

The Finest Boys' Clothing in Toronto

'Tis many years since we opened for business in Toronto, catering to the needs of boys in a different way from other stores and although over two generations have passed since then we are to-day keener than ever after the boys' clothing trade in a way so vastly different from other houses that we can honestly claim to be in a class by ourselves.

Our aim is not to sell cheap clothes because that's not the kind that you want for your boys, at the same time we keep our prices moderate and the quality of the garments up—When we opened for business in Toronto every suit was made with the plain little knee pants and for years they held sway until in recent years we introduced the bloomer pant suit with the same stylish cut as our American cousins were wearing. To-day we sell nothing but bloomers and it's wonderful how smart and chic all the boys in Toronto have become since we adopted this style. The boy with the plain knee pants looks as much out of place as a horse car would on Yonge St. in place of the trolley—

STYLES? Simmered down to facts there are just two that find most favor. They are the Norfolk with yoke and box pleats, and the double breasted with two and three buttons. Of course we have others including the single breasted sack and a full line of busters and sailors, but the heavy end of our selling is in the two styles as shown in our illustrations. Our price range starts as low

as \$4.00 and right up to \$18.00 and \$20.00. Every mail brings us letters from our boy customers and their parents and all speaking in the most glowing terms of our clothes and treatment of our boy friends—ask any of the salesmen to show you the letter file, it's brimful of boyish sentiment and appreciation. At no time in our history have we had so much suit elegance or such splendid materials as we have right now for your boys and our little men customers.

CADETS PARADED FOR BIG REVIEW

High School Boys Were Inspected by Major R. K. Barker.

THEY DID GOOD WORK

Large Crowd of Spectators Interested in the Manoeuvres.

If every parade ground were as delightful as was university campus yesterday afternoon, even the most indifferent son of Mars would fall under the lure of military exercises and march and countermarch ad infinitum, without complaint or grumble.

The high school cadets were out 200 strong, it being the first occasion when the companies of Jarvis, Harbord and Parkdale Collegiates amalgamated as a battalion for the annual inspection.

The coming of the boys in khaki was heralded by the rat-a-tat-tat of kettle drums and many shrill bugle blasts, played by the red-coated cadet band of the public schools. In good marching time the tramping troops came up the avenue, taking the curves with real veteran-like swing, deploying later into the campus at the rear of the college.

Interested groups were already gathered to greet them. Pretty girls on their way from school rested their heads on their arms and stood viewing the march with opened eyes and admiration. Mothers and nurses with baby-carriages and an occasional white-haired grandma—old age, youth and infancy—all were there, for somehow the whole world loves the boy in uniform.

The inspection was made by Major Barker. Capt. Hughes was in charge of the Parkdale contingent, Capt. Aggett of Jarvis and Capt. Webb and Heywood of Jarvis. Other officers on the field were: Col. Hagarty, Major Reid and Adjutant Dinnett. Among the interested spectators were: Principal Smith, Miss Hillock, Mr. A. Smith, Mr. Jackson and Mr. Hutchinson, all of the Parkdale Collegiate school.

At the word of command the cadets wheeled, marked time, did the "eyes front," formed in squares, gave an exhibition in rifle drill and another in flag-signaling.

The march past was the prettiest feature. The "markers" stood to position with their red flags, signaling the course. Major Barker prepared to receive the oncoming troops and the drums and bugles sent out their most inspiring notes. With steady steps the ranks advanced, each officer with his hand to the salute, and Major Barker returning it with all the courtesy and dignity of a field marshal.

The verdict of the major was that the boys did "good work," and doubtless the barefaced lads who went about with clanking swords and among them a mimic one, when played upon Canadian soil and under the dome of our fair Canadian flag.

MONTREALERS ARE QUITE ORTHODOX

Only Dozen Infidels But Seventy Thousand Non-Church-goers.

MONTREAL, May 30.—(Can. Press.)—While seventy thousand Montrealers do not go to church, there are only a dozen infidels in the city, and very few members of other than the orthodox denominations, according to figures made public today by the Montreal home visitation committee, which yesterday in a whitening religious census visited 82 per cent. of the city's homes, representing 400,000 people. A remarkably small diversity of religious faith was shown, Roman Catholics being greatly in the lead, although definite comparative figures were today refused. The largest number of children found in any one city family was 13, in a Hebrew home.

The census-takers report that aristocratic Westmount has by far the smallest proportion of children to the number of homes of any district in greater Montreal.

SECOND POLICE WOMAN APPOINTED TO FORCE

The police commissioners have appointed a second woman to the police force.

Miss Marie J. Levitt, 372 George street, superintendent of the Fred Victor Home for Girls, Jarvis street, will begin work on June 1. Miss Mary Minty was the first woman appointed to the force.

The two women will be attached to headquarters, and when the occasion demands it, will work for the morality or detective department. There will be no special uniform worn by them.

Women Sing the Praises of Dodd's Kidney Pills.

Saskatchewan Lady Adds Her Testimony To What Has Already Been Said of the Great Work Dodd's Kidney Pills Are Doing.

CAESARVILLE, Sask., May 30.—(Special.)—The scarcity of female help in a new country subjects the women of the prairies to unusual strain, and careful observation has established the fact that this strain first makes itself felt in the kidneys. For this reason Dodd's Kidney Pills are making an enviable reputation from the Great Lakes to the foothills of the Rockies. Everywhere you will find women singing the praises of the great Canadian kidney remedy that has banished their pains and weariness, and brought them back to health. Among the many is Mrs. Edgar Cowen, an estimable lady of this place. "I have found Dodd's Kidney Pills very beneficial," Mrs. Cowen states. "If anything I can say will help any sufferer I am glad to add my testimony to what has already been said." The kidneys strain all the refuse material out of the blood. If they are out of order this refuse remains in the blood, and becomes poison. That's why sound kidneys mean pure blood and good health. Dodd's Kidney Pills make sound kidneys.

Opening of Queen Mary Hospital for Consumptive Children, Near Weston—The Public Invited.

A very hearty invitation is extended by the hospital authorities to the general public to be present at these ceremonies on Tuesday, June 3, at 1:30 p.m.

As Queen Mary will perform the ceremony of opening the doors promptly at 1:30, it is important that those desiring to be present should be on the grounds at 1:15 p.m.

The hospital is reached by taking any Dundas car west to Keele street; 35 to 40 minutes are required to reach Keele street from any point, say the city hall. Change cars at Toronto Junction to the Weston car from Keele st. to Huttonwood road.

In addition to those previously announced as taking part in the proceedings, advice has now been received that Controller J. O. McCarthy will be one of the speakers. At the conclusion of the above ceremony the "Catherine Honora Prittie Memorial Building," erected by Mr. and Mrs. R. W. Prittie, will also be formally opened.

Markham street, to Dr. James Murray Cation, West Toronto, youngest son of Mr. and Mrs. Walter Cation, Snellgrove. The service, which was fully choral, was taken by the rector, Rev. T. G. Wallace. Mr. Russell Fowler presided at the organ and played softly throughout the service. During the signing of the register Mr. Charles Hindle sang "Be-cause". The bride, who was veiled in white satin charmeuse and carried a bouquet of white and pink flowers, was escorted by Mr. John Taylor and Mr. Allan Ashford. The groom was supported by Dr. R. W. Frank of Peterboro, a college class-mate. The gifts were: To the bride a pearl and tourmaline necklace; to the bridesmaid a hoop of pearls; to the groomsmen gold monogrammed cuff links, and to the organist and soloist pearl tie pins. After the ceremony a reception was held at the home of the bride's father, Mrs. Conn received her guests in black corded silk, purple hat and wore a corsage bouquet of mauve and pink flowers. The bride party, standing under a lilac arch, met the guests. Mrs. Cation was in black satin and orchids. A dainty dinner was served in a marquee. Later Dr. and Mrs. Cation left amid showers of confetti for a trip to the coast, the bride wearing a cream and black tulle dress and the groom in a tuxedo. On their return in September they will reside in their new home, 104 Gothic avenue, High Park.

BUSY WORK.

It is a well known truth that if the child is interested and busy there are few occasions for disciplinary attention. School teachers in junior classes know that "busy work" is one of the most important items in their carefully planned day. While the children are happily, busily and educationally interested in their busy work, the teacher has that rare moment with the backward one, or a few minutes to prepare material for manual training or drawing lesson, or a breathing space for her own tired self, or any kind of a rest minute that is the salvation of teachers and mothers.

And the wonder is that more mothers do not profit by the teacher's example and plan playful work for the babies.

I shall give you one device—you will probably know immediately of a dozen more.

I'll call it stringing things—and now you have thought of at least half the dozen.

The Solar Plexus a Great Nerve Centre

With the single exception of the brain itself, the solar plexus is the most important nerve centre in the human body.

Situated just back of the stomach and close to the spinal cord, the solar plexus supplies the motor nerves to the vital organs. Injury to or weakness of the solar plexus consequently means incapacity of the vital organs of the body. This explains why a blow which reaches the solar plexus means helplessness to the person receiving it.

These nerve centres all demand an enormous quantity of good, rich blood, and, failing to get this, the nerve cells are starved and depleted and fail to supply vital energy to the digestive and eliminating organs.

The wonderful success of Dr. Chase's Nerve Food in revitalizing and reconstructing the broken-down nervous system is due to the fact that it supplies nutrition to nerve cells through the medium of the blood stream.

Weakness of the stomach, failure of the liver and kidneys to filter the blood, inactivity of the bowels and feeling of fatigue and discouragement usually arise from an exhausted condition of the nervous system. The nerve centres, such as the solar plexus, have not the nerve force to work the machinery of the body.

The most natural treatment imaginable is Dr. Chase's Nerve Food, and its benefits are lasting, because it actually rebuilds the wasted and broken-down nerve cells.

And have it done quicker, more economically and with infinitely less trouble.

You can hardly appreciate the ease with which an Electric Vacuum Cleaner works until you have used it yourself.

Anyone who can use a carpet sweeper can handle it.

The entire machine weighs but a few pounds, so that it can be carried from room to room or up and downstairs without effort.

And as for results. Well, there's no comparison between laborious broom-cleaning and the easy, efficient vacuum cleaning.

On those hard-to-clean things and the hard-to-get-at things, such as tufted furniture, walls and plate rails, its effect is amazing.

It sucks up the dust and the pressed-down "nap" in a way

that restores surprisingly their fine texture and vivid colorings.

It makes your rugs, carpets and curtains look like new and causes you to regard with added pride your finished job of housecleaning.

You want a clean, healthful, sanitary home; you value shortcuts in household tasks; you are willing to consider anything that will make for better and more efficient home management. All right, then you ought to be interested in seeing the Electric Vacuum Cleaner.

Demonstrations held every day. You are invited to come and ask questions. The prices at which the Electric Vacuum Cleaner is sold make it easy for you to own one.

NO OTHER WAY

25 25 By GORDON HOLMES 25 25

(Continued From Yesterday.)

for a few minutes, and as soon as possible. I believe that no one in the place, other than Mr. and Mrs. Norton, knows of my presence, and I wish the fact to be kept quite private at present.

"Doris Waverton."

"Who brought this?" he gasped, gazing wide-eyed at the footman who handed him the note.

"One of Mrs. Norton's girls, an' a pretty one too," came the answer with a wink.

"That wink was helpful. It restored me to a semblance of self-possession. Now, if she's a pretty one, I must attend to her without delay," he smirked, and the footman announced in the ser-

vants' hall that old Rice wasn't quite such a dyed-in-the-wool bachelor as he made himself out to be.

On his way to the door, the valet determined that, come what might, he would see his former mistress, and he told the waiting messenger that he would be at the parlance a few minutes after eight o'clock.

He rushed thru his duties when Waverton had dressed for dinner, and, by eight o'clock, he was in the study at Norton's house at the appointed time. He was shown into the study, and there found Doris Waverton, who was attending in a traveling costume, and wore a large hat draped with a dark-blue morning veil. This, however, was lifted at the moment, and her charming face

was flushed with excitement and anxiety.

"I sent for you, Rice," she explained instantly, "because I did not care to trust my affairs to any other person at 'The Dene' and I signed my former name to prevent any chance of error. I want to see you—to see Mr. Waverton tonight if possible. How can I manage it?"

Rice was wrung with conflicting emotions. He was puzzled, pleased, flattered, at the same moment; but he could only blurt out a commonplace opinion that if she would authorize him to ask Mr. Claude—

"Oh I don't mean in that way," she interrupted eagerly. "I am afraid, after my Rhode Island experiences, and from circumstances that have come to my knowledge since, that if Mr. Waverton knew I was in Saginaw he would take every means in his power to avoid me. But I must see him, speak to him."

"I really must! Don't you understand, Rice? I want to take him by surprise, to come upon him so unexpectedly that he cannot refuse to discuss certain matters with me. You will help me, won't you? I am quite alone here, and I have no one else to appeal to. Can you manage this thing for me, somehow?"

Very beautiful and pathetic she looked in her pleading, and the valet, who might have been a knight errant had he lived a few hundred years earlier, vowed that he would be her slave if it cost him his job, which meant far more to him than the fret and fume of life to a light-headed troubadour.

His right hand rose to the shaved upper lip, and his left traveled to the small of his back.

"Well, ma'am, seen' as it's you, I'll do what I can."

"Ah, I was sure of you, Rice!" broke in Doris, with a catch in her voice that went to the man's heart.

"You see, it's this way, ma'am," he went on. "Bein' a fine night, an' not givin' much time to his dinner, Mr. Claude will probably light a cigar and go out for a stroll with Bob."

"Bob!" she exclaimed. "Who is Bob?"

"The old steward, ma'am, the lame dog," he remembered. "He was my particular friend. But—" She hesitated in a bewildered way until the urgency of her mission drove aside all other considerations. "You mean that I may meet Mr. Waverton in the park?"

"It's almost a certainty, ma'am. If you was to go now to the boathouse by the lake he will probably pass that way before nine o'clock."

"But, if he does not? Tonight, just because I happen to be awaiting him, he may remain in the house."

Rice coughed, sure sign of a diplomatic utterance. "In that case, ma'am, if Mr. Claude stops indoors he will be in the library, an' the drawing-room windows will be open. I'll take care that they are."

"Ah! Doris gazed her gratitude, and opened the gold purse that hung from her neck by a chain.

"If you don't mind, ma'am—I'd rather—" began the valet sheepishly.

She closed the purse with a snap, and smiled brightly. "I quite understand, Rice," she said. "You are acting as my true well-wisher, not as

one whom I could pay for services rendered."

Rice's placid face flushed with pleasure. "I can only hope, ma'am," he blurted forth, but recollecting himself, checked the expression of a pious desire, and went on to ask if she needed any assistance in reaching the boathouse, since she would probably wish to avoid the main road.

She laughed at that. "I have not forgotten my way about the place," she said. "By walking a quarter of a mile down the sycamore avenue I can enter the park by climbing a gate, and then take the path thru the wood to the lake. It is not dark, and the distance is short; so there is nothing to be afraid of, and a scampering rabbit or two will not alarm me."

So the valet raced back to the house, and, watching developments from an upper window, heard Waverton whistle

RARE ARTISTIC FURNITURE SALE

On Thursday forenoon next, June 5, at 11 o'clock, an unusually valuable and choice collection of artistic furniture will be offered at public sale. It includes exceptionally fine examples in old mahogany, rosewood, satinwood, burr walnut and other rare woods; old silver of the best workmanship; Sheffield plate, old china of exceptional beauty; bronzes, Persian rugs, and a choice number of pictures. This sale is especially worth the attention of those who are attracted by the skill of the old individual craftsmen, some of the numbers being particularly noteworthy on account of their artistic quality.

But of the many inviting lots a few may be noted as of special interest. The very fine ebony and gilt folding table, exquisitely painted in water color, representing 32 different landscapes, and forming a chess or check-board, is perhaps unique in its kind. Very beautiful are the Dresden vases and figures, among which are many superb specimens. Of historical interest is the canteen used by the late Queen Victoria on her railway journeys, a relic which cannot fail to elicit deep interest. The oriental rug will be found of exceptional value, and the whole collection will be on view on Wednesday, June 4 in the Art Rooms of C. M. Henderson and Company, 87-89 East King Street.

Bargains in High-Grade Pianos.

There is no time just as good as that on the eve of the summer holidays to obtain a genuine bargain in a slightly used piano. Ye Old Firm of Heintzman & Co., Limited, 132, 135, 137 Yonge Street, are offering a choice of slightly used upright pianos bearing the names of Mason & Risch, Gerhard Heintzman, Williams, Bell, Woodworth, Weber, and of Heintzman & Co. that are marked down to a figure far below first price, and will be sold on easy terms of payment—a good opportunity to buy a piano for the summer home.

Last Day of Palestine.

Tomorrow, June 30, this splendid exhibition will close its gates. Every exhibit will remain open till that hour. None should miss this last opportunity to see the Holy Land.

FREE TO YOU—MY SISTER

FREE TO YOU AND EVERY SISTER SUFFERING FROM WOMEN'S AFFECTIONS.

I am a woman.

I know woman's sufferings. I have found the cure.

I will mail, free of any charge, my home treatment with full instructions to any sufferer from women's ailments. I want to tell all women about this cure—your, my reader, for yourself, your daughter, your mother, or your sister. I want to tell you how to cure yourselves at home without the help of a doctor. Men cannot understand women's sufferings. What we women know from experience, we know better than any doctor. I know that my home treatment is a safe and sure cure for Leucorrhoea or White Discharges, Uterine Displacement or Falling of the Womb, Profuse, Scanty or Painful Periods, Uterine or Ovarian Tumors or Growths, also pains in the head, back and bowels, bearing down feelings, nervousness, creeping feelings up the spine, melancholy, desire to cry, hot flashes, weariness, kidney and bladder troubles where caused by weaknesses peculiar to our sex. I want to send you a complete 10 days' treatment entirely free to prove to you that you can cure yourself at home, easily, quickly and surely. Remember, that it will cost you nothing to give the treatment a complete trial, and if you should wish to continue, it will cost you only about 12 cents a week, or less than two cents a day. It will not interfere with your work or occupation. Just send me your name and address, tell me how you suffer, if you wish, and I will send you the treatment for your case, entirely free, in plain wrapper, by return mail. I will also send you free my book, "WOMAN'S OWN MEDICAL ADVISER," with explanatory illustrations showing why women suffer, and how they can easily cure themselves at home. Every woman should have it, and learn to think for herself. Then when the doctor says, "You must have an operation," it cures all old or young. To Mothers of Daughters, I will explain a simple home treatment which speedily and effectually cures Leucorrhoea, Green Discharges and Painful or Irregular Menstruation. It cures and health always result from it. Wherever you live, I can refer you to ladies of your own locality who know and will gladly tell you how this home treatment really cures all women's diseases and makes women well, strong, plump and robust. Just send me your address, and the free ten days' treatment is yours, also the book. Write today, as you may not see this offer again. Address: MRS. M. SUMMERS, Box H. 65 WINDSOR, Ont.

SATURDAY MORNING, MAY 31

NEWMARKET STANDS BY HYDRO.

Highly satisfactory to the province at large will be the verdict of the people of Newmarket on the bylaw submitted by the council to tie up the municipality for five years to a private electric corporation when the Hydro-Electric Commission plan was available. The people, in spite of the efforts of the council to carry out the affair in a secretive way, were well-informed. Hon. Adam Beck, in his usual brilliant way, pointed out the advantages and disadvantages of the situation. Mr. J. S. Beck of Brampton also contributed valuable information from the experience of that municipality.

We cannot congratulate the loudly professing public ownership press of Toronto on their attitude during the struggle. The Telegram alone, besides The World, took any active interest, and by its constant and ample treatment assisted notably in bringing about the defeat of the bylaw. The World felt that it would be a disgrace to Toronto, if a municipality, so near this central point of hydro-electric activity, had rejected the hydro proposals in favor of a corporation agreement hampered out by hydro-electric competition.

Now that the bylaw has been rejected, the Newmarket council should hasten to prepare an agreement with the Hydro Commission, and get in line as soon as possible with the electrical development of the district in co-operation with the Markham-Uxbridge-Port Perry proposals for a hydro-radial railway. This would mean even cheaper power for Newmarket than has yet been calculated upon.

WALT WHITMAN'S BIRTHDAY.

This is Walt Whitman's birthday. He was born in 1819. Whitmanians are increasing, and those who have not read "Leaves of Grass," belong to the last century. As the years pass, he is becoming recognized more and more widely on this side of the Atlantic, as he is already in England and France, as the greatest and most original of American poets. He had a particular link with Canada thru the late Dr. R. M. Bucke of London, his intimate friend and literary executor, a man whose spiritual outlook was almost as lofty as Whitman's own. Let us suggest to those who are not yet acquainted with the "good gray poet" that in celebration of his nativity they read his poem "Passage to India."

MUNICIPAL GOVERNMENT IN EUROPE

Rev. J. O. Miller, of St. Catharines, gave the Municipal Improvement Association a most interesting account of the result of his observations, when abroad, on municipal government. What impressed him most, both in England and Germany, was the permanence that distinguished it radically from United States and Canadian methods. In Germany the mayor of a city was appointed for life, and the magistrates, as they are called, the permanent heads of departments, serve on good behavior, get good salaries, and retire on pensions. Both mayors and "magistrates" are appointed by the city council, and the legislative and administrative functions are thus kept separate. This is the system The World has been advocating for some years, the term "commissioners" was used instead of the German "magistrate."

The city councils are elected for six years, one third retiring every two years. In Berlin some members had been on the council for thirty years, and 50 of the 160 which compose it, had been members over ten years.

The result of this permanency of government is that policies are laid down to cover many years. They have to make a record and they are not interfered with in putting forth their best endeavors. Munich, said Mr. Miller, was a city dating back to the 8th century, yet it was almost completely modern in every respect, and most of the German cities had been rebuilt since the Franco-Prussian war.

Another feature was that many of these cities had become astonishingly wealthy. Frankfurt adopted the policy of acquiring large blocks of land which had grown into enormous values, and that city now owned 51 per cent of the land inside the corporation limits, and 4000 acres outside, valued at \$50,000,000. Berlin owned 40,000 acres. The German cities bought land when it was cheap, and held it for the citizens. One effect was not to stop land speculation, but to check it. If an outsider bids against the city on property which the city wanted, a German official told Mr. Miller, he

might as well dig his grave in it. The city would refuse to permit streets to be opened up in it, or sewers to be laid in it, or houses built on it. The interest of the community came before that of the individual.

They make a profit out of public utilities in Germany. In Munich every house has a water meter which is read once a year. If the consumption is in excess of a certain quantity, charges are made on the excess over the regular rate. In 1500 towns in Germany there are no taxes, and in 500 they actually pay dividends to the residents. They are very careful, Mr. Miller remarked, whom they accept as citizens.

In England they had the fact, if not the form of permanent government. Officials get immense salaries. The Liverpool city clerk, in addition to his salary, got a special fee of £1200 for revising the voters' list. Mr. Miller was strongly of the opinion that everything that tended to weaken the authority of the city council tended to lower the quality of the men who would present themselves for election. A longer term of office, he believed, would raise the standard, and he was evidently in favor of the German method of separating the legislative and the administrative functions of government.

SHORTER HOURS.

Eaton's certainly take the cake. The demonstration of the advantage of shorter lively hours over longer tedious ones has been made. The fact that the big store sees the economic advantage of labor of its host of employees is an admission of much value to those representatives of labor who have pleaded for this concession in other fields of work for years. It should never be forgotten that the banks can do all their business with the public between 10 and 3. The cus-

tom houses abbreviate their relations with the public almost to the same degree. Eight hours a day is the rule in force in many departments of labor. It is to the great credit of Eaton's that they should be the pioneers in shortening the hours of the shopping public and their attendants.

A LIFE OF SERVICE.

Fortunately the board of education had the grace to perpetuate Miss How's name in the Heister How School, the splendid new building in "the ward," or Toronto might forget the long record of noble service Miss How has given the city in an inconspicuous way in the Elizabeth street school. A whole generation has passed under her influence, and there is but one opinion of the value of that influence. Children and children's children will be the better citizens for her ministrations, and the sweetness and light that has pervaded her career will pass into the characters of many a man and woman as they look back on the great-hearted guidance they had, as boys and girls, in the old Elizabeth street school.

The Philosopher of Folly

Oh, Roxin Hunkins has piles of plunks stored safely in his spacious coffers; he wants for naught that can be bought of all the things that this world offers. We envy Rox his shares and stocks, we wish that we were in his slippers, we long to eat his turtle meat and say farewell to cheese and kippers. He rolls in mines and railroad lines and gilt-edged bonds and priceless acres—yet how he fears the flying years which speed him to the undertaker's. He knows the hoard which he has stored; oftsoons he must leave here behind him; he hates to think on what vast brink another few short hours may find him. His golden boys bring him no joys when he is growing old and wheezy; a billion yen are useless then to make his hoary head lie easy. The moments fly, the hours race by, the days each hit a clip still faster unto the time when he must climb and take his stand before St. Peter. His money worth while here on earth will cut no figure at that portal—he'll have to wait outside the gate with many another foolish mortal while Peter looks thru well-kept books to see what use he made of living—and what he'll find Roxin's mind oftentimes with doubt and sore misgiving.

WEST END NEEDS AN
OPEN-DOOR HOSPITAL

Continued From Page 1.

Mr. Of this the government pays 20
cents per capita. A few words in fa-
vor of the plan and voicing his feeling
of the necessity for the proposed
hospital were said by Rev. Mr. Agar,
whose work lies mainly in the Humber
district.

Rates Too High.
A strong protest against present high
prices in hospitals was made by Mr.
Hassard, barrister. Dr. Hunter ex-
plained that high priced wards were
there for those wealthy patrons who
demand luxuries such as separate bath-
rooms, and that anything made in this
way went to the support of public pa-
tients. The outlay for which is only
partially provided for otherwise. Dr.
Hunter was altogether in favor, and
paid a high tribute to the young doc-
tors of Toronto, who he hoped would
have a large share in the new work.

To do away with a common misun-
derstanding, Dr. Hunter added that the
doctors who attend the hospitals at
present as outsiders, in no case re-
ceive financial remuneration.

Mr. McGriffin, architect, spoke on
the unit system of building, by which
extensions may be added from time to
time.

City Would Help.
The city council was represented by
Mr. McEwen, who assured the meeting
that they had everything to hope for in
the way of a grant from the city, and
if it went to a vote on a bylaw, from
the citizens also.

A standing vote was taken at the
close, the chairman announcing it unan-
imous in favor of the proposed hospital.
To collect funds is now in order.

criticism of the postoffice department
by Hon. M. J. Lemieux. That gentle-
man complained of the stamp vending
machines occupying the streets and
displaying advertisements upon boxes
bearing the name and crest of the
King.

Error of Old Regime.
To this Mr. Pelletier replied that the
contract in question had been made
when Mr. Lemieux was postmaster-
general, and conferred a monopoly so
valuable that the person who obtained
it sold his rights thereunder to a Tor-
onto company for \$200,000. The con-
tract was to run for twenty years, and
was in Mr. Pelletier's opinion most
improvident. He could not cancel it,
however, without involving the gov-
ernment in heavy financial loss, but he
had procured various amendments in
the public interest, one of which per-
mitted some of the advertising space
to be used for advertising the gov-
ernment's annuity system.

Mr. Lemieux surprised the house by
the remarkable statement that the con-
tract had been executed by Dr. Coulter,
deputy postmaster-general, without
Mr. Lemieux's knowledge or consent.

That Padlock Contract.
When the estimates for the postof-
fice department were taken up this af-
ternoon, Hon. Rodolphe Lemieux deliv-
ered a general indictment of Mr. Pel-
letier's administration. He referred
again to the contract for padlock for
mail boxes, which he declared to have
been made improvidently, and incident-
ally defended himself from the charge
of having loaded up the government
with 50,000 rural mail boxes just prior
to the general elections of 1911.

Mr. Lemieux said the rural mail de-
livery service had developed rapidly in
Ontario and this fact bore witness to
the intelligence of the people of that
province. He thought the postoffice
department should not only extend the
system in Ontario, but should endeavor
by a campaign of education, to
create a demand for it in other pro-
vinces.

Incurred Needless Expense.
Referring again to the padlocks, Mr.
Lemieux said that the minister had
contracted for 99,000 bars to be insert-
ed in the old locks which would have
made them as good as the new locks
for which the government was paying
\$1 apiece. This order for bars would
only have cost the government about
\$6000, but for some reason it had been
rescinded.

Mr. Lemieux also referred to the
stamp vending machine monopoly and

objected to the advertising matter upon
the machine.

Coming then to the subject of parcel
post, Mr. Lemieux complained that
the bill before the house was incom-
plete, giving no details as to the size
and weight of the packages to be car-
ried or the rates to be charged thereon.
He intimated that perhaps the post-
master-general would have a better bill
the next session.

Would Defeat Parcel Post.
Mr. W. P. Maclean (S. York) depre-
cated Mr. Lemieux's implied suggestion
that the establishment of parcel post
might be deferred. Powerful influ-
ences, the influence of the railway com-
panies and the express companies, had
caused the subject of parcel post to be
postponed from session to session in
the past. They were no doubt at work
now. The house by unanimous vote
had adopted a resolution last session
in favor of the parcel post and legis-
lation had been promised at this ses-
sion.

Should Vindicate Principle.
The bill before the house at least es-
tablished the principle, and that prin-
ciple should be vindicated by legisla-
tion at this session. Under it, and
under existing legislation, the post-
master-general could by departmental
regulation give a real parcel post sys-
tem to the people of Canada within
thirty days. The successful working
out of the experiment in the United
States would make the postmaster-
general's task easier. Why should Can-
ada lag behind all other nations in re-
spect to this important service? He
appealed to Mr. Lemieux and the op-
position to join hands with the gov-
ernment.

Mr. Lemieux protested that he was
in favor of the principle of parcel post,
but he would prefer a bill which would
give some information to the house
and to the country. Were there to be
"zone" rates or a flat rate?

Should Clear Way.
Mr. Maclean said he would also pre-
fer to see the bill more specific and
perhaps further legislation might be
required after the experiment was
once under way, but he preferred
passing Mr. Pelletier's bill to passing
no bill at all. Its passage would re-
gulate express rates and be of great
value to the country.

"I say" to the postmaster-general
proceed at once by legislation or regu-
lation or both to give this service to
the people of Canada. I ask him here
and the railway companies holding the
bill up? He may be sure that the
people of this country will begin to
suspect that they are doing so if
nothing is done at this session.

Not Too Late.
Mr. Maclean, commenting upon the
excuse that it was now late in the ses-
sion, said that it so happened that at
nearly every session some political
constituent measure like the parcel
bill occupied the attention of the house
to the exclusion of what he would call
domestic questions. An important
matter like the parcel post or railway
and express rates can scarcely receive
any attention. A Winnipeg news-
paper recently declared that unless the
principle of equality in freight rates
was dealt with soon it would become
more important than the navy or tariff.
Two years ago reciprocity occupied all
the time of parliament, and the next
session might be occupied with the
constitutional question of the powers
of the senate.

Two Sessions in Year.
It seemed to him that there should
be two sessions in a year or one ses-
sion broken into two parts, so that at
least half the time of parliament could
be given to economic or domestic
questions. It might be desirable for
the government in the near future to
convene parliament for the specific
purpose of dealing with railway, ex-
press and telegraph rates and ques-
tions of interest to the people, such
as the parcel post and a state-owned
cable.

Urges State Cable.
In this connection he said there was
some doubt as to the ability of the
wireless company which had been in
communication with the government
giving the transatlantic communica-
tion desired, but there could be no
doubt as to the ability of a wire un-
der the sea owned by the government
doing the work and doing it cheaply,
say at six cents a word or less.

Mr. Lemieux: "A penny a word is a
slogan."

Mr. Maclean: "But you will never
get a penny rate from any private
corporation." (Applause.)

Mr. Nesbitt (North Oxford), while
not openly opposing the parcel post,
said the member for South York was
making his usual Friday afternoon
speech. He should stay in the house
and work as Mr. Nesbitt did.

Mr. Maclean: "Who are you holding
a brief for?" (Laughter.)

Pelletier Defends Estimates.
Postmaster-General Pelletier, after
dealing with several matters in Mr.
Lemieux's speech, said the increase in
the estimates in his department was
more apparent than real. By the legis-
lation of last session the pay of the
letter-carriers had been increased and
a number of men formerly carried as
laborers had been admitted to the
classified service. He would not apolo-
gize for their increases, but hoped
to increase the pay of the railway
mail clerks and of the postmasters.
He thought the minimum salary of
\$35 was too low and hoped soon to
increase the revenue the postmas-
ters with the inauguration of the parcel
post.

Mr. Pelletier said the actual in-
crease for 1913 and 1914 over 1912-13
was \$6000, instead of \$14,000,000,
proportionately a normal increase due
to the rapid expansion of the service.

Stamp Machines' Contract.
Mr. Pelletier then went after Mr.
Lemieux in connection with the stamp
vending machines. The contract for
these machines was a baby laid on
his doorstep by his predecessor. Mr.
Lemieux in 1911 had made a contract
with the patentee, Miss Fawns, to run
for 20 years. Under this contract the
licensee had authority to place the
machine on any street corner in Can-
ada with the license to vend the
stamps and the government was pre-
cluded from using any other machine.
It was an astounding monopoly.

Mr. Burnham: "Do not the municipali-

ties control their own streets?"

Mr. Pelletier: "Not as against His Ma-
jesty's post. The postmaster-general may
erect a pillar and hang a box for mail
anywhere in Canada. By this astounding
contract the powers in that regard are
delegated to this monopoly. Under the
contract the corporation owning the ma-
chine gives a commission of two per cent.
of the proceeds of the sales and all the
proceeds from the advertisements."

Mr. Pelletier said he had prepared some
amendments, but the contract was a very
easy's post. The postmaster-general may

erect a pillar and hang a box for mail
anywhere in Canada. By this astounding
contract the powers in that regard are
delegated to this monopoly. Under the

chine gives a commission of two per cent.

BOWLING TOURISTS WON AT QUEEN CITY

Netted Their Third Straight Victory by Winning by Six Shots—Play Again Tuesday.

The Canadian Tourists again succeeded in trouncing their city brethren yesterday afternoon on the Queen City lawn when they won from four rinks of that club by six shots and now have three wins to their credit. The Canadian Bronchos as they have christened themselves are trundling in great style these days, and in spite of the determined opposition encountered in their games, however, they have as yet been able to show their supremacy. D. T. McIntosh of the Queen Citys won a hard game from W. O. McTaggart by one point, but Capt. Tom Rennie succeeded in downing W. Philp for four points. C. O. Knowles of the Tourists had a proverbial cinch and won easily from A. Hewitt by the score of 23 to 12. Another Queen City rink were victorious, skipped by H. A. Halsey, who defeated R. B. Rice, 18 to 10.

EATON A.A. FIELD DAY.
That the closed events at the Eaton A.A. meet at the island stadium, Saturday, June 14, are creating a lot of interest amongst the employees of the big store is evidenced by the fact of the number who are training at Varsity Stadium, and sundry other tracks. Teams from the different departments can be seen practicing in the lanes and other highways at any noon hour.

Jack Tressider and Gordon Sadler of Niagara Falls should furnish a great race in the 220 yards, as Tressider is going out to show that his victory at the Ontario championships over the suburbanized boy from the Falls was no fluke.

WHISKBROOM WINS THE METROPOLITAN

Splendid Performance of the Whitney Horse After Being Left at the Post.

BELMONT PARK, N.Y., May 30.—HARRY FAY, trainer, and his horse, Whiskbroom II, flashed under the wire a winner in the Metropolitan Handicap at Belmont Park race track today, in the presence of a throng of more than 25,000 persons, who had gathered to witness the turning of this notable turf event, marking the revival of racing in New York State. The Whitney horse, ridden by jockey Joe Notter, had practically been left at the post, but won well in hand in 1:39. It was the first appearance of the son of Brookmark and Audience, a purely-bred American horse, on an American track. The horse was brought here this year from England, where he had acquired himself creditably, and was trained for today's event by the veteran James Rowe. Richard P. Carman, who owns and trains G. M. Miller and Meridian, winner of the Kentucky Derby two years ago, took the remainder of the post, as the pair finished second and third as named. There was no attempt at open betting before or during the race. Many oral wagers were made, but in such a manner that the legal authorities were not called upon to interfere. Summary: **FIRST RACE**—Steeplechase, for three-year-olds, \$400, six furlongs, main course: 1. Ella Bryson, 109 (Hanover), 6 to 1, 2 to 1 and out. 2. Lysander, 100 (Wolf), 4 to 1, 3 to 5 and 4 to 5. 3. Whiskbroom II, 114 (Trozier), 6 to 5, 1 to 2 and out. Time 1:13 4-5. Stickle, Isabel, Monoreith, Ambrose, Sleuth, Buns of Keys, Trifler and Lawsuit also ran.

SECOND RACE—Two-year-olds, \$400 added, five furlongs, straight: 1. Punch Bowl, 104 (Butwell), even, 1 to 3 and out. 2. Surprising, 104 (Hanover), 4 to 1 and 2 to 1.

THIRD RACE—Three-year-olds and up, 11-16 miles: 1. Everett, 100 (Shuttlinger), 7 to 2, even and 1 to 3. 2. Donald Macdonald, 119 (Glass), out. 3. Star Gaze, 98 (McCahey), even. Time 1:46. Strenuous, Fred Mulholland and Kormak also ran.

FOURTH RACE—The Metropolitan Handicap, for three-year-olds and up, \$2500 added, one mile: 1. Whiskbroom II, 114 (Notter), 3 to 5, 3 to 5 and 1 to 4. 2. G. M. Miller, 100 (Rightmire), 4 to 1 and 2 to 1. 3. Meridian, 120 (Hanover), 2 to 1.

FIFTH RACE—Steeplechase, for maiden four-year-olds and up, \$400 added, about two miles: 1. Roland Paine, 137 (Clarke), 3 to 1, 4 to 5 and out. 2. Adventurous, 135 (Corbett), 7 to 1, 2 to 1 and out. 3. Bolsterous, 135 (Noe), 5 to 2, 4 to 5 and out. Time 4:26. Pilot II and Nosegay also ran.

SIXTH RACE—Two-year-olds, \$400 added, selling, about five furlongs: 1. Naled, 104 (Wolf), 5 to 1, 3 to 1 and 7 to 5. 2. Athletic Girl, 105 (Radtke), 5 to 1, 3 to 5 and 4 to 5. 3. Water Lady, 106, 5 to 1, 3 to 5 and 4 to 5.

SEVENTH RACE—Wooden Shoes, Beau Pere, Broomedge and Perth Rock also ran.

BALTIMORE RESULTS.

FRENCH DRIVER TRIUMPHS IN LONG RACE

but his car was taken out early because of engine trouble. Finished With Car Ablaze.

Charles Merz, who finished third in a Stata, brought the thrill to the crowd, estimated at 100,000, when he drove the last lap of the race with his car on fire. The flames broke out in the upper stretch turn, and Merz refused to stop at the pits until he had circled the track another time and finished the race. Coming down the home stretch in the finish, Harry Martin, Merz's mechanic, climbed out on the hood of the car and unbuckled the straps, so the pit men could extinguish the flames immediately.

Four out of the eight foreign cars entered finished in the prizes, the other four being forced out by broken parts. The Sunbeam, an English car, driven by a Frenchman, Albert Guyot, came in fourth. The other foreign cars in the money were: Pilette's Mercedes-Knight (German), which was fifth, and Mulford's

Mercedes (German), seventh. The three Italians were forced out of the contest.

Heat Affected Speed.
The race was a little more than ten minutes slower than last year's contest, which was run in 6:21.06. This was due, it was said, in a large measure to the intense heat, which necessitated many changes of tires. Another thing which caused a slower time was the fact that this year the piston displacement was limited to 450 cubic inches, while last year the race was a "free-for-all." All the speedway records for the class of cars were broken up to 250 miles, when the many stops at the pit began to cut down the average.

Goux, the winner, complained at every stop at the pits because his manager refused to let him put his car to its highest speed. He claimed that he could have made much better time, but his manager contended that, as he was in the lead from the 140th mile, there was no use to let the car out.

Winner's Record.
Goux first won fame as a race driver in France, where he was victor in a 402-mile race. He is coming here to his highest speed. He claimed that he could have made 306 miles 307 yards in sixty minutes in the same car in which he raced today. His record in the 402-mile race broke all European records for the distance, while his performance at Brooklands track broke all records.

Burnham, who was the favorite in the betting, ran a hard-luck race. In the 55th lap his car caught fire in the back stretch. He put this out and ran to the pits, where he had to change carburetors. He had to make several other stops at the pit and was relieved at the wheel by Hugh Hughes, who was still on the track, about 20 laps behind when the tenth car finished.

Early in the race Evans Mason turned completely around on the lower turn, but the car stayed on its wheels and Evans continued until near the end of the contest.

The Winnings.
Besides the prizes and trophies offered by accessory concerns, the following prizes were given by the speedway management to the winners, which, with their times, follow in order:

Peugeot, Goux, \$3,334.50
Mercer, Wishart, \$4,400
Stutz, Merz, \$5,035.75
Sunbeam, Guyot, \$7,050.10

Leafs Lose Morning and Win Afternoon Game--One Hit Game at Brantford

TWO OUT OF THREE FOR LEAFS WON AND LOST YESTERDAY

Kid Jamieson Had the Kelley Band Buffaloed in Morning Fixture and Bisons Won Easily--It Was a Different Story After Dinner.

BUFFALO, N.Y., May 30.—(Special.)—Buffalo and Toronto broke even in the games today, the Herd taking the first game by a score of 5 to 1, and Toronto capturing the second game before 12,000 fans by a score of 7 to 4. The weather was ideal for baseball and brought out big crowds for both games.

Kid Jamieson's steady pitching, with great support, was responsible for Buffalo taking the morning game by a score of 5 to 1. Maxwell started off nicely for three innings. An error by McConnell in the fourth bothered him some, but he came back strong in the fifth, only to go to pieces in the sixth. Manager Joe Kelley allowed Maxwell to finish out the innings, although five hits were made off his delivery.

For a time in the second innings it looked as if the Maple Leafs would gather in some tallies. After Tim Jordan had grounded out to Beck, Northern sent a dandy single into left field, and, with Holly and McConnell to help him along, things looked bright for the visitors. Northern, however, took too long a lead at first, and before he realized what had happened Jamieson shot the ball to Beck, leaving nothing for Northern to do but try for second, but Roach was there with the ball to greet him. Holly then drew a base on balls and McConnell followed with a single to left. Graham was unable to keep up the good work, and his dribble was nipped by Jamieson.

In the fifth Holly got as far as third, where he died. He beat a grounder to Truesdale, and reached second on McConnell's sacrifice. On Graham's out to Beck, Holly went to third. Maxwell's liner had the earmarks of a double, but Truesdale stopped it en route. Toronto's only run came in the seventh. Northern was given a free ticket to first and went to second on Holly's single to right. Schultz, batting for McConnell, forced Holly at second, Truesdale to Roach, but Northern reached third, and went home on Graham's sacrifice fly to Murray.

The Herd could not do much with Maxwell the first three innings. After Deining went out in the fourth, Jackson got a life when McConnell booted his slow grounder. Maxwell, after pitching a few balls to Murray, suddenly made a quick return, expecting to find Jimmy napping. Jimmy was not fully awake, but when he saw the ball within a few feet of him he swung blindly, and, as luck would have it, Murray connected, and the ball went bounding into centre. Jackson taking second, Maxwell tried to catch Jackson at second a few minutes later, but the throw was low, and the ball went thru Holly, Jackson and Murray each advancing a peg. Bues sacrifices fly to left scored Jackson. Jordan grabbed Beck's grounder, stopping him in a very bad inning in the sixth. Truesdale beat a bunt to McConnell, and Deining's sacrifice gave him second. He scored when Jackson singled to left, Jackson continuing on to second on the throw in. Murray's out, Holly to Jordan, sent Jackson to third, and he scored on Bues' stinger to Bradley. Beck's hot liner stung Holly.

Tuesday promises to make baseball history in Toronto. Joe Kelley and the champion Leafs will have their innings on June 2, the King's birthday, and one of the biggest crowds that ever attended a game in Toronto will turn out. The seats went on sale yesterday, and a big sale was the result. Rochester will be the Leafs' opponents, and a special program will be staged.

As you well know, there is nothing else in all the world which makes money so rapidly as a thoroughly proven and producing mine, when one is found. In the King's Quicksilver Mining Company you will find such a mine, which is admitted to be the richest in California. The Company's property has been thoroughly proven, and for the past seven years has yielded the handsome return to its former owner of over \$150,000 per day, when in operation, although the furnaces and methods employed in extracting the metal were of the crudest, and the loss in values consequently heavy. The KING'S QUICKSILVER MINING COMPANY have purchased this valuable property, and are installing the most approved and up-to-date furnaces and concentrators, and their output, in consequence, will be very greatly increased, with practically no loss in values. Before erecting these furnaces and concentrators, the directors deemed it advisable to thoroughly prove the extent and value of the ore body. This was done by sinking, and also by tunneling, and the results have been beyond the expectations of the most sanguine. Not only did they find the values to continue at depth, but to have increased in value, and they now have blocked out 104,167 tons of ore, enough to supply a 30-ton plant of 24 hours per day for nine years, which means a monthly yield of at least 600 flasks of quicksilver.

To provide the necessary funds for the erection and completion of the plant, a limited number of shares are now being offered for public subscription, which we have the good fortune to be able to offer to our clients and friends at 70c per share.

NOW IS YOUR OPPORTUNITY, and we cannot impress upon you too strongly the extraordinary money-making chance the purchase of this stock offers. For Illustrated Booklet, which you are sure to find of great interest, as it tells all about quicksilver, how it is found, and to what uses it is put, we shall be pleased to mail you upon request, or should you care to call at our offices we will be glad to furnish you with the fullest particulars.

NEW REGULATIONS FOR "MOVIE" SHOWS

Tax Will Be Levied on Cabinet and Not on the Machines.

The moving picture shows of Ontario after June 1 become subject to regulations more stringent than any yet imposed. The whole license system is changed and instead of proprietors being taxed for the number of machines operated, the assessment falls on the cabinet and this will be graduated according to population.

In cities exceeding 15,000 people, the fee will be \$150 per cabinet; in those above 2000 it will be \$100, and the lowest scale is \$75. Fifty cents will be charged for each exchange reel of film and traveling licenses are fixed at \$10.

To insure careful manipulation of machines, the examination of operators will call for \$5 at the time and \$3 per year afterwards.

In view of differences of opinion which may occur, the provincial secretary will obtain an appeal board to handle appeals from the judgment of the censors.

The department states that the principal changes come thru a desire to protect the public from danger by encouraging better houses and more machines to be run in safety.

CANON STARR IS DEAN OF ONTARIO

Succeeds Former Dean Bidwell, Now Bishop-Elect of Kingston.

KINGSTON, May 30.—(Special).—Bishop Mills has appointed Canon Geo. Lophor Starr, St. George's Cathedral, rector of the cathedral and Dean of Ontario, succeeding Dean E. J. Bidwell, bishop-elect of Kingston.

UP TO CHURCHILL TO PROVIDE SHIPS

London Papers Agree That Constitutional Crisis Opens Up in Canada.

LONDON, May 30.—(C. A. P.)—Tonight's papers have little to say about the rejection of the navy bill. The Evening Standard and Globe are agreed that a constitutional crisis now opens in Canada, and The Pall Mall Gazette, along with The Globe, declares that now that the three extra ships necessary cannot come from Canada, it is up to Winston Churchill to provide them.

All three papers studiously refrain from expressing an opinion on the merits of the Canadian dispute, although The Standard regrets that a great imperial matter should have been dragged in the dust and sweat of party politics.

Summer Resorts

Come to Muskoka

And let the pine-scented, bracing air fill out the corners in your winter-cramped lungs. Let the breezes of a hundred lakes sweep the cobwebs of care and work from your mind. Let good, honest, wholesome food and the sound, dreamless rest of cool, still nights build up health and vim you haven't enjoyed since childhood. All this and more, if you holiday on the Muskoka Lakes during June or July

when hotels give reduced rates, when the fishing is at its best, when boating, bathing, canoeing, sailing, golfing, tennis, dancing, etc., are at their height. Over fifty good hotels, rates from \$6 per week up, are at your service—all sanitary arrangements being Government inspected. Convinced to Toronto, there is simply "no place like the Muskoka Lakes." Come up and see.

The Royal Muskoka, Canada's most luxurious Summer Resort, opens June 28th. For booklet, write Toronto Office, 220 King St. West. Phone Ad. 1567.

STOCKS BREAK TO NEW LOW RECORDS

Acute Weakness in Toronto Exchange With Usual Favorites All Down.

C. P. R. LEADS DECLINE

Wall Street Sells the Stock in Toronto Market—Parallel Is Drawn.

New low records for the year were registered in the Toronto stock market yesterday on half a dozen more or less prominent issues during a continuation of the bearish movement which has been in effect recently. Wall Street was away yesterday, so local financiers had nothing but the action of London to guide them. Early cables reported the old country exchange as irregular and generally weaker, and this was the signal for a resumption of liquidation here.

The market was in no shape to withstand realizing, and prices broke sharply as soon as pressure was exerted. Acute weakness in the Montreal exchange was another unfavorable factor, the bearish prediction of Sir Rodolphe Forget, published in the morning papers having evidently inspired the throwing overboard of stocks. Meanwhile it was reported that several big Canadian speculators had been forced to take big losses in C. P. R., and it was hinted that they might be forced to liquidate other securities on that account.

Trading More Active.

Our market was more active than in some days, stocks being pressed for sale all over the room. C. P. R. was quoted lower in London and responded with a sympathetic decline here, dropping to 22 1/2, a loss of a full three points for the day. 13 for the week, and 17 for the month. Over 800 shares changed hands, and it was stated that considerable of this represented selling for Wall Street account. Some arbitrage was also done with London.

Outside of C. P. R., the active spots in the Toronto exchange were Canadian Pacific, Toronto Railway, and Spanish River. The former sold off almost a point to 92 1/2, the bottom figure in three weeks, and the close at 93 left a net decline of half a point. Toronto Railway was offered down at 140, Spanish River held remarkably well, considering the volume of liquidation, the range being 56 to 57, with the last sale only a quarter under Thursday's close. Winnipeg R.R. broke 4 points to 197, duplicating the previous low level of the year. Muddy sold at 81, and wound up on offer at 80 1/2, making a new low record in two months. Richelleu, which is one of the prime Montreal favorites, was knocked down to 106, off about 2 points for the day, and below the low level reached here on the decline of last October. Steel Company at 22 1/2, Maple Leaf at 53, Macdonald at 51 1/2, and Bread at 2 1/2, all at new low levels for the year. Commerce and Hamilton in the bank stocks were both easier.

C. P. R. DOWN AGAIN IN LONDON MARKET

Undigested New Issues Acted as Depressor in Capel Court.

LONDON, May 30.—Money was dearer but discount rates eased off today.

On the stock exchange the effect of the signing of the peace treaty was offset by fears of renewed trouble among the Balkan allies, and with forced continental liquidation the market was flat in all sections, especially Canadian and Brazilian rails. The conclusion of the settlement failed to produce increases in the rail, and the undigested new issues acted as an additional check on the operations. March shares recovered slightly.

American securities were weak on the Union Pacific-Southern draw a dissolution scheme. Prices opened unchanged, but later gradually eased off under the lead of Canadian Pacific. Final prices ranged from 1-4 above to 2 points below.

UNDERWRITERS LEFT WITH SEVENTY P. C.

That Was History of New Issues This Week in London.

LONDON, May 30.—The condition of the new issue market was shown in the fact that this week, while \$32,500,000 were offered in seven issues, \$22,500,000 were subscribed. The balance of \$10,000,000 was left with the underwriters. The issues came from South Africa, Brazil, Chili, Canada, Wales and England. The underwriters have to take \$1,980,000 out of the City of Victoria issue of \$2,115,000. If the peace agreement is signed today there is every hope that the new issues will be greatly aided.

The Gloom Makers

The financial page of one of our contemporaries was delightfully bearish yesterday and calculated to give a few margin traders still left in Canadian stocks the finest of cold feet. To back up two articles showing why C. P. R. shares should go to pieces, on the same page such an authority as Sir Rodolphe Forget was quoted as predicting less than 200 for C. P. R., 150 for Laurentide, 85 for R. and O., and 30 for Steel.

Lest Mr. Forget be taken too seriously his past predictions on some of the same stocks a couple of years ago should be recalled. Then he was equally as confident that there was no top to prices. His opinion of Quebec Railway might also be taken as indicative of his claim to being an authority on stock market prices.

But it was ever thus, or the public would not provide the funds for keeping stock exchanges in existence.

For the benefit of those who are not day to day speculators it might be pointed out that present conditions are highly favorable for the purchase of securities of assured dividends.

Sir Rodolphe would appear to be trying to fill the role occupied in the United States by Tom Lawson, the market forecaster. The Boston apostle of finance has long since been discredited.

UPS AND DOWNS IN NEW YORK MARKET

Averages of Railroad and Industrial Stock Values at Bottom For Year.

The average prices of stocks in the New York market are now ruling practically at the bottom levels of the year. The twenty railway securities which are used by The Wall Street Journal as the standard, and everywhere accepted as the barometer of that section of the list, have dropped steadily since January, each month recording a new low record, a fact which chart enthusiasts will view as an indication that the trend is still downward. The twelve industrial, on the other hand, have made a somewhat better showing.

The following table gives the statistics by months and the comparisons with recent years:

	High.	Low.

FAILURE RECORD MAKES POOR SHOWING

Commercial Mortality Is Running Much Heavier Than Last Year at This Time.

Those who regard the record of commercial mortality as one of the best indications of the state of business will find ground for thought in the latest exhibit. Figures in Canada last week totaled, against 16 the same week last year. They have been running steadily in excess of 1912 of late, a fact which is accepted as another sign of a reaction in our prosperity. The record, as compiled by Dun's, follows:

Date	On	Off	Net	Total
May 22	3	1	2	34
May 23	11	1	10	33
May 24	10	1	9	31
May 25	10	1	9	29
May 26	12	3	9	34

BIG DEMANDS ON CAPITAL IN GERMANY

NEW YORK, May 30.—A Berlin dispatch says: While German money stringency has relaxed slightly, it still expects permanent alleviation as large demands will have to be met in the next two months. One group of Berlin houses is co-operating with Paris bankers in underwriting Mexican bonds, while another has joined with New York bankers to bring out \$25,000,000 bonds of National Railways of Mexico.

MORGAN AND CO. IN BIG MEXICAN LOAN

NEW YORK, May 30.—The local participants in \$100,000,000 loan sanctioned by Mexican cabinet are said to be J. P. Morgan & Co., Kuhn, Loeb & Co., and Spayer & Co. Coutts Bank in London is named as English participant. These banks are associated with Bank de Paris et des Pays Bas, and Credit Lyonnais.

SHARP BREAK IN MONTREAL MARKET

Avalanche of Selling Orders Almost Demoralized Trading in Morning.

BUT RALLY FOLLOWED

Feeling at Close Was That Liquidation Has Improved General Situation.

MONTREAL, May 30.—The slow and steady decline in progress in the local market for some days culminated at least temporarily, in a sharp break this morning with C.P.R. once more leading the movement. Expectations of a dull and steady market in view of New York being closed were disappointed early in the morning. The market opened weakly at 22 1/2, the stock opened locally at 22 1/2, the dividend, or at the equivalent of 1 1/2 down from the close here on Thursday. The general list broke early in the day under the influence of the big leader and a sharp wave of liquidation swept the market.

C.P.R. dropped steadily to a low of 22 1/2 and continued thru the day at only fractional rallies from the bottom price, closing at 22 1/4 with a net loss of 2 1/2. Power broke 4 1/4 to 21 1/4, Richelleu 3 1/2 to 106. Textile 1 1/2 to 30. These were the issues on which the selling converged, but the rest of the market reflected the pressure and declines were general. Ottawa Power broke four points to 173, Scotia 2 1/2 to 78, Detroit 1 to 10, and 92 1/2 to 93 1/2 and Iron 5 1/2 to 46 3/8.

Rallied in Afternoon.

The morning market closed with only fractional rallies from the low prices, but the liquidation had apparently run its course, and despite continued heaviness in C.P.R. the general market scored a substantial rally in the afternoon, closing with a much improved tone and no pressure on the Silver Bar property.

On the rally Montreal Power was a notable feature, advancing steadily to 21 1/2 and closing with the loss reduced to 3 1/4. Textile rallied from a low of 80 to 81 1/2, closing at its best price of the day. Richelleu closed 107 1/2 bid, Iron closed at 46 3/4 bid as compared with a low of 46 1/4 in the morning. Winnipeg Railway rallied from 199 to 200 and closed the latter price bid. A few stocks made little response to the better feeling, but the notable improvement in leaders like Power, Textile and Richelleu was significant of a sold out market and a sharp reversal of sentiment. The market therefore was held to have given an excellent account of itself in view of the feeling for some time that liquidation such as broke today was imminent and waited only an impetus such as that furnished by the C.P.R. break early in the day.

NEW ISSUES FALL BELOW LAST YEAR

Financing Across Border For This Month—Big Maturities in June.

NEW YORK, May 30.—The new financing announced by railroad and industrial corporations thus far in May represented a sharp drop from the \$79,600,000 of the full returns for May 2 year ago were \$88,833,800. The total for the month thus far, as given above, does not include the \$45,000,000 bond issue of the City of New York. Next month's maturities of railroad and industrial corporations aggregate, it is estimated, \$84,820,856, as compared with \$183,890,000 in June last year. The burden of refunding in June falls heaviest on the Baltimore & Ohio, whose maturing issues for next month amount to \$44,992,530.

MARKET HOLIDAYS

The New York stock exchange, the cotton market and the Chicago board of trade were all closed yesterday over the holiday (Decoration Day). The New York, Toronto and Montreal stock exchanges and the Standard exchange will be closed all day today also.

WINNIPEG GRAIN MARKET.

WINNIPEG, May 30.—Trading on the market today was extremely dull, practically nothing doing in either cash wheat, export or options. Option opened unchanged to 1/2c lower, and closed 1/2c to 3/4c higher. Demand for cash wheat was dull, with prices 1/2c higher. Oats and flax were steady. In sight for inspection 42 1/2c. Cash: Wheat—No. 1 northern, 94c; No. 2 northern, 91c; No. 3 northern, 88c; No. 4, 85c; No. 5, 82c; No. 6, 79c; feed, 84c; No. 1 red, 88c; No. 2, 85c; No. 3, 82c; No. 4, 79c; No. 5, 76c; No. 6, 73c; No. 7, 70c; No. 8, 67c; No. 9, 64c; No. 10, 61c; No. 11, 58c; No. 12, 55c; No. 13, 52c; No. 14, 49c; No. 15, 46c; No. 16, 43c; No. 17, 40c; No. 18, 37c; No. 19, 34c; No. 20, 31c; No. 21, 28c; No. 22, 25c; No. 23, 22c; No. 24, 19c; No. 25, 16c; No. 26, 13c; No. 27, 10c; No. 28, 7c; No. 29, 4c; No. 30, 1c.

MONTREAL GRAIN AND PRODUCE.

MONTREAL, May 29.—There was no improvement in the demand from foreign buyers for grain, and the few bids received for wheat were 5d to 10c per quarter out of line from sellers' views. The grain is also limited, owing to the fact that supplies in most cases have some quiet and steady. Millfeed is unchanged, and the demand is slow. Butter is steady, with a fair trade passing. Cheese is quieter. Eggs active and steady under a good demand. Provisions fairly active.

ACUTE DULNESS IN MINING EXCHANGES

Liquidation Dries Up and Stocks Develop Firmer Tone—Rally Under Way.

Liquidation dried up to a considerable extent in the mining exchanges yesterday and at the same time business fell off to a material degree. This was only natural in view of the approaching holidays, the fact that the transactions were the smallest in some days was looked upon as rather surprising. On ordinary principles the fact that the trading had turned so dull after the decline would be accepted as an indication that the bear ammunition had been exhausted, and that view was taken by various brokers who regarded the market as in an oversold condition.

With the removal of pressure from the list, several of the favorites demonstrated the fact that they could still display considerable resiliency. Such stocks as Dome Lake, McIntyre and Pearl Lake in particular adopted a more buoyant trend, and the day closed with sharp gains in all of these issues.

Dome Lake was up ten points to \$2.20, a full 45c above the recent low level. McIntyre gained some 15 points to \$3.25 and Pearl Lake moved up to \$9 1/2, which compared with a bottom price of 48 on Thursday. Hollinger was the only weak spot of the Porcupine. This stock dropped back to \$17 on the Toronto exchange, thus duplicating its previous low level for the month. Swastika was easy at 5 3/4, a new low record, but it closed slightly better than that figure. Porcupine Gold continued its recovery, selling up to 12 and closing on offer there. This was just double the extreme figure of the dip of the preceding day. Freeport was up a large fraction to 4 3/8 on improved buying on favorable report from the Silver Bar property.

In the Cobalt dulness was the general rule and price changes were few and far between. Bailey sold at 3 1/2, Chambers-Pearl at 20, Great Northern at 17 and Peterson Lake at 21 1/4. Rochester at 3 1/4 was at a new low for the month.

WILL REOPEN THE OLD MILLERETT

New Owners of Gowganda Property Will Start Active Work Again.

The Miller Lake O'Brien Mining Co. is now operating the Millerett mill and has a short time open up the old workings of the Millerett. The Millerett was the first producer of the Gowganda camp and still holds the high record for the amount of ore shipped. It has been shut down for some time. About a year ago it was purchased by the Miller Lake O'Brien.

HIGH-GRADE ORE AT OLD SILVER BAR

COBALT, May 30.—The Silver Bar now has about six tons of high-grade sacked and ready for shipment. The ore has all been taken from stopping and development below the 50 foot level where the work of the Preston East Dome, which now has the old Cobalt property, found a good shoot some time ago. This has now been developed for twenty feet.

ANOTHER STAMP MILL IN PORCUPINE CAMP

PORCUPINE, May 30.—The new five stamp mill, which has been built by the Three Nations, is completed and it is likely that it will be turned over in a week and ore run thru. It has been decided to sink a prospect shaft 400 feet on the Twin property in the vicinity of the purpose of exploration. It is probable that some diamond drilling will be done.

KIRKLAND LAKE CAMP IN THE LIMELIGHT

SWASTIKA, May 30.—Interest in the Kirkland Lake camp is growing fast. The government is going to spend from \$2500 to \$3000 a mile on the line between Swastika and Gull Lake. In the camp there is promptness in starting work is being most favorably commented on.

GOWGANDA DISCOVERY.

GOWGANDA, May 30.—It is reported that a strike of 4000 ounces of ore was made on the Main mine driving for another vein was in progress. This discovery, if correct, will mean much to the property and the camp.

LIVERPOOL COTTON.

LIVERPOOL, May 30.—Cotton futures closed quiet, May, 8.38 1/2; June, 8.38 1/2; July, 8.38 1/2; August, 8.38 1/2; September, 8.38 1/2; October, 8.38 1/2; November, 8.38 1/2; December, 8.38 1/2; January, 8.38 1/2; February, 8.38 1/2; March, 8.38 1/2; April, 8.38 1/2; May, 8.38 1/2.

CORBETT'S 3 STAR IRISH WHISKY

There is a fascinating mildness about "Corbett's Three Star" Whisky that will please you. It has one of that pronounced flavor identified with many Irish Whiskies, but is a Whisky thoroughly mellowed and matured, breathing an air of purity and charm that cannot fail to appeal. Every bottle of "Corbett's Three Star" has the "Veritas" guarantee of excellence which protects you from inferior brands.

BURNSIDE CLAIM HAS GOOD SHOWING

Vein Runs Two Ounces in Gold to Ton in the Shaft.

KIRKLAND LAKE, May 30.—The showing on the Burnside, which adjoins the Foster claim upon which work is proceeding, is now very promising. The shaft is down 25 feet. At that depth the vein shows extremely well defined about a foot in width. It is reported that it runs about two ounces to the ton.

It is also stated that for ten feet the wall rock will make excellent milling ore. This claim is not owned by the Aladdin Cobalt Mining Co., but by interests associated with that English concern.

TORONTO MEN BUY GOLD MINING CLAIM

Kirkland Lake Property Changes Hands—Active Development Planned.

The two Huron claims, a mile south of Gull Lake, and the Foster have been optioned to Mr. Arthur Penman of Toronto and his associates. Several thousand dollars first payment has already been made and total, it claims are taken up, will reach \$150,000.

A gang of men will be put on the property at once trenching and it is the intention to push development with all expedition. An engineer has already been engaged and there is every intention of going right ahead with the opening up of the property.

MAY HAVE TO GROW WHISKERS

Unless Master Barbers Accede to the Journeymen's Terms.

If the Master Barbers' Association does not come to terms before next Thursday there will be a real danger of all the horrors of a barbers' strike. The men are asking an increase of wages, and have decided to give their employers only one more chance.

Should the master barbers not consent before Thursday to a minimum weekly wage of \$14 and fifty per cent. of the weekly earnings per man over \$20, the men will hold a mass meeting on the following Sunday and decide to strike or not to strike.

\$3.50 RECIPE FREE FOR WEAK MEN
Send Name and Address To-day - You Can Have It Free and Be Strong and Vigorous.

I have in my possession a prescription for nervous debility, lack of vigor, weak back, brought on by excesses, that has cured so many weak and nervous men right in their own homes without any additional help or medicine that I think every man who wishes to regain his manly power and virility should have a copy of this booklet sent to him. It is a plain, ordinary sized envelope, to any man who will write for it.

This prescription comes from a physician who has made a special study of the combination of the cure of nervous debility and vigor failure ever put together.

I think I owe it to my fellow men to send them a copy in confidence, and that discouraged with repeated failures may stop drinking himself with harmful patent medicines, secure what I believe is the quickest acting restorative, upbuilding, SPOT-FULFILLING remedy ever devised, and so cure himself at home quickly. Just drop me a line like this: Dr. A. Robinson, 302 Luck Building, Detroit, Mich., and I will send you a copy of this booklet free of charge. A great many doctors would charge \$2.00 to \$5.00 for merely a booklet of this kind.

EXTENT OF SLUMP IN N. Y. MARKET

The recent acute downturn in the New York market has carried stocks not only to new low records for the year, but also below the bottom levels of last year. The public, if the truth be told, have absolutely refused to buy securities, and this means that heavy losses, aggregating many millions of dollars, have been taken by those who have thrown away their holdings on the various setbacks.

The following table shows the extent of the decline. It gives the low for 1912 and 1913 to date, the closing price this week, and the loss from the high point of the year, recorded by the majority of issues on April 4.
