The Weekly Monitor.

BRIDGETOWN, AUGUST 6, 1879.

AUSPICIOUS DAWNING.

To-day we turn the attention of our readers to our republican neighbors. For several years, the material prosperity of the United States, has been on the down grade. Matters, pertaining to the business interests of that people, have been growing from year to year, from "bad to worse."

Skill Improving.

Times may be hard—trade depressed—finances tight—and the outlook gloomy, yet the aspects of the country are gradually and perceptibly improving.

While Halifax business men are complaining of dullness in trade, the officers of the police court appear to have enough to do.

Get your Photo's at Willis's.

—The "Edgar Stuart" is working up a first-rate trade. —Moody and Sankey are now in New York, preaching and singing to crowded gatherings.

—The August number of "Landry's Musical Monthly" is at hand, and contains several choice pieces of music.

—The last Gazette announces quite a batch of official appointments by the local government in several of the counties.

—SUSPENSION.—The Consolidated Bank of Montreal suspended July 31st. The Bank has been in difficulty some time and no surprise was expressed in business circles.

—The scler. "Ivica," Capt. Longmire, left this port yesterday morning, with a number of passengers bound for St. John, to be present during the festivities in connection with the visit of the Marquis and his princess wife.

—The British Government are making preparations for bringing back the troops from South Africa. The war is drawing on the imperial treasury.

—F. M. Chesley, A. B., formerly of this county, now instructor in a Latin school in Boston, will deliver a lecture under the auspices of the Bridgetown Temperance Club to-morrow evening.

—Many of the farmers in the upper part of the county are "done having." In that upland region, a fair crop, in excellent order, has been secured.

—Berries from "out south," in abundance, are being hawked about the streets of Bridgetown by healthy, rosy-cheeked girls, who have been reared on the skirts of the forests beyond the south mountain.

—The re-appearance of yellow fever at Memphis has caused quite a panic all along the Mississippi river, and many of the cities are endeavoring to ward off the dreaded malady by stringent quarantine regulations.

—Potato-bugs and grasshoppers are perpetrating devastating ravages upon several counties of Vermont and Maine. The former principally confine their depredations to the potato; but the latter are unparalyzing, and, in their voracity, leave not a green leaf or a blade of grass behind them.

—Yesterday was the anniversary of one of the most eventful general elections that ever took place in Nova Scotia. Its result was the consummation of the twenty years' struggle that has agitated the minds of the people in striving for the achievement of responsible government.

—The papers in England are discussing whether or not Lieut. Carey was justified in leaving the Prince Imperial to take care of himself.

—It has been whispered to me that the sentence passed by the court martial on Captain Carey, of the 98th, was that he should be shot for cowardice and unsoldierly conduct in the presence of the enemy.

—The largest excursion party Bridgetown ever witnessed passed through here last Wednesday, bound for Annapolis. The excursion started from Windsor, and when the train left Round Hill Station, standing room was scarcely to be had in the fourteen cars composing the train.

Vignettes in good style at Willis's.

—Mr. Delap says his steamboat scheme is steadily advancing. —BASE BALL.—There is to be a meeting of the Base Ball Club this evening at Willis's studio.

—The weather has been very warm for the past ten days. The thermometer registered above ninety on several occasions.

—CHANGE OF NAME.—The name of the Bridgetown Dutch Reform Club has been changed to Temperance Club. The night of meeting, same as formerly.

—The golden tinge on some of the grain-fields remind the reapers that they will soon have to grasp their sickles, and engage in the joyful work of harvest.

—E. W. Plunkett, the chief contractor of the W. C. R., is advertising for a small steamer to ply on the Annapolis Basin, to make connection between the two roads.

—SPECIAL NOTICE.—Just received at the Bridgetown Jewellery Store a very fine assortment of silver-plated Ware, such as Baskets, Castors, Pickle Dishes, Knives, Forks, Spoons, etc. Cheaper than ever for the quality. Call and inspect.

—The revivalists, Moody and Sankey, are again holding their meetings, before crowded houses, in New York. The New York "World" says the two men have changed considerably since their last visit to this city.

—Farmers may expect good prices for their produce this fall, as the crops in the old country have suffered very severely by heavy rains. The harvest on the continent are in just about as bad a condition.

—F. C. Harris, Esq., has on exhibition a sample of hardwood apple barrels, which comes the nearest yet to the long felt want of a strong, neat-looking barrel for foreign shipments of apples.

—CLEARED.—Frank Sabean, who it will be remembered was committed for six months to the County Gaol, at the last term of the Superior Court, has effected his escape through the iron grating of the establishment, about half-past four on Saturday afternoon last.

—In the article on "Names" in our issue of 30th, several errors were made which we here correct. 15th line from top, after Henry Reed Jones. Under "Social Titles" for Legg read Legge. For Treese, read Treese, 1 North, South and West, add East. After Fountain, for Blood read Flood. After Beer, for Berry read Perry.

—A half a million dollar fire took place in Hamilton, Ont., last Friday. The flames were subdued with the greatest difficulty, and at one time it was feared the whole business portion of the city was doomed.

—Yesterday afternoon a horse belonging to B. Starnatt, Esq., of Paradise, standing hitched to a post on Queen St., became frightened, broke away, and started at full speed for home.

—A walking match between Messrs. Perry, Harris and Quigley was held in Fullerton's Hall, Annapolis, on Thursday evening of last week. Quite a crowd assembled to witness the contest. The prize was \$5, and the condition was that whoever walked the greatest number of times around the room in an hour should be declared the winner.

—The largest excursion party Bridgetown ever witnessed passed through here last Wednesday, bound for Annapolis. The excursion started from Windsor, and when the train left Round Hill Station, standing room was scarcely to be had in the fourteen cars composing the train.

BLASTING ACCIDENT.

—On Monday morning last an accident happened by which two of the gang men, at work clearing the river, under the superintendence of Delancey Harris, Esq., were hurt, though not seriously.

—Queen Victoria has sent to the ex-prince Eugenie a frame made of violets in anemths for the last photograph of the late Prince Imperial. The garland is surmounted by an eagle, and in his talons a three-colored banner on which is written in golden letters the motto, "Not lost, but gone before."

—EVAN MORRIS NOT SATISFIED.—Evan Morris, of Pittsburg, has challenged Warren Smith to row a five mile race during the present summer, which holds in his talons a three-colored banner on which is written in golden letters the motto, "Not lost, but gone before."

—A High School is to be established at Clare, Digby County, Archibald Hannan is to be present at the opening.

TELEGRAPH NOTES FOR THE WEEK

—The Colorado lottery has appeared in a political light at Killarney, Ireland. The Government has signed a treaty of commerce with the Republic of Colombia.

—The Arctic committee, established at the head of forty-nine other committees throughout the country, has projected an expedition for the discovery of the North Pole, which will leave England in the spring of 1880, and co-operate with those of other nations.

—A cholera epidemic, as local physicians call it, is on the increase. 100 cases are now reported in rural towns with fatalities occurring every hour.

—The Spanish authorities investigated the matter and arrested 14 persons on suspicion. Mr. Sprague has the hands of a man containing still more audacious threats.

General News.

The "Eastern Beacon" is to be the name of the newspaper to be started at Port Hawkesbury, in place of the "News of the Week."

A SEXTON'S DEFEAT.—Hon G. W. Howland, of Alberton, P. E. Island, has failed. His liabilities are \$25,000; assets small.

The Fruit Growers' Association have decided to hold a Fruit, Vegetable and Flower show in the Exhibition Building, Kentville, on Wednesday, September 10th.

The recent "petrification" discovered at Taughanick Falls, N. Y., the other day, and consisting of an effigy somewhat like that of the famous "Cardiff giant," turns out to be a fraud.

Twenty officers and four hundred men died of cholera and other diseases on the return march from Afghanistan, while only one hundred were killed in action on the British side during the war.

Considerable changes were made in the game law at last session of the Legislature. Among others, woodcock shooting commenced Aug. 1, instead of 1st of September as formerly; partridge shooting 1st of October as formerly; but hares and rabbits cannot be shot before the 1st of October, instead of 1st September as last year. The season for shooting moose and caribou will commence on the 15th September in stead of 1st October, closing 31st January. The price of game licenses for non-residents has been increased to fifty dollars.

The Spring Hill correspondent of the "Gazette," writing on the 21st, says: "On account of a reduction of ten per cent of their wages, the employees of the Mining Company refused to go to work this morning. It appears that when the mines were started very high wages were paid, since which time they have been gradually reduced. They have held several meetings in the skating rink, and have laid their case fully before the Directors, but, so far, in vain. The miners now ask for the same pay they received previous to the reduction in January last, which is fully twenty five per cent more than the Company offers to give. The result is a dead lock. The intercolonial sheds are well filled.

THE FISHERY QUESTION AGAIN.—"Washington, Aug. 1."—In an anticipation of an early reopening of the North American fishery question, Mr. Evans will request that an American vessel be sent to cruise on the insular fishery grounds of the Dominion. Information of recent date is already obtained to demonstrate the extravagance of the award of the Halifax tribunal. The object of the presence of an American vessel, is to secure the latest authoritative information respecting these fisheries as the basis of future negotiations with Great Britain. The position taken by Mr. Evans in his correspondence on the award, and in connection with the payment of the \$3,500,000, was endorsed by the Senate in December last, and a resolution was passed which recommended the abrogation of the fishery clauses of the treaty of Washington.

THE COAST TELEGRAPH LINE.—The telegraph line on the southern coast of Nova Scotia has been surveyed as follows: From Canso to Whitehaven; thence to the Bay, and thence to the Candle and Isaac's Harbor to Country Harbor Cross Roads; thence to Sherbrooke and through Glenville to Lacombe, Sheet and Ship Harbors to Dartmouth. The distance traversed by this route is 238 miles, and it was surveyed in 3 weeks, which is rather quick work. The Dominion Telegraph Company have the contract for building and maintaining the line, and are now inviting tenders for the poles set aside and hang their own wires, and providing no difficulty is encountered in getting the poles, the line will be in operation, says the "Eastern Chronicle," before the first of November. The light-houses at Canso, Whitehaven, Green Island, Wedge Island, Liscomb Island, Beaver Island and Egg Island will all be placed in communication with the telegraph offices on the main line by semaphore signals. Mr. G. S. Borne has devised an ingenious system of signals by which the telegraph offices can communicate with the light-houses by night or day. The Gulf cables to Antioch and Magdalen Island will be laid this year.

Montreal's High Death Rate. The high death rate in Montreal city is frequently commented on. The sanitary report of the city for the year 1878 has been published, and shows one death for every thirty-two of the population during the year, the highest death rate of any city on this side of the continent mentioned in the report. The following table will show the death rate in some of the principal cities of the continent:—

Table with 2 columns: City and Death Rate. Includes Chicago (1 in 54), Providence (1 in 54), Philadelphia (1 in 50), Toronto (1 in 42), Boston (1 in 40), New York (1 in 33), London (1 in 25), Havana (1 in 25).

INDIA. DYING.—The Viceroy of India telegraphs, August 1st, that favorable rains have fallen in the Presidency of Madras and in the Deccan. Rain is needed in parts of Gujarat, Konkan, Rajpootana and centre of Punjab. Prospects in the rest of India are good.

Latobst by Telegraph.

UNITED STATES. New York, Aug. 3.—A Bismarck special says—Sitting Bull's brother and a chief named Young Assinaboine were both killed in a fight with General Miles. General Miles will locate his camp for the present near the mouth of Frenchman's Creek, and no fighting is expected unless the Indians attack. The seven lodges of six lodges engaged in the hardware business and captured by General Miles will be brought from Fort Reck to Fort Buford and an eye kept upon their movements. Large bands of roaming hostiles are still on this side of the line.

Thirteen members of a desperate gang of robbers, charged with burglary, outrages upon old folks and other crimes, have been arrested and lodged in Reading, Pennsylvania jail. They are all young German tramps.

David Anderson, one of the members of a picnic party at Englewood, New Jersey, on Friday, fell from the palisade 350 feet high, and was fatally injured. A horse had previously backed off the precipice and with the wagon was dashed to pieces.

NEW BRUNSWICK. SUSSEX, Aug. 2.—A young son of Mr. Thomas Angus, of the I. C. R. Sussex, left his home on Friday, July 17th, and was last seen in Amherst on Sunday by Geo. Stoney, whom he told that he had come back at the country and was going to return on the Halifax train, and afterwards seen on board of that train to return to Sussex. Nothing has been heard or known of him since, which seems to be a great mystery as the boy had a good home and left with out cause. Mr. Angus has gone to great expense in employing Detective Hunt of Halifax, who has searched the greater part of Nova Scotia, but found no trace. His relatives are very anxious, and fear something wrong has happened to the boy. The boy is aged 17, has fine round features, black eyes, wears dark clothes, checked sack coat and Oxford pants.

EUROPE. LONDON, Aug. 2.—The Army and Navy Gazette learns that the Queen will be advised to allow Lieut. Carey to return to duty, as the authorities merely find him guilty of indiscretion.

The United Service Gazette says the sentence of the court-martial in South Africa on Lieut. Carey was death.

A despatch from Cape Town July 15, via Madeira, says Gen. Crealock's cavalry have burned Umkomo and Nzwende, on the north side of the British advance. Dabulama, Cetewayo's brother, and several other important chiefs have surrendered to Lord Chelmsford. The movement of the British retiring from the neighborhood of Umkomo was expected to be retarded by heavy rains and increasing difficulties, which would prevent another advance this year, even if one was necessary. Ekowe is to be occupied. The naval brigade has been re-embarked for England. Volunteers originally raised for the campaign against Secodola have been ordered into position between Fort Webster, and Derby to the north of Zululand, so as to cut off Cetewayo's retreat northward, and prevent rains by Zululand in the neighborhood of the Infontini and Assegai rivers. A prominent chief on the northern border of Cape Colony, has been captured.

Constantinople contracts for the supply of coals to British steamships in the Bosphorus, mention the Mediterranean ports, Constantinople, Gallipoli and ports in the Sea of Marmora as possible places of delivery.

CAPE TOWN, July 15.—Colonial Ministers have informed the Assembly that they consider the present an important time for giving effect to the reconsideration of Home Government in favor of confederation, but they would take steps to carry them out as soon as peace is restored. The action of the Cape Government is generally approved.

ATHENS, Aug. 2.—In consequence of threatening movements of the Turks, a large number of new rifles have been distributed among the Greek troops and new batteries of artillery completely equipped. Six British iron-clads have arrived at Belexia Bay.

LONDON, Aug. 2.—The despatches of special correspondents in South Africa agree that the capture of Cetewayo is all important, because as long as he is free he will remain the centre of conspiracy and mischief.

Gen. Wolseley, in an address to a number of chiefs on July 12, informed them that he had no desire to take any of their territory, but that Cetewayo was a fugitive and could never more be King. Gen. Wolseley had summoned all the native chiefs to meet him at Emangweni, about nine miles north of Umlatoozi River, on July 10th, to hear his final words of settlement. The chiefs were to meet at the meeting on July 12 declared that the Zulu nation had no more head, and they wished to have no more black kings, but would prefer John Bull for king. They promised to bring all the chiefs of the coast districts to the Emangweni meeting, but these tribes do not constitute the most warlike part of the nation. A flying column started for Emangweni on July 14 to prepare for the meeting.

A storm of extraordinary severity occurred in the valley of the Thames and other parts of England on Saturday night, and caused immense injury to the crops. The damage by rain, hail and inundation will be irreparable this season. The loss of live stock is serious.

The most severe storm known here for years raged in various parts of England, especially in the valley of the Thames, on Saturday night. The storm was attended by hailstones, some of which were five inches in circumference. The damage to glass in places around London amounts to thousands of pounds.

HAYTI. HAVANA, Aug. 1.—Recent Haytian notices intimate that a disastrous war is about to commence in Hayti. There are numerous pretensions to the Presidency and everybody is under arms. The whole country is in a state of confusion. The French Canadian infants consequent upon the high birth-rate of the nationality, the fact remains that a large proportion of the deaths arise from preventable causes; notably, the deaths by small-pox reached the alarming total of 728. To question the efficacy of vaccination as a preventative of this terrible scourge would be an insult to the intelligence of the age, and compulsory vaccination is nominally the law of the city. It is to be earnestly hoped that no consideration of false economy will be allowed to prevent a great sanitary reform. With the example of Memphis before our eyes we should be culpable indeed were we to wait for small-pox, diphtheria, or typhoid fever to create a similar panic in Montreal.—Ez.

County Courts.

The August term of the County Court at Annapolis was opened at the Court House on Tuesday, the 6th inst, at ten o'clock, A. M. The following is the Docket:

- SUMMARY AND APPEALS. No. 1.—Gilbert Hill vs. Nathan Beeler. 2.—Gilbert Hill vs. William Pomeroy. 3.—W. M. Park vs. Wallace Apt. 4.—Geo. W. Jones vs. Jos. A. Cogswell. 5.—Wallace Jefferson vs. Wm. Hood. 6.—John P. Wells vs. Elias Phinney. 7.—W. H. Pomeroy vs. Robt. D. Weaver. 8.—Westlake et al., admin. of Pise vs. Donde, admn. of Donde. E. Ruggles for Piff. Mills for Defdt. 9.—Thos. W. Chesley vs. David P. Woodworth. Chesley for Piff.

Meroe & Parker for Piffs. E. Ruggles for Defdt.

A frequent but fatal mistake. As the Irishman, who had just landed and refused to pick up a dollar, thinking to go where he was wanted, he was told, so those who fancy that a cough or cold will cure itself, and refuse to use Dr. Pierce's Golden Medical Discovery, often die with consumption. This great remedy is an unsurpassed pectoral and blood-purifier. It speedily cures a cough or cold, and consumption in its early stages readily yields to it. It has no known equal in controlling and curing all scrofulous troubles, ulcers, and eruptions. Some fancy because it does not cure every case, that it is a humbug. It is not a humbug, but a cure for all such ailments. Now, let us see. Suppose a surgeon be setting a limb, could he not truthfully say that his medicine would gradually overcome all faintness, nausea, dizziness, weakness, and lameness? Each symptom different, yet all dependent upon the same cause. By this process the Golden Medical Discovery cures many diseases, though all are dependent upon impoverished blood and general debility. Read the People's Common Sense Medical Adviser carefully. Dr. Pierce's method of medication is there fully explained.

How Not to Get the Local News. The following taken from a country exchange covers the ground fairly about the dollar weeklies that are flooding the country. We wish our subscribers to read it, as it answers fully an often asked question. The other day an old and respected citizen came into our office, and after paying his last year's subscription, took a seat and remarked:— "I guess you needn't send me the paper any longer; I have just subscribed for a Philadelphia paper which says nothing about the dollar, and it doesn't cost as much as the 'Observer'."

Here he handed us the paper for inspection. We saw that it was a weekly sheet, handsomely printed, with a large engraved head, and containing about forty-eight columns of miscellaneous reading matter. "Fair looking paper," we remarked as we handed it back to him; "but did you see anything in it concerning our country?" "Well, I don't know as I ever have." "Anything in regard to the State?" "And yet you give up a paper that contains the local market report, the state of the crops, the deaths and marriages of the thousand and one happenings from week to week which make up the history of the region in which you are most interested, and which you can get for a few cents per paper simply because it comes a little cheaper?" "Yes, and it contains more reading matter," he added. "Certainly," we remarked, "but what is the chance of the matter? Nothing is required to your own village—your schools, your churches, your local improvements and the thousand and one things that happen in your country. There is nothing in it that helps to build up your country and support local institutions. It is as foreign to you as the city in which it is published. It may contain more reading matter, but your neighborhood is not represented in its columns."

But what can't you furnish your paper cheaper if it can afford a more larger one in the city at a low price?" he queried. "Labor is certainly cheaper here." "For the reason that a country paper has a small circulation compared with a city paper, and the labor expended upon 1,000 papers is about the same as on 10,000 especially when it is taken into consideration that the city weekly which is furnished for a dollar per year is a 'made-up' of the type set for the daily." "That's enough," exclaimed the old gentleman, as he pulled out his wallet, "just send me the 'Observer' for another year!"

As he bade us "good morning," and passed through our sanctum door, we heard him remark: "It's my belief that a local paper stops or refuses to subscribe to his local paper simply because it doesn't contain as much reading matter as one 'made up' from a daily and published in the city should be supplied with medical advances at the public expense."—Waterloo (N. Y.) Observer.

DYING.—The subscriber is agent for the Gilbert's Lane Dye Works, of St. John, N. B. Work sure to give satisfaction! Furs only paid for by 11 Orders from DRYERS and CLEANERS. Please prompt attention if left at the H. S. PIPER, Bridgetown.

What They Say of It? A Few Facts from the People.

There are but few preparations of medicines which have withstood the impartial judgment of the people for any great length of time. One of these is Dr. Thomas' Electric Oil. Read the following and be convinced.—Thomas Robinson, Farmington, Conn., writes, "I have been afflicted with rheumatism for the last ten years, and have tried many remedies without any relief, until I tried Dr. Thomas' Electric Oil, and since then have had no attack of it. I would recommend it to all."—J. H. Earl, Hotel Keeper, West Sheffield, P. Q., writes, "I have been troubled with liver complaint for several years, and have tried different medicines with little or no benefit, until I tried Dr. Thomas' Electric Oil, which gave me immediate relief, and I would say that I have used it since with the best effect. No one should be without it. I have tried it on my horses in cases of cuts, wounds, etc., and think it equally as good for horses as for man."—A. Mayhew, Merchant, Warwick, writes, "I have sold some dozens of bottles of Electric Oil, and it is pronounced by the public, 'one of the best medicines they have ever used'; it is the oldest and most valuable remedy for pain, sore throats, etc., and is worthy of the greatest confidence."—Joseph Rusan, Township Ferry, writes, "I was persuaded to try Dr. Thomas' Electric Oil for a lame knee which troubled me for three or four years, and I never found anything like it in curing lameness. It is a public benefit."

Beware of Imitations.—Ask for Dr. Thomas' Electric Oil. See that the signature of S. N. Thomas is on the wrapper, and the names of Northrop & Lyman are blown in the bottle, and Take no other. Sold by all medicine dealers. Price 25 cents. NORTHROP & LYMAN, Toronto, Ont., Proprietors for the Dominion. Note.—Electric—Selected and Electrolyzed. For sale by W. W. Chesley, Bridgetown N. S.

We know of no way that we can benefit our readers more than by calling attention to Johnson's Anodyne Linctus. It is the oldest and most valuable patient medicine in the world. Every body should keep it in the house. It will check diarrhoea and dysentery in one hour, and if the fountain is pure the streams will be pure also. So with the blood. If that be pure the health is established. Persons who are troubled with piles make rich blood, and taken one a night for three months will change the blood in the entire system.

Miscellaneous.

Good Templar Notes. GRAND FETE AT THE CRYSTAL PALACE.

A grand Good Templar fete was given at the Crystal Palace, London, on the 8th inst., attended by over 40,000 people. Cricket, races, and various other sports were indulged in during the morning. At one o'clock Rev. T. DeWitt Talmage delivered a lecture on "The Bright Side of Things," at which the Marquis Townsend presided. This was followed by a grand concert, taken part in by 5,000 voices—of which 3,000 were Good Templars. Of these 834 were life-tenants, and 264 had been abstainers for periods, ranging from 44 years down. At the close of the concert a special session of the Grand Lodge of England was held, when the Grand Lodge Degree was conferred on 922 members. The Grand Lodge was addressed by J. J. Poyor, G. W. C. T. of Ireland; Rev. Dr. Ross, R. W. G. T. of the world; Rev. Robert Simpson, of Scotland, P. R. W. G. C. G.; Mrs. H. N. K. Goff, of New York; W. G. V. T.; Mr. J. C. Dancy, G. W. S., of North Carolina; Rev. E. F. Pinkey, G. W. C. T., of South Carolina; Mr. George Phillips, G. W. C. T., of Pennsylvania; Mr. J. Hudson, G. W. M., of Mass., and others. This was followed by a mass temperance meeting, presided over by Mr. Joseph P. Sessions, representing the Western Temperance League; the oldest Temperance League in England; Mr. J. W. Clegg, on behalf of the British Temperance League—the oldest Temperance League in the world; Rev. W. Barker, M. A., one of Her Majesty's Chaplains, representing the United Kingdom Band of Hope; Mrs. H. N. K. Goff, on behalf of the Women's Temperance Union of America, and Mr. J. Dancy on behalf of the Colored Good Templars of the Southern States. The whole proceedings concluding with a brilliant illumination of the grounds.

RIGHT WORTHY GRAND LODGE MEETING. The 25th annual session of the Right Worthy Grand Lodge of the world, was held in Liverpool, on the 15th inst. On the 11th a grand assembly of officers and members was held in London. Addresses were delivered by the representatives of New York, Massachusetts, North Carolina, California, and South Carolina. On Sunday the 11th the opening gathering took place in Her Majesty's Circus, Liverpool. Speeches were made by Mr. Dansey, of North Carolina; Mrs. Richardson, of London; Captain Reynolds, of Mowbray; Mrs. Goff, of New York; Rev. Dr. Ross, of Scotland; Mr. J. Malins, of England; Rev. E. F. Pinkey, of South Carolina; Mr. J. Hudson, of Massachusetts; Mr. Inault, of West Virginia; Mr. Brown, of East Virginia; Mr. Raper, of Wales; and the Right Rev. Dr. Hillery, Bishop of California.

A FLOATING LODGE. The Good Templar's "Watchword," organ of the Grand Lodge of England, L. O. G. T., says: "The naval district is to be congratulated on the accession, by transfer from the Grand Lodge of Bermuda, of the 'Naval Excelsior' floating lodge. It was instituted on board M. S. 'Belliphon' at Portsmouth, October 17th, 1873, and has done a great work for the Order, having organized 23 lodges, and added over 2,000 members to the Order in various parts of the world. It introduced Good Templary into the West Indies by the organization of 'Star of Hope' Lodge, No. 1, at Barbadoes, followed by others in most of the West India Islands. Much help has also been afforded where the Order was already working, as in Quebec, Newfoundland, P. E. Island, Nova Scotia and Bermuda. 'Naval Excelsior' also instituted a Lodge at Newport, Rhode Island, named the 'Charles Sumner' Lodge. Branches have also been formed on board most of Her Majesty's ships on the British North America and West India Station. The Right Worthy Grand Lodge of the world has been pleased to recognize the services of this Lodge by the present of a handsome library; and on its transfer to the Naval District of England, it will be presented by the Grand Lodge of Bermuda with a beautiful testimonial. The Lodge is still in a very flourishing condition and is expected to arrive in England shortly, when it will receive one of the grandest receptions that one hundred thousand English Templars can give.

FRANCE IN CENTRAL AFRICA. The proposition just made in France to investigate the feasibility of an element of the project for connecting Algeria with the Sudan by railway is a happy inspiration of the republican authorities, and may prove the initiation of the grandest colonial enterprise of modern times. This Sudan is not the Nile country between Upper Egypt and Abyssinia. That region is now, we suppose, commonly regarded as a district subject to the rule of an Egyptian sovereign. Cut the Sudan toward which the spirit of French commercial adventure now turns its eyes is a country of twenty times the extent of the Nile region referred to, and includes the whole fertile belt across Africa from the western limits of the Egyptian countries to the Atlantic Ocean, and between six and eight degrees north latitude. It is generally fertile, and in many places very fertile and populous, and it is the most extensive region in the world that can now be regarded as affording an opportunity for fresh commercial relations of importance, or an opening a field for the establishment of colonial relations with any European Power. Some of the products of this region—gold dust, ivory, feathers and skins—now reach Algeria by caravan routes and are exchanged there for French manufactured goods, but the limits of the caravan traffic are too guide to what might be developed if the country on the Upper Niger say, with the negroes on one hand and the Mandingoes on the other, were made accessible by railway. Such a traffic would open a market for French products equal to that of the whole Orient world, while it is possible that French energy and activity would utilize the fertility of the newly-opened district in now unforeseen ways. It is a grand project, and affords the Republic a great opportunity.—N. Y. Herald.

Names.

In counting heads I find about sixty that may be classed under the head of

ADJECTIVES. A few of these must suffice. We have:—Slack, Tite, Smart, Careless, Lusty, Hair, Strong, Frail, Little, Lesser, Much, More, Muchmore, Thick, Thymes, Stout, Old, Young, Sharp, Keen, Blunt, Stiff, Supple, Bland, Gentle, Merry, Wise, Savage, Bland, Gay, Moody, Late, Early, Lovely, Loveless, Cross, Jolly, Large, Small, Good, Goodness, Goodenough, Flint Steel, &c. Fifty and most were partners in a London firm. A rather dangerous partnership some would think.

Next we come to NOUNS. Beach, Birch, Chestnut, Holly, Olive, Ash, Thorn, Pine, Heath, Nettle, Moss, Bean, Clover, Cross, Bush, &c. Just here might be named, True, Bush, Plant, Root, Rhind.

VERBS. Of which I have selected about thirty. Among others are Martin, Swallow, Thrush, Nightingale, Lark, Finch, Gander, Drake, Hawk, Condor, Pigeon, Dove, Woodcock, Griffling, Jay, Crow, Sparrow, &c. A goodly number are taken from

ADVERBS. Here are a few.—Lion, Lamb, Wolf, Kid, Squirrel, Fox, Stag, Hind, Badger, Weasel, Bull, Bear, Pig, Hogg, (we had Ham and Bacon last week) Hare, Rabbit, Mole, &c.

PREPOSITIONS. I find only three under this head, namely, By, On, and In. Neither of the latter two are ever missing. But then

"A man's man for a 'that.'"

CONJUNCTIONS. A few are named from such as Lemon, Cherry, Date, Peach, Plum, Date, Pear, Grain. Hay too might come in here.

ARTICLES. Scarlet, Grey, Brown, Black, White, Green, Blue. Of flowers I find only three, Lilly, Rose, Primrose. Several, however, are named after

FISH. Here they are.—Ray, Pollock, Sprat, Whale, Salmon, Eel, Roach, Crabb, Herring, Mackerel, Trout. Here we may introduce the Leach, Turbot, and Seal.

COUNTRIES, AND THEIR INHABITANTS. Britain, England, English, Ireland, Irish, Wales, Welsh, French, and German. Nearly a score find their origin in the

PROVERBS. Thus we have Adam, Eve, Abel, (have never met with a Cain or a Judas) Abraham, Isaac, Jacob, Joseph, Daniel, Leah, Leah, Matthew, Mark, Luke, John, Paul, Peter, Titus, and Romans.

There are some few with the terminations of 'man' and 'woman' such as Goodman Workman, Woodman, Pittman, Smallman, Bridgman, Maltman, &c.; Smallwood, Blackwood, Greenwood.

Among some hundreds yet left we will select a few under the head of MISCELLANEOUS.

Purse, Purser, Cash, Penny, Silver, Gould, Fault, Fancy, Sample, New, Stripes, Going, Scrumtum, Demon, Darling, Walking, Cheese, Statute, Whitehead, Chew, Chewett, Smoke, Snoker, Holiday, Harshorn, Hearsy, Harm, Bevel, Longshanks, Crookshanks, Boxall, Buckout, Smallshire, &c., &c.

The following "clipped from a contemporary" as Editors say, shall serve for a tall-piece; many of the names will be found in the lists already given. The paper says the couples named were married in Scotland last year, if so, they were tolerably well matched.

Thomas Black and Mary White, Peter Day and Ellen Knight, Solomon Bank and Catharine Vale, James Hill and Susan Dale, Isaac Slater and Jane Thatcher, John Baker and Mary Butcher, Stephen Head and Nancy Hart, William Statley and Jesse Smart, Joseph Reed and Julia Hay, Thomas Spring and Mary May, Joseph Brown and Kitty Green, John Robins and Jenny Wren, William Castle and Nancy Hall, Peter Charter and Fanny Call, Joseph Mann and Eliza Child, James Merry and Lucy Wild, Thomas Bena and Mary Bear, James Fox and Catharine Hare, Andrew Gray and Lucy Stone, Michael Blood and Lizzie Bone, John Clark and Julia Hood, Edward Cole and Nancy Wood, James Broom and Ellen Birch, Charles Chapelard and Susan Church.

Deflecting a Great River. The Russian Government is just now engaged in an attempt to change the course of the river Oxus, so that instead of flowing into the Sea of Aral, as at present, it will flow into the Caspian Sea. It is alleged that at a period not very remote, the Oxus did flow into the Caspian and modern engineers agree in stating that there is a depression from the Oxus to the Caspian, which resembles the ancient channel of a river. The object which Russia has in view in this work is to carry commerce up the Oxus from the Caspian to the very heart of Central Asia. The Oxus is a great river rising on the Bar Turagh, nearly 16,000 feet above the level of the sea, and receiving many affluents from the mountains of Turkestan and the Hindoo Koosh. It flows through Bokara and the Kara Kurn sands, past the Khanates of Khiva and enters the Sea of Aral by several mouths. Its length is put down at 1,580 miles, and the change in its course to the Caspian Sea, if it is accomplished, will add at least 400 miles to its length, as the proposed point of deflection is not more than fifty miles from the Sea of Aral, while it is 450 from the Caspian. The engineers who have the matter in hand are very sanguine of success, but it would be rash to predict the entire accomplishment of the task, and even if the course of the river be changed, it may bring about results not contemplated by its promoters. It will be very likely to drain the Sea of Aral entirely and add still more to the desert character of that region, while much of the volume of the water of the Oxus will be lost in its course through 450 miles of an arid country, without receiving a single tributary. It is, therefore, quite possible that even if the project is carried into effect the new portion of the Oxus may not be navigable. Great rivers are not to be manufactured at will, nor are they much under the control of man. However, the Russian experiment with the Oxus is now in progress and its result will be watched with much interest.—St. John Telegraph.

MILLER BROTHERS, SWORN STATEMENT OF A BOSTON POLICE OFFICER.

CHARLOTTE TOWN, P. E. I., or MIDDLETON, Annapolis Co., N. S., Importers and Dealers in Sewing Machines of both American and Canadian Manufacturers, over 20 different kinds in stock, among which is

BILLS-HEDS, VISITING, WEEDING AND BUSINESS CARDS, &c., neatly and promptly printed at this office. Call and inspect samples of work.

Miscellaneous.

You are a man of business, and have no time to show attention to your wife—few opportunities to converse with her; at least you make few submissions to this unsocial state of things, because she daunt; but is she happy? Probably not. No woman likes to be considered a cypher. Your wife ought to be your adviser. She sought to be your most confident councillor. There are many husbands who would as soon think of taking advice of their children as of their wives; but it is only the fool who is too wise to seek counsel. A woman, you say, knows very little about business; nevertheless, her intuition is often better than a man's judgment.

Your wife is your partner. You have earned the money, but she has saved, and sacrificed, and pinched, and worried, and worked, to help to accumulate it. She has done her fair share toward making your property what it is; she has a right to be consulted how it shall be used. A double right has she to have her judgment weighed and measured in all questions relating to the disposition of the family, and the training and culture of the children.

When you come home at night, tired with the cares of the day, to find her equally fatigued, bring to her the news of the day, the latest, freshest thought. In buying your paper, or subscribing for your monthly magazine, or renewing your religious weekly, get what suits her tastes and creeds her tastes, as well as your own. There is more in that patient, quiet, silent wife of yours than you think. Do not freeze her individually by your practical contempt of women.

Woman's Glory. HOW TO DRESS THE HAIR—ADAPTATION OF STYLE TO FEATURES AND STATURE.

In regard to dressing the hair, the prevailing fashion, however simple or artistic it may be, should never be adopted until a trial has been made as to its fitness to the individual—just as in selecting materials for wearing apparel, the figure and face should be consulted. Many a lady makes a fright of herself by dressing her hair fashionably. As a rule, when the forehead narrows above the cheek-bones, one must make her head sharply by dressing it full above the temples. If the forehead be broad and the face narrow, this style would not be at all becoming and should not be worn, even though adopted until a trial has been made as to its fitness to the individual. The present mode of finishing off the head with a number of puffs on the top, does very well for a full, short face; but if the features be sharp and thin, the visage long and narrow, this manner of dressing the hair should be avoided. When the forehead is projecting or high, or otherwise ill shaped, the hair should be dressed low, so as to disguise it; the modern bang or fringe is appropriately worn in such cases. If the brow is low, and full at the sides, it ought never to be covered. Such a forehead is often the most beautiful part of the face. We often see a very pretty face accompanying a high forehead that is flat or depressed. This greatly detracts from the symmetry of the countenance. This defect can be, in a measure, lessened by a hair arrangement which is as a coronet, or a number of puffs artistically arranged thereon. Turning the hair up over a cushion is also becoming to this style of head.

VEGETINE. Further Proof. FANCY VEGETINE. H. H. STEVENS, Boston, Mass., Nov. 22, 1878.

VEGETINE IS SOLD BY ALL DRUGGISTS. J. B. HALL, A. M. PH. D., PRINCIPAL. THE SECOND TERM OPENS ON Monday, 17th Day of March, and closes July 16th, which affords seventeen weeks of uninterrupted study. Candidates for Licenses have superior facilities for preparation.

Ayer's Cherry Pectoral. For Diseases of the Throat and Lungs, such as Coughs, Colds, Whooping Cough, Bronchitis, Asthma, and Consumption.

The reputation it has attained, in consequence of the marvelous cures it has produced during the last half century, is a sufficient assurance to the public that it will continue to realize the happiest results that can be desired. In almost every country there are persons, publicly known, who have been restored from alarming and even desperate diseases of the lungs, by its use. All who have tried it, acknowledge its superiority, and where its virtues are known, no one hesitates as to what medicine to employ to relieve the throat and suffering peculiar to pulmonary affections. CHERRY PECTORAL always affords instant relief, and performs rapid cures of the milder varieties of bronchial disorder, as well as the more formidable diseases of the lungs.

As a safeguard to children, and the distressing diseases which beset the Throat and Chest of Childhood, it is invaluable; for, by its timely use, manhood are rescued and restored to health. This medicine gains friends at every trial, as the cure it is constantly producing are too remarkable to be forgotten. No family should be without it, and those who have once used it never will.

Enthusiastic Physicians throughout the country prescribe it, and Chemists often recommend it from their knowledge of its effects. PREPARED BY Dr. J. C. AYER & CO., Lowell, Mass., Sold by ALL DRUGGISTS EVERYWHERE.

WOODBERRY, late of Wilmet in the County of Annapolis, deceased, are desired to exhibit same for settlement, and all indebted to said estate are requested to make immediate payment to WM. F. WOODBERRY, Senr., Executor. 47th Wilmet, March 12th '79.

MORSE & PARKER Barristers-at-Law, Solicitors, Conveyancers, REAL ESTATE AGENTS, ETC., ETC. BRIDGETOWN, N. S. L. S. MORSE, J. G. H. PARKER, Bridgetown, April, 16th, 76.

Joker's Corner.

She Didn't Come Down.

A storm burst forth one night in all its fury on the outlying houses of one of our suburbs.

It blew open a glass door in John Henry's bedroom and wakened the steeled sleeper with a crash. "Mrs. Henry," said John, cuddling down under the clothes to escape the icy blast, "your side of the bed is nearly as cold as my back. You are not here, are you? You are kind enough to shut that door?"

"Shut it yourself, you lazy brute! I've got the baby to tend to."

"Mrs. Henry, that is not a proper way to address me. It is not respectful. Besides, I have not been feeling well; and if I were to catch cold I should not be able to tend to business tomorrow."

"Cold—cold is it? It's a pretty thing for you to be talking of colds, when I go sniffing around the house from morning to night, because you can't afford a new furnace. I won't shut that door if I'm force for it; and you are a mean, spiritless thing to ask it!"

"Don't get excited, Mrs. Henry—don't get excited. And don't be rash; because if you do not shut that door it will stay open all night, and that would make us all sick, you know."

A solemn silence fell for a few moments on the domestic scene, and then Mrs. Henry rose to pass her anger in buying your paper, or subscribing for your monthly magazine, or renewing your religious weekly, get what suits her tastes and creeds her tastes, as well as your own. There is more in that patient, quiet, silent wife of yours than you think. Do not freeze her individually by your practical contempt of women.

Of a sudden the water-pitcher shot wildly from its perch, described a parabola in the gleaming fire-light, and lighted full upon John's night-cap. The slop-pail followed, then a box of blocks, then, with the majestic force of true womanhood she snatched the covers from the bed with one hand and poured a pitcher of ice-water over his legs with the other.

Next morning, as John Henry entered the office somewhat late, and looking as if his nerves were restored, rather missed him, his partner spoke up:

"Well, John, did you try it?"

"Yes, Sam, I tried it."

"And she came down, eh?"

"Yes, Sam, she came down. But it wasn't altogether pleasant. They always give in, as you say, when one makes a determined stand against their feelings, and I don't think I'll do it any more."

A FARNAL SIMMONS.

"Mr. Smith, I called to see if I could take your life."

"But what's your life?"

"Smith, in some alarm."

"I say that I've come around to take your life. My name is Gunn. As soon as I heard you were unprotected, that you had nothing on your life, I thought I would just run in and settle the thing for you at once."

"The Smith got up and went to the other side of the table, and said to himself:

"It's a lunatic who has broken out of the asylum. He'll kill me if I halloo or run. I must humor him."

"Then Gunn, fumbling in his pocket after his mortality tables, followed Mr. Smith around the room and said to him:

"You can choose your own plan, you know. It's immaterial to me. Some like one way and some like another; it's a matter of taste. Which one do you prefer?"

"I'd rather not die at all," said Smith, in despair.

"But you've got to die, of course," said Gunn; "that's a thing there's no choice about. All I can do is to make death easy for you—to make you feel happy as you go off. Now, which plan will you take?"

"Couldn't you possibly postpone it until I'm married, so as to give me time to think?"

"No, I prefer to take you on the spot. I might as well do it now as at any other time. You have a wife and children?"

"Yes, and I think you ought to have some consideration for them and let me off."

"Well, that's a curious kind of an argument," said Gunn. "Why I take your family will be perfectly protected, of course, and not otherwise."

"But why do you want to murder me? Murder you—I murder you! Who in thunder's talking about murdering you?"

"I called to get you to take out a life-insurance policy in our company, and I—"

"Oh, you did, did you?" said Smith, smiling at the humor of him. "Well, I'm not a goin' to do it, and I want you to skip out of this, or I'll brain you with a poker—come, now skip!"

"Then Mr. Gunn left without selling a policy, and Mr. Smith is still uninsured."

The recruits are at target-practice. The captain to recruit that misses the mark:

"You hand me your gun and watch me; it is the simplest thing in the world."

He shoots—and misses.

"Do you see?" he asks, not at all discouraged; "that's the way you do. Now!"

"Shoots again, and 'this it in the same place."

"Ah, that," he remarks, very coolly, "is the way some others do that I can mention."

Fires again and hits the mark.

"Ah, that," he says, proudly, "is the way I do it."

An absent minded doctor was called to see a two-year old child who had had convulsions.

He sat in a reverie for a while, and then announcing that the patient suffered from nervous prostration—the fashionable disease of the day—wrote a long prescription, with the following directions:

"Avoid care and occupation of every kind. Leave off tea and coffee; seek diversion at the theatre and in travel; smoke moderately."
