Communication by Telegraph
With Outside World Is
Cut Off.

English Agencies and News-
papers Urge Correspondents
to Greatest Efforts.

LONDON, Dec. 3.—Up to midnight,
Berlin, Copenhagen, Paris and
Stockholm were completely cut off
from telegraphic communication
with St. Petersburg. The Great Northern
Telegraph Company, which has two
lines into St. Petersburg, one by way
of Copenhagen and Libau, and the other
by way of Finland, announced that
both were thrown out of service by
Copenhagen and Nydard, the last named
on the western Finnish coast being the
most easterly point of communication
to which it could accept messages.
The Great Northern Company further
stated that the quickest modes for reach-
ing east Finnish coast points was by
cable to Nydard and thence by letter to
Helsingfors or other points.
The Associated Press is endeavoring
to get into communication with the capital
from Helsingfors, the nearest point to
St. Petersburg, but finds it impos-
sible.

Route Is Impossible by Wire
and there is some doubt whether the wa-
ter is sufficiently free from ice to per-
mit of boats crossing to Helsingfors from
Russian ports.
The Associated Press and the Reuters
Telegraph Company, as well as the En-
glish newspapers, have sent urgent dis-
patches to their correspondents all over
Russia, especially at the coast points, to
secure news from St. Petersburg and the
interior, but none of the cable com-
panies in London had received a word up
to midnight. Furthermore, the com-
pany is quite unable to say what
prospects there are for a renewal of
communication. Warsaw is the only
point from which the Russian capital
has received since early this morning.
The cable companies at St. Petersburg
speaking of a complete cessation of
communications, and that it is
Warsaw and Lodz.

Communication Cessant
London, Dec. 3.—The
communication between London and St. Pe-
tersburg via the Great Northern Tele-
graph Company was severed this after-
noon. Messages were received this
morning, but nothing has reached since
since noon. The company officials in
London are unable to communicate with
their officials in St. Petersburg. They
have no information as to the cause of
the stoppage.

New Senate Appointed Representing
All Parties, Including Exiles.

Helsingfors, Finland, Dec. 2.—The
constituent assembly has appointed a new
senate on the 1st inst. It is headed
by Professor Mechalin, who was ban-
ished by the late Governor-General Bob-
roff, and includes representatives of all
parties, even of the socialists.
Baron Wrede, one of the vice-presi-
dents of the assembly, believes that the
new senators, were like Professor Mech-
alin, banished by General Bobroff.

TIMBER REGION THREATENED.
Wheeler, W. Va., Dec. 2.—The
Curtin Lumber Company's plant at Curtin,
W. Va., was totally destroyed by fire
today, with several million dollars' worth
of lumber. The company is the largest oper-
ating in the West Virginia. The origin of
the fire is unknown. Later news in-
dicated that precautions against fire
should be taken, and it was almost
noon before the fire was under control.
The timber region of Nicholas county, Un-
der the name of Curtin is thought the
damages will total nearly a million dol-
lars. Fortunately there are no towns
in the path of the flames.

J. P. MORGAN'S AFFAIRS.
Great Financier Addresses a Letter to
Banking Firm.

New York, Dec. 2.—J. P. Morgan, in
a letter addressed to Harry B. Hollis,
of the banking firm of H. B. Hollis &
Company, said yesterday that at no time
had he thought that there was any un-
fairness on the part of Mr. Hollis or
his firm in the sale of the stock of the
Cincinnati, Hamilton and Dayton railway
to the Erie railway through the firm of
J. Morgan & Co.
Mr. Morgan further said in his letter
that he had assumed the obligation him-
self to make the Erie deal, and that the
question which might arise and act for
the protection of the Erie.
What interested Wall street railroad
circles the most yesterday was the fu-
ture of the C. H. & D. Up to the time
of its acquisition by the Erie it has
been one of the most important of in-
dependent railroad properties in the coun-
try. Its position is such as to make it
of great importance to the Erie, Big Four,
and to some extent the Lake Shore
& Pennsylvania railway. Nothing could
be learned last night as to what Mr.
Morgan will do with the property. Gos-
sip had it that the Erie Marquette por-
tion of the system would go to the Lake
Shore and C. H. & D. proper to the
Southern railway of the Pennsylvania
vania, one of its controlled lines.
London, Dec. 2.—5 p. m.—Sir Clun-
ton, Edward Dawkins, a partner in the
banking house of J. P. Morgan & Co.,
died in London at 4 o'clock this morn-
ing, after a short illness.

Kasio Magnetic Zinc Separator Succeeds
in Achieving Big Results.

Nelson, Dec. 2.—The Kasio magnetic zinc separator, treating the ore of the Both mine of Sandus, has succeeded in getting a concentrate of 50 per cent zinc while the iron content is sufficient to pay for the treatment of the ore as a flux by the smelter. A premium is being offered for the separator, which is said to be fulfilled in the present case.
London, Dec. 2.—The London market and the lead industry of the Dominion government have been now imperative until such time as lead again falls below that figure. It is thought that the cessation of the operation of the bounty will have the effect of bringing in the American smelter treat as a taxpayer of the lead ore of the Kootenay.
A meeting club of 110 members has been organized here for the season.
All efforts to stoppage the design Nelson Tribune the daily paper of Houston, the late mayor and present member of the city council, have so far failed and the plant is being dismantled for public auction.

Explosion Kills
Eighteen Miners
Blown Out Shot-Wrecks the
Diamondville Mine in
Wyoming.

Diamondville, Wyo., Dec. 2.—Eighteen men lost their lives in an explosion last night in the Diamond Coal & Coke Company's mine. Miners believe that a "blow out" shot caused the explosion which wrecked the mine. The shock of the explosion was felt over the town, rocking buildings so violently that the occupants ran outdoors. Nearly the whole population of Diamondville flocked to the mine shaft.
In an explosion in the same mine on October 28, 1901, 23 miners perished. On account of the after effects of the explosion in Wyoming, the mine is closed and precautions against fire should be taken, and it was almost noon before the fire was under control.
The timber region of Nicholas county, Under the name of Curtin is thought the damages will total nearly a million dollars. Fortunately there are no towns in the path of the flames.

These business elements tired submitting to the tyranny of the proletariat. The peaceful population of the city is being harassed by the anarchy of robbers and traps, and the military authorities are disgusted with having to suppress the disorderly and lawless doings of the crowd, and of which the Mutual Reserve Life Insurance Company, who said that he had given \$5,000 to President Burnham of that company on demand of Mr. Burnham in 1914, Mr. Bell had said he would put down the disorders, all of which indicate that elements of stern repression are gradually getting the upper hand.
France Stands by Her Ally
Paris, Dec. 2.—The French government stands by her ally, the Russian revolutionaries. He said the French government intended to remain faithful to the Russian revolutionaries, and believed in the revolutionary character of its national life. It was not for France to mix in the internal affairs of Russia. The chamber voted its approval of Mr. Rouvier's statement.
The authorities profess confidence that the strike will be broken in a few days, but the basis of their optimism is not evident.
The immolation of Interior Minister Durново seems to offer a way of retreat for the government. This involves another surrender before the victorious proletariat. Count Witte is now convinced that the Emperor by acceding to the demand for universal suffrage may still envenom and the moderate and the extreme elements can stand. If this falls through, the 300 coal diggers of the Diamond mines were assisted in the rescue work by many miners who came from Kennamur.

BANKRUPTCY IS IMMINENT.
Fears of Paper Money Cause Run on
Savings Banks.

St. Petersburg, Dec. 2.—Fears that the government will soon be forced to issue paper money have caused somewhat of a run on the banks today, depositors hastily withdrawing their funds. All demands of depositors were promptly met. It is estimated that over \$10,000,000 has been withdrawn since Monday last.
Many persons seem to be firmly convinced that the government cannot much longer stand the strain, and that economic, political and financial bankruptcy is imminent.

Asquith Scores Chamberlain
Chamberlain, at Wisbech, said that the market at that port was dumped with wooden doors, but that these doors came from Canada. Would they exclude the products of our own colonies? If they carried out Chamberlain's policy they would have to tax Canadian flour and corn if the British farmer was to get the benefit.
The Medical Act
At a meeting of the general medical council, the president said the effect of the Medical Act amendments of 1903 was that the provinces in Canada previously debarred might apply on their own behalf for admission to the privileges of medical recognition within the United Kingdom. There was reason to hope that before long efforts would be made to obtain from great provinces like Ontario and Quebec a position in relation to the British register similar to that enjoyed by the states of the Australian commonwealth.

Coroner's Jury Suggests Laws to Eliminate
Danger From American Games.

NEW YORK, Dec. 4.—A verdict suggesting the passage of laws to eliminate brutality from football was returned by the coroner's jury which investigated the death of Harold B. Moore, of Ogdensburg, N. Y., who was killed while playing half back for the Union college football during a game against New York university.
Coroner Overman charged the jury that it inquired was to blame for Moore's death they were to fix the responsibility.
The jury's verdict stated that death was due to accident and then continued: "said game, as now played, is dangerous to life and limb. We suggest that prompt and effective action be taken for the enactment of laws to prohibit all brutal features from the game which may be necessary to eliminate all danger to the players."

Tariff Commission Sits

Winnipeg, Dec. 4.—The tariff commission opened its sitting here this morning, and at the first session the only dispute heard was from dealers in milk chocolate, who asked that the tariff be placed on the free list. In the afternoon a deputation representing livestock and agricultural interests attended and strongly urged a revision of the tariff with respect to these articles.
They asked that all kinds of lumber, fence wire and binder twine be placed on the free list, that the duty on agricultural implements be reduced to 15 per cent, and that on cement be materially reduced. They also strongly urged the restoration of the 33 1/3 per cent duty on iron pipes, and woolen goods. The manufacturers will present their case tomorrow.
The customs collections at the port of Winnipeg for the past eleven months were \$2,154,570. The collections during the same period last year were \$2,515,358.
Improving Western Division C. P. R.
R. Marpole, general superintendent of the Pacific division of the C. P. R., is here to consult with Wm. In the afternoon a deputation representing livestock and agricultural interests attended and strongly urged a revision of the tariff with respect to these articles.

They asked that all kinds of lumber, fence wire and binder twine be placed on the free list, that the duty on agricultural implements be reduced to 15 per cent, and that on cement be materially reduced. They also strongly urged the restoration of the 33 1/3 per cent duty on iron pipes, and woolen goods. The manufacturers will present their case tomorrow.

The customs collections at the port of Winnipeg for the past eleven months were \$2,154,570. The collections during the same period last year were \$2,515,358.

Improving Western Division C. P. R.
R. Marpole, general superintendent of the Pacific division of the C. P. R., is here to consult with Wm. White, secretary of the board, with regard to the amount of appropriations to be set aside for improvements on that division next month. This morning Mr. Marpole stated that next year's improvements on the division would be large. They were to exceed anything in the past, as the tourist traffic through the Canadian Rockies had assumed such dimensions as to make extensive terminal improvements imperative.

Mysterious Poisoning Case
Vancouver, Dec. 4.—The doctors report that in the stomach of J. Jackson, who died a violent death recently under suspicious circumstances, there was enough arsenic to kill four men. Some was given to a couple of dogs who immediately died. No poison was found in the remains of the beer or salts taken up deceased immediately before he died nor any in his clothes. His wife who also was taken violently ill at the time, but who recovered and who drank some of the beer and salts can throw no light on the mystery. His mother-in-law who also gave evidence at the inquest did not enlighten the jury. The coroner and jury were at labor all day but have not yet arrived at a verdict.

Ogilvie's Reputation goes into every barrel of Royal Household Flour. If Royal Household Flour were not as good as Ogilvie's say it is, who would be the greatest loser? You would try it once—if it were not good you would be a small loser, perhaps. But Ogilvie's would probably lose your custom.

H. B. KENT The Leading Mail Order... AN EXTRA-PROVINCIAL COMPANY. Certifies that the "Santé" Marine Insurance Company is authorized to carry on business in the Province of British Columbia...

They would also lose the custom of every other woman who tried it and of thousands who had never tried it but had told that it was not as represented. Therefore Ogilvie's must make Royal Household Flour the best flour because they stake their reputation upon it, and if you and thousands of others found it was not the best, Ogilvie's would run their business.

Dr. Wood's Norway Pine Syrup. This wonderful cough and cold medicine contains all these very pine principles which make the pine woods so valuable in the treatment of lung affections. It is a meeting of the board of trade of Vancouver on Thursday afternoon, which was briefly mentioned in a despatch appearing in the columns of the Colonist on the 27th of last month.

afternoon at 4:30, was duly received. We expect that J. A. Cunningham of this city will be present at the meeting as a representative of this board. A. E. WHITE, Secretary. Chairman McLennan said the next thing in order would be to hear from Mr. Greer as to whether he could answer their request, and he had much pleasure in calling upon him. Mr. Greer said that he was sorry to report that he was unable to give an answer to the request of the gentlemen present.

Not in a Position to give an answer to the request of the gentlemen present. Since the special meeting held on the 25th he has received a wire from Montreal to the effect that the Coast boards of trade had submitted their complaint to the railway commissioners, and that the railway company had filed its answer, which was now in the hands of the commission, and that that was decided on they would not be in a position to answer the requests of the board of trade.
