IN FIVE YEARS U. S. WOULD HAVE BULK OF CANADA'S TRADE

Interesting Prediction by American Member of Reciprocity Commission—Free Importation of Canadian Wheat to Steady Domestic Speculation—How Eastern States Would Benefit.

PORTLAND, Me., March 15.—That the United States will enjoy a greater export trade to Canada in five years than any other country should the Canadian reciprocity agreement be adopted, was the prediction made here tonight by John Ball Osborne, chief of the bureau of foreign commerce of the state department, and a member of the reciprocity commission, in an address before the Economic Club. He estimated that Canada's total imports in 1915 should be about \$540,000,000, and that the U.S. will supply \$350,000,000, or 65 per cent of its imports. This, he said, is an extremely conservative estimate, and may be augmented to \$400,000,000 by assuming that the United States share will be at least 74 per cent.

Would Steady Prices. The speaker discussed the advantages that would accrue to the American people by the adoption of the agreement. Mr. Osborne contended that while the reciprocity arrangement may not immediately cheapen the cost of living, it surely would equalize and steady prices, arresting the upward movement which is being so heavily on a large proportion of the population. Taking the free admission of Canadian wheat as an example, the speaker declared that this would operate to prevent speculative disturbances in domestic markets. The speaker did not think that any fear need be felt in the border states of the agreement should prove injurious to the farming interests. Generally speaking, he said, it may be confidently asserted that the movement across the border of farm products will benefit the farmers on both sides of the line and the reciprocal removal of existing tariff restrictions will make the surplus for export in either country readily available for supplying and satisfying the other.

The immense increase in our population, the pronounced urban movement, and the accelerating tendency towards exhaustion of our natural resources, said Mr. Osborne, "are conditions which dictate the wisdom of enlarging our sources of supply of raw materials and food stuffs wherever it can be done consistently with the interests of our own producers."

Increase Prices. Advantages. Mr. Osborne then discussed some of the particular advantages that would come to Maine and New England in general by the agreement, as he said that the free entry of Canadian fish into their markets would benefit the New England canners, and build up an important industry in the catching and preserving of this cheap and palatable food staple. New England fishing vessels, according to Mr. Osborne, should benefit largely by the reduction of the Canadian license fee from \$1.50 per ton to \$1 per vessel per annum. It is also reported that the committee will increase her already favorable balance in the Canadian trade as regards butter, eggs, nursery and horticultural stock, etc.

Col. Albert Clarke of Boston, president of the Home Market Club, a leading high protection organization, argued that the agreement, as proposed, will make a large inroad upon the protective policy of the country. He said that it discriminated against the farmers, lumbermen and fishermen and that it is entirely one-sided and to Canada as to advantage.

WHAT DOES MINE OWE BANK? Shareholders of Keely Property Say Amount is Greatly Inflated.

W. J. Boland of Macdonald & Boland has been retained by Canadian and English shareholders of the Keely Mines, Limited, to enter proceedings to stop after the interests of these in connection with the settlement of the affairs of the mine and the Farmers' Bank. The shareholders declare that no such amounts as alleged were ever advanced by the bank to the mine and will seek an accounting.

G.T.R. BRAKEMAN BADLY HURT. Ross Burnham, Struck by Train at Foot of Bathurst St., in Critical Condition.

Ross Burnham a brakeman on the G. T. R., is in a critical condition at Grace Hospital. His train was taken off above the show and he was injured internally. The result of being struck by a G. T. R. train which he was riding at the foot of Bathurst-street last night. The arm was amputated at the hospital, where he was taken in the police ambulance.

Liberal to Preside

MONTREAL, March 15.—(Special.)—It is stated here that a very prominent French Canadian Liberal will preside at the anti-reciprocity meeting on Monday evening, the name being Eustache LeMay, who went up to Ottawa the other day and told Sir Wilfrid what he thought of the whole business. Sir Alexander Leacock will speak first, followed by Hon. Clifford Sifton, Mr. LeMay, Toronto Professor Leacock and Mr. Thos. Chase Casgrain.

MARKING TIME ON RECIPROCIITY

Discussion Allowed to Drift Along Leisurly—Waiting for Action of Special Session of Congress?

OTTAWA, March 15.—(Special.)—There is every indication of a hitch in the plans of the government respecting the passage of the reciprocity agreement thru the house, and the word is going round to-night that the resolutions will no longer be allowed to usurp the bulk of the time and that other business will be proceeded with. Tomorrow and Saturday an effort will be made to obtain the passage of supply. So far as reciprocity is concerned the net result of the week will have been one speech, that of D. D. Mackenzie of North Cape Breton, who commenced late Thursday night last and finished yesterday.

Considering the fact that the government has allowed the debate on the resolutions to be adjourned quite early in the evening of the days when it had been before the house, it is evident that there is no special anxiety on their part to secure the endorsement of parliament on the Fielding-Taft pact, and that matters will be allowed to drift leisurely on the agreement taking up one day or so a week.

It must be remembered that the resolutions stand in the same place as they did four weeks ago. If the government was desirous of proceeding it would cut off the flow of eloquence on the part of the government supporters, and thus force the opposition either to quit or carry the business of the talk alone. But a government speaker has been put up every time to reply to a Conservative, and the whips insist that the speaker must be allowed to finish their remarks on record in the matter.

The serious stages of the discussion have yet to come, when the schedules are reached and the bill introduced, but at the present pace it will be midsummer before the formal resolutions are reported to the committee, which will be the first stage of progress.

The "marking time" tactics being employed by the government are said to be due to a desire to keep the agreement in its present position before parliament until the special session of the new congress meets on April 4.

MOTORLESS AEROPLANE

Something Happened Steering Gear Motor Dropped to the Ice.

HALIFAX, March 15.—Robert McGowan, the youthful aviator of Cape Breton, made a flight over 200 yards at Sydney harbor to-day in his motorless aeroplane. At a height of 50 feet an accident occurred to the steering gear, and the aeroplane, with operator, dropped to the ice. McGowan has been experimenting for several years, and this is the seventh plane, the others having been smashed while experimenting. The plane is the smallest in the world, 20 feet in length, the upper plane being 20 feet wide and the lower 12. He has received much encouragement from D. McMurdo who takes great interest in the young man's experiments. The flight was made from an automobile, to which the plane was attached to give it speed.

Out of the Woods.

SAULT STE. MARIE, Ont., March 15.—This morning's train on the Algoma Central Railway brought in 250 men who had been working for Ober Construction Co. and in various camps on the Lake Superior Corporation during the winter. This is the first installment of lumber jacks arriving in the Soo this season, and is unusually large. The men have overrun the town and the authorities are busy keeping them under control.

POLITICAL HAWKING

FALCONER TAFT: There's your meat, go to it, Nero.

GRAND MASTER SPROULE ATTACKS BILINGUALISM

Attitude of Roman Church on Mixed Marriages Also Comes in for Condemnation.

SMITH'S FALLS, March 15.—(Special.)—This evening two public meetings were held under auspices of the Grand Lodge of Eastern Ontario were held in the opera house and town hall here. The same speakers addressed both meetings. The first speaker was Rev. R. H. Stacey, Ottawa, grand chaplain, who made an attack on the attitude of the Roman Catholic Church in respect to mixed marriages and advocated Orange opposition to that position. He believed also that the Orange Association would promote church union in Canada. The speaker claimed that the Roman hierarchy was engineering the reciprocity agreement. She was plotting the dismemberment of Canada, and reciprocity was a means to that end.

M. W. Bro. T. S. Sproule, grand master for B.N.A., said that the Roman Catholic Church was characterized by vital activity, aggressive action, constant encroachment on the rights of the people and the rights of the state. The Orange Association was characterized by vital activity, moral, intellectual and political development, and aimed at protecting human liberty, human rights and the rights of the state. When Rome encroaches on the civil, moral and religious rights of the people, Mr. Sproule declared, the grand master turned his attention to separate schools and claimed that the French-Canadian attempt to extend his language and religion at the expense of the state; they should be strongly opposed in Ontario.

GOES TO JULY TO-NIGHT

Testimony in Trial of Mrs. Melber Practically Closed.

ALBANY, N. Y., March 15.—Testimony in the trial of Mrs. Edith Melber, the young widow who is charged with killing her child by administering carbolic acid on Jan. 6, was practically closed when the court adjourned this afternoon and the case is expected to go to the jury by to-morrow night. Three doctors, who have spent years as superintendents of institutions for the insane, and studied mental disorders, testified to-day that in their judgment the woman is rational and was mentally sound when the act was committed.

IT IS A FACT.

There are more untoward happenings and more incidents of public interest occurring on Saturday afternoon than on any other day in the week. This is accounted for by the fact that the majority of people are not engaged at their usual occupation—the greater number are on the streets or attending at some amusement or sporting event. It is also a fact that we all like to know what is happening to the other fellow, and we like to know it quickly. The way most Toronto people get it is thru the columns of The Sunday World, which is printed and distributed Saturday night. You can buy it from all newsdealers or newsboys, or you can have the last edition delivered to your home for five cents per copy.

Diamonds Discovered in British Columbia

Samples Are Too Small However, to Be of Commercial Value—May Be Larger Stones in Placer Deposits, But Not Likely.

OTTAWA, March 15.—The director of the Geological Survey announces that diamonds have been discovered by the survey in a British Columbia rock. The first recorded discovery of diamonds in Canada. The rock carrying the crystals is a peridotite of the vein, known as dunite, consisting of olivine and chromite. The rock specimens in which the diamonds were found were collected by Mr. Charles Cammell, on Olivine Mountain, near the Tulemeen River, where Mr. Cammell has been making a geological examination on behalf of the survey.

WOMAN TOOK POISON IN PRESENCE OF CHILD

Mrs. Elizabeth Bates, Housekeeper, Died Soon After Removal to Hospital.

While the 8-year-old son of her employer watched with wide-eyed terror, Mrs. Elizabeth Bates, 45 years, housekeeper for Harry Simms at 550 West Queen-street, suicided at 10:15 last night by taking a quantity of poison from a bottle.

SAYS IMPOSTOR DREW PENSION

Canadian Who Fought in Civil War Appeals to Washington.

KINGSTON, March 15.—(Special.)—Because he is feeble and no longer able to support himself, Emery E. Smith of Odessa has applied to U. S. Consul Johnson for a pension from the American Government. He is a Canadian, but fought in the civil war. Recy Miller made application at Washington for a pension, but was told that a man by the same name had drawn a pension for the past twenty years. Miller claims this man is an impostor, as he was the only man of that name who served in that regiment. The United States consul here will have an investigation made at Washington.

C LESTIAL'S ASSAILANT CAUGHT

Ashbury Smith Admits He Used Ax on Yip Tuck.

Ashbury Smith, who gives his address as 13 McCaul-street, was arrested in Queen-street yesterday by Detective Cronin charged with wounding Yip Tuck a week ago by striking him with an ax which he had secured from a little boy.

Ashbury Smith, who gives his address as 13 McCaul-street, was arrested in Queen-street yesterday by Detective Cronin charged with wounding Yip Tuck a week ago by striking him with an ax which he had secured from a little boy.

THIS IS THE MORNING.

"Every little boy office has troubles all its own" when it comes its share of "Madame Sperry," and the Princess Theatre is all prepared to handle the biggest advance sale in the history of the famous play house, starting at 2 o'clock to-morrow, Ours to the great demand, phone orders will be discontinued for this engagement.

More U. S. Endorsement. CONCORD, N.H., March 15.—The senate of the New Hampshire Legislature placed itself on record to-day in favor of the Canadian reciprocity agreement, concurring with recent endorsement of the measure in the house by a vote of 77. There was practically no debate.

HENDERSON VOICES THE DEMAND FOR COMMISSION

RADICALS EXULT

LONDON, March 15.—At a meeting to-day of the extreme Radical members of the house of commons, among whom are those opposed to a big navy program, resolutions were adopted expressing much satisfaction over Sir Edward Grey's utterances in support of the arbitration suggestion of President Taft.

BLIND PARTISANISM GOING, SAYS SIFTON

Shibboleths Are "Everywhere Falling Away"—Canada is Beyond the Childhood Stage, and on a Plane Where it Can Conduct its Own Business.

"We must make sure that our national resources are rationally developed in a way that the greatest benefit may accrue to the Canadian people," declared Hon. Clifford Sifton, in a strong speech at the annual dinner of the blossoming legal lights of the Osgoode Hall Literary and Legal Society in McConkey's last night. "We have come to a point of prosperity where our country demands it. We should never be compelled to adopt any principle which we believe inimical to the best interests of the country."

"Party shibboleths are everywhere falling away. When we align ourselves to any party, we must not accept any principles of that party which we do not believe to be good. We must know where we are being led before we follow. "Our 100 years of peace has to some extent made us lose our sense of national responsibility. If, like little Denmark, we had had a Germany overhanging, this sense might have been more highly developed. But we are a nation that has passed its childhood, and we are on a plane where we can conduct our own business. We are seven and a half millions of people, with great natural resources, and we must fully consider every step we take, and not ten years from now look back on what we have done with sorrow. "We have grown to manhood and we must stand alone."

Mr. Sifton's words were loudly applauded, coming as they did at the close of an able discussion intermingling law and politics. He expressed the opinion that parliament should be the stepping stone from the bar to the bench, and recounted the many able lawyers who had won high places in the legislative halls.

Control of Railways. The rampant power of railways 25 years ago also came in for long discussion. He explained the great corrective advantages and power of the railway commission as appointed by parliament, which tribunal he declared was more autocratic than any in the world. Only the president of the United States had more power than the chairman. "That gentleman had great executive power," remarked Mr. Sifton, "and I hear lately that he has great persuasive power."

He also outlined many of the laws which are being prepared for the regulation of commercial enterprises, "so that we may overcome the evils and difficulties which have come to our friends to the south," he said. Major Meechan, M.L.A., thought that probably the young lawyers were too poor to go to parliament. He advised them to work a while first, and then indulge in politics "if they were not then too set in their ways."

Justice Middleton was lively with anecdote. He first, however, took occasion to disagree with Mr. Sifton's assertion that parliament was the best training for the bench. "The best road to the bench," he said, "is steady, industrious and persevering practice in the law. He strongly advocated specialization in law study. George Tate Blackstock, K.C., was also copious with stories of his experiences at the bar. He eulogized many of the foremost lawyers of his time in high terms. Shirley Denison, K.C., lectured on the "Alma Mater," alluding to the toast, "Alma Mater," Harry H. Davis, E. R. Cheverton and H. A. C. Langstaff proposed the toast while Messrs. Fraser and Sanger used voice and violin respectively to great advantage. MacGregor Young, K.C., was in the chair.

The meeting was most enthusiastic throughout, both students and guests joining in the spontaneous applause which broke out frequently. At the head table were: Shirley Denison, K.C.; Hon. Clifford Sifton, MacGregor Young, K.C., chairman; Justice Middleton, J. D. Falconbridge, H. A. C. Langstaff, C. D. Scott, secretary; E. R. Cheverton, William Houston and Major Meechan, M.L.A.

Borden Says E. B. Osler and Others Are Prepared to Swear They Warned Fielding About Farmers Bank—Sir Wilfrid Declares That as the \$80,000 Had Been Made Up Subsequently, There Was No Fraud Ultimately on Government By D.rectorate.

OTTAWA, March 15.—(Special.)—When government inspection might have done or what the department of finance failed to do to avert the wreck of the Farmers' Bank was graphically told in the house of commons to-day. David Henderson (Halton) asked for a royal commission on the motion to go into committee to discuss reciprocity. He referred to the disaster as a financial holocaust, and declared that Mr. Fielding, in response to warnings, said, "I put it up to Travers." He urged the government to release the shareholders from the imposition of the double liability, on the ground that those involved would have to mortgage their farms with little hope of ever redeeming them.

R. L. Borden declared amid loud cheers: "There is no doubt that the treasury board of Canada had the most direct and positive notice that these irregularities were committed. Mr. Wilfrid Laurier claimed that the wreck of the bank was due to the deception of the agent of the shareholders."

Mr. T. W. Crothers stated deliberately that the certificate had been illegally issued by the treasury board at a meeting at which there was not a quorum.

Mr. Borden stated that E. B. Osler and others, if the royal commission was appointed, were prepared to swear that they had warned Mr. Fielding. The minister should have ordered the production of the minute book before granting the certificate.

Sir Wilfrid Laurier said it was admitted that when the department issued the certificate it had been deceived to the extent of \$80,000 of the \$250,000 required in order to fulfill the requirements of the Banking Act. This sum had been made up subsequently, however, and so it was not a deception ultimately.

Took up Cudgels for Shareholders. David Henderson (Halton), in introducing an amendment to the motion to go into committee on reciprocity, took up cudgels in behalf of the ruined shareholders of the defunct Farmers' Bank. His amendment was that this house be of the opinion that a royal commission should forthwith issue to enquire into and investigate the incorporation and operation of the Farmers' Bank of Canada, and all circumstances connected therewith, and generally to enquire into and investigate the operation and efficiency of the Bank Act in relation to the affairs and transactions of the said bank.

Mr. Henderson explained that farmers in Halton County had subscribed for \$162,200 of the stock of the bank and in two branches in the county had \$68,581 on deposit. This, with the application of the double liability, would mean a straight loss of \$441,981, and unless some redress was forthcoming, it would result in financial paralysis to those involved. The very name of the institution induced farmers to subscribe to its stock, and while some of them would be able to stand the loss, many others would lose the savings of a lifetime. "I fear," he said, "that a mortgage will have to be put on the farm to enable them to meet their obligations, and some are too far advanced in life to ever hope to redeem that mortgage."

He Power to Spend Money. The provisional directors, Mr. Henderson pointed out, merely secured subscriptions for the stock and paid the required \$25,000 to the receiver-general. They had no power to spend money, but did pay out money which was not in accordance with the act. "Without the certificate from the treasury board the shareholders' money would have been intact. The money paid to the receiver-general would have been intact."

Had the certificate not been granted there would have been no Keely mine.

Continued on Page 7, Column 5.

THE 1911 MAPLE SYRUP.

The first bowl of Donlands maple syrup will be on sale at Michie's at noon to-day.

St. Patrick's Day.

To-morrow will be St. Patrick's Day. Apart from it being a very glorious mark in the year for every Irishman. St. Patrick's Day is said to be the first real day of spring in Canada. Spring weather calls for new hats. The Dineen Company is your spring hatter. The Dineen Company holds the right to sell in Canada the hat made by Henry Irving of London, England, and Dunlap of New York.

WORLD SUBSCRIBERS are kindly requested to telephone Complaint Department, M. 1162, regarding irregularities or late delivery of their paper.

SPRING OPENING 1911

There is More Pleasure
Buying Clothing in the Spring
Than at Any Other Season.

Why? Because after a long winter it's a relief to throw off the heavy garments and put on lighter weights and, like nature, burst forth in all the abandon of unfettered freedom. Possibly we may have a few blustery days yet, but not sufficient to dampen the ardor nor stop the buying and preparing for spring — This is our first spring season in our new store and we have prepared a showing of garments for Men, Youths, Boys and Children that have no equal for Beauty and Values anywhere.

Situated as we are on the most prominent corner of the business thoroughfare, we are daily in touch with the best trade of Toronto and also the traveling public, which enables us to handle merchandise superior in every way to that handled by the ordinary merchant. We devote our time exclusively to clothes making and selling and are therefore experts in our line. The quotation of prices tells nothing, but a look will convince you in a few minutes. So please take THAT LOOK.

All Sensible People Will Buy Our Spring Clothing.

DAY'S DOINGS IN YORK COUNTY

West Toronto
North Toronto
East Toronto

N. TORONTO WILL SOON HAVE POSTAL DELIVERY

Postmaster-General Concedes the Boon—Railway Board's Order Is All Right.

NORTH TORONTO, March 15.—(Special.)—A despatch from Ottawa to-day conveyed the pleasing intelligence that the postmaster-general had, thru the request of Mr. W. P. Maclean, M.P. for North York, decided to install a free postal delivery in North Toronto, as was the case in East and West Toronto before they came into the city.

The postmaster-general, informed Mr. Maclean yesterday that he had decided to concede this special convenience to the people of North Toronto. The department has accordingly notified Mr. George Ross, its chief executive officer at Toronto, to raise the routes and the number of carriers and to have the town fixed up in the numbering of the streets and to have set out the signs which they may lead to confusion in connection with similar names in the city. The department has had a great deal of trouble with the numbering of streets in North Toronto, North York, East Toronto and West Toronto, and it will be in the interest of the public, in any new divisions to avoid confusion of this kind, as they tend to hold back any expansion of postal delivery in the future and lead to needless confusion in sorting and delivering letters.

The inauguration of the new system, which is expected will soon become effective, will be aided with delight, as a notable step in keeping with the splendid growth and progress of this fine suburb. Mayor Brown and the members of the council, too, have been unsparring in their efforts to have the city postal delivery installed in the future and had a view to having the system extended over that district.

Admit Have Not the Power.

The following excerpts from the order of the Ontario Railway Board re the double track of Yonge-street, thru North Toronto, will be of interest to the townspeople.

The board are still of opinion that the company's railway should be double-tracked up Yonge-street thru North Toronto, and conditions having changed, the double tracking should be carried to the golf links. If the board are of opinion that we will order double tracks to be laid on Yonge-street from the company's terminals in the City of Toronto to the golf links, upon such terms and conditions as the board deems reasonable and just and fair to all parties. In addition that we will order the company to furnish a sufficient number of cars to give the public a five-minute service from their Toronto terminals to the golf links during the season from April 15 to November 1, but inclusive, and a ten-minute service during the rest of the year.

The board, however, are of opinion that they have not the power or authority to make an order for double tracking.

"We are of opinion that the proposed double-track on Yonge-street, from the company's terminals in the City of Toronto to the golf links, is not an improvement and is being called upon to make at once, would cause them (financially) embarrassment. While it is not an answer in law to the application, it is a circumstance that the board will weigh carefully in determining what is a reasonable and fair to all parties. If we have as a matter of law the right to

THE T. EATON CO. LIMITED

decided to put an intermediate Association football club in the central division. The club was organized with the following officers:

Hon. presidents—Capt. Thos. Wallace, M.P., Alex. McCowan, M.L.A., Jas. Henderson and David Beidam.

President—V. D. Annis.

Vice-president John Butler.

Managerial committee—Fred Henderson, Geo. Butler.

Directors—H. J. Dix, A. Mull, W. A. Kennedy, W. P. Scott, J. G. Correll and Chas. Beidam.

Secretary-treasurer—Percy Henderson, Scarborough E.O.

The club is called the Scarborough Village Rovers Football Club. The club members they have already signed, we believe that Scarborough Village will be able to put a team in the district that will come well to the front of the Central League.

CHESTER.

CHESTER, March 15.—(Special.)—The Rev. F. F. Sinclair, pastor of Chester congregation, conducted pre-communion service in Fairbank Presbyterian Church on Friday evening. About thirty sixteen members were received into the church.

WEST TORONTO.

New High Record in Building Permits Has Been Reached.

WEST TORONTO, March 15.—(Special.)—The death of Mrs. Furse, who died at her home at 9 Osler-street. The deceased was 21 years of age, and was but lately taken very seriously ill with a double attack of scarlet fever and diphtheria, to which she succumbed. The funeral will take place to-morrow afternoon at 2 o'clock to Prospect Cemetery.

A large number of members were present at the regular meeting of Golden Star L.O.L., No. 900, held to-night in St. James' Hall, Wor. Bro. T. A. Duff, grand organizer, and others well-known in local Orange circles gave addresses, while a well ordered and sumptuous banquet closed a most enjoyable evening.

Another death which occurred to-day was that of Gladys M. Grandfield, the five-year-old daughter of Mr. and Mrs. Grandfield, of 510 Quebec-avenue, who died this morning of scarlet fever. The funeral will be to Prospect Cemetery to-morrow morning at 11 o'clock.

The Tri Mu and Delta Alpha Societies of the Davenport Methodist Church are holding a banquet to-morrow night in the assembly rooms of the church.

W. J. Wadsworth, Jr., who has been in the hospital with typhoid fever, was sufficiently recovered to be moved to his home on Quebec-avenue to-day.

The Davenport Stars of the West Toronto Baseball League will hold their reorganization meeting at the Humboldt waiting room on Friday night.

Pearl V. Hayhoe, the infant daughter of Mr. and Mrs. Edward Hayhoe of Ferguson-avenue, was found dead this morning in the cradle, having been put to death the night before. It is believed that the child was in perfectly good health. The funeral will take place to-morrow at 2 o'clock to Prospect Cemetery.

The record of building permits issued for the first 15 days of March in West Toronto amounted to \$27,445. Yesterday a permit was issued for the erection of a row of brick houses on Weston-avenue, which are to cost \$50,000.

WEST WELCOMES CHOIR

Coming Visit of Sheffield's Fine Organization Has Kindled Enthusiasm.

The enthusiasm which is being displayed thruout the west of the Dominion of Canada in the forthcoming tour of the famous Sheffield Choir, under the direction of Dr. Chas. Harris, in connection with his great scheme for musical reciprocity within the empire, is remarkable. Dr. Harris has addressed the various boards of trade thruout the west, and he has met everywhere with the utmost encouragement. In Saskatchewan the business men are supplying 200 motor cars to show the visitors the sights of the place, which is in itself a striking fact, for 6 years ago there were but 200 people in that town.

Sir Daniel Macmillan, the lieutenant-governor of Manitoba, will entertain the Sheffield Choir at Government House when they visit Winnipeg City. The mayors of all cities in the west which the choir will visit, together with the presidents of the various boards of trade, and the citizens of the town, have constituted themselves bodies corporate to take charge of the civic functions that are everywhere being arranged.

The general enthusiasm assures a great success, in which the town is certain to pay by no means the least important part. The dates for Toronto for the great musical event are April 4, 5 and 6.

A POPULAR CANDIDATE.

The election of William F. Kerr of Cobourg as a member of the Law Society of Upper Canada is being directed by many friends of the genial crown attorney of Northumberland and Durham. There is at present no benches from that district.

WEST WELCOMES CHOIR

Unanimously Condemn Reciprocity—Town Would Suffer.

NORTH BAY CONSERVATIVES

NORTH BAY, March 15.—(Special.)—The annual meeting of the North Bay Conservative Association last evening was the best attended and most enthusiastic ever held in the history of the association. Brennan's Hall being filled to the doors. Officers were elected as follows: President, N. J. McCubbin; vice-president, T. E. McKee; secretary-treasurer, Adam Torrance; executive committee, Dr. R. L. Dudley, Dr. A. E. Ranney, M. Thibault, A. O. Laine, N. Aubrey, George Rutledge, W. L. Johnston, Jas. McMillan, A. Lapointe, W. C. Brown, Geo. Thompson and William Rigby.

A resolution was unanimously adopted condemning reciprocity, which would, in the opinion of the meeting, injure the railways, and North Bay being essentially a railway town, the evil effects of the proposed trade agreement would directly affect the welfare of the town and its citizens.

Left Baby in Hotel.

With a note begging that the child be cared for and stating that her body would be found in the bay, a young woman left a 7 weeks old child in Krausman's Hotel at Queen and Church-streets yesterday morning.

She had gone to the hotel the night before but had not been asked to register, as she seemed weary and had the baby in one hand and a grip in the other. The police do not believe that the woman has carried out her threat, but are investigating. The baby has been placed in the infants' hospital.

FILL UP THE GAP.

No greater contribution could be made by Ontario to the unification of Canada than by helping to fill in the gap that exists between west and east in the tract north of Lakes Huron and Superior between North Bay and Port Arthur. The land near the lakes in this region is not inviting to agriculturists, but in the hinterland there lies the great clay belt with its sixteen or twenty million acres, and the settlement and development of that territory would be a link of federal strength not less important than the binding strength of the railways between the two oceans.

Before the legislature closed we had hoped to see some definite steps taken towards encouraging the settlement of this territory. We have commended the government for what has been done in the immediate neighborhood of the T. & N. O. Railway, and the opening of the half-dozen townships adjacent to Cochrane on the Transcontinental Railway has been followed by the additional inducements of the proposed pulp and paper mills at Iroquois Falls and also in the Rainy River district. A reference to the map will show that these efforts, highly commendable as they are, only touch the extremities of the gap we have mentioned. Nearly five hundred miles of territory lies there unexplored, practically without a settler, barren of civilization, save for the newly projected railways, which are penetrating and have begun to penetrate this forest wilderness. It is a land rich as any in Canada, and only needs development. Once it is settled it will be a foothold in the highway from west to east.

The government policy is to settle up such townships as have been opened before opening further areas. That policy is probably the most prudent one for the government to follow. But a lesson in this respect might be gained from railway construction. When it is desirable quickly to complete a road the contractors will work at both ends and in sections in the middle.

We believe the settlement of the great clay belt is important enough and urgent enough to be taken up and pressed forward in rapid construction order. If the government cannot handle the work the natural agents to do so are the railways. There are other agencies like the Salvation Army which might be willing to take part in such work. But at all events the railways are there, and it is to their interest as well as to the interest of the province to hasten the settlement of the land thru their run.

All three of the big railways are now busy in this territory and we believe it should be possible to share the responsibilities of the province with them in respect of settlement that a large number of the settlers who are now going to the west could be retained in the equally valuable lands of the Ontario clay belt. The settlement of one family and the development of one farm immensely enhances the value of all adjacent land in such territory as this, and we believe the government would find it well worth while to arrange with the railways for the encouragement of such settlement. Whether this should be done by premiums of money or grants of farm lands equal to those settled, or in other ways should be determined. It is a service of a different order from railway building, and should be regarded differently. It need not be considered as an unlimited proposal. And the decision as to fulfillment of conditions might very well remain under the control of the minister of lands. But if the railways have any plans to submit or can be induced to listen to any of the plans for the territory that are being put into practice in other parts of the Dominion the government should not hesitate about making an arrangement to get in all the settlers that can be persuaded to come.

What private companies find profitable in this way should be and would be equally profitable to the government. The cream of the immigration churning might be retained for Ontario. If this were left to the railways they would not doubt apply the methods found effective elsewhere. If inducements are necessary to get them to apply such methods, then we say let them have all reasonable inducements.

We do not believe the people of Ontario will be finally satisfied with the objection the government usually raises to the desire to increase Ontario settlement. That objection is that settlement only increases expenses to the province, while all the profits go to the Dominion. It is a plausible ob-

jection, but in one respect a sound objection, but the way to meet it is not inaction. That is merely cutting off the nose to spite the face. The place to meet that objection is at Ottawa, and when facts and figures are adduced to show injustice in this respect Ottawa must remedy it. Inaction merely places Ontario in a position to be unable to argue the case. Let us fill up the big gap. Let us bridge that chasm between east and west with a thriving population. Let us do it thru the railways, or by provincial effort or in any other feasible way, but let the start be made at once before the legislature rises.

ETHICS OF PUBLIC SERVICES.

"The McNaught bill is the most infamous piece of legislation that I have ever seen," Mr. Macrae of the Toronto Electric Light Co. is reported to have said. We did not think that Sir James Whitney could perpetrate anything worse than the Hydro-Electric Commission, but if Mr. Macrae is willing to bestow this testimonial we should not be unwilling to accept it. The bill merely places the municipalities on the same basis as the private companies. Mr. Macrae of course holds this to be an iniquitous principle. Having obtained a franchise from people on the condition that it would not unite with a rival company, the Incandescent Light Co. and the Electric Light Co. promptly united. This would be "fraud" had it happened with a private contract, and might even be termed "iniquitous." But the real iniquity consists in the city inaugurating a competition which cannot be absorbed as the Incandescent Light Co. was.

"When I was in England last year," says Mr. Macrae, "business men would not credit the Hydro-Electric Act of 1910, until I read it to them." We wonder if Mr. Macrae tried to tax the credulity of English business men by telling them how the two companies were amalgamated after solemn undertakings not to amalgamate, or did he neglect to tell them how citizens were driven by such conduct to a hydro-electric policy?

We are not convinced of the advantage of referring the question of damages to a board of arbitration. This means a costly series of proceedings for both companies and municipalities. Once the terms of joint operation are settled the damages or costs are simply a matter of bookkeeping and ought so to be dealt with.

It is quite absurd to say, as Mr. Macrae does, that the bill aims at limiting the companies' freedom of operation. It merely aims at eliminating the friction, which is inevitable where any individual or corporation attempts to usurp the prerogatives of everyone else concerned. Mr. Macrae cannot take the whole sidewalk with him as he walks down the street, and his company cannot ride roughshod over the whole city. If corporations are to have the rights of individuals they must accept some of the moral and ethical principles of individuals as well. A company has no more right to break the moral law than has a man.

UNIVERSITY AVENUE.

Alderman Sweeney's project for the extension of University-avenue to Front-street should be supported and supported now. The plan should have been carried out years ago, as was proposed when the present Union Station was obstructed on the city. The improvement would have cost comparatively little then, just as the extension of Queen-street or the Bloor-street viaduct, or the creation of a city hall square would have cost comparatively little then. The thousands of that day have become the tens of thousands of the present.

This is the result of the system which postpones all its responsibilities and fancies that by relegating its obligations to posterity it is providing the city with efficient government. Some of these obligations should be undertaken before it is too late, and the extension of University-avenue to the waterfront is one of them.

ART AND MORALITY.

Hamilton Herald: That the Decameron, Burton's version of the Arabian Nights, and some of the stories of Balzac and De Maupassant are not fit to be placed on the shelves of Sunday school libraries or recommended to the proverbial "young persons" is general, must be admitted. That they should be classed as "obscene literature," and their sale made a crime against Canadian law, we deny. Police Magistrate Denison of Toronto has declared

SAVE YOUR WAGES THE DOMINION PERMANENT LOAN COMPANY 12 KING STREET WEST

BAKING POWDER Absolutely Pure The only baking powder made from Royal Grape Cream of Tartar No Alum, No Lime Phosphate

the works mentioned to be obscene literature and announces that he will hereafter punish any bookseller who is convicted of selling them. This decision is stupid, oppressive and absurd. The works mentioned are genuine works of art. Of all modern masters of the short story De Maupassant is the most consummate artist. Balzac is one of the literary giants of France and accounts for other times and other scenes of modern novelists. Sir Richard Burton's version of the Arabian Nights is generally conceded to be a literary work which, for hundreds of years, the dramatists and poets and essayists and novelists of many nations have been drawing material. It is true that in all of these works there are coarse and suggestive scenes and incidents, and that the language is somewhat licentious. But they are the products of a great and noble mind. To the public for whom they were written they did not seem immoral or obscene, but merely entertaining.

Such productions—real works of art—ought not to be classed with the literary fifth which is produced for the sole purpose of pampering to perverted chotic tastes. But if it is right to class them as obscene literature and suppress them, it would be absurd to permit the sale and circulation of literature which is more clean than they. It would be easy to point to passages in the works of Chaucer, Swift, Prior, the Restoration dramatists and some of the Elizabethan dramatists which are as objectionable by reason of their licentiousness as anything in the books which Magistrate Denison has banished. Dryden's translation of Juvenal—a masterly piece of versification—is worse, and the same is true of translations of Ovid and Catullus, Fielding and Smollett, Defoe, and Sterne, are gross offenders, and so is Byron. Would Col. Denison suppress Tom Jones and Roderick Random and Flannery and Mordaunt and Don Juan? If not, why not? Surely English literary licentiousness is not less than the French. The fact is that Col. Denison does not suppress English literary masterpieces, even the coarsest of them. He would become a laughing stock of the world if he were to imagine him suppressing the volume of Shakespeare's works which contains the Venus and Adonis! That volume contains also the Rape of Lucrece, and the two other plays which are so objectionable to the moralists of the present.

The only course which Toronto's moral department and police magistrate can consistently take if they are to act as literary censor is to banish all works promoting the moral welfare of the community by deciding what literary classics the people may and may not read, and to banish the rest. He has previously held a similar position with the T. Eaton Co. for a number of years. He has recognized the fact that in this field, as well as in the field of being a keen business systematizer, a few weeks ago Mr. Moreland declined an attractive offer from the Hudson Bay Company, preferring to remain here. The business of this well-known tailoring house is now reaching such proportions as to require the ability of the most capable and efficient men in its progressive business policies.

TRUE BILLS RETURNED.

The grand jury in the sessions returned the following true bills yesterday: Joseph Freidenberg, alleged to have stolen 5 silver spoons, 2 knives and 2 dishes from Louisa Oleson in March, 1911, and receiving same. Also a window blind from Martha Hodgson and two window blinds from W. H. Furnell, and receiving same. Also a box of soap, alleged to have obtained 12 tons of coal, valued at \$84, from the Conger Coal Co. on Sept. 8, 1910, thru false pretences. Charles Gilder, manufacturer, dealer and bottler of pickles, alleged to have sold pickles in bottles bearing the trade mark of T. A. Lytle & Co.

WORK ON PORCUPINE BRANCH.

The breaking up of winter is causing no delay with the work on the new Porcupine branch of the line," said Mr. Englishart, chairman of the Temiskaming and Northward Ontario Railway Board yesterday. "We have all our arrangements completed and the stores and supplies are already up at the station on this branch of the T. & N. O. will be built at MacDougal Vt."

Rebates to Standard Oil.

SUFFALO, March 15.—The New York Central Railway was fined \$25,000 and the Pennsylvania Railway \$20,000 by Judge John R. Hazel in the United States District Court today in the case of Mr. George Totten, who entered pleas of guilty to granting rebates to the Standard Oil Co.

Centenarian Dead.

GORRIE, March 15.—Probably one of the oldest men in the Dominion died near Gorrie last night in the person of Mr. George Totten, who reached the wonderful age of 108. Deceased was a native of Ireland and the greater part of his life was spent in Howick Township. He retained his intellect to the last.

Toronto, March 15, 1911.

MR. A. J. MORELAND

Who Has Been Promoted to the Position of Assistant General Manager of Canada's Big Tailoring House.

An event in business circles this week is the announcement made through the press of the promotion of Mr. A. J. Moreland to the position of Assistant General Manager of the Hobberlin, Limited, the big tailoring firm of this city. Mr. Moreland came to Hobberlin's about two years ago to fill the position of Assistant General Manager. He had previously held a similar position with the T. Eaton Co. for a number of years. He has recognized the fact that in this field, as well as in the field of being a keen business systematizer, a few weeks ago Mr. Moreland declined an attractive offer from the Hudson Bay Company, preferring to remain here. The business of this well-known tailoring house is now reaching such proportions as to require the ability of the most capable and efficient men in its progressive business policies.

Divisional Court.

Before the Chancellor, Latchford, J., Middleton, J. Master's Chambers. Before Cartwright, K.C., Master. Before Mulock, W. Proudfoot, K. C. Keyes v. Mulock—W. Proudfoot, K. C. for defendant. F. Aylesworth for plaintiff. Motion by defendant for an order changing venue from London to Goderich. Reserved. Gillies and Lee—F. Aylesworth for applicants. Motion by applicants for an order for distribution. Adjudged for a week. Parker v. Crown Reserve—Gordon (Parker & Co.) for defendants. Motion by defendants for an order directing the action without costs. Hughes-Caveli (Miller & Conway) for plaintiff. Motion by plaintiff for leave to serve writ of summons substitutionally by serving it on a grown-up person at defendant's residence. Kelley v. Mutual Life Insurance Co. of New York—Craig (Arnold & G.) for defendant. An ex parte motion by defendant, Sophia Fraz, for leave to enter a conditional appearance. Notice of motion directed to be served. Time for appearance adjourned meantime.

Judge's Chambers.

Before Sutherland, J. Hull v. Before—J. T. Small, K.C. for defendant. W. Nesbitt, K.C. for plaintiff. Motion by defendant for an order staying proceedings on a reference. Judgment: If he comes to the conclusion that a reasonable order to be made on this motion is that the plaintiff pay the taxed costs within one month, and upon so doing, and if so advised, he may proceed with the reference. In the meantime it would seem that the plaintiff may well seriously consider whether or not he will accept the offer of the defendant, made without prejudice before and during the course of the argument on behalf of the plaintiff, to settle the matter in dispute between the parties. If there is no settlement and the said taxed costs are paid within one month from this date, the costs of this motion will be

Pelee Island Navigation Co. v. The Doty Engine Works.

Before Mulock, C.J., Teetzel, J.; Sutherland, J. Pelee Island Navigation Co. v. The Doty Engine Works.—W. Proudfoot, K.C. for defendants. A. H. Clarke, K.C. for plaintiffs. An appeal by defendants, and a cross appeal by plaintiffs from the judgment of Clute, J., of 20th December, 1910. Plaintiff's action was brought to set aside a sale made under power of sale in certain mortgages on the ground that the power was not properly exercised, for a declaration that defendant Ross is a trustee for defendant Zuber, an order for redemption, damages, etc. Judgment was awarded plaintiff at the trial setting aside sale, giving Ross a lien for moneys paid by him, declaring plaintiff entitled to redeem, etc. Appeal partially argued, but not concluded.

Seal for Bonar Law.

LONDON, March 15.—(C.A.P. cable.) Lord A. Compton, M.P. for Brentford, resigned today. He had a majority of 3075 in the election last December. He is making way for Joynson Hicks, who will be the Unionist candidate in the by-election. Bonar Law, the Canadian, was adopted today as Unionist candidate in South Lancashire, where J. Sandys, who was unopposed in the general election, has resigned in his favor.

Supplied Bad Fish.

Bernard Bird, who sued White & Co. for loss of business due to their supplying him with decayed fish at an exhibition grounds, was granted \$500 by the county jury court before Judge Morgan yesterday.

in the cause. If such taxed costs are unpaid the defendant will have leave to renew this motion. If the said offer of settlement, made by the defendant, is accepted within a month, then there will be no costs of this motion.

Single Court.

Before Middleton, J. The Walkerville Brewing Co. v. Downing—F. Aylesworth for plaintiff. S. G. Crowell, for defendant. Motion by plaintiffs for judgment. By arrangement between parties stands till 16th inst. Ontario and Minnesota Power Co. v. Fort Frances—S. G. Crowell, for plaintiff. W. H. Price, for defendant. Motion by plaintiff for judgment. Enlarged until 16th inst. Injunction continued meantime. Re Anderson Estate—W. M. Hall, for applicant. J. R. Meredith, for executor. W. T. Evans (Hamilton), for executor. Motion by applicant, under C. R. 388, for an order constraining the will of the late Henry Anderson. Reserved. Hall v. Shiel—J. R. Meredith for defendant. W. C. MacKay, for plaintiff. Motion by defendants for an order to commit Malcolm Douglas for contempt of court, in refusing to answer certain questions on his cross-examination, and for refusal to produce the books and vouchers of the Oxford Permanent Loan and Savings Society, relating to the matters in question between the parties in this action. Enlarged until March 30, at request of Douglas. Bruce v. Baker—H. E. Johnston, K.C. for plaintiff. Motion by plaintiff for an injunction. At defendant's request stands till 16th inst. Re Goble—J. G. Wallace, K.C. for executors. P. Macdonald (Woodstock), for claimants. Motion by executors for an order authorizing payment of legacies. The court declined to pass on the identity of the claimant grand-children, holding that this was the duty of the executors, to whom the will referred that point. No interest allowed until identity established. Costs out of estate. Leave v. Saturday Night—G. H. Watson, K.C. for plaintiff. E. F. B. Johnston, K.C. for defendant. A motion by plaintiff for an attaching order for contempt of court in publishing before trial comments on the case, and repeating the alleged libel. Upon the defendants, by their counsel, undertaking not to publish any articles of a similar nature (the undertaking to be put in writing), motion enlarged to trial. Costs reserved.

Divisional Court.

Before the Chancellor, Latchford, J., Middleton, J. Mr. Melvin A. Secord (Galt) presented his patent under the great seal of the province, appointing him a King's Counsel, and was called within the bar.

Master's Chambers.

Before Cartwright, K.C., Master. Before Mulock, W. Proudfoot, K. C. Keyes v. Mulock—W. Proudfoot, K. C. for defendant. F. Aylesworth for plaintiff. Motion by defendant for an order changing venue from London to Goderich. Reserved. Gillies and Lee—F. Aylesworth for applicants. Motion by applicants for an order for distribution. Adjudged for a week. Parker v. Crown Reserve—Gordon (Parker & Co.) for defendants. Motion by defendants for an order directing the action without costs. Hughes-Caveli (Miller & Conway) for plaintiff. Motion by plaintiff for leave to serve writ of summons substitutionally by serving it on a grown-up person at defendant's residence. Kelley v. Mutual Life Insurance Co. of New York—Craig (Arnold & G.) for defendant. An ex parte motion by defendant, Sophia Fraz, for leave to enter a conditional appearance. Notice of motion directed to be served. Time for appearance adjourned meantime.

Pelee Island Navigation Co. v. The Doty Engine Works.

Before Mulock, C.J., Teetzel, J.; Sutherland, J. Pelee Island Navigation Co. v. The Doty Engine Works.—W. Proudfoot, K.C. for defendants. A. H. Clarke, K.C. for plaintiffs. An appeal by defendants, and a cross appeal by plaintiffs from the judgment of Clute, J., of 20th December, 1910. Plaintiff's action was brought to set aside a sale made under power of sale in certain mortgages on the ground that the power was not properly exercised, for a declaration that defendant Ross is a trustee for defendant Zuber, an order for redemption, damages, etc. Judgment was awarded plaintiff at the trial setting aside sale, giving Ross a lien for moneys paid by him, declaring plaintiff entitled to redeem, etc. Appeal partially argued, but not concluded.

WILL HURRY ON REPAIRS TO BROKEN INTAKE PIPE

Four Engineering Firms to Be Asked to Assist—Fear Typhoid Epidemic.

"I'm going to put down a well," said Controller Hocken at the board of control yesterday morning. "In four months from now, it is my opinion Toronto will witness the worst outbreak of typhoid fever that it has ever experienced." The remark of the controller was brought on by a resolution introduced by Controller Church with a view to hastening the repairs on the intake. The motion, which received the unanimous endorsement of the members of the board, favors having the city engineer communicate with the Reid Wrecking Company of Toronto, Weddell & Company and George Crowe & Company of Trenton, with a view to getting all to assist on the project of repairing the city with water until the other one can be repaired. It is also intended to have the board of experts offer suggestions as to what method to pursue.

Controller Ward moved to have all the city contractors put to work on the filtration plant on Friday, March 17, in order to hasten the completion. The other members of the board concurred in the plan. The report of the city engineer regarding the work on the electrical pumps at the main and high level pumping stations, which was presented, it stated the work of putting in the foundations for the high level station was in progress and the foundations are completed for the pumps at the main station, both for the ordinary water supply and the high level station. The foundations are setting up three of the 12-12 million gallon pumps at the main station. Work at the main station is somewhat delayed by the city not having the building ready. He expects that the entire filtration system will be ready in three months.

The board approved of a grant of \$200 to cover the cost of the capes and the cost of the water meter, which the United States Government has agreed to present to the Riverside Park station. The capes brought to the attention of the board by ex-Ald. Daniel Lamb. The board decided to send a wreath to Mr. Howatt, the donor of the fountain branch of the waterworks department, in token of their appreciation of him and his wife, Mrs. Howatt, for their faithful services to the city during the last thirty years of his life. A largely signed petition from the High Waterworks Association was presented to the board asking that a monument to the memory of Mr. Howatt, the donor of the fountain, be erected at the entrance to Howard Park. The petition will be further considered at a future date.

Sanquet to J. D. McDonald.

The railway friends of J. D. McDonald, formerly Toronto district passenger agent of the Grand Trunk Railway, who has been appointed to the Chicago office, will on Friday, March 17, tender him a banquet at the Albany Club. He is making a trip to Toronto especially for the event.

Are You Going West This Spring?

If so, there are abundant opportunities to go via Grand Trunk Railway System to Chicago and thence connecting lines. Low rates every day to Manitoba, Saskatchewan and Alberta, including points on Grand Trunk Pacific Railway. Reduced rates for one-way tickets daily until April 10, inclusive, to Vancouver, B.C.; Spokane, Wash.; Seattle, Wash.; Portland, Ore.; San Francisco, Cal.; Los Angeles, Cal.; Mexico City, etc. Before deciding on your trip, consult any Grand Trunk agent, or address E. B. Duff, district passenger agent, Toronto, Ont.

Seal for Bonar Law.

CARE IN SMALL ITEMS MAKES MERCHANTS RICH

Burroughs Adding Machine is Vital Factor in Modern Business Success.

"Most banks get rich on 6 per cent. while most retailers sooner or later go broke on 25 per cent."

It sounded startling when Mr. D. W. Saxe, sales manager for the Burroughs Adding Machine Company in Ontario, made the above statement in his office, 146 Bay-street, Toronto, recently, and yet four representative business men to whom he happened to be speaking admitted it was so and wondered why.

"It's because the banks keep track of the little things," declared Mr. Saxe. "They keep the little leaks that encourage the little increase; they know their business right down to its boots, so to speak. You average retailer, on the other hand, hasn't the time to keep track of the pennies. He's bothered by all sorts of petty annoyances from questions about the window trim to the hiring of a new delivery boy."

"The banks learned long ago how to accomplish work by systematizing the details and this is what the retailers must come to if they hope to do a profitable business."

Then Mr. Saxe went on to give a few ideas as to how this might be accomplished. "Any retailer will admit that if he could spend with his customers the time he consumes in keeping track of their accounts he could make more money. He, himself, having built the business, knows more about selling his goods than anybody else in the store. Time was when he knew all his customers by name and knew whether John Small chewed Piper Heidsieck or Star Plug and whether Mrs. Brown was partial to pink or blue gingham."

"In those days little things were not forgotten. Sundries were never left out. Women never bought shirt waists in one store and trimming in another because the proprietors looked after them in person and saw to it that every needful accessory was supplied."

Save to Routine. "But now the busy retailer spends his entire day over his books. He knows that his clerks do not attend to these things, that hundreds and thousands of dollars slip thru their fingers every day thru their neglect, inattention and carelessness, and he is seemingly powerless to prevent it."

"It is this condition of things which leads the retailer to value his time higher than anything else. He would give for it if he had more time he could make vastly more money, and save a deal of worry and work which under present conditions goes for naught."

There are some things that every retailer ought to know. For instance, he should know how much stock he has, how much money he owes, how much money is owed to him; on what lines he makes his greatest profit; what clerks are selling the most and most profitable goods, and, finally, he ought to be certain that no goods leave the store without his being in cash on a suitable record of them in a book.

"Perhaps this looks like a large undertaking. While it is of course impossible, but this is what success in the retail business demands. It is safe to do business unless you know every one of these things and know them accurately, and all the time."

The Assure. "Now then, how much time do you think it would take the average retailer to answer all these questions and maintain a record of answers to them from day to day? Some of them would worry themselves sick about it in a week. Yet these things a banker knows—must know to transact his business—and that is just exactly why a bank can thrive on a narrow margin of profit. The Burroughs Adding Machine was placed on the market the first time to use it were the bankers."

"Because the bankers saw instantly after the machine had been demonstrated to them that it was of practical use in their business; that it would help them keep up these daily records and aid them in maintaining the system on which their business depended."

"They found that with the aid of the Burroughs they could answer those vital questions in just about one-sixth of the time required to answer them without a Burroughs. In other words six hours of one man's time were required the amount of money received from selling a certain line of goods; the same man could do the same work in one hour, working with the machine, leaving five hours to devote to other work."

"Save time, save work, save worry—these were the principles which the banks put into practical operation years ago, and these are the principles which retailers are beginning to realize mean special success for them."

An All Round Record. "By applying the Burroughs to their business, busy retailers are discovering that it is just as valuable there as in the banking business. They find, for instance, that it will make duplicate bank deposit tickets, make a daily record of sales by clerks, a record of cost and selling prices on all articles sold, make a record of earnings and expenses either by different departments or different lines of goods, make a record of outstanding accounts, totals and balances to date, make a record of C.O.D. orders, make a daily cash balance, make out and PAYE THE MONTHLY STATEMENTS, make a daily profit of posting that guarantees a balance at the end of the month, make a record of purchases by lines of goods or by departments, make comparative statements of sales, profits and so forth. It will check vouchers and make voucher records; it will check invoices and cartage bills; it will keep an auditing and checking cash book, check invoices, and reconcile bank balances by listing outstanding checks."

"These things the Burroughs is doing to-day for retailers all over the country and doing them in just one-tenth the time that would be necessary if clerks were forced to gather the same information by hand."

"One of the chief sources of worry in retail stores is the charge the customers with debts owed on credit. If there are many customers waiting, it is not pleasant to delay them while the charge is entered; yet if many are waited on before the charges are made,

the clerk or even the proprietor is almost sure to forget an item or two. "The Burroughs supplies a quicker, easier and absolutely accurate way. Profit on Each Line.

"Many stores handle different lines of goods. For instance, most drug stores sell drugs, medicines, prescriptions, toilet articles, soda water, candy, cigars, etc. Each of these articles is sold at a different profit and it is to the proprietor's interest to know the profit on each line in proportion to the expense, for it may be that he may add to his profits by discontinuing his candy stock and doubling his stock of cigars, or vice-versa."

"The Burroughs will aid him in keeping separate the cash received from sales in each department and in determining the expenses and earnings of every line he handles."

"Some concerns keep a Burroughs within easy reach of clerks. When an order is received, the salesman goes to the machine, which is arranged to list and add two columns of figures at once, and puts the cost in one column and the amount received into the other. At night the proprietor presses a button, pulls the handle and gets the total cost and total receipts from every article sold during the day. The difference between these sums is the day's gross profit."

"If the amounts of all C.O.D. orders are run off on the Burroughs before the deliveryman leaves the store and if he is required to show cash on his return for every order taken out, the chance of loss in this department is greatly diminished."

"Burroughs machines can be purchased that will make out an entire monthly statement, including dates, debit and credit items, footing and balance, while running thru the statement slips once. The time saved by this machine is almost unbelievable."

"These are only a few of the ways in which the Burroughs aids retailers who have realized the necessities of success in their business. There are numerous others. Burroughs machines are always glad to demonstrate what their machines can do and explain to any retailer who desires to increase the efficiency of his business how he can best get results."

"That's the way we try to be helpful here in the office, and these are the principles on which every one of the Burroughs 332 salesmen works."

UNIVERSITY AVE. EXTENSION Cost of Project Estimated at \$4,000,000—Aldermen's Lack of Interest.

The civic improvement committee failed to secure a quorum yesterday afternoon, but an informal discussion took place among those present over Ald. Sweeney's proposal to extend University-avenue. The project, it is estimated by Assessment Commissioner Forman, would involve an expenditure of between \$2,500,000 and \$4,000,000.

The committee favor the plan, and also are pleased with the legislation recently secured permitting municipalities to appropriate lands for improvements.

BURGLARS AT LINDSAY.

LINDSAY, March 15.—(Special.)—Daring burglars broke into the Foy shoe store here last night and got away with some sixty dollars in cash by looting the safe. Strange to say a small bag labeled Sunday school clothes, which contained a small amount of money, and which was sitting on the safe, was left untouched.

Sues for Son's Death.

Samuel Plunkett is suing the Toronto Railway in the jury session as administrator of the estate of his son, Wm. Henry Plunkett, who was killed on Dec. 12 by being thrown from his lorry by a street car at the corner of Dundas and Dovercourt-streets. He asks \$3500 and costs.

The plaintiff declares the accident resulted from the high speed of the car and the too slow application of the brakes.

He and his wife are both over 60, and were supported by the son, who was 34 years old and unmarried.

Built Without Permits.

Benjamin Sherman, 71 Elizabeth-street, has received an injunction from the city architect to come to police court and explain why he erected, or caused to be erected, a structure at the rear of 65 Elizabeth-street without the permission of the city architect's department.

Moses Berkman, of 25 Chestnut-street has received a similar injunction as a result of a structure erected at the rear of 65 Louisia street.

Georges Meet To-Day.

The mayor has called a meeting of Georges for 4 o'clock this afternoon in his office. Invitations have been sent to a number of men of prominence in the city who are of the same name as the King and all are expected to attend. The question of taking action to make a census of the King at the time of coronation will be discussed.

Big Night of Irish Fun.

The Riverside Roller Rink is having one "Big Night" at the annual St. Patrick Day Carnival, Friday night, March 17. There are no less than twenty bands numbered with 12 valuable prizes, among which are a diamond pin and silver watch in alligator leather to lady and gentleman who best represent old Ireland. A ladies' block party at 10 and the grand march at 11. If you want a good night of Irish fun, why go.

City Will Not Sue Bakers.

The medical health office will not proceed against the bakers for furnishing bread on the city contracts which call for loaves of a weight contrary to the law. The bread is supplied to the jail and hospitals.

New Brunswick's Finances.

FREDERICTON, N. B., March 14.—Provincial Secretary Fleming delivered the budget in the legislature to-day. The surplus for the past fiscal year was \$6,568,824. He estimated the income for the current year at \$1,327,445, 21, and expenditures at \$1,313,522, 22.

CITY AND LIGHT COMPANY ARE NOW MARKING TIME

Interest Centres in Monday's Council Meeting—Views on the McNaught Bill.

There have been no new developments in the electrical situation in the past couple of days. The Toronto Electric Light Co. continues to assume a defiant attitude and refuse to consider the offer of \$125 per share made by the board of control. So far as the city is concerned, the negotiations seem to be at a standstill, and it is understood that they will remain in this position until the meeting of the council on Monday, unless some move towards a deal comes from the light company.

The general impression among the members of the council seems to be that the offer made is a generous one, but as the action of the board of control has to be ratified by council, there is little possibility of any action being taken until further notice.

"So far as I know there is nothing new in the situation," said Mayor Geary, when questioned yesterday.

"I had a letter from Manager Agnew this morning, requesting the report of Mr. Dow, which quotes a price of \$150 for the company's stock, continued the mayor. "No such report exists. Mr. Dow has never been asked to place a valuation on the physical assets of the company."

"The city officials express their approval of the bill introduced into the legislature by W. K. McNaught, giving the hydro-electric commission power over all companies. Controllers Church, Hooker and Ward express themselves as perfectly satisfied with the bill. The mayor said the city was not opposing it, but he did not care to discuss it."

"Infamous legislation," said Manager H. H. Macrae of the Toronto Electric Light Co. has given voice to his views of the McNaught bill in no uncertain terms. He says:

"The McNaught bill is the most infamous piece of legislation that I have ever seen. We are in competition with the hydro-electric commission and yet we are made subject to its jurisdiction. It means, in effect, that a municipal plant will be established in Toronto and that the Toronto Electric Light Co. will be subsidiary to it. It is a piece of legislation that will not be believed in England until it is read word by word. When I was in England last year business men would not credit the Hydro-Electric Act of 1910, until I read it to them."

"There is really no difference between the first and second McNaught bills. The principle is the same, either becoming law, would do insalubrious injury."

"The fact that damages are determined by a board of arbitration appointed under the Municipal Act instead of by the hydro-electric commission makes no difference. The principle of damages is a secondary consideration. The McNaught bill aims at limiting our freedom of operation. Besides, it will prevent us from getting capital for investment, because it will not put their money into a business which is limited as the McNaught bill attempts to limit ours."

Hydro-Electric Power.

Hydro-electric power was again turned on last night on the streets running north from Queen-street to Bloor-street, between the streets of the Don. The fact that the lights shone does not mean that the streets so illuminated will continue to enjoy the benefits of hydro-electric power, now on. It is simply another test by the city electrical department, and a more extensive one than the one of last week.

Scarlet Fever in Schools.

Cases Reported There for February Nearly Total Number In City.

As a result of 201 cases of scarlet fever being reported from the public schools for the month of February, while the entire number of cases reported to the medical health department for the same period is only 237, there will be a conference between Dr. Hastings, medical health officer, and Dr. Struthers of the medical inspection staff of the board of education.

An effort will be made to have the responsibility for the cases being reported to the city health department fixed. That there was neglect on the part of someone is the opinion of Dr. Hastings. He believes that it may be due to the ignorance of parents as to the health regulations. He thinks it possible that there may have been many mild cases where physicians were not summoned.

Edward Howard Griggs ON "FAUST"

Edward Howard Griggs in his third lecture on Goethe's "Faust" on Tuesday touched many of the urgent questions of the day in the world of thought. He was dealing with the outer and the inner world, as suggested by the scene with Wagner in Faust's study, and Faust's subsequent stroll among the people on the Easter holiday. The scene in the study was written when Faust was 23 and was as great a mark of youthful genius as Browning's "Paracelsus." The three phases of thought were depicted, entered upon at first by the pioneers of intellect, next established in the academic phase, and finally elaborated and become authoritative, creating an orthodox standard. The scholastic movement passed thru these stages, and Faust was in revolt against the last.

It is always safe to be conventional and respectable, but life sometimes depends on rebellion. In our modern thought the contribution of biology had gone thru the pioneer and academic stages, and had now entered upon the stage of general acceptance and orthodoxy. There were few pathmaking minds in biology to-day, and a man was under suspicion did he dare to take a new course.

"As to anything could be orthodox in science, which only seeks the true," observed the speaker. There never was a young man of genius who did not start out with the assurance that if he had to grow up like the people around him, and settle down into an ordinary, respectable, conventional citizenship, he would prefer to die at once.

Will Have Fair Trial

Admirable Jury Secured for the Great Cammorrist Case.

VITERBO, March 15.—Carabinieri, cavalry and government agents to-day started a crusade against suspicious strangers in Viterbo as a result of the bait of the great Cammorrist trial thru inability to secure a jury. All persons known to have been intimidating talesmen or suspected of such crimes are being driven out of town.

Military Cemetery Badly Kept.

The condition of the military cemetery on Strachan-ave. is said to be such that the soldiers at Stanley barracks are said to have refused to bury a dead comrade there. As a result, William H. Smith has written the mayor protesting against the condition of the burying ground.

Little Typhoid in City.

The typhoid fever situation is reported by the medical health department to be much more satisfactory at the present time than it was at the same time last year notwithstanding the fact that 13000 water and tried to be used. The number of cases so far reported to the department for the current year is 23, while the reports of last year show a total of 115 up to the end of March. The analysis of the water still shows it to be perfectly safe for use.

SPRING FASHIONS FORMAL OPENING AND Exquisite Showing of Latest Styles in LADIES' GARMENTS AND MILLINERY Thursday, Friday and Saturday MUSIC SELECTIONS DAILY—STORE OPEN EVENINGS The Home Furniture Carpet Co., Limited 343-345 Queen East, Corner Queen and Parliament.

Edward Howard Griggs ON "FAUST" Edward Howard Griggs in his third lecture on Goethe's "Faust" on Tuesday touched many of the urgent questions of the day in the world of thought. He was dealing with the outer and the inner world, as suggested by the scene with Wagner in Faust's study, and Faust's subsequent stroll among the people on the Easter holiday. The scene in the study was written when Faust was 23 and was as great a mark of youthful genius as Browning's "Paracelsus." The three phases of thought were depicted, entered upon at first by the pioneers of intellect, next established in the academic phase, and finally elaborated and become authoritative, creating an orthodox standard. The scholastic movement passed thru these stages, and Faust was in revolt against the last. It is always safe to be conventional and respectable, but life sometimes depends on rebellion. In our modern thought the contribution of biology had gone thru the pioneer and academic stages, and had now entered upon the stage of general acceptance and orthodoxy. There were few pathmaking minds in biology to-day, and a man was under suspicion did he dare to take a new course. "As to anything could be orthodox in science, which only seeks the true," observed the speaker. There never was a young man of genius who did not start out with the assurance that if he had to grow up like the people around him, and settle down into an ordinary, respectable, conventional citizenship, he would prefer to die at once. "It is only the man who has never

A JUG-HANDLED DEAL AS W. S. BREWSTER SEES IT

South Prant Member Believes in Making U. S. Establish Industries in Canada.

Speeches for and against reciprocity occupied the attention of a bare quorum of members at the house of the Ontario Legislature yesterday afternoon.

Dr. Mackay (Lab.), North Oxford, returning the debate on the anti-reciprocity resolution, argued that the proposed agreement involved no tinge of disloyalty. As a loyal Canadian true to her best interests and to the British Empire and British institutions he could but welcome any equitable trade arrangement which was designed to strengthen the friendship of the Dominion and the empire with the American people.

W. S. Brewster, Conservative, South Brant, referred to the protest of the Brantford Board of Trade the other night against reciprocity. Brantford was content to let enough alone, and this applied to every city in the Dominion. At present, Americans were compelled to come here to make investments in order to extend their trade, while, with the proposal of the Dominion Government, a fiscal policy would be adopted that would be ruinous to Canadian trade. It was the "jug-handled" agreement over heard of, and Mr. Brewster saw in it elements that would tend to wreck Confederation.

The Hapless Packers.

As one illustration of the unfairness of the pact to this country, he pointed out that the pork packing industry was represented in Brantford (so he knew whereof he spoke), and the Canadian packer couldn't sell his bacon in the States because the American inspection law prohibited it. Nor could Canadians buy logs over there. The proposed treaty did not alter the state of things. On the other hand the American packers could come in here and buy logs and could sell the pork in this country. Mr. Brewster said that the States policy, which if it did prove successful in one respect, a greater danger than its failure. If the farmers liked it, the U. S. would give you free trade in manufactured products, or we will abrogate the treaty altogether. Why did they want to be at the parting of the ways? There were only two ways—one leading to Washington and the other to closer union with and tried old way. "Take the time and tried old way," he advised, "that leads toward closer unity with the British Empire."

The only true policy, that Canada's resources should be developed by Canadians for Canadians and Canadians for the empire.

Mr. Taff was recognized. "Taff" knows that if the United States don't embrace the present opportunity, Canada will soon build up a strong nation. The United States can draw us away from British allegiance.

Last year the U.S. brought into Canada \$25,000,000 worth of farm products. And this with a protective duty against them. What would it be if that duty were lifted? The argument was advanced that the Canadian farmer would get more for his products by virtue of the treaty.

Live Stock Prices.

J. Kohler (Lib.), Haldimand, quoted statistics gleaned from the Toronto Stock Yards and the Buffalo Stock Yards, to show that the price of cattle, calves, sheep and hogs in Toronto, Buffalo and Chicago, had been without variation for the past three years. If the duty were lifted, it would mean a bill proposed, what a splendid profit would accrue to the Canadian farmers upon their stock if sold on the Buffalo market.

D. Jamieson (Con.), South Grey, said that his first impression of the act was that it was a good thing for this country; but he had since changed his mind. At the same time, he was of the opinion that the feeling towards the empire was much stronger in Canada than in the United States, and that even with such an arrangement in force, the spirit towards Britain would be maintained.

S. Clarke (Lab.), West Northumberland, said that the members of the house had not been in close touch with their constituents. He believed that most of them would find that they were not voting the views of the rural constituencies in connection with reciprocity. The relief the treaty afforded the Canadian northwest was but a sop, a drop in the bucket compared with what was due them.

At the night session E. Fraser (Con.), Welland, said that a large number of Liberals thought Mr. Garman a discredited politician, but the fact was Mr. Garman had a mandate from the farmers of Welland, who are opposed to reciprocity. In the last few years sixty manufacturers had been established in Welland County, of which 55 were offshoots of factories on the United States side of the line. Allan Stubbins (Lab.), East Hamilton, said that he would vote against the anti-reciprocity resolution, as the Ontario Chamber of Commerce and a number of other clergymen of Boston and vicinity, have sent out a circular in opposition to a bill pending in the legislature to permit the city of Boston to appropriate \$50,000 nearly for maintenance of the museum.

Philippines at 'The Hub.'

BOSTON, March 15.—Because of their objections to the nude statues in Boston museum of fine arts, Bishop William F. Mallock of the Methodist Episcopal Church, and a number of other clergymen of Boston and vicinity, have sent out a circular in opposition to a bill pending in the legislature to permit the city of Boston to appropriate \$50,000 nearly for maintenance of the museum.

"British Columbia offers the most profitable field for investment—or home-building—in the known world."—Public Document.

The Trek To-day is to the Pacific Coast Province

Bella Coola Choice

It can be said, we believe, without fear of contradiction, that our offer of choice land in the Bella Coola District, British Columbia, at \$5.00 an acre, has given rise to more enquiries, far and near, than for any land proposition of many years. Letters are coming to us from all parts of Canada and different sections of the United States. Well it may.

Our Offer of \$5.00 an Acre Is Limited to first 20 Sections

Write at once for all information—booklet, map, etc.

W. A. LAWSON, The Known Farm Land Specialist

102 Church Street, Toronto, Can.

In the Bella Coola district you can grow not only all kinds of cereals, but nowhere in the Dominion is there land so well adapted to all kinds of mixed farming—and fruit growing.

DEPORTED OPERATOR BROUGHT FROM DETROIT

So Says President Konenkamp of Telegraphers' Union—Some Railway Increases.

According to President Konenkamp, representative of the G.N.W. telegraph operators, who are seeking government aid towards the reimbursement of 50 discharged operators, the local immigration officials have deported an operator who has been charged with the charge of breach of the Alien Labor Act.

"W. H. Conors was taken from the G.N.W. office and returned to Detroit yesterday," said Mr. Konenkamp last night.

"His services were engaged in Detroit, and he was given an order to call at Windsor for transportation. A pass to Toronto was issued. A member of the Canadian executive committee of the branch of the Alien Labor Act."

"The company has obtained another circuit over their whole system and the one issued a month ago asking the men to repudiate the committee who were negotiating for an increase in pay and who had been refused to avoid having more men locked out for refusing to sign they assure the men that they will be given an increase of from \$1 to \$15 a month."

"The object of this is obviously to test our strength. It puts the men in the awkward position of being disposed of as they do not repudiate the committee as being truly representative of the body of the union. Or even if they are not discharged they are debarred from the privilege of striking under the Lemieux Act."

"In the meantime we are absolutely dependent upon the government to settle the trouble, and the government as yet have shown no particular haste in taking a hand."

"Four men were taken here to-day on account of the unsatisfactory conditions. Three others were given raises in salary to prevent their leaving, and was advanced from \$5 to \$8; one from \$30 to \$40, and the third from \$45 to \$50 a month."

SPRING FASHIONS.

Ladies fortunately are ever with us and their movement appears after all views and dearly to the lesser half of humanity. Notwithstanding occasional aberrations in the part of designers of the garments which so strongly attract the masculine attention, it can hardly be denied that the tendency in this branch of art runs towards beauty of line and harmonious blends of color. Even the showrooms of these creations of the imaginative faculty, applied to feminine fashions, become every year more attractive and even add musical selections to enhance the charm. To-day and for the remainder of the week the Home Furniture Carpet Co., 343-345 East Queen-street, corner of Queen and Parliament, will hold its formal opening and exquisite showing of the latest styles in ladies' garments and millinery in entirely up-to-date spring fashions. The call invites the response and both should be universal.

T.B.C. Excursion, Buffalo, \$2.10 return. COPELAND, March 15.—The government is sending warships to Greenland with instructions to arrest foreign walrus hunters, chiefly American, who are reported to be killing thousands of walrus annually.

Lost Her Deck Load. VINEYARD HAVEN, Mass., March 15.—The barquentine Emma R. Smith, Mable for St. John, N.B., at this port, reports that in a northerly gale on March 7, in the gulf stream, she lost a portion of her deck load of yellow pine and oak timber. The vessel strained and leaked badly.

SALARIES IN LIBRARY NOT TEMPTING ENOUGH

Hard to Secure Efficient Help, Says Librarian Locke—Larger Government Grant.

The question of raising the salary scale of the public library staff was considered at a meeting of the board, held last night, but no definite action will be taken until the next meeting of the board. N. B. Gash was in the chair.

John Turnbull, a member of the board, thought it was unfair to ask anyone over 18 years of age to start in at a salary of less than \$7 a week. The initial salary is at present \$350 per year for the first two years, before an increase is given, with the exception of the catalog department, in which the commencing salary is \$400 for the first year.

Chief Librarian Locke said that on account of the low salaries being paid it was difficult to secure efficient help for the departments. If the cost of living increases at a faster rate than the salaries are increased, the members of the staff will be worse off the longer they stay with the library, said a member of the board.

Immediately after the close of the present session of the Ontario Legislature the board will wait upon the government and ask for an increased grant.

Paralysis of the Limbs

Resulted From Exhaustion of the Nerves Over Which Doctors Had No Control.

Never Expected to Get Better, But Was Restored by the Use of DR. CHASE'S NERVE FOOD

Nervous diseases come on gradually, often imperceptibly. The head aches, you do not sleep well, the stomach gets weak and food is not properly digested; you find yourself easily tired and easily annoyed and irritated. Little do you think of the prostration or paralysis which awaits you unless you get the nerves back into good condition. But now is the time to call a halt to the wasting process by the use of Dr. Chase's Nerve Food. Mr. Alexander Honsburger, 10 Moore-street, St. Catharines, Ont., writes: "For some years I was much afflicted with nervousness, which grew on me and developed into paralysis of the limbs so that I became helpless. The best efforts of three doctors failed to even relieve me, and, though I tried a Buffalo specialist, he, too, was baffled in my case. I gradually grew worse, and was in such a bad condition that I despaired of being well again."

"After using ten boxes of Dr. Chase's Nerve Food I was able to resume work, and am now feeling better than I did for twenty years. I consider Dr. Chase's Nerve Food the king of all medicines, for through its use I recovered health after long suffering."

Dr. Chase's Nerve Food restores feeble, wasted nerve cells, and brings back health and vigor to the run-down system. Fifty cents a box; all dealers, or Edmanson, Bates & Company, Toronto.

AT THE THEATRES

"Madam Butterfly." Giacomo Puccini's tragic opera, founded on the book by John Luther Long and David Belasco's drama of the flowery kingdom, will be heard in English at the Royal Alexandra Theatre for one week only, beginning March 20. A competent cast, which includes well-known solo artists, a splendid chorus and complete orchestra of forty picked musicians, under the direction of Carlos Nicolsa, formerly of Mr. Hammerstein's Opera House, a charming stage setting prepared under the direction of Mr. Edward Temple, combine to make the production a notable one even for New York City, where this organization recently scored a remarkable success. The principal roles will be taken by singers who achieved success in "Madam Butterfly" several years ago under the management of Henry W. Savage. There will be no advance in price, consequently this will be the first time this opera has been heard at \$1.50 for the best seats. The advance sale commences this morning.

In addition to the prima donna solo, there will appear with the Alice Nielsen, Operatic Concert Company in Massey Hall, April 3, seven other artists, all prominent in grand opera. Mme. Marie Claessens, the contralto, is a graduate of the great Conservatory of Brussels, her native city; going from there to the Conservatory at Barcelona, Spain, in which city she made her first appearance on the operatic stage. Then followed a tour which embraced the principal theatres of Europe, in all of which she was the

reciprocity is taking place. It is only theatre-goers making reservations for the engagement of the world's most sensational musical comedy production "Madame Sherry," which plays a local engagement all next week at the Princess Theatre.

So great has been the demand for seats that in fairness to those who stand in line at the box office all telephone orders will be refused for that engagement. A great local interest will be shown in Marie Flynn, who plays the part of Yvonne. She is a Toronto girl, and was born at 40 Bond-street.

Manager Shea announces one of the most important bookings of the season at Shea's Theatre next week in the engagement of Nat C. Goodwin in "Lend Me Five Shillings." Mr. Goodwin has delighted two generations with his many and varied roles. His American Citizen and a Guided Fool are known to all theatregoers, but it is doubtful if he has ever appeared to better advantage than in the part he assumes next week, that of Mr. Go-ightly, in "Lend Me Five Shillings."

The features for the week are: Augusta Glose, the dainty pianist girl, and Raymond and Cavertley, German comedians. Included in next week's bill are, Flanagan and Edwards, Smythe and Hartman, The Four McNallys, the Abdallahs, and the Kinestograph.

Imagine a series of situations, ridiculous and irresistibly funny dialog that sparkles with wit from beginning to end, and you will form a very clear idea of "The Jolly Girls," which will begin a week's engagement at the Star Theatre next week. The plot is so simple that a child can understand it, and so intensely funny that old and young alike are kept in an uproar of laughter during the progress of the play.

Jack Mason's new Rentz-Santley Company, presenting "The Rollicking Girls," is understood to be the kind of entertainment that never fails to please its audiences. The play is full of real life comedy that tickles, and the musical part of the play is absolutely

ALICE NIELSEN, The noted Prima Donna Soprano, who will appear with her operatic concert company in Massey Hall, April 3rd.

leading contralto, notwithstanding her youth and her lack of routine experience. In Mexico and South America she created a furore, and her recent appearances with the Metropolitan Opera Company have established her as one of our foremost contraltos. The mezzo roles in all of the great operas are in Mme. Claessens's repertoire, including many that are rarely heard elsewhere. In fairness to those who stand in line, no phone orders will be taken for this engagement.

MORVA WILLIAMS. With the "Rollicking Girls," at the Gayety Next Week.

There are fifteen song bits with the show. The producer has arranged of very original and attractive style of amusement worthy of success. "The Rollicking Girls" Company will be seen at the Gayety Theatre next week.

COMMERCIAL ARBITRATION.

(Canadian Associated Press Cable). LONDON, March 15.—Hon. Sydney Buxton, president of the board of trade, speaking at the dinner of the associated chambers of commerce, said it had been complained that the board did not give information regarding the new tariffs of other countries. The board had been cautious in such matters not to arouse false alarms. The question of commercial arbitration would probably come up at the imperial conference, and it might be possible, as far as the empire was concerned, to obtain uniform action.

A WOMAN'S BACK.

Not One Woman in Twenty Has a Stong Back.

The kidneys are to blame nine times out of ten. Mrs. A. H. Hutton, Jr., McCreary, Man., writes: "Two years ago I was stricken with a very severe pain in the small of my back. When I would rise it seemed as if my back would break. My kidneys were very badly out of order, and I would have to get up three or four times during the night. I took one box of Doan's Kidney Pills and they effected a cure."

Doan's Kidney Pills are 50 cents per box or 3 for \$1.25, at all dealers or mailed direct on receipt of price by the T. Milburn Co., Limited, Toronto, Ont.

If ordering direct specify "Doan's." When the blood isn't properly filtered the poisons that ought to be carried off by the kidneys are sent back through the system, and it's hardly to be wondered that backaches and lame backs come to make life miserable.

Doan's Kidney Pills are a specific for all kidney troubles. They begin by expelling all the poisonous matter from the kidneys, and then heal the delicate membrane and make their action regular and natural.

MUST STOP WHEN FLAGGED

Time-Table of Railway Held to Be Contract With Public.

CORNWALL, March 15.—(Special).—An interesting case was tried before Judge Liddell and a jury in the district court at Cornwall, in which Duane Monroe of Cornwall was awarded damages against the Grand Trunk Railway. Mr. Monroe purchased a ticket at Cornwall for Lansdowne, Ont., on Oct. 11. In the early hours of Oct. 12 he went to Mallorytown a flag station, for one of the morning trains and asked to have the train flagged. The night operator complied with the request, but the engineer failed to stop and Mr. Monroe was detained an entire day.

It developed that as a matter of law the timetable is a contract with the public and that the refusal of the engineer to stop when signaled, was a breach of that contract. The jury agreed on a verdict for Mr. Monroe for \$50. So far as the public legal records show, this is the first time that an action of this sort has ever been tried in the Province of Ontario.

PEAT IN FRONTENAC.

KINGSTON, March 15.—(Special).—According to a statement by J. G. McNulty, manager of the Ontario Exploration Syndicate, Frontenac County will have a great prospect of peat from the peat industry. There are thousands of acres of good peat in the northern part of the county, and there is believed to be enough peat to a fair depth to supply all eastern Ontario.

The Peat in Trinidad. WASHINGTON, March 15.—Peat has been announced at Port au Spain, Trinidad, according to a telegram received by the state department to-day from American Consul Hale of that port.

Only one case of the disease has so far developed.

IN A DUAL ROLE.

KINGSTON, March 15.—Just before the train left for Belleville a member of the "Three Twins" theatrical company, secured a marriage license, and with another member of the company, Miss Foden, went to St. George's Cathedral, where they were married. Canon Starr tied the knot.

Market Has Healthy Undertone
Hollinger Turns Strong Again

Responsible Demand for Mining Stocks Leads to Several Advances
General List Holds Decidedly Firm.

World Office, Wednesday Evening, March 15. The mining market today displayed a generally healthy undertone under responsible buying orders which carried prices up to a slight extent in some instances. Trading continued active, but realising sales came into prominence on any signs of a runaway tendency, and little progress was made except by some specialties. Hollinger regained some of its former buoyancy, the shares making a rapid ascent of 25 points to 82.15 when the buying demand made itself felt. It was stated on the street that short covering was in the main responsible for the movement, traders who had taken that side of the market being badly nipped when they endeavored to cover their contracts. Preston East Domes opened up 3 points at 49, but profit-taking sales checked this exhibition of buoyancy, and the shares reacted to 46 later in the day. Vipond held its own at 60 to 62, but Swastika was less fortunate, this stock dropping back 4 points from its opening price of 64. Pearl Lake was traded in for the first time to-day, and the shares changed hands as high as 61 1/2, or 1 1/2 points above the underwriting price, thus living up to the record established by the Porcupine issue, which have come earlier into the same. Cobalts demonstrated the strength of their position, and further advances were in order in various cases. West-lauer gained points to 37; Cobalt Lake advanced a small fraction, and both Beaver and Timiskaming held decided weak spots, this stock losing a full point under pressure of realising. The action of the market during the last few days has been entirely healthy, and to-day's session was in accord with this idea. The frenzied trading which was in evidence when the stocks were first put on the list, has to a great extent disappeared, and the list has settled down to a more serious business under responsible trading.

NEW MANAGER
Expert Engineer Appointed to Take Charge of Bailly Mine.
COBALT, March 15.—In pursuance of the policy outlined in the annual report of the Bailly Cobalt, Mr. J. Wood has been appointed manager of the Gironx Lake property, and is now in charge of affairs there. Mr. Wood is a western engineer and comes to Cobalt with an enviable reputation. He is a graduate of the Colorado School of Mines in 1887, and for many years chief chemist of the Metallurgical Extraction Company of Florence, Colo., and metallurgist for the Gold and Silver Extraction Company of Denver. More recently he was manager of the Kimberley and Husk properties at Kimberley, Utah, and for the past four years he has been engaged in mining engineering for several mining properties in Colorado and Arizona.

Table with columns: Standard Stock and Mining Exchange, Cobalt Stocks, Buy, Sell, etc. Lists various stocks like Beaver Consolidated, Buffalo, Chambers-Perland, etc.

NEW YORK BROKERS WILL HAVE OFFICES HERE
Two Curb Firms to Open Branches to Look After Porcupine Business.
That Porcupine is fast looming up as an important factor in the mining markets is evidenced by the fact that several New York curb brokers are contemplating opening offices in Toronto in order to take care of the business which will arise when the gold mining shares come into their own. Toronto has always been the leading market in 100 for as the Cobalt stocks are concerned, and on account of this city being the base of operations from which most of the Porcupine companies will be directed, speculation in the gold mining shares will be centred here also. Representatives of Charles A. Stoneham & Co., 42-44 Broad-street, New York, were in Toronto yesterday making arrangements for the early opening of branch offices in the city. Gets \$2300 From Railway. Mrs. Alice Doye, who sued the Toronto Railway in the jury estate court for \$2000 damages, was granted \$2300 by the jury yesterday. She was thrown to the pavement while transferring at Parliament and Carlton, and received a shock which resulted in nervous illness.

PELLATT IS PRESIDENT OF MONETA PORCUPINE

Company Owns 120 Acres Near Hollinger—Work Will Be Commenced Shortly.

J. L. Mitchell & Co. have issued a circular on Moneta Porcupine Mines, Limited, reporting that at a meeting of the company, which took place on Saturday, the 11th, Sir Henry M. Pellatt was elected president; David M. Friedman, vice-president, and D. S. Steindler, secretary-treasurer. The other directors are Alexander M. Bilsby and A. G. Kirby. Mr. Friedman, the treasurer, is one of the firm of Friedman Brothers, wholesale clothing manufacturers of Montreal. The stock of the company has been popular owing to the property being located in the vicinity of the Timmins and Hollinger. The property consists of 120 acres patented. The capital is \$2,000,000, of which is treasury stock. The directors have authorized Mr. A. G. Kirby to order the erection of camps and send in supplies for same. As soon as the camps are ready work will be started. Mr. A. G. Kirby, who has had considerable experience in Nevada, holds the opinion that the Miller-McIntosh and Hollinger veins pass thru the Moneta Company's property. The company will offer a block of treasury shares last week, and the same was oversubscribed. The Toronto General Trusts Corporation will act as transfer agents and registrars. A prospectus is being prepared and will be ready for distribution at an early date.

MINE OWNERS ASK GOVERNMENT AID

Want Permanent Road From Proposed End of Steel at Porcupine Lake to Pearl Lake District.

Mine owners west of the present proposed terminus of the railroad at South Porcupine are petitioning the government and the railway company to build a permanent road to Pearl Lake. The petitioners are asking for the construction of a good wagon road from South Porcupine to Pearl Lake. The association figures that it is for the good of the government to have a first-class road from the many properties which are at present actively working in the district between Porcupine Lake and Pearl Lake, more than just the building of a well-constructed permanent road.

Porcupine Notes

Porcupine City, March 15.—Manager Kingsmill of the mines left yesterday to present to government officers the petition from the mine managers asking for the construction of a good wagon road from South Porcupine to Pearl Lake. The association figures that it is for the good of the government to have a first-class road from the many properties which are at present actively working in the district between Porcupine Lake and Pearl Lake, more than just the building of a well-constructed permanent road. There is to be a wagon road from the McDougall Veterans townsite direct to the Dome mine, it is said, and should that happen some of the strength of the arguments in favor of a Pearl Lake road may wane. William Garbath of Montreal, one of the owners of the McDougall Veterans townsite, spent several days on the property last week. A McDougall is in charge of the work. O'Shannessy, the stage man, expects to make the runs up to the very last day the bottom holds out. So will Miller and Ritchie, who run from the town to the mines. The snow has gone down over two feet within one week. The south wind and the hot sun have had their effect. Instead of the snow on the level being above the road beds, the beds are now away above the level of the snow. Contracts for a 50-foot shaft on the Mulholland has been let and the workmen are already sending down the shaft. Day and night shifts are being run. Two feet in the shaft, that is six by eight feet, are now completed. The property is to go on the market at once and the shaft is to be down to 50-foot level. The old hammer vein on the Scottish Ontario was opened in a new place Friday. The quartz came in under a cupping of eight feet of schist. Bewick-McIntosh are putting in several power plants in the way of boilers to 20 to 40 horsepower. They have five boilers now at Kelso which must be in before the summer. One plant will be used on the Timmins in Northern Tisdale, and another on the Timmins, near Pearl Lake. Received Stipen Metal. The jury in the sessions yesterday brought in a verdict of guilty in the case of Mrs. Elrick, who was charged with receiving stolen brass, lead and copper from small boys. A recommendation to mercy was made by Judge Denton until the end of the sessions: H. W. Barron Left \$50,000. H. W. Barron left an estate of \$50,000, for the benefit of his wife and children. He was a retired merchant, and as he left no will, the estate passed to his widow and one son. John Miller, horse dealer, of Toronto, left \$540. His widow, one son, a son-in-law and three daughters divided the estate.

MANCHURIAN PLAGUE AFFECTS SILVER MARKET

Value of White Metal Succumbs to Adverse Influence in Orient.

Samuel Montagu, silver brokers, London, writes: The month of February was not a good one for silver, and prices fell lower than they had stood since March of the preceding year. The market was not robust enough to withstand the shock caused by the outbreak of plague in Manchuria, which was at its worst in the period immediately after the Chinese New Year. This last week witnessed some improvement in price owing chiefly to a fairly general demand for China. Evidently the plague trouble has led to reduced imports of goods into that country, and silver must be sent to balance the exports, even though it was another local estate agent, the latter firm still exceptionally large, that is to say, equivalent to 208 lacs of rupees. The large shipments which were made to India some weeks back have had no effect on prices, as the greater portion was merely a transfer of silver from the London stock to that in Bombay. The up-country demand in Bombay has fallen to 90 bars a day. The world's production of silver in 1910 is estimated to total 21,828,000 ounces, value \$2,394,000, at the average rates of the year. This compares with 21,115,000 ounces, worth \$2,416,000, in 1909. The exports of silver to the orient are given by Pixley & Abell as follows: Year. India. China. Straits. 1908 5,274,800 741,400 164,855 1909 5,873,600 1,900,000 114,600 1910 7,210,700 1,458,000 1911 1,738,200 602,800 —Corresponding period last year— 1910 1,100,000 507,000

17 Gold Claims Great Northern 17 Gold Claims
PRESTON EAST DOME sold yesterday at 47c, giving a profit of \$170 for thousand shares. Those fortunate underwriters, at 20 cents per share, are certainly counting money. Preston East Dome owns 120 acres in Porcupine on a capitalization of \$2,000,000 shares, and at 47 cents, is selling at a valuation of over \$1,400,000. Great Northern own over 600 acres of gold claims, and the stock at 15 cents per share, is selling at a valuation of over \$230,000. Three claims owned by Great Northern and situated south of Porcupine Lake are reported very valuable. We expect that developments in these claims will prove quite as valuable as the three claims of Preston East Dome. Why then should not Great Northern sell above 50 cents? In addition to those three valuable gold claims Great Northern own 14 other gold claims, some of which are most promising. Buying Great Northern at 15 cents is like buying six gold mines for \$225,000, with three or four silver mines thrown in, and a treasury of cash assets of over \$100,000. Mr. Senator, get your think tank operating and figure out just why Great Northern is a much better buy at 15 cents than any gold proposition selling at three times the price. BUY GREAT NORTHERN.

INVESTMENT EXCHANGE CO., 75 YONGE STREET TORONTO, ONT.
Porcupine Gold Stocks
I recommend the purchase of GREAT NORTHERN stock. They have 17 gold claims in Porcupine and have plenty of money to develop them. This stock will soon be selling higher. BOULDER STRUCK TRAIN.
VANCOUVER, March 15.—A boulder falling down the mountain side yesterday struck a Canadian Pacific Rail-way work train near Cisco. Three men, workmen, foremen, were hurt and Foreman King was thrown against a car and his back broken. He is still living. The damage to rolling stock was small.

SURFACE SHOWINGS RICH FROM PRESTON EAST DOME

Large Number of Quartz Stringers Uncovered—Company Hold Three Claims.

Porcupine City, March 13.—(From Our Man Up North)—If rich leads that vary all the way from four inches to 20 feet in width, running to the quartz porphyry, with good values coming from the intervening schist, are factors in the make-up of a gold mine, the Preston East Dome, composed of three claims in southern Timmins to the south of the Dome, and one lot in Deuro, should become more than a reasonably fair producer.

Deductions as to what conditions are on this property can only be noted from the development work which was done last summer, for during the winter, the period of deep snow was done except to sample and make tests from the veins which were opened during the fall.

Just now the plans for the spring work are being laid out by Manager S. W. Thorne as at the head of the work with John Wilson as an able assistant.

Uncovered Gold Showings.—New camps are being erected with headquarters on the claim known as the "Preston" to the south of the Ritchie veteran, and one-half mile to the west of the other three claims in the group.

All the machinery for a six-drill compressor plant, boilers and a two Nissen stamp mill is on the ground, and the frame of the buildings are up and planned. A sawmill is being installed to cut the lumber.

And quite significant as to what the shareholders may expect to find in the future, while excavating for the bed of the stamp mill, solid rock being struck, a mass of quartz, and the frames of the buildings are up and planned. A sawmill is being installed to cut the lumber.

Ninety days will be required, according to Manager Thorne, before the plant will be in operation. And not till the wheels are turned, and the snow is off, will it be possible to determine whether the first hole in the rock is to be punched.

Manager Thorne is conservative. You could not draw the contact with the greenstone occurs. This contact dips under and towards the western part of the claim. In this formation there is every variety of the true kind.

Clearing the camp sites and cutting the surrounding timber to protect the buildings from summer fires, digging out the foundations of the old mill, the compressor, now engage the attention of 40 men. More men will be put on when the real work starts after the spring.

Depth Will Prove Property.—At no place has depth over a few feet been attained, and it is impossible to say if these stringers in this case, as in other instances in Porcupine, run together when depth is made. This is another very important thing which Manager Thorne will endeavor to find out as soon as he can.

On the whole the values in free gold run so high in the narrow stringers that mine men have been scared at times at the prospect of the lead, which were a mere freak or a well-defined ore course.

Across the southeast corner of the porphyry ridge, the contact with the greenstone occurs. This contact dips under and towards the western part of the claim. In this formation there is every variety of the true kind.

Clearing the camp sites and cutting the surrounding timber to protect the buildings from summer fires, digging out the foundations of the old mill, the compressor, now engage the attention of 40 men. More men will be put on when the real work starts after the spring.

Depth is all that is needed on the Preston East Dome now. And if that depth shows what now appears on the surface, all the mine men have said about the property will not be far astray.

PEARL LAKE ON MARKET

Pearl Lake was quoted on the exchange yesterday for the first time, and sales were made as high as \$1 1-2. The Pearl Lake properties are adjacent to the Hollinger, and with Mr. Burr E. Cartwright, who has made such a success of the Timiskaming mine in Cobalt in control, the Pearl Lake claims will undoubtedly get faithful and rapid development.

claim in a direction northeast to southwest. And the narrow leads carry some of the richest showings there are in Porcupine. If depth should show that the ribbons of gold widen to any good gold-producing depth, and carry the same values, this lot alone would mine millions in the next few years.

But that is a fact that Manager Stewart Thorne must find out.

It is on this claim that the company's headquarters have been established, and the way of the road that leads from South Porcupine to the camp is nearly five miles, making about seven and a half miles from Porcupine City to the camp.

Here the compressor plant, the sawmill to cut the lumber for the big mill, and the Nissen stamps will be placed. On the Preston country rock is a fine grained porphyry carrying an abundance of fine sulphides. The porphyry ridge cuts thru the east and south sides and covers nearly the whole south and east half. In the sheer zones the porphyry is much coarser grained and is softer, carrying high iron, lime and magnesia, a very favorable formation to rich ore bodies.

In addition to the veins opened and marked in the attendant drawing is every variety of the true kind.

Clearing the camp sites and cutting the surrounding timber to protect the buildings from summer fires, digging out the foundations of the old mill, the compressor, now engage the attention of 40 men. More men will be put on when the real work starts after the spring.

Depth is all that is needed on the Preston East Dome now. And if that depth shows what now appears on the surface, all the mine men have said about the property will not be far astray.

On the whole the values in free gold run so high in the narrow stringers that mine men have been scared at times at the prospect of the lead, which were a mere freak or a well-defined ore course.

Across the southeast corner of the porphyry ridge, the contact with the greenstone occurs. This contact dips under and towards the western part of the claim. In this formation there is every variety of the true kind.

Clearing the camp sites and cutting the surrounding timber to protect the buildings from summer fires, digging out the foundations of the old mill, the compressor, now engage the attention of 40 men. More men will be put on when the real work starts after the spring.

Depth is all that is needed on the Preston East Dome now. And if that depth shows what now appears on the surface, all the mine men have said about the property will not be far astray.

SECTIONAL MAP OF PORCUPINE

Black Spaces show location of: Moneta Porcupine Mines, Limited, adjoins Timmins; Apex Porcupine Mines, Limited, adjoins Foster. Prospectus of these companies is in preparation, and will be issued at an early date.

Market Awaiting Crop News Trading in Wheat Flattens Out

No Improvement in Cash Situation and Market for Futures Moves Lifelessly—Winnipeg Exchange Firm.

CHICAGO, March 15.—Dust storms in the northwest lifted the price of wheat to-day. A cold wave predicted for the winter crop belt to-night had a like effect. The advance, however, was not maintained, and there was an irregular close, 1/2 higher than last night, to 1/2 below. On corn the market suffered a net decline of a shade to 1/4, and for oats a gain was made of 1/16 to 1/4. Provisions wound up 1/2 to 2/32 dearer, as compared with 24 hours before.

Buyers lost enthusiasm on being shown official reports that in every wheat raising state except Tennessee, Kentucky, Ohio and Indiana the rain or snowfall during February was much above the average. Surplus moisture varied from 30 per cent in Illinois, to 80 per cent in Kentucky. In the latter state interest here was, apparently pretty well eliminated by yesterday's July at 1/2 difference. Not enough demand to-day to carry on a vigorous bull campaign and dislodge the more stubborn class of bears. On the other hand fresh selling was not sufficient in volume to cause any reaction of importance. At the outset of the day coffee had a depressing influence because of heavy offerings by Australia and the large shipments from Russia. The rally ensuing lasted fairly well until the exchange fell into a rut. May ranged from 99 1/2 to 100 1/2, closing 100 1/2. No room for corn here and no outlet for her unfriendly. Local shippers were being confronted by re-sellers of their own grain. May ranged between 49 1/2 and 50 1/2, closing 50 1/2.

Light trade, developed in the oats pit. There was considerable bull buying of May and July at 1/2 difference by warehouse. May reached as high as 10 1/2, and 11 1/2, and 12 1/2, and 13 1/2, and 14 1/2, and 15 1/2, and 16 1/2, and 17 1/2, and 18 1/2, and 19 1/2, and 20 1/2, and 21 1/2, and 22 1/2, and 23 1/2, and 24 1/2, and 25 1/2, and 26 1/2, and 27 1/2, and 28 1/2, and 29 1/2, and 30 1/2, and 31 1/2, and 32 1/2, and 33 1/2, and 34 1/2, and 35 1/2, and 36 1/2, and 37 1/2, and 38 1/2, and 39 1/2, and 40 1/2, and 41 1/2, and 42 1/2, and 43 1/2, and 44 1/2, and 45 1/2, and 46 1/2, and 47 1/2, and 48 1/2, and 49 1/2, and 50 1/2, and 51 1/2, and 52 1/2, and 53 1/2, and 54 1/2, and 55 1/2, and 56 1/2, and 57 1/2, and 58 1/2, and 59 1/2, and 60 1/2, and 61 1/2, and 62 1/2, and 63 1/2, and 64 1/2, and 65 1/2, and 66 1/2, and 67 1/2, and 68 1/2, and 69 1/2, and 70 1/2, and 71 1/2, and 72 1/2, and 73 1/2, and 74 1/2, and 75 1/2, and 76 1/2, and 77 1/2, and 78 1/2, and 79 1/2, and 80 1/2, and 81 1/2, and 82 1/2, and 83 1/2, and 84 1/2, and 85 1/2, and 86 1/2, and 87 1/2, and 88 1/2, and 89 1/2, and 90 1/2, and 91 1/2, and 92 1/2, and 93 1/2, and 94 1/2, and 95 1/2, and 96 1/2, and 97 1/2, and 98 1/2, and 99 1/2, and 100 1/2, and 101 1/2, and 102 1/2, and 103 1/2, and 104 1/2, and 105 1/2, and 106 1/2, and 107 1/2, and 108 1/2, and 109 1/2, and 110 1/2, and 111 1/2, and 112 1/2, and 113 1/2, and 114 1/2, and 115 1/2, and 116 1/2, and 117 1/2, and 118 1/2, and 119 1/2, and 120 1/2, and 121 1/2, and 122 1/2, and 123 1/2, and 124 1/2, and 125 1/2, and 126 1/2, and 127 1/2, and 128 1/2, and 129 1/2, and 130 1/2, and 131 1/2, and 132 1/2, and 133 1/2, and 134 1/2, and 135 1/2, and 136 1/2, and 137 1/2, and 138 1/2, and 139 1/2, and 140 1/2, and 141 1/2, and 142 1/2, and 143 1/2, and 144 1/2, and 145 1/2, and 146 1/2, and 147 1/2, and 148 1/2, and 149 1/2, and 150 1/2, and 151 1/2, and 152 1/2, and 153 1/2, and 154 1/2, and 155 1/2, and 156 1/2, and 157 1/2, and 158 1/2, and 159 1/2, and 160 1/2, and 161 1/2, and 162 1/2, and 163 1/2, and 164 1/2, and 165 1/2, and 166 1/2, and 167 1/2, and 168 1/2, and 169 1/2, and 170 1/2, and 171 1/2, and 172 1/2, and 173 1/2, and 174 1/2, and 175 1/2, and 176 1/2, and 177 1/2, and 178 1/2, and 179 1/2, and 180 1/2, and 181 1/2, and 182 1/2, and 183 1/2, and 184 1/2, and 185 1/2, and 186 1/2, and 187 1/2, and 188 1/2, and 189 1/2, and 190 1/2, and 191 1/2, and 192 1/2, and 193 1/2, and 194 1/2, and 195 1/2, and 196 1/2, and 197 1/2, and 198 1/2, and 199 1/2, and 200 1/2, and 201 1/2, and 202 1/2, and 203 1/2, and 204 1/2, and 205 1/2, and 206 1/2, and 207 1/2, and 208 1/2, and 209 1/2, and 210 1/2, and 211 1/2, and 212 1/2, and 213 1/2, and 214 1/2, and 215 1/2, and 216 1/2, and 217 1/2, and 218 1/2, and 219 1/2, and 220 1/2, and 221 1/2, and 222 1/2, and 223 1/2, and 224 1/2, and 225 1/2, and 226 1/2, and 227 1/2, and 228 1/2, and 229 1/2, and FRIDAY BARGAINS

At the Simpson Store

Artificial Shamrocks 5c Each

On behalf of the Countess of Aberdeen, we are offering 5,000 Sprays of Artificial Shamrock at 5c each. The entire proceeds will be devoted to helping the work of fighting the dread disease of tuberculosis and infant mortality in Ireland. To all lovers of Ireland and the Irish this should appeal as a practical form of patriotism. (Main Floor, Centre Aisle.)
