ANNUAL MEETING OF ST. ANDREW'S CHURCH

Reports of Various Organizations Read Show Most Successful Year

NEW TRUSTEES

The annual meeting of St. Andrew's church was held on Wednesday evening in the Church Hall, Mr. A. G. Adams presiding. The secretary, Mr. D. C. Firth read the minutes of the previous meetings which were adopted.

The minister, Rev. T. P. Drumm, submitted the report of season. The Sacrament had been dispensed twice in the church during the past year, and the session had been greatly strengthened by the addition of two new elders, Messrs. M. A. Kelly and P. Gerrard.

The minister had baptized 44 children, had attended 17 funerals, and had celebrated 17 marriages. There had been added to the membership of the church, 11 by profession of faith and 10 by certificate from other churches. Eleven had moved from the town, two removed by death and the membership at the end of the year was 338 on the communicants roll.

After giving a statement of the Benevolent Fund, the minister called attention to the Budget for 1913 of the schemes of the church, the allocation to St. Andrew's being roughly \$700. He spoke of Sunday School attendance and urged parents to look closer into this important work.

In thanking them for their loyal support and the many kindnesses they had shown him and his, he urged the privilege and duty it was for the attendance of the members at prayer-meeting and all the services of the sanctuary.

Reports were read from the Sabbath School by Miss M. E. Gerrard, Chinese class, Mr. John M. McLean, the Men's Union by Mr. Jas. Craig, W. F. & H. M. Society by Mr. D. C. Firth, Mission Band and St. Andrew's Club, Christian Endeavor by Miss Mona McLennan and the building fund by Mr. A. A. Andrew. This report which was taken from the time of the fire till the end of the year showed that the total receipts to the Building Fund in that time were over \$30,000, the amount raised in 1912 being \$2658.44.

Mr. D. C. Firth read the report of the Trustees showing a balance on hand of \$476.06.

Mr. Firth submitted an interesting comparison by quoting the collection figures for a few past years.

Open Coll.	Envelope
1907 908.02	1916.08
08 853.00	1731.00
09 909.33	1721.85
10 766.00	1466.00
11 1102.67	1601.00
12 1074.00	1859.00

This shows a large increase for 1912 which was the best year in the history of the church, the total revenue of the church for all purposes for the year being \$7861.89.

The report of the Helpers Union showed that they had collected during 1912 the sum of \$354.91 and had a balance of \$460.07 at the beginning of the year. They had paid to the Trustees the sum of \$781.86 which goes toward payment for the basement hall.

In the election of Trustees which followed, eight names were nominated, and the meeting voted by ballot. Mr. John M. McLean and Mr. John G. MacColl were appointed scrutineers, and they declared that as a result of the vote the following names had received the highest number, viz., Albert A. Andrew, James E. Miller, Hugh A. Carr, David Sanson and A. McG. McDonald, and the chairman declared these five duly elected. Rev. T. P. Drumm being asked to retire, Mr. Albert A. Andrew moved that the salary of the minister be augmented by \$400 per year. This was seconded and carried unanimously.

At the business session was over the ladies served tea and sandwiches.

F. B. CUTLER ON LUMBER OUTLOOK

Great Increase in Cost of Production—Removal of Duty Only Relief

The following from the Bangor Commercial will be read with interest here:

In a statement of the prospects for 1913 Frederick B. Cutler of Boston, formerly of Bangor, of Stetson & Cutler, says:—"Prices of lumber of all kinds advanced during 1912 to a fair level, not to a high level as many retailers think. It is quite interesting to read the following quotations given a large retail yard in Boston some years since:

Frames, 12 inch	\$14.50
Frames, 10 inch	13.50
Frames, under 10 inch	13.00
60 M 2x4 Random	11.50
Furring	11.00
2 M Hemlock, P 1 S	12.50
10 inch spruce boards, P 1 S & M 13.50	
Stock hemlock boards	12.00
Clear shingles	2.35
No. 2 barn boards	18.00

"All the above prices were for the lumber delivered Boston rate of freight. The retailer on comparing them with those ruling today will at once think that the manufacturers' profits have increased enormously, but this is not the case. The reasons for the difference are the higher labor scale, increased freight rates and the heavier cost of food supplies. When we first went into woods operations we were paying \$14 to \$18 per month for our best men, who were first class workmen, i. e., men could and did give a large amount of work each day. We are now paying \$32 to \$36 and get about as wretched a crowd of men as it is possible to imagine. Please note that we are now paying nearly double in wages and get for a day's labor about half as much work as formerly. The difference in the price of food products is also very marked. Today we supply better food and greater variety than formerly, all of which means, of course, much heavier expense. Formerly we had a scale that gave 20 to 30 per cent. overrun in sawn lumber, now our scale runs 10 to 20 per cent. fall short.

"This means an enormous increase in cost. The stumpage has nearly tripled in cost. Where \$2 per M was a fair price, it is now \$6 to \$8. The freight rates, especially by vessel, are much enhanced. The rates by water the past season were higher than I ever remember to have seen them. All I have said applies to spruce, and as spruce, because of the enormous increase in the consumption by pulp mills, is growing scarcer very rapidly, I look for enhanced values in the future. It is becoming harder and harder to stock saw mills, with the result that they are gradually dropping out of business, which means, of course, that the product is decreasing while the consumption is increasing. I am looking for higher prices in 1913 than prevailed in 1912.

"The only way in which consumers can get relief is by removal of the duties on lumber, lath, shingles, etc. Owing to the very firm conditions in the foreign markets today this removal would not help very much just at present. There is a much mistaken idea that the manufacturer of lumber in the provinces pay less for their labor than we do in the United States. This is absolutely not so. I am interested in some large mills in Maine, also in some in various parts of the provinces, I have compared the pay rolls often and find that I actually pay more wages at our provincial mills than at our American mills. The year 1913 looks like a banner year for consumption, the only black cloud being politics, but the country is so wealthy because of the splendid crops that even that bugbear can't hurt much."

A CORRECTION

The notices sent to the press were slightly in error with regard to the figures for 1912. The American Consul has drawn our attention to this matter and in supplying us with the correct figures he says—

The notices last week tell of an error in its published statement of Marine shipments from the Restigouche in 1912 wherein it was said to the United States 5056 tons, equalling 374,709 bundles of laths and 107,000 feet of lumber."

The American Consul's records show that 19 vessels sailed from this harbour to American ports as follows:

4 steamers, net tonnage 2780, carrying	
Laths	14,647,000 pcs
Lumber	210,267 ft
Shingles	147,000 pcs
15 schooners of 4454 net tons, carrying

"In the Days of Adam"

Wearing Apparel was an important item. Adam was blissfully unconscious that each season required a distinct change of raiment. Adam lived very close to Nature, at a time when the Furnishing and Clothing comforts of man were not as well looked as they are today.

Were Adam Alive To-day

He would doubtless be among the first wearers of each season's newest, at least his wardrobe would undergo some change if he lived in Campbellton to-day. Even if modern propriety did not in the least effect Adam, the weather man would be certain to cause him some deep thinking on the clothes question.

This Would Cause Adam to Read OUR Ads.

If he thought at all he would know that what a man earns does not count at all. What he saves goes to make him a success or a failure, as the word views such today. By reading our Ads, he would know that our

MOTHERHOOD SUGGESTIONS

Advice to Expectant Mothers

The experience of Motherhood is a trying one to most women and marks distinctly an epoch in their lives. Not one woman in a hundred is prepared or understands how to properly care for herself. Of course nearly every woman nowadays has medical treatment at such times, but many approach the experience with an organism unfitted for the trial of strength, and when it is over her system has received a shock from which it is hard to recover. Following right upon this comes the nervous strain of caring for the child, and a distinct change in the mother results.

There is nothing more charming than a happy and healthy mother of children, and indeed child-birth under the right conditions need be no hazard to health or beauty. The unexplainable thing is that, with all the evidence of shattered nerves and broken health resulting from an unprepared condition, and with ample time in which to prepare, women will persist in going blindly to the trial.

Every woman at this time should rely upon Lydia E. Pinkham's Vegetable Compound, a most valuable tonic and invigorator of the female organism.

In many homes one childless there are new children because of the fact that Lydia E. Pinkham's Vegetable Compound makes women normal, healthy and strong.

If you want special advice write to Lydia E. Pinkham Medicine Co. (consultant) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

AMHERST FIRM TO BUILD POST OFFICE

Big St. John Contract Awarded to Rhodes Curry & Co.

The reports today are that Messrs. Rhodes, Curry & Co., Amherst, have been awarded the contract for the construction of the St. John post office. So far as can be learned there were three tenders: Messrs. Rhodes, Curry & Co., Amherst; B. Mooney & Sons, and A. R. C. Clark, St. John, and the presumption is that the contract is awarded the lowest tenderer. The job is a big one involving upwards of \$400,000 and will probably run close to half a million before the building is ready for use. The expectation in St. John today is that the successful tenderers will get to work with the opening of the spring and will rush the work as rapidly as possible. Several St. John builders who were approached to-day said they heard rumors that the Amherst firm were the successful tenderers for the big contract, probably the most important in the building trade to be awarded in St. John this year.

DIVIDEND DECLARED

The first annual meeting of the St. John Board of Trade Building Company was held Tuesday morning, and the report presented was a most satisfactory one. In fact, it was so satisfactory that it was decided to declare a dividend of 5 per cent, on the investment, so that the property which was bought as a home for the Board of Trade has become a dividend earner. The officers elected were: T. H. Estabrooks, president; J. M. Robinson, vice-president; Miss M. O. Magee, Secretary.

THE SCARLET WOMAN

"Kit" in January CANADA MONTHLY: Some commotion obtained in England lately over the letter in one of the London newspapers of Miss Cicely Fox Smith, who it seems has lately toured Western Canada and is now recording her impressions. They were not nice impressions, being of a crimson or vivid hue. Drunken men being thrown out of saloons followed by spittoons, and other articles of bar furniture; painted ladies of easy virtue, and too many willow plumes with the foolish remittance man—that unfortunate "blighter"—dancing about among them—seem to be all the inspiration Miss Fox-Smith got out of our last great West. It savors of comedy to see old Lady London holding up mitted hands in horror at the gay and vicious Prairie Town. Of course, Miss Fox-Smit brings in "woolly" when she speaks of Canada. Who invented the epithet? The funny part of the story is that many Brits living out West, took Miss Fox-Smith seriously, and flew to our "Colonial" rescue.

They wrote letters terribly in earnest—letters with an English accent—defending the Prairie Towns, and assuring Londoners that Canada is not another Babylon, and that the Scarlet Woman has not yet emigrated. These poor chaps are quite terribly in earnest. So is a lad from Blackpool, and who solemnly warns his countrymen against the wild and woolly, and her temptations. He tells them there is more concealed vice in a prairie town of three hundred inhabitants than than in a dear old country city of thirty thousand, with no end of bars where women may congregate and drink like forty Sairy Gamps and have young ladies with very red cheeks and very long earrings to wait on them. Imagine Calgary, or Moose Jaw, or sweet little Saskatoon, with a procession of Bats in plumed hats strolling through its respectable main street, as a Square, though the Strand and into, say Liverpool Street, in London! Of courses in London the Gamps would not be thrown out of public houses at high noon, much less have such vulgar things as spittoons thrown after them, nor would all the Bats be able to support willow plumes, nor has London, or Glasgow, or Dublin, what Miss Cicely Fox Smith designates, in her innocence, "twilight" districts. But we are very bad—we certainly must be very bad and lurid and scarlet out West!

Miss Fox-Smith is a regular Eye-opener. That's what she is. I wonder how she would like the title for a pseudonym.

"MY STOMACH IS FINE Since Taking No-Dru-Co Dyspepsia Tablets"

Mrs. J. Markhager, Waterloo, Ont., enthusiastically recommends No-Dru-Co Dyspepsia Tablets. Her experience with them, as she outlines it, explains why. "I was greatly troubled with my stomach," she writes. "I had taken so much medicine that I might say to take any more would only be making it worse. My stomach just felt raw. I read of No-Dru-Co Dyspepsia Tablets, and a lady friend told me they were very easy to take, so I thought I would give them a trial and really they worked wonders. Anyone having anything wrong with his stomach should give No-Dru-Co Dyspepsia Tablets a trial, they will do the rest. My stomach is fine now and I can eat my food."

One of the many good features of No-Dru-Co Dyspepsia Tablets is that they are so pleasant and easy to take. The relief they give from heartburn, flatulence, biliousness and dyspepsia is prompt and permanent. Try one after each meal—they'll make you feel like a new person.

CURLING BON-SPIEL AT ST. JOHN RINKS

Plans are being made in St. John for a bon-spiel under the auspices of the New Brunswick Branch of the Royal Caledonia Curling Club. It will take place some time in February and will last three days. Invitations have been sent out to all the curling clubs in the province and it is expected that about ten clubs will compete in the contest. Among the outside clubs expected to compete are Moncton, Campbellton, Newcastle, St. Stephen, Fredericton, Bathurst, Chatham, and one or two other places. Suitable prizes will be awarded to the winners, and it is the intention of the executive to make the bonspiel a memorable one, and one of the largest ever held in St. John.

BECKER IN HAPPY FRAME

Sings Hymns With the Rosenthal Gunmen

New York, Jan. 11.—Former Police Lieutenant Charles Becker, under sentence of death for the murder of gambler Herran Rosenthal, continues in a hopeful frame of mind in his cell at Sing Sing Prison, according to one of his recent fellow inmates. Lawrence J. Spohr, former corporal of the United States army, who was condemned to die for the murder of his sweetheart, but who has just been sent from the death house to the jail at White Plains for a second trial, tells the story of Becker's days at Sing Sing.

"Becker confidently expects that he will get a new trial, and will be acquitted," said Spohr. "He is the most religious man in the place, and every night reads the Bible and leads in the singing of two or three hymns and sometimes popular songs in which the Rosenthal gunmen join. Becker does not talk about his case, but spends most of his time studying up the legal points of it, and he is usually in a hopeful frame of mind."

GRAVE SITUATION IN CONFERENCE

London, January 13.—A crisis has been reached in the Turko-Balkan situation and this week will see either the renewal of war or the clearing of the final obstacles from the path to a treaty of peace.

Sir Edward Grey, the English Foreign Minister, and the Ambassadors, held another meeting in the Foreign Office to-day and during the discussions no effort was made to disguise the acuteness of the situation.

The conditions are more ominous than at any previous time, as the result of the announced determination of the Turkish delegates to leave London and the threats of the envoys of the Allies to telegraph their Governments to renew hostilities against Turkey by land and sea.

Telegraphic communications from Constantinople added to the pessimism. These advisers stated that if the question of war or peace is left to the National Assembly, the vote probably would be in favor of war. Rechad Pasha, the leader of the Turkish peace delegation, seemed to be the keystone in the arch of possibilities here.

Following a conference of the Turkish delegates at their hotel, Rechad Pasha said that he had received no answer to his latest request to the Porte for further instructions, and that he might not receive any reply until a vote had been taken by the Grand Council.

A report which caused great excitement in all circles was circulated to the effect that the Turks had

begun to pick up their belongings preparatory to going to Paris, where they would await their last instructions from Constantinople.

It is believed that the next forty-eight hours will see a decided change in the situation, as pressure from the Powers ought, it is said, to some direction by that time.

The Constantinople correspondent of "The Times" telegraphs under date of Sunday:

"I learn that the council of Ministers today decided to summon the Grand Council, composed of members of the Cabinet and a number of the leading civil, military and religious dignitaries of the Empire, which will meet probably at the palace under the presidency of Kiana Pasha, tomorrow or Tuesday, to decide the question of peace or war."

"It is generally believed that the motive of the Government in limiting the action of Midhat Pasha in 1878, is a desire to shift part of the responsibility for the consequences of the decision on to shoulders which can aid it in bearing so heavy a burden."

"Should the Grand Council declare for peace, the Cabinet can easily accept the conditions offered by the Allies. Should it demand war, the Cabinet can take the grave decision with greater confidence. Well informed circles anticipate that the Grand Council will decide for war."

Sincerely yours, GERMAINE SCHNITZER.

We Will Send You A NEW SCALE WILLIAMS On Approval

If the piano, which we select and send you, does not please you in every respect, you may return it at our expense. We make this generous offer because we feel confident that the New Scale Williams stands without a superior in the musical world. Tone, touch, materials, workmanship, finish and design of the New Scale Williams have called forth the admiration of the greatest pianists, composers and artists of the concert stage. SABBATH SILENCE WAS NOT BROKEN

Montreal Gazette: When the special train carrying Gaby Deslys, the French dancer, pulled into the Union Station at Toronto on Sunday there was a large crowd of citizens on hand to welcome her, and they were highly delighted when she graciously acknowledged their devotion by bowing and smiling. The newspaper reporting the incident states that had it not been Sunday the little star possibly would have been received with cheers. It is gratifying to note that the Sabbath silence was not broken by the Toronto admirers of the worldly person of the twinkling feet. But perhaps the quiet gapers were not citizens, but just profane persons from Quebec, or Montreal, or London, Eng., or New York, seeking diversion on Toronto's severe day.

OPEN PORTS

The statement comes from Montreal that the Minister of Marine and Fisheries is now considering a powerful type of Russian ice breaker with a view of maintaining winter navigation to at least as far as Quebec. It is explained that Montreal would never handle the grain trade she should handle, but will see much of it diverted by way of Buffalo until the channel has been sufficiently improved and insurance rates lowered so as to make it worth while for shippers to send their ships in ballast for the sake of the heavy cargoes they can always take away. It ought not to be forgotten that when the St. Lawrence is closed Montreal can "handle" the grain trade through the all the year-round open ports of the Maritime Provinces, not forgetting the possibilities of Gaspe which is the nearest port for the old country markets.

PARCEL POST

Announcement is made that the Federal government will establish a system of parcel post delivery, such as prevails in Great Britain, United States and Germany, but the Hon. L. P. Pelletier, Postmaster General, has not ready the details of the scheme which he intends to propose. The United States system, which went into operation on January 1st, is said to be working satisfactorily. It is a great boon to the country. Eleven pounds is the limit of weight in parcels carried which are delivered at houses just the same as letters and papers. The cost is from six cents per pound to twenty two cents per eleven pounds, which is not one-third of the express companies' charges. Eggs, meat, sugar, tea and groceries of various kinds can all be procured quickly and readily

in the quantities wanted, which is no doubt the reason why country storekeepers generally are opposed to the scheme.

AGAINST MOVEMENT

The Moncton Transcript in a short editorial on the movement to hand the Intercolonial Railway over to a private Company says:—
The Hon. H. R. Emmerson, M. P., in an interview in Montreal takes as might naturally be expected, strong ground against any movement to hand the control of the Intercolonial Railway over to a private company. In addition, Mr. Emmerson says, however, that he does believe a new line should be built from Paines Junction, along the North Shore to Wallace, linking up, the North Shore systems and thence connecting with Truro, N. S. This is precisely the view, which The Transcript has been advocating, and though the despatch summarized, does not bring the details out clearly yet it is presumed that Mr. Emmerson would favor the diversion of the Intercolonial Railway around the base of the Appalachian Mountains, the south shore as a separate independent improvement, altogether apart from linking up the North Shore lines.

NOTICE

THE WINTER SPORTS

Curling Notes

The local curlers were all agog with excitement on Wednesday evening, news from the scene of battle at Truro being anxiously sought for. Although no official record has reached us, we are informed that Bathurst lost to Truro by six points, so it remains to be seen whether Campbellton will succeed as last year and wrest the McLennan Cup from the holders at the first try.
Many members have signified their intention of going to Truro next Wednesday, and they are fully determined that if they can't win the cup, they will steal it.

There is a rink which has not yet been chosen will challenge for the cup and a big try will be made to bring back the trophy to Campbellton, where it rested last year for a considerable time.

It would have given our boys a good opportunity to meet their rivals in this competition but Truro are too good for us and we look forward to a great scrap. The Graphic will make arrangements to have a report of the game in the evening as the ends are played.

The competitions are going merrily along at the rink these evenings, many surprising results being recorded.

The new skips in this medal series are doing not to badly, although in some cases the "auld yips" who are playing heralds, etc., take more to do with the game than the skips themselves.

Hockey Notes

What is the matter with the hockey boys? We were under the impression that everything was ready to begin the league again, but so far we are like the illustrious Mr. Micawber "waiting for some thing to turn up."

The clubs had better get together and get a move on of some kind or they will lose all the support which has been promised them. Hurry now, or we will be having a baseball meeting before you are ready.

REMEMBER

That you do not save one cent by sending your cash away to strangers to buy property of any description. I can sell you any lot you wish to buy, whether it is in Alberta, Saskatchewan, Manitoba, British Columbia, or right here in New Brunswick, for the same price and on the same terms as if you bought from a Real Estate man in Winnipeg, Vancouver, or any other large city. Besides this you save the expense of mailing your monthly or quarterly payments, and I furnish you with all information free. Your business is strictly confidential. I will not have anything to do with any property until I investigate it and am satisfied that it will pay my clients. By buying from me you cannot lose the money paid in, should you fail to make your payments through accident or sickness or if you are out of work.

I have secured the agency of the Lloyd Realty Co., a good reliable firm who employ some of our own Bay Des Chaleur men as bookkeepers, agents, etc., and I have succeeded in getting Mr. W. T. Lloyd of that firm to spend Monday, Jan. 20th, with me in my office in the Marquis building. Mr. Lloyd will take pleasure in giving all the information you want concerning North Battleford. Read what the American papers say about North Battleford, and call Monday the 20th, inst., and see for yourself. Don't forget that North Battleford is growing faster than any other city in Canada.

CITY RISES IN YEAR FROM WILD PRAIRIE

North Battleford, "Baby City" of Canada, Marks One-Time Home of Howling Coyotes

Sets World Example In Public Ownership

Municipal Lodging Houses Care For Hordes of Newcomers to "Young Man's Home"

(Detroit Free Press, Dec. 24.)

Seven years ago Jim Norton stood on the south side of the Saskatchewan river, in central Saskatchewan, and took a pot shot at a coyote on the other side.

He hit the coyote—and he made a prediction for there were two other men with him. "Some day,"

he said, "you'll look back and remember the day when I shot a prairie wolf on the spot where will stand one of the thricest cities in Canada."

Jim Norton, now one of the biggest men west of Winnipeg, was looking ahead 20 years when he made that prediction. He was "off" just 13 year. On the identical spot where the coyote fell, marked at that time by a great rock, now stands the Canadian Bank of Commerce of North Battleford, and in the same block are two other banks, the capital of the three aggregating \$40,000,000.

Where the coyote howled on the night after the "kill" there is now the fastest growing city on the American continent, with a population of 5,000 people—the "baby city" of Canada, that is now creating widespread attention by the lessons in development and municipal ownership that it is teaching to cities hoary with age in comparison and with populations of millions. As recently as a year ago one could hear the mournful howl of the coyote out on the lonely prairie; to-night one can see the glow of hundreds of street lights from 10 miles away, and night

gangs of men are working by lantern light to keep the city big enough for its ever increasing population.
Has Municipal Rooming Houses. Five years ago an Indian buried his little child on the plot of ground where now stands a \$100,000 college, and where that Indian father's tepee was pitched is a \$100,000 hotel, as modern as if imported from Broadway. Not a "mush-room" growth has made North Battleford famous as the fastest growing city in North America, but a growth of stone and brick and steel, and for that reason does with its century of history and its millions, send up to find out "how North Battleford does it" when it comes to running the only municipally owned rooming houses in Canada.
The Duke of Connaught recently said that North Battleford was "the most amazing town in Canada," and it is amazing—in more ways than one. Its municipal rooming house is perhaps its most unique feature. While American cities and American newspapers have been discussing without end the "problem of city congestion,"

little North Battleford's heroic city council met one evening and made itself famous by settling that problem.

That was two years ago. People had come in so fast and were coming in so fast that all the hotels, and houses and bars in the town could not hold them. Women as well as men slept in chairs, and in blankets spread on bare floors. North Battleford had proved itself—proved that it was going to be one of the most important cities west of Winnipeg, and hundreds of families were flocking in. In this critical moment the council met, and asked every home-owner in the city to open his doors to one or more roomers.
The city responded almost to a home. The council met again—and almost on the same day that a great New York paper wondered editorially what the big cities could do to relieve their thousands of "roomless transients" that little prairie council sent out men to bring from hundreds of miles away a carload of carpenter's shovels, at work. Within a few weeks the first municipal rooming house in Canada was in the

world, was ready for occupancy, and within 48 hours after that its 60 rooms were housing nearly 200 people, and paying 140 per cent on the investment.
City of Young Men
This profit was turned into the city coffers, and has helped to show the world how a city of 6,000 can build streets of stone, can put in nine miles of sewer, eight miles of cement walk, and light itself with electricity until it is the best lighted town in Canada—and still have its tax rate only \$12 on every assessed thousand per year, the lowest tax-rate of any city of its size north of the border.
In at least one other way this remarkable town of North Battleford holds a world's record—and that is in the matter of the youth of its citizens. In its old age and gray hair are almost unknown. One of the "oldest four," as they are called, is Mayor James Griesse, a stalwart, red-blooded worker of 49. Of the 5,000 people in the city, 4,600 are under the age of 40, and 2,800 are under 30. Of these 2,800 fully 70 per cent are between the ages of 20 and 28.
And it is a fact interesting to

note that the men who are making North Battleford are men, whose voices are being heard more and more in the up-building of the Greater West—men like James Griesse, Joseph Foley, James Norton, Pickel, Johnson, Westaway, Greaves, Brigham, Tory, Miller, Detwiller, John Shaw and William McCann—men whose influence is a big factor in the affairs of Saskatchewan, and whose work almost leads one to believe that North Battleford is what it is because chance brought together on this sunny spot on the Saskatchewan, "the largest little body of fighting men" north of the border. All of them began poor. All of them have had their experience in the shacks. And it is the prediction of the writer that most of them will end up as millionaires, and leave names behind them that will not soon be forgotten in the history of the development of the last Great West.—J. Oliver Curwood.

FIRST MASQUERADE SUCCESSFUL

The first carnival of the season was brought to a successful issue on Friday evening last at the skating rink. Large numbers of maskers were on hand and the rink looked gay with flags, bunting and Japanese lanterns.

Viewed from the gallery the scene was one bright splash of color as the skaters flitted around.

Here a brilliant hued Carmen flitted out rapturously with an out at elbows negro, while a squaw coyly took the arm of a dashing cowboy. Gypsies, ghosts, suffragettes and the ubiquitous policeman jostled around, the arm of the law being much engaged keeping the antics of the clowns within due bounds, while endeavoring to make eyes at the fashionably dressed lady in black.

The judges had a big job in front of them to determine the prizewinners, but their awards were made known to the management shortly after nine o'clock. The prizewinners were:—

Best dressed lady, Mrs. Ed. Alexander as an "Indian Squaw".

Best dressed gentleman, Mr. Chas. Roy as "A young lady of fashion."

Most original costume, Messrs. R. J. Lavoie and Jas. McCleave as "Two monkeys."

Best dressed children, Misses Isa McNicol and Georgie McDonald as "Two Fairies."

The judges were, Dr. J. Mann, Wm. Hitchen and John G. MacColl. The management are to be congratulated on the success of the entertainment and we understand another masquerade will be arranged for at an early date.

A FEW REMARKS

We ask for the floor for just a moment while we offer you a few Spring Shoe suggestions for your consideration:

Firstly.—Of all the things you wear, man, woman or child, your shoes give you the best return for the money invested in them.

A Shoe that fits uniformly, lasts much longer than one where the wear falls all in one spot, and so you owe it to your feet and purse to wear good fitting shoes.

Secondly.—We offer you the advantage of a large stock to choose from and the service of Salesmen that know how to fit shoes correctly.

Thirdly and Lastly.—You'll save time and money and obtain perfect satisfaction and foot comfort if you buy your shoes here.

TWO POINTERS ON HOW TO CURE A COLD

When you begin to sniff and feel a burning sensation in the nasal passages, or when a tickling irritation in your throat starts you coughing, the first important thing is to act at once. It's the neglected cold that becomes troublesome and dangerous.

The second important thing to do is to take Na-Dru-Co Syrup of Licorice, Licorice and Chlorodyne, and keep it up till the cold disappears entirely.

Na-Dru-Co Syrup of Licorice, Licorice and Chlorodyne is absolutely free from harmful drugs, and can safely be given even to moderately young children. It is pleasant tasting and quick acting, promptly relieving the irritation of the throat and nostrils, loosening the mucus, promoting expectoration, and checking the cold.

Your druggist has Na-Dru-Co Syrup of Licorice, Licorice and Chlorodyne in 5c. and 10c. bottles, or can quickly get it for you. Compounded by the National Drug and Chemical Co. of Canada, Limited.

WHY CLEARANCE SALES ARE HELD

A Business Reason Underlies The Cut-Prices Sales of January.

An excellent article by J. R. Hamilton in an exchange gives the reason why January and Clearance sales are the vogue for the next few weeks. People wonder why the stores are trying to get rid of their surplus merchandise at this time at cut prices, when they realize that buyers must wear shoes as usual, must buy dry goods and men's furnishings the same as they have always been doing.

The answer in a word is that the greatest dread any merchant knows is that of a broken or an uneven stock of merchandise. Most merchants refer to such a stock as a "Junk Shop", and they dread it more than anything else.

If a merchant has a broken stock of a certain kind of shoes, his clerks or his salesmen do not "case you" when you come to buy and you go out to where you can be pleased. If you see a certain shirt pattern that you like, and you are suddenly told that you can only get that pattern in size 16, you sigh wearily and turn away from the counter.

Merchants have learned all these things by long and bitter experience, and that is why they are willing to sell at a price that they know is below the market price, in order that they may accomplish this one end of a clean store and complete merchandise. A word to the wise is sufficient. In this paper today these merchants are selling you what they have at such remarkable bargain prices as to stir every instinct which every woman has for Economy.

And if what they have happens to be what you want, you will save so much money, that it will seem as if Santa Claus had left you a Bank Account.

But remember, the secret of big bargains in these bargain days is for you to have the advertising at your finger tips and to be in the stores a half an hour earlier than those "hateful" other women who are trying to beat you there.

PLAIN TALK ABOUT PILES

Don't you believe that experience is better than hearsay? If you suffer from piles, just try Zam-Buk. You can do so at our expense. So assured are we of the result that we will send you a free trial box if you send to our Toronto office full name and address and a one cent stamp to pay return postage.

Scores of people daily acquaint us with the benefit they have derived from the use of Zam-Buk for piles. Mr. F. Astridge, of 3 St. Paul St., St. Catharines, Ont., says: "For five years I have suffered untold agony with protruding piles. The pain was so great at times I would almost scream. "I lost weight and had no appetite. I tried everything I ever heard of for piles, as I was willing to take anything to get relief. It was useless, however, and I almost gave up in despair."

"One day a friend gave me a sample of Zam-Buk and told me of a friend of his who had been cured. I decided to try Zam-Buk, and the relief I got was encouraging. I used three boxes, and at the end of that time I was completely cured. I wish I could have got Zam-Buk years ago; it would have saved me a great deal of misery."

Zam-Buk will also be found a sure cure for cold sores, chapped hands, frost bites, ulcers, skin eruptions, varicose sores, scalp sores, ringworm, inflamed patches, babies' eruptions and chapped places, cuts, burns, bruises, and skin injuries generally. All druggists and stores sell at 50c. box, or post free from Zam-Buk Co., Toronto, upon receipt of price. You are warned against harmful imitations and substitutes. See the registered name, "Zam-Buk," on every package.

If babies knew half as much as women think they do, they would probably hold a convention to decide how mothers ought to be made to believe.

DRINK CURE A MIRACLE

No, Just Sound Science

Many drunkards are sent to jail when they need is medicine. Drink has undermined their constitutions, inflamed their stomachs and nerves, until the craving must be satisfied: it is not removed by a scientific prescription like Samaria.

Samaria Prescription stops the craving, restores the shaking nerves, builds up the health and appetite, and renders drink distasteful, even nauseous. It is odorless and tasteless and dissolves instantly in tea, coffee or food. It can be given with or without the patient's knowledge.

Read what it did for Mrs. G., of Vancouver: "I was so anxious to get my husband cured that I went up to Harrison Drug Store, and got your remedy there. I had no trouble giving it without his knowledge. I greatly thank you for all the peace and happiness that it brought already into my home. The cost was nothing according to what he would spend in drinking. The cure of drink was putting me into my grave, but now I feel so happy, and everything seems so different and bright. May the Lord be with you, and help you in curing the evil. I don't want my name published."

Now, if you know of any unfortunate needing Samaria Treatment, tell him or his family or friends about it. If you have any friend or relative who is forming the drink habit, help him to release himself from its clutches. Write to-day.

A FREE TRIAL PACKAGE of Samaria Prescription, with booklet giving full particulars, testimonials, price, etc., will be sent absolutely free and postpaid in plain sealed packages to anyone asking for it and mentioning this paper. Correspondence strictly confidential. Write to-day. Samaria Remedy Co., Dept. 77 49 Colborne Street, Toronto Canada. Also for sale by Thos. Wran, Druggist, The Rexall Store, Campbellton, N. B.

A HORSE'S AGE

There are things which we may reason out, and others which to be remembered must be in a memorandum. One of the latter is the method of telling the age of a horse. Here it is set to rhyme so as to more readily stick in the memory:

To tell the age of any horse inspect the lower jaw, of course. The six front teeth the second pair. And every doubt and fear dispel. Two middle "nippers" you behold Before the colt is two weeks old. Before eight weeks two more will appear. At two months, the "corners" cut the gum.

Two outside grooves will disappear From the middle two in just one year. In two years from the second pair. In three the "corners," too, are bare. At two the middle "nippers" drop. At three the second pair cast. When four years old the third pair At five a full set he has shown.

This deep black spot will pass from At six years from the middle two. The second pair at seven years. At eight the spot each "corner" clears. From middle "nippers" upper jaw. At nine the black spots will wither. The second pair at ten are white. Eleven finds the "corners" light. As time goes on the hoarseness know The oval teeth three-sided grow; They larger get, project before. Till twenty, when we know no more.

HAVE TO ANSWER ABDUCTION CHARGES

Prominent Men of Allentown Released on Bail \$3,000.

Allentown, Pa., Jan. 12.—Samuel Sinclair, supervising inspector of state highways, and R. Walter Starr, a senior at a nearby college, were released from jail here to-day under \$3,000 bail each to answer charges of attempting to abduct Miss Anna E. Steckel, daughter of a retired millionaire business man of this town. The hearing will be held next Thursday. Rueben P. Steckel, the girl's father, declares that he will spend half his fortune, if necessary, to prosecute the alleged abductors of his daughter.

Miss Steckel is at her home with her face and head badly cut as the result of her struggles in the taxicab in which it is alleged the attempt to abduct her was made. She is twenty-three years old and a graduate of the Allentown College for Women and Vassar.

Sinclair is thirty years old, and a member of a prominent family in Kennet Square, Pa. Starr is his nephew, and a son of a well-known Philadelphia dentist.

The alleged abduction occurred yesterday afternoon. Miss Steckel was returning from a shopping expedition and had just entered the vestibule of her home when she was seized by two men and forced into a waiting taxicab. The chauffeur was ordered to drive to the country, but on hearing the sounds of a struggle he declares he turned his machine toward the police station, but in his haste collided with a monument in the centre of the town.

The party were taken to the police station, where, Miss Steckel had told her story, the two men were held, Sinclair, who is said to be a rejected suitor of the girl, declared that they were eloping with her consent.

FORTUNE FOR QUEBECKER

Three Millions in Russia for Son of Former Political Prisoner

The eldest son of the late Rev. J. Theakston, formerly of Stettin, Que., is said to have fallen heir to a fortune of three million dollars in Russia. The young man now lives with his mother in Worcester, Mass. The late Mr. Theakston, who was well known in the Eastern byways, was born in Russia, where he spent the early years of his life. While still a young man, he became implicated in some political troubles, and was sent to serve a long term in the prisons of Siberia. Upon the expiration of his sentence, he came to Canada, and settled with his wife in Sherbrooke. He later received ordination as a minister, and received a call to a Sherbrooke church.

It is understood that the fortune which the son of Mr. Theakston has fallen heir to is a family estate, and that the young Canadian will receive it through the death of an uncle. There are valuable coal lands on the estate, and which have never been worked, and the figure of three million dollars is a very conservative estimate of Mr. Theakston's wealth.

IS THE PEOPLE'S ROAD IN DANGER

Strong Statements are Made Regarding the Intercolonial Railway

Some days ago The St. John Telegraph referred to a tentative statement regarding the Intercolonial, issued from Montreal, in which it was asserted that a movement was on foot to turn the government road over to a new private company, or to sell or lease it to one of the existing railroad companies. The Telegraph, on several occasions during the last few years has protested against the reactionary tendency of any such proposal, pointing out that so fine a public asset ought not to be alienated but should be developed for the good of its owners, the public at large. It is pleasant to find the Toronto Globe strongly seconding this motion to the effect that the Intercolonial must not be scuttled. In the course of an editorial under the caption "Hands off the Intercolonial," the Globe says:

"Over half a million annual surplus has already been recorded by the Intercolonial Railway, and it is reported on Ottawa that when the open accounts are closed to the end of March this record will be exceeded. Although the annual profits of a railway or any other public utility may be of subordinate importance, they afford a needed defence against plans and schemes for private exploitation. From the Eastern Provinces there comes occasional suggestions and hints which bear the aspects of political feelers put out by men eager to get hold of this public highway. Now that the Intercolonial is becoming an important element in the country's transportation some of the big railway corporations would like to impose on the wonderful innocence of the Canadian people. But the people must be aroused from their indifference, and their innocence must be enlightened. This railway system is not only in itself a great heritage of wealth, but it is the nucleus from which may develop a system of public highways if all other transportation methods prove intolerable.

"Canada has given railway corporations such advantages and privileges that no conceivable mismanagement could bring them to failure. She has given favors which have lifted the favored from obscurity to a place among the millionaires. She has given lands, money, and franchises which have sometimes afforded a basis for almost the entire financing of construction. But when she has built a railway and tided it over the period of stress and difficulty she will not be so stupidly innocent as to hand it over to anybody. The gross absurdity of such a proceeding is not a sufficient safeguard. The danger is real. Public opinion must be aroused, and the people must be active and alert if they would prevent their property from being filched and their highway from passing under private control."

Unfortunately, the danger is real, and the public should be on its guard. If the Intercolonial Railway ever passes out of the hands of the people, its new masters will levy toll upon an immense army of their fellow-citizens, and pocket the loot. The Intercolonial must be expanded into new usefulness, its mileage must be extended, it must be given access to new traffic-producing territory. It is a paying concern as it stands, but it may be made infinitely more profitable to the people. And its rates should be kept only high enough to produce money sufficient to pay running expenses and provide for new rolling stock and the upkeep of the system. On the one hand the road should not be starved in the matter of maintenance, but on the other hand it is not necessary that freight charges should be raised in order that Intercolonial surplus money may be diverted into the Federal treasury. The government that attempts to dispose of the road or alienate control of it will commit political suicide.

WAS A CONFIRMED DYSPEPTIC

Now Finds It a Pleasure to Enjoy Meals

Here is a case which seemed so sad and so hopeless as you can possibly be. This is the experience of Mr. H. J. Brown, 384 Bathurst St., Toronto, in his own words:

"Gentlemen—I have much pleasure in mentioning to you the benefits received from your Na-Dra-Co Dyspepsia Tablets and can cheerfully recommend them. I simply had confirmed dyspepsia with all its wretched symptoms, and tried about all the advertised cures with no success. You have in Na-Dra-Co Dyspepsia Tablets the best curative agent I could find. It is now such a pleasure to enjoy meals with their consequent nourishment that I want to mention this for the benefit of others."

The fact that a lot of prescriptions or so-called "cures" have failed to help you is no sign that you have got to go on suffering. Try Na-Dra-Co Dyspepsia Tablets and see how quickly this sterling remedy will give you relief and start your stomach working properly. If it doesn't help you, you get your money back. Get a box at your druggist's. Compounded by the National Drug and Chemical Co. of Canada, Limited, Montreal.

THE LOST MISTRESS.

So near and far are love and hate,
So close are heaven and hell,
That I must go away to-night,
Who loved you, dear, too well.

One kiss to last a life-time, lad,
One beat of heart on heart,
One light good-bye—good luck—good night—
And then I must depart.

You asked too little and too much,
I gave too well, too ill;
So there's an end and here's an end;
And there's my road up hill.

Here is a remedy that will cure your cold. Why waste time and money experimenting when you can get a preparation that has won a world-wide reputation by its cures of this disease and can always be depended upon? It is known everywhere as Chamberlain's Cough Remedy, and is a medicine of real merit. For sale by all dealers.

Nothing succeeds like the efforts of some people to be disagreeable.

How Much of Your Road Money is Spent in Filling Ruts?

If the millions of dollars that have been spent repairing worn-out, washed-out streets and roads had been used to build more miles of good highways, fewer farmers would now be wasting valuable time and money taking "round-about" routes to town.

FIRST cost of an ordinary dirt or macadam road is usually only a "starter." The cost of upkeep soon equals that first cost, and there is always an ever-increasing annual expense for repairs. The worst feature of it is that such a road is never a really first-class highway.

IN estimating the cost of a road you should include the expense of keeping it in good condition for at least twenty years. If you don't, you're figuring on the first payment for that road, only. And the remaining payments are as certain as taxes. The upkeep cost of concrete roads is practically nothing.

Concrete roads are the best roads from the first—and the best and cheapest roads at the end of ten, fifteen and twenty years.

CONCRETE is the ideal paving material for streets in small towns as well as for main highways in the country.

Edward M. Hink, Wayne County, Michigan, Road Commissioner, and one of America's foremost authorities on good roads, says:

Any community that wants a good road, a road that is cheaper for even a short time under fairly heavy traffic than any other good road, a road that is unobscured by mud, a road that is sanitary and durable, a road that is not slippery, a road that affords good traction for any type of vehicle 365 days in the year, a road that in the long run, say 10, 15, 20 years and beyond, is the cheapest of all good roads, should investigate the merits of concrete.

WRITE for the facts about Concrete highways. When convinced, use your influence to have the roads for which you pay built to last.

We have highway experts who will visit any community intending to build more roads and explain just why and how concrete roads are best and cheapest.

SMASHING BLOW TO PROTECTION

Tariff Reform Dropped in Great Britain

London, Jan. 14.—Chamberlainism and Protection have just received a smashing blow in the United Kingdom. Bonar Law has only temporarily saved himself from deposition from the Unionist leadership by throwing the proposed food taxes overboard. Lancashire has triumphed over Chamberlain and Birmingham.

It is now recognized that the general election is a long way ahead and the Unionists will have put on their programme social reforms with which to go before the country before they can have to succeed to power.

The party is still in two distinct camps, and Mr. Bonar Law's task of bringing them together will, probably prove too great for him. The old school will never be reconciled to his loud, and sooner or later he must go.

The "Morning Post" which represents the extreme tariff reformers, expresses the opinion that Mr. Bonar Law and Lord Lansdowne would resign, and says: "This is not merely a crisis but a disaster. If Mr. Law and Lord Lansdowne should resign, nobody on the front bench could with honor or dignity accept the position of leader, and the party would be smashed to atoms."

The "Post" further appeals to the Unionists not to abandon the food taxes, because that would throw Canada back upon the United States.
