THE TORONTO WORLD ONE CENT MORNING PAPER.

THE NAPANEE BANK ROBBERY.

If the Government and municipalities pursued criminals with the same determination and energy that our big financial and other corporations do, there would be fewer crimes to record. The large sum of money which it has no doubt cost the Dominion Bank to apprehend the men who committed the robbery in its Napanee branch on the prevention of crime generally. The public is sometimes disposed to view with disfavor the employment of Pinkerton detectives by these big corporations. As a matter of fact every dollar they expend in this direction is in the public interest. If the Dominion Bank has succeeded in apprehending the participants in this daring robbery, the perpetrators will merit the thanks of the public. In the light of disclosures which have just been made, the feeling of resentment against the bank which was manifested in the locality on the occasion of the arrest last year will be very encouraging. An unexpected effect has happened. The demand for anthracite is on the decline, and has been so for a few years past. The output for the first six months of this year was 16,000,000 tons, as against 18,000,000 tons for the same period in 1897. And notwithstanding this cutting down in the production, we are told that the market for anthracite has decreased to a still greater extent. The coal journals attribute the diminishing demand for hard coal to the increasing consumption of gas fuel for domestic purposes, in which respect anthracite, until lately, was considered indispensable. The leading authorities on the trade admit that the substitution of bituminous for anthracite coal in the east for manufacturing purposes is another controlling factor in the matter. The anthracite monopoly has apparently been broken up. The competition which it is experiencing to-day will be much more severe as time goes on. Notwithstanding the pessimistic predictions that have been made from time to time as to the limited supply of anthracite, the disappearance of cordwood and other adverse conditions, it is pretty safe to predict that the expense of heating our houses will be getting less from year to year. Instead of greater. If the price of gas in Toronto were to drop 10c or 20c per unit, the demand for anthracite coal in this city would speedily dwindle to comparatively small proportions.

CHEAPER FUEL IN SIGHT.

The prospects for cheap fuel winter are very encouraging. An unexpected effect has happened. The demand for anthracite is on the decline, and has been so for a few years past. The output for the first six months of this year was 16,000,000 tons, as against 18,000,000 tons for the same period in 1897. THE JOB SHOULD BE STOPPED.

The pavement on Papave Avenue is, no doubt, in need of repair, but it is the property owners of the street who should pay the bill for the work, and not the general ratepayer. We are glad to see that Ald. Saunders and the City Engineer have interfered and stopped the work, which had been sanctioned by the Board of Works. Insidious attempts are being made to get back to the old ward-gang-brother system. They should be strenuously resisted every time they make their appearance. It would only require a few precedents like the proposed grab for Papave Avenue to create a general stampede in favor of the old system. The tendency must be resisted.

CANADA FOR THE UNITED STATES.

The Michigan mills are all very busy this season cutting up Canadian sawlogs. Not only have they been unusually busy in the past, but the New York Times have found stock to keep them humming for the remainder of the season. The same authority states that about 100,000,000 feet of logs have been rafted across from Canada already this season, and fully 150,000,000 feet more are yet to come over during the season. Including the logs that go to Alpena, Cheboygan, Texas and Detroit, the receipts will exceed about 250,000,000 feet unless all signs fail. Logs are brought over very cheaply, the towing rate being only \$1.50 a thousand.

MORE THAN TIME FOR A CHANGE.

The Montreal Gazette makes the following trenchant observations about the Hardy coup. It will not form pleasant reading for the tricksters who are trying to subvert constituted authority in this province: "How important the question is to the men presently in power in the province is easily understood from the closeness of the result of the late elections. Not only did the Hardy Government lose many seats, including two held by its members, but in those which it retained or won the majority was so close that the throwing out of the votes of these paid election day constables will be sufficient to change the result, in no less than eight constituencies. These are South Perth, Nipissing, West Huron, Muskoka, East Lambton, South Norfolk, Lennox and West York. There were some narrow majorities for Conservative candidates, but it is nowhere pretended that election constables' votes made them up. Ontario election constables do not vote for Conservatives. With the constables' votes thrown out in the constituencies named, a majority of Conservatives would be elected, and Mr. Hardy would go.

THE WOMAN WHO NEGLECTS HER HEALTH.

The woman who neglects her health in a womanly way is making big mistakes on her account with the bank of health and will soon be a physical bankrupt. Disorders of the system, inflammation, checks, debilitating drains, and quickly subdues all other symptoms. It at once stops the dragging pains, the nervousness, the nervousness, the digestive disturbances and other complications that arise from the same cause. Taken during the months of expectant maternity, it banishes the usual discomforts and makes baby's advent easy and almost painless. It insures the new-comer's health and a plentiful supply of nourishment. Thousands of women have testified to its marvellous merits. A honest dealer will not suggest an inferior substitute for the sake of extra profit.

RIGHT TO SEAT IN THE LEGISLATURE.

questioned in the courts are to meet and vote that the law which endangers their position as legislators does not mean what it says. They are to usurp the functions of the courts for their personal and political advantage. They are to do the most dangerous thing—made unconstitutional in many states—pass a retroactive law, and in the meanest of purposes, partisan self-benefit.

THE SPECTACLE WILL BE A CURIOUS ONE.

A Government with a third of its members in the House is attacked in the courts by its constituents' non-confidence in them will meet a Legislature two-thirds of whose members are charged by the courts with having won their seats by bribing or other illegal means; and yet the House will sit and vote on the bill which will seek to pass an act of the Legislature to effect, take the cases from the courts and override the law. "Canadian practice has been unfortunately drifting away from the standard set in the land whose system of government we have adopted. Weak ministers are doing some things wrong and weak ministers have done others. Neither weak nor wicked ministers have ever attempted anything like this Hardy scheme. It goes beyond precedent, and almost beyond belief. If it should carry, the most dangerous precedent will have been set. The fashion of appealing to a majority of a Legislature to settle questions in dispute in the courts will have been established. It is more than time for a change in Ontario."

Peninsular Park Hotel.

The Peninsular Park Hotel, which is situated on Big Bay Point, Lake Simcoe, nine miles from Toronto, is a beautiful one of the coolest and most romantic spots in the northwestern country. The hotel is built in the midst of a park of 40 acres, with a view of the lake and the surrounding country. It is always a cool, fresh breeze blowing from the lake. The Peninsular Park Hotel is owned by Mr. McConnell of Colborne, containing 75 bedrooms, fine reception and drawing rooms, large dining and parlour, and a billiard room, and is well equipped with every comfort. Large lawns on every floor, with all modern improvements, and a first-class summer resort. Everything that goes to make a first-class summer resort is provided throughout with electric light. There is a bowling and tennis ground in the front of the hotel. There is a fine view of the lake, from which you get an excellent view of the lake, and the visitor is able to sit in a cosy room and enjoy the cooling breezes that at all times blow across Big Bay Point. The menu of the hotel is excellent, and the service is of the highest quality. The hotel is situated on a beautiful point of land, and is a most desirable place for a summer resort. ROBBERIES DEALT WITH.

This morning Magistrate J. J. O'Brien sent James Connell, Jackson-street, to jail for 30 days for resisting arrest on Saturday night, and ordered the prosecutor, T. C. Starnon, to prosecute James Sweeney, a well-known merchant, for not responding to a call for aid.

MARY VANDERBERG.

Mary Vandenberg, the girl who was brought here from Toronto to answer to a charge of kidnapping her child, was discharged to-day, but was renounced to jail until Child Trow of Ilionburg arrived. The girl has respectable parents. She ran away from home about a year ago.

THE REFUSAL OF FARMERS TO PAY TOLL.

The refusal of farmers to pay toll on the Guelph and Dundas road has been the means of opening up the whole question. The County Council Commissioners met on Saturday to consider whether or not to prosecute the toll-gate runners. They finally came to the conclusion to open the whole matter up and decide, if possible, whether or not the tollgates should be taken off the road.

SUNDAY CARS IN OTTAWA.

Ottawa, July 18.—At a meeting of the City Council on Monday evening, the council passed a resolution to take a plebiscite in January next for the running of street cars on Sundays.

AMONG THE SOCIETIES.

Queen City Camp, Woodmen of the World, met last night in Foresters' Hall, Queen-street and Spadina-avenue, when arrangements were made for an excursion to Ottawa on Civic Holiday. The Owl Club, Grand Master J. E. Lightfoot, Hamilton, assisted by Senator George Warden, J. L. Bryant, Hamilton, Union, at their meeting in Richmond Hall last night, decided to form a baseball team. The suits to be worn will have the well-known blue label worked on the breast, and all changes to be accepted in Temperance Hall last night, 18th Street, for their annual picnic to be held in Exhibition Park on Civic Holiday. This will be the first time in 35 years that this affair is to be held in the city. The sum of \$1000, benefit of the late Mrs. W. Dickinson, who died last Monday, was paid over to his widow on Saturday. This speaks well for the camp as a thorough business order. Three new members were added to the roll.

AT THE TORONTO.

Clever Presentation of Ten Nights in a Bar-Room.

The Beryl Hope Stock Company opened their last week's engagement before a fair-sized audience at the Toronto Theatre last night with a clever production of "Ten Nights in a Bar-Room." The piece has been produced here before and is familiar to Toronto theatre-goers. The story is that of a tender wife and the death of his only child, who dies from the result of being struck by a glass thrown in a drunken brawl. On her deathbed she exacts promises from her father to give up drink. The father, who made himself a drunkard, was a man of great talent. Little Mary, the drunkard's daughter, is a very respectable girl, a clever little child, whose acting reveals that of many an older actress. She speaks her lines well and the deathbed scene is cleverly shown. Others in the company worthy of special mention are Miss Corie Stevenson, Miss Sedley Brown, as Harver Green; and Thomas Ince, as Simon Sledge. The performance was a most successful one, and the last choice this season of seeing this clever stock company.

Charles McKenna Was Drowned.

The story in yesterday's World concerning the disappearance of Charles McKenna, 137 Bellows-avenue, of the Empire Hotel, proved to be true. His brother, Fred McKenna, accompanied him on the trip, says that he last saw him lying on a sofa in the room, and that he thought he was asleep. He went to the room and found him lying on the sofa, and was drawn under by the sideboard. Upon hearing of the accident the steamer was immediately stopped and a search instituted, but to no success, and after three hours later, the steamer was over three hours later, and a search is being made for the body. No news has been received of its recovery.

Will Visit Their Native City.

The London Old Boys completed arrangements for their return to this city this morning. The brass and bugle bands of the G.O.B., together with the orchestra, will accompany the party, which leaves for London early in the morning of the 20th. About 250 ex-Londoners will join the party at the station. The Mayor sent a message to the party, and the Mayor sent her to that institution at once. She said she was glad to hear that the party was coming to this city, and she was glad to hear that the party was coming to this city, and she was glad to hear that the party was coming to this city.

Public School Notes.

GUNBOATS ON THE

Don Dickinson Has Seen Washington-Lake Erie Eager for

Detroit, July 18.—The most magnificent of the Ruff-Hawken the United States and whereby each nation builds on the lakes only four gunboats, and armed with one each boat, has again been Don M. Dickinson of this city a brief to Washington on the lake ship-builders are to a season of depression of three years, and at the same time, the ship-builders will be rushed with orders for the new navy, which is second only to that of Great Britain. The piece has been increased to 20 battleships and 10 cruisers, besides smaller craft. The ship-builders think that the coast will not be able to look after the larger vessels being built on the lake. It would be a big thing for the ship-builders. The treaty could be giving six months notice, and the British Government is necessary before a fleet of gunboats could be sent down to the sea.
