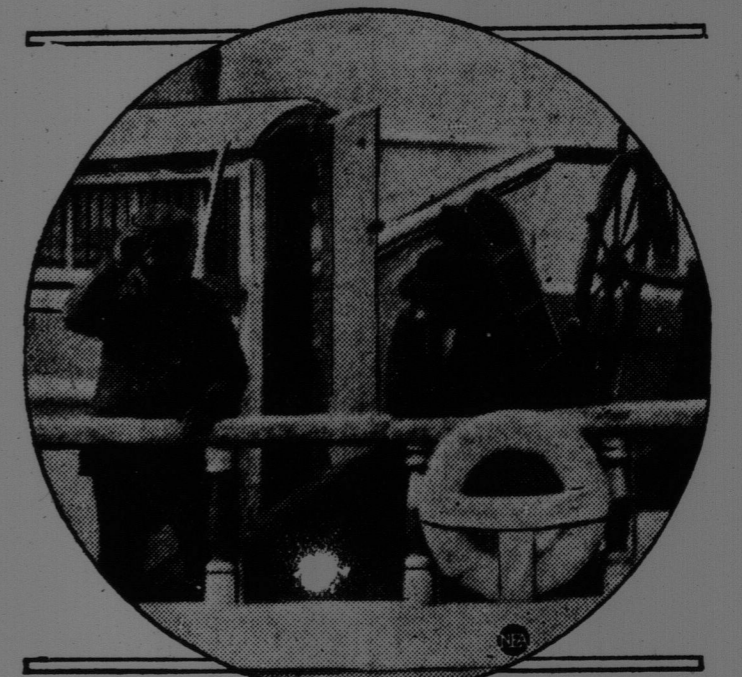

Looking at Commander Yeandle one would at once assume that he was a professional man—a doctor or a lawyer, perhaps.

Never would one think of the man as a daring sea-farer, or a man whose exploits among the haunts and dives of the rum runners have won their undying enmity. A trim, pointed beard and mild blue eyes are outstanding characteristics of a face whose strength is hidden by the beard.

It is more than hard to get him to talk of his work or what he has done. He will sit for hours and tell you of the exploits of the men of the Coast Guard—how they lost more men proportionately in the World War than did either the army, the navy or the marine corps.

Ask him about the seizure of the British gun ship, "Oge-shie-Top," and he will tell you about the heroic exploit of Lieutenant Fletcher W. Brown in outwitting and endeavoring to navigate the tormented steamer Wellington into port with her valuable war cargo, and of how the Wellington was sunk by a heavy storm. Brown and two of his volunteer crew being picked up by a destroyer after floating for hours on pieces of wreckage.

The seizure of the "Over-the-Top" was but one of the many stunts of

Mr. Maloney (as he called him) had a lot of fun kidding the boys of the Coast Guard ship, the while he carefully hid his face behind binoculars. Mr. Maloney is the supercargo of the General Pau. With him is the skipper of the General Pau, whose face is concealed behind black eyeglasses. The General Pau, firing the rum blockade invulnerable, sailed soon after the Coast Guard cutter arrived on the scene.

Commander Yeandle in the war on rum runners. The new treaty with Great Britain provides that any ship an hour's sail from shore and which is selling rum to shore boats may be seized. The skipper of the "Over-the-Top" was 30 miles off shore and figured that he was safe. But Yeandle, accompanied by Brown and another sailor, went out to her at night in a sea sled, capable of making 60 miles per hour, and bought 25 cases of whiskey by representing themselves as rum runners, and then made it back to shore in 45 minutes.

A sailor immediately went out and brought in the "Over-the-Top" on the ground that she was less than an hour's sail from shore. The treaty had given him an undying devotion to its service, and his one desire is to uphold the traditions of the oldest armed naval service of the United States.

But to Commander Yeandle it is all a part of the day's work. The 17 years that he has served in the Coast Guard have given him an undying devotion to its service, and his one desire is to uphold the traditions of the oldest armed naval service of the United States.

TRUCK PRODUCTION. Truck production, on the other hand, is running substantially ahead of the corresponding period in 1924. For the first four months total truck output was 155,588, compared with 137,984 last year. While truck production in the past has closely followed passenger vehicle output, the increasing use of buses in the last two years has tended to increase the proportion which trucks bear to passenger car output.

Record production figures are again indicating to some of the more conservative automotive executives, who follow conditions closely, the prospect of over-production. This seems to be less likely this year than there has been in the past, due to more stabilized manufacturing conditions and the fact that current production in a majority of cases is strictly in line with conditions in the retail field.

Methodist Conference Passes Resolutions on Temperance and Pensions.

AMHERST, N.S., June 1.—Temperance and social resolutions occupied the attention of the Nova Scotia Methodist Conference in its concluding hours today. Criticism of the Board of Vendors' Commissions in Halifax was made, also the general report upon temperance indicated that progress had been made upon prohibition lines.

Mother's pensions along the lines of Ontario met with the sincere approval of the Conference members and it was requested that similar law be placed upon the statutes of Nova Scotia.

A resolution requesting the appointment of an impartial commission to carry out a thorough investigation of the coal-mining and allied industries in Nova Scotia was also passed. The Conference also took a strong stand in opposition to gambling and church lotteries.

IMPRISONMENT IF VALUATION EXCEEDS \$200

At Least One Year for First Offense; Three Years for Second

FORFEITURE OF GOODS ALSO IS PROVIDED

Fine of \$200 and Imprisonment is Punishment if Value Under \$200.

Canadian Press. OTTAWA, June 2.—More drastic penalties with respect to the smuggling of goods into Canada are provided in a bill to amend the customs act, which received second reading in the House of Commons last night.

The bill provides, in the case of goods smuggled into the country under the value of \$200, a penalty not exceeding \$200 and not less than \$50, or to imprisonment not exceeding one year and not less than one month, or to both fine and imprisonment. Forfeiture of the value of such goods is also provided.

IMPRISONMENT. A penalty where the goods smuggled into Canada are of the value of \$200 or over is also provided. The bill sets out that the penalty, in this instance, shall be seven years' imprisonment, and not less than one year, for a first offence, and to imprisonment for 10 years, and not less than three years, for a second and each subsequent offence.

Witness Says Murder Admitted by Accused

MONTREAL, June 1.—That Francis Aiken had confessed to him that he shot George Benton, Goldie Clark, a neighbor of the victim, testified today in the court of King's Bench during the trial of Charles and Francis Aiken, of Chateaux, N. Y., on the charge of murdering George Benton on May 7, 1924, at Roxton, Que.

Witness said that the confession had been made in the jail cell at Plattsburg, N. Y., on the morning after the affair. Benton, shot on May 7, was taken to Plattsburg where he died on May 10.

Auto Output in Canada and U. S. For April, 438,965 Cars

NEW YORK, June 1.—The astonishing vitality of the motor industry and its sound fundamentals have again been illustrated by its rapid recovery in recent months from the upset conditions of last year.

The industry is never without its concerned pessimists when the outlook is uncertain, and never fails to attract a host of enthusiastic followers when conditions are bright.

Its answer to the dire predictions concerning its future which were rampant at this time last year is the new high record in monthly output in April with production in United States and Canadian plants totaling 391,301 passenger cars and 47,664 trucks, a grand total of 438,965 automobiles.

This output compares with the previous record of 338,853 passenger cars and 45,804 trucks established in May, 1924.

Notwithstanding the April record, production of passenger cars in the first four months of 1925 was still below the total for the corresponding period of 1924, total passenger car turnout being 1,189,175, compared with 1,340,734 last year.

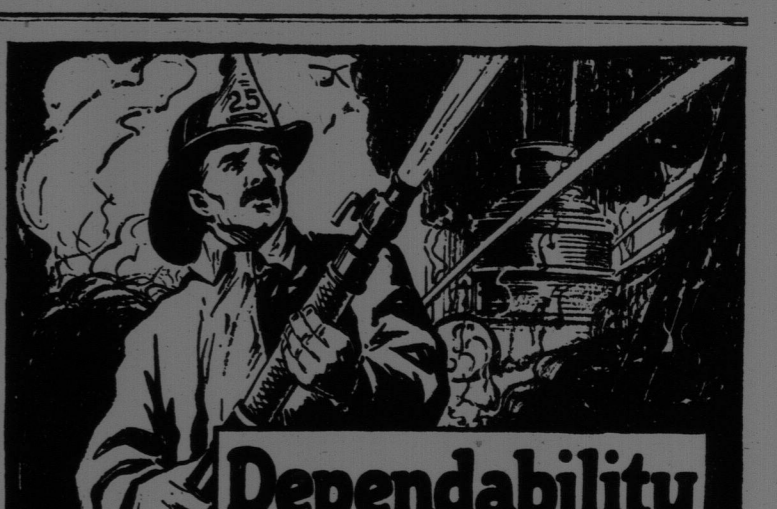

With prospects of a new high record in the current month, however, output for the first five months will cross last year's figures, and exceed any corresponding period in history, as output in 1924 began its decline in March when all indications at present are that it is still on the upgrade.

The Dominion Bureau of Statistics says that if you add up the sugar manufactured and imported into Canada, and subtract the sugar exported, you get a net for interior consumption of over seven hundred million pounds—equivalent of 81.46 lbs. per capita. The place of sugar grows year by year as its benefits become realized.

Dependability VALVES that control water for fire protection must function when required.

They may remain idle for years but when the emergency arises, they must be ready. Property and human life depend upon these valves. In most of the large buildings and institutions, you will find JENKINS VALVES controlling fire protecting equipment. They are selected because of their dependability. They hold back the water without leakage, but when required they function instantly. Whether for radiators or steam pressure control, for air pressure or water, it is good economy to insist on JENKINS VALVES. They never leak and they never fail to work. The peace of mind inspired by JENKINS VALVES is worth making sure of.

ping milk to the city. Dr. Johnston made 639 sediment tests of milk and took 48 samples for analysis by Dr. H. L. Abramson. After reinspection of their premises he had given licenses to six milk producers who had previously been refused licenses. Conditions on their premises had been improved. Since May 1, Dr. Johnston had been making daily inspections of the milk pasteurization plants and he gave satisfactory reports concerning them. He condemned a carcass of seal and it was sent to Rockwood Park to be used as food for the animals. In the two slaughter houses 300 animals were killed and conditions were excellent.

CHILD WELFARE

Miss H. B. MacKay, V.O.N., superintendent, reported on child welfare work showing 367 visits were made and 268 babies supervised. At the 14 clinics 140 babies attended and in four kindergartens 106 children were inspected.

PRESENTATIONS AT CLOSING MEETING

St. John The Baptist Home Nursing Class Ends Work For Season

The closing meeting of the Red Cross home nursing class composed of members of the Ladies' Society of St. John the Baptist parish was held in the society's rooms last night when Miss Stella McDermott, president of the society, was chairman. She voiced appreciation of the work of Mrs. Logan as teacher of the class.

Reviews Work

Mrs. Logan conducted a review and the members of the class acquitted themselves well. They also gave a practical demonstration of bed-making. Attendance cards were presented to 38 of their number, many of which had made perfect attendance. After the review and presentations all of the gathering adjourned to another room where a dainty supper was served at gayly decorated tables. Red Cross emblems were hung about the walls.

Modern Pavements Make Feet Tired

The miles and miles of hard surface roadways and sidewalks are very wonderful, but, being hard, non-resilient, and excellent conductors of heat and cold, they torture our poor feet unmercifully. TAX PROBLEMS TO BE TALKED

Good Roads Association to Seek Solution at Quebec Meeting

Premier Veniot Will Preside—Saguenay Excursion is Planned

QUEBEC CITY, June 1.—The tentative program that has been drawn up by the special committee of the Canadian Good Roads Association indicates that at the convention on September 22, 23 and 24 at Quebec City, the delegates will have brought before them subjects for discussion that deal with most of the many problems that are confronting highway authorities throughout the Dominion today.

The rapid increase and automobile traffic of the last few years, the growing demands of big markets for the rapid delivery of the products of the farm and means of inter-communication between municipalities, has brought prominently before the general public the whole question of highway construction and maintenance and the financial obligations attached thereto.

EQUITABLE TAXATION

The efforts that have been made to secure a continuance of the federal grants for highway work will be reviewed, and the results that have been achieved in Canada and the United States through this assistance will be set forth, with suggestions for the future work in this direction. One of the most important subjects to be dealt with is equitable taxation for highway construction and maintenance, which will give an opportunity for discussing the proportion that each section of the community should bear in relation to the use made of the highways. Another paper that will follow has some relation to this question. "What we have learned from the traffic census." A lot of valuable data will be found in this paper which should aid municipalities in regulating the use and restricting the abuse of the highways under their control.

DUST PROBLEM ON ROADS

The dust problem on gravel roads will be set forth in another paper, and inasmuch as the majority of Canadian roads for many a year have been gravel roads, the problem made by road engineers to allay the dust nuisance and the results attained will be of special interest to highway authorities all over the Dominion. Provincial maintenance systems will be outlined, while papers dealing with the principal permanent

TIRED OUT ALL THE TIME NERVES GAVE LITTLE REST

Relieved by Lydia E. Pinkham's Vegetable Compound

Harrowamith, Ont.—"I took your medicine before my baby was born and it was a great help to me. I was very poorly until I started to take it. I just felt as though I was tired out all the time and would take weak, fainting spells. My nerves would bother me until I could get little rest, day or night. I was told by a friend to take Lydia E. Pinkham's Vegetable Compound, and I only took a few bottles and it helped me wonderfully. I would recommend it to any woman. I am doing what I can to publish this good medicine. I had that little book you sent me to any one I can help. You can with the greatest of pleasure use my name in regard to the Vegetable Compound if it will serve to help others."—MRS. HARVEY MILLIGAN, R. R. No. 2, Harrowamith, Ontario.

In a recent canvass of purchasers of Lydia E. Pinkham's Vegetable Compound over 100,000 replies were received and 98 out of every 100 said they had been helped by its use. This medicine is for sale by all druggists.

Aids Defence

JOHN E. JONES, head of a private detective agency in Chicago, is one of William D. Shepherd's right hand men in the latter's fight against the charge of murdering Billy McClinton.

WINTER HIGHWAYS

The subject of winter roads, their maintenance and the cost of operation is another subject that will be dealt with, and valuable details as to the equipment necessary and the best methods of ensuring the all-year-round use of the highways, not only in the cities but in the suburbs and outlying municipalities will be submitted. Colonization roads, which bear a much closer relation to provincial highway systems than they did a few years ago, will be discussed in another paper, while in an outdoor session the delegates will be given the opportunity of seeing practical demonstrations of the different types of pavement used on the highways in the vicinity of Quebec.

Apart from the value of the program the convention of the association, of which Premier P. J. Veniot is president, the delegates will have an unequalled opportunity of becoming acquainted with the historic city of Quebec, with its old-world atmosphere. A special excursion will be made at the close of the convention to the Saguenay River, and the executive committee record attendance of delegates in September next.

15 CHOSEN TO GO TO SUMMER CAMP

About \$1,800 Needed to Care For Kiddies at Camp at Fair Vale.

Of the 44 children examined for admission to the Lady Byng camp at Fair Vale there were 15 who were at once approved for attendance at camp and 14 more who were approved but are to have remedial treatment before they enter camp. Besides those who will fully account for the all the camp accommodation at the outlet there are seven children who were approved as second choices. These seven have less pressing need for the camp's benefits than first choices but if there should be a vacancy their cases are sufficiently serious to make attendance at camp desirable.

Funds for the camp have been coming in very slowly and prompt and generous support of the project must be secured. It will take about \$1,800 to finance the camp throughout the season. Gifts in kind of provisions and some needed equipment will be gladly welcomed, a Franklin, stove or heater for the living room of the third cottage being an article specially sought.

This year the scarcity of clothing will be one of the camp's handicaps. Through the kindness and interest of the Women's Institute a supply of very nicely made clothing has been provided for the children.

Miss H. Dykman has in hand the arrangements for the camp and has received some money contributions towards the funds.

Elaborate Pageant To Mark 98th Birthday

The Sunday school of Portland Methodist church will celebrate its 98th anniversary by the presentation of impressive pageant in the church at the evening service. There will be about 80 or 90 taking part in the pageant which is entitled "Canada's concern for her country."

At a practice held last night everything augured well for a very successful presentation of the pageant. Those directing the performance are Miss Lillian Maxwell, Mrs. John Howe and H. W. Bromfield.

Tired Nerves. Mrs. E. R. Walsh, R.R. No. 2, Navan, Ont., writes: "Dr. Chase's Nerve Food saved me from a nervous breakdown. I had been nervous, could not sleep and was always tired. The Nerve Food built me up and made me feel like a different person."

MODERN life brings a terrible strain on woman's delicate nervous system. The continuous whirl of social life, charitable and church work, together with all the cares of home and family entail a burden that the nerves cannot bear. Sooner or later physical bankruptcy must come and the inevitable break-down. Why not guard against this by taking a reasonable amount of rest and building up health and strength with the use of Dr. Chase's Nerve Food? This great restorative has long since proven its merits as the most effective means of building up the exhausted nervous system.

LARGE KEEPING TRAFFIC LAWS

Recommendation at Inquest Into Death of J. Boyd McMann

Find No One to Blame for the Fatality—Boy Said He Used Brakes.

The coroner's jury in the inquest last night into the death of J. Boyd McMann, truant inspector of the city schools, who was killed on Saturday, brought in a verdict attaching no blame to anyone but recommending that the traffic laws be more strictly adhered to.

Evidence was given by Dr. Howard B. Bustin, interne at the General Public Hospital, who pronounced Mr. McMann dead; Policeman Harry B. Young, traffic officer at the foot of King street; Leonard McMullin, the Western Union messenger boy whose bicycle struck Mr. McMann, and J. Cyril Lannan, delivery superintendent with the Western Union.

Coroner H. A. Porter presided at the inquest, which was held in the police court. The jury was composed of James Sproul, foreman; Joseph Nixon, William Crabb, J. Arthur Lindsay, Charles E. Farrand, T. Clinton Brown and W. V. Hatfield. H. H. McLean, Jr., was present representing the Western Union Telegraph Company and the messenger boy.

LEONARD McMULLIN, 15 years, Western Union messenger boy, was the third witness. He had been sent to the King street store of Waterbury & Rising, Ltd., to get a parcel and from there had been on his way to the office of the Gutta Percha Rubber Company to deliver it. He had gone down King street near the curb, following an automobile about four feet ahead of him, but closer to the middle of the street. He could not see past the car on the right side, he said. When the car reached the crossing he thought it was going to turn up Chipman's Hill, he testified, and he had to go to the left to avoid running into it. When he passed around the back of the car he saw the man ahead and that was all he could remember. He declared he had his brakes on most of the way down the hill and

was just keeping pace with the car. He could see the traffic officer but when he got close to the crossing. He had had a bell on his bicycle but it broke about three weeks ago and he had been without since that time. Most of the time he had a whistle that he used as a warning but on Saturday he did not have it. The boys had all been told that they should have bells on their wheels, he said, and there were cards hung up in their room giving them instructions about the need for bells and lights and telling them that they should not go faster than eight miles an hour. His brakes were working all right that day. He had been using them coming down the hill.

REGULATIONS. Coroner Porter, in summing up the case for the jury, said that a breach

of the traffic regulations had contributed to some extent to the accident. He called the attention of the jury to sections of the laws. One by-law forbade vehicles approaching ones ahead closer than 10 feet when nearing crossings where pedestrians were about to cross.

The jury, after deliberation, found that Mr. McMann had died as the result of injuries received when he was knocked down by a bicycle ridden by C. Leonard McMullin and added that "we further attach no blame to anyone from the evidence submitted, and we further recommend that the traffic laws be more adhered to."

PUPILS IN RECITAL

Miss Pauline G. Biederman Conducts Programme of Those Under Her Tuition.

A recital given by the pupils of Miss Pauline Biederman yesterday afternoon, in the Church of England Institute, was interesting from the standpoint of what a teacher can accomplish with little fingers in making them bring music from the piano. From the tiniest pupil to the larger one, all under 16 years of age, proficiency in technique and expression was marked.

Miss Mary Cookson's vocal solo introduced a young singer with a voice of birdlike quality, clear enunciation and good placement of tones for one so young. Miss Louise Knight, her teacher, accompanied her. The young people who did such credit to themselves and to their teacher were as follows, with the programme, which discloses the quality of the music produced and the skill required to make it a success:

BOSTON, Mass., June 2.—While the late Frederick J. Kennedy, formerly of Saint John, N. B., lay dying in his home on Washington street, workers under the orders of Vincent Kreamer, who had lately acquired the property for the building of a 150-car garage, were tearing down the building and making the last hours of Kennedy a hellum. Even as Kennedy lay dead and the body was taken to the grave, the tattoo of air drills continued. Mayor James M. Curley today expressed "disgust" at Kreamer's actions. Kennedy was a native of Saint John, N. B., and was 68 years of age. He was a pensioned naval coppermith and had lived in his Boston home for the last 31 years, coming here from Saint John. The house was sold to Kreamer two months ago and Mr. and Mrs. Kennedy were told to vacate on June 1. Mr. Kennedy had been ill for some time.

## Its flavour tempts the taste

### Quaker Puffed Wheat and Quaker Puffed Rice charm jaded appetites

WHEN meals lose interest and tastes tire—when all foods seem the same, it is then that crisp Puffed Grains with all their alluring flavour and goodness captivate the jaded appetite.

Quaker Puffed Wheat and Quaker Puffed Rice are selected whole grains thoroughly cooked and exploded to eight times normal size. The puffing breaks down the cells, assisting the assimilation of the minerals and carbohydrates in which they are so rich. Served with milk or cream, vitamins are added to this delicious food.

For children or grown-ups, for those of weak digestion or the old folk, Quaker Puffed Grains make a dish which is nut-like in flavour and delightfully appetizing.

Order a package of Quaker Puffed Wheat and Quaker Puffed Rice from your grocer. The variation in flavour of these two foods will charm you.

They Think They're Candy

Children eat these fairy grains as candy. Give them all they want. The grains are so light that no child can eat too much.

### Blue-jay

Blue-jay is the delightful way to end a corn. A tiny cushion, cool as velvet, fits over the corn—relieving the pressure. The pain ends at once. Soon the corn goes. Blue-jay leaves nothing to guess or work. You do not have to decide how much or how little to put on. Each soft-downy plaster is a complete treatment with just the right amount of the magic medication to end the corn.

A Corn will mar a pretty face

That corn is reflected in your face. Pain is disfiguring. If you keep that corn it will hasten crow's-feet. . . . To carry a corn for days is to show those days, unfavorably, in your looks. The constant dull irritation makes its mark in frown lines which do not always come out. . . . Then there's the undaintiness of it. . . . For the sake of personal charm and comfort—let Blue-jay end that corn in 48 hours.

## The New Cunarders

### AURANIA ASCANIA ALAUNIA

These palatial liners, another Cunard achievement, have been added to the famous Cunard Canadian fleet which brings the pleasures of "travel de luxe" within the reach of all.

Like the Ausonia and Antonia, they are "Cabin Ships," carrying only Cabin and Third Class passengers.

Among the advanced conveniences offered are delightful private suites, beautiful bedrooms, and an unusually large number of two-berth staterooms.

Their public rooms embrace a Venetian Palace Smoking room, one of the most unique and charming of the kind afloat; a Long Gallery in fascinating design of oak panelling, a delightful Winter Garden, beautifully paneled in figured fiddle-back sycamore, a Peter Pan Nursery for the children, Gymnasium, located on the boat deck, Lounges, Writing rooms, Library, magnificent Drawing room, perfected systems of heating and ventilation under the control of passengers, and every other modern equipment conducive to comfortable and pleasant ocean travel.

Add to the above features, the enjoyment and educational interest of the St. Lawrence River trip and it is easy to appreciate that a voyage via the Cunard Canadian Route is a perfect pleasure cruise.

Ask your local steamship agent for booklets, and for information about the St. Lawrence Route, or apply to—

## You Buy More than Appearance

### In Latex-treated Web Cord Tires

WHEN you buy Dominion Royal Cord Balloon Tires you buy an exclusive process that substantially increases your mileage without extra cost.

The latex treated web cord process eliminates internal heat by doing away with destructive cross threads. The web, or cross threads, cause unevenness which of course means friction. In this process the cords are held together in a perfectly flat web of pure rubber. Each cord is individually saturated in natural liquid rubber (latex). The cords take strains evenly. Friction and heat are eliminated entirely.

This process is patented in Canada and used only in Dominion Royal Cord Tires. It means far greater tire value without increase in price.

BREWERIES ARE FEATURE TOY IN MONTREAL

Projected End of "Beer War" and Frontenac Amalgamation Have Effect

SELLING PRESSURE IS RENEWED IN WALL ST.

Rails and Industrials Chiefly Affected—Good Demand For Merchandising Issue

MONTREAL, June 2—The opening of today's stock market was featured by strength and activity in National Breweries which, on persistent reports that a settlement of the "beer war" was imminent, and that announcement of Amalgamation with Frontenac Breweries would be shortly forthcoming, rose 1/2 to 2 1/2. It was easily the most active issue, nearly two thousand shares changing hands during the early trading. Spanish River, influenced by similar rumors that its merger with Abitibi could be expected in the near future, came second in activity and gained 1 to 1 1/2. The preferred, however, eased 7/8 to 122. Other leaders to receive attention were Montreal Power, unchanged at 188; British Empire Steel, second preferred up 3/4 to 9 1/2; Asbestos down 1/4 to 78; and Bell Telephone unchanged at 188 3/4. Dominion Glass, appearing in a small transaction only, was off 1 at 112. The balance of the list was neglected.

IN WALL STREET.

NEW YORK, June 2—Selling pressure was renewed against many popular rail and industrial stocks at the opening of today's stock market, but it failed to halt operations for the rise in other sections of the list. Merchandising issues were again in good demand, May Department Stores opening 1/4-4 points higher. Dupont advanced 2 1/2 points to 172, a record top, on the first sale, and Frisco moved up one. Initial recessions as a rule were of a fractional nature.

Brokers' Opinions.

NEW YORK, June 2—Bache & Co.—"The number of overbought and weakly technical positions among the industrials and rails is relatively small. See no immediate danger of a sharp advance, but we expect to see a continuation of the upward trend in the market, provided that the bull market continues to hold the opinion that no definite culmination of this bull swing is in sight."
Hornblower—"We are likely to experience a sharp reverse of movement, which will test the real underlying buying power, and we would take profits in anticipation of this development before the end of the week."
Clark Childs—"Unless there shall be some distinctly unfavorable news of general bearing, conditions favor gradually improving prices, mostly for the better grade of dividend paying issues in the rails, motors and steel groups."
Hutton & Co.—"The industrial average is high, but there are still cheap stocks."

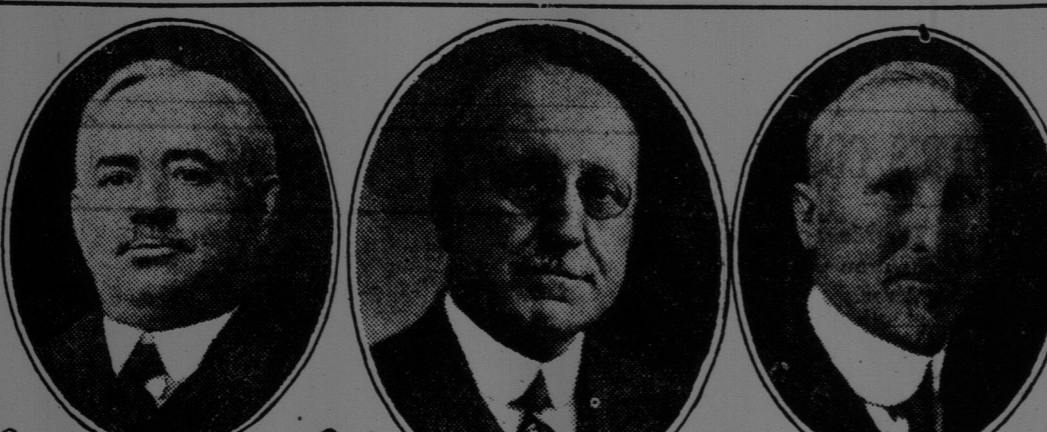

Current Events.

NEW YORK, June 2—Phillips Petroleum quarterly 80 cents.
Cast Iron Pipe reduced \$1 a ton.
Un. Light and Power, year ended April 30, balance after tax, \$14,522,000.

Morning Stock Letter.

NEW YORK, June 2—Public buying yesterday morning was less than expected, and professional and other selling was more than expected. The result was a day with few reactions, although in the last half hour the bull movements in several stocks was resumed. The advance in money rate to 4 1/2 percent may have been an incentive to sell, but these money rates are seeming to be the result of temporary conditions. By the middle of this week money rates should again be easier. One must not force in judging the market that prices are high and that the best part of the advance is over. One should be careful in making fresh commitments at this stage. At the same time we are inclined to regard the reaction yesterday as only temporary. It may extend

Taxation and Bankruptcy Law Treated by Legislation Committee
HAMILTON, Ont., June 2—Many reports of interest, to the business people particularly, were presented at this morning's session of the annual meeting of the Canadian Manufacturers' Association here. Reports read included those of the Legislation, Commercial Intelligence and Industrial Relations Committees.
The report of the Commercial Intelligence Committee said in part: The Canadian Government has received an invitation from the New Zealand Government to participate in the New Zealand and South Seas Exhibition.

BEAUTIFYING A RAILROAD SYSTEM

Strangers, travelling upon the railways in Canada find pleasure in passing through a country that is new and fresh and possessing a wild, primitive grandeur practically untrampled. But in no small degree this pleasure is heightened and contributed to by a wonderful transformation wrought artificially by the lavish use of trees and flowers which have been planted and cultivated under the supervision of expert horticulturists employed for the purpose by the railway company.
The most striking example of what can be effected by this means is to be seen along the Canadian Pacific tracks through the Prairie Provinces, according to an article on the subject in the April "Landscape Architecture" by E. L. Chicanot.
"Along the more than three thousand miles of main line," writes Mr. Chicanot, "there were naturally a good many men, station agents, section foremen and others who were garden lovers and who, with the limited means at their command and to the best of their ability, cultivated little pieces of ground about the scenes of their activities. The planting of a little garden at a station, especially in certain bleak, treeless areas, was a conspicuous feature and added some little beauty to the surroundings. This gave to a higher official of the company, about thirty-five years ago, the idea of expanding the work of beautifying the grounds by assisting and encouraging

CATTLE STAMPED

Shipload Run Wild in San Juan Street and Along The Waterfront. SAN JUAN, Porto Rico, June 2.—With no cowboys to care for them, a shipment of 154 young blooded cattle from Texas started along the waterfront and in the principal streets here, order being restored only by the combined efforts of the police and fire departments. Boys and men in automobiles finally completed the round-up. The cattle became frightened while being unloaded from a steamer, stamped, and took possession of the waterfront. One bull went for pedestrians until repeated shots from policemen's revolvers stopped him. Another animal was killed by a fire engine.

Princeton Receives Papyrus Writings

PRINCETON, N. J., June 2.—The Princeton University Library has received a collection of old papyrus manuscripts dating back to the third century B. C. Literary fragments from Homer and Herodotus have been found in the collection. The collection is the property of Robert Garrett of Baltimore, Md., a trustee of the University, who has deposited it in care of the library. Members of the library staff of the classical department are now deciphering the fragments, most of which are in small fragments.

VARIED PROGRAMME OF SPORTS FOR THE KING'S BIRTHDAY

BIG FEATURE IS ATHLETIC MEET ON WEST SIDE

Baseball, Golf, Racing, Hunting and Fishing On The Card

The King's Birthday will be royally celebrated tomorrow in local sporting spheres with an athletic meet, baseball games, boating, hunting, fishing, harness racing, golf, and many private picnic parties afoot.

At the Riverside Golf and Country Club, the opening programme for the season will be carried out with the annual match between the President and Vice-President's teams. This is always keenly fought.

In the City Amateur League, the Trojans will clash with the Saint Johns in the holiday attraction on the North End grounds at 3 o'clock.

Probably the big feature from an athletic standpoint for the day will be the big track meet to be held in connection with the opening of the West Saint John playgrounds—rated as among the finest in the eastern province.

9:30 a.m.—West Saint John Boy Scouts and Carleton Cornet Band and Association officials will fall in on City Hall Square.

9:45 a.m.—Parade will move off to grounds, via Rodney, Ludlow, Tower street and City Line.

10:00 a.m.—Opening ceremonies and acceptance of new flagpole from Commissioner W. L. Harding.

10:45 a.m.—Juvenile athletic meet, including girls' events.

7 p.m.—Senior baseball game—Saint John the Baptists vs. Saint Johns, of City Amateur League.

A staff of young ladies, under the direction of Mrs. A. V. Wright, will tag the spectators with the refreshment booth which will be under the direction of L. J. Maxwell and T. M. Murphy.

A small fee will be charged for the grandstand. Besides the medals for first and second place in each senior and junior event, two beautiful shields have been presented, one by Col. MacLeod and the other by Dr. F. L. Kenney.

BASEBALL SIMPLIFIED

What are the rights of the catcher or an infielder as to blocking a base in an effort to retire the runner? What are the rights of the base runner?

If the catcher or any other infielder has the ball in his possession before the baserunner reaches his objective, the fielder has a perfect right to block the path of the runner as he sees fit in an effort to make sure the out.

The baserunner is not restricted as to the methods he may employ in an effort to overcome the blocking tactics of the man with the ball. A certain code of sportsmanship, however, is usually followed by the runner when he realizes the fielder is awaiting his arrival with the ball.

If the catcher or any other infielder makes a play at a certain base has not the ball in his possession, he has no right to block the pathway of the runner in an effort to handicap him until the ball arrives.

St. Peter's team went into the lead in the Intermediate League last evening when they defeated the Martellos by a score of 10 to 4 in a full nine-inning game played on St. Peter's Park.

FAST BASEBALL IN THE PRO LEAGUE

Alerts Win From St. Peter's by The Score of Four to Two.

Last evening in the professional league the Alerts defeated the St. Peter's in a full nine-inning game by a score of 4 to 2. Errors were principally the cause of the Saints' defeat as they batted Lawlor for seven hits while the winners only made five off O'Regan.

Each team had a run in the first inning. The Alerts won their game in the third inning when three more men crossed the plate and this ended their scoring. The Saints made their second score in the sixth inning.

It was a good exhibition of baseball that was witnessed by a fair crowd of spectators. The official score and summary follows:

ST. PAUL BOXER BREAKS CAMP AT ATLANTIC CITY

Is Ready To Meet Gene Tunney In 15 Round Bout

ATLANTIC CITY, June 2—Tom Gibbons, the St. Paul heavyweight, will break camp here today for his fifteen-round bout with Gene Tunney at the Polo Grounds next Friday night.

Reaches Top of Form. Kane also announced that Gibbons has practically reached the top of his fighting form already and that only light work would be the programme from now until the St. Paul veteran climbs through the ropes.

Gibbons seldom has appeared so supremely confident before an important fight as in this case, said Kane. "He not only is confident that he will win, but he is equally certain he will stop Tunney inside of eight rounds."

Will Be Heavier. Kane stated that Gibbons plans to enter the ring against Tunney weighing about 185 or 190 pounds, which would make him ten pounds heavier than when he faced Jack Dempsey in their fifteen-round battle in Shelby two years ago.

STRIKING PICTURE SEEN AT IMPERIAL

Lon Chaney in He Who Gets Slapped—Boy Soprano and Orchestra.

A screen version of Leonid Andreyev's powerful dramatic play, "He Who Gets Slapped," opened at the Imperial theatre yesterday to large crowds.

A great deal of interest surrounds this picture for several reasons. Possibly the greatest one is that it is almost the only attempt to picture Russian literature, Andreyev's play scored a sensational hit when produced on the stage in New York by the Theatre Guild, with Richard Bennett playing the title role, but it never played outside that city.

Interest attaches to the picture because of the fact that it is the second production on this side of the water of the noted Swedish director and actor, Victor Sestrom.

Norma Shearer and John Gilbert play the romantic leads, with such names as Tully Marshall, Marc McDermott, Ford Sterling, Clyde Cook, Paulette Goddard, Harvey Clark, George Davis, Ruth King and Brandon Hurst in the supporting cast.

A highly interesting feature of the Imperial's programme in addition to the splendid picture was Cyril Rice's singing. This lad is late soloist in The Little Church Around The Corner, New York, and possesses a well trained voice, and gives evidence of intelligent understanding of his selections.

W. Daley, St. Patrick street, caught a two-pound trout in Lily Lake last night. There were 19 enthusiastic anglers at the lake last night.

SOUTH SEA PICTURE UNIQUE'S FEATURE

"The Marriage Cheat" Story of Romance and Thrill—Leatrice Joy Leads.

Patrons will find a treat awaiting them at the Unique Theatre, where "The Marriage Cheat," opened a three day engagement yesterday.

It has been a long time since a picture intrigued us as did "The Marriage Cheat," owing in large part to the spell which it weaves about the on-looker.

"The Marriage Cheat" is enacted by a strong cast that includes Percy Marmont, Leatrice Joy, Adolphe Menjou, Laska Winter, Henry Barrows and J. P. Lackney.

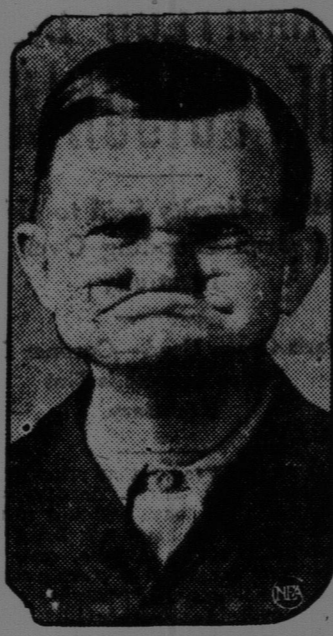

The story itself is filled with thrills and dramatic surprises that make it one of the strongest vehicles that have ever been filmed.

Daredevil Is Killed In Leap From Loire River. NANTES, France, June 1—A leap from a tower of the suspension bridge over the Loire River here proved fatal to Willy Wolf, a Polish professional dare-devil.

CRASHING INTO CHURCH. FRESNO, Cal., June 2—Two drunken men, both over 60 years of age, drove a motor car through the stained glass windows of a church here.

MORE BIBLES TO CHINA. PEKING, China, June 2—The American Bible Society distributed 9,500,000 Bibles in China last year, or 2,000,000 more than the preceding year.

Ouch!

But it's not his regular face. He's just trying out for a job in the movie as having America's funniest face.

THE ARAB PLEASES PALACE PATRONS

Rex Ingraham Produces it With Ramon Navarro and Alice Terry Starring.

Rex Ingram, producer of "Scaramouche" and "The Four Horsemen," has made another wonderful photoplay in "The Arab," a Metro picture, which opened yesterday at the Palace Theatre.

The story, taken from the stage play written and acted by Edgar Selwyn, is ideal for the famous trio, for Ingram shows his genius in an entirely new form of picture, and Miss Terry and Mr. Navarro look and act better than ever.

ALUMNAE MEETS

St. Vincent's Alumnae greatly regret the fact that it is losing three of its valued members, Mrs. James Robinson, Miss Florence McHale and Miss Edith Williams, who are leaving the city.

MEDICAL INSPECTION. The Victorian Order Nurses yesterday afternoon were addressed by Dr. Mabel Huntington, medical inspector of schools, who gave them a very interesting talk on various phases of medical inspection work.

LINEN DISTRIBUTED. Seven Seas chapter of the I.O.D.E., held its closing meeting of the season last night at the home of Miss Alice Lockhart.

ENFORCED TREK FEARED. LONDON, June 1—The feeling increased here today, the eleventh since the Amundsen-Ellsworth expedition hopped off, in two flying boats from King's Bay, Spitzbergen, for the North Pole.

WORLD'S FINEST WIRE. WASHINGTON, June 2—The finest wire ever made, so slender that it can not be seen without a microscope, has been manufactured by a physicist in the Department of Agriculture.

Twenty-seven thousand gallons of water are contained in one inch of rainfall over an acre of ground.

HOOT GIBSON IS ON SCREEN AT GAIETY

Cowboy Steals Babe Ruth's Thunder in "Hit and Run"—Good Cast.

Hoot Gibson, actor, and Edward Sedgwick, director, constitute a combination that is a guarantee of good entertainment and satisfying quota of laughs when their names appear in conjunction on a screen play.

This combination's most recent appearance is in the Gaiety theatre where "Hit and Run," Universal-Edison Special production opened yesterday.

In his early days Sedgwick was a professional ball player, and it probably will occur to old-time fans that he may have taken a leaf from the book of one, Mike Donlin, who has a part in the play and who was one of the hitting marvels of the baseball world.

But the story is not all baseball, for there is a logically conceived love interest; also there is an opportunity for Hoot to do some horseback riding, and some reckless automobile driving.

QUEEN SQUARE BILL ONE OF INTEREST

Feature Picture, Young-Adams Play and Vaudeville Make Attractive Performance.

One of the best shows of the season at the Queen Square Theatre was given yesterday and greatly enjoyed. The feature picture, "She Wolves," was much appreciated.

Thrills in Reginald Barker Picture Story—Comedy Rounds Out The Bill.

For thrills, comedy, beauty, and more thrills the Empress Theatre management recommends "The Dixie Handicap," Reginald Barker's new Metro picture.

For excitement there are several horse races that surpass anything done before on the screen picturing the "Sport of Kings."

The climax race is an international contest between the horse of the film and the English champion. These scenes were taken at Latonia and their authenticity added a good deal of interest to the picture.

There was also a snappy good comedy. The last two screenings of this racing thriller will be tonight, starting 7 o'clock.
