This is regarded as a very satisfactory condition indicative of the solidity of the city's growth. ity of the city's growth.

30 Permits in August.

Equally satisfactory features are reflected in the building permits is-sued since the beginning of this month. Although permits have been issued on only three days, owing to a Sunday and Civic Holiday inter-vening, the total has already mounted to \$63,850, representing 30 permits. The largest of these was for al-terations and additions to the Wort-NO LORD'S DAY ley road Baptist church, estimated to cost \$12,000. With a few very minor exceptions all the other permits are for new residences, three of which will cost about \$12,000 each. Build-ing for the remainder of the season promises as a result to be very brisk, and inc dentally the fact that so many people are evincing enough faith in London to build substantial homes here is the finest kind of evidence that the city is progressing and growing in a healthy manner.

Realtors Confident. Already more stable than a year ago, the local real estate situation is further strengthened by insistent talk of a new hotel and a new city talk of a new notel and a new city hall, according to Sam D. Rev. R. E. McAllister Reads Report of Progress Made in This City.

Business sessions of the Pentecos tal assembly, eastern conference, be gan in earnest this morning at the Pentecostal assembly hall, Dundas street, G. A. Chambers, Kitchener president of the general conference is presiding at the assembly here which is attended by more than 80 delegates from Ontario, and other eastern provinces.

Reception of the report of Rev. R E. McAllister, London, secretarytreasurer of the eastern conference and secretary of the general conference, and discussion as to the formation of a Pentecostal Bible school for the training of ministers in the dominion took up the time of the con vention this morning.

Rev. H. E. Ward, Toronto, discusses the subject, "Workers, Old and Young," this afternoon, to be followed by a round table talk, while this evening, Rev. C. E. Baker, Montreal, will conduct a special divine

healing service.

Tomorrow's program calls for general business at the morning session, a talk on foreign missions by Mr.

McAllister in the afternoon and an McAllister in the afternoon and an address by Rev. A. E. Stuernagel, St. Rose, Cal., at the evening meeting. Bible School Talked.

'Tis "Civic Holiday"

Time's passing hand has brought again "Civic Holiday";

So friends to friends, with happy hearts, Have speeded on their way.

We miss our friends, on visits gone,

And hope that, from above, Rich showers of blessing may descend

On those we dearly love. How gladly do we journey oft

Our most esteemed to meet

Our own beloved we greet! Again, as in the days of yore, Dear voices now I hear, Which sweeter are and e'er shall be

Than music to mine ear. Some loved ones who've been long away Are now with me'at home; So, in the gladness of my heart

I lilt this little poem. Yet. I'm reminded oftentimes.

When comes a holiday,

That friends, whom I have learned to love From earth have passed away. The bliss to meet some living friends

This day I cannot know, For they can neither come to me Nor I to them can go.

By fate true friends may sometimes be In places far apart;

Yet, love can deftly span the miles Till heart communes with heart.

Then, through the day, and in their dreams True ones rejoice and know

That 'tween them friendship's golden ties Shall stronger ever grow

Then be our dearest ones at home Or in the far away,

Who e'er can rob us of their love On "Civic Holiday"?

A Cabinet Range For Small Kitchens

THE Moffat model we recommend I for the small-sized kitchen is our "E-36.F". The body of this range is only 41 inches and takes up a floor space $42 \times 251/2$ inches. It has everything a woman longs for—deep, one-piece, Electra Porcelain Enamel 20-inch oven, big enough to take a large turkey. Moffats Heat Deflector (patent applied for) is a new feature which insures an even heat in every corner of the oven, front and back.

Every surface exposed to grease splashes, steam or the fumes of cook ing food is coated with hard, shiny electra enamel, including the inside walls of the oven. The terminal switch handles are right at hand, plainly marked. The range is wired on the soundest and surest electrical

principles. The elements are of the quick-heating and durable type for which Moffat Ranges are famous. It has four cooking elements in the onepiece table top, one of 1,700 watts, and the temperature of each is controlled at three degrees of heat, by an indicating switch. Total maximum capacity of range 70 amperes. The Moffat elements are economical of

This range has a 660-watt electric outlet for the Electric Iron or any other Electric Appliance. And many other features.

Your electric dealer wants to help you choose the range that suits your purposes best. Let him show you the good points of them all and then compare the Moffat "E-36.F". Would you like our catalogue? Write us a card today. Moffats Limited Weston, Ontario.

The Pangs of Hunger By THORNTON W. BURGESS.
There is a saying that troubles never come singly. Danny Meadow Mouses says he doesn't mind how many troubles come, if they only come one at a time. But Danny, sitting on a raft, which was nothing more than an old board, was in a way a prisoner in the Smiling Pool. That raft of his was caught in the rushes at the upper end of the Smiling Pool. Along one side of it lay a great big pickerel, which you know is one kind of fish. Just a little off on the other side was floating Snapper the Snapping Turtle. OLD NAME IS KEP BY IRISH SOCIETY

Philip Pocock Leads Fight Against Change—Suggestion Is Dropped.

No change will be made in the name of the Irish Benevolent Society of London, as had been contemplated. At last night's meeting or the executive of the society disapproval of any change was voiced in strong terms by Philip Pocock, who favored the retention of the old name because of age-long traditions and also because of the fact that the society had been incorporated under that name, and to change it now would involve legal and other difficulties. Mr. Pocock's advice was taken to heart by the executive, and no vote was taken on

the question.

Delightful Parochial Affair Is is visiting friends in Embro. Enjoyed by Many Guests.

A gay scene was the lawn of St. Mary's church, Lyle street, last night, when a large number of guests enjoyed the hospitality of the congregation at a successful parochial garden party, of which Rev. Father Chisholm assumed the responsibility of general convener.

With fairy-like decorations in rainbow colors as a background, those in attendance enjoyed roaming about. chatting with friends, buying at the various booths or enjoying cooling refreshments, which were served on

the grounds With much artistic taste the booths were arranged and decorated. Women of the church were in charge of the various stalls. Are modern parents failures as

Of course, the ayes have it.

We have all heard this a thousand times. Probably we have added our voice to the chorus of condemnation of the young of today and the glorification of the parents of yesterday. But when you come to think it over, is there any truth in it? Did the old, stern school of child-rearing fit the child better for life than the modern lax method of childrearing does?

In former days the rod was almost Mrs. Reid and her two daughters, the Misses Margaret and Jeanne Reid of New York are paying a visit with gan of our grandparents, and especially of our great-grandparents. For wee son, Walter, of Colborne street, have returned to town from an endles of fear were beaten by fathers and mothers who worked off their temper and their nerves on defenceless creatures too weak and feeble

> Small, indeed, must be any one's knowledge of human nature when you think that you can lash virtue into a child with a whip or that by that means you can teach it to be anything but a coward, and a liar, and a sneak, and poison its whole soul by bitter and vengeful thoughts. A child would be an idiot who wouldn't instinctively protect itself by lying when it knew that it would be beaten if it told the truth. And it would be an angel if somewhere in its memories did not always rankle a contempt for the grown man or woman who would strike a little child and an unforgiving sense of the in-

justice that had been done it. Besides, physical fear lasts such a little while. So soon a child is able to fight back, and then if the parents have established no authority over it except dread of the rod, their hold upon it is gone. Certainly it seems to me that the modern parents who rule their children by love and reason and not by fear have a far stronger influence than the old thrashing parents

The parents of the past put great emphasis on obedience. They considered themselves absolute rulers of James Thomson, Orillia; Miss Helen Miss Lorraine White has returned their children's lives. The child was given no voice whatever in deciding its own fate. Father selected the careers his sons were to follow and picked out the husbands for his daughters. And if they dared rebel daughters. And if they dated the pastor of Zion Lutheran church, of against his autocracy, out of the Miss Dorls Irene Tugela Taite, of

Fans Liked It.

The majority of the fans had never seen a pro tilt before, and taking the game as an example they chould be well satisfied. It was a real tussle that had plenty of thrills, as well as a laugh or two. Two-Gun Pete Harris provided most of the latter with his antics on the coaching lines, and had the fans in kinks most of the time. They also saw the bad side of the game in the ninth inning, when both Calbert and Carlin were chased for protesting Umpire Kober's decisions behind the plate. However, the rest of the game rather offset this little incident and no really bad opinions were formed. New York, Aug. 5—Wall Street, Noon.
—The rapidity of the advance in many Issues invited profit taking and bear selling, which brought about considerable irregularity, but failed to halt the main upward movement of prices. Ischulte was hammered down 3% points to a new low for the year at 195, and American Can slipned back three points. to a new low for the year at 105, and Amaconda 415, 425, 417, 423 Amarican Can slipped back three points at the motor accessories, American Bosch magneto being lifted three points and Stewart-Warner speedometer 2½. Atlantic coast line, which had yielded two points to 180 under the pressure of realizing sales, rebounded to 187½, a new top before noon, and Dupont reached a new high at 20½. American Brake Shoe jumped 5½ points, and Porto Rican Sugar 3. Call money renewed at 4½ per cent | Stewart-Warner | Ches. | All | Stewart-Warner | Ches. | Ches

Hay is in demand on the local market at \$15 to \$17 per ton. Only two loads were weighed on the market this morning, and both brought the top price. The farmers are busy harvesting their oats, it was explained, and this accounts for the scarcity.

Oats were scarce today, but four loads were sold yesterday at current prices.
The mills are fairly well supplied with wheat at the present time, and the demand is therefore slow.

Raspberries were slow on the market yesterday, one local firm buying several loads in the atternoon for 16c a box, grates returned. crates returned. Insp Copper Inter Nickel Int Combustion . Ind Oil and Gas

CHICAGO

Associated Press Desnatch.
Chicago, Aug. 5.—New upturns in the price of wheat today developed in connection with assertions of a material improvement of export demand, together with enlarged business with domestic millers. Persistent European buying of future deliveries was also said to be in progress, and there were further pessimistic crop advices from Canada. The opening was followed by a moderate general setback and then by an upturn that lifted September to \$1.61½. After opening, the corn market made a little further gain in some cases and then receded all around to well below yesterday's finish.
Oats started unchanged to %c higher, September, 43c to 43½c. Later the market became easier.

BUTTER AND EGGS

Associated Press Despatch.

New York, Aug. 4.—The raw sugar market was firmer today, with prices 1-32c higher at 4.30c, duty paid. Sales included 49,000 bags of Philippines to outport refiners at 4.30c and 28,000 bags of Philippines at 4.36c, due to arrive in October. After declining 1 to 3 points as a result of commission-house selling, raw sugar futures firmed up on covering and trade buying, in sympathy with the steadier tone of the spot market. The close was unchanged to 1 point net higher, September 2.55, December 2.71. March 2.18, May 2.87.

No improvement was noted in the demand for refined sugar, although withdrawals again were of liberal proportions. Prices were unchanged, at 5.20c to 5.40c for fine granulated.

FINAL PROPOSALS BEING SUBMITTED

British Empire Steel Corporation Must Decide Definitely Today.

Canadian Press Desnatch. Hallfax, Aug. 5 .- The "final proposals" of the Nova Scotia government for a settlement of the provincial coal fields tie-up, five months old tomorrow, are today before the British Empire Steel Corporation directors in Montreal, and the 12,000 members of district 26 of the United Mine Workers, for acceptance or rejection. The corporation directors are meeting for the presentation by the president, Roy Wolvin, of the terms which Premier E. N. Rhodes submitted to him at the close of the tri-

partite conference which closed here n Friday last.
The mine workers are voting in a plebiscite, with a recommendation before them by their district board that they accept the proposals. The board, in recommending acceptance, points ou that the terms, providing as they do for a six months contract, pending a com-plete investigation of the industry, do not prejudice the cause of the miners.

which will be submitted to the com-mission of inquiry. The interim contract would have a 1922 wage scale, or 6 and 8 per cent below that of 1924, and the 1924 working conditions. The government would rebate one-fifth of its coal royalties, and a referendum will be held by the government to determine whether or not the check-off system, by which the corporation collects union dues, should be continued. The latter question was own of the stumbling blocks of negotiations for a settlement, the corporation wishing to abolish the check-off and the miners wishing to retain it. If corporation and miners decide today in favor of the government's proposals, it is expected to be only a very short time before they will be put into effect. check-off referendum would be held

Situation Considered Hopeless, So Owners and Miners Give Up Trying To Avert Tie-Up Through Conference—Lewis Is Accused of Deliberately Wrecking Parley When He Refuses To Negotiate Further.

MEN DECLINE TO ARBITRATE DIFFERENCES

Associated Press Despatch.

Atlantic City, N.J., Aug. 4.—The anthracite wage scale negotiations were broken off at an early hour tonight, and the threat against America's fuel supply was thereby aggravated. The motion to adjourn sine die was proposed by C. J. Golden president of district 9, United Mine Workers, was seconded by several operators and passed by the joint committee. The conferees reported they were in complete disagreement on the miners' demands, and that further negotiations appeared useless.
