## TWO IMBECILES MARRIED BY TORONTO MINISTER AFTER OTHERS REFUSED

### Ernest Robbins Met Mabel Wilson in Lalonde's Jewelry Store and They Were Mar- ried Soon After—Rev. A. L. Geggie and Rev. W. H. Sparks Refused to Perform Ceremony—Dr. Godfrey Says Minister Should Be Censured.

Two weak-minded persons, who, in the opinion of ministers who know them and a doctor who has examined the man, are unfit both mentally and physically to enter into matrimony, have been married by a Toronto minister after several other clergymen refused to marry them on the ground of imbecility. Ernest C. Robbins, who is better known in Parkdale as "Ernie Clayton," was married to Mabel Wilson, a former mentally deficient charge of J. J. Kelo, superintendent of neglected and dependent children, the latter part of last week by a West Toronto minister. Immediately after the ceremony the couple started to keep house in the northern outskirts of Swansea. Robbins becomes violent at times and for years has been balancing on the edge between imbecility and insanity. For years he has been possessed with a mania to get a wife. He has offered himself to numerous girls, but without success. He has bought valuable engagement rings for them and finally had to be ordered away. He has stood on the Humber River bridge and stated that he would give anyone \$50 who would secure a wife for him.

The marriage license was sold to Robbins by Mr. Lalonde, the West-Queen-street jeweler, who introduced Miss Wilson to Robbins. "Ever since Robbins went to Swansea he has been in the habit of visiting the jeweler and buying engagement rings or other trinkets. According to Robbins' story, Lalonde was a good friend, and while in the store they would discuss the probabilities of Robbins getting a girl. Later, when the man went back, the jeweler introduced him to Miss Wilson, who was working there. Robbins wanted to marry her there and then."

### Mr. Geggie Refused

The young man bought a license of Lalonde and took his bride-to-be to the residence of the Rev. A. Logan Geggie on Jameson-ave., and asked to be married. After talking with him for some minutes, the minister told Robbins that he could not perform the ceremony, because he and his fiancée were mentally deficient. The girl had been a member of Mr. Geggie's congregation and he knew her to be weak-minded.

### Saw Dr. Godfrey

On the following Sunday the two attended the St. Orlave's Church in Swansea. When the Rev. W. H. Sparks, who had been called to perform the ceremony, saw the minister, he was told of the marriage.

## Revising Marine Regulations

OTTAWA, June 4.—(Special.)—Assistant Deputy Minister of Marine and Fisheries Stanton will sail for England on June 14 to attend the meeting of the British Board of Trade, where recommendations will be made and discussed looking towards greater safety for passengers and crews on sea-going ships. Canadian marine regulations are almost similar to those of Great Britain, and any new rules that may be adopted by the English marine as a result of the board of trade conference will also be adopted by Canada.

## STRAWBERRIES WILL BE LARGE

### Optimism Pervades the Beams- ville District—Farmers Will Make Well On Their Crops.

Berries from Beamsville in eight or ten days is the news from that centre of the luscious June fruit. Most people in that district are inclined to be optimistic. The recent rains were just the thing, they say, and the plants are looking fine. Pessimists looking for company had better not go to Beamsville.

"The crop is spoiled, every spring; I just heard it to-day, but I don't pay any attention to that sort of talk," said J. W. Kennedy, when spoken to by The World yesterday. "Why, go out and look at the fields; did you ever see anything look finer? I am looking for quite as big a crop as last year." Mr. Kennedy admitted that not nearly the same amount had been put into strawberries as last year, but said that the yield would be much heavier. As to the size and quality of the berries, he was sure that they would be the finest ever. As to the price, he did not care to give an opinion this soon, but thought the farmers would do well.

Other residents, while not as enthusiastic as Mr. Kennedy, declared that they looked for "a fair crop," but their caution was based largely on the decreased acreage. There was nothing wrong with the berries, they said. The crop this year is about two weeks later than usual, owing, it is said, to the long-continued cloudy weather of some weeks ago. An indication of the optimistic tone which pervades the district in things relating to fruit is shown in the fact that a new cannery is being established in the village of Beamsville. The whole country from Hamilton to Beamsville has never looked better than it does at present. Strawberries are well advanced and large, and, judging from the green fruit seen on the trees along the road, everything points to the peach crop being a heavy one.

## SUPERVISION IS NEEDED AT NIAGARA

### Canteens in Charge of Officers, Where Nothing But Beer Can Be Sold, the Only Way to Overcome the Drinking at Military Camps, Says Gen- eral Cotton.

(By a Staff Reporter.)  
NIAGARA-ON-THE-LAKE, June 4.—That the present regulations regarding the sale of liquor in canteens at the military camps are ridiculous is the opinion of General Cotton, camp commandant. With the story published in The World yesterday, the general agrees. In his opinion the only way to get over the difficulty of drinking at military camps is to have a supervised canteen, where nothing but beer is sold, and where no man is allowed to drink to excess.

### Sell Beer Only

"I have not been down town," said the general to-night, "and so don't know what the conditions are there." He judged, however, that the conditions pointed out are as ridiculous as the closed canteens in the camp grounds. "The system is perfectly ridiculous," he said, in advocating a supervised canteen, with proper supervision, where beer only can be sold. When men wanted to get liquor sent to camp, he said, they would get it, whether there were canteens or not, and the people who were against canteens in military camps did not know conditions. He stated that he did not wish to be drawn into a controversy, but said that in his opinion the only way to remedy present conditions was to have supervised canteens.

### Big Bar Business

"Two years ago," he continued, "when the orders were given that there was to be no liquor sold in camp, some of the hotels lengthened their bars, and were now doing a larger business than ever." As he said at that time, at the conclusion of the camp, he still thinks that if men come in from a three-hour grind in the hot sun, there is no reason why they shouldn't have a glass of beer, in their own canteen, instead of going to town and drinking whiskey. If the canteens were supervised by officers, no man would be able to get more than was good for him, and there would be less drunkenness in the lines.

All officers in camp were called to headquarters to-night, were given orders regarding liquor in camp was reissued.

MISS NORTH TORONTO: It's awfully tempting.

## DUCHESS TAKEN TO MONTREAL HOSPITAL

### Her Royal Highness Is Suffer- ing From Attack of Periton- itis and She Will Undergo Treatment at Royal Victoria Hospital—Removed in Spe- cial Train.

MONTREAL, June 4.—(Can. Press.)—Her Royal Highness the Duchess of Connaught arrived in the city shortly after a 9 o'clock to-night on a special Canadian Pacific Railway train from Quebec, and was at once removed to the Royal Victoria Hospital.

Her royal highness' complaint has been diagnosed as peritonitis, but how serious it is has not yet been announced. The entire governor-general's household was conveyed on the same train.

The duchess was placed in an automobile at the depot, which drove to the hospital at once. The duke and the ladies-in-waiting followed in another automobile. The rest of the party drove to the residence of Lord Strathcona on Dorchester-street, where they will remain awaiting more definite information as to the condition of the royal patient.

The public was rigidly excluded from the station and only a few persons were on the platform when the special train drew in.

MONTREAL, June 4.—(Can. Press.)—The following official statement was given out:

"Her Royal Highness the Duchess of Connaught is suffering from an attack of peritonitis of, up to the present, obscure origin. Under the circumstances it was deemed advisable to move her royal highness to the Royal Victoria Hospital at Montreal for further observation."

"Very satisfactory arrangements were made at the shortest notice with the Canadian Pacific Railway for the conveyance of the whole of the governor-general's household from Quebec to Montreal. Her royal highness stood the journey well, sleeping during a great portion of the time."

"Any further bulletins that may be issued will be posted at 907 Dorchester-street. (Signed)  
"H. C. Lowther, Lieut.-Col.  
"Military Secretary."

### PELLETIER TO RETIRE?

QUEBEC, June 4.—(Special.)—There is an impression prevailing here that Hon. L. P. Pelletier will retire from the cabinet at an early date and that Mr. Thomas Chace Casgrain will succeed him in the ministry. Sir Rodolphe Forget's second County of Montmorency being placed at the disposition of the new minister.

## SENATOR DESJARDINS DIED

MONTREAL, June 4.—(Can. Press.)—Hon. A. Desjardins died this afternoon at 4 o'clock at his home at Terrebonne from acute congestion of the brain, at the age of 71 years.

Senator Desjardins had a long and useful public career. He was mayor of Montreal in 1882, and minister of militia in 1886, in the Bowell government. He was also minister of public works in the Tupper administration of the same year. Senator Desjardins was at one time president of the Jacques-Cartier Bank, and of the Chambre de Commerce, besides being a director of several other business undertakings.

## SHIPBUILDING PLANT FOR SYDNEY

### Bylaw to Grant Bonus of One Million Dollars to Big Industry, Which Will Build Ships for the Canadian Navy, Carried by a Big Ma- jority.

SYDNEY, C. B., June 4.—(Special.)—Sydney ratepayers, by an overwhelming majority, to-day voted to grant a bonus of \$1,000,000 to the British Canadian Shipbuilding Co. for the establishment of a shipbuilding plant in Sydney. The vote was 1074 for and 172 against.

At a meeting of the council of the city, held a few days ago, a representative of the company was present and so impressed the citizens with the advantages that would accrue to them from having such an industry in their city that the result was expected. All kinds and types of sailing craft will be built in the yards which will be established here. The coming Canadian navy vessels will be built in these docks.

The city expects an added impetus of prosperity from the establishing of the docks in the city. Work of construction will be commenced immediately.

## SERIOUS TURN IN DOCK STRIKE

### Transport Workers Endorse Ultimatum—May Recom- mend National Strike if Terms Not Agreed To.

LONDON, June 4.—The general council of the National Transport Workers' Federation to-night endorsed the ultimatum of the striking dockmen, which demands the creation of a joint board representing both the employers and employees, and declares that no work shall be resumed unless all the men are reinstated. In addition, the general council adopted a resolution that in the event of no immediate settlement on these terms, the affiliated societies recommend the declaration of a national strike by the transport workers at once.

A cabinet council discussed to-night the serious deadlock reached in the dock strike, and Chancellor Lloyd George is expected to announce the government policy in the house of commons to-morrow. Both sides in the dispute appear equally determined, and falling successful government intervention, the prospects for a settlement are remote.

Some rioting occurred in the last two days in the vicinity of the docks. It is not yet serious, but tends to show that the strikers are getting out of hand.

## SERIOUS RIOTING IN BELGIAN CITIES

### Many Persons Killed or Wound- ed—Large Number of Re- serves Called to the Colors —Liege Like a Besieged City—Brussels Mob Dis- persed by Firemen's Hose.

BRUSSELS, June 4.—(Can. Press.)—Belgium is in a state of eruption on account of the recent elections, and rioting throughout the country has taken on a revolutionary character. Many persons have been killed or wounded in various cities, and a large number of reserves have been called to the colors. The agitation in the industrial centres is rapidly increasing. Every hour brings news of fresh protests by the laboring classes against the governmental vicissitudes.

The conservative elements are considerably alarmed over the tendencies of the civic guard, which corresponds to the Canadian militia, to make common cause with the rioters. This, however, is only in isolated instances, Brussels being a case in point, where the guard to-day held a sympathetic celebration before the monument of Francisco Ferrer, the originator of the modern school in Spain.

### Cause of the Disorders.

The national discord generally are attributed to the acute disappointment of the laboring classes over the pronounced victory of the clericals in the recent elections. The socialists allied themselves with the Liberals on the public school question in opposition to the government policy, hoping thereby to win a majority of the seats in the chamber. Their failure to do so caused a wave of anger to sweep over the country.

The latest reports from the provinces show that the strike has spread over the entire Liege Basin and has tied up most of the collieries and the big metal industry. In the centre of Belgium many industrial proprietors seem to approve of the strike and sympathize with the men. The women have aroused themselves to even greater frenzy than the men in the disorders, which are particularly anti-clerical in character.

### Like a Besieged City.

In all the collieries of the southeast, the Flemish workmen have been boycotted by the Walloons, and hundreds of them have already left the provinces. The street car employes have struck at La Louviere, and the municipal employes at Seraing.

Liege to-night has the appearance of a besieged city. Two regiments are under arms, besides police, the civic guard and gendarmes. Several clashes occurred between the rioters and troops. Shots were exchanged, but a heavy downpour of rain drove the strikers from the streets. The gendarmes dispersed a column of miners from the neighboring collieries trying to enter the city.

In Brussels a mob to-night made a rapid tour of the city, wrecking street cars, smashing windows and doing all manner of damage. They broke in the doors of the church of St. John and St. Nicholas, and entering, demolished the tabernacle. They then set fire to the priests' quarters. Next they tried to force an entry to the Monastery of the Holy Fathers, and arriving at the Andeloch quarters, wrecked a cafe and attempted to storm a convent, but were effectually dispersed by firemen with streams from their hose.

A column of several thousand strikers left La Louviere for the nearby city of Charleroi this evening to induce the miners to join in the movement. The strikers were met by mounted gendarmes and three hundred soldiers have been despatched from Charleroi to La Louviere, where serious rioting was feared to-night.

At Coru a mob wrecked the Catholic Club. At Brouges gendarmes fired on a mob, wounding fifty of the rioters, several of them fatally. The gendarmes were assailed with bottles, bricks and pieces of furniture from hundreds of windows.

### THE WEATHER OUT OF JOINT.

No summer weather yet; yesterday afternoon and evening only cold winds and an uncertain sky. The country green, the foliage fresh and promising; bleakness everywhere, overcast. The fields of clover and of fall wheat were so luxuriant, and so tall, that they swayed in the wind; and the boughs of the trees sought like a window in autumn. In the gardens still the disconsolate tone, the strawberry blossoms were plentiful, and fruit well forward on the currant and other bushes. But the flowers had no heart and no look of gladness.

Fog is out in the fields and paddocks, but have to be brought in frequently from rain or wind. Groundhogs about, but not perched near their holes in the customary way of a warm May or June evening. In the village playgrounds the children have not yet sent forth the joy and laughter that marks their feet of the pleasant weather. The pleasant weather has not yet found its way out of the long confinement. Nor does the boy on the farm seek the creek or the swimming pool. For him the times are still out of joint. And the old-fashioned almanac is a delusion and a snare.

And George Tate Blacklocks sallies out in my dreary evening to a waiting dinner party in ancient silver, serene full and copious carmine, the some tragic. The plan called by Nemestee adversity is a one-hour railroad town.

## GANGS OF UNEMPLOYED IN RANKS AT NIAGARA

### Rural Regiments Cannot Secure Men in Their Own Districts and Pick Up Anyone Who Wants to Wear a Uniform for Two Weeks, Thus Repeating Offence for Which One Regiment Was Disbanded—High School Cadets in 36th Peel Regiment.

(By a Staff Reporter.)  
NIAGARA-ON-THE-LAKE, June 4.—It's the same old thing over again. Several rural regiments have picked up gangs of unemployed at Yonge-streets, crowded them into the boats, and brought them over here to act the genteel part of soldiering for two weeks. Last year the Halton Rifles were disbanded by an order from headquarters on account of a similar offence, it being a breach of the militia regulations to recruit men who do not live in a regiment's territory. This example has had very little effect. A squad of "wharfies" were seen being recruited in a company of the 26th Regiment last night. To-day they were real, live soldiers and walked side by side with the boys who had been brought down from home. This regiment is not the only offender. The 44th committed a similar violation, a company of this regiment having quite a number of "pick ups" in the ranks.

Every year during the past decade it has been found seemingly impossible to fill the ranks to full sized companies of 42 each without resorting to violating the regulations. At the last rural camp the Halton Rifles advertised extensively for men, but with no response, so they corralled a crowd of

## GAS TURNED ON WOMAN RESCUED

### May Lovay Paid Man's Fine in Police Court and Was Nearly Dead in Afternoon.

Yesterday morning May Lovay in the police court paid the fine of a male friend of hers who was before the magistrate on a charge of drunkenness. Yesterday afternoon he went to her rooming house at 45 Elizabeth-street and had a talk with her. Whatever transpired is not known. The first intimation of anything unusual was when some inmates of the house smelt the fumes of gas. They finally traced the odor to May Lovay's room and tried to open the door. It was locked. They called for a constable and P. C. Mathias appeared. He soon forced the door open. In the room on the bed was the woman in a semi-conscious state. The windows were down and the gas jet wide open. The officer threw up the windows and immediately sent for an ambulance. In the meantime the woman had been partly resuscitated. She positively refused to name the man who had been with her in the room and objected strenuously to being taken to St. Michael's Hospital. Whether the man is responsible for the untoward gas jet or whether the woman herself in a momentarily dependent state did it is hard to tell.

### TELLER'S ACCOUNTS \$2000 SHORT

KINGSTON, June 4.—(Special.)—Discrepancies of about \$2000 have been found in the accounts of Harold G. Arthur, missing teller of the Merchants Bank, but the cash shows no shortage. Just what will be done in the matter is not known. There is not sufficient evidence to issue a warrant for his arrest.

It is known he purchased a ticket over the Grand Trunk for Windsor.

# As One Man Said to Another

"There are lots of clothing stores in Toronto, but Oak Hall's way of treating their customers suits me to a dot."

This is suit time and we are busy fitting out men of all builds from the slim ones to the big, stout, solid men to whom nature has been generous.

You see we are an ALL CLOTHING store and we know the needs of a man better than even a tailor does. It's our pet hobby and we are continually digging up new ideas and bettering (when we can) old ones. We know for a positive fact that thousands of men in Toronto cannot and will not be bothered with the old-fashioned idea of picking out cloth and waiting till the tailor cuts and fits, and in many cases makes a botch of the job. Very few men nowadays go to a shoemaker and leave their order, and why should clothes be any different? Our Salesmen are all practical men of intelligence and integrity and will not sell you a garment that is not absolutely right for your particular figure, so that you are in good hands when you trade with us.

### WHAT'S IN A PRICE?

Nothing, without value behind it in the materials and workmanship, so that when we quote you our men's and young men's suits from \$10, \$12, \$15, \$18, \$20 and up to \$38 we are sure they have all the essentials that go to make good clothes.

STORE OPEN TILL 10 P.M. EVERY SATURDAY NIGHT.

## CUDDY PENSION COMES UP ON THURSDAY

Police Commissioners Did Not Discuss It Yesterday—Another Constable Leaves the Force to Get More Money Elsewhere—What First-Class Constables Think.

Owing to the absence from the city of Mayor Geary, the police commissioners will meet again Thursday to consider the question of the passing of Ex-inspector Cuddy's pension, which was not considered at the meeting yesterday afternoon. The resignation of Policeman McKnight, who has served four years on the force, was received. One more man on the verge of becoming a first-class constable leaves the force to seek a living elsewhere.

Police Chief Grasset does not like being asked about resignations. Asked if there had been any he snapped out the answer that there had been one. After the admission that one man had signified his intention of leaving the force, he explained that the force was filling up more rapidly than the men were leaving, and that many of those coming on are trained men from the old country forces.

Later he admitted that this influx was only making up the shortage which was found at the end of last year, save for the addition of a few men. The chief thinks it will be about 15, all that is possible with the reduction made by council in the board's estimates.

Serve Five Years. These "trained men" must serve out a long five years before they become even first-class constables unless they are so lucky as to become acting detectives before that time. They may be given a chance at the police work of plain clothesmen, when they will receive in addition to their princely stipend the magnificent sum of \$40 per year to compensate them for having to wear citizen's clothes instead of the uniforms supplied.

Doing Good Work. One man who has been on the force for many years said to The World yesterday: "If you can do anything toward bettering the condition of the first-class constables you will be doing a big thing for the citizens as well as the force. The men have only a bare livelihood at present, and it seems absurd to expect any intelligent service from men who are receiving less than a thousand dollars a year, which is the case when the benefit fund percentage is deducted. When you consider the expense of everything has advanced—food, rent and everything which comes in as a bare necessity of life—you must see that \$1200 a year is a little for a man who can draw and serve with credit to himself and the force. A man who works in plain clothes and gets only an additional \$40 for the added expense is indeed put to it at present."

How the Black Bread of Guatemala Became Famous.

Guatemala is a town of about 1500 inhabitants some eighty years ago, when, one day during the maneuvers of the young lieutenant, he took up his quarters there. Harper's Weekly. This lieutenant came from Pomerania, where they also make black bread of fine quality, but he liked better the peculiar flavor of the Westphalia article. His name was Bismarck.

Exhuming a Prehistoric Palace in Guatemala.

Dr. Edgar L. Hewett, director of the American section of the Archeological Institute of America, is now at work digging an ancient palace out of a swamp and sifting the earth therefor valuable curios. This palace is located in the midst of a tropical verdure in the heart of Guatemala, and is a relic of the Mayas, who thrived, carved statues and built palaces and temples when the Egyptians were building their pyramids and the Roman Empire was in process of formation. It has lain under the soil and vegetation for centuries.

Raising Kids for Their Skins.

One of the important industries of France is the raising of kids for their skins, which are used for glove-making. This work is carried on chiefly by the mountaineers, says Harper's Weekly. Softness, delicacy and freedom from blemish are principal factors in the value of kid skins, and to secure these essentials great pains are taken. As soon as the young animal begins to graze the value of its skin declines, for with a grass diet the skin immediately becomes coarser and harder in texture and its chief merit thus vanishes. It is, therefore, kept closely penned, not only to prevent it from eating grass, but also to protect its valuable skin against accidental injuries that might impair its marketability.

WOMEN'S CLUB HAS GOOD YEAR New Officers Were Elected and Good Reports Presented at Annual Meeting Last Night.

Most of the two hundred members of the Business Women's Club attended the annual meeting at the lecture hall of the University School, Bloor-street and Spadina-avenue, last night. Miss Lean, the retiring president, who after serving for the first two years of the club's history, declined re-nomination, was in the chair. Miss Lean spoke with enthusiasm of the growth of the club from twenty members two years ago to ten times that number to-day, and urged a membership campaign for the summer to bring it up to 500 by the opening meeting in the fall in the first Tuesday in October. The retiring president accepted nomination on the executive.

The reports of the reading and visiting circles and of the lecture committee showed a year of great progress and activity.

Balance of \$300. The financial report was inspiring, with a balance of \$300. Votes of thanks were tendered to Mrs. O'Sullivan and Miss O'Sullivan for interesting the proceedings with instrumental music, to the university authorities for the use of the hall and to the retiring officers.

Officers Elected. The following officers were unanimously elected for the coming year: Honorary president, Mrs. Parker; president, Miss R. Hunter; vice-presidents, Miss Myers and Miss Smart; corresponding secretary, Miss M. Myers; recording secretary, Miss Watkins; treasurer, Miss Brown; executive, Misses Dearborn, Lean, McLaren, Duncan, Bruce, Sanborn and Mrs. Fox.

One of the important industries of France is the raising of kids for their skins, which are used for glove-making. This work is carried on chiefly by the mountaineers, says Harper's Weekly. Softness, delicacy and freedom from blemish are principal factors in the value of kid skins, and to secure these essentials great pains are taken.

As soon as the young animal begins to graze the value of its skin declines, for with a grass diet the skin immediately becomes coarser and harder in texture and its chief merit thus vanishes. It is, therefore, kept closely penned, not only to prevent it from eating grass, but also to protect its valuable skin against accidental injuries that might impair its marketability.

When the kids have attained a certain age, at which the skins are in the best condition for the use of the glove, they are killed, and the hides are sold to dealers.

The superior quality of these kid skins, due to the climatic conditions, is what has given France supremacy in the manufacture of the finest grades of kid gloves, a supremacy that will doubtless long be maintained, inasmuch as foreign manufacturers must resort to second-rate skins.

## C. N. R. WANT LEASIDE ANNEXED

Say They Have Tempting Offer to Submit—North Toronto Council Will Take It Up Thursday Night.

NORTH TORONTO, June 4.—(Special)—The Canadian Northern, thru their representatives, Mr. Temple and F. C. Clarke, submitted to the town council to-night a scheme for the annexation of the Leaside railway properties aggregating in all 1200 acres, and asked that it be included within the boundaries of the town.

The property is bounded on the west by Bayview-avenue, on the east by Woodbine-avenue, the north by the Kilgour property, and to the south by lot 12, concession 3 from the bay.

Mr. Temple stated that it was proposed to erect a large railway shop and factories employing 3000 men and in addition lay out a high-class residential town for the housing of their workmen. Leaside would be on the direct line east and west and it was desirable that town advantages in the shape of sewers, sidewalks, electric lighting and other conveniences should be installed. The presence of the town's sewage disposal plant was an objection and this would be attended to by annexation took place.

Council were apparently impressed with the proposal and at Thursday night's meeting the matter will be taken up again.

William Mulock, Jun., representing the Melrose Park Company, succeeded in getting the committee's recommendation for the annexation of 80 acres of York Township land lying to the northwest.

The report of Engineer Black showed \$191,000 gallons of water pumped in May in 401 hours, an average of 198,000 gallons per day, at a cost of 68 tons of coal.

The committee wrestled for a long time with the double-tracking of Yonge-street, the Metropolitan Rail-

feeling of the district is that a new one would not be amiss.

Richard West has complained to the constable about the systematic stealing of his lumber, which has been carried on for some time. Mr. West has considerable lumber piled up at Amber Bay, and claims that nearly every night some four or five planks disappear, which, by the end of the week, makes quite a hole in the lumber pile.

VICTORIA SQUARE The Victoria Square Branch of the Women's Institute will hold their supplementary meeting on Thursday, June 6, at 8.30 p.m., at the home of Mrs. O. Hagerman, Richmond Hill. Program: Dr. Jennie Smellie, Toronto; Dr. Riedon, Toronto, will give a talk on care of children's teeth, presided by Mrs. Currie and Miss Jean Scott; solos by Mr. D. Atkinson and Miss Trench. Lunch provided. Everybody welcome.

WEST TORONTO, June 4.—(Special)—Stanley Lodge, A. F. & A. M., held a largely attended and most important meeting to-night in the Masonic Temple, Annetts-street. A large number of visiting brethren from sister lodges were present as guests of Stanley and assisted in doing honor to the Grand Master, M. W. Bro. Aubrey White, who was accompanied by R. W. Bro. W. D. McPherson, D.D.G.M.; R. W. Bro. H. C. Scully, D.D.G.M. for Toronto District, No. 11; R. W. Bro. W. F. Bilger, D.D.G.M. for Toronto District No. 11A, and other grand lodge officers and distinguished brethren.

Ald. Sam Rydine headed a deputation from Runnymede to the board of council to-day to ask for the annexation of that district to Toronto. Runnymede has a population of 3000 and covers about 80 acres. They have two schools and want police and fire protection and better water and sewerage facilities. The council will consider the matter on Thursday and obtain material for a report.

Three classes of the Intermediate grades at Western Avenue School were transferred to the new Annetts Street School because of the overcrowding at the former. The classes were originally transferred to Western Avenue from the Carlton School and the majority of the children have walks of from two to three miles between school and home. The new Earlscourt public school which will soon be completed will relieve much of the overcrowding at the neighboring schools.

The third form of the Humberdale Collegiate Institute are now champions in baseball of the entire school district. The right to that title in this afternoon's game with the second team. The latter were left far behind with an overwhelming score. The silver and ebony shield will be presented to the victors this week by the athletic association of the institute. At well and Cross composed the winning

battery and Steele acted as umpire at this afternoon's game.

The Women's Foreign Missionary Society of Victoria, Presbyterian Church are holding a grand garden party to-morrow evening on the lawn at Mr. William Heintzman, 255 Annetts-street.

TODMORDEN, June 4.—The East York Township Conservative Association of Todmorden will hold their monthly meeting to-morrow (Thursday) night in Bates's Hall, that date being the twenty-first anniversary of the death of the late Right Hon. Sir John A. Macdonald.

Exhuming a Prehistoric Palace in Guatemala. Dr. Edgar L. Hewett, director of the American section of the Archeological Institute of America, is now at work digging an ancient palace out of a swamp and sifting the earth therefor valuable curios. This palace is located in the midst of a tropical verdure in the heart of Guatemala, and is a relic of the Mayas, who thrived, carved statues and built palaces and temples when the Egyptians were building their pyramids and the Roman Empire was in process of formation. It has lain under the soil and vegetation for centuries.

Dr. Hewett says that trees are growing out of the roof of the structure, which is in the forest near Quirigua, so long has the place remained buried.

The Mayas were an intelligent, warlike and highly educated race. Some of their stone gods are the largest pieces of structure the world has produced. The riddle of the time of their highest culture, and of their origin, has never been solved, and it is in hope of being able to read the mysteries of the dawn of history, Dr. Hewett will report to the Smithsonian Institution the Archeological Institute and to the Panama-California Exposition department of archeology. All three of which institutions are backing the expedition.

About one-third of the world's product of pig-iron is accounted for in the United Kingdom, United States and Germany.

The 100-mile survey across the Great Australian desert for the proposed railway between western and southern Australia gives a hint of the amount of unexplored territory in this island empire.

## WOMEN'S CLUB HAS GOOD YEAR

New Officers Were Elected and Good Reports Presented at Annual Meeting Last Night.

Most of the two hundred members of the Business Women's Club attended the annual meeting at the lecture hall of the University School, Bloor-street and Spadina-avenue, last night. Miss Lean, the retiring president, who after serving for the first two years of the club's history, declined re-nomination, was in the chair. Miss Lean spoke with enthusiasm of the growth of the club from twenty members two years ago to ten times that number to-day, and urged a membership campaign for the summer to bring it up to 500 by the opening meeting in the fall in the first Tuesday in October. The retiring president accepted nomination on the executive.

The reports of the reading and visiting circles and of the lecture committee showed a year of great progress and activity.

Balance of \$300. The financial report was inspiring, with a balance of \$300. Votes of thanks were tendered to Mrs. O'Sullivan and Miss O'Sullivan for interesting the proceedings with instrumental music, to the university authorities for the use of the hall and to the retiring officers.

Officers Elected. The following officers were unanimously elected for the coming year: Honorary president, Mrs. Parker; president, Miss R. Hunter; vice-presidents, Miss Myers and Miss Smart; corresponding secretary, Miss M. Myers; recording secretary, Miss Watkins; treasurer, Miss Brown; executive, Misses Dearborn, Lean, McLaren, Duncan, Bruce, Sanborn and Mrs. Fox.

One of the important industries of France is the raising of kids for their skins, which are used for glove-making. This work is carried on chiefly by the mountaineers, says Harper's Weekly. Softness, delicacy and freedom from blemish are principal factors in the value of kid skins, and to secure these essentials great pains are taken.

As soon as the young animal begins to graze the value of its skin declines, for with a grass diet the skin immediately becomes coarser and harder in texture and its chief merit thus vanishes. It is, therefore, kept closely penned, not only to prevent it from eating grass, but also to protect its valuable skin against accidental injuries that might impair its marketability.

When the kids have attained a certain age, at which the skins are in the best condition for the use of the glove, they are killed, and the hides are sold to dealers.

The superior quality of these kid skins, due to the climatic conditions, is what has given France supremacy in the manufacture of the finest grades of kid gloves, a supremacy that will doubtless long be maintained, inasmuch as foreign manufacturers must resort to second-rate skins.

### MAY HIT LAND INVESTORS

Hundreds of Thousands of Dollars Depend on Ry. Commission's Decision.

OTTAWA, June 4.—(Can. Press.)—That if the order of the railway commission, establishing a Grand Trunk Pacific station at Hazelton, B.C., is reversed people who bought land at that point after the board's mandate of December last, will lose hundreds of thousands of dollars was made clear from the evidence presented at this afternoon's sitting of the board when the case, which came up at the morning session, was resumed.

In the middle of it Assistant Chief Commissioner Scott and Commissioner Mills had to leave for Nova Scotia,

where a sitting is to be held, but Commissioner McLean heard the rest of the evidence. The case will resume tomorrow. Many witnesses were heard.

### COLLECTED \$8500

First Day's Campaign for West Presbyterian Church Was Successful

That the sum of \$8500 has been contributed as a result of the first day in the six days "whirlwind campaign" of West Presbyterian Church was the announcement made last night.

If hopes are realized \$35,000 will be raised, which will clear the debt from the new church to be opened a week from next Sunday and enable a start to be made on the construction of a new Sunday school and lecture room.

## IF YOU LACK STRENGTH Electricity Will Restore It

I have a remedy that cures while you sleep. No poisonous drugs to swallow. No weak stomach or digestive troubles due to drugging. This remedy is Nature's medicine—electricity.

The only way to cure anything is to help Nature. Nature will cure when she has the power. That power is electricity. Feed it to your nerves, and they will absorb and carry it to every organ and tissue of the body, where it gives health and vim to every ailing part.

The reason "drugs" don't cure is because they do not assist Nature. Nature needs nourishment, strength, something that builds up. Drugs contain no nourishment, no electricity, not one thing that builds vitality—just poison, which tears down.

My way is the best way of applying electricity. It's the only method that has proven successful. I've had twenty years' experience in treating disease with electricity, and I know more about it than any other doctor on earth. My Electric Belt is the result of this twenty years' experience.

My Belt is applied while you sleep. It sends a constant stream of electric life into the nerves and vitals all night long.

Electricity is a great success. It has cured people all over the Dominion whom drugs had failed to benefit.

The human system is an electro-chemical battery, and the life principle is electric.

The electrical age is here. Drugs are hard hit on all sides, and an intelligent physician tells me that he has almost entirely stopped their use.

"The word health now means a normal supply of electricity in the body, and the word disease means an insufficiency of that power."

BATH, ONT.

"Some time ago I purchased one of your best Belts for a weak back. My back was also very sore, but your Belt cured me completely, and I am very pleased to recommend it to anyone suffering from weak or lame back."

ROBERT MOTT.

MR. HENRY FAUST, Fordwich, Ont., says: "I have worn your Electric Belt according to directions, and am pleased to say it has done all—and even more than you said it would. I have recommended it and will recommend it to others."

You put on the appliance at night when you go to bed, and take it out in the morning; all night long it pours its life-giving current into your weakened nerve cells. You begin to realize the benefit at once, and as your nervous system becomes invigorated at the functions of your body improve—the blood circulation and the action of all the bodily organs.

My Belt has proved a complete and permanent cure for Nervousness, Headaches, Sleeplessness, Neuritis, Indigestion, Constipation, Rheumatism, Lumbago, Lame Back, Sciatica, General Debility, Weakness of the Kidneys, the Liver and all the organs of the body. My Belt overcomes every sign of weakness in men and women. It builds up the nerve power and gives vim and vigor to the whole system.

Then here's a remedy that is a remedy! It's Nature's medicine!

FREE TO YOU!

If you can't call, cut out this coupon and mail it to me to-day. I will send you my 34-page book, together with price list, prepaid, free. Address and consultation free. Call if you can.

## FIVE MILLIONS FOR HARBOR SCHEMES

Improvements to Ashbridge's Bay Call For Large Expenditure and Include a Channel Capable of Accommodating Largest Lake Steamers—Many Industries Coming.

The Toronto Harbor Board are now considering four alternative plans for the laying out of Ashbridge's Bay district. These plans, which have been prepared by Harbor Engineer Cousins, include a three hundred foot channel from the bay, with a depth of 24 feet, and capable of accommodating the largest lake steamers.

The commissioners held a three-hour session yesterday afternoon, at which the different plans were considered, but as the Ashbridge's Bay improvement will entail an expenditure of five million dollars, the board decided not to make any decision until the matter had been further considered. It will be considered and some action probably taken at a meeting of the board to be held next Tuesday.

The commission have already a list of manufacturers who have signified their intention of taking sites when the development work is finished. Negotiations are also underway for the securing of a large steel industry, at which mine ores from Northern Ontario would be treated, being brought direct by water from the mines to the works.

## HIGHER WAGES CHARGED CITY

Contractors Admit That Pay Was Boosted and Increase Billed to City—Fellows Denied Knowledge.

When the intake enquiry was resumed by Judge Winchester yesterday, evidence was given to show that the contracting firm of Miller, Cummings & Robertson had boosted the wages of the men working on the repair work, and the increases had been charged to the city. This, according to the contract, was justified owing to the fact that the firm were liable to lose money on another city contract. Considerable time was spent in examining the books, letters and other records with reference to the work done on the contract. It was claimed by the contractors that Engineer Fellows had verbally agreed to these increases, but this Mr. Fellows denied.

At the afternoon session Rutherford Cummings, the contractor, was put into the box.

C. L. Fellows, city engineer, was then put in the box.

"The only time I made a verbal agreement," he said, "with Mr. Cummings whereby greater amounts of time were to be allowed than were actually put in was in the case of two men when we took the matter before the chief engineer and got his consent."

Mr. Drayton: "Was there any instruction given by you or the chief engineer whereby an excess of time was to be charged the city?"

"No, sir."

Mr. Fellows denied any knowledge of overcharges to the city, nor had he any agreement with Cummings as to materials used.

G. H. Kilmer, K.C., produced two letters to Mr. Fellows, telling of an arrangement between him and the contractors which Mr. Fellows explained he did not repudiate, because it never occurred to him to do so.

Mr. Cummings, in the box again, stated that at one time machines rented to carry on the work were charged to the city with the usual twenty per cent. added to that again.

Sydney Fellows testified that he had sold considerably supplies to the contractors in his capacity of commissioner. He stated that the contractors were in no case paid any rebate.

The enquiry was then adjourned till 10.30 this morning.

OTTAWA, June 4.—(Special.)—The letting of the contracts for the construction of the Welland Canal may be delayed till late this fall or perhaps next winter. It is now being practically decided that, owing to the magnitude of the work and the part of the government to secure even fuller statistical and detailed information regarding the understanding, nothing in the way of commencing work will be begun for the present.

It is practically certain that no contracts will be let, at least not until the early winter and in this case the work of construction would not commence till the summer of 1913.

## WELLAND CANAL TO BE DELAYED

Pictureque Lehigh Valley Route to New York and Philadelphia.

The Grand Trunk is the only through line in connection. Trains leave Toronto 4.32 p.m. daily, carrying electric-lighted Pullman sleepers Toronto to New York and Buffalo to Philadelphia. # The New Lager They're Talking About

In cafés, in hotels, in clubs, in homes, people are talking about Kuntz's Old German Lager. It was expected this new lager would create a sensation. But the furore it has caused has surprised its most enthusiastic backers.

## Kuntz's OLD GERMAN LAGER

### Very Refreshing

Kuntz's Old German Lager is an exceedingly fine-flavored light lager. Brewed by the expensive Old German Process from the best Canadian barley, highest-grade Bohemian hops, and pure, crystal water from the celebrated Kuntz springs, it surpasses even the famous light German lagers of the Fatherland. Many people, with a wide knowledge of lagers, say that the world's finest lager is now made in Canada by the House of Kuntz.

Try a bottle of this invigorating light lager. You'll feel greatly refreshed. And it will do you good. Kuntz's Old German Lager is a liquid food. A wholesome, palatable, easily-assimilated lager. A benefit for most everyone. Especially good for nursing mothers and convalescents.

Bottled only in Peacock Green bottles at the giant Kuntz breweries at Waterloo. See that the seals are unbroken.

# Kuntz's ORIGINAL LAGER

## A Great Reputation Order a Case or Two

Kuntz's Original Lager enjoys a great reputation all over the Dominion. It has been brewed for sixty years by three generations of the House of Kuntz at Waterloo, Ontario. Millions of bottles of this celebrated beverage are filled annually at the brewery for the enjoyment of the Canadian public.

of Kuntz's Original Lager, and one or two of Kuntz's Old German Lager, delivered to your home. Liquor dealers most everywhere in Canada sell Kuntz's Products. All the leading hotels, cafés, and clubs serve them. Kuntz's Beverages are popular wherever good lager is enjoyed.

### Kuntz Brewery Limited Waterloo

WHY WARM AIR HEATING IS BEST

"DEAD AIR IS BAD AIR"

There are comparatively few houses built with any provision for regular ventilation beyond that afforded by doors and windows, and these cannot be left open ALL the time during the winter. Yet the impure air in the different rooms must be constantly carried away. PEASE WARM AIR FURNACE properly installed, changes the air constantly. The warm, fresh air is forced up through every open register and the stale, cool air being drawn out by suction and natural gravitation through the cold air pipes.

Our books, "The Question of Heating," or "Boiler Information" sent free on request.

ASK THE MAN WHO HAS ONE.

PEASE FOUNDRY COMPANY, TORONTO, ONT.

## TOO MUCH STYLE CAUSE OF BREAK?

Collapse Caused by Compression of Basement Arches, the Theory of Mr. Hayes.

The enquiry into the cause of the collapse of the south wall of the Neilson factory was continued at the morgue last night.

That the windows specified by the city architect's department as the ones to be blocked in, were not always in the weakest part of the wall, was the contention of Major Beckett, who prepared the plans for the Neilson building, to Lally McCarthy, K.C. Two apertures at the strongest point of the north wall had been ordered closed, when two in the centre would have reinforced the rest of the wall in a better manner.

Mr. Hayes, a builder, was called to the stand after a letter had been read by the coroner, asking that he be given a chance to advance a theory as to the

cause of the collapse of the wall. In his opinion, the break started at the basement arches. When laying the brick above these arches, the bricklayers always trim them to a fine point, so that it will give the wall a finer appearance from the street. The space behind the bricks, which is made by this trimming process, is filled with mortar, and Mr. Hayes thought that the compression caused the wall to give at this point.

In answer to a question by Coroner Dr. Ellis, City Architect McCallum admitted that if he was constructing the Neilson building again, he would make a complete tie on each floor before the next storey was started. Instead of waiting until the roof was put on, the enquiry will be resumed to-night at 8 o'clock.

BRITISH BLUE JACKETS DESERT.

QUEBEC, June 4.—H.M.S. Cornwall has lost 20 of her crew since she came to anchor in the harbor of Quebec. No fewer than a dozen deserted on Sunday night, to the chagrin of the ship's officers.

WILL BANISH GRADE CROSSINGS

MONTREAL, June 4.—Sir Donald Mann, who was in the city to-day, discussing the Canadian Northern Railway plans, announced that all the trackage passing thru the model city to be created by the company behind the mountain at the further end of the tunnel would be depressed and that there would be no grade crossings.

# Successful Opening of Circuit Harness Races at Dufferin

## Note and Comment

The weather favored the Dufferin Driving Club for the opening of the circuit meeting at Dufferin Park yesterday, and those who attended were rewarded by seeing three good races, the stakes going five heats. As predicted, Toronto horses took the honors, except in the 2 1/2 mile race, in which the Montreal performer, Today, should see a big crowd turn out. The card is again a good one, made up of three exciting events.

Now is the time for the grandstand managers to speak out. There are dozens of them giving advice which may be heard and strike the winning combination. The Leafs were not the only home team to lose yesterday. Look at Montreal and Baltimore. In fact, Newark was the International club to win yesterday on its own back yard.

A roofer in the right-field bleachers did a little knocking on his own account. He looked aloft and moralized: "Those guys in that penicop may be mites but they go to the top when the wind blows. They can't see when this is their fault." And Duff went out to bat, closing the innings that yielded Buffalo five runs.

It was suspected on Monday that the Bisons were stealing the Leafs' battery signals. The suspicion was verified yesterday. On 21 occasions the Leafs worked just what was coming. See the box score.

Officers of the Toronto Baseball Club shadowed a wise looking old-timer in the grandstand yesterday, and found that he was only a scout from one of the major league teams studying the Leafs' system of switching the outfielders when the enemy uncorks a left-hand pitcher. He probably thought it was great, but didn't say so.

Last week President McCreary wired to six major league clubs offering to buy one of their seasoned catchers for \$500 cash. He received no answers, that kind of backstops being not on the market. The best he received was from the Cardinals, who was not required to answer. Any way, Higgins, Fisher and Wilson might be worse. Did anyone see Wilson work for the Bisons on Monday. Schang does not throw to second. He carries the ball down. H. Schang, who is playing for the Leafs, should steal enough bases to even up the series, providing they get on.

Derby Day Bill Clymer is a fortunate victor in the city, reading Toronto too late to see yesterday's game. He is looking for pitchers, and may make an offer for Rudolph and Maxwell.

A baseball bug from Kincardine made the trip to Toronto on the King's birthday at the special request of his friend to see the Leafs at play. Letters from the city had told about the prowess of the home team in general and the slugging ability of Tim Jordan in particular. They watched their first world-classer which Toronto lost, and Tim failed to get a hit. Then in the second over he popped one thru to right field, but next time up he struck out. Any way, that's the lobster you tried to make me believe could beat the fences," said the north country bug in disgust at the end of the nod to go under the stand and cheer up.

Luther McCarty, who recently knocked out Earl Johnson, is expected to meet Al Kaufman in San Francisco on June 25. McCarty's manager is holding out for an additional 5 per cent of the receipts.

George Horine, the Californian College high jumper, who is the talk of the States, is only 57 inches tall, and Tim is able to clear a height eight inches over his head. He will perform in the U. S. tryouts at Eaton on Saturday.

## School Basketball

### Givens Beats Ryerson

The Givens last night in a very fast game of basketball. In the latter half the score was 44 to 31 in favor of Givens. Team scored 2 baskets, making a total score of 33 to 31. The Givens team have a very bright future in the championship, as they only have two more games to play and have not yet lost.

The Givens line-up: G. Brierly, G. Kelly, forward; V. Mackie, center; Crawford, left wing; B. Wright, right wing; F. McDonald, G. McDonald, defense. A. McCaffrey played second-half in McDonald's place. A large crowd of pupils and spectators witnessed the game.

## Lacrosse Gossip.

The Toronto Lacrosse League drew up their schedule last night as follows:

June 15—Broadways at Elms.  
June 22—Maitlands at Elms.  
July 6—Elms at Broadways.  
July 13—Elms at Broadways.  
July 20—Maitlands at Broadways.  
Aug. 10—Broadways at Elms.  
The age limit in this series is under 21 at May 1.

At Baltimore yesterday Toronto University lacrosse team by superior stick work defeated Mt. Washington 4 to 2. The score was 2 to 1 in Toronto's favor at the end of the first half.

The Elms lacrosse teams will practice every night this week in rear of Trinity College. The Junior city team play Maitlands on Elms grounds in the ravine south of the bridge on Harbour-street on Saturday afternoon.

And Finally the Bisons.

The Leafs and Bisons will clash in the last game of the series this afternoon at the island stadium at 3 P. Maxwell will do the pitching for the Leafs, while Stallings will select from Stroud, Brockert and Baxter. The seats are on sale at 117 Bay-street and 33 West King-street.

## Motorcycle Races

### Saturday, June 8th

2.15 p.m.

## EXHIBITION TRACK

Get your reserve seat tickets now at Mooney's Cigar Store, 33 King St. West, before the good ones are all gone.

Street cars run to the grounds.

Admission, 25c. Reserved Seats, 50c.

## FACE BUSTERS BUSTED BISON SCORE 13 TO LEAF 2

### Enemy Get 21 Hits Including Two Home Runs, While Our Boys Make Only Twelve—League Scores.

It was but an easy canter for Buffalo to win the third game from Toronto yesterday afternoon. The Bisons had a merry picnic with all the accompanying trimmings with the pitchers who essayed to stem the tide for Toronto and made such a sorry mess of it. Bachman started out, and after the herd had tallied two in the first on two doubles and a single he was replaced by Steele. The big fellow held the bats one run for three, and in the fifth three singles, a double and a home run, made it three, and in the sixth they made it a rout. After one was gone, Dalton nudged Jameson's fly after a run. Steele hit safely, but Truesdale forced Jameson at third. Then came two singles, one double and Jones' home run, and just to make it a baker's dozen for good measure Blues dropped another into the Bisons' right centre.

The Leafs were completely outplayed, and put up a hellish game through. They hit the ball hard enough to win an ordinary game, getting an even dozen runs, but they were made up of their total tallies. These games in the third, Holly and Fischer led off with safe hits, and the former scored. Steele followed with a Texas Leaguer in right. The latter was forced by Meyer, who was later called for a second. Fischer having scored on the force out, Dalton nudged the ball into the hole, and the eighth, but Jordan spoiled it by hitting the pitcher. In the first part of the sixth, after the five runs were scored, Fischer hurt his finger severely with a ball hit up the bat and sent to right. McCallister in right centre, and Higgins caught a couple of innings, and Wilson caught the last.

FOUNDED 1850. A Morning Newspaper Published Every Day in the Year. WORLD BUILDING, TORONTO, 40 WEST RICHMOND STREET. TELEPHONE CALLS: Main 598 - Private Exchange Connecting All Departments. \$5.00

will pay for The Sunday World for one year, delivered in the City of Toronto, by mail to any address in Canada, or for sale by all newsstands and newsboys at five cents per copy. Postage extra to United States and all other foreign countries.

Subscribers are requested to advise us promptly of any irregularity or delay in delivery of The World.

WEDNESDAY MORNING, JUNE 5, 1912

CHEAP MONEY FOR FARMERS

The bankers in the United States are waking up to the fact that men who have to pay fifty or one hundred dollars per acre for land cannot struggle along and make a living as did their fathers and grandfathers who got better land from the government for nothing. They are also realizing that the farmer who grows grain continuously and sells it all is impoverishing the land and will soon be an undesirable customer. They are also realizing that people will not stay upon the farms under the conditions that prevailed fifty years ago; they must have free mail delivery, telephone service, books and newspapers and up-to-date garments.

Hence these bankers are organizing to loan money at low rates of interest to the farmer. He is to be assisted in changing his methods so as to enrich the land instead of impoverishing it, and to get a financial return for himself and his family commensurate with the earnings of a father, mother, two or three sons and three or four daughters, all at work in a city, living in the same house and putting what they earn in a common fund.

In short, the urban population in the United States is beginning to realize that the rural population who produce the wealth of the country must retain enough of that wealth to live comfortably or they may slip from under and involve town and country in a common disaster.

Our farmers are accused of being improvident, but conditions have contributed to make them improvident. A farmer will have a sale in the fall and dispose of his horses, cattle, chickens, etc., at public auction. After feeding the country and paying the auctioneer he will find himself in possession of a lot of sales notes, all of them backed by neighbors who are good for the amounts, but falling due six, nine or twelve months after date. These he discounts at perhaps thirty per cent. of their value. He goes to another sale the next spring and bids in the same or similar horses, cattle, chickens, etc., giving in payment therefor his own notes, endorsed by neighbors who are good, and these are also discounted by the vendor ten per cent. less than their face. Both sets of notes bear interest, and at the end of the eighteen months about thirty per cent. of the net profits are in the hands of the man who did the discounting. This performance repeated annually results like a poker game where the same man sits in long enough; eventually all the chips go to the "Kitty."

More farmers are ruined by high interest and heavy discounts than by fire, rust, drought, frost and potato bugs combined. The banks should give the farmers a lower rate than any other class in the community. This is the rule in Europe, and it should be the rule here. It will be the rule soon, even though the government is compelled to put the banking business of lending money even as the banks have gone into the government business of issuing money.

WHAT PRIMARIES MEAN

Within three months President Taft has ceased to be a possibility for reelection and Theodore Roosevelt has become the leading presidential candidate. If Mr. Taft is nominated at Chicago he cannot be elected. Mr. Roosevelt will be nominated, but his defeat for nomination would by no means prevent his election. If he receives the nomination at Chicago, there is scarcely room for doubt as to the result in November.

Three months ago Mr. Taft controlled the federal patronage, the Republican national committee, the Republican organization in practically every state east of the Mississippi River; Mr. Roosevelt, on the other hand, was a private citizen, not in touch with the party machine in the various states, opposed by all the big city newspapers and with the die loaded against him in the Southern States.

the absence of any Taft supporters in states like North Dakota and Nebraska, demonstrated beyond peradventure the inability of Mr. Taft to be re-elected if nominated, and in all probability has saved the Republican party from the hopeless disaster which would have followed upon his nomination. Twenty years ago President Harrison was renominated by the politicians, because twenty years ago the politicians did the nominating for the people. The dissatisfied Republican voters defeated Harrison at the polls. Had they been allowed to express their preference at primaries, the Republican party would have carried the election.

The primary plan is sound in principle. It permits the rank and file of the party to choose the party's candidates and thus enables every voter to take a real part in the election. Here in Canada, as almost everywhere else, the voter on election day is handed a ticket containing the names of two men. It is idle for him to protest that neither man in his opinion should be elected; he must vote for one of the two or get out of the booth.

In practice we know that men have sat in parliament for years because the people had no opportunity to supersede them by more representative men. A Conservative from Ontario or a Liberal from Quebec might have a constituency which could be counted upon to support the party candidate, and he would be named as the party candidate term after term by the executive or by a convention called unexpectedly and long before it was necessary.

True, our present methods result very often in excellent nominations, but none the less the voters of the party should choose their own candidate. We recall that in 1907 the five sitting Conservative members for Toronto were nominated in midsummer by a slimly attended convention, suddenly called a year and a half in advance of the general election. Certainly the rank and file of the party were not consulted about these nominations, which were nominations made for the people, not made by the people. The people might have made the same nominations or they might have made others not so good, but they were not given the opportunity to do either.

The rising tide of democracy will cause the primary plan to be adopted in Canada whoever may support or oppose it. We believe it will quicken the interest of our people in politics, cause them to more closely scrutinize the record of their representatives and stimulate public men to greater activity in real service to the people.

LABOR CO-PARTNERSHIP

At the recent general meeting of the American Iron and Steel Institute, Judge Gary, chairman of the United States Steel Corporation, referred to what he considered ought to be the true relations between employers and employees. It is now recognized, he said, not only by students of economic conditions but also many of the greater minds engaged in industry, that the policy of co-operation is the true economic policy. Co-operation, in his view, means friendly, cordial, hospitable relations between all those who are engaged in like industry. In other words, it makes some advance along the line which is being increasingly taken by many of the leading public men and large employers of Great Britain.

In an instructive article in the Contemporary Review, Mr. Theodore Cook Taylor, M.P., whose firm is a large employer of labor in the woolen industry, declares strongly for profit-sharing and labor co-partnership. Writing from over thirty years' study of the subject and twenty years' experience of its operation, he holds that the system has been an unqualified success. It increases the employer's pleasure in his business and gives him a new zest in his work. On the other side, the workman has imparted to him a new and larger outlook in life and his sense of responsibility, his thrift, independence and self-respect are developed. He has more pleasure in his work because of personal interest in its result.

His firm of J. T. and J. Taylor of Bailey commenced the system of profit-sharing in 1893, applying it for the first three years to managers and foremen only. For the last seventeen years all employees have been included who have completed a calendar year with the company. The dividends have averaged about ten and a half per cent on capital and seven per cent on labor. In the twenty years the workers for the firm have increased from 800 to 1400 and nearly \$500,000 has been apportioned as their share. Summing up the matter, Mr. Taylor says that if an employer "is looking for a new means of making money or if he is obsessed by fear of the working classes and is only seeking to placate them, let him leave the system alone. In such hands it could not succeed. But if, while seeking good fortune in his business for himself, he sincerely desires to find it there, too, for every worker associated with him; if, in his common interest and that of the commonwealth, he is prepared to make some real sacrifice, he may or may not be the poorer in money, but his happiness will reap a rich reward."

NO TIME FOR DELAY.

The city council has virtually placed \$35,000 at the disposal of Corporation Counsel Drayton and authorized him to obtain expert advice on the transportation problem. Mr. Drayton has in mind a firm of experts in New York City,

DYSPEPSIA MADE HIM MISERABLE

Suffered Agony Until "Fruit-a-tives" Cured Him

Hundred of people gladly testify to the wonderful curative powers of the famous fruit medicine, "Fruit-a-tives." To those now suffering with indigestion, Dyspepsia or other Stomach Troubles, this letter of Mr. Sterling, the well-known real estate operator of Western Ontario, shows the way to a speedy and certain cure.

GLENCOE, Ont., Aug. 15th, 1911—"Fruit-a-tives" were so beneficial to me when I suffered with distressing Dyspepsia, that I wish to inform you of their satisfactory results.

Altho I have, in past, suffered agony with Dyspepsia, I am now in perfect health. "Fruit-a-tives" accomplished the desired result.

N. C. STERLING. "Fruit-a-tives" will cure every trace of Indigestion, Dyspepsia, Sour Stomach, Bloating, Pain After Eating, Biliousness and Constipation.

"Fruit-a-tives" is the only remedy in the world made of fruit juices and valuable tonics.

50c a box, 6 for \$2.50, trial size, 25c. At all dealers or sent on receipt of price by Fruit-a-tives Limited, Ottawa.

who, he believes, are big enough and experienced enough for the job. This firm should be employed as soon as possible, because as we understand Mayor Gregory's statement, the majority of the board of control agree with Mr. Drayton that he must go outside of Canada to obtain experts with sufficient experience and qualifications.

There is no room for delay in this matter; the problems to be dealt with are becoming every day more urgent. The aldermen have done all they can do, and it is now for the controllers and corporation counsel to act.

The Mail believes that all the urban and rural carlines now existing and which may hereafter become necessary, should be owned and operated by the city. We agree with this, and think the time is opportune. Existing lines, except those municipally owned, are controlled by a combination which may be inclined to treat with the city, if the matter is taken up in a business-like way. Never has expert advice been so urgently needed.

He gives twice what gives quickly. Mr. Drayton should make his recommendation and the man or firm recommended by him should be employed without delay.

THE OHIO CONVENTION

The Taft candidacy catches a glimpse of Indian summer before entering the final winter of its discontent, by the result in the Ohio state convention. Altho Colonel Roosevelt had a large majority of the popular vote and carried three-fourths of the congressional districts the delegates to the state convention were within their strict legal rights in selecting six delegates at large to the national convention who are friendly to President Taft.

This result will have little effect beyond the six votes involved, excepting so far as it may testify to the ability of A. L. Vorys and the Taft leaders in outwitting Mr. Roosevelt's young lieutenant from Toledo, who seems to have held the cards while his opponents took the tricks.

BRITISH PARLIAMENT'S HUGE PROGRAM

LONDON, June 4.—(C.A.P.)—Parliament reassembles today after the Whitsuntide holiday. It is admitted that the program awaiting digestion is truly gigantic and there is talk of dropping the Welsh Disestablishment bill. Altho this is certainly far from a popular measure with many supporters of the government, yet it is extremely doubtful if the ministerialists dare drop the measure.

THIRTY DROWNED IN FRASER

WINNIPEG, Man., June 4.—Thirty people from near St. Paul, Minnesota, who were prospecting along the G. T. P. construction in the mountains, are reported to have been drowned while crossing the Fraser River on a raft and in rowboats, they all being caught in the raging current.

INVESTMENT vs. SPECULATION

"A high return should at once excite suspicion in the mind of the prospective investor."—Financial Post.

EXPERIMENT AT WELL NOT A SUCCESS

Board of Control Ordered Another Test at Which an Engineer Will Be Present—Taxpayers May Be Asked to Vote on Question of Taxing Land Values.

As a means of increasing the city's water supply the experiments in sinking test wells at the island have thus far proved unsatisfactory. Joseph Harvey, the well expert, who is undertaking this work for the city, reported to the board of control yesterday that the first well had been sunk 282 feet, and that there was no hope of getting water below the first 40 feet. "A well 30 feet in diameter and 35 feet deep would," he claimed, "probably give you from three to five million gallons per day." In view of this the controllers agreed with Mr. Harvey that the outlook was not promising as a result of the first experiment, but another test was ordered to be made at once.

According to the report a large quantity of water from a depth of 16 feet, in which distance the soil was largely made up of sand and gravel. The water coming down to 40 feet, but from that point it becomes finer and is mixed with clay to a depth of 170 feet. The next 20 feet is composed of clear, fine sand, and from that point on there is white clay, with no water.

Wants an Engineer. Ald. Yeomans who suggested the island scheme, was present and urged that a competent engineer be associated with Mr. Harvey for the second test. He contended that if the scheme were endorsed the board of control could not be held responsible for the expense of the test.

The board agreed with the suggestion and to have the officials report upon the feasibility of the proposal. The population of the island district had an area of between 600 and 700 acres, and that the population was about 100. The territory was divided into two sections, one of which was to be acquired, they claimed, since it had nearly all the improvements necessary to make a residential district.

Runnymede Annexation. A large number of residents from the Runnymede district, headed by Dr. J. Dow, S. Clouston and Ald. Ryding, are opposed to the annexation of the city. The board, however, decided to have the officials report upon the feasibility of the proposal.

Taxes on Land Values. A letter was read from K. W. McFarlane, secretary of the Ontario Land Value Association, asking that the city council give some expression of opinion on the subject of taxing land values at a higher rate than improvements wherever it was adopted, and the latter further stated that if the Ontario Assessment Commission had not had an area of between 600 and 700 acres, and that the population was about 100, the territory for the city to acquire, they claimed, since it had nearly all the improvements necessary to make a residential district.

Too Much Noise. Rowan Jones & Somerville, barristers, wrote to the board protesting against the noise from the street railway's compressed air boxes for the purpose of Mr. McFarlane's letter to the city council.

To Increase Staff. City Architect McCullum's request for two additional engineers and three more inspectors to be secured for his department was granted and the board reported funds to the extent of \$4000 for this purpose.

FUTURE FIGHT AGAINST DEATH. NORTH BAY, Ont., June 4.—(Can. Press)—Despite the constant attendance of four physicians, and an operation performed by a Toronto specialist, who was brought up on Sunday by a special train, Mrs. W. Ferguson died in Victoria hospital at 1.30 this morning.

Her parents, Mr. and Mrs. Bishop L. Parks, of Toledo, Ohio, who came to North Bay on their first visit to their daughter since her wedding in Toledo, June 14, 1911, will take the remains back to that city for interment.

Bedlam in House But Bills Passed. BUDAPEST, HUNGARY, June 4.—The deadlock in parliament was broken today by Count Tisza, the new president of the lower chamber, who so successfully disarmed the noisy oppositionists that the government was able to carry its defence bills thru all stages at a single sitting. The tumult was terrific. All the members of the opposition were supplied with whistles, trumpets, rattles or other instruments of the most discordant character and kept up an ear-splitting din.

## SOLECY

A fashionable wedding took place at St. Mark's Church, Niagara-on-the-Lake, yesterday, when Flora Evelyn, daughter of the Rev. C. Garrett and Mrs. Garrett, was married to Mr. Virvan Macdonald Dunlevie of Ottawa. The ceremony was performed by Bishop Clark, assisted by the bride's father, who also gave her away. The church was beautifully decorated with masses of mauve and white lilacs and hawthorn. The choir was in attendance. Mr. E. W. Phillips of St. George's Church, Toronto, played the wedding music. The lovely bride wore a simply made gown of ivory satin with a court train trimmed with limerick lace caught with lover's knots of pearls, a family heirloom over one hundred years old. The tulle veil was arranged with a bandeau of pearls, and a spray of lily of the valley on her dark hair, and she carried a bouquet of lily of the valley. The bridegroom's gift was a traveling bag with magnificent fittings of ivory and silver. Miss Ethel Dickson was maid of honor, and the bridesmaids were Miss Gladys Edwards and Miss Mary Russell of Buffalo, all three in white marquisette with shiny lace insertion and white hats and coats of mauve, blue and pink chiffon respectively. The hats trimmed to match. Miss Dickson carried mauve roses; Miss Russell pink, and Miss Edwards a bouquet of forget-me-nots. Each received a monogrammed card case from the bridegroom and silver match boxes were given to the best man, Mr. Alan Dunlevie of Quebec, and the ushers, Cyril Watson, Chas. Saxo, Niagara Falls, N.Y., and Thomas Logan of Ottawa. After the ceremony, a reception was held at the rectory, where the rooms were profusely decorated with flowers, and the bride's table, was centered with the cake and decorated with flowers. The bride was wearing a gown of ashes of roses satin with rose point lace, a black plumed hat, and carried a bouquet of pink roses. Mrs. Dunlevie, in black, Mr. and Mrs. Dunlevie left to spend a month at Blue Sea Lake, after which they will live in Ottawa.

### The Daily Hint From Paris

### Silk and Lawn Combined.

The wearing of silk and satin jackets with lingerie gowns is one of the prettiest customs of the season. In the sketch a dress of embroidered lawn has for its trimming folds of tan colored chiffon taffeta, set on the edges of the flounces. Worn with the dress is a coat of deep teal colored foulard, lined with pale blue. The sleeves of the jacket are long and fit closely at the wrist. The closing is under a large ornament made of gathered loops of the foulard.

## MONSIEUR SOYER'S COOKING LESSONS

To prepare and cook twenty-eight dishes, using five gas ranges in the process, to lecture throughout the whole performance and to emerge from the ordeal spotless and unruined at the end of two hours' time, is the seemingly impossible task performed twice yesterday by Monsieur Nicholas Soyer in his "Kookers" demonstration at Association Hall.

On the platform of the hall are five gas ranges, behind them is a long table piled with dishes used for preparation of food and serving. To the left of the platform is another long table, on which are the different articles of food to be cooked, and on the right, a third, on which Monsieur Soyer works. But he uses what seems an incredibly small working space to the eyes of the young housekeeper, most of the table space being occupied by his material, salt, pepper, paprika, anchovy sauce, tarragon sauce, tomato catsup, capers, parsley, flour and the like; and the methodical arrangement of these is in itself a lesson to the young cook. M. Soyer uses the paper bag method of cooking, and if one may judge from the results obtained by this famous chef, it is an ideal way. For demonstrating, as we saw it, it is perfectly simple and practical, eliminating all odor, sputtering and pot-washing. All the food value is retained during the cooking, and there is no waste of material. Besides these advantages, the food is much more delicious when cooked by its own juice than when boiled, steamed or fried in water or grease. Certainly everything looked and smelled perfectly delicious. The ordinary housewife has been accustomed to this, but the ways of the high and mighty chef were not by any means so mysterious as we suppose. "If I were to come here to teach you," he said, "and showed you unattainable and difficult tasks, you would be the biggest fool on earth. But I don't. All you have to do is to use good stuff; fresh, clean and simple. Follow the directions and use the paper bags as described in my cook-book, and you can cook anything I can, and quite as well." Recipes are given clearly and concisely for every dish, including the lectures are exceedingly instructive and helpful.

## Eczema 25 Years Cured by "Cuticura"

### Leg Like Raw Flesh from Knee Down

"I have been treated by doctors for twenty-five years for a bad case of eczema on my leg. They did their best, but failed to cure it. My own doctor had advised me to have my leg cut off, but I said I would try the Cuticura Remedies first. He said, 'Try them if you like, but I do not think they will do any good.' At this time my leg was worse than raw flesh from the knee down, and I was in great pain. I bought a box of Cuticura Ointment and a bottle of Cuticura Resolvent. After the first two treatments the swelling went down and in two months' time my leg was cured. The doctor could not believe his own eyes when he saw that Cuticura had cured me and said that he would use Cuticura for his own patients. But for the Cuticura Remedies I might have lost my life. I am truly grateful for the wonderful cure that Cuticura brought and I always recommend it most highly as a sure and economical cure for skin troubles." (Signed) Mrs. J. B. Bessard, 277 Melonia St., Montreal.

## ASSEMBLY MEETS AT EDMONTON

Rev. Dr. McQueen Will Be Elected Moderator in Succession to Rev. R. P. McKay.

EDMONTON, Alta., June 4.—(Special.)—Rev. R. P. McKay, Toronto, retiring moderator, will call the 38th General Assembly of the Presbyterian Church in Canada in order to-morrow in the First Presbyterian Church. Dr. McKay will preach the assembly sermon, and Rev. Dr. McQueen, pastor of the church in which the assembly convenes, will be elected moderator. The assembly has supervision over 28,928 communicants and 22,887 Sabbath school teachers. The total revenue of the church last year was \$4,320,962.

## The Nursery

### GOOD IDEAS.

In order to keep the milk at the proper temperature while the baby is being fed a big will be found to be a simple and excellent device. It is made of flannel and should not fit the bottle too snugly. A hole large enough to admit the nipple is left at one end and double draw strings are put in the other end of the bag. The principal advantage of this device is that the strings are kept away from the baby's mouth and are out of reach of his hands. As the strings are at the bottom of the bottle they are sometimes useful in tying the bottle up to the side of the carriage or crib if one must lay the baby down to be fed.

## Phillips-Shaw Stock Open With The Wolf

Botham and Marlowe, and Percy Haswell, Three Days Each, Next Week.

"The Wolfe" the Canadian drama to be presented by the Phillips-Shaw Stock Company as their opening play at the Grand Opera House next week has never before been offered in this city at less than a dollar-fifty scale of prices, and as the story is an interesting one and the play an exceptionally fascinating one, it should attract large audiences to the Grand. During the summer engagement two matinees will be given each week, on Wednesday and Saturday, when one price will be charged—25 cents as any part of the house, and seats can be reserved in advance. The evening prices will be 50c and 25c, with a few rows at 75c.

## Botham and Marlowe.

At the Alexandra Theatre next week, for an engagement of three nights and a matinee, E. H. Botham and Julia Marlowe will be seen in their Shakespearean repertoire; and the plays to be presented, ranging as they do from broad farce to tragedy, will afford the two stars ample opportunity for the display of their undeniable versatility, while the dramas themselves are produced by the Phillips-Shaw Stock Company.

## Phillips-Shaw Stock Open With The Wolf

Botham and Marlowe, and Percy Haswell, Three Days Each, Next Week.

"The Wolfe" the Canadian drama to be presented by the Phillips-Shaw Stock Company as their opening play at the Grand Opera House next week has never before been offered in this city at less than a dollar-fifty scale of prices, and as the story is an interesting one and the play an exceptionally fascinating one, it should attract large audiences to the Grand. During the summer engagement two matinees will be given each week, on Wednesday and Saturday, when one price will be charged—25 cents as any part of the house, and seats can be reserved in advance. The evening prices will be 50c and 25c, with a few rows at 75c.

## Botham and Marlowe.

At the Alexandra Theatre next week, for an engagement of three nights and a matinee, E. H. Botham and Julia Marlowe will be seen in their Shakespearean repertoire; and the plays to be presented, ranging as they do from broad farce to tragedy, will afford the two stars ample opportunity for the display of their undeniable versatility, while the dramas themselves are produced by the Phillips-Shaw Stock Company.

# Real Estate and Building--News and Opportunities

## LEARN THE TRUTH ABOUT WELLAND

### Opportunity

You can take advantage of the growth of the fastest growing town in Ontario if you will. You can buy a piece of property in the section where the workmen of the factories that locate in the Northern Factory District of Welland will have their homes. You can buy this property now while the price is low and profit by the increase in value that will come with Welland's growth.

### Rosedale Lots

\$100 upwards. 10 per cent. to 15 per cent. down. \$5 to \$10 per month. No interest. No taxes for one year. Free deed in case of death.

Call, Phone or Write for Information.

The Laughlin Realty Limited  
32 Adelaide St. East, - TORONTO

Phone Main 6086--Next to Post Office--Open Evenings From 7 to 9.

Brokers Queen West Are Busy Is Active

Realty agents generally report that few very large deals are on the way, but that there are a great number of small central and business properties changing hands.

The summer weather has not yet had much effect on central transactions. In a month or so agents who will be finding it difficult to keep principals together as the allotment of summer resorts will take them away.

House properties are selling well. The amount wanted down is about the same as usual with no great increase expected, although the number on the market at the end of the summer will be less than last fall according to builders and realty agents.

The demand for houses to rent is not quite so insistent as earlier in the year. Brokers have very few houses for rent on their lists, although a large number of furnished houses for the summer months can be had.

Agents as a rule are quite satisfied with the situation from a personal point of view. Conditions, they report, are very bright.

**Year for Connors.**  
James Connors, who was caught at midnight at the head of the stairs in W. J. Suckling's house at 171 East Bloor-street, was sentenced to one year in the Central Prison by Magistrate Denison in the police court yesterday.

Considerable buying and selling of property along the south side of West Queen-street from Niagara-street east to about John-street is reported to be going on at the present time. Jewish speculators are responsible for much of the activity. The property is low-priced in comparison with that on other business streets and lately there has come a tendency to regard the south side of Queen-street as a good store proposition. Several new stores have been built and a great many old stores remodeled on the south side of Queen-street.

### SWIFT CURRENT GROWING FAST.

Thomas E. Brackin, local manager of the Scott, Hill Co. of Winnipeg, who has offices here in the Kent Building, has just returned from the west on a visit of inspection. He visited all the larger cities and found everywhere great activity and anticipations of good crops in every district. One place that impressed him particularly as a corner this year was Swift Current, which has not yet enjoyed a boom, although going ahead like its name.

Fire insurance is said to have originated after the great fire of London in 1666.

## CARLINE CITY LOTS

There's no place in Toronto where you can get such good building or investment property as we are offering now in

## GLENMOUNT AND KINGSMOUNT PARKS

## UNION STATION WORK STARTED

Gang of Laborers and Surveyors Commenced to Clear Away Debris and Take Levels.

A gang of workmen and surveyors started preparations for the new Union Station between Bay and Lorne-sts. yesterday morning. The workmen are removing the debris in order that the surveyors may take levels.

Chief Engineer Safford, who was in the city from Montreal yesterday, had a long conference with Engineer Ambrose, who has charge of the grade separation work in the west end, stated that although he could not disclose the plans, the new station, to be erected would be one of which the City of Toronto will be proud.

"We are getting together on the preliminary work," said Mr. Safford. "All the work will be handled from Montreal, but Mr. Ambrose will be the associate engineer, and will be quartered here. The railway board approved the general lay out, but the architectural side of the matter is now being planned. It is the company's desire to rush the work as rapidly as we can get the plans prepared."

## BROWN BROS. BOUGHT ROLPH-CLARK FACTORY

It is learned that the Rolph-Clark factory on the west side of Simcoe-street, the sale of which was exclusively reported in The World two weeks ago, was bought by Brown Bros., wholesale stationers and paper dealers.

Albert Brown refused to discuss the deal yesterday. For the last month or so it has been understood in realty circles that Brown Bros. wanted to sell their present premises at 51 West Wellington-street and to secure a larger quarters. Possession of the Rolph-Clark building will not be given them for a year.

The purchase of the Rolph-Clark place is the largest factory deal so far as known, ever put thru in Toronto. The price was around \$230,000.

## Adelaide And Spadina Plots Sold

The following central sales are reported by William B. Frankish, Confederation Life Building:

The southwest corner of Spadina-avenue and Camden-street has been bought by J. R. Winters, of the corner of Spadina and King-street, at \$400 a foot on Spadina. The frontage is 85 feet, the depth 100 feet.

Gilber Bros. have purchased the property at 855-7-9 West Adelaide-st.

for \$21,000. The frontage is 70 feet, the depth 80 feet.

The sale for subdivision of the Bathurst-street frontage of the Muntz farm, just above Eglinton-avenue, is also going thru. It consists of ten acres.

## HEAVY TRAIN KILLED WIDOW

Mrs. Jane Drouillard, 83 Years Old, Drawn Under Wheels at North Toronto Station.

Mrs. Jane Drouillard, a widow, aged 83 years of age, who lived at 70 Birch-avenue, was killed by a westbound C. P. R. freight train at the C. P. R. crossing, opposite North Toronto station, about 11 o'clock yesterday. The unfortunate woman had been sent to pay a gas bill at the Dominion Bank at Cottenham and Yonge-streets. How she happened to get between the cars is unknown, as no one saw the accident. Operator Childs was standing on the platform opposite the scene of the fatality when he saw what he thought to be the body of a man being tossed in and out of the wheels of the last few freight cars. He ran up to the platform and signalled to the engineer to stop, but it was not until the rear of the train had cleared the woman's body by some thirty yards that the train was brought to a standstill.

The train was in charge of Conductor W. J. Carson of 223 Annette-street. The chief corner was notified, and an inquest will be held.

## CARE FOR INSANE

Hon. W. J. Hanna is Arranging for Temporary Quarters.

Hon. W. J. Hanna is making arrangements for the establishment of a temporary asylum for persons who suddenly become violently insane.

The attention of the Ontario Government has been called to the fact by Dr. W. A. Young, that once the asylum buildings on Queen-street are torn down for the railway tracks, temporary quarters will be required for such insane persons prior to their removal to Whitby.

## DEFEND MR. COBURN.

## CHICAGO MARKET KEEPS EYES ON WEATHER MAP

### Sentiment Ruled Entirely by Growing Conditions in Kansas and Nebraska—Wheat Closes at Small Advance—Corn and Oats Higher.

CHICAGO, June 4.—Sprinkles of rain today at scattered points in Nebraska and Kansas disturbed to some extent the confidence of wheat bulls who have been acting on reports of severe crop damage, the result of heat and drought. In consequence, the market, although closing with a net gain of 1/2 to 3/4 to 1/2, had a rather weak tone. Corn closed at an advance of 1/2 to 3/4, and oats dealer by 1/2 to 3/4 to 1/2.

### Corn and Oats Firm.

Corn scored a good advance on improved shipping call, lighter offerings, and because the large shorts were the most persistent buyers. Illinois reports mentioned much replanting, due to poor germination and to cut worms.

### Northwest Receipts.

Receipts of wheat at northwest primary points, with usual compresses, are as follows:

	To-day	Week	Year
Chicago	223	423	267
Winnipeg	223	423	267
Minneapolis	74	89	100

### European Markets.

The Liverpool market closed to-day on Monday, and on Tuesday the market was unchanged on wheat. Berlin 1/2 lower.

	To-day	Week	Year
Wheat	223	423	267
Receipts	223	423	267
Shipments	223	423	267

### Winnipeg Grain Market.

Wheat—Open High Low Close. Prev. July 105 1/2 105 1/2 105 1/2 105 1/2

### LIVERPOOL GRAIN EXCHANGE

LIVERPOOL, June 4.—The market opened with shorts covering, which resulted in an advance of 1/2 to 3/4 to 1/2. The market was unchanged on wheat. Berlin 1/2 lower.

### The Drought in Kansas.

A Kansas wire says: "What has been defined as the worst drought in Kansas history is turning brown; heading out eight inches high, and small heads.

### Crop Outlook in Dakota.

North Dakota crop report says: Although not without exception from all parts of the state, reports of ideal crop conditions, both as to acreage and to yield, are being received.

### ST. LAWRENCE MARKET.

Receipts of farm produce were 15 loads of hay and several loads of dressed hogs.

### Market Notes.

Wheat, No. 1, bushel, \$1.15 to \$1.16. Rye, bushel, 85 to 86. Barley, bushel, 80 to 81.

### Seeds.

Prices at which re-cleaned seeds are being sold to the trade: Alsike, No. 1, bushel, \$1.15 to \$1.16.

### Liverpool Cotton.

LIVERPOOL, June 4.—Cotton futures closed at a regular decline. The market was unchanged on wheat. Berlin 1/2 lower.

### Hay and Straw.

Hay, mixed, \$24.00 to \$27.00. Straw, loose, 10 to 11.

### Fruits and Vegetables.

Potatoes, bag, \$1.50 to \$2.00. Apples, per bushel, 1.50 to 2.00.

### Dairy Produce.

Butter, farmers' dairy, 20 to 20 1/2.

## Broderick's Suits For Men—Many Easy Stages in Price—\$22.50 to \$45.00

Their variety should amply satisfy the man that prefers the lower priced end of the ladder when buying a suit.

But vastly more important than coming within a dollar of what you expect to pay, is the amount of QUALITY you buy at any of these prices.

The wide range of the season's new and approved fabrics is remarkable in every group.

ALUMINUM METAL AT HIGHER PRICES

European Manufacturers Renew Trade Agreement and Quotations Are Immediately Advanced.

A sharp advance in the price of aluminum abroad has followed the announcement that the large manufacturers of that metal in England, France, Switzerland, Germany and America have agreed upon a new convention, which is to put an end to the close competition and low prices which have been the rule for many years.

## INSIGNIFICANT MOVES IN THE MINING STOCKS

Circumscribed Trading in Precious Issues Not Fretful of Features—See-Saw Motion in Prices.

World Office, Tuesday Evening, June 4. Price changes in the Porcupine stocks in the local markets to-day were decidedly insignificant.

The public interest in the mining exchanges has been dormant for many weeks now, and with the market well on the way to drifting into the customary mid-summer period, when speculation dwindles down to small volume in the matured variety of events, there does not seem to be any prospect of a revival of activity such as characterized the last few months ago.

At the same time to-day the list showed a downward tendency, and this resulted in some recessions in the more prominent issues. Domes Extension dropped back to 23, Fraser opened at 15, Crown Chartered at 14 1/4 and others displayed a reactionary trend.

## DOMES SHIPS AGAIN.

By a Staff Reporter.—PORCUPINE, June 1.—A fourth shipment of gold bullion from the Dome Mines was made to-day—105 pounds—the bricks having been brought in last evening, making a total shipment of 373 pounds of bullion of a value of \$93,784 to date, as follows: April 25, 122 pounds; May 1, 118 pounds; May 12, 20 pounds, and May 31, 106 pounds.

More trouble has been experienced with the tube mills, the machinery having ceased to run through the July 11 fire, and yesterday the 40 stamps were closed down. Work was resumed to-day. It is said that ore to keep the mill running for ten years is blocked out. Charles Fox.

Roar of the Stamps Will Be First Indication of Inauguration of Production at Big Property.

By a Staff Reporter.—PORCUPINE, June 1.—But 40 stamps are to be used in the Hollinger mill, provisions having been made for this number in the construction of the building.

The mill which was burned on May 19 of last year was planned for 20 stamps, which are now installed in the new mill. Provisions for ten more were made in the new mill and these have been ordered, making a complement of 40 stamps in all. This is the full capacity of the mill, and no more could be added unless an addition to the building is made.

Every particle of machinery in the mill has been tried out except the stamps, and of course the dropping of the overhead tramway is about completed, and by Wednesday the ore bins will be filled. Only a small crusher and a grizzly will be used at the beginning of the year, also being planned. The only thing now holding up the starting of the mill is the delay in the arrival of a carload of repairs, which are expected to arrive in a few days.

Robins received the first time that the much needed material had at last been transferred to the T. & N. O. tracks, and would unquestionably be here by Monday, June 3.

No opening date is set, and the only announcement to be made that the Hollinger mill is in operation will be the roar of the stamps themselves. Two weeks delay has been caused by the non-arrival of material ordered months ago.

June 15, said Manager Robins to-day. A disintegration of the working mill forces has set in and already 150 help will be discharged. The whole mill force will be discharged by the closing of the mill work 75 extra miners will be set to work. Charles Fox.

## GOLD SHOWINGS AT VIPOND

Hurricane District in Quebec Looms Up as Good Prospect—Prospectors Scouring the Country.

HURRICANA (Klenawisk Lake), May 22.—(Special).—Your correspondent arrived at Smith's camp, at the southern end of the Klenawisk Lake, at the southern end of the Klenawisk Lake, at the southern end of the Klenawisk Lake.

Klenawisk Lake, where the gold discoveries have been made, is a large body of clear, deep water, everywhere navigable for small boats. The shores are well wooded with birch, poplar, spruce and tamarac, and are dotted with many islands. All together, it is an ideal situation for a gold camp.

Prospectors are heading for the Bell River country, lying to the east of the Klenawisk. Some very interesting formations are found there, and according to reports brought in results are promising.

### TIMISKAMING MEETING

The directors of the Timiskaming Mining Co. meet next week to take action on the dividend. It is expected that a regular dividend of 10 per cent. will be made this quarter. Since last fall, when the North Dome mine was made, the company has paid only one dividend of that of 3 per cent. made last quarter.

The result of the voting on the question of whether the North Dome mine should be held by the company or whether it should be sold, has not yet been made public, but it is understood that the polling has revealed a large majority in favor of retaining the property.

### INCREASED DIVIDENDS

NEW YORK, June 4.—Old Dominion Copper declared dividend of 12 1/2 per cent. for the quarter, an increase of 2 1/2.

### BUFFALO MINES DIVIDEND

The Buffalo Mines Company has declared the regular quarterly dividend of five per cent.

### ACTS QUICKLY ON CORNS, SORE FOOT LUMPS, CALLOUSE

It is a new wrinkle for Corns—a painless remedy that quickly removes the corn. Don't doubt it, this is a dead sure thing. Lifts them out quick—roots, skin, branches, no pain, no scars, no more salves or pads. Just apply Putnam's Painless Corn Extractor, 25c a bottle. Sold everywhere. Putnam's Painless Corn Extractor, 25c a bottle. Sold everywhere.

### DIAMOND DRILLING AT THE MONETA

SOUTH PORCUPINE, June 4.—A thousand feet of diamond drilling will be done at the Moneta, on the southern half of the property, to discover whether the formation, and Timmins-McIntyre vein system persists in that direction. The heavy overburden of sand and gravel, which has been a hindrance to prospecting, and diamond drilling has been resorted to. The work was started on the close of the last decision will be made as to the character of process to be used in the small mill to be installed during the summer and fall.

Big Increase in Bank Clearings--Toronto Market Irregular

MUNICIPAL DEBENTURES investor will pay the full 5% Special Circular on Request Wood, Gundy & Co. Toronto, Saskatoon, London, Eng.

BRITISH BANK PROFITS FELL OFF IN 1911 British banking interests shared during 1911 in the relative business prosperity of the United Kingdom, which would have been notable but for the strikes of the railroad employees and coal miners.

Another mysterious move in Western Traction Issue--Toronto Stock Market Irregular. Another batch of railroad reports for April disclosed further general losses. Other news of the day that was not without market influence included the determination of the federal authorities in Philadelphia to acquire into the price control by the sale of the railway to an American syndicate.

FINANCING OF NEW CHINA IS BIG PROBLEM Delays seem to be inherent in the loan negotiations between the Chinese Government and the banks of the six nations which are identified with the operation. Information as to further progress in closing the loan is scanty, but the advice is to the effect that the arrangements which were understood to have been concluded a fortnight ago, whereby the foreign financial interests were to advance the \$50,000,000 to China are to have supervisory powers over its expenditures.

GREAT BOOM IS ON OVER IN INDIA The London Economist notes that India's industries are in a state of transition from the old to the new methods. Enterprising capitalists, Hindus, Parsees, Mohammedans, Englishmen and Scots are expanding old industries and building up new ones. This year there is a great boom, and in spite of the recent expenditure there is congestion, and the rolling-stock of so many railways is in a state of shortage.

17 1/2-CENT COPPER NEW YORK, June 4.--Yesterday's advance in electrolytic copper to 17 1/2 cents general this morning. United Metals Selling Co., which yesterday sold at 17c, has advanced its quotation, and as a result the market is very firm.

G. T. R. EARNINGS MONTREAL, June 4.--Grand Trunk earnings, May 22 to May 31, were \$1,237,587, compared with \$1,341,847 for the same period a year ago, an increase of \$104,260.

MAKE YOUR WILL It is important that you make a Will--and just as important that you make it NOW. This Company is particularly well equipped with legal Trusts--under deed or will because of the undoubted security, effective management, constant supervision, continuity of service.
