Montreal Stock Market.

PAYNE RALLIES — TORONTO RAILWAY SELLS BETTER — SELLING SHOWS INTELLIGENT CONFIDENCE — GENERAL SITUATION UNCHANGED.

Montreal, October 17.

The market today was broad and considerably active. It was not all unsold, but had many of its stocks selling on an advance and several selling also on a decrease. If the considerable selling today in Toronto Railway was bearish as yesterday's selling was said to be, the bears were certainly not successful, though they made a very vigorous attack. Strong support developed in the stock at the very first and caused the first five hundred to be sold at the same price as yesterday's closing one, and put all the selling on a higher basis. The gain today was $\frac{1}{2}$, which is all the better as being made on sales amounting on the forenoon to 1113.

Payne advanced 4 points at 82. The selling was on nearly as large a scale as yesterday. A better feeling has arisen in connection with it and will prevent possibly further decrease. The property is excellent and will resume its usual work as soon as men have been got to work 8 hours a day for \$3—not a bad wage one would think and which need not go begging.

Royal Electric, both the old and the new scored a small advance this forenoon on small transactions. Montreal Gas was also from $\frac{1}{2}$ to 1 point better, while Montreal-London was below last week's mark.

War Eagle is being sold down by shareholders as a protest against the distribution of Center Star stock. Many had bought it in hope of a better basis than that they are now invited to subscribe for. Today it was 10 points lower than yesterday.

Montreal Street Railway and Richelieu & Ontario were about the same level as their last previous sales. Canadian Pacific gained another quarter and sold at 91 $\frac{1}{2}$, in London selling at 94 $\frac{1}{2}$.

On the whole the public interest in the market showed today an intelligent confidence in the state of affairs and kept the standard of the selling today up to a pretty high point when all things are considered

STRAWS.

At a conference between C.P.R. solicitors, managers and strike committee, the dispute was practically settled by the company conceding recognition of the machinists' order. Other details of the schedule demanded by the men will be arranged and the strike will be terminated.

A Washington special says: Large quantities of sugar are being shipped to Canada from Philadelphia. The sugar trust, forced by cheaper prices, have invaded Canadian territory, which had been up to this time under a monopoly of Canadian and British sugar companies.

In a letter to Sir Richard Cartwright the British Consul at Palermo, Mr. Sydney A. J. Churchill, says that Canadian exporters might secure a share of the timber market in Sicily. The pitch pine and other timber is all purchased in Genoa or other continental ports.

Considerable friction has developed at Cripple Creek between mine operators and the management of the Florence and Cripple Creek and Midland Terminal roads which may result in temporarily suspending work at the camp. The roads concerned, which handle the bulk of the ore, say that hereafter they will handle only smelter ore, on account of scarcity of cars. The mine owners are leaders in the projected Colorado Springs and Cripple Creek Air Line, and they claim the discrimination against mill ore is a bluff to stop the new road, which is expected to greatly reduce rates. They will demand that both grades shall be handled and unless the demand is acceded to, they threaten to shut down.

MONTREAL MINING EXCHANGE.

PAYNE SELLS AT 85 — REPUBLIC AT 111 — TENDENCY OF MARKET UP-
WARD.

Montreal, October 17.

There was a firmer feeling on the market this morning. After the slump of yesterday prices were inclined to recover, and as buying orders were in evidence the whole list assumed a distinctly firmer tone.

This is scarcely to be wondered at. There are plenty of bargains left and we can scarcely expect to see them going begging. No doubt there are plenty of investors willing to forego a month or two's dividend such as is necessary in the case of Payne to obtain a footing on the list of shareholders at such substantial recessions. It sold this forenoon at 95 for 500 shares.

Republic also suffered to some extent and sold at 111, but the stock is exceedingly well held, and moneyed interests are willing to acquire more stock on all recessions.

Montreal-London sold at 40½ and 48, this is at an advance on the last sale which was made at 47½ on last Saturday.

Iron Colt was active and sold repeatedly at 3½. Novelty also changed hands to the amount of 500 shares at 3½.

Work on the Evening Star ceases for the present, all hands being paid off. It is unfortunate that this should have occurred just now; development work has shown that there are big resources of ore in sight, over 1000 tons having been already shipped to the smelter this year.

Mines in Camp McKinney were strong, there was renewed talk of Waterloo joining the dividend payers shortly.

There was also some demand for Dundee but the stock seemed to be scarce as no sales were made.

There was a broken lot of Slocan Sovereign sold for 32, and there was a sale of Virginia made at 7½. In other respects the market was quite firm, the tendency being upward.

MORNING SALES.

NEW YORK EXCHANGE.

CONSOLS GETTING FIRMER — ADVANCE OF EXCHANGE RATE'S CONSIDERED A GOOD SIGN — 17,000 OF SO. PAC. OFFERED FOR 58 — NOT MUCH BUSINESS DOING.

New York, Oct. 17.

London market, although quiet, has good undertone, and prices slightly above our close.

There is no fresh news from the Transvaal.

The street generally is of the opinion that yesterday's strength is largely due to shorts covering, two or three determined efforts were made to bring about declines, the principal attacks being in A.M.T., B.R.T. and So. Pac.. In all of these declines took place but when the covering movement ensued, advances were scored with greater ease than were declines, especially in So. Pac.

No doubt the principal bear leader thought that the issuance of the new securities would result in returning large blocks of borrowed stock and consequent liquidation by some of the smaller commission houses. As a matter of fact the liquidation which ensued was trivial and when an attempt was made to buy some 5000 shares by a commission house after 10,000 had already been sold by another, it became evident that outside of the short selling there was little or no pressure.

There was a good deal of talk about movement in Con. Gas, Pullman and Grt. Nor. pfd.

There are two stories in connection with Pullman, one is that a consolidation with Wagner is under consideration; other is that the sale of its real estate has been accomplished most successfully and that a melon will be cut in near future.

Stock dividends to the preferred holders of Great Nor. are predicted in near future.

Money conditions remain unchanged. Leading bankers believe that the rate will be maintained around 6 p.c. for some time.

The New York Sun says:—The Treasury intends to afford further relief to the money market by depositing its revenue receipts with the local banks. Such a policy would meet with the general approbation of the Street.

New York (noon), Oct. 17.

Our market opened fairly strong in spite of the publication of bear interview with Mr. Keene.

Mr. Keene apparently is a little tired of selling the market and hoped by publishing an interview to effect a decline in prices, which he failed to accomplish by his selling yesterday. There was some trader's selling based on this interview, but the underlying strength of the market was so great that they soon changed their position, and their repurchases gave additional strength to the market.

At the opening selling of So. Pac. was thought to be good, but on the decline commission houses and arbitrage houses bought quite heavily, causing a rally to 58. At this price the supply was very large, there being probably between 7 and 10,000 for sale at that price. An endeavor was made to break B.R.T., but ample support developed.

Man. was strong on a refunding scheme. Pullman and Grt. Nor. preferred continued their strength of yesterday. After the first half hour the market regained strength, but at present there is very little doing.

NEWS OF THE MINES.

HEARD AT VANCOUVER.

Vancouver, B.C., Oct. 15.—The syndicate of Chicago capitalists that recently bonded a group of ten claims on Bear River, on the west coast, has made the second payment on the bond. This leaves one payment to be made in three months' time to complete the deal.

Satisfaction is expressed in East Kootenay at the fact that a compromise has been effected between Mackintosh syndicate and Messrs. Starbird, Collet and Robinson, the latter returning \$5,000, the amount of the first payment made on the Red Line group by Mr. Mackintosh. The amount of the bond was \$100,000. The Mackintosh syndicate has released all claims upon the property, which has been bonded by the Fraser-Chalmers syndicate of New York. The figure is not known, but it is understood that it is somewhere around \$120,000.

There is more active mining going on in the vicinity of Fort Steele than ever before since the early days on the Wild Horse.

The second payment has been made on the Burton and Wynstays claims, now under bond to Mr. C. H. Mackintosh, and his associates.

The right of way for the new North Star tramway has been completed. There is a force of sixty men now employed at the North Star. The Diamond Drill is on the ground. The new superintendent has arrived, and under his supervision work in all branches will be pushed.

FROM THE BOUNDARY.

Among the arrivals at the Windsor recently was Mr. J. P. Graves, manager of the Knob Hill, Old Ironsides and other properties in the Boundary district. He says good progress has been made in the construction of the Granby smelter at Grand Forks, the machine shop, the wood working plant, and other accessories. The dam on the north fork of the Kettle River is also about done, and the electric power for the smelter will be generated there to the extent of a thousand horse power. Mr. Graves thinks they will be ready to treat ore about the first of the year, although this will depend upon the completion of spurs to the camp from the main line. The main line has reached Eholt, on the Summit, half way between the Grand Forks and Greenwood, and the spur to the smelter will be 1½ miles long. The grading of the spur is completed.

The Granby smelter will have, when finished a capacity of 500 tons per day and Mr. Graves is inclined to think that all this will be required soon after a start is made.

"We have done a good deal of building work at the Old Ironsides and Knob Hill," continued Mr. Graves. "We have a new shaft house besides a large bunk house for 150 men, and we are also completing a hotel for the purpose of boarding that number."

CHICAGO MARKET.

BULLS' LOAD AND LOWER VALUES—
VISIBLE SUPPLIES RATHER ENCOURAGE DECLINE — SHORT RALLIES ARE PROBABLE.

Chicago, October 17.

Taking the estimated 4 million bushels of wheat as a correct measurement of the weekly European demand from America, the total wheat on passage to Britain and the States, of nearly 28 millions, would supply this demand for nearly the sixth part of a year. Also the weekly clearances for these countries just about equals this 4 million demand and furnish little help to declining markets. It is true that primary receipts, partly owing to the car famine are less bulky and might be expected to lift prices somewhat as they would certainly do if there were cash demand and speculative buying. Of the latter there was some for a few days, when war breaking out was used to artificially stimulate the market. This buying has ceased and has been followed by the liquidation of the stock then taken up. Rallies within small limits are likely to occur and those who have purchased on breaks may have many opportunities to make profits on these rallies in the market chiefly bearish at present. Openings today were below yesterday's closing prices which, however, rallied during the first half hour, then pursued a slowly declining course varied occasionally by a little energy.

Cable from Liverpool gives wheat and corn lower, and with such bearish comment as that demand is very limited and in corn falling off. Prices are also declining, the decline being caused by bulls unloading.

At Chicago were received: Hogs 22,000 cattle 4500; sheep 17,000.

In grain,

Wheat, car lots, 125, shipments 125,050.

Corn, car lots 538, shipments, 235,720.

Oats, car lots 307, shipments 25,262

Primary last week, 3,463,203, shipments, 1,370,915.

Primary last year, 1,650,561, shipments, 685,196.

N. W. cars.—Minn. and Duluth 1106, as against last week 1218.
