ROUT OF GERMAN FLEET AT HELIGOLAND MOST DISASTROUS BRITISH REPULSED ALL GERMAN ATTACKS WITH HEAVY LOSS

"Every Step Gained by Germans Against the Allies in France is a Step Lost by Them Against Russia."—Gen. Lacroix.

BRITISH REPULSED ENEMY IN FOUR DAYS OF FIGHTING LOSSES MORE THAN 5000

German Casualties Much Greater Owing to Close Formation Advances in Open—British Force, Unmolested Since Thursday, is Rested and Reinforced—With French Armies Holding Enemy on Left and Right, Outlook is Hopeful.

Special Direct Copyrighted Cable to The Toronto World. LONDON, Aug. 30.—The official news bureau issued the following statement today, authorized by Lord Kitchener, regarding the recent fighting of the British troops: During the four days, from Aug. 23 to Aug. 26, the British troops, conforming to the general movement of the French armies, resisted and checked the German advance and withdrew to new lines of defence. The battle began at Mons, Belgium, on Sunday. The stubborn German attack was completely checked on the British front. The Germans made vigorous efforts with superior numbers on Monday to prevent the safe withdrawal of the British force and to drive it into the straits at Mauberge (in France, southward of Mons). Their efforts were frustrated by the steadiness and skill with which the British retirement was effected. German Loss Heavy "Very heavy losses were inflicted on the enemy's force, exceeding ours. "The enemy was in dense formation and in enormous masses marched forward again and again to storm the British lines. The British retirement proceeded on Aug. 25. There was continuous fighting, the not on the scale of the previous two days. "By night on Aug. 25, the British troops occupied a line from Cambrai to Landreches and Le Cateau. It had been intended to resume the retirement at daybreak on Aug. 26, but the German attack, in which no less than five army corps were engaged, was so

close and fierce that it was impossible to carry it out. Desperate Conflict "The battle on Aug. 26 was of the most severe and desperate character. Our troops offered a superb and most stubborn resistance against the tremendous odds with which they were confronted. They finally extricated themselves with severe losses. They were under the heaviest artillery fire, but no guns were taken by the enemy except those of which the horses were all killed or which had been shattered by explosive shells. "Field Marshal Sir John French estimates that during all these operations, from Aug. 23 to 26 inclusive, our losses amounted to from 5000 to 6000. On the other hand, the German losses in the attacks across the open, with dense formations, are out of all proportion to ours. British Fire Deadly "In Landreches alone, on Aug. 26, a German infantry brigade advanced in the closest order through a narrow street, which was completely filled. Our machine guns were brought to bear on this target from the end of the town. The head of the column was swept away and a frightful panic ensued. It is estimated that not less than 900 dead and wounded Germans were lying in the street alone. "There was a similar incident in the charge of the Germans' guard cavalry division upon the twelfth infantry brigade when the German cavalry was repulsed with great loss and in absolute disorder. "These are notable examples of what occurred over practically the whole front during the engagements. The Germans have been made to pay the extreme penalty for every forward march they made. The British troops have not been molested apart from the cavalry fighting since August 26. They have rested and refilled after their

glorious achievements. Reinforcements amounting to double our loss have already joined the force and every gun has been replaced, and the army is now ready to take part in the next great encounter with undaunted spirit. French Repel Germans "Today the news is again favorable to the French armies. They are acting vigorously on the right and left and have, for the time being, brought the German attack to a standstill. "Field Marshal Sir John French reports that on August 28, the Fifth British Cavalry Brigade, under General Cheswood, fought a brilliant action with the German cavalry during which the Twelfth Lancers and the Royal Scot Greys routed the enemy and spread large numbers in the fight. The strategic position is such that, whereas a decisive victory for our army would be fatal to the enemy, a continuance of the resistance on such a scale as to keep in the closest grip of the enemy's best troops, can, if prolonged, lead only to one conclusion. Ready for Next Battle Canadian Press Despatch. LONDON, Aug. 30, 4:20 p.m.—After four days of desperate fighting, the British army in France is rested, refitted and reinforced for the next great battle, according to an announcement today by Lord Kitchener, secretary of state for war. In a statement based on reports from Sir John French, commander of the British expeditionary force, the secretary says that the British, after struggling against tremendous odds, retired to a new line of defence, where they have not been molested since Thursday. Their casualties are between 5000 and 6000. Since this fighting ceased, the French on the right and left have brought the German attack to a standstill, it is declared.

HISTORY NOW IS BEING MADE ON THREE FIELDS OF ACTION ALLES' LEFT YIELDS GROUND

Britain Enters Protest

Special to The Toronto World. WASHINGTON, Aug. 30.—Thru its embassy here, Great Britain today protested against the action of Germany in planting floating mines thru the use of apparently peaceable fishing vessels. These trawlers, the British foreign office declared, are sowing the sea broadcast with these perils to navigation. It is declared that neutral nations might well take note of Germany's action.

Indians and Egyptians May Rise in a Revolt If Turkey Declares War

Special to The Toronto World. WASHINGTON, Aug. 30.—Turkey is about to inject itself into the European situation according to despatches received at the German embassy today from the Berlin foreign office. The advice contains the information that the Turkish activity would be fraught with fatal consequences, and it is understood that the disaffection of the Mohammedan troops of Great Britain and France are meant. Turkey says the Berlin telegram is preparing to get into the fighting against Russia and England. The gravity of the situation is recognized by diplomats who consider the situation the most grave that has yet arisen since the declaration of war. Turkey's move, if made, might result in revolt among the Indian and Egyptian native troops against Great Britain and with a simultaneous revolt among the Mohammedan soldiers of France in northern Africa. It is also expected that Turkey's decision to join in the war will inevitably draw in the Balkan States and Greece and ultimately Italy.

Canadian Press Despatch. LONDON, Aug. 30.—(6.30 p.m.)—The official bureau correspondence accompanying the publication of Lord Kitchener's statement concerning the British army at the front took a rap at the correspondents whose stories purport to be made up of personal experiences on the battle line. The bureau says: "The bureau has issued an official statement describing the fortunes of the expeditionary force during the past few days. This statement, the terms of which have been carefully considered, accurately and fully describes the present position. The bureau has not found it necessary to forbid the publication of messages dealing with the recent operations, provided such messages neither gave away military information nor disclosed the organization or position of the troops. TAKEN WITH GRAIN OF SALT. "These messages, however, should be received with extreme caution. No correspondents are at the front, and the information, however honestly sent, is, therefore, derived at second or third hand, from persons who are in no condition to tell coherent stories, and who are certain to be without the perspective which is necessary to construct or understand the general situation. "It is hoped that the statement issued tonight will dissipate any apprehension caused by such reports, and restore the necessary perspective to the recent operations."

GERMANS BOUND FOR TURKEY. Canadian Press Despatch. LONDON, Aug. 29, 6:30 p.m.—The correspondent of Reuter's Telegram Co. at Athens says: "According to a semi-official statement, news has been received from a trustworthy source in Constantinople that 500 German officers and sailors, as well as a quantity of ammunition, passed thru Bulgaria Friday, in a special train, on their way to Constantinople. ROBERTS ISSUES WARNING. Canadian Press Despatch. LONDON, Aug. 30.—(1.05 a.m.)—Field Marshal Lord Roberts, addressing a meeting last night for the purpose of securing recruits for the army, declared that the country was in great danger. There was no use in mincing words, he said, defeat would mean ruin, shame and slavery. "Our soldiers are fighting bravely," said Lord Roberts, "but they are lamentably few, and it is the duty of every able-bodied man to see that the army is maintained at its full strength. The women must not stand in the light of their sons' and husbands' duty." It is reported that the Hon. Archer Windsor-Clive, a second son of the Earl of Plymouth, who is a lieutenant in the Coldstream Guards, was seriously wounded in the fighting at Mons. Lieut. Windsor-Clive is 24 years of age. The Earl of Plymouth is at present on his estate, St. Fagan's Castle, here.

BRITISH AGAIN RESUME VIGOROUS OFFENSIVE

Risk of Germans in Strengthening Lines of Communication Great—"One Step Gained by Them in France is Step Lost Against Russia," Says General Lacroix—Kaiser's Nephew Prisoner.

Canadian Press Despatch. PARIS, August 30 (via London 6:40 p.m.)—According to La Liberté, the Germans have penetrated a short distance further on the River Somme. The British, in conjunction with the French left, have resumed a vigorous offensive. For the west the French have checked the enemy's advance guard. At the other extremity of the line, on the Meuse, the French are offering a strenuous and successful resistance, which extends along nearly the whole front. "Our offensive succeeded on our right, but was checked on our left," the Liberte says. "The Germans gained ground, as announced, toward Laferre. At any rate we hold firm even under attack—a sure sign of confidence of our army." Gen. Lacroix, former commander-in-chief of the French army, considers that the Germans are taking great risks in lengthening their lines of communication. "One step gained by them in France is a step lost to them against Russia," he said. "My feeling is that the German advance soon must come to an end." Count von Schwerin, a nephew of the German Emperor, was among the prisoners sent towards the west from the zone of fighting. His hands and feet were chained, because he refused to give his word of honor that he

would not try to escape. He had with him a sword given to him by Emperor William. PANAMA CANAL TO BE KEPT STRICTLY NEUTRAL. PANAMA, Aug. 30.—In order better to preserve the neutrality of the Panama Canal, the United States has taken over the wireless telegraph station in Panama. All private wireless stations have been discontinued. Princess Theatre Opens Tonight. Unless all signs fall there will be a bumper house at the Princess Theatre tonight for the opening of the regular season. The bill provided for the big opening is Raymond Hitchcock with an entire New York cast and production in the musical comedy, "The Beauty Shop." And Now for the Fair! This great annual event—the greatest of its kind anywhere—opens its gates to the public today, and the thousands of visitors that will pour into the city are most cordially invited to visit Dineen's 140 Yonge street. Here you'll find the most authoritative showing of furs, coats, millinery, hats, etc., for ladies and men. The reputation of this house for stylish model furs has been maintained for half a century. In men's hats, the recognized leaders of England and America are represented, while the display of men's overcoats and ladies' novelty and auto coats is exclusive and moderately priced. Your visit to Toronto will not be reckoned complete if you have not visited Dineen's and selected something from their comprehensive stocks.

Canadian Press Despatch. LONDON, Aug. 31.—From all the far-spread battle lines, only bulletins of Napoleonic brevity have come in the last 24 hours. History is being made on three great fields of action—along 250 miles of French frontier, on 200 miles of the Austro-Hungarian border, and thru a wide area of eastern Prussia. Silence has covered Austria's war with Serbia for several days, but that has become a very minor detail of the death struggle of the European powers. The Russian front is the scene of the events of the greatest magnitude, but between the claims and counter-claims of the belligerents there is such a vital difference that it is impossible to form an estimate of which way the balance swings. MILLION MEN ENGAGED. ROME, Aug. 30.—(Via London, 8:20 a.m.)—Despatches from Austrian headquarters to The Corriere Della Sera state that 1,000,000 men are engaged in the battle on the Austro-Russian frontier. The battle line extends from the Vistula River to the Dniester River, over 100 miles. The Russians have penetrated more than twenty miles into Austrian territory. COMPELLED TO YIELD GROUND. PARIS, Aug. 30.—(11 p.m.)—"The progress of the German right wing has obliged us to yield ground on our left," says an official statement issued here tonight. The ministry of war announces that it has been decided to call out the class of 1914, which will give at least 200,000 additional troops, and also to call out the reserve and the oldest classes of the territorial reserve. HEROIC DEFENCE OF LONGWY. Direct Copyrighted Cable to The Toronto World. LONDON, Aug. 30.—Stories of the heroic defence of the Town of Longwy, France, continue to be received. German Officers Firea On Own Men in Water

LONDON, Aug. 30.—The British admiralty in a statement on the naval battle at Heligoland, says: "The British destroyers exposed themselves to considerable risk in endeavoring to save as many as possible of the German sailors. British officers present vouch for the fact that German officers were observed firing at their own men in the water with pistols and that several were shot before their eyes. "Under these peculiar circumstances a destroyer was actually picking up wounded with her boats when she was driven off by the approach of another German cruiser, and had to leave two of her boats containing one officer and nine men, behind. It was feared that these would be made prisoners, but happily a submarine arrived and brought the British party home.

French Admiral is Head Of Mediterranean Fleet

LONDON, Aug. 30, 12:25 p.m.—The official information bureau announces that Vice-Admiral Augustin Boue de Lapeyriere, commander-in-chief of the French navy, has assumed command of the combined Anglo-French fleet in the Mediterranean. As a consequence Rear Admiral Sir Archibald Berkeley Milne, who was senior to the French admiral, has given over his command of the British Mediterranean fleet,

RUSSIAN FORCES SUCCESSFUL IN A LONG AND BLOODY AUSTRO-HUNGARIAN BATTLE LINE

the Franchmen. The town was under bombardment for many days, and when the moment of surrender came the German crown prince, also deeply impressed, urged the French commander to retain his sword.

At the time the town was turned over to the invaders, all except one of the thirty-six siege guns had been dismantled.

NO BRITISH MINES LAID. It is reiterated by the official news bureau that Great Britain has not laid any mines in the North Sea, and that consequently Great Britain cannot be held responsible for the injury to vessels up to the present time in cases where those injuries were caused by exploding mines.

The bureau adds that the government has learned that on or about Aug. 26 an iceclaw trawler is reported to have collided with a mine twenty-five miles off the mouth of the Tyne. She went down. It is added that at least one foreign newspaper has stated that the mine was English. The bureau's opinion continues:

"The mines of the Tyne were laid out thirty miles to seaward, not as a part of any definite military operation, nor by German ship of war, but by German trawlers, of which a considerable number appeared to have been engaged in the work. One such trawler actually seen doing this was the A.E. 24 of Emden."

APIA HAS SURRENDERED. An official announcement states that Apia, German Samoa, surrendered at 10 a.m. on Aug. 29 to the New Zealand force. Apia is situated on Opolu Island, of which it is the chief town. Its population is about 1250.

GERMAN AIRSHIP OVER PARIS. The Germans have already reached Paris by way of the air, according to a despatch received here from the French capital this evening. It is said that a German aeroplane flew over Paris today and dropped some bombs, no damage, however, being done. The aerial machine flew at a great height, and shots fired by French soldiers failed to hit it. It soon headed back toward the German lines and disappeared.

PARIS HOUSES MUST BE DESTROYED. PARIS, Aug. 30.—It is officially announced that the military governor has ordered all residents of the zone within action of the city's defending forts to evacuate and destroy their houses before sunset Thursday, Sept. 3.

PORTUGAL MAY JOIN ALLIES. LISBON, Aug. 30.—An appeal to the Republic of Portugal to join the allies against Germany is made by ex-King Manuel. The appeal, addressed to the people, is printed in the Lisbon newspapers. King Manuel says: "I myself have offered my services to the King of England."

AUSTRIAN TROOPS TRANSFERRED. AMSTERDAM, Aug. 30.—Information has been received here that the Austrian troops are being transferred from Alsace to the Italian frontier. This movement is in line with despatches from Geneva, Switzerland, which state that some 800,000 Italian troops are massed near the Austrian front, and that the government could not restrain the public if it would, once the war spirit gets full control of the people.

DUNKIRK POPULATION LEAVES. The population of Dunkirk have left their city. Dunkirk, or Dondkerque, as it is also spelled, is situated in the Department of the Nord, France, near the border line of Belgium. It is a fortified seaport, facing the Strait of Dover, and its population was a little over 40,000.

GERMANS SLAUGHTERED BY HEAVY BRITISH FIRE

Enemy Came Up in Masses and Rank After Rank Was Mowed Down By British Bullets—Teutonic Artillery Well Served and Most of British Losses Came From It.

Canadian Press Despatch. LONDON, Aug. 30.—The country has known for a week that many of its soldiers are buried in French and Belgian soil and other thousands are in hospitals, but there is no outcry for names, or a general willingness to wait, if the interest of the army requires it. A few newspapers have criticized the extreme secrecy which the government of 4000 maintains, but there is nothing approaching a clamor against it.

The few soldiers who have been brought to English hospitals from the front are pledged to do no talking about the war for two weeks, and only some personal experiences have been related. No one disparages the bravery of the Germans, but all criticize the methods of the German infantry. Officers who have seen the German manoeuvres have said that the infantry would be mowed down, if employed in the same tactics in actual battle. But they were disposed to think that the manoeuvres were largely for show. One soldier, speaking of the recent fighting, said: "If the British losses were heavy, the German losses must be enormous. The German infantry always advanced in heavy masses. They were like a moving wall of men. Our fire simply slaughtered them. We did not care for their infantry, but their artillery was deadly in its precision. Nearly all our wounded were hurt by shells, but those suffering from rifle shots were chiefly hit in the legs."

Like Wooden Men. According to another soldier, the Germans came up in thousands. "I remember looking up," he said, "and seeing ranks and ranks of them coming along. We swept away one rank and there was another. We swept that away and a third was waiting behind it. On they came over the bodies of their friends, solidly like wooden soldiers and as regular as a clock." The British soldiers think that their South African experiences helped their infantry greatly. On the very day they became experts at taking cover and entrenching themselves. There were enough veterans in all the regular regiments to show the younger men how to take care of themselves in a fight.

WAR SUMMARY

That the French lines are still falling back before the German advance is indicated by an official statement issued by the French War Office, which says that the progress of the German right wing has obliged the French left to yield ground.

Earl Kitchener, the British Secretary for War, gives in detail the part played by British troops in the operations in Belgium and France. These operations extended from Aug. 23 to Aug. 28, and the British losses numbered in the neighborhood of 400,000. The condition and spirits of the British troops at the front are described as excellent, and reinforcements have been sent up to more than fill the gaps created by the casualties.

A German aviator has appeared over Paris, and was engaged on Sunday in dropping bombs in a populous section of the city. Several of the bombs failed to explode, according to the accounts, and the only two persons injured were women.

Paris is preparing for a siege should the lines opposing the Germans be broken. Enormous stocks of food have been placed in the state warehouses, and sheep and cattle in vast numbers have been herded in the Bois de Boulogne.

A British official statement says that of the 1200 men composing the crews of

BRITISH CHECKED GERMAN ADVANCE

Triumphant March to Paris Encountered Unexpected Obstacle, Prisoners Admit.

LONDON, Aug. 30.—A despatch from Boulogne says the wounded Germans are being taken to Paris with comparative ease. "They declare," says the despatch, "that the extraordinary resistance offered by the invaders. After the occupation of Brussels they expected to march to Paris with comparative ease. Their information was that the main French army was disorganized along the frontiers of the eastern and Lorraine, so an easy victory for the German forces in Belgium was anticipated."

The wounded German officers admit that the British have taken the principal part in holding up the German advance. The resistance of the British to the superior German force enabled the French to convey by railway large reinforcements from the eastern to the northern front and to interpose new obstacles between the invaders and Paris.

The German forces in Belgium are said to be retreating. The British have taken the principal part in holding up the German advance. The resistance of the British to the superior German force enabled the French to convey by railway large reinforcements from the eastern to the northern front and to interpose new obstacles between the invaders and Paris.

Nipped Young Fire On C.N.E. Grounds

Fire in the Exhibition paint shop, situated northwest of the grand stand, was discovered in the nick of time Sunday morning, and extinguished. The watchman sleeping over the shop had a narrow escape from suffocation by smoke, and had to be carried from the building.

Following the redecorating of the Exhibition buildings, the shop was filled with paint, brushes and waste, and was in a pile of the waste that the flames started. The location of the paint shop is such that if the watchman had not been aroused within a few moments, many of the buildings would have suffered by the flames.

BELGIANS TO FIGHT GERMANS TO END

"Hordes of Assassins" Cannot Terrorize High-Spirited Little Nation.

Special Direct Copyrighted Cable to The Toronto World. PARIS, Aug. 29.—A special correspondent of Le Journal has arrived at Antwerp and had an interview with M. de Broqueville, the premier and minister of war, who said: "These hordes of assassins are seeking to terrorize us by burning villages wherever they pass. Yesterday they destroyed Louvain's magnificent city hall as a punishment to us for refusing the offensive of Mechlin. But they are mistaken if they think such banditlike acts will attain their object of rousing the Belgians are patriotic and courageous. They are also proud and tenacious, and will fight to the death to save their country."

The premier said he does not believe that the Germans will try to capture Antwerp. He quoted King Albert as saying to him: "If necessary, my dear minister, we will each pick up a rifle and take our places together in the ranks of the army."

DR. RIORDAN DEAD ONE OF ONTARIO'S GREAT SURGEONS

Died on Saturday Night From Pneumonia Which Had Affected His Heart—Was Specialist in Traumatic Surgery—Divisional Surgeon of Grand Trunk—Connected With Many Organizations.

One of Canada's foremost surgeons passed away at 2.30 on Saturday in the person of Dr. Bruce Livingston Riordan, M.D. (Tor.), C.M. (McGill), B.S. (Ed.), was the grandson of an Irish settler, who located in Ontario when its population could easily be numbered by thousands. After securing his primary education at Port Huron Grammar School he studied medicine at McGill University, where he graduated before reaching the age of 21. Later he took the necessary qualifying degrees at Toronto University. Entering upon the profession at the top of the ladder and has been for many years respected as one of Canada's greatest surgeons. Dr. Riordan was a specialist in traumatic surgery, and had great experience with accident work by his connection as a railway surgeon, and by being in charge of the old Emergency Hospital.

For one and a half years after his graduation, Dr. Riordan was ship surgeon on the Allan Line. Coming to Toronto in 1881 he commenced practice on Sherbourne street and has been actively connected with the work of his profession in this city until shortly before the time of his death. His office was located in turn on Peter, John and Simcoe streets, and latterly at 1 Roxborough street, east, with headquarters downtown at 101 Bay street, where he was associated with Dr. Gordon Rice.

Had Distinguished Career. In 1881 as soon as he had located in Toronto, Dr. Riordan was made one of twelve Grand Trunk surgeons, and for the past fifteen years was divisional surgeon for the Ontario lines of the Grand Trunk Railway System. Besides holding this appointment, he was chief surgeon for the York Radial Railway, and dean of the staff at Grace Hospital. The late Dr. Riordan was formerly a member of the Board of the Toronto General Hospital, and claimed Dr. Riordan as their president. Several years ago he was also vice-president of the Ontario Medical Association, president of the section of surgery of the Academy of Medicine, and was at his death the President of the Aesculapian Club. He was in charge of the ambulance company.

Not was Dr. Riordan known in medical and surgical circles for he was an ardent sportsman, and was especially interested in yachting. He was a member of the Toronto Club and the Royal Canadian Yacht Club, as well as being a member of the Alpha Delta Fraternity. In fraternal circles Dr. Riordan was equally prominent, being connected with the Freemasons, Orangemen, Ancient Order of Foresters and Woodmen of the World. In religion he was a Presbyterian, and was for many years a member of St. Andrew's Church. He married Maria Isabel, a daughter of the late Dr. Thurburn, who survives her husband, as does also his son, Bruce Thurburn Riordan, assistant general manager of the mechanical department of the Massey-Harris Company.

The late Dr. Riordan was noted not only for his surgical skill, but he will be remembered in many a home of the poor for the ready help and sympathy which he gave freely, with no expectation of securing a pecuniary return. He will also be remembered by the great number of friends with whom he came in contact in the course of his professional work, in the clubs with which he was associated or in his favorite pastime of yachting. By all he was greatly beloved for his genial character and friendly disposition. Among those friends as well as within the family circle he will be greatly missed; the loss is not theirs alone, nor is it confined to Toronto. Ontario has lost one of her foremost surgeons, who raised the standard of his profession by his ardent devotion to the science which he loved. The whole country will miss one of the greatest surgeons which it has produced in the death of this one, of her illustrious sons.

The funeral will take place at 3 o'clock on Tuesday afternoon from the family residence on Roxborough road. The service will be conducted by Rev. Crawford Brown. It is not finally decided whether or not a church service will be held, but if this is held it will be at St. Andrew's Church, at the corner of King and Simcoe streets.

Interment will be made at Mount Pleasant Cemetery. There will be present at the funeral a sister, Miss Riordan of Port Hope, Dr. Hutchison, chief medical officer of the G.T.R., of Montreal, and Dr. Drake of Toronto.

French Troops Holding Their Own in Belgium; Small Advances Claimed

Impression That Paris is Preparing for Last Stand Said to Be Without Foundation—Germans Will Be Kept From Neighborhood.

Special to The Toronto World. WASHINGTON, Aug. 30.—The French troops are more than holding their own, both on the Belgian frontier and in Lorraine, according to despatches received at the French embassy tonight. The left wing of the French army not only stood firm today in the face of a desperate German attack, but threw the invaders back. The troops in Lorraine also were said to have pushed the Germans back and to have made small advances into German territory.

Explanation for the order of the raising of buildings outside of Paris was given by the embassy today. It was said that the impression that Paris was preparing for a last stand was without foundation. Ambassador Jusserand declared that Paris probably would not be besieged at all, and that the Germans would be kept from the neighborhood of the capital.

The buildings that are to be destroyed, he said, are the plain structures that when they were erected in the military zone, were put up with the understanding that they were subject to demolition in case the military authorities deemed their removal necessary. Their removal is only a matter of military precaution; it means nothing else."

Canadian Press Despatch. BASEL, Switzerland, Aug. 30, via Paris, 4:30 p.m.—Two German aeroplanes made an unsuccessful aeroplane early today to destroy with bombs the dirigible balloon hangar at Belfort, France, which is 35 miles northwest of here.

Entire Regiments Surrendered When Czar's Forces Routed Fifteenth Magyar Division Near Podgory--Austrian Guns and Caissons Taken--Paris Declares Koenigsberg Invested and Germans in Retreat.

LONDON, Aug. 30, 7:35 p.m.—A despatch to The Observer from St. Petersburg says the German railways in East Prussia have been raided on the Russian cause, and that there is thru communication between St. Petersburg and Interburg, in East Prussia, a short distance northwest of Gumbinnen. "The Russian," the correspondent adds, "need waste no lives in their attempt to capture Koenigsberg, as it is easily isolated, and Russia, who finds that she has mobilized more men than are immediately required, can continue her advance."

A thousands Austrian prisoners reached Kiev, and about 500 Germans have been brought to Moscow. "Several captured batteries of field guns have been brought to Vienna, Kiev and Moscow, while others, especially machine guns, have been turned over to regiments at the front for use against their former owners."

From the tone of the foregoing despatch it may be doubted whether Koenigsberg has actually fallen. The French war office announced officially Saturday that Koenigsberg had been invested by Russian troops and that the German retreat continued.

EAST PRUSSIA UNTENABLE.

Special Direct Copyrighted Cable to The Toronto World. LONDON, Aug. 30.—The German Emperor has not been quick enough to save East Prussia. The invading Russians are now in West Prussia and threaten to cross the Vistula, and are immediately required, can continue her advance. "Several captured batteries of field guns have been brought to Vienna, Kiev and Moscow, while others, especially machine guns, have been turned over to regiments at the front for use against their former owners."

At 8 o'clock this morning Canada's National Exhibition will open. At 2.30 this afternoon Sir John Gibson, Lieutenant-Governor of Ontario, will officially proclaim the fact.

There have been many more entries this year than there were last. The exhibits of live stock are more numerous and of a finer quality of horses and cattle as well as sheep and hogs have been entered for competition in the various classes.

Delight is to be found in the spacious lawns, the flower beds and beautiful walks. The roadways are wide and paved and traffic will be so regulated that large crowds will not constitute a danger.

Arrangements are so well completed that today will seem like the opening day. Everything will run along so smoothly that it will appear as though things have been running some time.

The well-known restaurant, noted for its cleanliness and home-like cooking, and run by Toronto W.C.T.U., is again open for business. It is located in the south end of the new government building, west of the postoffice.

Mr. Turton Here for Exhibition. Mr. John E. Turton of Montreal, Quebec, Canadian agent for White Horse Whisky, is in the city for the exhibition, and is registered at the Prince George Hotel.

BRITISH OFFICER TELLS OF SINKING OF GERMAN LINER

Kaiser Wilhelm Der Grosse Was Sunk After Brisk Cannonading. Canadian Press Despatch. LONDON, Aug. 29.—The Evening News publishes a despatch from Las Palmas, Canary Islands, giving an account of the sinking of the North German Lloyd trans-Atlantic liner Kaiser Wilhelm Der Grosse off the coast of Africa, which was reported last Thursday.

Lieut. Deane, a British army officer who was taken prisoner by the Kaiser Wilhelm Der Grosse from the British steamer Galician on the high seas, is the authority of the Las Palmas correspondent and in an interview he gives a graphic account of how the great liner was destroyed.

German liner, he had been sent over to the collier Aruca, from which the liner was coaling. When it was seen that the Kaiser Wilhelm was doomed, the German captain sent his sword, his despatch box and a letter to his wife to the collier, his only being his messenger. Previous to doing this the captain of the liner had announced that he would himself blow up his command rather than surrender.

When the liner had been silenced, the High Flyer was bow on to the Kaiser Wilhelm and the British cruiser had some difficulty in finding her mark. She manoeuvred to get broadside on, and the ensuing cannonade lasted for forty minutes.

When the liner had been silenced, the High Flyer was bow on to the Kaiser Wilhelm and the British cruiser had some difficulty in finding her mark. She manoeuvred to get broadside on, and the ensuing cannonade lasted for forty minutes.

By Tuesday or Wednesday there should be nearly 30,000 men under canvas, and no more troops will be brought here until a second contingent is mobilized. No information regarding a second camp has been given out by headquarters.

LIEUT.-COL. MACMAHON WAS KILLED IN ALSACE. He Was of Same Family as One-Time President of France. Canadian Press Despatch. LONDON, Aug. 29.—(12.35 a.m.)—A despatch from Paris to Reuters' Telegram Company says the French War Office is beginning to publish lists of the fighting, and that already one general has been killed. Among the dead is Lieut.-Col. MacMahon, who fell fighting in Alsace. He came of old Irish stock, and his family was the late Marquis of MacMahon, who was a regular contributor to The Times, and an author of military works. Philip Miller, another writer, also was in the casualty list among the wounded.

Jews Responded to ENGLAND'S CALL

Sons of Israel in Great Britain Gave Themselves and Their Fortunes to the Cause. EDMUND SCHEUER RETURNS TO TORONTO. Mr. Edmund Scheuer, the well known Yonge street merchant, has returned to Toronto after spending some time on the continent.

Mr. Scheuer states that the German people did not want the war, according to him practically all the work of their search for spies. Mr. Scheuer brought back with him one of the English one pound notes. Although insignificant looking piece of paper, he says it circulates just as readily as gold.

According to Mr. Scheuer the Jewish population of England has shown the utmost loyalty, and no class has been more generous in giving men and money. Mr. Scheuer is convinced that the czar's announcement that in given rights of citizenship was a clever political move suggested or dictated by the English government.

A copy of Mr. Scheuer's chronicle which Mr. Scheuer brings back with him contains among other interesting things a long list of wealthy Hebrews who have given to the Jewish relief fund, and the following article which shows the temper of the English Jews:

At the call of duty a considerable army of Jews from this city in remarkable sacrifice and self-abnegation involved in this prompt answer Jewish mothers who of all creatures on God's earth have a tender heart for their offspring, have shed their sons and daughters to face with us the test and a trial such as she has never been put to, and our sons have leapt gladly to the supreme opportunity of doing their duty as English citizens.

Will Sell World's MOST VALUABLE LAND. Bank of England Site, Worth Seven Million Pounds, for Three Acres. LONDON, Aug. 29.—A large area in the city of London, reputed to be worth anything from 4s. to 4d., a square inch, will soon be sold by auction. By the "City" is meant the square mile east of the Law Courts and the lots to be sold include portions of Cannon street, Queen Victoria street, Upper Thames street, Bread street, Idole lane and St. Mary-at-Hill.

TEMPERANCE WORKERS WANTED. PARIS, Aug. 29.—Wine for horses. No; it isn't a joke. A wine grower in the Midi has a much larger vintage than he knows what to do with. He was advised by a friend to feed his horses on wine mixed with bran. He tried it. Little by little the horse got used to it, and now they take it like regular old toppers. Fresh work for temperance societies here. Will they persist upon the horse taking the pledge and wearing the blue ribbon?

LORD LOVAT COMMANDS SCOTTISH BRIGADE

Placed in Charge of Mounted Corps — Calls on Canadians to Enlist.

Dr. Alexander Fraser, Ontario archivist, Toronto, received a cablegram on Saturday afternoon from the Right Hon. Lord Lovat, Beaufort Castle, Scotland, stating that he has been given command of a Highland mounted brigade, and calling any of the old Lovat Scouts now resident in Canada, who wish to serve under him in this brigade during the war, to send their names to Dr. Fraser.

The Lovat Scouts consisted of two battalions raised by Lord Lovat for service in South Africa in the Boer war. They were expert mountaineer riders, and their services on the veldt were exceptionally valuable. At the close of the war the corps was reorganized on a permanent basis, with short terms of enlistment, and the corps will now form part of the Highland Mounted Brigade. Quite a number of the members have in recent years settled in Canada, and it is to these Lord Lovat's call has come.

In addition to these scouts offers of service will be considered from men between the ages of 20 and 30 years, willing to go, and arrangements are in progress for their enrolment, full particulars of which may be obtained from the undersigned. Mounted corps are always popular in the service, and to such a gallant commander as Lord Lovat a hearty response may be looked for.

Applicants are requested to communicate at once with Dr. Fraser, parliament buildings, Toronto, and Evan Hugh Fraser, 67 Woodlawn avenue, West Toronto.

HAMILTON AWAITS RECRUITING ORDERS

Regiments Already Enlisting More Men to Bring Ranks Up to Strength.

By a Staff Reporter.
 HAMILTON, Aug. 30.—Orders to recruit for a second contingent for the front have not as yet been received from military headquarters, but local officers expect that within a week such orders will be received. The Royal Canadian Mounted Police and the 6th and 8th Highlanders have secured recruits through classes, and the new men are being drilled until the end of the month.

Col. Renne has again called for recruits for the 33rd Howitzer Battery, which will be brought up to war strength at once, for the overseas service.

The Army Medical and Army Service Corps and 4th Field Battery will not organize again this season and no effort will be made to establish these units at all strength until the men return from the front.

Home for People Minded.
 Mayor Allan and City Solicitor Waddell had a conference with Hon. W. J. Hanna and Dr. Bruce Smith regarding the establishment of a home for the feeble-minded in Hamilton. While they were not given much encouragement, Dr. Bruce Smith will visit Hamilton Wednesday, and Mayor Allan suggested the establishment of another provincial building, each municipal to pay for the caring of its patients.

To Reorganize Red Cross.
 A meeting for Tuesday afternoon at 2.30 p.m. at the board of trade rooms for the reorganization of the Hamilton branch of the Red Cross Society.

Call For Chauffeurs.
 Qualified men for chauffeurs or motor mechanics in the overseas contingent are asked to apply to Major Bell at the local armories this evening between 8 and 10 o'clock, when they will be normally examined and supplied with information regarding the rate of pay and form of service.

Forming Home Guard.
 Although Mayor Allan is discouraging the formation of a home guard, the work is being organized rapidly. Many persons have volunteered, including several retired military men.

A meeting will be held on Tuesday evening, Sept. 1, at the Boy Scout headquarters, 18 South Hughson street, for the election of officers and discussing of equipment.

To Wait For Pay List.
 Not until the militia department sends to the board of control the official pay list of the men going to the front will the city pay its 50 cents per diem to the dependents of the volunteers. In the meantime the Boer war fund will be used to care for the needy.

 To Look Young Quickly For Special Occasion
 How often have you fussed and puttered with your face when you wanted to look your prettiest, and try what you would just could not do? Well, now you can look your best with a few drops of our "KIDNEY PILLS," exhibiting a careworn and weary appearance, and grime-covered with the lines, here's something that will quickly transform it into one of youthful freshness. Just get an ounce of powdered exorcist, add your drugist's, mix this with about a half pint of witch hazel, and bathe your face in the solution for two or three minutes. Immediately after you feel a "firming up" of the skin and underlying tissue, which naturally tones out the wrinkles, worry marks and flabbiness. The contour and general appearance of your face are so improved, you will be glad you got rid of this simple and harmless method.

Franklyn Ardell and company will present the special attraction Mr. Ardell's own political comedy sketch, "The Suffragette." Werner, Amos and company have a success musical act, "The Two Dark Spots of Joy," write and sing their own songs. Maxine Bros. are comedy acrobats, who are assisted by their trick dog, "Bobby." Their offering is said to be very amusing. The Jordan Sisters are dainty acrobats, and, with the Oaklanders in a novelty offering, and the kinetograph in a series of new pictures, complete the bill.

The Hippodrome

Lila Selbin in the sensational offering, "That Bathing Beauty," is heading attraction at the Hippodrome. Billy Hay says: "Did you ever notice that you can tell a man that his morals are bad and he needs to get religion—and he'll still remain your friend; but the minute you tell him his linen is dirty you lose a friend. "In this age of specialists, when men are striving to outdo their fellows, such things as clothes and linen play an important part in a man's reception. "Semi-ready Tailored Clothes and R. J. Tooke Furnishings are 'marks of quality,' and yet the prices suit any and every purse."
