### WHITEWEAR.

The manufacturers from whom we get our Whitewear have eclipsed any previous season's effort in their present year's production. An inspection of our stock will convince you that we are showing undoubtedly the largest and finest range of

### Night Gowns, Skirts, Drawers, Corset Covers,

ever shown in Campbellton. Our garments are all made of English Long Cloths and the trimmings and workmanship are first-class in every respect. Notwithstanding the great advance in Cotton our prices are no higher than last year.

### The Cravenette RAIN COAT.

Every careful man has a Cravenette Coat nowadays, or wants one.

We show Rain Coats that are thoroughly tailored like all our Clothing.

They have the broad shoulders that are characteristic of well-made Clothing, giving a far handsomer effect than the ordinary Rain Coat that has neither fit nor style.

We have them in all new shades at

**\$6.00 TO \$12.50**

If you like the freedom of getting around in wet weather without an umbrella, try a CRAVENETTE OVERCOAT.

#### SAD ACCIDENT.

Stanley Henry Wallace  
Accidentally Killed

#### SATURDAY LAST.

Was Engaged With His Father  
Moving Large Building  
On Water St.

A very sad accident occurred here Saturday morning last whereby a bright young man lost his life.

W. H. Wallace, contractor, late of Sussex, had the contract of moving the large Alexander building on the corner of Water and Ramsay Streets. The building had been placed on rollers and was being moved by means of tackle with a barrel winch and horse. Young Wallace was engaged in taking up the slack and keeping the rope tight on the barrel. The strain was a heavy one when suddenly the chain or fastening holding the horse to the long wooden arm or lever broke and the lever thus freed reversed with lightning speed striking the unfortunate young man a terrible blow on the side of the head and fracturing the skull. He was picked up insensible and taken to his home just a few doors distant and Doctors Doherty and Verner summoned, but they saw at once that nothing could be done and he expired Saturday evening, the anniversary of his birth.

Deceased was a bright lad, a general favorite with all, and the bereaved family have the heartfelt sympathy of the entire community. A father, mother and three brothers survive him.

The funeral from his late home on Tuesday, May 24th, at two o'clock was largely attended. Rev R. A. Coleman, assisted by Rev H. E. Thomas and Dr. Carr, conducted the services at the house and the Methodist choir was present and assisted in the singing.

The pall bearers were F. Wallace, A. D. Sharpe, Harry Sharpe, Geo. McKee, Jake Moores, Willie Wallace. Interment was in the Rural Cemetery.

The floral offerings were beautiful, among which were the following—crescent, Mr. and Mrs. F. Wallace; roses, Mr. Downey; carnations, Mrs. A. D. Sharpe; cut flowers, Friends in Sussex; cross of May flowers, Mrs. Fawcett; bouquet, Mrs. Cook; cut flowers, Mrs. Lingley Mrs. Devereaux, Ida Mc Lellan and Mamie Fraser; carnations, Mrs. Benedict.

Among those present from abroad were Mrs Steeves and Mrs Downey Joggins Mines, N. S. Mr. and Mrs. F. Wallace of Sussex, N. B.

The young man had just a few days previous taken out a twenty year endowment policy with the Excelsior Life of Canada, the policy being delivered on May 12th by the general agent, A McKinnon. Deceased was 17 years of age.

#### UNVEILED.

Bust of Late Queen  
Victoria Unveiled

#### EMPIRE DAY.

With Appropriate Ceremonies  
at Campbellton Grammar  
School.

Monday, Empire Day, was appropriately celebrated by the teachers and pupils of Campbellton Grammar School. The afternoon was set aside for the unveiling of a bust of the late Queen, which ceremony was to take place at 2.30 o'clock. Previous to this the public was admitted to the Manual Training Department, where a class was at work under the direction of Miss Wetmore, who kindly showed the visitors the different models and objects of that interesting course.

At 2.30 all the pupils and visitors assembled in the large Assembly Hall where the Unveiling exercise were to take place.

Principal Lewis, in a few well chosen words, explained the origin and object of Empire Day and made appropriate remarks in reference to our late beloved Queen, after which the bust was unveiled.

The following programme was then carried out:—

March  
Opening Address, Mr. Lewis  
Unveiling of Bust of Queen Victoria.  
Song—Flag of Britain, School.  
March, Miss Sadie Fawcett  
Address, Dr. Murray, Chairman of School Board  
Song—Rule Britannia, School  
Address, Rev Dr. Carr  
Instrumental Solo, Miss Florine Doherty  
Address, Rev Mr. Thomas  
Song—The Maple Leaf, School  
Address, Rev Mr. Coleman  
God Save the King.

In conclusion Mr. Lewis thanked the visitors and speakers for the encouragement given the pupils and teachers in this their first public Empire Day exercises.

#### CONCERT.

Given by Pupils of the  
Halifax Blind School

#### IN METHODIST CHURCH

A Most Enjoyable One, A Fine  
Programme Was  
Rendered.

The concert given by the pupils of the Halifax School for the Blind under the direction of Dr. Fraser, in the Methodist church Tuesday evening, was a musical treat of the rarest kind. The church was crowded to the doors.

Rev. Mr. Thomas acted as chairman and in a few appropriate words introduced Mr. Fraser.

The programme consisted of Vocal and Instrumental music of various kinds, rendered in the most perfect and pleasing manner. Dr. Fraser addressed those present in reference to the work and aims of the institution of which he is director.

A voluntary contribution was taken up for the benefit of the institution.

London, May 23 — The St. Petersburg correspondent of the Central News says that there was an explosion today on board the battleship Orei at Cronstadt and that ten stokers were killed. The vessel, the correspondent says, was damaged and it will take weeks to effect repairs.

The explosion, according to the despatch, was the result of an accumulation of gas in the bunkers.

#### DROWNED

Two Prominent St John  
Men the Victims

#### MR. STAVERT

Well Known Here. Survived  
After an Awful Struggle.  
Bodies Recovered.

St. John May 24—Much excitement and sorrow were caused in the city yesterday afternoon when it became known that a telegram had been received announcing the death by drowning on the South West Branch Lake of the Oromocto of John H. Thomson of the firm of William Thomson & Co., E. P. Stavert, brother of the manager of the Bank of New Brunswick, and R. P. Foster, manager of the Royal Bank of Canada branch in St. John.

Later word was received that Mr. Stavert has managed to reach shore and after wandering about all night and following day was at last able to reach a dwelling where he was suffering from his awful experience.

After being somewhat revived Mr. Stavert told the following story:—

The accident happened about 2.30 o'clock on Sunday afternoon. In the morning all hands left the club house in two boats, Messrs Stavert, Thomson and Foster going in one, and Ald. Macrae and Messrs G. Wetmore, Merritt and E. F. Jones in the other. The latter boat returned to camp for dinner but the others remained on the lake. After dinner a second party went out, consisting of Messrs Jones, Macrae and Bernard Allen. Mr. Merritt remained at the camp. Shortly before leaving the camp the sail of the first boat was seen far down the lake.

Once on the water, the boatmen discovered that the wind and sea were heavier than they had thought. After some exciting experiences their mast was broken, but they got safely to shore and made for the home of Mr. Allen, where they spent the night. Early Monday morning they proceeded up the lake to the camp, expecting to find all their comrades there, but Mr. Merritt was alone and had to report that he had not seen nor heard anything of the others. Search was at once begun and after a time the upturned boat was found near one of the islands in the lake. Then a full realization of the seriousness of the situation dawned upon all, and it was agreed to at once send into the city for assistance. Ald. Macrae was driven out with the news and sent the telegrams which reached here shortly after three o'clock on Monday afternoon, and that left little doubt of the death of all three of their comrades.

Ald. Macrae himself came to the city on Monday evening. When he left the lake no trace had been found of any of the three, and the belief of the others was that all had perished.

St. John May 25—At 2.45 o'clock this afternoon news was received by telegraph that the bodies of Messrs Thomson and Foster had been recovered. They were found near where the boat was unhinged.

#### Committed For Trial.

Rathurst, May 21—The preliminary examination of the seven men arrested on the charge of assault and intimidation on Saturday last was concluded yesterday afternoon, after four days' investigation in Justice O'Brien's court. As a result two of the accused were discharged, the other five being sent up for trial, which will take place at the July session of the county court.

#### LIGHT SHIP.

One To Be Placed At  
Pointe-a-la-Garde

#### INSPECTORS

Appointed for Numerous Public  
Works—Armstrong Scheme  
Fleets With Disfavour.

Ottawa, May 23

The Minister of Marine and Fisheries, upon a favourable report being made by his officers, has granted the request made by Messrs Reid and Macil for a light ship at Pointe-a-la-Garde, Bonaventure County, to facilitate boats entering and leaving Campbellton at night.

The following Overseers of Public Works have been appointed at the place named in Bonaventure County—

Gascons, extension to wharf, Wm Ahler.

St Godefroy, breakwater and wharf, Jacques Grenier.

Bonaventure East, breakwater, Francois Poirier.

St. Charles de Caplan, breakwater, Ulric Dion.

Mr. Dery, Fruit Tree Demonstrator of the Department of Agriculture, will visit several parishes in Bonaventure County in June, on dates to be published, to give practical lessons to farmers and others owning fruit trees.

Mr. Macil has declined to introduce into the House the Bill incorporating the "Central Trunk Railway" intended to revive the Armstrong scheme of a railway from Gaspé to the Great Lakes as the Government did not look with favour on the proposal made, which involved among other things the guaranteeing of debentures to the extent of \$27,000,000. The proposal, as made, did not seem satisfactory.

#### W. C. T. U.

Miss Charlotte E. Wiggins who is to give a series of lectures here on the 29th and 30th inst. is well known as a talented and successful temperance worker, having been engaged for some years by the Ontario Woman's Temperance Union as organizer and lecturer. Of her work there and in other provinces, we have only words of appreciation and praise.

Miss Wiggins will speak in the Presbyterian church on Sunday at the close of the evening services, her topic being "Twentieth Century Ideals" and at 4 o'clock will address a mass meeting of children on "Doors Closed. Why?"

On Monday at 8 o'clock she will speak on "Humanity's Battles." There will also be a meeting on Monday afternoon at 3.30 o'clock of special interest to mothers, when Miss Wiggins will speak on "Home Ideals." To all these meetings the public are cordially invited.

A collection will be taken at each meeting to defray expenses.

**Another Railway Deal**

Kent Northern Reported to be About to Change Hands

The Advocate is authoritatively informed that the Kent Northern Railway at present controlled by a local syndicate is about to be taken over by a Company composed of Americans.

The Kent Northern, which at present runs between Kent Junction and Richibucto will be extended eighteen miles by the new Company to a suitable harbor and connection made with Prince Edward Island. A fast boat will be placed on the route and the Company hope to solve the problem of winter navigation to the Island. The company will also procure a charter to extend the road through to Chipman a distance of forty seven miles, thus the route between Fredericton and the Island will be reduced to seventy two miles. The Company has also under consideration the establishment of an electric line along the shore of Kent County.

Manager Murray will also be retained in his present capacity. He has been connected with the road since its inauguration. The price to be paid for the road has not been given out.

The Kent Northern is now about 100 miles in length and is in splendid condition. It is the only branch line in Maritime Province which was kept open throughout last winter.

The express leaves Richibucto at 10.30 and connects with trains both north and south. It runs through a beautiful and fertile country.

The road was built by Mr. J. C. Brown a few years ago and was acquired from him by its present owners.

The deal, the Advocate is authorized to state, is about closed but the names of the purchasers are not obtainable at the present time. The transfer of the road will give very satisfaction and in time may be particularly pleasing to the people of the Island Province.—Newcastle Advocate.

**DALHOUSIE WATER SYSTEM**

To Contractors

Proposals for Water-works Construction

Sealed proposals for furnishing materials and performing the work necessary for the construction of certain portions of a water system for the Corporation of Dalhousie N. B., endorsed "Proposals for Construction of Water-works" and addressed to the Secretary of Commissioners of Water Supply, will be received at their office until twelve o'clock noon on the first day of June 1904.

Each proposal must be signed by the bidder and accompanied by a certified cheque amounting to five per cent of the tender as security for the execution of the contract.

The person or persons to whom the contract may be awarded will be required to execute the same with two sureties satisfactory to the Commissioners, within ten days from the notification of such award, and in case of failure to sign the contract or complete the work contracted for, the deposited cheque will be forfeited to the Commissioners.

The work to be commenced upon notice from the Commissioners and to be continued with regularity until the contract is completed.

The Bond of a guarantee Company may be accepted in lieu of other sureties at the option of the Commissioners.

On the contract being satisfactorily executed, the certified cheque will be returned to the contractors.

The price stated in the proposals is to cover all expense of furnishing all materials, tools and labour and completing the work aforesaid in conformity with the contract and specification. The Commissioners do not bind themselves to accept the lowest or any tender.

Ottawa, May 20.—The contract for the extension to the wharf at Port Daniel, Bonaventure County, has been awarded to Messrs Lyons & White of Ottawa, at \$21,890.00.

**The Intercolonial Will Have Fine Service**

Two De Luxe Trains Will Be Put on From July 1

Montreal, May 19.—"The Intercolonial will have the finest passenger service this summer it ever had," said Mr. E. Tiffin, traffic manager of the Government of the Maritimes, this morning. "Commencing July 1 we will have two de luxe trains leaving Montreal for Sydney and Halifax every day and Saturday."

"The time of the Maritime Express which now leaves at noon, will be changed, and she will leave in the morning about eight o'clock. The Ocean Limited, a new train, will be put on at night, leaving Montreal at eight o'clock and making the trip in twenty-four hours. Her time will be a little faster than the Maritime's, for she will not have as many stops to make."

The particular advantage of the new train for tourists, however, will be that the trip through the beautiful New Brunswick and Nova Scotia scenery will be made in the daytime, which should prove an attractive plan for lovers of scenery."

As to the tourist outlook in the Maritime Provinces, Mr. Tiffin said he expected a fair season, though not as good as last year because of the St. Louis fair and the presidential elections in the United States. The I. C. R., however, expected the usual rush of travel during the summer.

Mr. Tiffin had nothing to communicate as to the purchase of the Canada Eastern Railway by the I. C. R. As to the proposed change in the system of paying I. C. R. officials, Mr. Tiffin said he thought it would meet with considerable opposition. At present the men are paid in cash, but it is proposed that they be paid by cheque instead.

Mr. Tiffin said he did not know whether the plan would be adopted but he did believe that the I. C. R. officials would sooner have the present system remain in vogue.

Millville, N. B. W. A. & J. H. Hayes

**Scott Act in Chatham**

A Chatham paper says: The police committee, which is now composed of all the members of the council, has been probing Scott act matters lately, and although the discussion has been held behind closed doors, enough has leaked out to give rise to the report that some startling developments may be expected if matters are sifted to the bottom.

A warm session was held one evening last week, when the bill was set rolling and parliamentary language and formalities were dispensed with. It is rumored that the cause of favoritism in enforcing the law has been ferreted out, and a remedy will shortly be applied. It is also reported there has been a serious leak in the 'wine cellar' and that an explanation will be asked for regarding the mysterious disappearance of certain refreshments.

**Another Railway Deal**

Kent Northern Reported to be About to Change Hands

The Advocate is authoritatively informed that the Kent Northern Railway at present controlled by a local syndicate is about to be taken over by a Company composed of Americans.

The Kent Northern, which at present runs between Kent Junction and Richibucto will be extended eighteen miles by the new Company to a suitable harbor and connection made with Prince Edward Island. A fast boat will be placed on the route and the Company hope to solve the problem of winter navigation to the Island. The company will also procure a charter to extend the road through to Chipman a distance of forty seven miles, thus the route between Fredericton and the Island will be reduced to seventy two miles. The Company has also under consideration the establishment of an electric line along the shore of Kent County.

Manager Murray will also be retained in his present capacity. He has been connected with the road since its inauguration. The price to be paid for the road has not been given out.

The Kent Northern is now about 100 miles in length and is in splendid condition. It is the only branch line in Maritime Province which was kept open throughout last winter.

The express leaves Richibucto at 10.30 and connects with trains both north and south. It runs through a beautiful and fertile country.

The road was built by Mr. J. C. Brown a few years ago and was acquired from him by its present owners.

The deal, the Advocate is authorized to state, is about closed but the names of the purchasers are not obtainable at the present time. The transfer of the road will give very satisfaction and in time may be particularly pleasing to the people of the Island Province.—Newcastle Advocate.

**DALHOUSIE WATER SYSTEM**

To Contractors

Proposals for Water-works Construction

Sealed proposals for furnishing materials and performing the work necessary for the construction of certain portions of a water system for the Corporation of Dalhousie N. B., endorsed "Proposals for Construction of Water-works" and addressed to the Secretary of Commissioners of Water Supply, will be received at their office until twelve o'clock noon on the first day of June 1904.

Each proposal must be signed by the bidder and accompanied by a certified cheque amounting to five per cent of the tender as security for the execution of the contract.

The person or persons to whom the contract may be awarded will be required to execute the same with two sureties satisfactory to the Commissioners, within ten days from the notification of such award, and in case of failure to sign the contract or complete the work contracted for, the deposited cheque will be forfeited to the Commissioners.

The work to be commenced upon notice from the Commissioners and to be continued with regularity until the contract is completed.

The Bond of a guarantee Company may be accepted in lieu of other sureties at the option of the Commissioners.

On the contract being satisfactorily executed, the certified cheque will be returned to the contractors.

The price stated in the proposals is to cover all expense of furnishing all materials, tools and labour and completing the work aforesaid in conformity with the contract and specification. The Commissioners do not bind themselves to accept the lowest or any tender.

A. G. McKenzie Secy. to Commissioners Town of Dalhousie Dalhousie, April 12, 1904

**Scott Act in Chatham**

A Chatham paper says: The police committee, which is now composed of all the members of the council, has been probing Scott act matters lately, and although the discussion has been held behind closed doors, enough has leaked out to give rise to the report that some startling developments may be expected if matters are sifted to the bottom.

A warm session was held one evening last week, when the bill was set rolling and parliamentary language and formalities were dispensed with. It is rumored that the cause of favoritism in enforcing the law has been ferreted out, and a remedy will shortly be applied. It is also reported there has been a serious leak in the 'wine cellar' and that an explanation will be asked for regarding the mysterious disappearance of certain refreshments.

**Contract Awarded**

For Extension of Port Daniel Wharf.

Ottawa, May 20.—The contract for the extension to the wharf at Port Daniel, Bonaventure County, has been awarded to Messrs Lyons & White of Ottawa, at \$21,890.00.

**The Intercolonial Will Have Fine Service**

Two De Luxe Trains Will Be Put on From July 1

Montreal, May 19.—"The Intercolonial will have the finest passenger service this summer it ever had," said Mr. E. Tiffin, traffic manager of the Government of the Maritimes, this morning. "Commencing July 1 we will have two de luxe trains leaving Montreal for Sydney and Halifax every day and Saturday."

"The time of the Maritime Express which now leaves at noon, will be changed, and she will leave in the morning about eight o'clock. The Ocean Limited, a new train, will be put on at night, leaving Montreal at eight o'clock and making the trip in twenty-four hours. Her time will be a little faster than the Maritime's, for she will not have as many stops to make."

The particular advantage of the new train for tourists, however, will be that the trip through the beautiful New Brunswick and Nova Scotia scenery will be made in the daytime, which should prove an attractive plan for lovers of scenery."

As to the tourist outlook in the Maritime Provinces, Mr. Tiffin said he expected a fair season, though not as good as last year because of the St. Louis fair and the presidential elections in the United States. The I. C. R., however, expected the usual rush of travel during the summer.

Mr. Tiffin had nothing to communicate as to the purchase of the Canada Eastern Railway by the I. C. R. As to the proposed change in the system of paying I. C. R. officials, Mr. Tiffin said he thought it would meet with considerable opposition. At present the men are paid in cash, but it is proposed that they be paid by cheque instead.

Mr. Tiffin said he did not know whether the plan would be adopted but he did believe that the I. C. R. officials would sooner have the present system remain in vogue.

## DEFAULTERS

Delinquent taxpayers are beginning to realize that the Town is waking up. A number of warrants have been served, and Wednesday witnesses the sale of household and other effects unless payment was made. In nearly every case payments have been made in part and arrangements made to pay the balance, and the Town office is being visited by others to ascertain what their arrears are. When payments cannot be made in full, the Town will do well to accept the back taxes in instalments. —Hants Journal.

This is a straight "tip" for North Shore towns and we trust a trial will be made when we feel sure the same result will be forthcoming.

## WOMEN AT THE POLLS.

A Denver, Col., despatch says: Contrary to expectation, election day (Wednesday) passed in Denver without rioting and without the presence of the militia at the polls. Fraud was detected in various parts of the city, and some arrests for alleged frauds were made, including two women. The two women had been suspected for several days, and were watched closely. They were seen to vote four times each up to 1 p. m. when a complaint was filed with an election judge, who called in a policeman, and they were taken to jail.

## OH! HOW TRUE.

Premier Murray of Nova Scotia who is in Ottawa, when asked by a newspaper man if he had any particular mission in Ottawa, said: "No, I am not in the habit of talking a great deal. Only foolish people talk too much. I am here simply on pleasure for two or three days, and will return to Halifax at the latter end of the week."

## SATISFACTION GUARANTEED.

A Philadelphia woman who paid \$15 for a baby at one of the famous farms in that city, took it back because it was unsatisfactory, and had it exchanged. Philadelphia business firms have long had a reputation for square dealing and a desire to satisfy patrons.

## Of Interest to I. C. R. Men

Moncton, May 20.—A number of locomotive drivers and firemen arrived in the city today at the request of G. R. Joughins, mechanical superintendent of the I. C. R., to hold a conference respecting the suggested transfer of some Sydney and Stellarton men back to the original districts who were transferred from other points some years ago. In some cases the drivers have been so long domiciled that they have purchased properties and established homes. There is now a local desire at Stellarton and Sydney that those men who came from Moncton, Campbellton, P. E. Island and other points should be transferred back to their original divisions. The transfers would put back the seniority of a considerable number of drivers, especially those whose transfers dated within recent years. At a meeting held this morning the views of men of the different sections were presented. Moncton men are strongly opposed to the men being transferred back here. It is felt the matter is one in which the men should agree among themselves. The P. W. A., Nova Scotia had representatives at the meeting, as well as the Brotherhood of Locomotive Engineers and Firemen.

Moncton, May 21.—The conference of the locomotive drivers and firemen with Mr. Joughins was resumed on Friday afternoon. During the afternoon a sub-committee, with John Ross Halifax, as chairman, appointed the following: Moncton: F. H. Moore, G. A. Stone; Stellarton: D. Gillis, H. S. Cutten; J. Blair; Campbellton: C. A. C. Kilian; Thomas Matheson; Truro: F. Chisholm; Ed. Joy; Sydney,

M. Smith, N. McMillan. After considerable conference the sub-committee agreed to report the following recommendations, subject to their being submitted to the different lodges and receive their approval, such compromises recommended to be a finality of the question: One driver to be transferred from Cape Breton to Truro one driver to be transferred from Cape Breton to Moncton; one driver to be transferred from Stellarton to Campbellton; two drivers to be transferred from Stellarton to Moncton. The Moncton delegates prefer that men transferred shall be juniors, but the names were left an open question. At the conclusion of the conference E. M. McDonald, M. P. P., Pictou N. S., and J. T. Hawke, who interested themselves at the request of the men in affecting a settlement, addressed the men.

## Japanese Vessels Lost

## One Blown up by Mine Other in Collision

Tokio May 19—9.30 p. m.—Vice Admiral Togo has reported as follows: "A report from Rear-Admiral Dewa says that the cruisers Kasuga and Yoshino collided during a fog off Port Arthur on May 15. The Yoshino sank only ninety of her crew being saved. On the same day the battleship Hatsuse struck a Russian mine and sank."

Tokio, May 19.—Giving details of the disaster, Vice Admiral Togo says: "At 12 minutes past 3 in the afternoon of May 15, in a deep fog off Port Arthur, the Kasuga rammed the Yoshino, sinking the latter in a few minutes. Ninety of her crew were saved. The same morning, the Hatsuse, cruising off Port Arthur, covering the landing of the soldiers, struck a mine ten knots southeast of the harbor entrance. She signalled for help and instantly struck another mine. She sank in half an hour. Three hundred of her crew were saved by torpedo boats."

Choe Foo, May 25.—Heavy firing was heard in the direction of Port Arthur yesterday, indicating that a land attack had commenced, as the Japanese is not to be seen off Port Arthur.

London, May 25.—The Correspondent of the Morning Post at Mukden, under date of May 24, says it is reported there that General Rennenkampf's Cossacks captured two Japanese transport columns, thus leaving the Japanese without supplies in a difficult country.

Liao Yang, May 25.—(Special)—The report is received from Meao Cheng saying that on May 18, five battalions of Japanese troops were going to the south almost as far as Tien Chou and ran into Major General Forke's artillery which was strongly posted on the heights in a narrow station on the Liao Tung Peninsula and the Japanese were entirely wiped out. The report lacks confirmation.

Liao Yang, May 25.—According to the latest reports the Japanese camps are infected with cholera, and there is an average of 100 deaths daily. The military situation is comparatively quiet.

Russian patrols are successfully harassing the left of the Japanese advance.

## Port Arthur

## Must Be Taken So The Japs Say.

Chicago, May 20.—A special to the Daily News from Tokyo says:—

Port Arthur is to be taken by storm the moment proper preparations have been completed. Siege guns have yet to be placed in position, and the land forces appointed for the assault have to be strengthened. The unexpected loss of two fine vessels has emphasized the insecurity of sea power, and the authorities feel that no chances must be taken that would encourage Russia to send out the Baltic fleet counting on finding a harbor of refuge in Port Arthur.

"It is realized that the storming of the fortress will inevitably cost many lives, but it is said that the waters where the Japanese ships are forced to manoeuvre are becoming so dangerous because of floating mines that heroic measures are economized by storming the stronghold and eliminating it and the adjacent waters from the area of actual conflict."

## DALHOUSIE.

## Large Quantities of freight for Gaspe Ports.

## VICTORIA DAY.

## Public Works for Bonaventure. —Successful School for Blind Concert.

Victoria Day was well celebrated here, notwithstanding the frequent showers that fell during the day. All the stores were closed. The scholars of the Public and Convent Schools were given a holiday. Flags were seen flying from several buildings. Several of young people drove to Charlottetown. Others went fishing at Eel River. Small picnics were held in town and in the evening a large bon fire was witnessed for several hours on the top of the hill.

Considering the very large quantity of freight that is brought to Gaspe and Bonaventure people by the Gulf Port Steamers, schooners, and by Railway it is wonderful what an immense lot of freight goes to Gaspe Ports via Dalhousie Branch Railway and Steamer Admiral. Your correspondent paid a personal visit to Mr. Michael Connolly on Tuesday at the I. C. R. wharf and witnessed the number of cars on the track and sidings, waiting to be discharged, and the large freight shed packed with goods, especially groceries and provisions. On one corner there were 500 pairs of lard addressed to one firm.

News reached here that W. H. Clapperton, M. P. P. for Bonaventure Co. has been very successful during the present session in obtaining funds to make many improvements in Bonaventure Co. Among other things he has made arrangements for the rebuilding of the Mercier Bridge near Matapedia Station. This new structure will be built of stone or concrete with a steel superstructure and will cost in the neighbourhood of \$40,000.00.

Mr. Wm Cook of North Sydney was in town on Tuesday looking the ground over with the view of tendering to place a water system in Dalhousie. Mr. Cooke spoke favorably of the location of McNish Brook to supply the town with water by gravitation. His firm has had a large experience in this line of work in Nova Scotia.

Mrs. Dr. Doherty, Miss Florine Doherty, Mrs. Gibson, Mr. and Mrs. Henry McIntyre of Campbellton spent Victoria Day in the Shiretown.

Mrs. John Baldwin, Bathurst Village, and Mrs. O. McKenna and son of Bathurst, spent Victoria Day here visiting friends, Mrs. John Phillips and Mrs. Thomas Murphy.

Miss Bella Duncan has returned from Boston on account of her mother's illness.

Mr. Chas. Morrissey, Newcastle, was at Murphy's Hotel on Wednesday.

Mr. H. M. Murray, Campbellton was in town on Wednesday.

Dalhousie will soon lose one of its popular teachers, Wedding bells.

A large audience greeted Dr. Fraser and the pupils of the School for the Blind, Halifax, on Wednesday evening in the Morris Hall and the entertainment was very much appreciated. Hon. Mr. LaBelle presided, and in presenting Dr. Fraser and his pupils to the audience spoke of the good work that was being done, for the blind children of the Maritime Provinces at the Halifax Institution. Rev. Mr. Leek spoke also of the splendid work done, and encouraged

ed the people to contribute generously to the building fund.

Dr. Fraser thanked those who had entertained him and his pupils. He said they were delighted with their stay in Dalhousie. A very successful concert closed with the whole audience singing the National Anthem.

The Town Commissioners held a regular meeting last week. Several bye-laws were passed based upon sub-sections that were added to Section 31 of the Act incorporating the Town of Dalhousie. Among the Bye-laws passed was one to prevent the running at large of horses, cattle, swine and sheep within the town. Other Bye-laws were passed referring to fire protection, and other matters for the good of the town.

Mr. Simon McGregor, Highway Commissioner for the Town District, is making arrangements to improve our streets and sidewalks in a creditable manner.

## Balmoral

Mr. John J. Arseneau came down last week from Red Brook where he had taken out a drive to the south east.

The drive on Eel River South branch is in the boom and the drive on the main river is making good progress.

The Charlo River is getting on very well and it is expected all the lumber will be in the boom at the end of this week.

The heavy rain during Saturday night Sunday and Sunday night will give lots of water to take out all the lumber in the streams this week.

Rev. John Wheten drove to Charlo Sunday evening and returned Monday.

Mr. William Currie was here last week looking after his drive.

Mr. Louis Fournier and Miss Mary Ann Comeau were united in marriage on Monday, May 16th, by Rev. John Wheten.

Mr. Power of Newcastle is again at work at the new church. The people of the parish are to be congratulated at having succeeded in getting such an efficient man as Mr. Power.

Mr. Alexander Malraux of St. Maurice is selling out farm and stock and will go to reside in Campbellton.

Henry A. Bernard succeeded in trapping one of the largest bears caught here for some time. Mr. Bernard left Friday morning and went to Red Brook and returned Saturday evening with his prize.

## MODERN UTOPIAS.

European Countries in Which Paganism is to be abolished.

Denmark claims that there is not a single person in her domain who cannot read and write. On the northeast coast of New Guinea the island of Kaituma, surrounded by a wall of coral 200 feet high on one side and from 100 to 100 feet on the other, maintains thirteen villages of natives, to whom war, crime and poverty have been unknown since the beginning of their traditions. The most peaceful and comfortable community in Europe is the commune of the Canton Vaud, in Switzerland. Nearly every one is well off, and there are no paupers. Finland is a realm whose inhabitants are remarkable for their inviolate integrity. There are no banks and no safe deposits, for no such security is essential. You may leave your luggage anywhere for any length of time and be quite sure of finding it untouched on your return, and your purse full of money would be just as secure under similar circumstances. The Finns place their money and valuables in holes in the ground and cover them with a big leaf. Such treasure is sacredly respected by all who pass it, but in the rare event of a man wishing to borrow of his neighbor during his absence he will take only the smallest sum he requires and place a message in the hole telling of his urgent need and promising to repay the amount on a specified date. And he will invariably keep his word, for the Finn is inviolable in his independence.

Agnetta Park, near Delft, in Holland, is another Utopia example. A tract of ten acres has upon it 150 houses, each with its little garden and with certain common buildings and common grounds. The houses are occupied by the employees of a great distilling company, who form a corporation which owns the park. Each member owns shares in the corporation and pays rent for his house. The surplus, after all expenses have been paid, comes back to him as dividend. If he wishes to go away or if he dies his shares are bought up by the corporation and sold to the man who takes his place.

Motherhood Up to Date.  
"Think of a woman with her social responsibilities having a child!"  
"Disgraceful! But they say she is fond of it!"  
"Is she the strange parrot? She is almost like a mother to it!"

The Extremity of Bills.  
The Parson—Dis am most positively de most 'strenuously' clicking I ther put in much month. Br'er Jackson—Yes, sah, parson; dat clicking wuz raised an' brung up on watermillers, sah.

Sabbath of strange manifestations itself at bophides when it is not provided with large doors.

## THE JUNGLE BEAUTY

SHE PLUCKS HER WARDROBE FROM THE TREES AND VINES.

Lace bark is the favorite ball dress fabric of the Semivilled Belle of the West Indies—Living Jewels That Outshine the Diamond.

Down in the tropical jungles of Central America and the West Indies the head of the family is not worried by milliners' and dressmakers' bills. The semivilled belle of these lands knows how to get nearly the whole of her costume from the jungle. She manufactures it herself from the materials she gathers from nature. Though she may be able in rare cases to get from the one shop ten or fifteen miles away a few yards of cloth with which to make her dress, any trimming she may wish to put upon it must be searched for in the woods.

Lace bark is her favorite material for making anything light and dainty. This lace bark is the film which covers the heart of the lace bark tree. The natives carefully remove it and soak it in running water for three or four days in order to get off the gum and unnecessary fiber. After that it is bleached on the sands by the river and sprinkled now and then to whiten it. When it has become a creamy white it is pressed with a hot iron or a heated stone and is ready for use. It has a fine lace appearance and runs into more artistic patterns than any manufactured article. When made into a dress it is wonderfully beautiful. The jungle girl uses it sparingly on her ordinary clothes, but for her ball dress dounce after dounce is used to give a fluffy look to the skirts. She knows that it becomes her as nothing else would.

Her jewelry consists of beautifully colored seeds strung together in the form of necklaces, bracelets and stars. In addition to these, on the night of the ball she catches the brilliant fireflies which swarm in the jungle and artistically arranges them in her dusky locks. The jungle girl would not exchange her "peenie wallahs," as she calls the fireflies, for the diamonds of the northern belle.

The jungle girl's hats are a marvel to behold. She weaves them herself from the jippi jappa grass, and can get any shape or style she fancies. She trims them with the netty fiber of the cocoyant palm and the gorgeous wings of the mountain parakeet, which is shot and brought home by her father and brother. Over her parasol and umbrella are supplied by kindly nature. When the sun is too hot or the rain too heavy a big platypain or banana leaf does as well as anything bought in the largest stores of an American city. A creole belle is as fond of perfume as the daintiest American woman and is just as particular that it shall be of the best kind. She goes to much more trouble to procure it, but then she knows that it is always pure and fresh. She first picks her fresh flowers, and then, by some process handed down from one generation to another, she distills it.

The secret method is often known to only a few families, and they would not give it away for any sum of money. The sticky holders of the secret are of course envied by all who know them. Although others may receive the secret of the much valued scent from those in the secret, they cannot make it themselves and therefore cannot afford to be as lavish with it as they wish. The tropical girl's soap is procured on the way to the bath. As she walks down to the river to bathe she stops here and there to gather soap berries and cuts a piece of stick called "chevstick," which she uses as a toothbrush. She chews the end of it until it becomes quite soft and froth gathers at the end. She then rubs her teeth well with it. This is the best toothbrush on earth, as it not only prevents the teeth from decaying, but keeps them beautifully white and clean. People in other countries, knowing the value of this chevstick above all others as a dentifrice, have it powdered and exported to them.

In many parts of South America the natives cannot buy cloth to make their clothes, so they have to spin it themselves out of cocoyant fiber, river weeds and bamboo fiber. The cloth woven from the bamboo fiber is very soft and silky. Unlike the West Indians, the South American belle wears shoes of a kind. These are made of a coarse woven material like sailcloth, which is attached to soles of rawhide. They are the most comfortable shoes imaginable and are used by the soldiers of South America when on the march. They are called "alpaggattas," and Americans who have traveled in South America invariably bring them home to their wives and daughters for bath slippers. Those who are lucky enough to have a pair would not exchange them for any other slippers, however costly. No other footwear equals the "alpaggattas" for comfort and durability.

Of Course.  
"All the defendants they've brought before us so far," said the first jurymen in the criminal court, "appear to be so thin and miserable."

"Yes," replied the other, "naturally they have a pinched look."

**Letter from Norbert Callahan, Rome**

The following letter from Mr. Norbert Callahan to Mr. Patrick O'Leary will be of interest to Mr. Callahan's many friends and acquaintances in town, and we have much pleasure by courtesy of Mr. O'Leary of presenting same to our readers. Mr. Callahan is a native of Campbellton now presenting his studies in Rome and is to be congratulated in the success he had made in his studies.

Rome, Apr. 17th, 1904

Dear Father:—

Your kind letter dated March 30th reached me yesterday, as also the fourth bundle of papers which you sent, a few days ago. I remarked when reading the "EVENTS" which I am pleased to see has undergone a considerable improvement during the last few years, that the names therein are generally those of strangers, and the names of old acquaintances very seldom appear. "The New Freeman," is a very good paper with generally a good supply of Provincial news. "The Catholic Record" of London Out, also deserves high praise as it is indeed worthy of its name.

We received a visit from Mgr. Begin of Quebec.

The ceremonies during Holy week were something indeed well worthy of attending. For the Tenebrae on the first day we went to St. Peter's where His Eminence Cardinal Rampolla presided and the Lamentations were sung by three of the ablest singers of the Sistine—the Papal Choir—which always renders the musical programme for His Holiness when he officiated in the Sistine Chapel. The master of the choir is Perosi, the greatest composer of sacred music in the world. He is a priest between 30 and 35 years of age and a great friend of His Holiness.

Holy Thursday was spent in visiting the many beautiful repositories among which that of the American College and the church of the Portuguese held the foremost places. On Good Friday we attended the Three Hours Devotion in the English Church of St. Sylvester where Mgr. Vanghan brother of the late Cardinal delivered a touching sermon on the Passion. I then repaired to the magnificent Basilica of St. John Lateran to attend the ceremonies of the Tenebrae. To this as to St. Peter's flocked hundreds of strangers mostly English speaking, however, among whom were many Americans so that but for the grandeur and magnificence which was always before my eyes, I should scarcely be able to assure myself that I was not in an English-speaking country. During Easter and Christmas tides, this about as common to meet an Englishman on the street—but more especially in the large churches—as an Italian.

On Easter Monday which was usual in Rome, was a beautiful sunny day, I attended the Pontifical Mass of His Eminence Cardinal Rampolla in St. Peter's. About 6 a. m. four of us repaired to the convent of the English nuns to serve mass for Rev. Dr. DeCosta who a few days previously paid us a visit, and requested us to go over Easter Sunday morning as he should feel well enough to say Mass. We received a note from him the other day stating that he would take the steamer at Naples for New York about 20th of April. I am glad to see the poor old man going back to his dear friends, no doubt very numerous not only in New York City but in every part of America. He is leaving us some books and treatises which he has written.

The letter week of our Easter

vacation over and school about to re-open, I was destined to enjoy a happiness which I little expected should be mine so shortly after my arrival, viz of assisting at the Pontifical Mass of His Holiness. In my last letter I told you that the Pope himself would be present for the inauguration of the Gregorian chant. However greatly to my surprise, on the eve of the celebration, I was told if I asked to get a fair view of His Holiness when borne through the immense crowd and while celebrating Mass I must rise at 4 a. m. and shortly after set out for the world famed Temple. Great was our surprise to find at this early hour such numbers and such long strings of carriages filling the streets, leading to the immense piazza, and that a line of soldiers was stationed directly in front of the steps leading to the Basilica and along the whole length of the two colonnades, while officers with small companies were marching back and forth.

We followed the other seminarians and soon found ourselves before the large bronze doors of the Vatican which were in a few moments thrown open by the stalwart Swiss Guards who had to use some little force to keep the crowds from rushing in without presenting their tickets. I happened to get in among the first and stationed myself in the very front of the choir about twelve feet from the Pope and where His Holiness would say mass in about three hours time. The papal throne was placed at the end of the spacious sanctuary, seats were arranged for the Cardinals, Bishops, and the nobility on either side. Guards were stationed at every corner, and surrounded the tomb of St. Peter and a line on which His Holiness would be borne. Crowds kept pouring in, but room was still left for more, all the seminarians were stationed on either side of the altar the number of whom I learned afterwards was more than one thousand. However, I was certain of seeing His Holiness during the whole celebration and minded not standing six hours and being continually squeezed against the railing by almost the whole choir.

About 9.30 a. m. when about 30 or 40 thousand people had assembled, peals of music met our ears and instantly the eyes of all were riveted upon the entrance, which was now being occupied by the long procession of Seminarians, Nobles, Monsignors, Abbots, Bishops and Cardinals which preceded His Holiness, who was borne on a beautiful chair above the heads of the multitude, adorned in all the magnificence of his Pontifical robes. Now all was indescribable enthusiasm! Thousands of handkerchiefs waved, while the amiable, fatherly and as appeared to all, celestial figure of Pius X, with uplifted hand, showered his blessings upon all. When he passed the large choir at the very front of which I happened to be, he seemed to cast a special smile upon us. While saying mass, although 68 years of age, he was as steady as a young man of thirty.

During the consecration soft sweet music proceeded from the organ so far above us. Immediately before Communion His Holiness was conducted to the large throne, as there was also a smaller one nearer to the altar; a cardinal after elevating the Sacred species for the adoration of all, bore them to His Holiness, who kneeling upon his throne consumed them. Mass finished, the procession again formed and preceded His Holiness to the Vatican steps. There was again the same enthusiasm and even long after thousands of handkerchiefs were still waving. His Holiness remarked afterward that he was specially pleased with the singing.

President Loubet will arrive here soon and great preparations are being made for receiving him. He is returning the visit which Victor Emmanuel paid him not long ago. It is now certain that His Holiness will not receive him to an audience. Loubet as the representative of the Catholic nation is bound, both by custom and by the respect due the spiritual power to visit the Vicar of Christ first, and then if he wishes to visit the King. But it is certain that Loubet will not do this as otherwise the king would take offence. In respect to the Emperor of Germany and the king

of England, who visited Rome last summer and having previously had an audience with the king were received by His Holiness they being representatives of Protestant countries, were not bound to fulfil the above stated condition; but it was necessary that they should leave or depart from the house of their respective ambassadors and proceed to the Vatican. So that if Mr. Loubet who but a few months ago signed the bill for the expulsion of religion throughout France, and the confiscation of their property is under the illusion that His Holiness will receive him under any condition whatsoever, he will be doomed to a sad disappointment.

It is the opinion of some that the King of Italy visited Loubet in order that he might see what course Loubet would take when returning his visit. Elaborate preparations are being made for his arrival. On the evening of his arrival the Seven Hills of Rome will be illuminated something which was very seldom done whether for Emperor or King. I hope to get at least a glimpse at the honorable gentlemen.

I have received all the letters you have written as they arrive regularly.

Well, dear father, I must close my letter by wishing you, mother and all health and prosperity.

Yours sincerely in the S. H.

Norbert O'Leary, M. S. C.

Mr. Pat O'Leary  
Campbellton

**A McG. McDonald warrants every bottle.**

If troubled with rheumatism, give Chamberlain's Pain Balm a trial. It will not cost you a cent if it does not good. One application will relieve the pain. It also cures sprains and bruises in one-third the time required by any other treatment. Cuts, burns, frost bites, quins, pains in the side and chest, glandular and other swellings are quickly cured by applying it. Every bottle warranted. Price 25c. and 50c. For sale by McG. McDonald.

**More Protection.**

The Canadian Industrial League Demands.

Protection, adequate, protection, increased protection—these were the keywords of the address at the banquet of the St. John branch at the Canadian Industrial League in the Dufferin Hotel on Friday evening.

Mr. James Pender, president of the St. John branch of the league, was in the chair, with Hon. J. W. Longley of Halifax, and Mr. Watson G. Griffin, editor of Industrial Canada, on his right, and Mr. W. F. Cockshutt of Brantford, Ont., and Mayor White on his left, while Mr. W. S. Fisher was vice-chairman, with Rev. J. de Soyres on his right and Mr. J. D. Hazen on his left.

After dinner had been disposed of, the King's speech was drunk and God Save the King sung, the chairman making a few remarks on the aims and objects of the Industrial League.

Mayor White followed with an address on Canada, O. H. Hone. His Worship expatiated on the greatness of the Dominion and the magnificent future before her. He strongly endorsed the "made in Canada" idea. It was not necessary for the confederation to be a purely political one; there should be commercial union of the provinces. Preferential trade within Canada was a very large question. In St. John we wish to assist the Upper Canadians in business and we want them to reciprocate. We are bound by a trans-continental railway and we will soon be bound by another. We want the people of Upper Canada to give St. John and Halifax the preference. He asked Ontario, in sending their overture to other countries to remember St. John has the advantages for handling it. If they hope to become the Birmingham of the province, they should be the Birmingham of Canada.

"Canada for Canadians" was the text of the address by Hon. J. W. Longley, who was very warmly received by rising Mr. Longley declared that the tariff question is no longer an issue between the two great political parties of this country. He regarded it as a fixed and inexorable principle at this present moment that the Canadian tariff should be formed with the object of aiding and encouraging domestic industries, and accepting this as a sound proposition, it follows inevitably that the modifying conditions of trade will necessitate from time to time changes in the tariff, and that it is fitting and proper that the government, recognizing these altered conditions, should from time to time readjust the tariff so as to meet these conditions. The prevailing sentiment all along the line, said Mr. Longley, is that our industries must be protected. Within the last few years we have seen a phenomenal growth in the industrial life of Canada. The export of manufactured goods within the last six or seven years has multiplied many fold and the number of persons employed in manufacturing industries in Canada has enormously increased. With it should grow a thorough Canadian sentiment

which would give reasonable preference to the products of Canadian labor and skill, until the universal sentiment prevailing from the Atlantic to the Pacific should be "Canada for the Canamans". The feeling engendered by such a spirit as that would be national in more than an industrial sense. It would awaken Canadians to the consciousness of their power and give birth to a legitimate yearning for a national status. Mr. Longley discussed the reciprocity movement, in which he considered there is now no life, and he spoke generally of the development of the country and of the increase of business at Canada's Atlantic ports. Mr. Longley enlivened his address with some entertaining anecdotes, and he was frequently applauded at telling points he made.

Mr. W. F. Cockshutt made a lengthy speech on Our Trade Relations. Mr. Cockshutt declared there was no politics in the League movement. Protection is now the settled policy of the country. Free trade is a failure. Mr. Chamberlain is advocating the correct policy for the empire, and that policy should be adopted. It would be Canada's interest. Mr. Cockshutt disapproved of reciprocity with the United States, and declared higher duties are required in the interest of Canada. He would raise the general tariff against all nations, and make the cut a little deeper to the brethren and kinsmen beyond the sea. These remarks apply not only to Great Britain, but to Australia, South Africa, West Indies and all the other great colonies of the British Empire. He trusted the day is not far distant when some such measures will be carried into effect in this country.

Mr. Watson Griffin spoke a considerable length on A Patriotic Preference. He argued in favor of tariff revision. He said a majority of the Canadian people want a tariff revision that will put an end to the trade conscious which Canadians buy from the United States thirty-four times as much per head of population as the Americans buy from Canada. Under the right kind of a tariff the resources of the Maritime Provinces would be developed and their sea ports—St. John particularly—would prosper. There should be a preference for goods brought through Canadian ports. Our proximity to the United States has retarded the development of Canada and restricted the growth of St. John, because we have not been sufficiently self-reliant; because we have depended upon our southern neighbors to do for us what we could have done better ourselves. The governments of Canada, whether Conservative or Liberal, have only given half-hearted protection to our home industries and no protection whatever to our home sea ports. Let our governments aim to make Canada absolutely independent of the United States and then the proximity of that great country, with its immense population, will be an advantage rather than a disadvantage to Canada.

It was the duty of the vice-chairman to introduce the next speaker, and he did so in felicitous terms. Mr. Pender was the speaker and made in Canada his theme. Mr. Pender dealt almost entirely with his own business, mail making, and he argued in favor of increasing the duties to keep out American goods.

Mr. Hazen made a speech in favor of protection, and Ex-Mayor Vroom, of St. Stephen, and Mr. A. D. Campbell, league organizer, spoke briefly.

During the evening songs were sung by Messrs. Eben Perkins and S. J. McGowan.

The proceedings were brought to a close by the company singing God Save the King.

**Calomel Ruins the System**

And should only be used under a doctor's orders. For a mild physic take Dr. Hamilton's Pills of Mandrake and Butternut. No gripe, no pain, certain relief for headache constipation and torpid liver. Use only Dr. Hamilton's Pills. Price 25c.

**50c. Bottle Free**

**When Medicine Fails, Try Liquezone—We'll Pay for it**

Medicine must fail in a germ trouble, because medicine never kills inside germs. Any germ-killing drug is a poison to you, and it cannot be taken internally.

Liquezone is the only way known to kill germs in the body without killing the tissues, too. It does in a germ trouble what no drugs, no skill in the world, can accomplish without it. To prove this—if you need it—we will gladly pay for a bottle and give it to you to try.

**Acts Like Oxygen**

Liquezone is the result of a process which, for more than 30 years, has been the constant subject of scientific and chemical research. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, these gases are made part of the liquid product.

The result is a product that does what oxygen does. Oxygen gas, as you know, is the very source of vitality. Liquezone is a vitalizer with which no other known product can compare. But germs are vegetables, and Liquezone—like an excess of oxygen—is deadly to vegetable matter. Yet this wonderful product which no germ can resist, is, to the human body, the most essential element of life.

**We Paid \$100,000**

For the American rights to Liquezone—the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals in this country and others.

That price was paid because Liquezone does in germ troubles what all the drugs, all the skill in the world, cannot accomplish without it. It carries into the blood a powerful yet harmless germicide, to destroy at once and forever the cause of any germ disease. And no man knows another way to do it. Liquezone is so certain that we publish on every bottle an offer of \$1,000 for a disease germ that it cannot kill.

**Germ Diseases**

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone kills the germs wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably cures the disease, and forever.

**CUT OUT THIS COUPON**

For this offer may not appear again. Fill out the blanks and mail it to the Liquid Ozone Co., 429-430 Wabash Ave., Chicago.

My disease is \_\_\_\_\_  
I have never tried Liquezone, or Fowler's Liquid Ozone, but if you will supply me a 50c. bottle free I will take it.

Give full address—write plainly

Liquezone was formerly known in Canada as Fowler's Liquid Ozone.

**A Montreal Murder.**

**Man Found Dead in Basement of Court House.**

**With His Skull Smashed in and Other Bruises.**

Montreal, May 21.—A man about forty-five years of age was found this morning lying dead in the basement of the new extension court house under construction. A close examination showed that the victim's skull had been smashed in and that he bore numerous bruises, which seemed to indicate that murder had been committed. The police are trying to unravel the mystery. They seem to think it possible that the man may have fallen from the upper storey, but the position of the body would indicate that this was not possible. No money or valuables were found and nothing by which the body could be identified. An inquest will be held on Monday.

**A Smart Boy**

A teacher in a kindergarten in Boston had among her pupils a little chap of tender years named Harry D. One morning Harry came to school with the flush of triumph on his face.

"I can do it myself now," he said, with a decided lip.

"You can dress yourself?" said the teacher. "Why, what a smart little boy you are!"

Soon after the session of the school had begun up went Harry's hand.

"What is it Harry?" asked the teacher.

"I can do it myself now," said the teacher. "Why, what a smart little boy you are!"

"You have already told me that," said the teacher.

**When Medicine Fails, Try Liquezone—We'll Pay for it**

Medicine must fail in a germ trouble, because medicine never kills inside germs. Any germ-killing drug is a poison to you, and it cannot be taken internally.

Liquezone is the only way known to kill germs in the body without killing the tissues, too. It does in a germ trouble what no drugs, no skill in the world, can accomplish without it. To prove this—if you need it—we will gladly pay for a bottle and give it to you to try.

**Acts Like Oxygen**

Liquezone is the result of a process which, for more than 30 years, has been the constant subject of scientific and chemical research. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, these gases are made part of the liquid product.

The result is a product that does what oxygen does. Oxygen gas, as you know, is the very source of vitality. Liquezone is a vitalizer with which no other known product can compare. But germs are vegetables, and Liquezone—like an excess of oxygen—is deadly to vegetable matter. Yet this wonderful product which no germ can resist, is, to the human body, the most essential element of life.

**Twice Harry announced that he could "do it himself," and when he announced it for the third time the teacher said:**

"Now, Harry you have disobeyed me twice for I told you not to interrupt me by saying again that you could dress yourself. You may be behind that screen in the corner and stop there until I say that you can come out."

Harry obeyed, and a moment later two or three visitors were announced.

"What a charming lot of little people," said one of the callers, "and only one vacant seat."

The little boy who sits there is here, said the teacher. "I had him go behind that screen for a slight infraction of the rules, but he may come out now. Harry, come forth, and horrors, he was clad in nothing but the simplicity of nature."

"I can do it myself, too!" he announced.

Tableau.

**DOAN'S KIDNEY PILLS**

Are a sure and permanent cure for all Kidney and Bladder Troubles.

**BACKACHE**  
Is the first sign of Kidney Trouble. Don't neglect it! Check it in time! Serious trouble will follow if you don't cure your backache by taking DOAN'S KIDNEY PILLS.

**Sunshine Furnace**

**Flues Easily Cleaned**

Cleaning out the flues of most furnaces is so difficult and complicated that only an expert can do it, and experts' services usually come high.

The flues in the Sunshine Furnace can be cleaned from two different clean-out doors and from the feed-door, so that there is no part of the flues which is not easily reached.

A special brush for this purpose is always supplied, and the operation is so simple that a boy can perform it.

The whole Sunshine Furnace construction is on the same plan of simplicity.

Sold by all enterprising dealers. Write for booklet.

## GLOUCESTER COUNTY. BATHURST NEWS

The rain and cold weather of the past few days has rather dampened the ardour of those who have been preparing to make merry on Victoria Day. However the rains of the past week have greatly contributed to the improved conditions of the country and the community seem rather compensated for the discomforts of it all.

Empire Day was observed in the different schools, both in town and village, on Monday, when literary programmes were tastefully rendered before a number of visitors by the pupils of the various departments.

Mr. Wm. Petre of the town is erecting a new residence to replace the one destroyed by fire on April 21st.

We are sorry to note that Mr. Geo. Hachey of the Basin Road remains still unimproved in health, after a long siege of illness.

Mr. Lenord Gallant, who has been working for the Ross Rifle Mfg. Co. of Quebec, for the past year, arrived home Monday morning and intends to remain here for the summer.

There is a movement on foot to establish a total abstinence Society in the Village, whose aim will be to suppress intemperance and to procure the moral, social and intellectual improvement of its members.

Work was commenced Monday morning on the repairs to be made to the bridge between town and village. About six thousand dollars will be spent towards its improvement and employment will be given to about forty or fifty men during the next five or six months. Traffic over this bridge has been suspended and all must necessarily move round by the station bridge.

The first sailing vessel arrived at the bar outside the point on Friday last. We understand that the vessel will be loaded from Adams Burns & Co. wharf with lumber from the Tracadie Lumber Co., which is being transferred to here over the Caranquet Railroad.

Mr. M. J. Collicot, of Elgin; Albert Co., has the contract of sawing up the Millstream logs for the Summer Co. Mr. Collicot has had his mill running for about a fortnight and is doing good work. He has moved his family to Millstream, where they will reside for the summer months.

Students from the School for the Blind of Halifax gave a very high class entertainment in the Legere Opera Hall, on Monday evening. We think that the free contributions testified in a creditable manner to the generous spirit of our citizens towards a worthy and deserving charitable institution. Victoria Day passed off very quietly. Most of the merchants closed their stores and very little business was transacted. The weather was altogether unfavorable for out of town excursions, and time must have weighed heavy with our young ladies and gentlemen.

The gentleman who is to have

charge of the installation of the Electric Light Plant, arrived in town this week and likely will proceed with operations at once.

We understand that a new Society will be established shortly in the town and village, called the "Society of the Holy Name". Its object will be to suppress the monstrous habit blaspheming.

The Steamer Davenport chartered by the Summer Company is expected here daily and upon arrival will be loaded by the Summer Co. on their own account.

Mr. R. C. Falkins, who has been operating our cheese factory during the past couple of years, arrived at Bathurst Saturday morning and is making preparation to carry on the business of manufacturing cheese as formerly.

Some large strings of trout have been taken at the Allison Points and Rough Waters the past week, nevertheless there are a number of enthusiasts who fail to land any but miss all the monsters.

Mr. Wm. Wilber of Woodstock is stopping in town for a few days.

The advance agents for Messrs. Sheden & Young's Theatre Company are in town advertising the drama "For Her Sake" which they will produce here on Wednesday night, June 1st, at the Legere Opera Hall.

Rev. W. E. Sormany of St. Theresa and Mr. Alphonse Sormany, a student at the Laval University of Montreal, were summoned to the Lazaretto in Tracadie, N. P., owing to the serious illness of their sister who is a Sister of the Hotel Dieu order who conduct that worthy institution.

Mrs. Alex J. Melanson of Jacques River spent the holiday in Bathurst.

Mrs. Annie Baldwin returned home Wednesday morning from a short visit to relatives in Dalhousie.

We understand that cottages at the "Points" are to let either collectively or separately for the tourist season. This should prove a good investment for some young man of practical judgment and ability.

Mrs. Owen J. McKenna accompanied by her young son, Roe, is visiting friends at Dalhousie.

Messrs. John and George McMillan spent the 24th at their home in Black Point.

### Carron Point

It seems useless to tell the people that some parts of Carron Point Road has become almost impassable as every one knows it by now but for fear some poor stranger might come down and fall in the holes we might be forgiven for making the remark.

Mrs. John Ronalds has returned home after spending some time in Newcastle attending the funeral of her brother, Mrs. Chilton.

Master Herman Gammon has recovered from a bad attack of pleurisy. Mr. Andrew Ramsay is seriously ill with an attack of heart disease, pneumonia and pleurisy.

Miss Agnes Bateman spent last Sunday and Monday in Newcastle.

Quite a few of the boys who were in Redigouche stream driving have returned home. Among them are Charlie Getty, Crosby Daley, Paisley Dickie and Wilford Dickie.

Aaron Carter has gone to work somewhere He carries with him the best wishes of the people at Carron Point.

Miss Ruby Bateman spent some time last week in New Brandon the guest of Miss Alma Jago.

Quite a number of young people intend to spend to-morrow the 24th at Bass River fishing. We wish them a pleasant time.

### Salmon Beach

Mrs. T. J. Smith spent a few days last week in Canonic the guest of her sister Mrs. Robt. Seely.

We are sorry to note of the serious illness of Mr. Andrew Ramsay.

Mr. Percy Ramsay left here on Wednesday for Maine where he intends to spend the summer months.

Mr. and Mrs. William Murphy spent Wednesday in Bathurst.

Mr. George Good left here on Friday to join his brother in Sussex.

Messrs. John Ward and Thos. Smith returned home from the drive Saturday evening in Janeville at Mr. John Scott's.

Keep Minard's Liniment in the house.

### Escuminac.

Rainy weather prevails which leaves the ground in poor condition for cultivation.

Rev. M. J. and Mrs. McPherson left last week for P. E. I. where they will remain a month visiting relatives.

Miss Sarah Campbell of Boston arrived on Saturday to spend her vacation at her home here. She was accompanied by Mrs. Edwards' little niece, who will spend the summer.

Miss Etta Brown is visiting friends in Campbellton.

Mrs. McLoughlin and family of Marquette, Wis., are visiting her father, Mr. Jas. Dunnville.

Mr. Guilford Pike of Dalhousie spent Sunday at his home here.

Mr. and Mrs. Wm. Dickey are receiving congratulations on the arrival of a baby girl at their home.

Mr. J. D. Sowerby's drive is now in operation, it being within seven miles of the town on Saturday evening.

### New Carlisle.

On Thursday, the 19th the remains of Miss Chatterton, daughter of Harvey Chatterton, were interred in the Episcopal Cemetery having been brought from Montreal by train the previous day. The funeral was largely attended.

We are pleased to see Mr. J. G. G. G. getting around again after being for three months laid up with a broken leg. His recent appointment as Conductor of Public Works will no doubt aid toward a speedy recovery.

Mr. John Crozier is slowly recovering from a severe attack of rheumatic fever. We trust soon to see his familiar face on the street again.

Mr. J. P. LeGrand, having purchased the stock formerly owned by Lecker Bros., has opened the old Klondyke Store again with his son George as salesmen. While Mr. Joseph Lecker is selling for Messrs. Goodman and Nader who have rented the shop owned by Mr. Beaulieu.

The S. S. Admiral was delayed several hours on Saturday by grounding near the New Carlisle Wharf.

We trust that Mr. Marcell, while having done nobly by this County in the matter of Public Works will not forget that New Carlisle has the only wharf in this County with Railroad connection, and will get us a liberal grant for two long expected "Harbor Improvements" which must be badly needed when the S. S. Admiral grounds at half tide.

### Just what you need

Chamberlain's Stomach and Liver Tablets are just what you need when constipated, when you have no appetite, feel dull after eating and wake up with a bad taste in your mouth. They will improve your appetite, cleanse and invigorate your stomach and give you a relish for your food. For sale by A. McG. McDonald.

### Roseville

Mr. N. Cabey is now recovering of his illness.

Much sympathy is felt among a large circle of friends and relations in hearing of the death of Mr. Randolph Babey about 22 yrs of age. He left his home for Tupper Lake about one year ago and was expected home again about the 1st of June, suddenly got drowned while on the drive in Wisconsin U. S. A.

The Sunday School has again opened with quite a number in attendance. Mr. Chas. Simpson as Superintendent, Mrs. A. Stanley and Miss de St. Croix as teachers.

We'll join in wishing them success.

Ask for Minard's and take no other.
