### CANADA LUMBERMAN

PUBLISHED BY

The G. H. Mortimer Publishing Co'v  
of Toronto, Limited

Confederation Life Building - TORONTO.

Branch Office:  
IMPERIAL BUILDING, MONTREAL.

Weekly Lumberman, published every Wednesday. Contains reliable and up-to-date market conditions and tendencies in the principal manufacturing districts and leading domestic and foreign wholesale markets. A weekly medium of information and communication between Canadian timber and lumber manufacturers and exporters and the purchasers of timber products at home and abroad.

Lumberman, Monthly. A 20-page journal, discussing fully and impartially subjects pertinent to the lumber and wood-working industries. Contains interviews with prominent members of the trade, and character sketches and portraits of leading lumbermen. Its special articles on technical and mechanical subjects are especially valuable to saw mill and planing mill men and manufacturers of lumber products.

Subscription price for the two editions for one year, \$7.00.

### WANTED AND FOR SALE

Advertisements will be inserted in this department at the rate of 15 cents per line each insertion. When four or more consecutive insertions are ordered a discount of 25 per cent. will be allowed. This notice shows the width of the line and is set in Nonpareil type; 12 lines make one inch. Advertisements must be received not later than 4 o'clock p.m. on Tuesday to insure insertion in the current week's issue.

### TRADE ENQUIRIES.

The following were among the enquiries relating to Canadian trade received at the High Commissioner's office in London during the week ending Nov. 30th.

Application has been received for the addresses of some of the most important wood pulp mills in Canada.

A firm in the Midlands who are likely to be considerable buyers of casks made of beechwood desire to be placed in communication with Canadian makers able to meet their requirements.

The names and addresses of the parties above referred to may be obtained at the office of the CANADA LUMBERMAN.

### CURRENT TRADE CONDITIONS. ONTARIO.

Considerable strength has been given to the white pine market by the intelligence that the deal production of the Ottawa Valley mills for 1901 has been contracted for by the shippers. The Hawkesbury cut, we understand, has been secured by W. & J. Sharples, McLaren's cut by R. Cox & Company, The Hull Lumber Company's and W. C. Edwards & Company's cuts by Watson & Todd, J. R. Booth's cut by R. Cox & Company and J. Burstall in equal proportions, while smaller cuts have been secured by R. Cox & Company. The basis of prices is believed to be practically the same as last year, which, in view of the lower values now ruling in Great Britain, and the uncertainty as to the future, should be very satisfactory to Canadian manufacturers. Now that these purchases have been made, it is probable that it will inspire confidence and lead to other transactions. Holiday quietness prevails throughout the lumber trade, salesman being mostly off the road. Prices for both pine and hardwoods are firm, and it is predicted that there will be slight advances on some grades towards the spring. Lath and shingles are particularly strong, although it has been thought inadvisable to make changes in quotations until the advance now asked by some dealers becomes more general.

### QUEBEC AND NEW BRUNSWICK.

The past week has brought about no change in the spruce situation. Montreal dealers are interested in the reported embarrassment of a Liverpool house known to have been dealers in Canadian lumber. The report from the Maritime Provinces is that very little lumber is moving. Clapboards are firm, but in light demand, selling at \$29 to \$30 for extra spruce and \$27 to \$28 for second clear, on Boston freight rates.

Operations in the woods are now well under way, and estimates will soon be forthcoming of the probable cut. On the St. Croix river it is expected that about 25,000,000 feet will be taken out. This is 10,000,000 feet less than last winter, and probably reflects the volume of operations on other streams.

### MANITOBA AND BRITISH COLUMBIA.

Retail dealers report a light demand for lumber, with no expectation of an improvement until the early spring stock shall commence to move. Prices are not altogether satisfactory, but it is hoped that recent changes which have taken place will result in remedying the evil. In British Columbia lumber circles considerable activity is shown at the present time. The manufacturers are taking steps looking to the removal of the discrimination made by American ship owners against Canadian ports, also to secure the continuance of the rebate on exported timber. It is understood that some large orders have been placed with British Columbia manufacturers for timber for shipment to foreign countries, one being by the German government for deck planking.

Owing to the production of shingles be-

ing considerably greater than the demand, an arrangement has been effected by which one of the largest mills will be closed down and the owner thereof will act in the capacity of a broker for the other manufacturers. Should the arrangement work out satisfactorily, it will improve the condition of the red cedar shingle industry.

### UNITED STATES.

Reports from the head of Lake Superior show that the Duluth and Superior mills manufactured this year approximately 416,000,000 feet of lumber. Of this quantity 168,000,000 feet is still held by manufacturers, 129,000,000 feet of which is unsold. In 1899 the cut was 423,000,000 feet, the stock on hand 114,000,000 feet, and the stock unsold 22,000,000 feet. These figures make an unfavorable showing for this year, and reflect the lessened demand for lumber which existed during the year as compared with the previous season. It is only fair, however, to point out that while one year ago wholesalers and retailers were heavily stocked, the reverse condition exists at the present time, and the prospect is that they will have an inadequate supply for the winter trade. While little business is doing, the market shows considerable strength. In the Chicago market sales of inch mill run have been made at prices \$1 higher than before the election, while at Tonawanda there has been an advance of from fifty cents to two dollars per thousand on some of the coarser grades of 12-inch boards and No. 1, 2 and 3 cuts. Boston reports a scarcity of good stocks of white pine. Spruce is steadily advancing, and within the last fortnight quotations in New York have been brought up to \$16 to \$17 for narrow, and \$18 to \$20 for wide. There is very little buying of hardwoods, with no material fluctuations in price. Shingles and lath are both firm, and as the season advances the certainty of a shortage in the supply becomes more apparent. In the east there is a strong demand for all kinds of lath. Extra cedar shingles are quoted at Boston at \$2.80, clears at \$2.50, and second clears at \$2.10.

### GREAT BRITAIN.

It is unfortunate that just at this time, when efforts are being made to prevent the British timber market from declining further, the failure of a large Liverpool lumber firm should occur. This failure, to which reference is made elsewhere, is understood to have greatly unsettled the market. In the face of the present conditions, it is not expected that there will be any immediate relief from the present depression; on the other hand, it would not be surprising if still lower prices should rule before the next two months are past. At most of the ports there is a heavy stock of boards and sidings, while the stock of other classes of timber is a little above the average. The firm of A. Dobell & Company, Liverpool, quote first quality pine deals at from £22 to £28 per standard, second quality £18 to £21, third quality £12 to £12 10s, and New Brunswick spruce £7 7s 6d to £8. Quebec square

pine is selling in Liverpool at 1s 3d to 2s 9d per cubic foot, waney pine at 2s 3d to 2s 10d, Quebec oak, first quality, at 2s 8d to 3s, and Quebec birch at 1s 5d to 2s. Birch planks bring from 11d to 1s 1d.

STOCKS AND PRICES.

It is said that the Central Lumber Company, of Saginaw, Mich., will not operate this winter in the Georgian Bay district owing to their inability to export the logs to Michigan.

H. H. Acorn, of Souris East, P.E.I., has been awarded a contract to supply about three-quarters of a million feet of timber for the Hillsborough bridge near Charlottetown, P.E.I.

The Lachine Rapids Hydraulic & Land Company, of Montreal, want tenders for the supply of 300 cedar poles, from 45 to 55 feet long, 8 inches at smaller end, to be delivered by April next.

F. M. Sumner, of Moncton, and J. M. Barnes, M.P.P., of Buctouche, who have secured the contract for the building of a telephone line from St. John to St. Stephen, N.B., are letting contracts for poles and other materials.

The Schooner Gypson Emperor sailed from Digby, N. S., last week for Buenos Ayres, with a cargo of lumber. The brigantine Harry Stewart and the schooner Helen Sheffner are loading lumber at Bear River, N. S., for the West Indies.

At the Crown Lands office, Fredericton, N. B., two timber berths were sold last week, as follows: A 2 1/2 mile berth on western side of Bartibog river, to James Russell, of Lower Newcastle, at \$65.75 per mile; and 2 miles on first Eel River Lake to E. Loudon, at the upset price of \$8 per mile.

The lumber shipments from the port of Dalhousie, N.B., for the season just closed totalled 24,090,224 superficial feet, and those of the exports of Campbellton 20,908,145, making a total of 45,028,369 feet. There were 71 vessels in all, one of which went to Italy, one to Australia, four to Spain, two to Barbadoes, two to St. Pierre, and the balance, 61 vessels, to Great Britain.

It is stated that McLeod & Irwin, of Bracebridge, who have the contract from the Algoma Central Railway to cut the bill stuff off lots 6, 7, 8 and 9, concession 1, Township of Dana, have sold out their plant and contract to the Victoria Harbor Lumber Company, who purchased the adjoining five lots at the last government sale of timber. A large drive, probably some ten or twelve million feet, will come down the Sturgeon river in the spring from that locality.

The lumber cut on the St. Croix river, in New Brunswick, this year will be about 25,000,000 feet. The Murchies will cut about 8,000,000 feet, the Eatons about 10,000,000 feet, the Todds 4,000,000 feet, and Granville Chase 1,500,000 feet. Late advices from the St. Croix state that there is an over-abundance of snow.

There is a strong demand at Barbadoes for spruce and white pine lumber. Recent sales have been made at the following prices: White pine, \$25.02 for merchantable and \$21.02 for second quality; spruce, \$22.60 for merchantable, but a sale of stock to arrive is said to have been made at \$22.80. The supply of Gaspé cedar shingles is ample. Cedar laying have been sold at \$2.30 and spruce laying at \$2.09.

THE GLASGOW MARKET.

Concerning the Glasgow timber market, Messrs. Alhson, Cousland & Co., in their last report, say:

WANAY WHITE PINE.—Business during the past month has been brisker, and several large lines of mostly second class wood have changed hands. Quotations—Prime wood, 19 to 20 inch average, 2s 10d to 3s 1d. Second class wood, 20d to 2s 2d per c. ft. In square pine there is no business to report.

OAK.—Stocks are light and there has been a fair enquiry.

ELM.—Prices are very firm, but the demand is only moderate; 45 feet average is quoted at 3s to 3s 3d per c. ft.

BIRCH.—Considerable lines continue to be placed at low figures, 16 inch wood at 16d to 17d, 17 inch at 18d to 19d per c. ft.

ASH.—The stock is small and is chiefly in second hands. Quotations.—2s 2d to 2s 6d for 1 1/2 to 1 3/4 inch average.

PINE.—First.—There is no doubt that prices are decidedly easier. Broad deals have arrived lately in fairly large parcels. Undersized, if good, are in fair request.

Sidings and boards have accumulated and are difficult to dispose of. Quotations.—Broad, £27 10s to £30 5s. Undersized, £20 12s 6d to £22 13s 9d. Sidings, £18 11s 3d to £22 per St. Pet. Std. Seconds.—The stock is a small one and there is little demand. Thirds.—The stock, although not heavy, is ample, and prices are little changed. Quotations.—£13 1s 3d to £15 2s 6d for Regulars. Undersized, £11 to £11 13s 9d per St. Pet. Std. Fourths are low in stock and getting scarcer. Regulars are quoted at £11. Undersized, £8 18s 9d to £9 5s 7d per St. Pet. Std.

SPRUCE.—Stocks are small. Quotations.—£7 18s 1d to £9 5s 7d per St. Pet. Std.

RED PINE.—There is little demand. Quotations.—£13 15s 10 to £15 2s 6d per St. Pet. Std.

N. B. BIRCH.—There is no stock of logs in first hands. Planks are in good request at 12 1/2d to 13d per c. ft.

N. B. DEALS, BATTENS AND BOARDS.—Business is fair and prices are well maintained. Quotations.—£7 4s 4d to £10 13s 1d per St. Pet. Std.
