Session by a Speech.

The House of Assembly having withdrawn, His Excellency was pleased to retire. PRAYERS.

The Honorable the President informed the House that he was in possession of a copy of His Excellency's Speech, which he read and is as follows:—

"Mr. President, and Honorable Gentlemen of the Legislative Council, "Mr. Speaker, and Gentlemen of the House of Assembly,

- T the close of the last Session of the General Assembly I had to express to you the regret which I felt at the loss of the Appropriations. This feeling has since been very much increased by the Petitions I have received from many of the Counties, representing the inconvenience and distress likely to arise from this unhappy circumstance, which, if not remedied, will create difficulty and embarrassment in every branch of the public service, and cannot fail to prove particularly discouraging to the poor classes who derive benefit from the expenditure of the public Monies, which the bounty of the Legislature is accustomed annually to distribute throughout the Country.
- "The earnest solicitations contained in those Petitions that I should reassemble the Legislature at an early period, for the purpose of relieving the Country from the anticipated evils, have alone induced me to call you together at this unusual and inconvenient season. If, however, you should deem it expedient to confine your proceedings to this single object, your absence from your homes need not be of any long duration.
 - "Mr. Speaker, and Gentlemen of the House of Assembly,
- "I rely upon your liberality and zeal for the public good, to make such Appropriations as the public service requires.
 - "Mr. President, and Honorable Gentlemen of the Legislative Council, "Mr. Speaker, and Gentlemen of the House of Assembly,
- "I earnestly trust that a spirit of wisdom and moderation will guide your deliberations to such a result as will promote the welfare of the People, advance the interests of the Province, and thereby afford the most solid and lasting satisfaction to your own minds."

ORDERED, That a Committee be appointed to draft an Address to His Excellency the Lieutenant Governor, in answer to His Speech.

ORDERED, That the Honorable Messrs. W. II. Robinson and Saunders be appointed the Committee for the above purpose.

"Anxious

"Anxious as We are to confine our attention to the object which induced your Excellency to call us together at this unusual season. We trust no obstacle will oc-

cur to retard us in the immediate despatch of the business before us.

Downing-street, 30th March, 1834.

SIR.

HAVE the honor to acquaint you that His Majesty has not been advised to confirm an Act passed by the Legislature of New Brunswick in 1832, entitled "An Act to provide for the Custom House Establishment in New Brunswick."

The enclosed letter from the Secretary to the Treasury, with the report by which it is accompanied from the Commissioners of Customs, will explain to you the grounds on which His Majesty's confirmation of this Act is withheld. I have no doubt that the deviation of the House of Assembly from the course which was expected in consequence of its Address of the 1st of March 1831, has been unintentional; and that the House will readily supply the defects which are pointed out in the annexed papers. You will therefore transmit to the Assembly by Message, the present Despatch with its enclosures, and will state to them the confident expectation of His Majesty's Government, that they will substitute for their recent measure a Bill making an effectually permanent provision for the Custom House Establishment.

I have the honor &c.

(Signed) E. G. STANLEY.

Treasury Chambers, 15th March, 1834.

SIR.

I am commanded by the Lords Commissioners of the Treasury to return herewith the Act of the Legislature of New Brunswick, submitted to this Board in your Letter of 3d of November last, and also to transmit a copy of a report of the Commissioners of Customs of 7th instant thereon, and I am to request that in laying the same before Mr. Secretary Stanley you will call his attention to the terms of the Address to His Majesty from the House of Assembly, dated 31st March 1831. to which this Act is stated to have reference, and to the communication from this Department to Lord Howick of the 4th January 1832, and will observe to him that my Lords cannot by any means consider that the provisions of the present Act fulfil the pledge given by the House of Assembly in that Address "to make a permanent grant to His Majesty of £4,250 Sterling per annum, for the payment of the Officers of Customs, either in gross or in such other way as His Majesty might direct, payable annually out of the duties received by virtue of the Acts of the Imperial Parliament, in the event of all such duties being paid over to the Treasurer of of the Province." My Lords cannot consequently recommend that the Act should be approved of, or should be permitted to pass into a Law, more especially as it has been a paramount object in the arrangement made with the Legislature of other Colonies, to secure a permanent provision for the payment of the sum to be contributed from the Colonial Funds towards the expenses of the Customs Establishments.

The desire of my Lords to bring the question of the provision for the payment of the Customs Establishments in New Brunswick, to a distinct and amicable settlement, was sufficiently evinced in the readiness with which they acceded to the proposal in the Address of 31st March, 1831, and to the immediate directions they gave for carrying that proposal into effect, so far as related to the relief of the Colony from all charge for the Customs department, exceeding the amount of the proffered contribution, without awaiting the passing of an Act by the Legislature.

My Lords would suggest that the Lieutenant Governor should be instructed to call the attention of the House of Assembly to this circumstance, and to the unequivocal terms in which the offer of the permanent provision of £4,250 per annum, specifically charged upon duties accruing under Acts of the Imperial Parliament, was made, and to express to the House the confident expectation of His Majesty's Government, that the Legislature of New Brunswick will not hesitate to redeem the

pledge thus distinctly given and unreservedly accepted.

MAY IT PLEASE YOUR LORDSHIPS,

Your Lordships having referred to us the annexed letter from Mr. Hay, transmitting by desire of Mr. Secretary Stanley an Act which had been framed by the Legislature of the Province of New Brunswick, in the month of March 1832, entitled "An Act to provide for the Customs Establishment of New Brunswick;" we report.

That your Lordships were pleased by Mr. James Stewart's letter, dated 4th January, 1832, to acquaint us, that with the view of relieving the Province of New Branswick from some portion of the annual charge of £7,144 for maintaining the Customs Establishments in that Province, you had acceded to a proposition which. had been made by the House of Assembly in an Address to His Majesty, wherein they propose to make a permanent grant £4,250 per annum towards defraying the expenses of Customs Establishments at the Perts of St. John, St. Andrews, Miramichi and their dependencies, such grant to be made either in gross or in such other way as His Majesty might direct, and payable out of the duties secured by virtue of the Acts of Imperial Parliament: your Lordships at the same time desired that we would instruct our Officers at New Brunswick to retain in each year, out of the. Revenue which might be collected by them, the sum of £4,250 for the payment of the salaries and expenses of the Customs Department, and to draw Bills on the Receiver General of this Revenue for such further sums as might be necessary for that purpose; and the necessary directions were accordingly issued by us to the Collectors and Controllers of this Revenue in New Brunswick.

That by the Act of the House of Assembly of New Brunswick which your Lord-ships have been pleased to refer for our consideration and report, and which proposes to have been passed for the purpose of carrying the aforegoing proposition into effect, it is provided that there should be annually included in the estimate for the

Ordinary

Ordinary Services towards the support of the Custom House Establishments in the Province the sum of £4,250 Sterling, out of the monies arising from the duties which might be collected in that Province within the year for which such annual appropriation should be made, the same to be applied by the Lieutenant Governor or Commander in Chief for the time being, and paid quarterly by Warrants of His Excellency, by and with the advice and consent of His Majesty's Council in the Province, in twenty days after the payment over and account exhibited of such duties by the principal Officers of Customs; upon which we have to observe, that the proposed enactments appear to be entirely opposed to the principles which governed your Lordships in acceding to the proposition which had been made by the House of Assembly at New Brunswick, in as much as your Lordships in acceding thereto intended that the grant of £4,250 should be the first charge upon the duties collected by the Officers of this Revenue in the Province, and be retained therefrom in quarterly proportions of £1,062 10s. for the purpose of being applied towards detraving the expenses of the Customs Department of the Province, whereas by the Act above referred to, the total amount of duties collected is required to be paid over in the first instance to the Receiver General of the Colony, and no part of the grant of £4,250 can be issued from the Colonial Treasury until twenty days after the Collector and Controller shall in each quarter have paid over and accounted for the total amount of duties received by them within that period, and then only under the Warrant of the Governor with the consent of His Majesty's Council in the Province.

We beg leave further to state, that in the event of the annexed Bill being passed into a Law, the greatest inconvenience would arise to the public service, in as much as the Collector of St. John, would be under the necessity of sending his Accounts' to the Colonial Secretary who resides at Fredericton, which place is ninety miles distant from St. John, before he could obtain the Governor's Warrant of payment upon the Colonial Treasurer resident at St. John, and the Collector of St. Andrews would in like manner, and for the same purpose, he required to send his Accounts to Predericton, from which place St. Andrews is one hundred and fifty miles distant, and having obtained the Governor's Warrant for payment, it would be necessary for him to proceed to St. John a distance of sixty miles, before he could obrain payment of the amount from the Colonial Treasurer, who as before stated resides at that place. Under the foregoing circumstances, we beg leave to offer our entire concurrence in the opinion expressed by Mr. Secretary Stanley, that should the Act be confirmed, the Officers of the Customs in the Province of New Brunswick would still be dependent upon the annual votes of the House of Assembly, no specific fund under the direct control of His Majesty's Government having been appropriated to the payment of the Officers' Salaries; and as the annual grant of £4.250 cannot in our opinion be considered as a permanent provision within the meaning of your Lordships' minute transmitted to us in Mr. Stewart's letter of 4th January 1832, for defraying the expense of Custom Establishment of New Brunswick, we cannot recommend that His Majesty's assent should be given to the R. B. DEAN; Bill in question.

.No. 3.

[See Journal 26th January, 1835.]

Extracts from a Despatch from the Right Honorable the Secretary of State for the Colonial Department, dated Downing-street, 5th October, 1834.

Legislature and Inhabitants of several of the Colonies in North America, respecting the internal Postage in that part of the British Dominions, have not failed to attract the serious attention of His Majesty's Government, and I have now the gratification to send you an Act passed in the late Session of Parliament, which I hope will prove the means of settling this important question, to the satisfaction of all parties. The Act provides that so much of the Statute 5 Geo. 3, c. 25, as authorizes the taking of certain rates of Inland Postage within His Majesty's Dominions in North America, shall be repealed from the time when His Majesty's consent shall be signified to Acts of the Provincial Legislatures, imposing the same or other rates of Postage, and making such regulations for the management of the Post Office by the Post Master General or his Deputies, as to the Legislatures may seem expedient.

"You will observe, that in order to give effect to this Act, certain Bills must be passed by the Provincial Legislatures, and receive the Royal Assent; and I need scarcely add that to establish a practicable system, it is essential that a uniformity of view should pervade their Bills. His Majesty's Government, therefore, in order to secure those important conditions, has thought it best to direct the preparation of one common Bill to be submitted to the Legislative Council and Assembly of each

Colony affected by the present measure.

"I have the honor to inclose the draft thus prepared, which you will cause to be brought before the Assembly. You will, at the same time, assure the Assembly, that the Bill has been framed with the most anxious deliberation on the part of the Post Master General and my predecessor, and with the most minute attention to

every detail which it embraces.

Accounts of the Post Office Revenue and Expenditure in each possession in North America, and when the Accounts were blended no mode of distributing the surplus Revenue appeared to be free from scrious objection, except to apportion it according to the gross amount of Postage collected within each Colony. A provision therefore, to this effect, has been made in the Imperial Act of Parliament. In order however to admit of any other plan which might be preferred by the Provincial Legislatures, a power has been left to them to alter this clause by local enactments. I should scarcely anticipate that at the present time any more eligible expedient is likely to be suggested than the one adopted by the Imperial Act; and as any alteration of it could not be carried into effect until agreed to by each separate Legislature, it is perhaps to be wished that, at any rate for a period sufficient to try the remainder of the proposed measure, the provision made by Parliament on this point should remain untouched.

"I shall now proceed to offer a tew explanatory remarks on the Bill proposed to

the acceptance of the Legislative Council and Assembly of New Brunswick.

"The projected Tariff of Postage effects a considerable reduction upon the existing Rates, more especially in the longer distances. The tendency of this arrangement to encourage intercourse between the more widely separated portions of His Majesty's extensive Territory in North America will not fail, I feel assured, to meet the approbation of the Legislative Council and Assembly. In settling the scale of postage His Majesty's Government has been guided in a great measure by the report of a Committee of the House of Assembly in Upper Canada, which sat about three years ago, and which is understood to have founded its recommendation chiefly on the rates of charge in the United States.

"In the important matter of the charges on the conveyance of Newspapers and printed periodical Works, His Majesty's Government has not been unmindful of the representations which it has from time to time received of the wishes of the people in British North America: a rate of Postage is proposed in the present Bill which is little more than one half of the rate charged in the United States, and which is as low as it could be unless the papers were conveyed for nothing; a course which might render the amount of business in the Post Office perfectly unmanageable.

"It will be observed that the Bill confers on the Deputy Post Master General the power of determining, with the concurrence of the Government and the Executive Council, what shall be deemed a Newspaper, printed Vote, &c. within the meaning

of the Act.

"This power is designed to spare the necessity of tedious actions in Law to ascertain doubtful points, and is conformable with a power which has been given to the Post Master General in this Country, in concurrence with the Lords Commis-

sioners of the Treasury, by the late Act 4 and 5 W. 4, c. 44.

"I have now to draw your attention to a very important part of the Bill:—Should the Post Office Revenue prove unequal to the expenditure, it is obvious that there must be some immediate means of supplying the want, a temporary deficiency in the Post Office Revenue, however short, must be attended with the most serious inconvenience, as affecting a service which could not stop for a day without injuring the Commerce, and confounding the general transactions of the whole Country. Impressed by this view His Majesty's Government has determined, with a full sense of the magnitude of the discretionary authority which the measure will place in the Governor, to propose a clause authorizing him to grant a Warrant for any sum within certain specified limits, which may be shewn to his satisfaction to be necessary for the conduct of the Post Office Department.

"In considering the limits to be assigned to this authority in each Colony, the Government has been guided by the following portions of a report from the Deputy

Post Master General at Quebec.

"The Deputy Post Master General of British North America supposes, upon a rough estimate, that the deficiency in Receipts, to meet the current expenditure in the management of the Post Office Department, may amount to even as much as £6,000 per annum, and he states that without some certain means of obtaining that, or any less deficiency, the business of the Department would come to a stand still, and the framers of the Law would be upbraided for not having provided against such a contingency. Calculating the supposed deficiency at the maximum of £6,000

£6,000 he proceeds to state that the following sums correspond pretty nearly with the proportionate amount of postage business transacted within the Provinces:

| Lower Canada, | - | - | | - | - | | £2,000 |
|-------------------|--------|---|---|-------|------------|-----|-----------------|
| Upper Canada, | - | | - | | • | _ | 2,000 |
| Nova Scotia, | | - | | - ' ' | - | | 1,200 |
| New Brunswick, | - | | - | | - ' | - ' | 600 |
| Prince Edward's I | sland, | - | | - | - | | - 200 |
| | | | | | en i | , | 2, 5, 1, 2, 9 1 |

"Conformably with the foregoing report, £600 is proposed as the extent to which the Officer administering the Government may issue Warrants on account of the Post Office in New Brunswick.

"It is contemplated to attach the privilege of Franking to Seats in the Council and Assembly, in imitation of the right enjoyed by the Members of the two Houses of Parliament in this Country. I hope that this provision will be desirable to conter on individuals who form part of the Legislature of the Country.

"In carrying into effect the amendments in the old Law of 5 Geo. 3; cap. 25, His Majesty's Government would have preferred after having passed the necessary Iniperial Statute, to have left the subsidiary Provincial enactments to the discretion of the different Legislatures. But it was felt that the efficiency of the measure depended almost entirely on an uniformity of Legislation in the several Provinces; and this could only be accomplished by preparing in this Country a draft of the Bill which the Imperial Act would render necessary. The only objection to this course has been that it might be construed into an interference with the deliberations of the Provincial Legislatures, which it is desirable to leave on all occasions free and unshackled. I should hope however that in a question of this nature, there is no reason to fear such an objection.

"I think it will be desirable that you should endeavour to impress on the Assembly the necessity of their abstaining as much as possible from amendments destructive of the uniformity of the Bill. There are some clauses, nevertheless, which are left wholly for the decision of the Colonial Legislatures. I allude to the punishments to be inflicted under the Act. His Majesty's Government have felt great delicacy in offering any suggestion on these points; and it is perhaps the most satisfactory course to leave them to the consideration of the Assemblies themselves, who will, I doubt not, devote to the subject that mature deliberation which its importance demands.

"It is of course necessary that all the Acts passed by the several Legislatures on the present subject should take effect from the same day. The first of January 1836 is named in the accompanying draft in order to secure ample time for the day consideration of the Acts.

"I have the honor, &c., SPRING RICE."

I am directed by the President to acquaint you, that some time ago he received your letter on the subject of Greenwich Hospital money that should have been received by you, as Deputy Receiver, from the Crews of the Revenue Cutters Elizaboth and Defiance; claims which he is much surprised had not been brought forward at the proper time and, not at this late hour.

Upon inquiry, the President has ascertained that Captain Baxter in settling his Accounts for last season did give the Province credit for something of the kind; but the subject cannot now be investigated until the next Session of the Legislature.

I have the honor, &c.

. I have this day had the honor of your letter of the 28th ult. acquainting me by order of His Honor the President that he had some time ago received my letter of the 1. 1th April last, on the subject of Greenwich Hospital money, which should have been received by me as Deputy Receiver, from the Crews of the Revenue Cutters Elizabeth and Defiance claims, which he is much surprised had not been brought forward at the proper fine and not at this late hour, also acquainting methatiffis. Honor had ascertained that Captain Baxtenin settling his accounts for last season, did give the Province credit for something of the kind, but that the subject cannot now be investigated and adjusted till the next Session of the Legislature.

In reply to this communication, I beg leave to acquaint you for His Honor's information that the claims in question were brought forward by me on the receipt of my Commission and the copy of my instructions under which as Deputy Receiver I am authorized to act; and that I can admit of no person's interference as to when these claims should be made but my superiors, by whom I am appointed.

I must also beg leave to observe, that I cannot perceive what the Legislature of this Province has to do with the business. A certain sum of money is voted by the Provincial Legislature as wages to the Crews of the Cutters, and an Act of the Imperial Parliament enacts that Sixpence Sterling per Man per month, the Masters included, shall be paid to the Receiver General of Greenwich Hospital and his Deputies for the use of that Establishment.

This sum having been voted as above by the Provincial Legislature, what further have they to do with the matter? They are not called upon to vote a further sum, the money being at this moment in the Treasury, as will appear from the accompa-

nying copy of a letter from the Deputy Provincial Treasurer.

Lalso beg leave to state that immediately upon receiving my Commission as Deputy Receiver, I applied, in the first instance to the late Captains of the Cutters, and that being informed by them that upon drawing the wages of themselves and Crews from the Treasury they had always left the Greenwich Hospital money in the Treasurer's hands not knowing to whom they should have paid it; it was upon receiving this information, and Mr. Robinson's acquainting me that the statement was correct, that I applied to His Honor on the subject.

I beg also to observe that your letter makes no mention of the Revenue Cutter "Elizabeth," saying only that "Captain Baxter did give the Province credit for something of the kind." I have therefore the honor to request you will acquain me at your earliest convenience whether the account of that vessel is acknowledged

or not.

In conclusion I beg leave to acquaint you, that by my Instructions I have the power of detaining all vessels till the Hospital money is paid, and that I should certainly have detained the "Defiance" till I had received the money instead of allowing her to proceed to Saint John to be sold, had I not understood from Mr. Robinson, that he had no doubt that the subject only required representation. You will also have the goodness to acquaint me whether His Honor wishes your letter of the 28th ult. to be sent Home as his final reply to my application.

I have the honor, &c.

BIR,

By direction of His Honor the President, I have the honor to state to you in answer to your letter of the 4th instant addressed to John Black, Esquire, on the subject of Greenwich Hospital money stated to be due from the Crews of the Revenue

Cutters Elizabeth and Defiance, that whatever money may have been left by those Crews, or either of them, in the Province Treasury, having been merged in the general funds of the Province, nothing can be done respecting it without a special application to the Legislature.

I have the honor, &c.
