## TOWN TOPICS.

"A child's among ye, takin' notes,  
An' faith he'll print it."

If you want to see the name of perfection in photographic art surrounding call upon Geo. Stewart, at his remodelled studio. A GOOD PRESENT.—The most useful gift you can make is to give a Writ Pen. Apply to D. McGillicuddy, agent, Goderich.

The Women's Christian Temperance Union meet in the basement of North-West church every Tuesday afternoon. Prayers meet at 2:30, business meeting at 3.

A number of people were in town during the week with rather extensive purchases, but they had their messengers taken at the Courthouse. If you want to get cheap suits the Sheriff will suit the plaintiff, and in every case go to F. & A. Pridham, the town.

There are upon the full line of self-feeders at Sanderson's. We have on hand a complete stock of stove pipe, stove boards, coal bins and shovels, etc. Also a full line of granite ware. Orders taken for stove piping, and stoves put up on the shortest notice at the cheapest prices under the sun.

I have been often asked why I do not advertise my stoves, etc., etc. My reasons—That I am not like some of the merchants. Through the kindness of my town and county friends, who have given me their patronage, I will keep the Sheriff out. But all those persons that have not settled their year's account, would do the undersigned a favor by doing so.

Julius Caesar had his day, but the empire which he left crumbled away, and we have only a few portraits of the redoubtable Roman general; Napoleon, the later Caesar, also faded from view and his memory survives, but if you want to get something enduring that is an art gallery or picture will stand the test of years, call at H. Sallows' and get your picture taken, or if you have enough photos, bring your large pictures to be framed by him in elegant mouldings.

Mr. A. Waddell returned to town Saturday afternoon, after a season's prospecting in the vicinity of Sudbury. We understand he has struck it rich, and that the syndicate of which he is a member have bright prospects before them. We hope to see the project mature and bring a host of shovels to our townsmen, who has been indefatigable in his efforts to develop the scheme.

The stone steps for the new post office are being prepared, and will soon be erected.

The electric lights which have recently been placed on the bridge bill lights the road from the railroad bridge to the village of Salford. It has been pronounced a great accommodation for those using that road after dark.

AN IMPORTANT IMPROVEMENT.—The new Soft Stop and Practice Pedal attachment to a Newcomb Upright Piano serves the nerves of the listener or performer, when practicing, as well as the instrument from rust, and preserves the tone.

The Exchequer Court case, Hawley et al. v. the Queen, was on Friday referred to H. Munn, Drombo, one of the official referees of the Court, to institute an enquiry to fix the value of the land expropriated for the extension of the Goderich lighthouse.

THE NATIONAL THEATRE.—This company, which comprises a brilliant array of talent, will appear in the Grand Opera House on Thursday, Oct. 25th, with a select entertainment, consisting of the choicest vocal gems in national minstrelsy, comprising songs of England, Ireland, Scotland and Canada. The program will be interspersed with choice music and dramatic and humorous renditions. The company also has the services of a clarinet and xylophone soloist. Admission 25 and 35 cents.

BOOMING AHEAD.—The most casual observer cannot fail to note that during the past year Goderich has bestirred herself and made most creditable progress. Perhaps, in all our town, however, improvement has been nowhere more remarkable than in the Albion Block Drug Store, W. C. Goods proprietor. Ever since his acquisition of the business, and the 1st of March last, improvements to the store as well as increase of stock have been constantly going on, the last improvement being somewhat of an innovation, in the addition of a neat sitting room, comfortably furnished, which is to be used as a consultation office, free to all physicians and their patients. Patrons may thus rest here in comfort while the medical attendant is summoned by telephone to consult with them. Physicians and others are invited to call and inspect.

SAD ACCIDENT AT A FISHING STATION.—News has been received from the fishing station operated by our townsmen T. B. Van Every & Co., giving particulars of a lamentable occurrence which happened there on Thursday morning of last week. Two of the fishermen named Harry Duprez and John Paulmart went to the peninsula, about ten miles from the fishing station, and stayed over for the night.

In the morning on their return home they brought a companion with them who was known by the sobriquet of "Curly." Hardly had they been out of Peninsula Bay, on the return trip, when a sharp squall arose, and in some way the men lost control of the boat, which capsized, and Duprez and "Curly" were drowned. The people at the Peninsula saw that the boat was in trouble, and set out to rescue the crew, if possible. When the rescuing party arrived Paulmart, who had contrived to cling to the boat, was saved, although in an unconscious condition, but his companions were lost, and their bodies were not recovered until Saturday last. So exhausted was Paulmart, that he was not able to give any tangible reason for the capsizing up to the time the information concerning the accident left Port Colborne, the fishing station. Both Duprez and "Curly" were married men, with families, while Paulmart was unmarried. The sad event has cast a gloom over the whole section, where the men were widely known.

Capt A. Draw, of the Seaforth contingent of the Salvation Army, and favorably known in Goderich, visited her friends here on Wednesday and Thursday.

The Goderich baseball club purpose holding their second annual ball on Wednesday, Nov. 6th, in the Palace roller rink. Negotiations are now going on for the engagement of the London harpers. Further particulars in a future issue.

Orange Lodge No. 182 will attend divine service in Victoria-st. church, on Sunday morning, Nov. 3rd. Rev. B. L. Hutton will preach the sermon on the occasion. An invitation is extended to outside brethren to meet at the lodge room and march to the church.

We understand the estate of the late Mr. W. J. Campbell, of Toronto, and Geo. Rhyas has secured the services of the business. Mr. Campbell comes to Goderich well recommended, and will, we believe be a valuable acquisition to our business community.

On Monday last nominations were held for the position of councillor in St. George's Ward, made vacant by the death of the late Alex. Morton. Mr. Wimmer Smith was nominated by H. Dunlop and O. W. Andrews, and Mr. E. Campion was moved and seconded by F. Jordan and John Robertson. Election Monday next.

Mr. Henry Perkins was one of the callers at the Signal office during the week. He is a solid, square-toed, all-wood and yard-wide Dory, but all the same he is a genuine hearty fellow, and has as many friends on the opposite side as any Tory in the Province. THE SIGNAL is always glad to meet its old friends, even when they sail under a different political banner, and Mr. Perkins is one of those whom we always enjoy a crack with. He is a man of weight, physically and particularly in the thriving little town of Goderich.

CHANGE OF BUSINESS.—We understand our townsmen, Mr. A. E. Callie, who has so successfully conducted the flour and feed business on East-st. for some time past, has become manager of the Auburn flour and saw mill, on the retirement of his father, Mr. John Callie, who will henceforth reside in Goderich. The change thus effected has necessitated a new proprietor for the East-st. flour and feed store, and Mr. Thos. J. Viduan, well and favorably known in connection with that institution for over eight years, has become proprietor. Mr. Viduan is a straightforward and upright business man, and we heartily recommend him in his new sphere to the consideration of our readers.

## THIRD DAY.

Court opened at 9:30 pursuant to adjournment.

PRESENTMENT OF GRAND JURY.

We, your grand jurors, have the honor of making the following presentation to your Lordship:

We have visited and examined the jail according to your instructions, and found therein 7 prisoners, 4 males and 3 females; of the male one is insane, one is a vagrant, under sentence, one is committed for contempt of court and is under sentence, and is waiting trial; of the females 2 are insane, one is a vagrant and is under sentence. The two vagrants are aged and fit subjects for a poorhouse; the 3 insane are aged, and the proper place for them is a poorhouse, as their insanity, especially 2 of them, might more properly be called dotage; the 3 cases of insanity have all been reported by the sheriff, so called they are all waiting removal to the asylum. We found the jail clean and orderly, and the prisoners well pleased with their treatment.

We were pleased to hear your Lordship's charge, in regard to the Prisoners' Aid Association of Canada. The circular handed to us by your Lordship in reference thereto, we have carefully read and considered, and fully endorse every clause contained therein.

We have much pleasure in reporting that the County Council of Huron is in harmony with your Lordship in this subject, and that the council has appointed two of its most prominent members as a committee to co-operate with the Prisoners' Aid Association of Canada. And we trust they may succeed in their efforts, as from observation a proper classifying of prisoners would have much of a moralizing influence, and tend to some extent to the lessening of crime.

We approve of your Lordship's charge in reference to Magistrates' unbecomingly depriving a subject of their liberty, in issuing a warrant, and we are of opinion that a Justice of the Peace should not issue a warrant except in indictable offences, and in no case where the justice has summary jurisdiction except the party refuses to obey the summons.

We would most urgently recommend that a house of refuge, or some more fitting place than a jail, be provided for the deserving and unfortunate poor of the county.

We consider it a matter for congratulation that the criminal calendar is so light, there being only 3 cases laid before us for our consideration.

We cannot close this presentation, without gratefully acknowledging our appreciation of the valuable assistance rendered us in discharge of our duties, by your Lordship, in your very commendable and lucid charge.

We are also indebted to the Crown Counsel, and Crown Attorney, for information they have so cheerfully rendered us.

All of which is respectfully submitted.  
W. J. SHANNON, Foreman.

The case of Girvin v. Burke was continued by agreement by council his Lordship reserved judgment.

The Queen v. Rebecca Hooper—This was the celebrated case of the chesse factory burning at Bluevale, particulars of which were published in THE SIGNAL at the time. After hearing the evidence the judge his Lordship stated there was no more to go to the jury, and discharged the prisoner.

## COMMUNICATIONS.

We do not hold ourselves responsible for the opinions of our correspondents. Contributors to this department, must confine themselves to public questions, and be brief.

## "The Trouble in the Choir."

To the Editor of THE SIGNAL.

At a meeting of the Board of Trustees of the North-West Methodist Church, on the 13th ult., it was moved, seconded and adopted:

"That this Board having read Miss Andrews' communication of Aug. 26th to the quarterly official board, and said letter being referred to this board, we wish in reply to state that we intended no reproach to Miss Andrews nor do we reflect in any way on her character, but we were in such a position that we could not get a choir leader and retain her, and we were thus necessitated to dismiss her, and we wish this to be an answer to her letter of May 24th, 1889."

The reason assigned for dismissal is distinctly untrue, and in the light of the first part seems rather ironical, and I therefore beg leave to give a statement of connecting circumstances as briefly as I can. For several years past I have been dependent for a livelihood on my profession as teacher of music and organist, and as what defines my character, and injures my reputation, affects my means of living, and as my character has been defamed, and my reputation has been injured by certain parties, and I have been refused other means of rectifying these matters, I am reluctantly compelled to adopt this more public means to vindicate myself. Since 1864 until May last I have been organist of North St. Methodist church; for more than ten years I served without a salary. My father was then living and supported me. In 1875 the board of trustees kindly offered to pay me a salary, which they have done ever since, commencing at \$40 per annum. Mr. James Thomson, my friendly and gentlemanly character I always respected, was leader of the choir during the greater part of this time. After he left Mr. S. P. Halls was leader until last year. In Aug., 1888, I received a notice to attend a meeting of the trustees board, but was not told for what purpose. Mr. Halls was present and I was surprised to hear him read a list of charges against me for insubordination, &c., most of them being very trivial. I understood at once that his object was to get the trustees to dismiss, or at least to reprimand me for the violation of a very elaborate set of rules which he drew up (as a trustee informed me) and I replied and explained and gave some reasons, which Mr. Halls admitted were true, why I did not treat him with more respect and courtesy. Being foiled, he tendered his resignation, which was accepted. After this Mr. E. C. Belcher was appointed leader, and under his charge peace and good will again prevailed. In May last, Mr. Belcher tendered his resignation to the board but said he was in no hurry to quit—that he was willing to act for a few weeks, until they got another leader, if they so wished; it was therefore left in abeyance. A few days after this, two members of the board called and asked me to resign. From what they told me I understood that they had asked Mr. Halls to lead the choir, and that he declined to accept with me as organist. I therefore refused to resign. Two days after this, the board had another meeting, and among the communications was one from my mother, to request that before matters were precipitated a fuller explanation should be given; two thought that at least I should know of what I was accused before I was condemned; another was from Mr. Belcher, asking permission to withdraw his resignation. The request of neither of these letters was granted, but on the simple formality of a motion, leader and choir were summarily dismissed or "discontinued with"—for what reason I never learned—nor why the organist was not included; however, at the next meeting she was dismissed for the reason that she refused to resign. The board stated in May last that:

"Mr. Halls had not at any time demanded my dismissal."

I then asked them why I was asked to resign? No answer coming I wrote to the quarterly official board; they referred my letter to the trust board, saying they (Q. O. B.) had no jurisdiction in the matter. On Sept. 13th, they replied as given at first of this letter. If their reply is true, Mr. Belcher did not offer to withdraw his resignation unless I was dismissed. I am assured that Mr. B. Richardson did not make any such stipulation; I know that Mr. Belcher did not. The untruth is altogether too transparent. That Mr. Halls, and he only, made any such objection, I have no doubt. On my part I have not disputed the right of the trust board to dismiss or employ whom they please, but I do protest against the manner in which they have dismissed me, and refuse to give me any opportunity to speak for myself, or even tell me why they so acted. From the chairman of the board

(Rev. G. Richardson,) I did expect fair and impartial treatment; but was disappointed. Instead of doing anything to obtain me a fair hearing, he went to a certain person and said:

"That in Aug., 1888, in answer to a question from him, I had said before the board that what I had said was all I had against Mr. Halls, and now she says she did not tell all at that time, so that she told an untruth then, or is telling one now, and what can I believe from such a person?"

I wrote to him denying that I made that or any such statement in Aug., 1888. He replied, refusing to withdraw, and endeavored to turn the matter aside. I wrote him again but, he designed no reply, and yet I cannot see that he has any more right to violate the ninth commandment than any one else. Further I can prove that I am right and he is wrong in this matter. With thanks for the space granted me in your valuable journal. Yours truly,

EMMA A. ANDREWS.

## DUNGLANNON.

From our own correspondent.

CORRECTOR.—Mr. Thos. Durin, to whom we referred last week as having moved to Goderich from here, has not as yet done so. He is on the look out for a suitable residence.

Jack Frost, for some nights past, has shown himself in no very compromising terms, thereby reminding all concerned to prepare for him.

Still the bronchus come. A number of them passed through our village this week with a view of sale. We understand none of them were sold, as they were a hard looking lot.

COMING.—Mr. R. B. Sallows will give one of his now celebrated dissolving view entertainments at an early date. A good moonlight night will be chosen for the entertainment.

Mrs. Bernard McCabe, of West Wawanosh, having leased her farm property, had an auction sale of stock and farming implements last week. Mr. Purvis, of Kinlough, the popular auctioneer, conducted the sale to the satisfaction of all concerned.

A court of revision of the voters' list will be held in the court room here on Monday, October 28th, at 10 o'clock a.m., for the municipality of West Wawanosh. His Honor Judge Toms will preside. All concerned are to govern themselves accordingly. A court will be held also for the municipality of West Wawanosh on the 29th October, at 9 o'clock a.m.

During last week a sad accident befall a son of Mr. Robt. Trelovan, of Ashfield township, he having fallen from a horse on which he was riding. The horse, being frightened by some means or other, threw him down, which resulted in a fracture of the thigh bone, besides other and gentlemanly character I always respected, was leader of the choir during the greater part of this time. A New Face.—Mr. Gibson, from near Leoburn, has come to our village here among us; and is working for one of our farmers, at his favorite vocation, ploughing. He has few equals in this branch of agriculture at his age.

PRESERVANCE.—This fine

ADIANS Too Hard

Thousands of overworked business men, worried brain-workers, industrial mechanics, and tired women, in all parts of the Dominion are to-day in a terrible position. Their nerves are weak, their heads aching, and they can't live in comfort. This is because of the overwork. Before using Dr. Phelps' wonderful 'Cerebrum Compound,' it acts of overwork, restores vitality, regulates the nerves, and tones up the overworked system. Do not despair, but use this remedy, and be restored to health, the same as was Mr. of Montreal, who writes: 'I had such distress in my stomach and head that I thought I would lose my reason, but on trying Burdock Blood Bitters I derived great benefit. I have used three bottles and am now as well as I ever was in my life. Thanks to your medicine.' Miss Lizzie Douglas, Red-nerville, Ont.

Face and Muscles Curtains. Lace curtains should be soaked over night in a tub of lukewarm water with two tablespoonfuls of ammonia and a little soap. In the morning drain off the water and pour over them fresh water slightly warm; move the lace about carefully, squeeze out gently and put in a third tub. At the last rinse blue in this starch water, pass lightly through a wringer, hang them up, and when nearly dry pin over a sheet stretched on a carpet, or secure in a frame, with a strip of cotton tacked up on the edges to which the curtain is smoothly fastened, then left to dry. Another way is to fasten them to the line by one edge with clothes pins only a few inches apart; then gently pull and stretch them until dry enough to iron. A good authority gives this way of doing up muslin curtains. Wash them carefully, starch and iron while damp, on the wrong side. This restores the appearance of new cloth. When you iron them have the table perfectly covered with a good, thick blanket, and then with a good thick ironing sheet. Lay the curtain on the table straight, and always move the flatiron in the same direction, up and down or backward and forward across the curtain. Do not put your hand under the edge while ironing, as it will give the curtain a ruffled edge which will greatly mar the appearance when hung at the window.

Almost Driven Insane. 'I had such distress in my stomach and head that I thought I would lose my reason, but on trying Burdock Blood Bitters I derived great benefit. I have used three bottles and am now as well as I ever was in my life. Thanks to your medicine.' Miss Lizzie Douglas, Red-nerville, Ont.

Fruit as Medicine. Fresh, ripe, perfect, raw fruit is safe and healthful at all seasons of the year, and amid the ravages of disease, whether epidemic, endemic, or sporadic; general, special or local. Under proper restrictions as to quantity, such fruits as named will cure diarrhoea, aid in removing a colic, cold, fever, or any other disease whose treatment requires the bowels to be kept freely open; for this effect fresh ripe fruit is acknowledged to have the requisite properties, and to be used advantageously in health and disease, the following rules are imperative: Fruit should be eaten ripe, raw, fresh and perfect. It should be eaten no later than four o'clock in the afternoon. No water or fluid of any description should be swallowed within an hour after eating fruit. To have its full beneficial effect, nothing else should be eaten at the time fruit is taken. It is to the neglect of these observances that erroneous impressions prevail in many families, and to an extent too, in some instances, that the most luscious peach or apple, or bunch of grapes is regarded as that much emboded cholera and death.

More Remarkable Still. Found at last, what the true public has been looking for these many years, and that is a medicine which although but lately introduced, has made for itself a reputation second to none, the medicine is Johnson's Tonic Bitters, which in conjunction with Johnson's Tonic Liver Pills has performed some most wonderful cures impure or impoverished blood soon becomes purified and enriched. Biliousness, indigestion, sick headache, liver complaint, languor, weakness, etc., soon disappear when treated by these excellent tonic medicines. For Sale by Good, druggist, Albion block, Goderich, sole agent. [d]

Imperial Lady Linguists. To many of her majesty's subjects it has been known for more than a half century past that our gracious queen is endowed with the 'gift of tongues.' In fact, she is one of the most accomplished linguists among living ladies of imperial rank, the other three being her own daughter, Victoria, the widowed German empress; Marie Feodorovna, the Russian empress; and Elisabeth, the Austrian empress. The venerable sovereign of these realms is absolute mistress of the four European languages—French, German, Italian and Spanish—which are most interesting from a literary point of view. Taking into consideration her strong predilection for the 'Land o' Cakes' and for the Highland people, it is by no means surprising that her majesty should be 'well acquainted with Gaelic,' and we have been informed that, some years ago, she assiduously and successfully studied one of the native languages of her Indian Empire.

Worms cause much sickness among children. Freeman's Worm Powders prevent this, and make the child bright and healthy. Children and Stragglers. Nothing appeals so strongly to the imagination, the sensibilities, the moral nature of a child as a well-told tale, says the Philadelphia Times. They rebel against what is commonly called 'preaching,' but the greatest rebel of them all will yield to the softening influence of a tale that carries its lesson with it. Is not that enough? But the story does more. It broadens their views, cultivates their finer feelings, destroys selfishness, teaches them to appreciate their relations with others and places down the rough places that would fill their lives with friction. Thus much it does to them morally, but it is equally helpful to them mentally. A young mind must have recreation as well as a young body. The story brightens and refreshes it, brushes away the cobwebs that will gather even at a tender age, and fits it to return with new vigor to its more serious work. More than that; it adds to the child's information by acquainting him or her with certain phases of life, with manners and customs that are not taught by mere history. By all means, then, let the children read stories.

Never allow the bowels to remain constipated lest serious evil ensue. National Pills are unsurpassed as a remedy for constipation. Three Wingham boys went into a restaurant recently, and demolished between them a twelve pound basket of grapes. They have decidedly a good taste for fruit.

Hope. A gypsy evangelist has appeared in the West. Says the Cincinnati Enquirer:—'Gypsy Smith broke down all prejudices on Sunday at Trinity Church. He speaks as if composing cable dispatches at a cost of \$1 a word. He has but little use for adjectives. No one can fail to understand him. He has far superior tact to Sam Jones in manipulating a congregation. He uses no slang and is never vulgar. Sometimes like an angel he shoots up a scintillating flame of eloquence, and is always luminous.'

The Tuckersmith council are having a box drain placed along in front of the Harpurhey cemetery so that the side of the road can be leveled off, thus improving the appearance of the place and enabling horses and vehicles to be driven right up to the tie posts on the occasion of funerals.

Chronic Coughs and colds. And all diseases of the throat and lungs can be cured by the use of Scott's Emulsion, as it contains the healing virtues of Cod Liver Oil and Hypophosphites in their fullest form. See what W. S. Mear, M. D., L. R. C. P., etc., Truro, N. S. says: 'After three years' experience I consider Scott's Emulsion one of the very best in the market. Very excellent in throat affections.' Sold by all druggists, 50c. and \$1.00.

How a Dude Caught Cold. A slim young man in the height of fashion was violently sneezing in a street car, when a companion remarked, 'Aw, Charles, dear boy, how d'ye catch that dreadful cold.' 'Aw, dear fellow, left my case in the lower hall to-day, and in sneezing the ivory handle, so dreadful cold, it chilled me almost to death.' 'If Charles had used Dr. Harvey's Red Pine Gum his cold would not trouble him very much, or else at J. Wilson's prescription druggist.

Perils of Overfeeding. Excessive eating is not the most striking or the most widely prevalent fault of the present generation. On the contrary, moderation and even sometimes undue limitation in diet is the prevailing fashion. There is still, however, a considerable number of persons who habitually overeat at meals, and to such a few physiological hints may not be without their value. Dr. Reudon has been at the pains to make some careful investigations on the subject, and his results have recently been published.

Don't Speculate. Run no risk in buying medicine, but try the Great Kidney and Liver regulator, made by Dr. Chase, author of Chase's receipts. Try Chase's Liver Cure for all diseases of the Liver, Kidneys, Stomach and Bowels. Sold by all druggists. The distressing paleness so often observed in young girls and women, is due in a great measure to a lack of the red corpuscles in the blood. To remedy this requires a medicine which produces these necessary little blood constituents, and the best yet discovered is Johnson's Tonic Bitters. Price 50 cents, and \$1 per bottle at Good's drug store, Albion block, Goderich. Sole agent. [b]

Rheumatic Pains. Require no description, since, with rare exception, all at some time have experienced their twinges. Rheumatism is not easily dislodged, only the most powerfully penetrating remedies reach to its very foundations. The most successful treatment known, and it is now frequently resorted to by medical men, is the application of that now famous remedy for pain—Polson's Nerviline. It is safe to say that nothing yet discovered has afforded equal satisfaction to the suffering. A trial can be made at a small cost, as sample bottles of Nerviline can be had at the drug stores for 10 cents, large bottles 25 cents.

After a lingering illness of nearly a year, Mr. Albert J. Phillips, one of the most respected residents of Goderich township, died on Sunday last week from the effects of a tumor. He was born in Whitby township, and has resided on the 6th con. of Goderich township for nineteen years, and a more conscientious and industrious citizen could not be desired. He was a member of the Methodist church, a Reformer in politics, and leaves a wife, two sons and a daughter to mourn his decease. The remains, followed by a large number of persons, were interred in Clinton cemetery, on Tuesday.

HURON SIGNAL

FRIDAY, OCT. 25, 1889.

ABOUT RAILWAY MATTERS

A Port Albert correspondent writes to a Clinton newspaper:

The weather during the past few days has been beautiful, but the cold, chilly winds of November are fast approaching, and our people would be in great danger of taking a very severe cold and the consequences might be very serious, were they not taking a dose of Dan. McGillicuddy's blood and thunder—particularly adapted to cure all railway diseases or blow the engine off the track.

Well, well, well, now I don't tell you so! What a terrible fellow this McGillicuddy is, anyhow! He must have hoofs, horns and bat's wings to judge from the opinions expressed by this and other correspondents on diverse questions.

And to think that all that he has been guilty of has been an advocacy of more united action in regard to the promotion of a railway scheme to Goderich. For the benefit of the ratee Port Albert scribe we would state that THE SIGNAL does not, and has never objected to Port Albert's setting a road, if one could possibly be built; Goderich has not found the people of Duncannon the only foolish action the county town has been guilty of, in that it has been hurriedly in its action for railway promotion.

THE SIGNAL has not abused Mr. Meyer, and does not intend to, but it is a necessary to take issue with that gentleman on his latest scheme, we have a perfect right to disagree with him, if we see fit.

So much in reply to the above quotation, and now for a little straight talk on the question. In our last we stated that "an effort had been made to create an impression that Goderich would oppose any route coming in from Duncannon."

At that time we did not state that Mr. Meyer was the person who had been endeavoring to spread that impression, but since our last issue we have received information that he is the responsible man. We would be both even now to name Mr. Meyer in this connection, were it not for the fact that the Port Albert correspondent tacitly admits that Mr. Meyer has been acting in this matter, for in the

REPORT OF ELECTRIC LIGHT AND WATERWORKS COMMITTEE.

To the Mayor and Council: Your electric light and waterworks committee beg to report as follows:—Since we met last the pipe-laying on the Huron Road has been completed, also the pipe-laying on the Cambridge Road. We put in seven services in various parts of the town. We have built a line and placed an 8 Ampere lamp on the centre of the Maitland bridge hill, for which we received \$100 from the residents of Salford, as a contribution towards the pipe-laying.

This line runs along Cambria road to Nelson-st. The \$100 received has been paid over to the town treasurer. We have made a contract with the Reliance Electric Co., for two 50 light 4 Ampere dynamos, 40 new 4 Ampere lamps and the purchase of 30 new 4 Ampere lamps for the sum of \$1550. Our dynamo and 50 lamps to be shipped on the 15th of November next. We have also made a contract with Mr. P. McEwan to drill an 8-inch hole at the harbor at \$2 per foot.

JOHN BUTLER, chairman. The report was adopted on motion of Nicholson, seconded by Castellan.

REPORT OF PUBLIC WORKS COMMITTEE. To the Mayor and Council: Your public works committee, having considered the petition of Messrs Manger and Lee, would recommend that the matter lie over for future consideration. The communication from Elvidge and McArthur, asking for the use of the building in rear of Belcher's bakery or a loan of \$300 for milk cans, would recommend granting them the use of the building and lot, provided they use the building for the manufacture of wire mattresses, at a yearly rental of one dollar per year, for the space of three years.

With regard to the petition of Robert Mean, asking the council to pay two-thirds of the cost of putting a stone sidewalk in front of his new block on the Square, we would recommend that the prayer of the petition be not granted. With regard to the petition of Samuel Gibson and others to have the willow trees on Bayfield road removed, we would recommend the council to instruct the street inspector to have the trees properly trimmed.

THOS. C. NAFTEL, chairman. Moved by Natfel, seconded by Humber, that the report be adopted—Carried.

Moved by Holt, seconded by Nicholson, that the petition be granted to purchase 25 to 50 cords of wood at a cost of \$3.25 per cord—Carried.

Reeve Proudfoot reported that he had attended the body of the late councillor Alex. Morton as far as Paris.

Moved by Holt, seconded by Nicholson, that the Mayor and councillors Colborne and Holt be appointed a committee to draft a resolution of condolence to be sent to the widow of the late Alex. Morton—Carried.

In pursuance of notice of motion, Proudfoot moved, seconded by Colborne, that clause I of by-law No. 6, 1889, be amended by striking out the word "three" before the word "members" on the third line of said section, and substituting therefor the word "five".

The mayor ruled the motion out of order. Proudfoot appealed from the ruling, and a vote being taken his appeal was sustained. The motion was then put and lost by a vote of 6 to 5.

Councillor Holt informed the council that Miss McIntosh wished her taxes remitted—referred to Court of Revision.

Councillor Natfel informed the council that Mrs. Mountney wanted the town to supply her with wood—left in the hands of councillor Natfel, to report at next meeting.

Moved by Colborne, seconded by Pridham, that the street inspector be instructed to put a new plank sidewalk on the square in front of R. McLean's new block, and with wood—left in the hands of Humber, seconded by Thompson, that the clerk correspond with the clerk of the town of Chatham as to the cost and durability of brick as used for the purpose of laying sidewalks. If the reply is not satisfactory that the street inspector

REPORT OF ELECTRIC LIGHT AND WATERWORKS COMMITTEE.

To the Mayor and Council: Your electric light and waterworks committee beg to report as follows:—Since we met last the pipe-laying on the Huron Road has been completed, also the pipe-laying on the Cambridge Road. We put in seven services in various parts of the town. We have built a line and placed an 8 Ampere lamp on the centre of the Maitland bridge hill, for which we received \$100 from the residents of Salford, as a contribution towards the pipe-laying.

This line runs along Cambria road to Nelson-st. The \$100 received has been paid over to the town treasurer. We have made a contract with the Reliance Electric Co., for two 50 light 4 Ampere dynamos, 40 new 4 Ampere lamps and the purchase of 30 new 4 Ampere lamps for the sum of \$1550. Our dynamo and 50 lamps to be shipped on the 15th of November next. We have also made a contract with Mr. P. McEwan to drill an 8-inch hole at the harbor at \$2 per foot.

JOHN BUTLER, chairman. The report was adopted on motion of Nicholson, seconded by Castellan.

REPORT OF PUBLIC WORKS COMMITTEE. To the Mayor and Council: Your public works committee, having considered the petition of Messrs Manger and Lee, would recommend that the matter lie over for future consideration. The communication from Elvidge and McArthur, asking for the use of the building in rear of Belcher's bakery or a loan of \$300 for milk cans, would recommend granting them the use of the building and lot, provided they use the building for the manufacture of wire mattresses, at a yearly rental of one dollar per year, for the space of three years.

With regard to the petition of Robert Mean, asking the council to pay two-thirds of the cost of putting a stone sidewalk in front of his new block on the Square, we would recommend that the prayer of the petition be not granted. With regard to the petition of Samuel Gibson and others to have the willow trees on Bayfield road removed, we would recommend the council to instruct the street inspector to have the trees properly trimmed.

THOS. C. NAFTEL, chairman. Moved by Natfel, seconded by Humber, that the report be adopted—Carried.

Moved by Holt, seconded by Nicholson, that the petition be granted to purchase 25 to 50 cords of wood at a cost of \$3.25 per cord—Carried.

Reeve Proudfoot reported that he had attended the body of the late councillor Alex. Morton as far as Paris.

Moved by Holt, seconded by Nicholson, that the Mayor and councillors Colborne and Holt be appointed a committee to draft a resolution of condolence to be sent to the widow of the late Alex. Morton—Carried.

In pursuance of notice of motion, Proudfoot moved, seconded by Colborne, that clause I of by-law No. 6, 1889, be amended by striking out the word "three" before the word "members" on the third line of said section, and substituting therefor the word "five".

The mayor ruled the motion out of order. Proudfoot appealed from the ruling, and a vote being taken his appeal was sustained. The motion was then put and lost by a vote of 6 to 5.

Councillor Holt informed the council that Miss McIntosh wished her taxes remitted—referred to Court of Revision.

Councillor Natfel informed the council that Mrs. Mountney wanted the town to supply her with wood—left in the hands of councillor Natfel, to report at next meeting.

Moved by Colborne, seconded by Pridham, that the street inspector be instructed to put a new plank sidewalk on the square in front of R. McLean's new block, and with wood—left in the hands of Humber, seconded by Thompson, that the clerk correspond with the clerk of the town of Chatham as to the cost and durability of brick as used for the purpose of laying sidewalks. HOUSEHOLD HINTS.

Roast Partridge or Quail, with Fried Bread Crumbs.—Clean the birds and pass a wooden skewer through the thighs, tie on top of each a thin slice of pork, and roast them forty minutes.

Cheese Straws.—Take half a pound of flour and make a hollow in the centre, in which put four ounces of butter, two ounces of Parmesan cheese, one egg, one gill of milk, which you may add little by little. Mix all well together, roll the paste out about an eighth of an inch thick, cut it in strips a quarter of an inch wide and six inches long, and bake in a moderate oven until colored a little brown.

Mayonnaise of Celery.—Wash the celery, removing all the green stalks, dry thoroughly and cut in about one-inch pieces, then proceed to making the mayonnaise by taking the yolks of two raw eggs, one teaspoonful of salt, one pint of the best oil, half a teaspoonful of mustard, vinegar or lemon juice to taste. Break the eggs carefully, adding the oil drop by drop, remembering to stir steadily "one way" all the time, then salt, pepper and mustard, and last of all the celery very slowly. The stirring should be done without intermission or change of direction, and the "mayonnaise" when finished, should be of the consistency and thickness of the richest cream.

Best of All

Cough medicines, Ayer's Cherry Pectoral is in greater demand than ever. No preparation for Throat and Lung Troubles is so prompt in its effects, so agreeable to the taste, and so widely known, as this. It is the family medicine in thousands of households.

I have suffered for years from a bronchial trouble that, whenever I take cold or am exposed to inclement weather, shows itself by a very annoying tickling sensation in the throat and by difficulty in breathing. I have tried a great many remedies, but none does so well as Ayer's Cherry Pectoral which always gives prompt relief in return of my old complaint.—Ernest A. Hepler, Inspector of Public Roads, Parish Terrebonne, La.

I consider Ayer's Cherry Pectoral a most important remedy. I have tested its curative power, in my family, many times during the past thirty years, and have never known it to fail. It will relieve the most serious affections of the throat and lungs, whether in children or adults.—Mrs. G. E. Egerly, Council Bluffs, Iowa.

Twenty years ago I was troubled with a disease of the lungs. Doctors afforded me no relief and considered my case hopeless. I then began to use Ayer's Cherry Pectoral, and before I had finished one bottle, relief followed. I continued to use this medicine, until my cure was effected. I believe that Ayer's Cherry Pectoral saved my life.—Samuel Griggs, Waukegan, Ill.

Six years ago I contracted a severe cold, which settled on my lungs and soon developed all the alarming symptoms of Consumption. I had a cough, slight bleeding of the lungs, pains in chest and sides, and was so prostrated as to be confined to my bed most of the time. After trying various prescriptions, without benefit, my physician finally determined to give me Ayer's Cherry Pectoral. I took it, and the effect was magical. I seemed to rally from the first dose of this medicine, and, after using only three bottles, am as well and sound as ever.—Robley Johnson, Springfield, Ill.

Ayer's Cherry Pectoral, PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists. Price \$1; six bottles, \$5.
