NEWS OF SPECIAL INTEREST TO WOMEN

SMART OUTING SUITS IN WHITE

Stylish as Well as Sensible Are the Sporting Togs This Season.

NEW MIDDY DESIGNS Exploit Very Modish Features, Smocking and Bright Ties in Stripes.

Sporting togs are occupying the minds of all summer enthusiasts, who realize that outing costumes need nothing in style of practicality this season, so truly stunning are the designs for every manner of outdoor sports.

The full short skirt is taken for granted and heralded with delight by the girl who golfs or sails, and the midday is as supple as ever. The midday has won a place in the wardrobe of the sportswoman that is undisputed, and its popularity is increased more than ever this season when several novel features are introduced.

The white midday blouse is, of course, most popular, and whether of silk, poplin, crepe or one of the numerous fashionable cotton fabrics, is most attractive. In the majority of cases sleeves are long to prevent sunburn, while smart cuffs and deep sailor collars of contrasting materials lend a distinctive note. Coat middles which fasten down the front like blazer jackets are extremely smart, as are the new models exploiting old-fashioned smocking. Very pretty striped effects in ties give a new note.

The skirt models are conspicuous for their severely tailored lines—pleats, creases, designs and belted waists, showing practically no trimming, but always plenty of width.

Very stylish little linen hats with figured crepe crowns are shown for outing wear, and the boots are strong and very practical, lacing high so as to give plenty of support to the ankles.

White buck or fabric models are equally popular.

GREAT POULTRY OPPORTUNITIES.

Big Shortage of Eggs for Both Canadian and British Markets.

Last year Canada imported \$2,500,000 worth more eggs than she exported, so that there is a big home market here for that ever-needed poultry product.

The European war has cut off Great Britain's chief sources of egg supply and she needs to look elsewhere for a ready supply of 100,000,000 dozen eggs. This looks as if there were great opportunities in the poultry business. These are the times when it can increase their profits by careful selection and by attention to feeding.

Even the person who has only a small backyard can make a good profit on a few hens.

But success in this is like success in any other line of business—it depends largely on "knowing how." If you want to learn how to handle poultry profitably, the broods to buy, the way to feed and other points about the poultry business, get the book "Making Money From The Soil," which you will find a special purchase certificate in another page of this paper. This book contains full and authentic information on all phases of poultry raising. Look up the certificate now.

Eakin at a salary of \$4000, which is one of the largest salaries paid to any Toronto minister. The Toronto Humane Society organization for tag day will be held today at 3 p.m., while the members' monthly meeting will also be held at 7 p.m. Both meetings are at 137 McCaul street.

The annual rose show will be held tomorrow in the Margaret Eaton School, under the auspices of the Canadian Rose Society. The receipts will be in aid of the Grenadiers and the Red Cross Fund.

Lady Mann's garden party next Tuesday, to be held in aid of our sailors, will be under the auspices of the Canadian National Ladies' Guild for Sick Children. Many attractions will be provided and the entire fête given as nautical an aspect as possible.

Canadian school children thru the League of Empire have already donated over 400 scrap books to the war at the front. Men, women and children are urged to take an interest in furnishing further books and budgets.

Mrs. Strathy, Queen's Park, will furnish samples and give any desired information on the compiling of these books, so treasured by the Tommies.

The Women's Conservative Club acknowledge with many thanks the donation of \$77.20 in money and 28 pairs of socks to their soldiers' sock fund. It is the intention of the club to ship a consignment of socks direct to the front in a very short time, so that contributions of money and socks will be most opportune and grateful.

RED CROSS OF ITALY HAS FORMED LOCAL BRANCH

New Auxiliary Will Co-Operate With Canadian Red Cross Headquarters.

In the interests of the Red Cross of Italy, a society has just been formed in Toronto to be known as the Canadian Italian Red Cross Auxiliary, with Mrs. H. P. McKenna as president. The society aims to financially assist the association in Italy and furnish comforts for her men.

Thru the courtesy of the Canadian Red Cross Society all money will be safely sent to Rome, where it will be used by the authorities as necessary for the gift of friends in Canada. Contributions will be most gratefully received at headquarters, 29 Temperance street, where work has already begun.

Mrs. McKenna has already organized an splendid amount of relief work among the Italian population in Toronto, and thru the winter months did not lose her ticket and wanted to go to St. Thomas. Her scheme would have worked were it not for the quick action of the Union Station matron, Mrs. McKigan, and Mrs. Galvin of the Y.M.C. Guild, who intervened and refunded the girl's story. Police Constable Hunt, of the Union Station, took the girl in charge.

DEMOCRACY ENDORSED BY GERMAN WOMEN

Returned Delegate From Hague Peace Meeting Describes Proceedings

Miss Laura Hughes, who has just returned from The Hague Convention, tells of the interesting proceedings of the four day session. She said it was not a peace conference. It was called the International Congress of Women and was originated by the suffragist leaders of the United States. Among the extremely interesting incidents of the congress was the action of some German women in strongly supporting the motion of Miss Courtney, to the effect that the Congress of Women recognized the right of the people to self-government and that there should be no transference of territory without the consent of the women and men residing therein, and urging that autonomy and democratic parliaments should not be refused to any people.

RESIDENT OF ACTON KILLED IN FIGHTING

Pte. Fred Mills of Fourth Battery Lost His Life After Convalescence.

In a letter to The World, Mrs. J. Robertson of Acton West described the death of her grandson, Pte. Fred Mills, of the 4th Battery, who was killed by a German sniper while engaged in limbering up the guns for action. Pte. Mills was the first of the soldiers who died in the hospital for three weeks after being wounded in the fighting at Ypres and had only been back on the firing line for three days when he was killed.

A visit from Major Ballantine of Acton was paid to Pte. Mills' mother, and the Acton boy was given a very high character and his bravery while under fire was highly commended.

LEMBERG ENTERED BY TEUTON ARMIES

Russians Got Supplies Safely Away Before Evacuating Position.

RESISTED EVERY STEP

Attacked Austro-Germans on Both Flanks, Gaining Successes.

Special Cable to The Toronto World, LONDON, June 23.—The expected evacuation of Lemberg by the Russians and its entry by the Austrians are reported today from Berlin and Vienna. The Russians fought a rear guard action and left a small garrison to delay the advance of the enemy, which was in three columns by an enveloping movement, one striking for the Russian centre, the other encircling the position from the north and the other cutting the position from the south, by occupying the Town of Sczerzew, 20 miles to the southwest.

The Russians countered by wily tactics on both flanks of the Teuton armies. The Russians began the withdrawal of their troops and supplies from Lemberg Monday and they left fewer than 40,000 men to defend the city. These held up the advance of the enemy for a sufficient time to enable the rest of the army to effect a safe withdrawal to the Russian border.

The possession of this city, which has no good defensive positions, was of little military value, and a stand here at the present juncture would involve heavy losses by the Russians. It is admitted that the Russians lack supplies and equipment. This shortage is in a fair way to being remedied, but nevertheless it may be some time before the Russians are ready to a vigorous offensive.

ZEPPELINS DESTROYED ARSENAL IN ENGLAND?

Berlin Claims South Shields Plant Suffered in Recent Raid.

BERLIN, via wireless to Sayville.—The Overseas News Agency today gave out the following: "A message from Christiania says that the steamer Iotum, which has arrived at Stavanger, reports that several zeppelins, on the night between Tuesday and Wednesday (probably June 15-16), dropped many bombs on the Armstrong works at South Shields, England, which destroyed the navy yards and arsenal. Several buildings were destroyed. The damage was enormous. Seventeen persons were killed and 40 injured."

The foregoing evidently refers to the raid of zeppelins on the northeast coast of England last week, Tuesday night. The British censorship prevented the publication of details of this raid.

HUNDRED LIVES LOST IN A RAID ON HULL?

Letter Received in Montreal Says Zeppelins Caused Great Havoc.

MONTREAL, June 23.—The killing by zeppelins of 105 people and the wounding of 215 more, is described in a letter from Hull, England, to D. Williams of this city this morning. Mr. Williams' correspondent says that the dirigibles paid a visit to Hull on Sunday, June 6. They reached the city about midnight and flew low that they were plainly seen by the citizens.

The zeppelins threw down a number of bombs which burst in all parts of the city, doing a tremendous amount of damage. Whole families were buried in the debris of their homes. In one case a family of eight being killed in this way. A large dry goods store and a timber yard were destroyed by fire, while the streets after the raid presented a scene of awful desolation.

FRENCH CHECKED GERMAN ATTACK

Then Regained a Foothold in the Enemy's Second Line.

TWO WORKS OCCURED

Some Prisoners Were Taken, Among Them Being Three Officers.

PARIS, June 23.—The following official communication on the progress of the campaign in the western area was issued by the war office tonight: "In the region to the north of Arras nothing was reported today except several infantry actions. To the north of Souchez we made slight progress and repulsed a German counter-attack. The cannonade has not ceased in the sector between Angres and Ecurie."

"Near Berry-au-Bac at Hill 108 we exploded a mine which caused an excavation measuring 35 metres in diameter and very seriously damaged the German trenches."

"In Champagne, on the Perthes-Beauejour front, an action by means of mines occurred, and a violent cannonade."

"On the heights of the Meuse at the Calonne trench the enemy this morning delivered a violent counter-attack, which enabled him to retake his former second line. In the course of the afternoon a new German attack was started; it was immediately checked. "Taking in our turn the offensive, we regained a foothold in the second line of the enemy."

"In the outskirts of Le Pretre forest the enemy bombarded in a particularly intense fashion our positions in the 'Quart on Reserve'."

"In Lorraine we have occupied two works near Leintrey. We took some prisoners, among them three officers. "In the Vosges storms and a thick fog prevail."

Getting Down to Hard Pan

The Next Three Months' is the title of a leading article in the British Weekly, in which the influential British journal takes a grave but not pessimistic view of the war situation.

Sir Robertson Nicoll, the editor, is in a particularly favorable position for knowing all that is to be known in England, and, as he says, "our resources are now free to indicate the possibilities of the situation."

Italy is doing her part on the south in occupying the Austrian posts, and there may be other allies, but, as Sir Robertson observes, "on an anxious and almost pitifully sedulous neutrality it will not be wise to build any conclusions."

France is doing marvels, but in the long run Great Britain must depend upon herself. The workers at the front must back up the soldiers on the field or the empire may be lost.

Among steps to be taken are noted the wedding of inefficient officers. The German and French and Russian armies have had no compunction in this respect. The government must abate profiteering.

Financing the Allies. In one of the speeches delivered by Mr. Lloyd George, then chancellor of the exchequer, not long after the outbreak of war, he remarked that the silver bullet would prove the decisive factor and that the country with the last billion would gain the victory.

Freedom the Strongest Bond

Canadian know in a general way that the other overseas dominions have been equally responsive to the call of duty at this crucial period in the British imperial fortunes.

It is not the duty of our people, it remarks, "to be dispirited and anxious, but it is their duty to be prepared."

ACTING CHIEF GETS POWER TO FIRE

Discipline of Fire Department Must Be Maintained, Says Board of Control.

MYSTERIOUS CANDIDATE

Latest Nominee for Commission is Out of Town Man.

Things are not running smoothly in the fire department and Acting Chief Smith is becoming somewhat agitated as to just what action to take in view of the fact that up to the present he has had no power to discharge men or change their position.

Present indications are that the fire commissioner will not come up at the council meeting on Monday.

The matter has got to such a point that everyone at the city hall seems afraid to do anything about it, it is rumored that the controllers have a name before them which will be sent on to the council before the meeting, but no one seems prepared to say who the nominee is, and the only information available is that it is rumored that there will be a special meeting of council to deal with the matter on July 1.

Mayor Church is in receipt of a letter from George H. Gooderham, chairman of the Toronto-Hamilton Highway Commission, in which he says that he is endeavoring to do his part in the matter for the work thru Property Commissioners Chisholm.

Despite the war conditions every effort is being made to make this year's exhibition a bigger success than ever. The spectacle before the grandstand will be a huge affair, over 1000 men taking part, and the whole program will be of a patriotic nature.

When the city entered into the Lumber Boulevard scheme with R. Home Smith, it was to pay \$25,000 a year for five years towards the work.

This year only \$5,000 was provided in the budget, and the way of special assessment has been applied for such as has been done yet; colored lights will be strung around the grounds in abundance and of special interest.

LIGHTER RECEIPTS CAUSED ACTIVITY

Choice Cattle in Demand at Slight Advance on Tuesday Prices.

REMOUNTS IN TRANSIT

Stock Market Was Steady With Mostly Firm Values Prevailing.

Receipts of live stock at the Union Stock Yards on Wednesday were 36 carloads—722 cattle, 1200 hogs, 801 sheep and lambs, 235 calves and 700 horses in transit for the British army.

Receipts of cattle being light caused a fairly active trade for all good to choice steers, heifers and cows at about 10c per lb. better values than on Tuesday. Common grass cattle were about steady, but they sold for all they were worth.

There was scarcely any activity for stockers and feeders; the few sales made were on the same basis of value as on Tuesday.

Trade for milkers and springers was not quite so strong for a bulk of offerings, and values were reported as being slightly easier.

Second patents were firm at steady values, mostly the same as Tuesday.

Sheep and lambs were also about steady.

Hogs were again firmer in values.

Butcher's Cattle.
 Choice heavy steers, \$5.40 to \$5.85; choice butchers' steers and heifers, \$5.25 to \$5.50; good, \$4.85 to \$5.25; medium, \$4.75 to \$5.00; common, \$4.25 to \$4.75; good cows, \$4.75 to \$5.10; good cows, \$4.50 to \$4.75; good cows, \$4.25 to \$4.50; good cows, \$4.00 to \$4.25; good cows, \$3.75 to \$4.00; good cows, \$3.50 to \$3.75; good cows, \$3.25 to \$3.50; good cows, \$3.00 to \$3.25; good cows, \$2.75 to \$3.00; good cows, \$2.50 to \$2.75; good cows, \$2.25 to \$2.50; good cows, \$2.00 to \$2.25; good cows, \$1.75 to \$2.00; good cows, \$1.50 to \$1.75; good cows, \$1.25 to \$1.50; good cows, \$1.00 to \$1.25; good cows, \$0.75 to \$1.00; good cows, \$0.50 to \$0.75; good cows, \$0.25 to \$0.50; good cows, \$0.00 to \$0.25.

SIGNAL FROM BALLOON STARTED NOXIOUS GASES

Pte. Robert Mole Describes His Experience in Langemarc Action.

Pte. Robert Mole, a former resident of West Toronto, has written an account of his escape from Langemarc. While fighting northeast of Ypres he was on sentry duty and saw a German observation balloon drop four flights. He immediately scanned the German line and could see a greenish gas arising in front of their trenches. The wind blew he over and caused the men to cough and made their eyes smart. They opened up with a heavy rifle fire, however, and the Germans were blown up their green smoke by bayonets.

CHOICE STEERS SCARCE—No Change in Market for Small Meats.

MONTREAL, June 23.—At the C.P.R. live stock market there were no further developments in the condition of the trading today, the condition of the market being very quiet, with a firm under a fairly good demand and small offerings. Choice steers were scarce, there being no activity in the market, but small lots of good steers that had been at \$5.50 to \$5.75, while fair stock brought \$4.75 to \$5.00; choice cows at \$4.25 to \$4.50, and cows at \$3.75 to \$4.00; good cows at \$3.25 to \$3.50; and cows at \$2.75 to \$3.00.

MARKET DEPRESSED BY LEMBERG'S FALL

C.P.R. Which Again Slumped Heavily, Was an Outstanding Feature.

WEAKEST AT CLOSE

Further Weakness in Foreign Exchange Rates Was in Evidence.

NEW YORK, June 23.—Foreign affairs again took precedence over the domestic situation today, the market being governed, so far as it manifested any definite tendency, by the Russian defeat in Galicia and further selling of American securities in London.

Conditions abroad were further complicated by renewed weakness here in French and German exchange. Paris changes were quoted at the new record of 4.48 despite the virtual consummation of a new French loan by our bankers and remittances to Berlin and Hamburg at 81 5/8 duplicated the recent low record for marks.

Reading's strength and activity, together with the advances in other coal shares furnished one of the few features of the day. War specialties were more variable than usual, declines and advances being fairly divided.

The effect of additional foreign offering was apparent in the irregular market for bonds, particularly the international group. Among the minor inactive issues some sharp gains were made.

TRAM POWER AGAIN ACTIVE AT MONTREAL

Nearly Eight Hundred Shares Were Dealt in Advance in Price.

MONTREAL, June 23.—The only security in the Montreal market to show life was Tram Power, which under a fair demand rose from 42 3/4 to 43 1/4. At the close 43 1/4 was bid against 42 5/8, the previous day. Transactions in the stock footed up 730 shares.

CONDITIONS STEADILY IMPROVING IN CANADA

LONDON, June 23.—At the British Empire Trust meeting today Mr. Horne Payne said that Canada, in which they were most largely interested, had suffered severely during the last two years owing to the stoppage of the supply of money.

LONDON STOCK EXCHANGE

LONDON, June 23.—The committee of the stock exchange found it necessary to reduce the minimum on consols to half view of the superior attraction of the new issue.

ON PARIS BOURSE

PARIS, June 23.—Prices were irregular on the bourse today. Three per cent. francs, 71 francs for cash, exchange on London, 25 francs 13/4 centimes.

GERMAN BANK STATEMENT

A London bank says: The Imperial Bank of Germany is no longer showing large increases in bullion holdings in its weekly reports, as was the case last fall and throughout the winter.

LONDON DISCOUNT RATES

LONDON, June 23.—The Bank of England today bought \$68,000,000 in bar gold. Money, 1 1/2 per cent. Discount, 4 per cent. Three months, 4 1/2 per cent.

LOOKS LIKE ANOTHER BIG PORCUPINE MINE

Sovereign Has Promising Area Near Hollinger and Adjoining Acme and Vipond.

Mr. Gordon C. Crean, the well-known hat manufacturer, is president of the Sovereign Porcupine Gold Mines, Limited, whose stock is now being offered to the public by A. H. McNeal & Co., 12 East King street.

The company owns four claims, three in the Hollinger section of Porcupine and the fourth at North Thistle, adjoining the Davidson. While nothing has been done on the Hollinger section claims, No. 1, which adjoins the Acme and Vipond, is to be worked, for the present at least, the most attractive.

Already three veins entering this property from the Vipond have been stripped for about 600 feet and traced by cross trenches for five thousand feet. The veins run from a few inches to three feet in width, and according to the engineers' reports are identical in character and mineralization with the Vipond veins, which are producing some \$65,000 worth of gold a month.

The Sovereign Company is fortunate also in the fact that it owns the claims outright, they having been purchased for cash. There is an adequate equipment of machinery for future work, which, it is understood, will be vigorously continued.

Mining men generally are understood to expect rather worth-while things from the Sovereign. It is known that the company has had several opportunities to dispose of its holdings, but has preferred to operate instead of taking a handsome profit now. "It is too good a looking proposition," said one of the directors yesterday, "to step out of now."

DOMES ARE ALL ACTIVE IN THE MINING STOCKS

Big Dome Now Listed at Toronto and New York—McIntyre Has Firm Market.

A further fall in the price of silver yesterday was not cheerfully received by the mining exchange. Notwithstanding this, the Cobalt stocks were not seriously impaired in price. Timiskaming fell away a point, but this was the only issue to reflect the change.

The Porcupine market, while none too active, was firm, with Dome again to the front with a price of \$17.25. The stock was listed on the New York Exchange yesterday and also on the Toronto Stock Exchange.

STANDARDS NEGLECTED FOR MINING STOCKS

Toronto Stock Exchange Now Only Busy With Speculation in Mining Issues.

Mining stocks again provided most of the business for brokers on the Toronto Stock Exchange yesterday. Only a few shares of other issues were dealt in, and those with a free market. C.P.R. was extremely weak at 148, but the low price here was 150. Twin City lost over a point, with one sale below 95.

LA ROSE DIVIDEND

Directors of the La Rose Consolidated Mines have declared the regular quarterly dividend of 25 cents per share payable July 29, to stock of record July 20th.

WHEAT EXPORTS SHOW INCREASE

Reported Purchases by Norway Induced Shorts to Cover Sales.

ADVANCE IN PRICES

Strength at Winnipeg Gave Impetus to Chicago Movement.

CHICAGO, June 23.—Indications of a decided improvement in export business turned the wheat market today from weakness to strength. As a result prices closed steady at 1 7/8c to 1-3/8c net advance.

Before the wheat market began to bulge prices had shown a disposition to sag owing to bearish cables. An estimate that India would yield 331,000,000 bushels this season as against 317,000,000 bushels last year formed one of the elements of the temporary depression.

LIVERPOOL, June 23.—Closing Wheat, spot, No. 1 Manitoba, 11s 2d; No. 2 Manitoba, 10s 11d; No. 3 Manitoba, 10s 10d; No. 4 Manitoba, 10s 9d.

Mr. Careful Investor, Anywhere in Canada.

Experiences during the last few months have been most convincing in at least one respect - an investment is nothing more than a speculation.

Many an 'Investor' would be without returns today if he had not possessed some mining stocks - and it is an admitted fact that the largest bond and preferred stock buyers are likewise large holders of mining shares.

In offering stock in Sovereign Porcupine Gold Mines, Limited (No personal liability) we offer an investment in a proved industry and in an exceptional property - one in which gold is known to exist in paying quantities - aside from the fact that Claim Number One, upon which the first work has been done, is 'neighbor' to the biggest gold mine in Canada - Hollinger - and is 'next door' to the Acme, which is controlled by the Hollinger interests, the Vipond, Porcupine Crown, North Thompson, McIntyre and Schumacher. From this group - all within half a mile - more than \$500,000 in gold is being taken out monthly.

The Company owns four claims outright - purchased for cash - and has an adequate equipment of machinery, etc., for operating. There are no liabilities to be paid from the stock sale proceeds - the money is to be used to take out the gold.

We would not suggest the placing of one's entire savings in Sovereign Porcupine - no more than we would suggest investing all one's surplus in any stock or bond, either today or at any other time - but we do believe that an investment in this stock today at TWENTY-FIVE CENTS A SHARE, will return your money several hundred-fold.

Cheer Up!

and make your plans for the holidays. Hot weather will come, and you may even wish for a day like yesterday--then--

Such a scene of human woe as is depicted in this great war picture almost overwhelms us—almost makes us think that anything is better than war. That is why we should honor all the more men willing to face these horrors for the sake of their country. "I could not love thee, dear, so much, loved I not honor more."
