Where there is the greatest difficulty, owing to the shallowness of the est difficulty, owing to the shallowness of the mill stream, and its consequent congeniation nearly to the bottom, the machinery is seldom stopped for more than five or six weeks. If the Editor of the Examiner were to visit Montreal this Wister, he would find one of the finest flouring mills on this Continent, with mechanical contrivances so ingenious that the wheat is taken up from the ship's hold by machinery, and never touched by the hand of man till the flour made from it is beaded up in harvels, working throughout the the hand of man till the flour made from it is her most prosperous days.

The Editor of this very paper, the Exeminer, is a man holding office under the Government, and it is a matter of "public notoriety" here, that his superiors, the Heads of Departments, and particularly the Colonial Minister, make just as great blunders, both in speeches and despatches, as he has done in a leading article. Marriage requires the fulfilment of several conditions, in order that it may be really the cause of metunal happiness. Could the well, which covers the origin of domestic wretcheduses, be related and the true outro in every instance disclosed, in how many could it be traced to physical disqualifications and their attendant disappointments. Excesses are shown in figure to the physical disqualifications and their attendant disappointments. Excesses are shown in figure to the gift which, when used in moderation, in fraught with advantage, becomes, when abused, the prolife source of mischief, and of greater or has injury to the constitution and wital powers.

The preticular excesses, on the nature and consequences of which this Treatice professes to dilute, are productive of greater minery to the humaniframe than any other to which it is subject.

This Work commine an accurate and complete accusts of the Austrony and Physiology of the Reproductive Organe, and of their relative conditions in health and disease. Nor are these the sole contents of the work; the means of escape, as well as the nature of the danges, are pointed out in clear and intelligible language. It deservedly requires the elevent intention and study, for what antiquet can be of more inportance than the preservation of leath, and of the physical coupsilition of which every man should be presented as any while suffering from their reservable consequences, analysis contentian four of acquires the deservable physician for relief. Unlike the host of peralmons quaskeries which boast of vegetable ingredients, the LIFE MEDITIES are purely and solely vegetable; and contain neither Expensy, nor Antimony, nor Arsenife, nor any other inherent, in any form whatever. They are entirely composed of extracts from rare and powerful plants, the virtues of which, thought one negatinest pharmacoutical chemists, are altogether unknown to the ignorant pretenders to medical science; and were never before administered in so happily efficacious a combination.

The first operation is to loseen from the coats of the stomach and bowels the various impurities and crudities constantly settling round them; and to remove the hardened finese which soflect in the convolutions of the small intestines. Other medicines only partially cleanse these, and leave such collected masses behind to produce habitual Costiveness, with all its train of ovils, or sudden Diarrhoa with its imminent dangers. This fact is well known to all regular anatomists who examine the human bowels after death; and hence the prejudice of these well-informed men against the quask medicines of the age. The second effect of the VEGETABLE LIFE MEDICINES is to cleanse the kidneys and the bladder; and, by this means, the liver and lungs, the healthful action of which entirely depends upon the regularity of the grant or grants into the heart, being thus purified by them, and nourished by food coming from a clean stomach, courses freely through the veins, renews every part of the system, and triumphantly mounts the hanner of health in the blooming cheek.

The following are among the distressing variety of human diseases in which the VEGETABLE LIFE MEDICINES are well known to be infallible:

ible:

DYSPEPSIA, by thoroughly cleaning the first and second atomachs, and creating a flew of pure healthy bile, instead of the stale and acrid kind; FLATULENCY, Leas of Appetite, Heartburn, Headacke, Restlesences, Ill-temper, Anxiety, Languor, and Melancholy, which are the general symptoms of Dyspopsia, will vanish, as a natural consequence of its cure.

Octiveness, by cleansing the whole length of the intestines with a solvent process, and without violence: all violent purges leave, the bowels control within two days.

Diarrhose and Cholera, by removing the sharp acrd fluids by which these complaints are occasioned, and by promoting the lubricative secretion of the mucous membrane.

Foyers of all kinds. by restoring the blood to a

tion of the mucous membrane.

Fovers of all kinds, by restoring the blood to a regular circulation, through the process of sempiration in such cases, and the thorough solution of all intestinal obstruction in others.

The Lipz Medicines have been known to cure RHEUMATISM permanently in three weeks, and GOUT in half that time, by removing local inflammantion from the suscept and ligaments

of the joints.

Dropsies of all kinds, by freeing and streng ening the kidneys and bladder: they operate a delightfully on these important organs, and he have ever been found a certain remedy for worst cases of GRAVEL.

Asthma and Consumption, by relieving the air-vessels of the lungs from the mucous which even slight colds will consisten, and produces these dreadful diseases.

Soury, Theors, and Invetorate Sares, by the perfect purity which these LAPE MEDITIES give to the blood, and all the humons.

Source the Armetican and Bad Consplexions, by their alterative effect upon the fluid that feed the skin, and the merid state of which occasions all cruptive complexions.

always be cured by one dose, or by two even in the warst cases.

PILES. As a remedy for this most distressing and obstinate maledy, the VEGETARLE LIFE REDIGINES deserve a distinct and emphatic recommendation. It is well known to hundreds in this city, that the former proprietor of these valuable Medicines was himself afflicted with this complaint for upwards of THATT-FIVE YEARS; and that he tried in vain every remedy prescribed within the whole compase of the Materia Medica. He however at length tried the Medicine which is now offered to the public, and he was cured in a very short time, after his recovery had been proposable, by any human means.

PEVER AND AGUE. For this courge of the western country these filedicines will be found a safe, speedy, and certain remody. Other medicines leave the system subject to a return of the disease—a cure by these medicines is permanent—TRY THEM, BE SATISFIED, AND BE CURED.

Testimony of MR. NATHAN MATHEWS. a highly respectable and wealthy citizen of Newark, N. J. Da. G. W. HALSEY:-I believe your Forest Da. G. W. HALSEY:—I believe your Forest Wine and Pills have been the means of saving my life. When I commenced taking them, I laid at the point of death, with Dropsy, Piles, and Astruma. My Physicians had given me over as past cure, and my family had lost all hope of my recevery. While in this deadfal situation, your-Forest Wine and Pills were procured for me, and before I had finished the first bottle of the Wine, and Pills Augustus and Rolls. and box of Pills, I experienced great relief; my body and limbs, which were greatly scollen, be-came sensibly reduced. Hupes of my resovery began now to revive, and after continuing the use began now to revive, and after continuing the use of your medicines for about a month, the Piles and Asthma were completely cured. The Dropsy, with which my life was placed in such great danger, was also nearly gone. I have continued the use of your Medicines until the present time, and I now enjoy as perfect health as ever I did in my life, although I am more than sixty years of age. I aseribe my recovery entirely to the use of your excellent Medicines. Several of my neighbors have also used them with similar success in obstinate complaints, and I can cheerfully recommend them to the public.

THE SALVE, prepared from the original received from a celebrated Turkish Hakim, physician) of Smyrae, in Asia Minor, and which has obtained an unprecedented celebrity in Great Sritain and the East Selles, from the astenishing Gures performed by fin both these countries, has lately been introduced into Montreal. As might be expected, its popularity has followed it, and its use is becoming general among all classes. The Proprietors, prempted by the serg attering reception it has met with in the Metrogolis, have determined an axtending its unsfulness to all other parts of Ganaday, and, for that purpose, have established agancies in all the principal Chies. They fatter themselves that that purpose, have established agencies in all the principal Otties. They fister themselves that when its wonderful properties shall become more generally known, they will meet with that inscouragement which the introduction of such a valuable medicament into accountry justly smitted them.
